(except where otherwise noted, all tabular amounts in millions, except share and per share amounts)

Item 1. Financial Statements

1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revlon, Inc. (and together with its subsidiaries, the "Company") conducts its business exclusively through its direct wholly-owned operating subsidiary, Revlon Consumer Products Corporation ("Products Corporation"), and its subsidiaries. Revlon, Inc. is a direct and indirect majority-owned subsidiary of MacAndrews & Forbes Incorporated (together with certain of its affiliates other than the Company, "MacAndrews & Forbes"), a corporation wholly-owned by Ronald O. Perelman. The Company's vision is to establish Revlon as the quintessential and most innovative beauty company in the world by offering products that make consumers feel attractive and beautiful. We want to inspire our consumers to express themselves boldly and confidently. The Company operates in three segments, the consumer division ("Consumer"), the professional division ("Professional") and Other (as described below). The Company manufactures, markets and sells worldwide an extensive array of beauty and personal care products, including cosmetics, hair color, hair care and hair treatments, beauty tools, men's grooming products, anti-perspirant deodorants, fragrances, skincare and other beauty care products. The Company's principal customers for its products in the Consumer segment include large mass volume retailers and chain drug and food stores (collectively, the "mass retail channel") in the U.S. and internationally, as well as certain department stores and other specialty stores, such as perfumeries, outside the U.S. The Company's principal customers for its products in the Professional segment include hair and nail salons and distributors in the U.S. and internationally.

Effective in the second quarter of 2015, the Company has a third reporting segment, Other, which includes the operating results of certain brands that our chief operating decision maker reviews on a stand-alone basis. The results included within the Other segment include the operating results and purchase accounting for the Company's April 2015 acquisition of the CBBeauty Group and certain of its related entities (collectively "CBB" and such transaction, the "CBB Acquisition"). The results included within the Other segment are not material to the Company's consolidated results of operations. Refer to Note 2, "Business Combinations," for further details related to the CBB Acquisition.

The accompanying Consolidated Financial Statements are unaudited. In management's opinion, all adjustments necessary for a fair presentation have been made. The Consolidated Financial Statements include the accounts of the Company after the elimination of all material intercompany balances and transactions.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates and assumptions that affect amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and reported amounts of revenues and expenses during the periods presented. Actual results could differ from these estimates. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the consolidated financial statements in the period they are determined to be necessary. Significant estimates made in the accompanying Consolidated Financial Statements include, but are not limited to, allowances for doubtful accounts, inventory valuation reserves, expected sales returns and allowances, trade support costs, certain assumptions related to the valuation of acquired intangible and long-lived assets and the recoverability of intangible and long-lived assets, income taxes, including deferred tax valuation allowances and reserves for estimated tax liabilities, restructuring costs, certain estimates and assumptions used in the calculation of the net periodic benefit (income) costs and the projected benefit obligations for the Company's pension and other post-retirement plans, including the expected long-term return on pension plan assets and the discount rate used to value the Company's pension benefit obligations. The Consolidated Financial Statements should be read in conjunction with the consolidated financial statements and related notes contained in Revlon, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2014, filed with the U.S. Securities and Exchange Commission (the "SEC") on March 12, 2015 (the "2014 Form 10-K"). The Company's results of operations and financial position for interim periods are not necessarily indicative of those to be expected for a full year.

Certain prior year amounts in the Consolidated Financial Statements have been reclassified to conform to the current period's presentation.

Impact of Foreign Currency Translation - Venezuela Currency

In January 2014, the Venezuela government announced that the CADIVI would be replaced by the government-operated National Center of Foreign Commerce (the "CENCOEX"), and indicated that the Sistema Complementario de Administración de Divisas ("SICAD") market would continue to be offered as an alternative foreign currency exchange. Additionally, a parallel foreign currency exchange system, SICAD II, started functioning in March 2014 and allowed companies to apply for the purchase of foreign currency and foreign currency denominated securities for any legal use or purpose. Throughout 2014, the Company exchanged Bolivars for U.S. Dollars to the extent permitted through the various foreign currency markets available based on its ability to participate in those markets. Prior to June 30, 2014, the Company utilized the official rate of 6.3 Bolivars per U.S. Dollar

REVLOON, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(except where otherwise noted, all tabular amounts in millions, except share and per share amounts)

(the "Official Rate") and following a consideration of the Company's specific facts and circumstances, which included its legal ability and intent to participate in the SICAD II exchange market to import finished goods into Venezuela, the Company determined that it was appropriate to utilize the SICAD II rate of 53 Bolivars per U.S. Dollar (the "SICAD II Rate") to translate Revlon Venezuela's financial statements beginning on June 30, 2014. As a result, the Company recorded a foreign currency loss of \$6.0 million in the second quarter of 2014 related to the required re-measurement of Revlon Venezuela's monetary assets and liabilities.

In February 2015, the Venezuela government introduced a new foreign currency exchange platform, the Marginal Currency System ("SIMADI"), which created a third new mechanism to trade dollars through private brokers. SIMADI replaced the SICAD II system and started operating on February 12, 2015. As a result, the Company considered its specific facts and circumstances in order to determine the appropriate rate of exchange to translate Revlon Venezuela's financial statements. As of June 30, 2015, the Company has not participated in the SIMADI exchange market; however, given the elimination of the SICAD II system, the Company determined that it was appropriate to use the SIMADI rate of 193 Bolivars per U.S. Dollar (the "SIMADI Rate") to translate Revlon Venezuela's balance sheet beginning on March 31, 2015.

As a result of the change from the SICAD II Rate to the SIMADI Rate on March 31, 2015, the Company was required to re-measure all of Revlon Venezuela's monetary assets and liabilities at the SIMADI Rate of 193 Bolivars per U.S. Dollar. The Company recorded a foreign currency loss of \$1.9 million in the first quarter of 2015 as a result of the required re-measurement of Revlon Venezuela's balance sheet. As Venezuela was designated as a highly inflationary economy effective January 1, 2010, the Company reflected this foreign currency loss in earnings.

Recently Adopted Accounting Pronouncements

In April 2014, the FASB issued ASU No. 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity," which changes the requirements for reporting discontinued operations under Accounting Standards Codification Topic 205. Under ASU No. 2014-08, a disposal of a component of an entity or a group of components of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has, or will have, a major effect on an entity's operations and financial results. The standard states that a strategic shift could include a disposal of (i) a major geographical area of operations; (ii) a major line of business; (iii) a major equity method investment; or (iv) other major parts of an entity. ASU No. 2014-08 no longer precludes presentation as a discontinued operation if (i) there are operations and cash flows of the component that have not been eliminated from the reporting entity's ongoing operations or (ii) there is significant continuing involvement with a component after its disposal. Additional disclosures about discontinued operations will also be required. The guidance is effective for annual periods beginning on or after December 15, 2014, and is to be applied prospectively to new disposals and new classifications of disposal groups as held for sale after the effective date. The Company adopted ASU No. 2014-08 on a prospective basis beginning on January 1, 2015, and such adoption did not have an impact on the Company's results of operations, financial condition or financial statement disclosures.

Recently Issued Accounting Pronouncements

In April 2015, the FASB issued ASU No. 2015-03, "Simplifying the Presentation of Debt Issuance Costs," which amends the presentation of debt issuance costs by requiring debt issuance costs to be presented as a deduction from the corresponding debt liability, consistent with the presentation of debt discounts in the financial statements. The guidance is effective for annual periods beginning after December 15, 2015, with early adoption permitted, and is to be applied retrospectively. The Company expects to adopt ASU No. 2015-03 beginning on January 1, 2016 and the adoption of the new guidance is not expected to have a material impact on the Company's results of operations, financial condition and financial statement disclosures.

2. BUSINESS COMBINATIONS

The CBBeauty Group Acquisition

On April 21, 2015 (the "Acquisition Date"), the Company completed the CBB Acquisition for a total cash consideration of \$49.3 million. CBB is a U.K.-based company whose primary business consists of licensing and

distributing fragrances under brands such as One Direction and Burberry. On the Acquisition Date, the Company used cash on hand to pay 70% of the total cash consideration, or \$34.6 million. The remaining \$14.7 million of the total cash consideration is payable over 4 years in equal annual installments, subject to the selling shareholders' compliance with certain service conditions. These remaining installments will be recorded as a component of SG&A expenses ratably over the 4-year period. CBB is expected to provide the Company with a platform to develop the Company's presence in the fragrance category. The results of operations of the CBB business are included in the Company's Consolidated Financial Statements commencing on the Acquisition Date. Pro forma results of operations have not been presented, as the impact of the CBB Acquisition on the Company's consolidated financial results is not material.

REVLON, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(except where otherwise noted, all tabular amounts in millions, except share and per share amounts)

The Company accounted for the CBB Acquisition as a business combination during the second quarter of 2015 and, accordingly, the total consideration of \$34.6 million paid on the Acquisition Date has been recorded based on the respective estimated fair values of the net assets acquired on the Acquisition Date, with resulting goodwill, as follows:

	Fair Values at April 21, 2015
Total Net Assets Acquired ^(a)	\$3.9
Purchased Intangible Assets ^(b)	11.9
Goodwill	18.8
Total consideration	\$34.6

(a) Total net assets acquired in the CBB Acquisition is comprised primarily of trade receivables and accounts payable.

(b) Purchased intangible assets include customer networks valued at \$7.4 million, distribution rights valued at \$2.8 million and trade names valued at \$1.7 million, with weighted average remaining useful lives of 15, 9 and 5 years, respectively.

The fair values of the net assets acquired in the CBB Acquisition were based on management's preliminary estimate of the respective fair values. The estimated fair values of net assets and resulting goodwill are subject to the Company finalizing its analysis of the fair value of CBB's assets and liabilities as of the Acquisition Date and may be adjusted upon completion of such analysis. In addition, information unknown at the time of the CBB Acquisition could result in adjustments to the respective fair values and resulting goodwill within the year following the CBB Acquisition. In determining the fair values of net assets acquired and resulting goodwill, the Company considered, among other factors, the analysis of CBB's historical financial performance and an estimate of the future performance of the acquired business, as well as market participants' intended use of the acquired assets. Both the intangible assets acquired and goodwill are not deductible for income tax purposes.

3. RESTRUCTURING CHARGES

Integration Program

Following Products Corporation's October 2013 acquisition of The Colomer Group Participations, S.L. ("Colomer" and the "Colomer Acquisition"), the Company announced in January 2014 that it was implementing actions to integrate Colomer's operations into the Company's business, as well as additional restructuring actions identified to reduce costs across the Company's businesses (all such actions, together, the "Integration Program").

The Company expects to recognize total restructuring charges, capital expenditures and related non-restructuring costs under the Integration Program of approximately \$50 million in the aggregate over the periods described below.

The Integration Program is designed to deliver cost reductions throughout the combined organization by generating synergies and operating efficiencies within the Company's global supply chain and consolidating offices and back office support, and other actions designed to reduce selling, general and administrative ("SG&A") expenses. Certain actions that are part of the Integration Program are subject to consultations with employees, works councils or unions and governmental authorities. The Company expects to substantially complete the Integration Program by the end of 2015.

The approximately \$50 million of total expected non-restructuring costs, capital expenditures and restructuring charges under the Integration Program referred to above consist of the following:

\$1.2 million and \$18.4 million of non-restructuring integration costs recognized during the six months ended June 30, 2015, and through December 31, 2014, respectively. Such costs have been reflected within acquisition and integration costs in the Company's Consolidated Statements of Income and Comprehensive Income and are related to combining Colomer's operations into the Company's business;

Expected integration-related capital expenditures of approximately \$6 million, of which \$0.7 million and \$4.4 million has been paid during the six months ended June 30, 2015 and through December 31, 2014, respectively, with the remaining balance expected to be paid during the remainder of 2015; and

Expected total restructuring and related charges of approximately \$22 million, of which \$(2.4) million and \$20.1 million was recognized during the six months ended June 30, 2015 and through December 31, 2014, respectively, with the remaining charges expected to be recognized during the remainder of 2015. A summary of the restructuring and related charges for the Integration Program incurred through June 30, 2015 and those expected to be incurred during the remainder of 2015 are as follows:

	Restructuring Charges and Other, Net Employee Severance and Other Personnel Benefits	Other	Total Restructuring Charges	Inventory Write-offs and Other Manufacturing-Related Costs (a)	Other Charges (b)	Total Restructuring and Related Charges
Charges incurred through December 31, 2014	\$17.3	\$1.6	\$18.9	\$0.6	\$0.6	\$20.1

Total expected charges	\$15.0	\$3.0	\$18.0	\$2.5	\$1.5	\$22.0

(a) Inventory write-offs and other manufacturing-related costs are recorded within cost of sales within the Company's Consolidated Statements of Income and Comprehensive Income.

(b) Other charges are recorded within SG&A expenses within the Company's Consolidated Statements of Income and Comprehensive Income.

During the six months ended June 30, 2015, the Company recorded a benefit of \$2.4 million in connection with the Integration Program, of which \$3.8 million is related to the Consumer segment, partially offset by charges of \$1.4 million related to the Professional segment. During the six months ended June 30, 2014, the Company recorded charges related to the Integration Program of \$15.7 million, of which \$6.4 million related to the Consumer segment and \$9.3 million related to the Professional segment.

The Company expects that cash payments related to the restructuring and related charges in connection with the Integration Program will total approximately \$21 million, of which \$3.9 million was paid during the six months ended June 30, 2015, and \$9.6 million was paid during 2014. The remaining balance of \$7.5 million is expected to be paid during the remainder of 2015.

