### PRIVACY PRINCIPLES OF THE TRUSTS

The Trusts are committed to maintaining the privacy of shareholders and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information the Trusts collect, how we protect that information and why, in certain cases, we may share information with select other parties.

Generally, the Trusts do not receive any non-public personal information relating to their shareholders, although certain non-public personal information of shareholders may become available to the Trusts. The Trusts do not disclose any non-public personal information about their shareholders or former

shareholders to anyone, except as permitted by law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

The Trusts restrict access to non-public personal information about their shareholders to BlackRock employees with a legitimate business need for the information. The Trusts maintain physical, electronic and procedural safeguards designed to protect the non-public personal information of their shareholders.

#### LETTER TO SHAREHOLDERS

October 31, 2003

Dear Shareholder:

We are pleased to report that during the period, the Trusts provided monthly income, as well as the opportunity to invest in various portfolios of fixed income securities. This report contains the Trusts' audited financial statements and a listing of the portfolios' holdings.

The portfolio management team continuously monitors the fixed income markets and adjusts the portfolios in order to gain exposure to various issuers and security types. This strategy enables the Trusts to move among different sectors, credits and coupons to capitalize on changing market conditions.

The following table shows the Trusts' yields, closing market prices per share and net asset values ("NAV") per share as of October 31, 2003.

TRUST	YIELD	MARKET PRICE	NAV

- (1) Commencement of investment operations. This information includes the initial investment by BlackRock Funding, Inc.
- (2) Net asset value, beginning of period, reflects a deduction of \$0.675 per share sales charge from the initial offering price of \$15.00 per share.
- (3) Total investment return is calculated assuming a purchase of a share at the current market price on the first day and a sale at the current market price on the last day of each period reported. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Trust's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions. Total investment returns for less than a full year are not annualized. Past performance is not a guarantee of future results.
- (4) Annualized.
- (5) Per \$1,000 of reverse repurchase agreements outstanding.

The information above represents the audited operating performance for a share outstanding, total investment returns, ratios to average net assets and other supplemental data for each period indicated. ### NOTE 1. ORGANIZATION & ACCOUNTING POLICIES

The BlackRock Broad Investment Grade 2009 Term Trust Inc. ("Broad Investment Grade"), BlackRock Core Bond Trust ("Core Bond"), The BlackRock High Yield Trust ("High Yield"), BlackRock Income Opportunity Trust ("Income Opportunity"), The BlackRock Income Trust Inc. ("Income Trust"), BlackRock Limited Duration Income Trust ("Limited Duration") and BlackRock Strategic Bond Trust ("Strategic Bond") are registered as diversified, closed-end management investment companies under the Investment Company Act of 1940, as amended. Broad Investment Grade, Income Opportunity and Income Trust are Maryland corporations. Core Bond, High Yield, Limited Duration and Strategic Bond are organized as Delaware statutory trusts. Limited Duration had no transactions before its commencement of investment operations on July 30, 2003 other than a sale to BlackRock Funding, Inc. of 6,021 common shares for \$115,001.

On December 3, 1999, Broad Investment Grade transferred a substantial portion of its total assets to a 100% owned regulated investment company subsidiary called BCT Subsidiary, Inc. The financial statements and these notes to the financial statements for Broad Investment Grade are consolidated and include the operations of both Broad Investment Grade and its wholly owned subsidiary after elimination of all intercompany transactions and balances.

The following is a summary of significant  $\$ accounting  $\$ policies  $\$ followed by the  $\$ Trusts.

