\author{
-6- \\ Ford Motor Company and Subsidiaries \\ NOTES TO FINANCIAL STATEMENTS
}
(unaudited)
1. Financial Statements - The financial data presented herein are unaudited, but in the opinion of management reflect those adjustments necessary for a fair statement of such information. Results for interim periods should not be considered indicative of results for a full year. Reference should be made to the financial statements contained in the registrant's Annual Report on Form \(10-\mathrm{K}\) for the year ended December 31, 2000 . For purposes of Notes to Financial Statements, "Ford" or the "Company" means Ford Motor Company and its majority owned subsidiaries unless the context requires otherwise. Certain amounts for prior periods were reclassified to conform with present period presentation.
2. Selected Automotive costs and expenses are summarized as follows (in millions) :

\section*{Edgar Filing: FORD MOTOR CO - Form 10-Q}
quarter and first half of 2001 were (in millions):
\begin{tabular}{|c|c|c|c|c|}
\hline \multirow[t]{2}{*}{} & \multicolumn{2}{|c|}{Automotive} & \multicolumn{2}{|l|}{Financial Services} \\

\hline Net income & (55) & (114) & (32) & (45) \\
\hline Stockholders' equity ** & & & & \\
\hline
\end{tabular}

> * Automotive recorded in cost of sales; Financial Services recorded in operating and other expenses ** Recorded in accumulated other comprehensive income
4. Discontinued Operation - On June 28, 2000, Ford distributed 130 million shares of Visteon Corporation ("Visteon"), which represented its 100\% ownership interest, by means of a tax-free spin-off in the form of a dividend on Ford Common and Class B Stock. Ford's financial statements reflect Visteon as a "discontinued operation".
5. Value Enhancement Plan - On August 7, 2000, the Company announced the final results of its recapitalization, known as the Value Enhancement Plan ("VEP"). Under the VEP, Ford shareholders exchanged each of their old Ford Common or Class B shares for one new Ford Common or Class B share, as the case may be, plus, at their election, either \$20 in cash, 0.748 additional new Ford Common shares, or a combination of \(\$ 5.17\) in cash and 0.555 additional new Ford Common shares. As a result of the elections made by shareholders under the VEP, the total cash elected was \(\$ 5.7\) billion and the total number of new Ford Common and Class B shares that became issued and outstanding was 1.893 billion. As a result of the VEP, approximately \(\$ 1.2\) billion was transferred from capital stock to capital in excess of par value of stock.

In accordance with generally accepted accounting principles, prior period shares and earnings per share amounts were not adjusted.
Ford Motor Company and Subsidiaries

NOTES TO FINANCIAL STATEMENTS
(unaudited)
6. Income Per Share of Common and Class B Stock - Basic income per share of Common and Class B Stock is calculated by dividing the income attributable to Common and Class B Stock by the average number of shares of Common and Class B Stock outstanding during the applicable period, adjusted for shares issuable under employee savings and compensation plans.

The calculation of diluted income per share of Common and Class B Stock takes into account the effect of dilutive potential common stock, such as stock options.

Income (loss) per share of Common and Class B Stock was as follows (in millions, except per share amounts):
\begin{tabular}{|c|c|c|c|}
\hline & \multicolumn{3}{|l|}{Second Quarter} \\

\end{tabular}
10. Acquisitions and Restructurings

Hertz Purchase - In March 2001, through a tender offer and a merger transaction, Ford acquired (for a total price of \(\$ 735\) million) the common stock of Hertz that it did not own, which represented about \(18 \%\) of the economic interest in Hertz.

Purchase of Land Rover Business - On June 30, 2000, Ford purchased the

\section*{Edgar Filing: FORD MOTOR CO - Form 10-Q}

Land Rover business from the BMW Group for approximately three billion euros. Approximately two-thirds of the purchase price (equivalent of \(\$ 1.9\) billion at June 30,2000 was paid at time of closing; the remainder will be paid in 2005. The acquisition involves the entire Land Rover line of products and related assembly and engineering facilities. It does not include Rover's passenger car business or financial services business.

