ITEM 1. BUSINESS

As used in this Annual Report on Form 10-K, references to the “Company”, “Lands' End”, “we”, “us”, “our” and similar terms refer to Lands' End, Inc. and its subsidiaries. Our fiscal year ends on the Friday preceding the Saturday on or closest to January 31. Other terms commonly used in this Annual Report on Form 10-K are defined as follows:

- ABL Facility - Asset-based senior secured credit agreements, dated as of April 4, 2014, with Bank of America, N.A. and certain other lenders
- Debt facilities - Collectively, the ABL Facility and the Term Loan Facility
- ERP - enterprise resource planning software solutions
- ESL - ESL Investments, Inc. and its investment affiliates, including Edward S. Lampert
- Fiscal 2016 - The Company's next fiscal year representing the fifty-two weeks ending January 27, 2017
- Fiscal 2015 - The fifty-two weeks ended January 29, 2016
- Fiscal 2014 - The fifty-two weeks ended January 30, 2015
- Fiscal 2013 - The fifty-two weeks ended January 31, 2014
- GAAP - Accounting principles generally accepted in the United States
- Sears Holdings - Sears Holdings Corporation, a Delaware Corporation, and its consolidated subsidiaries (other than, for all periods following the Separation, Lands' End)
- Sears Roebuck - Sears, Roebuck and Co., a wholly owned subsidiary of Sears Holdings
- SEC - United States Securities and Exchange Commission
- Separation - On April 4, 2014 Sears Holdings distributed 100% of the outstanding common stock of Lands' End to its shareholders
- Term Loan Facility - Term loan credit agreements, dated as of April 4, 2014, with Bank of America, N.A. and certain other lenders
- UK Borrower - A United Kingdom subsidiary borrower of Lands' End under the ABL Facility

Lands' End is a leading multi-channel retailer of casual clothing, accessories and footwear, as well as home products. We offer products through catalogs, online at www.landsend.com and affiliated specialty and international websites, and through retail locations, primarily at Lands' End Shops at Sears, stand-alone Lands' End Inlet stores and international shop-in-shops that sell merchandise in retail department stores. We are a classic American lifestyle brand with a passion for quality, legendary service and real value, and we seek to deliver timeless style for women, men, kids and the home. Lands' End was founded in 1963 by Gary Comer and his partners in Chicago, Illinois, to sell sailboat hardware and equipment by catalog. While our product focus has shifted significantly over the years, we have continued to adhere to our founder's motto as one of our guiding principles: “Take care of the customer, take care of the employee and the rest will take care of itself.”

On March 14, 2014, the Sears Holdings board of directors approved the distribution of the issued and outstanding shares of Lands' End common stock on the basis of 0.300795 shares of Lands' End common stock for each share of Sears Holdings common stock held on March 24, 2014, the record date for the distribution. Sears Holdings distributed 100 percent of the outstanding common stock of Lands' End to its shareholders on April 4, 2014.

A Registration Statement on Form 10 relating to the Separation was filed by the Company with the SEC, and was subsequently amended by the Company and declared effective by the SEC on March 17, 2014. The Company's common stock began "regular way" trading on the NASDAQ Stock Market on April 7, 2014 under the symbol "LE."

In Fiscal 2015, we generated revenue of approximately \$1.42 billion. Our revenues are generated worldwide through an international, multi-channel network in the United States, United Kingdom, Germany, France and Japan that permits distribution to approximately 161 countries and territories. This network reinforces and supports sales across the multiple channels in which we do business. In Fiscal 2015 we shipped products to approximately 145 countries outside the United States, totaling approximately \$208.6 million, or 14.7% of revenue. This compares to sales outside of the United States in Fiscal 2014 and Fiscal 2013 of \$246.1 million and \$273.5 million, or 15.8% and 17.5% of revenue, respectively.

Segment Reporting

The Company has two reportable segments: Direct and Retail. Both segments sell similar products and provide services. Product sales are divided by product categories: Apparel and Non-apparel. The Non-apparel sales include accessories, footwear, and home goods. Services and other revenue includes embroidery, monogramming, gift wrapping, shipping and other services. Net revenue is grouped by product category in the following table:

(in thousands)	Fiscal 2015	Fiscal 2014	Fiscal 2013
Net revenue			
Apparel	\$1,156,047	\$1,248,847	\$1,245,670
Non-apparel	183,073	220,385	226,302
Services and other	80,658	86,121	90,904
Total net revenue	\$1,419,778	\$1,555,353	\$1,562,876

The Company identifies reportable segments according to how business activities are managed and evaluated. Each of the Company's operating segments are reportable segments and are strategic business units that offer similar products and services but are sold either directly from our warehouses (Direct) or through our retail stores (Retail).

The Direct segment sells products through the Company's e-commerce websites and direct mail catalogs. Operating costs consist primarily of direct marketing costs (catalog and e-commerce marketing costs); order processing and shipping costs; direct labor and benefits costs and facility costs. Assets primarily include goodwill and trade name intangible assets, inventory, accounts receivable, prepaid expenses (deferred catalog costs), technology infrastructure, and property and equipment.

The Retail segment sells products and services through dedicated Lands' End Shops at Sears across the United States, the Company's stand-alone Lands' End Inlet stores and international shop-in-shops. Operating costs consist primarily of labor and benefits costs; occupancy costs; distribution costs; and in-store marketing costs. Assets primarily include inventory in the retail stores, fixtures and leasehold improvements.

Net revenue is presented by segment in the following table:

(in thousands)	Fiscal 2015	Fiscal 2014	Fiscal 2013
Net revenue:			
Direct	\$1,214,993	\$1,320,642	\$1,303,862
Retail	204,566	234,632	258,922
Corporate/ other	219	79	92
Total net revenue	\$1,419,778	\$1,555,353	\$1,562,876

Additionally, selected financial data for our segments is presented in Note 12, Segment Reporting, to our Consolidated and Combined Financial Statements included in Item 8, Financial Statements and Supplementary Data, in this Annual Report on Form 10-K.

Strategy

Lands' End remains committed to our brand strategy which is grounded in bringing the quality, value and service that we are known for, to a broader customer base that has a passion for living a life doing what matters most to them. We remain focused on our customers by featuring our unconditional return policy of Guaranteed. Period.® The Lands' End guarantee reads: "If you're not satisfied with any item, simply return it to us at any time for an exchange or refund of its purchase price." We continue to focus on the following core strategies for the future of Lands' End:

Product and Merchandising: creating a merchandise architecture to enhance our current offering and also appeal to a broader customer base by rationalizing the current assortment to make offerings both timely and timeless to existing customers, and creating new assortments to strategically capitalize on high-margin categories and developing tailored fits for diverse body shapes.

Brand and Marketing: while maintaining a consistent overall spend amount, we will be more efficient enabling us to invest in initiatives that we believe will yield benefits over the long term and amplify brand awareness by leveraging the brand DNA, improving creative ways of engaging customers in order to expand our customer base and influence credibility and relevance.

Operations and Technology: improved web technology to support higher conversion rates and leveraging information technology as an innovation enabler to establish strong operations and increase productivity within each department while maintaining our high standards of quality, value and service.

Distribution: expanding and adapting distribution strategies to achieve an optimal blend of retail, online and other channels to seize market opportunities and grow top-line and profitability across channels.

Talent: continue long-term investment in human capital management to achieve a flexible organization that can face any challenge.

Key Capabilities

Gary Comer founded Lands' End on certain principles of doing business that are embodied in our promise to deliver great quality, exceptional value and uncompromising service to our customers. These core principles of quality, value and service are the foundation of the competitive advantages that we believe distinguish us from our competitors, including:

Large, loyal customer base. We believe that a principal factor in our success to date has been the development of our list of existing and prospective households, many of whom were identified by their responses to our marketing. We routinely update and refine our customer list prior to individual catalog and email mailings and monitor customer interest in our offerings as reflected by criteria such as the timing and frequency of purchases and the dollar amount of and types of products purchased. We believe that our customer base consists primarily of affluent, college-educated, professional and style-conscious women and men. In Fiscal 2015, our customers had average annual household income of \$106,000 and approximately 42% of our customers were within the 36-55 age group, according to an analysis of our customer file with data provided by our third-party consumer information provider using its proprietary demographic, behavioral, lifestyle, financial and home attribute databases.

Innovative yet timeless products. We seek to develop new, innovative products for our customers by utilizing modern fabrics and quality construction to create timeless, affordable styles with consistently excellent fits. We also seek to present our products in an engaging and inspiring way. We believe that our typical customers value quality, seek good value for their money and are looking to add classics to their wardrobe while also placing an emphasis on being fashionable. From a design and merchandising perspective, we seek to balance our product offerings to provide the right combination of classic styles alongside modern touches that are consistent with current trends. We believe that we have had success adding relevant, timeless items into our product assortment, many of which have become customer favorites. We devote significant time and resources to quality assurance and product compliance. Our in-house team manages all product specifications and seeks to ensure brand integrity by providing our customers with the consistent, high-quality merchandise for which Lands' End is known. We are a vertically

integrated retailer that manages all aspects of our design, marketing and distribution in-house, which provides us with maximum control over the promotion and sale of our products.

Customer service. We are committed to building on Lands' End's legacy of strong customer service. We believe that we have a strong track record of improving the customer service experience through innovation. Today, Lands' End is focused on making the shopping experience as easy and personalized as possible, regardless of whether our customers shop online, by phone or in one of our Lands' End Shops at Sears. Our operations, including prompt order fulfillment, responsiveness to our customers' requests and our unconditional return policy of Guaranteed. Period.®, have contributed to our award-winning customer service, which we believe is one of our core strengths and a key point of differentiation from our competitors. Due to our commitment to excellent customer service, we have received many accolades over the years and most recently, in 2015, received the following:

• Lands' End Named Customer Service Champion, Source: Prosper Insights & Analytics Featured on Forbes.com (March 30, 2015)

• Lands' End Earns StellaService's Elite Award, which is awarded to Top 10% of retailers who provide the very best in customer care, Source: StellaService (May 4, 2015)

• Lands' End Tops Internet Retailer's List of Most Responsive Brands on Social Media, Source: Internet Retailer (November 3, 2015)

• 100% of Lands' End Agents Rated 4.5 Stars or Higher By Consumers, Source: StellaService (December 1, 2015)

Website Design. As one of the first apparel retailers to establish an online e-commerce presence, we are a leading digital innovator in the apparel industry. One of our strategic goals is to broaden our customer base by creating engaging shopping experiences through our e-commerce platforms. To this end, we launched a significantly improved and redesigned landsend.com website. Highlights of our new website include:

• A new multi-brand architecture that provides flexible and compelling ways for customers to discover and engage with brand-specific assortments and visual experiences.

• Streamlined checkout, optimized for mobile and tablet shoppers to capture an increasing share of sales as customer migrate to mobile devices.

• Convenient payment types including Visa Pay to simplify checkout, especially from mobile devices.

• Improved search and navigation to help customers quickly find products that best fulfill their product and style preferences.

• New E-catalogs, which allow prospective and existing customers to view and shop our products in a new and innovative way. Our new E-catalog can be viewed at www.landsend.com.

Marketing and Brand

We believe that our most important asset is our brand. Lands' End is a well-recognized brand with a deeply rooted tradition of offering excellent quality, value and service along with the Lands' End guarantee, and we seek to reflect that tradition in all of our merchandise. Any item associated with our name falls under our unconditional return policy of Guaranteed. Period.®. We believe that this commitment has generated our large and loyal customer base for over fifty years. We invest significantly in brand development through our focus on providing excellent customer service and our emphasis on digital transformation and innovative product development.

We attempt to build on our brand recognition through a multi-channel marketing campaign including an e-commerce website, www.landsend.com, catalog distribution, digital marketing and print media. Creative designs for these marketing platforms are mostly developed in-house by our talented creative team. We strive to be more efficient in our overall spend, enabling us to invest in initiatives that we believe will yield benefits over the longer-term. The majority of our marketing spend will be allocated to our catalog and digital marketing, where we can generate near term return on investment. We are also investing in branding initiatives designed to communicate the enhancements we are making to our product offering and to broaden the Lands' End image, while not stepping away

from our core DNA. We will also continue to deliver the Lands' End value proposition with strategically planned promotions throughout the year.

Suppliers

Our apparel and non-apparel products are produced globally by independent manufacturers who are selected, monitored and coordinated by the Lands' End Global Sourcing team based in Dodgeville, Wisconsin, by Sears Holdings' Global Sourcing office in Asia, and a few designated agents. Our products are manufactured in approximately 25 to 30 countries and substantially all are imported from Asia and South America, depending on the nature of the product mix. Our top 10 vendors accounted for 60% of our merchandise purchases in Fiscal 2015. In Fiscal 2015, we worked with approximately 115 vendors that manufactured substantially all of our product receipts. We generally do not enter into long-term merchandise supply contracts. We continue to take advantage of opportunities to more efficiently source our products worldwide, consistent with our high standards of quality and value. Significant areas of non-product spend include transportation, information systems, marketing, packaging and catalog paper and print.

Distribution

We own and operate three distribution centers in Wisconsin to support our United States Direct and Retail businesses and a portion of our international business. Our Dodgeville facility is approximately 1.05 million square feet and is a full-service distribution center, including monogramming, hemming and embroidery services. Our Reedsburg location is approximately 400,000 square feet and offers all order fulfillment services except hemming. Our Stevens Point distribution center is approximately 150,000 square feet and primarily focuses on supporting Lands' End Business Outfitters with embroidery services. Customer orders are shipped via UPS, USPS and third-party parcel consolidators. We own and operate a distribution center in the United Kingdom based in Oakham, a rural community north of London. Order fulfillment and specialty services for our European businesses are performed at this facility, which originally opened in 1998 and totals approximately 175,000 square feet. We also lease a 71,160 square foot distribution center in Fujieda, Japan.

Vendors

We prioritize the selection of vendors that follow ethical employment practices, comply with all legal requirements, agree to our global compliance requirements and who we believe meet our product quality standards. Our vendors are required to provide full access to their facilities and to relevant records relating to their employment practices, such as, but not limited to child labor, wages and benefits, forced labor, discrimination, freedom of association, unlawful inducements, safe and healthy working conditions and other business practices so that we may monitor their compliance with ethical and legal requirements relating to the conduct of their business.

Information Technology

Our information technology systems provide comprehensive support for the design, merchandising, importing, marketing, distribution, sales, order processing and fulfillment of our Lands' End products. We believe our merchandising and financial systems, coupled with our e-commerce platforms and point-of-sale systems, allow for effective merchandise planning and sales accounting.

We have a dedicated information technology team that provides strategic direction, application development, infrastructure services and systems support for the functions and processes of our business. The information technology team contracts with third-party consulting firms to provide cost-effective staff augmentation services and partners with leading hardware and software technology firms to provide the infrastructure necessary to run and operate our systems. Our core software applications are comprised of a combination of internally developed and packaged third-party systems. The e-commerce solutions powering www.landsend.com, the Lands' End Business Outfitters websites, and our international Lands' End websites are operated out of our own internal data centers as well as through hosting relationships with third parties.

We are in the process of implementing new information technology systems as part of a multi-year plan to expand and upgrade our information technology platforms and infrastructure. In Fiscal 2015 we completed the implementation of a new e-commerce platform for the Lands' End Business Outfitters websites and introduced new

capabilities across a number of areas including new digital experiences on the www.landsend.com platform and a new point-of-sale platform for Lands' End retail stores. In Fiscal 2016 we intend to continue to pursue additional strategic investments, including an integrated ERP to support business growth and additional digital capabilities including enhanced mobile experience, digital marketplace and social media integration, and continued enhancements to the digital shopping experiences on www.landsend.com.

We are implementing an ERP and other complementary information technology systems over the next several years to create efficiencies within our internal processing and reporting. Implementation of these solutions and systems is highly dependent on coordination of numerous software, hardware and system integration providers. See also Item 1A, Risk Factors, in this Annual Report on Form 10-K.

Sources and Availability of Raw Materials

We purchase, in the ordinary course of business, raw materials and supplies essential to our operations from numerous suppliers around the world, including in the United States. There have been no recent significant availability problems or supply shortages.

Orders

Orders are generally filled on a current basis, and order backlog is not material to our business.

Competition

We operate primarily in the apparel industry. The apparel industry is highly competitive. We compete with a diverse group of direct-to-consumer companies and retailers, including national department store chains, men's and women's specialty apparel chains, outdoor specialty stores, apparel catalog businesses, sportswear marketers and online apparel businesses that sell similar lines of merchandise. We compete principally on the basis of merchandise value (quality and price), our established customer list and customer service, including reliable order fulfillment, our unconditional guarantee and services and information provided at our user-friendly websites.

Seasonality

We experience seasonal fluctuations in our net revenue and operating results and historically have realized a significant portion of our net revenue and earnings for the year during our fourth fiscal quarter. We generated 33.4%, 32.4% and 33.9% of our net revenue in the fourth fiscal quarter of Fiscal 2015, Fiscal 2014 and Fiscal 2013, respectively. Thus, lower than expected fourth quarter net revenue could have an adverse impact on our annual operating results.

Working capital requirements typically increase during the second and third quarters of the fiscal year as inventory builds to support peak shipping/selling periods and, accordingly, typically decrease during the fourth quarter of the fiscal year as inventory is shipped/sold. Cash provided by operating activities is typically higher in the fourth quarter of the fiscal year due to reduced working capital requirements during that period.

Intellectual Property

Lands' End owns or has rights to use certain word and design trademarks, service marks, and trade names that are registered or exist under common law in the United States and other jurisdictions. The Lands' End® trade name and trademark is used both in the United States and internationally, and is material to our business. In Fiscal 2015 the Company recognized an impairment to the Lands' End trade name of \$98.3 million due to lower Fiscal 2015 revenues, which also drove lower future projected revenues. Trademarks that are important in identifying and distinguishing our products and services are Guaranteed. Period®, Lands' End Canvas®, Lighthouse by Lands' End™, Square Rigger®, Squall®, Super-T™, Drifter™, Outrigger®, Marinac®, and Beach Living®, all of which are owned by us, as well as the licensed marks Supima®, No-Gape®, and others. Other recognized trademarks owned by Lands' End include SwimMates™, Starfish™, Iron Knees®, Willis & Geiger® and ThermaCheck®. Lands' End's rights to some of these trademarks may be limited to select markets.

Employees

We employ approximately 6,000 employees throughout our operations: approximately 5,000 employees in the United States and approximately 1,000 employees outside the United States. With the seasonal nature of the retail industry, over 2,000 flexible part-time employees join us each year to support our varying peak seasons, including the fourth quarter holiday shopping season. The non-peak workforce is comprised of approximately 17% salaried exempt employees, 7% salaried non-exempt employees, 33% regular hourly employees and 43% year-round flexible part-time employees.

Pledged Assets

In connection with the Separation, Lands' End entered into the ABL Facility and the Term Loan Facility. All domestic obligations under the Debt facilities are unconditionally guaranteed by Lands' End and, subject to certain exceptions, each of its existing and future direct and indirect domestic subsidiaries. In addition, the obligations of the UK Borrower under the ABL Facility are guaranteed by its existing and future direct and indirect subsidiaries organized in the United Kingdom. The ABL Facility is secured by a first priority security interest in certain working capital of the borrowers and guarantors consisting primarily of accounts receivable and inventory. The Term Loan Facility is secured by a second priority security interest in the same collateral, with certain exceptions.

The Term Loan Facility also is secured by a first priority security interest in certain property and assets of the borrowers and guarantors, including certain fixed assets and stock of subsidiaries. The ABL Facility is secured by a second priority security interest in the same collateral.

Sustainability Initiatives

Lands' End is working towards improving its sustainable footprint through key practices like waste reduction, a "paper to digital strategy," and a goal to make our products more sustainable; as well as corporate partnerships with the National Forest Foundation and the Sustainable Apparel Coalition. Lands' End hopes to inspire customers and other corporations to increase sustainability awareness and initiatives.

Environment. The Sustainable Paper Procurement Policy is a commitment to phase out fiber from unwanted sources, and procure paper sourced from credibly certified forest sources with verified chain-of-custody and/or recycled sources with a preference for post-consumer recycled. The policy also outlines supplier requirements and a preferred sustainable supplier program. We will continue to evaluate ways for additional improvement.

We continue to drive a "paper to digital" roadmap that aims to engage, acquire, and migrate customers to a digital platform. With www.landsend.com as the center of the experience, we are utilizing email, social media, digital marketing and optimized searching to reach a larger group of customers. Since 2012, we have engaged with customers on multiple digital devices and platforms. Going forward we will rely less on traditional paper formats in our marketing campaigns.

Additionally, we believe that we also demonstrate marketplace leadership by participating in industry educational workshops and initiatives. We select paper for use in our catalog materials based on ecological values, quality, availability and cost. Our catalog covers contain 10% post-consumer waste. The remainder of our catalog paper contains 100% chain-of-custody-certified fiber. This paper is third-party certified through programs such as the Forest Stewardship Council, the Sustainable Forestry Initiative and the Program for the Endorsement of Forest Certification. Between 2003 and 2015, use of corrugated cardboard packaging was reduced by 25%. In addition, the corrugated cardboard we use now contains a minimum of 60% recycled fiber.

Reduction, Recycling and Waste Management. We have a focus on raising awareness and educating associates on reducing our internal use of consumables and natural resources. In addition, we have a broad range of recycling and waste management initiatives at our corporate office and distribution centers to address our use of paper products, aluminum cans, glass, electronics and plastic as well as maintenance operations, disposal of non-recyclables with composting and water management. In 2015, we reused or recycled approximately 90% of waste generated at our corporate headquarters.

Purchasing recycled products is a significant component of the larger recycling picture. We continue to maintain an assertive program to buy non-catalog paper and other products made from recycled materials. We consistently monitor our efforts in each of these areas and constantly look for improvements.

Partnerships. Finally, Lands' End has formed strategic partnerships with organizations like the Sustainable Apparel Coalition, bluesign, National Forest Foundation, and the Clean Lakes Alliance. These partnerships, which respectively operate globally, nationally, and locally allow us to engage at a variety of levels. The Sustainable Apparel Coalition brings apparel brands, retailers and manufacturers around the world together to improve the sustainability of products, which is helpful to Lands' End as we look to make our products more sustainable. In Fiscal 2015 Lands' End became a member of bluesign, a system dedicated to sustainable apparel production, and is just in the beginning stages of using this resource in conjunction with the Sustainable Apparel Coalition to further reduce the environmental impact of the apparel industry. Our partnership with the National Forest Foundation has allowed us to give back by funding the planting of over a million trees in national forests over the past three years. Partnering with the Clean Lakes Alliance has allowed us help improve water quality in southern Wisconsin where our employees work, live, and play. For more information about Lands' End's sustainability efforts please go to www.landsend.com/sustainability/.

History and Relationship with Sears Holdings

We were founded in 1963, incorporated in Delaware in 1986 and our common stock was listed on the New York Stock Exchange from 1986 to 2002. On June 17, 2002, we became a wholly owned subsidiary of Sears Roebuck. On March 14, 2014, the Sears Holdings board of directors approved the distribution of the issued and outstanding shares of Lands' End common stock on the basis of 0.300795 shares of Lands' End common stock for each share of Sears Holdings common stock held on March 24, 2014, the record date for the distribution. Sears Holdings distributed 100 percent of the outstanding common stock of Lands' End to its stockholders on April 4, 2014.

We have entered into various agreements with Sears Holdings or its subsidiaries that govern our relationship with Sears Holdings with respect to the Lands' End Shops at Sears, various general corporate services, and other relationships. Accordingly, the terms of these agreements may be more or less favorable than those we could have negotiated with unaffiliated third parties. See Note 11, Related Party Agreements and Transactions.

Corporate Information

Our principal executive offices are located at 1 Lands' End Lane, Dodgeville, Wisconsin 53595. Our telephone number is (608) 935-9341.

Available Information, Internet Address and Internet Access to Current and Periodic Reports and Other Information

Our website address is www.landsend.com. Information contained on our website is not incorporated by reference unless specifically stated herein. We file our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, and all amendments to those reports electronically with the SEC, and they are available on the SEC's web site (www.sec.gov). In addition, all reports filed by Lands' End with the SEC may be read and copied at the SEC's Public Reference Room located at 100 F Street, N.E., Room 1580, Washington, D.C. 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330.

Our Corporate Governance Guidelines, the charters of the Audit Committee, the Compensation Committee, the Nominating and Corporate Governance Committee, the Technology Committee of the Board of Directors, our Code of Conduct, and our Board of Directors Code of Conduct are available at the "Investor Relations" link under "Corporate Governance" at www.landsend.com. References to www.landsend.com do not constitute incorporation by reference of the information at www.landsend.com, and the information at www.landsend.com is not part of this Annual Report on Form 10-K.

Executive Officers of the Registrant

The following table sets forth information regarding our executive officers, including their positions.

Name	Position	Age	Date First Became an Executive Officer
Federica Marchionni	President and Chief Executive Officer	44	2015
James F. Gooch	Executive Vice President, Chief Operating Officer, Chief Financial Officer and Treasurer	48	2016
Joseph M. Boitano	Executive Vice President and Chief Merchandising and Design Officer	65	2015
Scott D. Hyatt	Executive Vice President, Chief Supply Chain Officer	58	2015
Steven G. Rado	Senior Vice President, Chief Marketing Officer	52	2014
Kelly Ritchie	Senior Vice President, Employee and Customer Services	52	1999
Dorian R. Williams	Senior Vice President, General Counsel and Corporate Secretary	56	2014

Federica Marchionni joined Lands' End as President and Chief Executive Officer and as a member of the Board of Directors in February 2015. From 2001 until 2010, she was a global group director based at the headquarters of Dolce & Gabbana, a designer and retailer of apparel and accessories. She rejoined the company in October 2011 to serve as the President of Dolce & Gabbana USA. Prior to rejoining Dolce & Gabbana, she was a Senior Vice President at Ferrari, a luxury automaker and merchandising retailer. Earlier in her career, Ms. Marchionni held positions of increasing responsibility in product marketing and sales at industry-leading customer technology and telecommunications companies such as Samsung, Phillips, and Ericsson.

James F. Gooch joined the Company as Executive Vice President, Chief Operating Officer, Chief Financial Officer and Treasurer in January 2016. From March 2014 until December 2014, he served as Co-Chief Executive Officer and Chief Administrative Officer of DeMoulas Supermarkets, Inc. He served as President and Chief Executive Officer of RadioShack Corporation, an electronics retailer, from May 2011 to October 2012, as President and Chief Financial Officer of RadioShack Corporation from January 2011 to May 2011, and as Chief Financial Officer of RadioShack Corporation from August 2006 to January 2011. Earlier in his career he was employed by Helene Curtis, The Quaker Oats Company, Kmart Corporation, and Sears Holdings. Mr. Gooch has served as a member of the board of directors of Sears Hometown and Outlet Stores, Inc. from March 2013.

Joseph M. Boitano joined the Company in June 2015 as Executive Vice President and Chief Merchandising and Design Officer. From 1999 until February 2014, he served in positions with increasing levels of responsibility with Saks Incorporated, a luxury retailer, most recently as Saks Fifth Avenue Group Senior Vice President and General Merchandise Manager, Women's Ready to Wear and Children's. Earlier in his career he was employed by Bergdorf Goodman and I. Magnin.

Scott D. Hyatt joined the Company in June 2015 as Executive Vice President and Chief Sourcing and Supply Chain Officer. From 1998 until June 2015, he served in positions with increasing levels of responsibility with J.Crew Group, Inc., a retailer, most recently as Executive Vice President and Chief Sourcing Officer. Earlier in his career he was employed by Bernard Chaus and Express.

Steven G. Rado joined the Company in May 2014 as Senior Vice President, Chief Marketing Officer. From March 2012 to February 2014, he served as Senior Vice President of Marketing and Customer Strategy for Office Depot, Inc., a supplier of office products and services. From October 2008 to February 2012, he was Vice President of Marketing for the Victoria's Secret Direct division of Limited Brands, Inc., a specialty retailer.

