NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1 – BASIS OF PRESENTATION

Preparation of Interim Financial Statements

All references in this Quarterly Report on Form 10-Q to the “Company,” “we,” “us” and “our” refer to iHeartCommunications, Inc. and its consolidated subsidiaries. The Company’s reportable segments are iHeartMedia (“iHM”), Americas outdoor advertising (“Americas outdoor” or “Americas outdoor advertising”) and International outdoor advertising (“International outdoor” or “International outdoor advertising”).

The accompanying consolidated financial statements were prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) and, in the opinion of management, include all normal and recurring adjustments necessary to present fairly the results of the interim periods shown. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) have been condensed or omitted pursuant to such SEC rules and regulations.

Management believes that the disclosures made are adequate to make the information presented not misleading. Due to seasonality and other factors, the results for the interim periods may not be indicative of results for the full year. The financial statements contained herein should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s 2015 Annual Report on Form 10-K.

We are a holding company and have no significant assets other than the ownership interests in our subsidiaries. All of our operations and all of our operating assets are held by our subsidiaries. Certain of our outstanding indebtedness is fully and unconditionally guaranteed on a joint and several basis by our parent, iHeartMedia Capital I, LLC (“Capital I”), and certain of our direct and indirect wholly-owned domestic subsidiaries. Not all of our subsidiaries guarantee our obligations under such outstanding indebtedness. For a presentation of the allocation of assets, liabilities, equity, revenues and expenses attributable to the guarantors of our indebtedness in conformity with the SEC’s Regulation S-X Rule 3-10(d), please refer to Note 10 to the consolidated financial statements of Capital I as of and for the period ending June 30, 2016.

The consolidated financial statements include the accounts of the Company and its subsidiaries. Also included in the consolidated financial statements are entities for which the Company has a controlling financial interest or is the primary beneficiary. Investments in companies in which the Company owns 20% to 50% of the voting common stock or otherwise exercises significant influence over operating and financial policies of the company are accounted for under the equity method. All significant intercompany transactions are eliminated in the consolidation process. Certain prior-period amounts have been reclassified to conform to the 2016 presentation.

The Company is a Texas corporation with all of its common stock being held by Capital I. All of Capital I’s interests are held by iHeartMedia Capital II, LLC, a direct, wholly-owned subsidiary of iHeartMedia, Inc. (“Parent”). Parent was formed in May 2007 by private equity funds sponsored by Bain Capital Partners, LLC and Thomas H. Lee Partners, L.P. (together, the “Sponsors”) for the purpose of acquiring the business of the Company.

During the first quarter of 2016, the Company reevaluated its segment reporting and determined that its iHeartMedia Revenue Platform (iHMRP) business, an information technology group dedicated to system development, implementation and maintenance of the Company’s radio revenue platforms, should be managed by its Corporate leadership team. As a result, the operations of the iHMRP business are no longer reflected within the Other segment and are included in the results of its Corporate segment. Accordingly, the Company has recast the corresponding prior year segment disclosures to reflect the current year presentation.

Omission of Per Share Information

Net loss per share information is not presented as Capital I owns 100% of the Company’s common stock. The Company does not have any publicly traded common stock.

New Accounting Pronouncements

During the second quarter of 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements - Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern.

Edgar Filing: iHeartCommunications, Inc. - Form 10-Q

This update provides U.S. GAAP guidance on management's responsibility in evaluating whether there is substantial doubt about a company's ability to continue as a going concern and about related footnote disclosures. For each reporting period, the Company will be required to evaluate whether there are conditions or events that raise substantial doubt about a company's ability to continue as a going concern within one year from the date the financial statements are issued. The amendments in this update are effective for the annual period

(UNAUDITED)

ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. The Company is currently evaluating the impact of the provisions of this new standard on its consolidated financial statements.

During the first quarter of 2015, the FASB issued ASU No. 2015-02, Consolidation (Topic 810), Amendments to the Consolidation Analysis. This new standard eliminates the deferral of FAS 167, which has allowed entities with interest in certain investment funds to follow the previous consolidation guidance in FIN 46(R) and makes other changes to both the variable interest model and the voting model. The standard is effective for annual periods, and for interim periods within those annual periods, beginning after December 15, 2015. The adoption of this guidance did not have a material effect on the Company's consolidated financial statements.

During the second quarter of 2015, the FASB issued ASU No. 2015-03, Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. This update simplifies the presentation of debt issuance costs as a deduction from the carrying value of the outstanding debt balance rather than showing the debt issuance costs as an asset. The standard is effective for annual periods, and for interim periods within those annual periods, beginning after December 15, 2015. The retrospective adoption of this guidance resulted in the reclassification of debt issuance costs of \$148.0 million as of December 31, 2015, which are now reflected as "Long-term debt fees" in Note 3.

During the third quarter of 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date. This update provides a one-year deferral of the effective date for ASU No. 2014-09, Revenue from Contracts with Customers. ASU No. 2014-09 provides guidance for the recognition, measurement and disclosure of revenue resulting from contracts with customers and will supersede virtually all of the current revenue recognition guidance under U.S. GAAP. The standard is effective for the first interim period within annual reporting periods beginning after December 15, 2017. The Company is currently evaluating the impact of the provisions of this new standard on its consolidated financial statements.

During the third quarter of 2015, the FASB issued ASU No. 2015-16, Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments. This update eliminates the requirement for an acquirer in a business combination to account for measurement-period adjustments retrospectively. Instead, acquirers must recognize measurement-period adjustments during the period in which they determine the amounts, including the effect on earnings of any amounts they would have recorded in previous periods if the accounting had been completed at the acquisition date. The standard is effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The adoption of this guidance did not have a material effect on the Company's consolidated financial statements.

During the first quarter of 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). The new leasing standard presents significant changes to the balance sheets of lessees. Lessor accounting is updated to align with certain changes in the lessee model and the new revenue recognition standard which was issued in the third quarter of 2015. The standard is effective for annual periods, and for interim periods within those annual periods, beginning after December 15, 2018. The Company is currently evaluating the impact of the provisions of this new standard on its consolidated financial statements.

During the second quarter of 2016, the FASB issued ASU No. 2016-09, Compensation - Stock Compensation (Topic 718). This update changes the accounting for certain aspects of share-based payments to employees. Income tax effects of share-based payment awards will be recognized in the income statement with the vesting or settlement of the awards and the record keeping for additional paid-in capital pools will no longer be necessary. Additionally, companies can make a policy election to either estimate forfeitures or recognize them as they occur. The standard is effective for annual periods, and for interim periods within those annual periods, beginning after December 15, 2016. The Company is currently evaluating the impact of the provisions of this new standard on its consolidated financial

statements.

