## EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the period ended June 30, 2014 of both Duke Realty Corporation and Duke Realty Limited Partnership. Unless stated otherwise or the context otherwise requires, references to "Duke Realty Corporation" or the "General Partner" mean Duke Realty Corporation and its consolidated subsidiaries; and references to the "Partnership" mean Duke Realty Limited Partnership and its consolidated subsidiaries. The terms the "Company," "we," "us" and "our" refer to the General Partner and the Partnership, collectively, and those entities owned or controlled by the General Partner and/or the Partnership.

Duke Realty Corporation is a self-administered and self-managed real estate investment trust ("REIT") and is the sole general partner of the Partnership, owning 98.7% of the common partnership interests of the Partnership ("General Partner Units") as of June 30, 2014. The remaining 1.3% of the common partnership interests ("Limited Partner Units" and, together with the General Partner Units, the "Common Units") are owned by limited partners. As the sole general partner of the Partnership, the General Partner has full, exclusive and complete responsibility and discretion in the day-to-day management and control of the Partnership. The General Partner also owns all of the issued and outstanding preferred partnership interests in the Partnership ("Preferred Units").

The General Partner and the Partnership are operated as one enterprise. The management of the General Partner consists of the same members as the management of the Partnership. As the sole general partner with control of the Partnership, the General Partner consolidates the Partnership for financial reporting purposes, and the General Partner does not have any significant assets other than its investment in the Partnership. Therefore, the assets and liabilities of the General Partner and the Partnership are substantially the same.

We believe combining the quarterly reports on Form 10-Q of the General Partner and the Partnership into this single report results in the following benefits:

- enhances investors' understanding of the General Partner and the Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;
- eliminates duplicative disclosure and provides a more streamlined and readable presentation of information since a substantial portion of the Company's disclosure applies to both the General Partner and the Partnership; and
- creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

We believe it is important to understand the few differences between the General Partner and the Partnership in the context of how we operate as an interrelated consolidated company. The General Partner's only material asset is its ownership of partnership interests in the Partnership. As a result, the General Partner does not conduct business itself, other than acting as the sole general partner of the Partnership and issuing public equity from time to time. The General Partner does not issue any indebtedness, but does guarantee some of the unsecured debt of the Partnership. The Partnership holds substantially all the assets of the business, directly or indirectly, and holds the ownership interests related to certain of the Company's investments. The Partnership conducts the operations of the business and has no publicly traded equity. Except for net proceeds from equity issuances by the General Partner, which are contributed to the Partnership in exchange for General Partner Units or Preferred Units, the Partnership generates the capital required by the business through its operations, its incurrence of indebtedness and the issuance of Limited Partner Units to third parties.

Noncontrolling interests, shareholders' equity and partners' capital are the main areas of difference between the consolidated financial statements of the General Partner and those of the Partnership. The noncontrolling interests in the Partnership's financial statements include the interests in consolidated investees not wholly owned by the Partnership. The noncontrolling interests in the General Partner's financial statements include the same noncontrolling interests at the Partnership level, as well as the common limited partnership interests in the Partnership, which are accounted for as partners' capital by the Partnership.

In order to highlight the differences between the General Partner and the Partnership, there are separate sections in this report, as applicable, that separately discuss the General Partner and the Partnership, including separate financial statements and separate Exhibit 31 and 32 certifications. In the sections that combine disclosure of the General Partner and the Partnership, this report refers to actions or holdings as being actions or holdings of the collective Company.

DUKE REALTY CORPORATION AND DUKE REALTY LIMITED PARTNERSHIP  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

1. General Basis of Presentation

The interim consolidated financial statements included herein have been prepared by Duke Realty Corporation (the "General Partner") and Duke Realty Limited Partnership (the "Partnership"). In this Report, unless the context indicates otherwise, the terms "Company," "we," "us" and "our" refer to the General Partner and the Partnership, collectively, and those entities owned or controlled by the General Partner and/or the Partnership. The 2013 year-end consolidated balance sheet data included in this Quarterly Report on Form 10-Q (this "Report") was derived from the audited financial statements in the combined Annual Report on Form 10-K of the General Partner and the Partnership for the year ended December 31, 2013, but does not include all disclosures required by accounting principles generally accepted in the United States of America ("GAAP"). The financial statements have been prepared in accordance with GAAP for interim financial information and in accordance with Rule 10-01 of Regulation S-X of the Securities Exchange Act of 1934, as amended. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and revenue and expenses during the reporting period. Our actual results could differ from those estimates and assumptions. These financial statements should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations included herein and the consolidated financial statements and notes thereto included in the combined Annual Report on Form 10-K of the General Partner and the Partnership for the year ended December 31, 2013. The General Partner was formed in 1985, and we believe that it qualifies as a real estate investment trust ("REIT") under the provisions of the Internal Revenue Code of 1986, as amended (the "Code"). The Partnership was formed on October 4, 1993, when the General Partner contributed all of its properties and related assets and liabilities, together with the net proceeds from an offering of additional shares of its common stock, to the Partnership. Simultaneously, the Partnership completed the acquisition of Duke Associates, a full-service commercial real estate firm operating in the Midwest whose operations began in 1972.

The General Partner is the sole general partner of the Partnership, owning approximately 98.7% of the common partnership interests of the Partnership ("General Partner Units") at June 30, 2014. The remaining 1.3% of the common partnership interests ("Limited Partner Units" and, together with the General Partner Units, the "Common Units") are owned by limited partners. As the sole general partner of the Partnership, the General Partner has full, exclusive and complete responsibility and discretion in the day-to-day management and control of the Partnership. The General Partner and the Partnership are operated as one enterprise. The management of the General Partner consists of the same members as the management of the Partnership. As the sole general partner with control of the Partnership, the General Partner consolidates the Partnership for financial reporting purposes, and the General Partner does not have any significant assets other than its investment in the Partnership. Therefore, the assets and liabilities of the General Partner and the Partnership are substantially the same.

Limited Partners have the right to redeem their Limited Partner Units, subject to certain restrictions. Pursuant to the Fifth Amended and Restated Agreement of Limited Partnership (the "Partnership Agreement"), the General Partner is obligated to redeem the Limited Partner Units in shares of its common stock, unless it determines in its reasonable discretion that the issuance of shares of its common stock could cause it to fail to qualify as a REIT. Each Limited Partner Unit shall be redeemed for one share of the General Partner's common stock, or, in the event that the issuance of shares could cause the General Partner to fail to qualify as a REIT, cash equal to the fair market value of one share of the General Partner's common stock at the time of redemption, in each case, subject to certain adjustments described in the Partnership Agreement. The Limited Partner Units are not required, per the terms of the Partnership Agreement, to be redeemed in registered shares of the General Partner. The General Partner also owns preferred partnership interests in the Partnership ("Preferred Units").

We own and operate a portfolio primarily consisting of industrial, office and medical office properties and provide real estate services to third-party owners. Substantially all of our Rental Operations (see Note 10) are conducted through the Partnership. We conduct our Service Operations (see Note 10) through Duke Realty Services, LLC, Duke Realty Services Limited Partnership and Duke Construction Limited Partnership ("DCLP"), which are consolidated entities that are 100% owned by a combination of the General Partner and the Partnership. DCLP is owned through a taxable REIT subsidiary. The consolidated financial statements include our accounts and the accounts of our majority-owned or controlled subsidiaries.

## 2. New Accounting Pronouncements

### Discontinued Operations

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity ("ASU 2014-08"). Under ASU 2014-08, only disposals representing a strategic shift in operations (for example, a disposal of a major geographic area or a major line of business) will be presented as discontinued operations, while significant continuing involvement with such dispositions will no longer preclude discontinued operations classification. As current GAAP generally requires companies that sell a single investment property to report the sale as a discontinued operation, the implementation of ASU 2014-08 will result in us reporting only sales that represent strategic shifts in operations as discontinued operations. ASU 2014-08 will also require additional disclosures for discontinued operations as well as for material property dispositions that do not meet the new criteria for discontinued operation classification.

ASU 2014-08 is effective for fiscal years beginning on or after December 15, 2014, with early adoption permitted only for disposals or classifications as held for sale that have not been reported in financial statements previously issued or available for issuance. We adopted ASU 2014-08 early and have applied it with respect to such items since April 1, 2014.

### Revenue Recognition

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers ("ASU 2014-09"). ASU 2014-09 is a comprehensive revenue recognition standard that will supersede nearly all existing GAAP revenue recognition guidance as well as impact the existing GAAP guidance governing the sale of nonfinancial assets. The standard's core principle is that a company will recognize revenue when it satisfies performance obligations, by transferring promised goods or services to customers, in an amount that reflects the consideration to which the company expects to be entitled in exchange for fulfilling those performance obligations. In doing so, companies will need to exercise more judgment and make more estimates than under existing GAAP guidance.

ASU 2014-09 will be effective for public entities for annual and interim reporting periods beginning after December 15, 2016 and early adoption is not permitted. ASU 2014-09 allows for either recognizing the cumulative effect of application (i) at the start of the earliest comparative period presented (with the option to use any or all of three practical expedients) or (ii) at the date of initial application, with no restatement of comparative periods presented. We have not yet selected a transition method nor have we determined the effect of ASU 2014-09 on our ongoing financial reporting.

## 3. Reclassifications

Certain amounts in the accompanying consolidated financial statements for 2013 have been reclassified to conform to the 2014 consolidated financial statement presentation.

## 4. Variable Interest Entities

In June 2014, one of our unconsolidated joint ventures, which we had previously determined to be a variable interest entity ("VIE"), sold its sole property and repaid all of its third-party debt. The sale of this property caused the joint venture to no longer meet the criteria to be considered a VIE. As such, at June 30, 2014, there was one

remaining unconsolidated joint venture that met the criteria to be considered a VIE. This unconsolidated joint venture was formed with the sole purpose of developing, constructing, leasing, marketing and selling or operating properties. The business activities of this unconsolidated joint venture have been financed through a combination of equity contributions, partner/member loans, and third-party debt that we have guaranteed. All significant decisions for this unconsolidated joint venture, including those decisions that most significantly impact its economic performance, require unanimous approval of the joint venture's partners or members. In certain cases, these decisions also require lender approval. Unanimous approval requirements for this unconsolidated joint venture include entering into new leases, setting annual operating budgets, selling underlying properties, and incurring additional indebtedness. Because no single entity exercises control over the decisions that most significantly affect this joint venture's economic performance, we determined there to be no individual primary beneficiary and that the equity method of accounting is appropriate.

The following table provides a summary of the carrying value in our consolidated balance sheet, as well as our maximum loss exposure under the guarantee for the one unconsolidated subsidiary that we have determined to be a VIE at June 30, 2014 (in millions):

	Carrying Value	Maximum Loss Exposure
Investment in unconsolidated companies	\$6.2	\$ 6.2
Guarantee obligations (1)	\$(5.0	) \$ (99.4 )

We are party to a guarantee of the third-party debt of the joint venture that we have determined is a VIE, and our (1) maximum loss exposure is equal to the outstanding borrowings on the joint venture's debt. The carrying value of our recorded guarantee obligation is included in other liabilities in our Consolidated Balance Sheets.

Our maximum loss exposure for guarantees of joint venture indebtedness, including guarantees of the debt of joint ventures that are not VIEs, totaled \$212.9 million at June 30, 2014.

## 5. Acquisitions and Dispositions

### 2014 Acquisitions

We acquired two industrial properties, a building in Atlanta, Georgia and a building in the Lehigh Valley region of Pennsylvania, during the six months ended June 30, 2014. The following table summarizes the fair value of amounts recognized for each major class of asset and liability (in thousands) for these acquisitions:

Real estate assets	\$80,731
Lease related intangible assets	9,857
Total acquired assets	90,588
Other liabilities	54
Total assumed liabilities	54
Fair value of acquired net assets	\$90,534

The leases in the acquired properties had a remaining life at acquisition of approximately 9.2 years.

We have included \$1.6 million in rental revenues and \$5,000 in earnings from continuing operations during 2014 for these properties since their respective dates of acquisition.

### Fair Value Measurements

The fair value estimates used in allocating the aggregate purchase price of each acquisition among the individual components of real estate assets and liabilities were determined primarily through calculating the "as-if vacant" value of each building, using the income approach, and relied significantly upon internally determined assumptions. We have determined these estimates to have been primarily based upon Level 3 inputs, which are unobservable

inputs based on our own assumptions. The range of most significant assumptions utilized in making the lease-up and future disposition estimates used in calculating the "as-if vacant" value of each building acquired during the six months ended June 30, 2014 were as follows:

	Low	High	
Discount rate	7.38	% 7.68	%
Exit capitalization rate	5.98	% 6.38	%
Lease-up period (months)	12	12	
Net rental rate per square foot – Industrial	\$2.75	\$4.46	

#### Acquisition-Related Activity

The acquisition-related activity in our Consolidated Statements of Operations and Comprehensive Income for the six months ended June 30, 2014 and 2013 consisted of transaction costs related to completed acquisitions, which are expensed as incurred, as well as gains or losses related to acquisitions where we had a pre-existing non-controlling ownership interest. We expensed \$761,000 and \$2.7 million, respectively, for acquisition-related transaction costs incurred in the six months ended June 30, 2014 and 2013. During the six months ended June 30, 2013, we also recognized a gain of \$962,000 on the pre-existing ownership interest that we held in an industrial property we acquired in that period.

#### Dispositions

We disposed of 21 consolidated income-producing real estate assets and 86 acres of undeveloped land during the six months ended June 30, 2014. We received net cash proceeds from property and land dispositions of \$213.0 million and \$259.2 million during the six months ended June 30, 2014 and 2013, respectively.