December 2013 Program

In December 2013, the Company announced restructuring actions that included exiting its business operations in China, as well as implementing other immaterial restructuring actions outside the U.S., which are expected to generate other operating efficiencies (the "December 2013 Program"). These restructuring actions resulted in the Company eliminating approximately 1,100 positions in 2014, primarily in China, which included eliminating in the first quarter of 2014 approximately 940 beauty advisors retained indirectly through a third-party agency. The charges incurred for the December 2013 Program relate entirely to the Consumer segment.

A summary of the restructuring and related charges incurred through June 30, 2015 in connection with the December 2013 Program is presented in the following table:

	Restructuring Charges and Other, Net Employee Severance and	Other	Total Restructuring Charges	Allowances and Returns	Inventory Write-offs	Other Charges	Total Restructuring and Related
--	---	-------	-----------------------------------	------------------------------	-------------------------	------------------	---------------------------------------

	Other Personnel Benefits						Charges
Cumulative charges incurred through June 30, 2015	\$8.6	\$0.3	\$ 8.9	\$ 6.5	\$ 3.1	\$0.4	\$ 18.9
Total expected charges	\$8.6	\$0.3	\$ 8.9	\$ 6.5	\$ 3.1	\$0.4	\$ 18.9
The Company expects net cash payments related to the December 2013 Program to total approximately \$17 million, of which \$15.5 million was paid during 2014, and \$0.1 million was paid in 2013. No charges were incurred during the six months ended June 30, 2015 related to the December 2013 program. The remaining balance is expected to be paid in 2016.

2015 Debt Related Transaction

Amended Term Loan Facility - Excess Cash Flow Payment

On March 12, 2015, in accordance with the terms of the Amended Term Loan Facility, Products Corporation prepaid \$24.6 million of indebtedness, representing 50% of its 2014 "excess cash flow" as defined under the Amended Term

Loan Agreement.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(except where otherwise noted, all tabular amounts in millions, except share and per share amounts)

The prepayment was applied on a ratable basis between the principal amounts outstanding under the 2011 Term Loan and the Acquisition Term Loan. The amount of the prepayment applied to the 2011 Term Loan reduced the principal amount outstanding by \$12.1 million to \$662.9 million (as all amortization payments under the 2011 Term Loan had been paid). The \$12.5 million applied to the Acquisition Term Loan reduced Products Corporation's future regularly scheduled quarterly amortization payments under the Acquisition Term Loan on a ratable basis from \$1.8 million prior to the prepayment to \$1.7 million after giving effect to the prepayment and through its maturity on October 8, 2019.

Covenants

Products Corporation was in compliance with all applicable covenants under the Amended Term Loan Agreement and the Amended Revolving Credit Facility as of June 30, 2015. At June 30, 2015, the aggregate principal amounts outstanding under the Acquisition Term Loan and the 2011 Term Loan were \$677.1 million and \$662.9 million, respectively, and availability under the \$175.0 million Amended Revolving Credit Facility, based upon the calculated borrowing base less \$8.8 million of outstanding undrawn letters of credit and nil then drawn on the Amended Revolving Credit Facility, was \$166.2 million.

Products Corporation was in compliance with all applicable covenants under its 5¾% Senior Notes Indenture as of June 30, 2015 and December 31, 2014.

9. FAIR VALUE MEASUREMENTS

Assets and liabilities are required to be categorized into three levels of fair value based upon the assumptions used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3, if applicable, generally would require significant management judgment. The three levels for categorizing the fair value measurement of assets and liabilities are as follows:

• Level 1: Fair valuing the asset or liability using observable inputs, such as quoted prices in active markets for identical assets or liabilities;

• Level 2: Fair valuing the asset or liability using inputs other than quoted prices that are observable for the applicable asset or liability, either directly or indirectly, such as quoted prices for similar (as opposed to identical) assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active; and

• Level 3: Fair valuing the asset or liability using unobservable inputs that reflect the Company's own assumptions regarding the applicable asset or liability.

As of June 30, 2015, the fair values of the Company's financial assets and liabilities that are required to be measured at fair value are categorized in the table below:

	Total	Level 1	Level 2	Level 3
Assets:

The fair value of the Company's foreign currency forward exchange contracts ("FX Contracts") was measured

^(a) based on observable market transactions for similar transactions in actively quoted markets of spot and forward rates on the respective dates. See Note 10, "Financial Instruments."

^(b) The fair value of the Company's 2013 Interest Rate Swap was measured based on the implied forward rates from the U.S. Dollar three-month LIBOR yield curve on the respective dates. See Note 10, "Financial Instruments."

As of June 30, 2015, the fair values and carrying values of the Company's long-term debt, including the current portion of long-term debt, are categorized in the table below:

	Fair Value				
	Level 1	Level 2	Level 3	Total	Carrying Value
Liabilities:

Liabilities:					
Long-term debt, including current portion	\$—	\$1,844.0	\$—	\$1,844.0	\$1,863.9

The fair value of the Company's long-term debt, including the current portion of long-term debt, is based on the quoted market prices for the same issues.

The carrying amounts of cash and cash equivalents, trade receivables, notes receivable, accounts payable and short-term borrowings approximate their fair values.

10. FINANCIAL INSTRUMENTS

Products Corporation maintains standby and trade letters of credit for various corporate purposes under which Products Corporation is obligated, of which \$8.8 million and \$9.0 million (including amounts available under credit agreements in effect at that time) were maintained at June 30, 2015 and December 31, 2014, respectively. Included in these amounts are approximately \$7.5 million and \$7.7 million at June 30, 2015 and December 31, 2014, respectively, in standby letters of credit that support Products Corporation's self-insurance programs. The estimated liability under such programs is accrued by Products Corporation.

REVLON, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(except where otherwise noted, all tabular amounts in millions, except share and per share amounts)

Derivative Financial Instruments

The Company uses derivative financial instruments, primarily (i) FX Contracts, intended for the purpose of managing foreign currency exchange risk by reducing the effects of fluctuations in foreign currency exchange rates on the Company's net cash flows, and (ii) interest rate hedging transactions, such as the 2013 Interest Rate Swap referred to below, intended for the purpose of managing interest rate risk associated with Products Corporation's variable rate indebtedness.

Foreign Currency Forward Exchange Contracts

The FX Contracts are entered into primarily to hedge the anticipated net cash flows resulting from inventory purchases and intercompany payments denominated in currencies other than the local currencies of the Company's foreign and domestic operations and generally have maturities of less than one year.

The U.S. Dollar notional amount of the FX Contracts outstanding at June 30, 2015 and December 31, 2014 was \$61.2 million and \$7.6 million, respectively.

Interest Rate Swap Transaction

In November 2013, Products Corporation executed a forward-starting floating-to-fixed interest rate swap transaction with a 1.00% floor, based on a notional amount of \$400 million in respect of indebtedness under the Acquisition Term Loan over a period of three years (the "2013 Interest Rate Swap"). The Company designated the 2013 Interest Rate Swap as a cash flow hedge of the variability of the forecasted three-month LIBOR interest rate payments related to its Acquisition Term Loan with respect to the \$400 million notional amount over the three-year term of the 2013 Interest Rate Swap. Under the terms of the 2013 Interest Rate Swap, Products Corporation will receive from the counterparty a floating interest rate based on the higher of three-month USD LIBOR or 1.00%, which commenced in May 2015, while paying a fixed interest rate payment to the counterparty equal to 2.0709% (which effectively fixes the interest rate on such notional amount at 5.0709% over the three-year term of the 2013 Interest Rate Swap). For the six months ended June 30, 2015, the 2013 Interest Rate Swap was deemed effective and therefore the changes in fair value related to the 2013 Interest Rate Swap have been recorded in Other Comprehensive Loss. As of June 30, 2015, the balance of deferred net losses on derivatives included in accumulated other comprehensive loss was \$4.2 million after-tax.

(See "Quantitative Information – Derivative Financial Instruments" below). The Company expects that \$2.3 million of the after-tax deferred net losses related to the 2013 Interest Rate Swap will be reclassified into earnings over the next 12 months as a result of transactions that are expected to occur over that period. The amount ultimately realized in earnings may differ as LIBOR is subject to change. Realized gains and losses are ultimately determined by actual rates at maturity of the derivative.

Credit Risk

Exposure to credit risk in the event of nonperformance by any of the counterparties is limited to the gross fair value of the derivative instruments in asset positions, which totaled \$0.7 million and \$0.2 million as of June 30, 2015 and December 31, 2014, respectively. The Company attempts to minimize exposure to credit risk by generally entering into derivative contracts with counterparties that have investment-grade credit ratings and are major financial institutions. The Company also periodically monitors any changes in the credit ratings of its counterparties. Given the current credit standing of the Company's counterparties to its derivative instruments, the Company believes the risk of loss under these derivative instruments arising from any non-performance by any of the counterparties is remote.

In the three and six months ended June 30, 2015, the Company recognized net periodic benefit income of \$0.7 million and \$1.3 million, respectively, compared to \$1.3 million and \$2.6 million in the three and six months ended June 30, 2014, respectively, primarily due to higher amortization of actuarial losses.

Net periodic benefit (income) costs are reflected in the Company's Consolidated Financial Statements as follows:

The Company expects that it will have net periodic benefit income of approximately \$2.4 million for its pension and other post-retirement benefit plans for all of 2015, compared with net periodic benefit income of \$5.4 million in 2014. During the second quarter of 2015, \$2.4 million and \$0.3 million were contributed to the Company's pension plans and other post-retirement benefit plans, respectively. During the first six months of 2015, \$4.8 million and \$0.4 million were contributed to the Company's pension plans and other post-retirement benefit plans, respectively. The Company currently expects to contribute approximately \$20 million in the aggregate to its pension and other post-retirement benefit plans in 2015.

Relevant aspects of the qualified defined benefit pension plans, nonqualified pension plans and other post-retirement benefit plans sponsored by Products Corporation are disclosed in Note 14, "Savings Plan, Pension and Post-Retirement Benefits," to the Consolidated Financial Statements in Revlon, Inc.'s 2014 Form 10-K.

12. INCOME TAXES

The provision for income taxes represents federal, foreign, state and local income taxes. The effective tax rate differs from the applicable federal statutory rate due to the effect of state and local income taxes, tax rates and income in foreign jurisdictions, utilization of tax loss carryforwards, foreign earnings taxable in the U.S., non-deductible expenses and other items. The Company's tax provision changes quarterly based on various factors including, but not limited to, the geographical mix of earnings, enacted tax legislation, foreign, state and local income taxes, tax audit settlements and the interaction of various global tax strategies. In addition, changes in judgment from the evaluation of new information resulting in the recognition, derecognition and/or re-measurement of a tax position taken in a prior period are recognized in the quarter in which any such change occurs.

For the second quarter of 2015 and 2014, the Company recorded a provision for income taxes of \$20.5 million and \$18.5 million, respectively. The \$2.0 million increase in the provision for income taxes was primarily attributable to higher pretax income in the second quarter of 2015.

For the first six months of 2015 and 2014, the Company recorded a provision for income taxes of \$29.2 million and \$25.5 million, respectively. The \$3.7 million increase in the provision for income taxes was primarily attributable to certain discrete items that favorably affected the provision for income taxes in the first six months of 2014, which did not recur in the first six months of 2015, partially offset by the timing of the recognition of the provision for income taxes based on pretax income for the first six months of 2015 as compared to the first six months of 2014.

The Company's effective tax rate for the three months ended June 30, 2015 was higher than the federal statutory rate of 35% due principally to foreign dividends and earnings taxable in the U.S. and state and local taxes.

The Company's effective tax rate for the six months ended June 30, 2015 was higher than the federal statutory rate of 35% due principally to foreign and U.S. tax effects attributable to operations outside the U.S., foreign dividends and earnings taxable in the U.S. and state and local taxes.

The Company remains subject to examination of its income tax returns in various jurisdictions including, without limitation, Australia and Spain, for tax years ended December 31, 2010 through December 31, 2013, the U.S. (federal) and South Africa for tax years ended December 31, 2011 through December 31, 2013, and Canada for tax years ended December 31, 2011 through December 31, 2014.

13. ACCUMULATED OTHER COMPREHENSIVE LOSS

The components of accumulated other comprehensive loss as of June 30, 2015 are as follows:

	Foreign Currency Translation	Actuarial (Loss) Gain on Post-retirement Benefits	Deferred Gain (Loss) - Hedging	Other	Accumulated Other Comprehensive Loss
Balance at January 1, 2015	\$(5.4)	\$ (235.3)	\$(2.2)	\$(0.3)	\$(243.2)

Balance at June 30, 2015	\$(18.0)	\$ (231.8)	\$(4.2)	\$(0.3)	\$(254.3)

(a) Amounts represent the change in accumulated other comprehensive loss as a result of the amortization of actuarial losses (gains) arising during each year related to the Company's pension and other post-retirement plans. See Note 11, "Pension and Post-retirement Benefits," for further discussion of the Company's pension and other post-retirement plans.

(b) For the six months ended June 30, 2015, the 2013 Interest Rate Swap was deemed effective and therefore, the changes in fair value related to the 2013 Interest Rate Swap are recorded in other comprehensive loss. See Note 10, "Financial Instruments," for further discussion of the 2013 Interest Rate Swap.

As shown above, comprehensive loss includes changes in the fair value of the 2013 Interest Rate Swap, which qualify for hedge accounting. A rollforward of the amounts reclassified out of accumulated other comprehensive loss into earnings as of June 30, 2015 are as follows:

	2013 Interest Rate Swap
Beginning accumulated losses at March 31, 2015	(4.1)
Reclassifications into earnings (net of \$0.2 million tax benefit) ^(a)	0.3

14. SEGMENT DATA AND RELATED INFORMATION

Operating segments include components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker (the "Chief Executive Officer") in deciding how to allocate resources and in assessing the Company's performance. As a result of the similarities in the procurement, marketing and distribution processes for all of the Company's products, much of the information provided in the consolidated financial statements is similar to, or the same as, that reviewed on a regular basis by the Company's management.