During the second quarter of 2016, the FASB issued ASU No. 2016-13, Financial Instruments - Credit Losses (Topic 326). The new standard changes the impairment model for most financial assets and certain other instruments. Entities will be required to use a model that will result in the earlier recognition of allowances for losses for trade and other receivables, held-to-maturity debt securities, loans and other instruments. For available-for-sale debt securities with unrealized losses, the losses will be recognized as allowances rather than as reductions in the amortized cost of the securities. For an SEC filer, the standard is effective for annual periods, and for interim periods within those annual periods, beginning after December 15, 2019. The Company is currently evaluating the impact of the provisions of this new standard on its consolidated financial statements.

NOTE 2 – PROPERTY, PLANT AND EQUIPMENT, INTANGIBLE ASSETS AND GOODWILL

Dispositions

On January 15, 2016, Parent and certain of its subsidiaries completed the final closing for the sale of six of the Company's broadcast communication tower sites and related assets for approximately \$5.5 million. Simultaneous with the sale, the Company entered into lease agreements for the continued use of space on all six of the towers sold. The Company realized a net gain of \$2.7 million, of which \$1.9 million was deferred and will be recognized over the lease term.

During the first quarter of 2016, Americas outdoor sold nine non-strategic outdoor markets including Cleveland and Columbus, Ohio, Des Moines, Iowa, Ft. Smith, Arkansas, Memphis, Tennessee, Portland, Oregon, Reno, Nevada, Seattle, Washington and Wichita, Kansas for net proceeds, which included cash and certain advertising assets in Florida, totaling \$594.0 million. The Company recognized a net gain of \$280.0 million related to the sale, which is included within Other operating income (expense), net.

During the first quarter of 2016, Americas outdoor also entered into an agreement to sell its Indianapolis, Indiana market in exchange for certain assets in Atlanta, Georgia, plus approximately \$41.2 million in cash. The transaction is subject to regulatory approval and is expected to close in 2016. This transaction has met the criteria to be classified as held-for-sale and as such, the related assets are separately presented on the face of the Consolidated Balance Sheet.

During the second quarter of 2016, International outdoor sold its business in Turkey. As a result, the Company recognized a net loss of \$56.6 million, which includes \$32.2 million in cumulative translation adjustments that were recognized upon the sale of the Company's subsidiaries in Turkey.

Property, Plant and Equipment

The Company's property, plant and equipment consisted of the following classes of assets as of June 30, 2016 and December 31, 2015, respectively:

(In thousands)	June 30, 2016	December 31, 2015
Land, buildings and improvements	\$587,554	\$603,234
Structures	2,743,167	2,824,794

Less: accumulated depreciation	2,296,965	2,223,540
Property, plant and equipment, net	\$2,068,547	\$2,212,556

Intangible Assets

The Company's indefinite-lived intangible assets consist of Federal Communications Commission ("FCC") broadcast licenses in its iHM segment and billboard permits in its Americas outdoor advertising segment. Due to significant differences in both business practices and regulations, billboards in the International outdoor segment are subject to long-term, finite contracts unlike the Company's permits in the United States and Canada. Accordingly, there are no indefinite-lived intangible assets in the International outdoor segment.

Other intangible assets include definite-lived intangible assets and permanent easements. The Company's definite-lived intangible assets primarily include transit and street furniture contracts, talent and representation contracts, customer and advertiser relationships, and site-leases and other contractual rights, all of which are amortized over the shorter of either the respective lives of the agreements or over the period of time the assets are expected to contribute directly or indirectly to the Company's future cash flows. Permanent easements are indefinite-lived intangible assets which include certain rights to use real property not owned by the Company. The Company

periodically reviews the appropriateness of the amortization periods related to its definite-lived intangible assets. These assets are recorded at cost.

NOTE 4 – COMMITMENTS AND CONTINGENCIES

The Company and its subsidiaries are involved in certain legal proceedings arising in the ordinary course of business and, as required, have accrued an estimate of the probable costs for the resolution of those claims for which the occurrence of loss is probable and the amount can be reasonably estimated. These estimates have been developed in consultation with counsel and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. It is possible, however, that future results of operations for any particular period could be materially affected by changes in the Company's assumptions or the effectiveness of the Company's strategies related to these proceedings. Additionally, due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on the Company's financial condition or results of operations.

Although the Company is involved in a variety of legal proceedings in the ordinary course of business, a large portion of the Company's litigation arises in the following contexts: commercial disputes; defamation matters; employment and benefits related claims; governmental fines; intellectual property claims; and tax disputes.

International Outdoor Investigation

On April 21, 2015, inspections were conducted at the premises of Clear Channel in Denmark and Sweden as part of an investigation by Danish competition authorities. Additionally, on the same day, Clear Channel UK received a communication from the UK competition authorities, also in connection with the investigation by Danish competition authorities. Clear Channel and its affiliates are cooperating with the national competition authorities.

Stockholder Litigation

On May 9, 2016, a stockholder of Clear Channel Outdoor Holdings, Inc. ("CCOH") filed a derivative lawsuit in the Court of Chancery of the State of Delaware, captioned GAMCO Asset Management Inc. v. iHeartMedia Inc. et al., C.A. No. 12312-VCS. The complaint names as defendants us, Parent, Bain Capital Partners, LLC and Thomas H. Lee Partners, L.P. (together, the "Sponsor Defendants"), the Company's private equity sponsors and majority owners, and the members of CCOH's board of directors. CCOH also is named as a nominal defendant. The complaint alleges that the defendants have breached their fiduciary duties by causing CCOH to: (i) continue to loan cash to us under the intercompany note at below-market rates; (ii) abandon its growth and acquisition strategies in favor of transactions that would provide cash to us and Parent; (iii) issue new debt in the CCIBV note offering (the "CCIBV Note Offering") to provide cash to us and Parent through a dividend; and (iv) effect the sales of certain outdoor markets in the U.S. (the "Outdoor Asset Sales") allegedly to provide cash to us and Parent through a dividend. The complaint also alleges that we, Parent and the Sponsor Defendants aided and abetted the directors' breaches of their fiduciary duties. The complaint further alleges that we, Parent and the Sponsor Defendants were unjustly enriched as a result of these transactions and that these transactions constituted a waste of corporate assets for which the defendants are liable to CCOH. The plaintiff is seeking, among other things, a ruling that the defendants breached their fiduciary duties to CCOH and that we, Parent and the Sponsor Defendants aided and abetted the CCOH board of directors' breaches of fiduciary duty, rescission of payments made by CCOH to us and our affiliates pursuant to dividends declared in connection with the CCIBV Note Offering and Outdoor Asset Sales, and an order requiring us, Parent and the Sponsor Defendants to disgorge all profits they have received as a result of the alleged fiduciary misconduct.