Income tax expense from continuing operations of \$3.0 million was the result of the sale of a property that was partially owned by our taxable REIT subsidiary but, due to continuing involvement in managing the property, was not classified as a discontinued operation. Income tax expense included in discontinued operations of \$3.5 million was also the result of the sale of a property that was partially owned by our taxable REIT subsidiary where we have no continuing involvement.

During the six months ended June 30, 2014, two office properties were sold by two of our unconsolidated joint ventures, for which our capital distributions totaled \$40.3 million and our share of gains, which are included in equity in earnings, totaled \$58.3 million. These two office properties included a 436,000 square foot office tower in Atlanta, Georgia.

#### 6. Indebtedness

All debt is held directly or indirectly by the Partnership. The General Partner does not have any indebtedness, but does guarantee some of the unsecured debt of the Partnership. The following table summarizes the book value and changes in the fair value of our debt for the six months ended June 30, 2014 (in thousands):

	Book Value at 12/31/13	Book Value at 6/30/14	Fair Value at 12/31/13	Payments/Payoffs	Adjustments to Fair Value	Fair Value at 6/30/14
Fixed rate secured debt	\$1,081,035	\$1,004,327	\$1,145,717	\$ (74,144 )	\$26,987	\$1,098,560
Variable rate secured debt	19,089	4,335	19,089	(14,754 )	—	4,335
Unsecured debt	3,066,252	3,065,223	3,250,518	(1,029 )	83,352	3,332,841
Unsecured line of credit	88,000	60,000	88,383	(28,000 )	(141 )	60,242
Total	\$4,254,376	\$4,133,885	\$4,503,707	\$ (117,927 )	\$110,198	\$4,495,978

### Secured Debt

Because our fixed rate secured debt is not actively traded in any marketplace, we utilized a discounted cash flow methodology to determine its fair value. Accordingly, we calculated fair value by applying an estimate of the current market rate to discount the debt's remaining contractual cash flows. Our estimate of a current market rate, which is the most significant input in the discounted cash flow calculation, is intended to replicate debt of similar maturity and loan-to-value relationship. The estimated rates ranged from 2.20% to 4.10%, depending on the attributes of the specific loans. The current market rates we utilized were internally estimated; therefore, we have concluded that our determination of fair value for our fixed rate secured debt was primarily based upon Level 3 inputs.

During the six months ended June 30, 2014, we repaid six secured loans, totaling \$82.2 million. These loans had a weighted average stated interest rate of 5.59%.

### Unsecured Debt

At June 30, 2014, with the exception of one variable rate term note, all of our unsecured debt bore interest at fixed rates and primarily consisted of unsecured notes that are publicly traded. We utilized broker estimates in estimating the fair value of our fixed rate unsecured debt. Our unsecured notes are thinly traded and, in certain cases, the broker estimates were not based upon comparable transactions. The broker estimates took into account any recent trades within the same series of our fixed rate unsecured debt, comparisons to recent trades of other series of our fixed rate unsecured debt, trades of fixed rate unsecured debt from companies with profiles similar to ours, as well as overall economic conditions. We reviewed these broker estimates for reasonableness and accuracy, considering whether the estimates were based upon market participant assumptions within the principal and most advantageous market and whether any other observable inputs would be more accurate indicators of fair value than the broker estimates. We concluded that the broker estimates were representative of fair value. We have determined that our estimation of the fair value of our fixed rate unsecured debt was primarily based upon Level 3 inputs. The estimated trading values of our fixed rate unsecured debt, depending on the maturity and coupon rates, ranged from 99.00% to 126.00% of face value.

We utilize a discounted cash flow methodology in order to estimate the fair value of our \$250.0 million variable rate term loan. The net present value of the difference between future contractual interest payments and future interest payments based on our estimate of a current market rate represents the difference between the book value and the fair value. Our estimate of a current market rate was based on estimated market spreads and the quoted yields on federal government treasury securities with similar maturity dates. Our estimate of the current market rate for our variable rate term loan was 1.31% and was based primarily upon Level 3 inputs.

The indentures (and related supplemental indentures) governing our outstanding series of notes also require us to comply with financial ratios and other covenants regarding our operations. We were in compliance with all such covenants at June 30, 2014.

### Unsecured Line of Credit

Our unsecured line of credit at June 30, 2014 is described as follows (in thousands):

Description	Maximum Capacity	Maturity Date	Outstanding Balance at June 30, 2014
Unsecured Line of Credit - Partnership	\$850,000	December 2015	\$60,000

The Partnership's unsecured line of credit has an interest rate on borrowings of LIBOR plus 1.25% (equal to 1.40% for outstanding borrowings at June 30, 2014) and a maturity date of December 2015. Subject to certain conditions, the terms also include an option to increase the facility by up to an additional \$400.0 million, for a total of up to \$1.25 billion. This line of credit provides us with an option to obtain borrowings from financial institutions that participate in the line at rates that may be lower than the stated interest rate, subject to certain restrictions.

This line of credit contains financial covenants that require us to meet certain financial ratios and defined levels of performance, including those related to fixed charge coverage, unsecured interest expense coverage and debt-to-asset value (with asset value being defined in the Partnership's unsecured line of credit agreement). At June 30, 2014, we were in compliance with all covenants under this line of credit.

To the extent that there are outstanding borrowings, we utilize a discounted cash flow methodology in order to estimate the fair value of our unsecured line of credit. The net present value of the difference between future contractual interest payments and future interest payments based on our estimate of a current market rate represents the difference between the book value and the fair value. Our estimate of a current market rate is based upon the rate, considering current market conditions and our specific credit profile, at which we estimate we could obtain similar borrowings. The current market rate of 1.41% that we utilized was internally estimated; therefore, we have concluded that our determination of fair value for our unsecured line of credit was primarily based upon a Level 3 input.

#### 7. Shareholders' Equity of the General Partner and Partners' Capital of the Partnership

##### General Partner

In the first six months of 2014, pursuant to the share repurchase plan approved by our board of directors, the General Partner repurchased 750,243 preferred shares from among our three outstanding series. The preferred shares repurchased had a total redemption value of approximately \$18.8 million and were repurchased for \$17.7 million. In conjunction with the repurchases, approximately \$618,000 of initial issuance costs, the ratable portion of such costs associated with the repurchased shares, were charged against income attributable to common shareholders. As the result of these repurchases, an adjustment of approximately \$483,000 was included as an increase to net income attributable to common shareholders.

During the six months ended June 30, 2014, the General Partner issued 11.0 million common shares pursuant to its at the market equity program, generating gross proceeds of approximately \$193.1 million and, after deducting commissions and other costs, net proceeds of approximately \$191.1 million. The proceeds from these offerings were used for general corporate purposes, which include the funding of development costs.

In April 2014, the General Partner's shareholders approved an increase in the number of authorized shares of the General Partner's common stock from 400 million to 600 million.

##### Partnership

For each common share or preferred share that the General Partner issues, the Partnership issues a corresponding General Partner Unit or Preferred Unit, as applicable, to the General Partner in exchange for the contribution of the proceeds from the stock issuance. Similarly, when the General Partner redeems or repurchases common shares or preferred shares, the Partnership redeems the corresponding Common Units or Preferred Units held by the General Partner at the same price.

#### 8. Related Party Transactions

We provide property management, asset management, leasing, construction and other tenant-related services to unconsolidated companies in which we have equity interests. We recorded the corresponding fees based on contractual terms that approximate market rates for these types of services and have eliminated our ownership percentage of these fees in the consolidated financial statements. The following table summarizes the fees earned from these companies, prior to the elimination of our ownership percentage, for the three and six months ended June 30, 2014 and 2013, respectively (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2014	2013	2014	2013
Management fees	\$2,117	\$2,170	\$4,336	\$4,626
Leasing fees	2,169	568	2,513	1,122
Construction and development fees	2,417	1,510	3,382	2,577

9. Net Income (Loss) Per Common Share or Common Unit

Basic net income (loss) per common share or Common Unit is computed by dividing net income (loss) attributable to common shareholders or common unitholders, less dividends or distributions on share-based awards expected to vest (referred to as "participating securities" and primarily composed of unvested restricted stock units), by the weighted average number of common shares or Common Units outstanding for the period.

Diluted net income (loss) per common share is computed by dividing the sum of basic net income (loss) attributable to common shareholders and the noncontrolling interest in earnings allocable to Limited Partner Units (to the extent the Limited Partner Units are dilutive) by the sum of the weighted average number of common shares outstanding and, to the extent they are dilutive, Units outstanding and any potential dilutive securities for the period. Diluted net income (loss) per Common Unit is computed by dividing the basic net income (loss) attributable to common unitholders by the sum of the weighted average number of Common Units outstanding and any potential dilutive securities for the period. The following table reconciles the components of basic and diluted net income per common share or Common Unit for the three and six months ended June 30, 2014 and 2013, respectively (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2014	2013	2014	2013
<b>General Partner</b>				
Net income attributable to common shareholders	\$127,688	\$61,494	\$146,371	\$89,537
Less: Dividends on participating securities	(646)	(688)	(1,289)	(1,375)
Basic net income attributable to common shareholders	127,042	60,806	145,082	88,162
Noncontrolling interest in earnings of common unitholders	1,693	842	1,943	1,234
Diluted net income attributable to common shareholders	\$128,735	\$61,648	\$147,025	\$89,396
Weighted average number of common shares outstanding	331,753	322,489	329,442	318,733
Weighted average Limited Partner Units outstanding	4,386	4,388	4,386	4,397
Other potential dilutive shares	275	221	274	220
Weighted average number of common shares and potential dilutive securities	336,414	327,098	334,102	323,350
<b>Partnership</b>				
Net income attributable to common unitholders	\$129,381	\$62,336	\$148,314	\$90,771
Less: Distributions on participating securities	(646)	(688)	(1,289)	(1,375)
Basic and diluted net income attributable to common unitholders	\$128,735	\$61,648	\$147,025	\$89,396
Weighted average number of Common Units outstanding	336,139	326,877	333,828	323,130
Other potential dilutive units	275	221	274	220
Weighted average number of Common Units and potential dilutive securities	336,414	327,098	334,102	323,350

Substantially all potential shares related to our stock-based compensation plans are anti-dilutive for all periods presented. The following table summarizes the data that is excluded from the computation of net income per common share or Common Unit as a result of being anti-dilutive (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
General Partner and Partnership Potential dilutive shares or units:				
Anti-dilutive outstanding potential shares or units under fixed stock option and other stock-based compensation plans	1,215	1,373	1,215	1,373
Outstanding participating securities	3,830	3,949	3,830	3,949

#### 10. Segment Reporting

##### Reportable Segments

We have four reportable operating segments at June 30, 2014, the first three of which consist of the ownership and rental of (i) industrial, (ii) office and (iii) medical office real estate investments. The operations of our industrial, office and medical office properties, along with our retail properties, are collectively referred to as "Rental Operations." Our retail properties, as well as any other properties not included in our reportable segments, do not by themselves meet the quantitative thresholds for separate presentation as a reportable segment and are referred to as non-reportable Rental Operations. The fourth reportable segment consists of various real estate services such as property management, asset management, maintenance, leasing, development, general contracting and construction management to third-party property owners and joint ventures, and is collectively referred to as "Service Operations." Our reportable segments offer different products or services and are managed separately because each segment requires different operating strategies and management expertise.

##### Revenues by Reportable Segment

The following table shows the revenues for each of the reportable segments, as well as a reconciliation to consolidated revenues, for the three and six months ended June 30, 2014 and 2013, respectively (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Revenues				
Rental Operations:				
Industrial	\$ 128,995	\$ 117,125	\$ 262,997	\$ 231,824
Office	66,592	63,657	133,564	124,853
Medical Office	34,954	31,546	68,264	62,030
Non-reportable Rental Operations	1,629	1,739	3,716	4,042
Service Operations	69,512	50,793	125,332	98,197
Total segment revenues	301,682	264,860	593,873	520,946
Other revenue	1,348	1,241	2,327	2,438
Consolidated revenue from continuing operations	303,030	266,101	596,200	523,384
Discontinued operations	593	12,263	1,961	28,667
Consolidated revenue	\$ 303,623	\$ 278,364	\$ 598,161	\$ 552,051

##### Supplemental Performance Measure

Prior to 2014, we evaluated the profitability of our reportable segments using net earnings excluding depreciation and other items that were not allocated to our operating segments. As the result of a shift in the focus of our executive management team on the metrics used to evaluate the performance of, and to allocate resources among, our reportable segments, we elected to change our segment measurement of profitability beginning with the period ended March 31, 2014. We have also revised prior period information in order to provide period-over-period comparability.

Property level net operating income, on a cash basis ("PNOI") is the non-GAAP supplemental performance measure that we now use to evaluate the performance of, and to allocate resources among, the real estate investments in the

reportable and operating segments that comprise our Rental Operations. PNOI for our Rental Operations segments is comprised of rental revenues from continuing operations less rental expenses and real estate taxes from continuing operations, along with certain other adjusting items (collectively referred to as "Rental Operations revenues and expenses excluded from PNOI," as shown in the table below). Additionally, we do not allocate interest expense, depreciation expense and certain other non-property specific revenues and expenses (collectively referred to as "Non-Segment Items," as shown in the table below) to our individual operating segments.

We evaluate the performance of our Service Operations reportable segment using net income or loss, as allocated to that segment ("Earnings from Service Operations").

