We are offering \$400,000,000 aggregate principal amount of 7.750% notes due 2018. We will pay interest on the notes on March 1 and September 1 of each year, beginning September 1, 2010. The notes will mature on March 1, 2018.

We may redeem some or all of the notes at any time on or after March 1, 2014 at the applicable redemption prices described in this prospectus supplement under **Description of the Notes Optional Redemption**. In addition, prior to March 1, 2014, we may redeem all or a portion of the notes at a price equal to 100% of the principal amount plus the **make-whole premium** described in this prospectus supplement. We may also redeem up to 35% of the notes prior to March 1, 2013 with the net cash proceeds we receive from certain public equity offerings. The notes will be issued only in registered form in minimum denominations of \$2,000 and integral multiples of \$1,000 above that amount.

The net proceeds of the notes will be used to fund, in part, the proposed acquisition of Sturm Foods, Inc. This offering of notes is contingent on the completion of the acquisition of Sturm Foods, Inc. However, this offering of notes is not contingent upon the common stock offering, and the common stock offering is not contingent upon this offering of notes.

The notes will not be listed on any securities exchange. Currently, there is no public market for the notes.

Table of Contents

NON-GAAP FINANCIAL MEASURES

We have included financial measures of adjusted EBITDA, adjusted EBITDA margin and free cash flow in this prospectus supplement, which are non-GAAP financial measures as defined under the rules of the SEC. Adjusted EBITDA represents net income before interest expense, income tax expense, depreciation and amortization expense, and other non-cash and non-recurring items. Adjusted EBITDA margin represents adjusted EBITDA as a percentage of net sales. Adjusted EBITDA is not required by, or presented in accordance with, generally accepted accounting principles in the United States, or GAAP. Adjusted EBITDA is a performance measure that is used by our management, and we believe is commonly reported and widely used by investors and other interested parties, to evaluate a company's operating performance on a consistent basis after removing the impact of capital structure, asset base, items beyond the control of management (such as income taxes) and other non-cash and non-recurring items. Because we cannot predict the timing and amount of charges associated with non-recurring items or facility closings and reorganizations, management does not consider these costs when evaluating performance, when making decisions regarding the allocation of resources, in determining incentive compensation for management, or in determining earnings estimates. These costs are not recorded in any of our reportable segments.

Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

Adjusted EBITDA does not reflect, among other things:

our cash expenditures or future requirements for capital expenditures or contractual commitments;

changes in, or cash requirements for, our working capital needs;

the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debt; and

any cash income taxes that we may be required to pay;

Assets are depreciated or amortized over estimated useful lives and often have to be replaced in the future, and adjusted EBITDA does not reflect any cash requirements for such replacements;

Adjusted EBITDA does not adjust for all non-cash income or expense items that are reflected in our statements of cash flows; and

Adjusted EBITDA does not reflect limitations on, or costs related to, transferring earnings from our subsidiaries to us and the guarantors.

Because of these limitations, adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the operation and growth of our business or as a measure of cash that will be available to us to meet our obligations. You should compensate for these limitations by relying primarily on our GAAP results and using adjusted EBITDA as a supplement.

In evaluating adjusted EBITDA, you should be aware that in the future we may incur expenses similar to those for which adjustments are made in calculating adjusted EBITDA. Our presentation of adjusted EBITDA should not be

construed as a basis to infer that our future results will be unaffected by unusual or non-recurring items. Adjusted EBITDA does not reflect the impact of earnings or charges resulting from certain matters we consider to be indicative of our ability to service our debt over the period such debt is expected to remain outstanding.

Free cash flow represents cash flows from operating activities less capital expenditures. Free cash flow is not required by, or presented in accordance with, GAAP. Our management believes that free cash flow provides useful additional information concerning cash flow available to meet future debt service and other payment obligations, satisfy working capital requirements and make strategic investments. Readers should be aware that free cash flow does not represent residual cash flow available for discretionary expenditures.

Table of Contents

The non-GAAP measures of adjusted EBITDA, adjusted EBITDA margin and free cash flow used in this prospectus supplement may be different from similar measures used by other companies, limiting their usefulness as comparable measures. These non-GAAP financial measures should not be considered as alternatives to net income or cash flows from operating activities as indicators of operating performance or liquidity.

See footnote (1) to the summary historical and pro forma financial information under Prospectus Supplement Summary Summary Historical and Pro Forma Financial Information for a description of the calculation of adjusted EBITDA and an unaudited reconciliation of adjusted EBITDA to net income.

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights selected information about us and this offering. This summary is not complete and does not contain all of the information that may be important to you in deciding whether to invest in the notes. You should read carefully this entire prospectus supplement and the accompanying prospectus, including the Risk Factors section, and the other documents that we refer to and incorporate by reference herein for a more complete understanding of us and this offering. In particular, we incorporate by reference important business and financial information into this prospectus supplement and the accompanying prospectus.

Our Company

We are a leading manufacturer of private label food products in the United States and Canada. Our products are focused in center-of-store, shelf stable food categories. We are the #1 or #2 private label manufacturer in six of our eight largest product categories, and we believe that we are the largest manufacturer of non-dairy powdered creamer, private label salad dressings and pickles in the United States (based on total sales volume). Our business is organized into three operating reportable segments, including North American Retail Grocery, Food Away from Home, and Industrial and Export, which supply our products primarily into the grocery retail, foodservice and industrial food channels. We currently supply more than 250 food retail customers in North America, including 47 of the 50 largest food retailers, and more than 450 foodservice customers, including 74 of the 100 largest restaurant chains and the 200 largest foodservice distributors.

TreeHouse Foods, Inc. was created from Dean Foods' spin-off of certain of its specialty businesses to its shareholders. Since we began operating as an independent entity in June 2005, we have significantly expanded our product offerings in center-of-store, shelf stable food categories by completing five strategic acquisitions. During fiscal 2009, we generated net sales of \$1,512 million and adjusted EBITDA of \$191 million. Our common shares are traded on the New York Stock Exchange under the symbol THS and, as of February 12, 2010, we had an equity market capitalization of approximately \$1,323 million.

On December 20, 2009, we entered into a definitive agreement to acquire Sturm Foods, Inc., or Sturm. Sturm's product offerings include hot cereal, sugar free drink mixes, sugar based drink mixes, hot cocoa mixes, cappuccino, nonfat dry milk and organic products. Sturm has the #1 market share in both private label hot cereal and private label sugar free drink mixes. Sturm's strategy is to be an innovation leader, having introduced several new offerings that address consumer preferences for sugar free, organic, nutraceutical enriched and heart healthy products. We believe the acquisition of Sturm, which we refer to as the Sturm Acquisition, will enhance our business by adding leading market share positions in two large categories for private label sales, increasing our scale and further diversifying our product offering. Sturm generated \$343 million in net sales, \$30 million in net income, and \$92 million in adjusted EBITDA during the twelve months ended December 31, 2009. For the twelve months ended December 31, 2009, on a pro forma basis for the Sturm Acquisition, our net sales would have been \$1,853 million and our adjusted EBITDA would have been \$282 million. We expect the Sturm Acquisition to be accretive to gross margin, adjusted EBITDA margin and earnings per share on a pro forma basis in 2010.

Sturm produces a variety of powdered drink mixes, principally sugar free products, including lemonade, iced tea and functional drink mixes, such as energy, vitamin enhanced and isotonic sports drinks. Sturm is a pioneer in the private label powdered drink mix category, partnering with leading national retailers to develop their private label programs in this category. For the twelve months ended December 31, 2009, Sturm's sugar free drink mix products represented approximately 43% of its consolidated net sales.

Other. Other Sturm products include sugar based drink mixes, hot cocoa mixes, cappuccino, nonfat dry milk and organic varieties of the previously mentioned products. For the twelve months ended December 31, 2009, these products represented approximately 20% of Sturm's consolidated net sales.

Pro Forma Categories

Following the completion of the Sturm Acquisition, we will hold a leading market share position in eight center-of-store, shelf stable food categories. The combined company will have a broader portfolio that we believe will further diversify our product categories, customers, sales channels and raw materials requirements. We expect that completing the Sturm Acquisition will enable us to accelerate research and development for innovative new products and packaging formats. By providing existing and additional customers with an enhanced portfolio of products, we expect that the Sturm Acquisition will create cross selling opportunities across customers, sales channels and geographies.

Pro Forma Company
(Total pro forma net sales of \$1,853)

Industry Overview

The U.S. food total outlet retail market is estimated at close to \$350 billion in annual sales, of which private label food represents approximately \$65 billion. According to independent market research studies, private label food products have increased their market share in the United States from approximately 11.6% in 1988 to approximately 18.3% in 2009. We believe that product and packaging improvements, along with greater focus by retailers, have fundamentally changed private label from inexpensive, generic brand imitators to store-branded national brand equivalents offering value and product quality that often meet or exceed that of branded competitors. Despite gains in market share, private label penetration across all FMCG sectors in the United States remained below that of many developed economies, including France (26%), Spain (29%), Germany (32%), The United Kingdom (44%) and Switzerland (46%) (market research estimates based on 2008 data).⁽³⁾

We expect the convergence of several factors to support the continued growth of private label food product sales in the United States, including:

Greater focus by grocery retailers in developing their private label food product programs;

The emergence of private label food products with reputations for quality and value that meet or exceed national brands; and

Fundamental changes in consumer behavior that favor the secular growth trends in private label food products.

Given the highly competitive nature of the U.S. food retailing industry, we believe that most grocery retailers are seeking to expand their private label food product programs as a means to differentiate themselves from competitors, build customer loyalty and enhance margins and profitability. As the breadth and quality of a particular grocery retailer's private label offering factors more prominently in consumers' store selection criteria, we believe that a well developed, high quality private label food product offering can be an effective marketing tool for retailers to further their brand image, drive customer traffic to their stores and enhance shopper loyalty. In addition to the inherent marketing benefits, private label food products generally offer retailers higher gross margins and profits than branded equivalents. Consequently, many grocery retailers have

⁽²⁾ Due to rounding, dollars and percentages may not sum to actual totals.

⁽³⁾ FMCG represents fast-moving consumer goods, including food, alcoholic and non-alcoholic beverages, personal care products and household care products.

Table of Contents

announced targets for expanding their share of private label food product sales, over the next several years, to drive greater productivity from their store base.

According to industry data, private label products accounted for over 31% of all new product introductions in the U.S. packaged food industry during 2009. This is an increase of 85% when compared to the number of private label product launches in 2004. In the same time period, branded product launches have declined almost 45%. We believe this increase in private label product launches is a direct response to consumer desire for high quality food products that offer compelling value. As private label has grown, many offerings have developed reputations for value and high product quality that often meet or exceed those of branded competitors. According to multiple consumer surveys, the majority of consumers who have tried private label food products during the current economic downturn reported that they will not return to purchasing branded products when the economy improves. We believe many of these consumers will retain their loyalty to private label food products based on the product quality and value proposition associated with these products.

The private label food manufacturing base is highly fragmented. In retail grocery, we believe the top seven private label manufacturers represent less than 20% of category sales. As a result, a typical grocery retailer relies upon hundreds of private label food suppliers. We believe the highly fragmented private label manufacturing base will continue to consolidate as retailers seek out suppliers who can offer value-added capabilities like innovation and category management along with the ability to supply multiple private label products on a national basis.

Competitive Strengths

We believe the following competitive strengths differentiate us from our competitors and contribute to our continued success:

Leading Private Label Market Shares in Attractive Categories. We are a leading private label manufacturer of a broad range of center-of-store, shelf stable food products. Following completion of the Sturm Acquisition, we will have the leading share of private label food product sales in six of our eight largest product categories, namely powdered non-dairy creamer, soups, salad dressings, pickles, hot cereal and sugar free drink mixes. Additionally, we are the second largest private label supplier of jams and jellies and Mexican sauces. Our leading market share positions are supported by low cost manufacturing, research and development capabilities, product and packaging innovation and logistical and category management capabilities, which allow us to provide an enhanced level of service to our retail customers.

We believe that we participate in attractive product categories. Private label food product offerings in our product categories represent 10% or more of total sales in such categories. Sales of private label food products in our eight largest product categories have consistently increased their share of category sales, mirroring the secular trend of increasing private label market share in U.S. grocery. According to market research reports, private label market growth rates have exceeded their respective categories in total for the period from 2003 to 2009.

Scale, Balance and Diversity. As one of the largest private label food product manufacturers in the United States and Canada, we believe that our scale enables us to be more efficient and effective in servicing our customers. As grocery retailers develop their private label food programs, we believe they will seek out suppliers that can provide strategic insight, product innovation, customer service, logistics and economies of scale throughout North America. We believe our category leadership, breadth of product offering and differentiated capabilities put us in position to be their supplier of choice.

We sell our products to a diverse customer base, including many of the leading grocery retailers and foodservice operators in the United States and Canada, and a variety of customers that purchase bulk products for industrial food

applications. We currently supply more than 250 food retail customers in North America, including 47 of the 50 largest food retailers, and more than 450 foodservice customers, including 74 of the 100 largest restaurant chains and the 200 largest food distributors. Following the Sturm Acquisition, our top ten customers will continue to account for approximately 50% of our net sales. Walmart will remain our

S-5

Table of Contents

largest customer and will represent approximately 20% of our net sales. With the exception of Walmart, no other customer will represent more than 10% of our net sales.

Well-Defined Portfolio Strategy. Our management team has been successful in using economic value added, or EVA, analysis in the private label food products industry for several years. Applying EVA analyses across our product portfolio allows us to evaluate our prospects for profitable growth systematically and direct our resources to the products and categories that we believe offer the greatest potential. EVA analysis also identifies products and categories that lag behind the broader portfolio, focusing management's attention on the areas within our portfolio that must be operated more efficiently. We update our EVA analyses on a quarterly basis and develop and implement operating strategies based on the results. Many of the operating enhancements we have achieved can be directly associated with our EVA efforts, including improving the returns in our pickle business and accelerating the growth of our salad dressing business.

Successful Track Record of Acquiring and Integrating Businesses. Since we began operating as an independent entity in 2005, we have completed five strategic acquisitions, including Oxford Foods in February 2006, Del Monte's private label soup and infant feeding business in April 2006, San Antonio Farms and J.L. DeGraffenreid & Sons in May 2007 and E.D. Smith in October 2007. As a result of these efforts, we have expanded well beyond our original product base of pickles and non-dairy powdered creamer, adding six additional complementary center-of-store, shelf stable food categories. We have a well-defined strategy for identifying, evaluating and integrating acquisitions that we believe differentiates us from many of our competitors. We believe that our proven acquisition capabilities will allow us to participate successfully in the ongoing consolidation trend among private label food product manufacturers.