Kelly Ritchie joined Lands' End in 1985 and has served as Senior Vice President, Employee and Customer Services since 2003, assuming responsibility for our distribution centers in 2005. She served as Senior Vice President, Employee Services from 1999 until 2003. She also served as Vice President of Employee Services from 1995 to 1999 and in various other Customer Service and Employee Services roles from 1985 to 1995.

Dorian R. Williams joined Lands' End in August 2014 as Senior Vice President, General Counsel and Corporate Secretary. Prior to joining the Company and since 2002, he served in positions with increasing levels of

10

responsibility in the law department of Sears Holdings, most recently as Vice President, Deputy General Counsel and Assistant Secretary. Prior to joining Sears in 2002, he served as Senior Counsel at Galileo International, Inc. and he was a partner in the Chicago office of the law firm of Rudnick & Wolfe (now DLA Piper).

ITEM 1A. RISK FACTORS

You should carefully consider the following risks and other information in this Annual Report on Form 10-K in evaluating our company and our common stock. Any of the following risks could materially and adversely affect our business, results of operations or financial condition.

Risks Related to Our Business

If we fail to offer merchandise and services that customers want to purchase, our business and results of operations could be adversely affected.

Our products and services must satisfy the desires of customers, whose preferences change over time. In order to be successful, we must identify, obtain supplies of, and offer to customers attractive, innovative and high-quality merchandise on a continuous and timely basis. Failure to effectively gauge the direction of customer preferences, or convey a compelling brand image or price/value equation to customers may result in lower sales and resultant lower gross profit margins. This could have an adverse effect on our business and results of operations.

Customer preference for our branded merchandise could change, which may adversely affect our profitability. Sales of branded merchandise account for substantially all of our total revenues and the Lands' End brand, in particular, is a critical differentiating factor for our business. We are pursuing a strategy that includes initiatives to expand our customer base, enhance gross margin by improving promotional productivity and mix of products, broaden our reach with brand initiatives, and add new collections that are designed to drive demand from core customers and attract new customers. These initiatives include plans to change current product lines and introduce sub-brands, designer collections or other variations of our assortment. Our inability to develop products that resonate with our existing customers and attract new customers, our inability to maintain our strict quality standards or to develop, produce and deliver products in a timely manner, or any unfavorable publicity with respect to the foregoing or otherwise could negatively impact the image of our brand with our customers and could result in diminished loyalty to our brand. As customer tastes change, our failure to anticipate, identify and react in a timely manner to emerging fashion trends and appropriately supply our stores, catalogs and websites with attractive high-quality products that maintain or enhance the appeal of our brand could have an adverse effect on our sales, operating margins and results of operations.

The success of our Direct segment depends on customers' use of our digital platform, including our e-commerce websites, and response to direct mail catalogs and digital marketing; if our overall marketing strategies, including our maintenance of a robust customer list, is not successful, our business and results of operations could be adversely affected.

The success of our Direct segment, which accounted for approximately 86% of our revenues in Fiscal 2015, depends on customers' use of our e-commerce websites and their response to our direct mail catalogs and digital marketing. The level of customer traffic and volume of customer purchases on our e-commerce websites is substantially dependent on our ability to provide attractive and accessible websites, a high-quality customer experience and reliable delivery of our merchandise. Although the success of our e-commerce websites also has historically been dependent on performance of our direct mail catalogs, our strategy includes initiatives that are intended to improve marketing productivity and optimize catalog productivity through, among other efforts, a shift in marketing spending. If we are unable to maintain and increase customers' use of our e-commerce websites and the volume of goods they purchase, including, as a result of changes to the level and types of marketing or amount of spend allocated to each type of marketing, or through our failure to otherwise successfully promote and maintain our e-commerce websites and their associated services, our business and results of operations could be adversely affected.

Customer response to our catalogs and digital marketing is substantially dependent on merchandise assortment, merchandise availability and creative presentation, as well as the selection of customers to whom our catalogs are sent and to whom our digital marketing is directed, changes in mailing strategies and the size of our mailings. Our maintenance of a robust customer list, which we believe includes desirable demographic characteristics for the products we offer, has also been a key component of our overall strategy. If the performance of our catalogs, emails and e-commerce websites decline, or if our overall marketing strategy is not successful, our business and results of operations could be adversely affected.

We depend on information technology and a failure of information technology systems, including with respect to our e-commerce operations, or an inability to effectively upgrade or adapt our systems could adversely affect our business. We rely on sophisticated information technology systems to operate our business, including the e-commerce websites that drive our direct-to-consumer, The Outfitters by Lands' End, and international sales channels and in-store/point-of-sale systems, inventory management, warehouse management and human resources, some of which are based on end-of-life or legacy technology, operate with minimal or no vendor support and are otherwise difficult to maintain. Our systems are subject to damage or interruption from power outages, computer and telecommunications failures, computer viruses, security breaches, catastrophic events such as fires, tornadoes and hurricanes, and usage errors by our employees or vendors. Operating legacy systems subjects us to inherent costs and risks associated with maintaining, upgrading and replacing these systems and recruiting and retaining sufficiently skilled personnel to maintain and operate the systems, demands on management time, and other risks and costs. Our e-commerce websites are subject to numerous risks associated with selling merchandise that could have an adverse effect on our results of operations, including unanticipated operating problems, reliance on third-party computer hardware and software providers, system failures and the need to invest in additional and updated computer platforms.

Our information technology systems are potentially vulnerable to malicious intrusion, targeted or random attack or breakdown. Although we have invested in the protection of our data and information technology and also monitor our systems on an ongoing basis, there can be no assurance that these efforts will prevent breakdowns or breaches in our information technology systems that could adversely affect our business.

Sears Holdings point of sale and supply chain management information technology systems are leveraged in support of our Lands' End Shops at Sears. In addition, we currently depend on Sears Holdings' information technology systems for certain key services to support our core Lands' End business channels. There can be no assurance that Sears Holdings will maintain and protect these information technology systems in such a way that would prevent breakdowns or breaches in such systems, which could adversely affect our business.

Additionally, our success depends, in part, on our ability to identify, develop, acquire or license leading technologies useful in our business, enhance our existing services, develop new services and technologies that address the increasingly sophisticated and varied needs of our existing and prospective customers, and respond to technological advances and emerging industry standards and practices on a cost-effective and timely basis. The development and operation of our e-commerce websites and other proprietary technology entails significant technical and business risks. We can provide no assurance that we will be able to effectively use new technologies or adapt our e-commerce websites, proprietary technologies and transaction-processing systems to meet customer requirements or emerging industry standards. If we are unable to accurately project the need for such system expansion or upgrade or adapt our systems in a cost-effective and timely manner in response to changing market conditions or customer requirements, whether for technical, legal, financial or other reasons, our business and results of operations could be adversely affected.

Our planned implementation of an ERP software solution and other information technology systems could result in significant disruptions to our operations.

We plan to implement an ERP and other complementary information technology systems over the next several years. Implementation of these solutions and systems is highly dependent on coordination of numerous software and system providers and internal business teams. The interdependence of these solutions and systems is a significant risk to the successful completion of the initiatives and the failure of any one system could have a material adverse effect on the implementation of our overall information technology infrastructure. We may experience difficulties as we transition to these new or upgraded systems and processes, including loss or corruption of data, delayed

shipments, decreases in productivity as our personnel and third party providers implement and become familiar with new systems, increased costs and lost revenues. In addition, transitioning to these new systems requires significant capital investments and personnel resources. Difficulties in implementing new or upgraded information systems or significant system failures could disrupt our operations and have a material adverse effect on our capital resources, financial condition, results of operations or cash flows. Implementation of this new information technology infrastructure has a significant impact on our business processes and information systems across a significant portion of our operations. As a result, we will be undergoing significant changes in our operational processes and internal controls as our implementation progresses, which in turn require significant change management, including recruiting and training of qualified personnel. If we are unable to successfully manage these changes as we implement these systems, including harmonizing our systems, data, processes and reporting analytics, our ability to conduct, manage and control routine business functions could be negatively affected and significant disruptions to our business could occur. In addition, we could incur material unanticipated expenses, including additional costs of implementation or costs of conducting business. These risks could result in significant business disruptions or divert management's attention from key strategic initiatives and have a material adverse effect on our capital resources, financial condition, results of operations or cash flows.

Fluctuations and increases in the costs of raw materials could adversely affect our business and results of operations. Our products are manufactured using several key raw materials, including wool, cotton and down, which are subject to fluctuations in price and availability and many of which are produced in emerging markets in Asia and Central America. The prices of these raw materials can be volatile due to the demand for fabrics, weather conditions, supply conditions, government regulations, general economic conditions, crop yields and other unpredictable factors. Such factors may be exacerbated by legislation and regulations associated with global climate change. The prices of these raw materials may also fluctuate based on a number of other factors beyond our control, including commodity prices such as prices for oil, changes in supply and demand, labor costs, competition, import duties, tariffs, anti-dumping duties, currency exchange rates and government regulation. These fluctuations may result in an increase in our transportation costs for freight and distribution, utility costs for our retail stores and overall costs to purchase products from our vendors. Fluctuations in the cost, availability and quality of the raw materials used to manufacture our merchandise could have an adverse effect on our cost of goods, or our ability to meet customer demand.

The impairment of our relationships with our vendors and/or the failure of our new merchandise sourcing initiatives could have an adverse effect on our competitive position and our business and results of operations.

Most of our arrangements with the vendors that supply a significant portion of our merchandise are not long-term agreements, and, therefore, our success depends on maintaining good relations with them. Our growth strategy depends to a significant extent on the willingness and ability of our vendors to efficiently supply merchandise that is consistent with our standards for quality and value. In addition, we are pursuing plans to engage new vendors and increase our procurement of merchandise through third-party buying agents. Our use of new vendors may cause us to encounter delays in production and added costs as a result of the time it takes to train our vendors in producing our products and adhering to our standards. If we cannot obtain a sufficient amount and variety of quality product at acceptable prices, including at prices that offset increased buying agent commissions incurred, it could have a negative impact on our competitive position. This could result in lower revenues and decreased customer interest in our product offerings, which, in turn, could adversely affect our business and results of operations.

Our arrangements with our vendors are generally not exclusive. As a result, our vendors might be able to sell similar or identical products to certain of our competitors, some of which purchase products in significantly greater volume. Our competitors may enter into arrangements with suppliers that could impair our ability to sell those suppliers' products, including by requiring suppliers to enter into exclusive arrangements, which could limit our access to such arrangements or products.

If we do not maintain the security of customer, employee or company information, we could experience damage to our reputation, incur substantial additional costs and become subject to litigation.

Any significant compromise or breach of customer, employee or company data security, whether held and maintained by us or by our third-party providers, or whether intentional or inadvertent, could significantly damage our reputation and result in additional costs, lost sales, fines and lawsuits. The regulatory environment related to information security and privacy is increasingly rigorous, with new and constantly changing requirements applicable to our business, and compliance with those requirements could result in additional costs. There is no guarantee that the procedures that Lands' End or our third party providers have implemented to protect against unauthorized access to secured data are adequate to safeguard against all data security breaches. We could be held liable to our customers or other parties or be subject to regulatory or other actions for breaching privacy and information security laws and regulations, and our business and reputation could be adversely affected by any resulting loss of customer confidence, litigation, civil or criminal penalties or adverse publicity.

If we cannot compete effectively in the apparel industry, our business and results of operations may be adversely affected.

The apparel industry is highly competitive. We compete with a diverse group of direct-to-consumer companies and retailers, including national department store chains, men's and women's specialty apparel chains, outdoor specialty stores, apparel catalog businesses, sportswear marketers and online apparel businesses that sell similar lines of merchandise. Brand image, marketing, design, price, service, quality, image presentation and fulfillment are all competitive factors. Our competitors may be able to adopt more aggressive pricing policies, adapt to changes in customer tastes or requirements more quickly, devote greater resources to the design, sourcing, distribution, marketing and sale of their products, or generate greater national brand recognition than us. An inability to overcome these potential competitive disadvantages or effectively market our products relative to our competitors could have an adverse effect on our business and results of operations. Similarly, our inability to market and sell our products in foreign jurisdictions could have an adverse effect on our business and results of operations.

Our approach to merchandise promotions and markdowns to encourage consumer purchases could adversely affect our gross margins and results of operations.

The apparel industry is dominated by large brands and national/mass retailers, where price competition, promotion, and branded product assortment drive differentiation between competitors in the industry. In order to be competitive, we must offer customers compelling products at attractive prices, including through promotions and markdowns as appropriate, and we have operated in a highly promotional retail environment in recent periods. Heavy reliance on promotions and markdowns to encourage customers to purchase our merchandise, could have a negative impact on our brand equity, gross margins and results of operations.

The success of our Retail segment depends on the performance of our Lands' End Shops at Sears; if Sears Roebuck sells or disposes of its retail stores or if its retail business does not adequately promote their business or does not attract customers, our business and results of operations could be adversely affected.

The success of our Retail segment, which accounted for approximately 14% of our revenues in Fiscal 2015, depends on the success of our Lands' End Shops at Sears. We operated 227 Lands' End Shops at Sears as of the end of Fiscal 2015. These stores had revenues of approximately \$182.7 million in Fiscal 2015, representing 89% of our Retail sales and 13% of our overall sales for Fiscal 2015. The Lands' End Shops at Sears may decrease or be eliminated entirely if Sears Roebuck sells, disposes of or transfers ownership or control of any or all of its retail stores. The success and appeal of Sears stores and foot traffic within Sears stores, therefore, have a major impact on the sales of our Retail segment.

In addition, we depend on subsidiaries of Sears Holdings for various retail services and employees to support the Lands' End Shops at Sears, including providing a dedicated, well-trained staff to directly engage with customers at the Lands' End Shops at Sears, and maintaining dedicated sales areas for Lands' End branded products and shopping lounges where customers can search our offerings via the Internet and catalog. If Sears Holdings does not provide these services going forward with the standard of care and quality provided while we were a part of Sears Holdings and in accordance with our commercial agreements with Sears Holdings (or its subsidiaries) and does not deliver a rewarding shopping experience to our customers, our reputation could suffer and our business and results of operations could be adversely affected.

Under the terms of the master lease agreement and master sublease agreement pursuant to which Sears Roebuck leases or subleases to us the premises for the Lands' End Shops at Sears, Sears Roebuck has certain rights to (1) relocate our leased premises within the building in which such premises are located, subject to certain limitations, including our right to terminate the applicable lease if we are not satisfied with the new premises, and (2) terminate without liability the lease with respect to a particular Lands' End Shop if the overall Sears store in which such Lands' End Shop is located is closed or sold. Sears Holdings has announced that it intends to continue to right-size, redeploy and highlight the value of its assets, including its real estate portfolio, in its transition from an asset-intensive, store-focused retailer and that it has entered into lease agreements with third party retailers for stand-alone stores. On July 7, 2015, Sears Holdings completed a rights offering and sale-leaseback transaction (the "Seritage transaction") with Seritage Growth Properties ("Seritage"), an independent publicly traded real estate investment trust. Sears Holdings disclosed that as part of the Seritage transaction, it sold 235 properties to Seritage (the "REIT properties") along with Sears Holdings' 50% interest in each of three real estate joint ventures (collectively, the "JVs"). Sears Holdings also disclosed that it contributed 31 properties to the JVs (the "JV properties"). As of January 29, 2016, 59 of the REIT properties contained a Lands' End Shop and 15 of the JV properties contained a Lands' End Shop, the leases with respect to which Sears Roebuck retained for its own account. Sears Holdings disclosed that Seritage and the JVs have a recapture right with respect to approximately 50% of the space within the stores at the REIT properties and JV properties (subject to certain exceptions), and with respect to nine of the stores that contain a Lands' End Shop, Seritage has the additional right to recapture 100% of the space within the Sears Roebuck store. If Sears Roebuck continues to dispose of retail stores that contain Lands' End Shops, and/or offer us relocation alternatives for Lands' End Shops that are less attractive than the current premises, our business and results of operations could be adversely affected. We conduct business in and rely on sources for merchandise located in foreign markets, and our business may therefore be adversely affected by legal, regulatory, economic and political risks associated with international trade and those markets.

Substantially all of our merchandise is imported from vendors in China and other emerging markets in Asia and Central America, either directly by us or indirectly by distributors who, in turn, sell products to us. We also sell our products in Canada, Northern and Central Europe and Japan, and we may develop a sales presence in other international markets. Our reliance on vendors in and marketing of products to customers in foreign markets create risks inherent in doing business in foreign jurisdictions, including:

- the burdens of complying with a variety of foreign laws and regulations, including trade and labor restrictions;
- economic and political instability in the countries and regions where our customers or vendors are located;
- adverse fluctuations in currency exchange rates;
- compliance with United States and other country laws relating to foreign operations, including the Foreign Corrupt Practices Act, which prohibits United States companies from making improper payments to foreign officials for the purpose of obtaining or retaining business, and the U.K. Bribery Act, which prohibits U.K. and related companies from any form of bribery;
- changes in United States and non-United States laws (or changes in the enforcement of those laws) affecting the importation and taxation of goods, including duties, tariffs and quotas, enhanced security measures at United States ports, or imposition of new legislation relating to import quotas;
- increases in shipping, labor, fuel, travel and other transportation costs;
- the imposition of anti-dumping or countervailing duty proceedings resulting in the potential assessment of special anti-dumping or countervailing duties;
- transportation delays and interruptions, including due to the failure of vendors or distributors to comply with import regulations; and
- political instability and acts of terrorism.

Any increase in the cost of merchandise purchased from these vendors or restriction on the merchandise made available by these vendors could have an adverse effect on our business and results of operations.

Manufacturers in China have experienced increased costs in recent years due to shortages of labor and the fluctuation of the Chinese Yuan in relation to the United States dollar. If we are unable to successfully mitigate a significant portion of such product costs, our results of operations could be adversely affected.

New initiatives may be proposed in the United States that may have an impact on the trading status of certain countries and may include retaliatory duties or other trade sanctions that, if enacted, would increase the cost of products purchased from suppliers in such countries with which we do business. Any inability on our part to rely on our foreign sources of production due to any of the factors listed above could have an adverse effect on our business, results of operations and financial condition.

Our efforts to expand our channels and geographic reach may not be successful.

Our strategy includes initiatives to reach under-penetrated regional markets in the United States and pursue international expansion in a number of countries around the world, including in Asia, Europe and Canada, through a number of channels and brands, including through relationships with third party e-commerce platforms and other retailers. We have limited experience operating in many of these locations and with third parties, and face major, established competitors and barriers to entry. In addition, in many of these international locations, the real estate, employment and labor, transportation and logistics, regulatory and other operating requirements differ dramatically from those in the places where we have experience. Foreign currency exchange rate fluctuations may also adversely affect our international operations and sales, including by increasing the cost of business in certain locations.

Moreover, consumer tastes and trends may differ in many of these locations from those in our existing locations, and as a result, the sales of our products may not be successful or profitable. If our expansion efforts are not successful or do not deliver an appropriate return on our investments, our business could be adversely affected.

If we are unable to protect or preserve the image of our brands and our intellectual property rights, our business may be adversely affected.

We regard our copyrights, service marks, trademarks, trade dress, trade secrets and similar intellectual property as critical to our success. As such, we rely on trademark and copyright law, trade secret protection and confidentiality agreements with our associates, consultants, vendors and others to protect our proprietary rights. Nevertheless, the steps we take to protect our proprietary rights may be inadequate and we may experience difficulty in effectively limiting unauthorized use of our trademarks and other intellectual property worldwide. Unauthorized use of our trademarks, copyrights, trade secrets or other proprietary rights may cause significant damage to our brands and our ability to effectively represent ourselves to agents, suppliers, vendors, licensees and/or customers. While we intend to enforce our trademark and other proprietary rights, there can be no assurance that we are adequately protected in all countries or that we will prevail when defending our trademark and proprietary rights. If we are unable to protect or preserve the value of our trademarks or other proprietary rights for any reason, or if we fail to maintain the image of our brands due to merchandise and service quality issues, actual or perceived, adverse publicity, governmental investigations or litigation, or other reasons, our brands and reputation could be damaged and our business may be adversely affected.

Third parties may sue us for alleged infringement of their proprietary rights. The party claiming infringement might have greater resources than we do to pursue its claims, and we could be forced to incur substantial costs and devote significant management resources to defend against such litigation. If the party claiming infringement were to prevail, we could be forced to discontinue the use of the related trademark or design and/or pay significant damages, or to enter into expensive royalty or licensing arrangements with the prevailing party, assuming these royalty or licensing arrangements are available at all on an economically feasible basis, which they may not be.

Increases in postage, paper and printing costs could adversely affect the costs of producing and distributing our catalog and promotional mailings, which could have an adverse effect on our business and results of operations. Catalog mailings are a key aspect of our business and increases in costs relating to postage, paper and printing would increase the cost of our catalog mailings and could reduce our profitability to the extent that we are unable to offset such increases by raising prices, by implementing more efficient printing, mailing, delivery and order fulfillment systems or by using alternative direct-mail formats.

We currently use the national mail carriers for distribution of substantially all of our catalogs and are therefore vulnerable to postal rate increases. The current economic and legislative environments may lead to further rate increases or a discontinuation of the discounts for bulk mailings and sorting by zip code and carrier routes which Lands' End currently leverages for cost savings.

Paper for catalogs and promotional mailings is a vital resource in the success of our business. The market price for paper has fluctuated significantly in the past and may continue to fluctuate in the future. In addition, future pricing and supply availability of catalog paper may be impacted by the continued consolidation or closings of production facilities in the United States. We do not have multi-year fixed-price contracts for the supply of paper and are not guaranteed access to, or reasonable prices for, the amounts required for the operation of our business over the long term.

We also depend upon external vendors to print and mail our catalogs. The limited number of printers capable of handling such needs subjects us to risks if any printer fails to perform under our agreement. Most of our catalog-related costs are incurred prior to mailing, and we are not able to adjust the costs of a particular catalog mailing to reflect the actual subsequent performance of the catalog.

We rely on third parties to provide us with services in connection with certain aspects of our business, and any failure by these third parties to perform their obligations could have an adverse effect on our business and results of operations.

We have entered into agreements with third parties for logistics services, information technology systems (including hosting some of our e-commerce websites), onshore and offshore software development and support, merchandise buying agent services, catalog production, distribution and packaging and employee benefits. Services provided by any of our third-party suppliers could be interrupted as a result of many factors, such as acts of nature or contract disputes. Any failure by a third party to provide us with contracted-for services on a timely basis or within service level expectations and performance standards could result in a disruption of our business and have an adverse effect on our business and results of operations.

If we fail to timely and effectively obtain shipments of products from our vendors and deliver merchandise to our customers, our business and operating results could be adversely affected.

We do not own or operate any manufacturing facilities and therefore depend upon independent third-party vendors for the manufacture of our merchandise. We cannot control all of the various factors that might affect timely and effective procurement of supplies of product from our vendors and delivery of merchandise to our customers. A majority of the products that we purchase must be shipped to our distribution centers in Dodgeville, Reedsburg and Stevens Point, Wisconsin; Oakham, United Kingdom; and Fujieda, Japan. While our reliance on a limited number of distribution centers provides certain efficiencies, it also makes us more vulnerable to natural disasters, weather-related disruptions, accidents, system failures or other unforeseen causes that could delay or impair our ability to fulfill customer orders and/or ship merchandise to our stores, which could adversely affect sales. Our ability to mitigate the adverse impacts of these events depends in part upon the effectiveness of our disaster preparedness and response planning, as well as business continuity planning. Our utilization of imports also makes us vulnerable to risks associated with products manufactured abroad, including, among other things, risks of damage, destruction or confiscation of products while in transit to a distribution center, organized labor strikes and work stoppages such as the recent labor dispute that disrupted operations at ports-of-entry on the west coast of the United States, transportation and other delays in shipments, including as a result of heightened security screening and inspection processes or other port-of-entry limitations or restrictions in the United States, the United Kingdom and Japan, unexpected or significant port congestion, lack of freight availability and freight cost increases. In addition, if we experience a shortage of a popular item, we may be required to arrange for additional quantities of the item, if available, to be delivered through airfreight, which is significantly more expensive than standard shipping by sea. We may not be able to obtain sufficient freight capacity on a timely basis or at favorable shipping rates and, therefore, may not be able to timely receive merchandise from vendors or deliver products to customers.

We rely upon third-party land-based and air freight carriers for merchandise shipments from our distribution centers to customers. Accordingly, we are subject to the risks, including labor disputes, union organizing activity, inclement weather and increased transportation costs, associated with such carriers' ability to provide delivery services to meet outbound shipping needs. In addition, if the cost of fuel rises or remains at current levels, the cost to deliver merchandise from distribution centers to customers may rise, and, although some of these costs are paid by our customers, such costs could have an adverse impact on our profitability. Failure to procure and deliver merchandise to customers in a timely, effective and economically viable manner could damage our reputation and adversely affect our business. In addition, any increase in distribution costs and expenses could adversely affect our future financial

performance.

17

If we do not efficiently manage inventory levels, our results of operations could be adversely affected. We must maintain sufficient inventory levels to operate our business successfully, but we must also avoid accumulating excess inventory, which increases working capital needs and lowers gross margins. We obtain substantially all of our inventory from vendors located outside the United States. Some of these vendors often require lengthy advance notice of order requirements in order to be able to supply products in the quantities requested. This usually requires us to order merchandise, and enter into commitments for the purchase of such merchandise, well in advance of the time these products will be offered for sale. As a result, it may be difficult to respond to changes in the apparel, footwear, accessories or home products markets. If we do not accurately anticipate the future demand for a particular product or the time it will take to obtain new inventory, inventory levels will not be appropriate and our results of operations could be adversely affected.

Unseasonal or severe weather conditions may adversely affect our merchandise sales.

Our business is adversely affected by unseasonal weather conditions. Sales of certain seasonal apparel items, specifically outerwear and swimwear, are dependent, in part, on the weather and may decline in years in which weather conditions do not favor the use of these products. Sales of our spring and summer products, which traditionally consist of lighter clothing and swimwear, are adversely affected by cool or wet weather. Similarly, sales of our fall and winter products, which are traditionally weighted toward outerwear, are adversely affected by mild, dry or warm weather. In addition, severe weather events typically lead to temporarily reduced traffic at the Sears Roebuck locations in which Lands' Ends Shops at Sears are located and at our other retail locations which could lead to reduced sales of our merchandise. Severe weather events may impact our ability to supply our stores, deliver orders to customers on schedule and staff our stores and fulfillment centers, which could have an adverse effect on our business and results of operations.

Our business is seasonal in nature, and any decrease in our sales or margins could have an adverse effect on our business and results of operations.

The apparel industry is highly seasonal, with the highest levels of sales occurring during the fourth quarter of our fiscal year. Our sales and margins during the fourth quarter may fluctuate based upon factors such as the timing of holiday seasons and promotions, the amount of net revenue contributed by new and existing stores, the timing and level of markdowns, competitive factors, weather and general economic conditions. Any decrease in sales or margins, whether as a result of increased promotional activity or because of economic conditions, poor weather or other factors, could have an adverse effect on our business and results of operations. In addition, seasonal fluctuations also affect our inventory levels, since we usually order merchandise in advance of peak selling periods and sometimes before new fashion trends are confirmed by customer purchases. We generally carry a significant amount of inventory, especially before the fourth quarter peak selling periods. If we are not successful in selling inventory during these periods, we may have to sell the inventory at significantly reduced prices, which could adversely affect our business and results of operations.

If our independent vendors do not use ethical business practices or comply with applicable regulations and laws, our reputation could be materially harmed and have an adverse effect on our business and results of operations.

Our reputation and customers' willingness to purchase our products depend in part on our vendors' compliance with ethical employment practices, such as with respect to child labor, wages and benefits, forced labor, discrimination, freedom of association, unlawful inducements, safe and healthy working conditions, and with all legal and regulatory requirements relating to the conduct of their business. While we operate compliance and monitoring programs to promote ethical and lawful business practices, we do not exercise ultimate control over our independent vendors or their business practices and cannot guarantee their compliance with ethical and lawful business practices. Violation of labor or other laws by vendors, or the divergence of a vendor's labor practices from those generally accepted as ethical in the United States could materially hurt our reputation, which could have an adverse effect on our business and results of operations.

