Form 10-Q

November 09, 2007

**UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549**

Form 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended September 30, 2007

Commission file number 1-14180

Loral Space & Communications Inc.

**600 Third Avenue
New York, New York 10016
Telephone: (212) 697-1105**

Jurisdiction of incorporation: Delaware

IRS identification number: 87-0748324

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐ Accelerated filer ☒ Non-accelerated filer ☐

Indicate by a check mark whether the registrant has filed all documents and reports required to be filed by Section 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes ☒ No ☐

Indicate by check mark whether the registrant is a shell company (as defined in Exchange Act Rule 12b-2 of the Act). Yes ☐ No ☒

As of October 31, 2007, there were 20,265,941 shares of Loral Space & Communications Inc. common stock outstanding.

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Organization and Principal Business

Loral Space & Communications Inc. (*New Loral*), together with its subsidiaries is a leading satellite communications company with substantial activities in satellite manufacturing and satellite-based communications services. *New Loral*, a Delaware corporation, was formed on June 24, 2005, to succeed to the business conducted by its predecessor registrant, Loral Space & Communications Ltd. (*Old Loral*), which emerged from chapter 11 of the federal bankruptcy laws on November 21, 2005 (the *Effective Date*).

The terms *Loral*, the *Company*, *we*, *our* and *us* when used in this report with respect to the period prior to our emergence, are references to *Old Loral*, and when used with respect to the period commencing after our emergence, are references to *New Loral*. These references include the subsidiaries of *Old Loral* or *New Loral*, as the case may be, unless otherwise indicated or the context otherwise requires.

On October 31, 2007, Loral and its Canadian partner, Public Sector Pension Investment Board (*PSP*), through a newly formed joint venture, completed the acquisition of Telesat Canada. In connection with this acquisition, Loral transferred substantially all of the assets and related liabilities of Loral Skynet Corporation (*Loral Skynet*) to Telesat Canada. Loral holds a 64% economic interest and a 33 1/3% voting interest in the resulting new entity (*New Telesat*) (see Notes 6, 12 and 16). References to Loral Skynet with respect to periods prior to the closing of this transaction are references to the subsidiary of Loral and with respect to the period commencing on and after the closing of this transaction are, if related to the fixed satellite services business, references to the Loral Skynet operations within *New Telesat*. We refer to the acquisition of Telesat Canada and the related transfer of the Loral Skynet assets to Telesat Canada as the *Telesat Canada transaction*.

Loral is organized into two operating segments:

Satellite Manufacturing: Our subsidiary, Space Systems/Loral, Inc. (*SS/L*), designs and manufactures satellites, space systems and space system components for commercial and government customers whose applications include fixed satellite services (*FSS*), direct-to-home (*DTH*) broadcasting, mobile satellite services (*MSS*), broadband data distribution, wireless telephony, digital radio, digital mobile broadcasting, military communications, weather monitoring and air traffic management.

Satellite Services: Our subsidiary until the closing of the Telesat Canada transaction, Loral Skynet, operates a global fixed satellite services business. Loral Skynet leases transponder capacity to commercial and government customers for video distribution and broadcasting, high-speed data distribution, Internet access and communications, as well as provides managed network services to customers using a hybrid satellite and ground-based system. Loral Skynet has four in-orbit satellites and has one satellite under construction at SS/L. It also provides professional services to other satellite operators such as fleet operating services.

2. Reorganization

On July 15, 2003, *Old Loral* and certain of its subsidiaries (the *Debtor Subsidiaries* and collectively with *Old Loral*, the *Debtors*), including Loral Space & Communications Holdings Corporation (formerly known as Loral Space & Communications Corporation), Loral SpaceCom Corporation (*Loral SpaceCom*), SS/L and Loral Orion, Inc. (now known as Loral Skynet Corporation), filed voluntary petitions for reorganization under chapter 11 of title 11 (*Chapter 11*) of the United States Code (the *Bankruptcy Code*) in the U.S. Bankruptcy Court for the Southern District

of New York (the Bankruptcy Court) (Lead Case No. 03-41710 (RDD), Case Nos. 03-41709 (RDD) through 03-41728 (RDD)) (the Chapter 11 Cases). Also on July 15, 2003, Old Loral and one of its Bermuda subsidiaries (the Bermuda Group) filed parallel insolvency proceedings in the Supreme Court of Bermuda (the Bermuda Court), and, on that date, the Bermuda Court entered an order appointing certain partners of KPMG as Joint Provisional Liquidators (JPLs) in respect of the Bermuda Group.

The Debtors emerged from Chapter 11 on November 21, 2005 pursuant to the terms of their fourth amended joint plan of reorganization, as modified (the Plan of Reorganization). The Plan of Reorganization had previously

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

been confirmed by order (the Confirmation Order) of the Bankruptcy Court entered on August 1, 2005. Pursuant to the Plan of Reorganization, among other things, the business and operations of Old Loral were transferred to New Loral, and Loral Skynet and SS/L emerged intact as separate subsidiaries of reorganized Loral.

Certain appeals (the Appeals) filed by Old Loral shareholders acting on behalf of the self-styled Loral Stockholders Protective Committee (LSPC) seeking, among other things, to revoke the Confirmation Order and to rescind the approval of the Federal Communications Commission (FCC) of the transfer of our FCC licenses from Old Loral to New Loral remain outstanding. We believe that these Appeals are completely without merit and will not have any effect on the completed reorganization (see Note 12).

3. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules of the Securities and Exchange Commission (SEC) and, in our opinion, include all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of results of operations, financial position and cash flows as of the balance sheet dates presented and for the periods presented. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP) have been condensed or omitted pursuant to SEC rules. We believe that the disclosures made are adequate to keep the information presented from being misleading. The results of operations for the three and nine months ended September 30, 2007 are not necessarily indicative of the results to be expected for the full year.

The December 31, 2006 balance sheet has been derived from the audited consolidated financial statements at that date. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in our latest Annual Report on Form 10-K filed with the Securities and Exchange Commission.

Cash and Cash Equivalents, Short-term Investments and Restricted Cash

As of September 30, 2007, the Company had \$519.0 million of cash, short-term investments and restricted cash, of which \$22.1 million is in the form of short-term investments and \$177.1 million is in the form of restricted cash (\$163.6 million included in current assets (see Note 10) and \$13.5 million included in other assets on our condensed consolidated balance sheet). Cash and cash equivalents include liquid investments with maturities of less than 90 days at the time of purchase. Short-term investments consist of investments whose maturity at time of purchase was greater than 90 days and less than one year or investments which had been long-term whose final maturity is less than one year from September 30. Management determines the appropriate classification of its investments at the time of purchase and at each balance sheet date. Our short-term investments include corporate bonds, Euro dollar bonds, certificates of deposit, commercial paper, Federal Agency notes and auction rate securities. All short-term investments are classified as available-for-sale securities. Auction rate securities are long-term obligations that are sold and purchased through an auction process for a period of 7, 28, 35 or 49 days. Auction rate securities and other available-for-sale securities are carried at fair value with unrealized gains and losses, if any, reported in accumulated other comprehensive income. The carrying value of our auction rate securities at September 30, 2007 approximates their cost.

Concentration of Credit Risk

Financial instruments that potentially subject us to concentrations of credit risk consist principally of cash and cash equivalents, foreign exchange contracts, contracts-in-process, long-term receivables and advances and loans to affiliates (see Note 6). Our cash and cash equivalents are maintained with high-credit-quality financial institutions. Historically, our customers have been primarily large multinational corporations and U.S. and foreign governments for which the creditworthiness was generally substantial. In recent years, we have added commercial customers that include companies in emerging markets or the development stage, some of which are highly leveraged or partially

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

funded. Management believes that its credit evaluation, approval and monitoring processes combined with contractual billing arrangements provide for effective management of potential credit risks with regard to our current customer base.

Minority Interest

On November 21, 2005, Loral Skynet issued 1 million of its 2 million authorized shares of Series A 12% non-convertible preferred stock, \$0.01 par value per share (the Loral Skynet Preferred Stock), which were distributed in accordance with the Plan of Reorganization.

The Loral Skynet Preferred Stock is reflected as minority interest on our condensed consolidated balance sheet and accrued dividends of \$7.1 million and \$6.4 million for the three months ended September 30, 2007 and 2006, respectively, and \$20.6 million and \$18.4 million for the nine months ended September 30, 2007 and 2006, respectively, are reflected as minority interest on our condensed consolidated statement of operations. On January 12, 2007, Loral Skynet paid a dividend on its Loral Skynet Preferred Stock of \$12.86 million, which covered the period from July 14, 2006 through January 13, 2007. The dividend consisted of \$1.77 million in cash and \$11.09 million through the issuance of 55,434 additional shares of Loral Skynet Preferred Stock. On July 13, 2007 Loral Skynet paid a dividend on its Loral Skynet Preferred Stock of \$13.5 million, which covered the period from January 14, 2007 through July 13, 2007. The dividend consisted of \$1.26 million in cash and \$12.26 million through the issuance of 61,282 additional shares of Loral Skynet Preferred Stock. At September 30, 2007, 1,187,997 shares of Loral Skynet Preferred Stock, with a carrying value of \$237.6 million, were issued and outstanding. At September 30, 2007, accrued but unpaid dividends were \$6.1 million.

Income Taxes

Effective January 1, 2007, we adopted the Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109* (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For benefits to be recognized in the financial statements, a tax position must be more-likely-than-not to be sustained upon examination by the taxing authorities based on the technical merits of the position. The amount recognized is measured as the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. The interpretation also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Based upon our analysis, the cumulative effects of adopting FIN 48 have been recorded as an increase of \$6.2 million to accumulated deficit, an increase of \$7.2 million to goodwill, a decrease of \$6.3 million to deferred income tax liabilities and an increase of \$19.7 million to long-term liabilities. As of January 1, 2007, we had unrecognized tax benefits relating to uncertain tax positions of \$60.8 million. We do not anticipate material changes to this liability for the next twelve months, other than additional accruals for interest.

The Company recognizes accrued interest and penalties related to uncertain tax positions in income tax expense on a quarterly basis. As of January 1, 2007, we had accrued approximately \$5.7 million and \$12.6 million for the payment of tax-related interest and penalties, respectively.

With few exceptions, the Company is no longer subject to U.S. federal, state or local income tax examinations by tax authorities for years prior to 2003. Earlier years related to certain foreign jurisdictions remain subject to examination. Various state and foreign income tax returns are currently under examination. While we intend to contest any future tax assessments for uncertain tax positions, no assurance can be provided that we would ultimately prevail.

The liability for uncertain tax positions is included in long-term liabilities in the Condensed Consolidated Balance Sheet as of September 30, 2007. During September 2007, the Company settled its liability for an uncertain

LORAL SPACE & COMMUNICATIONS INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

tax position with certain tax authorities resulting in the reversal of FIN 48 liabilities totaling \$2.4 million, of which \$2.0 million was recorded as a reduction to goodwill and \$0.4 million was treated as a current income tax benefit. In addition to the reversal of these liabilities, for the three and nine months ended September 30, 2007, we increased our FIN 48 liability for uncertain tax positions by \$1.2 million and \$4.5 million, respectively, for potential additional interest and penalties. As of September 30, 2007, we had accrued approximately \$9.0 million and \$12.7 million for the payment of potential tax-related interest and penalties, respectively. If our positions are sustained by the taxing authorities, approximately \$40.8 million would be treated as a reduction of goodwill and \$15.8 million would reduce the Company's effective tax rate. Other than as described above, there were no significant changes to our uncertain tax positions during the nine months ended September 30, 2007.

Prior to adopting FIN 48, our policy was to maintain tax contingency liabilities for potential audit issues. The tax contingency liabilities were based on our estimate of the probable amount of additional taxes that may be due in the future. Any additional taxes due would be determined only upon completion of current and future federal, state and international tax audits. At December 31, 2006, we had \$42.6 million of tax contingency liabilities included in long-term liabilities.

During 2007 and 2006, we maintained a 100% valuation allowance against our net deferred tax assets except with regard to our deferred tax assets related to AMT credit carryforwards. We will continue to maintain the valuation allowance until sufficient positive evidence exists to support its reversal. If, in the future, we were to determine that we will be able to realize all or a portion of the benefit from our deferred tax assets, a reduction to the valuation allowance as of October 1, 2005 will first reduce goodwill, then other intangible assets with any excess treated as an increase to paid-in-capital. For the three and nine months ended September 30, 2007, we utilized the benefits from approximately \$20.2 million and \$45.0 million, respectively, of deferred tax assets from Old Lorai to reduce our cash tax liability imposed on current year income. Utilization of these benefits created an excess valuation allowance of \$20.2 million and \$45.0 million for the three and nine months ended September 30, 2007, respectively, that was reversed as a reduction to goodwill.

The income tax provision for the three and nine months ended September 30, 2007 and 2006 also includes our current provision for foreign income taxes and adjustment, if required, to our FIN 48 liabilities for uncertain tax positions and tax contingency liabilities for potential audit issues. The provision for 2007 also includes certain changes to the valuation allowance required as a result of having reversed deferred tax liabilities from accumulated other comprehensive income.

Pensions and Other Employee Benefits

The following table provides the components of net periodic benefit cost for our qualified and supplemental retirement plans (the Pension Benefits) and health care and life insurance benefits for retired employees and dependents (the Other Benefits) for the three and nine months ended September 30, 2007 and 2006 (in thousands):

	\$ 3,921	\$ 8,217	\$ 4,575	\$ 4,501

Effective July 1, 2006, we amended our pension plan to standardize the future benefits earned at all company locations. These amendments did not change any benefits earned through June 30, 2006. As a result of the amendments, all locations now have a career average plan that requires a participant contribution in order to receive the highest level of benefits. All current participants now earn future benefits under the same formula and have the same early retirement provisions. The amendments did not apply to certain employees under a bargaining unit arrangement. Additionally, employees hired after June 30, 2006, do not participate in the defined benefit pension plan, but participate in our defined contribution savings plan with an enhanced benefit.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

*New Accounting Pronouncements**SFAS 157*

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*, (SFAS 157), to define fair value, establish a framework for measuring fair value in accordance with U.S. GAAP and expand disclosures about fair value measurements. SFAS 157 requires quantitative disclosures using a tabular format in all periods (interim and annual) and qualitative disclosures about the valuation techniques used to measure fair value in all annual periods. We are required to adopt the provisions of this statement as of January 1, 2008. We are currently evaluating the impact of adopting SFAS 157.

SFAS 159

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 expands opportunities to use fair value measurements in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value. We are required to adopt the provisions of this statement as of January 1, 2008. We are currently evaluating the impact of adopting SFAS 159.

4. Comprehensive Income (Loss)

The components of comprehensive income (loss) are as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Net income (loss)	\$ 25,929	\$ 1,186	\$ 29,733	\$ (26,050)
Cumulative translation adjustment	176	56	235	193
Amortization of prior service credits and net actuarial gains, net of taxes	(469)		(1,407)	
Unrealized gain (loss) on available-for-sale securities arising during the period, net of taxes	444		(3,515)	
Reclassification adjustment for gains included in net income	(4,690)		(3,215)	
Comprehensive income (loss)	\$ 21,390	\$ 1,242	\$ 21,831	\$ (25,857)

In the consolidated statement of shareholders' equity for the year ended December 31, 2006 and in the related notes in our 2006 Annual Report on Form 10-K, we disclosed and included the \$30.0 million adjustment to initially apply SFAS 158, *Employers Accounting for Defined Benefit Pension and Other Postretirement Plans*, in the caption 'Other Comprehensive Income'. That caption includes changes in equity that are part of other comprehensive income for the period. We based that presentation on our interpretation of the principles in SFAS 130, *Reporting Comprehensive*

Income, which requires accounting changes to be included in comprehensive income for the period. Subsequently, we became aware that transition provisions of SFAS 158 required that this cumulative effect be presented as a direct adjustment to the ending balance of Accumulated Other Comprehensive Income rather than as part of comprehensive income for the period. Consequently, the amount reported under the caption Other Comprehensive Income for 2006 should have been \$10.1 million, rather than the \$40.1 million we reported. The difference, \$30.0 million, should have been reported as a direct increase of accumulated other comprehensive income within equity. The amount reported as

Comprehensive Income for 2006 should have been \$(12.6) million rather than the \$17.3 million we reported. In our 2007 Annual Report on Form 10-K, we will restate our presentation to correct this error. This correction only affects the display of the cumulative effect of the adoption of SFAS 158 within the consolidated statement of shareholders equity and does not otherwise affect our financial statements.

LORAL SPACE & COMMUNICATIONS INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****5. Contracts-in-Process**

	September 30, 2007	December 31, 2006
	(In thousands)	
Amounts billed	\$ 40,061	\$ 18,289
Unbilled receivables	60,828	22,144
	\$ 100,889	\$ 40,433

Unbilled amounts include recoverable costs and accrued profit on progress completed, which have not been billed. Such amounts are billed in accordance with the contract terms, typically upon shipment of the product, achievement of contractual milestones, or completion of the contract and, at such time, are reclassified to billed receivables. Fresh-start fair value adjustments relating to contracts-in-process are amortized on a percentage of completion basis as performance under the related contract is completed.

6. Financial Instruments and Foreign Currency***Derivatives***

On December 16, 2006, a joint venture company (Acquireco) formed by Loral and PSP entered into a share purchase agreement with BCE Inc. and Telesat Canada for the acquisition of all the shares of Telesat Canada and certain other assets for CAD 3.25 billion (see Notes 12 and 16). As part of the transaction, the acquisition company received financing commitments from a syndicate of banks for \$2.26 billion (based on an exchange rate of \$1.00/CAD 0.9923 as of September 30, 2007) of senior secured credit facilities, \$692.8 million of a senior unsecured bridge facility and \$217.2 million of a senior subordinated unsecured bridge facility. The purchase price of Telesat Canada is in Canadian dollars, while most of the debt financing is in U.S. dollars. Accordingly, to insulate themselves from Canadian dollar versus US dollar fluctuations, Loral, through Loral Skynet, and PSP entered into financial commitments to lock in exchange rates to convert some of the U.S. dollar denominated debt proceeds to Canadian dollars. As of September 30, 2007, the unrealized gain on these transactions as a result of marking these investments to market, has been recognized in the statement of operations and avoided a corresponding increase in the US dollar purchase price equivalent that would have been paid to BCE for Telesat Canada.

A summary of these transactions is as follows:

1) In December 2006, Loral Skynet entered into a currency basis swap with a single bank counterparty converting \$1.054 billion of U.S. debt into CAD 1.224 billion of Canadian debt for a seven year period beginning December 17, 2007. This debt amortizes 1% per year with a final maturity of December 17, 2014. No cash payment was made by Loral to the counterparty for entering into this transaction. This agreement could be closed at any point prior to December 17, 2007 by simply moving all the terms forward to the closing date of the Telesat Canada acquisition without affecting terms. For the three and nine months ended September 30, 2007, Loral recorded a gain of

\$3.3 million and \$6.8 million respectively, reflecting the change in the fair value of the swap. Included in foreign currency contracts on our condensed consolidated balance sheet is \$4.4 million as of September 30, 2007, and \$2.4 million is included in other current liabilities as of December 31, 2006, reflecting the fair value of the swap.

2) In December 2006, Loral Skynet entered into forward foreign currency contracts with a single bank counterparty selling \$497.4 million for CAD 570.1 million (\$1.00/CAD 1.1461) with a settlement date of December 17, 2007. In January 2007, Loral Skynet entered into additional forward foreign currency contracts with the same single bank counterparty selling \$200.0 million for CAD 232.8 million (\$1.00/CAD 1.1512) with a settlement date of December 17, 2007. No cash payments were made by Loral to the single bank counterparty for entering into these transactions. These agreements could be rolled forward to the closing date of the Telesat Canada acquisition with an adjustment in the exchange rate. For the three and nine months ended

LORAL SPACE & COMMUNICATIONS INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

September 30, 2007, Loral recorded a gain of \$53.4 million and \$115.3 million, respectively, reflecting the change in the fair value of the forward contracts. As of September 30, 2007, included in foreign currency contracts on our condensed consolidated balance sheet is \$112.0 million reflecting a mark-to-market exchange rate of \$1.00/CAD 0.9923. As of December 31, 2006, other current liabilities include \$3.3 million reflecting a mark-to-market exchange rate of \$1.00/CAD 1.1539.

Foreign Currency

We, in the normal course of business, are subject to the risks associated with fluctuations in foreign currency exchange rates.