The following table shows a reconciliation of our segment-level measures of profitability to consolidated income from continuing operations before income taxes for the three and six months ended June 30, 2014 and 2013, respectively (in thousands and excluding discontinued operations):

	Three Months Ended		Six Months Ended	
	June 30,	2013	June 30,	2013
	2014		2014	2013
PNOI				
Industrial	\$95,564	\$85,257	\$187,308	\$166,401
Office	34,967	32,851	67,436	65,549
Medical Office	21,787	17,022	42,364	33,525
Non-reportable Rental Operations	1,200	1,064	2,305	2,038
Total PNOI	153,518	136,194	299,413	267,513
Earnings from Service Operations	5,655	5,601	14,204	14,664
Rental Operations revenues and expenses excluded from PNOI:				
Straight-line rental income and expense, net	4,940	3,827	11,402	8,097
Revenues related to lease buyouts	1,525	4,686	4,220	6,679
Amortization of lease concessions and above and below market rents	(1,689 )	(2,165 )	(4,156 )	(4,062 )
Intercompany rents and other adjusting items	(960 )	(1,311 )	(2,102 )	(2,345 )
PNOI from sold/held-for-sale properties included in continuing operations	4,362	6,866	8,227	13,883
Non-Segment Items:				
Equity in earnings of unconsolidated companies	60,826	1,091	63,147	50,469
Interest expense	(54,872 )	(57,019 )	(110,129 )	(114,343 )
Depreciation expense	(97,641 )	(95,322 )	(195,700 )	(188,316 )
Gain on sale of properties	70,318	940	86,171	1,108
Impairment charges on non-depreciable properties	(2,523 )	(3,777 )	(2,523 )	(3,777 )
Interest and other income, net	229	921	580	1,074
Other operating expenses	(129 )	(35 )	(221 )	(103 )
General and administrative expenses	(10,365 )	(9,707 )	(25,059 )	(22,852 )
Gain on land sales	3,889	—	4,041	—
Undeveloped land carrying costs	(1,858 )	(2,531 )	(3,982 )	(4,729 )
Loss on extinguishment of debt	(139 )	—	(139 )	—
Acquisition-related activity	(747 )	(2,423 )	(761 )	(1,780 )
Other non-segment revenues and expenses, net	(80 )	211	(772 )	522
Income from continuing operations before income taxes	\$134,259	\$(13,953)	\$145,861	\$21,702

The most comparable GAAP measure to PNOI is income from continuing operations before income taxes. PNOI excludes expenses that materially impact our overall results of operations and, therefore, should not be considered as a substitute for income from continuing operations before income taxes or any other measures derived in accordance with GAAP. Furthermore, PNOI may not be comparable to other similarly titled measures of other companies.

## Assets by Reportable Segment

The assets for each of the reportable segments at June 30, 2014 and December 31, 2013 were as follows (in thousands):

	June 30, 2014	December 31, 2013
Assets		
Rental Operations:		
Industrial	\$4,550,731	\$4,414,740
Office	1,436,477	1,524,501
Medical Office	1,171,828	1,170,420
Non-reportable Rental Operations	78,974	81,056
Service Operations	159,988	145,222
Total segment assets	7,397,998	7,335,939
Non-segment assets	464,506	416,675
Consolidated assets	\$7,862,504	\$7,752,614

## 11. Discontinued Operations and Assets Held for Sale

The following table illustrates the number of sold or held-for-sale properties included in, or excluded from, discontinued operations:

	Held for Sale at June 30, 2014	Sold in 2014	Sold in 2013	Total
Industrial	0	11	6	17
Office	0	0	12	12
Medical Office	1	1	6	8
Retail	0	0	1	1
Total properties included in discontinued operations	1	12	25	38
Properties excluded from discontinued operations	1	9	13	23
Total properties sold or classified as held-for-sale	2	21	38	61

As described in Note 2, we adopted ASU 2014-08 beginning April 1, 2014. Three properties were designated as held-for-sale at March 31, 2014, and met the criteria for discontinued operations that were applicable prior to the adoption of ASU 2014-08. Two of these properties were sold during the three months ended June 30, 2014, while one of these properties continues to be designated as held-for-sale at June 30, 2014. No new properties, whether having been disposed of or designated as held-for-sale, have met the criteria for classification as discontinued operations since the adoption of ASU 2014-08.

For the properties that were classified in discontinued operations prior to the adoption of ASU 2014-08, we allocated interest expense to discontinued operations and have included such interest expense in computing income from discontinued operations. Interest expense allocable to discontinued operations includes interest on any secured debt for properties included in discontinued operations and an allocable share of our consolidated unsecured interest expense for unencumbered properties. The allocation of unsecured interest expense to discontinued operations was based upon the gross book value of the unencumbered real estate assets included in discontinued operations as it related to the total gross book value of our unencumbered real estate assets.

The following table illustrates the operational results of the buildings reflected in discontinued operations for the three and six months ended June 30, 2014 and 2013, respectively (in thousands):

Edgar Filing: DUKE REALTY CORP - Form 10-Q

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2014	2013	2014	2013
Revenues	\$593	\$12,263	\$1,961	\$28,667
Operating expenses	(72 )	(4,852 )	(985 )	(10,839 )
Depreciation and amortization	—	(3,937 )	(205 )	(10,723 )
Operating income	521	3,474	771	7,105
Interest expense	(194 )	(3,346 )	(576 )	(7,463 )
Income (loss) before gain on sales	327	128	195	(358 )
Gain on sale of depreciable properties	2,851	83,657	22,603	92,611
Income from discontinued operations before income taxes	3,178	83,785	22,798	92,253
Income tax expense	(546 )	—	(3,523 )	—
Income from discontinued operations	\$2,632	\$83,785	\$19,275	\$92,253

The income tax expense included in discontinued operations during the three and six months ended June 30, 2014 was triggered by the sale of a property that was partially owned by our taxable REIT subsidiary.

The income tax expense from continuing operations of \$364,000 and \$3.0 million for the three and six months ended June 30, 2014, as presented in the Consolidated Statements of Operations and Comprehensive Income, was related to the sale of another property that was partially owned by our taxable REIT subsidiary but, due to continuing involvement in managing the property, was not classified as a discontinued operation.

Dividends or distributions on preferred shares or Preferred Units and adjustments for the redemption or repurchase of preferred shares or Preferred Units are allocated entirely to continuing operations for both the General Partner and the Partnership.

#### Allocation of Noncontrolling Interests - General Partner

The following table illustrates the General Partner's share of the income (loss) attributable to common shareholders from continuing operations and discontinued operations, reduced by the allocation of income or loss between continuing and discontinued operations to the Limited Partner Units, for the three and six months ended June 30, 2014 and 2013, respectively (in thousands):

	Three Months Ended		Six Months Ended June 30,	
	June 30,		June 30,	
	2014	2013	2014	2013
Income (loss) from continuing operations attributable to common shareholders	\$125,090	\$(21,166 )	\$127,350	\$(1,461 )
Income from discontinued operations attributable to common shareholders	2,598	82,660	19,021	90,998
Net income attributable to common shareholders	\$127,688	\$61,494	\$146,371	\$89,537

#### Allocation of Noncontrolling Interests - Partnership

Substantially all of the income from discontinued operations for all periods presented in the Partnership's Consolidated Statements of Operations and Comprehensive Income is attributable to the common unitholders.

#### Properties Held for Sale

At June 30, 2014, one in-service property, which was classified in discontinued operations prior to the adoption of ASU 2014-08, met the criteria for designation as held-for-sale. Additionally, one in-service property met the criteria for designation as held-for-sale subsequent to the adoption of ASU 2014-08, but does not meet the criteria to be classified within discontinued operations. The following table illustrates aggregate balance sheet information of these properties at June 30, 2014 (in thousands):

	June 30, 2014		
	Properties Included in Continuing Operations	Properties Included in Discontinued Operations	Total Held-For-Sale Properties
Real estate investment, net	\$9,436	\$14,643	\$24,079
Other assets	534	5,167	5,701
Total assets held-for-sale	\$9,970	\$19,810	\$29,780
Accrued expenses	\$188	\$175	\$363
Other liabilities	175	—	175
Total liabilities held-for-sale	\$363	\$175	\$538

## 12. Subsequent Events

### Declaration of Dividends/Distributions

The General Partner's board of directors declared the following dividends/distributions at its regularly scheduled board meeting held on July 30, 2014:

Class of stock/units	Quarterly Amount per Share or Unit	Record Date	Payment Date
Common	\$0.17	August 14, 2014	August 29, 2014
Preferred (per depositary share or unit):			
Series K	\$0.406250	August 14, 2014	August 29, 2014
Series L	\$0.412500	August 14, 2014	August 29, 2014

### Preferred Series J Redemption Notice

In July 2014, the General Partner called for redemption all 384,530 shares of its outstanding 6.625% Series J Cumulative Redeemable Preferred Shares ("Series J Shares"). The redemption date is August 4, 2014 and the cash redemption price for the Series J Shares is \$96.1 million, or \$250.00 per share, plus accrued dividends.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis of Financial Condition and Results of Operations is intended to help the reader understand our operations and our present business environment. Management's Discussion and Analysis is provided as a supplement to and should be read in conjunction with our consolidated financial statements and the notes thereto, contained in Part I, Item I of this Quarterly Report on Form 10-Q (this "Report") and the consolidated financial statements and notes thereto, contained in Part IV, Item 15 of our combined Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the Securities and Exchange Commission (the "SEC") on February 21, 2014 for Duke Realty Corporation (the "General Partner") and Duke Realty Limited Partnership (the "Partnership"). As used herein, the terms the "Company," "we," "us" and "our" refer to the General Partner and the Partnership, collectively, and those entities owned or controlled by the General Partner and/or the Partnership.

### Cautionary Notice Regarding Forward-Looking Statements

Certain statements contained in or incorporated by reference into this Report, including, without limitation, those related to our future operations, constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The words "believe," "estimate," "expect," "anticipate," "intend," "plan," "seek," "may," "could" and similar expressions or statements regarding future periods are intended to identify forward-looking statements, although not all forward-looking statements contain such words.

These forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause our actual results, performance or achievements, or industry results, to differ materially from any predictions of future results, performance or achievements that we express or imply in this Report. Some of the risks, uncertainties and other important factors that may affect future results include, among others:

• Changes in general economic and business conditions, including the financial condition of our tenants and the value of our real estate assets;

• The General Partner's continued qualification as a real estate investment trust ("REIT") for U.S. federal income tax purposes;

• Heightened competition for tenants and potential decreases in property occupancy;

• Potential changes in the financial markets and interest rates;

• Volatility in the General Partner's stock price and trading volume;

• Our continuing ability to raise funds on favorable terms;

• Our ability to successfully identify, acquire, develop and/or manage properties on terms that are favorable to us;

• Potential increases in real estate construction costs;

• Our ability to successfully dispose of properties on terms that are favorable to us, including, without limitation, through one or more transactions that are consistent with our previously disclosed strategic plans;

• Our ability to retain our current credit ratings;

• Inherent risks in the real estate business, including, but not limited to, tenant defaults, potential liability relating to environmental matters and liquidity of real estate investments; and

• Other risks and uncertainties described herein, as well as those risks and uncertainties discussed from time to time in our other reports and other public filings with the SEC.

Although we presently believe that the plans, expectations and results expressed in or suggested by the forward-looking statements are reasonable, all forward-looking statements are inherently subjective, uncertain and subject to change, as they involve substantial risks and uncertainties, including those beyond our control. New factors emerge from time to time, and it is not possible for us to predict the nature, or assess the potential impact, of each new factor on our business. Given these uncertainties, we caution you not to place undue reliance on these forward-looking statements. We undertake no obligation to update or revise any of our forward-looking statements for events or circumstances that arise after the statement is made, except as otherwise may be required by law.

The above list of risks and uncertainties is only a summary of some of the most important factors and is not intended to be exhaustive. Additional information regarding risk factors that may affect us is included in our combined Annual Report on Form 10-K for the fiscal year ended December 31, 2013, which we filed with the SEC on February 21, 2014 for the General Partner and the Partnership. The risk factors contained in our Annual Report are updated by us from time to time in Quarterly Reports on Form 10-Q and other public filings.

#### Business Overview

The General Partner is a self-administered and self-managed REIT that began operations in 1986 and is the sole general partner of the Partnership. The Partnership is a limited partnership formed in 1993, at which time all of the properties and related assets and liabilities of the General Partner, as well as proceeds from a secondary offering of the General Partner's common shares, were contributed to the Partnership. Simultaneously, the Partnership completed the acquisition of Duke Associates, a full-service commercial real estate firm operating in the Midwest whose operations began in 1972. We operate the General Partner and the Partnership as one enterprise, and therefore, our discussion and analysis refers to the General Partner and its consolidated subsidiaries, including the Partnership, collectively. A more complete description of our business, and of management's philosophy and priorities, is included in our 2013 Annual Report on Form 10-K.

At June 30, 2014, we:

Owned or jointly controlled 746 industrial, office, medical office and other properties, of which 715 properties with more than 145.7 million square feet were in service and 31 properties with approximately 10.8 million square feet were under development. The 715 in-service properties were comprised of 610 consolidated properties with more than 123.7 million square feet and 105 jointly controlled unconsolidated properties with approximately 22.0 million square feet. The 31 properties under development consisted of 27 consolidated properties with approximately 7.8 million square feet and four jointly controlled unconsolidated properties with approximately 3.0 million square feet.

Owned, including through ownership interests in unconsolidated joint ventures, more than 3,860 acres of land and controlled more than 1,650 acres through purchase options.

A key component of our overall strategy is to increase our investment in quality industrial properties in both existing and select new markets and to reduce our investment in suburban office properties and other non-strategic assets.