Strong Financial Performance and Significant Cash Flow Generation. We have grown our net sales from \$708 million in fiscal 2005 to \$1,512 million in fiscal 2009, representing a compounded annual growth rate, or CAGR, of 20.9%. Net income has increased from \$12 million in fiscal 2005 to \$81 million in fiscal 2009. We have also grown our adjusted EBITDA from \$76 million in fiscal 2005 to \$191 million in fiscal 2009, representing a CAGR of 25.7%. Over this period, net income as a percentage of net sales increased 374 basis points and adjusted EBITDA margin expanded by approximately 180 basis points. For the twelve months ended December 31, 2009, on a pro forma basis for the Sturm Acquisition, we generated net sales of \$1,853 million, net income of \$98 million, and adjusted EBITDA of \$282 million, representing CAGRs of 27.2% and 38.6%, respectively, from 2005 through 2009. We have also generated strong, consistent cash flows from our core operations. Since December 31, 2007, we have reduced net debt (defined as total debt minus cash on hand) by \$214 million. In 2009, we generated free cash flow (defined as cash flows from operating activities less capital expenditures) of \$68 million. Pro forma for the Sturm Acquisition, our free cash flow for the twelve months ended December 31, 2009 would have been \$120 million, based on our cash flows from operating activities of \$105 million, our capital expenditures of \$37 million and Sturm's free cash flow of \$52 million.

Strong Management Team. The members of our senior management team have an average of 20 years of packaged food industry experience and have worked together on several successful ventures, including the acquisition, turnaround and sale of Keebler Foods Company. Our senior management team has demonstrated its ability to grow our business, increasing our net sales from \$708 million in 2005 to \$1,512 million in 2009 and our adjusted EBITDA from \$76 million in 2005 to \$191 million in 2009. These results have been achieved through a combination of organic growth, EVA-driven portfolio optimization efforts and five complementary acquisitions (excluding Sturm).

Strategy

We intend to grow our business profitably through the following strategic initiatives:

Expand Partnerships with Retailers. As grocery retailers become more demanding of their private label food product suppliers, they have come to expect strategic insight, product innovation, customer service and logistical economies of scale similar to those of our branded competitors. To this end, we are continually developing, investing in and expanding our private label food product offerings and capabilities in these areas.

In addition to our low cost manufacturing, we have invested in research and development, product and packaging innovation, category management, information technology systems and other capabilities. We believe that these investments enable us to provide a broad and growing array of private label food products that generally meet or exceed the value and quality of branded competitors that have comparable sales, marketing, innovation and category management support. We believe that we are well positioned to expand our market share with grocery retailers given our differentiated capabilities, breadth of product offering and geographic reach.

Continue to Drive Growth and Profitability from our Existing Product Portfolio. We believe we can continue to drive strong organic growth from our existing product portfolio. Through insights gained from our EVA analyses, we develop operating strategies that enable us to focus our resources and investments on products and categories that we believe offer the highest potential. Additionally, EVA analyses identify products and categories that lag the broader portfolio and require corrective action. We believe EVA analysis is a helpful tool which maximizes the full potential of our product offerings.

Leverage Cross-Selling Opportunities Across Customers, Sales Channels and Geographies. While we have high private label food product market shares in the United States for our non-dairy powdered creamer, soup, salad dressing and pickles, as well as high branded and private label food product market share in jams in Canada, we believe we still have significant potential for growth with grocery retailers and foodservice distributors that we either currently serve in a limited manner, or do not currently serve. We believe that our size and scale give us an advantage over smaller private label food product producers, many of whom provide only a single category or service to a single customer or geography. Our ability to service customers across North America and across a wider spectrum of products and capabilities provides many opportunities for cross-selling to customers who seek to reduce the number of private label food product suppliers they utilize.

Growth Through Acquisitions. We believe we have the expertise and demonstrated ability to identify and integrate value-enhancing acquisitions. We selectively pursue acquisitions of complementary businesses that we believe are a compelling fit with our existing operations. Each potential acquisition is vigorously evaluated for merit utilizing a rigorous analysis that assesses targets for their market attractiveness, intrinsic value and strategic fit. We believe our past acquisitions of Oxford Foods, the Del Monte Soup and Infant Feeding business, San Antonio Farms, DeGraffenreid, and E.D. Smith were each a success and consistent with our strategy. Since we began operating as an independent company in 2005, our acquisitions have significantly added to our revenue base, enhanced margins and allowed us to expand from an initial base of two center-of-store, shelf stable food categories to eight, including Sturm. We attempt to maintain conservative financial policies when pursuing acquisitions, and our proven integration strategies have resulted in rapid deleveraging. By identifying targets that fit within our defined strategies, we believe we can continue to expand our product selection and continue our efforts to be the low-cost, high quality and innovative supplier of private label food products for our customers.

Proposed Acquisition of Sturm Foods, Inc.

On December 20, 2009, we entered into a definitive Stock Purchase Agreement to acquire Sturm, a privately-owned company majority owned by an affiliate of HM Capital Partners, pursuant to which TreeHouse will acquire all of the issued and outstanding capital stock of Sturm for aggregate consideration of \$660 million in cash, payable at closing, and subject to adjustments for working capital and other items. Consummation of the Sturm Acquisition is subject to customary closing conditions. We intend to finance the Sturm Acquisition through a combination of this offering of notes and approximately \$100 million from an underwritten public offering of our common stock, with the balance funded from borrowings under our credit facility.

The consummation of this offering of notes is conditioned upon the closing of the Sturm Acquisition. Upon the consummation of the Sturm Acquisition, Sturm will become a domestic subsidiary of TreeHouse and will become a

subsidiary guarantor of the notes. See Description of the Notes Subsidiary Guarantees in this prospectus supplement for more information.

Table of Contents**Sturm Acquisition Rationale**

We expect to realize several benefits from the Sturm Acquisition, including the following:

Entry into Attractive Categories. Sturm is the leading producer of private label hot cereal and powdered drink mixes, principally sugar free drink mixes. The total hot cereal and powdered drink mix categories generate over \$1 billion each in annual retail sales and are margin enhancing categories for TreeHouse, each with a single major branded competitor. Private label holds a significant share of the hot cereal and sugar free drink mix category sales, and these are important categories for many of our customers.

Enhanced Scale and Further Diversification of Our Product Offering. Sturm adds two new categories for growth and diversification. Both categories are consistent with our center-of-store, shelf stable food strategy. Sturm also enhances our scale with our customers. Sturm's manufacturing footprint with geographical proximity to our existing operations will support manufacturing and distribution efficiency efforts.

Accretive to Margins and Cash Flow. We expect the Sturm Acquisition to be accretive to gross margin, adjusted EBITDA margin and earnings per share on a pro forma basis in 2010. We also expect the Sturm Acquisition to be accretive to free cash flow (defined as cash flows from operating activities less capital expenditures), as Sturm generated \$52 million of free cash flow for the twelve months ended December 31, 2009.

Equity Offering

In connection with the Sturm Acquisition, pursuant to a separate prospectus supplement, we intend to offer shares of our common stock in an underwritten public offering, which we refer to as the equity offering. We estimate that the total proceeds of the equity offering, before deducting the underwriting discount and estimated expenses, will be approximately \$100 million. The equity offering is expected to close simultaneously with the completion of this offering. However, there can be no assurance that the equity offering will be completed or what the terms will be. The consummation of this offering of notes is not conditioned upon the consummation of the equity offering, and the consummation of the equity offering is not conditioned upon the consummation of this offering of notes.

Sources and Uses

The estimated sources and uses of the funds for the Sturm Acquisition, assuming the acquisition had closed December 31, 2009, are shown in the table below. Actual amounts will vary from estimated amounts depending on several factors, including (i) the amount of proceeds that we received from this offering of notes, (ii) the amount of net proceeds, if any, that we receive from the equity offering and (iii) changes in Sturm's debt balances and net working capital from December 31, 2009 to the closing. In addition, there can be no assurance that the Sturm Acquisition will be consummated under the terms contemplated or at all.

Management believes adjusted EBITDA provides investors with helpful supplemental information regarding our underlying performance from period to period. These measures may be inconsistent with measures presented by other companies. See **Non-GAAP Financial Measures** for the discussion of our use of adjusted EBITDA.

RISK FACTORS

Investing in the notes involves risks. You should carefully consider the risk factors described below and in Part I, Item 1A, Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2009 and our other reports filed from time to time with the SEC, which are incorporated by reference into this prospectus supplement and the accompanying prospectus. Some of these risk factors relate principally to our business. Other factors relate principally to the Sturm Acquisition and your investment in the notes. Before making any investment decision, you should carefully consider these risks. These risks could materially affect our business, results of operation or financial condition and affect the value of our securities. In such case, you may lose all or part of your original investment. The risks described below or incorporated by reference herein are not the only risks facing us. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business, results of operation or financial condition.

Risks Related to the Sturm Acquisition

We may not realize the expected benefits of the Sturm Acquisition because of integration difficulties and other challenges.

The success of the Sturm Acquisition will depend, in part, on our ability to realize the anticipated benefits from integrating Sturm's business with our existing businesses. The integration process may be complex, costly and time-consuming. The difficulties of integrating the operations of Sturm's business include, among others:

- failure to implement our business plan for the combined business;
- unanticipated issues in integrating manufacturing, logistics, information, communications and other systems;
- unanticipated changes in applicable laws and regulations;
- failure to retain key employees;
- failure to retain key customers;
- operating risks inherent in Sturm's business and our business;
- the impact on our internal controls and compliance with the regulatory requirements under the Sarbanes-Oxley Act of 2002; and
- unanticipated issues, expenses and liabilities.

We may not be able to maintain the levels of revenue, earnings or operating efficiency that each of TreeHouse and Sturm had achieved or might achieve separately. In addition, we may not accomplish the integration of Sturm's business smoothly, successfully or within the anticipated costs or timeframe.

Sturm is a privately-held company and its new obligations of being a part of a public company as a result of the acquisition may require significant resources and management attention.

Upon consummation of the Sturm Acquisition, Sturm will become a subsidiary of our consolidated company, and will need to comply with the Sarbanes-Oxley Act of 2002 and the rules and regulations subsequently implemented by the SEC and the Public Company Accounting Oversight Board. We will need to ensure that Sturm establishes and maintains effective disclosure controls as well as internal controls and procedures for financial reporting, and such compliance efforts may be costly and may divert the attention of management.

We will incur significant transaction and acquisition-related costs in connection with the Sturm Acquisition.

We will incur significant costs in connection with the Sturm Acquisition. The substantial majority of these costs will be non-recurring transaction expenses and costs. These non-recurring costs and expenses are

S-20

Table of Contents

not reflected in the pro forma financial information included in this prospectus. We may incur additional costs to maintain employee morale and to retain key employees.

Increases in interest rates will increase the cost of servicing our debt and could reduce our profitability.

As of December 31, 2009, the aggregate principal amount of our debt instruments with exposure to interest rate risk was approximately \$98 million. As a result, increases in interest rates will increase the cost of servicing our financial instruments with exposure to interest rate risk and could materially reduce our profitability and cash flows. As of December 31, 2009 on a pro forma basis giving effect to the Sturm Acquisition and this note offering, each one percentage point change in interest rates would result in an approximate \$6.7 million change in the annual cash interest expense before any principal payment on our financial instruments with exposure to interest rate risk. See Unaudited Pro Forma Condensed Combined Financial Statements for details regarding our pro forma debt balances.

We have a significant amount, and will have an additional amount following the Sturm Acquisition, of goodwill and intangible assets on our consolidated financial statements that is subject to impairment based upon future adverse changes in our business or prospects.

At December 31, 2009, the carrying values of goodwill and identifiable intangible assets on our balance sheet were \$575 million and \$153 million, respectively. At December 31, 2009, as a result of the Sturm Acquisition, we would have goodwill of \$973 million and identifiable intangible assets of \$420 million. We evaluate indefinite lived intangible assets and goodwill for impairment annually in the fourth quarter, or more frequently if events or changes in circumstances indicate that the asset might be impaired. Indefinite lived intangible assets are impaired and goodwill impairment is indicated when their book value exceeds fair value. We have recorded trademark impairment charges in recent years, including in 2009. The value of goodwill and intangible assets from the allocation of purchase price from the Sturm Acquisition will be derived from our business operating plans and is susceptible to an adverse change in demand, input costs or general changes in our business or industry and could require an impairment charge in the future.

The historical and unaudited pro forma financial information included elsewhere in this prospectus supplement may not be representative of our combined results after the Sturm Acquisition, and accordingly, you have limited financial information on which to evaluate the combined company and your investment decision.

We and Sturm operated as separate companies prior to the Sturm Acquisition. We have had no prior history as a combined company. The historical financial statements of Sturm may be different from those that would have resulted had Sturm been operated as part of TreeHouse or from those that may result in the future from Sturm being operated as a part of TreeHouse. The pro forma financial information, which was prepared in accordance with Article 11 of the SEC's Regulation S-X, is presented for informational purposes only and is not necessarily indicative of the financial position or results of operations that actually would have occurred had the Sturm Acquisition been completed at or as of the dates indicated, nor is it indicative of the future operating results or financial position of the combined company. The unaudited pro forma financial information reflects adjustments, which are based upon preliminary estimates, to allocate the purchase price to Sturm's net assets. The purchase price allocation reflected in this prospectus supplement is preliminary, and final allocation of the purchase price will be based upon the actual purchase price and the fair value of the assets and liabilities of Sturm as of the date of the completion of the Sturm Acquisition. The pro forma financial information does not reflect future nonrecurring charges resulting from the Sturm Acquisition. The pro forma financial information does not reflect future events that may occur after the Sturm Acquisition, including the costs related to the planned integration of Sturm, and does not consider potential impacts of current market conditions on revenues or expense efficiencies. The pro forma financial information presented in this prospectus supplement is based in part on certain assumptions regarding the Sturm Acquisition that we believe are reasonable under the circumstances. We cannot assure you that our assumptions will prove to be accurate over time.

Table of Contents

We will incur substantial indebtedness in order to finance the Sturm Acquisition, which could adversely affect our business and limit our ability to plan for or respond to changes in our business.