As of September 30, 2007, SS/L had the following amounts denominated in Japanese Yen and EUROS (which have been translated into U.S. dollars based on September 30, 2007 exchange rates) that were unhedged (in millions):

	Foreign Currency	U.S.\$
Future revenues Japanese Yen	¥ 122.9	\$ 1.1
Future expenditures Japanese Yen	¥ 4,006.7	\$ 34.9
Contracts-in-process, unbilled receivables/(customer advances) Japanese Yen	¥ 10.4	\$ 0.1
Future expenditures EUROS	3.7	\$ 5.3

7. Property, Plant and Equipment

	September 30, 2007	December 31, 2006
	(In thousands)	
Land and land improvements	\$ 27,533	\$ 27,533
Buildings	54,134	53,572
Leasehold improvements	8,526	6,434
Satellites in-orbit, including satellite transponder rights of \$136.7 million	386,098	386,196
Satellites under construction	107,548	59,085

Other construction in progress	28,647	18,167
	722,308	645,915
Accumulated depreciation and amortization	(139,836)	(87,036)
	\$ 582,472	\$ 558,879

Depreciation and amortization expense for property, plant and equipment was \$17.9 million and 17.5 million for the three months ended September 30, 2007 and 2006, respectively, and \$53.1 million and \$51.4 million for the nine months ended September 30, 2007 and 2006, respectively. During the three months ended September 30, 2007 the Company recorded a \$2.0 million write-off of construction in progress associated with the redirection of the capacity expansion project. Accumulated depreciation and amortization as of September 30, 2007 and December 31, 2006 includes \$29.0 million and \$16.7 million, respectively, related to satellite transponders where Loral Skynet has the rights to the transponders for the remaining life of the related satellite.

LORAL SPACE & COMMUNICATIONS INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****8. Investments in and Advances to Affiliates**

Investments in and advances to affiliates consists of (in thousands):

	September 30, 2007	December 31, 2006
XTAR equity investment	\$ 89,988	\$ 97,202

Equity income (loss) in affiliates consists of (in thousands):

	Three Months Ended September 30, 2007	2006	Nine Months Ended September 30, 2007	2006
XTAR	\$ (2,322)	\$ (2,575)	\$ (7,214)	\$ (5,879)
Globalstar service provider partnerships			2,955	
	\$ (2,322)	\$ (2,575)	\$ (4,259)	\$ (5,879)

The condensed consolidated statements of operations reflect the effects of the following amounts related to transactions with or investments in affiliates (in thousands):

	Three Months Ended September 30, 2007	2006	Nine Months Ended September 30, 2007	2006
Revenues	\$ 8	\$ 3,063	\$ 416	\$ 11,517
Elimination of our proportionate share of profit relating to affiliate transactions	(15)	(40)	(46)	(327)
Profit relating to affiliate transactions not eliminated	13	32	37	257

We had customer advances from XTAR relating to the construction of their satellite of \$357,000 and \$650,000, as of September 30, 2007 and December 31, 2006, respectively, on our condensed consolidated balance sheet.

XTAR

We own 56% of XTAR, L.L.C. (XTAR), a joint venture between us and Hisdesat Servicios Estrategicos, S.A. (Hisdesat) of Spain. We account for our investment in XTAR under the equity method, since we do not control certain of its significant operating decisions. Our interest in XTAR was held by Loral Skynet. This interest, however, was retained by Loral and not transferred to New Telesat (see Notes 12 and 16).

XTAR and Loral Skynet have entered into agreements whereby Loral Skynet provides to XTAR (i) certain selling, general and administrative services, (ii) telemetry, tracking and control services for the XTAR satellite, (iii) transponder engineering and regulatory support services as needed and (iv) satellite construction oversight services. XTAR is currently making limited payments under the agreements. Loral Skynet has agreed to defer amounts due from XTAR until March 31, 2008. During the nine months ended September 30, 2007 and 2006, Loral Skynet has not recognized revenue associated with providing these services to XTAR. During the three months ended September 30, 2007, Loral Skynet reversed an allowance for doubtful accounts of \$1.9 million related to outstanding accounts receivable from XTAR. During October 2007, Loral Skynet received a payment of \$1.2 million from XTAR for outstanding accounts receivable. These agreements have been assigned to New Telesat.

XTAR has made limited payments under its lease agreement with Hisdesat. Hisdesat has agreed to defer amounts due from XTAR until March 31, 2008.

In connection with the Launch Services Agreement entered into between XTAR and Arianespace, S.A. (Arianespace) providing for launch of its satellite on Arianespace's Ariane 5 ECA launch vehicle, Arianespace

LORAL SPACE & COMMUNICATIONS INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

provided a one-year, \$15.8 million, 10% interest paid-in-kind (i.e., paid in additional debt) loan for a portion of the launch price, secured by certain of XTAR's assets, including the XTAR-EUR satellite, ground equipment and rights to the orbital slot. The remainder of the launch price consisted of a revenue-based fee to be paid over time by XTAR. Through a series of amendments to the loan agreement, XTAR and Arianespace agreed to extend the maturity date of the loan to September 30, 2007. As part of these amendments, XTAR agreed to make scheduled and excess cash payments, as well as foregoing the ability to incur secured debt with the Arianespace collateral. The loan was paid in full by XTAR on July 6, 2007.

The following table presents summary financial data for XTAR (in millions):

Statement of Operations Data:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Revenues	\$ 4.6	\$ 2.6	\$ 13.9	\$ 9.8
Operating loss	(3.6)	(3.6)	(11.0)	(7.0)
Net loss	(4.1)	(4.5)	(12.4)	(9.9)

Balance Sheet Data:

	September 30, 2007	December 31, 2006
Current assets	\$ 9.0	\$ 6.4
Total assets	127.4	132.1
Current liabilities	25.9	20.1
Long-term liabilities	35.0	33.1
Members' equity	66.5	78.9

Other

On April 14, 2004, Globalstar, L.P. announced the completion of its financial restructuring following the formal acquisition of its main business operations and assets by Thermo Capital Partners LLC ("Thermo"), effectively resulting in Globalstar, L.P. exiting from bankruptcy. Thermo invested \$43 million in the newly formed Globalstar company ("Globalstar Inc.") in exchange for an 81.25% equity interest, with the remaining 18.75% of the equity distributed to the creditors of Globalstar, L.P. Our share of the equity interest was approximately 2.7% of Globalstar Inc., to which we assigned no value at the time. On November 2, 2006, Globalstar Inc., completed an initial public offering, at which time we owned 1,609,896 shares of Globalstar Inc. We had agreed not to sell 70% of our Globalstar Inc. holdings for at least 180 days following the completion of its offering. As of May 5, 2007, the lock-up was no longer in effect. For the three and nine months ended September 30, 2007, we realized a gain of \$2.8 million and \$5.3 million, respectively, (included in interest and investment income in the condensed consolidated statements of operations) on

the sale of 238,200 shares and 468,286 shares, respectively, of Globalstar Inc. stock. As of September 30, 2007, we owned 700,648 shares of Globalstar Inc. which are accounted for as available-for-sale securities. Unrealized gains on these shares were \$3.1 million, net of taxes as of September 30, 2007.

We hold various indirect ownership interests in three foreign companies that currently serve as exclusive service providers for Globalstar service in Brazil, Mexico and Russia. We account for these ownership interests using the equity method of accounting. We have written-off our investments in these companies, and because we have no future funding requirements relating to these investments, there is no requirement for us to provide for our allocated share of these companies net losses. We are considering whether to make an additional investment of up to \$13 million in one of these companies. In the nine months ended September 30, 2007, Loral recognized earnings of

LORAL SPACE & COMMUNICATIONS INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

\$3.0 million from our Globalstar investment partnerships, which were primarily attributable to a cash distribution received from one of our investments.

9. Goodwill and Other Intangible Assets***Goodwill***

Goodwill was established in connection with our adoption of fresh-start accounting on October 1, 2005. Effective January 1, 2007, we adopted FIN 48. The cumulative effects of adopting FIN 48 has resulted in the Company recording an increase of \$7.5 million to goodwill in 2007, offset by a reduction to goodwill of \$47.0 million, as a result of the reversal of FIN 48 liabilities no longer required and the reversal of an excess valuation allowance (see *Income Taxes* in Note 3), as follows (in thousands):

Goodwill	December 31, 2006	\$ 305,691
Cumulative effect of adopting FIN 48 (see Note 3)		7,542
Reversal of FIN 48 liabilities		(2,000)
Reversal of excess valuation allowance on deferred tax assets		(44,979)
Goodwill	September 30, 2007	\$ 266,254

Other Intangible Assets

Other Intangible Assets were established in connection with our adoption of fresh-start accounting and are included in Other Assets on our condensed consolidated balance sheet. Other Intangible Assets consists of (in millions, except years):

	Weighted Average Remaining Amortization Period (Years)	September 30, 2007		December 31, 2006	
		Gross Amount	Accumulated Amortization	Gross Amount	Accumulated Amortization
Internally developed software and technology	4	\$ 59.0	\$ (21.6)	\$ 59.0	\$ (13.5)
Orbital slots	9	10.8	(3.0)	10.8	(1.8)
Trade names	18	13.2	(1.3)	13.2	(0.8)
Customer relationships	13	20.0	(2.7)	20.0	(1.7)
Customer contracts	8	33.0	(12.1)	33.0	(8.3)
Other intangibles	3	2.7	(1.2)	2.7	(0.8)

\$ 138.7 \$ (41.9) \$ 138.7 \$ (26.9)

Total amortization expense for other intangible assets was \$4.9 million and \$5.2 million for the three months ended September 30, 2007 and 2006, respectively, and \$15.0 million and \$15.9 million for the nine months ended September 30, 2007 and 2006, respectively. Annual amortization expense for intangible assets for the five years ended December 31, 2011 is estimated to be as follows (in millions):

2007	\$ 19.8
2008	18.8
2009	17.5
2010	14.2
2011	7.8

LORAL SPACE & COMMUNICATIONS INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In connection with our adoption of fresh-start accounting, we recorded fair value adjustments of \$66.9 million relating to contracts-in-process, long-term receivables, customer advances and billings in excess of costs and profits and long-term liabilities. Net amortization of these fair value adjustments as a credit to income was \$0.7 million and \$4.9 million for the three months ended September 30, 2007 and 2006, respectively and \$5.6 million and \$16.9 million for the nine months ended September 30, 2007 and 2006, respectively. During the three months ended September 30, 2007, the Company recognized as other income a previously deferred gain of \$3.6 million in connection with the sale of an orbital slot in 2006.

10. Debt

	September 30, 2007	December 31, 2006
	(In thousands)	
Short-term:		
4.1% Loan payable to Valley National Bank	\$ 141,050	\$
Long-term:		
Loral Skynet 14.0% Senior Secured Notes due 2015 (principal amount \$126 million)		128,084

Loan Payable Valley National Bank

On September 4, 2007, Loral Skynet entered into a Loan and Security Agreement (the *Loan Agreement*) with Valley National Bank (*Valley National*). The purpose of the Loan Agreement was to make available to Loral Skynet a loan (the *Loan*) to fund the redemption (the *Note Redemption*) of Loral Skynet's 14% Senior Secured Cash/PIK Notes due 2015. Pursuant to the Loan Agreement, Valley National made the Loan in a single advance of \$141,050,000, which Loral Skynet used to fund the Note Redemption on September 5, 2007.

The maturity date of the Loan was the earlier of (i) December 17, 2007 or (ii) the date on which the assets of Loral Skynet were transferred in connection with the previously announced acquisition of Telesat Canada (see Notes 6, 12 and 16). The Loan Agreement permitted Loral Skynet to prepay all or a portion of the amounts outstanding under the Loan at any time prior to maturity without penalty or premium.

As security for repayment of the Loan, Loral Skynet granted security interests in certain of its assets. The repayment of the Loan was guaranteed by Loral (the *Guaranty*) with the Company's obligations under the Guaranty being secured pursuant to a pledge agreement (the *Pledge Agreement*) executed by the Company. Loral purchased a certificate of deposit (the *CD*) from Valley National in the initial principal amount of \$142,720,659, such amount being equal to the sum of the principal of the Loan and accrued interest thereon from and including September 4, 2007 through, but not including, December 17, 2007. The CD accrued interest at a rate of 3.85% per annum. Pursuant to the terms of the Pledge Agreement, the money on deposit under the CD secured the obligations of Loral Skynet under the Loan Agreement and the Company under the Guaranty. As of September 30, 2007, this CD is included in restricted cash in the current assets section of our condensed consolidated balance sheet.

The interest rate on the Loan was 4.10% per annum. Interest expense related to the Loan was \$538,000 for the three and nine months ended September 30, 2007. The Loan was repaid on October 31, 2007, in connection with the closing of the Telesat Canada transaction (see Note 16).

Loral Skynet Notes

On November 21, 2005, pursuant to the Plan of Reorganization, Loral Skynet issued \$126 million principal amount of 14% Senior Secured Cash/PIK Notes due 2015 (the Loral Skynet Notes) under an Indenture, dated as of November 21, 2005 (the Indenture), which notes were guaranteed on a senior secured basis by our subsidiary Loral Asia Pacific Satellite (HK) Limited and all of Loral Skynet's existing domestic, wholly-owned subsidiaries.

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

On September 5, 2007 Loral Skynet paid \$141.1 million in the aggregate to redeem the notes at a redemption price of 110% including accrued and unpaid interest from July 15, 2007 of \$2.45 million.

Interest expense related to these notes was \$3.1 million and \$4.5 million for the three months ended September 30, 2007 and 2006, respectively and \$12.1 million and \$13.4 million for the nine months ended September 30, 2007 and 2006, respectively. In addition to the \$2.45 million of cash interest paid on the redemption of the notes discussed above, Loral Skynet made cash interest payments of \$8.8 million on the Loral Skynet Notes on each of January 15 and July 16, 2007.

As a result of the redemption of the Loral Skynet Notes, we incurred a loss on the early extinguishment of debt of \$16.2 million, which is comprised of the redemption premium of \$12.6 million and a \$3.6 million write-off of deferred financing costs.

Certain holders of Loral Skynet Notes have commenced litigation with respect to the redemption of the Loral Skynet Notes (see Note 12).

SS/L Letter of Credit Facility

On October 31, 2006, SS/L entered into an amendment to its amended and restated letter of credit agreement with JP Morgan Chase Bank extending the maturity of the facility to December 31, 2007 and reducing the facility availability from \$20 million to \$15 million. Letters of credit are available until the earlier of the stated maturity of the letter of credit, the termination of the facility or December 31, 2007. Outstanding letters of credit are fully cash collateralized. As of September 30, 2007, \$6.1 million of letters of credit under this facility were issued and outstanding.

11. Shareholders Equity

Preferred Stock

On February 27, 2007 (the Issuance Date), Loral completed a \$300 million preferred stock financing pursuant to the Securities Purchase Agreement entered into with MHR Fund Management LLC (MHR) on October 17, 2006, as amended and restated on February 27, 2007 (the Securities Purchase Agreement). Pursuant to the Securities Purchase Agreement, Loral sold 136,526 shares of its Series A-1 cumulative 7.5% convertible preferred stock (the Series A-1 Preferred Stock) and 858,486 shares of its Series B-1 cumulative 7.5% convertible preferred stock (the Series B-1 Preferred Stock) and, together with the Series A-1 Preferred Stock, the Loral Series-1 Preferred Stock) at a purchase price of \$301.504 per share to various funds affiliated with MHR. Each share of the Series A-1 Preferred Stock is convertible, at the option of the holder, into ten shares of Loral common stock at a conversion price of \$30.1504 per share. Prior to the Majority Ownership Date (as defined below) and following stockholder approval of the creation of a new class of Class B-1 non-voting common stock, each share of the Series B-1 Preferred Stock will be convertible, at the option of the holder, into ten shares of this Class B-1 non-voting common stock at a conversion price of \$30.1504 per share. From and after the Majority Ownership Date, the Series B-1 Preferred Stock and the Class B-1 non-voting common stock may be converted by the holder into Loral common stock, in the case of the Series B-1 Preferred Stock, at the same conversion price, and in the case of the Class B-1 non-voting common stock, on a share for share basis. The conversion price reflects a premium of 12% to the closing price of Loral's common stock on October 16, 2006. The conversion price is subject to customary adjustments. Dividends on the Loral Series-1

Preferred Stock are paid in kind (i.e., in additional shares of Loral Series-1 Preferred Stock) through April 2011. Thereafter, if Loral satisfies certain financial requirements, the dividends will be payable in cash or in kind at Loral's option. Pursuant to the terms of this financing, MHR has the right, which it has not exercised, to nominate one additional member to the Loral board of directors. Loral is using the proceeds from this financing, together with its existing resources, for general corporate purposes including the pursuit of both internal and external growth opportunities in the satellite communications industry and strategic transactions or alliances.

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The terms of the Loral Series-1 Preferred Stock are designed so that, prior to the Majority Ownership Date, any shares of common stock issuable to MHR or its affiliates upon conversion of the Loral Series-1 Preferred Stock, when taken together with holdings by MHR or its affiliates of common stock at such time, will not represent more than 39.999% of the aggregate voting power of the securities of Loral. The Majority Ownership Date means the earlier of the date that (i) the beneficial ownership of common stock by MHR and its affiliates, but not including any of the common stock issuable upon the conversion of the Loral Series-1 Preferred stock, represents more than 50% of the common stock of Loral, or (ii) a third party has acquired a majority of Loral's common stock on a fully diluted basis other than pursuant to certain prohibited transfers of the Series A-1 Preferred Stock from MHR or its affiliates. From and after the Majority Ownership Date, this restriction will no longer apply, and all shares of Loral Series-1 Preferred Stock will be convertible into common stock.

The Company and MHR agreed on August 8, 2007 that, in calculating the percentage of the aggregate voting power of Loral securities held by MHR or its affiliates pursuant to the terms of the Loral Series-1 Preferred Stock, (a) the number of shares of Series A-1 Preferred Stock and/or common stock deemed to be held by MHR entities shall be increased by a number of shares (i) equal to the number of shares of restricted stock and the number of shares subject to stock options of the Company then personally held by Dr. Mark H. Rachesky (as of October 31, 2007, Dr. Rachesky held 10,000 such shares), and (ii) equal to 50% of the number of shares of common stock reserved for issuance pending resolution of certain disputed third party claims under the Plan of Reorganization of Old Loral, such number of reserved shares not to exceed 71,500 shares and (b) the number of outstanding shares of common stock of the Company shall be decreased by a number of shares equal to 45% of the total number of shares of restricted stock (issued to persons other than directors pursuant to the Company's Amended and Restated 2005 Stock Incentive Plan) that are then subject to vesting but have not yet vested as of the date of the calculation, such numbers of shares of restricted stock not to exceed one million shares.

In the event of a liquidation, dissolution or winding up of the Company, the holders of the Loral Series-1 Preferred Stock are entitled to a liquidation preference per share equal to the greater of (i) the share purchase price plus accrued and unpaid dividends plus, during the first 66 months following the Issuance Date, a Make-Whole Amount (as defined below) and (ii) the amount that would be payable to a holder of the Loral Series-1 Preferred Stock if such holder had converted such share into common stock immediately prior to such liquidation, dissolution or winding up. Loral will be able to cause the Loral Preferred Stock (as defined below) to be converted into common stock or Class B non-voting common stock after 5.5 years from the Issuance Date if the common stock is trading above certain volume thresholds and above 125 percent of the conversion price for twenty trading days in a 30-day trading day period, but only if the Class B-1 and Class B-2 non-voting stock has been authorized by stockholders (the Class B Non-Voting Stock Authorization).

In the event of a Change of Control (as defined in the certificates of designation relating to the Loral Preferred Stock), a holder of Loral Series-1 Preferred Stock may at its option (i) redeem some or all of its shares of preferred stock for cash in an amount equal to the share purchase price plus accrued and unpaid dividends, (ii) convert some or all of its shares of Series-1 Preferred Stock, in the case of the Series A-1 Preferred Stock, into shares of common stock, and in the case of the Series B-1 Preferred Stock, into shares of Class B-1 non-voting common stock, or if on or after the Majority Ownership Date, shares of common stock, or (iii) if the holder of Loral Series-1 Preferred Stock does not elect to so redeem or convert, such shares of Loral Series-1 Preferred Stock will remain outstanding. In certain cases, a holder's option to redeem for cash is exercisable only following Board approval of the Change of Control event. Upon a Change of Control, a holder of Loral Series-1 Preferred Stock is also entitled to receive a Make-Whole Amount,

provided that the Make-Whole Amount is not payable if the Change of Control involves either MHR acquiring more than 50% but less than 90% of the common stock or another person acquiring more than 50% of the common stock as a result of an acquisition of Loral shares from MHR, in either case so long as the Board has not approved such transaction. The Make-Whole Amount means an amount equal to all dividends that would have accrued and accumulated on each share of Loral Series-1 Preferred Stock (assuming payment of all accrued dividends on each dividend payment date) from the date of a Change of Control through the date that is 66 months after the Issuance Date. The Make-Whole Amount will be paid in either cash (if the holder elects a cash redemption,

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

or if so elected by the Company in the event the Company is then eligible to pay dividends in cash) or shares of Class B-2 non voting common stock (if the holder elects conversion). If on the Change of Control redemption date, the Class B Non-Voting Stock Authorization has not yet been obtained, then the Make-Whole Amount, if payable in shares, will be paid not in shares of Class B-2 non-voting common stock, but rather, in the case of the Series A-1 Preferred Stock, in shares of Series A-2 convertible preferred stock (the Series A-2 Preferred Stock) and in the case of the Series B-1 Preferred Stock, in shares of Series B-2 convertible preferred stock (the Series B-2 Preferred Stock).