SECURITIES VALUATION: The Trusts value most of their securities on the basis of current market quotations provided by dealers or pricing services selected under the supervision of each Trust's Board (the "Board") of Directors/Trustees ("Trustees"). In determining the value of a particular security, pricing services may use certain information with respect to transactions in such securities, quotations from dealers, market transactions in comparable securities, various relationships observed in the market between securities, and calculated yield measures based on valuation technology commonly employed in the market for such securities. Exchange traded options are valued at their last sales price as of the close of options trading on applicable exchanges. In the absence of a last sale, options are valued at the average of the quoted bid and asked prices as of the close of business. A futures contract is valued at the last sale price as of the close of the commodities exchange on which it trades. Short-term securities may be valued at amortized cost. Securities or other assets for which such current market quotations are not readily available are valued at fair value as determined in good faith under procedures established by, and under the general supervision and responsibility of, each Trust's Board.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME: Securities transactions are recorded on trade date. Realized and unrealized gains and losses are calculated on the identified cost basis. Each Trust also records interest income on an accrual basis and amortizes premium and/or accretes discount on securities purchased using the interest method.

REPURCHASE AGREEMENTS: In connection with transactions in repurchase agreements, a Trust's custodian takes possession of the underlying collateral securities, the value of which at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to ensure the adequacy of the collateral. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by a Trust may be delayed or limited.

OPTION WRITING/PURCHASING: When a Trust writes or purchases an option, an amount equal to the premium received or paid by the Trust is recorded as a liability or an asset and is subsequently adjusted to the current market value of the option written or purchased. Premiums received or paid from writing or purchasing options which expire unexercised are treated by the Trust on the expiration date as realized gains or losses. The difference between the premium and the amount paid or received on effecting a closing purchase or sale transaction, including brokerage commissions, is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is added to the proceeds from the sale or cost of the purchase in determining whether a Trust has realized a gain or a loss on investment transactions. A Trust, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the security underlying the written option.

Options, when used by the Trusts, help in maintaining a targeted duration. Duration is a measure of the price sensitivity of a security or a portfolio to relative changes in interest rates. For instance, a duration of "one" means that a portfolio's or a security's price would be expected to change by approximately one percent with a one percent change in interest rates, while a duration of five would imply that the price would move approximately five percent in relation to a one percent change in interest rates.

Option writing and purchasing may be used by the Trusts as an attempt to manage the duration of positions, or collections of positions, so that changes

in interest rates do not adversely affect the targeted duration of the portfolio unexpectedly. A call option gives the purchaser of the option the right (but not obligation) to buy, and obligates the seller to sell (when the option is exercised), the underlying position at the exercise price at any time or at a specified time during the option period. A put option gives the holder the right to sell and obligates the writer to buy the underlying position at the exercise price at any time or at a specified time during the option period. Put or call options can be purchased or sold to effectively help manage the targeted duration of the portfolio.

The main risk that is associated with purchasing options is that the option expires without being exercised. In this case, the option expires worthless and the premium paid for the option is considered the loss. The risk associated with writing call options is that a Trust may forgo the opportunity for a profit if the market value of the underlying position increases and the option is exercised. The risk in writing put options is that a Trust may incur a loss if the market value of the underlying position decreases and the option is exercised. In addition, as with futures contracts, the Trust risks not being able to enter into a closing transaction for the written option as the result of an illiquid market.

INTEREST RATE SWAPS: In an interest rate swap, one investor pays a floating rate of interest on a notional principal amount and receives a fixed rate of interest on the same notional principal amount for a specified period of time. Alternatively, an investor may pay a fixed rate and receive

56

a floating rate. Interest rate swaps are efficient as asset/liability management tools. In more complex swaps, the notional principal amount may decline (or amortize) over time.

During the term of the swap, changes in the value of the swap are recognized as unrealized gains or losses by "marking-to-market" to reflect the market value of the swap. When the swap is terminated, a Trust will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract, if any.

The Trusts are exposed to credit loss in the event of non-performance by the other party to the swap. However, the Trusts closely monitor swaps and do not anticipate non-performance by any counterparty.

SWAP OPTIONS: Swap options are similar to options on securities except that instead of selling or purchasing the right to buy or sell a security, the writer or purchaser of the swap option is granting or buying the right to enter into a previously agreed upon interest rate swap agreement at any time before the expiration of the option. Premiums received or paid from writing or purchasing options are recorded as liabilities or assets and are subsequently adjusted to the current market value of the option written or purchased. Premiums received or paid from writing or purchasing options which expire unexercised are treated by a Trust on the expiration date as realized gains or losses. The difference between the premium and the amount paid or received on effecting a closing purchase or sale transaction, including brokerage commission, is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is added to the proceeds from the sale or cost of the purchase in determining whether a Trust has realized a gain or loss on investment transactions.

