VORNADO REALTY TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. Organization

Vornado Realty Trust is a fully-integrated real estate investment trust (REIT) and conducts its business through Vornado Realty L.P., a Delaware limited partnership (the Operating Partnership). All references to our, we, us, the Company and Vornado refer to Vornado Realty Trust and its consolidated subsidiaries. We are the sole general partner of, and owned approximately 90.3% of the common limited partnership interest in, the Operating Partnership at June 30, 2008.

Substantially all of Vornado Realty Trust's assets are held through subsidiaries of the Operating Partnership. Accordingly, Vornado Realty Trust's cash flow and ability to pay dividends to its shareholders is dependent upon the cash flow of the Operating Partnership and the ability of its direct and indirect subsidiaries to first satisfy their obligations to creditors.

2. Basis of Presentation

The accompanying consolidated financial statements are unaudited. In our opinion, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and changes in cash flows have been made. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted. These condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q of the Securities and Exchange Commission (the SEC) and should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2007, as filed with the SEC. The results of operations for the three and six months ended June 30, 2008, are not necessarily indicative of the operating results for the full year.

The accompanying consolidated financial statements include the accounts of Vornado and the Operating Partnership, as well as certain partially owned entities in which we own more than 50%, unless a partner has shared board and management representation and substantive participation rights on all significant business decisions, or 50% or less when (i) we are the primary beneficiary and the entity qualifies as a variable interest entity under Financial Accounting Standards Board (FASB) Interpretation No. 46 (Revised) *Consolidation of Variable Interest Entities* (FIN 46R), or (ii) when we are a general partner that meets the criteria under Emerging Issues Task Force (EITF) Issue No. 04-5. All significant inter-company amounts have been eliminated. Equity interests in partially owned entities are accounted for under the equity method of accounting when they do not meet the criteria for consolidation and our ownership interest is greater than 20%. When partially owned investments are in partnership form, the 20% threshold for equity method accounting is generally reduced to 3% to 5%, based on our ability to influence the operating and financial policies of the partnership. Investments accounted for under the equity method are initially recorded at cost and subsequently adjusted for our share of the net income or loss and cash contributions and distributions to or from these entities. Investments in partially owned entities that do not meet the criteria for consolidation or for equity method accounting are accounted for on the cost method.

We have made estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Certain prior year balances related to discontinued operations and income tax (expense) benefit have been reclassified in order to conform to current year presentation.

Edgar Filing: VORNADO REALTY TRUST - Form 10-Q

In connection with purchase accounting for H Street, in July 2005 and April 2007 we recorded an aggregate of \$222,174,000 of deferred tax liabilities representing the differences between the tax basis and the book basis of the acquired assets and liabilities multiplied by the effective tax rate. We were required to record these deferred tax liabilities because H Street and its partially owned entities were operated as C Corporations at the time they were acquired. As of January 16, 2008, we had completed all of the actions necessary to enable these entities to elect REIT status effective for the tax year beginning on January 1, 2008. Consequently, in the first quarter of 2008, we reversed the deferred tax liabilities and recognized an income tax benefit of \$222,174,000 in our consolidated statement of income.

3. Recently Issued Accounting Literature

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States of America and expands disclosures about fair value measurements. SFAS 157 was effective for our financial assets and liabilities on January 1, 2008. The FASB has deferred the implementation of the provisions of SFAS 157 relating to certain non-financial assets and liabilities until January 1, 2009. This standard did not materially affect how we determine fair value, but resulted in certain additional disclosures. SFAS 157 establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three levels: Level 1 – quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities; Level 2 – observable prices that are based on inputs not quoted in active markets, but corroborated by market data; and Level 3 – unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. In determining fair value, we utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as consider counterparty credit risk in our assessment of fair value. Financial assets and liabilities measured at fair value in our consolidated financial statements consist of (i) marketable equity securities – available for sale, (ii) derivative positions in marketable equity securities and (iii) the assets of our officers – deferred compensation plan (primarily marketable equity securities and equity investments in partially owned entities), for which there is a corresponding liability on our consolidated balance sheet. Financial assets and liabilities carried at fair value as of June 30, 2008 are presented in the table below based on the hierarchy used to measure fair value:

