FILE NO. _____

FORM U-3A-2
2002

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC

STATEMENT BY HOLDING COMPANY CLAIMING EXEMPTION UNDER
RULE U-3A-2 FROM THE PROVISIONS OF THE PUBLIC UTILITY
HOLDING COMPANY ACT OF 1935
TO BE FILED ANNUALLY PRIOR TO MARCH 1

SOUTH JERSEY INDUSTRIES, INC.

hereby files with the Securities and Exchange Commission, pursuant to Rule 2, its statement claiming exemption as a holding company from the provisions of the Public Utility Holding Company Act of 1935. In support of such claim for exemption, the following information is submitted:

1. Name, State of organization, location and nature of business of claimant and every subsidiary thereof other than any exempt wholesale generator (EWG) or foreign utility company in which claimant directly or indirectly holds an interest.

The claimant, South Jersey Industries, Inc. (SJI), was organized under the laws of the State of New Jersey; its principal location is 1 South Jersey Plaza, Folsom, New Jersey 08037. SJI is not a public utility company. It is primarily engaged in the business of owning and holding a majority interest in other business enterprises.

SJI owns all of the outstanding common stock of South Jersey Gas Company (SJG), which was organized under the laws of the State of New Jersey. SJG's principal location is 1 South Jersey Plaza, Folsom, New Jersey 08037. SJG is a public utility company engaged in the purchase, transmission and sale of natural and mixed gases for residential, commercial, and industrial use in an area of approximately 2,500 square miles in the southern part of New Jersey. SJG also makes off-system sales of natural gas on a wholesale basis to various customers on the interstate pipeline system and transports natural gas purchased directly from producers or suppliers for its own sales and for some of its customers. SJG also assigns or buys capacity for the purchase or transportation of natural gas.

- 1 -

SJI has a 100% ownership interest in South Jersey Resources Group, LLC (SJRG) which was formed on April 1, 1996 under the laws of the State of Delaware. SJRG's principal location is 1 South Jersey Plaza, Folsom, New Jersey 08037. SJRG is not a public utility company. It provides services for the sale of natural gas to energy marketers, electric and gas utilities and other wholesale users in the mid-Atlantic and southern regions of the country.

SJI owns all of the outstanding common stock of South Jersey Energy

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

Company (SJE), which was organized on January 15, 1973 under the laws of the State of New Jersey. SJE's principal location is 1 South Jersey Plaza, Folsom, New Jersey 08037. SJE is not a public utility company. SJE provides services for the acquisition, sale and transportation of natural gas and electricity for industrial, commercial and residential users and markets total energy management services. SJE also markets an air quality monitoring system that tests for hazardous airborne particulate on a real-time basis through AirLogics, LLC.

SJE owns a 50% interest in AirLogics, LLC (AirLogics), a joint venture with GZA GeoEnvironmental, Inc., formed on April 1, 2000 under the laws of the State of Delaware. AirLogics' principal location is 1 South Jersey Plaza, Folsom, New Jersey 08037. AirLogics is not a public utility company. It markets a proprietary air monitoring system designed to assist companies involved in environmental clean-up activities.

SJE owns all of the outstanding common stock of SJ EnerTrade, Inc. (EnerTrade) which was formed on October 22, 1997 under the laws of the State of New Jersey. EnerTrade's principal location is 1 South Jersey Plaza, Folsom, New Jersey 08037. EnerTrade is not a public utility company. It provides services for the sale of natural gas to the casino industry in Atlantic City, New Jersey.

SJE also has a 50% investment in South Jersey Energy Solutions, LLC (SJES), a joint venture with Energy East Solutions, Inc. formed June 1, 1999 under the laws of the State of Delaware. SJES's principal location is 1 South Jersey Plaza, Folsom, New Jersey 08037. SJES is not a public utility company. It sold electricity on a retail basis in the mid-Atlantic states. In May 2002, SJES ceased selling electricity.

SJI owns a 50% interest in Millennium Account Services, LLC (Millennium), a joint venture with Conectiv Solutions, LLC formed January 4, 1999 under the laws of the State of Delaware. Millennium's principal location is 2 Regulus Drive, Suite B, Turnersville, New Jersey 08012. Millennium is not a public utility company. It provides meter reading services in southern New Jersey.

SJI has a 100% ownership interest in Marina Energy LLC (Marina) which was formed on October 1, 2000 under the laws of the State of New Jersey. Marina's principal location is 1 South Jersey

- 2 -

Plaza, Folsom, New Jersey 08037. Marina develops and operates energy related projects in southern New Jersey. Marina is not a public utility company.

SJI owns all of the outstanding common stock of Energy & Minerals, Inc. (EMI), which was organized under the laws of the State of New Jersey. EMI's principal location is 1 South Jersey Plaza, Folsom, New Jersey 08037. EMI is not a public utility company. It principally owns real estate and the stock of an inactive nonutility subsidiary.

EMI owns all of the outstanding common stock of South Jersey Fuel, Inc. (SJF), which was organized under the laws of the State of New Jersey. SJF's principal location is 1 South Jersey Plaza, Folsom, New Jersey 08037. SJF is not a public utility company and is presently inactive.

SJI owns all of the outstanding common stock of R&T Group, Inc. (R&T), which was organized under the laws of the State of New Jersey. R&T's principal location is 1 South Jersey Plaza, Folsom, New Jersey 08037.

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

R&T is not a public utility company. It holds the remaining assets and liabilities of certain nonutility subsidiaries of SJI which were merged into R&T in 1997. R&T is presently inactive.

Neither the claimant or any of its subsidiaries is an EWG nor do they hold a direct or indirect interest in a foreign utility company.

2. A brief description of the properties of claimant and each of its subsidiary public utility companies used for the generation, transmission, and distribution of electric energy for sale, or for the production, transmission, and distribution of natural or manufactured gas, indicating the location of principal generating plants, transmission lines, producing fields, gas manufacturing plants, and electric and gas distribution facilities, including all such properties which are outside the State in which claimant and its subsidiaries are organized and all transmission or pipelines which deliver or receive electric energy or gas at the borders of such State.

SJI does not own directly any properties used for the production, transmission, and distribution of natural or manufactured gas or electric energy.