On May 26, 2016, the plaintiff filed a motion seeking expedited discovery and an expedited trial on certain counts of its complaint. On June 27, 2016, the court denied the motion for an expedited trial and discovery, and on July 12, 2016, the parties stipulated to a schedule that would allow for a decision on the defendants' forthcoming motion to

dismiss by mid-September and a trial, if necessary, beginning February 27, 2017. On July 20, 2016, the defendants filed a motion to dismiss.

NOTE 9 – CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Parent is a party to a management agreement with certain affiliates of the Sponsors and certain other parties pursuant to which such affiliates of the Sponsors will provide management and financial advisory services until 2018. These agreements require management fees to be paid to such affiliates of the Sponsors for such services at a rate not greater than \$15.0 million per year, plus reimbursable expenses. For the three months ended June 30, 2016 and 2015, the Company recognized management fees and reimbursable expenses of \$3.8 million and \$3.9 million, respectively. For the six months ended June 30, 2016 and 2015, the Company recognized management fees and reimbursable expenses of \$7.6 million and \$7.8 million, respectively.

Abrams, a member of our Board of Directors for an

aggregate purchase price of approximately \$56.9 million (the “Abrams Transaction”). The Abrams Transaction was made at the same price and on terms substantially similar to those of the Third Party Transaction. In accordance with our related party transaction policy, the Abrams Transaction was approved by a majority of the disinterested directors on our Board.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Format of Presentation

Management's discussion and analysis of our financial condition and results of operations ("MD&A") should be read in conjunction with the consolidated financial statements and related footnotes contained in Item 1 of this Quarterly Report on Form 10-Q. Our discussion is presented on both a consolidated and segment basis. Our reportable segments are iHeartMedia ("iHM"), Americas outdoor advertising ("Americas outdoor" or "Americas outdoor advertising") and International outdoor advertising ("International outdoor" or "International outdoor advertising"). Our iHM segment provides media and entertainment services via live broadcast and digital delivery, and also includes our national syndication business. Our Americas outdoor and International outdoor segments provide outdoor advertising services in their respective geographic regions using various digital and traditional display types. Included in the "Other" category are our media representation business, Katz Media Group, as well as other general support services and initiatives, which are ancillary to our other businesses.

We manage our operating segments primarily focusing on their operating income, while Corporate expenses, Other operating income (expense), net, Interest expense, Gain on marketable securities, Equity in earnings (loss) of nonconsolidated affiliates, Loss on extinguishment of debt, Other income, net and Income tax expense are managed on a total company basis and are, therefore, included only in our discussion of consolidated results.

Certain prior period amounts have been reclassified to conform to the 2016 presentation.

Our iHM strategy centers on delivering entertaining and informative content across multiple platforms, including broadcast, mobile and digital, as well as events. Our primary source of revenue is derived from selling local and national advertising time on our radio stations, with contracts typically less than one year in duration. The programming formats of our radio stations are designed to reach audiences with targeted demographic characteristics. We are working closely with our advertising and marketing partners to develop tools and leverage data to enable advertisers to effectively reach their desired audiences. We continue to expand the choices for listeners and we deliver our content and sell advertising across multiple distribution channels including digitally via our iHeartRadio mobile application and other digital platforms which reach national, regional and local audiences. We also generate revenues from network syndication, our nationally recognized live events, our station websites and other miscellaneous transactions.

Our outdoor advertising revenue is derived from selling advertising space on the displays we own or operate in key markets worldwide, consisting primarily of billboards, street furniture and transit displays. Part of our long-term strategy for our outdoor advertising businesses is to pursue the technology of digital displays, including flat screens, LCDs and LEDs, as additions to traditional methods of displaying our clients' advertisements. We are currently installing these technologies in certain markets, both domestically and internationally. Management typically monitors our outdoor advertising business by reviewing the average rates, average revenue per display, occupancy and inventory levels of each of our display types by market.

Our advertising revenue for all of our segments is highly correlated to changes in gross domestic product ("GDP") as advertising spending has historically trended in line with GDP, both domestically and internationally. Internationally, our results are impacted by fluctuations in foreign currency exchange rates as well as the economic conditions in the foreign markets in which we have operations.

Executive Summary

Revenues and expenses “excluding the impact of foreign exchange movements” are calculated by converting the current period’s revenues and expenses in local currency to U.S. dollars using average foreign exchange rates for the prior period.

Cash Flows

The following discussion highlights cash flow activities during the six months ended June 30, 2016 and 2015, respectively:

(In thousands)	Six Months Ended June 30,	
	2016	2015
Cash provided by (used for):		
Operating activities	\$(181,650)	\$(239,606)
Investing activities	\$436,860	\$236,375
Financing activities	\$(76,313)	\$(62,044)

Operating Activities

Cash used for operating activities was \$181.7 million during the six months ended June 30, 2016 compared to \$239.6 million of cash used during the six months ended June 30, 2015. The decrease in cash used for operating activities is primarily attributed to changes in working capital balances, particularly accounts receivable, which was driven primarily by improved collections, partially offset by an increase of \$65.3 million of cash interest payments in the six months ended June 30, 2016 compared to the six months ended June 30, 2015. Cash paid for interest during the six months ended June 30, 2016 was \$873.7 million as compared to \$808.4 million paid during the six months ended June 30, 2015.

Investing Activities

Cash provided by investing activities of \$436.9 million during the six months ended June 30, 2016 reflected net cash proceeds from the sale of nine non-strategic outdoor markets including Cleveland and Columbus, Ohio, Des Moines, Iowa, Ft.

Smith, Arkansas, Memphis, Tennessee, Portland, Oregon, Reno, Nevada, Seattle, Washington and Wichita, Kansas of \$594.0 million in cash and certain advertising assets in Florida. Those sale proceeds were partially offset by \$123.7 million used for capital expenditures. We spent \$23.1 million for capital expenditures in our iHM segment primarily related to leasehold improvements and IT infrastructure, \$28.7 million in our Americas outdoor segment primarily related to the construction of new advertising structures, such as digital displays, \$66.7 million in our International outdoor segment primarily related to billboard and street furniture advertising structures, \$1.2 million in our Other category and \$4.0 million in Corporate primarily related to equipment and software purchases.

