**PROXY STATEMENT OF
ANTARES PHARMA, INC.
Princeton Crossroads Corporate Center
250 Phillips Boulevard, Suite 290
Ewing, New Jersey 08618**

**Annual Meeting of Stockholders to be held
May 10, 2007**

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of Antares Pharma, Inc., to be used at our Annual Meeting of Stockholders to be held on Thursday, May 10, 2007. This proxy statement is first being sent to stockholders on or about April 10, 2007. **The Board of Directors recommends that stockholders vote in favor of Items 1 and 2.** Each stockholder who signs and returns a proxy card in the form enclosed with this proxy statement may revoke the same at any time prior to use by giving notice of such revocation to us in writing prior to the meeting or in person at the Annual Meeting of Stockholders. Unless so revoked, the shares represented by such proxy will be voted at the Annual Meeting of Stockholders and at any adjournment thereof in the manner specified. Presence at the meeting of a stockholder who has signed a proxy does not alone revoke the proxy. If no direction is made, the proxy will be voted in favor of Items 1 and 2, each of which are discussed below. Only stockholders of record at the close of business on Thursday, March 15, 2007, will be entitled to vote at the Annual Meeting of Stockholders or any adjournment thereof. As of March 15, 2007, there were 53,427,955 shares of our common stock issued and outstanding.

Each item of business to be presented at the Annual Meeting of Stockholders must be approved by the affirmative vote of the holders of a majority of the shares present, in person or by proxy, and entitled to vote on that item of business. Votes cast by proxy or in person at the Annual Meeting of Stockholders will be tabulated by the election inspector appointed for the meeting, and such inspector will determine whether a quorum is present. The election inspector will treat abstentions as shares that are present and entitled to vote for purposes of determining the presence of a quorum and in tabulating votes cast on proposals presented to stockholders for a vote, but as unvoted for purposes of determining the approval of the matter from which the stockholder abstains. Consequently, an abstention will have the same effect as a negative vote. If a broker indicates on the proxy that it does not have discretionary authority as to certain shares to vote on a particular matter, those shares will not be considered as present and entitled to vote with respect to such matter.

Director Nominations

In connection with our proxy solicitation relating to our annual meeting of stockholders, our Board recommends a slate of nominees for election by our stockholders. In addition, our Board fills vacancies on the Board when necessary or appropriate. Our Board's recommendations or determinations are made after consideration of the recommendations of, and information supplied by, our Governance and Nominating Committee as to the suitability of each individual, taking into account the criteria described below and other factors, including the requirements for Board committee membership. The Board as a whole should collectively possess a broad range of skills, expertise, industry and other knowledge, and business and other experience useful to the effective oversight of our business. The Board also seeks members from diverse backgrounds so that the Board consists of members with a broad spectrum of experience and expertise and with a reputation for integrity. Directors should have experience in positions with a high degree of responsibility, be leaders in the companies or institutions with which they are affiliated, and be selected based on contributions that they can make to us. In determining whether to recommend a director for reelection, our Governance and Nominating Committee also considers a director's past attendance at meetings and participation in and contributions to the activities of the Board and committees of the Board on which the director served. Our Board considers recommendations for nominations from a wide variety of sources, including members of our Board, business contacts, our legal counsel, community leaders and members of our management.

The Board will also consider candidates for nomination recommended by a stockholder. The procedures for nominating directors, other than by the Board of Directors, are set forth in the Bylaws and our Corporate Governance Guidelines. Nominations for the election of directors, other than by the Board of Directors, must be made by a stockholder entitled to vote for the election of directors by giving timely written notice to the Secretary of the Company at the Company's principal office. To be timely, a stockholder's notice shall be delivered to the Secretary not later than the close of business on the 90th day nor earlier than the close of business on the 120th day prior to the first anniversary of the preceding year's Annual Meeting; provided, however, that in the event that the date of the Annual Meeting is advanced by more than 30 days before or delayed by more than 60 days after such anniversary date, notice by the stockholder to be timely must be so delivered not earlier than the close of business on the 120th day prior to such Annual Meeting and not later than the close of business on the later of the 90th day prior to such Annual Meeting or the 10th day following the day on which public announcement of the date of such meeting is first made. Such stockholder's notice shall set forth as to each person whom the stockholder proposes to nominate for election or reelection as a director, all information relating to such person that is required to be disclosed in solicitations of proxies for election of directors in an election contest, or is otherwise required, in each case pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected) and as to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the nomination or proposal is made the name and address of such stockholder, as they appear on the Company's books, and of such beneficial owner, and the class and number of shares of the Company which are owned beneficially and of record by such stockholder and such beneficial owner. If a stockholder fails to comply with the above provisions, then the Chairman of the meeting may declare that the nomination was not made in accordance with the procedures prescribed by the Bylaws and the defective nomination may be disregarded. Subject to compliance with statutory or regulatory requirements, our Board does not expect that candidates recommended by stockholders will be evaluated in a different manner than other candidates.