The properties of SJG used for the production, transmission, and distribution of natural or manufactured gas include mains, service connections and meters, supplemental gas storage facilities, and an LNG storage and vaporization facility, all of which are located in the State of New Jersey (except that certain gas owned by SJG is stored outside the State and transported when needed). There are 5,282 miles of distribution mains. There are 92 miles of mains in the transmission system. No pipelines of SJG deliver or receive gas at the borders of the State of New Jersey.

- 3 -

3. The following information for the last calendar year with respect to claimant and each of its subsidiary public utility companies:

(a) Number of Kwh of electric energy sold (at retail or wholesale) and Mcf of natural or manufactured gas distributed at retail.

During 2002, SJG distributed at retail to residential, commercial and industrial customers 23,178 MMcf of natural or manufactured gas and transported 29,659 MMcf of natural gas purchased directly by its industrial, residential and commercial customers. Retail distribution revenues were \$241.6 million and transportation revenues were \$51.0 million. SJG also sold 11,434 MMcf, or \$48.1 million, of natural gas at wholesale for resale within the State of New Jersey.

(b) Number of Kwh of electric energy and Mcf of natural or manufactured gas distributed at retail outside the State in which each company is organized.

None

(c) Number of Kwh of electric energy and Mcf of natural or manufactured gas sold at wholesale outside the State in which each such company is organized, or at the State line.

During 2002, SJG sold 18,546 MMcf, or \$67.6 million, of natural gas at wholesale to customers outside the borders of the State of New Jersey.

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

Also, throughput related to capacity release amounted to 38,048 MMcf, or \$5.4 million in revenues, in 2002.

(d) Number of Kwh of electric energy and Mcf of natural or manufactured gas purchased outside the State in which each such company is organized or at the State line.

During 2002, SJG purchased approximately 54,897 MMcf of natural gas from out-of-state sources at a total cost, including related expenses, of \$274.4 million.

During 2002, SJG purchased and had delivered to it approximately 180 MMcf of liquefied natural gas by over-the-road truck transport to SJG's LNG Storage and Vaporization facility at McKee City, Atlantic County, New Jersey, at a cost of \$1.7 million.

4. The following information for the reporting period with respect to claimant and each interest it holds directly or indirectly in an EWG or a foreign utility company, stating monetary amounts in United States dollars:

- 4 -

(a) Name, location, business address and description of the facilities used by the EWG or foreign utility company for the generation, transmission and distribution of electric energy for sale or for the distribution at retail of natural or manufactured gas.

The claimant has no direct or indirect interest or investment of any kind in, or has any sales, service or construction contracts of any kind with, an EWG or a foreign utility company.

(b) Name of each system company that holds an interest in such EWG or foreign utility company; and description of the interest held.

No system company holds any direct or indirect interest in an EWG or foreign utility company.

(c) Type and amount of capital invested, directly or indirectly, by the holding company claiming exemption; any direct or indirect guarantee of the security of the EWG or foreign utility company by the holding company claiming exemption; and any debt or other financial obligation for which there is recourse, directly or indirectly, to the holding company claiming exemption or another system company, other than the EWG or foreign utility company.

The claimant holding company has no capital invested, directly or indirectly; nor does it directly or indirectly guarantee any security debt of an EWG or foreign utility company; nor debt or other financial obligation for which there is recourse, directly or indirectly, to the holding company claiming exemption on another system company.

(d) Capitalization and earnings of the EWG or foreign utility company during the reporting period.

None

(e) Identify any service, sales or construction contract(s) between the EWG or foreign utility company and a system company, and describe the services to be rendered or goods sold and fees or revenues under such

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

agreement(s).

None

- 5 -

EXHIBIT A

A consolidating statement of income and retained earnings of the claimant and its subsidiary companies for the last calendar year, together with a consolidating balance sheet of claimant and its subsidiary companies as of the close of such calendar year.

The above-named claimant has caused this statement to be duly executed on its behalf by its authorized officer on this 27th day of February 2003.

ENERGY & MINERALS, INC.
CONSOLIDATING ADJUSTMENTS AND ELIMINATIONS
BALANCE SHEET - DECEMBER 31, 2002
(In Thousands)

[1]	Premium on Common Stock	\$1,058
	Investment in Subsidiary	734
	Retained Earnings	

To eliminate Energy & Minerals, Inc. investment in subsidiary which is maintained on the equity method of accounting.

- 31 -

SOUTH JERSEY INDUSTRIES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS CONTAINED IN REGISTRANT'S FORM 10-K

1. Summary of Significant Accounting Policies:

Consolidation - The consolidated financial statements include the accounts of South Jersey Industries, Inc. (SJI) and its subsidiaries. We eliminated all significant intercompany accounts and transactions. SJI reclassified some previously reported amounts to conform with current year classifications.

Equity Investments - We classify equity investments purchased as long-term investments as Available-for-Sale Securities on our consolidated balance sheets and/or carry them at their estimated fair value with any changes in unrealized gains or losses included in Other Comprehensive Income (See Note 8). SJI, either directly or through its wholly owned subsidiaries, currently holds a 50% non-controlling interest in several affiliated companies and accounts for the investments under the equity method. We include the

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

operations of these affiliated companies in the statements of consolidated income under the caption, Equity in Affiliated Companies (See Note 3).

Estimates and Assumptions - We prepare our financial statements to conform with generally accepted accounting principles. Management makes estimates and assumptions that affect the amounts reported in the financial statements and related disclosures. Therefore, actual results could differ from those estimates.

Regulation - South Jersey Gas Company (SJG) is subject to the rules and regulations of the New Jersey Board of Public Utilities (BPU). We maintain our accounts according to the BPU's prescribed Uniform System of Accounts (See Note 9). SJG follows the accounting for regulated enterprises prescribed by the Financial Accounting Standards Board (FASB) Statement No. 71, "Accounting for the Effects of Certain Types of Regulation." In general, Statement No. 71 allows deferral of certain costs and creation of certain obligations when it is probable that these items will be recovered from or refunded to customers in future periods.

Revenues - SJG, South Jersey Energy Company (SJE) and South Jersey Resources Group, LLC (SJRG) bill customers monthly for gas deliveries. For SJG and SJE retail customers not billed at the end of each month, we make an accrual to recognize unbilled revenues from the date of the last bill to the end of the month. We defer and recognize revenues related to SJG's appliance warranty contracts over the full 12-month term of the contract as earned.