We may be subject to assessments for additional state taxes, which could adversely affect our business.

In accordance with current law, we pay, collect and/or remit taxes in those states where we or our subsidiaries, as applicable, maintain a physical presence. While we believe that we have appropriately remitted all taxes based on

our interpretation of applicable law, tax laws are complex and their application differs from state to state. It is possible that some taxing jurisdictions may attempt to assess additional taxes and penalties on us or assert either an error in our calculation, a change in the application of law, or an interpretation of the law that differs from our own, which may, if successful, adversely affect our business and results of operations.

We may be subject to periodic litigation and other regulatory proceedings, including with respect to product liability claims. These proceedings may be affected by changes in laws and government regulations or changes in their enforcement.

From time to time, we may be involved in lawsuits and regulatory actions relating to our business or products we sell or have sold. These proceedings may be in jurisdictions with reputations for aggressive application of laws and procedures against corporate defendants. We are impacted by trends in litigation, including class-action allegations brought under various consumer protection and employment laws, including wage and hour laws, privacy laws, and laws relating to electronic commerce. Due to the inherent uncertainties of litigation and regulatory proceedings, we cannot accurately predict the ultimate outcome of any such proceedings. An unfavorable outcome could have an adverse effect on our business and results of operations. Regardless of the outcome of any litigation or regulatory proceedings, any such proceeding could result in substantial costs and may require that we devote substantial resources to defend the proceeding, which could affect the future premiums we would be required to pay on our insurance policies. Changes in governmental regulations could also have adverse effects on our business and subject us to additional regulatory actions.

Some of the products we sell may expose us to product liability claims relating to personal injury, death or property damage allegedly caused by these products, and could require us to take corrective actions, including product recalls. Although we maintain liability insurance, there is no guarantee that our current or future coverage will be adequate for liabilities actually incurred, or that insurance will continue to be available on economically reasonable terms, or at all. Product liability claims can be expensive to defend and can divert the attention of management and other personnel for significant periods, regardless of the ultimate outcome. Claims of this nature, as well as product recalls, could also have an adverse effect on customer confidence in the products we sell and on our reputation, business and results of operations.

We could incur charges due to impairment of goodwill, other intangible assets and long-lived assets.

As of January 29, 2016, we had goodwill and intangible asset balances totaling \$540.0 million, most of which are subject to testing for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. Our intangible assets consist of \$430.0 million for our trade name and a goodwill balance of \$110.0 million. Any event that impacts our reputation could result in impairment charges for our trade name. In Fiscal 2015 we recorded an impairment to our trade name asset of \$98.3 million. Long-lived assets, primarily property and equipment, are also subject to testing for impairment if events or changes in circumstances indicate that the asset might be impaired. A significant amount of judgment is involved in our impairment assessment. If actual results are not consistent with our estimates and assumptions used in estimating revenue growth, future cash flows and asset fair values, we could incur further impairment charges for intangible assets, goodwill or long-lived assets, which could have an adverse effect on our results of operations.

Our failure to retain our executive management team and to attract qualified new personnel could adversely affect our business and results of operations.

We depend on the talents and continued efforts of our executive management team. The loss of members of our executive management may disrupt our business and adversely affect our results of operations. Furthermore, our ability to manage further expansion will require us to continue to train, motivate and manage employees and to attract, motivate and retain additional qualified personnel, including field sales representatives for The Outfitters by Lands' End business. We believe that having personnel who are passionate about our brand and have industry experience and a strong customer service ethic has been an important factor in our historical success, and we believe that it will continue to be important to growing our business. Competition for these types of personnel is intense, and we may not be successful in attracting, assimilating and retaining the personnel required to grow and operate our business profitably. With the seasonal nature of the retail business, over 2,000 flexible part-time employees join us each year to support our varying peak seasons, including the fourth quarter holiday shopping season. An inability to attract qualified seasonal personnel could interrupt our sales during this period.

Our business is affected by worldwide economic and market conditions; a failure of the economy to sustain its recovery, a renewed decline in consumer-spending levels and other adverse developments, including rising inflation, could lead to reduced revenues and gross margins and adversely affect our business, results of operations and liquidity.

Many economic and other factors are outside of our control, including general economic and market conditions, consumer and commercial credit availability, inflation, unemployment, consumer debt levels and other challenges currently affecting the global economy. Increases in the rates of unemployment, decreases in home values, reduced access to credit and issues related to the domestic and international political situations may adversely affect consumer confidence and disposable income levels. Low consumer confidence and disposable incomes could lead to reduced consumer spending and lower demand for our products, which are discretionary items, the purchase of which can be reduced before customers adjust their budgets for necessities. These factors could have a negative impact on our sales and cause us to increase inventory markdowns and promotional expenses, thereby reducing our gross margins and operating results.

In addition, our liquidity needs are funded by operating cash flows and, to the extent necessary, may be funded by borrowings under our ABL Facility. See Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations-Liquidity and Capital Resources. The ability to raise additional financing depends on numerous factors that are outside of our control, including general economic and market conditions, the health of financial institutions, our credit ratings and lenders' assessments of our prospects and the prospects of the retail industry in general. The lenders under any credit facilities or loan agreements we may enter into may not be able to meet their commitments if they experience shortages of capital and liquidity. There can be no assurance that our ability to otherwise access the credit markets will not be adversely affected by changes in the financial markets and the global economy. If we are not able to fulfill our liquidity needs through operating cash flows and/or borrowings under credit facilities or otherwise in the capital markets, our business and financial condition could be adversely affected.

Other factors may have an adverse effect on our business, results of operations and financial condition.

Many other factors may affect our profitability and financial condition, including:

- changes in or interpretations of laws and regulations, including changes in accounting standards, taxation requirements, product marketing application standards and environmental laws;
- differences between the fair value measurement of assets and liabilities and their actual value, particularly for intangibles and goodwill; and for contingent liabilities such as litigation, the absence of a recorded amount, or an amount recorded at the minimum, compared to the actual amount;
- changes in the rate of inflation, interest rates and the performance of investments held by us;
- changes in the creditworthiness of counterparties that transact business with or provide services to us; and
- changes in business, economic and political conditions, including war, political instability, terrorist attacks, the threat of future terrorist activity and related military action; natural disasters; the cost and availability of insurance due to any of the foregoing events; labor disputes, strikes, slow-downs or other forms of labor or union activity; and pressure from third-party interest groups.

Additional Risks Related to Our Separation from, and Relationship with, Sears Holdings

Our historical financial information is not necessarily representative of the results that we would have achieved as a separate, publicly traded company and may not be a reliable indicator of our future results.

Although we were an independent company prior to our acquisition by Sears Roebuck in June 2002, the information about us in this Annual Report on Form 10-K prior to the Separation date of April 4, 2014 refers to the Lands' End's business as operated by and integrated with Sears Holdings. Accordingly, such historical financial information included in this Annual Report on Form 10-K does not necessarily reflect the financial condition, results of operations or cash flows that we would have achieved as a separate, publicly traded company during the periods presented or those that we will achieve in the future primarily as a result of the factors described below:

Prior to the Separation, Sears Holdings or one of its affiliates performed various corporate functions for us. Following the Separation, Sears Holdings or its subsidiaries provides some of these functions to us. Our historical financial results prior to the Separation reflect allocations of corporate expenses from Sears Holdings for these functions and are likely to be less than the expenses we would have incurred had we operated as a separate publicly traded company. Following the Separation, we may not be able to perform these functions as efficiently or at comparable costs;

Prior to the Separation, we were able to use Sears Holdings' size and purchasing power in procuring various goods and services and have shared economies of scope and scale in costs, employees, vendor relationships and customer relationships. Although we entered into a transition services agreement and other commercial agreements with Sears Holdings or its subsidiaries in connection with the Separation, these arrangements may not fully capture the benefits we enjoyed as a result of being integrated with Sears Holdings and may result in us paying higher charges than in the past for these services. As a separate, publicly traded company, we may be unable to obtain goods and services at the prices and terms obtained prior to the Separation, which could have an adverse effect on our business and results of operations;

Generally, our working capital requirements and capital for our general corporate purposes were satisfied as part of the corporate-wide cash management policies of Sears Holdings. As an independent company, we may need to obtain additional financing from banks, through public offerings or private placements of debt or equity securities, strategic relationships or other arrangements; and

Our financial information for periods prior to the Separation does not reflect the debt we incurred in connection with the Separation.

Other significant changes may occur in our cost structure, management, financing and business operations as a result of operating as a company separate from Sears Holdings and the related expiration of agreements with Sears Holdings and from the termination of our rights to operate under third party agreements that were executed when we were a subsidiary of Sears Holdings. For additional information about the past financial performance of our business and the basis of presentation of the historical combined financial statements of our business, see Item 6, Selected Historical Financial Data, and Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, as well as the historical combined financial statements and accompanying notes included elsewhere in this Annual Report on Form 10-K.

Sears Holdings or its subsidiaries may fail to perform under various agreements with us or we may fail to have necessary systems and services in place when certain of the transaction agreements expire.

We rely on Sears Holdings to provide logistics, point-of-sale and related store systems to the Lands' End Shops at Sears. In connection with the Separation, we entered into various agreements, including a buying agency agreement, separation and distribution agreement, a transition services agreement and a tax sharing agreement, to effect the Separation and provide a framework for our relationship with Sears Holdings after the Separation. In addition, we entered into commercial agreements with Sears Holdings or its subsidiaries, including a master lease agreement, a master sublease agreement, a financial services agreement, a retail operations agreement for the Lands' End Shops at Sears and a Shop Your Way retail establishment agreement. We rely on Sears Holdings and its subsidiaries to satisfy their performance and payment obligations under these agreements. If Sears Holdings or its subsidiaries are unable to satisfy their obligations under these agreements, including their indemnification obligations, we could incur operational difficulties or losses. These arrangements could lead to disputes between Sears Holdings or its subsidiaries and us over the use of and charges for facilities and the allocation of revenues and expenses for our sales from the Lands' End Shops at Sears.

We may have received better terms from unaffiliated third parties than the terms of our agreements with Sears Holdings and its subsidiaries.

Our agreements with Sears Holdings or its subsidiaries in connection with the Separation, including the buying agency agreement, transition services agreement, tax sharing agreement, master lease agreement, master sublease agreement, financial services agreement, Lands' End Shops at Sears retail operations agreement and Shop Your Way retail establishment agreement, were prepared in the context of the Separation while we were still a wholly owned indirect subsidiary of Sears Holdings. Accordingly, during the period in which the terms of these agreements and amendments were prepared, we did not have an independent board of directors or a management

team that was independent of Sears Holdings. As a result, the terms of these agreements are of fixed duration and may not reflect terms that would have resulted from arm's-length negotiations between unaffiliated third parties.

Arm's-length negotiations between Sears Holdings and an unaffiliated third party in another form of transaction, such as with a buyer in a sale of a business, may have resulted in more favorable terms to the unaffiliated third party.

Potential indemnification liabilities to Sears Holdings pursuant to the separation and distribution agreement could adversely affect us.

The separation and distribution agreement with Sears Holdings provides, among other things, the principal corporate transactions required to effect the Separation, certain conditions to the Separation and provisions governing the relationship between us and Sears Holdings with respect to and resulting from the Separation. Among other things, the separation and distribution agreement provides for indemnification obligations designed to make us financially responsible for substantially all liabilities that may exist relating to our business activities, whether incurred prior to or after the Separation, as well as any obligations of Sears Holdings that we may assume pursuant to the separation and distribution agreement. If we are required to indemnify Sears Holdings under the separation and distribution agreement, we may be subject to substantial liabilities.

We might not be able to engage in certain corporate transactions.

To preserve the tax-free treatment to Sears Holdings of the Separation, under the tax sharing agreement that we entered into with Sears Holdings, we agreed to refrain from taking or failing to take any action that prevents the Separation and related transactions from being tax-free. Further, for the two-year period following the Distribution, in certain circumstances we agreed to restrictions with respect to the following transactions:

entering into any transaction resulting in the acquisition of 40% or more of our stock or 60% or more of our assets, whether by merger or otherwise;

merging, consolidating or liquidating;

issuing equity securities beyond certain thresholds;

repurchasing capital stock beyond certain thresholds; and

ceasing to be engaged in our pre-Separation business.

These restrictions may limit our ability to pursue strategic transactions or engage in new business or other transactions that may maximize the value of our business. Furthermore, we could be liable for any resulting tax if our actions are deemed to be in violation of the tax sharing agreement.

ESL, whose interests may be different from the interests of other stockholders, may be able to exert substantial influence over our company.

According to an amendment to Schedule 13D filed on January 21, 2016 with the SEC, ESL beneficially owned on the filing date 53.7% of our outstanding shares of common stock. Accordingly, ESL could have substantial influence over many, if not all, actions to be taken or approved by our stockholders, and will have a significant voice in the election of directors and any transactions involving a change of control. The interests of ESL, which has investments in other companies (including Sears Holdings), may from time to time diverge from the interests of our other stockholders.

Mr. Lampert is the Chairman of the Board and Chief Executive Officer of Sears Holdings.

Potential liabilities may arise under fraudulent conveyance and transfer laws and legal capital requirements, which could have an adverse effect on our financial condition and our results of operations.

In the event that any entity involved in the Separation (including certain internal restructuring and financing transactions contemplated to be consummated in connection with the Separation) subsequently fails to pay its creditors or enters insolvency proceedings, these transactions may be challenged under United States federal, United States state and foreign fraudulent conveyance and transfer laws, as well as legal capital requirements governing distributions and similar transactions. If a court were to determine under these laws that, (a) at the time of the Separation, the entity in question: (1) was insolvent; (2) was rendered insolvent by reason of the Separation; (3) had remaining assets constituting unreasonably small capital; (4) intended to incur, or believed it would incur, debts beyond its ability to pay these debts as they matured; or (b) the transaction in question failed to satisfy applicable legal capital requirements, the court could determine that the Separation was voidable, in whole or in part. Subject to various defenses, the court could then require Sears Holdings or us, or other recipients of value in connection with

the Separation (potentially including our stockholders as recipients of shares of our common stock in connection with the Separation), as the case may be, to turn over value to other entities involved in the Separation and related transactions for the benefit of unpaid creditors. The measure of insolvency and applicable legal capital requirements will vary depending upon the jurisdiction whose law is being applied.

Risks Related to Our Indebtedness

Our leverage may place us at a competitive disadvantage in our industry. The agreements governing our debt contain various covenants that impose restrictions on us that may affect our ability to operate our business.

We have significant debt service obligations. Our debt and debt service requirements could adversely affect our ability to operate our business and may limit our ability to take advantage of potential business opportunities. Our level of debt presents the following risks, among others:

- we could be required to use a substantial portion of our cash flow from operations to pay principal (including amortization) and interest on our debt, thereby reducing the availability of our cash flow to fund working capital, capital expenditures, strategic acquisitions and other general corporate requirements or causing us to make non-strategic divestitures;

- our interest expense could increase if prevailing interest rates increase, because a substantial portion of our debt bears interest at variable rates;

- our substantial leverage could increase our vulnerability to economic downturns and adverse competitive and industry conditions and could place us at a competitive disadvantage compared to those of our competitors that are less leveraged;

- our debt service obligations could limit our flexibility in planning for, or reacting to, changes in our business, our industry and changing market conditions and could limit our ability to pursue other business opportunities, borrow more money for operations or capital in the future and implement our business strategies;

- our level of debt may restrict us from raising additional financing on satisfactory terms to fund working capital, capital expenditures, strategic acquisitions and other general corporate requirements;

- the agreements governing our debt contain covenants that limit our ability to pay dividends or make other restricted payments and investments;

- the agreements governing our debt contain operating covenants that limit our ability to engage in activities that may be in our best interests in the long term, including, without limitation, by restricting our subsidiaries' ability to incur debt, create liens, enter into transactions with affiliates or prepay certain kinds of indebtedness; and

- the failure to comply with these covenants could result in an event of default which, if not cured or waived, could result in the acceleration of the applicable debt, may result in the acceleration of any other debt to which a cross-acceleration or cross-default provision applies, and in the event our creditors accelerate the repayment of our borrowings, we and our subsidiaries may not have sufficient assets to repay that debt.

We may need additional financing in the future for our general corporate purposes or growth strategies, and such financing may not be available on favorable terms, or at all, and may be dilutive to existing stockholders.

We may need to seek additional financing for our general corporate purposes or growth strategies. We may be unable to obtain any desired additional financing on terms favorable to us, or at all. If adequate funds are not available on acceptable terms, we may be unable to fund our expansion, successfully develop or enhance our products, or respond to competitive pressures, any of which could negatively affect our business. If we raise additional funds through the issuance of equity securities, our stockholders could experience dilution of their ownership interest. If we raise additional funds by issuing debt, we may be subject to limitations on our operations due to restrictive covenants.

Risks Related to Our Common Stock

Our common stock price may decline if ESL decides to sell a portion of its holdings of our common stock.

ESL will, in its sole discretion, determine the timing and terms of any transactions with respect to its shares common stock of the Company, taking into account business and market conditions and other factors that it deems relevant. ESL is not subject to any contractual obligation to maintain its ownership position in us, although it may be subject to certain transfer restrictions imposed by securities law. Consequently, we cannot assure you that ESL will maintain its ownership interest in us. Any sale by ESL of our common stock or any announcement by ESL that it has decided to sell shares of our common stock, or the perception by the investment community that ESL has sold or decided to sell shares of our common stock, could have an adverse impact on the price of our common stock.

We do not expect to pay dividends for the foreseeable future.

We do not currently expect to declare or pay dividends on our common stock for the foreseeable future. Instead, we intend to retain earnings to finance the growth and development of our business and for working capital and general corporate purposes. Any payment of dividends will be at the discretion of our board of directors and will depend upon various factors then existing, including earnings, financial condition, results of operations, capital requirements, level of indebtedness, any contractual restrictions with respect to payment of dividends, restrictions imposed by applicable law, general business conditions and other factors that our board of directors may deem relevant. As a result, you may not receive any return on an investment in our capital stock in the form of dividends.

Our share price may be volatile.

The market price of our common stock may fluctuate significantly due to a number of factors, some of which may be beyond our control, including:

- actual or anticipated fluctuations in our operating results;
- changes in earnings estimated by securities analysts or our ability to meet those estimates;
- the operating and stock price performance of comparable companies;
- changes to the regulatory and legal environment under which we operate; and
- domestic and worldwide economic conditions.

Further, when the market price of a company's common stock drops significantly, stockholders often initiate securities class action lawsuits against the company. A lawsuit against Lands' End could cause us to incur substantial costs and could divert the time and attention of our senior management and other resources.

Your percentage ownership in Lands' End may be diluted in the future.

In the future, your percentage ownership in Lands' End may be diluted because of equity issuances for acquisitions, strategic investments, capital market transactions or otherwise, including equity awards that we may grant to our directors, officers and employees. The Compensation Committee of our Board of Directors may grant additional stock-based awards to our employees, which would have a dilutive effect on our earnings per share, and which could adversely affect the market price of our common stock. From time to time, we may issue additional stock-based awards to our employees under our employee benefits plans.

Being a public company subjects us to expenses and administrative burdens, in particular compliance with certain provisions of the Sarbanes-Oxley Act of 2002.

As a public company, we incur certain legal, accounting and other expenses that we would not otherwise incur. These costs and expenses may arise from various factors, including financial reporting, costs associated with complying with federal securities laws (including compliance with the Sarbanes-Oxley Act of 2002), tax administration, and legal and human-resources related functions. We are required to, among other things, maintain the roles and duties of board committees, maintain additional internal controls and disclosure controls and procedures, and maintain an insider trading policy in compliance with our obligations under the securities laws.

Being a public company subjects us to additional laws, rules and regulations that require the investment of resources to ensure ongoing compliance with these laws, rules and regulations. In addition, these laws, rules and regulations may make it more difficult and more expensive for us to obtain director and officer liability insurance, and we may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the

same or similar coverage. As a result, it may be more difficult for us to attract and retain qualified executive officers and qualified persons to serve on our board of directors, and in particular to serve on our Audit Committee.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 2. PROPERTIES

Facilities and Store Locations

We own or lease domestic and international properties used as offices customer sales/service centers, distribution centers and retail stores. Most of our stores are located inside of existing Sears stores. In such cases, we have entered into a lease or sublease with Sears Roebuck for the portion of the space in which our store operates and pay rent directly to Sears Roebuck or one of their affiliates on the terms negotiated in connection with the Separation. We believe that our existing facilities are well maintained and are sufficient to meet our current needs. We review all leases set to expire in the short term to determine the appropriate action to take with respect to them, including moving or closing stores, entering into new leases or purchasing property.

Domestic Headquarters, Customer Service and Distribution Properties

The headquarters for our business is located on an approximately 200 acre campus in Dodgeville, Wisconsin. The Dodgeville campus includes approximately 1.7 million square feet of building space between eight different buildings that are all owned by Lands' End. The primary functions of these buildings are customer sales/service, distribution center and corporate headquarters. We also own customer sales/service and distribution centers in Reedsburg and Stevens Point, Wisconsin.

International Office, Customer Service and Distribution Properties

We own a distribution center and customer sales/service center in Oakham, United Kingdom that supports our northern European business. We lease two buildings in Mettlach, Germany for customer sales/service center supporting our central European business. We also lease office space in Shinyokohama, Japan for a customer sales/service center as well as general administrative offices and a distribution center in Fujieda, Japan.

Lands' End Retail Properties

As of January 29, 2016, our retail properties consisted of 227 Lands' End Shops at Sears, which averaged approximately 7,700 square feet; 14 Lands' End Inlet stores, which averaged approximately 9,300 square feet; and five United Kingdom based shop-in-shops. We lease the premises of our Lands' End Shops at Sears from Sears Roebuck. Under the terms of the master lease agreement and master sublease agreement pursuant to which Sears Roebuck leases or subleases to us the premises for the Lands' End Shops at Sears, Sears Roebuck has certain rights to (1) relocate our leased premises within the building in which such premises are located, subject to certain limitations, including our right to terminate the applicable lease if we are not satisfied with the new premises, and (2) terminate without liability the lease with respect to a particular Lands' End Shop if the overall Sears store in which such Lands' End Shop is located is closed or sold. With respect to our Lands' End Inlet stores, as of January 29, 2016, 12 were leased and two were owned, with 11 located in the United States, two in the United Kingdom and one in Germany.

ITEM 3. LEGAL PROCEEDINGS

We are involved in various claims, legal proceedings and investigations arising in the ordinary course of business. Some of these actions involve complex factual and legal issues and are subject to uncertainties. At this time, the Company is not able to either predict the outcome of these legal proceedings or reasonably estimate a potential range of loss with respect to the proceedings. While it is not feasible to predict the outcome of pending claims, proceedings and investigations with certainty, management is of the opinion that their ultimate resolution should not have a material adverse effect on our results of operations, cash flows or financial position, except where noted below.

See Part II, Item 8, Financial Statements and Supplementary Data and Notes to Consolidated and Combined Financial Statements, Note 10, Commitments and Contingencies, for additional information regarding legal proceedings (incorporated herein by reference).

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information

Lands' End's common stock is traded on the NASDAQ Stock Market under the ticker symbol LE. There were 9,714 stockholders of record at March 28, 2016. The quarterly high and low sales prices for Lands' End common stock are set forth below.

	Fiscal 2015			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
Common Stock Price				
High	\$37.45	\$30.50	\$28.92	\$25.62
Low	28.85	23.06	21.26	20.95

	Fiscal 2014			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
Common Stock Price				
High	\$35.00	\$37.92	\$48.25	\$56.25
Low	25.35	26.03	32.03	34.58

Stock Performance Graph

The following graph compares the cumulative total return to stockholders on Lands' End common stock from March 20, 2014, the first day our common stock began "when-issued" trading on the NASDAQ Stock Market, through January 29, 2016, the last day of Fiscal 2015, with the return on the NASDAQ Composite Index and the NASDAQ Global Retail Index for the same period. Our common stock began "regular-way" trading following the Separation on April 7, 2014. The graph assumes an initial investment of \$100 on March 20, 2014 in each of our common stock, the NASDAQ Composite Index and the NASDAQ Global Retail Index.

See accompanying Notes to Consolidated and Combined Financial Statements.

27

	3/20/2014	1/30/2015	1/29/2016
Lands' End, Inc.	\$ 100	\$ 104	\$ 65
NASDAQ Composite Index	\$ 100	\$ 107	\$ 107
NASDAQ Retail Index	\$ 100	\$ 107	\$ 108

This performance graph shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act or incorporated by reference into any of our filings, as amended, with the SEC, except as shall be expressly set forth by specific reference in such filing.

Dividends

Except for a \$500 million dividend we paid to a subsidiary of Sears Holdings prior to the Separation, we have not paid, and we do not expect to pay in the foreseeable future, dividends on our common stock. Any payment of dividends will be at the discretion of our board of directors and will depend upon various factors then existing, including earnings, financial condition, results of operations, capital requirements, level of indebtedness, any contractual restrictions with respect to payment of dividends, restrictions imposed by applicable law, general business conditions and other factors that our board of directors may deem relevant. Additionally, the Term Loan Facility and ABL Facility contain various representations and warranties and restrictive covenants that, among other things, and subject to specified exceptions, restrict the ability of Lands' End and its subsidiaries to make dividends or distributions with respect to capital stock.

Equity Compensation Plan Information

The following table reflects information about securities authorized for issuance under the Company's equity compensation plans as of January 29, 2016.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (in thousands)	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans* (in thousands)
Equity compensation plans approved by security holders	284	—	681
Equity compensation plans not approved by security holders	—	—	—
Total	284	—	681

Represents shares of common stock that may be issued pursuant to the Lands' End, Inc. 2014 Stock Plan as amended (the "2014 Stock Plan"). Awards under the 2014 Stock Plan may be restricted stock, stock unit awards, incentive stock options, nonqualified stock options, stock appreciation rights, or certain other stock-based awards. The numbers * shown exclude shares covered by an outstanding plan award that, subsequent to January 29, 2016, ultimately are not delivered on an unrestricted basis (for example, because the award is forfeited, canceled or used to satisfy tax withholding obligations).

ITEM 6. SELECTED FINANCIAL DATA

The Consolidated and Combined Statements of Operations data set forth below for the fiscal years ended January 29, 2016, January 30, 2015 and January 31, 2014 and the Consolidated Balance Sheet data as of January 29, 2016 and January 30, 2015 are derived from the audited Consolidated and Combined Financial Statements included elsewhere in this Annual Report on Form 10-K. The Combined Statements of Operations data for the fiscal year ended February 1, 2013 and January 27, 2012 and the Balance Sheet data as of January 31, 2014, February 1, 2013 and January 27, 2012 are derived from audited Consolidated and Combined Financial Statements not included in this Annual Report on Form 10-K. All historical financial and other data prior to the Separation reflects the Lands' End business of Sears Holdings, and the historical financial and other data subsequent to the Separation include the accounts of Lands' End, Inc. and its subsidiaries which are collectively referred to herein as "our" historical financial and other data. See Note 1, Background and Basis of Presentation, to the Consolidated and Combined Financial Statements and accompanying notes.

The selected historical consolidated and combined financial and other financial data presented below should be read in conjunction with our Consolidated and Combined Financial Statements and accompanying notes and Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, included elsewhere in this Annual Report on Form 10-K. Our combined financial information may not be indicative of our future performance and does not necessarily reflect what our financial position and results of operations would have been had we operated as a publicly traded company independent from Sears Holdings during all the periods presented.