Each share of the Series A-1 Preferred Stock, Series A-2 Preferred Stock, Series B-1 Preferred Stock and Series B-2 Preferred Stock (collectively, the Loral Preferred Stock) entitles the holder to 1/10,000 vote for each share of preferred stock. If the Company (i) fails to pay three quarterly dividend payments on the Loral Series-1 Preferred Stock when due or (ii) fails to make any dividend payment when due and there exists at such time assets or funds available to pay such dividends, then the holders of the Preferred Stock may elect two directors to the Company's board of directors, which directors shall serve until such time as the Company is once again current on its dividend payments on the Loral Series-1 Preferred Stock. In addition, there are certain actions that the Company may not undertake without the consent of the holders of a majority of the outstanding shares of the Loral Preferred Stock.

If the Class B Non-Voting Stock Authorization occurs at a time when no shares of Series A-2 Preferred Stock and Series B-2 Preferred Stock are issued and outstanding, the Series A-2 Preferred Stock and Series B-2 Preferred Stock will be eliminated from the authorized share capital of the Company.

The Company paid dividends of \$5.7 million through the issuance of 880 shares of Series A-1 Preferred Stock and 17,949 shares of Series B-1 Preferred Stock during the three months ended September 30, 2007. The Company paid dividends of \$8.5 million through the issuance of 5,288 shares of Series A-1 Preferred Stock and 22,867 shares of Series B-1 Preferred Stock during the nine months ended September 30, 2007. Accrued but unpaid dividends for Loral Series-1 Preferred Stock as of September 30, 2007 were \$5.0 million.

The price of Loral's common stock on October 16, 2006, the day before we signed the Securities Purchase Agreement, was \$26.92 and the conversion price was \$30.1504. The price of Loral's common stock on February 27, 2007, when the financing closed was \$47.40. Because of the difference between the fair market value of the common stock on the date the financing closed, as compared to the conversion price, the Company is required to reflect a beneficial conversion feature of the Loral Series A-1 Preferred Stock as a component of its net income (loss) applicable to common shareholders for the three and nine months ended September 30, 2007. We will also reflect a beneficial conversion feature in a similar manner for the Series B-1 Preferred Stock, in the period in which shareholder approval of the creation of the new class of Class B-1 non-voting common stock is received. This beneficial conversion feature is recorded as a decrease to net income applicable to common shareholders and results in a reduction of both basic and diluted earnings per share results. Accordingly, in the three months ended March 31, 2007, we recorded an increase to net loss applicable to common shareholders of \$24.5 million. In the period in which shareholder approval of the new class of Class B-1 non-voting common stock is received, we expect that our net income (loss) applicable to common shareholders will be reduced (increased), as applicable, by approximately \$154 million reflecting the beneficial conversion feature (less discount, if any, for the class B-1 non-voting common stock because of its non-voting status). To the extent that dividends on the Loral Series-1 Preferred Stock are paid in additional shares of Loral Series A-1 Preferred Stock, we record an additional beneficial conversion feature that reduces our net income applicable to common shareholders. For the three and nine months ended September 30, 2007, we recorded a beneficial conversion feature of \$0.2 million and \$1.1 million, respectively, for the dividends in additional shares of Loral Series A-1

Preferred Stock. We will also record an additional beneficial conversion feature in a similar manner for dividends in additional shares of Loral Series B-1 Preferred Stock in the period in

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

which shareholder approval of the class B-1 non-voting common stock is received, and thereafter. For dividends paid and accrued through September 30, 2007 on the Loral Series B-1 Preferred Stock, the beneficial conversion feature that will be recorded when shareholder approval of the class B-1 non-voting common stock is received, is approximately \$6 million.

In connection with the preferred stock financing, Loral agreed to present certain proposals to its stockholders at its next annual meeting but requested that MHR waive such undertaking with regard to Loral's 2007 annual meeting. MHR has agreed to Loral's request. Loral intends to seek stockholder approval for these proposals at its annual meeting in 2008 or at a special meeting of stockholders.

Loral incurred issuance costs of \$9 million in connection with this preferred stock financing. In addition, Loral paid MHR a placement fee of \$6.75 million upon closing of the financing.

A complete description of the terms of the Loral Preferred Stock is contained in the certificates of designation related to the Loral Preferred Stock attached as Exhibits 3.2 and 3.3 and the Securities Purchase Agreement attached as Exhibit 10.1 to the Company's Current Report on Form 8-K filed on February 28, 2007.

Stock Incentive Plan

On May 22, 2007, at our annual meeting of stockholders, our stockholders approved the Company's Amended and Restated 2005 Stock Incentive Plan (the "Plan") to increase by 1,582,000 the number of shares available for grant thereunder. These amendments cover the following grants that were all subject to stockholder approval of the plan amendments: (w) the grant in March 2006 of options to purchase 825,000 shares to our Chief Executive Officer in connection with his entering into an employment agreement with us (the "CEO March 2006 Option Grant"), (x) the grant in June 2006 of options to purchase 20,000 shares to our Chief Financial Officer in connection with his entering into an amendment to his employment agreement, (y) the grant in June 2006 of options to purchase 120,000 shares to a director in connection with his entering into a consulting agreement and (z) grants of approximately 175,000 shares of restricted stock to employees of SS/L. In addition, these amendments cover 31,000 shares of restricted stock granted to our directors as part of their compensation and approximately 410,300 shares available for future grant. The shares available for future grant will be used for awards to our employees, to fulfill existing contractual obligations and to cover the equity component of our directors compensation. As a result of the approval of the amendments, we recorded compensation cost, related to the first three grants of \$0.9 million and \$9.0 million for the three and nine months ended September 30, 2007, respectively, based on the estimated fair value of these grants, and stock compensation costs of \$1.0 million and \$3.2 million for the three and nine months ended September 30, 2007, respectively, were recorded for the grant of restricted shares. The remaining stock based compensation as a result of these grants, totaling \$17.5 million, will be recognized over the next three to four years.

12. Commitments and Contingencies

Financial Matters

SS/L has deferred revenue and accrued liabilities for performance warranty obligations relating to satellites sold to customers, which could be affected by future performance of the satellites. These reserves for expected costs for warranty reimbursement and support are based on historical failure rates. However, in the event of a catastrophic

failure of a satellite, which cannot be predicted, these reserves likely will not be sufficient. SS/L periodically reviews and adjusts the deferred revenue and accrued liabilities for warranty reserves based on the actual

LORAL SPACE & COMMUNICATIONS INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

performance of each satellite and remaining warranty period. A reconciliation of such deferred amounts for the nine months ended September 30, 2007, is as follows (in millions):

Balance of deferred amounts at January 1, 2007	\$ 53.9
Accruals for deferred amounts issued during the period	
Accruals relating to pre-existing contracts (including changes in estimates)	(10.6)
Balance of deferred amounts at September 30, 2007	\$ 43.3

The reduction of the deferred amounts was primarily attributable to a resolution of certain warranty obligations for less than previously estimated amounts. In connection with the reduction of the deferred amounts, interest expense was reduced by \$5.5 million, for the three and nine months ended September 30, 2007.

Many of SS/L's satellite contracts permit SS/L's customers to pay a portion of the purchase price for the satellite over time subject to the continued performance of the satellite (or orbitals), and certain of SS/L's satellite contracts require SS/L to provide vendor financing to its customers, or a combination of these contractual terms. Some of these arrangements are provided to customers that are start-up companies or companies in the early stages of building their businesses. There can be no assurance that these companies or their businesses will be successful and, accordingly, that these customers will be able to fulfill their payment obligations under their contracts with SS/L. We believe that these provisions will not have a material adverse effect on our consolidated financial position or our results of operations, although no assurance can be provided. Moreover, SS/L's receipt of orbital payments is subject to the continued performance of its satellites generally over the contractually stipulated life of the satellites. Since these orbital receivables could be affected by future satellite performance, there can be no assurance that SS/L will be able to collect all or a portion of these receivables.

On July 30, 2007, SS/L entered into an Amended and Restated Customer Credit Agreement (the "Credit Agreement") with Sirius Satellite Radio Inc. ("Sirius"). The Credit Agreement amends and restates in its entirety the Customer Credit Agreement entered into by SS/L and Sirius on June 7, 2006 (the "Original Credit Agreement"). The purpose of the amendment and restatement is to make available to Sirius financing for the purchase of a second satellite under the Amended and Restated Satellite Purchase Agreement between Sirius and SS/L dated as of July 23, 2007 (the "Amended Satellite Purchase Agreement"). Under the Credit Agreement, SS/L has agreed to make loans to Sirius in an aggregate principal amount of up to \$100,000,000 to finance the purchase of the Sirius FM-5 and FM-6 Satellites (the "Sirius Satellites"). Loans made under the Credit Agreement are secured by Sirius' rights under the Amended Satellite Purchase Agreement, including its rights to the Sirius Satellites. The loans are also entitled to the benefits of a subsidiary guarantee from Satellite CD Radio, Inc., and, subject to certain exceptions, any future material subsidiary that may be formed by Sirius hereafter. The maturity date of the loans is the earliest to occur of (i) June 10, 2010, (ii) 90 days after the FM-6 Satellite becomes available for shipment and (iii) 30 days prior to the scheduled launch of the FM-6 Satellite. Loans made under the Credit Agreement generally bear interest at a variable rate equal to three-month LIBOR plus a margin. The Credit Agreement permits Sirius to prepay all or a portion of the loans outstanding without penalty, and, upon the occurrence of certain events, Sirius is required to prepay the loans. As of September 30, 2007, no loans were outstanding under the Credit Agreement and Sirius was eligible to borrow \$62 million under the Credit Agreement, representing reimbursement of payments previously made by Sirius under

the Amended Satellite Purchase Agreement.

Loral Skynet has in the past entered into prepaid leases, sales contracts and other arrangements relating to transponders on its satellites. Under the terms of these agreements, as of September 30, 2007, Loral Skynet continues to provide for a warranty for periods of two to eight years for sales contracts and other arrangements (seven transponders), and prepaid leases (one transponder). Depending on the contract, Loral Skynet may be required to replace transponders which do not meet operating specifications. Substantially all customers are entitled to a refund equal to the reimbursement value if there is no replacement, which is normally covered by insurance. In the case of the sales contracts, the reimbursement value is based on the original purchase price plus an interest factor

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

from the time the payment was received to acceptance of the transponder by the customer, reduced on a straight-line basis over the warranty period. In the case of prepaid leases, the reimbursement value is equal to the unamortized portion of the lease prepayment made by the customer. For other arrangements, in the event of transponder failure where replacement capacity is not available on the satellite, one customer is not entitled to reimbursement, and the other customer's reimbursement value is based on contractually prescribed amounts that decline over time.

Telesat Canada Transaction

On December 16, 2006, Acquireco entered into a definitive agreement (the "Share Purchase Agreement") with BCE Inc. and Telesat Canada to acquire 100% of the stock of Telesat Canada and certain safe income notes from BCE Inc. for CAD 3.25 billion. Acquireco is owned 100% by Telesat Holdings Inc. ("Holdco"), and we in turn hold equity interests in Holdco representing 64% of the economic interests and 33 1/3% of the voting interests. Our Canadian partner, PSP, holds 36% of the economic interests and 66 2/3% of the voting interests in Holdco (except with respect to the election of directors as to which it holds a 30% voting interest).

In connection with the transactions contemplated under the Share Purchase Agreement, on August 7, 2007, we and Loral Skynet entered into an asset transfer agreement (the "Asset Transfer Agreement") with Holdco, and an asset purchase agreement (the "Asset Purchase Agreement") with Skynet Satellite Corporation, a subsidiary of Telesat Canada. Pursuant to the Asset Transfer Agreement, we agreed, subject to certain exceptions, to transfer substantially all of Loral Skynet's assets and related liabilities to Telesat Canada in return for an equity interest in Holdco. In addition, pursuant to the Asset Purchase Agreement, we agreed to transfer certain of Loral Skynet's assets located in the U.S. and related liabilities to Skynet Satellite Corporation in exchange for \$25,472,000 in marketable securities. On August 7, 2007, we, Loral Skynet, PSP, Holdco and a subsidiary of Holdco also entered into an Ancillary Agreement providing, among other things, for the settlement of payments by and among us, PSP and Holdco in connection with the Telesat Canada acquisition, the transactions contemplated under the Asset Transfer Agreement, and related transactions.

Telesat Canada, the leading satellite services provider in Canada, earns its revenues principally through the provision of broadcast and business network services over its eight in-orbit satellites. As of October 31, 2007, following the transfer of the assets of Loral Skynet's fixed satellite services business pursuant to the Asset Transfer Agreement and Asset Purchase Agreement (see Note 16), New Telesat operates a fleet of twelve in-orbit satellites.

Loral Skynet has adopted a retention plan for its key employees to facilitate the transition. Payments to these employees will be made six months after the close of the Telesat Canada transaction. Costs relating to this plan will be borne by New Telesat. We have incurred \$14.2 million of transaction related costs as of September 30, 2007 (included in other current assets on our condensed consolidated balance sheet), which have been subsequently reimbursed to us by New Telesat.

Satellite Matters

Satellites are built with redundant components or additional components to provide excess performance margins to permit their continued operation in case of component failure, an event that is not uncommon in complex satellites. Twenty-two of the satellites built by SS/L and launched since 1997, three of which are owned and operated by Loral Skynet or our affiliates, have experienced losses of power from their solar arrays. There can be no assurance that one

or more of the affected satellites will not experience additional power loss. In the event of additional power loss, the extent of the performance degradation, if any, will depend on numerous factors, including the amount of the additional power loss, the level of redundancy built into the affected satellite's design, when in the life of the affected satellite the loss occurred, how many transponders are then in service and how they are being used. It is also possible that one or more transponders on a satellite may need to be removed from service to accommodate the power loss and to preserve full performance capabilities on the remaining transponders. During the third quarter of 2006, due to power loss caused by solar array failures, Loral Skynet removed from service through the end of life certain unutilized transponders on one of its satellites and will remove additional

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

transponders from service on this satellite in order to maintain sufficient power to operate the remaining transponders for its specified life. As of September 30, 2007, Loral Skynet does not believe the carrying value of this satellite has been impaired. Loral Skynet will, however, continue to evaluate the impact of the power loss caused by the solar array failures. A complete or partial loss of a satellite's capacity could result in a loss of orbital incentive payments to SS/L and, in the case of satellites owned by Loral Skynet and our affiliates, a loss of revenues and profits. With respect to satellites under construction and the construction of new satellites, based on its investigation of the matter, SS/L has identified and has implemented remediation measures that SS/L believes will prevent newly launched satellites from experiencing similar anomalies. SS/L does not expect that implementation of these measures will cause any significant delay in the launch of satellites under construction or the construction of new satellites. Based upon information currently available, including design redundancies to accommodate small power losses, and that no pattern has been identified as to the timing or specific location within the solar arrays of the failures, we believe that this matter will not have a material adverse effect on our consolidated financial position or our results of operations, although no assurance can be provided.

In November 2004, Intelsat Americas 7 (formerly Telstar 7) experienced an anomaly which caused it to completely cease operations for several days before it was partially recovered. Four other satellites manufactured by SS/L for other customers have designs similar to Intelsat Americas 7 and, therefore, could be susceptible to similar anomalies in the future. A partial or complete loss of these satellites could result in the incurrence of warranty payments by SS/L.

Certain of Loral Skynet's satellites are currently operating using back-up components because of the failure of primary components. If the back-up components fail and we are unable to restore redundancy, these satellites could lose capacity or be total losses, which would result in a loss of revenues and profits. For example, in July 2005, in the course of conducting our normal operations, we determined that the primary command receivers on two of Loral Skynet's satellites had failed. These satellites, which are equipped with redundant command receivers designed to provide full functional capability through the full design life of the satellite, continue to function normally and service to customers has not been affected. Moreover, SS/L has successfully completed implementation of software workarounds that restore the redundant command receiver functionality.

Two satellites owned by Loral Skynet have the same solar array configuration as one other 1300-class satellite manufactured by SS/L that has experienced an event with a large loss of solar power. SS/L believes that this failure is an isolated event and does not reflect a systemic problem in either the satellite design or manufacturing process. Accordingly, we do not believe that this anomaly will affect Loral Skynet's two satellites with the same solar array configuration. The insurance coverage for these satellites, however, provides for coverage of losses due to solar array failures only in the event of a capacity loss of 75% or more for one satellite and 80% or more for the other satellite.

Loral Skynet insures the on-orbit performance of substantially all of its satellite capacity. Typically such insurance is for a policy period of one year subject to renewal. It has been difficult, however, to obtain full insurance coverage for satellites that have, or are part of a product line of satellites that have, experienced problems in the past. Insurers have required either exclusions of certain components or have placed limitations on coverage in connection with insurance renewals for such satellites in the future. Loral Skynet cannot assure, upon the expiration of an insurance policy, that it will be able to renew the policy on terms acceptable to it or that it will not elect to self-insure and forego commercial insurance for the satellite. The loss of a satellite would have a material adverse effect on Loral Skynet's financial performance and may not be adequately mitigated by insurance. In October 2007, Loral Skynet renewed its on-orbit performance policy under substantially the same terms as the previously expired policy.

SSL relies, in part, on patents, trade secrets and know-how to develop and maintain its competitive position. There can be no assurance that infringement of existing third party patents has not occurred or will not occur. In the event of infringement, we could be required to pay royalties to obtain a license from the patent holder, refund money to customers for components that are not useable or redesign our products to avoid infringement, all of which would

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

increase our costs. We may also be required under the terms of our customer contracts to indemnify our customers for damages.

Regulatory Matters

To prevent frequency interference, the regulatory process requires potentially lengthy and costly negotiations with third parties who operate or intend to operate satellites at or near the locations of Loral Skynet's satellites. For example, as part of Loral Skynet's coordination efforts on Telstar 12, it agreed to provide four 54 MHz transponders on Telstar 12 to Eutelsat for the life of the satellite and has retained risk of loss with respect to those transponders. In the event of an unrestored failure, under Loral Skynet's related warranty obligation, Eutelsat would be entitled to compensation on contractually prescribed amounts that decline over time. Loral Skynet also granted Eutelsat the right to acquire, at cost, four transponders on the replacement satellite for Telstar 12. Loral Skynet continues to be in discussions with other operators on coordination issues. Loral Skynet may be required to make additional financial concessions in the future in connection with its coordination efforts. The failure to reach an appropriate arrangement with a third party having priority rights at or near one of its orbital slots may result in substantial restrictions on the use and operation of its satellite at that location.

Loral Skynet operates Telstar 10 and Telstar 18 pursuant to agreements with a third party that has licenses to use orbital slots controlled by China and Tonga, respectively. Although Loral Skynet's agreements with this third party provide Loral Skynet with renewal rights with respect to replacement satellites, because of the control of the orbital slots by foreign governments, there can be no assurance that renewal rights will be granted. Should Loral Skynet be unsuccessful in obtaining renewal rights for either or both of the orbital slots, or otherwise fail to enter into agreements with the third party with respect to such replacement satellites, all revenue obtained from the affected satellite or satellites would cease and Loral Skynet's Asian franchise would be seriously weakened.

SS/L is required to obtain licenses and enter into technical assistance agreements, presently under the jurisdiction of the State Department, in connection with the export of satellites and related equipment, and with the disclosure of technical data to foreign persons. Due to the relationship between launch technology and missile technology, the U.S. government has limited, and is likely in the future to limit, launches from China and other foreign countries. Delays in obtaining the necessary licenses and technical assistance agreements have in the past resulted in, and may in the future result in, the delay of SS/L's performance on its contracts, which could result in the cancellation of contracts by its customers, the incurrence of penalties or the loss of incentive payments under these contracts.

Legal Proceedings

Informal SEC Inquiry

In June and July 2007, we received letters from the Staff of the Division of Enforcement of the SEC informing the Company that it is conducting an informal inquiry and requesting that the Company provide certain documents and information relating primarily to the Securities Purchase Agreement, dated as of October 17, 2006, as amended and restated on February 27, 2007, between Loral and MHR Fund Management LLC and activities before and after its execution as well as documents and information relating to the redemption of the Loral Skynet Notes (see Note 10) and documents and information regarding the directors and officers of Loral. The letter advised that the informal inquiry should not be construed as an indication by the SEC or its staff that any violations of law have

occurred, or as an adverse reflection upon any person or security. The Company is cooperating with the SEC staff. In addition, the Company has received requests for indemnification and advancement of expenses from certain of its advisors with respect to costs they may incur as a result of compliance with SEC document requests.