The BPU allows SJG to recover the excess cost of gas sold over the cost included in base rates through the Levelized Gas Adjustment Clause (LGAC). We collect these costs on a forecasted basis upon BPU order. SJG defers over/under-recoveries of gas costs and includes them in the following year's

- 32 -

LGAC or other similar recovery mechanism. We pay interest on overcollected LGAC balances based on SJG's approved return on rate base (See Note 9).

SJG's tariff also includes a Temperature Adjustment Clause (TAC), a Remediation Adjustment Clause (RAC) and a Comprehensive Resource Analysis Clause (CRA). Our TAC reduces the impact of temperature fluctuations on SJG and its customers. The RAC recovers remediation costs of former gas manufacturing plants and the CRA recovers costs associated with our conservation plan. TAC adjustments affect revenue, income and cash flows since colder-than-normal weather can generate credits to customers, while warmer-than-normal weather can result in additional billings. RAC adjustments do not directly affect earnings because we defer and recover these costs through rates over 7-year amortization periods (See Notes 9 & 14). CRA adjustments are also deferred and do not affect earnings, as these costs are recovered through rates on an ongoing basis.

Property, Plant and Equipment - For regulatory purposes, utility plant is stated at original cost. Nonutility plant is stated at cost. The cost of adding, replacing and renewing property is charged to the appropriate plant account.

Depreciation and Amortization - We depreciate utility plant on a straight-line basis over the estimated remaining lives of the various property classes. We periodically review and adjust these estimates as required after BPU approval. The composite annual rate for all depreciable utility property was approximately 2.9% in 2002 and 2.8% in 2001 and 2000. Except for extraordinary retirements, accumulated depreciation is charged with the cost of depreciable utility property retired and removal costs less salvage. We compute nonutility property depreciation on a straight-line basis

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

over the estimated useful lives of the property, ranging up to 20 years. We recognize gain or loss on the disposition of nonutility property in net income.

Impairment of Long-Lived Assets - We review the carrying amount of an asset for possible impairment whenever events or changes in circumstances indicate that such amount may not be recoverable. For the years ended 2002, 2001 and 2000, no such circumstances were identified.

Energy Trading Activities and Derivative Instruments - SJI's regulated and unregulated subsidiaries are involved in buying, selling, transporting and storing natural gas and buying and selling retail electricity for their own accounts as well as managing these activities for others. These subsidiaries are subject to market risk due to price fluctuations. To manage this risk, our companies enter into a variety of physical and financial transactions including forward contracts, swap agreements, option contracts and futures contracts.

SJI structured its subsidiaries so that SJG and SJE transact commodities on a physical basis only and do not directly enter into financially settling positions. SJRG performs this risk management function for these entities and enters into the types of transactions noted above. Management takes an active

- 33 -

role in the risk management process and has developed policies and procedures that require specific administrative and business functions to assist in identifying, assessing and controlling various risks. Management reviews any open positions in accordance with strict policies to limit exposure to market risk.

Effective January 1, 2001, SJI adopted FASB Statement No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended. We must record all derivatives, whether designated in hedging relationships or not, on the balance sheet at fair value. If the derivative is designated as a fair value hedge, we recognize the changes in the fair value of the derivative and of the hedged item attributable to the hedged risk in earnings. If the derivative is designated as a cash flow hedge, we record the effective portion of changes in the fair value of the derivative in other comprehensive income and recognize it in the income statement when the hedged item affects earnings. We recognize ineffective portions of changes in the fair value of cash flow hedges in earnings. As permitted under Statement No. 133, SJI has elected to designate certain energy-related derivative instruments as cash flow hedges.

SJRG manages its portfolio of purchases and sales, as well as natural gas in storage, using a variety of instruments that include forward contracts, swap agreements, option contracts and futures contracts. Because SJRG's transactions will not necessarily settle physically, SJRG accounts for these contracts at fair value under Emerging Issues Task Force (EITF) Issue No. 98-10, "Accounting for Contracts Involved in Energy Trading and Risk Management Activities" or Statement No. 133. Under this method of accounting, SJRG measures the difference between the contract price and the fair value of the contracts and records these as Energy Trading Assets or Energy Trading Liabilities on our consolidated balance sheets. For the years ended December 31, 2002 and 2001, we included the net unrealized pre-tax (loss) gain of \$(0.5) million and \$3.4 million, respectively, on energy trading contracts determined under the mark-to-market method, in Operating Revenues - Nonutility. The Cumulative Effect of a Change in Accounting Principle - Net of \$148,000 relates to the adoption of Statement No. 133 on January 1, 2001.

Beginning in 2002, SJI has presented revenues and expenses from trading in

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

physical power contracts on a net basis in our consolidated statements of income consistent with recent changes in EITF Issue No. 02-03. Consequently, we classified Operating Revenues - Nonutility and Cost of Sales - Nonutility for the year ended December 31, 2001 to conform with this presentation. Because of the difficulty in obtaining certain information, we determined this presentation by netting the energy contract related revenue and expense transactions of SJRG. As a result, we based certain nonutility costs of sales on the transfer prices between SJRG and SJE. Management believes these transfer prices are generally at market, but has had no policy that they be at market. There is no effect on operating income or net income from the above changes in presentation.

- 34 -

On October 25, 2002, the EITF rescinded its consensus in Issue No. 98-10 effective for transactions entered into after that date, with a cumulative effect adjustment for previously existing transactions to be recognized in the quarter beginning January 1, 2003. As a result of the rescission, SJI will only mark-to-market those energy-related contracts that meet the definition of a derivative in Statement No. 133. Energy-related contracts that do not meet the definition of a derivative would be accounted for using the accrual basis of accounting. The effect of this change in accounting will result in a net charge of \$426,338 shown as a cumulative effect adjustment effective January 1, 2003. Furthermore, management will designate any contract entered into after December 31, 2002 to hedge physical gas in storage as a cash flow hedge and will account for them accordingly.

In November 2001, we entered into two interest rate swap contracts. The first swap effectively provides us with a fixed interest rate of 4.08% on Marina Energy LLC's (Marina) tax-exempt Series A variable rate bonds for a 10-year period. The second swap effectively fixes the interest rate of Marina's taxable Series B variable rate bonds at 4.55% for a 6-year period. The notional amount of this second swap decreases by \$3.0 million per year beginning in December 2005.