(in thousands, except per share data and number of stores)	Fiscal Year				
	2015	2014	2013	2012	2011
Consolidated and Combined Statement of Comprehensive Operations Data(1)					
Net revenue	\$1,419,778	\$1,555,353	\$1,562,876	\$1,585,927	\$1,725,627
Net (loss) income(2)(3)	\$(19,548)	\$73,799	\$78,847	\$49,827	\$76,234
Basic and diluted (loss) earnings per common share(2)(3)(4)	\$(0.61)	\$2.31	\$2.47	\$1.56	\$2.39
Basic average shares outstanding	31,979	31,957	31,957	31,957	31,957
Diluted average shares outstanding	31,979	32,016	31,957	31,957	31,957
Consolidated Balance Sheet Data					
Total assets	\$1,288,526	\$1,349,999	\$1,194,275	\$1,217,722	\$1,238,923
Other Financial and Operating Data					
Adjusted EBITDA(5)	\$107,288	\$164,298	\$150,010	\$107,673	\$144,996
Number of retail stores at year end	246	255	290	293	306

(1) Our fiscal year end is on the Friday preceding the Saturday closest to January 31 each year. Fiscal year 2012 consisted of 53 weeks. All other fiscal years consisted of 52 weeks.

(2) Fiscal 2015 Net loss includes an impairment charge of \$98.3 million, \$62.0 million net of tax, related to the non-cash write-down of our trade name asset, Lands' End.

(3) Fiscal 2015 and Fiscal 2014 Net (loss) income includes interest expense and stand-alone public company expenses which did not exist in prior periods.

On April 4, 2014, Sears Holdings distributed 31,956,521 shares of Lands' End common stock. The computation of basic and diluted shares for all periods prior to April 4, 2014 was calculated using the number of shares of Lands' End common stock outstanding on April 4, 2014. The same number of shares was used to calculate basic and diluted earnings per share. Refer to Note 2, Summary of Significant Accounting Policies, to the Consolidated and Combined Financial Statements for information regarding earnings per share.

(4) Adjusted EBITDA—In addition to our net (loss) income determined in accordance with accounting principles generally accepted in the United States of America ("GAAP"), for purposes of evaluating operating performance, we use Adjusted EBITDA, which is adjusted to exclude certain significant items as set forth below. Our management uses Adjusted EBITDA to evaluate the operating performance of our business for comparable periods. This metric is also incorporated into executive compensation plans when compared to our budgeted operating performance.

(5) Adjusted EBITDA should not be used by investors or other third parties as the sole basis for formulating investment decisions as it excludes a number of important cash and non-cash recurring items. Adjusted EBITDA should not be considered as a substitute for GAAP measurements.

While Adjusted EBITDA is a non-GAAP measurement, management believes that it is an important indicator of operating performance, and useful to investors, because:

EBITDA excludes the effects of financings, investing activities and tax structure by eliminating the effects of interest, depreciation and income tax costs; and

Other significant items, while periodically affecting our results, may vary significantly from period to period and have a disproportionate effect in a given period, which affects comparability of results. We have adjusted our results for these items to make our statements more comparable and therefore more useful to investors as the items are not representative of our ongoing operations.

Intangible asset impairment—charge associated with the non-cash write-down of our trade name asset, Lands' End, in Fiscal 2015.

Product recall—costs associated with a recall of selected styles of children's sleepwear in Fiscal 2014 that did not meet the federal flammability standard for children's sleepwear and the subsequent reversal of some costs in Fiscal 2015 as customer return rates were lower than Company estimates.

Restructuring costs—costs associated with an initiative to reduce the corporate cost structure in Fiscal 2013.

Management considers these costs to be infrequent and affecting comparability of results between reporting periods.

Gain or loss on the sale of property and equipment—management considers the gains or losses on sale of assets to result from investing decisions rather than ongoing operations.

The following table presents a reconciliation of Adjusted EBITDA to net (loss) income, the most comparable GAAP measure for each of the periods indicated:

(in thousands)	Fiscal Year				
	2015	2014	2013	2012	2011
Net (loss) income	\$(19,548) \$73,799	\$78,847	\$49,827	\$76,234
Income tax (benefit) expense	(9,691) 46,758	49,544	32,243	45,669
Other income, net	(671) (1,408) (50) (67) (95
Interest expense	24,826	20,494	—	—	—
Intangible asset impairment	98,300	—	—	—	—
Depreciation and amortization	17,399	19,703	21,599	23,121	22,686

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion in conjunction with the Consolidated and Combined Financial Statements and accompanying notes included elsewhere in this Annual Report on Form 10-K. This Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements. The matters discussed in these forward-looking statements are subject to risk, uncertainties, and other factors that could cause actual results to differ materially from those made, projected or implied in the forward-looking statements. See "Cautionary Statements Concerning Forward-Looking Statements" below and Item 1A, Risk Factors, in this Annual Report on Form 10-K and for a discussion of the uncertainties, risks and assumptions associated with these statements. As used in this Annual Report on Form 10-K, references to the "Company", "Lands' End", "we", "us", "our" and similar terms refer to Lands' End, Inc. and its subsidiaries. Our fiscal year ends on the Friday preceding the Saturday closest to January 31. Other terms that are commonly used in this Annual Report on Form 10-K are defined as follows:

- ABL Facility - Asset-based senior secured credit agreements, dated as of April 4, 2014, with Bank of America, N.A. and certain other lenders
- ASU - FASB Accounting Standards Update
- ERP - enterprise resource planning software solutions
- ESL - ESL Investments, Inc. and its investment affiliates, including Edward S. Lampert
- Debt facilities - Collectively, the ABL Facility and the Term Loan Facility
- FASB - Financial Accounting Standards Board
- Fiscal 2016 - Our next fiscal year representing the fifty-two weeks ending January 27, 2017
- Fiscal 2015 - The fifty-two weeks under January 29, 2016
- Fiscal 2014 - The fifty-two weeks ended January 30, 2015
- Fiscal 2013 - The fifty-two weeks ended January 31, 2014
- GAAP - Accounting principles generally accepted in the United States
- LIBOR - London inter-bank offered rate
- Same Store Sales - Net revenue, from stores that have been open for at least 12 full months where selling square footage has not changed by 15% or more within the past year
- Sears Holdings or Sears Holdings Corporation - Sears Holdings Corporation, a Delaware Corporation, and its consolidated subsidiaries (other than, for all periods following the Separation, Lands' End)
- Sears Roebuck - Sears, Roebuck and Co., a wholly owned subsidiary of Sears Holdings
- SEC - United States Securities and Exchange Commission
- Separation - On April 4, 2014 Sears Holdings distributed 100% of the outstanding common stock of Lands' End to its shareholders
- Tax Sharing Agreement - A tax sharing agreement entered into by Sears Holdings Corporation and Lands' End in connection with the Separation
- Term Loan Facility - Term loan credit agreements, dated as of April 4, 2014, with Bank of America, N.A. and certain other lenders

- UK Borrower - A United Kingdom subsidiary borrower of Lands' End under the ABL Facility
- UTBs - Gross unrecognized tax benefits

Executive Overview

Introduction

Management's discussion and analysis of financial condition and results of operations accompanies our consolidated and combined financial statements and provides additional information about our business, financial condition, liquidity and capital resources, cash flows and results of operations. We have organized the information as follows:

•Executive overview. This section provides a brief description of our business, accounting basis of presentation and a brief summary of our results of operations.

•Discussion and analysis. This section highlights items affecting the comparability of our financial results and provides an analysis of our combined and segment results of operations for Fiscal 2015, Fiscal 2014 and Fiscal 2013.

•Liquidity and capital resources. This section provides an overview of our historical and anticipated cash and financing activities. We also review our historical sources and uses of cash in our operating, investing and financing activities.

•Contractual Obligations and Off-Balance-Sheet Arrangements. This section provides details of the Company's off-balance-sheet arrangements and contractual obligations for the next 5 years and thereafter.

•Financial Instruments with Off-Balance-Sheet Risk. This section discusses financial instruments of the Company that could have off-balance-sheet risk.

Quantitative and qualitative disclosures about market risk. This section discusses how we monitor and manage market risk related to changing currency rates. We also provide an analysis of how adverse changes in market conditions could impact our results based on certain assumptions we have provided.

Application of critical accounting policies and estimates. This section summarizes the accounting policies that we consider important to our financial condition and results of operations and which require significant judgment or estimates to be made in their application.

Description of the Company

Lands' End, Inc. is a leading multi-channel retailer of casual clothing, accessories and footwear, as well as home products. We offer products through catalogs, online at www.landsend.com and affiliated specialty and international websites, and through retail locations, primarily at Lands' End Shops at Sears, stand-alone Lands' End Inlet stores and international shop-in-shops that sell merchandise in various retail department stores. We are a classic American lifestyle brand with a passion for quality, legendary service and real value, and we seek to deliver timeless style for men, women, kids and the home. Lands' End was founded in 1963 in Chicago by Gary Comer and his partners to sell sailboat hardware and equipment by catalog. While our product focus has shifted significantly over the years, we have continued to adhere to our founder's motto as one of our guiding principles: "Take care of the customer, take care of the employee and the rest will take care of itself."

On March 14, 2014, the board of directors of Sears Holdings approved the distribution of the issued and outstanding shares of Lands' End common stock on the basis of 0.300795 shares of Lands' End common stock for each share of Sears Holdings common stock held on March 24, 2014, the record date. Sears Holdings distributed 100 percent of the outstanding common stock of Lands' End to its shareholders on April 4, 2014.

The Company identifies reportable segments according to how business activities are managed and evaluated. Each of the Company's operating segments are reportable segments and are strategic business units that offer similar products and services but are sold either directly from our warehouses (Direct) or through our retail stores (Retail).

Basis of Presentation

The financial statements presented herein represent (i) periods prior to April 4, 2014 when we were a wholly owned subsidiary of Sears Holdings Corporation (referred to as "Combined Financial Statements") and (ii) the period as of and subsequent to April 4, 2014 when we became a separate publicly-traded company (referred to as "Consolidated Financial Statements").

Our historical Combined Financial Statements have been prepared on a stand-alone basis and have been derived from the consolidated financial statements of Sears Holdings and accounting records of Sears Holdings. The Combined Financial Statements include Lands' End, Inc. and subsidiaries and certain other items related to the Lands' End business which were held by Sears Holdings prior to the Separation, primarily the Lands' End Shops at Sears. These items were contributed by Sears Holdings to Lands' End, Inc. prior to the Separation. These historical Combined Financial Statements reflect our financial position, results of operations and cash flows in conformity with GAAP. Through April 4, 2014, Sears Holdings Corporation's investment in Lands' End is shown as Net parent company investment in the Balance Sheet. Upon completion of the Separation, the Company had 31,956,521 shares of common stock outstanding at a par value of \$0.01 per share. After Separation adjustments were recorded, the remaining Net parent company investment, which includes all earnings prior to the Separation, was transferred to Additional paid-in capital.

Impacts from the Separation from Sears Holdings

Following the Separation, we began operating as a separate, publicly traded company, independent from Sears Holdings. According to statements on form Schedule 13D filed with the SEC by ESL, ESL beneficially owned significant portions of both the Company's and Sears Holdings Corporation's outstanding shares of common stock. Therefore Sears Holdings Corporation, the Company's former parent company, is considered a related party both prior to and subsequent to the Separation. Impacts from the Separation from Sears Holdings are below:

General administrative and Separation costs. Historically, we had used the corporate functions of Sears Holdings for a variety of shared services. We continue to pay Sears Holdings a fee for certain services. We believe that the assumptions and methodologies underlying these expenses from Sears Holdings are reasonable. However, such expenses may not be indicative of the actual level of expense that would have been or will be incurred by us as we operate as a publicly traded company independent from Sears Holdings. We entered into agreements with Sears Holdings or its subsidiaries for the continuation of certain of these services on a transitional basis. We believe that the arrangements before the Separation, as reflected in the historical Combined Financial Statements contained herein, are not materially different from the arrangements that were entered into as part of the Separation.

Sears Holdings Agreements. Following the Separation, Lands' End and Sears Holdings operate separately, each as an independent company. We entered into certain agreements with Sears Holdings Corporation or its subsidiaries that effected the Separation, provided a framework for our relationship with Sears Holdings after the Separation and provided for the allocation between us and Sears Holdings of Sears Holdings' assets, employees, liabilities and obligations (including its investments, property and tax-related assets and liabilities) attributable to periods prior to, at and after the Separation.

The prior arrangements, as reflected in the historical Combined Financial Statements contained herein, are not materially different from the arrangements that were entered into with Sears Holdings in connection with the Separation, with the exception of the Shop Your Way member loyalty program. Net annual costs associated with the Shop Your Way member loyalty program decreased by \$1.3 million in Fiscal 2015 compared to Fiscal 2014 and \$6.4 million in Fiscal 2014 compared to 2013.

Subsequent to the Separation, we have not had to employ a significant number of new employees to perform additional stand-alone or transition services. With respect to our retail operations, prior to the Separation, Sears Holdings provided retail staff for the Lands' End Shops at Sears. Pursuant to a retail operations agreement, we contracted with Sears Holdings to continue to provide such staff following the Separation. We continue to rely on our existing field management working in conjunction with retail staff contracted from Sears Holdings to operate our Lands' End Shops at Sears.

The success of our Retail segment depends on the performance of the Lands' End Shops at Sears. Under the terms of the master lease agreement and master sublease agreement pursuant to which Sears Roebuck leases or subleases to us the premises for the Lands' End Shops at Sears, Sears Roebuck has certain rights to (1) relocate our leased premises within the building in which such premises are located, subject to certain limitations, including our right to terminate the applicable lease if we are not satisfied with the new premises, and (2) terminate without liability the lease with respect to a particular Lands' End Shop if the overall Sears store in which such Lands' End Shop is located is closed or sold. Sears Holdings announced that it intends to continue to right-size, redeploy and highlight the value of its assets, including its real estate portfolio, in its transition from an asset-intensive, store-focused retailer and that it has entered into lease agreements with third party retailers for stand-alone stores. On July 7, 2015, Sears Holdings completed a rights offering and sale-leaseback transaction (the "Seritage transaction") with Seritage Growth Properties ("Seritage"), an independent publicly traded real estate investment trust. Sears Holdings disclosed that as part of the Seritage transaction, it sold 235 properties to Seritage (the "REIT properties") along with Sears Holdings' 50% interest in each of three real estate joint ventures (collectively, the "JVs"). Sears Holdings also disclosed that it contributed 31 properties to the JVs (the "JV properties"). As of January 29, 2016, 59 of the REIT properties contained a Lands' End Shop and 15 of the JV properties contained a Lands' End Shop, the leases with respect to which Sears Roebuck retained for its own account. Sears Holdings disclosed that Seritage and the JVs have a recapture right with respect to approximately 50% of the space within the stores at the REIT properties and JV properties (subject to certain exceptions), and with respect to nine of the stores that contain a Lands' End Shop, Seritage has the additional right to recapture 100% of the space within the Sears Roebuck store. If Sears Roebuck continues to dispose of retail stores that contain Lands' End Shops, and/or offer us relocation alternatives for Lands' End Shops that are less attractive than the current premises, our business and results of operations could be adversely affected. On January 29, 2016 the Company operated 227 Lands' End Shops at Sears, compared to 236 Lands' End Shops at Sears on January 30, 2015.

Debt Service Costs. Since the separation, we are also incurring increased costs related to our \$175.0 million ABL Facility and on our Term Loan Facility with an initial balance of \$515.0 million. On January 29, 2016 the Term Loan Facility had a balance of \$506.0 million. Interest costs related to the Debt facilities were \$24.8 million in Fiscal 2015 and \$20.5 million for the ten months the Debt facilities were in place in Fiscal 2014. The interest costs include approximately \$1.7 million and \$1.6 million of amortization of debt issuance costs in Fiscal 2015 and Fiscal 2014, respectively. Annual payments under the Debt facilities are expected to be the cash interest charges plus the Term Loan Facility seven year amortization of principal at a rate equal to 1% per annum. See "Liquidity and Capital Resources - Description of Material Indebtedness" below.

Due to these and other changes related to the Separation, the historical financial information included in this Annual Report on Form 10-K may not necessarily reflect our financial position, results of operations and cash flows in the future or what our financial position, results of operations and cash flows would have been had we been an independent, publicly traded company during the periods prior to the Separation that are presented.

Seasonality

We experience seasonal fluctuations in our net revenue and operating results and historically have realized a significant portion of our net revenue and earnings for the year during our fourth fiscal quarter. We generated 33.4%, 32.4% and 34.4% of our net revenue in the fourth fiscal quarter of Fiscal 2015, Fiscal 2014 and Fiscal 2013, respectively. Thus, lower than expected fourth quarter net revenue could have an adverse impact on our annual operating results.

Working capital requirements typically increase during the second and third quarters of the fiscal year as inventory builds to support peak shipping/selling periods and, accordingly, typically decrease during the fourth quarter of the fiscal year as inventory is shipped/sold. Cash provided by operating activities is typically higher in the fourth quarter of the fiscal year due to reduced working capital requirements during that period.

Results of Operations

Fiscal Year. Our fiscal year end is on the Friday preceding the Saturday closest to January 31 each year. Fiscal years 2015, 2014 and 2013 each consisted of 52 weeks.

The following tables sets forth, for the periods indicated, selected income statement data:

(in thousands)	Fiscal 2015		Fiscal 2014		Fiscal 2013	
	\$'s	% of Net Revenue	\$'s	% of Net Revenue	\$'s	% of Net Revenue
Net revenue:	\$1,419,778	100.0 %	\$1,555,353	100.0 %	\$1,562,876	100.0 %
Cost of sales (excluding depreciation and amortization)	767,189	54.0 %	819,422	52.7 %	852,539	54.5 %
Gross profit	652,589	46.0 %	735,931	47.3 %	710,337	45.5 %
Selling and administrative	545,301	38.4 %	573,335	36.9 %	560,327	35.9 %
Depreciation and amortization	17,399	1.2 %	19,703	1.3 %	21,599	1.4 %
Intangible asset impairment	98,300	6.9 %	—	— %	—	— %
Other operating (income) expense, net	(3,327)	(0.2)%	3,250	0.2 %	70	— %
Operating (loss) income	(5,084)	(0.4)%	139,643	9.0 %	128,341	8.2 %
Interest expense	24,826	1.7 %	20,494	1.3 %	—	— %
Other income, net	(671)	— %	(1,408)	(0.1)%	(50)	— %
(Loss) income before income taxes	(29,239)	(2.1)%	120,557	7.8 %	128,391	8.2 %
Income tax (benefit) expense	(9,691)	(0.7)%	46,758	3.0 %	49,544	3.2 %
Net (loss) income	\$(19,548)	(1.4)%	\$73,799	4.8 %	\$78,847	5.0 %

Depreciation and amortization is not included in our cost of sales because we are a reseller of inventory and do not believe that including depreciation and amortization is meaningful. As a result, our gross profits may not be comparable to other entities that include depreciation and amortization related to the sale of their product in their gross profit measure.

Net (Loss) Income and Adjusted EBITDA

We recorded Net (loss) income of \$(19.5) million, \$73.8 million, and \$78.8 million for Fiscal 2015, Fiscal 2014, and Fiscal 2013 respectively. In addition to our Net (loss) income determined in accordance with GAAP, for purposes of evaluating operating performance, we use an Adjusted EBITDA measurement. Adjusted EBITDA is computed as Net (loss) income appearing on the Consolidated and Combined Statements of Comprehensive Operations net of Income tax expense, Interest expense, Depreciation and amortization, and certain significant items set forth below. Our management uses Adjusted EBITDA to evaluate the operating performance of our businesses, as well as executive compensation metrics, for comparable periods. Adjusted EBITDA should not be used by investors or other third parties as the sole basis for formulating investment decisions as it excludes a number of important cash and non-cash recurring items.

While Adjusted EBITDA is a non-GAAP measurement, management believes that it is an important indicator of operating performance, and useful to investors, because:

• EBITDA excludes the effects of financings, investing activities and tax structure by eliminating the effects of interest, depreciation and income tax costs.

• Other significant items, while periodically affecting our results, may vary significantly from period to period and have a disproportionate effect in a given period, which affects comparability of results. We have adjusted our results for these items to make our statements more comparable and therefore more useful to investors as the items are not representative of our ongoing operations.

• Intangible asset impairment—change associated with the non-cash write-down of our trade name asset, Lands' End, in Fiscal 2015.

• Product recall—costs associated with a recall of selected styles of children's sleepwear in Fiscal 2014 that did not meet the federal flammability standard for children's sleepwear and the subsequent reversal of some costs in Fiscal 2015 as customer return rates were lower than Company estimates.

• Gain or loss on the sale of property and equipment—management considers the gains or losses on sale of assets to result from investing decisions rather than ongoing operations.

(in thousands)	Fiscal 2015		Fiscal 2014		Fiscal 2013	
	\$'s	% of Net Revenue	\$'s	% of Net Revenue	\$'s	% of Net Revenue
Net (loss) income	\$(19,548)	(1.4)%	\$73,799	4.8%	\$78,847	5.0%
Income tax (benefit) expense	(9,691)	(0.7)%	46,758	3.0%	49,544	3.2%
Other income, net	(671)	—%	(1,408)	(0.1)%	(50)	—%
Interest expense	24,826	1.7%	20,494	1.3%	—	—%
Operating (loss) income	(5,084)	(0.4)%	139,643	9.0%	128,341	8.2%
Intangible asset impairment	98,300	6.9%	—	—%	—	—%
Depreciation and amortization	17,399	1.2%	19,703	1.3%	21,599	1.4%
Product recall	(3,371)	(0.2)%	4,713	0.3%	—	—%
Loss on disposal of property and equipment	44	—%	239	—%	70	—%
Adjusted EBITDA	\$107,288	7.6%	\$164,298	10.6%	150,010	9.6%

In assessing the operational performance of our business, we consider a variety of financial measures. We operate in two reportable segments, Direct (sold through e-commerce websites and direct mail catalogs) and Retail (sold through stores). A key measure in the evaluation of our business is revenue performance by segment. We also consider gross margin and Selling and administrative expenses in evaluating the performance of our business.

To evaluate revenue performance for the Direct segment we use Net revenue. For our Retail segment, we use same store sales as a key measure in evaluating performance. A store is included in same store sales calculations on the first day it has comparable prior year sales. Stores in which the selling square footage has changed by 15% or more as a result of a remodel, expansion, reduction or relocations are excluded from same store calculations until the first day they have comparable prior year sales. Online sales and sales generated through our in-store computer kiosks are considered revenue in our Direct segment and are excluded from same store sales.

Discussion and Analysis

Fiscal 2015 Compared to Fiscal 2014

Net revenue

Total Net revenue for Fiscal 2015 was \$1.42 billion, compared with \$1.56 billion for Fiscal 2014, a decrease of \$135.6 million. The decrease was primarily attributable to a decrease in our Direct segment of \$105.7 million and a decrease in our Retail segment of \$30.1 million.

Direct segment Net revenue was \$1.21 billion in Fiscal 2015, a decrease of \$105.7 million, or 8% from \$1.3 billion during the same period of the prior year. The decrease was driven by a decrease in catalog circulation, a reduced promotional approach, and lower customer acceptance of our product offering in a challenging retail environment, partially offset by our new marketing initiatives. Changes in foreign currency exchange rates compared with Fiscal 2014 negatively affected Net revenue in the Direct segment by approximately \$26.7 million.

Net revenue in the Retail segment was \$204.6 million in Fiscal 2015, a decrease of \$30.1 million, or 13% from \$234.6 million during the same period of the prior year. The decrease was driven by Same Store Sales and fewer Land's End Shops at Sears. Same Store Sales in the Retail segment decreased 9.3%, driven by lower sales in the Company's Land's End Shops at Sears. On January 29, 2016 the Company operated 227 Land's End Shops at Sears, 14 global Land's End Inlet stores and five international shop-in-shops compared to 236 Land's End Shops at Sears and 14 global Land's End Inlets and five international shop-in-shops on January 30, 2015.

Gross Profit

Total gross profit decreased 11.3% to \$652.6 million and gross margin decreased approximately 130 basis points to 46.0% of total Net revenue, compared with \$735.9 million, or 47.3% of total Net revenue in Fiscal 2015 and Fiscal 2014, respectively.

The decrease in gross profit was driven by a decrease in Direct segment gross profit to \$567.1 million in Fiscal 2015 compared with \$636.1 million in Fiscal 2014. The Direct segment gross margin decreased 150 basis points to 46.7% in Fiscal 2015 from 48.2% in Fiscal 2014, driven by a highly promotional retail environment which required deeper discounting during the fourth quarter of the year. Changes in foreign currency exchange rates compared with Fiscal 2014 negatively affected gross margin in the Direct segment by approximately 90 basis points.

Retail segment gross profit decreased 14.2% to \$85.5 million in Fiscal 2015 compared with \$99.7 million in Fiscal 2014. Retail segment gross margin decreased 70 basis points to 41.8% of Retail Net revenue in Fiscal 2015, from 42.5% in Fiscal 2014, driven by a highly promotional retail environment which required deeper discounting during the fourth quarter of the year.

Selling and Administrative Expenses

Selling and administrative expenses were \$545.3 million, or 38.4% of total Net revenue in Fiscal 2015 compared with \$573.3 million, or 36.9% of total Net revenue for the comparable period in the prior year. The decrease of \$28.0 million in Selling and administrative expense was primarily attributable to \$12.9 million in favorable foreign exchange impacts, a \$8.1 million decrease in incentive compensation and a \$7.7 million decrease in personnel costs. The Direct segment Selling and administrative expenses were \$424.8 million for Fiscal 2015 compared to \$445.0 million for the prior year. The decrease of \$20.2 million in Selling and administrative expense was primarily due to \$12.9 million of favorable foreign exchange impacts, a \$4.3 million decrease in incentive compensation, a \$3.4 million decline in personnel costs and lower marketing investments of \$2.8 million, partially offset by increased information technology expenses.

The Retail segment Selling and administrative expenses were \$86.1 million for Fiscal 2015 compared to \$92.6 million for the prior year. The decrease of \$6.5 million in Selling and administrative expense was primarily due to the reduction in the number of locations, including declines in personnel costs of \$5.5 million, and occupancy costs of \$0.5 million.

Corporate / other Selling and administrative expenses were \$34.4 million for Fiscal 2015 compared to \$35.7 million for the prior year. The decrease of \$1.3 million in selling and administrative expense was primarily due to decreased incentive compensation of \$3.6 million, partially offset by \$2.0 million in increased personnel costs.

Depreciation and Amortization

Depreciation and amortization was \$17.4 million in Fiscal 2015, a decrease of \$2.3 million or 11.7%, compared with \$19.7 million in Fiscal 2014. The decrease in Depreciation and amortization was primarily attributable to lower amortization of intangible assets.

Intangible Asset Impairment

Intangible asset impairment was a non-cash write-down of the trade name asset Lands' End in Fiscal 2015 of \$98.3 million. See Note 2, Summary of Significant Accounting Policies, and Note 8, Goodwill and Intangible Assets, of the Note to the Consolidated and Combined Financial Statements in this Annual Report on Form 10-K for more information about these assets and the related impairment charge.

Other Operating (Income) Expense, Net

Other operating (income) expense, net was \$(3.3) million in Fiscal 2015 compared to Other operating (income) expense, net of \$3.3 million in Fiscal 2014. Other operating income during Fiscal 2015 was largely comprised of the reversal of a portion of the product recall accrual recognized in Fiscal 2014. Customer return rates for the recalled products were lower than estimated despite the efforts by the Company to contact impacted customers which resulted in the product recall reversal causing Other Operating to be income in Fiscal 2015 and an expense in Fiscal 2014.

Operating (Loss) Income

Operating (loss) income was \$(5.1) million in Fiscal 2015, compared with Operating (loss) income of \$139.6 million in Fiscal 2014. The decrease of \$144.7 million, or 103.6%, was primarily driven by the intangible asset impairment and lower Net revenues.

Interest Expense

Interest expense was \$24.8 million in Fiscal 2015, compared with \$20.5 million in Fiscal 2014. The increase in Interest expense was driven by 2 additional months of interest in Fiscal 2015 versus Fiscal 2014.

Other Income, Net

Other Income, Net was \$0.7 million in Fiscal 2015 compared to \$1.4 million in Fiscal 2014. Other Income, Net consists primarily of rental and interest income. In Fiscal 2015 we incurred a charge of \$1.2 million from the reduction of a tax receivable from our former parent as a result of favorable tax settlements in certain tax jurisdictions. Consequently, there is a \$1.2 million increase in income tax benefit (before consideration of federal income tax impact).

