The Underwriters may allow, and these dealers may reallow, a concession to certain other dealers not in excess of 0.15% of the principal amount of the notes. After the initial public offering, the public offering price and these concessions may be changed from time to time.

Although application has been made to list the notes on the Luxembourg Stock Exchange, the notes are a new issue of securities with no established trading market. The Underwriters have advised us that they intend to make a market in the notes, but the Underwriters are not obligated to do so and may discontinue any market making at any time without notice. The Underwriters also may create a short position for the account of the Underwriters by selling more notes in connection with this offering than they are committed to purchase from us. In that case, the Underwriters may purchase notes in the open market following completion of this offering to cover their short position. Any of the transactions described in this paragraph may result in the maintenance of the price of the notes at a level above that which might otherwise prevail in the open market. None of the transactions described in this paragraph is required, and, if they are undertaken, they may be