European Charges - Following an extensive business review of the Ford Brand operations in Europe, the Company recorded a pre-tax charge in Automotive cost of sales of \(\$ 1,568\) million in the second quarter of 2000 . This charge included \(\$ 1.1\) billion for asset impairments and \(\$ 468\) million for restructuring costs. The effect on after-tax earnings was \$1,019 million.

Report of Independent Accountants

To the Board of Directors and Stockholders
Ford Motor Company

We have reviewed the accompanying consolidated balance sheet of Ford Motor Company and its subsidiaries as of June 30, 2001, and the related consolidated statement of income for each of the three-month and six-month periods ended June

\section*{Edgar Filing: FORD MOTOR CO - Form 10-Q}

30, 2001 and 2000 and the condensed consolidated statement of cash flows for the six-month periods ended June 30,2001 and 2000 . These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet as of December 31, 2000, and the related consolidated statements of income, stockholders' equity and of cash flows for the year then ended (not presented herein), and in our report dated January 18, 2001, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2000, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

\section*{SECOND QUARTER RESULTS OF OPERATIONS}

Worldwide losses in the second quarter of 2001 were \(\$ 752\) million, or \(\$ 0.41\) per diluted share of Common and Class B Stock, compared with a loss of \(\$ 577\) million, or \(\$ 0.47\) per diluted share in the second quarter of 2000 . The second quarter 2001 loss included about \(\$ 2\) billion for charges and lost vehicle profits related to the planned replacement of about 13 million Firestone tires on Ford vehicles (discussed in detail under Part II, Item 1 "Legal Proceedings" of this report). Also included in 2001 results were \(\$ 201\) million in charges for our share of Mazda Motor Corporation's restructuring and other actions announced in April and the new accounting standard on hedging and derivatives. The second quarter 2000 results included a loss of \(\$ 2.3\) billion on the spin-off of Visteon and charges of \(\$ 1\) billion for asset impairment and restructuring costs related to our Ford-brand operations in Europe.

Sales and revenues were \(\$ 42.3\) billion in the second quarter of 2001 ,

\section*{Edgar Filing: FORD MOTOR CO - Form 10-Q}
down \(\$ 2.2\) billion from a year ago. Vehicle unit sales were 1,858,000, down 137,000 units, of which about 45,000 units were for production stoppages related to the Firestone tire replacement action.

Results by business sector for the second quarter of 2001 and 2000 are shown below (in millions).

Automotive Sector

Automotive sector losses were \(\$ 1,194\) million in the second quarter of 2001, on sales of \(\$ 34.6\) billion. Earnings in the second quarter of 2000 were \(\$ 1,052\) million, on sales of \(\$ 37.4\) billion.

Details of second quarter Automotive sector earnings from continuing operations are shown below (in millions).
\begin{tabular}{|c|c|c|}
\hline & \multicolumn{2}{|r|}{t} \\
\hline & 2001 & 2000 \\

\hline Total Automotive outside North America & 4 & (791) \\
\hline Total Automotive sector & \$ (1, 194) & \$1,052 \\
\hline
\end{tabular}

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Automotive sector losses in North America were \(\$ 1,198\) million in the second quarter of 2001 , on sales of \(\$ 24.3\) billion. In the second quarter of 2000, earnings were \(\$ 1,843\) million, on sales of \(\$ 27.7\) billion. The reduction in earnings was more than explained by the Firestone tire replacement action, lower sales, and higher marketing cost.

In the second quarter of \(2001,4.7\) million new cars and trucks were sold in the United States, down from 4.9 million units a year ago. Our market share this year was \(23.2 \%\), down 1.7 percentage points from a year ago, partly explained by greater price competition from Japanese and Korean manufacturers, who benefited from more favorable exchange rates. Our U.S. marketing costs increased to \(14.1 \%\) of sales, up from \(11.3 \%\) a year ago.

In Europe, we earned \(\$ 141\) million in the second quarter of 2001 , compared with losses of \(\$ 863\) million a year ago. Excluding last year's charges, earnings were down \(\$ 15\) million, reflecting losses at Land Rover (which was not part of Ford in the first half of 2000 ) and launch costs for the new Jaguar X-TYPE, offset partially by improved results at Ford-brand operations.