Income Tax (Benefit) Expense

Income tax (benefit) expense was \$(9.7) million for Fiscal 2015 compared with Income tax (benefit) expense of \$46.8 million in Fiscal 2014. The decrease was primarily attributable to lower Operating income. Our effective tax rate was 33.1% and 38.8% in Fiscal 2015 and Fiscal 2014, respectively. The decrease in the effective tax rate was primarily driven by the favorable tax settlements discussed above.

Net (Loss) Income

Net (loss) income was \$(19.5) million, or \$(0.61) per diluted share in Fiscal 2015 compared to Net (loss) income of \$73.8 million, or \$2.31 per diluted share in Fiscal 2014. The decrease in Net (loss) income was primarily attributable to the Intangible asset impairment, lower gross profit and increased Interest expense partially offset by lower Selling and administrative expenses.

Adjusted EBITDA

Adjusted EBITDA was \$107.3 million in Fiscal 2015, compared with Adjusted EBITDA of \$164.3 million in Fiscal 2014. The 34.7% decrease was primarily driven by lower Net revenue.

Fiscal 2014 Compared to Fiscal 2013

Net revenue

Total Net revenue for Fiscal 2014 was \$1.56 billion, compared with \$1.56 billion in the same period of the prior year, a slight decrease of \$7.5 million. Net revenue was negatively impacted by \$3.4 million from the product recall announced on March 23, 2015. Excluding the product recall, Net revenue decreased \$4.1 million in Fiscal 2014 compared to Fiscal 2013. The decrease was attributable to a decrease in our Retail segment of \$24.3 million, partially offset by an increase in our Direct segment of \$16.8 million. The Direct segment excluding the product recall increased \$20.2 million compared to Fiscal 2013.

Direct segment Net revenue was \$1.32 billion in Fiscal 2014, an increase of \$16.8 million, or 1% from \$1.30 billion during the same period of the prior year. The increase was driven by an increase in our United States businesses driven by business and school uniforms, and our women's product offerings, partially offset by decreases in our international business and the product recall. Changes in foreign currency exchange rates compared with Fiscal 2013 negatively affected Net revenue in the Direct segment by approximately 40 basis points.

Net revenue in the Retail segment was \$234.6 million in Fiscal 2014, a decrease of \$24.3 million, or 9% from \$258.9 million during the same period of the prior year. The decrease was driven by a decrease in the number of Lands' End Shops at Sears, a decrease in Shop Your Way member loyalty program redemption credits resulting from the commercial agreements entered into with Sears Holdings as part of the Separation, and a decrease in same store sales. Same store sales in the Retail segment decreased 2%, driven by lower sales in the Company's Lands' End Shops at Sears. On January 30, 2015 the Company operated 236 Lands' End Shops at Sears and 14 global Lands'

End Inlet stores and five international shop-in-shops compared to 274 Lands' End Shops at Sears and 16 global Lands' End Inlet stores on January 31, 2014.

Gross Profit

Total gross profit increased 4% to \$735.9 million and gross margin increased approximately 180 basis points to 47.3% of total Net revenue, compared with \$710.3 million, or 45.5% of total Net revenue, in Fiscal 2014 and Fiscal 2013, respectively.

The increase in gross profit was driven by an increase in Direct segment gross profit to \$636.1 million in Fiscal 2014 compared with \$603.5 million in Fiscal 2013. The Direct segment gross margin increased 190 basis points to 48.2% in Fiscal 2014 from 46.3% in Fiscal 2013, driven by higher gross margin in the United States businesses primarily attributable to improved merchandise assortment architecture and a more targeted promotional strategy. Changes in foreign currency exchange rates compared with Fiscal 2013 negatively affected gross margin in the Direct segment by approximately 30 basis points.

Retail segment gross profit decreased 7% to \$99.7 million in Fiscal 2014 compared with \$106.8 million in Fiscal 2013. Retail segment gross margin increased 130 basis points to 42.5% of Retail Net revenue in Fiscal 2014, from 41.2% in Fiscal 2013, driven by improved merchandise assortment architecture and a more targeted promotional strategy, partially offset by increased net costs associated with the Shop Your Way member loyalty program.

Selling and Administrative Expenses

Selling and administrative expenses were \$573.3 million, or 36.9% of total Net revenue in Fiscal 2014 compared with \$560.3 million, or 35.9% of total Net revenue for the comparable period in the prior year. The increase of \$13.0 million in Selling and administrative expense was primarily attributable to a \$8.6 million increase in incentive compensation, \$8.5 million in costs associated with being a stand-alone public company, increased investment in marketing and the product recall, partially offset by lower personnel costs. In Fiscal 2013 the Company had \$0.6 million of incentive expenses and no stand-alone public company related expenses.

The Direct segment Selling and administrative expenses were \$445.0 million for Fiscal 2014 compared to \$437.2 million for the prior year. The increase of \$7.8 million in Selling and administrative expense was primarily due to increased marketing investments of \$10.8 million, and increased incentive costs of \$5.4 million, partially offset by declines in personnel costs of \$7.8 million, and decreases in other expenses.

The Retail segment Selling and administrative expenses were \$92.6 million for Fiscal 2014 compared to \$102.1 million for the prior year. The decrease of \$9.5 million in Selling and administrative expense was primarily due to the reduction in the number of locations, including declines in personnel costs of \$4.9 million, marketing investments of \$1.4 million and occupancy costs of \$1.2 million.

Corporate / other Selling and administrative expenses were \$35.7 million for Fiscal 2014 compared to \$21.1 million for the prior year. The increase of \$14.6 million in selling and administrative expense was primarily due to increases in third party professional fees of \$5.3 million which were largely stand-alone costs, increased personnel costs of \$4.4 million and incentive compensation expenses of \$3.0 million.

Depreciation and Amortization

Depreciation and amortization was \$19.7 million in Fiscal 2014, a decrease of \$1.9 million or 9%, compared with \$21.6 million in Fiscal 2013. The decrease in Depreciation and amortization was primarily attributable to an increase in fully depreciated assets.

Other Operating Expenses, Net

Other operating expense, net increased to \$3.2 million in Fiscal 2014 primarily attributable to expenses related to the product recall of \$3.0 million.

Operating Income

Operating income was \$139.6 million in Fiscal 2014, compared with Operating income of \$128.3 million in Fiscal 2013. The increase in Operating income of \$11.4 million, or 9%, was primarily driven by increased gross profit, partially offset by increased Selling and administrative expenses. The product recall announced on March 23, 2015 negatively impacted Operating income by \$4.7 million.

Interest Expense

Interest expense was \$20.5 million in Fiscal 2014, and was attributable to higher debt levels, costs related to the issuance of the Term Loan Facility, which was used to pay a \$500.0 million dividend to a subsidiary of Sears Holdings Corporation immediately prior to the Separation, and costs related to our ABL Facility. We did not incur Interest expense in Fiscal 2013.

Income Tax Expense

Our effective tax rate was 38.8% and 38.6% in Fiscal 2014 and Fiscal 2013, respectively. The increased rate was primarily changes in effective state tax rates.

Net Income

Net income decreased 6% to \$73.8 million, or \$2.31 per diluted share, in Fiscal 2014 compared with \$78.8 million, or \$2.47 per diluted share, in Fiscal 2013. The decrease in Net income was primarily attributable to increased Interest expense partially offset by increased Operating income. The product recall announced on March 23, 2015 negatively impacted Net income by \$2.8 million.

Adjusted EBITDA

Adjusted EBITDA was \$164.3 million in Fiscal 2014, compared with Adjusted EBITDA of \$150.0 million in Fiscal 2013. The 10% increase was primarily driven by the increase in Operating income of \$11.4 million described above.

Liquidity and Capital Resources

Our primary need for liquidity is to fund working capital requirements of our business, capital expenditures, debt service and for general corporate purposes. Our cash and cash equivalents and the ABL Facility serve as sources of liquidity for short-term working capital needs and general corporate purposes. We expect that our cash on hand and cash flows from operations, along with our ABL Facility, will be adequate to meet our capital requirements and operational needs for the next 12 months. Cash generated from our net revenue and profitability, and somewhat to a lesser extent our changes in working capital, are driven by the seasonality of our business, with a disproportionate amount of net revenue and operating cash flows generally occurring in the fourth fiscal quarter of each year.

Prior to the Separation, our working capital needs were met primarily through funds generated from operations, with additional funding from Sears Holdings to meet short-term working capital needs, mainly for our seasonal inventory builds. Sears Holdings used a centralized approach to its United States domestic cash management and financing of its operations. The majority of our cash was transferred to Sears Holdings on a daily basis. Sears Holdings was also our only source of funding for our operating and investing activities prior to the Separation. The principal needs for which Sears Holdings funded Lands' End were to cover corporate and other expenses and to fund our seasonal inventory builds.

Description of Material Indebtedness

Debt Arrangements

Lands' End entered into an asset-based senior secured credit agreement, dated as of April 4, 2014, with Bank of America, N.A. and certain other lenders, which provides for maximum borrowings of \$175.0 million under the ABL Facility for Lands' End, subject to a borrowing base, with a \$30.0 million sub facility for the UK Borrower. The ABL Facility has a sub-limit of \$70.0 million for domestic letters of credit and a sub-limit of \$15.0 million for letters of credit for the UK Borrower. The ABL Facility is available for working capital and other general corporate purposes, and was undrawn at January 29, 2016, other than for letters of credit. The Company had borrowing availability under the ABL Facility of \$150.7 million as of January 29, 2016, net of outstanding letters of credit of \$24.3 million.

Also on April 4, 2014, Lands' End entered into a term loan credit agreement with Bank of America, N.A. and certain other lenders, with respect to the Term Loan Facility of \$515.0 million, the proceeds of which were used to pay a dividend of \$500.0 million to a subsidiary of Sears Holdings Corporation immediately prior to the Separation and to pay fees and expenses associated with the Debt facilities of approximately \$11.4 million, with the remaining proceeds used for general corporate purposes.

Maturity; Amortization and Prepayments

The ABL Facility will mature on April 4, 2019. The Term Loan Facility will mature on April 4, 2021, will amortize at a rate equal to 1% per annum, and beginning in Fiscal 2015, is subject to mandatory prepayment in an amount equal to a percentage of the borrower's excess cash flows (as defined in the ABL Facility) in each fiscal year, ranging from 0% to 50% depending on Lands' End's secured leverage ratio, and the proceeds from certain asset sales and casualty events. Based on Fiscal 2015 results, the Company was not required to make a mandatory prepayment.

Guarantees; Security

All domestic obligations under the Debt facilities are unconditionally guaranteed by Lands' End and, subject to certain exceptions, each of its existing and future direct and indirect domestic subsidiaries. In addition, the obligations of the UK Borrower under the ABL Facility are guaranteed by its existing and future direct and indirect subsidiaries organized in the United Kingdom. The ABL Facility is secured by a first priority security interest in certain working capital of the borrowers and guarantors consisting primarily of accounts receivable and inventory. The Term Loan Facility is secured by a second priority security interest in the same collateral, with certain exceptions.

The Term Loan Facility also is secured by a first priority security interest in certain property and assets of the borrowers and guarantors, including certain fixed assets and stock of subsidiaries. The ABL Facility is secured by a second priority security interest in the same collateral.

Interest; Fees

The interest rates per annum applicable to the loans under the Debt facilities are based on a fluctuating rate of interest measured by reference to, at the borrowers' election, either (i) LIBOR plus a borrowing margin, or (ii) an alternative base rate plus a borrowing margin. The borrowing margin is fixed for the Term Loan Facility at 3.25% in the case of LIBOR loans and 2.25% in the case of base rate loans. For the Term Loan Facility, LIBOR is subject to a 1% interest rate floor. The borrowing margin for the ABL Facility is subject to adjustment based on the average excess availability under the ABL Facility for the preceding fiscal quarter, and will range from 1.5% to 2.0% in the case of LIBOR borrowings and will range from 0.5% to 1.0% in the case of base rate borrowings.

Customary agency fees are payable pursuant to the terms of the Debt facilities. The ABL Facility fees also include (i) commitment fees, based on a percentage ranging from approximately 0.25% to 0.375% of the daily unused portions of the facility, and (ii) customary letter of credit fees.

Representations and Warranties; Covenants

Subject to specified exceptions, the Debt facilities contain various representations and warranties and restrictive covenants that, among other things, restrict the ability of Lands' End and its subsidiaries to incur indebtedness (including guarantees), grant liens, make investments, make dividends or distributions with respect to

capital stock, make prepayments on other indebtedness, engage in mergers or change the nature of their business. In addition, if excess availability under the ABL Facility falls below the greater of 10% of the loan cap amount or \$15.0 million, Lands' End will be required to comply with a minimum fixed charge coverage ratio of 1.0 to 1.0. The Debt facilities do not otherwise contain financial maintenance covenants. The Company was in compliance with all financial covenants related to the Debt facilities as of January 29, 2016.

The Debt facilities contain certain affirmative covenants, including reporting requirements such as delivery of financial statements, certificates and notices of certain events, maintaining insurance, and providing additional guarantees and collateral in certain circumstances.

Events of Default

The Debt facilities include customary events of default including non-payment of principal, interest or fees, violation of covenants, inaccuracy of representations or warranties, cross defaults related to certain other material indebtedness, bankruptcy and insolvency events, invalidity or impairment of guarantees or security interests, and material judgments and change of control.

Cash Flows from Operating Activities

Operating activities generated net cash of \$35.9 million, \$211.1 million and \$114.9 million in Fiscal 2015, Fiscal 2014, and Fiscal 2013, respectively. Our primary source of operating cash flows is the sale of merchandise goods and services to customers, while the primary use of cash in operations is the purchase of merchandise inventories.

In Fiscal 2015, net cash provided by operating activities decreased \$175.2 million compared to Fiscal 2014 primarily due to:

- Lower revenues, which drove a decrease in Net (loss) income before non-cash items and an increase in inventory,
- Increased inventory purchases to replenish inventory levels, as beginning inventory for Fiscal 2014 was \$68.6 million more than beginning inventory for Fiscal 2015,

- Cash payments for taxes and incentive compensation, and

- The one time impact in Fiscal 2014 of items that were settled through inter-company transactions with our former parent prior to the separation as described further below.

In Fiscal 2014, net cash provided by operating activities increased \$96.2 million compared to Fiscal 2013 primarily due to:

- Improved inventory management,

The net effect of changes in the settlement methods with our former parent company and certain suppliers resulting from the Separation, including \$28.8 million in Accounts payable less \$3.5 million in Accounts receivable, as these items would have been included in equity as part of Net parent company investment prior to the Separation on April 4, 2014 from Sears Holdings, and

- Increased Operating income, partially offset by

- Interest payments on debt.

Cash Flows from Investing Activities

Net cash used in investing activities was \$22.2 million, \$16.6 million and \$9.9 million for Fiscal 2015, Fiscal 2014, and Fiscal 2013, respectively. Cash used in investing activities for all periods was primarily used in investing in information technology infrastructure, specifically ERP, and property and equipment.

For Fiscal 2016, we plan to invest a total of approximately \$40 to \$45 million in capital expenditures for strategic investments and infrastructure, primarily in technology and general corporate needs.

Cash Flows from Financing Activities

Net cash (used in) / provided in financing activities was \$(5.2) million, \$8.2 million and \$(110.9) million for Fiscal 2015, Fiscal 2014, and Fiscal 2013, respectively. Financing activities in Fiscal 2015 consisted of required annual payments on our Term Loan Facility. Financing activities in Fiscal 2014 consisted of cash proceeds of \$515.0 million from our Term Loan Facility and a \$8.5 million contribution from Sears Holdings, offset by a \$500.0 million dividend paid to a subsidiary of Sears Holdings Corporation prior to the Separation, \$11.4 million of debt issuance costs related to the Debt facilities and \$5.2 million of payments on the Term Loan Facility. Financing activities for Fiscal 2014 prior to the Separation and Fiscal 2013 consisted of intercompany activity with Sears Holdings. Contributions from / (distributions to) parent company, net is the net effect of our former parent's intercompany settlement for transactions with the Lands' End business of Sears Holdings. Subsequent to the Separation, some of these activities are now included in cash flows from operating activities.

Contractual Obligations and Off-Balance-Sheet Arrangements

We have no material off-balance-sheet arrangements other than the guarantees and contractual obligations that are discussed below.

Information concerning our obligations and commitments to make future payments under contracts such as lease agreements, and under contingent commitments, as of January 29, 2016, is aggregated in the following table:

(in thousands)	Payments Due by Period				
	Total	Less than 1 year	2-3 Years	4-5 Years	After 5 years
Operating leases ⁽¹⁾	\$91,416	\$28,653	\$45,700	\$13,259	\$3,804
Principal payments on long-term debt	505,988	5,150	10,300	10,300	480,238
Interest on long-term debt and ABL Facility fees	113,055	22,603	44,548	42,049	3,855
Purchase obligations ⁽²⁾	125,925	125,925	—	—	—
Total contractual obligations	\$836,384	\$182,331	\$100,548	\$65,608	\$487,897

⁽¹⁾ Operating lease obligations consist primarily of future minimum lease commitments related to store operating leases (refer to Note 4, Leases, of our consolidated and combined financial statements).

⁽²⁾ Purchase obligations primarily represent open purchase orders to purchase inventory.

At January 29, 2016, Lands' End had UTBs of \$8.3 million, which are not reflected in the table above. We are unable to reasonably estimate the timing of liability payments arising from uncertain tax positions in individual years due to uncertainties in the timing of effective settlement of tax positions. Pursuant to the Tax Sharing Agreement, Sears Holdings Corporation is generally responsible for all United States federal, state and local UTBs through the date of the Separation and, as such, the UTBs are recorded in Other liabilities in the Consolidated and Balance Sheets, and an indemnification asset from Sears Holdings Corporation for the \$8.0 million pre-Separation UTBs is recorded in Other assets in the Consolidated Balance Sheets.

Financial Instruments with Off-Balance-Sheet Risk

Lands' End entered into the ABL Facility, which provides for maximum borrowings of \$175.0 million for Lands' End, subject to a borrowing base, with a \$30.0 million sub facility for the UK Borrower. The ABL Facility has a sub-limit of \$70.0 million for domestic letters of credit and a sub-limit of \$15.0 million for letters of credit for the UK Borrower. The ABL Facility is available for working capital and other general corporate purposes, and was undrawn at the Separation and at January 29, 2016, other than for letters of credit. The Company had borrowing availability under the ABL Facility of \$150.7 million as of January 29, 2016, net of outstanding letters of credit of \$24.3 million.

In addition, Lands' End had a \$2.1 million foreign subsidiary credit facility that was supported by a Lands' End, Inc. guarantee. This credit facility guaranteed and allowed for deferred payment of custom duties. This credit facility was not utilized during the fiscal year ended January 30, 2015 and was merged into the ABL Facility as of January 29, 2016.

Application of Critical Accounting Policies and Estimates

Our consolidated and combined financial statements have been prepared in accordance with GAAP, which requires management to make estimates and judgments that affect amounts reported in the consolidated and combined financial statements and accompanying notes. While our estimates and assumptions are based on our knowledge of current events and actions we may undertake in the future, actual results may ultimately differ from our estimates and assumptions. Our estimation processes contain uncertainties because they require management to make assumptions and apply judgment to make these estimates. Should actual results be different than our estimates, we could be exposed to gains or losses from differences that may be material.

For a summary of our significant accounting policies, please refer to Note 2, Summary of Significant Accounting Policies, of our consolidated and combined financial statements. We believe the accounting policies discussed below represent the accounting policies we apply that are the most critical to understanding our consolidated and combined financial statements.

Inventory Valuation

Our inventories consist of merchandise purchased for resale and are recorded at the lower of cost or market. The nature of our business requires that we make a significant amount of our merchandising decisions and corresponding inventory purchase commitments with vendors several months in advance of the time in which a particular merchandise item is intended to be included in the merchandise offerings. These decisions and commitments are based upon, among other possible considerations, historical sales with identical or similar merchandise, our understanding of then-prevailing fashion trends and influences, and an assessment of likely economic conditions and various competitive factors.

For financial reporting and tax purposes, the Company's United States inventory, primarily merchandise held for sale, is stated at last-in, first-out ("LIFO") cost, which is lower than market. The Company accounts for its non-United States inventory on the first-in, first-out ("FIFO") method. The United States inventory accounted for using the LIFO method was 88% and 83% of total inventory as of January 29, 2016 and January 30, 2015, respectively.

We continually make assessments as to whether the carrying cost of inventory exceeds its market value, and, if so, by what dollar amount. Excess inventories may be disposed of through our Direct segment and Retail segment. Based on historical results experienced through various methods of disposition, we write down the carrying value of inventories that are not expected to be sold at or above cost. The excess and obsolete reserve balances were \$15.5 million and \$18.2 million as of January 29, 2016 and January 30, 2015, respectively. For the inventory marked down to net realizable value, a one percentage point increase in our adjustment rate at January 29, 2016 would have had an immaterial impact on our consolidated and combined financial statements.

Goodwill and Trade Name Impairment Assessments

Goodwill and the trade name intangible asset are tested separately for impairment on an annual basis, or are evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The goodwill and trade name intangible asset relate to Kmart's acquisition of Sears Roebuck in March 2005.

Frequently our impairment loss calculations contain multiple uncertainties because they require management to make assumptions and to apply judgment to estimate future cash flows and asset fair values, including forecasting cash flows under different scenarios. We perform annual goodwill and indefinite-lived intangible asset impairment tests on the last day of our November accounting period each year and update the tests between annual tests if events or circumstances occur that would more likely than not reduce the fair value of a reporting unit or indefinite-lived intangible asset below its carrying amount. However, if actual results are not consistent with our estimates and assumptions used in estimating future cash flows and asset fair values, we may be exposed to losses that could be material.

Goodwill impairment assessments. Our goodwill resides in the Direct reporting unit. The goodwill impairment test involves a two-step process. The first step is a comparison of the reporting unit's fair value to its carrying value. We

45

estimate fair value using the best information available, using both a market approach, as well as a discounted cash flow model, commonly referred to as the income approach. The market approach determines the value of the reporting unit by deriving market multiples for the reporting unit based on assumptions potential market participants would use in establishing a bid price for the reporting unit. This approach therefore assumes strategic initiatives will result in improvements in operational performance in the event of purchase, and includes the application of a discount rate based on market participant assumptions with respect to capital structure and access to capital markets. The income approach uses a reporting unit's projection of estimated operating results and cash flows that is discounted using a weighted-average cost of capital that reflects current market conditions appropriate to our reporting unit. The projection uses management's best estimates of economic and market conditions over the projected period, including growth rates in sales, costs, estimates of future expected changes in operating margins and cash expenditures. Other significant estimates and assumptions include terminal value growth rates, future estimates of capital expenditures and changes in future working capital requirements. Our final estimate of the fair value of the reporting unit is developed by weighting the fair values determined through both the market participant and income approaches, where comparable market participant information is available.

If the carrying value of the reporting unit is higher than its fair value, there is an indication that impairment may exist and the second step must be performed to measure the amount of impairment loss. The amount of impairment is determined by comparing the implied fair value of the reporting unit goodwill to the carrying value of the goodwill in the same manner as if the reporting unit was being acquired in a business combination. Specifically, we allocate the fair value to all of the assets and liabilities of the reporting unit, including any unrecognized intangible assets, in a hypothetical analysis that would calculate the implied fair value of goodwill. If the implied fair value of goodwill is less than the recorded goodwill, we record an impairment charge for the difference.

During Fiscal 2015, Fiscal 2014 and Fiscal 2013, the fair value of the reporting unit exceeded the carrying value and, as such, we did not record any goodwill impairment charges.

The use of different assumptions, estimates or judgments in the first step of the goodwill impairment testing process, such as the estimated future cash flows of our reporting units, the discount rate used to discount such cash flows, and the market multiples of comparable companies, could significantly increase or decrease the estimated fair value of a reporting unit. At the Fiscal 2015 annual impairment test date, the conclusion that no indication of goodwill impairment existed for the reporting unit would not have changed had the test been conducted assuming: (1) a 100 basis point increase in the discount rate used to discount the aggregate estimated cash flows of our reporting units to their net present value in determining their estimated fair values and/or (2) a 100 basis point decrease in the estimated sales growth rate and/or terminal period growth rate.

Goodwill impairment charges may be recognized in future periods to the extent changes in factors or circumstances occur, including deterioration in the macroeconomic environment, retail industry or in the equity markets, deterioration in our performance or our future projections, or changes in our plans for the reporting unit.

Indefinite-lived intangible asset impairment assessments. We review our indefinite-lived intangible asset, the Lands' End trade name, for impairment by comparing the carrying amount of the asset to its fair value. We consider the income approach when testing the intangible asset with indefinite life for impairment on an annual basis. We determined that the income approach, specifically the relief from royalty method, was most appropriate for analyzing our indefinite-lived asset. This method is based on the assumption that, in lieu of ownership, a firm would be willing to pay a royalty in order to exploit the related benefits of this asset class. The relief from royalty method involves two steps: (1) estimation of reasonable royalty rates for the assets and (2) the application of these royalty rates to a net revenue stream and discounting the resulting cash flows to determine a value. We multiplied the selected royalty rate by the forecasted net revenue stream to calculate the cost savings (relief from royalty payment) associated with the asset. The cash flows are then discounted to present value by the selected discount rate and compared to the carrying value of the asset.

In Fiscal 2015 we tested our indefinite-lived intangible assets as required. As a result of this testing, we recorded a non-cash pretax trade name impairment charge to our Direct segment of \$98.3 million in Fiscal 2015, due to lower future revenue forecasts as a result of declining results in Fiscal 2015, including a 6% decline in fourth quarter revenues in Fiscal 2015 compared to Fiscal 2014. Revenues in the fourth quarter generally account for approximately one third of annual revenues due to the significance of the holiday selling season to our business, and therefore fourth

quarter results have a significant influence on future projections for the Company. The impairment is recorded in Intangible asset impairment in the Consolidated and Combined Statements of Operations in this Annual Report on Form 10-K. No impairment charge was in Fiscal 2014 or Fiscal 2013. Future cash expenditures will not result from these impairment charges. If actual

results are not consistent with our estimates and assumptions used in estimating future revenue streams, we may be exposed to further losses.

See Note 2, Summary of Significant Accounting Policies, and Note 8, Goodwill and Intangible Assets, of the Note to the Consolidated and Combined Financial Statements in this Annual Report on Form 10-K for more information about these assets and the related impairment charge.

Revenue Recognition

While revenue recognition for the Company does not involve significant judgment, it represents an important accounting policy. We recognize revenue and the related cost of goods sold at the time the products are expected to be received by the customers. For sales transacted at stores, revenue is recognized when the customer receives and pays for the merchandise at the register. For sales where we ship the merchandise to the customer revenue is recognized at the time the customer receives the merchandise. We record an allowance for estimated returns based on our historical return patterns and various other assumptions that management believes to be reasonable.

We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to calculate our sales return allowance. However, if the actual rate of sales returns increases significantly, our operating results could be adversely affected. We have not made any material changes in the accounting methodology used to estimate future sales returns in the past three fiscal years.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which provides new guidance for revenue recognition. This guidance was deferred by ASU 2015-14, issued by the FASB in August 2015, and will be effective for Lands' End in the first quarter of its fiscal year ending February 1, 2019. The Company is currently in the process of evaluating the impact of adoption of this ASU on the Company's Consolidated and Combined Financial Statements. See Note 2, Summary of Significant Accounting Policies, for further information.

Income taxes

We record a valuation allowance against our deferred tax assets when it is more likely than not that some portion or all of such deferred tax assets will not be realized. In determining the need for a valuation allowance, management is required to make assumptions and to apply judgment, including forecasting future income, taxable income, and the mix of income or losses in the jurisdictions in which we operate. Our effective tax rate in a given financial statement period may also be materially impacted by changes in the mix and level of income or losses, changes in the expected outcome of audits, or changes in the deferred tax valuation allowance.