At June 30, 2015, the Company's operations are organized into the following operating segments:

Consumer - The Consumer segment is comprised of the Company's consumer brands, which primarily include Revlon, Almay, SinfulColors and Pure Ice in cosmetics; Revlon ColorSilk in women's hair color; Revlon in beauty tools; and Mitchum in anti-perspirant deodorants. The Company's principal customers for its consumer products include the mass retail channel, consisting of large mass volume retailers and chain drug and food stores in the U.S. and internationally, as well as certain department stores and other specialty stores, such as perfumeries, outside the U.S. The Consumer segment also includes a skincare line and hair color line sold in the mass retail channel, primarily in Spain, which were acquired as part of the Colomer Acquisition.

Professional - The Professional segment is comprised primarily of the brands which the Company acquired in the Colomer Acquisition, which include Revlon Professional in hair color and hair care; CND-branded products in nail polishes and nail enhancements; and American Crew in men's grooming products, all of which are sold worldwide in the professional salon channel. The Company's principal customers for its professional products include hair and nail salons and distributors in the U.S. and internationally. The Professional segment also includes a multi-cultural line consisting of Creme of Nature hair care products sold in the mass retail channel and in professional salons, primarily in the U.S.

Other - The Other segment primarily includes the operating results of the CBB business and related purchase accounting for the Company's April 2015 CBB Acquisition. The results included within the Other segment are not material to the Company's consolidated results of operations.

The Company's management evaluates segment profit, which is defined as income from continuing operations before interest, taxes, depreciation, amortization, stock-based compensation expense, gains/losses on foreign currency fluctuations, gains/losses on the early extinguishment of debt and miscellaneous expenses, for each of the Company's reportable segments. Segment profit also excludes unallocated corporate expenses and the impact of certain items that are not directly attributable to the reportable segments' underlying operating performance, which includes the impacts of: (i) restructuring and related charges; (ii) acquisition and integration costs; (iii) costs of sales resulting from a fair value adjustment in the second quarter of 2015 to inventory acquired in the CBB Acquisition; and (iv) costs of sales resulting from a fair value adjustment in the first quarter of 2014 to inventory acquired in the Colomer Acquisition. Such items are shown below in the table reconciling segment profit to consolidated income from continuing operations before income taxes. Unallocated corporate expenses primarily include general and administrative expenses related to the corporate organization. These expenses are recorded in unallocated corporate expenses as these items are centrally directed and controlled and are not included in internal measures of segment operating performance. During the second quarter of 2015, the Company removed pension-related costs for its U.S. qualified defined benefit pension plans from the measurement of its operating segment results. As a result, \$2.1 million and \$4.1 million in pension-related costs were reclassified from the measurement of Consumer segment profit and included as a component of unallocated corporate expenses for the three and six months ended June 30, 2014, respectively. The Company does not have any material inter-segment sales.

The accounting policies for each of the reportable segments are the same as those described in Note 1, "Description of Business and Summary of Significant Accounting Policies" in Revlon, Inc.'s 2014 Form 10-K. The Company's assets and liabilities are managed centrally and are reported internally in the same manner as the consolidated financial statements; thus, no additional information regarding assets and liabilities of the Company's operating segments is produced for the Company's management or included in these financial statements.

15. BASIC AND DILUTED EARNINGS (LOSS) PER COMMON SHARE

Shares used in basic earnings (loss) per share are computed using the weighted average number of common shares outstanding during each period. Shares used in diluted earnings (loss) per share include the dilutive effect of unvested restricted stock and outstanding stock options under the Company's Stock Plan using the treasury stock method. At June 30, 2015, there were no outstanding stock options under the Company's Stock Plan. For the six months ended June 30, 2014 all outstanding options to purchase shares of Class A Common Stock that could potentially dilute basic earnings (loss) per common share in the future were excluded from the calculation of diluted earnings (loss) per common share, as their effect would have been anti-dilutive, as in each case their exercise price was in excess of the average NYSE closing price of the Class A Common Stock for these periods.

No unvested restricted stock awards were excluded from the computation of diluted earnings (loss) per common share for the six months ended June 30, 2015 and 2014.

16. CONTINGENCIES

The Company is involved in various routine legal proceedings incidental to the ordinary course of its business. The Company believes that the outcome of all pending legal proceedings in the aggregate is not reasonably likely to have a material adverse effect on the Company's business, financial condition and/or its results of operations. However, in light of the uncertainties involved in legal proceedings generally, the ultimate outcome of a particular matter could be material to the Company's operating results for a particular period depending on, among other things, the size of the loss or the nature of the liability imposed and the level of the Company's income for that particular period.

17. RELATED PARTY TRANSACTIONS

Reimbursement Agreements

As previously disclosed in Revlon, Inc.'s 2014 Form 10-K, Revlon, Inc., Products Corporation and MacAndrews & Forbes Inc. (a wholly-owned subsidiary of MacAndrews & Forbes) have entered into reimbursement agreements (the "Reimbursement Agreements") pursuant to which (i) MacAndrews & Forbes Inc. is obligated to provide (directly or through its affiliates) certain professional and administrative services, including, without limitation, employees, to Revlon, Inc. and its subsidiaries, including, without limitation, Products Corporation, and to purchase services from third party providers, such as insurance, legal, accounting and air transportation services, on behalf of Revlon, Inc. and its subsidiaries, including Products Corporation, to the extent requested by Products Corporation, and (ii) Products Corporation is obligated to provide certain professional and administrative services, including, without limitation, employees, to MacAndrews & Forbes and to purchase services from third party providers, such as insurance, legal and accounting services, on behalf of MacAndrews & Forbes to the extent requested by MacAndrews & Forbes, provided that in each case the performance of such services does not cause an unreasonable burden to MacAndrews & Forbes or Products Corporation, as the case may be.

The Company reimburses MacAndrews & Forbes for the allocable costs of the services purchased for or provided by MacAndrews & Forbes to the Company and its subsidiaries and for the reasonable out-of-pocket expenses incurred by

MacAndrews & Forbes in connection with the provision of such services. MacAndrews & Forbes reimburses Products Corporation for the allocable costs of the services purchased for or provided by Products Corporation to MacAndrews & Forbes and for the reasonable out-of-pocket expenses incurred in connection with the purchase or provision of such services. Each of the Company, on the one

hand, and MacAndrews & Forbes Inc., on the other, has agreed to indemnify the other party for losses arising out of the services provided by it under the Reimbursement Agreements, other than losses resulting from its willful misconduct or gross negligence.

The Reimbursement Agreements may be terminated by either party on 90 days' notice. The Company does not intend to request services under the Reimbursement Agreements unless their costs would be at least as favorable to the Company as could be obtained from unaffiliated third parties.

The Company participates in MacAndrews & Forbes' directors and officers liability insurance program (the "D&O Insurance Program"), as well as its other insurance coverages, such as property damage, business interruption, liability and other coverages, which cover the Company, as well as MacAndrews & Forbes and its subsidiaries. The limits of coverage for certain of the policies are available on an aggregate basis for losses to any or all of the participating companies and their respective directors and officers. The Company reimburses MacAndrews & Forbes from time to time for its allocable portion of the premiums for such coverage or the Company pays the insurers directly, which premiums the Company believes are more favorable than the premiums the Company would pay were it to secure stand-alone coverage. Any amounts paid by the Company directly to MacAndrews & Forbes in respect of premiums are included in the amounts paid under the Reimbursement Agreements.

The net activity related to services provided and/or (purchased) under the Reimbursement Agreements during the six months ended June 30, 2015 and 2014 was \$2.3 million and \$3.8 million, respectively, which primarily includes partial payments made by the Company to MacAndrews & Forbes during the first quarter of 2015 and 2014 for premiums related to the Company's allocable portion of the 5-year renewal of the D&O Insurance Program for the period from January 31, 2012 through January 31, 2017. As of June 30, 2015 and December 31, 2014, a receivable balance of \$0.1 million and nil, respectively, from MacAndrews & Forbes was included in the Company's Consolidated Balance Sheets for transactions subject to the Reimbursement Agreements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Overview of the Business

The Company (as defined below) is providing this overview in accordance with the SEC's December 2003 interpretive guidance regarding Management's Discussion and Analysis of Financial Condition and Results of Operations.

Revlon, Inc. (and together with its subsidiaries, the "Company") conducts its business exclusively through its direct wholly-owned operating subsidiary, Revlon Consumer Products Corporation ("Products Corporation"), and its subsidiaries. Revlon, Inc. is a direct and indirect majority-owned subsidiary of MacAndrews & Forbes Incorporated (together with certain of its affiliates other than the Company, "MacAndrews & Forbes"), a corporation wholly-owned by Ronald O. Perelman.

The Company operates in three segments, the consumer division ("Consumer"), the professional division ("Professional") and Other (as described below). The Company manufactures, markets and sells worldwide an extensive array of beauty and personal care products, including cosmetics, hair color, hair care and hair treatments, beauty tools, men's grooming products, anti-perspirant deodorants, fragrances, skincare and other beauty care products. Effective in the second quarter of 2015, the Company has a third reporting segment, Other, which includes the operating results of certain brands that our chief operating decision maker reviews on a stand-alone basis. The results included within the Other segment include the operating results and purchase accounting for the Company's April 2015 acquisition of the CBBBeauty Group and certain of its related entities (collectively "CBB" and such transaction, the "CBB Acquisition"). The results included within the Other segment are not material to the Company's consolidated results of operations. The Company believes that its global brand name recognition, product quality, R&D, new product innovation and marketing experience have enabled it to create leading global consumer and professional brands.

The Company's Business Strategy

The Company's vision is to establish Revlon as the quintessential and most innovative beauty company in the world by offering products that make consumers feel attractive and beautiful. We want to inspire our consumers to express themselves boldly and confidently.

The Company's strategic goal is to optimize the market and financial performance of its portfolio of brands and assets. The business strategies employed by the Company to achieve this goal are:

REVLON, INC. AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(all tabular amounts in millions, except share and per share amounts)

1. Manage financial drivers for value creation. Gross profit margin expansion, which includes optimizing price, allocating sales allowances to maximize our return on trade spending and reducing costs across our global supply chain. In addition, we are focused on eliminating non-value added general and administrative costs in order to fund reinvestment to facilitate growth.
2. Grow profitability through intensive innovation and geographical expansion. Creating fewer, bigger and better innovations across our brands that are relevant, unique, impactful, distinctive and ownable. We are also focused on pursuing organic growth opportunities within our existing brand portfolio and existing channels, and pursuing opportunities to expand our geographical presence.
3. Improve cash flow. Improving our cash flows through, among other things, continued effective management of our working capital and by focusing on appropriate return on capital spending.
4. People. Attracting, developing and supporting employees who fit into our innovative culture and inspire the creative drive that represents the foundation of our vision and execution of our strategy.

Overview of Net Sales and Earnings Results

Consolidated net sales in the second quarter of 2015 were \$482.4 million, a decrease of \$15.5 million, or 3.1%, as compared to \$497.9 million in the second quarter of 2014. Excluding the unfavorable impact of foreign currency fluctuations of \$30.2 million, consolidated net sales increased \$14.7 million, or 3.0%, in the second quarter of 2015. The increase in consolidated net sales in the second quarter of 2015 is primarily driven by an increase in Professional segment net sales of \$5.4 million, or 4.1%, and an increase in Consumer segment net sales of \$5.0 million, or 1.4%, compared to the second quarter of 2014.

Consolidated net sales in the first six months of 2015 were \$920.9 million, a decrease of \$46.8 million, or 4.8%, as compared to \$967.7 million in the first six months of 2014. Excluding the unfavorable impact of foreign currency fluctuations of \$61.2 million, consolidated net sales increased \$14.4 million, or 1.5%, in the first six months of 2015. The increase in consolidated net sales in the first six months of 2015 is primarily driven by an increase in Consumer segment net sales of \$9.6 million, or 1.4%, compared to the first six months of 2014.

See "Segment Results" below for further discussion.

Consolidated income from continuing operations, net of taxes, in the second quarter of 2015 was \$26.0 million, compared to consolidated income from continuing operations of \$14.4 million in the second quarter of 2014. The increase of \$11.6 million in 2015 was primarily due to:

\$15.1 million of favorable variance in foreign currency (gains) losses, net, as a result of \$7.9 million in foreign currency gains, net, recognized during the second quarter of 2015 primarily due to the favorable impact of the revaluation of certain U.S. Dollar denominated payables as compared to \$7.2 million in foreign currency losses, net, recognized during the second quarter of 2014, which was primarily due to a \$6.0 million foreign currency loss recognized as a result of the re-measurement of Revlon Venezuela's balance sheet as of June 30, 2014; and \$7.4 million decrease in restructuring charges and other, net, in the second quarter of 2015, which decrease is due to net reductions in estimated restructuring costs of \$3.6 million during the second quarter of 2015, as compared to \$3.8 million of charges incurred under the Integration Program during the second quarter of 2014; with the foregoing partially offset by:

\$9.6 million of lower gross profit in the second quarter of 2015 due to a \$15.5 million decrease in consolidated net sales, partially offset by a \$5.9 million decrease in cost of sales.