In the second quarter of \(2001,4.8\) million new cars and trucks were sold in our 19 primary European markets, about equal to last year. Our share was \(10.7 \%\), up 1.1 percentage points, reflecting increases for the new Ford Mondeo and Transit models and the addition of Land Rover.

In South America, losses were \(\$ 70\) million, compared with a loss of \(\$ 63\) million a year ago. Approximately 420,000 new cars and trucks were sold in Brazil, compared with 350,000 a year ago. Our share of those unit sales was \(7.7 \%\), down 1.6 percentage points.

Excluding Mazda-related charges of \(\$ 114\) million, earnings outside North America, Europe, and South America ("Rest of World") were \(\$ 47\) million in the second quarter of 2001 , down \(\$ 88\) million from a year ago. The decline primarily reflected poorer operating results at Mazda.

Financial Services Sector
------------------------------

Details of second quarter Financial Services sector earnings are shown below (in millions).
\begin{tabular}{|c|c|c|c|}
\hline & \multicolumn{3}{|r|}{Second Quarter Net Income/(Los} \\
\hline & 2001 & 2000 & 200
\(0 / 1\)
2000 \\
\hline Ford Credit & \$367 & \$388 & \$(21) \\

Total Financial Services sector \\ Memo: Ford's share of earnings in Hertz
}
\(\$ 442\)
\$461
\$ (19)
\(====\quad====\)
\(\$ 59\)
\$ 84
\(\$(25)\)

Ford Credit's net income in the second quarter of 2001 was \(\$ 367\)
million, down \(\$ 21\) million from a year ago. The decrease was more than explained by a \(\$ 32\) million non-cash charge related to the new accounting standard on hedging and derivatives. Higher financing volume, higher margin, and increased investment and other income (primarily gains on sales of receivables related to securitization transactions) were largely offset by higher credit losses.

Hertz earned \(\$ 59\) million in the quarter, down \(\$ 45\) million from a year ago, reflecting lower rental volume as the U.S. economy slowed and business travel declined. (Effective March 2001, Ford increased its ownership of Hertz to \(100 \%\), compared with about 81\% a year ago.)
-13-

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

FIRST HALF RESULTS OF OPERATIONS

Results by major business sector for the first half of 2001 and 2000 are shown below (in millions).
\begin{tabular}{|c|c|c|c|c|c|}
\hline & \multicolumn{5}{|r|}{First Half Net Income/(Loss)} \\
\hline & & 2001 & & 2000 & \[

\end{array}
\] & \[
\begin{array}{r}
\$(3,109 \\
129
\end{array}
\] \\
\hline Total continuing operations & \$ & 307 & & 3,445 & \$ \((3,138\) \\
\hline Net income from discontinued operation & & - & & 309 & ( 309 \\
\hline Loss on spin-off of discontinued operation & & - & & \((2,252)\) & 2,252 \\
\hline Total Company & \$ & 307 & & 1,502 & \$ \((1,195\) \\
\hline
\end{tabular}

Net income in the first half of 2001 was \(\$ 307\) million, compared with first half 2000 net income from continuing operations of \(\$ 3,445\) million.

Sales and revenues in the first half of 2001 were \(\$ 84.8\) billion, down \(\$ 2.6\) billion from a year ago. Vehicle unit sales were 3.7 million, down 200,000 units.

\section*{Edgar Filing: FORD MOTOR CO - Form 10-Q}

Automotive Sector

Losses for our Automotive sector were \(\$ 505\) million in the first half of 2001, on sales of \(\$ 69.2\) billion. Earnings in the first half of 2000 were \(\$ 2,604\) million, on sales of \(\$ 73.5\) billion. Adjusted for constant volume and mix, total automotive costs (excluding costs related to the Firestone tire replacement action) were up \(\$ 400\) million from the first half of 2000 , reflecting higher precious metals and new-model launch costs.