(Amounts in thousands)	Total	Fair Value Hierarchy		
		Level 1	Level 2	Level 3
Marketable equity securities	\$ 178,181	\$ 178,181	\$	\$
Officers' deferred compensation plan assets	81,824	40,796		41,028 (2)
Interest rate caps	27		27	
Total Assets, reported at fair value (1)	\$ 260,032	\$ 218,977	\$ 27	\$ 41,028
Derivative positions in marketable equity securities	\$ 4,996	\$	\$ 4,996	\$
Officers' deferred compensation plan liabilities	81,824	40,796		41,028 (2)
Total Liabilities, reported at fair value (1)	\$ 86,820	\$ 40,796	\$ 4,996	\$ 41,028

- (1) We chose not to elect the fair value option prescribed by Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159), for our financial assets and liabilities that had not been previously carried at fair value. These financial assets and liabilities include our outstanding debt, accounts receivable, accounts payable and investments in partially owned entities.
- (2) The fair value of Level 3 – officers' deferred compensation plan assets – represents equity investments in certain limited partnerships, for which there is a corresponding Level 3 liability to the officers. The following is a reconciliation of the beginning balance at January 1, 2008 to the ending balance at June 30, 2008: Beginning balance of \$50,578, less total unrealized gains/losses included in earnings of \$8,294, and purchases, issuances and settlements of \$1,256, which equals the ending balance of \$41,028. The total unrealized gains and losses related to the plan assets and liabilities are included as a component of interest and other investment income – and general and administrative, respectively, in our consolidated statement of income.

In September 2006, the FASB issued Statement No. 158, *Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans, an Amendment of SFAS No. 87, 88, 106 and 132R* (SFAS 158). SFAS 158 requires an employer to (i) recognize in its statement of financial position an asset for a plan's over-funded status or a liability for a plan's under-funded status; (ii) measure a plan's assets and its obligations that determine its funded status as of the end of the employer's fiscal year (with limited exceptions); and (iii) recognize changes in the funded status of a defined benefit postretirement plan in the year in which the changes occur. Those changes will be reported in comprehensive income. The adoption of the requirement to recognize the funded status of a benefit plan and the disclosure requirements as of December 31, 2006 did not have a material effect on our consolidated financial statements. The requirement to measure plan assets and benefit obligations to determine the funded status as of the end of the fiscal year and to recognize changes in the funded status in the year in which the changes occur is effective on January 1, 2009. The adoption of the measurement date provisions of this standard is not expected to have a material effect on our consolidated financial statements.

Edgar Filing: VORNADO REALTY TRUST - Form 10-Q

In February 2007, the FASB issued SFAS 159, which permits companies to measure many financial instruments and certain other items at fair value. SFAS 159 was effective on January 1, 2008. We have not elected the fair value option for any of our existing financial instruments on the effective date and have not determined whether we will elect this option for any eligible financial instruments we acquire in the future.

3. Recently Issued Accounting Literature - continued

In December 2007, the FASB issued Statement No. 141R, *Business Combinations* (SFAS 141R). SFAS 141R broadens the guidance of SFAS 141, extending its applicability to all transactions and other events in which one entity obtains control over one or more other businesses. SFAS 141R also broadens the fair value measurement and recognition of assets acquired, liabilities assumed, and interests transferred as a result of business combinations; and requires that acquisition related costs be expensed rather than included as part of the basis of the acquisition. SFAS 141R expands required disclosures to improve the ability to evaluate the nature and financial effects of business combinations. SFAS 141R is effective for all transactions entered into on or after January 1, 2009. The adoption of this standard on January 1, 2009 could materially impact our future financial results to the extent that we acquire significant amounts of real estate, as related acquisition costs will be expensed as incurred compared to our current practice of capitalizing such costs and amortizing them over the estimated useful life of the assets acquired.

In December 2007, the FASB issued Statement No. 160, *Noncontrolling Interests in Consolidated Financial Statements - An Amendment of ARB No. 51* (SFAS 160). SFAS 160 requires a noncontrolling interest in a subsidiary to be reported as equity and the amount of consolidated net income specifically attributable to the noncontrolling interest to be identified in the consolidated financial statements. SFAS 160 also calls for consistency in the manner of reporting changes in the parent's ownership interest and requires fair value measurement of any noncontrolling equity investment retained in a deconsolidation. SFAS 160 is effective on January 1, 2009. We are currently evaluating the impact SFAS 160 will have on our consolidated financial statements.

