(b) Total investment return at net asset value (NAV) is based on changes in the NAV of Fund shares and assumes reinvestment of dividends and distributions, if any. Total investment return at market value is based on changes in the market price at which the Fund s shares traded on the

stock exchange during the period and assumes reinvestment of dividends and distributions, if any, at actual prices pursuant to the Fund's dividend reinvestment program. Because the Fund's shares trade in the stock market based on investor demand, the Fund may trade at a price higher or lower than its NAV. Therefore, returns are calculated based on share price and NAV. During the years ended August 31, 2012 and 2009, the adviser reimbursed certain fund expenses. If the adviser had not reimbursed the Fund, the return would have been lower.

(c) Expense ratio includes 20% tax paid on stock dividends received by the Fund. For the years ended August 31, 2013, 2012, 2011, 2010 and 2009, the Fund's ratio of expenses before fee waiver and excluding taxes paid on stock dividends was 1.80%, 1.58%, 1.28%, 1.40%, and 1.66%, respectively.

^ As of May 8, 2010, Martin Currie Inc. succeeded HSBC Global Asset Management (Taiwan) Limited (HSBC) as the Fund's investment adviser.

NOTES TO FINANCIAL STATEMENTS

AUGUST 31, 2013

1. Organization

The Taiwan Fund, Inc. (the Fund), a Delaware corporation, is registered under the Investment Company Act of 1940, as amended (the Act), as a diversified closed-end management investment fund.

The Fund concentrates its investments in the securities listed on the Taiwan Stock Exchange. Because of this concentration, the Fund may be subject to additional certain risks not typically associated with investing in securities of U.S. companies or the U.S. government, including (1) volatility of the Taiwan securities market, (2) restrictions on repatriation of capital invested in Taiwan, (3) fluctuations in the rate of exchange between the NT dollar and the U.S. dollar, and (4) political and economic risks. In addition, ROC accounting, auditing, financial and other reporting standards are not equivalent to U.S. standards and, therefore, certain material disclosures may not be made, and less information may be available to investors investing in Taiwan than in the United States. There is also generally less regulation by governmental agencies and self-regulatory organizations with respect to the securities industry in Taiwan than there is in the United States.

2. Significant Accounting Policies

The financial statements are prepared in accordance with U.S. generally accepted accounting principles (GAAP), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities. Actual results could differ from those estimates. Management has evaluated the impact of all events or transactions occurring after year end through the date these financial statements were issued, and has determined that there were no subsequent events requiring recognition or disclosure. The following summarizes the significant accounting policies of the Fund:

Security Valuation. All securities, including those traded over-the-counter, for which market quotations are readily

available are valued at the last sales price prior to the time of determination of the Fund's net asset value per share or, if there were no sales on such date, at the closing price quoted for such securities (but if bid and asked quotations are available, at the mean between the last current bid and asked prices, rather than such quoted closing price). These securities are generally categorized as Level 1 securities in the fair value hierarchy. In certain instances where the price determined above may not represent fair market value, the value is determined in such manner as the Board of Directors (the Board) may prescribe. Foreign securities may be valued at fair value according to procedures approved by the Board if the closing price is not reflective of current market values due to trading or events occurring in the valuation time of the Fund. In addition, substantial changes in values in the U.S. markets subsequent to the close of a foreign market may also affect the values of securities traded in the foreign market. These securities may be categorized as Level 2 or Level 3 securities in the fair value hierarchy, depending on the valuation inputs. Short-term investments, having a maturity of 60 days or less are valued at amortized cost, which approximates market value, with accrued interest or discount earned included in interest receivable.

The Fund has adopted fair valuation accounting standards which establish a definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 quoted unadjusted prices for identical instruments in active markets to which the Fund has access at the date of measurement.

Level 2 quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model

NOTES TO FINANCIAL STATEMENTS *(continued)***AUGUST 31, 2013****2. Significant Accounting Policies** *continued*

derived valuations in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers.

Level 3 model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price the asset or liability based on the best available information.

| Investments in Securities | Level 1 | Level 2 | Level 3 | Total |

| Common Stocks [^] | \$ 149,607,305 | \$ | \$ | \$ 149,607,305 |

[^] See schedule of investments for industry breakout.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Fund's policy is to disclose transfers between Levels based on valuations at the end of the reporting period. As of August 31, 2013, there were no transfers between Levels 1, 2, or 3 based on the valuation input levels.