In order to finance the Sturm Acquisition, we expect to incur additional borrowings of approximately \$582 million through this offering and under our credit facility. As of December 31, 2009, on a pro forma basis after giving effect to the Sturm Acquisition and related financing transactions, our long-term debt would have been approximately \$985 million. Our substantial debt obligations could have important consequences to our business. For example:

we may not be able to generate sufficient cash flow to meet our substantial debt service obligations;

we may be required to dedicate a substantial portion of our cash flows from operations to payments on our indebtedness, thereby reducing the availability of our cash flow for other purposes, including business development efforts, capital expenditures or strategic acquisitions;

we are exposed to the risk of increased interest rates because a portion of our borrowings is at variable rates of interest; and

our flexibility in planning for, or reacting to, changes in our business and industry may be limited, thereby placing us at a competitive disadvantage compared to our competitors that have less indebtedness.

Our ability to make payments on and to refinance our debt obligations and to fund planned capital expenditures depends on our ability to generate cash from our future operations. This, to a certain extent, is subject to financial, competitive, legislative, regulatory and other factors that are beyond our control. In addition, if we cannot service our indebtedness, we may have to take actions such as selling assets, seeking additional equity or reducing or delaying capital expenditures, strategic acquisitions, investments and alliances, any of which could impede the implementation of our business strategy for us or prevent us from entering into transactions that would otherwise benefit our business. We may not be able to refinance our indebtedness or take such other actions, if necessary, on commercially reasonable terms, or at all.

Risks Related to the Notes

We may incur incremental borrowings under our credit facility or a new facility in order to consummate the Sturm Acquisition.

In order to finance the Sturm Acquisition, intend to offer shares of our common stock in an underwritten public offering. We estimate that the total proceeds of the equity offering, before deducting the underwriting discount and estimated expenses, will be approximately \$100 million. In the event that we are unable to complete the equity offering, we may incur approximately \$100 million of incremental borrowings under our credit facility or a new facility in order to finance the Sturm Acquisition. If we undertake such borrowings under our credit facility, the available borrowing capacity under our credit facility will be significantly reduced and our liquidity position will be adversely affected. Under these circumstances, the other risks associated with our substantial indebtedness will also become stronger. In addition, because our credit facility requires us to have a minimum level of available liquidity prior to undertaking acquisitions, our ability to pursue future strategic acquisition opportunities may be impaired.

The indenture governing the notes will contain, and our credit facility and the note purchase agreement governing our existing senior notes currently contain, various covenants limiting the discretion of our management in operating our business.

The indenture governing the notes, our credit facility and the note purchase agreement governing our existing senior notes limit, among other things, our ability to:

incur additional indebtedness or guarantee obligations;

repay indebtedness (including the notes) prior to stated maturities;

pay dividends or make certain other restricted payments;

S-22

Table of Contents

make investments or acquisitions;

create liens or other encumbrances; and

transfer or sell certain assets or merge or consolidate with another entity.

These limitations may prevent us from taking actions that we believe would be in the best interest of our business and may make it difficult for us to execute our business strategy successfully or effectively compete with companies that are not similarly restricted. These limitations are subject to important exceptions as described under the caption "Description of the Notes" and in the relevant agreements.

Our credit facility requires us to maintain a leverage ratio, as defined in the credit facility, of 3.5 to 1.0. If we complete a Permitted Acquisition, as defined in our credit facility, our maximum leverage ratio is increased to 4.0 to 1.0 for the four fiscal quarters following completion of such acquisition, provided we also have at least \$25 million of liquidity. The Sturm Acquisition qualifies as a Permitted Acquisition under our credit facility. In addition, the note purchase agreement governing our existing senior notes requires us to maintain a leverage ratio, as defined in the note purchase agreement, of 3.5 to 1.0, subject to our ability to exceed such ratio, up to 4.0 to 1.0, for a maximum of six consecutive fiscal quarters. On a pro forma basis giving effect to this offering, the equity offering and the Sturm Acquisition, we would have had a leverage ratio, as calculated in accordance with the credit facility, of approximately 3.5 to 1.0 as of December 31, 2009. See "Unaudited Pro Forma Condensed Combined Financial Statements" for details regarding our pro forma debt balances.

If we fail to comply with the various restrictions in the indenture, our credit facility, the note purchase agreement or any other subsequent financing agreements, a default may allow the creditors under the relevant agreements, in certain circumstances, to accelerate the related debt and to exercise their remedies thereunder, which will typically include the right to declare the principal amount of such debt, together with accrued and unpaid interest and other related amounts immediately due and payable, to exercise any remedies such creditors may have to foreclose on any of our assets that are subject to liens securing such debt and to terminate any commitments they had made to supply us with further funds. Moreover, any of our other debt that has a cross-default or cross-acceleration provision that would be triggered by such default or acceleration would also be subject to acceleration upon the occurrence of such default or acceleration.

Our ability to comply with these covenants may be affected by events beyond our control, and an adverse development affecting our business could require us to seek waivers or amendments of covenants, alternative or additional sources of financing or reductions in expenditures. We cannot assure you that such waivers, amendments or alternative or additional financings could be obtained, or if obtained, would be on terms acceptable to us. In addition, the holders of the notes will have no control over any waivers or amendments with respect to any debt outstanding other than the debt outstanding under the indenture.

Despite our current levels of debt, we may still be able to incur substantially more debt. This could further exacerbate the risks associated with our substantial debt.

We may be able to incur substantial additional debt in the future. Although our credit facility contains, the note purchase agreement governing our existing senior notes contains and the indenture governing the notes will contain restrictions on the incurrence of additional debt, these restrictions are subject to a number of qualifications and exceptions and, under certain circumstances, debt incurred in compliance with these restrictions could be substantial. In addition, the agreements governing any additional indebtedness that we incur might subject us to additional restrictive covenants that could further affect our financial and operational flexibility. If new debt is added to our

current debt levels, the substantial risks described above would become stronger.

Federal and state laws permit courts to void guarantees under certain circumstances

The notes will be guaranteed by domestic subsidiaries of ours. The guarantees may be subject to review under U.S. federal bankruptcy law and comparable provisions of state fraudulent conveyance laws if a bankruptcy or reorganization case or lawsuit is commenced by or on behalf of our or one of a guarantor's unpaid creditors. Under these laws, a court could void the obligations under the guarantee, subordinate the

S-23

Table of Contents

guarantee of the notes to that guarantor's other debt or take other action detrimental to holders of the notes and the guarantors of the notes, if, among other things, the guarantor, at the time it incurred the indebtedness evidenced by its guarantee:

issued the guarantee to delay, hinder or defraud present or future creditors;

received less than reasonably equivalent value or fair consideration for issuing the guarantee at the time it issued the guarantee;

was insolvent or rendered insolvent by reason of issuing the guarantee;

was engaged, or about to engage, in a business or transaction for which its remaining unencumbered assets constituted unreasonable small capital to carry on its business; or

intended to incur, or believed that it would incur, debts beyond its ability to pay as they mature.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, a guarantor would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all of its assets;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing indebtedness, including contingent liabilities, as they become absolute and mature; or

it could not pay its indebtedness as it becomes due.

We cannot be sure as to the standard that a court would use to determine whether or not a guarantor was solvent at the relevant time, or, regardless of the standard that the court uses, that the issuance of the guarantees would not be voided or the guarantees would not be subordinated to the guarantors' other debt. If such a case were to occur, the guarantee could also be subject to the claim that, since the guarantee was incurred for our benefit and only indirectly for the benefit of the guarantor, the obligations of the applicable guarantor were incurred for less than fair consideration.

Receipt of payment on the notes, as well as the enforcement of remedies under the subsidiary guarantees, may be limited in bankruptcy or in equity.

An investment in the notes, as in any type of security, involves insolvency and bankruptcy considerations that investors should carefully consider. If we or any of our subsidiary guarantors become a debtor subject to insolvency proceedings under the bankruptcy code, it is likely to result in delays in the payment of the notes and in the exercise of enforcement remedies under the notes or the subsidiary guarantees. Provisions under the bankruptcy code or general principles of equity that could result in the impairment of your rights include the automatic stay, avoidance or preferential transfers by a trustee or a debtor-in-possession, substantive consolidation, limitations of collectability of unmatured interest or attorneys' fees and forced restructuring of the notes.

If a bankruptcy court substantively consolidates us and our subsidiaries, the assets of each entity would be subject to the claims of creditors of all entities. This would expose you not only to the usual impairments arising from bankruptcy, but also to potential dilution of the amount ultimately recoverable because of the larger creditor base.

Furthermore, forced restructuring of the notes could occur through the cram-down provision of the bankruptcy code. Under this provision, the notes could be restructured over your obligations as to their general terms, primarily interest rate and maturity.

S-24

Table of Contents

The notes and the guarantees will not be secured by any of our assets and therefore will be effectively subordinated to our future secured indebtedness.

The notes and any guarantees thereof will be general unsecured obligations ranking effectively junior in right of payment to all future secured debt of TreeHouse or the guarantor to the extent of the collateral securing such debt. The indenture governing the notes will permit the incurrence of additional debt, some of which may be secured debt. For example, the indenture governing the notes will permit us to refinance our \$600 million credit facility, which terminates in August 2011, on a fully secured basis and, in certain circumstances, to refinance other unsecured debt, including the existing senior notes, on a fully secured basis. See Description of the Notes. In the event that TreeHouse or the guarantor is declared bankrupt, becomes insolvent or is liquidated or reorganized, creditors whose debt is secured by assets of TreeHouse or the guarantor will be entitled to the remedies available to secured holders under applicable laws, including the foreclosure of the collateral securing such debt, before any payment may be made with respect to the notes or the affected guarantees. As a result, there may be insufficient assets to pay amounts due on the notes and holders of the notes may receive less, ratably, than holders of secured indebtedness.

The notes are structurally subordinated to the existing and future liabilities of our subsidiaries that do not guarantee the notes to the extent of the assets of such non-guarantor subsidiaries.

The notes will be structurally subordinated to all existing and future liabilities of our subsidiaries that do not guarantee the notes. Therefore, TreeHouse's rights and the rights of its creditors to participate in the assets of any non-guarantor subsidiary in the event that such a subsidiary is liquidated or reorganized are subject to the prior claims of such subsidiary's creditors. As a result, all indebtedness and other liabilities, including trade payables, of the non-guarantor subsidiaries, whether secured or unsecured, must be satisfied before any of the assets of such subsidiaries would be available for distribution, upon a liquidation or otherwise, to TreeHouse in order for TreeHouse to meet its obligations with respect to the notes. To the extent that TreeHouse may be a creditor with recognized claims against any subsidiary, its claims would still be subject to the prior claims of such subsidiary's creditors to the extent that they are secured or senior to those held by it. TreeHouse's subsidiaries may incur additional indebtedness and other liabilities under the terms of the indenture governing the notes.

Our credit ratings may not reflect all risks of your investment in the notes.

Our credit ratings are an assessment by rating agencies of our ability to pay our debts when due. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the notes. These credit ratings may not reflect the potential impact of risks relating to structure or marketing of the notes. In addition, if any of our outstanding debt that is rated is downgraded, raising capital will become more difficult for us and borrowing costs under our credit facility and other future borrowings may increase. Agency ratings are not a recommendation to buy, sell or hold any security and may be revised or withdrawn at any time by the issuing organization. Each agency's rating should be evaluated independently of any other agency's rating.

We may issue additional notes.

Under the terms of the indenture that governs the notes, we may from time to time without notice to, or the consent of, the holders of the notes, create and issue additional notes of a new series which will be equal in rank to the notes in all material respects so that the new notes may be consolidated and form a single series with such notes and have the same terms as to status, redemption or otherwise as such notes.

If active trading markets do not develop for the notes, you may be unable to sell your notes or to sell your notes at prices that you deem sufficient.

The notes are new issues of securities for which there currently is no established trading market. We do not intend to list the notes on a national securities exchange. While the underwriters of the notes have advised us that they intend to make a market in the notes, the underwriters will not be obligated to do so and may stop their market making at any time. Any such market-making will be subject to the limitations imposed by the Securities Act and the Exchange Act.

S-25

Table of Contents

In addition, we cannot assure you that you will be able to sell your notes at a particular time or that the prices that you receive when you sell will be favorable. We also cannot assure you as to the level of liquidity of the trading market for the notes. Future trading prices of the notes will depend on many factors, including:

- our operating performance, prospects and financial condition or the operating performance, prospects and financial condition of companies in our industry generally;
- the interests of securities dealers in making a market for the notes; and
- the market for similar securities.

It is possible that the market for the notes will be subject to disruptions. Any disruptions may have a negative effect on the holders of the notes, regardless of our prospects and financial performance.

We may not be able to repurchase the notes upon a change of control.

Upon the occurrence of specific kinds of change of control events, each holder of notes may require us, subject to certain conditions, to repurchase all or a part of the notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to the date of repurchase. The terms of our then-existing indebtedness or other agreements may require repayment of amounts outstanding in the event of a change of control and limit our ability to fund the repurchase of the notes in certain circumstances. If we experience a Change of Control Repurchase Event, there can be no assurance that we would have sufficient financial resources available to satisfy our obligations to repurchase the notes. Our failure to repurchase the notes as required under the Indenture governing the notes would result in a default under the Indenture, which could have material adverse consequences for us and the holders of the notes. See Description of the Notes Repurchase at the Option of the Holders Offer to Repurchase upon Change of Control.

We may not be required, or we may not be able, to repurchase the notes upon an asset sale.

Under the terms of the indenture governing the notes, we may be required to repurchase all or a portion of the notes following an asset sale at a purchase price equal to 100% of the principal amount of the notes. However, we are only required to repurchase the notes from excess proceeds that we do not use to repay other senior debt or to acquire related businesses or assets. We can also defer the offer to you until there are excess proceeds in an amount greater than \$35 million. In addition, certain of our other senior debt may also require us to repurchase their debt in connection with an asset sale. If this is the case, then the amount of funds available to purchase both the notes and the other senior debt may be insufficient to repurchase all notes and other senior debt.

The change of control put right may not be enforceable.

In a recent decision, the Chancery Court of Delaware raised the possibility that a change of control put right occurring as a result of a failure to have continuing directors comprising a majority of a board of directors might be unenforceable on public policy grounds. Therefore, you may not be entitled to receive this protection under the indenture.

We may pursue acquisitions, dispositions, investments, dividends, share repurchases and/or other corporate transactions that we believe will maximize equity returns of our shareholders but may involve risks to holders of the notes.