Cash provided by investing activities of \$236.4 million during the six months ended June 30, 2015 primarily reflected proceeds of \$369.0 million from the sale of broadcasting towers and related property and equipment, as well as proceeds of \$34.3 million from the sale of our San Antonio office buildings, partially offset by closing costs incurred in relation to the sale of broadcasting towers of \$10.0 million. We are leasing back a portion of the radio towers and related property and equipment, as well as the San Antonio office buildings, under long-term operating leases. Those sale proceeds were partially offset by \$124.9 million used for capital expenditures. We spent \$27.3 million for capital expenditures in our iHM segment primarily related to leasehold improvements and IT infrastructure, \$32.4 million in our Americas outdoor segment primarily related to the construction of new advertising structures, such as digital displays, \$56.9 million in our International outdoor segment primarily related to billboard and street furniture advertising structures, \$3.1 million in our Other category and \$5.2 million in Corporate primarily related to equipment and software purchases.

Financing Activities

Cash used for financing activities of \$76.3 million during the six months ended June 30, 2016 primarily resulted from dividends paid to non-controlling interests, which represents the portion of the dividends paid by CCOH in January 2016 and February 2016 to parties other than our subsidiaries that own CCOH common stock.

Cash used for financing activities of \$62.0 million during the six months ended June 30, 2015 primarily resulted from the \$42.6 million purchase of CCOH's Class A common stock and the net effect of the proceeds from the issuance of \$950.0 million of 10.625% Priority Guarantee Notes due 2023 and the use of the net proceeds primarily to prepay at par \$916.1 million of the loans outstanding under our Term Loan B facility and \$15.2 million of the loans outstanding under our Term Loan C facility.

Anticipated Cash Requirements

Our primary sources of liquidity are cash on hand, cash flow from operations, borrowing capacity under our domestic receivables based credit facility, subject to certain limitations contained in our material financing agreements and cash from liquidity-generating transactions. As of June 30, 2016, we had \$951.9 million of cash on our balance sheet, including \$439.5 million of cash held by our subsidiary, CCOH, a portion of which is held by non-wholly owned subsidiaries or is otherwise reserved for use for CCOH operations. \$156.5 million of our cash is held outside the U.S. It is our policy to permanently reinvest the earnings of our non-U.S. subsidiaries as these earnings are generally redeployed in those jurisdictions for operating needs and continued functioning of their businesses. We have the ability and intent to indefinitely reinvest the undistributed earnings of consolidated subsidiaries based outside of the United States. If any excess cash held by our foreign subsidiaries were needed to fund operations in the United States, we could presently repatriate available funds without a requirement to accrue or pay U.S. taxes. This is a result of significant deficits, as calculated for tax law purposes, in our foreign earnings and profits, which gives us flexibility to make future cash distributions as non-taxable returns of capital. As of June 30, 2016, we had a borrowing base of \$434.8 million under our receivables based credit facility, had \$230.0 million of outstanding borrowings and had \$44.3 million of outstanding letters of credit, resulting in \$160.5 million of excess availability. However, any incremental borrowings under our receivables based credit facility may be further limited by the terms contained in our material financing agreements.

In recent quarters we have relied, and we intend to continue to rely, on liquidity-generating transactions as a source of liquidity to fund working capital needs, interest payment obligations and other general corporate purposes. As described under "CCOH Dividends" below, in the first quarter of 2016, we received \$196.3 million as a dividend from CCOH funded with the proceeds of the issuance of 8.75% Senior Notes due 2020 by Clear Channel International B.V.

("CCIBV"), an indirect subsidiary of the Company and of CCOH, and \$486.5 million as a dividend from CCOH (\$186.5 million net of our concurrent repayment of the Revolving Promissory Note) funded with the proceeds of a \$300.0 million repayment under the Revolving Promissory note and the sale of CCOH's outdoor business in nine non-strategic outdoor markets. These transactions improved our liquidity position, but our annual cash interest payment obligations increased as a result of the CCIBV note issuance. We are currently exploring, and expect to continue to explore, a variety of other transactions to provide us with additional liquidity. We cannot assure you that we will enter into or consummate any such liquidity-generating transactions, or that such transactions will provide sufficient cash to satisfy our liquidity needs, and any such transactions, if consummated, could adversely affect us in other ways. Future

liquidity-generating transactions could have the effect of further increasing our annual cash interest payment obligations, reducing our cash flow from operations or reducing cash available for capital expenditures and other business initiatives.

Our primary uses of liquidity are to fund our working capital, debt service, capital expenditures and other obligations. Our ability to fund our working capital, debt service, capital expenditures and other obligations and investments, and to comply with the financial covenants under our financing agreements, depends on our future operating performance, cash flows from operations and our ability to continue to refinance our debt obligations and generate cash from additional liquidity-generating transactions, which are in turn subject to prevailing economic conditions and other factors, many of which are beyond our control. At June 30, 2016, we had debt maturities totaling \$199.2 million, \$244.0 million and \$943.3 million in 2016, 2017 and 2018, respectively. A significant amount of our cash requirements are for debt service obligations. We anticipate having approximately \$1.8 billion of cash interest payment obligations in 2016, compared to \$1.7 billion of cash interest payments in 2015. Our significant interest payment obligations reduce our financial flexibility, make us more vulnerable to changes in operating performance and economic downturns generally, reduce our liquidity over time and could negatively affect our ability to obtain additional financing in the future. Our ability to service our outstanding debt will depend on our ability to improve our operating performance, address our significant annual cash interest obligations and continue to generate liquidity through liquidity-generating transactions.

If our future operating performance does not meet our expectations, we do not generate sufficient cash through liquidity-generating transactions, or our plans materially change in an adverse manner or prove to be materially inaccurate, we may not be able to service our outstanding debt as currently contemplated. Our ability to refinance our outstanding debt in advance of or at the time of upcoming maturities will depend on the conditions of the capital markets and our financial condition at the time. There can be no assurance that refinancing alternatives will be available on terms acceptable to us or at all. Even if refinancing alternatives are available to us, we may not find them suitable or at comparable interest rates to the indebtedness being refinanced, and our annual cash interest payment obligations could increase further. In addition, the terms of our existing or future debt agreements may restrict us from securing a refinancing on terms that are available to us at that time. If we are unable to continue to obtain sources of refinancing or generate sufficient cash through liquidity-generating transactions, we could face substantial liquidity problems, which could have a material adverse effect on our financial condition and on our ability to meet our obligations. We have recently engaged in discussions with some of the holders of our secured indebtedness regarding proposed modifications to the terms of that indebtedness, but those discussions have not resulted in any agreements.