Communicating with Our Board of Directors

You may communicate in writing with any or all of our Directors via U.S. mail addressed to Antares Pharma, Inc., c/o Corporate Secretary, 250 Phillips Boulevard, Suite 290, Ewing, NJ 08618. Our Corporate Secretary will review and summarize all communications received for the purpose of

expediting director review of matters communicated and will forward correspondence directly to the directors as appropriate.

Compensation of Directors

Under the Directors' Compensation Plan, effective January 1, 2006 through the 2007 Annual Meeting, all non-employee directors receive an initial grant of 20,000 shares of the Company's common stock on the day they are elected and/or appointed to the Board of Directors, an annual grant of an option to purchase 30,000 shares of common stock, an annual retainer of \$25,000 for the Board Chairman, an annual retainer of \$15,000 for all other members and an additional annual retainer for Committee Chairs of \$7,000. The non-employee directors also receive payments of \$1,500 for each Board meeting and \$1,000 for each Committee meeting.

All directors are reimbursed for expenses actually incurred in attending meetings of the Board of Directors and its committees.

In January 2007 a new Directors' Compensation Plan was adopted based on recommendations by Buck Consultants, an independent compensation consultant. The Plan is designed to allow for additional meetings if needed, without additional cost to the Company. The Plan also takes into consideration the increased responsibility and time commitment of Board Chairman and Committee Chairs. Under the new Plan, each Board member receives an annual retainer of \$25,000, the Board Chairman receives an additional \$15,000, Committee Chairs receive an additional \$12,000, and Committee members receive an additional \$5,000. No additional payments are earned for each Board or Committee meeting. The option component of compensation is consistent with the prior plan with a grant of 20,000 options to each Director on the day they are initially elected or appointed to the Board of Directors and an annual grant of 30,000 options at the time of the Company's Annual Stockholder Meeting. Annually, the directors can elect to take restricted stock or options in lieu of the cash compensation. The number of shares of stock issued would be based on the market value of the stock and the number of options granted would be determined based on a valuation using a Black-Scholes calculation.

The following table provides information regarding Director compensation in 2006, which reflects the standard compensation described above and certain other payments. The table does not include compensation for reimbursement of travel expenses related to attending Board and Committee meetings. In addition, the table does not address compensation for Mr. Stover, which is addressed under 'Executive Compensation' below. Mr. Stover does not receive additional compensation for serving as a Director.

**EXECUTIVE COMPENSATION
COMPENSATION DISCUSSION AND ANALYSIS**

INTRODUCTION

In this Compensation Discussion and Analysis, we address the compensation paid or awarded to the individuals listed in the Summary Compensation Table that immediately follows this discussion. We sometimes refer to these individuals as our named executive officers.

2006 COMPENSATION

Compensation Objectives

The compensation paid or awarded to our named executive officers for 2006 was designed to meet the following objectives:

Provide compensation that is competitive in the market place in which we compete in order to attract and retain management talent to fuel the growth of our business. We refer to this objective as competitive compensation.

Condition a substantial portion of a named executive officer's compensation on both short and long-term performance. We refer to this objective as pay for performance.

Encourage the aggregation and maintenance of meaningful equity ownership, and the alignment of executive and stockholder interests as an incentive to increase stockholder value. We refer to this objective as stakeholder incentives.

Provide an incentive for long-term continued employment with us. We refer to this objective as retention incentives.

The principal components of 2006 compensation that we paid to the named executive officers to meet these objectives are as follows:

Type of Compensation	Objectives Addressed
Salary	Competitive Compensation
Annual Incentive Compensation	Pay for Performance Competitive Compensation
Stock Options	Pay for Performance Stakeholder Incentives Competitive Compensation Retention Incentives
Stock Awards	Pay for Performance Stakeholder Incentives Competitive Compensation Retention Incentives

Table of Contents

In addition, as described below, certain named executive officers have employment agreements that provide severance and change of control benefits, principally as a retention incentive.