From time to time, we consider opportunities for acquisitions of businesses (such as the Sturm Acquisition), product lines or other assets and other strategic transactions. These transactions may involve risks, such as risks of integration of acquired businesses. See [Risks Related to the Sturm Acquisition](#). We may not realize the expected benefits of the Sturm Acquisition because of integration difficulties and other challenges. In addition, if our business performs according to our financial plan, the indenture governing the notes will allow us substantial flexibility to pay dividends on, or make significant repurchases of, our common stock. See [Description of Notes](#) [Certain Covenants](#) [Restricted Payments](#). These transactions will be subject to the discretion of our board of directors. There can be no assurance that we will effect any of these transactions, but, if we do, risks to the holders of the notes may be increased, possibly materially.

USE OF PROCEEDS

We estimate that the net proceeds from this offering will be approximately \$389.8 million after deducting underwriting discounts and our estimated expenses related to the offering. The net proceeds will be used to fund a portion of the cash consideration payable in connection with the Sturm Acquisition and related fees and expenses. The consummation of this offering is conditioned on the simultaneous closing of the Sturm Acquisition, and there can be no assurance that the Sturm Acquisition will be consummated.

We expect that the total cash consideration payable in connection with the Sturm Acquisition will be approximately \$660 million. In addition to the net proceeds from this offering, we expect to use proceeds from the equity offering and borrowings under our credit facility to finance the Sturm Acquisition. As of December 31, 2009, we had cash and cash equivalents of \$4.4 million and \$293 million of available borrowings under our credit facility. If the equity offering is not completed, we may use our credit facility and cash on hand to partially fund the portion of the cash consideration represented by the anticipated proceeds from the equity offering.

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

On December 20, 2009, we entered into a definitive Stock Purchase Agreement to acquire Sturm Foods, Inc., a privately-owned company majority owned by an affiliate of HM Capital Partners, pursuant to which TreeHouse will acquire all of the issued and outstanding capital stock of Sturm for aggregate consideration of \$660 million in cash, subject to adjustments for working capital and other items, payable upon the closing of the Sturm Acquisition. Consummation of the Sturm Acquisition is subject to customary closing conditions. The consummation of this offering of notes is conditioned upon the closing of the Sturm Acquisition.

The unaudited pro forma condensed combined financial information has been prepared to illustrate the effect of the Sturm Acquisition, including related financing. The unaudited pro forma condensed combined balance sheet combines the historical balance sheets of TreeHouse and Sturm, giving effect to the Sturm Acquisition as if it had occurred on December 31, 2009. The unaudited pro forma condensed combined income statements combine the historical income statements of TreeHouse and Sturm, giving effect to the Sturm Acquisition as if it had occurred on January 1, 2009. The historical financial information has been adjusted to give effect to matters that are (i) directly attributable to the Sturm Acquisition, (ii) factually supportable, and (iii) with respect to the statements of income, expected to have a continuing impact on the operating results of the combined company. the unaudited historical financial statements of Sturm as of and for the nine months ended December 31, 2009, included in TreeHouse's Current Report on Form 8-K filed with the SEC on February 16, 2010.

The unaudited pro forma condensed combined financial information has been prepared using the purchase method of accounting, with TreeHouse treated as the acquiror. The unaudited pro forma condensed combined financial information will differ from our final acquisition accounting for a number of reasons, including the fact that our estimates of fair value are preliminary and subject to change when our formal valuation and other studies are finalized. The differences that will occur between the preliminary estimates and the final acquisition accounting could have a material impact on the accompanying unaudited pro forma condensed combined financial information.

The unaudited pro forma condensed combined financial information is presented for informational purposes only. It has been prepared in accordance with the regulations of the SEC and is not necessarily indicative of what our financial position or results of operations actually would have been had we completed the Sturm Acquisition at the dates indicated, nor does it purport to project the future financial position or operating results of the combined company. The unaudited pro forma condensed combined income statement does not reflect any revenue or cost savings from synergies that may be achieved with respect to the combined companies, or the impact of non-recurring items, including restructuring liabilities, directly related to the Sturm Acquisition.

TreeHouse Foods, Inc.
Notes to the Unaudited Pro Forma Condensed Combined Financial Statements
(In thousands)

Note 1 Basis of Presentation

The unaudited pro forma condensed combined balance sheet was prepared using the historical balance sheets of TreeHouse as of December 31, 2009 and Sturm as of December 31, 2009. The unaudited pro forma condensed combined statement of income was prepared using the historical statements of income of TreeHouse for the 12 months ended December 31, 2009 and of Sturm for the 12 months ended December 31, 2009.

The unaudited pro forma combined financial information was prepared using the purchase method of accounting. Based on the terms of the Stock Purchase Agreement, TreeHouse is treated as the acquirer of Sturm. Accordingly, we have adjusted the historical consolidated financial information to give effect to the impact of the consideration issued in connection with the Sturm Acquisition. The purchase price has been allocated in the unaudited pro forma condensed combined balance sheet, based on management's preliminary estimate of their respective values. Definitive allocations will be performed and finalized based upon certain valuation and other studies that will be performed by TreeHouse with the services of outside valuation specialists after the closing. Accordingly, the purchase price allocation adjustments and related amortization reflected in the following unaudited pro forma condensed combined financial statements are preliminary, have been made solely for the purpose of preparing these statements and are subject to revision based on a final determination of fair value after the closing of the Sturm Acquisition. For example, if the value of the finite-lived intangible assets increased by 10%, annual pro forma operating income would decrease by approximately \$13,842.

Note 2 Preliminary Purchase Price Allocation

The purchase price for the Sturm Acquisition is \$660 million, payable at closing. The purchase price of \$660 million has been allocated to the assets acquired and the liabilities assumed as follows:

	(In thousands)
Accounts Receivable	\$ 31,431
Inventory	47,036
Other Current Assets	1,556
Property, Plant and Equipment	82,440
Identifiable Intangible Assets	267,000
Goodwill	398,020
 Total Assets Acquired	 827,483
Accounts Payable	(38,971)
Other Current Liabilities	(16,583)
Other Long-term Liabilities	(1,250)
Deferred Income Taxes	(110,679)
 Total Liabilities Assumed	 (167,483)
 Total Purchase Price	 \$ 660,000

For the purpose of preparing the unaudited pro forma condensed combined financial information, certain of the assets acquired and liabilities assumed have been measured at their estimated fair values as of December 31, 2009. A final determination of fair values will be based on the actual assets and liabilities that will exist on the date of the closing of the Sturm Acquisition and on our formal valuation and other studies when they are finalized. Accordingly, the fair values of the assets and liabilities included in the table above are preliminary and subject to change pending additional information that may become known. An increase in the fair value of inventory, property, plant and equipment, or any identifiable intangible assets will reduce the

S-32

Table of Contents

amount of goodwill in the unaudited pro forma condensed combined financial information, and may result in increased depreciation, and or amortization expense.

Of the \$267,000 of acquired intangible assets, \$250,000 was assigned to Customer Relationships with an estimated economic life of 20 years, \$12,000 to Trademarks with an indefinite life, and \$5,000 to formulas/recipes with an estimated economic life of 5 years. The determination of fair value for these assets was primarily based upon expected discounted cash flows. The determination of useful life was based upon historical acquisition experience, economic factors, and future cash flows of the combined company. The estimated annual amortization expense for these acquired intangible assets is approximately \$13,500, using straight line amortization, and has been included in the unaudited pro forma condensed combined statement of income for the 12 months ended December 31, 2009.

Inventories reflect an adjustment of \$3,200 to record the inventory at its estimated fair value. This amount is recorded in the December 31, 2009 unaudited pro forma condensed combined balance sheet. The increased inventory will temporarily impact our cost of sales after closing and therefore it is considered non-recurring and is not included in the unaudited pro forma condensed combined statement of income for the 12 months ended December 31, 2009.

Property, plant and equipment reflect an adjustment of \$11,644 to record the property, plant and equipment at estimated fair market value. Total depreciation expense on the revalued property, plant, and equipment is estimated to be approximately \$10,148.

A preliminary deferred tax adjustment of \$104,205 has been recognized in accordance with accounting for income taxes. The amount primarily relates to \$98,175 recognized as part of the identifiable intangible assets, plus \$6,030 relating to the tax effect on difference between the values assigned and the estimated tax basis of assets and liabilities acquired.

Note 3 Pro Forma Adjustments

The pro forma adjustments give effect to the Sturm Acquisition under the purchase method of accounting, borrowings under the TreeHouse credit facility, borrowings through the issuance of senior unsecured notes, the repayment of Sturm's exiting indebtedness, the proposed offering of \$100,000 in shares of TreeHouse common stock, and the payment of fees and expenses relating to these transactions.

Note 4 Elimination of Historical Balances

These adjustments reflect the elimination of the Sturm's identifiable intangible assets, debt (excluding capital leases), equity and accrued interest as of December 31, 2009 for the purpose of presenting a pro forma balance sheet assuming the Sturm Acquisition had occurred on December 31, 2009. Also eliminated are Sturm's historical interest expense, depreciation expense and amortization of debt issue costs. According to the terms of the Stock Purchase Agreement, Sturm's cash balances will remain with the sellers. Accordingly, we have eliminated Sturm's cash balances as of December 31, 2009.

Note 5 Debt Financing

These adjustments display the expected debt financing required to fund the Sturm Acquisition and related transaction costs. These adjustments are contingent upon the closing of the Sturm Acquisition and therefore may not occur in the event the Sturm Acquisition is not consummated. For purposes of these unaudited pro forma condensed combined financial statements, we anticipate that we will complete a debt financing at the time the Sturm Acquisition closes. The debt financing is as follows:

Edgar Filing: TreeHouse Foods, Inc. - Form 424B2

senior unsecured notes payable estimated to be due 2018 totaling approximately \$400,000 with an estimated interest rate of approximately 7.50%.

a borrowing under our credit facility of approximately \$182,000 at an estimated interest rate of approximately 1.23%.

S-33

Table of Contents

We expect to incur approximately \$9,000 of financing fees associated with the notes, which will be deferred and amortized over eight years, consistent with the estimated maturity of the debt. These fees will be funded through the use of our credit facility.

We expect to undertake a borrowing under our credit facility to fund the remaining balance of the purchase price (taking into account the proposed equity offering), which is expected to be approximately \$160,000. We also expect to use our credit facility to fund our acquisition costs, which we expect to be approximately \$22,000, of which includes \$9,000 for debt issuance, \$8,250 in other transaction fees that will be expensed, and \$4,750 of stock issuance costs in connection with the equity offering. Total expected additional borrowings under our credit facility related to the Sturm Acquisition are expected to be \$182,000.

In the event TreeHouse is unable to complete the equity offering to fund the acquisition as described in Note 6, we have included additional borrowings of \$100,000 in the long-term debt line. These additional borrowings are offset through the issuance of equity as described in Note 6.

Note 6 Equity Financing

We intend to issue approximately \$100,000 in common stock in a public offering (net of underwriting fees of approximately \$4,750) to fund a portion of the purchase price. Shares to be issued of 2,703 were calculated using an estimated price of \$37 per share. If the price of TreeHouse's common stock increases or decreases by \$1 per share, the number of shares required to be issued would decrease by 71 shares or increase by 75 shares, respectively. The net proceeds have been presented as a reduction to the long-term debt line. The interest on the additional borrowings, and related tax, has also been eliminated.

Note 7 Statement of Income Adjustments

This adjustment eliminates the sales from TreeHouse to Sturm together with Sturm's cost of sales for purchases.

Note 8 Statement of Income Adjustments to Reflect Financing

The adjustment reflects interest expense relating to approximately \$400,000 of debt issued to fund the Sturm Acquisition as further described in Note 3. This expense includes approximately \$1,125 over the next 12 months of amortization expense relating to deferred financing fees expected to be incurred at the time of closing. Also included in this amount is additional interest incurred in connection with the expected borrowing of \$282,000 under our credit facility (assuming there is no equity offering). Total expected interest is \$36,325 (includes \$1,125 of amortization for deferred financing fees), of which \$30,000 relates to the \$400,000 issuance of notes.

The actual rates of interest can change from those that are assumed in Note 3. If the actual rates that are incurred when the notes are issued were to increase or decrease by 0.25% from the rates we have assumed in estimating the pro forma interest adjustment, pro forma interest expense could increase or decrease by approximately \$1,000 per year. Likewise, if our interest rate on our credit facility borrowings were to increase by 1% from 1.23%, pro forma interest could increase by approximately \$4,800 per year (considering the equity offering).

Note 9 Non-Recurring Acquisition Expenses

We expect to incur additional transaction costs, including financial and legal advisory fees of approximately \$8,250 through the closing of the Sturm Acquisition. The total of these costs has been recorded as additional borrowings under our credit facility and a reduction to retained earnings of \$8,250 on the unaudited pro forma condensed

combined balance sheet. These costs are excluded from the unaudited pro forma condensed combined statement of income for the 12 months ended December 31, 2009, as they are considered non-recurring.

Note 10 Tax Adjustments

For purposes of these unaudited pro forma condensed combined financial statements, we used a rate of 38.5%. This rate is an estimate and does not take into account any possible future tax events that may occur for the combined company.

DESCRIPTION OF CERTAIN OTHER INDEBTEDNESS

We had approximately \$403 million of outstanding indebtedness as of December 31, 2009, including approximately \$298 million under our \$600 million revolving credit facility, which matures on August 31, 2011, and \$100 million in our outstanding 6.03% senior notes due 2013.

Revolving Credit Facility

In June 2005, we entered into a \$500 million revolving credit facility with a group of participating financial institutions. All of our obligations under the revolving credit facility are fully and unconditionally guaranteed by Bay Valley Foods, LLC. In August 2007, we amended the credit agreement to, among other things, reduce the available liquidity requirement with respect to permitted acquisitions and reduce the required consolidated interest coverage ratio at the end of each fiscal quarter. We also increased the aggregate commitments under the revolving credit facility from \$500 million to \$600 million. The credit facility provides for a \$75 million letter of credit sublimit, against which \$8.8 million have been issued but undrawn as of December 31, 2009. Proceeds from the credit facility may be used for working capital and general corporate purposes, including acquisition financing. The credit facility terminates on August 31, 2011.