In January 2002, Marina issued an additional \$10.0 million of taxable Series B variable rate bonds. In April 2002, we entered into an interest rate swap contract that effectively fixes the interest rate on these bonds at 4.62% for a 4-year period. The notional amount of this swap decreases to \$8.0 million in December 2003, then to \$3.9 million in December 2004, and terminates in December 2005.

Also in April 2002, SJG entered into two interest rate swap contracts that effectively fix the interest rate at 3.57% through March 15, 2003 on \$40.0 million of SJG's debt outstanding under its bank lines.

We entered into interest rate swap agreements to hedge the exposure to increasing rates with respect to our variable rate debt. The differential to be paid or received as a result of these swap agreements is accrued as interest rates change and is recognized as an adjustment to interest expense. We account for these interest rate swaps as cash flow hedges. As of December 31, 2002 and 2001, the market value of these swaps was \$(2.6) and \$0.5 million, respectively, which represents the amount we would have to pay/be paid by the counterparty to terminate these contracts as of those dates. We include these balances on the 2002 and 2001 consolidated balance sheets under the caption Derivatives. As of December 31, 2002 and 2001, we calculated the swaps to be highly effective; therefore, we record the offset to the hedge asset, net of taxes, in Accumulated Other Comprehensive Loss (See Note 8).

We determined the fair value of derivative instruments by reference to quoted market prices of listed contracts, published quotations or quotations from independent parties.

- 35 -

New Accounting Pronouncements - In June 2001, the FASB issued Statement No. 142, "Goodwill and Other Intangible Assets" and Statement No. 143, "Accounting for Asset Retirement Obligations."

Statement No. 142 addresses the initial recognition and measurement of intangible assets acquired outside of a business combination and the accounting for goodwill and other intangible assets subsequent to their acquisition. It provides that intangible assets with finite useful lives be amortized and that goodwill and intangible assets with indefinite lives not be amortized, but rather be tested at least annually for impairment. In 1983, SJG acquired certain gas distribution and operating facilities with an excess of purchase price over net book value of \$2.9 million, which was being amortized over 40 years. This acquisition adjustment is deemed to have an indefinite useful life. Accordingly, SJG ceased amortizing the premium on January 1, 2002 upon adoption of Statement No. 142, leaving a carrying amount of \$1.6 million, which we reflect in the caption Utility Plant on the consolidated balance sheets. The premium amortization approximated \$75,000 in 2001 and 2000.

Statement No. 143, which will be adopted in 2003, establishes accounting and reporting standards for legal obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. SJG has certain easements and right-of-way agreements that qualify as legal obligations under Statement No. 143. However, it is our intent to maintain these agreements in perpetuity; therefore, no change in SJG's current accounting practices is required at this time.

SJG recovers certain asset retirement costs through rates charged to customers as an approved component of depreciation expense. When we retire depreciable properties, we charge the original cost thereof, plus cost of removal less salvage, to accumulated depreciation. As of December 31, 2002, SJG had accrued amounts in excess of actual removal costs incurred totaling \$41.4 million which is included in utility plant accumulated depreciation. We do not expect the adoption of this statement to materially affect SJI's financial condition or results of operations.

In August 2001, the FASB also issued Statement No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," which became effective in 2002. This statement prescribes that a single accounting model be used for valuing long-lived assets to be disposed of and broadens the presentation of discontinued operations. The adoption of this statement did not affect SJI's financial condition or results of operations nor do we expect its ongoing application to materially affect SJI's financial statements.

In June 2002, the FASB issued Statement No. 146, "Accounting for Costs Associated with Exit or Disposal Activities," which is effective for exit or disposal activities initiated after December 31, 2002. We do not expect the adoption of this statement to materially affect SJI's financial condition or results of operations.

- 36 -

In November 2002, the FASB released Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others." See section on Parental Guarantees under Note 14, Commitment and Contingencies, for discussion.

In December 2002, the FASB issued Statement No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure," which is effective for

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

SJI's 2002 annual financial statements and subsequent interim financial reporting. This statement provides alternate methods of transitioning for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, it requires prominent disclosures about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The provisions of this statement currently have no impact on SJI's financial statements (See Note 4).

Income Taxes - Deferred income taxes are provided for all significant temporary differences between book and taxable income (See Notes 5 & 13).

Other Regulatory Assets - Other Regulatory Assets at December 31, 2002 and 2001 consisted of the following items:

	Years Remaining	Thousands of Dollars	
		2002	2001
	-----	-----	-----
Environmental Remediation Costs: (Notes 9 & 14)			
Expended - Net	7	\$ 6,470	\$ 12,831
Liability for Future Expenditures	-	48,211	48,790
Income Taxes - Flowthrough			
Depreciation (Note 5)	9	8,597	9,575
Postretirement Benefit Costs (Note 11)	10	3,780	4,158
Gross Receipts and Franchise Taxes (Note 5)	4	1,811	2,254
Other	-	4,841	2,386
		-----	-----
Total Other Regulatory Assets		\$ 73,710	\$ 79,994
		=====	=====

Each item separately identified is being recovered through utility rate charges without a return on investment over the period indicated. The majority of the assets reflected above under the caption "Other" is currently subject to filings with the BPU requesting recovery. Management believes that all such deferred costs will be permitted to be recovered from ratepayers through future utility rates.

In addition, SJG has one significant regulatory liability for overcollected taxes totaling \$2.8 million and \$1.6 million, including interest, as of December 31, 2002 and 2001, respectively. We include these amounts in the caption "Other" under the heading Deferred Credits and Other Non-Current Liabilities and are subject to being returned to ratepayers in future rate proceedings.

- 37 -

Statements of Consolidated Cash Flows - For purposes of reporting cash flows, highly liquid investments with original maturities of three months or less are considered cash equivalents.

2. Preferred Stock and Securities of Subsidiary:

Redeemable Cumulative Preferred Stock - Annually, SJG is required to offer to purchase 1,500 shares of its Cumulative Preferred Stock, Series B at par value, plus accrued dividends. SJG may not declare or pay dividends or make distributions on its common stock if preferred stock dividends are in arrears. Preferred shareholders may elect a majority of SJG's directors if four or more quarterly dividends are in arrears.