Determination of Competitive Compensation

In assessing competitive compensation for 2006, we engaged independent compensation consultants, Buck Consultants, to provide an executive compensation review of our overall executive compensation against that provided by our peer group. To assess compensation levels, Buck Consultants used a combination of relevant survey data and compensation paid by public companies who we consider to be members of our peer group. Based on the review conducted by Buck Consultants, we determined that the base salaries for our executive group fell below the 50th percentile for our peer group, total target cash (base salary plus target bonus) was competitive, but limited bonuses historically had been paid due to the difficult financial and cash position we have experienced, placing total cash compensation below competitive levels. Annual equity grants were at the 25th percentile for our peer group and potential ownership (shares owned outright plus vested and unvested equity) was at the 25th percentile of the competitive data. The list of peer group companies and competitive labor markets were determined by Buck Consultants in collaboration with us and the Compensation Committee. The data focused on the compensation levels of a peer group of pharmaceutical companies that are our competitors, whose primary area of business is drug delivery methods and technologies, had revenues of less than \$75 million, an employee count of less than 350 and are based in the United States. The members of our peer group consisted of the following:

Aradigm Corporation

Auxilium Pharmaceuticals, Inc.

Bentley Pharmaceuticals, Inc.

Bioject Medical Technologies, Inc.

BioSante Pharmaceuticals, Inc.

Cellegy Pharmaceuticals, Inc.

CollaGenex Pharmaceutical, Inc.

Columbia Laboratories
DepoMed, Inc.

IOMED, Inc.

MacroChem Corporation

NexMed, Inc.

Novavax, Inc.

Penwest Pharmaceuticals

Spectrum Pharmaceuticals, Inc.

Based on our review of the study conducted by Buck Consultants, our compensation objectives and philosophy and the recommendations made by Buck Consultants, we determined that overall compensation, including base salary, annual incentive target payout and long term incentives, should be targeted at a level that approximates the 50th percentile of our peer group. The Compensation Committee has from time to time made determinations that represent

a departure from this general guideline. Moreover, a significant portion of our compensation is performance-based, and actual cash compensation paid to our named executive officers may vary considerably from that paid to executives in our peer group, based on achievement of performance targets. In addition, as explained in more detail below, our long-term incentive compensation continues to be based primarily on stock options, coupled with performance stock awards.

Each named executive officer has an employment agreement with us that includes base salary and annual and long term incentives as described in this Compensation Discussion and Analysis. Further details regarding the terms of these agreements are described below.

Salaries

Based on the executive compensation review conducted by Buck Consultants, we referenced the salary practices of our peer group in determining executive salaries. Specifically, we compared the salary of each named executive officer to that of his counterpart in our peer group based on the data provided by Buck Consultants. We targeted base salaries to be within 10 percentage points (plus or minus) of the median base salary paid by our peer group. The Committee awarded increases in base salary to reflect the

Table of Contents

increase in the cost of living, as well as an additional merit increase for certain executives that addressed individual performance for 2006 and internal pay equity considerations. The Compensation Committee awarded the following salary increases in January 2007, with the belief that more emphasis should be placed on the annual incentive portion of an executive's competitive compensation.

Name	Percentage Base Salary Increase
Mr. Jack E. Stover	4.1%
Mr. Robert F. Apple (1)	4.0%
Dr. Dario Carrara (2)	0%
Dr. Peter Sadowski	4.8%
Mr. James E. Hattersley	2.4%

(1) Mr. Apple's salary rate during 2006 was determined through negotiation of his employment agreement.

(2) Dr. Carrara's base salary was not increased in January 2007 because his base salary was established in October 2006 at the time his employment agreement with us was renegotiated.

Annual Incentive Awards

Our principal objective in providing incentive compensation is to provide pay for performance. While we target incentive compensation opportunity to be comparable to the median level of our peer group, this guideline is based on target award levels, and actual payouts to the named executive officers can vary significantly based on actual performance.

We set target award levels for our executives based on a percentage of their base salary. In 2006, we increased the percentage for some executives based on the executive compensation review conducted by Buck Consultants. We felt that this change would enhance the commitment of the affected executives towards achievement of our performance targets. The applicable percentages for 2006 are set forth in the table on page 20. The Compensation Committee reviewed and approved performance goals for each of the executives at its January 2006 meeting, except for Mr. Apple whose performance goals were established upon employment with the Company in February of 2006. The Compensation Committee determined at its January 2007 meeting whether and to what extent the applicable performance goals were achieved and approved the specific bonus amounts to be paid to each named executive officer. For executives other than the Chief Executive Officer, the Compensation Committee took into account the

recommendations of the Chief Executive Officer.

Mr. Stover had eleven goals in 2006 of which 7 goals were 100% accomplished. Three of the goals accomplished related to reaching revenue targets and reporting positive clinical study results while maintaining sufficient capital. One of his goals related to a new marketing and sales activity which was launched but only generated about 70% of the goal. Positive development with major partners continued but yielded a little less than the targeted revenues while other revenue sources were in excess of plan, making up the difference. One regulatory goal was put on hold pending evaluation of the changes in market conditions. Overall, approximately 90% of the goals established were accomplished subject to consideration of weighting matters. Mr. Stover has overall responsibility for the organization and progress made.