The main risk that is associated with purchasing swap options is that the swap option expires without being exercised. In this case, the option expires

worthless and the premium paid for the swap option is considered the loss. The main risk that is associated with the writing of a swap option is the market risk of an unfavorable change in the value of the interest rate swap underlying the written swap option.

Swap options may be used by the Trusts to manage the duration of the Trusts' portfolios in a manner similar to more generic options described above.

INTEREST RATE CAPS: Interest rate caps are similar to interest rate swaps, except that one party agrees to pay a fee, while the other party pays the excess, if any, of a floating rate over a specified fixed or floating rate.

Interest rate caps are intended to both manage the duration of the Trusts' portfolios and their exposure to changes in short-term interest rates. Owning interest rate caps reduces a portfolio's duration, making them less sensitive to changes in interest rates from a market value perspective. The effect on income involves protection from rising short-term interest rates, which the Trusts experience primarily in the form of leverage.

The Trusts are exposed to credit loss in the event of non-performance by the other party to the interest rate cap. However, the Trusts do not anticipate non-performance by any counterparty.

Transactions fees paid or received by the Trusts are recognized as assets or liabilities and amortized or accreted into interest expense or income over the life of the interest rate cap. The asset or liability is subsequently adjusted to the current market value of the interest rate cap purchased or sold. Changes in the value of the interest rate cap are recognized as unrealized gains and losses.

INTEREST RATE FLOORS: Interest rate floors are similar to interest rate swaps, except that one party agrees to pay a fee, while the other party pays the deficiency, if any, of a floating rate under a specified fixed or floating rate.

Interest rate floors are used by the Trusts to both manage the duration of the portfolios and their exposure to changes in short-term interest rates. Selling interest rate floors reduces a portfolios duration, making it less sensitive to changes in interest rates from a market value perspective. The Trusts' leverage provides extra income in a period of falling rates. Selling floors reduces some of that advantage by partially monetizing it as an up front payment which the Trusts receive.

The Trusts are exposed to credit loss in the event of non-performance by the other party to the interest rate floor. However, the Trusts do not anticipate non-performance by any counterparty.

Transactions fees paid or received by the Trusts are recognized as assets or liabilities and amortized or accreted into interest expense or income over the life of the interest rate floor. The asset or liability is subsequently adjusted to the current market value of the interest rate floor purchased or sold. Changes in the value of the interest rate floor are recognized as unrealized gains and losses.

FINANCIAL FUTURES CONTRACTS: A futures contract is an agreement between two parties to buy and sell a financial instrument for a set price on a future date. Initial margin deposits are made upon entering into futures contracts and can be either cash or securities. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are made or received, depending upon whether unrealized gains or losses are incurred. When the contract is closed, a Trust records a realized gain or loss

equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract.

Financial futures contracts, when used by the Trusts, help in maintaining a targeted duration. Futures contracts can be sold to effectively shorten an otherwise longer duration portfolio. In the same sense, futures contracts can be purchased to lengthen a portfolio that is shorter than its duration target. Thus, by buying or selling futures contracts, the Trusts may attempt to manage the duration of positions so that changes in interest rates do not change the duration of the portfolio unexpectedly.

FORWARD CURRENCY CONTRACTS: The Trusts enter into forward currency contracts primarily to facilitate settlement of purchases and sales of foreign securities and to help manage the overall exposure to foreign currency. A forward contract is a commitment to purchase or sell a foreign currency at a future date (usually the security transaction settlement date) at a negotiated forward rate. In the event that a security fails to settle within the normal settlement period, the forward currency contract is renegotiated at a new rate. The gain or loss arising from the differ-

57

ence between the settlement value of the original and renegotiated forward contracts is isolated and is included in net realized gains (losses) from foreign currency transactions. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contract.