We have four reportable operating segments at June 30, 2014, the first three of which consist of the ownership and rental of (i) industrial, (ii) office and (iii) medical office real estate investments. The operations of our industrial, office and medical office properties, along with our retail properties, are collectively referred to as "Rental Operations." Our retail properties, as well as any other properties not included in our reportable segments, do not by themselves meet the quantitative thresholds for separate presentation as a reportable segment. The fourth reportable segment consists of various real estate services such as property management, asset management, maintenance, leasing, development, general contractor and construction management to third-party property owners and joint ventures, and is collectively referred to as "Service Operations." Our reportable segments offer different products or services and are managed separately because each segment requires different operating strategies and management expertise. Our Service Operations segment also includes our taxable REIT subsidiary, a legal entity through which certain of the segment's operations are conducted.

#### Key Performance Indicators

Our operating results depend primarily upon rental income from our Rental Operations. The following discussion highlights the areas of Rental Operations that we consider critical drivers of future revenues.

### Occupancy Analysis

Our ability to maintain high occupancy rates is a principal driver of maintaining and increasing rental revenue. The following table sets forth percent leased and average net effective rent information regarding our in-service portfolio of rental properties, including properties classified within both continuing and discontinued operations, at June 30, 2014 and 2013, respectively (in thousands, except percentage data):

Type	Total Square Feet		Percent of Total Square Feet		Percent Leased*		Average Annual Net Effective Rent**	
	2014	2013	2014	2013	2014	2013	2014	2013
Industrial	104,920	101,556	84.8	% 82.5	% 95.2	% 94.6	% \$3.97	\$3.90
Office	13,792	15,951	11.1	% 13.0	% 87.6	% 86.3	% \$13.39	\$13.38
Medical Office	4,676	5,157	3.8	% 4.2	% 93.5	% 92.5	% \$23.33	\$21.87
Other	348	348	0.3	% 0.3	% 87.2	% 80.3	% \$19.81	\$18.91
Total Consolidated	123,736	123,012	100.0	% 100.0	% 94.3	% 93.4	% \$5.71	\$5.82
Unconsolidated Joint Ventures	21,975	22,224			95.9	% 91.7	% \$7.73	\$7.37
Total Including Unconsolidated Joint Ventures	145,711	145,236			94.5	% 93.2	% \$5.83	\$5.90

\*Represents the percentage of total square feet leased based on executed leases and without regard to whether the leases have commenced.

\*\*Represents average annual base rental payments per leased square foot, on a straight-line basis for the term of each lease, from space leased to tenants at the end of the most recent reporting period. This amount excludes additional amounts paid by tenants as reimbursement for operating expenses.

### Vacancy Activity

The following table sets forth vacancy activity, shown in square feet, regarding our in-service rental properties, including properties classified within both continuing and discontinued operations, at June 30, 2014, (in thousands):

	Consolidated Properties	Unconsolidated Joint Venture Properties	Total Including Unconsolidated Joint Venture Properties
Vacant square feet at December 31, 2013	7,368	1,165	8,533
Dispositions	(75	) (101	) (176
Expirations	4,510	726	5,236
Early lease terminations	1,564	81	1,645
Property structural changes/other	6	—	6
Leasing of previously vacant space	(6,291	) (967	) (7,258
Vacant square feet at June 30, 2014	7,082	904	7,986

### Total Leasing Activity

The initial leasing of development projects or vacant space in acquired properties is referred to as first generation lease activity. The leasing of such space that we have previously held under lease is referred to as second generation lease activity. The total leasing activity for our consolidated rental properties, expressed in square feet of leases signed during the period, is as follows for the three and six months ended June 30, 2014 and 2013, respectively (in thousands):

Edgar Filing: DUKE REALTY CORP - Form 10-Q

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
New Leasing Activity - First Generation	2,490	486	3,929	1,846
New Leasing Activity - Second Generation	1,644	2,063	4,188	4,329
Renewal Leasing Activity	2,372	2,880	4,049	4,872
Total Consolidated Leasing Activity	6,506	5,429	12,166	11,047
Unconsolidated Joint Venture Leasing Activity	1,971	576	2,340	1,311
Total Including Unconsolidated Joint Venture Leasing Activity	8,477	6,005	14,506	12,358

New leasing activity for first generation leases increased for the three and six months ended June 30, 2014, when compared to the same periods in 2013, due to new build-to-suit development starts and the lease-up of speculative developments. The increase in the leasing volume within unconsolidated joint ventures was also mainly the result of build-to-suit development activity.

New Second Generation Leases

The following table sets forth the estimated costs of tenant improvements and leasing commissions, on a per square foot basis, that we are obligated to fulfill under the new second generation leases signed for our rental properties during the three and six months ended June 30, 2014 and 2013, respectively (square feet data in thousands):

	Square Feet of New Second Generation Leases Signed		Average Term in Years		Estimated Tenant Improvement Cost per Square Foot		Leasing Commissions per Square Foot	
	2014	2013	2014	2013	2014	2013	2014	2013
<b>Three Months</b>								
Industrial	1,360	1,596	7.2	4.3	\$3.02	\$2.10	\$2.08	\$1.37
Office	272	461	5.6	7.6	\$14.46	\$21.26	\$6.62	\$8.30
Medical Office	12	6	7.6	5.7	\$38.92	\$27.33	\$6.65	\$4.01
Total Consolidated	1,644	2,063	6.9	5.0	\$5.18	\$6.45	\$2.86	\$2.93
Unconsolidated Joint Ventures	424	152	4.9	6.3	\$1.93	\$4.79	\$1.37	\$2.27
Total Including Unconsolidated Joint Ventures	2,068	2,215	6.5	5.1	\$4.52	\$6.33	\$2.56	\$2.89
<b>Six Months</b>								
Industrial	3,742	3,662	7.4	5.1	\$2.90	\$2.36	\$1.99	\$1.47
Office	419	639	5.6	7.0	\$16.15	\$18.24	\$6.11	\$7.59
Medical Office	27	28	6.8	4.6	\$29.29	\$10.06	\$7.72	\$1.25
Total Consolidated	4,188	4,329	7.2	5.4	\$4.40	\$4.75	\$2.44	\$2.37
Unconsolidated Joint Ventures	497	492	4.5	5.1	\$2.30	\$3.55	\$1.73	\$1.78
Total Including Unconsolidated Joint Ventures	4,685	4,821	6.9	5.4	\$4.18	\$4.63	\$2.36	\$2.31

Lease Renewals

The following table summarizes our lease renewal activity within our rental properties for the three and six months ended June 30, 2014 and 2013, respectively (square feet data in thousands):

Edgar Filing: DUKE REALTY CORP - Form 10-Q

	Square Feet of Leases Renewed		Percent of Expiring Leases Renewed		Average Term in Years		Growth (Decline) in Net Effective Rents*		Estimated Tenant Improvement Cost per Square Foot		Leasing Commissions per Square Foot	
	2014	2013	2014	2013	2014	2013	2014	2013	2014	2013	2014	2013

Total Including Unconsolidated Joint Ventures	5,263	5,588	66.8 %	60.4 %	4.7	4.3	7.7 %	2.0 %	\$2.06	\$1.40	\$2.07	\$1.39

\* Represents the percentage change in net effective rent between the original leases and the renewal leases. Net effective rents represent average annual base rental payments, on a straight-line basis for the term of each lease, excluding operating expense reimbursements.

The renewal percentage for three months ended June 2014 was lower, compared to the same period in 2013, in large part as the result of two significant industrial leases, which totaled 830,000 square feet, which recently expired. Growth in net effective rents on renewal leases improved, when compared to activity during the three and six months ended June 30, 2013, and reflects what we believe to be increased asking rents across many of our markets.

**Lease Expirations**

Our ability to maintain and improve occupancy rates and net effective rents primarily depends upon our continuing ability to re-lease expiring space. The table below reflects our consolidated in-service portfolio lease expiration schedule, including the number of expiring leases, as well as the square footage and annualized net effective rent for expiring leases by property type, at June 30, 2014 (in thousands, except percentage data and number of leases):

Edgar Filing: DUKE REALTY CORP - Form 10-Q

Year of Expiration	Total Consolidated Portfolio			Industrial	Office			Medical	Office	Other		
	Square Feet	Ann. Rent Revenue*	No. of Leases	Square Feet	Ann. Rent Revenue*	Square Feet	Ann. Rent Revenue*	Square Feet	Ann. Rent Revenue*	Square Feet	Ann. Rent Revenue*	
Remainder of 2014	3,664	\$21,196	198	2,926	\$12,583	650	\$7,135	84	\$1,358	4	\$120	
2015	12,050	59,104	324	10,473	38,662	1,509	19,065	60	1,201	8	176	
2016	14,343	69,309	341	12,694	46,259	1,425	18,532	205	4,161	19	357

2018	11,782	69,972	288	9,719	37,900	1,606	20,933	380	9,664	77	1,475	
2019	12,751	70,154	264	10,919	42,614	1,539	20,355	281	6,901	12	284	
2020	11,235	64,975	140	9,717	40,141	1,038	15,288	469	9,270	11	276	
2021	8,332	46,294	129	7,151	28,518	939	12,125	229	5,379	13	272	
2022	6,323	31,362	70	5,747	20,063	235	4,138	319	6,715	22	446	
2023	2,805	23,103	59	2,093	10,531	394	5,948	312	6,475	6	149	
2024 and Thereafter	18,379	135,695	128	15,048	67,250	1,422	20,643	1,853	47,065	56	737	
Total Leased	116,654	\$666,558	2,261	99,898	\$396,782	12,083	\$161,800	4,372	\$101,961	301	\$6,015	
Total Portfolio Square Feet	123,736			104,920			13,792			4,676		348
Percent Leased	94.3 %			95.2 %			87.6 %			93.5 %		87.2%

\* Annualized rental revenue represents average annual base rental payments, on a straight-line basis for the term of each lease, from space leased to tenants at the end of the most recent reporting period. Annualized rental revenue excludes additional amounts paid by tenants as reimbursement for operating expenses.

Information on current market rents can be difficult to obtain, is highly subjective, and is often not directly comparable between properties. As a result, we believe the increase or decrease in net effective rent on lease renewals, as previously defined, is the most objective and meaningful relationship between rents on leases expiring in the near-term and current market rents.

#### Acquisition Activity

Our decision process in determining whether or not to acquire a target property or portfolio of properties involves several factors, including expected rent growth, multiple yield metrics, property locations and expected demographic growth in each location, current occupancy of the target properties, tenant profile and remaining terms of the in-place leases in the target properties. We pursue both brokered and non-brokered acquisitions, and it is difficult to predict which markets and product types may present acquisition opportunities that align with our strategy. Because of the numerous factors considered in our acquisition decisions, we do not establish specific target yields for future acquisitions.

We acquired two properties during the six months ended June 30, 2014 and 17 properties during the year ended December 31, 2013. The following table summarizes the acquisition price, percent leased at time of acquisition and in-place yields, by product type, for these acquisitions (in thousands, except percentage data):

Edgar Filing: DUKE REALTY CORP - Form 10-Q

Type	Year-to-Date 2014 Acquisitions			Full Year 2013 Acquisitions				
	Acquisition Price*	In-Place Yield**	Percent Leased at Acquisition Date***	Acquisition Price*	In-Place Yield**	Percent Leased at Acquisition Date***		
Industrial	\$90,588	6.1	% 100.0	% \$532,808	6.1	% 100.0	%	
Medical Office	—	—	% —	% 20,500	6.9	% 82.3	%	
Total	\$90,588	6.1	% 100.0	% \$553,308	6.2	% 99.8	%	

\* Includes real estate assets and net acquired lease-related intangible assets, including above or below market leases, but excludes other acquired working capital assets and liabilities.

\*\* In-place yields of completed acquisitions are calculated as the current annualized net rental payments from space leased to tenants at the date of acquisition, divided by the acquisition price of the acquired real estate. Annualized net rental payments are comprised of base rental payments, excluding additional amounts payable by tenants as reimbursement for operating expenses, less current annualized operating expenses not recovered through tenant reimbursements.

\*\*\* Represents percentage of total square feet leased based on executed leases and without regard to whether the leases have commenced, at the date of acquisition.

#### Disposition Activity

We regularly work to identify, consider and pursue opportunities to dispose of properties on an opportunistic basis and on a basis that is generally consistent with our strategic plans.

We sold 21 buildings during the six months ended June 30, 2014 and 38 buildings during the year ended December 31, 2013. The following table summarizes the sales prices, in-place yields and percent leased, by product type, of these buildings (in thousands, except percentage data):

Type	Year-to-Date 2014 Dispositions			Full Year 2013 Dispositions				
	Sales Price	In-Place Yield*	Percent Leased**	Sales Price	In-Place Yield*	Percent Leased**		
Industrial	\$46,000	9.0	% 96.3	% \$16,499	6.3	% 50.1	%	
Office	150,450	9.2	% 93.4	% 219,254	8.3	% 91.6	%	
Medical Office	57,400	6.4	% 100.0	% 285,850	6.4	% 89.1	%	
Other	—	—	% —	% 188,000	5.0	% 89.8	%	
Total	\$253,850	8.5	% 95.3	% \$709,603	6.6	% 86.5	%	

\* In-place yields of completed dispositions are calculated as current annualized net rental payments from space leased to tenants at the date of sale, divided by the sales price of the real estate. Annualized net rental payments are comprised of base rental payments, excluding additional amounts payable by tenants as reimbursement for operating expenses, less current annualized operating expenses not recovered through tenant reimbursements.

