Templeton Dragon Fund, Inc.

NOTES TO STATEMENT OF INVESTMENTS (UNAUDITED)

1. ORGANIZATION

Templeton Dragon Fund (Fund) is registered under the Investment Company Act of 1940, as amended, as a closed-end investment company.

2. SECURITY VALUATION

Securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Investments in open-end mutual funds are valued at the closing net asset value.

Foreign securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever is earlier. If no sale is reported at that time, the foreign security will be valued within the range of the most recent quoted bid and ask prices. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the day that the value of the foreign security is determined. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert to the U.S. dollar

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-Q

equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Fund's Board of Directors.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Methods for valuing these securities may include: fundamental analysis, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Due to the inherent uncertainty of valuations of such securities, the fair values may differ significantly from the values that would have been used had a ready market for such investments existed. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. The investment manager monitors price movements following the close of trading in foreign stock markets through a series of country specific market proxies (such as baskets of American Depository Receipts, futures contracts and exchange traded funds). These price movements are measured against established trigger thresholds for each specific market proxy to assist in determining if an event has occurred. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Directors.

Cost of investments	\$485,907,375

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Statement No. 157 "Fair Value Measurement" establishes a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's investments and are summarized in the following fair value hierarchy:

- Level 1 - quoted prices in active markets for identical securities
- Level 2 - other significant observable inputs (including quoted prices

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-Q

for similar securities, interest rates, prepayment speed, credit risk, etc.)

- Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of March 31, 2009, in valuing the Fund's assets carried at fair value:

	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
ASSETS:				
Investments in Securities.....	\$723,328,130	\$307,554	\$--	\$723,635,684

4. FAIR VALUE MEASUREMENTS (CONTINUED)

At March 31, 2009, the reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value, is as follows:

	INVESTMENTS IN SECURITIES
Beginning Balance - January 1, 2009	\$ 952,764
Net realized gain (loss)	--
Net change in unrealized appreciation (depreciation)	(1,259,860)
Net purchases (sales)	--
Transfers in and/or out of Level 3	307,096

Ending Balance	\$ --

Net change in unrealized appreciation (depreciation) attributable to assets still held at end of period	\$ (1,259,860) =====

5. NEW ACCOUNTING PRONOUNCEMENTS

In April 2009, FASB issued FASB Staff Position FSP FAS 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" (FSP FAS 157-4), which provides additional guidance when the volume and level of activity for the asset or liability measured at fair value have significantly

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-Q

decreased. Additionally, FSP FAS 157-4 amends FSAS 157 expanding disclosure requirements by reporting entities surrounding the major categories of assets and liabilities carried at fair value. FSP FAS 157-4 is effective for interim and annual periods ending after June 15, 2009. The Fund is currently evaluating the impact, if any, of applying FSP FAS 157-4.