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Skynet Noteholders Litigation

On November 21, 2005, Loral Skynet issued \$126 million principal amount of Loral Skynet Notes under the Indenture. The Loral Skynet Notes may be redeemed prior to October 15, 2009 (an Early Redemption) at a redemption price of 110% of the principal amount plus accrued and unpaid interest if two-thirds of the holders do not object to the redemption. On June 13, 2007, at the request of Loral Skynet, the trustee (the Trustee) under the Indenture issued a Notice of Provisional Redemption. The notice provided that, unless objections to the redemption from holders of more than two-thirds of the outstanding Loral Skynet Notes were received on or prior to July 12, 2007, the Loral Skynet Notes would be redeemed on September 5, 2007.

Also on June 13, 2007, GPC XLI L.L.C., Rockview Trading, Ltd., KS Capital Partners L.P., Murray Capital Management, Inc. Watershed Capital Institutional Partners L.P., Watershed Capital Partners (Offshore), Ltd. and Watershed Capital Partners L.P. (collectively, the Skynet Noteholder Plaintiffs) as holders of Loral Skynet Notes commenced an action in the Court of Chancery of the State of Delaware in and for the County of New Castle against Loral, Loral Skynet and the subsidiaries of Loral Skynet that are obligors under the Indenture (collectively,

Defendants) alleging that Defendants breached the Indenture and the implied covenant of good faith and fair dealing in the Indenture and the Loral Skynet Notes.

Specifically, the Skynet Noteholder Plaintiffs' complaint relates to the Securities Purchase Agreement, dated as of October 17, 2006, as amended and restated on February 27, 2007, between Loral and MHR, pursuant to which, in February 2007, funds affiliated with MHR purchased \$300 million of Loral Series-1 Preferred Stock from Loral as described in Note 11. In that agreement, among other things, MHR also agreed to cause its affiliated funds, which collectively hold more than one-third of the outstanding Loral Skynet Notes, not to object to a proposed Early Redemption of the Loral Skynet Notes in connection with a transaction such as the Telesat Canada transaction. The Skynet Noteholder Plaintiffs assert that Loral bought the consent of MHR and its affiliated funds to the Early Redemption covenant by paying to MHR in excess of \$8.25 million in placement and legal and advisory fees resulting in an unequal exit consent payment not offered to other holders and that this covenant violates an implied covenant of good faith and fair dealing that the Skynet Noteholder Plaintiffs believe the Indenture should be deemed to contain. The Skynet Noteholder Plaintiffs have proposed a number of theories of damages, including one in which they allege that the value of the Loral Skynet Notes if they are not redeemable prior to October 15, 2009 would be at least 126% of par value and that the difference between paying approximately 126% versus the proposed Early Redemption amount of 110% is an additional \$20.2 million. The portion of this amount that would be applicable to Loral Skynet Notes held by holders other than affiliates of MHR is approximately \$11 million, which the Skynet Noteholder Plaintiffs have described as a floor on their damage claim. The Skynet Noteholder Plaintiffs also claim to be entitled to a portion of the excess of the current value of the Loral Series-1 Preferred Stock over its cost, to the extent it constitutes a consent fee paid to MHR.

In their complaint, the Skynet Noteholder Plaintiffs seek (i) a declaratory judgment that Defendants violated the terms of the Indenture by paying MHR for its consent to redemption of the Loral Skynet Notes below the make-whole value and not paying equal consideration to all holders; (ii) a declaratory judgment that Defendants pay equal redemption consideration to all holders, in an amount to be determined at trial; (iii) to enjoin Defendants from consummating the Early Redemption unless equal consideration is paid to all holders for their non-objection to, and redemption of, the Loral Skynet Notes; (iv) to enjoin Defendants from counting the Loral Skynet Notes held by funds affiliated with MHR in its calculation of whether the holders constituting two-thirds of the outstanding principal amount object to the

redemption, absent equal consideration to all holders for such non-objection to, and redemption of, the Loral Skynet Notes; (v) an award of damages in an amount to be determined at trial; (vi) an award of pre-judgment interest, attorneys' fees and costs; and (vii) the grant such other relief as the court deems proper.

The Skynet Noteholder Plaintiffs also moved for a preliminary injunction and for expedited proceedings, including a hearing on their preliminary injunction motion in advance of any redemption of the Loral Skynet Notes or discharge of the Indenture. At a hearing on the Skynet Noteholder Plaintiffs' motion to expedite proceedings held on July 16, 2007, Loral agreed to place \$12 million, which is included in restricted cash in the current assets section

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

of our condensed consolidated balance sheet (representing the \$11 million incremental amount claimed by the Skynet Noteholder Plaintiffs in their complaint above the 110% Early Redemption amount plus an allowance for reasonable expenses) in escrow prior to the date the Indenture is discharged for the benefit of holders of Loral Skynet Notes other than funds affiliated with MHR, and the court declined to schedule a hearing on the Skynet Noteholder Plaintiffs motion for a preliminary injunction prior to the redemption date or any earlier discharge of the Indenture. At the hearing, the court also granted the motion for expedited proceedings and indicated that it would schedule a trial on the merits in coordination with the trial of a matter related to the Loral Series-1 Preferred Stock pending before the court and currently scheduled for trial in March 2008.

On July 12, 2007, the Trustee reported that objections to the proposed redemption had been received from holders of Loral Skynet Notes representing less than two-thirds of the outstanding Loral Skynet Notes, and, on July 16, 2007, at the request of Loral Skynet, the Trustee issued an unconditional Notice of Full Redemption. Consequently, the Loral Skynet Notes were redeemed on September 5, 2007, and the Indenture was discharged.

Although Loral believes that the September 5, 2007 Early Redemption is proper in accordance with the terms of the Indenture and intends to vigorously defend against the Skynet Noteholder Plaintiffs' claims, the outcome of this litigation can not be determined at this time, and, as such, no liability, if any, is estimable or probable.

Rainbow DBS Litigation

In March 2001, Loral entered into an agreement (the "Rainbow DBS Sale Agreement") with Rainbow DBS Holdings, Inc. ("Rainbow Holdings") pursuant to which Loral agreed to sell to Rainbow Holdings its interest in Rainbow DBS Company, LLC (formerly R/L DBS Company, LLC, "Rainbow DBS") for a purchase price of \$33 million plus interest at an annual rate of 8% from April 1, 2001. Loral's receipt of this purchase price was, however, contingent on the occurrence of certain events, including without limitation, the sale of substantially all of the assets of Rainbow DBS. At the time of the Rainbow DBS Sale Agreement, Loral's investment in Rainbow DBS had been recorded at zero and Loral did not record a receivable or gain from this sale. In November 2005, Rainbow DBS sold its Rainbow 1 satellite and related assets to EchoStar Communications Corporation. Rainbow Holdings, however, informed Loral that it did not believe that Loral was entitled to receive an immediate payment of the purchase price under the Rainbow DBS Sale Agreement as a result of the EchoStar sale transaction. Loral disputed Rainbow Holdings' interpretation of the agreement and, in September 2005, commenced a lawsuit in the Supreme Court of the State of New York to enforce its rights thereunder. After a jury trial held in January 2007, the jury returned a verdict in favor of Loral, and a final judgment in the amount of \$52 million (representing the \$33 million purchase price plus interest at 8% from April 1, 2001 through the date of the judgment) was entered by the court on March 12, 2007. Rainbow DBS filed a motion to set aside the verdict or, in the alternative, a new trial, which motion was denied by the court by order dated March 30, 2007. Rainbow DBS has appealed the final judgment and the court's order denying Rainbow DBS's motion to set aside the verdict or for a new trial and, in connection with this appeal, has posted a bond in the full amount of the judgment. A third party has asserted a prepetition claim against the Company in the amount of \$3 million with respect to the purchase price.

New York Shareholder Litigation

On or about November 3, 2006, plaintiff Maxine Babus, derivatively on behalf of Loral Space & Communications Inc., filed a shareholder derivative complaint in the Supreme Court of the State of New York, County of New York,

against all the members of the Loral board of directors and against Loral as a nominal defendant. On or about April 4, 2007, as contemplated by the Memorandum of Understanding described below, the plaintiff filed an amended shareholder class and derivative complaint against all members of the Loral board of directors, MHR and certain funds (the "MHR Funds") and other entities affiliated with MHR (collectively, MHR, the MHR Funds and such other entities, the "MHR Entities") and Loral as a nominal defendant. The amended complaint alleges, among other things, that, in connection with the Company's Securities Purchase Agreement dated October 17, 2006, as amended and restated on February 27, 2007, pursuant to which the Company sold to the MHR Funds \$300 million in

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

new convertible preferred stock, the directors and the MHR Entities breached their fiduciary duties to the Company, including the fiduciary duties of care and loyalty, and that the MHR Entities and Dr. Mark H. Rachesky have aided and abetted the directors' breach of fiduciary duty. The amended complaint seeks, among other things, both as to the derivative claims and the class action claims, preliminary and permanent injunctive relief, an award of compensatory damages in an amount to be determined, rescission of the Securities Purchase Agreement and plaintiff's costs and disbursements, including attorneys' and experts' fees and expenses.

On March 21, 2007, a Memorandum of Understanding (the "MOU") was entered into providing for the settlement of the *Babus* lawsuit. Pursuant to the terms of the MOU, the MHR Funds will pay to Loral \$4 million in cash after entry of a court order approving the terms of the MOU that is finally approved on appeal or no longer subject to appeal. In addition, the MHR Funds may be obligated to pay to Loral between \$9.5 million and \$26.5 million depending on the amount of net cash or cash equivalent proceeds actually received from the sale by the MHR Funds of (i) the preferred stock, (ii) shares issued in respect of and pursuant to the terms of the preferred stock or (iii) securities issued or delivered in exchange for the preferred stock or the shares referred to in clause (ii) above. The terms of the MOU are more fully described in the Company's Report on Form 8-K filed on March 21, 2007, and the full text of the MOU is attached as Exhibit 10.1 to such Report on Form 8-K.

In the MOU, the parties to the *Babus* lawsuit agreed to use their best efforts to agree upon and execute a stipulation of settlement and such other documentation as may be required to obtain court approval of the settlement and dismissal of the lawsuit (the "Settlement Documents"). The consummation of the settlement is subject to: (a) the drafting and execution of the Settlement Documents; (b) the completion by the plaintiff of confirmatory discovery in the lawsuit reasonably satisfactory to plaintiff's counsel; and (c) a court order approving the settlement in accordance with the terms of the Settlement Documents and that such order is finally affirmed on appeal or is no longer subject to appeal and dismissal of the lawsuit in its entirety with prejudice and without awarding costs to any party (except for attorneys' fees, costs and expenses to be awarded to plaintiff's counsel subject to approval by the court as provided in the MOU). To date, the parties have not engaged in negotiating the Settlement Documents, plaintiff's counsel has not engaged in confirmatory discovery, and court approval of the settlement has not been sought, and, after discussions between the parties regarding whether to proceed with the MOU, the plaintiff has agreed to an indefinite stay of the *Babus* lawsuit.

On April 27, 2007, the plaintiffs in the Delaware shareholder litigation (discussed below) served a motion to intervene in the *Babus* lawsuit. In their intervention motion, the Delaware plaintiffs claimed that an automatic stay of the *Babus* lawsuit went into effect on November 12, 2006, by virtue of the death on that day of the New York plaintiff, Maxine Babus. Among other things, the prospective intervenors claimed that all developments in the *Babus* lawsuit subsequent to November 12, 2006, including the execution of the MOU, the filing of the amended complaint and the pursuit of confirmatory discovery, are null and void.

At a hearing in June 2007, the plaintiffs in the Delaware shareholder litigation withdrew their motion to intervene in the *Babus* lawsuit, and counsel for Maxine Babus produced a stipulation substituting Mrs. Babus' son as plaintiff in place of his deceased mother. The court ruled that it would so order the substitution contingent upon Mr. Babus filing ancillary proceedings in New York, which filing was made in August 2007.

In addition, the Company has received requests for indemnification and advancement of expenses from its directors pursuant to their indemnification agreements with the Company for any losses or costs they may incur as a result of the *Babus* lawsuit.

Delaware Shareholder Litigation

On or about May 14, 2007, the Court of Chancery of the State of Delaware in and for New Castle County entered an order consolidating two civil actions previously commenced by certain stockholders of the Company against the Company, the MHR Entities and the individual members of the Company's board of directors under the

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

caption *In re: Loral Space and Communications Inc. Consolidated Litigation*. Plaintiffs in this action are certain stockholders of the Company who allege that they hold over 18% of the outstanding common stock of the Company (the Blackrock Plaintiffs) and Highland Crusader Offshore Partners, L.P. (Highland, and, together with the Blackrock Plaintiffs, the Delaware Plaintiffs), the purported owner of approximately 5% of Loral's outstanding common stock. The Blackrock Plaintiffs have brought the case derivatively on behalf of the Company and directly on behalf of the Blackrock Plaintiffs individually. The case has also been brought by Highland as a class action on behalf of a class of Loral stockholders consisting of all security holders of the Company (except the defendants and persons or entities related to or affiliated with the defendants) who, as alleged in the amended and consolidated complaint, are or will be threatened with injury arising from Defendants' actions as described in the amended and consolidated complaint.

In the amended and consolidated complaint, the Blackrock Plaintiffs have brought derivative claims alleging, among other things, that, in connection with the Securities Purchase Agreement, the directors and the MHR Entities breached their fiduciary duties to the Company, including the fiduciary duties of care and loyalty, the MHR Entities have aided and abetted the directors' breach of fiduciary duty, and the directors have engaged in conduct, or intentionally or recklessly approved conduct, that has caused the Company to waste valuable corporate assets. In addition, the Blackrock Plaintiffs have brought a direct claim against the MHR Entities and Dr. Rachesky alleging breach of their fiduciary duties to the Blackrock Plaintiffs, and a claim alleging that, by approving, engaging in and closing the transactions contemplated by the Securities Purchase Agreement, defendants violated the restriction on transactions between companies and their interested stockholders contained in Section 203 of the Delaware General Corporation Law. The Blackrock Plaintiffs are seeking, among other things, rescission of the Securities Purchase Agreement, a judgment declaring that the Securities Purchase Agreement, and the process by which it was negotiated, approved and completed, violated Delaware law and constituted a breach of defendants' fiduciary duties and awarding plaintiffs their expenses and costs, including reasonable legal fees.

In the amended and consolidated complaint, Highland has brought class claims alleging, among other things, that, in connection with the Securities Purchase Agreement pursuant to which the Company sold \$300 million of preferred stock to the MHR Funds, MHR and the individual defendants breached their fiduciary duties in negotiating and approving the Securities Purchase Agreement, MHR and the individual defendants breached their fiduciary duties by failing to terminate and re-negotiate the Securities Purchase Agreement after it was announced, the individual defendants committed an ultra vires abdication of their statutory authority, MHR and the individual defendants breached their fiduciary duty of disclosure by stating publicly that they would seek to renegotiate the Securities Purchase Agreement after it was announced or to obtain an alternative and instead proceeding with the Securities Purchase Agreement, and MHR aided and abetted the individual defendants in their breach of fiduciary duty. Highland is seeking, among other things, rescission of the preferred stock transaction, imposition of a constructive trust on any profits MHR earned through the transaction, to compel MHR to distribute a portion of the preferred stock or resulting shares into which the preferred stock converts to the class, to invalidate a portion of the preferred stock or resulting shares into which the preferred stock converts, imposition of a permanent injunction on MHR's right to convert the preferred stock or to exercise the voting power conferred by the preferred stock or the shares into which it converts, an award of damages to the class in an amount to be determined at trial, an award of pre-judgment and post-judgment interest and an award of costs and disbursements, including reasonable attorneys' fees and experts' fees.

Discovery in the consolidated action has commenced, and a trial has been set for March 2008.

In addition, the Company has received requests for indemnification and advancement of expenses from certain of its directors under their indemnification agreements with the Company for any losses or costs they may incur as a result of the *In re: Loral Space and Communications Inc. Consolidated Litigation* lawsuit.

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Indemnification Claims of Directors and Officers of Old Loral

Old Loral was obligated to indemnify its directors and officers for any losses or costs they may incur as a result of the lawsuits described below in Class Action Securities Litigations, Class Action ERISA Litigation and Globalstar Related Class Action Securities Litigations. The Plan of Reorganization provides that the direct liability of New Loral post-emergence in respect of such indemnity obligation is limited to the *In re: Loral Space ERISA Litigation* and *In re: Loral Space & Communications Ltd. Securities Litigation* cases and then only in an aggregate amount of \$2.5 million (the Direct Indemnity Liability). In addition, most directors and officers have filed proofs of claim (the D&O Claims) in unliquidated amounts with respect to the prepetition indemnity obligations of the Debtors. The Debtors and these directors and officers, including Mr. Bernard L. Schwartz, Loral's Chairman of the Board and Chief Executive Officer until his retirement effective March 1, 2006, with respect to all claims he may have other than the Globalstar settlement for which he has a separate indemnity claim of up to \$25 million as described below, have agreed that in no event will their indemnity claims against Old Loral and Loral Orion in the aggregate exceed \$25 million and \$5 million, respectively. If any of these claims ultimately becomes an allowed claim under the Plan of Reorganization, the claimant would be entitled to a distribution under the Plan of Reorganization of New Loral common stock based upon the amount of the allowed claim. Any such distribution of stock would be in addition to the 20 million shares of New Loral common stock distributed under the Plan of Reorganization to other creditors. Instead of issuing such additional shares, New Loral may elect to satisfy any allowed claim in cash in an amount equal to the number of shares to which plaintiffs would have been entitled multiplied by \$27.75 or in a combination of additional shares and cash. We believe, although no assurance can be given, that New Loral will not incur any substantial losses as a result of these claims.

Class Action Securities Litigations

In August 2003, plaintiffs Robert Beleson and Harvey Matcovsky filed a purported class action complaint against Bernard L. Schwartz in the United States District Court for the Southern District of New York. The complaint seeks, among other things, damages in an unspecified amount and reimbursement of plaintiffs' reasonable costs and expenses. The complaint alleges (a) that Mr. Schwartz violated Section 10(b) of the Securities Exchange Act of 1934 (the Exchange Act) and Rule 10b-5 promulgated thereunder, by making material misstatements or failing to state material facts about our financial condition relating to the sale of assets to Intelsat and our Chapter 11 filing and (b) that Mr. Schwartz is secondarily liable for these alleged misstatements and omissions under Section 20(a) of the Exchange Act as an alleged controlling person of Old Loral. The class of plaintiffs on whose behalf the lawsuit has been asserted consists of all buyers of Old Loral common stock during the period from June 30, 2003 through July 15, 2003, excluding the defendant and certain persons related to or affiliated with him. In November 2003, three other complaints against Mr. Schwartz with substantially similar allegations were consolidated into the *Beleson* case. In February 2004, a motion to dismiss the complaint in its entirety was denied by the court. The defendant filed an answer in March 2004. In January 2006, the case was stayed, and after a status conference in March 2007, the stay was lifted and discovery is proceeding. Since this case was not brought against Old Loral, but only against one of its officers, we believe, although no assurance can be given, that, to the extent that any award is ultimately granted to the plaintiffs in this action, the liability of New Loral, if any, with respect thereto is limited solely to the D&O Claims as described above under Indemnification Claims.

In November 2003, plaintiffs Tony Christ, individually and as custodian for Brian and Katelyn Christ, Casey Crawford, Thomas Orndorff and Marvin Rich, filed a purported class action complaint against Bernard L. Schwartz

and Richard J. Townsend in the United States District Court for the Southern District of New York. The complaint seeks, among other things, damages in an unspecified amount and reimbursement of plaintiffs' reasonable costs and expenses. The complaint alleges (a) that defendants violated Section 10(b) of the Exchange Act and Rule 10b-5 promulgated thereunder, by making material misstatements or failing to state material facts about Old Loral's financial condition relating to the restatement in 2003 of the financial statements for the second and third quarters of 2002 to correct accounting for certain general and administrative expenses and the alleged improper accounting for a satellite transaction with APT Satellite Company Ltd. and (b) that each of the defendants is secondarily liable for these alleged misstatements

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

and omissions under Section 20(a) of the Exchange Act as an alleged controlling person of Old Loral. The class of plaintiffs on whose behalf the lawsuit has been asserted consists of all buyers of Old Loral common stock during the period from July 31, 2002 through June 29, 2003, excluding the defendants and certain persons related to or affiliated with them. In October 2004, a motion to dismiss the complaint in its entirety was denied by the court. The defendants filed an answer to the complaint in December 2004. In January 2006, the case was stayed, and after a status conference in March 2007, the stay was lifted and discovery is proceeding. Since this case was not brought against Old Loral, but only against certain of its officers, we believe, although no assurance can be given, that to the extent that any award is ultimately granted to the plaintiffs in this action, the liability of New Loral, if any, with respect thereto is limited solely to the D&O Claims as described above under Indemnification Claims.