\*\* Represents percentage of total square feet leased based on executed leases where the leases have commenced.

The majority of the industrial disposition activity during the six months ended June 30, 2014 related to the sale of light industrial, also known as flex industrial, properties. The higher in-place yield on these property sales was in large part the result of the pricing for a nine-building portfolio of flex industrial properties in Indianapolis, Indiana that had a significant amount of its leases expiring in the near future.

During the six months ended June 30, 2014, dispositions of office properties were comprised of a portfolio of six office properties, totaling more than 1.0 million square feet, located in Cincinnati, Ohio. The higher in-place yield on this portfolio sale was driven by a significant amount of the properties' leases expiring before the end of 2016.

#### Development

At June 30, 2014, we had 10.8 million square feet of property under development with total estimated costs upon completion of \$784.3 million compared to 3.3 million square feet with total estimated costs upon completion of \$556.8 million at June 30, 2013. The square footage and estimated costs include both consolidated properties and unconsolidated joint venture development activity at 100%.

The following table summarizes our properties under development at June 30, 2014 (in thousands, except percentage data):

Ownership Type	Square Feet	Percent Leased	Total Estimated Project Costs	Total Incurred to Date	Amount Remaining to be Spent
Consolidated properties	7,798	78%	\$660,447	\$362,377	\$298,070
Unconsolidated joint venture properties	2,999	69%	123,857	60,825	63,032
Total	10,797	76%	\$784,304	\$423,202	\$361,102

#### Supplemental Performance Measures

In addition to net income (loss) computed in accordance with GAAP, we assess and measure the overall operating results of the General Partner and the Partnership using certain non-GAAP supplemental performance measures, which include (i) Funds From Operations ("FFO"), (ii) Property Level Net Operating Income - Cash Basis ("PNOI") and (iii) Same Property Net Operating Income - Cash Basis ("SPNOI").

These non-GAAP metrics are commonly used by industry analysts and investors as supplemental operating performance measures of REITs and are viewed by management to be useful indicators of operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, many industry analysts and investors have considered presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. Management believes that the use of FFO, PNOI and SPNOI, combined with net income (which remains the primary measure of performance), improves the understanding of operating results of REITs among the investing public and makes comparisons of REIT operating results more meaningful.

The most comparable GAAP measure to FFO is net income (loss) attributable to common shareholders or common unitholders, while the most comparable GAAP measure to PNOI and SPNOI is income from continuing operations before income taxes.

FFO, PNOI and SPNOI each exclude expenses that materially impact our overall results of operations and, therefore, should not be considered as a substitute for net income (loss) attributable to common shareholders or common unitholders, income from continuing operations before income taxes, or any other measures derived in accordance with GAAP. Furthermore, these metrics may not be comparable to other similarly titled measures of other companies.

#### Funds From Operations

The National Association of Real Estate Investment Trusts ("NAREIT") created FFO as a non-GAAP supplemental measure of REIT operating performance. FFO, as defined by NAREIT, represents GAAP net income (loss), excluding extraordinary items as defined under GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization, and after similar adjustments for unconsolidated partnerships and joint ventures. We calculate FFO in accordance with the definition that was adopted by the Board of Governors of NAREIT.

Management believes that the use of FFO as a performance measure enables investors and analysts to readily identify the operating results of the long-term assets that form the core of a REIT's activity and assists them in comparing these operating results between periods or between different companies that use the NAREIT definition of FFO.

The following table shows a reconciliation of net income attributable to common shareholders or common unitholders to the calculation of FFO attributable to common shareholders or common unitholders for the three and six months ended June 30, 2014 and 2013, respectively (in thousands):

Edgar Filing: DUKE REALTY CORP - Form 10-Q

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Net income attributable to common shareholders of the General Partner	\$ 127,688	\$ 61,494	\$ 146,371	\$ 89,537
Add back: Net income attributable to noncontrolling interests - common limited partnership interests in the Partnership	1,693	842	1,943	1,234
Net income attributable to common unitholders of the Partnership	129,381	62,336	148,314	90,771
Adjustments:				
Depreciation and amortization	97,641	99,259	195,905	199,039
Company share of joint venture depreciation and amortization	6,781	5,974	13,177	13,603
Gains on depreciable property sales, net of income taxes—wholly owned	(72,259 )	(84,597 )	(102,213 )	(93,719 )
Gains/losses on depreciable property sales—share of joint venture	(58,447 )	9	(58,282 )	(48,805 )
Funds From Operations attributable to common unitholders of the Partnership	\$ 103,097	\$ 82,981	\$ 196,901	\$ 160,889
Additional General Partner Adjustments:				
Net income attributable to noncontrolling interests - common limited partnership interests in the Partnership	(1,693 )	(842 )	(1,943 )	(1,234 )
Noncontrolling interest share of adjustments	352	(273 )	(639 )	(955 )
Funds From Operations attributable to common shareholders of the General Partner	\$ 101,756	\$ 81,866	\$ 194,319	\$ 158,700

Income tax expense, from both continuing and discontinued operations, for the six months ended June 30, 2014, was the result of the sales of properties that were partially owned by our taxable REIT subsidiary. As such, the income tax expense for the period is excluded from FFO.

Property Level Net Operating Income - Cash Basis

PNOI is comprised of rental revenues from continuing operations less rental expenses and real estate taxes from continuing operations, along with certain other adjusting items that are detailed in the table below. As a performance metric that consists of only the cash-based revenues and expenses directly related to ongoing real estate rental operations, PNOI is narrower in scope than FFO.

PNOI, as we calculate it, may not be directly comparable to similarly titled, but differently calculated, measures for other REITs. We believe that PNOI is another useful supplemental performance measure, as it is an input in many REIT valuation models and it provides a means by which to evaluate the performance of the properties within our Rental Operations segments.

The major factors influencing PNOI are occupancy levels, acquisitions and sales, development properties that achieve stabilized operations, rental rate increases or decreases, and the recoverability of operating expenses. PNOI was calculated as follows for the three and six months ended June 30, 2014 and 2013 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Rental and related revenue from continuing operations - Rental Operations segments	\$ 232,170	\$ 214,067	\$ 468,541	\$ 422,749
Rental and real estate tax expenses from continuing operations - Rental Operations segments	(70,474 )	(65,970 )	(151,537 )	(132,984 )
Less adjusting items, continuing operations:				
PNOI from sold/held-for-sale properties included in continuing operations	(4,362 )	(6,866 )	(8,227 )	(13,883 )
Straight-line rental income and expense, net	(4,940 )	(3,827 )	(11,402 )	(8,097 )
Revenues related to lease buyouts	(1,525 )	(4,686 )	(4,220 )	(6,679 )

-----------------------------	-----------	-----------	-----------	-----------

31

---

A reconciliation of PNOI for our Rental Operations segments to income (loss) from continuing operations before income taxes is provided in Note 10 to the consolidated financial statements included in Part I, Item 1 of this Report. PNOI from continuing operations increased largely as the result of acquisitions and developments placed in service, as is described further in the Comparison of Three Months Ended June 30, 2014 to Three Months Ended June 30, 2013 and in the Comparison of Six Months Ended June 30, 2014 to Six Months Ended June 30, 2013, below.

Same Property Net Operating Income - Cash Basis

We also evaluate the performance of our properties, including our share of properties we jointly control, on a "same property" basis, using a metric referred to as SPNOI. We view SPNOI as a useful supplemental performance measure because it improves comparability between periods by eliminating the effects of changes in the composition of our portfolio.

On an individual property basis, with the exception that SPNOI includes revenues from lease buyouts that are individually less than \$250,000, SPNOI is computed in a consistent manner as PNOI.

We have defined our same property portfolio, for the three months ended June 30, 2014, as those properties that have been owned and in operation throughout the twenty-four months ended June 30, 2014. In addition to excluding properties that have not been owned and in operation for the twenty-four months ended June 30, 2014, we have also excluded properties from our same property portfolio where revenues from individual lease buyouts in excess of \$250,000 have been recognized. A reconciliation of SPNOI to PNOI and income or loss from continuing operations before income taxes is presented as follows (in thousands):

	Three Months Ended		Percent Change
	June 30, 2014	2013	
SPNOI	\$126,340	\$120,768	4.6%
Less share of SPNOI from unconsolidated joint ventures	(10,735 )	(10,134 )	
Less lease buyouts (same property) individually less than \$250	(696 )	(184 )	
PNOI excluded from the same property population	38,609	25,744	
PNOI	\$153,518	\$136,194	
Earnings from Service Operations	5,655	5,601	
Rental Operations revenues and expenses excluded from PNOI	8,178	11,903	
Non-Segment Items	(33,092 )	(167,651 )	
Income (loss) from continuing operations before income taxes	\$134,259	\$(13,953 )	

Note - SPNOI for the six month period ended June 30, 2014 is not presented above, as it is not calculated by the Company and is not utilized by the Company's management to evaluate the performance of its properties.

The composition of the line items titled "Rental Operations revenues and expenses excluded from PNOI" and "Non-Segment Items" from the table above are shown in greater detail in Note 10 to the consolidated financial statements included in Part I, Item 1 of this Report.

We believe that the factors that impact SPNOI are generally the same as those that impact PNOI. The following table details the number of properties, square feet, average occupancy and cash rental rates for the properties included in SPNOI for the respective periods:

	Three Months Ended June 30,	
	2014	2013
Number of properties	629	629
Square feet (in thousands) (1)	106,615	106,615
Average commencement occupancy percentage (2)	93.3%	91.8%
Average rental rate - cash basis (3)	\$5.51	\$5.40

(1) Includes the total square feet of the consolidated properties that are in the same property population as well as 6.6 million square feet of space for unconsolidated joint ventures, which represents our ratable share of the 20.6 million total square feet of space for buildings owned by unconsolidated joint ventures that are in the same property population.

(2) Commencement occupancy represents the percentage of total square feet where the leases have commenced.

(3) Represents the average annualized contractual rent per square foot for the three-month periods ended June 30, 2014 and 2013 for tenants in occupancy in properties in the same property population. Cash rent does not include the tenant's obligation to pay property operating expenses and real estate taxes. If a tenant was within a free rent period at June 30, 2014 or 2013 its rent would equal zero for purposes of this metric.

#### Results of Operations

A summary of our operating results and property statistics for the three and six months ended June 30, 2014 and 2013, respectively, is as follows (in thousands, except number of properties and per share or Common Unit data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Rental and related revenue from continuing operations	\$233,518	\$215,308	\$470,868	\$425,187
General contractor and service fee revenue	69,512	50,793	125,332	98,197
Operating income	189,788	44,568	256,310	136,751
General Partner				
Net income attributable to common shareholders	\$127,688	\$61,494	\$146,371	\$89,537
Weighted average common shares outstanding	331,753	322,489	329,442	318,733
Weighted average common shares and potential dilutive securities	336,414	327,098	334,102	323,350
Partnership				
Net income attributable to common unitholders	\$129,381	\$62,336	\$148,314	\$90,771
Weighted average Common Units outstanding	336,139	326,877	333,828	323,130
Weighted average Common Units and potential dilutive securities	336,414	327,098	334,102	323,350
General Partner and Partnership				
Basic income (loss) per common share or Common Unit:				
Continuing operations	\$0.37	\$(0.07)	\$0.38	\$(0.01)
Discontinued operations	\$0.01	\$0.26	\$0.06	\$0.29
Diluted income (loss) per common share or Common Unit:				
Continuing operations	\$0.37	\$(0.07)	\$0.38	\$(0.01)
Discontinued operations	\$0.01	\$0.26	\$0.06	\$0.29
Number of in-service consolidated properties at end of period	610	643	610	643
In-service consolidated square footage at end of period	123,736	123,012	123,736	123,012
Number of in-service joint venture properties at end of period	105	108	105	108
In-service joint venture square footage at end of period	21,975	22,224	21,975	22,224

Comparison of Three Months Ended June 30, 2014 to Three Months Ended June 30, 2013

#### Rental and Related Revenue

The following table sets forth rental and related revenue from continuing operations by reportable segment for the three months ended June 30, 2014 and 2013, respectively (in thousands):

	Three Months Ended June 30,	
	2014	2013
Rental and related revenue:		
Industrial	\$128,995	\$117,125
Office	66,592	63,657
Medical Office	34,954	31,546
Other	2,977	2,980
Total rental and related revenue from continuing operations	\$233,518	\$215,308

The following factors contributed to the increase in rental and related revenue from continuing operations:

We acquired 19 properties, of which 18 were industrial and one was medical office, and placed 23 developments in service from January 1, 2013 to June 30, 2014, which provided incremental revenues of \$18.6 million in the second quarter of 2014, as compared to the same period in 2013.

We sold 13 medical office properties in the fourth quarter of 2013 and the first quarter of 2014, but because of our continuing involvement in these properties through retained management agreements, these properties are classified in continuing operations. The sale of these properties resulted in a \$4.4 million decrease in rental and related revenue from continuing operations in the three months ended June 30, 2014, as compared to the same period in 2013.

The remaining increase in rental and related revenue from continuing operations was primarily due to increased occupancy and rental rates within our same property portfolio.

#### Rental Expenses and Real Estate Taxes

The following table sets forth rental expenses and real estate taxes from continuing operations by reportable segment for the three months ended June 30, 2014 and 2013, respectively (in thousands):

	Three Months Ended June 30,	
	2014	2013
Rental expenses:		
Industrial	\$12,387	\$10,392
Office	18,867	18,390
Medical Office	7,163	7,512
Other	1,521	1,137
Total rental expenses from continuing operations	\$39,938	\$37,431
Real estate taxes:		
Industrial	\$19,424	\$18,365
Office	8,105	7,413
Medical Office	3,910	3,250
Other	525	541
Total real estate tax expense from continuing operations	\$31,964	\$29,569

Rental expenses from continuing operations increased by \$2.5 million in the second quarter of 2014, compared to the same period in 2013. The increase was the result of incremental rental expenses of \$1.4 million associated with the 19 properties acquired and the 23 developments placed in service since January 1, 2013, as well as higher occupancy in our same property portfolio.