Repurchase Agreements. In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

Foreign Currency Translation. The financial accounting records of the Fund are maintained in U.S. dollars.

Investment securities, other assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the current exchange rate. Purchases and sales of securities, income receipts and expense payments are translated into U.S. dollars at the exchange rate on the dates of the transactions.

Reported net realized gains and losses on foreign currency transactions represent net gains and losses from disposition of foreign currencies, currency gains and losses realized between the trade dates and settlement dates of security transactions, and the difference between the amount of net investment income accrued and the U.S. dollar amount actually received. The effects of changes in foreign currency exchange rates on investments in securities are not segregated in the Statement of Operations from the effects of changes in market prices of those securities, but are included in realized and unrealized gain or loss on investments.

Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 8-K

Forward Foreign Currency Transactions. A forward foreign currency contract (Forward) is an agreement between two parties to buy or sell currency at a set price on a future date. The Fund may enter into Forwards in order to hedge foreign currency risk or for other risk management purposes. Realized gains or losses on Forwards include net gains or losses on contracts that have matured or which the Fund has terminated by entering into an offsetting closing transaction. Unrealized appreciation or depreciation on Forwards is included in the Statement of Assets and Liabilities and is carried on a net basis. The portfolio could be exposed to risk of loss if the counterparty is unable to meet the terms of the contract or if the value of the currency changes unfavorably. As of August 31, 2013 the Fund had no open Forwards.

Indemnification Obligations. Under the Fund's organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business the Fund enters into contracts

NOTES TO FINANCIAL STATEMENTS *(continued)*

2. Significant Accounting Policies *continued*

that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

Taxes. As a qualified Regulated Investment Company (RIC) under Subchapter M of the Internal Revenue Code, the Fund is not subject to income taxes to the extent that it distributes all of its taxable income and net realized capital gains for its fiscal year. In addition to federal income tax for which the Fund is liable on undistributed amounts, the Fund is subject to federal excise tax on undistributed taxable income and net realized capital gains. The Fund is organized in Delaware and as such is required to pay Delaware an annual franchise tax. Also, the Fund is currently subject to a Taiwan security transaction tax of 0.3% on sales of equities and 0.1% on sales of mutual fund shares based on the transaction amount.

The Fund's functional currency for tax reporting purposes is the New Taiwan dollar.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is more likely than not to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for prior three fiscal years. The Fund identifies its major tax jurisdictions as U.S. Federal, Delaware and Taiwan where the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

Investment Income. Dividend income is recorded on the ex-dividend date; except, where the ex-dividend date may have passed, certain dividends from foreign securities are recorded as soon as the Fund is informed of the ex-dividend date.

Taiwanese companies typically declare dividends in the Fund's third fiscal quarter of each year. As a result, the Fund receives substantially less dividend income in the first half of its year. Interest income, which includes accretion of original discount, is accrued as earned.

Dividend and interest income generated in Taiwan is subject to a 20% withholding tax. Stock dividends received (except those which have resulted from capitalization of capital surplus) are taxable at 20% of the par value of the stock dividends received.

Distributions to Shareholders. The Fund distributes to shareholders at least annually, substantially all of its taxable ordinary income and expects to distribute its taxable net realized gains. Certain foreign currency gains (losses) are taxable as ordinary income and, therefore, increase (decrease) taxable ordinary income available for distribution. Pursuant to the Dividend Reinvestment and Cash Purchase Plan (the Plan), stockholders may elect to have all cash distributions automatically reinvested in Fund shares. (See the summary of the Plan described later.) Unless the Board elects to make a distribution in shares of the Fund's common stock, stockholders who do not participate in the Plan will receive all distributions in cash paid by check in U.S. dollars. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. GAAP. No capital gain distributions shall be made until any capital loss carryforwards have been fully utilized or expired.

Tax components of distributable earnings are determined in accordance with income tax regulations which may differ from the composition of net assets reported under GAAP. Accordingly, for the year ended August 31, 2013, the effects of certain differences were reclassified. The Fund increased undistributed net investment income by \$16,227,142, decreased accumulated net realized gain by \$860,649, and decreased paid in capital by \$15,366,493.

These differences are primarily due to differing treatments for foreign currency transactions, net operating loss and

post October capital and late-year ordinary loss deferrals. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications to paid in capital.

Security Transactions. Security transactions are accounted as of the trade date. Gains and losses on securities sold are determined on the basis of identified cost.