Consolidated income from continuing operations, net of taxes, in the first six months of 2015 was \$25.2 million, compared to consolidated income from continuing operations, net of taxes, of \$23.1 million in the first six months of 2014. The increase of \$2.1 million in the first six months of 2015 was primarily due to:

\$20.4 million decrease in restructuring charges and other, net, in the first six months of 2015, which decrease is due to \$17.3 million of charges taken under the Integration Program during the first six months of 2014, following its

implementation in January 2014, as compared to net reductions in estimated restructuring costs of \$3.1 million during the first six months of 2015; and
• \$2.8 million decrease in interest expense in the first six months of 2015 primarily due to lower weighted average borrowing rates and lower average debt outstanding;

Recent Events

Acquisition of CBBeauty Group

On April 21, 2015 (the "Acquisition Date"), the Company completed the CBB Acquisition for a total cash consideration of \$49.3 million. CBB is a U.K.-based company whose primary business consists of licensing and distributing fragrances under brands such as One Direction and Burberry. On the Acquisition Date, the Company used cash on hand to pay 70% of the total cash consideration, or \$34.6 million. The remaining \$14.7 million of the total cash consideration is payable over 4 years in equal annual installments, subject to the selling shareholders' compliance with certain service conditions. These remaining installments will be recorded as a component of SG&A expenses ratably over the 4-year period. CBB is expected to provide the Company with a platform to develop the Company's presence in the fragrance category. The results of operations of the CBB business are included in the Company's Consolidated Financial Statements commencing on the Acquisition Date. Pro forma results of operations have not been presented, as the impact of the CBB Acquisition on the Company's consolidated financial results is not material. See Note 2, "Business Combinations," to the Unaudited Consolidated Financial Statements in this Form 10-Q for further details related to the CBB Acquisition.

2015 Debt Related Transaction

On March 12, 2015, in accordance with the terms of the amended term loan agreement, which facility is comprised of (i) the \$675.0 million term loan due November 19, 2017 (the "2011 Term Loan") and (ii) the \$700.0 million term loan due October 8, 2019 (the "Acquisition Term Loan") (together, the "Amended Term Loan Agreement"), Products Corporation prepaid \$24.6 million of indebtedness, representing 50% of its 2014 "excess cash flow" as defined under the Amended Term Loan Agreement. The prepayment was applied on a ratable basis between the principal amounts outstanding under the 2011 Term Loan and the Acquisition Term Loan. The amount of the prepayment applied to the 2011 Term Loan reduced the principal amount outstanding by \$12.1 million to \$662.9 million (as all amortization payments under the 2011 Term Loan have been paid). The \$12.5 million applied to the Acquisition Term Loan reduced Products Corporation's future regularly scheduled quarterly amortization payments under the Acquisition Term Loan on a ratable basis from \$1.8 million prior to the prepayment to \$1.7 million after giving effect to the prepayment and through its maturity on October 8, 2019.

Operating Segments

The Company primarily operates in three segments, the Consumer segment, the Professional segment and the Other segment:

- The Consumer segment is comprised of the Company's consumer brands, which primarily include Revlon, Almay, SinfulColors and Pure Ice in color cosmetics; Revlon ColorSilk in women's hair color; Revlon in beauty tools; and Mitchum in anti-perspirant deodorants. The Company's principal customers for its consumer products include the mass retail channel in the U.S. and internationally, consisting of large mass volume retailers and chain drug and food stores in the U.S., as well as certain department stores and other specialty stores, such as perfumeries, outside the U.S. The Consumer segment also includes a skincare line and a hair color line sold in the mass retail channel, primarily in Spain.

• The Professional segment is comprised primarily of the Company's professional brands, which include Revlon Professional in hair color and hair care; CND-branded products in nail polishes and nail enhancements; and American

Crew in men's grooming products, all of which are sold worldwide in the professional salon channel. The Company's principal customers for its professional products include hair and nail salons and distributors in the U.S. and internationally. The Professional segment also includes a multi-cultural hair care line consisting of Creme of Nature hair care products sold in the mass retail channel and in professional salons, primarily in the U.S.

The Other segment primarily includes the operating results of the CBB business and related purchase accounting for the Company's April 2015 CBB Acquisition. The results included within the Other segment are not material to the Company's consolidated results of operations.

(all tabular amounts in millions, except share and per share amounts)

Results of Operations

In the tables below, all amounts are in millions and numbers in parentheses () denote unfavorable variances.

Consolidated Net Sales:

Second quarter results:

Consolidated net sales in the second quarter of 2015 were \$482.4 million, a decrease of \$15.5 million, or 3.1%, as compared to \$497.9 million in the second quarter of 2014. Excluding the unfavorable impact of foreign currency fluctuations of \$30.2 million, during the second quarter of 2015 consolidated net sales increased \$14.7 million, or 3.0%.

Year-to-date results:

Consolidated net sales in the first six months of 2015 were \$920.9 million, a decrease of \$46.8 million, or 4.8%, as compared to \$967.7 million in the first six months of 2014. Excluding the unfavorable impact of foreign currency fluctuations of \$61.2 million, during the first six months of 2015 consolidated net sales increased \$14.4 million, or 1.5%.

See "Segment Results" below for further discussion.

Segment Results:

The Company's management evaluates segment profit, which is defined as income from continuing operations before interest, taxes, depreciation, amortization, stock-based compensation expense, gains/losses on foreign currency fluctuations, gains/losses on the early extinguishment of debt and miscellaneous expenses, for each of the Company's reportable segments. Segment profit also excludes unallocated corporate expenses and the impact of certain items that are not directly attributable to the segments' underlying operating performance, which includes the impacts of: (i) restructuring and related charges; (ii) acquisition and integration costs; (iii) costs of sales resulting from a fair value adjustment in the second quarter of 2015 to inventory acquired in the CBB Acquisition; and (iv) costs of sales resulting from a fair value adjustment in the first quarter of 2014 to inventory acquired in the Colomer Acquisition. Unallocated corporate expenses primarily include general and administrative expenses related to the corporate organization. These expenses are recorded in unallocated corporate expenses as these items are centrally directed and controlled and are not included in internal measures of segment operating performance. During the second quarter of 2015, the Company removed pension-related costs for its U.S. qualified defined benefit pension plans from the measurement of its operating segment results. As a result, \$2.1 million and \$4.1 million in pension-related costs were reclassified from the measurement of Consumer segment profit and included as a component of unallocated corporate expenses for the three and six months ended June 30, 2014, respectively. The Company does not have any material inter-segment sales. For a reconciliation of segment profit to income from continuing operations before income taxes, see Note 14, "Segment Data and Related Information" to the Consolidated Financial Statements in this Form 10-Q. Consumer Segment

Second quarter results:

Consumer segment net sales in the second quarter of 2015 were \$354.7 million, a decrease of \$12.6 million, or 3.4%, compared to \$367.3 million in the second quarter of 2014. Excluding the unfavorable impact of foreign currency fluctuations of \$17.6 million, total Consumer net sales increased \$5.0 million, or 1.4%, in the second quarter of 2015, compared to the second quarter of 2014, primarily driven by higher net sales of Almay color cosmetics and Revlon color cosmetics, partially offset by lower net sales of SinfulColors color cosmetics. In the second quarter of 2015, the Company exited its business operations in Venezuela and changed to a distributor model. As a result, Consumer segment net sales were negatively impacted, as such change resulted in no net sales in Venezuela in the second quarter of 2015, compared to net sales in Venezuela of \$8.3 million in the second quarter of 2014. Excluding Venezuela, on an XFX basis, Consumer net sales would have increased by 3.7% in the second quarter of 2015, compared to the second quarter of 2014.

Consumer segment profit in the second quarter of 2015 was \$83.8 million, an increase of \$3.5 million, or 4.4%, compared to \$80.3 million in the second quarter of 2014. Excluding the unfavorable impact of foreign currency fluctuations of \$0.3 million, Consumer segment profit increased \$3.2 million in the second quarter of 2015, compared to the second quarter of 2014, primarily driven by higher gross profit as a result of the increases in net sales, as well as price increases, favorable sales mix and cost reductions within cost of sales, partially offset by \$7.3 million of higher brand support expenses for the Company's Consumer brands. In connection with the Company's exit of its business operations in Venezuela in the second quarter of 2015 and change to a distributor model, there was no profit in Venezuela in the second quarter of 2015, compared to profit in Venezuela of \$4.6 million in the second quarter of 2014. Excluding Venezuela, on an XFX basis, Consumer segment profit would have increased by 11.6% in the second quarter of 2015, compared to the second quarter of 2014.

Year-to-date results:

Consumer segment net sales in the first six months of 2015 were \$679.0 million, a decrease of \$27.8 million, or 3.9%, compared to \$706.8 million in the first six months of 2014. Excluding the unfavorable impact of foreign currency fluctuations of \$37.4 million, total Consumer net sales increased \$9.6 million, or 1.4%, in the first six months of 2015, compared to the first six months of 2014, primarily driven by higher net sales of Revlon color cosmetics, Mitchum anti-perspirant deodorant products and Almay color cosmetics, partially offset by lower net sales of SinfulColors color cosmetics. In connection with the Company's exit of its business operations in Venezuela in the second quarter of 2015 and change to a distributor model, Consumer segment net sales were negatively impacted, as such change resulted in net sales in Venezuela of \$0.9 million in the first six months of 2015, compared to net sales in Venezuela of \$13.2 million in the first six months of 2014. Excluding Venezuela, on an XFX basis, Consumer net sales would have increased by 2.1% in the first six months of 2015, compared to the first six months of 2014.

Consumer segment profit in the first six months of 2015 was \$146.0 million, a decrease of \$3.8 million, or 2.5%, compared to \$149.8 million in the first six months of 2014. Excluding the unfavorable impact of foreign currency fluctuations of \$1.6 million, Consumer segment profit decreased \$2.2 million in the first six months of 2015 compared to the year ago period, primarily driven by \$18.8 million of higher brand support expenses for the Company's Consumer brands, partially offset by higher gross profit as a result of the increases in net sales, as well as price increases, favorable sales mix and cost reductions within cost of sales. In connection with the Company's exit of its business operations in Venezuela in the second quarter of 2015 and change to a distributor model, there was profit of \$0.1 million in Venezuela in the first six months of 2015, compared to profit in Venezuela of \$6.2 million in the first six months of 2014. Excluding Venezuela, on an XFX basis, Consumer segment profit would have increased by 2.5% in the first six months of 2015, compared to the first six months of 2014.

Professional Segment

Second quarter results:

Professional segment net sales in the second quarter of 2015 were \$123.4 million, a decrease of \$7.2 million, or 5.5%, compared to \$130.6 million in the second quarter of 2014. Excluding the unfavorable impact of foreign currency fluctuations of \$12.6 million, total Professional net sales increased \$5.4 million, or 4.1%, in the second quarter of 2015, compared to the second quarter of 2014, primarily as a result of higher net sales of American Crew men's grooming products and Revlon Professional hair products.

Professional segment profit in the second quarter of 2015 was \$24.3 million, a decrease of \$7.1 million, or 22.6%, compared to \$31.4 million in the second quarter of 2014. Excluding the unfavorable impact of foreign currency fluctuations of \$0.4 million, Professional segment profit decreased \$6.7 million in the second quarter of 2015 compared to the second quarter of 2014, primarily due to \$7.0 million of higher brand support expenses for the Company's Professional brands. In addition, Professional segment profit in the second quarter of 2014 included a favorable adjustment of \$3.4 million related to a decrease in the inventory obsolescence reserve, with no similar adjustment in the second quarter of 2015. These decreases were partially offset by the increases in net sales discussed above.

Year-to-date results:

Professional segment net sales in the first six months of 2015 were \$237.6 million, a decrease of \$23.3 million, or 8.9%, compared to \$260.9 million in the first six months of 2014. Excluding the unfavorable impact of foreign currency fluctuations of \$23.8 million, total Professional net sales were essentially flat, primarily as a result of higher net sales of American Crew men's grooming products and Revlon Professional hair products, mostly offset by lower net sales of CND nail products.

Professional segment profit in the first six months of 2015 was \$53.5 million, a decrease of \$9.8 million, or 15.5%, compared to \$63.3 million in the first six months of 2014. Excluding the unfavorable impact of foreign currency fluctuations of \$0.6 million, Professional segment profit decreased \$9.2 million in the first six months of 2015 compared to the year ago period, primarily due to \$12.1 million of higher brand support expenses for the Company's Professional brands, as well as a favorable adjustment of \$3.4 million recorded in the second quarter of 2014 related to a decrease in the inventory obsolescence reserve, with no similar adjustment in the second quarter of 2015.

(all tabular amounts in millions, except share and per share amounts)

United States

Second quarter results:

In the U.S., net sales in the second quarter of 2015 increased \$11.8 million, or 4.6%, to \$267.0 million, as compared to \$255.2 million in the second quarter of 2014, primarily due to higher net sales of Almay color cosmetics, Revlon color cosmetics and Revlon ColorSilk hair color, partially offset by lower net sales of SinfulColors color cosmetics and CND nail products.

Year-to-date results:

In the U.S., net sales in the first six months of 2015 increased \$6.0 million, or 1.2%, to \$511.4 million, as compared to \$505.4 million in the first six months of 2014, primarily due to higher net sales of Revlon color cosmetics, Revlon ColorSilk hair color and Almay color cosmetics, partially offset by lower net sales of CND nail products and SinfulColors color cosmetics.