Real estate taxes from continuing operations increased by \$2.4 million in the second quarter of 2014, compared to the same period in 2013. This increase was primarily due to the 19 properties acquired and the 23 developments placed in service since January 1, 2013, which resulted in incremental real estate tax expense of \$2.5 million.

## Service Operations

The following table sets forth the components of the Service Operations reportable segment for the three months ended June 30, 2014 and 2013, respectively (in thousands):

	Three Months Ended June 30,	
	2014	2013
Service Operations:		
General contractor and service fee revenue	\$69,512	\$50,793
General contractor and other services expenses	(63,857	) (45,192
Net earnings from Service Operations	\$5,655	\$5,601

Service Operations primarily consist of the leasing, property management, asset management, development, construction management and general contractor services for joint venture properties and properties owned by third parties. Service Operations are heavily influenced by the current state of the economy, as leasing and property management fees are dependent upon occupancy, while construction and development services rely on the expansion of business operations of third-party property owners and joint venture partners. Although our construction volume was higher during the three months ended June 30, 2014, our third party construction projects were generally performed at higher margins during the three months ended June 30, 2013.

## Depreciation and Amortization

Depreciation and amortization expense increased from \$95.3 million during the second quarter of 2013 to \$97.6 million for the same period in 2014, primarily due to depreciation related to additions to our continuing operations asset base from properties acquired, which have shorter depreciable lives relative to developed properties, and developments placed in service in 2013 and the first six months of 2014.

## Equity in Earnings

Equity in earnings represents our ownership share of net income or loss from investments in unconsolidated companies that generally own and operate rental properties. Equity in earnings increased from \$1.1 million in the three months ended June 30, 2013 to \$60.8 million for the same period in 2014. In June 2014, one of our unconsolidated joint ventures sold its sole property, an office tower in Atlanta, Georgia, and we recorded \$58.4 million to equity in earnings for our share of the net gain. There were no property sales within our unconsolidated joint ventures in the three months ended June 30, 2013.

## Gain on Sale of Properties - Continuing Operations

Effective April 1, 2014, we early adopted Accounting Standards Update No. 2014-08 ("ASU 2014-08"), which will result in fewer real estate sales being classified within discontinued operations. The \$70.3 million recognized as gain on sale of properties in continuing operations for the three months ended June 30, 2014 is primarily comprised of the gain from the sale of a portfolio of six office properties in Cincinnati, Ohio as well as two smaller industrial properties. These properties did not meet the criteria for inclusion in discontinued operations under ASU 2014-08.

## General and Administrative Expenses

General and administrative expenses consist of two components. The first component includes general corporate expenses, and the second component includes the indirect operating costs not allocated to, or absorbed by, the development or Rental Operations of our wholly-owned properties or our Service Operations. The indirect operating costs that are either allocated to, or absorbed by, the development or Rental Operations of our wholly owned properties, or our Service Operations, are primarily comprised of employee compensation, including related costs such as benefits and wage-related taxes, but also include other ancillary costs such as travel and information technology support. Total indirect operation costs, prior to any allocation or absorption, and general corporate expenses are collectively referred to as our overall pool of overhead costs.

Those indirect costs not allocated to or absorbed by these operations are charged to general and administrative expenses. We regularly review our total overhead cost structure relative to our leasing, development and construction volume and adjust the level of total overhead, generally through changes in our level of staffing in various functional departments, as necessary in order to control overall general and administrative expense.

General and administrative expenses increased from \$9.7 million for the second quarter of 2013 to \$10.4 million for the same period in 2014. The following table sets forth the factors that led to the increase in general and administrative expenses (in millions):

General and administrative expenses - three-month period ended June 30, 2013	\$9.7
Increase to overall pool of overhead costs	3.0
Decreased absorption of costs by wholly owned leasing and development activities (1)	2.4
Increased allocation of costs to Service Operations and Rental Operations (2)	(4.7)
General and administrative expenses - three-month period ended June 30, 2014	\$10.4

(1) The timing of efforts expended for wholly owned leasing activity during the three months ended June 30, 2014 resulted in a lower level of absorption of overhead costs than during the three months ended June 30, 2013. We capitalized \$4.3 million and \$8.2 million of our total overhead costs to leasing and development, respectively, for consolidated properties during the three months ended June 30, 2014, compared to capitalizing \$7.5 million and \$7.4 million of such costs, respectively, for the three months ended June 30, 2013. Combined overhead costs capitalized to leasing and development totaled 29.6% and 37.5% of our overall pool of overhead costs for the three months ended June 30, 2014 and 2013, respectively.

(2) The increase in the allocation of overhead costs to Service Operations and Rental Operations resulted from higher volumes of third-party construction projects compared to the three months ended June 30, 2013. See discussion of leasing/capital costs within the Uses of Liquidity section of this Item 2 for further discussion of our wholly owned development expenditures.

#### Interest Expense

Interest expense allocable to continuing operations decreased from \$57.0 million in the second quarter of 2013 to \$54.9 million in the second quarter of 2014. The reduction in interest expense is primarily the result of our refinancing \$675.0 million of unsecured debt during 2013, which had a weighted average effective interest rate of 6.4%, with new lower-rate fixed and variable rate issuances.

We capitalized \$4.3 million of interest costs during the three months ended June 30, 2014 compared to \$5.0 million during the three months ended June 30, 2013.

#### Discontinued Operations

Subject to certain criteria, the results of operations for properties sold during the year to unrelated parties, or classified as held-for-sale at the end of the period, are required to be classified as discontinued operations. The property-specific components of earnings that are classified as discontinued operations include rental revenues, rental expenses, real estate taxes, allocated interest expense and depreciation expense, as well as the net gain or loss on the disposition of the properties. All properties included in discontinued operations were classified as such prior to the adoption of ASU 2014-08 and no properties that have been sold, or designated as held-for-sale, since the adoption of ASU 2014-08 have met the revised criteria for classification within discontinued operations.

The operations of 38 buildings were classified as discontinued operations for both the three months ended June 30, 2014 and June 30, 2013. These 38 buildings consist of 17 industrial, 12 office, eight medical office, and one retail property. As a result, we classified operating income, before gain on sales, of \$327,000 and \$128,000 in discontinued operations for the three months ended June 30, 2014 and 2013, respectively.

Of the properties included in discontinued operations, two were sold during the second quarter of 2014 and three were sold during the second quarter of 2013. The gains on disposal of these properties of \$2.3 million and \$83.7 million for the three months ended June 30, 2014 and 2013, respectively, are also reported in discontinued operations.

## Comparison of Six Months Ended June 30, 2014 to Six Months Ended June 30, 2013

## Rental and Related Revenue

The following table sets forth rental and related revenue from continuing operations by reportable segment for the six months ended June 30, 2014 and 2013, respectively (in thousands):

	Six Months Ended June 30,	
	2014	2013
Rental and related revenue:		
Industrial	\$262,997	\$231,824
Office	133,564	124,853
Medical Office	68,264	62,030
Other	6,043	6,480
Total rental and related revenue from continuing operations	\$470,868	\$425,187

The following factors contributed to the increase in rental and related revenue from continuing operations:

We acquired 19 properties, of which 18 were industrial and one was medical office, and placed 23 developments in service from January 1, 2013 to June 30, 2014, which provided incremental revenues of \$39.4 million in the six months ended June 30, 2014, as compared to the same period in 2013.

We sold 13 medical office properties in the fourth quarter of 2013 and the first quarter of 2014, but because of our continuing involvement in these properties through retained management agreements, these properties are classified in continuing operations. The sale of these properties resulted in an \$8.6 million decrease in rental and related revenue from continuing operations in the six months ended June 30, 2014, as compared to the same period in 2013.

The remaining increase in rental and related revenue from continuing operations was partially due to a \$8.7 million increase in rental expense recoveries within properties outside of the acquisitions, developments and dispositions described above, most of which was attributable to a significant increase in recoverable snow removal and utility costs resulting from the extreme winter conditions in the first quarter of 2014. Increased occupancy and rental rates within our same property portfolio was the primary reason for the remaining increase in rental and related revenue from continuing operations.

Rental Expenses and Real Estate Taxes

The following table sets forth rental expenses and real estate taxes from continuing operations by reportable segment for the six months ended June 30, 2014 and 2013, respectively (in thousands):

	Six Months Ended June 30,	
	2014	2013
Rental expenses:		
Industrial	\$30,871	\$23,608
Office	39,880	36,225
Medical Office	16,141	14,323
Other	3,313	2,135
Total rental expenses from continuing operations	\$90,205	\$76,291
Real estate taxes:		
Industrial	\$39,159	\$35,851
Office	16,174	15,277
Medical Office	7,848	6,361
Other	1,250	1,120
Total real estate tax expense from continuing operations	\$64,431	\$58,609

Overall, rental expenses from continuing operations increased by \$13.9 million in the six months ended June 30, 2014, compared to the same period in 2013. The increase was primarily the result of an increase in snow removal and utility costs due to the extreme winter conditions experienced in the first quarter of 2014. Also contributing to the overall increase, to a lesser extent, were incremental rental expenses associated with the 19 properties acquired and the 23 developments placed in service since January 1, 2013, as well as higher occupancy in our same property portfolio.

Overall, real estate taxes from continuing operations increased by \$5.8 million in the six months ended June 30, 2014, compared to the same period in 2013. This increase was primarily due to the 19 properties acquired and the 23 developments placed in service since January 1, 2013, which resulted in incremental real estate tax expense of \$5.2 million.

Service Operations

The following table sets forth the components of the Service Operations reportable segment for the six months ended June 30, 2014 and 2013, respectively (in thousands):

	Six Months Ended June 30,	
	2014	2013
Service Operations:		
General contractor and service fee revenue	\$125,332	\$98,197
General contractor and other services expenses	(111,128	) (83,533
Net earnings from Service Operations	\$14,204	\$14,664

General contractor and service fee revenues increased due to higher third-party construction volume, which was driven in part by two third-party construction projects in the Chicago area that were ongoing during the six months ended June 30, 2014. We, however, had a \$4.2 million recovery from a sub-contractor on a previously completed third-party construction job during the first six months of 2013, which drove the slight overall decrease in net earnings from Service Operations.

### Depreciation and Amortization

Depreciation and amortization expense increased from \$188.3 million during the first six months of 2013 to \$195.7 million for the same period in 2014, primarily due to depreciation related to additions to our continuing operations asset base from properties acquired, which have shorter depreciable lives relative to developed properties, and developments placed in service in 2013 and the first six months of 2014.

### Equity in Earnings

Equity in earnings increased from \$50.5 million in the first six months of 2013 to \$63.1 million for the same period in 2014. The increase is the result of property sale activity within our unconsolidated joint ventures. In January 2013, we sold the sole property within one of our unconsolidated joint ventures and recorded \$12.2 million to equity in earnings for our share of the net gain, while in March 2013 we sold our interest in 17 properties within another of our unconsolidated joint ventures to our partner in that venture, resulting in \$36.6 million recorded to equity in earnings for our share of the net gain on sale. In June 2014, one of our unconsolidated joint ventures sold its sole property, an office tower in Atlanta, Georgia, and we recorded \$58.4 million to equity in earnings for our share of the net gain.

### Gain on Sale of Properties - Continuing Operations

The \$86.2 million recognized as gain on sale of properties in continuing operations for the six months ended June 30, 2014 is primarily comprised of the gain from the sale of one medical office property, two industrial properties and six office properties. The medical office property, which was sold prior to our early adoption of ASU 2014-08, did not meet the criteria for inclusion in discontinued operations because of our continued involvement through a retained management agreement after the sale. The two industrial and six office properties were sold in the second quarter of 2014 and did not meet the criteria for inclusion in discontinued operations under ASU 2014-08.

### General and Administrative Expense

General and administrative expenses increased from \$22.9 million for the first six months of 2013 to \$25.1 million for the same period in 2014. The following table sets forth the factors that led to the increase in general and administrative expenses from the six months ended June 30, 2013 to the six months ended June 30, 2014 (in millions):

General and administrative expenses - six-month period ended June 30, 2013	\$22.9
Increase to overall pool of overhead costs	3.3
Decreased absorption of costs by wholly owned leasing and development activities (1)	3.2
Increased allocation of costs to Service Operations and Rental Operations (2)	(4.3)
General and administrative expenses - six-month period ended June 30, 2014	\$25.1

(1) The timing of efforts expended for wholly owned leasing activity during the six months ended June 30, 2014 resulted in a lower level of absorption of overhead costs than during the six months ended June 30, 2013. We capitalized \$12.6 million and \$14.6 million of our total overhead costs to leasing and development, respectively, for consolidated properties during the six months ended June 30, 2014, compared to capitalizing \$16.5 million and \$13.9 million of such costs, respectively, for the six months ended June 30, 2013. Combined overhead costs capitalized to leasing and development totaled 31.5% and 36.3% of our overall pool of overhead costs for 2014 and 2013, respectively.

(2) The increase in the allocation of overhead costs to Service Operations and Rental Operations resulted from higher volumes of third-party construction projects compared to the six months ended June 30, 2013. See discussion of leasing/capital costs within the Uses of Liquidity section of this Item 2 for further discussion of our wholly owned development expenditures.