Interest is payable quarterly or at the end of the applicable interest period in arrears on any outstanding borrowings at a customary Eurodollar rate plus the applicable margin, or at a customary base rate. The underlying rate is defined as the rate equal to the British Bankers Association LIBOR rate for eurodollar rate loans, or the higher of the prime lending rate of the administrative agent or federal funds rate plus 0.5% for base rate committed loans. The applicable margin for eurodollar loans is based on our consolidated leverage ratio and ranges from 0.295% to 0.90%. In addition, a facility fee based on our consolidated leverage ratio and ranging from 0.08% to 0.225% is due quarterly on the aggregate commitment under the credit facility. We have entered into an interest rate swap agreement with respect to \$200 million in floating rate debt under the credit facility, which results in our total borrowing cost on this debt being no more than 3.8% until the swap agreement terminates in November 2010. Our average interest rate on debt outstanding under our credit facility at December 31, 2009 was 0.91%.

Our credit facility contains various financial and other restrictive covenants and requires that we maintain leverage and interest coverage ratios. We are in compliance with our financial covenants as of December 31, 2009. Our credit facility requires us to maintain a leverage ratio, as defined in the credit facility, of 3.5 to 1.0, subject to our ability to exceed such ratio, up to 4.0 to 1.0, for a period of four fiscal quarters following the completion of a permitted acquisition (as defined in our credit facility). Our credit facility also contains limitations on liens, investments, the incurrence of subsidiary indebtedness, mergers, dispositions of assets, acquisitions, material lines of business and transactions with affiliates. The credit facility restricts certain payments, including dividends, and prohibits certain agreements restricting the ability of our subsidiaries to make certain payments or to guarantee our obligations under the credit facility. The credit facility contains standard default triggers, including without limitation failure to pay principal, interest or other amounts due and payable, failure to maintain compliance with the financial and other covenants contained in the credit agreement, default on certain of our other debt, the existence of bankruptcy or insolvency proceedings and a change of control.

6.03% Senior Notes

In September 2006, we completed a private placement of \$100 million in aggregate principal of 6.03% senior notes due 2013, pursuant to a note purchase agreement with a group of purchasers. In this prospectus supplement, we refer to these senior notes as our existing notes. All of our obligations under the existing notes are fully and unconditionally

guaranteed by Bay Valley Foods, LLC. The net proceeds of the existing note offering were used to repay outstanding indebtedness under our credit facility. We must pay interest semi-annually in arrears on March 31 and September 30 of each year. The existing notes mature on September 30, 2013.

S-36

Table of Contents

The note purchase agreement contains covenants that limit our ability to, among other things, merge with other entities, change the nature of our business, create liens, incur additional subsidiary indebtedness or sell assets. The note purchase agreement also requires us to maintain certain financial ratios. The maximum permitted leverage ratio is 3.5 to 1.0, subject to our ability to exceed such ratio, up to 4.0 to 1.0, for a maximum of six consecutive fiscal quarters. As of December 31, 2007, we exceeded a leverage ratio of 3.5 to 1.0, requiring an additional interest payment of 1.0% per annum in 2008. Our leverage ratio was under 3.5 to 1.0 at December 31, 2008 and, therefore, we did not pay additional interest in 2009. We are in compliance with the applicable covenants as of December 31, 2009. The events of default under the note purchase agreement include, but are not limited to failure to pay principal or interest, breach of the covenants or warranties, any payment default or acceleration of indebtedness exceeding \$25 million and events of bankruptcy, insolvency or liquidation.

Unrestricted Subsidiaries are not subject to many of the restrictive covenants in the Indenture and will not guarantee these Notes. As of the Issue Date, all of our Subsidiaries, except for our Foreign Subsidiaries and Excluded Subsidiaries, will guarantee the Notes. In the event of a bankruptcy, liquidation or reorganization of any of these non-guarantor Subsidiaries, these non-guarantor Subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to us. As of December 31, 2009, the non-guarantor Subsidiaries had total Indebtedness of approximately \$0.2 million. The non-guarantor Subsidiaries generated approximately 16.3% of our total net sales and 10.9% of our consolidated operating income for the fiscal year ended December 31, 2009 and held approximately 9.6% of our consolidated assets as of December 31, 2009.

The Subsidiary Guarantee of a Guarantor will be released:

- (1) upon any sale or other disposition of all or substantially all of the assets of that Guarantor (including by way of merger or consolidation), in accordance with the Indenture, to any Person who is not (either before or after giving effect to the transaction) the Company or any Restricted Subsidiary;
- (2) if such Guarantor merges with and into the Company, with the Company surviving such merger;
- (3) if such Guarantor is designated an Unrestricted Subsidiary in accordance with the Indenture or otherwise ceases to be a Restricted Subsidiary (including by way of liquidation or dissolution) in a transaction permitted by the Indenture;
- (4) if we exercise our Legal Defeasance option or Covenant Defeasance option as described under Legal Defeasance and Covenant Defeasance or if our obligations under the Indenture are discharged in accordance with the terms of the Indenture as described under Satisfaction and Discharge; or
- (5) if such Guarantor ceases to be a Wholly Owned Restricted Subsidiary and such Guarantor is not otherwise required to provide a Subsidiary Guarantee of the Notes pursuant to the provisions described under Certain Covenants Additional Subsidiary Guarantees.

Principal, Maturity and Interest

The Company will issue an aggregate principal amount of \$400 million of Notes in this offering pursuant to the Supplemental Indenture. The Notes are a series of senior debt securities that the Company may issue under the Base Indenture. The Base Indenture does not limit the maximum aggregate principal amount of Notes or other debt securities that the Company may issue thereunder. From time to time after this offering,

S-39

Table of Contents

the Company may issue additional Notes (the *Additional Notes*) having identical terms and conditions as the Notes being issued in this offering except for issue date, issue price and first interest payment date. The Notes and any Additional Notes subsequently issued would be treated as a single series for all purposes under the Indenture, including, without limitation, waivers, amendments, redemption and offers to purchase. Any offering of Additional Notes under the Indenture is subject to the covenant described below under the caption *Certain Covenants Incurrence of Indebtedness and Issuance of Preferred Stock*.

The Notes will be issued only in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The Notes will mature on March 1, 2018.

Interest on the Notes will accrue at the rate of 7.750% per annum from the Issue Date. Interest is payable semi-annually in arrears on March 1 and September 1, commencing on September 1, 2010. The Company will make each interest payment to the Holders of record of the Notes on the immediately preceding February 15 and August 15.

Interest on the Notes will accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Methods of Receiving Payments on the Notes

If a Holder has given wire transfer instructions to the Company, the Company will make, or cause to be made, all principal, premium and interest payments on the Notes owned by such Holder in accordance with those instructions. All other payments on these Notes will be made at the office or agency of the Paying Agent and Registrar unless the Company elects to make interest payments by check mailed to the Holders at their respective addresses set forth in the register of Holders.

We will pay principal of, premium, if any, and interest on, the Notes in global form registered in the name of The Depository Trust Company or its nominee in immediately available funds to The Depository Trust Company or its nominee, as the case may be, as the registered holder of such global Notes.

Paying Agent and Registrar for the Notes

The Trustee is currently the Paying Agent and Registrar. The Company may change the Paying Agent or Registrar without prior notice to the Holders of the Notes, and the Company or any of its Subsidiaries may act as Paying Agent or Registrar.

Optional Redemption

On or after March 1, 2014, we may redeem all or a part of the Notes upon not less than 30 nor more than 60 days notice, at the redemption prices (expressed as a percentage of principal amount of the Notes) set forth below plus accrued and unpaid interest to the applicable redemption date, if redeemed during the twelve-month period beginning on March 1 of the years indicated below:

Redemption Year	Price
2014	103.875%
2015	101.938%
2016 and thereafter	100.000%

Prior to March 1, 2013, we may, at our option, on any one or more occasions redeem up to 35% of the aggregate principal amount of the Notes issued under the Indenture with the Net Cash Proceeds of one or more Equity Offerings at a redemption price of 107.750% of the principal amount thereof, plus accrued and unpaid interest, if any, to the redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date); *provided* that:

(1) at least 65% of the aggregate principal amount of the Notes issued under the Indenture remains outstanding after each such redemption; and

S-40

Table of Contents

(2) the redemption occurs within 120 days after the closing of such Equity Offering.

In addition, at any time prior to March 1, 2014, we may, at our option, on any one or more occasions redeem all or a part of the Notes upon not less than 30 nor more than 60 days notice, at a redemption price equal to 100% of the principal amount thereof plus the Applicable Premium plus accrued and unpaid interest, if any, to the redemption date.

Applicable Premium means, with respect to a Note at any redemption date, the greater of (i) 1.0% of the principal amount of such Note and (ii) the excess of (A) the present value at such time of (1) the redemption price of such Note at March 1, 2014 (such redemption price being set forth in the table above) plus (2) all required interest payments due on such Note (excluding accrued and unpaid interest to such redemption date) through March 1, 2014, computed using a discount rate equal to the Treasury Rate plus 50 basis points, over (B) the principal amount of such Note.

Treasury Rate means the yield to maturity at the time of computation of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15 (519) which has become publicly available at least two Business Days prior to the redemption date (or, if such Statistical Release is no longer published, any publicly available source or similar market data)) most nearly equal to the period from the redemption date to March 1, 2014; *provided, however*, that if the period from the redemption date to March 1, 2014 is not equal to the constant maturity of a United States Treasury security for which a weekly average yield is given, the Treasury Rate shall be obtained by linear interpolation (calculated to the nearest one-twelfth of a year) from the weekly average yields of United States Treasury securities for which such yields are given, except that if the period from the redemption date to March 1, 2014 is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year shall be used.

If an optional redemption date is on or after an interest record date and on or before the related interest payment date, the accrued and unpaid interest, if any, will be paid to the Person in whose name the Note is registered at the close of business on such record date, and no additional interest will be payable to Holders whose Notes will be subject to redemption by the Company.

Selection and Notice of Redemption

If less than all of the Notes are to be redeemed at any time and the Notes are not in global form, the Trustee will select Notes for redemption as follows:

- (1) if the Notes are listed, in compliance with the requirements of the principal national securities exchange on which the Notes are listed; or
- (2) if the Notes are not so listed, on a *pro rata* basis subject to adjustment for minimum denominations.

No Notes of \$2,000 or less shall be redeemed in part. Notices of redemption shall be mailed by first class mail at least 30 but not more than 60 days before the redemption date to each Holder of Notes to be redeemed at its registered address. Notices of redemption may not be conditional.

If any Note is to be redeemed in part only, the notice of redemption that relates to that Note shall state the portion of the principal amount thereof to be redeemed. A new Note in principal amount equal to the unredeemed portion of the original Note will be issued in the name of the Holder thereof upon cancellation of the original Note. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Notes or portions of them called for redemption.

Mandatory Redemption

We are not required to make mandatory redemption payments or sinking fund payments with respect to the Notes.

Repurchase at the Option of the Holders

Offer to Repurchase upon Change of Control

If a Change of Control occurs, each Holder of Notes will have the right to require the Company to repurchase all or any part (equal to \$2,000 or integral multiples of \$1,000 in excess thereof) of that Holder's Notes pursuant to the Change of Control Offer. In the Change of Control Offer, the Company will offer a Change of Control Payment in cash equal to 101% of the aggregate principal amount of Notes repurchased plus accrued and unpaid interest. Within 30 days following any Change of Control, the Company will mail a notice to each Holder with a copy to the Trustee describing the transaction or transactions that constitute the Change of Control and offering to repurchase Notes on the Change of Control Payment Date specified in such notice, pursuant to the procedures required by the Indenture and described in such notice. The Company will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with the repurchase of the Notes as a result of a Change of Control.

On the Change of Control Payment Date, the Company will, to the extent lawful:

- (1) accept for payment all Notes or portions thereof properly tendered pursuant to the Change of Control Offer;
- (2) deposit with the Paying Agent an amount equal to the Change of Control Payment in respect of all Notes or portions thereof so tendered; and
- (3) deliver or cause to be delivered to the Trustee the Notes so accepted together with an officers' certificate stating the aggregate principal amount of Notes or portions thereof being purchased by the Company.

The Paying Agent will promptly mail to each Holder of Notes so tendered the Change of Control Payment for such Notes, and the Trustee will promptly authenticate and mail (or cause to be transferred by book entry) to each Holder a new Note equal in principal amount to any unpurchased portion of the Notes surrendered, if any; *provided* that each such new Note will be in a principal amount of \$2,000 or integral multiples of \$1,000 in excess thereof. The Company will publicly announce the results of the Change of Control Offer on or as soon as practicable after the Change of Control Payment Date.

The provisions described above that require the Company to make a Change of Control Offer following a Change of Control will be applicable regardless of whether or not any other provisions of the Indenture are applicable. Except as described above with respect to a Change of Control, the Indenture does not contain provisions that permit the Holders of the Notes to require that the Company repurchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction.

If a Change of Control Offer is made, there can be no assurance that the Company will have available funds sufficient to pay for all or any of the Notes that might be delivered by Holders seeking to accept the Change of Control Offer. A Change of Control may constitute an event of default under the terms of the Credit Agreement and may also require an offer to repurchase the Existing Senior Notes. Future Indebtedness of the Company may contain prohibitions on certain events which would constitute a Change of Control or require such Indebtedness to be repurchased upon a Change of Control. In addition, we cannot assure you that in the event of a Change of Control the Company will be able to obtain the consents necessary to consummate a Change of Control Offer from the lenders under agreements governing outstanding Indebtedness which may prohibit the offer.

The Company will not be required to make a Change of Control Offer if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer or (2) a notice of redemption has been given prior to the Change of Control pursuant to the Indenture as described above under the caption Optional Redemption, unless and until there is a default in payment of the applicable redemption price.

Table of Contents

Notwithstanding anything to the contrary contained herein, a Change of Control Offer may be made in advance of a Change of Control and conditioned upon the consummation of such Change of Control, if a definitive agreement with respect to the Change of Control is in place at the time the Change of Control Offer is made.

The definition of "Change of Control" includes a phrase relating to the sale, lease, transfer, conveyance or other disposition of all or substantially all of the assets of the Company and its Subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase "substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a Holder of Notes to require the Company to repurchase such Notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of the Company and its Subsidiaries taken as a whole to another Person or group may be uncertain.