Mandatorily Redeemable Preferred Securities - In 1997, SJG's statutory trust

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

subsidiary, SJG Capital Trust (Trust), sold \$35 million of 8.35% SJG-Guaranteed Mandatorily Redeemable Preferred Securities. The Trust's only assets are the 8.35% Deferrable Interest Subordinated Debentures issued by SJG maturing April 2037. This is also the maturity date of the Preferred Securities. The Debentures and Preferred Securities are redeemable at SJG's option at a price equal to 100% of the principal amount.

SJI has 2,500,000 authorized shares of Preference Stock, no par value, which has not been issued. SJI has registered and reserved for issuance 15,000 shares of Series A Junior Participating Cumulative Preferred Stock (Series A Preferred Stock) connected with its Shareholder Rights Plan (See Note 4).

3. Divestitures and Affiliations:

Divestitures - In 1996, Energy & Minerals, Inc. (EMI), an SJI subsidiary, sold the common stock of The Morie Company, Inc. (Morie), its sand mining and processing subsidiary (See Note 14).

In 1997, R&T Group, Inc., SJI's construction subsidiary, sold all its operating assets, except some real estate.

SJI conducts tests annually to estimate the environmental remediation costs for properties owned by South Jersey Fuel, Inc. (SJF), an EMI subsidiary, from its previously operated fuel oil business. SJI reports the environmental remediation activity related to these properties as discontinued operations. This reporting is consistent with previous years (See Note 14).

In 1998, SJE actively traded electricity in the wholesale market, but ceased this activity later that same year and formally exited this segment in 1999.

- 38 -

SJG operated two retail stores which sold natural gas appliances. The stores were intended to provide gas customers with access to and choice among natural gas appliances. In 2001, SJG formally discontinued this merchandising segment of its operations as those appliances are readily available from other retailers.

Summarized operating results of the discontinued operations were:

	Thousands of Dollars		
	2002	2001	2000
Operating Revenues - Merchandising	\$ 26	\$ 1,016	\$ 1,193
(Loss) Income before Income Taxes:			
Sand Mining	\$ (467)	\$ 719	\$ (155)
Construction	(17)	78	8
Fuel Oil	(122)	(113)	(123)
Electric	-	(1,150)	(488)
Merchandising	(50)	(351)	(128)
Income Taxes	232	362	329
Loss from Discontinued Operations - Net	\$ (424)	\$ (455)	\$ (557)
Earnings Per Common Share from			
Discontinued Operations - Net	\$ (0.03)	\$ (0.03)	\$ (0.05)

Losses from sand mining are mainly comprised of environmental remediation and product liability litigation associated with Morie's prior activities.

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

Positive results from sand mining operations in 2001 reflect a settlement with our insurance carrier for previously incurred costs. Wholesale Electric losses increased in 2001 due to the settlement of a creditor claim in bankruptcy.

Affiliations - In 1996, we formed SJRG to provide natural gas storage, peaking services and transportation capacity for wholesale customers in New Jersey and surrounding states. Prior to January 1, 2001, SJ EnerTrade, Inc., an SJE subsidiary, and UPR Energy Marketing, Inc. (UPR) each held a 50% non-controlling interest in SJRG. In January 2001, SJRG became a wholly owned subsidiary of SJI when UPR redeemed its 50% interest in SJRG for the book value of its investment of \$2.9 million. In 2001, we included SJRG's operations on a consolidated basis. Prior to January 1, 2001, we accounted for SJI's investment in SJRG on the equity method.

In January 1999, SJI and Conectiv Solutions, LLC formed Millennium Account Services, LLC to provide meter reading services in southern New Jersey.

In June 1999, SJE and Energy East Solutions, Inc. (EES) formed South Jersey Energy Solutions, LLC (SJES) to market retail electricity and energy management services. SJES began supplying retail electric during 2000, and ceased active operations in May 2002.

- 39 -

In April 2000, SJE and GZA GeoEnvironmental, Inc. formed Air Logics, LLC to market a jointly developed air monitoring system designed to assist companies involved in environmental cleanup activities.

In October 2000, SJI formed Marina, a wholly owned subsidiary, to develop, construct and operate a \$56.6 million thermal energy plant. In December 2000, Marina entered into a 20-year contract with Marina District Development Corporation to supply heat, hot water and cooling to The Borgata Resort. The plant is scheduled for completion in July 2003.

4. Common Stock:

SJI has 20,000,000 shares of authorized Common Stock. The following shares were issued and outstanding:

	2002	2001	2000
Beginning of Year	11,860,990	11,499,701	11,152,175
New Issues During Year:			
Dividend Reinvestment Plan	338,518	354,809	335,427
Employees' Stock Ownership Plan	4,162	3,707	3,917
Stock Option, Stock Appreciation Rights and Restricted Stock Award Plan	590	604	5,545
Directors' Restricted Stock	2,214	2,169	2,637
End of Year	12,206,474	11,860,990	11,499,701

We credited the par value (\$1.25 per share) of stock issued in 2002, 2001 and 2000 to Common Stock. We credited the net excess over par value of approximately \$10.5 million, \$10.6 million and \$8.5 million, respectively, to Premium on Common Stock.

Earnings Per Common Share - We present basic EPS based on the weighted-average number of common shares outstanding. EPS are presented in

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

accordance with FASB Statement No. 128, "Earnings Per Share," which establishes standards for computing and presenting basic and diluted EPS. The incremental shares required for inclusion in the denominator for the diluted EPS calculation were 77,866, 34,254 and 9,664 shares for the years ended December 31, 2002, 2001 and 2000, respectively. These shares relate to restricted stock and stock options and were calculated using the treasury stock method.

Stock Option, Stock Appreciation Rights and Restricted Stock Award Plan - Under this plan, no more than 306,000 shares in the aggregate may be issued to SJI's officers and other key employees. No options or stock appreciation rights may be granted under the Plan after November 22, 2006. At December 31, 2002, 2001 and 2000, SJI had -0-, 2,000 and 4,500 options outstanding, respectively, all exercisable at \$24.69 per share. No options were granted in 2002, 2001 or 2000. When granted, SJI values stock options to employees using

- 40 -

the intrinsic value method. No stock appreciation rights were issued under the Plan. In 1999, we amended the Plan to include restricted stock awards. In 2002, 2001 and 2000, we granted 26,034, 44,384 and 10,267 restricted shares, respectively. These restricted shares vest over a 3-year period and, with the exception of the 2000 award, are subject to SJI achieving certain performance targets. The annual expense associated with these awards was \$579,900 in 2002 and \$61,300 in both 2001 and 2000.

