(1) On the pricing date, the estimated value of the securities is \$9.397 per security, which is less than the issue price. The estimated value of the securities is based on CGMI's proprietary pricing models and our internal funding rate. It is not an indication of actual profit to CGMI or other of our affiliates, nor is it an indication of the price, if any, at which CGMI or any other person may be willing to buy the securities from you at any time after issuance. See "Valuation of the Securities" in the related preliminary pricing supplement.

(2) The issue price for a particular investor and the related underwriting fee received by CGMI may be reduced for volume purchase discounts depending on the aggregate amount of securities purchased by that investor. The lowest price payable by an investor is \$9.900 per security. CGMI, an affiliate of Citigroup Inc. and the underwriter of the sale of the securities, is acting as principal and will receive an underwriting fee of \$0.30 for each \$10 security sold in this offering. Certain selected dealers, including Morgan Stanley Wealth Management, and their financial advisors will collectively receive from CGMI a fixed selling concession of \$0.25 for each \$10 security they sell, subject to reduction for volume purchase discounts depending on the aggregate amount of securities purchased by an investor. Additionally, it is possible that CGMI and its affiliates may profit from expected hedging activity related to this offering, even if the value of the securities declines. See "Use of Proceeds and Hedging" in the accompanying prospectus.

(3) Reflects a structuring fee payable to Morgan Stanley Wealth Management by CGMI of \$0.05 for each security. The structuring fee may be reduced for volume purchase discounts depending on the aggregate amount of securities purchased by that investor.