In March 2008, the FASB issued Statement No. 161, *Disclosures about Derivative Instruments and Hedging Activities - an Amendment of FASB Statement No. 133* (SFAS 161). SFAS 161 requires enhanced disclosures related to derivative instruments and hedging activities, including disclosures regarding how an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*, and the impact of derivative instruments and related hedged items on an entity's financial position, financial performance and cash flows. SFAS 161 is effective on January 1, 2009. We believe that the adoption of this standard on January 1, 2009 will not have a material effect on our consolidated financial statements.

In May 2008, the FASB issued Staff Position No. APB 14-1, *Accounting for Convertible Debt Instruments that may be Settled in Cash upon Conversion (Including Partial Cash Settlement)*, (the FSP). The adoption of this FSP would affect the accounting for our convertible and exchangeable senior debentures and Series D-13 convertible preferred units. The FSP would require the initial proceeds from the sale of our convertible and exchangeable senior debentures and Series D-13 convertible preferred units to be allocated between a liability component and an equity component. The resulting discount would be amortized using the effective interest method over the period the debt is expected to remain outstanding as additional interest expense. The FSP would be effective for our fiscal year beginning on January 1, 2009 and require retroactive application. The adoption of the FSP on January 1, 2009 would result in the recognition of an aggregate unamortized debt discount of \$161,259,000 (as of June 30, 2008) in our consolidated balance sheets and additional interest expense in our consolidated statements of income. Our current estimate of the incremental interest expense, net of minority interest, for each reporting period is as follows:

3. Recently Issued Accounting Literature - continued

In May 2008, the FASB issued Statement No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS 162). The purpose of this statement is to improve financial reporting by providing a consistent framework for determining applicable accounting principles to be used in the preparation of financial statements presented in conformity with GAAP. SFAS 162 will become effective 60 days after the SEC's approval. We believe that the adoption of this standard on its effective date will not have a material effect on our consolidated financial statements.

In May 2008, the FASB issued Statement No. 163, *Accounting for Financial Guarantee Insurance Contracts* (SFAS 163). SFAS 163 was issued to decrease inconsistencies within Statement No. 60, *Accounting and Reporting by Insurance Enterprises*, and clarify how it applies to financial guarantee insurance contracts issued by insurance enterprises, including the recognition of premium revenue and claim liabilities. SFAS 163 also requires expanded disclosures about financial guarantee insurance contracts. SFAS 163 is effective on January 1, 2009. We believe that the adoption of this standard on January 1, 2009 will not have any effect on our consolidated financial statements.

4. Investments in Partially Owned Entities*Toys R Us (Toys)*

Toys prepares its consolidated financial statements using the historical cost basis (Recap basis) of accounting. We account for our investment in Toys on the purchase accounting basis. In July 2008, in connection with an audit of Toys' purchase accounting basis financial statements for its fiscal years 2006 and 2007, it was determined that the purchase accounting basis income tax expense was understated. Our share of this non-cash charge is \$14,900,000, which we recognized as part of our equity in Toys' net loss in the three months ended June 30, 2008. This non-cash charge has no effect on cash actually paid for income taxes or Toys' previously issued Recap basis consolidated financial statements.

At June 30, 2008, we owned 32.7% of Toys. Toys' business is highly seasonal. Historically, Toys' fourth quarter net income accounts for more than 80% of its fiscal year net income. Because Toys' fiscal year ends on the Saturday nearest January 31, we record our 32.7% share of Toys' net income or loss on a one-quarter lag basis. Below is a summary of Toys' latest available financial information.

Alexander's (NYSE: ALX)

Edgar Filing: VORNADO REALTY TRUST - Form 10-Q

At June 30, 2008, we owned 32.6% of the outstanding common stock of Alexander's. We manage, lease and develop Alexander's properties pursuant to agreements, that expire in March of each year and are automatically renewed. As of June 30, 2008, Alexander's owed us \$42,376,000 for fees under these agreements.

Based on Alexander's June 30, 2008 closing share price on the NYSE of \$310.60, the market value (fair value pursuant to SFAS 157) of our investment in Alexander's is \$513,754,000, or \$373,354,000 in excess of the carrying amount on our consolidated balance sheet.

The Lexington Master Limited Partnership (Lexington MLP)

At June 30, 2008, we owned 8,149,593 limited partnership units of Lexington MLP which are exchangeable on a one-for-one basis into common shares of Lexington Realty Trust (Lexington) (NYSE: LXP) or a 7.7% limited partnership interest. We record our pro rata share of Lexington MLP's net income or loss on a one-quarter lag basis because we file our consolidated financial statements on Form 10-K and 10-Q prior to the time that Lexington files its financial statements.

