PRESS RELEASE

TELECOM ITALIA: ANATEL PRESENTED WITH PROPOSAL FOR THE TRANSFER OF 38% OF SOLPART (THE HOLDING WITH CONTROL OF BRASIL TELECOM) TO A TRUST OF NEW CONSTITUTION

Once approved by Brazil s telecommunications authority (ANATEL), the mobile and long distance licence overlaps between Tim Brasil and Brasil Telecom would be resolved

Mandate to JP Morgan for the sale of 38% of

Solpart confirmed

Milan, 9 October 2006 Telecom Italia today presented ANATEL (the Brazilian telecommunications authority) with a request for the approval of the transfer of its 38% stake, held through subsidiary Telecom Italia International, in Solpart (the holding with control of Brasil Telecom) to a Newco named Brasilco S.r.l held by an English law Trust.

With this operation - effective once approved by ANATEL - Telecom Italia will cede ownership of the stake in Solpart (while remaining beneficiary) and the relative governance rights.

Once approved by ANATEL, the overlap of mobile and long distance licences between Tim Brasil and Brasil Telecom will be resolved, for the benefit of all the parties involved, including Brasil Telecom and its shareholders.

The Trust will be managed by Credit Suisse with the aim of selling the conferred stake to a third party, as already announced to the market. Telecom Italia has in fact already mandated JP Morgan with the disposal.

Telecom Italia International will be the sole beneficiary of the Trust and consequently of earnings deriving from the Solpart stake, including the price of its future sale.

Cautionary Statement for Purposes of the "Safe Harbor" Provision of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. The Press Release included in this Form 6-K contains certain forward looking statements and forecasts reflecting management's current views with respect to certain future events. The ability of the Telecom Italia Group to achieve its projected results is dependent on many factors which are outside of management's control. Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information involves risks and uncertainties that could significantly affect expected results and are based on certain key assumptions.

The following important factors could cause the Telecom Italia Group's actual results to differ materially from those projected or implied in any forward-looking statements:

- the continuing impact of increased competition in a liberalized market, including competition from global and regional alliances formed by other telecommunications operators in the core domestic fixed-line and wireless markets of the Telecom Italia Group;
- the ability of the Telecom Italia Group to introduce new services to stimulate increased usage to its fixed and wireless networks to offset declines in its traditional fixed-line business due to the continuing impact of regulatory required price reductions, market share loss and pricing pressures generally and shifts in usage pattern;
 - the level of demand for telecommunications services, particularly

Edgar Filing: TELECOM ITALIA S P A - Form 6-K

wireless telecommunication services in the maturing Italian market and for new higher value added products and services such as broadband;

- the ability of the Telecom Italia Group to successfully implement its reorganization;
- the success of Telecom Italia's customer loyalty and retention programs and the impact of such programs on revenues;
- the impact of regulatory decisions and changes in the regulatory environment, including implementation of recently adopted EU directives in Italy;
- the impact of economic development generally on the international business of the Telecom Italia Group and on its foreign investments and capital expenditures;
 - the continuing impact of rapid or "disruptive" changes in technologies;
- the impact of political and economic developments in Italy and other countries in which the Telecom Italia Group operates;
 - the impact of fluctuations in currency exchange and interest rates;
- Telecom Italia's ability to successfully implement its strategy over the $2006-2008\ \mathrm{period};$
- the ability of the Telecom Italia Group to successfully achieve its debt reduction targets;
- Telecom Italia's ability to successfully implement its internet and broadband strategy;
- the ability of the Telecom Italia Group to achieve the expected return on the significant investments and capital expenditures it has made and continues to make in Brazil and in Europe on broadband;
- the amount and timing of any future impairment charges for Telecom Italia's licences, goodwill or other assets; and
- the impact of litigation or decreased mobile communications usage arising from actual or perceived health risks or other problems relating to mobile handsets or transmission masts.

The foregoing factors should not construed as exhaustive. Such factors should also be considered together with risk factors included in Telecom Italia Group's Annual Report on Form 20-F for 2005. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. Accordingly, there can be no assurance that the Group will achieve its projected results.