Dividend Reinvestment Plan (DRP) and Employees' Stock Ownership Plan (ESOP) - Newly issued shares of common stock offered through the DRP are issued directly by SJI. All shares offered through the ESOP are also issued directly by SJI. As of December 31, 2002, SJI reserved 1,165,707 and 15,566 shares of authorized, but unissued, common stock for future issuance to the DRP and ESOP, respectively.

Directors' Restricted Stock Plan - Under this Plan, SJI grants annual awards to outside directors which vest over three years. SJI holds shares issued as restricted stock until the attached restrictions lapse. We record the stock's market value on the grant date as compensation expense over the applicable vesting period. The annual expense associated with this plan was approximately \$67,000 for each of the past three years.

Shareholder Rights Plan - In 1996, the board of directors adopted a shareholder rights plan providing for the distribution of one right for each share of common stock outstanding on and after October 11, 1996. Each right entitles its holder to purchase 1/1000 of one share of Series A Preferred Stock at an exercise price of \$90 (See Note 2). The rights will not be exercisable until after a person or group acquires 10% or more of SJI's common stock and will expire if not exercised or redeemed by September 20, 2006.

5. Federal and Other Regulatory Tax Assets and Deferred Credits:

The primary asset created by adopting FASB Statement No. 109, "Accounting for Income Taxes," was Income Taxes - Flowthrough Depreciation in the amount of \$17.6 million as of January 1, 1993. This amount represented excess tax depreciation over book depreciation on utility plant because of temporary differences for which, prior to Statement No. 109, deferred taxes previously were not provided. SJG previously passed these tax benefits through to ratepayers. SJG is recovering the amortization of the regulatory asset through rates over 18 years which began in December 1994.

The Investment Tax Credit attributable to SJG was deferred and continues to be amortized at the annual rate of 3%, which approximates the life of related

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

assets.

SJG deferred \$11.8 million resulting from a change in the basis for accruing the Gross Receipts & Franchise Tax in 1978 and is amortizing it on a straight-line basis to operations over 30 years beginning that same year.

- 41 -

6. Financial Instruments:

Restricted Investments - In accordance with the terms of Marina's bond agreements, we are required to invest unused proceeds in high-quality, highly liquid investments pending approved construction expenditures. As of December 31, 2002 and 2001, these residual proceeds totaled \$2.1 and \$14.4 million, respectively.

SJRG maintains a margin account with a national investment firm to support its energy trading activities. As of December 31, 2002, the account reflected a \$2.4 million balance due to changes in the market value of outstanding contracts. The balance approximated \$8.6 million as of December 31, 2001.

Long-Term Debt - We estimate the fair values of SJI's long-term debt, including current maturities, as of December 31, 2002 and 2001, to be \$291.4 and \$288.0 million, respectively. Carrying amounts are \$248.7 and \$269.0 million, respectively. We base the estimates on interest rates available to SJI at the end of each year for debt with similar terms and maturities. SJI retires debt when it is cost effective as permitted by the debt agreements.

Other Financial Instruments - The carrying amounts of SJI's other financial instruments approximate their fair values at December 31, 2002 and 2001.

7. Segments of Business:

Information about SJI's operations in different industry segments is presented below:

	Thousands of Dollars		
	2002	2001	2000
Operating Revenues:			
Gas Utility Operations	\$ 417,262	\$ 475,462	\$ 445,818

Total Identifiable Assets	\$1,011,760	\$ 989,429	\$ 869,979
=====			

Gas Utility Operations consists primarily of natural gas distribution to residential, commercial and industrial customers. Wholesale Gas Operations include SJRG's activities. Retail Gas and Other Operations include natural gas and electricity acquisition and transportation service companies. On-Site Energy Production consists of Marina's construction and related financing activities (See Note 3).

SJI's interest expense relates primarily to SJG's borrowing and financing activities. Interest income is essentially derived from borrowings between the subsidiaries and is eliminated during consolidation.

- 43 -

8. Comprehensive Income:

The components of comprehensive income are as follows:

	Thousands of Dollars		
	2002	2001	2000
Net Income Applicable to Common Stock	\$ 28,988	\$ 26,562	\$ 24,184

Other Comprehensive (Loss) Income:			
Minimum Pension Liability			
Adjustment - Net	* (7,271)	(1,988)	-
Change in Fair Value of Investments - Net *	(149)	-	-
Change in Fair Value of Energy Trading Assets / Liabilities - Net*	5,027	-	-

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

Change in Fair Value of Other Derivatives - Net *	(1,822)	301	-
Total Other Comprehensive Loss	(4,215)	(1,687)	-
Comprehensive Income	\$ 24,773	\$ 24,875	\$ 24,184

* Determined using an effective tax rate of 40.85%.

9. Regulatory Actions:

In January 1997, the BPU granted SJG a 9.62% rate of return on rate base, which included an 11.25% return on common equity. Additionally, SJG's threshold for sharing pre-tax margins generated by interruptible and off-system sales and transportation increased. Currently, SJG keeps 100% of pre-tax margins up to the threshold level of \$7.8 million. The next \$750,000 is credited to the LGAC. Thereafter, SJG keeps 20% of the pre-tax margins as it has historically.

Effective January 10, 2000, the BPU approved full unbundling of SJG's system. This allows all natural gas consumers to select their natural gas supplier. As of December 31, 2002, 92,543 of SJG's customers were purchasing their gas commodity from someone other than SJG. Customers choosing to purchase natural gas from providers other than the utility are charged for the cost of gas by the marketer, not the utility. The resulting decrease in SJG's revenues is offset by a corresponding decrease in gas costs. While customer choice can reduce utility revenues, it does not negatively affect SJG's net income or financial condition. The BPU continues to allow for full recovery of natural gas costs through the LGAC as well as other costs of service, including deferred costs, through tariffs.

In November 2001, SJG filed for a \$2.7 million rate increase to recover the cash related to a 3-year net deficiency in the TAC. Additionally, in September 2002, SJG filed for an \$8.6 million rate increase to recover the

- 44 -

cash related to a TAC deficiency resulting from warmer-than-normal weather for the 2001-2002 winter.