### Interest Expense

Interest expense allocable to continuing operations decreased from \$114.3 million in the first six months of 2013 to \$110.1 million in the first six months of 2014. The reduction in interest expense is primarily the result of our refinancing \$675.0 million of unsecured debt during 2013, which had a weighted average effective interest rate of 6.4%, with new lower-rate fixed and variable rate issuances.

We capitalized \$8.5 million of interest costs during the six months ended June 30, 2014 compared to \$9.6 million during the six months ended June 30, 2013.

#### Discontinued Operations

The operations of 38 buildings were classified as discontinued operations for both the six months ended June 30, 2014 and June 30, 2013. These 38 buildings consist of 17 industrial, 12 office, eight medical office and one retail property. As a result, we classified operating income, before gain on sales, of \$195,000 and an operating loss, before gain on sales, of \$358,000 in discontinued operations for the six months ended June 30, 2014 and 2013, respectively.

Of the properties included in discontinued operations, 12 were sold during the first six months of 2014 and nine were sold during the first six months of 2013. The gains on disposal, net of tax, of \$19.1 million and \$92.6 million for the six months ended June 30, 2014 and 2013, respectively, are reported in discontinued operations.

#### Liquidity and Capital Resources

##### Sources of Liquidity

We expect to meet our short-term liquidity requirements over the next 12 months primarily through working capital, net cash provided by operating activities and proceeds received from real estate dispositions. Our short-term liquidity requirements include payments of dividends and distributions as well as the capital expenditures needed to maintain our current real estate assets. We had \$21.2 million in cash and \$60.0 million of outstanding borrowings on the Partnership's \$850.0 million unsecured line of credit at June 30, 2014.

In addition to our existing sources of liquidity, we expect to meet long-term liquidity requirements, such as scheduled mortgage and unsecured debt maturities, property acquisitions, financing of development activities and other capital improvements, through multiple sources of capital including operating cash flow, proceeds from property dispositions, term loans and through accessing the public debt and equity markets.

##### Rental Operations

Cash flows from Rental Operations is our primary source of liquidity and provides a stable source of cash flow to fund operational expenses. We believe that this cash-based revenue stream is substantially aligned with revenue recognition (except for items such as periodic straight-line rental income accruals and amortization of above or below market rents) as cash receipts from the leasing of rental properties are generally received in advance of, or a short time following, the actual revenue recognition.

Although overall economic conditions have improved since the last economic recession, we are subject to a number of risks related to general economic conditions, including reduced occupancy, tenant defaults and bankruptcies and potential reduction in rental rates upon renewal or re-letting of properties, any of which would result in reduced cash flow from operations.

##### Unsecured Debt and Equity Securities

We use the Partnership's unsecured line of credit (which is guaranteed by the General Partner) as a temporary source of capital to fund development activities, acquire additional rental properties and provide working capital.

At June 30, 2014, we had on file with the SEC an automatic shelf registration statement on Form S-3 relating to the offer and sale, from time to time, of an indeterminate amount of debt and equity securities. Equity securities are offered and sold by the General Partner, and the net proceeds of such offerings are contributed to the Partnership in exchange for additional General Partner Units or Preferred Units. From time to time, we expect to issue additional securities under this automatic shelf registration statement to fund the repayment of long-term debt upon maturity and for other general corporate purposes.

The General Partner had an at the market equity program that allowed it to issue new common shares from time to time, with an aggregate offering price of up to \$300.0 million. During the six months ended June 30, 2014, the

General Partner issued approximately 11.0 million common shares under this program, resulting in gross proceeds of approximately \$193.1 million and net proceeds of approximately \$191.1 million. In early July 2014, the General Partner issued nearly 3.1 million shares, for an additional \$55.5 million in gross proceeds, which completed the \$300.0 million at the market equity program.

The indentures (and related supplemental indentures) governing our outstanding series of notes also require us to comply with financial ratios and other covenants regarding our operations. We were in compliance with all such covenants, as well as applicable covenants under our unsecured line of credit, at June 30, 2014.

#### Sale of Real Estate Assets

We regularly work to identify, consider and pursue opportunities to dispose of non-strategic properties on an opportunistic basis and on a basis that is generally consistent with our strategic plans. Our ability to dispose of such properties on favorable terms, or at all, is dependent upon a number of factors including the availability of credit to potential buyers to purchase properties at prices that we consider acceptable. Although we believe that we have demonstrated our ability to generate significant liquidity through the disposition of non-strategic properties, potential future adverse changes to general market and economic conditions could negatively impact our further ability to dispose of such properties.

#### Transactions with Unconsolidated Joint Ventures

Transactions with unconsolidated joint ventures also provide a source of liquidity. From time to time we will sell properties to unconsolidated joint ventures, while retaining a continuing interest in that entity, and receive proceeds commensurate to those interests that we do not own. Additionally, unconsolidated joint ventures will from time to time obtain debt financing or sell properties and will then distribute to us, and our joint venture partners, all or a portion of the proceeds from such transactions. During the six months ended June 30, 2014, we received sale distributions from two unconsolidated joint ventures totaling \$40.3 million.

#### Uses of Liquidity

Our principal uses of liquidity include the following:

- property investment;
- leasing/capital costs;
- dividends and distributions to shareholders and unitholders;
- long-term debt maturities;
- opportunistic repurchases of outstanding debt and preferred stock; and
- other contractual obligations.

#### Property Investment

It is our strategy, through new developments and, to a lesser extent, acquisitions to continue to increase our investment concentration in industrial properties while, through selective dispositions, reducing our investment concentration in suburban office properties in certain markets. Pursuant to this strategy, we evaluate development and acquisition opportunities based upon our market outlook, including general economic conditions, supply and long-term growth potential. Our ability to make future property investments, along with being dependent upon identifying suitable development and acquisition opportunities, is also dependent upon our continued access to our longer-term sources of liquidity, including issuances of debt or equity securities as well as generating cash flow by disposing of selected properties.

#### Leasing/Capital Costs

Tenant improvements and lease-related costs pertaining to our initial leasing of newly completed space, or vacant space in acquired properties, are referred to as first generation expenditures. Such first generation expenditures for tenant improvements are included within "development of real estate investments" in our Consolidated Statements of Cash Flows, while such expenditures for lease-related costs are included within "other deferred leasing costs."

Cash expenditures related to the construction of a building's shell, as well as the associated site improvements, are also included within "development of real estate investments" in our Consolidated Statements of Cash Flows.

Tenant improvements and leasing costs to re-let rental space that we previously leased to tenants are referred to as second generation expenditures. Building improvements that are not specific to any tenant but serve to improve integral components of our real estate properties are also second generation expenditures. One of the principal uses of our liquidity is to fund the second generation leasing/capital expenditures of our real estate investments.

The following table summarizes our second generation capital expenditures by type of expenditure, as well as capital expenditures for the development of real estate investments and for other deferred leasing costs (in thousands):

	Six Months Ended June 30,	
	2014	2013
Second generation tenant improvements	\$24,475	\$16,838
Second generation leasing costs	18,573	18,354
Building improvements	1,319	1,941
Total second generation capital expenditures	\$44,367	\$37,133
Development of real estate investments	\$226,575	\$224,202
Other deferred leasing costs	\$14,980	\$17,633

We capitalized \$12.6 million and \$16.5 million of overhead costs related to leasing activities, including both first and second generation leases, during the six months ended June 30, 2014 and 2013, respectively. We capitalized \$14.6 million and \$13.9 million of overhead costs related to development activities, including both development and tenant improvement projects on first and second generation space, during the six months ended June 30, 2014 and 2013, respectively. Combined overhead costs capitalized to leasing and development totaled 31.5% and 36.3% of our overall pool of overhead costs for the six months ended June 30, 2014 and 2013, respectively. Further discussion of the capitalization of overhead costs can be found herein, in the discussion of general and administrative expenses in the Comparison of Six Months Ended June 30, 2014 to Six Months Ended June 30, 2013 section of Management's Discussion and Analysis of Financial Condition and Results of Operations as well as in the Critical Accounting Policies section of Management's Discussion and Analysis of Financial Condition and Results of Operations in our combined Annual Report on Form 10-K for the year ended December 31, 2013 as filed with the SEC on February 21, 2014.

In addition to the capitalization of overhead costs discussed above, we also capitalized \$8.5 million and \$9.6 million of interest costs in the six months ended June 30, 2014 and 2013, respectively.

The following table summarizes our second generation capital expenditures by reportable operating segment (in thousands):

	Six Months Ended June 30,	
	2014	2013
Industrial	\$24,225	\$15,710
Office	18,855	20,637
Medical Office	788	786
Non-reportable segments	499	—
Total	\$44,367	\$37,133

Both our first and second generation expenditures vary significantly between leases on a per square foot basis, dependent upon several factors including the product type, the nature of a tenant's operations, the specific physical characteristics of each individual property and the market in which the property is located.

### Dividend and Distribution Requirements

The General Partner is required to meet the distribution requirements of the Internal Revenue Code of 1986, as amended (the "Code"), in order to maintain its REIT status. We paid dividends or distributions of \$0.17 per common share or Common Unit in the first and second quarters of 2014, and the General Partner's board of directors declared dividends or distributions of \$0.17 per common share or Common Unit for the third quarter of 2014. Our future dividends or distributions will be declared at the discretion of the General Partner's board of directors and will be subject to our future capital needs and availability.

At June 30, 2014, the General Partner had three series of preferred stock outstanding. The annual dividend rates on the General Partner's preferred shares range between 6.5% and 6.625% and are paid quarterly in arrears.

### Debt Maturities

Debt outstanding at June 30, 2014 had a face value totaling \$4.1 billion with a weighted average interest rate of 5.52% and matures at various dates through 2028. Of this total amount, we had \$3.1 billion of unsecured debt, \$1.0 billion of secured debt and \$60.0 million outstanding on our unsecured line of credit at June 30, 2014. Scheduled principal amortization and maturities of such debt totaled \$89.9 million for the six months ended June 30, 2014.

The following table is a summary of the scheduled future amortization and maturities of our indebtedness at June 30, 2014 (in thousands, except percentage data):

Year	Future Repayments			Weighted Average Interest Rate of Future Repayments	
	Scheduled Amortization	Maturities	Total		
Remainder of 2014	\$8,468	\$—	\$8,468	5.50	%
2015	14,217	503,335	517,552	5.91	%
2016	11,852	518,132	529,984	6.14	%
2017	9,908	544,932	554,840	5.95	%
2018	7,937	550,000	557,937	4.03	%
2019	6,936	518,438	525,374	7.97	%
2020	5,381	250,000	255,381	6.73	%
2021	3,416	259,047	262,463	3.99	%
2022	3,611	600,000	603,611	4.20	%
2023	3,817	250,000	253,817	3.75	%
2024	4,036	—	4,036	5.62	%
Thereafter	6,325	50,000	56,325	7.11	%
	\$85,904	\$4,043,884	\$4,129,788	5.52	%

We anticipate generating capital to fund our debt maturities by using undistributed cash generated from our Rental Operations and property dispositions and by raising additional capital from future debt or equity transactions.

### Repurchases of Outstanding Debt and Preferred Stock

To the extent that it supports our overall capital strategy, we may purchase certain of our outstanding unsecured debt prior to its stated maturity or the General Partner may redeem or repurchase certain of its outstanding series of preferred stock.

In the first six months of 2014, pursuant to a share repurchase plan approved by the General Partner's board of directors, the General Partner repurchased 750,243 preferred shares from among its three outstanding series. The preferred shares repurchased had a total redemption value of approximately \$18.8 million and were repurchased for \$17.7 million.

## Historical Cash Flows

Cash and cash equivalents were \$21.2 million and \$21.4 million at June 30, 2014 and 2013, respectively. The following table highlights significant changes in net cash associated with our operating, investing and financing activities (in millions):

	Six Months Ended June 30,	
	2014	2013
<b>General Partner</b>		
Net Cash Provided by Operating Activities	\$204.0	\$198.2
Net Cash Used for Investing Activities	\$(129.8)	\$(309.1)
Net Cash Provided by (Used for) Financing Activities	\$(72.3)	\$98.4
<b>Partnership</b>		
Net Cash Provided by Operating Activities	\$204.0	\$198.2
Net Cash Used for Investing Activities	\$(129.8)	\$(309.1)
Net Cash Provided by (Used for) Financing Activities	\$(72.3)	\$98.4
<b>Operating Activities</b>		

The receipt of rental income from Rental Operations continues to be our primary source of operating cash flows. The slight increase in cash flows from operations noted in the table above was primarily due to the increase in rental revenues from continuing operations, the impact of which was partially offset by the timing of cash payments and receipts on third-party construction contracts.

**Investing Activities**

Investing activities are one of the primary uses of our liquidity. Development and acquisition activities typically generate additional rental revenues and provide cash flows for operational requirements. Highlights of significant cash sources and uses are as follows:

During the six months ended June 30, 2014, we paid cash of \$85.2 million for real estate acquisitions and \$11.8 million for undeveloped land acquisitions, compared to \$334.3 million and \$23.2 million, respectively, for real estate and undeveloped land acquisitions in the same period in 2013.

Real estate development costs were \$226.6 million during the six months ended June 30, 2014, compared to \$224.2 million for the same period in 2013.

Sales of land and depreciated property provided \$213.0 million in net proceeds for the six months ended June 30, 2014, compared to \$259.2 million for the same period in 2013.