Forward currency contracts, when used by the Trusts, help to manage the overall exposure to the foreign currency backing some of the investments held by the Trusts. Forward currency contracts are not meant to be used to eliminate all of the exposure to the foreign currency, rather they allow the Trusts to limit their exposure to foreign currency within a narrow band to the objectives of the Trusts.

FOREIGN CURRENCY TRANSLATION: Foreign currency amounts are translated into United States dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities—at the New York City noon rates of exchange.
- (ii) purchases and sales of investment securities, income and expenses—at the rates of exchange prevailing on the respective dates of such transactions.

The Trusts isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities held at period end. Similarly, the Trusts isolate the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the period.

Net realized and unrealized foreign exchange gains and losses including realized foreign exchange gains and losses from sales and maturities of foreign portfolio securities, maturities of foreign reverse repurchase agreements, sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of interest and discount recorded on the Trusts' books and the U.S. dollar equivalent amounts actually received or paid and changes in unrealized foreign exchange gains and losses in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

SHORT SALES: The Trusts may make short sales of securities as a method of managing potential price declines in similar securities owned. When a Trust makes a short sale, it may borrow the security sold short and deliver it to the broker-dealer through which it made the short sale as collateral for its obligation to deliver the security upon conclusion of the sale. The Trusts may have to pay a fee to borrow the particular securities and may be obligated to pay over any payments received on such borrowed securities. A gain, limited to the price at which the Trust sold the security short, or a loss, unlimited as to dollar amount, will be recognized upon the termination of a short sale if the market price is greater or less than the proceeds originally received.

SECURITY LENDING: The Trusts may lend their portfolio securities to qualified institutions. The loans are secured by collateral at least equal, at all times, to the market value of the securities loaned. The Trusts may bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The Trusts receive compensation for lending their securities in the form of interest on the loan. The Trusts also continue to receive interest on the securities loaned, and any gain or loss in the market price of the securities loaned that may occur during the term of the loan will be for the accounts of the Trusts. The Trusts did not enter into any security lending transactions during the period ended October 31, 2003.

SEGREGATION: In cases in which the Investment Company Act of 1940, as amended, and the interpretive positions of the Securities and Exchange Commission ("SEC") require that each Trust segregate assets in connection with certain investments (e.g., when issued securities, reverse repurchase agreements or futures contracts), each Trust will, consistent with certain interpretive letters issued by the SEC, designate on its books and records cash or other liquid debt securities having a market value at least equal to the amount that would otherwise be required to be physically segregated.

FEDERAL INCOME TAXES: It is each Trust's (excluding Limited Duration) intention to continue, and Limited Duration intends to elect, to be treated as a regulated investment company under the Internal Revenue Code and to distribute sufficient amounts of their taxable income to shareholders. Therefore, no Federal income tax provisions are required. As part of a tax planning strategy, Broad Investment Grade intends to retain a portion of its taxable income and pay an excise tax on the undistributed amounts.

DIVIDENDS AND DISTRIBUTIONS: Each Trust declares and pays dividends and distributions to common shareholders monthly from net investment income, net realized short-term capital gains and other sources, if necessary. Net long-term capital gains, if any, in excess of loss carryforwards may be distributed annually. Dividends and distributions are recorded on the ex-dividend date.

Income distributions and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America.

ESTIMATES: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

DEFERRED COMPENSATION AND BLACKROCK CLOSED-END SHARE EQUIVALENT INVESTMENT PLAN: Under the revised deferred compensation plan approved by each Trust's Board, non-interested Trustees may elect to defer receipt of all or a portion of their annual compensation. As of January 1, 2003, the Board elected to require its non-interested members to defer a portion of their annual complex compensation pursuant to the plan. Deferred amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of other BlackRock closed-end funds selected by the Trustees. This has the same economic effect for the Trustees as if the Trustees had invested the deferred amounts in such Trusts.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of the Trust. Each Trust may, however, elect to invest in common shares of those Trusts selected by the Trustees/Directors in order to match its deferred compensation obligations.