Mr. Stover's bonus range is 30% to 45% of his base salary. In January 2007, the Compensation Committee determined that he accomplished 89% of his maximum potential award.

Mr. Apple had 12 goals in 2006. He achieved 100% of 9 goals. Two goals, related to successful fund raising and relocating corporate offices, were more heavily weighted and both were 100%

Table of Contents

accomplished. One of the goals related to transitioning more responsibilities to our headquarters could not be completely accomplished for logistical reasons. One goal related to centralizing IT activities was approximately 50% complete and another goal related to implementing a specific benefit plan had not been started. However, in addition to the stated goals Mr. Apple also completed several additional key accomplishments including operational responsibility planning for key operating managers and improving the content and timing of Board information. Overall Mr. Apple had achieved approximately 90% of his goals however he had only been on board as a full time employee since February which means that he was credited with accomplishing approximately 80% of his absolute goals in 2006 subject to weighting of priorities.

Mr. Apple's bonus range is 20% to 35% of his base salary. Based on his performance modified by his less than full year participation, a bonus of 63% of his maximum was determined appropriate.

Dr. Carrara effectively had 10 goals to accomplish in 2006. He achieved 100% of 4 goals. Two goals, related to generating near term revenue and successful clinical work, were more heavily weighted. In addition to the above goals, late in 2006 the Pharma division's first product was approved for marketing by the FDA, a major achievement. Additionally, several patents significantly progressed further supporting our proprietary product positioning. Dr. Carrara also aggressively moved the Company's next proprietary product significantly forward toward commercialization. Additionally, the division had a very successful regulatory audit completed granting GMP status for certain medicaments. Lastly, his division operated within budget. In 2006 Dr. Carrara was promoted to Senior Vice President. In summary, Dr. Carrara accomplished approximately 70% of his absolute goals, subject to the weighting of priorities.

Dr. Carrara's bonus range is 20% to 35% of his base salary. Based on his performance, as well as his promotion at the end of 2006, a bonus of 69% of his maximum was determined appropriate.

Dr. Sadowski had twelve goals for 2006 of which 7 were 100% complete. Four goals related to near term revenue were more heavily weighted, of which 2 were 100% complete and two were between 75% and 80% complete. One important goal related to renegotiating an existing contract was 50% complete and another important goal related to gaining additional revenues was 20% complete. A third goal related to new tooling was approximately 50% complete. In addition to the above goals, Dr. Sadowski developed a potentially very important relationship with a contract manufacturer, has had very positive regulatory audit results, and reduced his workforce while improving productivity. Accordingly, Dr. Sadowski accomplished approximately 75% of his absolute goals, subject to weighting of priorities which tends to reduce this percentage.

Dr. Sadowski's bonus range is 20% to 35% of his base salary. Based on his performance, a bonus of 54% of his maximum was determined appropriate.

Mr. Hattersley had 6 goals in 2006. While several business development agreements were in process at year end, the most heavily weighted deals were not accomplished in 2006. Mr. Hattersley, however, did execute and source an important feasibility program and he did participate in the execution of another important license for significant funding. Further, Mr. Hattersley did source and execute a joint alliance with a major non-profit organization. In addition to the above Mr. Hattersley has developed key product packages demonstrating our abilities. Overall, considering weighting Mr. Hattersley has achieved approximately 45% of his absolute goals in 2006, subject to weighting of priorities which reduces this percentage.

Mr. Hattersley's bonus range is 20% to 35% of his base salary. Based on his performance, a bonus of 29% of his maximum was determined appropriate.

Table of Contents

Based on the applicable performance ratings and discretionary awards, payments to the named executive officers were as follows:

Name	Performance Measure	Percentage of Salary Payable at Target Award Level	Actual 2006 Bonus Award	Actual Award as Percentage of Maximum Target Award Opportunity
Mr. Jack E. Stover	Corporate			
	Discretionary	30%-45%	40% of base salary	89%
Mr. Robert F. Apple	Corporate			
	Discretionary	20%-35%	22% of base salary	63%
Dr. Dario Carrara	Corporate			
	Discretionary	20%-35%	24% of base salary	69%
Dr. Peter Sadowski	Corporate			
	Discretionary	20%-35%	19% of base salary	54%
Mr. James E. Hattersley	Corporate			
	Discretionary	20%-35%	10% of base salary	29%

In accordance with applicable SEC regulations, the award payments appear in the Bonus column of the Summary Compensation Table.

In addition to the foregoing annual bonus amounts, the Compensation Committee awarded option grants to the named executive officers based on their 2006 performance, their potential to add value to the Company in the future, and on the competitive data provided by Buck Consultants. The option grants awarded are set forth in a table under the section entitled Long-Term Incentives Equity Compensation below.