Automotive sector earnings in the first half of 2001 and 2000 are shown below (in millions).
\begin{tabular}{|c|c|c|c|}
\hline & & Fir & Net In \\
\hline & & 2001 & 2000 \\
\hline North American Automotive & \$ & (503) & \$3,510 \\
\hline \multicolumn{4}{|l|}{Automotive outside North America} \\
\hline - Europe & & 229 & (866) \\
\hline - South America & & (123) & (145) \\
\hline - Rest of World & & (108) & 105 \\
\hline Total Automotive outside North America & & (2) & (906) \\
\hline Total Automotive sector & \$ & (505) & \$2,604 \\
\hline
\end{tabular}

In North America, losses were \(\$ 503\) million in the first half of 2001, down \(\$ 4\) billion from the first half of 2000 . The decrease reflected primarily the same factors described in the discussion of the second quarter results of operations.

In the first half of 2001, 8.9 million new cars and trucks were sold in the United States, down from a record 9.4 million units a year ago. Our share this year was \(23.0 \%\), down 1.4 percentage points.

In Europe, first half earnings were \(\$ 229\) million, compared with losses of \(\$ 866\) million in the first half of 2000 . The improvement reflected primarily the non-recurrence of last year's asset impairment and restructuring charges. Improved operating results at Ford-brand operations were offset partially by losses at Land Rover.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

In the first half of \(2001,9.6\) million new cars and trucks were sold in our 19 primary European markets, down 300,000 units from a year ago. Our share

\section*{Edgar Filing: FORD MOTOR CO - Form 10-Q}
this year was \(10.8 \%\), up 1.1 percentage points.
In South America, losses were \(\$ 123\) million in the first half of 2001 , compared with a loss of \(\$ 145\) million a year ago. In Brazil, 835,000 new cars and trucks were sold, compared with 660,000 a year ago. Our share this year was \(8.1 \%\), down 1.3 percentage points.

In Rest of World, earnings, excluding Mazda restructuring and other charges, were \(\$ 6\) million in the first half of 2001 , down from \(\$ 105\) million in the first half of 2000, mainly explained by poorer Mazda operating results.

\section*{Financial Services Sector}

In the first half of 2001, earnings for our Financial Services sector declined \(\$ 29\) million from last year, more than explained by lower profits at Hertz, reflecting effects of the slowdown in the U.S. economy. Details of Financial Services sector earnings in the first half of 2001 and 2000 are shown below (in millions).

First Half Net Income/(Loss)
\begin{tabular}{|c|c|c|c|}

\hline
\end{tabular}

\section*{LIQUIDITY AND CAPITAL RESOURCES}

Automotive Sector
```

_----------------

```

At June 30, 2001, our Automotive sector had \(\$ 16.2\) billion of cash and marketable securities, down \(\$ 300\) million from December 31, 2000 . The decline was more than explained by cash outlays for the final payment to AB Volvo for our acquisition of Volvo Car ( \(\$ 1.6\) billion), share repurchases (\$1.1 billion), dividends to shareholders (\$1.1 billion), and our acquisition of the minority interest in Hertz (\$735 million), offset partially by positive operating cash flow. Automotive gross cash was \(\$ 18.9\) billion at June 30, 2001, including \(\$ 2.7\) billion of prefunding of certain employee health benefit obligations through a Voluntary Employee Beneficiary Association trust. We expect our cash balance to decline in the second half of this year, reflecting payments for the Firestone tire replacement action and normal business seasonality.

At June 30, 2001, our Automotive sector had total debt of \(\$ 12.1\) billion, about equal to December 31, 2000.

At July 1, 2001, Ford had long term contractually committed global credit agreements under which \(\$ 8.4\) billion is available from various banks;

\section*{Edgar Filing: FORD MOTOR CO - Form 10-Q}
87.7\% are available through June 30, 2006. The entire \(\$ 8.4\) billion may be used, at Ford's option, by any affiliate of Ford; however, any borrowing by an affiliate will be guaranteed by Ford. Ford also has the ability to transfer on a nonguaranteed basis \(\$ 8.0\) billion of such credit lines in varying portions to Ford Credit and FCE Bank plc (formerly known as Ford Credit Europe plc). In addition, at July 1, \(2001, \$ 964.5\) million of contractually committed credit facilities were available to various Automotive Sector affiliates outside the U.S. Approximately \(\$ 419.0\) million of these facilities were in use at July 1, 2001.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Financial Services Sector

At June 30, 2001, our Financial Services sector had cash and cash equivalents of \(\$ 1.8\) billion, up \(\$ 0.4\) billion from December 31, 2000. Finance receivables and net investments in operating leases were \(\$ 177.5\) billion at June 30, 2001, up from \(\$ 171.8\) billion at December 31, 2000.