International

Second quarter results:

International net sales in the second quarter of 2015 decreased \$27.3 million, or 11.2%, to \$215.4 million, as compared to \$242.7 million in the second quarter of 2014. Excluding the \$30.2 million unfavorable impact of foreign currency fluctuations, International net sales increased \$2.9 million, or 1.2%, primarily due to higher net sales of American Crew men's grooming products and Revlon Professional hair products. These increases in International net sales were mostly offset by lower overall Consumer net sales in Venezuela driven by the Company's exit of its business operations in Venezuela in the second quarter of 2015. Excluding Venezuela, on an XFX basis, International net sales would have increased by 4.8% in the second quarter of 2015, compared to the second quarter of 2014.

Year-to-date results:

International net sales in the first six months of 2015 decreased \$52.8 million, or 11.4%, to \$409.5 million, as compared to \$462.3 million in the first six months of 2014. Excluding the \$61.2 million unfavorable impact of foreign currency fluctuations, International net sales increased \$8.4 million, or 1.8% in the first six months of 2015 compared to the year ago period, primarily due to higher net sales of both Revlon color cosmetics and American Crew men's grooming products throughout most of the international region and Revlon Professional hair products, primarily in Spain. These increases were partially offset by no Consumer net sales in Venezuela driven by the Company's exit of its business operations in Venezuela in the second quarter of 2015. Excluding Venezuela, on an XFX basis, International net sales would have increased by 3.1% in the first six months of 2015, compared to the first six months of 2014.

Gross profit:

Gross profit increased as a percentage of net sales by 0.1 percentage points, while decreasing \$9.6 million in the second quarter of 2015, as compared to the second quarter of 2014. The drivers of the variances in gross profit in the second quarter of 2015, as compared to the second quarter of 2014, primarily included:

- favorable sales mix, which increased gross profit by \$2.9 million and increased gross profit as a percentage of net sales by 0.6 percentage points;

- lower manufacturing and freight costs in the second quarter of 2015, as a result of supply chain cost reduction initiatives, which increased gross profit by \$2.1 million and increased gross profit as a percentage of net sales in the second quarter of 2015 by 0.4 percentage points;

lower returns, which increased gross profit by \$4.5 million and increased gross profit as a percentage of net sales by 0.3 percentage points; and
favorable volume, which increased gross profit by \$3.4 million, with no impact on gross profit as a percentage of net sales;

with the foregoing partially offset by:

a favorable adjustment related to a decrease in the inventory obsolescence reserve in the second quarter of 2014, with no similar adjustment in the second quarter of 2015, and which reduced gross profit by \$3.4 million and reduced gross profit as a percentage of net sales by 0.7 percentage points; and

unfavorable foreign currency fluctuations, which reduced gross profit by \$22.9 million and reduced gross profit as a percentage of net sales by 0.5 percentage points.

Gross profit increased as a percentage of net sales by 1.2 percentage points, while decreasing \$19.7 million in the first six months of 2015, as compared to the first six months of 2014. The drivers of the variances in gross profit in the first six months of 2015, as compared to the first six months of 2014, primarily included:

favorable sales mix, which increased gross profit by \$8.1 million and increased gross profit as a percentage of net sales by 0.9 percentage points;

lower manufacturing and freight costs in the first six months of 2015, as a result of supply chain cost reduction initiatives, which increased gross profit by \$4.2 million and increased gross profit as a percentage of net sales in the first six months of 2015 by 0.5 percentage points;

lower returns, which increased gross profit by \$9.7 million and increased gross profit as a percentage of net sales by 0.4 percentage points; and

favorable volume, which increased gross profit by \$4.1 million, with no impact on gross profit as a percentage of net sales;

with the foregoing partially offset by:

unfavorable foreign currency fluctuations, which reduced gross profit by \$46.2 million and reduced gross profit as a percentage of net sales by 0.6 percentage points; and

a favorable adjustment related to a decrease in the inventory obsolescence reserve in the first six months of 2014, with no similar adjustment in the first six months of 2015, and which reduced gross profit by \$3.4 million and reduced gross profit as a percentage of net sales by 0.4 percentage points.

SG&A expenses	\$259.3	\$263.6	\$(4.3)	\$508.6	\$509.8	\$(1.2)

SG&A expenses decreased \$4.3 million in the second quarter of 2015 as compared to the second quarter of 2014, primarily driven by:

\$21.1 million of favorable impacts due to foreign currency fluctuations;

with the foregoing partially offset by:

\$14.7 million of higher brand support expenses for the Company's brands within both the Consumer and Professional segments.

SG&A expenses decreased \$1.2 million in the first six months of 2015 as compared to the first six months of 2014, primarily driven by:

\$40.6 million of favorable impacts due to foreign currency fluctuations in the first six months of 2015;

with the foregoing partially offset by:

\$31.3 million of higher brand support expenses for the Company's brands within both the Consumer and Professional segments in the first six months of 2015; and

\$6.9 million of higher general and administrative expenses in the first six months of 2015, primarily due to higher severance costs and stock-based compensation expense, partially offset by lower incentive compensation.

Acquisition and integration costs	\$4.7	\$0.7	\$(4.0)		\$5.9	\$4.5	\$(1.4)

The acquisition and integration costs for the three and six months ended June 30, 2015 are summarized in the table presented below.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Acquisition costs	\$4.0	\$—	\$4.7	\$0.4
Integration costs	0.7	0.7	1.2	4.1
Total acquisition and integration costs	\$4.7	\$0.7	\$5.9	\$4.5

Acquisition costs in the second quarter of 2015 primarily included legal fees and consulting fees related to the CBB Acquisition. There were no acquisition costs in the second quarter of 2014. Acquisition costs in the first six months of 2015 and the first six months of 2014 primarily included legal fees and consulting fees related to the CBB Acquisition and the Colomer Acquisition, respectively.

Integration costs consist of non-restructuring costs related to the Company's integration of Colomer's operations into the Company's business. Integration costs incurred during the second quarter of 2015 primarily included professional fees. Integration costs incurred during the first six months of 2015 primarily included legal and professional fees. Integration costs incurred during both the second quarter of 2014 and during the first six months of 2014 included employee-related costs related to management changes and audit-related fees.

Restructuring charges and other, net:

Restructuring charges and other, net	\$(3.6)	\$3.8	\$7.4		\$(3.1)	\$17.3	\$20.4

The reduction in restructuring charges and other, net for the second quarter of 2015 primarily related to changes in estimated employee-related costs related to the Integration Program. During the second quarter of 2014, the Company recorded charges totaling \$2.1 million related to restructuring and related actions under the Integration Program, of which \$1.8 million was recorded in restructuring charges and other, net, and \$0.1 million was recorded in cost of sales and \$0.2 million was recorded in SG&A expenses. During the second quarter of 2014, the Company also recorded charges of \$2.0 million within restructuring charges and other, net, related to employee-related costs for other immaterial restructuring actions within the Consumer segment.

The reduction in restructuring charges and other, net, for the first six months of 2015 primarily related to changes in estimated employee-related costs related to the Integration Program. During the first six months of 2014, the Company recorded charges totaling \$15.7 million related to restructuring and related actions under the Integration Program, of which \$15.3 million was recorded in restructuring charges and other, net, and \$0.1 million was recorded in cost of sales and \$0.3 million was recorded in SG&A expenses. During the first six months of 2014, the Company also recorded charges of \$2.0 million within restructuring charges and other, net, related to employee-related costs for other immaterial restructuring actions within the Consumer segment.

The Company continues to expect to achieve annualized cost reductions from the Integration Program of approximately \$30.0 million to \$35.0 million by the end of 2015.

See Note 3, "Restructuring Charges" to the Consolidated Financial Statements in this Form 10-Q for further discussion.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(all tabular amounts in millions, except share and per share amounts)

Interest expense:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2015	2014	Change	2015	2014	Change
Interest expense	\$20.5	\$21.0	\$0.5	\$40.5	\$43.3	\$2.8

The \$0.5 million and \$2.8 million decrease in interest expense in second quarter and first six months of 2015, as compared to the prior periods of 2014, was primarily due to lower average debt outstanding as a result of (i) regularly scheduled quarterly amortization payments made towards the Acquisition Term Loan through June 30, 2015 (as defined in Note 8, "Long-Term Debt" to the Consolidated Financial Statements in this Form 10-Q), (ii) the favorable benefit to the first six months of 2015 as a result of the May 1, 2014 prepayment of the remaining \$58.4 million principal amount outstanding under the Non-Contributed Loan portion of the 2008 Amended and Restated Senior Subordinated Term Loan Agreement with MacAndrews & Forbes, and (iii) the \$24.6 million March 2015 excess cash flow prepayment, of which \$12.1 million was applied to the principal amount outstanding under the 2011 Term Loan (the remaining \$12.5 million of the excess cash flow prepayment that was applied to the Acquisition Term Loan reduced Products Corporation's future regularly scheduled quarterly amortization payments under the Acquisition Term Loan on a ratable basis from \$1.8 million prior to such prepayment to \$1.7 million after giving effect to such prepayment and through its maturity on October 8, 2019).

Foreign currency (gains) losses, net:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2015	2014	Change	2015	2014	Change
Foreign currency (gains) losses, net	\$(7.9)	\$7.2	\$(15.1)	\$8.0	\$8.6	\$(0.6)

Foreign currency (gains), net, of \$7.9 million during the second quarter of 2015, as compared to foreign currency losses, net, of \$7.2 million during the second quarter of 2014, were driven by \$7.9 million in foreign currency (gains), net, recognized during the second quarter of 2015 primarily due to the favorable impact of the revaluation of certain U.S. Dollar denominated payables, as compared to \$7.2 million in foreign currency losses, net, recognized during the second quarter of 2014 which were primarily due to a \$6.0 million foreign currency loss recognized as a result of the re-measurement of Revlon Venezuela's balance sheet, with no comparable loss in the second quarter of 2015.

The decrease in foreign currency losses, net, of \$0.6 million during the first six months of 2015, as compared to the first six months of 2014, was primarily driven by:

a \$6.0 million foreign currency loss recognized in the first six months of 2014 as a result of the re-measurement of Revlon Venezuela's balance sheet, as compared to a \$1.9 million foreign currency loss recognized in the first six months of 2015;

with the foregoing partially offset by:

the unfavorable impact of the revaluation of certain U.S. Dollar denominated intercompany payables during the first six months of 2015, as compared to the first six months of 2014.

Provision for income taxes:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2015	2014	Change	2015	2014	Change
Provision for income taxes	\$20.5	\$18.5	\$(2.0)	\$29.2	\$25.5	\$3.7

The provision for income taxes increased \$2.0 million in the second quarter of 2015, as compared to the second quarter of 2014, primarily due to higher pretax income in the second quarter of 2015.

The provision for income taxes increased \$3.7 million in the first six months of 2015, as compared to the first six months of 2014, primarily due to certain discrete items that favorably affected the provision for income taxes in the first six months of 2014, which did not recur in the first six months of 2015, partially offset by the timing of the recognition of the provision for income taxes based on pretax income for the first six months of 2015 as compared to the first six months of 2014.

REVLON, INC. AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(all tabular amounts in millions, except share and per share amounts)

The Company's effective tax rate for the three months ended June 30, 2015 was higher than the federal statutory rate of 35% due principally to foreign dividends and earnings taxable in the U.S. and state and local taxes.

The Company's effective tax rate for the six months ended June 30, 2015 was higher than the federal statutory rate of 35% due principally to foreign and U.S. tax effects attributable to operations outside the U.S., foreign dividends and earnings taxable in the U.S. and state and local taxes.

The Company expects that its tax provision and effective tax rate in any individual quarter and year-to-date period will vary and may not be indicative of the Company's tax provision and effective tax rate for the full year.

Financial Condition, Liquidity and Capital Resources

At June 30, 2015, the Company had a liquidity position of \$358.8 million, consisting of cash and cash equivalents (net of any outstanding checks) of \$192.6 million, as well as \$166.2 million in available borrowings under Products Corporation's \$175.0 million asset-based, multi-currency revolving credit facility (the "Amended Revolving Credit Facility"), based upon the borrowing base less \$8.8 million of undrawn outstanding letters of credit and nil then drawn under the Amended Revolving Credit Facility at such date.

The Company's foreign operations held \$48.7 million out of the total \$192.6 million in cash and cash equivalents (net of any outstanding checks) as of June 30, 2015. The cash held by the Company's foreign operations is primarily used to fund such operations. The Company regularly assesses its cash needs and the available sources of cash to fund these needs. As part of this assessment, the Company determines the amount of foreign earnings, if any, that it intends to repatriate to help fund its domestic cash needs, including for the Company's debt service obligations, and pays applicable U.S. income and foreign withholding taxes, if any, on such earnings. The Company believes that the cash generated by its domestic operations and availability under the Amended Revolving Credit Facility and other permitted lines of credit should be sufficient to meet its domestic liquidity needs for at least the next twelve months. Therefore, the Company does not currently anticipate that restrictions or taxes on repatriation of foreign earnings will have a material effect on the Company's liquidity during such period.

Changes in Cash Flows

At June 30, 2015, the Company had cash and cash equivalents of \$199.0 million, compared with \$275.3 million at December 31, 2014. The following table summarizes the Company's cash flows from operating, investing and financing activities for the six months ended June 30, 2015 and 2014:

	Six Months Ended June 30,	
	2015	2014
Net cash provided by (used in) operating activities	\$2.5	\$(6.4)
Net cash used in investing activities	(49.4)	(13.1)
Net cash used in financing activities	(23.5)	(57.7)
Effect of exchange rate changes on cash and cash equivalents	(5.9)	(9.2)

Operating Activities

Net cash provided by (used in) operating activities was \$2.5 million and \$(6.4) million for the first six months of 2015 and 2014, respectively. Cash provided by (used in) operating activities in the first six months of 2015, as compared to the first six months of 2014, improved \$8.9 million, primarily driven by less cash used in discontinued operations, as well as lower payments for interest and pension contributions in the first six months of 2015; partially offset by higher brand support and incentive compensation payments in the first six months of 2015.