Long-Term Incentives Equity Compensation**Stock Options**

We generally seek to position long-term incentive awards for the named executive officers to be approximately equivalent to the median level of our peer group. We utilize stock options as our principal form of long-term compensation. Our stock options:

have a 10 year term (except for options granted to Swiss employees which have an eleven year term),

typically vest as to the underlying shares as follows: 33 1/3% annually in 8.33% installments each calendar quarter until the underlying shares are fully vested and

have an exercise price equal to 100% of the fair market value per share on the date of grant, which we determine based on the closing price as reported on the American Stock Exchange on the date of grant.

We believe that stock options provide a strong incentive to increase stockholder value, because the value of the options is entirely dependent on the increase in the market price of our common stock following the date of grant.

Under our long-term incentive program, we grant options to each of our named executive officers on an annual basis. The size of the option grants is based on the executive's performance over the preceding calendar year and competitive data provided by compensation consultants. The size of option

Table of Contents

grants in January 2006 to our named executive officers were increased compared to 2005 for executives based on the Buck Consultants study indicating that the total long-term incentive opportunity for our executive officers was below the median of our peer group. Mr. Apple received new hire options.

The Compensation Committee awarded the following stock options to each of our named executive officers in January 2007 based on their 2006 performance, their potential to add value to the Company in the future, and on the competitive data provided by Buck Consultants:

Name of Executive	Number of Shares Underlying Option Grant
Mr. Jack E. Stover	120,000
Mr. Robert F. Apple	60,000
Dr. Dario Carrara	60,000
Dr. Peter Sadowski	60,000
Mr. James E. Hattersley	35,000

Except for the grants made in January 2007 set forth in the table above, the number of shares underlying options granted to the named executive officers are set forth on page 27 under the caption Grants of Plan Based Awards 2006 table under the column heading, All Other Option Awards: Number of Securities Underlying Options. For additional information regarding stock option terms, see the narrative accompanying the Grants of Plan Based Awards table. The dollar amount shown in the Summary Compensation Table generally reflects the dollar amount recognized for financial statement purposes. Therefore, it includes amounts with respect to only a portion of the options granted in 2006, while also including amounts from earlier option grants. See the footnotes to the Summary Compensation Table for further information.

Stock Awards

During 2006, the Compensation Committee considered changes in the structure of our long-term compensation. Based on the recommendations of Buck Consultants, the Committee determined to utilize stock awards in addition to stock options for purposes of long-term compensation. The Compensation Committee determined that it would grant shares of our common stock based on achievement of performance targets set by the Committee. Mr. Stover had already been eligible to receive shares of our common stock based on the achievement of preestablished performance targets as provided for in his 2004 employment agreement. As described in the section entitled Certain Relationships and Related Transactions, during 2006 Mr. Apple, Dr. Carrara, Dr. Sadowski and Mr. Hattersley are eligible to receive awards of common stock under the terms of their new or amended employment agreements; provided that certain preestablished performance targets are met.

The following table summarizes the number of shares that may be earned by the executive officers upon the attainment of performance goals as established by the Compensation Committee. The shares are not granted until the performance goal is met.

Name of Executive	Number of Shares That May Be Awarded	Performance Goals
Mr. Jack E. Stover	373,333	Divided among 3 goals as follows: 86,666, 86,667 and 200,000
Mr. Robert F. Apple	250,000	Spread evenly over 11 Performance Goals
Dr. Dario Carrara	280,000	Not yet established

The performance goals are established by the Compensation Committee and then communicated to the respective executive officer. During 2006 performance goals were established for and communicated to Mr. Apple. Mr. Stover's performance goals were established and communicated to Mr. Stover in 2004. Mr. Apple's 11 performance goals included annual revenue targets above a certain threshold, cash flow targets, financing targets, development deal targets, internal department goals and market capitalization goals.

Mr. Stover's 3 performance goals include annual revenue targets, profitability over an established time period and market capitalization targets or M&A activity at established capitalization minimums.

The performance goals of the other executive officers will be established and communicated to the officers at the Compensation Committee meeting to be held on the same day as the Annual Stockholder meeting.

Once the performance goals are established, the officers have a 3 to 5 year time period in which to obtain the goals. Quarterly, the Compensation Committee will monitor the progress of the performance goals. The Compensation Committee will evaluate the performance criteria on an annual basis at the annual meeting and if the Compensation Committee determines that the performance criteria have been met the shares will be awarded. Additionally, if the Compensation Committee determines that a performance condition is no longer viable or of value based on changes in the strategic direction of the Company, the Compensation Committee shall have the discretion to waive or modify the performance criteria to more relevant criteria.