At any point in time, many tax years are subject to or in the process of being audited by various taxing authorities. To the extent our estimates of settlements change or the final tax outcome of these matters is different from the amounts recorded, such differences will impact the income tax provision in the period in which such determinations are made. Our income tax expense includes changes in our estimated liability for exposures associated with our various tax filing positions. Determining the income tax expense for these potential assessments requires management to make assumptions that are subject to factors such as proposed assessments by tax authorities, changes in facts and circumstances, issuance of new regulations, and resolution of tax audits.

We believe the judgments and estimates discussed above are reasonable. However, if actual results are not consistent with our estimates or assumptions, we may be exposed to losses or gains that could be material.

In November 2015, the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes. The Company has adopted this guidance in Fiscal 2015 and applied it retrospectively. The prior period presented has been restated to conform to the current year presentation. See Note 2, Summary of Significant Accounting Policies, and Note 9, Income Taxes, for further information.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

Certain statements made in this Annual Report on Form 10-K contain forward-looking statements. Forward-looking statements are subject to risks and uncertainties that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. Forward-looking statements include without limitation information concerning our future financial performance, business strategy, plans, goals and objectives.

Statements preceded or followed by, or that otherwise include, the words “believes,” “expects,” “anticipates,” “intends,” “project,” “estimates,” “plans,” “forecast,” “is likely to” and similar expressions or future or conditional verbs such as “will,” “would,” “should” and “could” are generally forward-looking in nature and not historical facts. Such statements are based upon the current beliefs and expectations of our management and are subject to significant risks and uncertainties. Actual results may differ materially from those set forth in the forward-looking statements.

The following additional factors, among others, could cause our actual results, performance, and achievements to differ from those described in the forward-looking statements: our ability to offer merchandise and services that customers want to purchase, including new collections that are designed to attract new customers and drive demand from core customers; changes in customer preference for our branded merchandise; customers’ use of our digital platform, including our e-commerce websites, and response to direct mail catalogs and digital marketing, including the success of initiatives that are intended to optimize catalog productivity; the success of our overall marketing strategies, including our brand awareness initiatives and our efforts to maintain a robust customer list; our dependence on information technology and a failure of information technology systems, including with respect to our e-commerce operations, or an inability to upgrade or adapt our systems; the success of our ERP implementation; fluctuations and increases in the costs of raw materials; impairment of our relationships with our vendors; our failure to maintain the security of customer, employee or company information; our failure to compete effectively in the apparel industry; the performance of our “store within a store” business model; reliance on promotions and markdowns to encourage consumer purchases; if Sears Roebuck sells or disposes of its retail stores or if its retail business does not attract customers or does not adequately provide services to Lands’ End Shops at Sears; legal, regulatory, economic and political risks associated with international trade and those markets in which we conduct business and source our merchandise; failure of our efforts to expand our channels and geographic reach; our failure to protect or preserve the image of our brands and our intellectual property rights; increases in postage, paper and printing costs; failure by third parties who provide us with services in connection with certain aspects of our business to perform their obligations; our failure to timely and effectively obtain shipments of products from our vendors and deliver merchandise to our customers; our failure to efficiently manage inventory levels; unseasonal or severe weather conditions; the seasonal nature of our business; the adverse effect on our reputation if our independent vendors do not use ethical business practices or comply with applicable laws and regulations; assessments for additional state taxes; our exposure to periodic litigation and other regulatory proceedings, including with respect to product liability claims; incurrence of charges due to impairment of goodwill, other intangible assets and long-lived assets; our failure to retain our executive management team and to attract qualified new personnel; the impact on our business of adverse worldwide economic and market conditions, including economic factors that negatively impact consumer spending on discretionary items; the inability of our past performance generally, as reflected on our historical financial statements, to be indicative of our future performance; the impact of increased costs due to a decrease in our purchasing power following the Separation and other losses of benefits associated with being a subsidiary of Sears Holdings; the failure of Sears Holdings or its subsidiaries to perform under various transaction agreements that have been executed in connection with the Separation or our failure to have necessary systems and services in place when certain of the transaction agreements expire; our agreements related to the Separation and our continuing relationship with Sears Holdings were negotiated while we were a subsidiary of Sears Holdings and we may have received better terms from an unaffiliated third party; potential indemnification liabilities to Sears Holdings pursuant to the separation and distribution agreement; our inability to engage in certain corporate transactions after the Separation; the ability of our principal shareholders to exert substantial influence over us; adverse effects of the Separation on our business; potential liabilities under fraudulent conveyance and transfer laws and legal capital requirements; declines in our stock price due to the eligibility of a number of our shares of common stock for future sale; our inability to pay dividends; stockholders’ percentage ownership in Lands’ End may be diluted in the future; and increases in our expenses and administrative burden in relation to being a public company, in particular to maintain compliance with certain provisions of the Sarbanes-Oxley Act of 2002; and other factors.

The foregoing factors should not be understood as exhaustive and should be read in conjunction with the other cautionary statements, including the "Risk Factors," that are included in this Annual Report filed on Form 10-K and in our other filings with the SEC and our other public announcements. While we believe that our forecasts and assumptions are reasonable, we caution that actual results may differ materially. If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary materially from what we projected. Consequently, actual events and results may vary significantly from those included in or contemplated or implied by our forward-looking statements. The forward-looking statements included in this Annual Report on Form 10-K are made only as of the date of this Annual Report on Form 10-K, and we undertake no obligation to publicly update or review any forward-looking statement made by us or on our behalf, whether as a result of new information, future developments, subsequent events or circumstances or otherwise, except as required by law.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The market risk inherent in our financial instruments represents the potential loss arising from adverse changes in currency rates. We have not been materially impacted by fluctuations in foreign currency exchange rates as a significant portion of our business is transacted in United States dollars, and is expected to continue to be transacted in United States dollars or United States dollar-based currencies. As of January 29, 2016 we had \$31.4 million of cash denominated in foreign currency, principally in British Pounds, Euros and Yen. We do not enter into financial instruments for trading purposes or hedging and have not used any derivative financial instruments. We do not consider our foreign earnings to be permanently reinvested.

We are subject to interest rate risk with our Term Loan Facility and our ABL Facility, as both require us to pay interest on outstanding borrowings at variable rates. Each one percentage point change in interest rates associated with the Term Loan Facility would result in a \$2.2 million change in our annual cash interest expenses. Assuming our ABL Facility was fully drawn to a principal amount equal to \$175.0 million, each one percentage point change in interest rates would result in a \$1.8 million change in our annual cash interest expense.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Lands' End, Inc.:

We have audited the accompanying consolidated balance sheets of Lands' End, Inc. and subsidiaries (the "Company") as of January 29, 2016 and January 30, 2015, and the related consolidated and combined statements of operations, comprehensive operations, cash flows, and stockholders' equity for each of the three fiscal years in the period ended January 29, 2016. We also have audited the Company's internal control over financial reporting as of January 29, 2016, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on these financial statements and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated and combined financial statements referred to above present fairly, in all material respects, the financial position of Lands' End, Inc. and subsidiaries as of January 29, 2016 and January 30, 2015, and

the results of their operations and their cash flows for each of the three fiscal years in the period ended January 29, 2016, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of January 29, 2016, based on the criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

As discussed in Note 1 and Note 11, the combined financial statements, constituting the periods prior to April 4, 2014, include the Lands' End business of Sears Holdings Corporation and have been derived from the consolidated financial statements and accounting records of Sears Holdings Corporation. The combined financial statements also include expense allocations for certain corporate functions historically provided by Sears Holdings Corporation. These allocations may not be reflective of the actual expense which would have been incurred had the Company operated as a separate entity apart from Sears Holdings Corporation prior to April 4, 2014.

LANDS' END, INC.

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

NOTE 1. BACKGROUND AND BASIS OF PRESENTATION

Description of Business and Separation

Lands' End, Inc. ("Lands' End" or the "Company") is a leading multi-channel retailer of casual clothing, accessories and footwear, as well as home products. Lands' End offers products through catalogs, online at www.landsend.com and affiliated specialty and international websites, and through retail locations, primarily at Lands' End Shops at Sears, stand-alone Lands' End Inlet stores and international shop-in-shops that sell merchandise in various retail department stores.

Terms that are commonly used in the Company's notes to consolidated financial statements are defined as follows:

- ABL Facility - Asset-based senior secured credit agreements, dated as of April 4, 2014, with Bank of America, N.A and certain other lenders
- Adjusted EBITDA - Adjusted Earnings before Interest, Taxes, Depreciation and Amortization, Other Income, net, and certain significant items
- ASC - Financial Accounting Standards Board Accounting Standards Codification, which serves as the source for authoritative GAAP, except that rules and interpretive releases by the SEC are also sources of authoritative GAAP for SEC registrants
- ASU - FASB Accounting Standards Update
- CAM - Common area maintenance for leased properties
- Debt facilities - Collectively, the ABL Facility and the Term Loan Facility
- EPS - Earnings per share
- ERP - enterprise resource planning software solutions
- ESL - ESL Investments, Inc. and its investment affiliates, including Edward S. Lampert
- FASB - Financial Accounting Standards Board
- Fiscal 2016 - The Company's next fiscal year representing the fifty-two weeks ending January 27, 2017
- Fiscal 2015 - The fifty-two weeks ended January 29, 2016
- Fiscal 2014 - The fifty-two weeks ended January 30, 2015
- Fiscal 2013 - The fifty-three weeks ended January 31, 2014
- GAAP - Accounting principles generally accepted in the United States
- LIBOR - London inter-bank offered rate
- Sears Holdings or Sears Holdings Corporation - Sears Holdings Corporation, a Delaware Corporation, and its consolidated subsidiaries (other than, for all periods following the Separation, Lands' End)
- Sears Roebuck - Sears, Roebuck and Co., a subsidiary of Sears Holdings Corporation
- SEC - United States Securities and Exchange Commission
- Separation - On April 4, 2014 Sears Holdings distributed 100% of the outstanding common stock of Lands' End to its shareholders
- SHMC - Sears Holdings Management Corporation, a subsidiary of Sears Holdings Corporation
- SHCP - SHC Promotions LLC, a subsidiary of Sears Holdings Corporation
- SYW - Shop Your Way member loyalty program

- Tax Sharing Agreement - A tax sharing agreement entered into by Sears Holdings Corporation and Lands' End in connection with the Separation
- Term Loan Facility - Term loan credit agreements, dated as of April 4, 2014, with Bank of America, N.A. and certain other lenders
- UK Borrower - A United Kingdom subsidiary borrower of Lands' End under the ABL Facility

On March 14, 2014, the board of directors of Sears Holdings approved the distribution of the issued and outstanding shares of Lands' End common stock on the basis of 0.300795 shares of Lands' End common stock for each share of Sears Holdings Corporation common stock held on March 24, 2014. Sears Holdings Corporation distributed 100 percent of the outstanding common stock of Lands' End to its shareholders on April 4, 2014.

A Registration Statement on Form 10 relating to the Separation was filed by the Company with the SEC, and was subsequently amended by the Company and declared effective by the SEC on March 17, 2014. The Company's common stock began "regular way" trading on the NASDAQ Stock Market after the distribution date under the symbol "LE".

Prior to the completion of the Separation, Sears Holdings transferred all the remaining assets and liabilities of Lands' End that were held by Sears Holdings to Lands' End or its subsidiaries. Lands' End also paid a dividend of \$500.0 million to a subsidiary of Sears Holdings Corporation.

Basis of Presentation

The financial statements presented herein represent (i) periods prior to April 4, 2014 when Lands' End was a wholly owned subsidiary of Sears Holdings Corporation (referred to as "Combined Financial Statements") and (ii) the period as of and subsequent to April 4, 2014 when Lands' End became a separate publicly-traded company (referred to as "Consolidated Financial Statements").

The Consolidated Financial Statements include the accounts of Lands' End, Inc. and its subsidiaries. All intercompany transactions and balances have been eliminated.

The accompanying Consolidated and Combined Financial Statements have been prepared in accordance with GAAP. In the opinion of management, all material adjustments which are of a normal and recurring nature necessary for a fair presentation of the results for the periods presented have been reflected. Dollar amounts are reported in thousands, except per share data, unless otherwise noted.

Our historical Combined Financial Statements have been prepared on a stand-alone basis and have been derived from the consolidated financial statements and accounting records of Sears Holdings. The Combined Financial Statements include Lands' End, Inc. and subsidiaries and certain other items related to the Lands' End business which were held by Sears Holdings prior to the Separation. These items were contributed by Sears Holdings to Lands' End, Inc. prior to the Separation. These historical Combined Financial Statements reflect the Company's financial position, results of operations and cash flows in conformity with GAAP.

All intracompany transactions and accounts have been eliminated. Prior to the Separation, all intercompany transactions between Sears Holdings and Lands' End were considered to be effectively settled in the Combined Financial Statements at the time the transactions were recorded. The total net effect of the settlement of these intercompany transactions is reflected in the Combined Statements of Cash Flows as a financing activity and in the Combined Statements of Stockholders' Equity as Net parent company investment.

Through April 4, 2014, Sears Holdings Corporation's investment in Lands' End was shown as Net parent company investment in the Balance Sheet. Upon completion of the Separation, the Company had 31,956,521 shares of common stock outstanding at a par value of \$0.01 per share. After Separation adjustments were recorded, the remaining Net parent company investment, which includes all earnings prior to Separation, was transferred to Additional paid-in capital.

As a business operation of Sears Holdings, Lands' End did not maintain its own tax and certain other corporate support functions prior to the Separation. Lands' End entered into agreements with Sears Holdings for the continuation of certain of these services, as well as to support the Lands' End Shops at Sears. These expenses had been allocated to Lands' End based on direct usage or benefit where identifiable, with the remainder allocated on a pro rata basis based upon revenue, headcount, square footage or other measures. Lands' End considers the expense allocation methodology and results to be reasonable for all periods presented. However, the costs and allocations charged to the Company by Sears Holdings do not necessarily reflect the costs of obtaining the services from unaffiliated third parties or of the Company providing the applicable services itself. The historical Combined Financial Statements contained herein may not be indicative of the Company's financial position, operating results, and cash flows in the future, or what they would have been if it had been a stand-alone company during all periods presented. See Note 11, Related Party Agreements and Transactions.

Prior to the Separation, Sears Holdings provided financing, cash management and other treasury services to Lands' End. Sears Holdings used a centralized approach to its United States domestic cash management and financing of its operations. The majority of the Company's cash was transferred to Sears Holdings on a daily basis. Sears Holdings was also the Company's only source of funding for its operating and investing activities. Upon Separation, cash and restricted cash held by Sears Holdings were not allocated to Lands' End unless the cash or restricted cash was held by an entity that was transferred to Lands' End. Sears Holdings' third-party debt, and the related interest expense, was not allocated to Lands' End for any of the periods presented as it was not the legal obligor of the debt and the Sears Holdings' borrowings were not directly attributable to the Company's business.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fiscal Year

The Company's fiscal year end is on the Friday preceding the Saturday closest to January 31 each year. Fiscal Years 2015, 2014 and 2013 each consisted of 52 weeks. Unless the context otherwise requires. The following fiscal periods are presented in this report.

Fiscal Year	Ended	Weeks
2015	January 29, 2016	52
2014	January 30, 2015	52
2013	January 31, 2014	52

Seasonality

The Company's operations have historically been seasonal, with a disproportionate amount of net revenue occurring in the fourth fiscal quarter, reflecting increased demand during the year-end holiday selling season. The impact of seasonality on results of operations is more pronounced since the level of certain fixed costs, such as occupancy and overhead expenses, do not vary with sales. The Company's results of operations also may fluctuate based upon such factors as the timing of certain holiday seasons and promotions, the amount of net revenue contributed by new and existing stores, the timing and level of markdowns, competitive factors, weather and general economic conditions.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reportable amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and cash equivalents

The Company includes deposits in-transit from banks for payments related to third-party credit card and debit card transactions within cash.

Restricted cash

The Company classifies cash balances pledged as collateral for an employee benefit trust fund as Restricted cash on the Consolidated Balance Sheets.

Allowance for Doubtful Accounts

The Company provides an allowance for doubtful accounts based on both historical experience and specific identification. Allowances for doubtful accounts on accounts receivable balances were \$0.6 million and \$0.7 million as of January 29, 2016 and January 30, 2015, respectively. Accounts receivable balance is presented net of the Company's allowance for doubtful accounts and is comprised of various customer-related accounts receivable. Changes in the balance of the allowance for doubtful accounts are as follows for the following years:

(in thousands)	Fiscal 2015	Fiscal 2014	Fiscal 2013	
Beginning balance	\$688	\$1,031	\$1,316	
Provision	286	371	444	
Write-offs	(348) (714) (729)
Ending balance	\$626	\$688	\$1,031	

Inventory

Inventories primarily consist of merchandise purchased for resale. For financial reporting and tax purposes, the Company's United States inventory, primarily merchandise held for sale, is stated at last-in, first-out ("LIFO") cost, which is lower than market. The Company accounts for its non-United States inventory on the first-in, first-out ("FIFO") method. The United States inventory accounted for using the LIFO method was 88% and 83% of total inventory as of January 29, 2016 and January 30, 2015, respectively. If the FIFO method of accounting for inventory had been used, the effect on inventory would have been immaterial as of January 29, 2016 and January 30, 2015.

The Company maintains a reserve for excess and obsolete inventory. The reserve is calculated based on historical experience related to liquidation/disposal of identified inventory. The excess and obsolescence reserve balances were \$15.5 million and \$18.2 million as of January 29, 2016 and January 30, 2015, respectively.

Deferred Catalog Costs and Marketing

Costs incurred for direct response marketing consist primarily of catalog production and mailing costs that are generally amortized within two months from the date catalogs are mailed. Unamortized marketing costs reported as prepaid assets were \$11.5 million and \$20.7 million as of January 29, 2016 and January 30, 2015, respectively. The Company expenses the costs of marketing for website, magazines, newspaper, radio and other general media when the marketing takes place. Marketing expenses, including catalog costs amortization, website-related costs and other print media were \$199.0 million, \$208.0 million and \$198.6 million for Fiscal 2015, Fiscal 2014 and Fiscal 2013, respectively. These costs are included within Selling and administrative expenses in the accompanying Consolidated and Combined Statements of Comprehensive Operations.

Property and Equipment

Property and equipment are recorded at cost, less accumulated depreciation. Additions and substantial improvements are capitalized and include expenditures that materially extend the useful lives of existing facilities and equipment. Maintenance and repairs that do not materially improve or extend the lives of the respective assets are expensed as incurred. As of the balance sheet dates, Property and equipment, net consisted of the following:

(in thousands)	Asset Lives	January 29, 2016	January 30, 2015
Land	—	\$3,509	\$3,529
Buildings and improvements	15-30	99,957	100,583
Furniture, fixtures and equipment	3-10	78,864	76,938
Computer hardware and software	3-5	75,170	67,432
Leasehold improvements	3-7	12,841	12,781
Assets in development		17,020	5,630
Gross property and equipment		287,361	266,893
Accumulated depreciation		(177,530) (165,670
Total property and equipment, net		\$ 109,831	\$ 101,223

As of January 29, 2016, assets in development relate primarily to technological investments in a new ERP system. January 30, 2015 assets in development, primarily related to the ERP system, have been reclassified from computer hardware and software to assets in development to conform to the current year presentation.

Depreciation expense is recorded over the estimated useful lives of the respective assets using the straight-line method. Leasehold improvements are depreciated over the shorter of the associated lease term or the estimated useful life of the asset. Depreciation expense included within Depreciation and amortization expense reported in the accompanying Consolidated and Combined Statements of Comprehensive Operations was \$17.0 million, \$17.1 million and \$19.0 million for Fiscal 2015, Fiscal 2014 and Fiscal 2013, respectively.

Impairment of Long-Lived Assets and Finite-Lived Intangible Assets

Long-lived assets, including property and equipment and finite-lived intangible assets (customer lists) are subject to a review for impairment if events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. If the sum of the expected future undiscounted cash flows generated by an asset or asset group is less than its carrying amount, the Company then determines the fair value of the asset generally by using a discounted cash flow model. When an impairment loss is recognized, the carrying amount of the asset is reduced to its estimated fair value as determined based on quoted market prices or through the use of other valuation techniques. There were no impairments recognized in Fiscal 2015, Fiscal 2014 or Fiscal 2013.

Goodwill and Indefinite-lived Intangible Asset Impairment Assessments

Goodwill and the trade name intangible asset are tested separately for impairment on an annual basis, or are evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The majority of the Company's goodwill and intangible assets relate to Kmart Holding Corporation's acquisition of Sears Roebuck in March 2005.

Frequently the Company's impairment loss calculations contain multiple uncertainties because they require management to make assumptions and to apply judgment to estimate future cash flows and asset fair values, including forecasting cash flows under different scenarios. Lands' End performs annual goodwill and indefinite-lived intangible asset impairment tests on the last day of the Company's November accounting period each year and updates the tests between annual tests if events or circumstances occur that would more likely than not reduce the fair value of a reporting unit or indefinite-lived intangible asset below its carrying amount. However, if actual results are not consistent with the Company's estimates and assumptions used in estimating future cash flows and asset fair values, the Company may be exposed to losses that could be material.

Goodwill impairment assessments. The Company's goodwill resides in the Direct reporting unit. The goodwill impairment test involves a two-step process. The first step is a comparison of the reporting unit's fair value to its carrying value. Lands' End estimates fair value using the best information available, using both a market approach, as well as a discounted cash flow model, commonly referred to as the income approach. The market approach determines a value of the reporting unit by deriving market multiples for the reporting unit based on assumptions potential market participants would use in establishing a bid price for the reporting unit. This approach therefore assumes strategic initiatives will result in improvements in operational performance in the event of purchase, and

includes the application of a discount rate based on market participant assumptions with respect to capital structure and access to capital markets. The income approach uses a reporting unit's projection of estimated operating results and cash flows that is discounted using a weighted-average cost of capital that reflects current market conditions appropriate to the Company's reporting unit. The projection uses management's best estimates of economic and market conditions over the projected period, including growth rates in sales, costs, estimates of future expected changes in operating margins and cash expenditures. Other significant estimates and assumptions include terminal value growth rates, future estimates of capital expenditures and changes in future working capital requirements. The Company's final estimate of the fair value of the reporting unit is developed by weighting the fair values determined through both the market participant and income approaches, where comparable market participant information is available. If the carrying value of the reporting unit is higher than its fair value, there is an indication that impairment may exist and the second step must be performed to measure the amount of impairment loss. The amount of impairment is determined by comparing the implied fair value of reporting unit goodwill to the carrying value of the goodwill in the same manner as if the reporting unit was being acquired in a business combination. Specifically, the Company allocates the fair value to all of the assets and liabilities of the reporting unit, including any unrecognized intangible assets, in a hypothetical analysis that would calculate the implied fair value of goodwill. If the implied fair value of goodwill is less than the recorded goodwill, the Company records an impairment charge for the difference. During Fiscal 2015, Fiscal 2014 and Fiscal 2013, the fair value of the reporting unit exceeded the carrying value and, as such, the Company did not record any goodwill impairment charges.

Indefinite-lived intangible asset impairment assessments. The Company's indefinite lived intangible asset, the Lands' End trade name, resides in the Direct reporting unit. Lands' End reviews the trade name for impairment by comparing the carrying amount to its fair value. The Company considers the income approach when testing the indefinite-lived intangible asset for impairment on an annual basis. Lands' End determined that the income approach, specifically the relief from royalty method, was most appropriate for analyzing the Company's indefinite-lived asset. This method is based on the assumption that, in lieu of ownership, a firm would be willing to pay a royalty in order to exploit the related benefits of this asset class. The relief from royalty method involves two steps: (1) estimation of reasonable royalty rates for the assets and (2) the application of these royalty rates to a net revenue stream and discounting the resulting cash flows to determine a present value. The Company multiplied the selected royalty rate by the forecasted net revenue stream to calculate the cost savings (relief from royalty payment) associated with the asset. The cash flows are then discounted to present value using the selected discount rate and compared to the carrying value of the asset.

In Fiscal 2015, Fiscal 2014 and Fiscal 2013, the Company tested the indefinite-lived intangible assets as required. As a result of this testing, in Fiscal 2015 the Company recorded a non-cash pretax trade name impairment charge to the Direct segment of approximately \$98.3 million to the Intangible asset impairment line in the Consolidated and Combined Statements of Operations. No impairment charges were recorded in Fiscal 2014 or Fiscal 2013.

Financial Instruments with Off-Balance-Sheet Risk

Lands' End entered into the ABL Facility, which provides for maximum borrowings of \$175.0 million for Lands' End, subject to a borrowing base, with a \$30.0 million sub facility for the UK Borrower. The ABL Facility has a sub-limit of \$70.0 million for domestic letters of credit and a sub-limit of \$15.0 million for letters of credit for the UK Borrower. The ABL Facility is available for working capital and other general corporate purposes, and was undrawn at January 29, 2016 and January 30, 2015, other than for letters of credit. See Note 3, Debt.

Fair Value of Financial Instruments

The Company determines the fair value of financial instruments in accordance with accounting standards pertaining to fair value measurements. Such standards define fair value and establish a framework for measuring fair value in accordance with GAAP. Under fair value measurement accounting standards, fair value is considered to be the exchange price in an orderly transaction between market participants to sell an asset or transfer a liability at the measurement date. The Company reports the fair value of financial assets and liabilities based on the fair value

hierarchy prescribed by accounting standards for fair value measurements, which prioritizes the inputs to valuation techniques used to measure fair value into three levels.

Financial instruments that potentially subject the Company to concentration of credit risk consist principally of accounts receivable. Total accounts receivable were \$32.1 million and \$30.1 million as of January 29, 2016 and January 30, 2015, respectively. Bad debt expense was \$0.3 million and \$0.4 million \$0.5 million in Fiscal 2015, Fiscal 2014 and Fiscal 2013, respectively. At January 29, 2016 and January 30, 2015 accounts receivable included \$3.9 million and \$5.7 million, respectively, due from Sears Holdings.

Cash and cash equivalents, Accounts receivable, Accounts payable and Other current liabilities are reflected in the Consolidated Balance Sheets at cost, which approximates fair value due to the short-term nature of these instruments. Long-term debt is reflected in the Consolidated Balance Sheets at amortized cost. The fair value of debt was determined utilizing level 2 valuation techniques based on the closing inactive market bid price on January 29, 2016 and January 30, 2015. See Note 7, Fair Value of Financial Assets and Liabilities.

Foreign Currency Translations and Transactions

The Company translates the assets and liabilities of foreign subsidiaries from their respective functional currencies to United States dollars at the appropriate spot rates as of the balance sheet date. Revenue and expenses of operations are translated to United States dollars using weighted average exchange rates during the year. The foreign subsidiaries use the local currency as their functional currency. The effects of foreign currency translation adjustments are included as a component of Accumulated other comprehensive (loss) income in the accompanying Consolidated and Combined Statements of Changes in Stockholders' Equity. The Company recognized net foreign exchange transaction losses of \$5.7 million, \$4.7 million and \$1.8 million in Fiscal 2015, Fiscal 2014 and Fiscal 2013, respectively, in the accompanying Consolidated and Combined Statements of Comprehensive Operations.

Revenue Recognition

Revenues include sales of merchandise and delivery revenues related to merchandise sold. Revenue is recognized for the Direct segment when the merchandise is expected to be received by the customer and for the Retail segment at the time of sale in the store.

Net revenues are reported net of estimated returns and allowances and exclude sales taxes. Estimated returns and allowances are recorded as a reduction of sales and cost of sales. The reserve for sales returns and allowances is calculated based on historical experience and future expectations and is included in Other current liabilities on the Consolidated Balance Sheets.