For the six months ended June 30, 2014, we received \$40.3 million in capital distributions, which represented our share of the net proceeds from the sales of two office properties within two of our unconsolidated joint ventures, compared to \$89.2 million during the same period in 2013. The activity during the six months ended June 30, 2013 represented the receipt of our share of the net proceeds from the sales of 17 office properties and one industrial property within two of our unconsolidated joint ventures.

**Financing Activities**

The following items highlight some of the factors that account for the difference in net cash flow related to financing activities in the first six months of 2014, compared to the same period in 2013:

During the six months ended June 30, 2014, the General Partner issued 11.0 million common shares for net proceeds of \$191.1 million, compared to 43.1 million common shares for net proceeds of \$601.9 million during the six months ended June 30, 2013.

For the six months ended June 30, 2014, the General Partner opportunistically repurchased preferred shares from all outstanding series in the open market in order to take advantage of the significant discounts at

which they were trading. In total, the General Partner repurchased preferred shares having a redemption value of approximately \$18.8 million for \$17.7 million. The General Partner did not conduct any repurchases in the six months ended June 30, 2013.

During the six months ended June 30, 2014, we repaid six secured loans totaling \$82.2 million that had a weighted average stated interest rate of 5.59%, compared to repaying three secured loans totaling \$22.7 million that had a weighted average stated interest rate of 5.73% during the same period in 2013.

For the six months ended June 30, 2014, we decreased net borrowings on the Partnership's unsecured line of credit by \$28.0 million, compared to a \$197.0 million decrease in net borrowings for the same period in 2013.

Changes in book overdrafts are classified as financing activities within our Consolidated Statements of Cash Flows. Book overdrafts were \$20.1 million at June 30, 2014, compared to \$6.4 million at June 30, 2013.

In March 2013, we issued \$250.0 million of senior unsecured notes that bear interest at 3.625%, have an effective interest rate of 3.72%, and mature on April 15, 2023. Additionally, in May 2013 we issued and fully drew down on a term loan with an aggregate commitment of \$250.0 million that bears interest at a variable rate of LIBOR plus 1.35% and matures May 14, 2018. We had no new unsecured debt issuances in the six months ended June 30, 2014.

During the six months ended June 30, 2013, we repaid two unsecured notes with a weighted average stated interest rate of 5.68% at their maturity dates totaling \$425.0 million. We did not repay any unsecured notes in the six months ended June 30, 2014.

In February 2013, the General Partner redeemed all of the outstanding shares of its 8.375% Series O Cumulative Redeemable Preferred Shares for a total payment of \$178.0 million.

#### Contractual Obligations

Aside from changes in long-term debt, there have not been material changes in our outstanding commitments since December 31, 2013, as previously discussed in our 2013 Annual Report on Form 10-K.

#### Off Balance Sheet Arrangements - Investments in Unconsolidated Companies

We analyze our investments in unconsolidated joint ventures to determine if they meet the criteria for classification as a variable interest entity (a "VIE") and would require consolidation. We (i) evaluate the sufficiency of the total equity at risk, (ii) review the voting rights and decision-making authority of the equity investment holders as a group and whether there are any guaranteed returns, protection against losses, or capping of residual returns within the group and (iii) establish whether activities within the venture are on behalf of an investor with disproportionately few voting rights in making this VIE determination. To the extent that we (i) are the sole entity that has the power to direct the activities of the VIE and (ii) have the obligation or rights to absorb the VIE's losses or receive its benefits, then we would be determined to be the primary beneficiary of the VIE and would consolidate it. At the end of each reporting period, we re-assess our conclusions as to which, if any, party within the VIE is considered the primary beneficiary. To the extent that our joint ventures do not qualify as VIEs, we further assess each joint venture partner's substantive participating rights to determine if the venture should be consolidated.

We have equity interests in unconsolidated partnerships and limited liability companies that primarily own and operate rental properties and hold land for development. These unconsolidated joint ventures are primarily engaged in the operations and development of industrial, office and medical office real estate properties. These investments provide us with increased market share and tenant and property diversification. The equity method of accounting is used for these investments in which we have the ability to exercise significant influence, but not control, over operating and financial policies. As a result, the assets and liabilities of these entities are not included on our balance sheet. Our investments in and advances to unconsolidated subsidiaries represented approximately 4% of our total assets at both June 30, 2014 and December 31, 2013. Total assets of our unconsolidated subsidiaries were \$1.9 billion and \$2.0 billion at June 30, 2014 and December 31, 2013, respectively. The combined revenues of our unconsolidated subsidiaries totaled \$120.6 million and \$124.8 million for the six months ended June 30, 2014 and 2013, respectively.

Edgar Filing: DUKE REALTY CORP - Form 10-Q

We have guaranteed the repayment of certain secured and unsecured loans of our unconsolidated subsidiaries. The outstanding balances on the guaranteed portion of these loans totaled \$212.9 million at June 30, 2014.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to interest rate changes primarily as a result of our line of credit and our long-term borrowings. Our interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower overall borrowing costs. To achieve our objectives, we borrow primarily at fixed rates. We do not enter into derivative or interest rate transactions for speculative purposes. We have one outstanding swap, which fixes the rate on one of our variable rate loans and is not significant to our financial statements at June 30, 2014.

Our interest rate risk is monitored using a variety of techniques. The table below presents the principal amounts (in thousands) of the expected annual maturities, weighted average interest rates for the average debt outstanding in the specified period, fair values (in thousands) and other terms required to evaluate the expected cash flows and sensitivity to interest rate changes.

	Remainder of 2014	2015	2016	2017	2018	Thereafter	Face Value	Fair Value
Fixed rate secured debt	\$6,471	\$205,026	\$377,314	\$102,016	\$4,952	\$304,450	\$1,000,229	\$1,098,560
Weighted average interest rate	6.14	% 5.30	% 5.91	% 5.96	% 6.49	% 7.45	% 6.26	%
Variable rate secured debt	\$935	\$300	\$300	\$300	\$300	\$2,200	\$4,335	\$4,335
Weighted average interest rate	0.16	% 0.15	% 0.15	% 0.15	% 0.15	% 0.15	% 0.15	%
Fixed rate unsecured debt	\$1,062	\$252,226	\$152,370	\$452,524	\$302,685	\$1,654,357	\$2,815,224	\$3,080,718
Weighted average interest rate	6.26	% 7.49	% 6.71	% 5.95	% 6.08	% 5.20	% 5.70	%
Variable rate unsecured notes	\$—	\$—	\$—	\$—	\$250,000	\$—	\$250,000	\$252,123
Rate at June 30, 2014	N/A	N/A	N/A	N/A	1.51%	N/A	1.51	%
Variable rate unsecured line of credit	\$—	\$60,000	\$—	\$—	\$—	\$—	\$60,000	\$60,242
Rate at June 30, 2014	N/A	1.40	% N/A	N/A	N/A	N/A	1.40	%

As the above table incorporates only those exposures that existed at June 30, 2014, it does not consider those exposures or positions that could arise after that date. As a result, the ultimate impact of interest rate fluctuations will depend on future exposures that arise, our hedging strategies at that time to the extent we are party to interest rate derivatives, and interest rates. Interest expense on our unsecured line of credit and our variable rate unsecured notes will be affected by fluctuations in the LIBOR indices as well as changes in our credit rating. The interest rate at such point in the future as we may renew, extend or replace our unsecured line of credit will be heavily dependent upon the state of the credit environment.

Item 4. Controls and Procedures

Control and Procedures (General Partner)

(a) Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. These disclosure controls and procedures are further designed to ensure that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosure.

We carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon the foregoing, the Chief Executive Officer and the Chief Financial Officer concluded that, as of the end of the period covered by this Report, our disclosure controls and procedures were effective.

(b) Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the period covered by this Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Controls and Procedures (Partnership)

(a) Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. These disclosure controls and procedures are further designed to ensure that such information is accumulated and communicated to management, including the General Partner's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

We carried out an evaluation, under the supervision and with the participation of management, including the General Partner's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon the foregoing, the General Partner's Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this Report, our disclosure controls and procedures were effective.

(b) Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the period covered by this Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## Part II - Other Information

### Item 1. Legal Proceedings

From time to time, we are parties to a variety of legal proceedings and claims arising in the ordinary course of our businesses. While these matters generally are covered by insurance, there is no assurance that our insurance will cover any particular proceeding or claim. We are not subject to any material pending legal proceedings other than routine litigation arising in the ordinary course of business. We presently believe that all of these proceedings to which we were subject as of June 30, 2014, taken as a whole, will not have a material adverse effect on our liquidity, business, financial condition or results of operations.

### Item 1A. Risk Factors

In addition to the information set forth in this Report, you also should carefully review and consider the information contained in our other reports and periodic filings that we make with the SEC, including, without limitation the information contained under the caption "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2013. The risks and uncertainties described in our 2013 Annual Report on Form 10-K are not the only risks that we face. Additional risks and uncertainties not currently known to us, or that we presently deem to be immaterial, also may materially adversely affect our business, financial condition and results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) Unregistered Sales of Equity Securities

None

(b) Use of Proceeds

None

(c) Issuer Purchases of Equity Securities

From time to time, we repurchase our securities under a repurchase program that initially was approved by the General Partner's board of directors and publicly announced in October 2001 (the "Repurchase Program").

On January 29, 2014, the board of directors adopted a resolution that amended and restated the Repurchase Program and delegated authority to management to repurchase a maximum of \$100.0 million of the General Partner's common shares, \$500.0 million of debt securities and \$500.0 million of the General Partner's preferred shares, subject to the prior notification of the Chairman of the Finance Committee of the board of directors of planned repurchases within these limits (the "January 2014 Resolutions"). We did not repurchase any securities through the Repurchase Program during the quarter ended June 30, 2014 and the maximum amounts set forth under the January 2014 Resolutions for the repurchase of common shares and debt securities are remaining in the Repurchase Program, while \$494.6 million is remaining for the repurchase of preferred shares.

In July 2014, we called for redemption all 384,530 shares of our outstanding Series J Shares. The redemption date is August 4, 2014 and the cash redemption price for the Series J Shares is \$96.1 million, or \$250 per share, plus accrued dividends.

Item 3. Defaults upon Senior Securities

During the period covered by this Report, we did not default under the terms of any of our material indebtedness, nor has there been any material arrearage of dividends or other material uncured delinquency with respect to any class of the General Partner's preferred shares.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

During the period covered by this Report, there was no information required to be disclosed by us in a Current Report on Form 8-K that was not so reported, nor were there any material changes to the procedures by which our security holders may recommend nominees to the General Partner's board of directors.

Item 6. Exhibits

(a) Exhibits

- 3.1 Fifth Amended and Restated Articles of Incorporation of the General Partner (filed as Exhibit 3.1 to the combined Current Report on Form 8-K of the General Partner and the Partnership as filed with the SEC on May 5, 2014, and incorporated herein by this reference).
- 3.2 Fourth Amended and Restated Bylaws of the General Partner (filed as Exhibit 3.2 to the General Partner's Current Report on Form 8-K as filed with the SEC on July 30, 2009, and incorporated herein by this reference).
- 3.3 Certificate of Limited Partnership of the Partnership, dated September 17, 1993 (filed as Exhibit 3.1(i) to the Partnership's Annual Report on Form 10-K for the year ended December 31, 2006 as filed with the SEC on March 13, 2007, and incorporated herein by this reference) (File No. 000-20625).
- 3.4 Fifth Amended and Restated Agreement of Limited Partnership of the Partnership (filed as Exhibit 3.2 to the combined Current Report on Form 8-K of the General Partner and the Partnership as filed with the SEC on May 5, 2014, and incorporated herein by this reference).
- 11.1 Statement Regarding Computation of Earnings.\*\*\*
- 12.1 Statement of Computation of Ratio of Earnings to Fixed Charges and Ratio of Earnings to Combined Fixed Charges and Preferred Dividends of the General Partner.\*
- 12.2 Statement of Computation of Ratio of Earnings to Fixed Charges and Ratio of Earnings to Combined Fixed Charges and Preferred Distributions of the Partnership.\*
- 31.1 Rule 13a-14(a) Certification of the Chief Executive Officer of the General Partner.\*
- 31.2 Rule 13a-14(a) Certification of the Chief Financial Officer of the General Partner.\*
- 31.3 Rule 13a-14(a) Certification of the Chief Executive Officer for the Partnership.\*
- 31.4 Rule 13a-14(a) Certification of the Chief Financial Officer for the Partnership.\*
- 32.1 Section 1350 Certification of the Chief Executive Officer of the General Partner.\*\*
- 32.2 Section 1350 Certification of the Chief Financial Officer of the General Partner.\*\*
- 32.3 Section 1350 Certification of the Chief Executive Officer for the Partnership.\*\*
- 32.4 Section 1350 Certification of the Chief Financial Officer for the Partnership.\*\*
- 101 The following materials from the General Partner's and the Partnership's Quarterly Report on Form 10-Q for the quarter ended June 30, 2014 formatted in XBRL (eXtensible Business Reporting Language): (i) the Consolidated Balance Sheets, (ii) the Consolidated Statements of Operations and Comprehensive Income, (iii) the Consolidated Statements of Cash Flows, (iv) the Consolidated Statements of Changes in Equity, and (v) the Notes to Consolidated Financial Statements.

\* Filed herewith.

Edgar Filing: DUKE REALTY CORP - Form 10-Q

\*\* The certifications attached as Exhibits 32.1, 32.2, 32.3 and 32.4 accompany this Quarterly Report on Form 10-Q and are "furnished" to the Securities and Exchange Commission pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 and shall not be deemed "filed" by the General Partner or the Partnership, respectively, for purposes of Section 18 of the Securities Exchange Act of 1934, as amended.