Net cash provided by (used in) operating activities related to discontinued operations, including restructuring payments, was approximately \$0.3 million and (\$24 million) for the first six months of 2015 and 2014, respectively.

Investing Activities

Net cash used in investing activities was \$49.4 million and \$13.1 million for the first six months of 2015 and 2014, respectively. Net cash used in investing activities during the first six months of 2015 included \$34.2 million in cash payments, net of cash acquired, primarily for the CBB Acquisition, partially offset by \$2.0 million in cash proceeds from the sale of certain assets. Net cash used in investing activities during the first six months of 2015 and 2014 included \$17.2 million and \$13.3 million of cash used for capital expenditures, respectively.

Financing Activities

Net cash used in financing activities was \$23.5 million and \$57.7 million for the six months ended June 30, 2015 and 2014, respectively.

Net cash used in financing activities for the first six months of 2015, primarily included:

- \$24.6 million required prepayment made under the Amended Term Loan Facility, as discussed below; and
- \$3.4 million of scheduled amortization payments on the Acquisition Term Loan;

with the foregoing partially offset by:

- \$6.6 million of short-term borrowings and overdraft.

Net cash provided by financing activities for the first six months of 2014 included:

- the complete repayment of the \$58.4 million aggregate principal amount outstanding of the Non-Contributed Loan;
- \$3.5 million scheduled amortization payments on the Acquisition Term Loan; and
- the payment of \$1.8 million of financing costs primarily related to the February 2014 Term Loan Amendment;

with the foregoing partially offset by:

- \$7.4 million of short-term borrowings and overdraft.

Cash Pooling Arrangement

As of December 31, 2014, certain of the Company's foreign subsidiaries utilized a cash pooling arrangement with a financial institution for cash management purposes. This cash pooling arrangement allowed the Company's participating subsidiaries to withdraw cash from the financial institution to the extent that aggregate cash deposits held by the Company's participating subsidiaries were available at the financial institution. To the extent any participating location on an individual basis was in an overdraft position, such overdrafts would be recorded within short-term borrowings in the Consolidated Balance Sheet and reflected as financing activities in the Consolidated Statement of Cash Flows, and the cash deposits held as collateral for such overdrafts would be classified as restricted cash within cash and cash equivalents. As of June 30, 2015, the Company no longer has a cash pool arrangement, and therefore, has no restricted cash recorded in cash and cash equivalents in the Consolidated Balance Sheet.

Long-Term Debt Instruments

For further detail regarding Products Corporation's long-term debt instruments, see Note 11, "Long-Term Debt," to the Consolidated Financial Statements in Revlon, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2014, filed with the U.S. Securities and Exchange Commission (the "SEC") on March 12, 2015 (the "2014 Form 10-K"), as well as "Management's Discussion and Analysis of Financial Condition and Results of Operations - Financial Condition, Liquidity and Capital Resources" in Revlon, Inc.'s 2014 Form 10-K.

(a) 2015 Debt Related Transaction

Amended Term Loan Facility - Excess Cash Flow Payment

On March 12, 2015, in accordance with the terms of the Amended Term Loan Facility, Products Corporation prepaid \$24.6 million of indebtedness, representing 50% of its 2014 "excess cash flow" as defined under the Amended Term Loan Agreement. The prepayment was applied on a ratable basis between the principal amounts outstanding under the 2011 Term Loan and the Acquisition Term Loan. The amount of the prepayment applied to the 2011 Term Loan reduced the principal amount outstanding by \$12.1 million to \$662.9 million (as all amortization payments under the 2011 Term Loan had been paid). The \$12.5 million applied to the Acquisition Term Loan reduced Products Corporation's future regularly scheduled quarterly amortization payments under the Acquisition Term Loan on a ratable basis from \$1.8 million prior to the prepayment to \$1.7 million after giving effect to the prepayment and

through its maturity on October 8, 2019.

(b) Covenants

Amended Credit Agreements

Products Corporation was in compliance with all applicable covenants under the Amended Term Loan Agreement and the Amended Revolving Credit Facility (the "Amended Credit Agreement") as of June 30, 2015 and December 31, 2014. At June 30, 2015, the aggregate principal amounts outstanding under the Acquisition Term Loan and the 2011 Term Loan were \$677.1 million and \$662.9 million, respectively, and availability under the \$175.0 million Amended Revolving Credit Facility, based upon the calculated borrowing base less \$8.8 million of outstanding undrawn letters of credit and nil then drawn on the Amended Revolving Credit Facility, was \$166.2 million. There were no borrowings under the Amended Revolving Credit Facility during the first six months of 2015 and 2014.

Products Corporation was in compliance with all applicable covenants under its 5¾% Senior Notes Indenture as of June 30, 2015 and December 31, 2014.

Impact of Foreign Currency Translation – Venezuela

Revlon Venezuela's net sales are de minimis, representing approximately 1% of the Company's consolidated net sales for the first six months of 2015 and 2014. At June 30, 2015 and December 31, 2014, Revlon Venezuela's assets represented approximately 1% of the Company's total assets, respectively.

In January 2014, the Venezuela government announced that the CADIVI would be replaced by the government-operated National Center of Foreign Commerce (the "CENCOEX"), and indicated that the Sistema Complementario de Administración de Divisas ("SICAD") market would continue to be offered as an alternative foreign currency exchange. Additionally, a parallel foreign currency exchange system, SICAD II, started functioning in March 2014 which allowed companies to apply for the purchase of foreign currency and foreign currency denominated securities for any legal use or purpose. Throughout 2014, the Company exchanged Bolivars for U.S. Dollars to the extent permitted through the various foreign currency markets available based on its ability to participate in those markets. Prior to June 30, 2014, the Company utilized the official rate of 6.3 Bolivars per U.S. Dollar (the "Official Rate") and following a consideration of the Company's specific facts and circumstances, which included its legal ability and intent to participate in the SICAD II exchange market to import finished goods into Venezuela, the Company had determined that it was appropriate to utilize the SICAD II Rate of 53 Bolivars per U.S. Dollar (the "SICAD II Rate") to translate Revlon Venezuela's financial statements beginning on June 30, 2014. As a result, the Company recorded a foreign currency loss of \$6.0 million in the second quarter of 2014 related to the required re-measurement of Revlon Venezuela's monetary assets and liabilities.

In February 2015, the Venezuela government introduced a new foreign currency exchange platform, the Marginal Currency System ("SIMADI"), which created a third new mechanism to trade dollars through private brokers. SIMADI replaced the SICAD II system and started operating on February 12, 2015. As a result, the Company considered its specific facts and circumstances in order to determine the appropriate rate of exchange to translate Revlon Venezuela's financial statements. As of June 30, 2015, the Company has not participated in the SIMADI exchange market; however, given the elimination of the SICAD II system, the Company determined that it was appropriate to use the SIMADI rate of 193 Bolivars per U.S. Dollar (the "SIMADI Rate") to translate Revlon Venezuela's balance sheet beginning on March 31, 2015.

As a result of the change from the SICAD II Rate to the SIMADI Rate on March 31, 2015, the Company was required to re-measure all of Revlon Venezuela's monetary assets and liabilities at the SIMADI Rate of 193 Bolivars per U.S. Dollar. The Company recorded a foreign currency loss of \$1.9 million in the first quarter of 2015 as a result of the required re-measurement of Revlon Venezuela's balance sheet. As Venezuela was designated as a highly inflationary economy effective January 1, 2010, the Company reflected this foreign currency loss in earnings. For both the three and six months ended June 30, 2015, the change from the SICAD II Rate to the SIMADI Rate had the impact of reducing the Company's net sales by nil and \$0.7 million, respectively, and increasing the Company's operating income by \$0.3 million and \$0.2 million, respectively.

During the second quarter of 2015, the Company exited its business operations in Venezuela and changed to a distributor model. Current or additional governmental restrictions, worsening import authorization controls, price and profit controls or labor unrest in Venezuela could impact the Company's ability to sell to the distributor in Venezuela.

Sources and Uses

The Company's principal sources of funds are expected to be operating revenues, cash on hand and funds available for borrowing under the Amended Revolving Credit Facility and other permitted lines of credit. The Amended Credit Agreements, and the 5¾% Senior Notes Indenture contain certain provisions that by their terms limit Products Corporation and its subsidiaries' ability to, among other things, incur additional debt.

The Company's principal uses of funds are expected to be the payment of operating expenses, including expenses in connection with the continued execution of the Company's business strategy; purchases of permanent wall displays; capital expenditure requirements; debt service payments and costs; cash tax payments; pension and other post-retirement benefit plan contributions; payments in connection with the Company's restructuring programs; costs related to the continuing integration of the Colomer Acquisition; business and/or brand acquisitions, if any; severance not otherwise included in the Company's restructuring programs; debt and/or equity repurchases, if any; costs related to litigation; and payments in connection with discontinuing non-core business lines and/or exiting certain territories. The Company's cash contributions to its pension and post-retirement benefit plans in the first six months of 2015 were \$5.2 million. The Company expects cash contributions to its pension and post-retirement benefit plans to be approximately \$20 million in the aggregate for 2015. The Company's cash taxes paid in the first six months of 2015 were \$11.0 million. The Company expects to pay cash taxes of approximately \$25 million in the aggregate for 2015. The Company's purchases of permanent wall displays and capital expenditures in the first six months of 2015 were \$22.0 million and \$17.2 million, respectively. The Company expects purchases of permanent wall displays and capital expenditures to be approximately \$50 million and \$55 million, respectively, in the aggregate for 2015. See also Note 2, "Business Combinations," for discussion regarding the use of funds related to the Company's April 2015 CBB Acquisition.

The Company has undertaken, and continues to assess, refine and implement, a number of programs to efficiently manage its working capital, including, among other things, initiatives intended to optimize inventory levels over time; centralized procurement to secure discounts and efficiencies; prudent management of trade receivables and accounts payable; and controls on general and administrative spending. In the ordinary course of business, the Company's source or use of cash from operating activities may vary on a quarterly basis as a result of a number of factors, including the timing of working capital flows.

Continuing to execute the Company's business strategy could include taking advantage of additional opportunities to reposition, repackage or reformulate one or more brands or product lines, launching additional new products, acquiring businesses or brands, divesting or discontinuing non-core business lines (which may include exiting certain territories), further refining the Company's approach to retail merchandising and/or taking further actions to optimize its manufacturing, sourcing and organizational size and structure, including optimizing the Company's Colomer Acquisition and CBB Acquisition. The Company plans to continue to integrate the operations of Colomer into the Company's business and continues to expect to achieve approximately \$30.0 million to \$35.0 million of annualized cost reductions by the end of 2015 (approximately \$17.0 million of which benefited the Company's 2014 results) at a cost of approximately \$50 million in the aggregate over 2013 through 2015. Any of these actions, the intended purpose of which would be to create value through improving the Company's financial performance, could result in the Company making investments and/or recognizing charges related to executing against such opportunities. Any such activities may be funded with cash on hand, funds available under the Amended Revolving Credit Facility and/or other permitted additional sources of capital, which actions could increase the Company's total debt.

The Company may also, from time to time, seek to retire or purchase its outstanding debt obligations and/or equity in open market purchases, in privately negotiated transactions or otherwise and may seek to refinance some or all of its indebtedness based upon market conditions. Any retirement or purchase of debt and/or equity may be funded with operating cash flows of the business or other sources and will depend upon prevailing market conditions, liquidity requirements, contractual restrictions and other factors, and the amounts involved may be material.

The Company expects that operating revenues, cash on hand and funds available for borrowing under the Amended Revolving Credit Facility and other permitted lines of credit will be sufficient to enable the Company to pay its operating expenses for 2015, including expenses in connection with the execution of the Company's business strategy, purchases of permanent wall displays, capital expenditure requirements, debt service payments and costs, cash tax payments, pension and other post-retirement plan contributions, payments in connection with the Company's restructuring programs, integration costs related to the Colomer Acquisition, business and/or brand acquisitions, if

any, severance not otherwise included in the Company's restructuring programs, debt and/or equity repurchases, if any, costs related to litigation and/or discontinuing non-core business lines and/or exiting certain territories.

There can be no assurance that available funds will be sufficient to meet the Company's cash requirements on a consolidated basis. If the Company's anticipated level of revenues is not achieved because of, among other things, decreased consumer spending in response to weak economic conditions or weakness in the consumption of beauty care products in either the Consumer or Professional segment; adverse changes in currency exchange rates, currency controls and/or government-mandated pricing controls; decreased sales of the Company's products as a result of increased competitive activities by the Company's competitors; changes in consumer purchasing habits, including with respect to shopping channels and/or among professional salons; inventory management by the Company's customers; space reconfigurations or reductions in display space by the Company's customers; changes in pricing or promotional strategies by the Company's customers; or less than anticipated results from the Company's existing or new products or from its advertising, promotional and/or marketing plans; or if the Company's expenses, including, without limitation, for restructuring costs, acquisition and integration costs (including, without limitation, costs related to the continued integration of the Colomer Acquisition), costs related to litigation, advertising, promotional and marketing activities or for sales returns related to any reduction of space by the Company's customers, product discontinuances or otherwise, exceed the anticipated level of expenses, the Company's current sources of funds may be insufficient to meet the Company's cash requirements.

Any such developments, if significant, could reduce the Company's revenues and operating income and could adversely affect Products Corporation's ability to comply with certain financial covenants under the Amended Credit Agreements and in such event the Company could be required to take measures, including, among other things, reducing discretionary spending. (See Item 1A. "Risk Factors" in Revlon, Inc.'s 2014 Form 10-K for further discussion of certain risks associated with the Company's business and indebtedness.)