58

RECLASSIFICATION OF CAPITAL ACCOUNTS: In order to present undistributed (distribution in excess of) net investment income ("UNII"), accumulated net realized gain ("Accumulated Gain") and paid-in capital ("PIC") more closely to its tax character the following accounts, for each Trust, were increased (decreased):

TRUST	UNII	ACCUMULATED GAIN	PIC
Broad Investment Grade	\$ 612,604	\$ 443,366	\$ (1,055,970)
Core Bond	4,872,347	(4,861,017)	(11,330)
High Yield	350,184		(350,184)
Income Opportunity	(198,402)	198,402	
Income Trust		10,359,634	(10,359,634)
Limited Duration	15,000		(15,000)
Strategic Bond	25,000		(25,000)

### NOTE 2. AGREEMENTS

Each Trust has an Investment Management Agreement with BlackRock Advisors, Inc. (the "Advisor"), which is a wholly owned subsidiary of BlackRock, Inc. BlackRock Financial Management, Inc., a wholly owned subsidiary of BlackRock, Inc., serves as sub-advisor to Core Bond, Limited Duration and Strategic Bond. BlackRock, Inc. is an indirect, majority owned subsidiary of The PNC Financial Services Group, Inc. The investment management agreement for Core Bond, Limited Duration and Strategic Bond covers both investment advisory and administration services. Broad Investment Grade had an Administration Agreement with Princeton Administrators, L.P. ("Princeton"), an indirect wholly owned affiliate of Merrill Lynch & Co., Inc. High Yield, Income Opportunity and Income Trust each had an Administration Agreement with Prudential Investments LLC ("Prudential"), an indirect wholly owned subsidiary of Prudential Financial, Inc.

Each Trust's investment advisory fee paid to the Advisor is computed weekly and payable monthly based on an annual rate, 0.55% for Broad Investment Grade, 0.60% for Income Opportunity and 0.65% for Income Trust, of each Trust's average net assets and 0.55% for Core Bond and Limited Duration, 1.05% for High Yield and 0.75% for Strategic Bond, of each Trust's average weekly managed assets. The Advisor has voluntarily agreed to waive a portion of the investment advisory fees or other expenses on Strategic Bond as a percentage of its average weekly managed assets as follows: 0.20% for the first 5 years of the Trust's operations, 0.15% in year 6, 0.10% in year 7 and 0.05% in year 8.

The administration fee paid to each Trust's respective administrator, on other than Core Bond, Limited Duration and Strategic Bond, is computed weekly and payable monthly based on an annual rate, 0.15% for Broad Investment Grade, 0.10% for Income Opportunity and 0.20% of the first \$500 million and 0.15% on any excess for Income Trust, of each Trust's average net assets and 0.10% for High Yield based on its average weekly managed assets.

On May 22, 2003, the Board approved the change of the Trusts' administrators to the Advisor. The new administration agreements became effective August 18, 2003. The administration fee structures for Broad Investment Grade, Income Opportunity and High Yield, as described above, remain unchanged under the new administration agreements. Income Trust's new administration fee is 0.15% of its average weekly net assets.

Pursuant to the agreements, the Advisor provides continuous supervision of the investment portfolio and pays the compensation of officers of each Trust who are affiliated persons of the Advisor. The Advisor pays occupancy and certain clerical and accounting costs for Core Bond, Limited Duration and Strategic Bond. Each Trust's respective administrator pays occupancy and certain clerical and accounting costs of their respective Trust(s). Each Trust bears all other costs and expenses, which include reimbursements to the Advisor for certain operational support services provided to each Trust.

Pursuant to the terms of their custody agreements, Core Bond, High Yield, Income Opportunity, Income Trust and Strategic Bond received earnings credits from its custodian for positive cash balances maintained, which are used to offset custody fees.