3. Purchases and Sales of Securities

For the year ended August 31, 2013, purchases and sales of securities, other than short-term securities, aggregated \$20,962,611 and \$35,437,536, respectively.

4. Management Fees and Other Service Providers

Management Fee. As the Fund's investment adviser, Martin Currie, Inc., (*Martin Currie* or *Investment Adviser*) receives a fee for its services, computed daily and payable monthly in U.S. dollars, at the annual rate of 0.90% on the first \$150 million in total net assets under management, 0.80% on the next \$150 million in total net assets under management and 0.70% on total net assets under management over \$300 million.

For the year ended August 31, 2013 the management fee was equivalent to an annual rate of 0.90% of average net assets.

Martin Currie has entered into a sub-advisory agreement with APS Asset Management Pte Ltd. (*APS*), subject to supervision by Martin Currie and the Board. APS receives compensation for its services from Martin Currie, not from the Fund.

Administration Fees. State Street Bank and Trust Company (*State Street*) provides, or arranges for the provision of certain administrative and accounting services for the Fund, including maintaining the books and records of the Fund,

and preparing certain reports and other documents required by federal and/or state laws and regulations. The Fund pays State Street a fee at the annual rate of 0.11% of the Fund's average daily net assets up to \$150 million, 0.08% of the next \$150 million, and 0.05% of those assets in excess of \$300 million, subject to certain minimum requirements. The Fund also pays State Street \$130,000 per year for certain legal administrative services, including corporate secretarial services and preparing regulatory filings. State Street also serves as custodian (the *Custodian*) to the Fund. For this service, the Fund pays State Street asset-based fees that vary according to the number of positions and transactions plus out of pocket fees.

Director's and Officer's Fees and Expenses. The Fund pays each of its directors who is not a director, officer or employee of the investment adviser an annual fee of \$20,000 plus \$2,500 for each Board meeting or Committee meeting attended, and \$2,500 for each meeting attended by telephone. In addition, the Fund will reimburse each of the directors for travel and out-of-pocket expenses incurred in connection with Board meetings.

Other Service Providers. Pursuant to a Compliance Services Agreement, Foreside Compliance Services, LLC (*FCS*) provides the Fund with a Chief Compliance Officer. FCS is paid customary fees for its services. Foreside Management Services, LLC (*FMS*) provides the Fund with a Treasurer. Martin Currie pays FMS customary fees for its services pursuant to the Treasury Services Agreement between the Fund and FMS. Neither FCS, FMS, nor their employees that serve as officers of the Fund, have a role in determining the investment policies or which securities are purchased or sold by the Fund.

General. Certain directors and officers of the Fund may also be directors or employees of the aforementioned companies that provide services to the Fund, and during their terms of office, receive no compensation from the Fund.

NOTES TO FINANCIAL STATEMENTS *(continued)***AUGUST 31, 2013****5. Fund Shares**

At August 31, 2013, there were 100,000,000 shares of \$0.01 par value capital stock authorized, of which 8,221,259 were issued and outstanding.

For the year ended August 31, 2013, the Fund repurchased 761,127 shares of its common stock, valued at \$12,357,169 from shareholders under the Fund's Discount Management Program.

| | For the Year Ended August 31, 2013 | For the Year Ended August 31, 2012 |

6. Discount Management Program

On February 1, 2012, the Fund announced that the Board has voted to approve a Discount Management Program (the Program). On July 30, 2013, the Program was discontinued. Under the Program, the Fund repurchased its common shares in the open market on any given trading day that the Fund's shares were trading at a discount of 9% or more to the Fund's net asset value from the prior day and there was a daily average discount of 9% or more from net asset value over the previous five-day period ending the prior day. On each day that shares were repurchased, the Fund repurchased its shares to the maximum extent permitted by law unless Fund management determines that such a repurchase would be detrimental to the Fund and its shareholders. Under the Program, the Fund was authorized to repurchase in each twelve month period ending

August 31, up to 10% of its common shares outstanding as of August 31 of the prior year.

The Program was intended to enhance shareholder value, as repurchases made at a discount have the effect of increasing the net asset value per share of the Fund's remaining shares. There is no assurance that the market price of the Fund's shares, either absolutely or relative to net asset value, will increase as a result of any share repurchases.

During the current period ended July 30, 2013, under the Program the Fund repurchased 761,127 of its shares at an average price of \$16.24 per share (including brokerage commissions) at a weighted average discount of 9.74%. These repurchases had a total cost of \$12,357,169.