Total debt was \(\$ 162.1\) billion at June 30 , 2001 , up \(\$ 8.6\) billion from December 31, 2000. This includes outstanding commercial paper at June 30,2001 of \(\$ 33.7\) billion at Ford Credit, and \(\$ 2.1\) billion at Hertz, with an average remaining maturity of 35 days and 20 days, respectively.

At July 1, 2001, Financial Services Sector had a total of \(\$ 24.3\) billion of contractually committed support facilities (excluding the \(\$ 8\) billion available under Ford's global credit agreements). Of these facilities, \(\$ 20\) billion are contractually committed global credit agreements under which \(\$ 15.7\) billion and \(\$ 4.3\) billion are available to Ford Credit and FCE Bank plc, respectively, from various banks; 53\% and 63\%, respectively, of such facilities are available through June 30, 2006. The entire \(\$ 15.7\) billion may be used, at Ford Credit's option, by any subsidiary of Ford Credit, and the entire \(\$ 4.3\) billion may be used, at FCE Bank plc's option, by any subsidiary of FCE Bank plc. Any borrowings by such subsidiaries will be guaranteed by Ford Credit or FCE Bank plc, as the case may be. At July 1, 2001, none of the Ford Credit global facilities were in use and \(\$ 137\) million of the FCE Bank plc global facilities were in use. Other than the global credit agreements, the remaining portion of the Financial Services Sector support facilities at July 1, 2001 consisted of \(\$ 2.6\) billion of contractually committed support facilities available to Hertz in the U.S. and \(\$ 1.7\) billion of contractually committed support facilities available to various affiliates outside the U.S.; at July 1 , 2001, approximately \(\$ 1.0\) billion of these facilities were in use. Furthermore, banks provide \(\$ 5.0\) billion of liquidity facilities to support the asset- backed commercial paper program of Ford Credit sponsored special purpose entity.

In addition, Ford Credit has entered into agreements with several bank-sponsered, commercial paper issuers ("conduits") under which such conduits are contractually committed to purchase from Ford Credit, at Ford Credit's option, up to an aggregate of \(\$ 2.5\) billion of receivables. These agreements expire on June 27, 2002. As of July 1, 2001, approximately \(\$ 427\) million of these conduit commitments have been utilized.

We adopted Statement of Financial Accounting Standards ("SFAS") No. 133 "Accounting for Derivative Instruments and Hedges" on January 1, 2001. Non-cash adjustments to income and to stockholders' equity for the first half were (in millions) :
\begin{tabular}{|c|c|c|c|}
\hline & Automotive & Financial Services & Total Company \\
\hline Net income & (114) & (45) & (159) \\
\hline Stockholders' equity & & & \((1,328)\) \\
\hline
\end{tabular}

For a further discussion of SFAS No. 133, see note 3 of our Notes to financial Statements.

OTHER FINANCIAL INFORMATION

PricewaterhouseCoopers LLP, our independent accountants, performed a limited review of the financial data presented on pages 4 through 10 inclusive. The review was performed in accordance with standards for such reviews established by the American Institute of Certified Public Accountants. The review did not constitute an audit; accordingly, PricewaterhouseCoopers LLP did not express an opinion on the aforementioned data.
-16-