Offer to Repurchase by Application of Excess Proceeds of Asset Sales

The Company will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale unless:

(1) the Company (or the Restricted Subsidiary, as the case may be) receives consideration at the time of such Asset Sale at least equal to the fair market value (measured as of the date of the definitive agreement with respect to such Asset Sale) of the assets or Equity Interests issued or sold or otherwise disposed of, as approved in good faith by the Company's Board of Directors; and

(2) at least 75% of the consideration received in the Asset Sale by the Company or such Restricted Subsidiary is in the form of cash or Cash Equivalents. For purposes of this provision only (and specifically not for the purposes of the definition of "Net Proceeds"), each of the following shall be deemed to be cash:

(i) any liabilities (as shown on the Company's or such Restricted Subsidiary's most recent balance sheet) of the Company or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Notes or any Subsidiary Guarantee) that are assumed by the transferee of any such assets;

(ii) any securities, notes or other obligations received by the Company or any such Restricted Subsidiary from such transferee that within 180 days are converted by the Company or such Restricted Subsidiary into cash (to the extent of the cash received in that conversion);

(iii) the fair market value of (x) any assets (other than securities or current assets) received by the Company or any Restricted Subsidiary that will be used or useful in a Related Business, (y) Equity Interests in a Person that is a Restricted Subsidiary or in a Person engaged in a Related Business that shall become a Restricted Subsidiary immediately upon the acquisition of such Equity Interests by the Company or the applicable Restricted Subsidiary or (z) a combination of (x) and (y); *provided* that the determination of the fair market value of assets or Equity Interests in excess of \$25.0 million received in any transaction or series of related transactions shall be evidenced by an officers certificate delivered to the Trustee; and

(iv) any Designated Noncash Consideration received by the Company or any Restricted Subsidiary in such Asset Sale having an aggregate fair market value, taken together with all other Designated Noncash Consideration received pursuant to this clause (iv) since the Issue Date that is at the time outstanding, not to exceed 5.0% of Consolidated Tangible Assets at the time of receipt of such Designated Noncash Consideration, with the fair market value of each item of Designated Noncash Consideration being measured at the time received and without giving effect to subsequent changes in value.

Table of Contents

Within a period of 360 days (commencing after the Issue Date) after the receipt of any Net Proceeds of any Asset Sale (provided that if during such 360-day period after the receipt of any such Net Proceeds, the Company (or the applicable Restricted Subsidiary) enters into a definitive binding agreement committing it to apply such Net Proceeds in accordance with the requirements of clause (B) or (D) of this paragraph after such 360th day, such 360-day period will be extended with respect to the amount of Net Proceeds so committed for a period not to exceed 180 days until such Net Proceeds are required to be applied in accordance with such agreement (or, if earlier, until termination of such agreement)), the Company or such Restricted Subsidiary, at its option, may apply an amount equal to the Net Proceeds from such Asset Sale:

(A) to repay, prepay, redeem or repurchase Indebtedness (other than securities) under Credit Facilities and, if such Indebtedness is revolving credit Indebtedness, effect a permanent reduction in the availability under such revolving credit facility (or effect a permanent reduction in the availability under such revolving credit facility regardless of the fact that no prepayment is required in order to do so (in which case no prepayment shall be required));

(B) to acquire Equity Interests in a Person that is engaged in a Related Business that shall become a Restricted Subsidiary immediately upon the acquisition of such Equity Interests by the Company or the applicable Restricted Subsidiary;

(C) to make capital expenditures in a Related Business;

(D) to acquire other assets (other than securities or current assets) that will be used or useful in a Related Business; or

(E) a combination of prepayments and investments permitted by the foregoing clauses (A), (B), (C) and (D).

Pending the final application of such Net Proceeds, the Company or any Restricted Subsidiary may temporarily reduce borrowings under the Credit Facilities or any other revolving credit facility, if any, or otherwise invest such Net Proceeds in any manner not prohibited by the Indenture. Subject to the last sentence of the following paragraph, on the 361st day (as extended pursuant to the provisions in the preceding paragraph) after an Asset Sale or such earlier date, if any, as the Board of Directors of the Company or of such Restricted Subsidiary determines not to apply the Net Proceeds relating to such Asset Sale as set forth in clause (A), (B), (C), (D) or (E) of the second preceding sentence (each, a *Net Proceeds Offer Trigger Date*), such aggregate amount of Net Proceeds which have not been applied on or before such Net Proceeds Offer Trigger Date as permitted in clauses (A), (B), (C), (D) or (E) of the second preceding sentence (each a *Net Proceeds Offer Amount*) shall be applied by the Company or such Restricted Subsidiary to make an offer to purchase (the *Net Proceeds Offer*) on a date (the *Net Proceeds Offer Payment Date*) not less than 30 nor more than 60 days following the applicable Net Proceeds Offer Trigger Date, from all Holders (and, if required by the terms of any other Indebtedness of the Company ranking *pari passu* with the Notes in right of payment and which has similar provisions requiring the Company either to make an offer to repurchase or to otherwise repurchase, redeem or repay such Indebtedness with the proceeds from Asset Sales (the *Pari Passu Indebtedness*), from the holders of such *Pari Passu Indebtedness*) on a *pro rata* basis (in proportion to the respective principal amounts or accreted value, as the case may be, of the Notes and any such *Pari Passu Indebtedness*) an aggregate principal amount of Notes (plus, if applicable, an aggregate principal amount or accreted value, as the case may be, of *Pari Passu Indebtedness*) equal to the Net Proceeds Offer Amount. The offer price in any Net Proceeds Offer shall be equal to 100% of the principal amount of the Notes (or 100% of the principal amount or accreted value, as the case may be, of such *Pari Passu Indebtedness*), plus accrued and unpaid interest thereon, if any, to the Net Proceeds Offer Payment Date.

Notwithstanding the foregoing, if at any time any non-cash consideration received by the Company or any Restricted Subsidiary, as the case may be, in connection with any Asset Sale is converted into or sold or otherwise disposed of for cash (other than interest received with respect to any such non-cash consideration), then such conversion or

disposition shall be deemed to constitute an Asset Sale hereunder and the Net Proceeds thereof shall be applied in accordance with this covenant. The Company may defer the Net Proceeds Offer until there is an aggregate unutilized Net Proceeds Offer Amount equal to or in excess of \$35.0 million

S-44

Table of Contents

resulting from one or more Asset Sales (at which time the entire unutilized Net Proceeds Offer Amount, and not just the amount in excess of \$35.0 million, shall be applied as required pursuant to this paragraph, and in which case the Net Proceeds Offer Trigger Date shall be deemed to be the earliest date that the Net Proceeds Offer Amount is equal to or in excess of \$35.0 million).

Each Net Proceeds Offer will be mailed to the record Holders as shown on the register of Holders within 25 days following the Net Proceeds Offer Trigger Date, with a copy to the Trustee, and shall comply with the procedures set forth in the Indenture. Upon receiving notice of the Net Proceeds Offer, Holders may elect to tender their Notes in whole or in part in denominations of \$2,000 or integral multiples of \$1,000 in excess thereof in exchange for cash. To the extent that the aggregate principal amount of Notes (plus, if applicable, the aggregate principal amount or accreted value, as the case may be, of Pari Passu Indebtedness) validly tendered by the Holders thereof and not withdrawn exceeds the Net Proceeds Offer Amount, Notes of tendering Holders (and, if applicable, Pari Passu Indebtedness tendered by the holders thereof) will be purchased on a *pro rata* basis (based on the principal amount of the Notes and, if applicable, the principal amount or accreted value, as the case may be, of any such Pari Passu Indebtedness tendered and not withdrawn). To the extent that the aggregate amount of the Notes (plus, if applicable, the aggregate principal amount or accreted value, as the case may be, of any Pari Passu Indebtedness) tendered pursuant to a Net Proceeds Offer is less than the Net Proceeds Offer Amount, the Company may use such excess Net Proceeds Offer Amount for general corporate purposes or for any other purpose not prohibited by the Indenture. Upon completion of any such Net Proceeds Offer, the Net Proceeds Offer Amount shall be reset at zero. A Net Proceeds Offer shall remain open for a period of 20 Business Days or such longer period as may be required by applicable law.

The Company or the applicable Restricted Subsidiary, as the case may be, will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with the repurchase of Notes pursuant to a Net Proceeds Offer. To the extent that the provisions of any securities laws or regulations conflict with the Asset Sale provisions of the Indenture, the Company or such Restricted Subsidiary shall comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations under the Asset Sale provisions of the Indenture by virtue thereof.

Certain Covenants

Covenant Suspension

If on any date following the Issue Date the Notes have an Investment Grade Rating from both Rating Agencies and no Default or Event of Default has occurred and is continuing under the Indenture, then beginning on that day and subject to the provisions of the following paragraph, the provisions specifically listed under the following captions in this prospectus supplement will be suspended:

Repurchase at the Option of the Holders Offer to Repurchase by Application of Excess Proceeds of Asset Sales,

Restricted Payments,

Incurrence of Indebtedness and Issuance of Preferred Stock,

Limitations on Layering Indebtedness,

clause (3) of Certain Covenants Merger, Consolidation or Sale of Assets,

Dividend and Other Payment Restrictions Affecting Subsidiaries and

Transactions with Affiliates

(collectively, the *Suspended Covenants*). The period during which covenants are suspended pursuant to this section is called the Suspension Period. The Company will notify the Trustee of the continuance and termination of any Suspension Period.

S-45

Table of Contents

In the event that the Company and the Restricted Subsidiaries are not subject to the Suspended Covenants for any period of time as a result of the second preceding sentence and, subsequently, one of the Rating Agencies withdraws its ratings or downgrades the rating assigned to the Notes so that the Notes no longer have Investment Grade Ratings from both Rating Agencies or a Default or Event of Default occurs and is continuing, then the Company and the Restricted Subsidiaries will from such time and thereafter again be subject to the Suspended Covenants and compliance with the Suspended Covenants with respect to Restricted Payments made after the time of such withdrawal, Default or Event of Default will be calculated in accordance with the terms of the covenant described below under the caption Restricted Payments and Incurrence of Indebtedness and Issuance of Preferred Stock as though such covenant had been in effect during the entire period of time from the Issue Date. Notwithstanding the foregoing and any other provision of the Indenture, the Notes or the Subsidiary Guarantees, no Default or Event of Default shall be deemed to exist under the Indenture, the Notes or the Subsidiary Guarantees with respect to the Suspended Covenants based on, and none of the Company or any of the Restricted Subsidiaries shall bear any liability with respect to the Suspended Covenants for, (a) any actions taken or events occurring during a Suspension Period (including without limitation any agreements, Liens, preferred stock, obligations (including Indebtedness), or of any other facts or circumstances or obligations that were incurred or otherwise came into existence during a Suspension Period) or (b) any actions required to be taken at any time pursuant to any contractual obligation entered into during a Suspension Period, regardless of whether such actions or events would have been permitted if the applicable Suspended Covenants remained in effect during such period.

Restricted Payments

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly:

(1) declare or pay any dividend or make any other payment or distribution on account of the Company's or any of its Restricted Subsidiaries' Equity Interests (including, without limitation, any payment in connection with any merger or consolidation involving the Company or any of its Restricted Subsidiaries) or to the direct or indirect holders of the Company's or any of its Restricted Subsidiaries' Equity Interests in their capacity as such (other than (i) dividends or distributions payable in Equity Interests (other than Disqualified Stock) of the Company or (ii) to the Company or a Restricted Subsidiary of the Company);

(2) purchase, repurchase, redeem, defease or otherwise acquire or retire for value (including, without limitation, in connection with any merger or consolidation involving the Company) any Equity Interests of the Company or any direct or indirect parent of the Company, in each case held by Persons other than the Company or a Restricted Subsidiary of the Company;

(3) make any payment on or with respect to, or purchase, repurchase, redeem, defease or otherwise acquire or retire for value any Indebtedness that is subordinated to the Notes or the Subsidiary Guarantees, except a payment of interest or principal at the Stated Maturity thereof (other than intercompany Indebtedness between or among the Company and its Restricted Subsidiaries); or

(4) make any Restricted Investment;

(all such payments and other actions set forth in clauses (1) through (4) above being collectively referred to as *Restricted Payments*), unless, at the time of and after giving effect to such Restricted Payment:

(a) no Default or Event of Default shall have occurred and be continuing or would occur as a consequence of such Restricted Payment; and

(b) the Company would, at the time of such Restricted Payment and after giving pro forma effect thereto as if such Restricted Payment had been made at the beginning of the applicable four-quarter period, have been permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described below under the caption Incurrence of Indebtedness and Issuance of Preferred Stock ;

S-46

(c) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by the Company and its Restricted Subsidiaries after the date of the Indenture (excluding Restricted Payments permitted by clause (2), (3), (4), (5) or (9) of the next succeeding paragraph), is less than the sum, without duplication, of:

(i) 50% of the cumulative Consolidated Net Income of the Company for the period (taken as one accounting period) commencing on the first day of the fiscal quarter in which the Issue Date occurs to and ending on the last day of the fiscal quarter ended immediately prior to the date of such calculation for which internal financial statements are available at the time of such Restricted Payment (or, if such Consolidated Net Income for such period is a deficit, less 100% of such deficit); *plus*

(ii) 100% of the aggregate net proceeds (including the fair market value of property other than cash) received by the Company after the date of the Indenture as a contribution to its common equity capital or from the issue or sale of Equity Interests of the Company (other than Disqualified Stock and other than the net proceeds received in connection with the intended Common Stock offering to be used to fund a portion of the Sturm Acquisition) or from the issue or sale of Disqualified Stock or debt securities of the Company that have been converted into or exchanged for such Equity Interests (other than Equity Interests (or Disqualified Stock or debt securities) sold to a Subsidiary of the Company); *plus*

(iii) to the extent that any Restricted Investment that was made after the date of the Indenture is sold for cash or otherwise liquidated or repaid for cash, the lesser of (x) the cash return of capital with respect to such Restricted Investment (less the cost of disposition, if any) and (y) the initial amount of such Restricted Investment; *plus*

(iv) upon redesignation of an Unrestricted Subsidiary as a Restricted Subsidiary, the lesser of (x) the fair market value of the Company's Investment in such Subsidiary as of the date of redesignation and (y) such fair market value as of the date such Subsidiary was originally designated as an Unrestricted Subsidiary.