### NOTE 3. PORTFOLIO SECURITIES

Purchases and sales of investment securities, other than short-term investments, dollar rolls and U.S. government securities, for the year ended October 31, 2003, aggregated as follows:

Each Trust may from time to time purchase in the secondary market certain

mortgage pass-through securities packaged or master serviced by affiliates or mortgage related securities containing loans or mortgages originated by PNCBank or its affiliates, including Midland Loan Services, Inc. It is possible under certain circumstances, that PNC Mortgage Securities Corp. or its affiliates, including Midland Loan Services, Inc., could have interests that are in conflict with the holders of these mortgage backed securities, and such holders could have rights against PNC Mortgage Securities Corp. or its affiliates, including Midland Loan Services, Inc.

At October 31, 2003, the total cost of securities for Federal income tax purposes and the aggregate gross unrealized appreciation and depreciation for securities held by each Trust were as follows:

TRUST	COST	APPRECIATION	DEPRECIATION	NET
Broad Investment Grade	\$ 64,723,574	\$ 3,764,776	\$ 2,842,648	\$ 922 <b>,</b> 128

NOTE 4. BORROWINGS

========

<sup>(</sup>a) Trust pays floating interest rate and receives fixed rate.

<sup>(</sup>b) Trust pays fixed interest rate and receives floating rate.

REVERSE REPURCHASE AGREEMENTS: The Trusts may enter into reverse repurchase agreements with qualified, third-party broker-dealers as determined by and under the direction of the Trusts' Board. Interest on the value of reverse repurchase agreements issued and outstanding is based upon competitive market rates at the time of issuance. At the time a Trust enters into a reverse repurchase agreement, it will establish and maintain a segregated account with the lender, containing liquid investment grade securities having a value not less than the repurchase price, including accrued interest of the reverse repurchase agreement.

The average daily balance and weighted average interest rate of reverse repurchase agreements during the year ended October 31, 2003, were as follows:

	AVERAGE DAILY	WEIGHTED AVERAGE
TRUST	BALANCE	INTEREST RATE
Broad Investment Grade	\$ 19,408,552	1.21%
Core Bond	67,591,003	1.05%
Income Opportunity	136,171,515	1.22%
Income Trust	135,804,028	1.17%
Limited Duration	26,590,763	0.76%
Strategic Bond	46,036,350	1.51%

DOLLAR ROLLS: The Trusts may enter into dollar rolls in which a Trust sells securities for delivery in the current month and simultaneously contracts to repurchase substantially similar (same type, coupon and maturity) securities on a specified future date. During the roll period the Trusts forgo principal and interest paid on the securities. The Trusts will be compensated by the interest earned on the cash proceeds of the initial sale and/or by the lower repurchase price at the future date.

LOAN PAYABLE: High Yield has a \$32 million committed credit facility (the "facility"). Under the terms of the facility, the Trust borrows at the London Interbank Offered Rate ("LIBOR") plus facility and administrative fees. In addition, the Trust pays a liquidity fee on the unused portion of the facility. The Trust may borrow up to 33 1/3% of its total assets up to the committed amount. In accordance with the terms of the debt agreement, the Trust has pledged its portfolio assets as collateral for the borrowing.

For the year ended October 31, 2003, High Yield borrowed a daily weighted average balance of \$19,250,000 at a weighted average interest rate at 1.96%.

BlackRock Broad Investment Grade 2009 Term Trust

BlackRock Core Bond Trust

BlackRock High Yield Trust

BlackRock Income Opportunity Trust

BlackRock Income Trust

BlackRock Limited Duration Income Trust

BlackRock Strategic Bond Trust

We have audited the accompanying statements of assets and liabilities of each of the above mentioned Trusts, including the portfolios of investments, as of October 31, 2003, and the related statements of operations and cash flows for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods presented. These financial statements and financial highlights are the responsibility of the Trusts' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures, included confirmation of securities owned as of October 31, 2003, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each of the Trusts as of October 31, 2003, the results of their operations and their cash flows for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for the periods presented, in conformity with accounting principles generally accepted in the United States of America.