The Compensation Committee approves all grants of stock options and stock awards. In general, the Compensation Committee makes annual grants of stock options. The Compensation Committee may also make off cycle grants for newly hired or newly promoted officers, and otherwise makes other grants only in special circumstances. The Compensation Committee makes stock awards upon the attainment of the applicable performance objectives. In 2006, the Compensation Committee made mid-year grants of stock options to Mr. Lawrence Christian, who was the former Chief Financial Officer, to Dr. Carrara in connection with the renegotiation of his employment agreement and to Mr. Apple in connection with his commencement of employment. The Compensation Committee also made a mid-year grant of 86,666 shares of our common stock to Mr. Stover in satisfaction of our obligation under the terms of his employment agreement based upon the Company's attainment of a price per share of \$1.40 sustained for at least 50 trading days in a 60 consecutive trading day period. In addition, the Compensation Committee determined that Mr. Apple's 150,000 performance stock options granted when he joined the Company in February 2006 vested in 2006 upon the attainment of performance criteria which included 10 goals, most notably; completion of an equity financing, successful relocation of corporate headquarters, successful negotiation of at least two commercial contracts and two development contracts, reduction of cash burn, restructuring of accounting and finance responsibilities, long term plan development, successful transition of CFO responsibilities, effective working relationship with CEO and effective planning for Board and Committee meetings.

We do not backdate grants of stock options or stock, nor do we time grants to coincide with the release of material non-public information about us. We believe that our grant practices are appropriate and minimize questions regarding timing of grants in anticipation of material events, since grants become effective in accordance with standard grant procedures.

Perquisites

We do not have programs for providing personal benefit perquisites to executive officers, such as separate parking or dining facilities, except with respect to certain benefits provided to Dr. Carrara.

Table of Contents

Under Dr. Carrara's employment agreement, since he is an expatriate living in Switzerland, we provide Dr. Carrara with an extra month of salary, 10,000 Swiss francs as a flat expense reimbursement, 7,200 Swiss francs per year for child care expenses, 3,000 Swiss francs per month for a housing allowance. We also reimburse Dr. Carrara for the cost of a life insurance policy in the amount of 318 Swiss francs per month, the cost of having his tax return completed by a professional accounting firm up to 2,500 Swiss francs, and provide Dr. Carrara with an annual car allowance not to exceed 28,500 Swiss francs. Finally, we pay the annual school allowance for the international school of the three children of the employee in the amount of 66,250 Swiss francs per year and pay the costs of two round trips from Switzerland to Buenos Aires per year up to 18,500 Swiss francs. The total cost of the above perquisites for 2006 in U.S. dollars was \$132,061.

Under Mr. Stover's, Mr. Apple's, Dr. Sadowski's and Mr. Hattersley's employment agreements, we provide each executive with a car allowance of \$800 per month, \$650 per month, \$750 per month and \$500 per month, respectively.

Broad-Based Programs

Our executive officers participate in our broad-based health plan and 401(k) savings plan. There is no mandatory matching provided by the Company during the year. Annually, the Compensation Committee determines if a discretionary match is to be made based on the performance and financial position of the Company. Under the 401(k) plan, we matched employee contributions at the rate of 50% for each dollar contributed up to the maximum dollar amount that may be deferred under the 401(k) plan for 2006. The matching contributions vest based on a three-year vesting schedule. Employees can designate the investment of their 401(k) accounts from among a broad range of mutual funds. We do not allow investment in employer stock through the 401(k) plan.

STOCK OWNERSHIP GUIDELINES

We do not have stock ownership guidelines or holding requirements.

ONGOING AND POST-EMPLOYMENT COMPENSATION

We have entered into employment agreements with our named executive officers that provide special benefits upon certain types of termination events. These agreements were designed to be part of a competitive compensation package. The description of these agreements below does not include plans that are available generally to our salaried employees and provide for the same method of allocation of benefits for management and non-management employees.

Employment Agreements

The employment agreements for Mr. Stover, Mr. Apple, Dr. Carrara, Dr. Sadowski and Mr. Hattersley provide for certain severance payments and other benefits if we terminate such named executive officer's employment without cause, or with respect to Mr. Stover's and Mr. Apple's agreements only, if the executive officer terminates employment for good reason, in each case, without regard to whether the termination occurs in the context of a change of control. In addition, in the event of a change of control, Mr. Stover and Mr. Apple become entitled to accelerated vesting with respect to certain of their equity grants and depending on the value of the change of control transaction, Mr. Stover may become entitled to an additional equity grant. Payments and benefits will be provided to the executive under the agreement without regard to any excise tax under Section 4999 of the Internal Revenue Code; provided that if reduction or elimination of a payment or benefit would result in a greater after-tax benefit to the executive as determined by our independent accountants, then the payments and benefits to the executive will be so reduced.