7. Managed Distribution Program

The Fund intends to implement a managed distribution program with quarterly distributions payable at a target annual distribution rate of 5% of market price. Implementation of the program is subject to obtaining regulatory approvals, which may take six months or more. The target distribution rate will be reevaluated upon obtaining regulatory approvals and prior to the implementation of the managed distribution program.

8. Tender Offer

Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 8-K

On February 1, 2012, the Fund announced that the Board has voted to approve in principle a one-time tender offer program (the Tender Offer), the offer commenced on May 15, 2012 and expired on June 13, 2012. The offer was oversubscribed. The Fund accepted 9,288,045 shares for payment on June 19, 2012 at \$15.55 per share, which were equal to 99% of the Fund's net asset value per share as of the close of regular trading on the New York Stock Exchange on June 14, 2012. The 9,288,045 shares represented 50% of the Fund's outstanding shares. On a pro rated basis, approximately 60.4% of the shares so tendered were accepted for payment.

NOTES TO FINANCIAL STATEMENTS *(continued)***AUGUST 31, 2013****9. Federal Tax Information**

The tax character of distributions paid by the Fund during the year ended August 31, 2012 is as follows:

| | Year Ended August 31, 2012 |
|---------------|---------------------------------------|
| Capital Gains | \$ 10,411,965 |
| Total | \$ 10,411,965 |

As of August 31, 2013, the tax components of accumulated net earnings (losses) were \$18,538,255 of Unrealized Appreciation, \$(8,062,385) of post October capital and late-year ordinary losses, and \$(8,676,568) of

capital loss carryover. The capital loss carryover retains its original short term character and has no expiration date.

The difference between book basis and tax basis unrealized appreciation and depreciation is attributable primarily to the tax deferral of losses on wash sales. At August 31, 2013, the aggregate cost basis of the Fund's investment securities for income tax purposes was \$131,071,063. Net unrealized appreciation of the Fund's investment securities was \$18,536,242 of which \$29,688,263 related to appreciated investment securities and \$(11,152,021) related to depreciated investment securities.

SUMMARY OF DIVIDEND REINVESTMENT AND

CASH PURCHASE PLAN

What is the Dividend Reinvestment and Cash Purchase Plan?

The Dividend Reinvestment and Cash Purchase Plan (the Plan) offers shareholders of the Fund, a prompt and simple way to reinvest their dividends and capital gains distributions in shares of the Fund. The Fund will distribute to shareholders, at least annually, substantially all of its net income and expects to distribute annually its net realized capital gains. Computershare Trust Company, N.A. (the Plan Administrator), acts as Plan Administrator for shareholders in administering the Plan. The Plan also allows you to make optional cash investments in Fund shares through the Plan Administrator.

Who Can Participate in the Plan?

If you own shares in your own name, you can elect to participate directly in the Plan. If you own shares that are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to arrange for them to participate on your behalf.

What Does the Plan Offer?

The Plan has two components; reinvestment of dividends and capital gains distributions, and a voluntary cash purchase feature.

Reinvestment of dividends and capital gains distributions

If you choose to participate in the Plan, your dividends and capital gains distributions will be promptly invested for you, automatically increasing your holdings in the Fund. If the Fund declares a dividend or capital gains distribution payable in cash, you will automatically receive shares purchased by the Plan Administrator on the open market. You will be charged a per share fee (currently \$0.05) incurred with respect to the Plan Administrator's open market purchases.

If a distribution is declared which is payable in shares or cash at the option of the shareholder and if on the valuation date (generally the payable date) the market price of shares is equal to or exceeds their net asset value, the Fund will issue new shares to you at the greater of the following: (a) net asset value per share or (b) 95% of the market price per share. If the market price per share on the valuation date is less than the net asset value per share, the Fund will issue new shares to you at the market price per share on the valuation date.

All reinvestments are in full and fractional shares, carried to three decimal places. In the case of foreign (non-U.S.) shareholders, reinvestment will be made net of applicable withholding tax.

The Plan will not operate if a distribution is declared in shares only, subject to an election by the shareholders to receive cash.