On July 15, 2016, Broader Media, LLC, our indirect wholly-owned subsidiary, repurchased approximately \$383.0 million aggregate principal amount of our 10.0% Senior Notes due 2018 for an aggregate purchase price of approximately \$222.2 million. The repurchase effectively reduces the principal amount of our debt maturing in 2018 by \$383.0 million and our consolidated annual cash interest obligations by \$38.3 million, because principal and interest payments made to our wholly-owned subsidiary are eliminated in consolidation. We may make additional repurchases of our indebtedness in the future. In addition, we frequently evaluate strategic opportunities both within and outside our existing lines of business. We expect from time to time to pursue acquisitions or dispositions, which could be material. Our and our subsidiaries' significant amount of indebtedness may limit our ability to pursue acquisitions or dispositions. The terms of our existing or future debt agreements may also restrict our ability to engage in these transactions.

Based on our current and anticipated levels of operations and conditions in our markets, we believe that cash on hand, cash flow from operations, borrowing capacity under our receivables based credit facility and cash from other liquidity-generating transactions will enable us to meet our working capital, debt service, capital expenditure and other funding requirements for at least the next 12 months. Significant assumptions underlie this belief, including, among other things there will be no material adverse developments in our business, liquidity or capital requirements, that we will be able to consummate liquidity-generating transactions in a timely manner and on terms acceptable to us and that we can continue to implement our long-term business plans, which include promoting spending in our industries and capitalizing on our diverse geographic and product opportunities, including the continued investment in our media and

entertainment initiatives and continued deployment of digital displays. We cannot assure you this will be the case. If our future cash flows from operations, financing sources and other liquidity-generating transactions are insufficient to service our debt or to fund our other liquidity needs, we may be forced to reduce or delay our business activities and capital expenditures, sell material assets, seek additional capital or refinance our and our subsidiaries' debt. We cannot assure you that we would be able to accomplish any of these alternatives on a timely basis or on satisfactory terms, if at all.

We were in compliance with the covenants contained in our material financing agreements as of June 30, 2016, including the maximum consolidated senior secured net debt to consolidated EBITDA limitation contained in our senior secured credit facilities. However, our future results are subject to significant uncertainty and there can be no assurance that we will be able to maintain compliance with these covenants. Our ability to comply with these covenants in the future may be affected by events beyond our control, including prevailing economic, financial and industry conditions. The breach of any covenants set forth in our financing agreements would result in a default thereunder. An event of default would permit the lenders under a defaulted

financing agreement to declare all indebtedness thereunder to be due and payable prior to maturity. Moreover, the lenders under the receivables based credit facility under our senior secured credit facilities would have the option to terminate their commitments to make further extensions of credit thereunder. If we are unable to repay our obligations under any secured credit facility, the lenders could proceed against any assets that were pledged to secure such facility. In addition, a default or acceleration under any of our material financing agreements could cause a default under other of our obligations that are subject to cross-default and cross-acceleration provisions. The threshold amount for a cross-default under the senior secured credit facilities is \$100.0 million.

The receivables based credit facility provides for borrowings of up to the lesser of \$535.0 million (the revolving (1) credit commitment) or the borrowing base amount, as defined under the receivables based credit facility, subject to certain limitations contained in our material financing agreements.

(2) The subsidiary revolving credit facility provides for borrowings of up to \$75.0 million (the revolving credit commitment).

On July 15, 2016, Broader Media, LLC, our indirect wholly-owned subsidiary, repurchased approximately \$383.0 (3) million aggregate principal amount of our 10.0% Senior Notes due 2018 for an aggregate purchase price of approximately \$222.2 million.

Our subsidiaries have from time to time repurchased certain other debt obligations of ours and equity securities of Parent and CCOH, and may in the future, as part of various financing and investment strategies, purchase additional outstanding indebtedness of ours or our subsidiaries or equity securities of Parent and CCOH, in tender offers, open market purchases, privately negotiated transactions or otherwise. We or our subsidiaries may also sell certain assets, securities or properties. These purchases or sales, if any, could have a material positive or negative impact on our liquidity available to repay outstanding debt obligations or on our consolidated results of operations. These transactions could also require or result in amendments to the agreements governing outstanding debt obligations or changes in our leverage or other financial ratios, which could have a material positive or negative impact on our ability to comply with the covenants contained in our debt agreements. These transactions, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

Senior Secured Credit Facilities

The senior secured credit facilities require us to comply on a quarterly basis with a financial covenant limiting the ratio of consolidated secured debt, net of cash and cash equivalents, to consolidated EBITDA (as defined by our senior secured credit facilities) for the preceding four quarters. Our secured debt consists of the senior secured credit facilities, the receivables based credit facility, the priority guarantee notes and certain other secured subsidiary debt. As required by the definition of consolidated EBITDA in our senior secured credit facilities, our consolidated EBITDA for the preceding four quarters of \$1.8 billion is calculated as operating income (loss) before depreciation, amortization, impairment charges and gains and losses on acquisitions and divestitures plus share-based compensation and is further adjusted for the following items: (i) costs incurred in connection with the closure and/or consolidation of facilities, retention charges, consulting fees and other permitted activities; (ii) extraordinary, non-recurring or unusual gains or losses or expenses and severance; (iii) non-cash charges; (iv) cash received from nonconsolidated affiliates; and (v) various other items.

The following table reflects a reconciliation of consolidated EBITDA (as defined by our senior secured credit facilities) to operating income and net cash provided by operating activities for the four quarters ended June 30, 2016:

The maximum ratio permitted under this financial covenant was 8.75:1 for the four quarters ended June 30, 2016. As of June 30, 2016, our ratio was 6.6:1.

In addition, the senior secured credit facilities include negative covenants that, subject to significant exceptions, limit our ability and the ability of its restricted subsidiaries to, among other things:

- incur additional indebtedness;
- create liens on assets;
- engage in mergers, consolidations, liquidations and dissolutions;
- sell assets;
- pay dividends and distributions or repurchase our capital stock;
- make investments, loans, or advances;
- prepay certain junior indebtedness;
- engage in certain transactions with affiliates;
- amend material agreements governing certain junior indebtedness; and
- change lines of business.

The senior secured credit facilities include certain customary representations and warranties, affirmative covenants and events of default, including payment defaults, breach of representations and warranties, covenant defaults, cross-defaults to certain indebtedness, certain events of bankruptcy, certain events under ERISA, material judgments, the invalidity of material provisions of the senior secured credit facilities documentation, the failure of collateral under the security documents for the senior secured credit facilities, the failure of the senior secured credit facilities to be senior debt under the subordination provisions of certain of our subordinated debt and a change of control. If an event of default occurs, the lenders under the senior secured credit facilities will be entitled to take various actions, including the acceleration of all amounts due under the senior secured credit facilities and all actions permitted to be taken by a secured creditor.