Part II. Other Information

Item 1. Legal Proceedings
-------------------------------

Firestone Matters (Previously discussed beginning on page 20 of Ford's Annual Report on Form \(10-\mathrm{K}\) for the year ended December 31, 2000 (the " \(10-\mathrm{K}\) Report") and on page 15 of Ford's Quarterly Report on Form 10-Q for the quarter ended March 31, 2001 (the "First Quarter 10-Q Report").) As a result of our previously reported work with the National Highway Traffic Safety Administration (the "Safety Administration ") with regard to its investigation of the Firestone tire recall and our own root cause analysis, we announced on May 22 , 2001 that we would replace all remaining 15,16 , and 17 -inch Firestone Wilderness AT tires (about 13 million tires) on our vehicles. This precautionary action is based on our analysis of data on the actual road performance of these tires, comparisons with the performance of comparable tires by other tire makers, a review of information developed by and received from the Safety Administration, and extensive laboratory and vehicle testing. In order to complete the replacement program as rapidly as possible, we are working with major tire manufacturers to expand the supply of replacement tires and temporarily suspended production of certain vehicle lines in order to make more tires available.

This tire replacement program was the subject of a June 19 hearing before two subcommittees of the House Energy and Commerce Committee, which urged the Safety Administration to accelerate its review of the situation. The Safety Administration continues to investigate the circumstances leading up to last year's recall and this year's tire replacement program, as well as the root cause of the tire failures and related accidents. As a result of these investigations, the Safety Administration on July 19 stated that it would soon issue an "Initial Determination" that certain Firestone Wilderness AT tires

\section*{Edgar Filing: FORD MOTOR CO - Form 10-Q}
contain a safety-related defect. An "Initial Determination" is an interim step toward requiring Firestone to conduct a safety recall.

Separately, on May 31, 2001, Bridgestone/Firestone (US) Chairman, CEO and President John Lampe sent a letter to the Safety Administration's Acting Administrator requesting that the agency open an investigation into the safety of certain models of Ford Explorers, and alleging that the vehicles are "defectively designed in that they have an inadequate margin of control (due to insufficient understeer) to permit control by average drivers in the foreseeable events of tread separation during normal highway driving in most load and turning circumstances." Likewise, on June 6, 2001, Congressman Billy Tauzin, Chairman of the House Energy and Commerce Committee, sent a letter to the Safety Administration's Acting Administrator that - - while stopping short of urging the agency to open a defect investigation - - asserted that the Safety Administration should undertake a "serious review" of the Explorer's "handling capabilities, particularly following a tire failure."

At the June 19 congressional hearing, Michael Jackson, Deputy Secretary of the U.S. Department of Transportation, testified that the agency "has had to date no credible evidence that the Ford Explorer's design is in any way responsible for causing tread separation or other such catastrophic tire failure." Mr. Jackson also testified that "[w]e have not to this point thought that there is evidence that directs us toward a vehicle defect investigation." Nevertheless, Mr. Jackson said that the Safety Administration is treating Firestone's May 31 letter as a formal petition to open a defect investigation, and is "conducting an analysis to determine if a formal investigation is merited." We are working closely with the Safety Administration.

As previously reported, most of the Firestone class actions have been consolidated in federal court in Indianapolis, but a few remain pending in state court. In one of those cases a Pennsylvania state trial judge granted Ford's motion to dismiss, ruling that owners who have suffered no injury or damage have no claim and that a state court has no authority to order a recall. At the same time, plaintiffs in the federal court cases have expanded their request for a recall to include demands that (1) the court assume supervision over the recently-announced tire replacement program and (2) Ford repurchase Explorers because of alleged stability problems. We have moved to dismiss the federal cases for the same reasons that the Pennsylvania case was dismissed.

In Venezuela, prosecutors from the Attorney General's Office continue to investigate whether criminal charges should be filed against officers, directors or employees of Firestone and/or Ford as a result of tire tread separation accidents that occurred in that country. A committee of the National Assembly is conducting a separate investigation of the cause of the accidents. The Venezuelan consumer protection agency (INDECU) continues to investigate the matter as well.

Item 1. Legal Proceedings
(Continued)

Environmental Matters

MFA Grand Jury Matter. (Previously discussed on page 22 of the \(10-K\) Report.) On June 7, 2001 government investigators informed us that Ford currently is not a target of this investigation.

TFI Module Class Action. (Previously discussed beginning on page 23 of the \(10-\mathrm{K}\) Report and on page 15 of the First Quarter \(10-\mathrm{Q}\) Report.) The California Court of Appeal in the Howard case declined to consider Plaintiff's appeal and the retrial is still scheduled to begin in September.