Voluntary cash purchase option

Plan participants have the option of making investments in Fund shares through the Plan Administrator. You may invest any amount from \$100 to \$3,000 semi-annually. The Plan Administrator will purchase shares for you on the New York

Stock Exchange or otherwise on the open market on or about February 15 and August 15. If you hold shares in your own name, you should deal directly with the Plan Administrator. Checks in U.S. dollars and drawn in U.S. banks should be made payable to Computershare. The Plan Administrator will not accept cash, traveler's checks, money orders, or third party checks. We suggest you send your check, along with a completed transaction form which is attached to each statement you receive, to the following address to be received at least two business days before the investment date:

Computershare, c/o The Taiwan Fund, Inc. at P.O. Box 43078, Providence, RI 02940-3078. The Plan Administrator will return any cash payments received more than thirty days prior to February 15 or August 15, and you will not receive interest on uninvested cash payments. If you own shares that are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to arrange for them to participate in the cash purchase option on your behalf.

If your check is returned unpaid for any reason, the Plan Administrator will consider the request for investment of such funds null and void, and shall immediately remove these shares from your account. The Plan Administrator shall be entitled to sell shares to satisfy any uncollected amount plus any applicable fees. If the net proceeds of the sale are insufficient to satisfy the balance of any uncollected amounts, the Plan Administrator shall be entitled to sell such additional shares from your account as may be necessary to satisfy the uncollected balance.

Is There a Cost to Participate?

For purchases from the reinvestment of dividends and capital gains distributions, you will pay a pro rata portion of brokerage commissions payable with respect to purchases of shares by the Plan Administrator on the open market. You will also be charged a per share fee (currently \$0.05) incurred with respect to the Plan Administrator's open market purchases in connection with the reinvestment of dividends and capital gains distributions. Brokerage charges for purchasing shares through the Plan are expected to be less than the usual brokerage charges for individual transactions, because the Plan Administrator will purchase stock for all participants in blocks, resulting in lower commissions for each individual participant. The Plan Administrator's transaction fees for handling capital gains distributions or income dividends will be paid by the Fund.

For purchases from voluntary cash payments, participants are charged a service fee (currently \$0.75 per investment) and a per fee (currently \$0.05) for each voluntary cash investment. Per share fees include any brokerage commissions the Plan Administrator is required to pay.

Brokerage commissions and service fees, if any, will be deducted from amounts to be invested.

What Are the Tax Implications for Participants?

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gains distributions does not relieve you of any income tax which may be payable on dividends or distributions. For further information as to the tax consequences of participating in the Plan, you should consult with your tax advisors.

If the Fund issues shares upon reinvestment of a dividend or capital gains distribution, for U.S. federal income tax purposes, the amount reportable in respect of the reinvested amount of the dividend or distribution will be the fair

market value of the shares received as of the payment date, which will be reportable as ordinary dividend income and/or long term capital gains. The shares will have a tax basis equal to such fair market value, and the holding period for the shares will begin on the day after the payment date. State, local and foreign taxes may also be applicable.

Once Enrolled in the Plan, May I Withdraw From It?

You may withdraw from the Plan without penalty at any time by calling the Plan Administrator at 1-800-426-5523, by accessing your Plan account at the Plan Administrator's web site, www.computershare.com/investor or by written notice to the Plan Administrator.

If you withdraw, you will receive, without charge, stock certificates issued in your name for all full shares, and a check for any fractional share (valued at the market value of the shares at the time of withdrawal or termination) less any applicable fees. You may also request that the Plan Administrator sell your shares and send you the proceeds, less a transaction fee of \$2.50 and a per share fee of \$0.15 for any request for withdrawal or termination. The per share fee includes any brokerage commissions the Plan Administrator is required to pay. Alternatively, you may also request that the Plan Administrator move your whole shares to the Direct Management System, which would allow you to maintain ownership of those whole shares in book entry form on the records of the Fund.

All sale requests having an anticipated market value of \$100,000.00 or more are expected to be submitted in written form. In addition, all sale requests within thirty (30) days of an address change are expected to be submitted in written form.

Whom Should I Contact for Additional Information?

If you hold shares in your own name, please address all notices, correspondence, questions, or other communications regarding the Plan to: Computershare, c/o The Taiwan Fund, Inc. at P.O. Box 43078, Providence, RI 02940-3078, by telephone at 1-800-426-5523 or through the Internet at www.computershare.com/investor. If your shares are not held in your name, you should contact your brokerage firm, bank, or other nominee for more information and to arrange for them to participate in the Plan on your behalf.

Either the Fund or the Plan Administrator may amend or terminate the Plan. Except in the case of amendments necessary or appropriate to comply with applicable law, rules or policies or a regulatory authority, participants will be mailed written notice at least 30 days before the effective date of any amendment. In the case of termination, participants will be mailed written notice at least 30 days before the record date of any dividend or capital gains distribution by the Fund.