Debt Issuance

On February 26, 2015, we issued at par \$950.0 million aggregate principal amount of 10.625% Priority Guarantee Notes due 2023 and used the net proceeds from the offering primarily to prepay our Term Loans B and C due 2016.

Sale-Leasebacks

During the second and third quarters of 2015, Parent and certain of the Company's subsidiaries entered into sale-leaseback arrangements, in which the Company's subsidiaries sold 376 of its broadcast communication tower sites and related assets for \$369.9 million. Simultaneous with the sales, Parent entered into lease agreements for the continued use of space on 367 of the towers sold.

On January 15, 2016, Parent and certain of our subsidiaries completed the final closing for the sale of six of the Company's broadcast communication tower sites and related assets for approximately \$5.5 million. Simultaneous with the sales, the Company entered into lease agreements for the continued use of tower space. The leases entered into as a part of these transactions are for a term of fifteen years and include three optional five-year renewal periods.

Disposals

In the first quarter of 2016, Americas outdoor sold nine non-strategic outdoor markets including Cleveland and Columbus, Ohio, Des Moines, Iowa, Ft. Smith, Arkansas, Memphis, Tennessee, Portland, Oregon, Reno, Nevada, Seattle, Washington and Wichita, Kansas for net proceeds of \$594.0 million in cash and certain advertising assets in Florida.

In the second quarter of 2016, International outdoor sold its business in Turkey. As a result, we recognized a net loss of \$56.6 million, which includes \$32.2 million in cumulative translation adjustments that were recognized upon sale of the subsidiaries in Turkey.

Uses of Capital

Debt Repayments, Maturities and Other

On July 15, 2016, Broader Media, LLC, our indirect wholly-owned subsidiary, repurchased approximately \$383.0 million aggregate principal amount of our 10.0% Senior Notes due 2018 for an aggregate purchase price of approximately \$222.2 million.

On February 26, 2015, we prepaid at par \$916.1 million of loans outstanding under our Term Loan B facility and \$15.2 million of loans outstanding under our Term Loan C asset sale facility, using a portion of the net proceeds of the 10.625% Priority Guarantee Notes due 2023 issued on such date.

Certain Relationships with the Sponsors

We are party to a management agreement with certain affiliates of the Sponsors and certain other parties pursuant to which such affiliates of the Sponsors will provide management and financial advisory services until 2018. These arrangements require management fees to be paid to such affiliates of the Sponsors for such services at a rate not greater than \$15.0 million per year, plus reimbursable expenses. For the three months ended June 30, 2016 and 2015, we recognized management fees and reimbursable expenses of \$3.8 million and \$3.9 million, respectively. For the six months ended June 30, 2016 and 2015, we recognized management fees and reimbursable expenses of \$7.6 million and \$7.8 million, respectively.

CCOH Dividends

In connection with the cash management arrangements for CCOH, we maintain an intercompany revolving promissory note payable by us to CCOH (the "Note"), which consists of the net activities resulting from day-to-day cash management services provided by us to CCOH. As of June 30, 2016, the balance of the Note was \$689.6 million, all of which is payable on demand. The Note is eliminated in consolidation in our consolidated financial statements.

The Note previously was the subject of litigation. Pursuant to the terms of the settlement of that litigation, CCOH's board of directors established a committee for the specific purpose of monitoring the Note. That committee has the non-exclusive authority, pursuant to the terms of its charter, to demand payments under the Note under certain specified circumstances tied to the Company's liquidity or the amount outstanding under the Note as long as CCOH makes a simultaneous dividend equal to the amount so demanded.

In the fourth quarter of 2015, CCIBV, an indirect wholly-owned subsidiary of the Company and of CCOH, issued \$225.0 million in aggregate principal amount of 8.75% Senior Notes due 2020, the proceeds of which were used to fund a dividend by CCOH, which was paid on January 7, 2016. We received \$196.3 million of the dividend through three of our wholly-owned subsidiaries, and approximately \$21.5 million was paid to the public stockholders of CCOH.

In the first quarter of 2016, CCOH sold its business in nine non-strategic Americas outdoor markets for a net purchase price of \$594.0 million in cash and certain advertising assets in Florida (the "Outdoor Transactions"). Following the completion of the Outdoor Transactions on February 4, 2016, the board of directors of CCOH made a demand for the repayment of \$300.0 million outstanding on the Note and paid a special cash dividend in an aggregate amount of \$540.0 million. A portion of the proceeds of the Outdoor Transactions, together with the proceeds from the concurrent \$300.0 million repayment of the Note, were used to fund the dividends. We received \$486.5 million of the dividend proceeds (\$186.5 million net of our repayment of the Note) through three of our wholly-owned subsidiaries, and approximately \$53.5 million was paid to the public stockholders of CCOH.

Commitments, Contingencies and Guarantees

We are currently involved in certain legal proceedings arising in the ordinary course of business and, as required, have accrued our estimate of the probable costs for resolution of those claims for which the occurrence of loss is probable and the amount can be reasonably estimated. These estimates have been developed in consultation with counsel and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. It is possible, however, that future results of operations for any particular period could be materially affected by changes in our assumptions or the effectiveness of our strategies related to these proceedings. Please refer to "Legal Proceedings" in Part II, Item 1 of this Quarterly Report on Form 10-Q.

SEASONALITY

Typically, the iHM, Americas outdoor and International outdoor segments experience their lowest financial performance in the first quarter of the calendar year, with International outdoor historically experiencing a loss from operations in that period. Our International outdoor segment typically experiences its strongest performance in the second and fourth quarters of the calendar year. We expect this trend to continue in the future. In addition, the majority of interest payments made in relation to long-term

debt are paid in the first and third quarters of each calendar year. Due to this seasonality and certain other factors, the results for the interim periods may not be indicative of results for the full year.

MARKET RISK

We are exposed to market risks arising from changes in market rates and prices, including movements in interest rates, foreign currency exchange rates and inflation.

Interest Rate Risk

A significant amount of our long-term debt bears interest at variable rates. Accordingly, our earnings will be affected by changes in interest rates. As of June 30, 2016, approximately 31% of our aggregate principal amount of long-term debt bears interest at floating rates. Assuming the current level of borrowings and assuming a 100% change in LIBOR, it is estimated that our interest expense for the six months ended June 30, 2016 would have changed by \$14.4 million.