### DIVIDEND REINVESTMENT PLANS

\_\_\_\_\_\_

Pursuant to each Trust's respective Dividend Reinvestment Plan (the "Plan"), shareholders of Broad Investment Grade, Income Opportunity and Income Trust may elect, while shareholders of Core Bond, High Yield, Limited Duration and Strategic Bond are automatically enrolled, to have all distributions of dividends and capital gains reinvested by EquiServe Trust Company, N.A. (the "Plan Agent") in the respective Trust's shares pursuant to the Plan. Shareholders who do not participate in the Plan will receive all distributions in cash paid by check and mailed directly to the shareholders of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent, which serves as agent for the shareholders in administering the Plan.

After Broad Investment Grade and/or Income Opportunity Trust declares a dividend or determines to make a capital gain distribution, the Plan Agent will acquire shares for the participants' account, by the purchase of outstanding shares on the open market, on the Trust's primary exchange or elsewhere ("open market purchases"). The Trust will not issue any new shares under the Plan.

After Core Bond, High Yield, Income Trust, Limited Duration and/or Strategic Bond declares a dividend or determines to make a capital gain distribution, the Plan Agent will acquire shares for the participants' account, depending upon the circumstances described below, either (i) through receipt of unissued but authorized shares from the Trust ("newly issued shares") or (ii) by open market purchases. If, on the dividend payment date, the NAV is equal to or less than the market price per share plus estimated brokerage commissions (such condition being referred to herein as "market premium"), the Plan Agent will invest the dividend amount in newly issued shares on behalf of the participants. The number of newly issued shares to be credited to each participant's account will be determined by dividing the dollar amount of the dividend by the NAV on the date the shares are issued. However, if the NAV is less than 95% of the market price on the payment date, the dollar amount of the dividend will be divided by 95% of the market price on the payment date. If, on the dividend payment date, the NAV is greater than the market value per share plus estimated brokerage commissions (such condition being referred to herein as "market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participants in open-market purchases.

The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by each Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any Federal income tax that may be payable on such dividends or distributions.

Each Trust reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, each Trust reserves the right to amend the Plan to include a service charge payable by the participants. Participants that request a sale of shares through the Plan Agent

are subject to a \$2.50 sales fee and a \$0.15 per share sold brokerage commisson. All correspondence concerning the Plan should be directed to the Plan Agent at 150 Royall Street, Canton, MA 02021 or (800) 699-1BFM.

BlackRock Income Opportu BlackRock Income Trust

Effective August 18, 2003, BlackRock Advisors, Inc. provides administrative services for all trusts.

- (1) For Core Bond, Limited Duration and Strategic Bond only.
- (2) Provided administrative services for the Trust(s) listed directly below its name.

The Trusts will mail only one copy of shareholder documents, including annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called "householding" and is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household,

please contact the Trusts at (800) 227-7BFM.

The Trusts have delegated to the Advisor the voting of proxies relating to their voting securities pursuant to the Advisor's proxy voting policies and procedures. You may obtain a copy of these proxy voting procedures, without charge, by calling (800) 699-1236. These policies and procedures are also available on the website of the Securities and Exchange Commission at http://www.sec.gov.

### ITEM 2. CODE OF ETHICS.

- (a) The Registrant has adopted a code of ethics (the "Code of Ethics") that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.
- (b) Not applicable.
- (c) The Registrant has not amended its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (d) The Registrant has not granted a waiver or an implicit waiver from a provision of its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (e) Not applicable.
- (f) The Registrant's Code of Ethics is attached as an Exhibit hereto.

### ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Registrant's Board of Trustees has determined that it has two audit committee financial experts serving on its audit committee, each of whom is an "independent" Trustee: Dr. Andrew F. Brimmer and Mr. Kent Dixon. Under

applicable securities laws, a person who is determined to be an audit committee financial expert will not be deemed an "expert" for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as a result of being designated or identified as an audit committee financial expert. The designation or identification of a person as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities that are greater than the duties, obligations, and liabilities imposed on such person as a member of the audit committee and Board of Trustees in the absence of such designation or identification.