Also in November 2001, SJG filed for a \$17.6 million reduction to its LGAC. The BPU approved the LGAC reduction effective December 1, 2001 and concurrently approved recovery of SJG's October 31, 2001 underrecovered gas cost balance. As a result, SJG will recover \$48.9 million over three years plus interest accrued since April 1, 2001. SJG will also recover interest for the 3-year amortization period at a rate of 5.75%. In May 2002, SJG received approval from the BPU to reduce its overcollected LGAC balance by another \$17.6 million through a customer refund. This refund did not affect SJG's net income or financial condition. In September 2002, SJG filed with the BPU to maintain its current LGAC rate through October 2003.

During 2002, the BPU convened a gas policy group to address Basic Gas Supply Service (BGSS), which is the gas supply service being provided by the natural gas utility. On December 18, 2002, the BPU approved the proposed BGSS price structure which was submitted by the gas policy group. When the BGSS is implemented in 2003, customers will be able to make more informed decisions about choosing an alternate supplier by having a utility price structure that more currently reflects market conditions. Further, BGSS will provide SJG with more pricing flexibility, through automatic rate changes, resulting in the reduction of over/under-recoveries. The BGSS approved price structure will replace the current LGAC pricing structure. However, other LGAC-related

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

mechanisms, such as deferred accounting treatment, the sharing of pre-tax margins generated by interruptible and off-system sales and transportation, and the allowance for full recovery of natural gas costs, will remain in place under BGSS.

In August 2002, SJG filed for a Societal Benefits Clause (SBC) rate increase. The SBC recovers costs related to BPU-mandated programs, including environmental remediation costs that are recovered through its RAC; energy efficiency and renewable energy program costs recovered through its CRA Clause (renamed in December 2002 as the New Jersey Clean Energy Programs); consumer education program costs; and low income program costs. If approved, the rate increase filed would provide for an annual recovery level of \$13.7 million, representing an annual increase of approximately \$7.0 million over the \$6.7 million recovery currently included in rates.

Also in August 2002, SJG filed a petition with the BPU to transfer its appliance service business from the regulated utility into a newly created unregulated company. As filed, the newly created company would have the flexibility to be more responsive to competition and customer needs by expanding and modifying its service offerings in an unregulated environment.

- 45 -

10. Unused Lines of Credit and Compensating Balances:

Unused lines of credit available at December 31, 2002 were \$30.5 million. Borrowings under these lines of credit are at market rates. The weighted borrowing cost, which changes daily, was 2.28% and 3.08% at December 31, 2002 and 2001, respectively. We maintain demand deposits with lending banks on an informal basis and they do not constitute compensating balances.

11. Pensions & Other Postretirement Benefits:

SJI has several defined benefit pension plans and other postretirement benefit plans. The pension plans provide annuity payments to substantially all full-time, regular employees upon retirement. The other postretirement benefit plans provide health care and life insurance benefits to some retirees.

In 2002, we changed the actuarial valuation measurement date for our pension plans from September 30 to December 31 to conform to the measurement date used for our postretirement health care plans and to better reflect the actual pension balances as of SJI's balance sheet dates. This change had no significant effect on 2002 or prior years' pension expense.

The BPU authorized SJG to recover costs related to postretirement benefits other than pensions under the accrual method of accounting consistent with FASB Statement No. 106, "Employers' Accounting for Postretirement Benefits Other Than Pensions." We deferred amounts accrued prior to that authorization and are amortizing them as allowed by the BPU. The unamortized balance of \$3.8 million at December 31, 2002 is recoverable in rates. We are amortizing this amount over 15 years which started January 1998.

Net periodic benefit cost related to the pension and other postretirement benefit insurance plans consisted of the following components:

Thousands of Dollars					
Pension Benefits			Other Benefits		
2002	2001	2000	2002	2001	2000

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

- 47 -

The accumulated benefit obligation of SJI's pension plans at December 31, 2002 and 2001 was \$67.8 million and \$59.1 million, respectively.

At December 31, 2002 and 2001, SJI recorded additional minimum pension liabilities of \$18.9 million and \$5.9 million, respectively, which we reflected in the consolidated balance sheets under the caption Pension and Other Postretirement Benefits. These liability adjustments resulted from decreases in the fair value of plan assets, which were due to the declining stock market, and decreases in the discount rates over the past two years.

SJI also has unqualified pension plans provided to certain officers and outside directors which are unfunded. The aggregate accrued net benefit obligation of such plans as of December 31, 2002 and 2001 was \$3.9 million and \$3.7 million, respectively.

Assumptions used in the accounting for these plans were:

	Pension Benefits		Other Benefits	
	2002	2001	2002	2001
Discount Rate	6.75%	7.25%	6.75%	7.25%
Expected Return on Plan Assets	9.00%	9.00%	7.50%	7.50%
Rate of Compensation Increase	3.60%	4.10%	--	--

The assumed health-care cost trend rates used in measuring the accumulated postretirement benefit obligation as of December 31, 2002 are: Medical and Drug - 7.5% in 2002 for participants age 65 or older; and 12.0% in 2002 for participants under age 65; Dental - 7.5% in 2002. All three of these rates grade to 5.0% in 2016 and remain level thereafter.

A 1% change in the assumed health-care cost trend rates for SJI's postretirement health care plans in 2002 would have the following effects:

	Thousands of Dollars	
	1% Increase	1% Decrease
Effect on the aggregate of the service and interest cost components	\$ 515	\$ (423)
Effect on the postretirement benefit obligation	\$4,670	\$ (4,836)

- 48 -

12. Retained Earnings:

Restrictions exist under various loan agreements regarding the amount of cash dividends or other distributions that SJG may pay on its common stock. SJI's

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

total equity in its subsidiaries' retained earnings, which is free of these restrictions, was \$76.2 million as of December 31, 2002.