In the event of an adverse change in interest rates, management may take actions to mitigate our exposure. However, due to the uncertainty of the actions that would be taken and their possible effects, the preceding interest rate sensitivity analysis assumes no such actions. Further, the analysis does not consider the effects of the change in the level of overall economic activity that could exist in such an environment.

Foreign Currency Exchange Rate Risk

We have operations in countries throughout the world. Foreign operations are measured in their local currencies. As a result, our financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in the foreign markets in which we have operations. We believe we mitigate a small portion of our exposure to foreign currency fluctuations with a natural hedge through borrowings in currencies other than the U.S. dollar. Our foreign operations reported net loss of \$42.1 million and a net loss of \$72.6 million for three and six months ended June 30, 2016, respectively. We estimate a 10% increase in the value of the U.S. dollar relative to foreign currencies would have decreased our net loss for the three months ended June 30, 2016 by \$4.2 million and decreased our net loss for the six months ended June 30, 2016 by \$7.3 million. A 10% decrease in the value of the U.S. dollar relative to foreign currencies during the three and six months ended June 30, 2016 would have increased our net loss by a corresponding amount.

This analysis does not consider the implications that such currency fluctuations could have on the overall economic activity that could exist in such an environment in the U.S. or the foreign countries or on the results of operations of these foreign entities.

Inflation

Inflation is a factor in the economies in which we do business and we continue to seek ways to mitigate its effect. Inflation has affected our performance in terms of higher costs for wages, salaries and equipment. Although the exact impact of inflation is indeterminable, we believe we have offset these higher costs by increasing the effective advertising rates of most of our broadcasting stations and outdoor display faces in our iHM, Americas outdoor and International outdoor operations.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements made by us or on our behalf. Except for the historical information, this report contains various forward-looking statements which represent our expectations or beliefs concerning future events, including, without limitation, our future operating and financial performance, our liquidity, our ability to comply with the covenants in the agreements governing our indebtedness and the availability of capital and the terms thereof. Statements expressing expectations and projections with respect to future matters are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. We caution that these forward-looking statements involve a number of risks and uncertainties and are subject to many variables which could impact our future performance. These statements are made on the basis of management's views and assumptions, as of the time the statements are made, regarding future events and performance. There can be no assurance, however, that management's expectations will necessarily come to pass. Actual future events and performance may differ materially from the expectations reflected in our forward-looking statements. We do not intend, nor do we undertake any duty, to update any forward-looking statements.

A wide range of factors could materially affect future developments and performance, including but not limited to:

- the impact of our substantial indebtedness, including the effect of our leverage on our financial position and earnings;
- our ability to generate sufficient cash from operations and other liquidity-generating transactions and our need to allocate significant amounts of our cash to make payments on our indebtedness, which in turn could reduce our financial flexibility and ability to fund other activities;
- risks associated with weak or uncertain global economic conditions and their impact on the capital markets;
- other general economic and political conditions in the United States and in other countries in which we currently do business, including those resulting from recessions, political events and acts or threats of terrorism or military conflicts;
- industry conditions, including competition;
- the level of expenditures on advertising;
- legislative or regulatory requirements;
- fluctuations in operating costs;
- technological changes and innovations;
- changes in labor conditions, including programming, program hosts and management;

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Required information is presented under "Market Risk" within Item 2 of this Part I.

ITEM 4. CONTROLS AND PROCEDURES

As required by Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), under the supervision and with the participation of management, including our Chief Executive Officer and our Chief Financial Officer, we have carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Our disclosure controls and procedures are designed to provide reasonable assurance that information we are required to disclose in reports that are filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified by the SEC. Based on that evaluation, our Chief Executive Officer

and our Chief Financial Officer concluded that our disclosure controls and procedures were effective as of June 30, 2016 at the reasonable assurance level.

There were no changes in our internal control over financial reporting that occurred during the quarter ended June 30, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II -- OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We currently are involved in certain legal proceedings arising in the ordinary course of business and, as required, have accrued an estimate of the probable costs for the resolution of those claims for which the occurrence of loss is probable and the amount can be reasonably estimated. These estimates have been developed in consultation with counsel and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. It is possible, however, that future results of operations for any particular period could be materially affected by changes in our assumptions or the effectiveness of our strategies related to these proceedings. Additionally, due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on our financial condition or results of operations.

Although we are involved in a variety of legal proceedings in the ordinary course of business, a large portion of our litigation arises in the following contexts: commercial disputes; defamation matters; employment and benefits related claims; governmental fines; intellectual property claims; and tax disputes.

International Outdoor Investigation

On April 21, 2015, inspections were conducted at the premises of Clear Channel in Denmark and Sweden as part of an investigation by Danish competition authorities. Additionally, on the same day, Clear Channel UK received a communication from the UK competition authorities, also in connection with the investigation by Danish competition authorities. Clear Channel and its affiliates are cooperating with the national competition authorities.

Noteholder Litigation

On March 7, 2016, we initiated an action against, among others, certain holders of our senior secured indebtedness (the "Holders"), which was styled iHeartCommunications, Inc., f/k/a Clear Channel Communications, Inc. v. Benefit Street Partners LLC, et al., in the 285th Judicial District, Bexar County, Texas (the "Texas Court"), as Cause No. 2016 CI 04006 (the "Initial Texas Litigation"). The defendants included, among others, Benefit Street Partners LLC, and certain related entities, Canyon Capital Advisors LLC, D. E. Shaw Galvanic Portfolios, LLC, Franklin Advisers, Inc., Franklin Mutual Advisers, LLC, OZ Management LP and OZ Management II LP, and the indenture trustees under the Indentures (collectively, the "Defendants"). The Texas Litigation related to the contribution (the "Contribution") on December 3, 2015 of 100,000,000 shares of Class B common stock of CCOH (the "Shares"), from Clear Channel Holdings, Inc., one of our wholly-owned subsidiaries that is a "restricted subsidiary" under our various debt documents, to Broader Media, LLC, one of our wholly-owned subsidiaries that is an "unrestricted subsidiary" under our various debt documents. Certain of the Holders alleged that the Contribution violated certain covenants in certain of our priority guarantee note indentures and issued notices of default on March 7, 2016 (the "Notices of Default"). The Texas Court held a bench trial on the merits from May 16 through May 20, 2016. On May 24, 2016, the Texas Court signed the Final Judgment Granting Declaratory Judgment And Permanent Injunction (the "Final Judgment"), which, among other things, granted our amended petition seeking a declaratory judgment, finding that the Contribution did not violate the indentures governing the priority guarantee notes, and that we were not in default under those indentures as a result of the Contribution. The Texas Court further granted our request for a permanent injunction, permanently rescinded the Notices of Default, and enjoined the defendants from further issuing or threatening to issue Notices of Default as a result of the Contribution. On July 5, 2016, the Texas Court issued its findings of fact and conclusions of law and denied a motion by the Holders for reconsideration of the Final Judgment. The ruling is still subject to appeal, though none has been filed through August 2, 2016.