Class Action ERISA Litigation

In April 2004, two separate purported class action lawsuits filed in the United States District Court for the Southern District of New York by former employees of Old Loral and participants in the Old Loral Savings Plan (the Savings Plan) were consolidated into one action titled *In re: Loral Space ERISA Litigation*. In July 2004, plaintiffs in the consolidated action filed an amended consolidated complaint against the members of the Loral Space & Communications Ltd. Savings Plan Administrative Committee and certain existing and former members of the Board of Directors of SS/L, including Bernard L. Schwartz. The amended complaint seeks, among other things, damages in the amount of any losses suffered by the Savings Plan to be allocated among the participants' individual accounts in proportion to the accounts' losses, an order compelling defendants to make good to the Savings Plan all losses to the Savings Plan resulting from defendants' alleged breaches of their fiduciary duties and reimbursement of costs and attorneys' fees. The amended complaint alleges (a) that defendants violated Section 404 of the Employee Retirement Income Security Act (ERISA), by breaching their fiduciary duties to prudently and loyally manage the assets of the Savings Plan by including Old Loral common stock as an investment alternative and by providing matching contributions under the Savings Plan in Old Loral stock, (b) that the director defendants violated Section 404 of ERISA by breaching their fiduciary duties to monitor the committee defendants and to provide them with accurate information, (c) that defendants violated Sections 404 and 405 of ERISA by failing to provide complete and accurate information to Savings Plan participants and beneficiaries, and (d) that defendants violated Sections 404 and 405 of ERISA by breaching their fiduciary duties to avoid conflicts of interest. The class of plaintiffs on whose behalf the lawsuit has been asserted consists of all participants in or beneficiaries of the Savings Plan at any time between November 4, 1999 and the present and whose accounts included investments in Old Loral stock. In September 2005, the plaintiffs agreed in principle to settle this case for \$7.5 million payable solely from proceeds of insurance coverage and without recourse to the individual defendants. The District Court has suspended further proceedings in this case pending the outcome of the insurance litigation referred to below and final approval of the settlement. Plaintiffs have also filed a proof of claim against Old Loral with respect to this case and have agreed that in no event will their claim against Old Loral with respect to this case exceed \$22 million. If the settlement of this case does not, for whatever reason, go forward and plaintiffs' claim ultimately becomes an allowed claim under the Plan of Reorganization, plaintiffs would be entitled to a distribution under the Plan of Reorganization of New Loral common stock based upon the amount of the allowed claim. Any such distribution of stock would be in addition to the 20 million shares of New Loral common stock being distributed under the Plan of Reorganization to other creditors. Instead of issuing such additional shares, New Loral may elect to satisfy any allowed claim in cash in an amount equal to the number of shares to which plaintiffs would have been entitled multiplied by \$27.75 or in a combination of additional shares and cash.

In addition, two insurers under Old Loral's directors and officers liability insurance policies have denied coverage with respect to the case titled In re: Loral Space ERISA Litigation, each claiming that coverage should be provided under the other's policy. In December 2004, one of the defendants in that case filed a lawsuit in the United States District Court for the Southern District of New York seeking a declaratory judgment as to his right to receive coverage under the policies. In March 2005, the insurers filed answers to the complaint and one of the insurers filed a cross claim against the other insurer which such insurer answered in April 2005. In August and October 2005, each of the two potentially

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

responsible insurers moved separately for judgment on the pleadings, seeking a court ruling absolving it of liability to provide coverage of the ERISA action. In March 2006, the court granted the motion of one of the insurers and denied the motion of the other insurer. Discovery with regard to defenses to coverage asserted by the potentially responsible insurer has ended, and the defendant insurer has moved for summary judgment. This motion was denied by the court in September 2007, and it is likely that the case will now proceed to trial. We believe, although no assurance can be given, that the liability of New Loral, if any, with respect to the *In re: Loral Space ERISA Litigation* case or with respect to the related insurance coverage litigation is limited solely to the Direct Indemnity Liability and the D&O Claims as described above under Indemnification Claims and, to the extent that any award is ultimately granted to the plaintiffs in this action, to distributions under the Plan of Reorganization as described above.

Globalstar Related Class Action Securities Litigations

On September 26, 2001, the nineteen separate purported class action lawsuits filed in the United States District Court for the Southern District of New York by various holders of securities of Globalstar Telecommunications Limited (GTL) and Globalstar, L.P. (Globalstar) against GTL, Old Loral, Bernard L. Schwartz and other defendants were consolidated into one action titled In re: Globalstar Securities Litigation. In November 2001, plaintiffs in the consolidated action filed a consolidated amended class action complaint against Globalstar, GTL, Globalstar Capital Corporation, Old Loral and Bernard L. Schwartz seeking, among other things, damages in an unspecified amount and reimbursement of plaintiffs costs and expenses. The complaints alleged (a) that all defendants (except Old Loral) violated Section 10(b) of the Exchange Act and Rule 10b-5 promulgated thereunder, by making material misstatements or failing to state material facts about Globalstar s business and prospects, (b) that defendants Old Loral and Mr. Schwartz are secondarily liable for these alleged misstatements and omissions under Section 20(a) of the Exchange Act as alleged controlling persons of Globalstar, (c) that defendants GTL and Mr. Schwartz are liable under Section 11 of the Securities Act of 1933 (the Securities Act) for untrue statements of material facts in or omissions of material facts from a registration statement relating to the sale of shares of GTL common stock in January 2000, (d) that defendant GTL is liable under Section 12(2)(a) of the Securities Act for untrue statements of material facts in or omissions of material facts from a prospectus and prospectus supplement relating to the sale of shares of GTL common stock in January 2000, and (e) that defendants Old Loral and Mr. Schwartz are secondarily liable under Section 15 of the Securities Act for GTL s primary violations of Sections 11 and 12(2)(a) of the Securities Act as alleged controlling persons of GTL. The class of plaintiffs on whose behalf the lawsuit has been asserted consists of all buyers of securities of Globalstar, Globalstar Capital and GTL during the period from December 6, 1999 through October 27, 2000, excluding the defendants and certain persons related to or affiliated with them. This case was preliminarily settled by Mr. Schwartz in July 2005 for \$20 million with final approval of the settlement in December 2005. In September 2006, two objectors to the settlement who had filed appeals concerning the attorneys fees awarded to the plaintiffs withdrew their appeals with prejudice. Mr. Schwartz has commenced a lawsuit against Globalstar s directors and officers liability insurers seeking to recover the full settlement amount plus legal fees and expenses incurred in enforcing his rights under Globalstar s directors and officers liability insurance policy. In January 2007, two of the four insurers settled with Mr. Schwartz and paid him the remaining limits under their policies and, after a jury trial, the jury returned a verdict against the other two insurers in favor of Mr. Schwartz awarding him the remaining \$9.1 million balance of his claim. The insurers motion to set aside the verdict or, in the alternative, for a new trial, was denied, and they have appealed the verdict. In addition, Mr. Schwartz has filed a proof of claim against Old Loral asserting a general unsecured prepetition claim for, among other things, indemnification relating to this case. Mr. Schwartz and Old Loral have agreed that in no event will his claim against Old Loral with respect to the settlement of this case exceed \$25 million. If Mr. Schwartz s claim ultimately becomes an allowed claim under the

Plan of Reorganization and assuming he is not reimbursed by Globalstar's insurers, Mr. Schwartz would be entitled to a distribution under the Plan of Reorganization of New Loral common stock based upon the amount of the allowed claim. Any such distribution of stock would be in addition to the 20 million shares of New Loral common stock distributed under the Plan of Reorganization to other creditors. Instead of issuing such additional shares, New Loral may elect to satisfy any allowed claim in cash in an amount equal to the number of shares to which plaintiffs would have been entitled

LORAL SPACE & COMMUNICATIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

multiplied by \$27.75 or in a combination of additional shares and cash. We believe, although no assurance can be given, that New Loral will not incur any material loss as a result of this settlement.

On March 2, 2002, the seven separate purported class action lawsuits filed in the United States District Court for the Southern District of New York by various holders of Old Loral common stock against Old Loral, Bernard L. Schwartz and Richard J. Townsend were consolidated into one action titled *In re: Loral Space & Communications Ltd. Securities Litigation*. On May 6, 2002, plaintiffs in the consolidated action filed a consolidated amended class action complaint seeking, among other things, damages in an unspecified amount and reimbursement of plaintiffs' costs and expenses. The complaint alleged (a) that all defendants violated Section 10(b) of the Exchange Act and Rule 10b-5 promulgated thereunder, by making material misstatements or failing to state material facts about Old Loral's financial condition and its investment in Globalstar and (b) that Mr. Schwartz is secondarily liable for these alleged misstatements and omissions under Section 20(a) of the Exchange Act as an alleged controlling person of Old Loral. The class of plaintiffs on whose behalf the lawsuit has been asserted consists of all buyers of Old Loral common stock during the period from November 4, 1999 through February 1, 2001, excluding the defendants and certain persons related to or affiliated with them. After oral argument on a motion to dismiss filed by Old Loral and Messrs. Schwartz and Townsend, in June 2003, the plaintiffs filed an amended complaint alleging essentially the same claims as in the original amended complaint. In February 2004, a motion to dismiss the amended complaint was granted by the court insofar as Messrs. Schwartz and Townsend are concerned. Pursuant to the Plan of Reorganization, plaintiffs received no distribution with respect to their claims in this lawsuit.

In addition, the primary insurer under the directors and officers liability insurance policy of Old Loral has denied coverage under the policy for the *In re: Loral Space & Communications Ltd. Securities Litigation* case and, on March 24, 2003, filed a lawsuit in the Supreme Court of New York County seeking a declaratory judgment upholding its coverage position. In May 2003, Old Loral and the other defendants served an answer and filed counterclaims seeking a declaration that the insurer is obligated to provide coverage and damages for breach of contract and the implied covenant of good faith. In May 2003, Old Loral and the other defendants also filed a third party complaint against the excess insurers seeking a declaration that they are obligated to provide coverage. In April 2006, the primary insurer suggested that it may wish to reactivate this litigation. We believe that the insurers have wrongfully denied coverage and, although no assurance can be given, that the liability of New Loral, if any, with respect to the *In re: Loral Space & Communications Ltd. Securities Litigation* case or with respect to the related insurance coverage litigation is limited solely to the Direct Indemnity Liability and the D&O Claims as described above under Indemnification Claims.

Reorganization Matters

In connection with our Plan of Reorganization, certain claims have been filed against Old Loral and its Debtor Subsidiaries, the validity or amount of which we dispute. We are in the process of resolving these disputed claims, which may involve litigation in the Bankruptcy Court. To the extent any disputed claims become allowed claims, the claimants would be entitled to distributions under the Plan of Reorganization based upon the amount of the allowed claim, payable either in cash for claims against SS/L or Loral SpaceCom or in New Loral common stock for all other claims. We have accrued only the amount we believe is valid for disputed claims payable in cash, although there can be no assurance that this amount will be sufficient to cover all such claims that ultimately become allowed claims. The remaining claims from the Plan of Reorganization payable in cash and the expenses associated with completing the reorganization activity aggregate approximately \$110,000 at September 30, 2007. As of September 30, 2007, we

reserved approximately 107,000 of the 20 million shares of New Loral common stock distributable under the Plan of Reorganization for disputed claims that may ultimately be payable in common stock. To the extent that disputed claims do not become allowed claims, shares held in reserve on account of such claims will be distributed pursuant to the Plan of Reorganization pro rata to claimants with allowed claims.

Confirmation of our Plan of Reorganization was opposed by the Official Committee of Equity Security Holders (the Equity Committee) appointed in the Chapter 11 Cases and by the self-styled Loral Stockholders Protective Committee (LSPC). Shortly before the hearing to consider confirmation of the Plan of Reorganization,

LORAL SPACE & COMMUNICATIONS INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

the Equity Committee also filed a motion seeking authority to prosecute an action on behalf of the estates of Old Loral and its Debtor Subsidiaries seeking to unwind as fraudulent, a guarantee provided by Old Loral in 2001, of certain indebtedness of Loral Orion, Inc. (the Motion to Prosecute). By separate Orders dated August 1, 2005, the Bankruptcy Court confirmed the Plan of Reorganization (the Confirmation Order) and denied the Motion to Prosecute (the Denial Order). On or about August 10, 2005, the LSPC appealed (the Confirmation Appeal) to the United States District Court for the Southern District of New York (the District Court) the Confirmation Order and the Denial Order. On February 3, 2006, we filed with the District Court a motion to dismiss the Confirmation Appeal. On May 26, 2006, the District Court granted our motion to dismiss the Confirmation Appeal. The LSPC subsequently filed a motion for reconsideration of such dismissal, which the District Court denied on June 14, 2006 (the Reconsideration Order). On or about July 12, 2006, a person purportedly affiliated with the LSPC appealed the dismissal of the Confirmation Appeal and the Reconsideration Order to the United States Court of Appeals for the Second Circuit. (the Second Circuit Confirmation Appeal). The Second Circuit Confirmation Appeal is currently fully briefed and is scheduled for a hearing at the end of November 2007.

In November 2005, a shareholder of Old Loral on behalf of the LSPC filed with the FCC a petition for reconsideration of the FCC's approval of the transfer of our FCC licenses from Old Loral to New Loral in connection with the implementation of our Plan of Reorganization and a request for investigation by the FCC into the financial matters and actions of the Company (the FCC Appeal). In December 2005, we filed with the FCC our opposition to the FCC Appeal.

Other and Routine Litigation

We are subject to various other legal proceedings and claims, either asserted or unasserted, that arise in the ordinary course of business. Although the outcome of these legal proceedings and claims cannot be predicted with certainty, we do not believe that any of these other existing legal matters will have a material adverse effect on our consolidated financial position or our results of operations.

13. Income (Loss) Per Share

A reconciliation of basic and diluted income (loss) per share is presented below (in thousands, except per share data):

	Three Months		Nine Months	
	Ended September 30,		Ended September 30,	
	2007	2006	2007	2006
Basic:				
Net income (loss) applicable to common shareholders	\$ 19,988	\$ 1,186	\$ (9,344)	\$ (26,050)
Weighted average common shares outstanding	20,103	20,000	20,071	20,000
Basic income (loss) per share	\$ 0.99	\$ 0.06	\$ (0.47)	\$ (1.30)

LORAL SPACE & COMMUNICATIONS INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

	Three Months		Nine Months	
	Ended September 30,		Ended September 30,	
	2007	2006	2007	2006
Diluted:				
Net income (loss) applicable to common shareholders	\$ 19,988	\$ 1,186	\$ (9,344)	\$ (26,050)
Plus:				
Dividends on Loral Series A-1 Preferred Stock	800			
Beneficial conversion feature related to dividends on Loral Series A-1 Preferred Stock	171			
Net income (loss) for diluted	\$ 20,959	\$ 1,186	\$ (9,344)	\$ (26,050)
Common and potential common shares:				
Weighted average common shares outstanding	20,103	20,000	20,071	20,000
Assumed exercise of stock options	361			
Assumed conversion of Loral Series A-1 Preferred Stock	1,417			
Common and potential common shares	21,881	20,000	20,071	20,000
Diluted income (loss) per share	\$ 0.96	\$ 0.06	\$ (0.47)	\$ (1.30)

The assumed exercise of stock options and unvested restricted stock awards are not included in the calculation of diluted income (loss) per share for the three months ended September 30, 2006 and the nine months ended September 30, 2007 and 2006, because their effect would have been antidilutive. Additionally, the Loral Series-1 Preferred Stock, issued February 27, 2007, was not included in the calculation of diluted income (loss) per share for the nine months ended September 30, 2007, because their effect would have been antidilutive. As of September 30, 2007, there were 2,187,452 stock options outstanding, 154,043 shares of unvested restricted stock and the Loral Series A-1 Preferred Stock was convertible into 1,418,140 shares of common stock (the exercise price of all options outstanding are below the market price as of September 30, 2007). As of September 30, 2007, the 881,353 outstanding shares of Loral Series B-1 Preferred Stock are not convertible into common stock.

14. Segments

Up to the closing of the Telesat Canada transaction, we were organized into two operating segments: Satellite Manufacturing and Satellite Services (see Note 1). We use Adjusted EBITDA to evaluate operating performance of our segments, to allocate resources and capital to such segments, to measure performance for incentive compensation programs, and to evaluate future growth opportunities.

The common definition of EBITDA is Earnings Before Interest, Taxes, Depreciation and Amortization. In evaluating financial performance, we use revenues and operating income (loss) before depreciation and amortization (including

stock based compensation), and reorganization expenses due to bankruptcy (Adjusted EBITDA) as the measure of a segment's profit or loss. Adjusted EBITDA is equivalent to the common definition of EBITDA before: reorganization expenses due to bankruptcy; gain on discharge of pre-petition obligations and fresh-start adjustments; gain (loss) on investments; unrealized gain of foreign exchange contracts; other income (expense); loss on extinguishment of debt; equity in net income (losses) of affiliates; and minority interest, net of tax.

Adjusted EBITDA allows us and investors to compare our operating results with that of competitors exclusive of depreciation and amortization, interest and investment income, interest expense, reorganization expenses due to bankruptcy, other income (expense), net losses of affiliates and minority interest. Financial results of competitors in our industry have significant variations that can result from timing of capital expenditures, the amount of intangible

LORAL SPACE & COMMUNICATIONS INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

assets recorded, the differences in assets lives, the timing and amount of investments, the effects of other income (expense), which are typically for non-recurring transactions not related to the on-going business, and effects of investments not directly managed. The use of Adjusted EBITDA allows us and investors to compare operating results exclusive of these items. Competitors in our industry have significantly different capital structures. The use of Adjusted EBITDA maintains comparability of performance by excluding interest expense.

We believe the use of Adjusted EBITDA along with U.S. GAAP financial measures enhances the understanding of our operating results and is useful to us and investors in comparing performance with competitors, estimating enterprise value and making investment decisions. Adjusted EBITDA as used here may not be comparable to similarly titled measures reported by competitors. Adjusted EBITDA should be used in conjunction with U.S. GAAP financial measures and is not presented as an alternative to cash flow from operations as a measure of our liquidity or as an alternative to net income as an indicator of our operating performance.

Intersegment revenues primarily consists of satellites under construction by Satellite Manufacturing for Satellite Services and the leasing of transponder capacity by Satellite Manufacturing from Satellite Services. Summarized financial information concerning the reportable segments is as follows (in millions):

Three Months Ended September 30, 2007

(1) Represents corporate expenses incurred in support of our operations and continuing expenses related to the remaining bankruptcy matters.

(2) Includes revenues from affiliates of nil and \$3.1 million for the three months ended September 30, 2007 and 2006, respectively, and \$0.4 million and \$11.5 million for the nine months ended September 30, 2007 and 2006, respectively.

- (3) Represents the elimination of intercompany sales and intercompany Adjusted EBITDA, primarily for satellites under construction by SS/L for Satellite Services.
- (4) Includes non-cash stock based compensation of \$1.9 million and \$12.2 million for the three and nine months ended September 30, 2007, respectively, as a result of shareholder approval of the Stock Incentive Plan amendments on May 22, 2007 (see Note 11).
- (5) Interest expense for the three and nine months ended September 30, 2007, includes a reduction of \$5.5 million resulting from the reduction of the liability for warranty reserves.
- (6) Includes the recognition of a \$3.6 million deferred gain realized in connection with a sale of an orbital slot in 2006. Other income also includes gains and (losses) on other foreign currency transactions.
- (7) Amounts are presented after the elimination of intercompany profit. Total assets include \$214.2 million and \$52.1 million of goodwill for Satellite Manufacturing and Satellite Services, respectively, as of September 30, 2007.

LORAL SPACE & COMMUNICATIONS INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****15. Related Party Transactions***Transactions with Affiliates**XTAR*

As described in Note 8, we own 56% of XTAR, a joint venture between us and Hisdesat and account for our investment in XTAR under the equity method of accounting.

We constructed XTAR's satellite, which was successfully launched in February 2005. Loral Skynet provides certain services to XTAR on an ongoing basis. The effects of these transactions on our financial statement line items are summarized in Note 8.

In the nine months ended September 30, 2007, we recognized \$3.0 million of equity income in affiliates which was primarily attributable to a cash distribution from one of our Globalstar investment partnerships.