13. Income Taxes:

Total income taxes applicable to operations differ from the tax that would have resulted by applying the statutory Federal Income Tax rate to pre-tax income for the following reasons:

	Thousands of Dollars		
	2002	2001	2000
Tax at Statutory Rate	\$ 17,436	\$ 16,157	\$ 15,208
Increase (Decrease) Resulting from:			
State Income Taxes	3,143	2,857	3,167
ESOP	(489)	-	-
Amortization of Investment Tax Credit	(347)	(347)	(335)
Tax Depreciation Under Book			
Depreciation on Utility Plant	664	664	664

Non-Current Deferred Tax Liability - Net	\$ 97,890	\$ 84,717

- 50 -

14. Commitments and Contingencies:

Construction and Environmental - SJI's estimated net cost of construction and environmental remediation programs for 2003 totals \$57.8 million. Commitments were made regarding some of these programs.

Gas Supply Contracts - SJG, in the normal course of business, has entered into long-term contracts for natural gas supplies, firm transportation and gas storage service. The earliest that any of these contracts expires is 2003. The transportation and storage service agreements between SJG and its interstate pipeline suppliers were made under Federal Energy Regulatory Commission approved tariffs. SJG's cumulative obligation for demand charges and reservation fees paid to suppliers for these services is approximately \$4.0 million per month, recovered on a current basis through the LGAC.

Pending Litigation - SJI is subject to claims arising in the ordinary course of business and other legal proceedings. We accrue liabilities related to these claims when we can determine the amount or range of amounts of likely settlement costs for those claims. Among other actions, SJI has been named in certain product liability claims related to our former sand mining subsidiary. Management does not currently anticipate the disposition of any known claims to have a material adverse effect on SJI's financial position, results of operations or liquidity.

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

Parental Guarantees - In 2002, the FASB released Interpretation No. 45 (FIN 45) "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others." FIN 45 requires companies to disclose the nature of its guarantees or indemnification agreements for interim and year-end financial statements ending after December 15, 2002. As of December 31, 2002, SJI had issued \$96.6 million of parental guarantees on behalf of its subsidiaries. Nearly two-thirds of these guarantees expire within one year with the remainder having no expiration date. The vast majority of these guarantees was issued as a guarantee of payment to third parties with whom our subsidiaries have commodity supply contracts. As of December 31, 2002, these guarantees support \$13.5 million of the Accounts Payable recorded on our consolidated balance sheet. As part of our risk management policy, we also require parental guarantees from trading counterparties as applicable. These arrangements are typical in our industry. SJI has also issued two parental guarantees totaling \$7.1 million related to Marina's construction activity.

Standby Letters of Credit - SJI provided a \$17 million standby letter of credit to Marina District Development Corporation in support of Marina's contractual obligations to construct the thermal energy plant and to supply heat, hot water and cooling to The Borgata Resort. This letter of credit was reduced to \$6.4 million as of December 31, 2002.

- 51 -

As of December 31, 2002, SJI also provided \$39 million of standby letters of credit supporting the variable rate demand bonds issued through the New Jersey Economic Development Authority by Marina. Commercial banks have committed to issue up to \$46 million of annually renewing letters of credit to support development of Marina's thermal plant project.

Environmental Remediation Costs - SJI incurred and recorded costs for environmental clean up of sites where SJG or its predecessors operated gas manufacturing plants. SJG stopped manufacturing gas in the 1950s. SJI and some of its nonutility subsidiaries also recorded costs for environmental clean up of sites where SJF previously operated a fuel oil business and Morie maintained equipment, fueling stations and storage.

SJI successfully entered into settlements with all of its historic comprehensive general liability carriers regarding the environmental remediation expenditures at the SJG sites. Also, SJG purchased a Cleanup Cost Cap Insurance Policy limiting the amount of remediation expenditures that SJG will be required to make at 11 of its sites. This policy will be in force until 2024 at 10 sites and until 2029 at one site.

Since the early 1980s, SJI accrued environmental remediation costs of \$137.2 million, of which \$85.1 million has been spent as of December 31, 2002. With the assistance of a consulting firm, we estimate that future costs to clean up SJG's sites will range from \$48.2 million to \$143.9 million. We recorded the lower end of this range as a liability. It is reflected on the 2002 consolidated balance sheet under the captions Current Liabilities and Deferred Credits and Other Non-Current Liabilities. Recorded amounts include estimated costs based on projected investigation and remediation work plans using existing technologies. Actual costs could differ from the estimates due to the long-term nature of the projects, changing technology, government regulations and site-specific requirements. The major portion of accrued environmental costs relate to the clean up of SJG's former gas manufacturing sites.

SJG has two regulatory assets associated with environmental costs (See Note 1). The first asset is titled Environmental Remediation Cost: Expended - Net.

Edgar Filing: SOUTH JERSEY INDUSTRIES INC - Form U-3A-2

These expenditures represent what was actually spent to clean up former gas manufacturing plant sites. These costs meet the requirements of Statement No. 71. The BPU allows SJG to recover expenditures through the RAC (See Note 9).

The other asset titled Environmental Remediation Cost: Liability for Future Expenditures relates to estimated future expenditures determined under the guidance of FASB Statement No. 5, "Accounting for Contingencies." We recorded this amount, which relates to former manufactured gas plant sites, as a deferred debit with the corresponding amount reflected on the consolidated balance sheets under the captions Current Liabilities and Deferred Credits and Other Non-Current Liabilities. The deferred debit is a regulatory asset under Statement No. 71. The BPU's intent, evidenced by current practice, is to allow SJG to recover the deferred costs after they are spent over 7-year periods.

- 52 -

As of December 31, 2002, we reflected SJG's unamortized remediation costs of \$6.5 million on the consolidated balance sheet under the caption Regulatory Assets. Since implementing the RAC in 1992, SJG has recovered \$34.8 million through rates (See Note 9).

With Morie's sale, EMI assumed responsibility for environmental liabilities estimated between \$2.7 million and \$8.8 million. The information available on these sites is sufficient only to establish a range of probable liability and no point within the range is more likely than any other. Therefore, EMI continues to accrue the lower end of the range. Changes in the accrual are included in the statements of consolidated income under the caption Loss from Discontinued Operations - Net.

SJI and SJF estimated their potential exposure for the future remediation of four sites where fuel oil operations existed years ago. Estimates for SJI's site range between \$0.1 million and \$0.3 million, while SJF's estimated liability ranges from \$1.1 million to \$4.9 million for its three sites. We recorded the lower ends of these ranges on the consolidated balance sheet under Current Liabilities and Deferred Credits and Other Non-Current Liabilities as of December 31, 2002.