Derivative Financial Instruments

Foreign Currency Forward Exchange Contracts

Products Corporation enters into FX Contracts and option contracts from time to time to hedge certain net cash flows denominated in currencies other than the local currencies of the Company's foreign and domestic operations. The FX Contracts are entered into primarily for the purpose of hedging anticipated inventory purchases and certain intercompany payments denominated in currencies other than the local currencies of the Company's foreign and domestic operations and generally have maturities of less than one year. At June 30, 2015, the FX Contracts outstanding had a notional amount of \$61.2 million and a net asset fair value of \$0.5 million.

Interest Rate Swap Transaction

In November 2013, Products Corporation executed a forward-starting floating-to-fixed interest rate swap transaction with a 1.00% floor, based on a notional amount of \$400 million in respect of indebtedness under the Acquisition Term Loan over a period of three years (the "2013 Interest Rate Swap"). The Company designated the 2013 Interest Rate Swap as a cash flow hedge of the variability of the forecasted three-month LIBOR interest rate payments related to Products Corporation's Acquisition Term Loan with respect to the \$400 million notional amount over the three-year term of the 2013 Interest Rate Swap. Under the terms of the 2013 Interest Rate Swap, Products Corporation will receive from the counterparty a floating interest rate based on the higher of three-month USD LIBOR or 1.00%, which commenced in May 2015, while paying a fixed interest rate payment to the counterparty equal to 2.0709% (which effectively fixes the interest rate on such notional amount at 5.0709% over the three-year term of the 2013 Interest Rate Swap). For the six months ended June 30, 2015, the 2013 Interest Rate Swap was deemed effective and therefore the changes in fair value related to the 2013 Interest Rate Swap have been recorded in Other Comprehensive (Loss) Income in the Consolidated Financial Statements. The fair value of the Company's 2013 Interest Rate Swap at June 30, 2015 and December 31, 2014 was a liability of \$7.1 million and \$3.5 million, respectively.

Credit Risk

Exposure to credit risk in the event of nonperformance by any of the counterparties is limited to the gross fair value of the derivative instruments in asset positions, which totaled \$0.7 million and \$0.2 million as of June 30, 2015 and December 31, 2014, respectively. The Company attempts to minimize exposure to credit risk by generally entering into derivative contracts with counterparties that have investment-grade credit ratings and are major financial institutions. The Company also periodically monitors any changes in the credit ratings of its counterparties. Given the

current credit standing of the counterparties to the Company's derivative instruments, the Company believes the risk of loss arising from any non-performance by any of the counterparties under these derivative instruments is remote.

Disclosures about Contractual Obligations and Commercial Commitments

As of June 30, 2015, there were no material changes to the Company's total contractual cash obligations, as set forth in the contractual obligations and commercial commitments disclosure included in Revlon, Inc.'s 2014 Form 10-K.

Off-Balance Sheet Transactions

The Company does not maintain any off-balance sheet transactions, arrangements, obligations or other relationships with unconsolidated entities or others that are reasonably likely to have a material current or future effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Sensitivity

The Company has exposure to changing interest rates primarily under Products Corporation's Amended Term Loan Facility and its Amended Revolving Credit Facility. The Company manages interest rate risk through a combination of fixed and floating rate debt. The Company from time to time makes use of derivative financial instruments to adjust its fixed and floating rate ratio, such as the 2013 Interest Rate Swap referenced below. The Company does not hold or issue financial instruments for trading purposes.

The qualitative and quantitative information presented in Item 7A of Revlon, Inc.'s 2014 Form 10-K ("Item 7A") describes significant aspects of the Company's financial instrument programs that have material market risk as of December 31, 2014. The following tables present this information as required by Item 7A as of June 30, 2015:

Expected Maturity Date for the year ended December 31,
(dollars in millions, except for rate information)

	2015	2016	2017	2018	2019	Thereafter	Total	Fair Value June 30, 2015
Debt								
Short-term variable rate (various currencies)	\$7.5						\$7.5	\$7.5
Average interest rate (a)	3.5	%						
Short-term fixed rate (third party - EUR)	1.0						1.0	\$1.0
Average interest rate	11.9	%						
Long-term fixed rate – third party (USD)						\$500.0	500.0	\$490.0
Average interest rate						5.75	%	
Long-term fixed rate – third party (EUR)			\$0.1	\$0.1	\$0.1	0.3	0.6	\$0.6
Average interest rate			0.0	% 0.0	% 0.0	% 0.0	%	
Long-term variable rate – third party (USD)	3.4	\$6.9	669.8	6.9	653.0		1,340.0	\$1,338.3
Average interest rate (a)(c)	4.0	% 4.0	% 3.7	% 4.7	% 4.9	%		
Total debt	\$11.9	\$6.9	\$669.9	\$7.0	\$653.1	\$500.3	\$1,849.1	\$1,837.4

(a) Weighted average variable rates are based upon implied forward rates from the U.S. Dollar LIBOR and Euribor yield curves at June 30, 2015.

(b) Includes total quarterly amortization payments required within each year under the Acquisition Term Loan.

At June 30, 2015, the Acquisition Term Loan bears interest at the Eurodollar Rate (as defined in the Amended Term Loan Agreement) plus 3.00% per annum (with the Eurodollar Rate not to be less than 1.00%). The 2011 Term Loan bears interest at the Eurodollar Rate plus 2.5% per annum (with the Eurodollar Rate not to be less than 0.75%).

If any of LIBOR, Euribor, the base rate, the U.S. federal funds rate or such equivalent local currency rate increases, Products Corporation's debt service costs will increase to the extent that Products Corporation has elected such rates for its outstanding loans. Based on the amounts outstanding under the Amended Credit Agreements and other short-term borrowings (which, in the aggregate, are Products Corporation's only debt currently subject to floating

interest rates) as of June 30, 2015, a 1% increase in both the LIBOR and Euribor rates would increase the Company's annual interest expense by \$9.6 million.

In November 2013, Products Corporation executed the 2013 Interest Rate Swap, which is a forward-starting, floating-to-fixed interest rate swap transaction with a 1.00% floor, based on a notional amount of \$400 million in respect of indebtedness under Products Corporation's Acquisition Term Loan over a period of three years. The Company designated the 2013 Interest Rate Swap as a cash flow hedge of the variability of the forecasted three-month LIBOR interest rate payments related to its Acquisition Term Loan with respect to the \$400 million notional amount over the three-year term of the 2013 Interest Rate Swap. Under the terms of the 2013 Interest Rate Swap, Products Corporation will receive from the counterparty a floating interest rate based on the higher of three-month USD LIBOR or 1.00%, which commenced in May 2015, while paying a fixed interest rate payment to the counterparty equal to 2.0709% (which effectively fixes the interest rate on such notional amounts at 5.0709% over the three-year term of the 2013 Interest Rate Swap). The fair value of the Company's 2013 Interest Rate Swap at June 30, 2015 was a liability of \$7.1 million.

REVLON, INC. AND SUBSIDIARIES

Exchange Rate Sensitivity

The Company manufactures and sells its products in a number of countries throughout the world and, as a result, is exposed to movements in foreign currency exchange rates. In addition, a portion of the Company's borrowings are denominated in foreign currencies, which are also subject to market risk associated with exchange rate movement. The Company from time to time hedges major foreign currency cash exposures through foreign exchange forward and option contracts. Products Corporation enters into these contracts with major financial institutions in an attempt to minimize counterparty risk. These contracts generally have a duration of less than twelve months and are primarily against the U.S. Dollar. In addition, Products Corporation enters into foreign currency swaps to hedge intercompany financing transactions. The Company does not hold or issue financial instruments for trading purposes.

Item 4. Controls and Procedures

(a) Disclosure Controls and Procedures. The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the fiscal year covered by this Quarterly Report on Form 10-Q. Based upon such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective.

(b) Changes in Internal Control Over Financial Reporting. There have not been any changes in the Company's internal control over financial reporting during the quarter ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Forward-Looking Statements

This Quarterly Report on Form 10-Q for the three and six months ended June 30, 2015, as well as other public documents and statements of the Company, contain forward-looking statements that involve risks and uncertainties, which are based on the beliefs, expectations, estimates, projections, assumptions, forecasts, plans, anticipations, targets, outlooks, initiatives, visions, objectives, strategies, opportunities, drivers, focus and intents of the Company's management. While the Company believes that its estimates and assumptions are reasonable, the Company cautions that it is very difficult to predict the impact of known factors, and, of course, it is impossible for the Company to

anticipate all factors that could affect its results. The Company's actual results may differ materially from those discussed in such forward-looking statements. Such statements include, without limitation, the Company's expectations and estimates (whether qualitative or quantitative) as to:

(i) the Company's future financial performance;

the effect on sales of decreased consumer spending in response to weak economic conditions or weakness in the consumption of beauty care products in either the Consumer or Professional segment; adverse changes in currency exchange rates, currency controls and/or government-mandated pricing controls; decreased sales of the Company's products as a result of increased competitive activities by the Company's competitors, changes in consumer purchasing habits, including with respect to shopping channels and/or among professional salons; inventory management by the Company's customers; space reconfigurations or reductions in display space by the Company's

(ii) customers; changes in pricing or promotional strategies by the Company's customers; less than anticipated results from the Company's existing or new products or from its advertising, promotional and/or marketing plans; or if the Company's expenses, including, without limitation, for pension expense under its benefit plans, acquisition-related integration costs (including, without limitation, costs related to the continued integration of the Colomer Acquisition), costs related to litigation, advertising, promotional and marketing activities, or for sales returns related to any reduction of space by the Company's customers, product discontinuances or otherwise, exceed the anticipated level of expenses;

the Company's belief that the continued execution of its business strategy could include taking advantage of additional opportunities to reposition, repackage or reformulate one or more brands or product lines, launching additional new products, acquiring businesses or brands, divesting or discontinuing non-core business lines (which may include exiting certain territories), further refining its approach to retail merchandising and/or taking further actions to optimize its manufacturing, sourcing and organizational size and structure, including optimizing the Colomer Acquisition and the CBB Acquisition (including the Company's plans to continue to integrate the operations of Colomer into the Company's business and its expectations that the Integration Program will deliver cost reductions throughout the combined organization by generating cost synergies and operating efficiencies within the Company's global supply chain and consolidating offices and back office support, and other actions which are designed to reduce selling, general and administrative expenses, and achieve approximately \$30.0

(iii) million to \$35.0 million of annualized cost reductions by the end of 2015, approximately \$17.0 million of which benefited the Company's 2014 results, while recognizing approximately \$50 million, in the aggregate over 2013 through 2015, of total restructuring charges, capital expenditures (including expected integration-related capital expenditures of approximately \$6 million, \$4.4 million of which was paid during 2014 and \$0.7 million of which was paid during the six months ended June 30, 2015, with the remaining balance expected to be paid in the remainder of 2015) and related non-restructuring costs, any of which, the intended purpose of which would be to create value through improving the Company's financial performance, could result in the Company making investments and/or recognizing charges related to executing against such opportunities, which activities may be funded with cash on hand, funds available under the Amended Revolving Credit Facility and/or other permitted additional sources of capital, which actions could increase the Company's total debt;

the Company's vision to establish Revlon as the quintessential and most innovative beauty company in the world by offering products that make consumers feel attractive and beautiful and to inspire its consumers to express themselves boldly and confidently; and the Company's expectations regarding its strategic goal to optimize the market and financial performance of its portfolio of brands and assets by: (a) managing financial drivers for value creation through gross profit margin expansion, which includes optimizing price, allocating sales allowances to maximize our return on trade spending, reducing costs across our global supply chain and eliminating non-value added general and administrative costs in order to fund reinvestment to facilitate growth; (b) growing profitability

(iv) through intensive innovation and geographical expansion by creating fewer, bigger and better innovations across our brands that are relevant, unique, impactful, distinctive and ownable; pursuing organic growth opportunities within our existing brand portfolio and existing channels; and pursuing opportunities to expand our geographical presence; (c) improving our cash flows through, among other things, continued effective management of our working capital and by focusing on appropriate return on capital spending; and (d) attracting, developing and supporting employees who fit into our innovative culture and inspire the creative drive that represents the foundation of our vision and execution of our strategy;