MHR

Three of the managing principals of MHR are members of Loral's board of directors and MHR has the right, which it has not exercised, to nominate one additional member to Loral's Board. Various funds affiliated with MHR hold, as of September 30, 2007 and December 31, 2006, approximately 35.5% and 35.8%, respectively, of the outstanding common stock of Loral and \$90.9 million (38.3%) and \$81.1 million (37.9%), respectively, of the Loral Skynet Preferred Stock, which Loral Skynet Preferred Stock was redeemed on November 5, 2007. As of December 31, 2006, various funds affiliated with MHR held approximately \$56.2 million (44.6%) of the Loral Skynet Notes, which were redeemed on September 5, 2007. As of September 30, 2007, various funds affiliated with MHR also hold all issued and outstanding shares of Loral Series-1 Preferred Stock (issued in February 2007, see Note 11) which, if converted to common stock, would represent, when taken together with holdings by MHR or its affiliated funds of common stock of Loral at such time, approximately 57.1% of the common stock of Loral. However, the terms of the preferred stock are designed so that, prior to certain change of control events of Loral, any shares of common stock issuable to MHR or its affiliated funds upon conversion of such preferred stock, when taken together with holdings by MHR or its affiliated funds of common stock of Loral at such time, will not represent more than 39.999% of the aggregate voting power of the securities of Loral. Information on dividends and interest paid to the funds affiliated with MHR, with respect to their holdings of the Loral Skynet Preferred Stock, Loral Skynet Notes and Loral Series-1 Preferred Stock for the three and nine months ended September 30, 2007 and 2006, is as follows (\$ in millions, except share amounts):

In connection with the Loral Series-1 Preferred Stock financing, we paid MHR \$6.75 million for a placement fee and \$4.4 million for legal and financial advisory fees and out-of-pocket expenses incurred by MHR during the nine months ended September 30, 2007. We also paid MHR \$578,000 in legal fees and out-of-pocket expenses incurred by MHR during the nine months ended September 30, 2006.

16. Subsequent Events

On November 5, 2007, all 1,187,997 issued and outstanding shares of Series A 12% Loral Skynet Preferred Stock were redeemed by Loral Skynet. The redemption was conducted pursuant to the terms of the Restated Certificate of Incorporation of Loral Skynet, and the aggregate redemption price paid for the Loral Skynet Preferred Stock was \$246.4 million, which included accrued and unpaid dividends to November 5, 2007 in the amount of \$8.8 million.

The Loral Skynet currency basis swap and the forward foreign currency contracts were transferred to Acquireco on October 23, 2007. Loral Skynet realized a gain of \$5.7 million on the currency basis swap and \$122.6 million on the forward foreign currency contracts. Acquireco accelerated settlement of the contracts from December 17, 2007 to the Telesat Canada transaction closing date of October 31, 2007.

On October 31, 2007, Loral and its Canadian partner, PSP, completed the acquisition of Telesat Canada for CAD 3.25 billion. Loral holds a 64% economic interest and a 33 1/3% voting interest in New Telesat (see Notes 6 and 12 to the financial statements). In connection with the Telesat Canada transaction, Loral transferred substantially all of the assets and related liabilities of Loral Skynet to Telesat Canada and expended net cash of approximately \$178 million, subject to final purchase price adjustments between Loral and PSP. We will account for our investment in New Telesat under the equity method of accounting.

Summary balance sheet information for the assets and liabilities of Loral Skynet as of September 30, 2007 transferred in connection with the Telesat Canada transaction is presented below (in thousands):

	September 30, 2007
Foreign currency contracts	\$ 116,395
Other current assets	60,692

Parent company investment		262,050
Total liabilities and shareholder's equity	\$	722,200

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with our unaudited condensed consolidated financial statements (the "financial statements") included in Item 1 and our latest Annual Report on Form 10-K filed with the Securities and Exchange Commission.

Loral Space & Communications Inc. ("New Loral"), together with its subsidiaries is a leading satellite communications company with substantial activities in satellite manufacturing and satellite-based communications services. New Loral, a Delaware corporation, was formed on June 24, 2005, to succeed to the business conducted by its predecessor registrant, Loral Space & Communications Ltd. ("Old Loral"), which emerged from chapter 11 of the federal bankruptcy laws on November 21, 2005 (the "Effective Date").

The terms Loral, the Company, we, our and us when used in this report with respect to the period prior to our emergence, are references to Old Loral, and when used with respect to the period commencing after our emergence, are references to New Loral. These references include the subsidiaries of Old Loral or New Loral, as the case may be, unless otherwise indicated or the context otherwise requires.

On October 31, 2007, Loral and its Canadian partner, Public Sector Pension Investment Board ("PSP"), through a newly formed joint venture, completed the acquisition of Telesat Canada. In connection with this acquisition, Loral transferred substantially all of the assets and related liabilities of Loral Skynet Corporation ("Loral Skynet") to Telesat Canada. Loral holds a 64% economic interest and a 33 1/3% voting interest in the resulting new entity ("New Telesat") (see Notes 6, 12 and 16 to the financial statements). References to Loral Skynet with respect to periods prior to the closing of this transaction are references to the subsidiary of Loral and with respect to the period commencing on and after the closing of this transaction are, if related to the fixed satellite services business, references to the Loral Skynet operations within New Telesat. We refer to the acquisition of Telesat Canada and the related transfer of the Loral Skynet assets to Telesat Canada as the Telesat Canada transaction.

Disclosure Regarding Forward-Looking Statements

Except for the historical information contained in the following discussion and analysis, the matters discussed below are not historical facts, but are "forward-looking statements" as that term is defined in the Private Securities Litigation Reform Act of 1995. In addition, we or our representatives have made and may continue to make forward-looking statements, orally or in writing, in other contexts. These forward-looking statements can be identified by the use of words such as "believes," "expects," "plans," "may," "will," "would," "could," "should," "anticipates," "estimates," "project," "intend," or "outlook" or other variations of these words. These statements, including without limitation, those relating to New Telesat, are not guarantees of future performance and involve risks and uncertainties that are difficult to predict or quantify. Actual events or results may differ materially as a result of a wide variety of factors and conditions, many of which are beyond our control. For a detailed discussion of these and other factors and conditions, please refer to the Commitments and Contingencies section below and to our other periodic reports filed with the Securities and Exchange Commission ("SEC"). We operate in an industry sector in which the value of securities may be volatile and may be influenced by economic and other factors beyond our control. We undertake no obligation to update any forward-looking statements.

Overview

Businesses

Loral is a leading satellite communications company and, up to the closing of the Telesat Canada transaction (see Note 16 to the financial statements) was organized into two operating segments: Satellite Manufacturing and Satellite

Services.

Satellite Manufacturing

Our subsidiary, Space Systems/Loral, Inc. (SS/L), designs and manufactures satellites, space systems and space system components for commercial and government customers whose applications include fixed satellite services (FSS), direct-to-home (DTH) broadcasting, mobile satellite services (MSS), broadband data

distribution, wireless telephony, digital radio, digital mobile broadcasting, military communications, weather monitoring and air traffic management.

Satellite manufacturers have high fixed costs relating primarily to labor and overhead. Based on its current cost structure, we estimate that SS/L covers its fixed costs, including depreciation and amortization, with an average of five to six satellite awards a year depending on the size, power, pricing and complexity of the satellite. Satellite manufacturing has relatively few programs (less than twenty five) under construction at any one time. These programs generally take from two to three years to complete and each represents a significant portion of the financial results of SS/L. The programs are accounted for on a percentage of completion basis, based on actual costs incurred compared with estimated costs to complete the program, which by its nature can produce uneven financial results during the period of performance. These factors when combined can yield fluctuating results in revenue and Adjusted EBITDA from quarter-to-quarter. Cash flow in the satellite manufacturing business tends to be uneven. It takes two to three years to complete a satellite project and numerous assumptions are built into the estimated costs. SS/L's cash receipts are tied to the achievement of contract milestones that depend in part on the ability of its subcontractors to deliver on time. In addition, the timing of satellite awards is difficult to predict, contributing to the unevenness of revenue and making it more challenging to align the workforce to the workflow.

While its requirement for ongoing capital investment to maintain its current capacity is relatively low, SS/L has commenced a capacity expansion program that will increase manufacturing capacity to up to nine satellite awards per year and enable greater in-house manufacturing of RF components and subassemblies. This expansion, which will require total incremental capital expenditures of approximately \$40 million, should be completed over the next one to two years through optimization and expansion of existing facilities and equipment and leasing of third party offsite capacity.

The satellite manufacturing industry is a knowledge-intensive business, the success of which relies heavily on its technological heritage and the skills of its workforce. The breadth and depth of talent and experience resident in SS/L's workforce of approximately 2,200 personnel, is one of our key competitive resources.

Satellites are extraordinarily complex devices designed to operate in the very hostile environment of space. This complexity may lead to unanticipated costs during the design, manufacture and testing of a satellite. SS/L establishes provisions for costs based on historical experience and program complexity to cover anticipated costs. As most of SS/L's contracts are fixed price, cost increases in excess of the provisions reduce profitability and may result in losses to SS/L, which may be material. The highly competitive satellite manufacturing industry has recently recovered from a several year period in the early part of this decade when order levels reached an unprecedented low level. Buyers, as a result, have had the advantage over suppliers in negotiating prices, terms and conditions resulting in reduced margins and increased assumptions of risk by SS/L. SS/L was further handicapped while it was in Chapter 11, because of buyers' reluctance to purchase satellites from a company in bankruptcy.

Satellite Services

Our subsidiary until the closing of the Telesat Canada transaction, Loral Skynet, operates a global fixed satellite services business. Loral Skynet leases transponder capacity to commercial and governmental customers for video distribution and broadcasting, high-speed data distribution, Internet access and communications, as well as provides managed network services to customers using a hybrid satellite and ground-based system. Loral Skynet has four in-orbit satellites and has one satellite under construction at SS/L. It also provides professional services to other satellite operators such as fleet operating services. While it competes with fiber optic cable and other terrestrial delivery systems, primarily for point-to-point applications, Loral Skynet has been able to combine the inherent advantages of each technology to provide its customers with complete end-to-end services. Since FSS satellites remain in a fixed point above the earth's equator and can provide service to wide geographic regions, they provide

inherent advantages over terrestrial systems for certain applications, such as broadcast or point-to-multipoint transmission of video and broadband data. A satellite offers instant infrastructure. It can cover large geographic areas, sometimes entire hemispheres, and can not only provide services to populated areas, but also can better serve areas with inadequate terrestrial infrastructures, low-density populations or difficult geographic terrain.

The satellite services business is capital intensive and the build-out of a satellite fleet requires substantial time and investment. Once these investments are made, however, the costs to maintain and operate the fleet are relatively

low. The upfront investments are earned back through the leasing of transponders to customers over the life of the satellite. Given the harsh and unpredictable environment in which the satellites operate, another major cost factor is in-orbit insurance. Annual receipts from this business are fairly predictable because they are derived from an established base of long-term customer contracts and high contract renewal rates.

Competition in the satellite services market has been intense in recent years due to a number of factors, including transponder over-capacity in certain geographic regions and increased competition from fiber. This competition puts pressure on prices, depending on market conditions in various geographic regions and frequency bands. A stronger economy and an increase in capital available for expanded consumer and enterprise-level services have more recently led to an improvement in demand in certain markets. Much of Loral Skynet's currently unleased capacity, however, is over geographic regions where the market is characterized by excess capacity, coupled with weak demand, or where regulatory obstacles are such that Loral Skynet finds itself at a competitive disadvantage as compared to local operators.

On December 16, 2006, a joint venture formed by Loral and its Canadian partner, PSP, entered into a definitive agreement with BCE Inc. to acquire 100 percent of the stock of Telesat Canada and certain other assets from BCE Inc. for CAD 3.25 billion (approximately \$3.28 billion based on an exchange rate of \$1.00/CAD 0.9923 at September 30, 2007). In connection with this acquisition on October 31, 2007, Loral expended on a net basis approximately \$178 million in cash, primarily to fund the redemption of the Loral Skynet Preferred Stock, and contributed substantially all of Loral Skynet's assets to Telesat Canada's business. Loral holds a 64% economic interest and a 33 1/3% voting interest in the ultimate parent company of New Telesat, which will hold both Telesat Canada and the Loral Skynet assets. See the "Telesat Canada Transaction" in Note 12 and Note 16 to the financial statements.

Bankruptcy Reorganization

During the years 2001-2003, the sustained and unprecedented decline in demand for our satellites and the transponder over-capacity in our satellite services business exacerbated Old Loral's already strained financial condition brought on primarily by the investments we had previously made in Globalstar, L.P. ("Globalstar") that we subsequently wrote-off. Globalstar filed voluntary bankruptcy petitions under Chapter 11 in February 2002. On July 15, 2003, Old Loral and certain of its subsidiaries (the "Debtor Subsidiaries" and collectively with Old Loral, the "Debtors") filed voluntary petitions for reorganization under Chapter 11. During the ensuing two-and-a-half year period we further increased our emphasis on cash conservation by reducing operating expenses and closely monitoring capital expenditures.

On August 1, 2005, the Bankruptcy Court entered its confirmation order confirming the Plan of Reorganization. On September 30, 2005, the Federal Communications Commission (the "FCC") approved the transfer of FCC licenses from Old Loral to New Loral, which represented satisfaction of the last material condition precedent to emergence. The Debtors emerged from their reorganization proceeding under Chapter 11 on November 21, 2005 pursuant to the Plan of Reorganization. Pursuant to Statement of Position No. 90-7, *Financial Reporting of Entities in Reorganization Under the Bankruptcy Code* ("SOP 90-7") we adopted fresh-start accounting as of October 1, 2005.

Future Outlook

Critical success factors for SS/L include maintaining our reputation for reliability, quality and superior customer service. These factors are vital to securing new customers and retaining current ones. At the same time, we must continue to contain costs and maximize efficiencies. SS/L is focused on increasing bookings and backlog, while maintaining the cost efficiencies and process improvements realized over the past several years. In addition, SS/L must continue to align its direct workforce with the level of awards. In order to complete construction of all the satellites in backlog and to accommodate long-term growth, SS/L will need, and is hiring additional staff. Long-term growth at SS/L will also require expanded facilities, and working capital requirements, primarily for the orbital

component of the satellite contract which is payable to SS/L over the life of the satellite.

As a result of the closing of the Telesat Canada transaction, Loral holds a 64% economic interest and a 33 1/3% voting interest in the world's fourth largest satellite operator with approximately US\$5.2 billion of backlog. The

integration of Loral Skynet's and Telesat Canada's operations including the combined satellite fleet of New Telesat, comprised of 12 in-orbit satellites and three satellites under construction, of which two are 100% leased, offers customers expanded satellite and terrestrial coverage and continues to offer superior customer service. We believe that this transaction will allow New Telesat to compete more effectively in the FSS industry than either Loral Skynet or Telesat Canada would have without the benefit of the Telesat Canada transaction.

New Telesat is focused on implementing the integration of Loral Skynet's and Telesat Canada's operations and capturing opportunities for cost reductions while managing New Telesat's ongoing operations. The combination of Loral Skynet and Telesat Canada provides the opportunity for New Telesat to benefit from synergies where redundancies exist. These areas include overhead and support functions, space segment facilities and ground segment facilities. New Telesat anticipates annual cost savings of approximately CAD 58 million, subject to exchange rate fluctuations and expects that approximately 60% of such cost savings will be achieved over the first nine months following the close of the transaction and that they will be substantially implemented after 18 months. New Telesat estimates that it will incur one-time expenditures of approximately CAD 35 million, subject to exchange rate fluctuations, to implement these savings.

We regularly explore and evaluate possible strategic transactions and alliances. We also periodically engage in discussions with satellite service providers, satellite manufacturers and others regarding such matters, which may include joint ventures and strategic relationships as well as business combinations or the acquisition or disposition of assets. In order to pursue certain of these opportunities, we would require additional funds. There can be no assurance that we will enter into any strategic transactions or alliances and, if so, on what terms or that we will be able to obtain any necessary financing on favorable terms, if at all.

In connection with the Telesat Canada transaction, Loral has agreed that, subject to certain exceptions described in the shareholders agreement relating to New Telesat, for so long as Loral has an interest in New Telesat, it will not compete in the business of leasing, selling or otherwise furnishing fixed satellite service, broadcast satellite service or audio and video broadcast direct to home service using transponder capacity in the C-band, Ku-band and Ka-band (including in each case extended band) frequencies and the business of providing end-to-end data solutions on networks comprised of earth terminals, space segment, and, where appropriate, networking hubs.

Consolidated Operating Results

See Critical Accounting Matters in our latest Annual Report on Form 10-K filed with the SEC and Note 3 to the financial statements.

Changes in Critical Accounting Policies There have been no changes in our critical accounting policies during the nine months ended September 30, 2007, except for the treatment of tax contingency accruals.

Effective January 1, 2007, we began to measure and record tax contingency accruals in accordance with FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109* (*FIN 48*). The expanded disclosure requirements of FIN 48 are presented in Note 3 to the financial statements

FIN 48 prescribes a threshold for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Only tax positions meeting the more-likely-than-not recognition threshold at the effective date may be recognized or continue to be recognized upon adoption of this Interpretation. FIN 48 also provides guidance on accounting for de-recognition, interest and penalties, and classification and disclosure of matters related to uncertainty in income taxes.

Prior to January 1, 2007, our policy was to maintain tax contingency liabilities for potential audit issues. The tax contingency liabilities were based on our estimate of the probable amount of additional taxes that may be due in the future. Any additional taxes due would be determined only upon completion of current and future federal, state and international tax audits.

Consolidated Operating Results The following discussion of revenues and Adjusted EBITDA (see Note 14 to the financial statements) reflects the results of our operating business segments for the three and nine months ended September 30, 2007 and 2006. The balance of the discussion relates to our consolidated results, unless otherwise noted.

The common definition of EBITDA is Earnings Before Interest, Taxes, Depreciation and Amortization. In evaluating financial performance, we use revenues and operating income (loss) before depreciation and amortization (including stock based compensation) and reorganization expenses due to bankruptcy (Adjusted EBITDA) as the measure of a segment's profit or loss. Adjusted EBITDA is equivalent to the common definition of EBITDA before: reorganization expenses due to bankruptcy; gain on discharge of pre-petition obligations and fresh-start adjustments; gain (loss) on investments; unrealized gain on foreign exchange contracts; other income (expense); loss on extinguishment of debt; equity income (loss) in affiliates; and minority interest, net of tax.

Adjusted EBITDA allows us and investors to compare our operating results with that of competitors exclusive of depreciation and amortization, interest and investment income, interest expense, reorganization expenses due to bankruptcy, other income (expense), net losses of affiliates and minority interest. Financial results of competitors in our industry have significant variations that can result from timing of capital expenditures, the amount of intangible assets recorded, the differences in assets' lives, the timing and amount of investments, the effects of other income (expense), which are typically for non-recurring transactions not related to the on-going business, and effects of investments not directly managed. The use of Adjusted EBITDA allows us and investors to compare operating results exclusive of these items. Competitors in our industry have significantly different capital structures. The use of Adjusted EBITDA maintains comparability of performance by excluding interest expense.

We believe the use of Adjusted EBITDA along with U.S. GAAP financial measures enhances the understanding of our operating results and is useful to us and investors in comparing performance with competitors, estimating enterprise value and making investment decisions. Adjusted EBITDA as used here may not be comparable to similarly titled measures reported by competitors. We also use Adjusted EBITDA to evaluate operating performance of our segments, to allocate resources and capital to such segments, to measure performance for incentive compensation programs and to evaluate future growth opportunities. Adjusted EBITDA should be used in conjunction with U.S. GAAP financial measures and is not presented as an alternative to cash flow from operations as a measure of our liquidity or as an alternative to net income as an indicator of our operating performance.

Revenues:

	Three Months Ended September 30, 2007 2006 (In millions)		Nine Months Ended September 30, 2007 2006 (In millions)	
Satellite Manufacturing	\$ 207.3	\$ 191.0	\$ 618.0	\$ 493.6

- (1) Represents the elimination of intercompany sales and intercompany Adjusted EBITDA for satellites under construction by SS/L for Satellite Services and for Satellite Services leasing transponder capacity to SS/L.
- (2) Includes revenues from affiliates of nil and \$3.1 million for the three months ended September 30, 2007 and 2006, respectively, and \$0.4 million and \$11.5 million for the nine months ended September 30, 2007 and 2006, respectively.
- (3) Represents corporate expenses incurred in support of our operations and continuing expenses related to the remaining bankruptcy matters.
- (4) Includes non-cash stock based compensation of \$1.9 million and \$12.2 million for the three and nine months ended September 30, 2007, respectively, as a result of shareholder approval of the Stock Incentive Plan amendments on May 22, 2007 (see Note 11 to the financial statements).
- (5) Interest expense for the three and nine months ended September 30, 2007, includes a reduction of \$5.5 million resulting from the reduction of the liability for warranty reserves
- (6) Includes the recognition of a \$3.6 million deferred gain realized in connection with a sale of an orbital slot in 2006. Other income also includes gains and (losses) on other foreign currency transactions.