Lease Residual Class Action. (Previously discussed beginning on page 24 of the \(10-K\) Report.) Trial in this matter has been scheduled for November 5, 2001.

Seat Back Class Actions. (Previously discussed beginning on page 25 of the \(10-\mathrm{K}\) Report.) The Maryland Court of Appeals has affirmed the order of the trial court dismissing Plaintiffs' complaint.

Ford Credit Debt Collection Class Actions. (Previously discussed on page 26 of the \(10-K\) Report.) An additional class action, Davidson v. Ford Credit, has been filed against Ford Credit alleging unfair debt collection practices. In Davidson, the plaintiffs allege that Ford Credit practices relating to filing proofs of claim violates sections of the Bankruptcy Code. Ford Credit has filed a motion to dismiss this case. In Pertuso, the deadline for filing a writ of certiorari with the U.S. Supreme Court has expired. In DuBois, the trial court granted our motion to dismiss and the plaintiffs have appealed.

Late Charges Class Actions. (Previously discussed beginning on page 26 of the \(10-\mathrm{K}\) Report.) A new trial date in the Cumberland case has been set for October 15, 2001.

Performance Management Process Class Action. (Previously discussed on page 26 of the \(10-\mathrm{K}\) Report and on page 16 of the First Quarter \(10-\mathrm{Q}\) Report.) The hearing on the motion to dismiss this case has been delayed and is presently scheduled to take place on July 31, 2001.

Reverse Discrimination Class Action. (Previously discussed on page 26 of the \(10-\mathrm{K}\) Report and on page 16 of the First Quarter 10-Q Report.) The Plaintiffs have amended their complaint to add Ford Motor Credit Company as a defendant. The hearing on the motion to dismiss the disparate impact claims has been delayed and is presently scheduled to take place on July 31, 2001.
-18-

Item 4. Submission of Matters to a Vote of the Security-Holders

On May 10, 2001, the 2001 Annual Meeting of Shareholders of the Company was held. The following is a brief description of the matters voted upon at the meeting and tabulation of the voting therefor:

Proposal 1 Election of Directors.

Nominee

Ford Capital BV and Subsidiaries
NOTES TO FINANCIAL STATEMENTS
1. Financial Statements - The financial data presented herein are unaudited, but in the opinion of management reflect those adjustments necessary for a fair presentation of such information. Results for interim periods should not be considered indicative of results for a full year. Reference should be made to the financial statements contained in the Ford Motor Company's Annual Report on Form \(10-\mathrm{K}\) for the year ended December 31, 2000. For purposes of this report, "the Company" or similar references mean Ford Capital BV and its majority owned subsidiaries unless the context requires otherwise. Certain amounts for prior periods were reclassified, if required, to conform to present period presentation.
2. SFAS 133 - Ford Capital BV adopted SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended by SFAS No. 137 and SFAS No. 138 on January 1, 2001. For further discussion on SFAS No. 133, refer to Note 3 in Form 10-Q for the quarterly period ended March 31, 2001.

SFAS No. 133 has resulted in no adjustments to income. The impact to stockholders' equity for the second quarter and six months ended 2001 (including transition adjustment), was a \(\$ 39\) million and \(\$ 16\) million reduction, respectively. SFAS No. 133 adjustments are recorded in accumulated other comprehensive income, a separate component of stockholders equity.

\section*{Edgar Filing: FORD MOTOR CO - Form 10-Q}
3. Comprehensive Income - Other comprehensive income primarily reflects foreign currency translation adjustments and adjustments related to SFAS 133 (Note 2). Total comprehensive income is summarized as follows (in millions):
\begin{tabular}{|c|c|c|}
\hline & \multicolumn{2}{|c|}{First Half} \\
\hline & 2001 & 2000 \\
\hline Net income & \$ 13 & \$ 20 \\
\hline Other comprehensive income & (44) & 9 \\
\hline Total comprehensive income & \$ (31) & \$ 29 \\
\hline
\end{tabular}

Item 6. Exhibits and Reports on Form 8-K
(a) Exhibits