Table of Contents

See Potential Payments Upon Termination or Change of Control for further information regarding benefits under the employment agreements.

TAX CONSIDERATIONS

Section 162(m) of the Internal Revenue Code limits to \$1 million the deductibility for federal income tax purposes of annual compensation paid by a publicly held company to its chief executive officer and its four other highest paid executives, unless certain conditions are met. To the extent feasible, we structure executive compensation to preserve deductibility for federal income tax purposes. In this regard, our stock option plans are designed to preserve, to the extent otherwise available, the deductibility of income realized upon the exercise of stock options. Nevertheless, we retain the flexibility to authorize compensation that may not be deductible if we believe it is in the best interests of our Company.

**ROLE OF EXECUTIVE OFFICERS IN DETERMINING EXECUTIVE
COMPENSATION FOR NAMED EXECUTIVE OFFICERS**

In connection with 2006 compensation, Mr. Stover, aided by Buck Consultants, provided statistical data and recommendations to the Compensation Committee to assist it in determining compensation levels. Mr. Stover did not make recommendations as to his own compensation. While the Compensation Committee utilized this information, and valued Mr. Stover's observations with regard to other executive officers, the ultimate decisions regarding executive compensation were made by the Compensation Committee.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee reviewed and discussed with management the Compensation Discussion and Analysis required by Securities and Exchange Commission regulations. Based on its review and discussions, the Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

**POTENTIAL PAYMENTS UPON TERMINATION OR
CHANGE OF CONTROL**

In this section, we describe payments that may be made to our named executive officers upon several events of termination, including termination in connection with a change of control. The payment amounts discussed and in the table below reflect the payments that would have been due to the named executive officers had the termination or change of control event occurred on December 31, 2006. The information in this section does not include information relating to payments and benefits provided on a nondiscriminatory basis to salaried employees generally upon termination of employment.

Potential payments to named executive officers upon termination vary, but typically the employment agreements include provisions for salary and health and dental insurance payments for either twelve months (for Mr. Stover and Mr. Apple) or six months (for Dr. Carrara, Dr. Sadowski and Mr. Hattersley) upon a termination without cause or upon termination following a change of control. The employment agreements with Mr. Stover and Mr. Apple also include severance payments upon termination for good reason. Termination for good reason generally means a termination initiated by the executive officer in response to one or more of the following events: (1) a decrease in the base salary of the officer, (2) a decrease in the target annual bonus below a specified percentage, (3) a change in the designation of title, unless such change is to a higher title and level of responsibility, (4) a relocation of the principal business location, (5) the Company's failure to materially comply with the terms of the employment agreement.

Generally, a change of control under the employment agreements means: (1) the acquisition by any person of 50 percent or more of the Company's then outstanding voting stock or voting securities; (2) a merger or consolidation as a result of which our stockholders do not own at least 50 percent of the

Table of Contents

value of our outstanding equity or combined voting power of our voting securities; or (3) a sale of all or substantially all of our assets occurs.

A named executive officer's employment may be terminated for cause, which typically includes the following: (1) dishonesty, fraud or misrepresentation in connection with employment, (2) theft, misappropriation or embezzlement of the Company's funds or resources, (3) conviction of or a plea of guilty in connection with any felony, crime involving fraud or misrepresentation, or any other crime, or (4) a breach by the officer of any material term of the employment agreement. In the event of termination for cause, the employment agreements generally require termination of all compensation as of the termination date, except as to amounts already earned.

Under our incentive compensation plans, outstanding stock options generally will vest immediately upon a change of control. The value of the accelerated vesting benefit equals the number of shares as to which the stock options would vest on an accelerated basis upon the occurrence of the specified termination or change of control event, multiplied by the difference between the closing price per share of our Common Stock on December 31, 2006 and the exercise price per share for the affected options. Only Mr. Stover has stock options with an exercise price below the closing price per share at December 31, 2006. The value of his options that would vest upon a change of control is \$99,250.

The employment agreement with Mr. Stover stipulates that if at the time of a change of control the value of the Company is at least \$75 million, then he shall be issued the difference between the total 260,000 shares he could earn upon the achievement of certain performance and market based goals and the number of such shares previously issued to him. All of these shares would be 100% vested on issuance. At December 31, 2006, the value of the Company was less than \$75 million; therefore the 173,334 of these shares that remained unissued at that time were given no value for purposes of the change of control disclosures. In addition, Mr. Stover's employment agreement contains stretch equity goals that entitle him to 200,000 shares upon a change of control in which the surviving company's equity securities have a market capitalization of no less than \$150 million, with the portion attributable to the Company's stockholders prior to the change of control totaling no less than \$85 million. These 200,000 shares were also given a value of zero for purposes of the change of control disclosures.