The preceding provision will not prohibit:

(1) the payment of any dividend within 60 days after the date of declaration thereof, if at said date of declaration such payment would have complied with the provisions of the Indenture;

(2) the redemption, repurchase, retirement, defeasance or other acquisition of any subordinated Indebtedness of the Company or any of its Restricted Subsidiaries or any Equity Interests of the Company or any of its Restricted Subsidiaries in exchange for, or out of the net cash proceeds of the substantially concurrent sale (other than to a Restricted Subsidiary of the Company) of, Equity Interests of the Company (other than Disqualified Stock); *provided* that the amount of any such net cash proceeds that are utilized for any such redemption, repurchase, retirement, defeasance or other acquisition shall be excluded from clause (c)(ii) of the preceding paragraph;

(3) the redemption, repurchase, retirement, defeasance or other acquisition of subordinated Indebtedness or Disqualified Stock of the Company or any of its Restricted Subsidiaries with the net cash proceeds from a substantially concurrent incurrence of Permitted Refinancing Indebtedness;

(4) the repurchase, redemption or other acquisition or retirement for value of any Equity Interests of the Company or any Restricted Subsidiary of the Company held by any member of the Company's (or any of its Restricted Subsidiaries') management pursuant to any management equity subscription agreement, stock option agreement, employment agreement, severance agreement or other executive compensation arrangement; *provided* that the aggregate price paid for all such repurchased, redeemed, acquired or retired Equity Interests shall not exceed \$5.0 million in any twelve-month period (provided that the Company may carry over and make in a subsequent

calendar year, commencing with 2011, in addition to the amounts permitted for such calendar year, up to

- \$2.0 million of unutilized capacity under this clause (4) attributable to the immediately preceding calendar year;
- (5) the repurchase of Equity Interests deemed to occur upon the exercise of stock options to the extent such Equity Interests represent a portion of the exercise price of those stock options;
- (6) payments to holders of the Company's capital stock in lieu of the issuance of fractional shares of its Capital Stock;
- (7) the redemption, repurchase, retirement, defeasance or other acquisition of Disqualified Stock of the Company in exchange for Disqualified Stock of the Company that is permitted to be issued as described below under the caption **Incurrence of Indebtedness and Issuance of Preferred Stock**;
- (8) the purchase, redemption, acquisition, cancellation or other retirement for a nominal value per right of any rights granted to all the holders of Common Stock of the Company pursuant to any shareholders' rights plan adopted for the purpose of protecting shareholders from unfair takeover tactics; provided, that any such purchase, redemption, acquisition, cancellation or other retirement of such rights is not for the purpose of evading the limitations of this covenant (all as determined in good faith by a senior financial officer of the Company); and
- (9) other Restricted Payments in an aggregate amount since the Issue Date not to exceed \$100.0 million under this clause (9).

provided that in the case of clauses (4), (5) and (9), no Default shall have occurred and be continuing.

The amount of all Restricted Payments (other than cash) shall be the fair market value on the date of the Restricted Payment of the asset(s) or securities proposed to be transferred or issued by the Company or such Restricted Subsidiary, as the case may be, pursuant to the Restricted Payment. The fair market value of any assets or securities that are required to be valued by this covenant shall be determined in good faith by the Board of Directors whose resolution with respect thereto shall be delivered to the Trustee. With respect to any Restricted Payment permitted pursuant to clause (2), (3) or (7) of the preceding paragraph, not later than 10 days following the end of the fiscal quarter in which such Restricted Payment was made, the Company shall deliver to the Trustee an officer's certificate stating that such Restricted Payment is permitted and setting forth the basis upon which the calculations required by this Restricted Payments covenant were computed.

The Board of Directors may designate any Restricted Subsidiary to be an Unrestricted Subsidiary in accordance with the definition of Unrestricted Subsidiary if the designation would not cause a Default. All outstanding Investments owned by the Company and its Restricted Subsidiaries in the designated Unrestricted Subsidiary will be treated as an Investment made at the time of the designation and will reduce the amount available for Restricted Payments under the first paragraph of this covenant or Permitted Investments, as applicable. All such outstanding Investments will be treated as Restricted Investments equal to the fair market value of such Investments at the time of the designation. The designation will not be permitted if such Restricted Payment would not be permitted at that time and if such Restricted Subsidiary does not otherwise meet the definition of an Unrestricted Subsidiary. The Board of Directors may redesignate any Unrestricted Subsidiary to be a Restricted Subsidiary in accordance with the definition of Unrestricted Subsidiary.

Incurrence of Indebtedness and Issuance of Preferred Stock

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, issue, assume, guarantee or otherwise become directly or indirectly liable, contingently or otherwise, with respect to (collectively, *incur*) any Indebtedness (including Acquired Debt), and the Company will not issue any Disqualified Stock and will not permit any of its Restricted Subsidiaries to issue any shares of preferred stock; *provided, however,*

that the Company and any of the Guarantors may incur Indebtedness (including Acquired Debt) or issue Disqualified Stock, and the Guarantors may issue preferred stock, if the Fixed Charge Coverage Ratio for the Company's most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional

Indebtedness is incurred or such Disqualified Stock or preferred stock is issued would have been at least 2.0 to 1.0, determined on a pro forma basis (including a pro forma application of the net proceeds therefrom) as if the additional Indebtedness had been incurred, or the Disqualified Stock or preferred stock had been issued, as the case may be, at the beginning of such four-quarter period.

The first paragraph of this covenant will not prohibit the incurrence of any of the following items of Indebtedness (collectively, *Permitted Debt*):

(1) the incurrence by the Company and its Restricted Subsidiaries of Indebtedness and letters of credit under Credit Facilities in an aggregate amount at any time outstanding (with letters of credit being deemed to have an amount equal to the maximum potential liability of the Company and its Restricted Subsidiaries thereunder) not to exceed the greater of \$600.0 million or the Borrowing Base, less the aggregate amount of all Net Proceeds of Asset Sales applied by the Company or any of its Restricted Subsidiaries to repay Indebtedness and permanently reduce commitments under Credit Facilities pursuant to the covenant described above under the caption *Repurchase at the Option of the Holders Offer to Repurchase by Application of Excess Proceeds of Asset Sales* ;

(2) the incurrence by the Company and its Restricted Subsidiaries of Existing Indebtedness;

(3) the incurrence by the Company and the Guarantors of Indebtedness represented by the Notes and Subsidiary Guarantees to be issued on the Issue Date;

(4) the incurrence by the Company or any of its Restricted Subsidiaries of Indebtedness represented by Capital Lease Obligations, mortgage financings or purchase money obligations, in each case, incurred for the purpose of financing all or any part of the purchase price or cost of construction or improvement of property, plant or equipment used in the business of the Company or such Restricted Subsidiary, in an aggregate principal amount, including all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred pursuant to this clause (4), not to exceed \$25.0 million at any time outstanding;

(5) the incurrence by the Company or any of its Restricted Subsidiaries of Permitted Refinancing Indebtedness in exchange for, or the net proceeds of which are used to refund, refinance or replace, Indebtedness incurred under clauses (2) or (3) above or this clause (5) or pursuant to the first paragraph of this covenant;

(6) the incurrence by the Company or any of its Restricted Subsidiaries of Indebtedness owed to the Company or any of its Restricted Subsidiaries; *provided, however*, that:

(a) if the Company or any Guarantor is the obligor on such Indebtedness, such Indebtedness must be expressly subordinated to the prior payment in full in cash of all Obligations with respect to the Notes, in the case of the Company, or the Subsidiary Guarantee of such Guarantor, in the case of a Guarantor; and

(b) (i) any subsequent issuance or transfer of Equity Interests that results in any such Indebtedness being held by a Person other than the Company or a Restricted Subsidiary thereof and (ii) any sale or other transfer of any such Indebtedness to a Person that is not either the Company or a Restricted Subsidiary thereof shall be deemed, in each case, to constitute an incurrence of such Indebtedness by the Company or such Restricted Subsidiary, as the case may be, that was not permitted by this clause (6);

(7) the incurrence by the Company or any of its Restricted Subsidiaries of Indebtedness under Hedging Obligations entered into for *bona fide* hedging purposes of the Company or any Restricted Subsidiary and not for the purpose of speculation; *provided* that in the case of Hedging Obligations relating to interest rates, (a) such Hedging Obligations relate to payment obligations on Indebtedness otherwise permitted to be incurred by this covenant and (b) the notional

principal amount of such Hedging Obligations at the time incurred does not exceed the principal amount of the Indebtedness to which such Hedging Obligations relate;

(8) the Guarantee by the Company or any of its Restricted Subsidiaries of Indebtedness of the Company or a Restricted Subsidiary of the Company that was permitted to be incurred by another provision of this covenant and could have been incurred (in compliance with this covenant) by the Person so Guaranteeing such Indebtedness;

(9) the incurrence of Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument inadvertently (except in the case of daylight overdrafts) drawn against insufficient funds in the ordinary course of business; *provided, however*, that such Indebtedness is extinguished within five Business Days of incurrence;

(10) the incurrence of Indebtedness of the Company or any of its Restricted Subsidiaries in respect of security for workers' compensation claims, payment obligations in connection with self-insurance, performance, surety and similar bonds and completion guarantees provided by the Company or any of its Restricted Subsidiaries in the ordinary course of business; *provided*, that the underlying obligation to perform is that of the Company and its Restricted Subsidiaries and not that of the Company's Unrestricted Subsidiaries; *provided further*, that such underlying obligation is not in respect of borrowed money;

(11) the incurrence of Indebtedness that may be deemed to arise as a result of agreements of the Company or any Restricted Subsidiary of the Company providing for indemnification, adjustment of purchase price, earn-out or similar Obligations, in each case, incurred or assumed in connection with the disposition of any business or assets of the Company or any Restricted Subsidiary or Equity Interests of a Restricted Subsidiary; *provided* that (a) any amount of such Obligations included on the face of the balance sheet of the Company or any Restricted Subsidiary shall not be permitted under this clause (11) and (b) the maximum aggregate liability in respect of all such Obligations outstanding under this clause (11) shall at no time exceed the gross proceeds actually received by the Company and the Restricted Subsidiaries in connection with such disposition;

(12) Indebtedness incurred under commercial letters of credit issued for the account of the Company or any of its Restricted Subsidiaries in the ordinary course of business (and not for the purpose of, directly or indirectly, incurring Indebtedness or providing credit support or a similar arrangement in respect of Indebtedness), provided that any drawing under any such letter of credit is reimbursed in full within seven days or Indebtedness of the Company or any of its Restricted Subsidiaries under letters of credit and bank guarantees backstopped by letters of credit under the Credit Facilities;

(13) Indebtedness of Foreign Restricted Subsidiaries in an aggregate principal amount not to exceed \$50.0 million at any one time outstanding;

(14) any Attributable Indebtedness; provided that the aggregate Indebtedness incurred pursuant to this clause (14) shall not exceed \$25 million at any time outstanding;

(15) Indebtedness in respect of Receivables Program Obligations; and

(16) the incurrence by the Company or any of its Restricted Subsidiaries of additional Indebtedness in an aggregate principal amount (or accreted value, as applicable) at any time outstanding, including all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred pursuant to this clause (16), not to exceed \$100.0 million.

For purposes of determining compliance with this Incurrence of Indebtedness and Issuance of Preferred Stock covenant, in the event that an item of proposed Indebtedness meets the criteria of more than one of the categories of Permitted Debt described in clauses (1) through (16) above, or is entitled to be incurred pursuant to the first paragraph

of this covenant, the Company will be permitted to classify such item of Indebtedness on the date of its incurrence (or later reclassify such Indebtedness in whole or in part) in any manner that complies with this covenant. In addition, the accrual of interest, accretion or amortization of original issue discount, the payment of interest on any Indebtedness in the form of additional Indebtedness with the same terms, and the payment of dividends on Disqualified Stock in the form of additional shares of

S-50

Table of Contents

the same class of Disqualified Stock will not be treated as an incurrence of Indebtedness; *provided*, in each such case, that the amount thereof is included in Fixed Charges of the Company as accrued. Notwithstanding the foregoing, any Indebtedness outstanding pursuant to the Credit Agreement on the date of the Indenture will be deemed to have been incurred pursuant to clause (1) of the definition of Permitted Debt.

Notwithstanding the foregoing, the maximum amount of Indebtedness that may be incurred pursuant to this covenant shall not be deemed to be exceeded with respect to any outstanding Indebtedness due solely to the result of fluctuations in the exchange rates of currencies.

For purposes of determining compliance with any U.S. dollar denominated restriction on the incurrence of Indebtedness where the Indebtedness incurred is denominated in a different currency, the amount of such Indebtedness will be the U.S. Dollar Equivalent determined on the date of the incurrence of such Indebtedness; *provided, however*, that if any such Indebtedness denominated in a different currency is subject to a Currency Protection Agreement with respect to U.S. dollars covering all principal, premium, if any, and interest payable on such Indebtedness, the amount of such Indebtedness expressed in U.S. dollars will be as provided in such Currency Protection Agreement. The principal amount of any Permitted Refinancing Indebtedness incurred in the same currency as the Indebtedness being refinanced will be the U.S. Dollar Equivalent of the Indebtedness refinanced, except to the extent that (1) such U.S. Dollar Equivalent was determined based on a Currency Protection Agreement, in which case the Permitted Refinancing Indebtedness will be determined in accordance with the preceding sentence, and (2) if the principal amount of the Permitted Refinancing Indebtedness exceeds the principal amount of the Indebtedness being refinanced, the U.S. Dollar Equivalent of such excess, as appropriate, will be determined on the date such Permitted Refinancing Debt is incurred.

Limitations on Layering Indebtedness

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, incur any Indebtedness that is or purports to be by its terms (or by the terms of any agreement governing such Indebtedness) subordinated in right of payment to any other Indebtedness of the Company or of such Restricted Subsidiary, as the case may be, unless such Indebtedness is also by its terms (or by the terms of any agreement governing such Indebtedness) made expressly subordinated in the right of payment to the Notes or the Subsidiary Guarantee of such Restricted Subsidiary, to the same extent and in the same manner as such Indebtedness is subordinated in right of payment to such other Indebtedness of the Company or such Restricted Subsidiary, as the case may be.

For purposes of the foregoing, no Indebtedness will be deemed to be subordinated in right of payment to any other Indebtedness of the Company or any Restricted Subsidiary solely by virtue of being unsecured or secured by a junior priority Lien or by virtue of the fact that the holders of such Indebtedness have entered into intercreditor agreements or other arrangements giving one or more of such holders priority over the other holders in the collateral held by them, including intercreditor agreements that contain customary provisions requiring turnover by holders of junior priority Liens of proceeds of collateral in the event that the security interests in favor of the holders of the senior priority in such intended collateral are not perfected or invalidated and similar customary provisions protecting the holders of senior priority Liens.