- the effect of restructuring activities, restructuring costs and charges, the timing of restructuring payments and the benefits from such activities; including, without limitation, the Company's expectation (i) that total restructuring and related charges related to the Integration Program will be approximately \$22 million, of which \$(2.4) million and \$20.1 million of charges were recognized during the first six months of 2015 and during 2014, respectively, with any remaining charges to be recognized in the remainder of 2015; (ii) that cash payments related to the restructuring and related charges in connection with the Integration Program will total approximately \$21 million, of which \$3.9 million was paid in the first six months of 2015 and \$9.6 million was paid during 2014, with the remaining balance of \$7.5 million expected to be paid during the remainder of 2015; (iii) that total restructuring and related charges under the December 2013 Program will be approximately \$18.9 million; (iv) that cash payments will total approximately \$17 million related to the December 2013 Program, of which \$15.5 million was paid during 2014, \$0.1 million was paid in 2013, and the remaining balance is expected to be paid in 2016; and (v) that the Company expects to substantially complete the Integration Program by the end of 2015;
- the Company's expectation that operating revenues, cash on hand and funds available for borrowing under Products Corporation's Amended Revolving Credit Facility and other permitted lines of credit will be sufficient to enable the Company to cover its operating expenses for 2015, including the cash requirements referred to in item (vi)(viii) below, and the Company's beliefs that (a) the cash generated by its domestic operations and availability under the Amended Revolving Credit Facility and other permitted lines of credit should be sufficient to meet its domestic liquidity needs for at least the next twelve months, and (b) restrictions or taxes on repatriation of foreign earnings will not have a material effect on the Company's liquidity during such period;
- the Company's expected principal sources of funds, including operating revenues, cash on hand and funds available for borrowing under Products Corporation's Amended Revolving Credit Facility and other permitted lines of credit, as well as the availability of funds from the Company taking certain measures, including, among other things, reducing discretionary spending;
- the Company's expected principal uses of funds, including amounts required for the payment of operating expenses, including expenses in connection with the continued execution of the Company's business strategy; payments in connection with the Company's purchases of permanent wall displays; capital expenditure requirements; debt service payments and costs, cash tax payments, pension and other post-retirement benefit plan contributions; payments in connection with the Company's restructuring programs; costs related to the continuing integration of the Colomer Acquisition; business and/or brand acquisitions, if any; severance not otherwise included in the Company's restructuring programs; debt and/or equity repurchases, if any; costs related to (viii) litigation; and payments in connection with discontinuing non-core business lines and/or exiting certain territories (including, without limitation, that the Company may also, from time to time, seek to retire or purchase its outstanding debt obligations and/or equity in open market purchases, in privately negotiated transactions or otherwise and may seek to refinance some or all of its indebtedness based upon market conditions and that any retirement or purchase of debt and/or equity may be funded with operating cash flows of the business or other sources and will depend upon prevailing market conditions, liquidity requirements, contractual restrictions and other factors, and the amounts involved may be material); and its estimates of the amount and timing of such operating and other expenses;
- matters concerning the Company's market-risk sensitive instruments, as well as the Company's expectations as to (ix) the counterparty's performance, including that any risk of loss under its derivative instruments arising from any non-performance by any of the counterparties is remote;
- the Company's expectation to efficiently manage its working capital, including, among other things, initiatives intended to optimize inventory levels over time; centralized procurement to secure discounts and efficiencies; prudent management of trade receivables and accounts payable; and controls on general and administrative spending; and the Company's belief that in the ordinary course of business, its source or use of cash from operating activities may vary on a quarterly basis as a result of a number of factors, including the timing of working capital flows;
- (xi) the Company's expectations regarding its future net periodic benefit cost for its U.S. and international defined benefit plans;
- (xii) the Company's expectation that its tax provision and effective tax rate in any individual quarter and year-to-date period will vary and may not be indicative of the Company's tax provision and effective tax rate for the full year;

- the Company's expectation that it will decide whether to exchange Bolivars for U.S. Dollars to the extent permitted through the CADIVI, CENCOEX and/or SIMADI markets based on its ability to participate in those (xiii) markets and to the extent reasonable for its business in the future, the Company's belief that current or additional governmental restrictions, worsening import authorization controls, price and profit controls or labor unrest in Venezuela could impact the Company's ability to sell to its distributor in Venezuela;
- the Company's belief that while the outcome of all pending legal proceedings in the aggregate is not reasonably likely to have a material adverse effect on the Company's business, financial condition and/or its results of (xiv) operations, in light of the uncertainties involved in legal proceedings generally, the ultimate outcome of a particular matter could be material to the Company's operating results for a particular period depending on, among other things, the size of the loss or the nature of the liability imposed and the level of the Company's income for that particular period;
- (xv) the Company's plans in connection with continuing to integrate Colomer into the Company's business; and the Company's expectation that CBB will provide the Company with a platform to develop the Company's (xvi) presence in the fragrance category and certain estimates used by management in estimating the fair value of the assets acquired in the CBB Acquisition.

Statements that are not historical facts, including statements about the Company's beliefs and expectations, are forward-looking statements. Forward-looking statements can be identified by, among other things, the use of forward-looking language such as "estimates," "objectives," "visions," "projects," "forecasts," "focus," "drive towards," "plans," "targets," "strategies," "opportunities," "assumptions," "drivers," "believes," "intends," "outlooks," "initiatives," "expects," "scheduled to," "anticipates," "seeks," "may," "will" or "should" or the negative of those terms, or other variations of those terms or comparable language, or by discussions of strategies, targets, long-range plans, models or intentions. Forward-looking statements speak only as of the date they are made, and except for the Company's ongoing obligations under the U.S. federal securities laws, the Company undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. Investors are advised, however, to consult any additional disclosures the Company made or may make in its 2014 Form 10-K and in its Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, in each case filed with the SEC in 2015 (which, among other places, can be found on the SEC's website at <http://www.sec.gov>, as well as on the Company's corporate website at www.revloninc.com). Except as expressly set forth in this Quarterly Report on Form 10-Q, the information available from time to time on such websites shall not be deemed incorporated by reference into this Quarterly Report on Form 10-Q. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statement. (See also Item 1A. "Risk Factors" in Revlon, Inc.'s 2014 Form 10-K for further discussion of risks associated with the Company's business.) In addition to factors that may be described in the Company's filings with the SEC, including this filing, the following factors, among others, could cause the Company's actual results to differ materially from those expressed in any forward-looking statements made by the Company:

- (i) unanticipated circumstances or results affecting the Company's financial performance, including decreased consumer spending in response to weak economic conditions or weakness in the consumption of beauty care products in either the Consumer or Professional segment; adverse changes in currency exchange rates, currency controls and/or government-mandated pricing controls; decreased sales of the Company's products as a result of increased competitive activities by the Company's competitors and/or decreased performance by third party suppliers; changes in consumer preferences, such as reduced consumer demand for the Company's color cosmetics and other current products, including new product launches; changes in consumer purchasing habits, including with respect to shopping channels and/or among professional salons; lower than expected customer acceptance or consumer acceptance of, or less than anticipated results from, the Company's existing or new products; higher than expected restructuring costs, acquisition-related integration costs, including, without limitation, costs related to the continued integration of the Colomer Acquisition; higher than expected pension expense and/or cash contributions under its benefit plans, costs related to litigation, advertising, promotional and/or marketing expenses or lower than expected results from the Company's advertising, promotional and/or marketing plans; higher than expected sales returns related to any reduction of space by the Company's customers, product discontinuances or otherwise or decreased sales of the Company's existing or new products; actions by the Company's customers, such as inventory

management and greater than anticipated space reconfigurations or reductions in display space and/or product discontinuances or a greater than expected impact from pricing or promotional strategies by the Company's customers; and changes in the competitive environment and actions by the Company's competitors, including, among other things, business combinations, technological breakthroughs, implementation of new pricing strategies, new product offerings, increased advertising, promotional and marketing spending and advertising, promotional and/or marketing successes by competitors;

- in addition to the items discussed in (i) above, the effects of and changes in economic conditions (such as
- (ii) continued volatility in the financial markets, inflation, monetary conditions and foreign currency fluctuations, currency controls and/or government-mandated pricing controls, as well as in trade, monetary, fiscal and tax policies in international markets) and political conditions (such as military actions and terrorist activities); unanticipated costs or difficulties or delays in completing projects associated with the continued execution of the Company's business strategy or lower than expected revenues or the inability to create value through improving our financial performance as a result of such strategy, including lower than expected sales, or higher than expected costs, including as may arise from any additional repositioning, repackaging or reformulating of one or more brands or product lines, launching of new product lines, including higher than expected expenses, including for sales returns, for launching its new products, acquiring businesses or brands, divesting or discontinuing non-core business lines (which may include exiting certain territories), further refining its approach to retail merchandising, and/or difficulties, delays or increased costs in connection with taking further actions to optimize the Company's
- (iii) manufacturing, sourcing, supply chain or organizational size and structure, including optimizing the Company's Colomer Acquisition and CBB Acquisition (including difficulties or delays in and/or the Company's inability to continue to integrate the Colomer business which could result in less than expected cost reductions, more than expected costs to achieve the expected cost reductions or delays in achieving the expected cost reductions and/or less than expected benefits from the Integration Program, more than expected costs in implementing such program and/or difficulties or delays, in whole or in part, in executing the Integration Program), as well as the unavailability of cash on hand and/or funds under the Amended Revolving Credit Facility or from other permitted additional sources of capital to fund such potential activities; difficulties, delays in or less than expected results from the Company's efforts to optimize the market and financial performance of its portfolio of brands and assets due to, among other things, less than effective product development, less than expected acceptance of its new or existing products by consumers, salon professionals and/or customers in the Consumer or Professional segments, less than expected acceptance of its advertising, promotional and/or marketing plans and/or brand communication by consumers, salon professionals and/or customers in the Consumer or Professional segments, less than expected investment in advertising, promotional and/or marketing activities or greater than expected competitive investment, less than expected levels of
- (iv) advertising, promotional and/or marketing activities for its new product launches and/or less than expected levels of execution with its customers in the Consumer or Professional segments or higher than expected costs and expenses, as well as due to (i) difficulties, delays in or less than expected results from the Company's efforts to manage financial drivers for value creation, such as due to higher than expected costs; (ii) difficulties, delays in or less than expected results from the Company's efforts to grow profitability through intensive innovation and geographical expansion, such as less than effective product development and/or difficulties, delays in and/or the Company's inability to consummate transactions to expand its geographical presence; (iii) difficulties, delays in or less than expected results from the Company's efforts to improve its cash flow; and/or (iv) difficulties, delays in and/or the inability to attract or retain employees essential to the execution of our strategy; difficulties, delays or unanticipated costs or charges or less than expected cost reductions and other benefits
- (v) resulting from the Company's restructuring activities, such as greater than anticipated costs or charges or less than anticipated cost reductions or other benefits from the December 2013 Program and/or the Integration Program and/or the risk that any of such programs may not satisfy the Company's objectives; lower than expected operating revenues, cash on hand and/or funds available under the Amended Revolving
- (vi) Credit Facility and/or other permitted lines of credit or higher than anticipated operating expenses, such as referred to in clause (viii) below, and/or less than anticipated cash generated by the Company's domestic operations or unanticipated restrictions or taxes on repatriation of foreign earnings;
- (vii)

- the unavailability of funds under Products Corporation's Amended Revolving Credit Facility or other permitted lines of credit; or from difficulties, delays in or the Company's inability to take other measures, such as reducing discretionary spending;
- higher than expected operating expenses, sales returns, working capital expenses, permanent wall display costs, capital expenditures, debt service payments, cash tax payments, cash pension plan contributions, other post-retirement benefit plan contributions and/or net periodic benefit costs for the pension and other
 - (viii) post-retirement benefit plans, costs related to the continuing integration of the Colomer Acquisition, restructuring costs, severance and discontinued operations not otherwise included in the Company's restructuring programs, debt and/or equity repurchases, costs related to litigation and/or payments in connection with business and/or brand acquisitions, if any, and discontinuing non-core business lines and/or exiting certain territories;
 - (ix) interest rate or foreign exchange rate changes affecting the Company and its market-risk sensitive financial instruments and/or difficulties, delays or the inability of the counterparty to perform such transactions;
 - (x) difficulties, delays or the inability of the Company to efficiently manage its cash and working capital;
 - lower than expected returns on pension plan assets and/or lower discount rates, which could result in higher than
 - (xi) expected cash contributions, higher net periodic benefit costs and/or less than expected net periodic benefit income;
 - (xii) unexpected significant variances in the Company's tax provision and effective tax rate;
 - difficulties, delays in or the Company's inability to exchange Bolivars for U.S. Dollars, whether due to the lack of a market developing for such exchange or otherwise and/or unanticipated adverse impacts to the Company's
 - (xiii) results of operations such as due to higher than expected exchange rates; and difficulties or delays in the Company's ability to import certain products through Venezuela's monetary systems (including, without limitation, the CADIVI, CENCOEX and/or SIMADI markets);
 - (xiv) unexpected effects on the Company's business, financial condition and/or its results of operations as a result of legal proceedings;
 - difficulties or delays in realizing, or less than anticipated, benefits from the Colomer Acquisition, such as less than expected cost reductions, more than expected costs to achieve the expected cost reductions or delays in
 - (xv) achieving the expected cost reductions, such as due to difficulties or delays in and/or the Company's inability to continue to implement the Integration Program, in whole or in part, and/or changes in the timing of completing its expected integration actions; and/or
 - less than expected benefits arising from the Company's CBB Acquisition, such as difficulties in retaining CBB's
 - (xvi) licensed fragrance brands and/or securing new fragrance licensing opportunities and/or unexpected changes in the fair values of CBB's assets due to, among other things, unanticipated future performance of the acquired licenses.

Factors other than those listed above could also cause the Company's results to differ materially from expected results.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in various routine legal proceedings incidental to the ordinary course of its business. The Company believes that the outcome of all pending legal proceedings in the aggregate is not reasonably likely to have a material adverse effect on the Company's business, financial condition and/or its results of operations. However, in light of the uncertainties involved in legal proceedings generally, the ultimate outcome of a particular matter could be material to the Company's operating results for a particular period depending on, among other things, the size of the loss or the nature of the liability imposed and the level of the Company's income for that particular period.

Item 1A. Risk Factors

In addition to the other information in this report, investors should consider carefully the risk factors discussed in Part I, Item 1A. "Risk Factors" in Revlon, Inc.'s 2014 Form 10-K.

Item 5. Other Information

On July 28, 2015, Products Corporation entered into an Amended and Restated Employment Agreement with Roberto Simon, the Company's Executive Vice President and Chief Financial Officer, to provide him with a \$150,000 one-time housing allowance, payable in a lump sum in August 2015. Mr. Simon is required to repay the housing allowance to the Company if he voluntarily terminates his employment with the Company or is terminated for cause within 2 years of receiving the housing allowance.