Reserves for sales returns and allowances consisted of the following:

(in thousands)	Fiscal 2015	Fiscal 2014	Fiscal 2013
Beginning balance	\$13,868	\$13,805	\$13,524
Provision	166,579	187,000	211,505
Write-offs	(167,842)	(186,937)	(211,224)
Ending balance	\$12,605	\$13,868	\$13,805

The Company sells gift certificates, gift cards and e-certificates (collectively, "gift cards") to customers through both the Direct and Retail segments. The gift cards do not have expiration dates. Revenue from gift cards are recognized when (i) the gift card is redeemed by the customer for merchandise, or (ii) after 3 years when the likelihood of the gift card being redeemed by the customer is remote ("gift card breakage") and the Company does not have a legal obligation to remit the value of the unredeemed gift cards to the relevant jurisdictions. Revenue recognized from gift card breakage was \$2.2 million, \$1.7 million and \$1.7 million in Fiscal 2015, Fiscal 2014 and Fiscal 2013, respectively.

Cost of Sales

Cost of sales are comprised principally of the costs of merchandise, in-bound freight, duty, warehousing and distribution (including receiving, picking, packing, store delivery and value added costs), customer shipping and handling costs and physical inventory losses. Depreciation and amortization is not included in the Company's cost of sales.

The Company participates in Sears Holdings' SYW program. The expenses for this program are recorded in Cost of sales, as described in Note 11, Related Party Agreements and Transactions.

Selling and Administrative Expenses

Selling and administrative expenses are comprised principally of payroll and benefits costs for direct, retail and corporate employees, marketing, occupancy costs of retail stores and corporate facilities, buying, pre-opening costs and other administrative expenses. All stock-based compensation is recorded in Selling and administrative expenses. See Note 5, Stock-Based Compensation.

Prior to the Separation, expenses related to the Lands' End Shops at Sears were allocated to the Company by Sears Holdings, as well as shared services, co-location and services costs. Subsequent to the Separation, these expenses were charged to the Company by Sears Holdings. Selling and administrative expenses included \$56.6 million, \$62.3 million and \$68.4 million in Fiscal 2015, Fiscal 2014 and Fiscal 2013, respectively, of costs allocated or charged to the Company by Sears Holdings. See Note 11, Related Party Agreements and Transactions.

Product Recall

In Fiscal 2014, the Company recorded a \$4.7 million accrual related to a recall of selected styles of children's sleepwear that did not meet the federal flammability standard. In Fiscal 2015, \$3.4 million of this amount was reversed due to customer return rates for the recalled products being lower than estimated despite the efforts by the Company to contact impacted customers. This reversal was recorded in Other Operating income (expense), net.

Income Taxes

Deferred income tax assets and liabilities are based on the estimated future tax effects of differences between the financial and tax basis of assets and liabilities based on currently enacted tax laws. The tax balances and income tax expense recognized are based on management's interpretation of the tax laws of multiple jurisdictions. Income tax expense also reflects best estimates and assumptions regarding, among other things, the level of future taxable income and tax planning. Future changes in tax laws, changes in projected levels of taxable income, tax planning and adoption and implementation of new accounting standards could impact the effective tax rate and tax balances recorded.

Tax positions are recognized when they are more likely than not to be sustained upon examination. The amount recognized is measured as the largest amount of benefit that is more likely than not to be realized upon settlement. The Company is subject to periodic audits by the United States Internal Revenue Service and other state and local taxing authorities. These audits may challenge certain of the Company's tax positions such as the timing and amount of income and deductions and the allocation of taxable income to various tax jurisdictions. The Company evaluates its tax positions and establishes liabilities in accordance with the applicable accounting guidance on uncertainty in income taxes. These tax uncertainties are reviewed as facts and circumstances change and are adjusted accordingly. This requires significant management judgment in estimating final outcomes. Interest and penalties are classified as Income tax expense in the Consolidated and Combined Statements of Operations. See Note 9—Income Taxes.

Lands' End and Sears Holdings Corporation entered into the Tax Sharing Agreement in connection with the Separation which governs Sears Holdings Corporation's and Lands' End's respective rights, responsibilities and obligations after the Separation with respect to liabilities for United States federal, state, local and foreign taxes attributable to the Lands' End business. In addition to the allocation of tax liabilities, the Tax Sharing Agreement addresses the preparation and filing of tax returns for such taxes and dispute resolution with taxing authorities regarding such taxes. Generally, Sears Holdings Corporation is liable for all pre-Separation United States federal,

state and local income taxes. Lands' End generally is liable for all other taxes attributable to its business, including all foreign income taxes.

For purposes of the Combined Financial Statements, the income tax provision represents the tax attributable to these operations as if the Company were required to file separate tax returns. Sears Holdings paid all United States federal, state and local income taxes attributable to the Lands' End business prior to the Separation and the related taxes payable and tax payments were reflected directly in Net parent company investment in the Balance Sheets. Prior to the Separation, income taxes paid by Lands' End only represent taxes for its wholly owned foreign subsidiaries. Following the Separation, Lands' End is responsible for all taxes due. Income taxes paid by Lands' End were \$24.0 million, \$19.8 million and \$4.1 million for Fiscal 2015, Fiscal 2014 and Fiscal 2013, respectively.

Self-Insurance

The Company has a self-insured plan for health and welfare benefits and provides an accrual to cover the obligation. The accrual for the self-insured liability is based on claims filed and an estimate of claims incurred but not yet reported. The Company considers a number of factors, including historical claims information, when determining the amount of the accrual. Costs related to the administration of the plan and related claims are expensed as incurred. Total expenses were \$16.2 million, \$14.1 million and \$16.2 million for Fiscal 2015, Fiscal 2014 and Fiscal 2013, respectively.

The Company also has a self-insured plan for certain costs related to workers' compensation. The Company obtains third-party insurance coverage to limit exposure to this self-insured risk.

Postretirement Benefit Plan

Effective January 1, 2006, the Company decided to indefinitely suspend eligibility to the postretirement medical plan for future company retirees. In addition, the Company elected to immediately recognize all existing net actuarial losses and prior service costs. All future actuarial gains or losses were recognized in the year they occurred and were not material in Fiscal 2015, Fiscal 2014 and Fiscal 2013. At the time of the Separation the \$1.5 million liability related to postretirement benefits was transferred to Sears Holdings Corporation as it assumed administration and funding of the plan after the Separation. This transaction was accounted for as an adjustment to Net parent company investment and did not result in cash flows.

The Company also has a 401(k) retirement plan, which covers most regular employees and allows them to make contributions. The Company also provides a matching contribution on a portion of the employee contributions. Total expense provided under this plan was \$3.3 million, \$3.4 million and \$3.3 million for Fiscal 2015, Fiscal 2014 and Fiscal 2013, respectively.

Other Comprehensive Income (Loss)

Other comprehensive income (loss) encompasses all changes in equity other than those arising from transactions with stockholders, and is comprised solely of foreign currency translation adjustments and net income.

(in thousands)	Fiscal 2015	Fiscal 2014	Fiscal 2013
Beginning balance: Accumulated other comprehensive loss (net of tax of \$3,931, \$1,211 and \$1,938, respectively)	\$(7,298)	\$(1,995)	\$(3,161)
Other comprehensive income (loss)			
Foreign currency translation adjustments (net of tax (expense) benefit of \$1,122, \$2,720, and \$(727), respectively)	(2,086)	(5,303)	1,166
Ending balance: Accumulated other comprehensive loss (net of tax of \$5,053, \$3,931, and \$1,211, respectively)	\$(9,384)	\$(7,298)	\$(1,995)

Comprehensive income—no amounts were reclassified out of Accumulated other comprehensive loss during any of the periods presented.

Stock-Based Compensation

Stock-based compensation expense for restricted stock units is determined based on the grant date fair value. The fair value is determined based on the Company's stock price on the date of the grant. The Company recognizes stock-based compensation cost net of estimated forfeitures and revises the estimates in subsequent periods if actual forfeitures differ from the estimates. The Company estimates the forfeiture rate based on historical data as well as expected future behavior. Stock-based compensation is recorded in Selling and administrative expense in the Consolidated and Combined Statements of Operations over the period in which the employee is required to provide service in exchange for the restricted stock units.

Earnings per Share

The numerator for both basic and diluted EPS is net income attributable to Lands' End. The denominator for basic EPS is based upon the number of weighted average shares of Lands' End common stock outstanding during the reporting periods. The denominator for diluted EPS is based upon the number of weighted average shares of Lands' End common stock and common stock equivalents outstanding during the reporting periods using the treasury stock method in accordance with the FASB ASC. For periods ended April 4, 2014 and prior, basic EPS is computed using the number of shares of Lands' End common stock outstanding on April 4, 2014, the date on which the Lands' End common stock was distributed to the stockholders of Sears Holdings Corporation. The same number of shares was used to calculate basic and diluted EPS for Fiscal 2015 and Fiscal 2013. In Fiscal 2015, the dilutive shares were not included due to the net loss reported. In Fiscal 2013 there were no dilutive securities during these periods.

The following table summarizes the components of basic and diluted EPS:

(in thousands, except per share amounts)	Fiscal 2015	Fiscal 2014	Fiscal 2013
Net (loss) income	\$(19,548) \$73,799	\$78,847
Basic weighted average shares outstanding	31,979	31,957	31,957
Dilutive effect of stock awards	—	59	—
Diluted weighted average shares outstanding	\$31,979	\$32,016	\$31,957
Basic (loss) earnings per share	\$(0.61) \$2.31	\$2.47
Diluted (loss) earnings per share	\$(0.61) \$2.31	\$2.47

Anti-dilutive stock awards are comprised of awards which are anti-dilutive in the application of the treasury stock method. In Fiscal 2015, 8,736 anti-dilutive shares were excluded from the diluted weighted average shares outstanding due to the net loss reported. There were no anti-dilutive securities excluded from the diluted weighted average shares outstanding in Fiscal 2014 and Fiscal 2013.

New Accounting Pronouncements

Compensation - Stock Compensation

In March 2016, the FASB issued ASU 2016-09, Compensation - Stock Compensation, which simplifies the accounting for the taxes related to stock based compensation, including adjustments to how excess tax benefits and a company's payments for tax withholdings should be classified. This guidance will be effective for Lands' End in its fiscal year ending February 2, 2018. The adoption of this guidance is not expected to have a material impact on the Company's Consolidated and Combined Financial Statements.

Leases

In February 2016, the FASB issued ASU 2016-02, Leases, which will replace the existing guidance in ASC 840, Leases. This ASU requires a dual approach for lessee accounting under which a lessee would account for leases as finance leases or operating leases. Both finance leases and operating leases will result in the lessee recognizing a right-

of-use asset and a corresponding lease liability. For finance leases, the lessee would recognize interest expense and amortization of the right-of-use asset, and for operating leases, the lessee would recognize a straight-line total lease expense. This guidance will be effective for Lands' End in the first quarter of its fiscal year ending January 31, 2020. The Company is currently in the process of evaluating the impact of adoption of this ASU on the Company's Consolidated and Combined Financial Statements.

Recognition of Breakage for Certain Prepaid Stored-Value Products

In March 2016, the FASB issued ASU 2016-04, Recognition of Breakage for Certain Prepaid Stored-Value Products. This update clarifies when it is acceptable to recognize the unredeemed portion of prepaid gift cards into income. This guidance will be effective for Lands' End in the first quarter of its fiscal year ending February 1, 2019. The Company is currently in the process of evaluating the impact of adoption of this ASU on the Company's Consolidated and Combined Financial Statements.

Balance Sheet Classification of Deferred Taxes

In November 2015, the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes. This update requires an entity to classify deferred tax liabilities and assets as noncurrent within a classified statement of financial position. ASU 2015-17 is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2016. This update may be applied either prospectively to all deferred tax liabilities and assets or retrospectively to all periods presented. Early application is permitted as of the beginning of the interim or annual reporting period. The Company has adopted this guidance in Fiscal 2015 and applied it retrospectively. The prior period presented has been restated to conform to the current year presentation. See Note 9 - Income Taxes for further information.

Simplifying the Measurement of Inventory

In July 2015, the FASB issued ASU 2015-11, Simplifying the Measurement of Inventory. Under this ASU, non-LIFO inventory will be measured at the lower of cost and net realizable value, eliminating the options that currently exist for market valuation. The ASU defines net realizable value as the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. No other changes were made to the current guidance on inventory measurement. This guidance will be effective for Lands' End in the first quarter of its fiscal year ending January 27, 2017 and only applies to our international inventory as United States inventory is valued using LIFO. The adoption of this guidance is not expected to have a material impact on the Company's Consolidated and Combined Financial Statements.

Customer's Accounting for Fees Paid in a Cloud Computing Arrangement

In April 2015, the FASB issued ASU 2015-05, Customers' Accounting for Fees Paid in a Cloud Computing Arrangement, which clarifies the circumstances under which a cloud computing customer would account for the arrangement as a license of internal-use software under ASC 350-40. This guidance will be effective for Lands' End in the first quarter of its fiscal year ending January 27, 2017. The adoption of this guidance is not expected to have a material impact on the Company's Consolidated and Combined Financial Statements.

Simplifying the Presentation of Debt Issuance Costs

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs, which changes the required presentation of debt issuance costs from an asset on the balance sheet to a deduction from the related debt liability. This guidance will be effective for Lands' End in its fiscal year ending January 27, 2017. The adoption of this guidance is not expected to have a material impact on the Company's Consolidated and Combined Financial Statements.

Revenue from Contracts with Customers

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which provides guidance for revenue recognition. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. In doing so, companies will need to use more judgment and make more estimates than under today's guidance. These may include identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. This guidance was deferred by ASU 2015-14, issued by the FASB in August 2015, and will be effective for Lands' End in the first quarter of its fiscal year ending February 1, 2019. The Company

is currently in the process of evaluating the impact of adoption of this ASU on the Company's Consolidated and Combined Financial Statements.

Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity

In April 2014, the FASB issued ASU 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity, which modifies the requirements for disposals to qualify as discontinued operations and expands related disclosure requirements. This guidance will be effective for Lands' End in its fiscal year ending January 29, 2016. This guidance has been adopted and had an immaterial impact on the Company's Consolidated and Combined Financial Statements.

Reclassifications

Certain prior period amounts presented in the Consolidated Balance Sheet have been reclassified to conform to the current year presentation. These reclassifications relate to current deferred tax assets as of January 30, 2015 that were reclassified to Long-term deferred tax liabilities. This reclassification reduced our current and total assets and our total liabilities, as previously reported in the Consolidated Balance Sheet for January 30, 2015, by \$3.4 million. This reclassification had no effect on the Consolidated and Combined Statements of Operations, Comprehensive Operations, Stockholders' Equity or Cash Flows as previously reported. See Note 9, Income Taxes, for further discussion.

NOTE 3. DEBT

Debt Arrangements

On April 4, 2014, Lands' End entered into an ABL Facility, which provides for maximum borrowings of \$175.0 million for Lands' End, subject to a borrowing base, with a \$30.0 million sub facility for the UK Borrower. The ABL Facility has a sub-limit of \$70.0 million for domestic letters of credit and a sub-limit of \$15.0 million for letters of credit for the UK Borrower. The ABL Facility is available for working capital and other general corporate purposes, and was undrawn at the Separation and at January 29, 2016, other than for letters of credit.

Also on April 4, 2014, Lands' End entered into a Term Loan Facility of \$515.0 million, the proceeds of which were used to pay a dividend of \$500.0 million to a subsidiary of Sears Holdings Corporation immediately prior to the Separation and to pay fees and expenses associated with the Debt facilities of approximately \$11.4 million, with the remaining proceeds used for general corporate purposes. The fees were capitalized as debt issuance costs, and are included in Other assets on the Consolidated Balance Sheets and are being amortized as an adjustment to Interest expense over the remaining life of the Debt facilities.

The Company's debt consisted of the following:

	January 29, 2016		January 30, 2015	
	Principal Amount	Interest Rate	Principal Amount	Interest Rate
Term Loan Facility, maturing April 4, 2021	\$505,988	4.25 %	\$511,138	4.25 %
ABL Facility, maturing April 4, 2019	—	— %	—	— %
	505,988		511,138	
Less: current maturities in Other current liabilities	5,150		5,150	
Long-term debt	\$500,838		\$505,988	

The following table summarizes the Company's borrowing availability under the ABL Facility:

	January 29, 2016	January 30, 2015
ABL maximum borrowing	\$175,000	\$175,000
Outstanding letters of credit	24,311	15,541
Borrowing availability under ABL	\$150,689	\$159,459

Interest; Fees

The interest rates per annum applicable to the loans under the Debt facilities are based on a fluctuating rate of interest measured by reference to, at the borrowers' election, either (i) an adjusted London inter-bank offered rate ("LIBOR") plus a borrowing margin, or (ii) an alternative base rate plus a borrowing margin. The borrowing margin is fixed for the Term Loan Facility at 3.25% in the case of LIBOR loans and 2.25% in the case of base rate loans. For the Term Loan Facility, LIBOR is subject to a 1% interest rate floor. The borrowing margin for the ABL Facility is subject to adjustment based on the average excess availability under the ABL Facility for the preceding fiscal quarter, and will range from 1.50% to 2.00% in the case of LIBOR borrowings and will range from 0.50% to 1.00% in the case of base rate borrowings.

Customary agency fees are payable in respect of both Debt facilities. The ABL Facility fees also include (i) commitment fees, based on a percentage ranging from approximately 0.25% to 0.375% of the daily unused portions of the ABL Facility, and (ii) customary letter of credit fees.

Amortization and Prepayments

The Term Loan Facility will amortize at a rate equal to 1% per annum, and is subject to mandatory prepayment in an amount equal to a percentage of the borrower's excess cash flows (as defined in the Term Loan Facility) in each fiscal year, ranging from 0% to 50% depending on Lands' End's secured leverage ratio, and the proceeds from certain asset sales and casualty events. Based on Fiscal 2015 results, no mandatory prepayment is required in the first quarter of Fiscal 2016. The Company's aggregate scheduled maturities of the Term Loan Facility as of January 29, 2016 are as follows:

(in thousands)

Less than 1 year	\$5,150
1 - 2 years	5,150
2 - 3 years	5,150
3 - 4 years	5,150
4 - 5 years	5,150
Thereafter	480,238
	\$505,988

Guarantees; Security

All domestic obligations under the Debt facilities are unconditionally guaranteed by Lands' End and, subject to certain exceptions, each of its existing and future direct and indirect domestic subsidiaries. In addition, the obligations of the UK Borrower under the ABL Facility are guaranteed by its existing and future direct and indirect subsidiaries organized in the United Kingdom. The ABL Facility is secured by a first priority security interest in certain working capital of the borrowers and guarantors consisting primarily of accounts receivable and inventory. The Term Loan Facility is secured by a second priority security interest in the same collateral, with certain exceptions.

The Term Loan Facility also is secured by a first priority security interest in certain property and assets of the borrowers and guarantors, including certain fixed assets and stock of subsidiaries. The ABL Facility is secured by a second priority security interest in the same collateral.

Representations and Warranties; Covenants

Subject to specified exceptions, the Debt facilities contain various representations and warranties and restrictive covenants that, among other things, restrict the ability of Lands' End and its subsidiaries to incur indebtedness (including guarantees), grant liens, make investments, make dividends or distributions with respect to capital stock, make prepayments on other indebtedness, engage in mergers or change the nature of their business. In addition, if excess availability under the ABL Facility falls below the greater of 10% of the loan cap amount or \$15.0 million, Lands' End will be required to comply with a minimum fixed charge coverage ratio of 1.0 to 1.0. The Debt facilities do not otherwise contain financial maintenance covenants. The Company was in compliance with all financial covenants related to the Debt facilities as of January 29, 2016.

The Debt facilities contain certain affirmative covenants, including reporting requirements such as delivery of financial statements, certificates and notices of certain events, maintaining insurance, and providing additional guarantees and collateral in certain circumstances.

Events of Default

The Debt facilities include customary events of default including non-payment of principal, interest or fees, violation of covenants, inaccuracy of representations or warranties, cross defaults related to certain other material indebtedness, bankruptcy and insolvency events, invalidity or impairment of guarantees or security interests, and material judgments and change of control.

NOTE 4. LEASES

The Company leases stores, office space and warehouses under various leasing arrangements. As of January 29, 2016, the Company leases store space in 227 Sears Holdings store locations (see Note 11, Related Party Agreements and Transactions) and 14 Lands' End Inlet Stores. The total number of retail stores, 246, includes one Lands' End Inlet Store that is owned by the Company and 5 international shop-in-shops which have no required minimum lease payments. All leases are accounted for as operating leases. Operating lease obligations are based upon contractual minimum rents. Certain leases include renewal options.

Total rental expense under operating leases was \$31.1 million, \$32.0 million and \$33.1 million for Fiscal 2015, Fiscal 2014 and Fiscal 2013, respectively.

Total future commitments under these operating leases (primarily leased Lands' End Shops at Sears space at Sears Holdings locations as described in Note 11, Related Party Agreements and Transactions) as of January 29, 2016 are as follows for the years ending (in thousands):

2016	\$28,653
2017	27,302
2018	18,398
2019	11,845
2020	1,414
Thereafter	3,804

NOTE 5. STOCK-BASED COMPENSATION

Accounting standards require, among other things, that (i) the fair value of all stock awards be expensed over their respective vesting periods; (ii) the amount of cumulative compensation cost recognized at any date must at least be equal to the portion of the grant-date value of the award that is vested at that date and (iii) compensation expense include a forfeiture estimate for those shares not expected to vest. Also in accordance with these provisions, for awards that only have a service requirement with multiple vest dates, the Company is required to recognize compensation cost on a straight-line basis over the requisite service period for the entire award.

The Company has granted time vesting stock awards ("Deferred Awards") and performance-based stock awards ("Performance Awards") to employees at management levels and above. Deferred Awards were granted in

the form of restricted stock units that only require each recipient to complete a service period. Deferred Awards generally vest ratably over three years or in full after a three year period. Performance Awards were granted in the form of restricted stock units which have, in addition to a service requirement, performance criteria that must be achieved for the awards to be earned. Performance Awards have annual vesting, but due to the performance criteria, are not eligible for straight-line expensing. Therefore, Performance Awards are amortized using a graded expense process. The fair value of all awards is based on the closing price of the Company's common stock on the grant date. Compensation expense is reduced for estimated forfeitures of those awards not expected to vest due to employee turnover.

The following table summarizes the Company's stock-based compensation expense, which is included in Selling and administrative expense in the Consolidated and Combined Statements of Comprehensive Operations:

(in thousands)	Fiscal 2015	Fiscal 2014
Performance Awards	\$861	\$1,883
Deferred Awards	1,534	235
Total stock-based compensation expense	\$2,395	\$2,118

Stock-based compensation costs for certain executives participating in stock-based compensation plans administered by Sears Holdings were included in Selling and administrative expenses and were not material for Fiscal 2013.

Awards Granted

In Fiscal 2015 the Company granted Deferred Awards and Performance Awards to various employees. In general Deferred Awards granted during Fiscal 2015 have a three year vesting period with 25% of the award vesting in both the first and second years and 50% vesting in the third year. The Performance Awards granted to executives vest over a four year service period and have a performance measure at the end of the second year of service. If earned, 25% of the awards vest in the second and third years and 50% vests in the fourth year.

In general Deferred Awards granted during Fiscal 2014 have a three year vesting period with 25% of the award vesting in both the first and second years and 50% vesting in the third year. In general, the Performance Awards granted to executives vest over a three year service period and have a performance measure at the end of the first year of service. If earned, 25% of the awards vest in the first and second years and 50% vests in the third year.

Changes in the Company's Unvested Stock Awards

Deferred Awards

(in thousands, except per share amounts)	Number of Shares	Weighted Average Grant Date Fair Value
Unvested Deferred Awards, as of January 31, 2014	—	\$—
Granted	47	27.86
Forfeited	(3) 27.58
Unvested Deferred Awards, as of January 30, 2015	44	\$28.01
Granted	165	31.20
Vested	(9) 28.02
Forfeited	(25) 28.74
Unvested Deferred Awards, as of January 29, 2016	175	\$30.87

Total unrecognized stock-based compensation expense related to unvested Deferred Awards approximated \$3.9 million as of January 29, 2016, which will be recognized over a weighted average period of approximately 2.0 years.

Performance Awards

(in thousands, except per share amounts)	Number of Shares	Weighted Average Grant Date Fair Value
Unvested Deferred Awards, as of January 31, 2014	—	\$—
Granted	304	27.56
Forfeited	(107)) 26.73
Unvested Deferred Awards, as of January 30, 2015	197	\$28.01
Granted	19	21.94
Vested	(43)) 27.86
Forfeited	(64)) 28.34
Unvested Performance Awards, as of January 29, 2016	109	\$26.81

Total unrecognized stock-based compensation expense related to unvested Performance Awards approximated \$1.4 million as of January 29, 2016, which will be recognized over a weighted average period of approximately 1.8 years.

NOTE 6. OTHER CURRENT LIABILITIES

Other current liabilities consisted of the following:

(in thousands)	January 29, 2016	January 30, 2015
Deferred gift card revenue	\$20,802	\$23,025
Accrued employee compensation and benefits	12,785	18,778
Reserve for sales returns and allowances	12,605	13,868
Deferred revenue	11,097	11,228
Accrued property, sales and other taxes	7,536	8,194
Short-term portion of long-term debt	5,150	5,150
Product recall	207	4,406
Income taxes payable	—	9,559
Other	13,810	13,345
Total other current liabilities	\$83,992	\$107,553

NOTE 7. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

The Company determines fair value of financial assets and liabilities based on the following fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value into three levels:

Level 1 inputs—unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. An active market for the asset or liability is one in which transactions for the asset or liability occurs with sufficient frequency and volume to provide ongoing pricing information.

Level 2 inputs—inputs other than quoted market prices included in Level 1 that are observable, either directly or indirectly, for the asset or liability. Level 2 inputs include, but are not limited to, quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in markets that are not active and inputs other than quoted market prices that are observable for the asset or liability, such as interest rate curves and yield curves observable at commonly quoted intervals, volatilities, credit risk and default rates.

Level 3 inputs—unobservable inputs for the asset or liability.

Restricted cash is reflected on the Consolidated Balance Sheets at fair value. The fair value of Restricted cash as of January 29, 2016 and January 30, 2015 was \$3.3 million, based on Level 1 inputs. Restricted cash amounts are valued based upon statements received from financial institutions.

Carrying values and fair values of other financial instruments in the Consolidated Balance Sheets are as follows:

(in thousands)	January 29, 2016		January 30, 2015	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Long-term debt, including short-term portion	\$505,988	\$418,073	\$511,138	\$491,331

Long-term debt was valued utilizing level 2 valuation techniques based on the closing inactive market bid price on January 29, 2016. There were no nonfinancial assets or nonfinancial liabilities recognized at fair value on a nonrecurring basis as of January 29, 2016 and January 30, 2015.

Goodwill and indefinite-lived intangible assets are also tested annually or if a triggering event occurs that indicates an impairment loss may have been incurred using fair value measurements with unobservable inputs (Level 3). During the annual testing, the fair value of the indefinite-lived trade name asset was estimated to be \$430 million as of January 29, 2016, less than its carrying amount of \$528.3 million as of January 30, 2015. As a result, the Company recorded a non-cash impairment charge of \$98.3 million related to the trade name intangible asset, Lands' End, in Fiscal 2015. See Note 2, Summary of Significant Accounting Policies-Goodwill and Intangible Asset Impairment Assessments, and Note 8, Goodwill and Intangible Assets, for further details on the impairment charge and for further description of the valuation methodology used.

NOTE 8. GOODWILL AND INTANGIBLE ASSETS

Goodwill represents the excess of the purchase price over the fair value of the net assets acquired in business combinations accounted for under the purchase accounting method. The net carrying amounts of goodwill, trade name and customer lists are included within the Company's Direct segment.

ASC 350 requires companies to test goodwill and indefinite-lived intangible assets for impairment annually, or more often if an event or circumstance indicates that the carrying amount may not be recoverable. During Fiscal 2015, Fiscal 2014 and Fiscal 2013 the Company conducted annual impairment testing of goodwill and indefinite-lived intangible assets. As a result of this testing the Company recorded a non-cash pretax intangible asset impairment charge of \$98.3 million to our Direct segment during Fiscal 2015. The impairment is recorded in Intangible asset impairment on the Consolidated and Combined Statements of Operations. There was no impairment charge for intangible assets recorded in Fiscal 2014 or prior. There were no impairments of goodwill during any periods presented or since goodwill was first recognized. (See also Note 2, Summary of Significant Accounting Policies-Goodwill and Intangible Asset Impairment Assessments, for further details on the impairment charge).