The employment agreement with Mr. Apple stipulates that upon a change of control the 227,273 shares that would have been issued upon the attainment of operational criteria shall be issued and fully vested. The 22,727 shares that would have been issued upon the attainment of specific market based criteria shall be issued if such market based criteria are attained as a result of the change of control. At December 31, 2006, the market based criteria would not have been met upon a change of control and therefore the 22,727 shares were given a value of zero for purposes of the change of control disclosures. The value of his shares that would be issued and vested upon a change of control on December 31, 2006 is \$272,727.

The following table summarizes the amounts payable to each of the named executive officers based on the items described above with respect to each of the events set forth in the table. As used in the table below, change of control refers to payment or other benefit events occurring upon a change of control or in connection with a termination related to a change of control, as applicable.

Name	Without Cause or for Good Reason	Change of Control	Death	Disability

REPORT OF THE AUDIT COMMITTEE

The Audit Committee reviews our financial reporting process on behalf of the Board of Directors. The Audit Committee acts under a written charter that was first adopted and approved by our Board of Directors on June 12, 2000, and amended and restated numerous times, the last being January 16, 2007. A copy of the amended and restated charter is available on our website at www.antarespharma.com. In 2006, the Audit Committee consisted of Thomas J. Garrity, Anton G. Gueth and Dr. Paul K. Wotton. Management has the primary responsibility for the consolidated financial statements and the reporting process. Our independent registered public accounting firm is responsible for expressing an opinion on the conformity of our audited consolidated financial statements to U.S. generally accepted accounting principles.

In this context, the Audit Committee reviewed and discussed with management and the independent registered public accounting firm the audited consolidated financial statements for 2006. The Audit Committee discussed with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committee). In addition, the Audit Committee received from the independent certified public accountants the written disclosures required by Independence Standards Board No. 1 (Independence Discussions with Audit Committees) and discussed with them their independence from us and our management. The Audit Committee determined that the tax services provided to our company by our independent registered public accounting firm are compatible with the independent registered public accounting firm's independence.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board of Directors approved, that the audited consolidated financial statements be included in our company's Annual Report on Form 10-K for the year ended December 31, 2006, for filing with the Securities and Exchange Commission.

OTHER MATTERS

Solicitation

We will bear the cost of preparing, assembling and mailing the proxy card and proxy statement to our stockholders in connection with this solicitation. Brokerage houses and other custodians, nominees and fiduciaries may be requested to forward soliciting material to the beneficial owners of stock, in which case they will be reimbursed by us for their expenses in doing so. Proxies are being solicited primarily by mail, but our officers and directors may solicit proxies personally by telephone or special letter, but such persons will not receive compensation from us for doing so.

We may also utilize the services of other individuals or entities not employed by or affiliated with the Company in connection with the solicitation of proxies, but at this time have not entered into any contract or engagement with any such solicitors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our directors, certain officers and persons who own more than ten percent of a registered class of our equity securities, to file reports of ownership on Form 3 and changes in ownership on Forms 4 or 5 with the SEC. Such officers, directors and ten percent stockholders are also required by the SEC rules to furnish us with copies of all Section 16(a) reports they file.

Specific due dates for such reports have been established by the SEC and we are required to disclose in this Proxy Statement any failure to file reports by such dates. Based solely on a review of the copies of such reports received by us or by written representations from certain reporting persons, we believe that during the year ended December 31, 2006, all Section 16(a) filing requirements applicable to officers, directors and ten percent stockholders were met.

Under our Bylaws, no business may be brought before an annual meeting unless it is specified in the notice of the meeting or is otherwise brought before the meeting at the direction of our board of directors or by a stockholder of record entitled to vote who has delivered written notice to our Corporate Secretary and such notice is received not less than 90 days nor more than 120 days prior to the first anniversary of the preceding year's annual meeting and such notice has complied with the information requirements in our Bylaws. In addition, any stockholder who wishes to submit a nomination to our Board must deliver written notice of the nomination within this time period and comply with the information requirements in our Bylaws relating to stockholder nominations. See "Corporate Governance Director Nominations" for additional information about stockholder nominations. These requirements are separate from and in addition to requirements that a stockholder must meet in order to have a stockholder proposal included in our proxy statement as described below.

Stockholders interested in submitting a proposal for inclusion in the proxy statement for our 2008 Annual Meeting of Stockholders may do so by following the procedures prescribed in SEC Rule 14a-8. To be eligible for inclusion in our proxy statement for our 2008 Annual Meeting of Stockholders, stockholder proposals must be prepared in accordance with the SEC's proxy rules and received by our Corporate Secretary no later than January 15, 2008.