On July 26, 2016, we initiated an action against, among others, certain holders of the Company's Priority Guarantee Notes ("PGNs"), which is styled iHeartCommunications, Inc., f/k/a Clear Channel Communications, Inc. v. Benefit Street Partners LLC, et al., in the 224th Judicial District, Bexar County, Texas, as Cause No. 2016 CI 12468 (the "Second Texas Litigation"). The defendants include, among others, Benefit Street Partners LLC and certain related entities, Canyon Capital Advisors LLC, D. E. Shaw Galvanic Portfolios, LLC, M.H. Davidson & Co., Davidson Kempner Partners, Davidson Kempner International, Ltd., Davidson Kempner Institutional Partners, L.P., Islington Partner, L.P., Bluejay Securities LLC, Franklin Mutual Advisers, LLC, Franklin Advisers, Inc., Taconic Opportunity Master Fund L.P., Taconic Master Fund 1.5 L.P., Watershed Capital Partners (Offshore) Master Fund, L.P. and

certain related entities, Wingspan Investment Management, LP, OZ Management LP and OZ Management II LP, and the indenture trustees under the PGN Indentures (the "Indentures").

On July 15, 2016, Broader Media, LLC repurchased an aggregate of approximately \$383.0 million principal amount of our 10% Senior Notes due 2018 (the "2018 Notes") for an aggregate purchase price of \$222.2 million, and we, through one or more unrestricted subsidiaries, intend to acquire more of our outstanding indebtedness, through additional repurchases, exchange offers and other similar transactions. The Second Texas Litigation relates to defendants' actions in threatening to issue and then

issuing notices of default against the Company challenging the Contribution without basis, as well as the defendants' assertions that any repurchases of our debt by Broader Media, LLC would violate the Indentures. We are seeking, among other things, damages for the defendants' tortious interference, economic duress, civil conspiracy and breach of the covenant of good faith and fair dealing. We are also seeking a declaratory judgment that the Indentures do not prevent Broader Media, LLC and other "unrestricted subsidiaries" from repurchasing our debt, that Broader Media, LLC's repurchase of the 2018 Notes on July 15, 2016 did not violate the Indentures, and therefore that any repurchases of our debt by Broader Media, LLC provides no justification for the issuance of any new notices of default.

Stockholder Litigation

On May 9, 2016, a stockholder of CCOH filed a derivative lawsuit in the Court of Chancery of the State of Delaware, captioned GAMCO Asset Management Inc. v. iHeartMedia Inc. et al., C.A. No. 12312-VCS. The complaint names as defendants us, Parent, Bain Capital Partners, LLC and Thomas H. Lee Partners, L.P. (together, the "Sponsor Defendants"), our private equity sponsors and majority owners, and the members of CCOH's board of directors. CCOH also is named as a nominal defendant. The complaint alleges that the defendants have breached their fiduciary duties by causing CCOH to: (i) continue to loan cash to us under the intercompany note at below-market rates; (ii) abandon its growth and acquisition strategies in favor of transactions that would provide cash to Parent and us; (iii) issue new debt in the CCIBV note offering (the "CCIBV Note Offering") to provide cash to Parent and us through a dividend; and (iv) effect the sales of certain outdoor markets in the U.S. (the "Outdoor Asset Sales") to provide cash to Parent and us through a dividend. The complaint also alleges that we, Parent and the Sponsor Defendants aided and abetted the directors' breaches of their fiduciary duties. The complaint further alleges that we, Parent and the Sponsor Defendants were unjustly enriched as a result of these transactions and that these transactions constituted a waste of corporate assets for which the defendants are liable to CCOH. The plaintiff is seeking, among other things, a ruling that the defendants breached their fiduciary duties to CCOH and that we, Parent and the Sponsor Defendants aided and abetted the CCOH board of directors' breaches of fiduciary duty, rescission of payments made by CCOH to us and its affiliates pursuant to dividends declared in connection with the CCIBV Note Offering and Outdoor Asset Sales, and an order requiring we, Parent and the Sponsor Defendants to disgorge all profits they have received as a result of the alleged fiduciary misconduct.

On May 26, 2016, the plaintiff filed a motion seeking expedited discovery and an expedited trial on certain counts of its complaint. On June 27, 2016, the court denied the motion for an expedited trial and discovery, and on July 12, 2016, the parties stipulated to a schedule that would allow for a decision on the defendants' forthcoming motion to dismiss by mid-September and a trial, if necessary, beginning February 27, 2017. On July 20, 2016, the defendants filed a motion to dismiss.

ITEM 1A. RISK FACTORS

Except as set forth below, there have been no material changes to the Risk Factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015. The following risk factor updates and amends certain of the "Risks Related to Our Business" included in our Annual Report on Form 10-K for the year ended December 31, 2015.

Our financial performance may be adversely affected by many factors beyond our control

Certain factors that could adversely affect our financial performance by, among other things, decreasing overall revenues, the numbers of advertising customers, advertising fees or profit margins include:

unfavorable fluctuations in operating costs, which we may be unwilling or unable to pass through to our customers; our inability to successfully adopt or are late in adopting technological changes and innovations that offer more attractive advertising alternatives than what we offer, which could result in a loss of advertising customers or lower advertising rates, which could have a material adverse effect on our operating results and financial performance; unfavorable shifts in population and other demographics, which may cause us to lose advertising customers as people migrate to markets where we have a smaller presence or which may cause advertisers to be willing to pay less in advertising fees if the general population shifts into a less desirable age or geographical demographic from an advertising perspective;

adverse political effects and acts or threats of terrorism or military conflicts;

and

unfavorable changes in labor conditions, which may impair our ability to operate or require us to spend more to retain and attract key employees.

In addition, on June 23, 2016, the United Kingdom (the “U.K.”) held a referendum in which voters approved an exit from the European Union (the “E.U.”), commonly referred to as “Brexit”. International outdoor is currently headquartered in the U.K. and we transact business in many key European markets. The announcement of Brexit caused the British pound currency rate to

weaken against the U.S. dollar. Further, Brexit may create global economic uncertainty, which may cause our customers to closely monitor their costs and reduce the amount they spend on advertising. Any of these effects of Brexit, among others, could adversely affect our business, financial condition, operating results and cash flows.