The following summarizes goodwill and intangible assets:

(in thousands)	Useful Life	January 29, 2016	January 30, 2015
Amortizing intangible assets:			
Gross Customer lists	10	\$26,300	\$26,300
Accumulated Amortization		(26,300) (25,888
Net Customer lists		—	412
Indefinite-lived intangible assets:			
Gross Trade Names		528,300	528,300
Impairments		(98,300) —
Net Trade Names		430,000	528,300
Total intangible assets, net		\$430,000	\$528,712
Goodwill		\$110,000	\$110,000
Annual Amortization Expense (in thousands)			
Fiscal 2015			\$412
Fiscal 2014			2,630
Fiscal 2013			2,630

NOTE 9. INCOME TAXES

The Company's (loss) income before income taxes in the United States and in foreign jurisdictions is as follows:

(in thousands)	Fiscal 2015	Fiscal 2014	Fiscal 2013
(Loss) income before income taxes:			
United States	\$(31,206) \$114,772	\$117,318
Foreign	1,967	5,785	11,073
Total (loss) income before income taxes	\$(29,239) \$120,557	\$128,391

The components of the (benefit from) provision for income taxes are as follows:

(in thousands)	Fiscal 2015	Fiscal 2014	Fiscal 2013
United States	\$(9,737) \$44,503	\$46,272
Foreign	46	2,255	3,272
Total (benefit) provision	\$(9,691) \$46,758	\$49,544

(in thousands)	Fiscal 2015	Fiscal 2014	Fiscal 2013	
Current:				
Federal	\$10,524	\$20,902	\$46,355	
State	2,409	6,361	5,631	
Foreign	46	1,950	2,519	
Total current	12,979	29,213	54,505	
Deferred:				
Federal	(20,956) 14,579	(4,238)
State	(1,714) 2,661	(426)
Foreign	—	305	(297)
Total deferred	(22,670) 17,545	(4,961)
Total (benefit) provision	\$(9,691) \$46,758	\$49,544	

A reconciliation of the statutory federal income tax rate to the effective income tax rate is as follows:

	Fiscal 2015	Fiscal 2014	Fiscal 2013
Tax at statutory federal tax rate	35.0	% 35.0	% 35.0
State income taxes, net of federal tax benefit	(1.6)% 2.9	% 2.6
Other, net	(0.3)% 0.9	% 1.0
Total	33.1	% 38.8	% 38.6

Deferred tax assets and liabilities consisted of the following:

(in thousands)	January 29, 2016	January 30, 2015
Deferred tax assets:		
Deferred revenue	\$5,349	\$7,894
Credit carryforwards	—	5,964
Product recall and other reserves	1,839	5,253
Deferred compensation	3,199	4,823
Reserve for returns	4,911	4,695
Inventory	4,231	4,822
Currency translation adjustment - foreign subsidiaries	5,053	3,931
Other	6,935	7,518
Total deferred tax assets	31,517	44,900
Deferred tax liabilities:		
Intangible assets	161,503	197,786
LIFO reserve	20,153	19,864
Unremitted foreign earnings	5,722	4,782
Catalog marketing	1,390	3,474
Other	—	39
Total deferred tax liabilities	188,768	225,945
Net deferred tax liability	\$157,251	\$181,045

During Fiscal 2015, the Company adopted ASU 2015-017, Balance Sheet Classification of Deferred Taxes, which requires an entity to present deferred tax assets and deferred tax liabilities as noncurrent in a classified

balance sheet rather than as current and noncurrent. As of January 30, 2015, the Company reclassified \$3,438 of current deferred tax assets to noncurrent deferred tax liabilities to conform to the current year presentation.

A reconciliation of the beginning and ending amount of UTBs for the fiscal years is as follows:

(in thousands)	Federal, State and Foreign Tax			
	Fiscal 2015	Fiscal 2014	Fiscal 2013	
Gross UTB balance at beginning of period	\$9,082	\$8,718	\$8,507	
Tax positions related to the current period—gross increases	116	364	252	
Tax positions related to the prior periods—gross decreases	(697) —	(41)
Settlements	(190) —	—)
Gross UTB balance at end of period	\$8,311	\$9,082	\$8,718	

As of January 29, 2016, the Company had UTBs of \$8.3 million. Of this amount, \$5.4 million would, if recognized, impact its effective tax rate. The Company does not expect that UTBs will fluctuate in the next 12 months for tax audit settlements and the expiration of the statute of limitations for certain jurisdictions. Pursuant to the Tax Sharing Agreement, Sears Holdings Corporation is generally responsible for all United States federal, state and local UTBs through the date of the Separation and, as such, the UTBs are recorded in Other liabilities in the Consolidated Balance Sheets, and an indemnification asset from Sears Holdings Corporation for the \$8.0 million pre-Separation UTBs is recorded in Other assets in the Consolidated Balance Sheets.

The Company classifies interest expense and penalties related to UTBs and interest income on tax overpayments as components of income tax expense. As of January 29, 2016, the total amount of interest expense and penalties recognized on the balance sheet was \$5.7 million (\$3.7 million net of federal benefit). As of January 30, 2015, the total amount of interest and penalties recognized on the balance sheet was \$5.5 million (\$3.6 million net of federal benefit). The total amount of net interest expense recognized in the Consolidated Statements of Comprehensive Operations was \$0.2 million, \$0.4 million and \$0.4 million for Fiscal 2015, Fiscal 2014 and Fiscal 2013. Sears Holdings and Lands' End files income tax returns in both the United States and various foreign jurisdictions. The Internal Revenue Service has completed its examination of all federal income tax returns of Sears Holdings through the 2009 return, and all matters arising from such examinations have been resolved. Sears Holdings and the Company are under examination by various state income tax jurisdictions for the years 2002 to 2012.

Impacts of Separation

Prior to the Separation, the tax provision and related tax accounts represented the tax attributable to the Company as if the Company filed a separate tax return. However, the computed obligations were settled through Sears Holdings Corporation. Accordingly, the taxes payable and related tax payments were reflected directly in Net parent company investment in the Consolidated Balance Sheets.

As a result of the Separation, the Company will be filing its own income tax returns and, as a result certain tax attributes previously included in Net parent company investment have been reclassified. Specifically, subsequent to the Separation the Company reclassified (i) \$30.4 million of deferred tax assets related primarily to foreign tax credits; and (ii) a \$13.7 million reserve for uncertain tax positions (including penalties and interest) out of Net parent company investment and into Deferred tax liabilities and Other liabilities, respectively, in the Consolidated Balance Sheets. In addition, pursuant to the tax sharing agreement, a \$13.7 million receivable was recorded by the Company to reflect the indemnification by Sears Holdings Corporation of the pre-Separation uncertain tax positions (including penalties and interest) for which Sears Holdings is responsible. This receivable has been included in Other assets in the Consolidated Balance Sheets.

NOTE 10. COMMITMENTS AND CONTINGENCIES

Legal Proceedings

The Company is party to various claims, legal proceedings and investigations arising in the ordinary course of business. Some of these actions involve complex factual and legal issues and are subject to uncertainties. At this time, the Company is not able to either predict the outcome of these legal proceedings or reasonably estimate a

potential range of loss with respect to the proceedings. While it is not feasible to predict the outcome of such pending claims, proceedings and investigations with certainty, management is of the opinion that their ultimate resolution should not have a material adverse effect on results of operations, cash flows or financial position taken as a whole. Beginning in 2005, the Company initiated the first of several claims in Iowa County Circuit Court against the City of Dodgeville (the "City") to recover overpaid taxes resulting from the city's excessive property tax assessment of the Company's headquarters campus. As of March 31, 2016, the City has refunded, as the result of various court decisions, over \$4.0 million in excessive taxes and interest to the Company in the following amounts: (1) approximately \$1.6 million arising from the 2005 and 2006 tax years that was recognized in Fiscal 2009; (2) approximately \$1.6 million arising from the 2007, 2009 and 2010 tax years, recognized in Fiscal 2013; (3) approximately \$0.9 million arising from the 2008 tax year, recognized in Fiscal 2014. The claims arising from the 2005 and 2006 tax years are closed. The Company claims arising from tax years 2007 and 2009 through 2015 remain unresolved and are still pending before the Wisconsin Supreme Court on several unresolved issues. The Company believes that the potential additional aggregate recovery from the City of Dodgeville arising from the 2007 to 2015 tax years will range from \$2.8 million to \$4.6 million, none of which has been recorded in the Consolidated and Combined Financial Statements.

NOTE 11. RELATED PARTY AGREEMENTS AND TRANSACTIONS

According to statements on form Schedule 13D filed with the SEC by ESL, ESL beneficially owned significant portions of both the Company's and Sears Holdings Corporation's outstanding shares of common stock. Therefore Sears Holdings Corporation, the Company's former parent company, is considered a related party both prior to and subsequent to the Separation.

Prior to the Separation, Sears Holdings Corporation (including certain non-Lands' End subsidiaries) and the Company entered into various agreements to, among other things: (i) support the Lands' End Shops at Sears; (ii) provide various general corporate services; (iii) support the Company's participation in the SYW program; and (iv) allow for the use of intellectual property or services. The amounts charged to the Company by Sears Holdings do not necessarily reflect the costs of obtaining the services from unaffiliated third parties or of the Company providing the applicable services itself. Management believes that such costs are reasonable; however, the Combined Financial Statements contained herein may not be indicative of the Company's financial position, operating results, and cash flows in the future, or what they would have been if it had been a stand-alone company during all periods presented. Unless indicated otherwise, the fees and expense charged are included in Selling and administrative expense in the Combined Statements of Comprehensive Operations.

In connection with the Separation, the Company entered into various agreements with Sears Holdings which, among other things, (i) govern specified aspects of the Company's relationship following the Separation, especially with regards to the Lands' End Shops at Sears, and (ii) establish terms pursuant to which subsidiaries of Sears Holdings Corporation are providing services to us, including the International Buying Office under the Buying Agency Agreement.

References to and descriptions of the agreements below represent the agreements entered into in connection with the Separation.

The components of the transactions between the Company and Sears Holdings, which exclude pass-through payments to third parties, are as follows:

Lands' End Shops at Sears

Related party costs charged by Sears Holdings to the Company related to Lands' End Shops at Sears are as follows:

(in thousands)	Fiscal 2015	Fiscal 2014	Fiscal 2013
Retail services, store labor	\$26,773	\$31,087	\$34,495
Rent, CAM and occupancy costs	25,239	26,605	28,021
Financial services and payment processing	2,792	3,034	3,353
Supply chain costs	985	1,044	2,037
Total expenses	\$55,789	\$61,770	\$67,906
Number of Lands' End Shops at Sears at period end ⁽¹⁾	227	236	274

⁽¹⁾ During Fiscal 2015 and Fiscal 2014, 9 and 38 Lands' End Shops at Sears were closed, respectively.

Retail Services, Store Labor

The Company contracts with Sears Roebuck to provide hourly labor and required systems and tools to service customers in the Lands' End Shops at Sears. This includes dedicated staff to directly engage with customers and allocated overhead. The dedicated staff undergoes specific Lands' End brand training. Required tools include point-of-sale, price lookup and labor scheduling systems.

Rent, CAM and Occupancy Costs

The Company rents space in store locations owned or leased by Sears Roebuck. The agreements include a cost per square foot for rent, CAM and occupancy costs. The lease terms for the individual store locations generally terminate effective January 31, 2018, 2019, or 2020.

Financial Services and Payment Processing

The Company contracts with SHMC to provide retail financing and payment solutions, primarily based upon customer credit card activity, including third-party payment acceptance, credit cards and gift cards.

Supply Chain Costs

The Company contracts with Sears Roebuck to provide logistics, handling, transportation and other services, primarily based upon inventory units processed, to assist in the flow of merchandise from vendors to the Lands' End Shops at Sears locations.

General Corporate Services

Related party costs charged by Sears Holdings to the Company for general corporate services are as follows:

(in thousands)	Fiscal 2015	Fiscal 2014	Fiscal 2013
Sourcing	\$9,609	\$8,986	\$9,805
Shop Your Way	2,896	4,202	8,788
Shared services	484	559	442
Co-location and services	—	15	26
Total expenses	\$12,989	\$13,762	\$19,061

Sourcing

The Company contracts with Sears Holdings Global Sourcing, Ltd., a subsidiary of Sears Holdings Corporation, to provide agreed upon buying agency services in foreign territories from where the Company purchases merchandise. These services, primarily based upon quantities purchased, include quality-control functions, regulatory compliance, product claims management and new vendor selection and setup assistance. These amounts are included in Cost of sales in the Consolidated and Combined Statements of Comprehensive Operations.

Shop Your Way

The Company contracts with SHMC to participate in Sears Holdings' SYW program. Customers earn points issued by SHMC on purchases which may be redeemed to pay for future purchases. The Company pays SHMC an agreed-upon fee for points issued in connection with purchases from the Company. Depending on the ratio of points redeemed in Lands' End formats to points issued in Lands' End formats in the previous 12 months, the Company generally either pays additional fees or is reimbursed fees by SHMC. For Fiscal 2015 and Fiscal 2014, the Company recorded an expense for additional fees payable to SHMC based on the preceding formula. All SYW program expenses are recorded in Cost of sales in the Consolidated and Combined Statements of Comprehensive Operations.

In Fiscal 2013, under the prior arrangements that governed the Company's participation in the SYW program, as customers redeemed points on purchases, Sears Holdings reimbursed the Company through a redemption credit. The redemption credit was \$10.8 million for Fiscal 2013 and was included in Net revenue in the Combined Statements of Comprehensive Operations. There was no redemption credit recognized in Fiscal 2015 or Fiscal 2014.

Shared Services

The Company contracts with SHMC to provide certain shared corporate services. These shared services include tax services and compliance.

Co-Location and Services

The Company had contracted with SHMC to host and support certain redundant information technology hardware, software and operations at the Sears Data Center in Troy, Michigan for disaster mitigation and recovery efforts. In July 2014, the Company exited the Sears Data Center and completed the installation of the disaster mitigation and recovery systems at its Dodgeville location. The related contract with SHMC terminated on August 25, 2014.

Use of Intellectual Property or Services

Related party revenue and costs charged by the Company to and from Sears Holdings for the use of intellectual property or services is as follows:

(in thousands)	Fiscal 2015	Fiscal 2014	Fiscal 2013
Call center services	\$2,344	\$2,346	\$1,505
Lands' End business outfitters revenue	1,398	1,995	1,808
Credit card revenue	1,274	1,519	1,276
Royalty income	220	79	92
Gift card revenue (expense)	(33) 239	1,515
Total	\$5,203	\$6,178	\$6,196

Call Center Services

The Company has entered into a contract with SHMC to provide call center services in support of Sears Holdings' SYW program. This income is net of agreed upon costs directly attributable for the Company providing these services. The income is included in Net revenue and costs are included in Selling and administrative expenses in the Consolidated and Combined Statements of Comprehensive Operations. Total call center service income included in Net revenue was \$8.6 million, \$8.1 million and \$7.2 million in Fiscal 2015, Fiscal 2014 and Fiscal 2013, respectively.

Lands' End Business Outfitters Revenue

The Company sells store uniforms and other company apparel to Sears Holdings from time to time. Revenue related to these sales is included in Net revenue in the Consolidated and Combined Statements of Comprehensive Operations.

Credit Card Revenue

The Company has entered into a contract with SHMC to provide credit cards for customer sales transactions. The Company earns revenue based on the dollar volume of revenue and receives a fee based on the generation of new credit card accounts. This income is included in Net revenue in the Consolidated and Combined Statements of Comprehensive Operations.

Royalty Income

The Company entered into a licensing agreement with SHMC whereby royalties are paid in consideration for sharing or use of intellectual property. Royalties received under this agreement are included in Net revenue in the Consolidated and Combined Statements of Comprehensive Operations.

Gift Card Revenue (Expense)

The Company has entered into a contract with SHCP to provide gift cards for use by the Company. The Company offers gift cards for sale on behalf of SHCP and redeems such items on the Company's internet websites, retail stores and other retail outlets for merchandise. The Company receives a commission fee on the face value for each gift card it sells, and a payment from Sears Holdings for certain Lands' End-branded gift cards that are redeemed by Sears Holdings for non-Lands' End merchandise. The Company pays a transaction/redemption fee to SHCP for each gift card the Company redeems. The income net of associated expenses is included in Net revenue in the Consolidated and Combined Statements of Comprehensive Operations.

Additional Related Party Balance Sheet Information

At January 29, 2016 and January 30, 2015, the Company included \$3.9 million and \$5.7 million in Accounts Receivable, net, respectively, and \$2.7 million and \$9.1 million in Accounts payable, respectively, in the Consolidated Balance Sheets to reflect amounts due from and owed to Sears Holdings. At January 29, 2016 and January 30, 2015, a \$13.7 million and \$14.3 million receivable, respectively, was recorded by the Company in Other assets in the Consolidated Balance Sheets to reflect the indemnification by Sears Holdings Corporation of the pre-Separation uncertain tax positions (including penalties and interest) for which Sears Holdings Corporation is responsible.

NOTE 12. SEGMENT REPORTING

The Company is a leading multi-channel retailer of casual clothing, accessories and footwear, as well as home products, and has two reportable segments: Direct and Retail. Both segments sell similar products and provide services. Product revenues are divided by product categories: Apparel and Non-apparel. The Non-apparel sales include accessories, footwear, and home goods. Services and other revenue includes embroidery, monogramming, gift wrapping, shipping and other services. Net revenue is aggregated by product category in the following table:

(in thousands)	Fiscal 2015	Fiscal 2014	Fiscal 2013
Net revenue:			
Apparel	\$1,156,047	\$1,248,847	\$1,245,670
Non-apparel	183,073	220,385	226,302
Services and other	80,658	86,121	90,904
Total net revenue	\$1,419,778	\$1,555,353	\$1,562,876

The Company identifies reportable segments according to how business activities are managed and evaluated. Each of the Company's operating segments are reportable segments and are strategic business units that offer similar products and services but are sold either directly from its warehouses (Direct) or through its retail stores (Retail). Adjusted EBITDA is the primary measure used to make decisions on allocating resources and assessing performance of each operating segment. Adjusted EBITDA is computed as Income before taxes appearing on the Consolidated and Combined Statements of Comprehensive Operations net of interest expense, depreciation and amortization and other significant items that while periodically affecting the Company's results, may vary significantly from period to period and may have a disproportionate effect in a given period, which may affect comparability of results. Reportable segment assets are those directly used in or clearly allocable to an operating segment's operations.

Depreciation, amortization, and property and equipment expenditures are recognized in each respective segment. There were no material transactions between reporting segments for the years ended January 29, 2016, January 30, 2015 and January 31, 2014.

The Direct segment sells products through the Company's e-commerce websites and direct mail catalogs. Operating costs consist primarily of direct marketing costs (catalog and e-commerce marketing costs); order processing and shipping costs; direct labor and benefits costs and facility costs. Assets primarily include goodwill and trade name intangible assets, inventory, accounts receivable, prepaid expenses (deferred catalog costs), technology infrastructure, and property and equipment.

The Retail segment sells products and services through dedicated Lands' End Shops at Sears across the United States, the Company's stand-alone Lands' End Inlet stores and international shop-in-shops. Operating costs consist primarily of labor and benefits costs; rent, CAM and occupancy costs; distribution costs; and in-store marketing costs. Assets primarily include inventory in the retail stores, fixtures and leasehold improvements.

Corporate overhead and other expenses include unallocated shared-service costs, which primarily consist of employee services and financial services, legal and corporate expenses. These expenses include labor and benefits costs, corporate headquarters occupancy costs and other administrative expenses. Assets include corporate headquarters and facilities, corporate cash and cash equivalents and deferred income taxes.

Financial information by segment is presented as follows:

(in thousands)	Fiscal 2015	Fiscal 2014	Fiscal 2013
Net revenue:			
Direct	\$1,214,993	\$1,320,642	\$1,303,862
Retail	204,566	234,632	258,922

Diluted earnings per common share ⁽¹⁾⁽²⁾	\$0.34		\$0.37		\$0.56		\$1.03	

- For periods ended April 4, 2014 and prior, basic earnings per share are computed using 31,956,521, the number of shares of Lands' End common stock outstanding on April 4, 2014, the date on which the Lands' End common stock
- (1) was distributed to the stockholders of Sears Holdings Corporation. The same number of shares was used to calculate basic and diluted earnings per share for Fiscal 2014 as there were no dilutive securities during these periods.
- (2) The sum of the quarterly earnings per share—basic and diluted amounts may not equal the fiscal year amount due to rounding.
- (3) Fourth Quarter 2015 Net loss includes an impairment charge of \$98.3 million related to the non-cash write-down of our trade name asset, Lands' End.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures to ensure that the information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and that such information is accumulated and communicated to the officers who certify the Company's financial reports and to other members of senior management and the Board of Directors as appropriate to allow timely decisions regarding required disclosure.

Based on their evaluation the President and Chief Executive Officer and Executive Vice President, Chief Operating Officer, Chief Financial Officer and Treasurer have concluded that our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) are effective as of January 29, 2016.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934. Our internal control over financial reporting is a process designed under the supervision of the President and Chief Executive Officer and Executive Vice President, Chief Operating Officer, Chief Financial Officer and Treasurer to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of our financial statements would be prevented or detected on a timely basis.

Management, including our President and Chief Executive Officer and Executive Vice President, Chief Operating Officer, Chief Financial Officer and Treasurer conducted an evaluation of the design and effectiveness of our internal control over financial reporting based on the criteria set forth in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation our management concluded that our internal control over financial reporting was effective as of January 29, 2016. Our independent registered public accounting firm has issued an audit report on the effectiveness of our internal control over financial reporting, which is included herein.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the Company's fourth fiscal quarter ended January 29, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information required by Item 10 with respect to directors, the audit committee, audit committee financial experts and Section 16(a) beneficial ownership reporting compliance is included under the headings “Item 1. Election of Directors - Committees of the Board of Directors,” “Corporate Governance - Director Independence” and “Other Information - Section 16(a) Beneficial Ownership Reporting Compliance” of our definitive proxy statement for our annual meeting of stockholders to be held on May 12, 2016 (the “2016 Proxy Statement.”) and is incorporated herein by reference.

The information required by this Item 10 regarding the Company’s executive officers is set forth under the heading “Executive Officers of the Registrant” in Part I of this Form 10-K and is incorporated herein by reference.

Lands’ End has adopted a Code of Conduct, which applies to all employees, including our principal executive officer, principal financial officer and principal accounting officer, and a Code of Conduct for its Board of Directors. Directors who are also officers of Lands’ End are subject to both codes of conduct. Each code of conduct is a code of ethics as defined in Item 406 of SEC Regulation S-K. The codes of conduct are available on the Corporate Governance section under Investor Relations on our website at www.landsend.com. Any amendment to, or waiver from, a provision of either code of conduct will be posted to the above-referenced website.

There were no changes to the process by which stockholders may recommend nominees to the Board of Directors during the last year.

ITEM 11. EXECUTIVE COMPENSATION

Information regarding executive and director compensation is incorporated by reference to the material under the headings “Item 1. Election of Directors - Executive Compensation,” “- Executive Compensation - Compensation Committee Interlocks and Insider Participation,” “- Executive Compensation - Compensation Committee Report” and “- Compensation of Directors,” of the 2016 Proxy Statement. The material incorporated herein by reference to the information set forth under the heading “- Executive Compensation - Compensation Committee Report” of the 2016 Proxy Statement shall be deemed furnished, and not filed, in this Annual Report on Form 10-K and shall not be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended or the Securities Exchange Act of 1934, as amended as a result of this furnishing except to the extent that it is specifically incorporated by reference by the Company.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information regarding security ownership of certain beneficial owners and management is incorporated herein by reference to the material under the heading “Item 1. Election of Directors - Amount and Nature of Beneficial Ownership” of the 2016 Proxy Statement. See also “Equity Compensation Plan Information” in Item 5 of this Report for a discussion of securities authorized for issuance under equity compensation plans.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information regarding certain relationships and related transactions and director independence is incorporated herein by reference to the material under the headings “Certain Relationships and Transactions” and “Corporate Governance” of the 2016 Proxy Statement.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Information regarding principal accountant fees and services is incorporated herein by reference to the material under the heading "Item 3. Ratification of Appointment of Independent Registered Public Accounting Firm - Independent Registered Accounting Firm Fees" of the 2016 Proxy Statement.

87

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

The financial statements filed as part of this Annual Report on Form 10-K are listed under Part II, Item 8.

Exhibits:

The following documents are filed as exhibits hereto:

Exhibit Number	Exhibit Description
2.1	Separation and Distribution Agreement, dated as of April 4, 2014, by and between Sears Holdings Corporation and Lands' End, Inc. (incorporated by reference to Exhibit 2.1 to the Company's Current Report on Form 8-K filed on April 8, 2014 (File No. 002-09769)).
3.1	Amended and Restated Certificate of Incorporation of Lands' End, Inc. (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed on March 20, 2014 (File No. 001-09769)).
3.2	Amended and Restated Bylaws of Lands' End, Inc. (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed on April 8, 2014 (File No. 001-09769)).
4.1	ABL Credit Agreement, dated as of April 4, 2014, by and between Lands' End, Inc. (as the Domestic Borrower), Lands' End Europe Limited (as the UK Borrower), Bank of America, N.A. (as Administrative Agent and Collateral Agent), the Other Lenders party thereto, Bank of America, N.A. and GE Capital Markets, Inc. (as Joint Lead Arrangers and Joint Bookrunners), General Electric Capital Corporation (as Syndication Agent) and Bank of Montreal (as Documentation Agent) (incorporated by reference to Exhibit 4.1 to the Company's Current Report on Form 8-K filed on April 8, 2014 (File No. 001-09769)).
4.2	Term Loan Credit Agreement, dated as of April 4, 2014, among Lands' End, Inc. (as the Borrower), Bank of America, N.A. (as Administrative Agent and Collateral Agent and as Arranger and Bookrunner) and the Lenders party thereto (incorporated by reference to Exhibit 4.2 to the Company's Current Report on Form 8-K filed on April 8, 2014 (File No. 001-09769)).
4.3	Guaranty and Security Agreement, dated as of April 4, 2014, among Lands' End, Inc. (as Domestic Borrower) and certain of its wholly-owned subsidiaries, each as a Grantor, the other grantors from time to time party thereto and Bank of America, N.A., as Agent (incorporated by reference to Exhibit 4.3 to the Company's Current Report on Form 8-K filed on April 8, 2014 (File No. 001-09769)).
4.4	Term Loan Guarantee and Security Agreement, dated as of April 4, 2014, among Lands' End, Inc., as Borrower and certain of its wholly-owned subsidiaries, each as a Grantor, the other grantors from time to time party thereto and Bank of America, N.A., as Agent (incorporated by reference to Exhibit 4.3 to the Company's Current Report on Form 8-K filed on April 8, 2014 (File No. 001-09769)).
10.1	Transition Services Agreement, dated as of April 4, 2014, by and between Sears Holdings Management Corporation and Lands' End, Inc. (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed on April 8, 2014 (File No. 001-09769)).
10.2	Tax Sharing Agreement, dated as of April 4, 2014, by and between Sears Holdings Corporation and Lands' End, Inc. (incorporated by reference to Exhibit 10.2 to the Company's Current Report on Form 8-K filed on April 8, 2014 (File No. 001-09769)).
10.3	Master Lease Agreement, dated as of April 4, 2014, by and between Sears, Roebuck and Co. and Lands' End, Inc. (incorporated by reference to Exhibit 10.3 to the Company's Current Report on Form 8-K filed on April 8, 2014 (File No. 001-09769)). ⁽¹⁾
