On September 6, 2017, Digital Power Corporation (the “Company”) and Avalanche International Corp. (“Avalanche”) entered into a Loan and Security Agreement (“Loan Agreement”) with an effective date of August 21, 2017 pursuant to which the Company will provide Avalanche a non-revolving credit facility of up to \$5,000,000, for a period ending on August 21, 2019, subject to the terms and conditions stated in the Loan Agreement, including that the Company having available funds to grant such credit.

Previously, on October 5, 2016, November 30, 2016 and February 22, 2017, Avalanche entered into three convertible promissory notes with Digital Power Corporation (collectively the “Notes”). Each Note had a face amount of \$525,000, was sold to the Company for \$500,000 (for an original issue discount of \$25,000 for each Note), is due in two years and accrues interest at 12% per annum on the face amount of \$525,000. The Notes were convertible into shares of Avalanche’s common stock based on a conversion price of \$0.745 per share, subject to adjustment as provided for in the Notes. In addition, subsequent to the issuance of the Notes, the Company has made advances in the aggregate face amount of \$1,899,400 to Avalanche.

In consideration of entering into the Loan Agreement, the Company and Avalanche cancelled the Notes and consolidated the Notes and prior advances and issued a new Convertible Promissory Note in the aggregate face amount of \$3,474,400 (“New Note”) that is convertible into shares of Avalanche at a conversion price of \$0.50 per share. The New Note is due in two years and accrues interest at 12% per annum on the face amount of \$3,474,400. Prior interest accrued under the Notes and advances will continue to be an obligation of Avalanche. The New Note contains standard events of defaults. In addition, concurrent to issuing the New Note, Avalanche issued to the Company a five year Warrant to purchase 6,948,800 shares of Avalanche Common Stock at \$0.50 per share. Future advances under the Loan Agreement, if any, will be evidenced by a convertible promissory containing a conversion price feature at \$0.50 per share and warrant with an exercise price of \$0.50 per share. Further, under the terms of the Loan Agreement, the Notes issued by Avalanche are secured by the assets of Avalanche.

The Warrant entitles the Company to purchase up to 6,948,800 shares of Avalanche common stock at an exercise price of \$0.50 per share for a period of five years. The exercise price of \$0.50 is subject to adjustment for customary stock splits, stock dividends, combinations or similar events. The Warrant may be exercised for cash or on a cashless basis.