Item 8. Portfolio Managers of Closed-End Management Investment Company.

(a)(1) As of August 31st, 2013, the portfolio managers of the registrant are:

Wong Kok Hoi

Founder & Chief Investment Officer

Portfolio manager

Investment experience: 30 years

Kok Hoi is the Founder and Chief Investment Officer of APS Asset Management Pte Ltd (APS). He has 30 years of investment experience in Asian Pacific equity markets. Prior to the setting up of APS, Kok Hoi worked as Senior Investment Officer, Asia Pacific Equities Department, of the Government of Singapore Investment Corporation (GIC) from 1981 to 1985. He then joined Citicorp Investment Management HK as Vice-President and was promoted to CIO of Cititrust, Japan. Kok Hoi, a Japan Mombusho scholar, obtained his B. Commerce (Honors) degree from Hitotsubashi University. He also attended Harvard University's Investment Appraisal and Management Program and is a CFA Holder.

James Liu

Deputy Chairman & Co-Chief Investment Officer

Portfolio manager

Investment experience: 20 years

James is the Deputy Chairman and Co-CIO of APS, in charge of China and Greater China markets. He is also the CIO of APS-affiliated China products. Prior to joining APS in Jan 1996, he was senior manager at Shanghai International Securities, the then largest stock broking firm and investment bank in China. He has 20 years of investment experience in Greater China markets and has successfully managed money in the last 10 years.

(a)(2)

Wong Kok Hoi

As of August 31st 2013, Mr. Wong managed two mutual funds with a total of approximately US\$365 million in assets; no pooled investment vehicles other than mutual funds; and three other accounts with a total of approximately US\$230 million in assets and a managed account platform with a total of approximately US\$17 million in assets.

Of these other accounts, one account with a total of approximately US\$230 million in assets, had performance based fees. The managed account platform with a total of approximately US\$17 million in assets had performance based fees.

James Liu

As of August 31st 2013, Mr. Liu managed three mutual funds with a total of approximately US\$568 million in assets; no pooled investment vehicles other than mutual funds; and ten other accounts with a total of approximately US\$1,589 million in assets.

Of these other accounts, four accounts with a total of approximately US\$422 million in assets, had performance based fees.

Conflicts of Interest:

Equitable treatment of client monies is a fundamental principle of APS's investment management business. APS believe that the management of potential conflicts of interest is germane to the business, regardless of its client mix and fund types.

Wong Kok Hoi's and James Liu's simultaneous management of the Fund and the other accounts noted above may present actual or apparent conflicts of interest with respect to the allocation and aggregation of securities orders placed on behalf of the Fund and the other accounts. APS has a robust code of practice and strong compliance methodology to demonstrate effective conflict management wherever it could arise. APS believes that sufficient controls, policies and systems are in place to address such conflicts.

APS's suite of compliance and investment policies address all practices within the company that could cause conflicts of interest across client funds. APS has policies, systems and controls in place to identify potential conflicts between itself and its clients, as well as between one client and another, to achieve consistent treatment of conflicts of interest throughout its business. It aims to manage any conflicts of interest that may arise and to ensure, as far as practicable, that such conflicts do not adversely affect the interests of its clients.

APS reviews its conflict of interest policies at least annually and will notify clients of any material changes, as and when they occur.

Martin Currie Inc. (Martin Currie) also has its own conflict of interest policies. A service level agreement between Martin Currie and APS defines the responsibilities and reporting on any conflicts of interest between parties.

Compensation:

Wong Kok Hoi and James Liu are paid industry standard wages. An additional element can be included via a performance bonus and stock options.

The portfolio managers' yearly bonus is determined by performance and contains several components including individual investment performance, qualitative factors of the individual, APS's profitability and the product's profitability. An outstanding portfolio manager may earn a bonus of up to 36 months (calculated as monthly base salary multiplied by 36.) This bonus quantum has the ability to reach 50 months for exceptional performance. To minimize the risk that portfolio managers may take on higher risks in their portfolios to enhance individual performance, there is a three-year claw-back agreement for bonuses. Further, only one-third of the bonus is paid in the current year that the bonus is earned while the remaining two-thirds is to be paid and is dependent on the individual's returns and performance for the next two years.

Every year, options amounting to 1% of capital may be granted to employees.

Ownership of Securities: The following table sets forth, for each portfolio manager, the aggregate dollar range of the registrant's equity securities beneficially owned as of August 31, 2013.