Based on Lexington's June 30, 2008 closing share price of \$13.63 on the NYSE, the market value (fair value pursuant to SFAS 157) of our investment in Lexington MLP was \$111,079,000, or \$42,693,000 below the carrying amount on our consolidated balance sheet. Lexington's common shares have traded at market prices in excess of our carrying amount per unit during the last 12 months. We have the ability and intent to hold these units until they recover in value. In addition, we account for our investment in Lexington MLP on the equity method, under which the carrying amount of our investment is reduced by (i) the amount of distributions we receive from Lexington MLP (current annual run rate of \$1.32 per unit) and (ii) our pro rata share of Lexington MLP's net losses. During the six months ended June 30, 2008, the carrying amount of our investment was reduced by approximately \$4,564,000. This reduction would have been greater if Lexington MLP did not have net gains on sales of real estate during this period. Based on these factors, we have concluded that the decline in the value of our investment is not other-than-temporary as of June 30, 2008. However, if the current market conditions deteriorate further, or a recovery in market value does not occur, we may be required to record additional unrealized or realized losses in future periods.

GMH Communities L.P. (GMH)

Prior to June 11, 2008, we owned 7,337,857 GMH limited partnership units, which were exchangeable on a one-for-one basis into common shares of GMH Communities Trust (GCT) (NYSE: GCT), and 2,517,247 common shares of GCT, or 13.8% of the limited partnership interest of GMH, which had an aggregate carrying amount of \$101,634,000, or \$10.31 per share/unit. We accounted for our investment in GMH on the equity method and recorded our pro rata share of GMH's net income or loss on a one-quarter lag basis as we filed our consolidated financial statements on Form 10-K and 10-Q prior to the time that GCT filed its financial statements.

Pursuant to the sale of GMH's military housing division and the merger of its student housing division with American Campus Communities, Inc (ACC) (NYSE: ACC), subsequent to June 11, 2008 we received an aggregate of \$105,180,000, consisting of \$82,142,000 in cash and 753,126 shares of ACC common stock valued at \$23,038,000 based on ACC's then closing share price of \$30.59, in exchange for our entire interest in GMH. We subsequently sold all of the ACC common shares. The above transactions resulted in a net gain of \$2,038,000, which was recognized in the quarter ended June 30, 2008, and is included as a component of net gains on disposition of wholly owned and partially owned assets other than depreciable real estate in our consolidated statement of income.

The aggregate net income realized from inception of this investment in 2004 through its disposition was \$77,000,000.

India Real Estate Ventures

We are a partner in four joint ventures established to develop real estate in India's leading cities. During the six months ended June 30, 2008, we funded \$39,077,000 of cash to the four ventures, including \$34,077,000 to the India Property Fund L.P. (IPF). As of June 30, 2008, our aggregate investment in these four ventures was \$83,524,000 and our remaining capital commitment to these ventures is \$91,923,000, of which \$80,923,000 is to IPF. At June 30, 2008 and December 31, 2007, our ownership interest in IPF was 36.5% and 50.6%, respectively. Based on the reduction of our ownership interest in 2008, we no longer consolidate the accounts of IPF into our consolidated financial statements and beginning on January 1, 2008 we account for our investment in IPF under the equity method.

- (1) On June 5, 2007, we acquired a 42% interest in two MPH mezzanine loans totaling \$158,700, for \$66,000 in cash. The loans, which were due on February 8, 2008 and have not been repaid, are subordinate to \$2.9 billion of mortgage and other debt and secured by the equity interests in four New York City properties: Worldwide Plaza, 1540 Broadway office condominium, 527 Madison Avenue and Tower 56. At December 31, 2007, we reduced the net carrying amount of the loans to \$9,000, by recognizing a \$57,000 non-cash charge which was included as a reduction of interest and other investment income in our 2007 consolidated statement of income. On April 2, 2008, we sold a sub-participation interest in the loans for \$19,300. The sub-participation did not meet the criteria for sale accounting under Statement of Financial Accounting Standard No. 140 *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (SFAS 140) because the sub-participant is not free to pledge or exchange the asset. In the first quarter of 2008, we reduced our valuation allowance from \$57,000 to \$46,700, resulting in the recognition of \$10,300 of interest and other investment income in our consolidated statement of income.