Three Months Ended September 30, 2007 Compared With September 30, 2006***Revenues from Satellite Manufacturing***

	Three Months		
	Ended September 30,	2006	%
	2007		Increase/
	(In millions)		(Decrease)
Revenues from Satellite Manufacturing	\$ 207	\$ 191	9%
Eliminations	(12)	(16)	
Revenues from Satellite Manufacturing as reported	\$ 195	\$ 175	11%

Revenues from Satellite Manufacturing before eliminations increased by \$16 million for the three months ended September 30, 2007 as compared to 2006, primarily as a result of increased revenues of \$82 million from new satellite orders received in 2006 and the nine months ended September 30, 2007. This increase was partially offset by a reduction to revenues as a result of satellites completed and satellite programs nearing completion.

Eliminations consist primarily of revenues from the construction of Telstar 11N, a satellite under construction by SS/L for Satellite Services. As a result, revenues from Satellite Manufacturing as reported increased \$20 million in 2007 as compared to 2006.

Revenues from Satellite Services

	Three Months Ended		
	September 30, 2007	2006	% Increase/ (Decrease)
	(In millions)		
Revenues from Satellite Services	\$ 41	\$ 37	11%
Customer termination payment		15	
Eliminations	(1)	(1)	
Revenues from Satellite Services as reported	\$ 40	\$ 51	(21)%

Revenues from Satellite Services as reported decreased \$11 million for the three months ended September 30, 2007 compared to 2006. This reduction is driven by reduced revenues of \$15 million as a result of Boeing's contract termination payment in 2006 and \$3 million resulting from reduced revenue in 2007 due to Boeing's discontinuation of service on our Estrela do Sul satellite in late 2006. These reductions were offset by higher utilization of \$5 million including \$1 million on the Satmex 6 transponders that were added to the fleet in the fourth quarter of 2006 and \$2 million of increased usage of our Network Services products. Eliminations primarily consist of revenues from leasing transponder capacity to Satellite Manufacturing.

Cost of Satellite Manufacturing

	Three Months Ended September 30,		
	2007	2006	% Increase/ (Decrease)
	(In millions)		
Cost of Satellite Manufacturing includes:			
Cost of Satellite Manufacturing before the following specific identified charges	\$ 167	\$ 148	13%
Accrued warranty obligations	(4)	7	
Depreciation and amortization	10	7	48%
Total cost of Satellite Manufacturing as reported	\$ 173	\$ 162	7%
Cost of Satellite Manufacturing as a % of Satellite Manufacturing revenues as reported	89%	92%	

Cost of Satellite Manufacturing as reported increased by \$11 million for the three months ended September 30, 2007 as compared to 2006. Cost of Satellite Manufacturing before specific identified charges shown above increased \$19 million. The increase is primarily due to \$18 million of increased costs resulting from additional revenue in the quarter and a \$2 million write-off of construction in progress associated with the redirection of the capacity expansion project, offset by reduced costs of \$1 million resulting from higher margins on certain programs currently under construction. Warranty expense was adjusted based upon a resolution of certain warranty obligations for less than previously estimated amounts. Depreciation and amortization expense increased by \$3 million as a result of additional amortization of fair value adjustments in connection with the adoption of fresh-start accounting,

Cost of Satellite Services

	Three Months		
	Ended September 30,	2006	%
	2007		Increase/
	(In millions)		(Decrease)
Cost of Satellite Services includes:			
Cost of Satellite Services before depreciation and amortization	\$ 14	\$ 14	(2)%
Depreciation and amortization	13	11	16%
Total cost of Satellite Services as reported	\$ 27	\$ 25	6%
Cost of Satellite Services as a % of Satellite Services revenues as reported	66%	49%	

Cost of Satellite Services as reported increased \$2 million for the three months ended September 30, 2007 as compared to 2006. This increase was primarily due to an increase of depreciation and amortization expense of \$2 million in 2007 as compared to 2006, primarily resulting from the net effect of increased depreciation of \$1 million due to accelerated depreciation on a satellite and the depreciation of Loral Skynet's rights to four Satmex 6 transponders, which we acquired in November 2006 and reduced amortization of fair value credit adjustments of \$1 million in connection with the adoption of fresh-start accounting.

Selling, General and Administrative Expenses

	Three Months		
	Ended September 30,	2006	%
	2007		Increase/
	(In millions)		(Decrease)
Selling, general and administrative expenses includes:			
Selling, general and administrative expenses before specific charges	\$ 33	\$ 28	17%
Litigation costs	1	2	
Stock based compensation	1		
Continuing expenses related to remaining bankruptcy matters		1	
Selling, general and administrative expenses	\$ 35	\$ 31	13%
% of revenues as reported	15%	14%	

Selling, general and administrative expenses before specific charges increased by \$5 million for the three months ended September 30, 2007 as compared to 2006. This was due primarily to an increase in research and development of \$5 million and a \$2 million increase in marketing and promotions at Satellite Manufacturing. Litigation costs were primarily for various shareholder suits (see Note 12 to the financial statements). The approval of stock option plan amendments at the stockholders meeting on May 22, 2007 resulted in a non-cash charge of \$1 million for the three

months ended September 30, 2007 (see Note 11 to the financial statements). Continuing expenses for bankruptcy related matters decreased \$1 million as a result of minimal expenses incurred in the third quarter of 2007 as compared to 2006.

Interest and Investment Income

	Three Months Ended September 30, 2007 2006 (In millions)	
Interest and Investment Income	\$ 11	\$ 7

Interest and investment income increased \$4 million for the three months ended September 30, 2007 as compared to 2006. Interest income increased \$2 million primarily due to an increase in cash and short-term investment balances due to the proceeds from the \$300 million preferred stock financing completed February 27,

2007. Investment income also increased by \$3 million due to the partial sale of our holdings in Globalstar Inc. These increases were offset by \$1 million resulting from less interest earned on lower vendor financing balances.

Interest Expense

	Three Months Ended September 30, 2007 2006 (In millions)	
Interest cost before capitalized interest	\$ (1)	\$ 9
Capitalized interest	(3)	(1)
Interest expense	\$ (4)	\$ 8

Interest cost before capitalized interest decreased by \$10 million for the three months ended September 30, 2007 as compared to 2006, primarily due to a reduced interest expense of \$9 million at SS/L resulting from the reduction of the liability for warranty reserves, based upon a resolution of certain warranty obligations for less than previously estimated amounts and lower interest expense at Loral Skynet of \$1 million due to the early extinguishment of the Loral Skynet 14% Notes. Capitalized interest increased to \$2 million due to higher construction in process balances primarily for the Telstar 11N satellite.

Unrealized Gain on Foreign Exchange Contracts

In the three months ended September 30, 2007, we recorded an unrealized mark to market gain of \$57 million reflecting the change in the fair value of the currency swaps and the change in the fair value of the forward contracts entered into by Loral Skynet relating to the Telesat Canada transaction. The unrealized gain on these transactions as a result of marking these investments to market has been recognized in the statement of operations and avoided a corresponding increase in the US dollar purchase price equivalent that would have been paid to BCE for New Telesat (see Notes 6, 12 and 16 to the financial statements).

Loss on Extinguishment of Debt

Reflects a charge for the early extinguishment of the Loral Skynet 14% Notes, which is comprised of a \$12.6 million redemption premium and a \$3.6 million write-off of deferred financing costs.

Other Income

Other income increased \$3 million, primarily due to the recognition of a \$4 million deferred gain realized in 2007 in connection with the sale of an orbital slot in 2006. Other income also includes gains and (losses) on other foreign currency transactions.

Income Tax Provision

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109* (FIN 48). We adopted FIN 48 as of January 1, 2007. See *Income Taxes* in Note 3 to the financial statements.

During 2007 and 2006, we maintained a 100% valuation allowance against our net deferred tax assets except with regard to our deferred tax assets related to AMT credit carryforwards. We will continue to maintain the valuation allowance until sufficient positive evidence exists to support its reversal. If, in the future, we were to determine that we will be able to realize all or a portion of the benefit from our deferred tax assets, a reduction to the valuation allowance as of October 1, 2005 will first reduce goodwill, then other intangible assets with any excess treated as an increase to paid-in-capital.

The income tax provision was \$23.1 million on pre-tax income of \$58.4 million for the three months ended September 30, 2007 as compared to \$6.3 million on pre-tax income of \$16.5 million for 2006. The increase in our provision for 2007 is primarily attributable to a provision of \$18.7 million on the additional income for the three months ended September 30, 2007, primarily with regard to the unrealized mark to market gain on the currency

swaps and forward contracts entered into by Loral Skynet relating to the Telesat Canada transaction, and an additional valuation allowance in 2007 of \$2.1 million required as a result of having reversed \$2.1 million of deferred tax liabilities from accumulated other comprehensive income. These increases were partially offset by a reduced accrual for tax contingency reserves in 2007 (in accordance with FIN 48) of \$1.0 million and lower foreign income taxes in 2007 of \$3.1 million, primarily in Brazil as a result of the termination of a customer lease contract in late 2006. The provision on income for 2007 allowed us to realize \$20.2 million of deferred tax benefits from Old Loral thereby creating an excess valuation allowance of \$20.2 million that was reversed as a reduction to goodwill.

Equity Income (Loss) in Affiliates

	Three Months Ended September 30, 2007 2006 (In millions)	
XTAR	\$ (2)	\$ (3)

The equity loss in XTAR represents our share of losses incurred.

Minority Interest

Minority interest increased \$1 million for the three months ended September 30, 2007 as compared to 2006, primarily due to an increase in the number of outstanding shares of Loral Skynet preferred stock in 2007 resulting from dividends paid in kind during 2006 and 2007.

Nine Months Ended September, 2007 Compared With September 30, 2006

Revenues from Satellite Manufacturing

	Nine Months Ended September 30, 2007 2006 (In millions)		% Increase/ (Decrease)
Revenues from Satellite Manufacturing	\$ 618	\$ 494	25%
Eliminations	(44)	(26)	69%
Revenues from Satellite Manufacturing as reported	\$ 574	\$ 468	23%

Revenues from Satellite Manufacturing before eliminations increased by \$124 million for the nine months ended September 30, 2007 as compared to 2006, primarily as a result of increased revenues of \$280 million from new satellite orders received in 2006 and the nine months ended September 30, 2007. This increase was partially offset by a reduction to revenues as a result of satellites completed and satellite programs nearing completion. Eliminations consist primarily of revenues from the construction of Telstar 11N, a satellite under construction by SS/L for Satellite

Services. As a result, revenues from Satellite Manufacturing as reported increased \$106 million in 2007 as compared to 2006.

Revenues from Satellite Services

	Nine Months		%
	Ended September 30,	2006	Increase/
	2007		(Decrease)
	(In millions)		
Revenues from Satellite Services	\$ 110	\$ 111	(1)%
Customer termination payment		15	
Eliminations	(2)	(2)	(7)%
Revenues from Satellite Services as reported	\$ 108	\$ 124	(13)%

Revenues from Satellite Services as reported decreased \$16 million for the nine months ended September 30, 2007 compared to 2006. This reduction is driven by reduced revenues of \$15 million as a result of Boeing's contract termination payment in 2006 and \$8 million resulting from reduced revenue in 2007 due to Boeing's discontinuation of service on our Estrela do Sul satellite in late 2006, timing of cash revenue recognition of \$3 million and reduced revenues of \$4 million as a result of the restructuring of the Network Services business in late 2006. These reductions were offset by higher utilization of \$11 million including \$3 million on the Satmex 6 transponders that were added to the fleet in the fourth quarter of 2006 and \$3 million of increased usage of our Network Services products. Eliminations primarily consist of revenues from leasing transponder capacity to Satellite Manufacturing.

Cost of Satellite Manufacturing

	Nine Months		
	Ended September 30, 2007	2006	% Increase/ (Decrease)
	(In millions)		
Cost of Satellite Manufacturing includes:			
Cost of Satellite Manufacturing before the following specific identified charges	\$ 500	\$ 400	25%
Accrued warranty obligations	(5)	8	
Depreciation and amortization	26	18	43%
Total cost of Satellite Manufacturing as reported	\$ 521	\$ 426	22%
Cost of Satellite Manufacturing as a% of Satellite Manufacturing revenues as reported	91%	91%	

Cost of Satellite Manufacturing as reported increased by \$95 million for the nine months ended September 30, 2007 as compared to 2006. Cost of Satellite Manufacturing before specific identified charges shown above increased \$100 million. The increase is primarily due to \$96 million of increased costs resulting from additional revenue in 2007, increased costs of \$2 million resulting from lower margins on certain programs currently under construction and a \$2 million write-off of construction in progress associated with the redirection of the capacity expansion project. Warranty expense was adjusted based upon a resolution of certain warranty obligations for less than previously estimated amounts. Depreciation and amortization expense increased by \$7 million as a result of additional amortization of fair value adjustments in connection with the adoption of fresh start accounting and \$1 million from amortization of restricted stock units awarded during the year.

Cost of Satellite Services

	Nine Months		
	Ended September 30, 2007	2006	% Increase/ (Decrease)
	(In millions)		

Cost of Satellite Services includes:

Edgar Filing: LORAL SPACE & COMMUNICATIONS INC. - Form 10-Q

Cost of Satellite Services before depreciation and amortization	\$ 38	\$ 40	(4)%
Depreciation and amortization	39	33	19%
Total cost of Satellite Services as reported	\$ 77	\$ 73	7%
Cost of Satellite Services as a% of Satellite Services revenues as reported	72%	59%	

Cost of Satellite Services as reported increased \$4 million for the nine months ended September 30, 2007 as compared to 2006. This increase was primarily due to an increase of depreciation and amortization expense of \$6 million in 2007 as compared to 2006, primarily resulting from the net effect of increased depreciation of \$3 million due to accelerated depreciation on a satellite and the depreciation of Loral Skynet's rights to four Satmex 6 transponders, which we acquired in November 2006 and reduced amortization of fair value credit adjustments of

\$3 million in connection with the adoption of fresh-start accounting. These increases were offset by a \$2 million reduction in personnel costs due to reduced headcount.

Selling, General and Administrative Expenses

	(In millions)	
Interest and investment income	\$ 28	\$ 16

Interest and investment income increased \$12 million for the nine months ended September 30, 2007 as compared to 2006. Interest income increased \$7 million due to an increase in cash and short-term investment balances due to the proceeds from the \$300 million preferred stock financing completed February 27, 2007 and an increase in short-term interest rates, \$5 million due to the partial sale of our holdings in Globalstar Inc. and \$1 million due to higher SS/L interest income on orbital incentives.

Interest Expense

	Nine Months Ended September 30, 2007 2006 (In millions)	
Interest cost before capitalized interest	\$ 10	\$ 20
Capitalized interest	(9)	(1)
Interest expense	\$ 1	\$ 19

Interest cost before capitalized interest decreased \$10 million for the nine months ended September 30, 2007 as compared to 2006, primarily due to a reduced interest expense of \$9 million at SS/L resulting from the reduction of the liabilities for warranty reserves, based upon a resolution of certain warranty obligations for less than

previously estimated amounts and lower interest expense at Loral Skynet of \$1 million due to the early extinguishment of the Loral Skynet 14% Notes. Capitalized interest increased to \$8 million due to higher construction in process balances primarily for the Telstar 11N satellite.

Unrealized Gain on Foreign Exchange Contracts

In the nine months ended September 30, 2007, we recorded an unrealized mark to market gain of \$122 million reflecting the change in the fair value of the currency swaps and the change in the fair value of the forward contracts entered into by Loral Skynet relating to the Telesat Canada transaction. The unrealized gain on these transactions as a result of marking these investments to market has been recognized in the statement of operations and avoided a corresponding increase in the US dollar purchase price equivalent that would have been paid to BCE for New Telesat (see Notes 6, 12 and 16 to the financial statements).

Loss on Extinguishment of Debt

Reflects a charge for the early extinguishment of the Loral Skynet 14% Notes, which is comprised of a \$12.6 million redemption premium and a \$3.6 million write-off of deferred financing costs.

Other Income

Other income increased \$3 million, primarily due to the recognition of a \$4 million deferred gain realized in 2007 in connection with the sale of an orbital slot in 2006. Other income also includes gains and (losses) on other foreign currency transactions.

Income Tax Provision

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109* (FIN 48). We adopted FIN 48 as of January 1, 2007. See *Income Taxes* in Note 3 to the financial statements.

During 2007 and 2006, we maintained a 100% valuation allowance against our net deferred tax assets except with regard to our deferred tax assets related to AMT credit carryforwards. We will continue to maintain the valuation allowance until sufficient positive evidence exists to support its reversal. If, in the future, we were to determine that we will be able to realize all or a portion of the benefit from our deferred tax assets, a reduction to the valuation allowance as of October 1, 2005 will first reduce goodwill, then other intangible assets with any excess treated as an increase to paid-in-capital.

The income tax provision was \$54.9 million on pre-tax income of \$109.4 million for the nine months ended September 30, 2007 as compared to \$11.4 million on pre-tax income of \$9.6 million for 2006. The increase in our provision for 2007 is primarily attributable to a provision of \$43.6 million on the additional income for the nine months ended September 30, 2007, primarily with regard to the unrealized mark to market gain on the currency swaps and forward contracts entered into by Loral Skynet relating to the Telesat Canada acquisition, and an additional valuation allowance in 2007 of \$5.3 million required as a result of having reversed \$5.3 million of deferred tax liabilities from accumulated other comprehensive income. These increases were partially offset by a reduced accrual for tax contingency reserves in 2007 (in accordance with FIN 48) of \$1.5 million and lower foreign income taxes in 2007 of \$3.8 million, primarily in Brazil as a result of the termination of a customer lease contract in late 2006. The provision on income for 2007 allowed us to realize \$45.0 million of deferred tax benefits from Old Loral thereby creating an excess valuation allowance of \$45.0 million that was reversed as a reduction to goodwill.

Equity Income (Loss) in Affiliates

	Nine Months Ended September 30,	
	2007	2006
	(In millions)	
XTAR	\$ (7)	\$ (6)
Globalstar	3	
	\$ (4)	\$ (6)

The increase in equity loss in XTAR in 2007 represents our share of higher losses incurred by XTAR. During the nine months ended September 30, 2007, Loral received a cash distribution of \$3 million from Globalstar de Mexico.

Minority Interest

Minority interest increased \$2 million for the nine months ended September 30, 2007 as compared to 2006, primarily as a result of an increase in the number of outstanding shares of Loral Skynet preferred stock in 2007 as a result of dividends paid in kind during 2006 and 2007.

Backlog***Consolidated***

Consolidated backlog was \$1,498 million at September 30, 2007 and \$1,347 million at December 31, 2006.

Satellite Manufacturing

As of September 30, 2007, backlog for SS/L was approximately \$1,220 million, including intercompany backlog of approximately \$73 million. Backlog at December 31, 2006 was \$1,118 million, including intercompany backlog of \$116 million.

Satellite Services

At September 30, 2007, Satellite Services backlog totaled approximately \$358 million, including intercompany backlog of approximately \$7 million. As of December 31, 2006, backlog was \$355 million, including intercompany backlog of \$10 million.

Liquidity and Capital Resources***Telesat Canada Transaction***

On December 16, 2006, a joint venture formed by the Company and its Canadian partner, PSP, entered into a definitive agreement with BCE Inc. to acquire 100% of the stock of Telesat Canada and certain other assets for CAD 3.25 billion (approximately \$3.28 billion based on an exchange rate of \$1.00/CAD 0.9923 as of September 30, 2007). In connection with the acquisition, we agreed to contribute substantially all of the assets and related liabilities of Loral

Skynet to Telesat Canada. On October 31, 2007, this transaction was completed and our net cash expended of approximately \$178 million, primarily for the redemption of the Loral Skynet Preferred Stock, was funded from cash and short-term investments.

On the closing date, New Telesat borrowed a total of CAD 226.4 million and \$2,665.0 million as follows: A) under its Senior Secured Credit Agreement i) CAD 26.4 million under its Revolving Loans Facility, ii) CAD 200.0 million under its Term Loan A Facility and iii) \$1,755.0 million under its Term Loan B Facility; B) \$692.8 million under its Senior Bridge Loan Agreement and C) \$217.2 million under its Senior Subordinated Bridge Loan Agreement. In addition to the amounts borrowed, New Telesat has available CAD 126.6 million under its Revolving Loans Facility and \$150.0 million of Term Loan B Facility to be used for capital expenditures. It is New Telesat's intention to refinance the Bridge Facilities with unsecured notes within a year.

The Senior Secured Credit Facility loans bear interest at a choice of base floating rate options of Canadian Prime, Alternate Base Rate, Canadian BA Discount Rate or LIBOR, plus applicable margins ranging from 1.75% to 3.00% depending on the specific facility and the base rate selected. For the initial drawings the Canadian BA Discount Rate plus the applicable margin of 2.75% was chosen for the Canadian dollar secured loans and LIBOR plus the applicable margin of 3.00% was chosen for the U.S. dollar secured loans.

The interest rate per annum applicable to loans made under the Bridge Facilities is equal to the greater of (i) adjusted LIBOR for a three-month interest period plus an applicable margin percentage or (ii) for the Senior Bridge Facility 9.00%, and for the Senior Subordinated Bridge Facility 10.50%, but subject to a cap of 11.00% and 12.50% for the Senior and Senior Subordinated Bridge Facilities, respectively. The applicable margins are 3.62% for the Senior Bridge Facility and 5.12% for the Senior Subordinated Bridge Facility, which amounts will increase by an additional 1.00% at the end of the first six-month period after October 31, 2007 and shall further increase by an additional 0.50% at the end of the two subsequent three-month periods, at which time the Bridge Facilities mature. If New Telesat has not issued new debt to replace the Bridge Facilities by the time they mature, such Bridge Facilities convert into Senior, and Senior Subordinated Rollover Loans. The rate on the Senior and Senior Subordinated Rollover Loans will be 11.00% and 12.50%, respectively. Interest on the Bridge Facilities is subject to an additional Canadian withholding tax rate of generally 10% for holders of such facilities that do not reside in Canada.

Beginning on April 28, 2008 and ending on April 23, 2009, the Lead Arrangers of the Bridge Facilities, from time to time, after a road show and marketing period customary for similar offerings, can cause New Telesat to issue Permanent Securities in an amount sufficient to repay all outstanding amounts under the Bridge Facilities. The Permanent Securities shall have such form, term, yield, guarantees, covenants and default provisions and other terms as are customary for securities of this type issued by similarly situated issuers in light of the then prevailing market conditions and may be issued in one or more tranches, all as determined by the Lead Arrangers in their sole discretion; provided that the total weighted average interest rate on the applicable Permanent Securities shall not exceed 11.4%.

The maturity date of the Canadian Term Loans and the Revolving Loans is October 31, 2012. The maturity of the U.S. Term Loans is October 31, 2014. The maturity date of the interim bridge loans and the interim subordinated bridge loans under the Senior Bridge Facility and Senior Subordinated Bridge Facility is, in each case, October 31, 2008. The maturity date of the rollover loans under the Senior Bridge Facility is seven years from the maturity date of the interim bridge loans if such loans are converted to rollover loans under the Senior Bridge Facility. The maturity date of the rollover loans under the Senior Subordinated Bridge Facility is nine years from the maturity date of the interim subordinated bridge loans if such loans are converted to rollover loans under the Senior Subordinated Bridge Facility.

Loral Liquidity

After the closing of the Telesat Canada transaction, the Company had cash and short-term investments of approximately \$315 million including restricted cash of approximately \$25 million. In the fourth quarter of 2007 and the first quarter of 2008, the Company expects to make tax payments primarily relating to the Telesat Canada transaction totaling approximately \$43 million. New Telesat is subject to covenants in its debt agreements restricting the payment of dividends until leverage reaches an agreed upon level. Accordingly, we do not expect to receive any dividend payments from New Telesat in the near term.

Over the next 12 months we expect to use substantially all of our existing cash, short-term investments and cash from operations to fund our working capital and capital expenditures required for our backlog and growth initiatives at SS/L and for tax payments. The Company currently has no debt or established lines of credit. Over the next 12 months, the Company expects to establish a standard revolving line of credit and other customary sources of debt financing based on our assets and cash flow.

The Company has an investment program that increases return while maintaining a conservative risk profile. The Company's investment policy establishes conservative policies relating to and governing the investment of its surplus cash. The Company's investment policy allows us to invest in commercial paper, money market funds and other similar short term investments but does not permit the Company to engage in speculative or leveraged

transactions, nor does it permit the Company to hold or issue financial instruments for trading purposes. The investment policy was designed to preserve capital and safeguard principal, to meet all liquidity requirements of the Company and to provide a competitive rate of return. The investment policy addresses dealer qualifications, lists approved securities, establishes minimum acceptable credit ratings, sets concentration limits, defines a maturity structure, requires all firms to safe keep securities on our behalf, requires certain mandatory reporting activity and discusses review of the portfolio. The Company operates its investment program under the guidelines of its investment policy and continuously monitors its investments and policies. The Company believes that its policies and monitoring program mitigate the risks with regard to its current investments.

On February 27, 2007, Loral completed a \$300 million preferred stock financing pursuant to the Securities Purchase Agreement entered into with MHR on October 17, 2006, as amended and restated on February 27, 2007 (the Securities Purchase Agreement). See Note 11 to the financial statements.

The price of Loral's common stock on October 16, 2006, the day before we signed the Securities Purchase Agreement, was \$26.92 and the conversion price was \$30.1504. The price of Loral's common stock on February 27, 2007, when the financing closed was \$47.40. Because of the difference between the fair market value of the common stock on the date the financing closed, as compared to the conversion price, the Company is required to reflect a beneficial conversion feature of the Loral Series A-1 Preferred Stock as a component of its net income (loss) applicable to common shareholders for the three and nine months ended September 30, 2007. We will also reflect a beneficial conversion feature in a similar manner for the Series B-1 Preferred Stock, in the period in which shareholder approval of the creation of the new class of Class B-1 non-voting common stock is received. This beneficial conversion feature is recorded as an decrease to net income applicable to common shareholders and results in a reduction of both basic and diluted earnings per share results. Accordingly, in the three months ended March 31, 2007, we recorded an increase to net loss applicable to common shareholders of \$24.5 million. In the period in which shareholder approval of the new class of Class B-1 non-voting common stock is received, we expect that our net income (loss) applicable to common shareholders will be reduced (increased), as applicable, by approximately \$154 million reflecting the beneficial conversion feature (less discount, if any, for the class B-1 non-voting common stock because of its non-voting status). To the extent that dividends on the Loral Series-1 Preferred Stock are paid in additional shares of Loral Series A-1 Preferred Stock, we record an additional beneficial conversion feature that reduces our net income applicable to common shareholders. For the three and nine months ended September 30, 2007, we recorded a beneficial conversion feature of \$0.2 million and \$1.1 million, respectively, for the dividends in additional shares of Loral Series A-1 Preferred Stock. We will also record an additional beneficial conversion feature in a similar manner for dividends in additional shares of Loral Series B-1 Preferred Stock in the period in which shareholder approval of the class B-1 non-voting common stock is received, and thereafter. For dividends paid and accrued through September 30, 2007 on the Loral Series B-1 Preferred Stock, the beneficial conversion feature that will be recorded when shareholder approval of the class B-1 non-voting common stock is received, is approximately \$6 million.

Cash requirements at Satellite Manufacturing are driven primarily by working capital requirements to finance long-term receivables associated with satellite contracts and capital spending required to maintain and expand the manufacturing facility. Capital requirements to expand the manufacturing facility beyond its current capabilities and offer customer financing terms beyond standard terms will be funded from some or all of the following: cash and short-term investments, cash flow from operations, or through additional financing activity. While its requirement for ongoing capital investment to maintain its current capacity is relatively low, SS/L has commenced a capacity expansion program that will increase manufacturing capacity to up to nine satellite awards per year and enable greater in-house manufacturing of RF components and subassemblies. This expansion, which will require total incremental capital expenditures of approximately \$40 million, should be completed over the next one to two years through optimization and expansion of existing facilities and equipment and leasing of third party offsite capacity. Historically, a portion of Satellite Manufacturing revenues are paid to SS/L in the form of orbitals, receivable payments from its customers that are earned over the life of the satellite. These payments are contingent upon

continued satellite performance. As of September 30, 2007, SS/L had orbital receivables of \$121 million, which will be received over 18 years, an increase of \$38 million from orbital receivables of \$83 million as of

December 31, 2006. Continued growth in the Satellite Manufacturing business will result in a corresponding growth in the amount of such orbital receivables. To fund such growth, SS/L may be required to obtain additional financing.

On October 31, 2006, SS/L entered into an amendment to its amended and restated letter of credit agreement with JP Morgan Chase Bank extending the maturity of the facility to December 31, 2007 and reducing the facility availability from \$20 million to \$15 million. Letters of credit are available until the earlier of the stated maturity of the letter of credit, the termination of the facility, or December 31, 2007. Outstanding letters of credit are fully cash collateralized. As of September 30, 2007, \$6.1 million of letters of credit under this facility were issued and outstanding.

On July 30, 2007, SS/L entered into an Amended and Restated Customer Credit Agreement (the *Credit Agreement*) with Sirius Satellite Radio Inc. (*Sirius*). The Credit Agreement amends and restates in its entirety the Customer Credit Agreement entered into by SS/L and Sirius on June 7, 2006 (the *Original Credit Agreement*). The purpose of the amendment and restatement is to make available to Sirius financing for the purchase of a second satellite under the Amended and Restated Satellite Purchase Agreement between Sirius and SS/L dated as of July 23, 2007 (the *Amended Satellite Purchase Agreement*). Under the Credit Agreement, SS/L has agreed to make loans to Sirius in an aggregate principal amount of up to \$100,000,000 to finance the purchase of the Sirius FM-5 and FM-6 Satellites (the *Sirius Satellites*). Loans made under the Credit Agreement are secured by Sirius' rights under the Amended Satellite Purchase Agreement, including its rights to the Sirius Satellites. The loans are also entitled to the benefits of a subsidiary guarantee from Satellite CD Radio, Inc., and, subject to certain exceptions, any future material subsidiary that may be formed by Sirius hereafter. The maturity date of the loans is the earliest to occur of (i) June 10, 2010, (ii) 90 days after the FM-6 Satellite becomes available for shipment and (iii) 30 days prior to the scheduled launch of the FM-6 Satellite. Loans made under the Credit Agreement generally bear interest at a variable rate equal to three-month LIBOR plus a margin. The Credit Agreement permits Sirius to prepay all or a portion of the loans outstanding without penalty, and, upon the occurrence of certain events, Sirius is required to prepay the loans. As of September 30, 2007, no loans were outstanding under the Credit Agreement and Sirius was eligible to borrow \$62 million under the Credit Agreement, representing reimbursement of payments previously made by Sirius under the Amended Satellite Purchase Agreement.

On September 4, 2007, Loral Skynet entered into a Loan and Security Agreement (the *Loan Agreement*) with Valley National Bank (*Valley National*). The purpose of the Loan Agreement was to make available to Loral Skynet a loan (the *Loan*) to fund the redemption (the *Note Redemption*) of Skynet's 14% Senior Secured Cash/PIK Notes due 2015 (the *Notes*) (see Note 10). Pursuant to the Loan Agreement, Valley National made the Loan in a single advance of \$141,050,000, which Loral Skynet used to fund the Note Redemption on September 5, 2007. The interest rate on the Loan was 4.10% per annum. Upon the closing of the Telesat Canada transaction on October 31, 2007, the Loan was repaid in full.

Contractual Obligations

There have not been any significant changes to the Contractual Obligations as previously disclosed in our latest Annual Report on Form 10-K filed with the SEC. As of September 30, 2007, we recorded liabilities under FIN 48 in the amount of \$63 million. We do not expect to make any significant payments regarding such liabilities during the next 12 months.

Net Cash (Used In) Provided by Operating Activities

Net cash used in operating activities for the nine months ended September 30, 2007 was \$2 million. This was primarily due to an increase of contracts-in-process of \$65 million, primarily resulting from progress on new satellite programs and a reduction of customer advances of \$49 million due to continued progress on the related programs, partially offset by a decrease in accounts receivable of \$65 million and net income adjusted for non-cash items of

\$48 million.

Net cash provided by operating activities for the nine months ended September 30, 2006 was \$84 million. This was primarily due to an increase in customer advances of \$62 million primarily from new satellite program receipts and the net loss adjusted for non-cash items of \$65 million. These increases were partially offset by a reduction in accounts payable and accrued expenses and other current liabilities of \$31 million primarily due to payment of

claims from the Plan of Reorganization and the expenses associated with completing the reorganization activity, and a reduction of \$18 million in pension and other postretirement liabilities due to a minimum required contribution of \$2 million and an additional voluntary contribution of \$25 million made in the third quarter.

Net Cash Used in Investing Activities

Net cash used in investing activities for the nine months ended September 30, 2007 was \$150 million, resulting from capital expenditures of \$78 million and an increase in restricted cash in escrow of \$165 million (\$142 million of such restricted cash was released from escrow in connection with the closing of the Telesat Canada transaction), partially offset by the net effect of cash management of short-term investments of \$90 million and distributions from an equity investment of \$3 million.

Net cash used in investing activities for the nine months ended September 30, 2006 was \$155 million, resulting from the purchase of short-term investments of \$119 million and capital expenditures of \$44 million, partially offset by proceeds received from the disposition of an orbital slot of \$6 million and a reduction in restricted cash in escrow of \$2 million.

Net Cash Provided by Financing Activities

Net cash provided by financing activities for the nine months ended September 30, 2007 was \$286 million, resulting from the proceeds, net of expenses, from the sale of preferred stock of \$284 million, borrowing of a term loan for the Loral Skynet Notes refinancing facility of \$141 million and proceeds from the exercise of stock options of \$2 million, partially offset by the repayment of the Loral Skynet Notes of \$126 million, the redemption premium of \$13 million paid on the extinguishment of the Loral Skynet Notes and cash dividends paid on preferred stock of a subsidiary of \$3 million.

Net cash used in financing activities for the nine months ended September 30, 2006 was \$1 million, resulting from the cash dividend payment on the Loral Skynet preferred stock made in the third quarter.

Affiliate Matters

Loral has made certain investments in joint ventures in the Satellite Services business that are accounted for under the equity method of accounting. See Note 8 to the financial statements for further information on affiliate matters. On October 31, 2007, Loral and its Canadian partner, PSP, completed the acquisition of Telesat Canada, including the transfer of substantially all of the assets and related liabilities of Loral Skynet. Loral holds a 64% economic interest in the resulting new entity (New Telesat) and a 33 1/3% voting interest. As a result, we will account for our investment in New Telesat under the equity method of accounting.

Commitments and Contingencies

Our business and operations are subject to a number of significant risks, the most significant of which are summarized below in Item 1A Risk Factors and also in Note 12 to the financial statements, Commitments and Contingencies.

Other Matters

Accounting Pronouncements

SFAS 157

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*, (SFAS 157), to define fair value, establish a framework for measuring fair value in accordance with U.S. GAAP and expand disclosures about fair value measurements. SFAS 157 requires quantitative disclosures using a tabular format in all periods (interim and annual) and qualitative disclosures about the valuation techniques used to measure fair value in all annual periods. We are required to adopt the provisions of this statement as of January 1, 2008. We are currently evaluating the impact of adopting SFAS 157.

SFAS 159

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 expands opportunities to use fair value measurements in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value. We are required to adopt the provisions of this statement as of January 1, 2008. We are currently evaluating the impact of adopting SFAS 159.

Item 3. Quantitative and Qualitative Disclosures About Market Risk***Foreign Currency***

We, in the normal course of business, are subject to the risks associated with fluctuations in foreign currency exchange rates.

As of September 30, 2007, SS/L had the following amounts denominated in Japanese Yen and EUROS (which have been translated into U.S. dollars based on the September 30, 2007 exchange rates) that were unhedged (in millions):

		Foreign Currency	U.S.\$
Future revenues	Japanese Yen	¥ 122.9	\$ 1.1
Future expenditures	Japanese Yen	¥ 4,006.7	\$ 34.9
Contracts-in-process, unbilled receivables/(customer advances)	Japanese Yen	¥ 10.4	\$ 0.1
Future expenditures	EUROS	3.7	\$ 5.3

Telesat Canada Transaction Derivatives

On December 16, 2006, a joint venture company (Acquireco) formed by Loral and PSP entered into a share purchase agreement with BCE Inc. and Telesat Canada for the acquisition of all the shares of Telesat Canada and certain other assets for CAD 3.25 billion (see Notes 12 and 16). As part of the transaction, the acquisition company received financing commitments from a syndicate of banks for \$2.26 billion (based on an exchange rate of \$1.00/CAD 0.9923 as of September 30, 2007) of senior secured credit facilities, \$692.8 million of a senior unsecured bridge facility and \$217.2 million of a senior subordinated unsecured bridge facility. The purchase price of Telesat Canada is in Canadian dollars, while most of the debt financing is in U.S. dollars. Accordingly, to insulate themselves from Canadian dollar versus US dollar fluctuations, Loral, through Loral Skynet, and PSP entered into financial commitments to lock in exchange rates to convert some of the U.S. dollar denominated debt proceeds to Canadian dollars. As of September 30 2007, the unrealized gain on these transactions as a result of marking these investments to market, has been recognized in the statement of operations and avoided a corresponding increase in the US dollar purchase price equivalent that would have been paid to BCE for Telesat Canada.

A summary of these transactions is as follows:

1) In December 2006, Loral Skynet entered into a currency basis swap with a single bank counterparty converting \$1.054 billion of U.S. debt into CAD 1.224 billion of Canadian debt for a seven year period beginning December 17, 2007. This debt amortizes 1% per year with a final maturity of December 17, 2014. No cash payment was made by Loral to the counterparty for entering into this transaction. This agreement could be closed at any point prior to December 17, 2007 by simply moving all the terms forward to the closing date of the Telesat Canada acquisition without affecting terms. For the three and nine months ended September 30, 2007, Loral recorded a gain of

\$3.3 million and \$6.8 million respectively, reflecting the change in the fair value of the swap. Included in foreign currency contracts on our condensed consolidated balance sheet is \$4.4 million as of September 30, 2007, and \$2.4 million is included in other current liabilities as of December 31, 2006, reflecting the fair value of the swap.

2) In December 2006, Loral Skynet entered into forward foreign currency contracts with a single bank counterparty selling \$497.4 million for CAD 570.1 million (\$1.00/CAD 1.1461) with a settlement date of December 17, 2007. In January 2007, Loral Skynet entered into additional forward foreign currency contracts

with the same single bank counterparty selling \$200.0 million for CAD 232.8 million (\$1.00/CAD 1.1512) with a settlement date of December 17, 2007. No cash payments were made by Loral to the single bank counterparty for entering into these transactions. These agreements could be rolled forward to the closing date of the Telesat Canada acquisition with an adjustment in the exchange rate. For the three and nine months ended September 30, 2007, Loral recorded a gain of \$53.4 million and \$115.3, respectively, reflecting the change in the fair value of the forward contracts. As of September 30, 2007, included in foreign currency contracts on our condensed consolidated balance sheet is \$112.0 million reflecting a mark-to-market exchange rate of \$1.00/CAD 0.9923. As of December 31, 2006, other current liabilities include \$3.3 million reflecting a mark-to-market exchange rate of \$1.00/CAD 1.1539.

The Loral Skynet currency basis swap and the forward foreign currency contracts were transferred to Acquireco on October 23, 2007.

Interest

The Company has no long-term debt or any exposure to changes in interest rates with respect thereto. The Company does not actively manage its interest rate risk through the use of derivatives or other financial instruments.

As of September 30, 2007, the Company held \$22.0 million in marketable securities consisting of corporate bonds, Euro dollar bonds, certificates of deposits, commercial paper, Federal Agency notes and auction rate securities. We invest in marketable securities with the intent to hold them to maturity and classify them as such, except for the auction-rate-securities which we classify as available- for-sale. At September 30, 2007, the longest maturity date for one of these investments was 16 days and the weighted average maturity of our marketable securities was approximately 10 days. Due to the short-term maturity of our investments and our intent to hold them to maturity, we believe that our exposure to interest rate risk is not significant. A hypothetical 1% movement in market interest rates on \$22 million for 10 days would equate to a \$6 thousand interest adjustment.

Item 4. *Disclosure Controls and Procedures*

(a) *Disclosure controls and procedures.* Our chief executive officer and our chief financial officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of September 30, 2007, have concluded that our disclosure controls and procedures were effective and designed to ensure that information relating to Loral and its consolidated subsidiaries required to be disclosed in our filings under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities Exchange Commission rules and forms.

(b) *Internal control over financial reporting.* There were no changes in our internal control over financial reporting (as defined in the Securities and Exchange Act of 1934 Rules 13a-15(f) and 15-d-15(f)) during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. *Legal Proceedings*

We discuss certain legal proceedings pending against the Company in the notes to the financial statements and refer the reader to that discussion for important information concerning those legal proceedings, including the basis for such actions and relief sought. See Note 12 to the financial statements of this Quarterly Report on Form 10-Q for this discussion.

Item 1A. Risk Factors

Our business and operations are subject to a significant number of risks. The most significant of these risks are summarized in, and the reader's attention is directed to, the section of our Annual Report on Form 10-K for the year ended December 31, 2006 in Item 1A. Risk Factors. There are no material changes to those risk factors except as

set forth in Note 12 (Commitments and Contingencies) of the financial statements contained in this report, and the reader is specifically directed to those sections. The risks described in our Annual Report on Form 10-K, as updated by this report, are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