Liens

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, (1) assign or convey any right to receive income on any property or asset now owned or hereafter acquired or (2) create, incur, assume or suffer to exist any Lien of any kind securing Indebtedness or trade payables on any property or asset now owned or hereafter acquired or on any income or profits therefrom other than, in each case, Permitted Liens, unless the Notes and the Subsidiary Guarantees, as applicable, are

(1) in the case of any Lien securing an Obligation that ranks pari passu with the Notes or a Subsidiary Guarantee, effective provision is made to secure the Notes or such Subsidiary Guarantee, as the case may be, at least equally and ratably with or prior to such Obligation with a Lien on the same properties or assets of the Company or such Restricted Subsidiary, as the case may be; and

S-51

Table of Contents

(2) in the case of any Lien securing an Obligation that is subordinated in right of payment to the Notes or a Subsidiary Guarantee, effective provision is made to secure the Notes or such Subsidiary Guarantee, as the case may be, with a Lien on the same properties or assets of the Company or such Restricted Subsidiary, as the case may be, that is prior to the Lien securing such subordinated obligation, in each case, for so long as such Obligation is secured by such Lien.

Dividend and Other Payment Restrictions Affecting Subsidiaries

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or permit to exist or become effective any encumbrance or restriction on the ability of any Restricted Subsidiary to:

(1) pay dividends or make any other distributions on its Capital Stock to the Company or any of the Company's Restricted Subsidiaries, or with respect to any other interest or participation in, or measured by, its profits, or pay any Indebtedness owed to the Company or any of the Company's Restricted Subsidiaries;

(2) make loans or advances to the Company or any of the Company's Restricted Subsidiaries; or

(3) transfer any of its properties or assets to the Company or any of the Company's Restricted Subsidiaries.

However, the preceding restrictions will not apply to encumbrances or restrictions existing under or by reason of:

(1) agreements governing Existing Indebtedness and the Credit Agreement as in effect on the date of the Indenture and any amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings of those agreements, provided that such amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings are not materially more restrictive, taken as a whole, with respect to such dividend and other payment restrictions than those contained in such agreements on the Issue Date;

(2) the Indenture, the Notes and the related Subsidiary Guarantees;

(3) applicable law;

(4) any instrument governing Indebtedness or Capital Stock of a Person acquired by the Company or any of its Restricted Subsidiaries as in effect at the time of such acquisition (except to the extent such Indebtedness was incurred or Capital Stock was issued in connection with or in contemplation of such acquisition), which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person, or the property or assets of the Person, so acquired, *provided* that, in the case of Indebtedness, such Indebtedness was permitted by the terms of the Indenture to be incurred;

(5) customary non-assignment provisions in leases, licenses, contracts and other agreements entered into in the ordinary course of business and consistent with past practices;

(6) purchase money obligations for property acquired in the ordinary course of business that impose restrictions on the property so acquired of the nature described in clause (3) of the preceding paragraph;

(7) any agreement for the sale or other disposition of all or substantially all the Capital Stock or assets of a Restricted Subsidiary that restricts distributions by such Restricted Subsidiary pending the closing of such sale or other disposition;

(8) agreements governing Permitted Refinancing Indebtedness, *provided* that the restrictions contained in the agreements governing such Permitted Refinancing Indebtedness are not materially

S-52

more restrictive, taken as a whole, than those contained in the agreements governing the Indebtedness being refinanced;

(9) any agreement creating a Lien securing Indebtedness otherwise permitted to be incurred pursuant to the provisions of the covenant described above under the caption Liens, to the extent limiting the right of the Company or any of its Restricted Subsidiaries to dispose of the assets subject to such Lien;

(10) provisions with respect to the disposition or distribution of assets or property in joint venture agreements and other similar agreements entered into in the ordinary course of business;

(11) customary restrictions on a Receivables Subsidiary and Receivables Program Assets effected in connection with a Qualified Receivables Transaction;

(12) restrictions on cash or other deposits or net worth imposed by customers under contracts entered into in the ordinary course of business; and

(13) agreements governing Indebtedness incurred in compliance with clause (4) of the covenant described under Incurrence of Indebtedness and Issuance of Preferred Stock, provided that such encumbrances or restrictions apply only to assets financed with the proceeds of such Indebtedness.

Merger, Consolidation or Sale of Assets

(a) The Company will not, directly or indirectly, in a single transaction or series of related transactions, consolidate or merge with or into any other Person or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets (determined on a consolidated basis) to any Person or group of affiliated Persons, or permit any of its Restricted Subsidiaries to enter into any such transaction or transactions if such transaction or transactions, in the aggregate, would result in sale, assignment transfer, lease, conveyance or other disposition of all or substantially all of the properties or assets of the Company and its Restricted Subsidiaries taken as a whole to any other Person or group of Persons unless:

(1) either:

(a) the Company shall be the surviving or continuing corporation or

(b) the Person formed by or surviving such consolidation or merger (if other than the Company) or the Person to which such sale, assignment, transfer, lease, conveyance or other disposition has been made is (the *Surviving Entity*) a corporation organized and validly existing under the laws of the United States, any State thereof or the District of Columbia;

(2) the Surviving Entity, if applicable expressly assumes, by supplemental indenture (in form and substance reasonably satisfactory to the Trustee), executed and delivered to the Trustee, the due and punctual payment of the principal of and premium, if any, and interest on all of the Notes and the performance of every covenant of the Notes and the Indenture on the part of the Company to be performed or observed;

(3) immediately after giving pro forma effect to such transaction or series of transactions and the assumption contemplated by clause (2) above (including giving effect to any Indebtedness and Acquired Debt, in each case, incurred or anticipated to be incurred in connection with or in respect of such transaction), the Company or the Surviving Entity, as the case may be, shall be (a) able to incur at least \$1.00 of additional Indebtedness (other than Permitted Debt) pursuant to the covenant described under Incurrence of Indebtedness and Issuance of Preferred Stock

or (b) have a Fixed Charge Coverage Ratio that is greater than the Fixed Charge Coverage Ratio of the Company immediately prior to such consolidation, merger, sale, assignment, transfer, conveyance or other disposition; *provided, however*, that this clause (3) shall not apply during any Suspension Period;

S-53

Table of Contents

(4) immediately after giving effect to such transaction or series of transactions and the assumption contemplated by clause (2) above (including, without limitation, giving effect to any Indebtedness and Acquired Debt, in each case, incurred or anticipated to be incurred and any Lien granted in connection with or in respect of such transaction), no Default or Event of Default shall have occurred and be continuing; and

(5) the Company or the Surviving Entity, as the case may be, shall have delivered to the Trustee an officers certificate and an Opinion of Counsel, each stating that such consolidation, merger, sale, assignment, transfer, lease, conveyance or other disposition and, if a supplemental indenture is required in connection with such transaction, such supplemental indenture, complies with the applicable provisions of the Indenture and that all conditions precedent in the Indenture relating to such transaction have been satisfied.

Notwithstanding the foregoing, the merger of the Company with an Affiliate incorporated solely for the purpose of reincorporating the Company in another jurisdiction shall be permitted without regard to clause (3) of the immediately preceding paragraph. For purposes of the foregoing, the transfer (by lease, assignment, sale or otherwise, in a single transaction or series of transactions) of all or substantially all of the properties or assets of one or more Restricted Subsidiaries of the Company the Capital Stock of which constitutes all or substantially all of the properties and assets of the Company, shall be deemed to be the transfer of all or substantially all of the properties and assets of the Company.

The Indenture provides that upon any consolidation or merger of the Company or any sale, assignment, transfer, lease, conveyance or other disposition of all or substantially all of the assets of the Company in accordance with the foregoing in which the Company is not the continuing corporation, the Surviving Entity formed by such consolidation or into which the Company is merged or to which such sale, assignment, transfer, lease, conveyance or other disposition is made shall succeed to, and be substituted for, and may exercise every right and power of, the Company under the Indenture and the Notes with the same effect as if such Surviving Entity had been named as such; *provided, however*, that the Company shall not be released from its obligations under the Indenture or the Notes in the case of a lease.

(b) Each Guarantor will not, and the Company will not cause or permit any Guarantor to, directly or indirectly, in a single transaction or series of related transactions, consolidate or merge with or into any Person other than the Company or any other Guarantor unless:

(1) if the Guarantor was a corporation or limited liability company under the laws of the United States, any State thereof or the District of Columbia, the entity formed by or surviving any such consolidation or merger (if other than the Guarantor) is a corporation or limited liability company organized and existing under the laws of the United States, any State thereof or the District of Columbia;

(2) such entity assumes by supplemental indenture all of the obligations of the Guarantor under its Subsidiary Guarantee;

(3) immediately after giving effect to such transaction, no Default or Event of Default shall have occurred and be continuing; and

(4) immediately after giving effect to such transaction and the use of any net proceeds therefrom on a pro forma basis, the Company could satisfy the provisions of clause (a)(3) of this covenant.

Notwithstanding the foregoing, the requirements of the immediately preceding paragraph will not apply to any transaction pursuant to which such Guarantor is permitted to be released from its Subsidiary Guarantee in accordance

with the provisions described under the last paragraph of Brief Description of the Notes and the Guarantees The
Subsidiary Guarantees.

Transactions with Affiliates

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, make any payment to, or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, loan, advance or guarantee with, or for the benefit of, any Affiliate of the Company or any of its Restricted Subsidiaries (each, an *Affiliate Transaction*), unless:

(1) such Affiliate Transaction is on terms that are no less favorable to the Company or the relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction at such time by the Company or such Restricted Subsidiary with a Person who is not an Affiliate of the Company or such Restricted Subsidiary; and

(2) the Company delivers to the Trustee:

(a) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of \$10.0 million, a resolution of the Board of Directors set forth in an officers' certificate certifying that such Affiliate Transaction complies with this covenant and that such Affiliate Transaction has been approved by a majority of the disinterested members of the Board of Directors; and

(b) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of \$20.0 million, an opinion as to the fairness to the Company or the relevant Restricted Subsidiary of such Affiliate Transaction from a financial point of view issued by an accounting, appraisal or investment banking firm of national standing.

The following items shall not be deemed to be Affiliate Transactions and, therefore, will not be subject to the provisions of the prior paragraph:

(2) Restricted Payments that are permitted by the provisions of the Indenture described above under the caption Restricted Payments;

(4) transactions pursuant to any agreement in effect on the Issue Date and disclosed in this prospectus supplement (including by incorporation by reference), as in effect on the Issue Date or as thereafter amended or replaced in any manner, that, taken as a whole, is not more disadvantageous to the Holders or the Company in any material respect than such agreement as it was in effect on the Issue Date;

(5) loans or advances to employees and officers of the Company and its Restricted Subsidiaries permitted by clause (8) of the definition of Permitted Investments.

(7) any service, purchase, lease, supply or similar agreement entered into in the ordinary course of business (including, without limitation, pursuant to any joint venture agreement) between the Company or any Restricted Subsidiary and any Affiliate that is a customer, client, supplier, purchaser or seller of goods or services, so long as the senior management or Board of Directors of the Company determines in good faith that any such agreement is on terms no less favorable to the Company or such Restricted Subsidiary than those that could be obtained in a comparable arms -length transaction with an entity that is not an Affiliate;

(8) the issuance and sale of Qualified Capital Stock; or

(9) any transaction effected in connection with a Qualified Receivables Transaction.

Additional Subsidiary Guarantees

If, after the date of the Indenture, the Company or any of its Restricted Subsidiaries acquires or creates another Domestic Subsidiary (other than a Receivables Subsidiary or an Excluded Subsidiary), then that newly acquired or created Domestic Subsidiary will become a Guarantor and, within 10 Business Days of the date on which it was acquired or created, the Company shall cause such Restricted Subsidiary to:

(i) execute and deliver to the Trustee (a) a supplemental indenture in form and substance satisfactory to the Trustee pursuant to which such Restricted Subsidiary shall unconditionally Guarantee all of the Company's obligations under the Notes and the Indenture and (b) a notation of Guarantee in respect of its Subsidiary Guarantee; and

Limitation on Sale and Leaseback Transactions

The Company shall not, and shall not permit any of its Restricted Subsidiaries to, enter into any Sale and Leaseback Transaction unless:

(1) the Company or such Restricted Subsidiary would be entitled to:

(a) incur Indebtedness in an amount equal to the Attributable Indebtedness with respect to such Sale and Leaseback Transaction under the Fixed Charge Coverage Ratio test in the first paragraph of the covenant described under Incurrence of Indebtedness and Issuance of Preferred Stock ; and

(b) create a Lien on such property securing such Attributable Indebtedness without also securing the Notes or the applicable Subsidiary Guarantee pursuant to the covenant described under Liens ;

(3) such Sale and Leaseback Transaction is effected in compliance with the covenant described under Repurchase at the Option of Holders Offer to Repurchase by Application of Excess Proceeds of Asset Sales.

amend in the time frame set forth in the solicitation documents relating to such consent, waiver or amendment.

Reports

Whether or not required by the SEC, so long as any Notes are outstanding, the Company will furnish to the Holders of Notes and the Trustee, within the time periods specified in the SEC's rules and regulations for a company subject to reporting under Section 13(a) or 15(d) of the Exchange Act:

Notwithstanding the foregoing, to the extent the Company files the information and reports referred to in clauses (1) and (2) above with the SEC and such information is publicly available on the Internet, the Company shall be deemed to be in compliance with its obligations to furnish such information to the Holders of the Notes and to make such information available to securities analysts and prospective investors. The Company agrees that it will not take any action for the purpose of causing the SEC not to accept any such filings. Company or any Restricted Subsidiary of the Company (or the payment of which is Guaranteed by the Company or any Restricted Subsidiary of the Company) whether such Indebtedness or Guarantee now exists, or is created after the Issue Date, if that default:

(a) is caused by a failure to pay principal of, or interest or premium, if any, on such Indebtedness prior to the expiration of the grace period provided in such Indebtedness on the date of such default (a *Payment Default*); or

(b) results in the acceleration of such Indebtedness prior to express maturity; and

(c) in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a Payment Default or the maturity of which has been so accelerated, aggregates \$25.0 million, or more;

(6) one or more judgments in an aggregate amount in excess of \$25.0 million (to the extent not covered by independent third party insurance as to which the insurer has not disclaimed coverage) shall have been rendered against the Company or any of its Restricted Subsidiaries and such judgments remain undischarged, unpaid or unstayed for a period of 60 days after such judgment or judgments become final and nonappealable;

(7) except as permitted by the Indenture, any Subsidiary Guarantee shall be held in any judicial proceeding to be unenforceable or invalid or shall cease for any reason to be in full force and effect or any Guarantor, or any Person acting on behalf of any Guarantor, shall deny or disaffirm its Obligations under its Subsidiary Guarantee; or

(8) certain events of bankruptcy or insolvency with respect to the Company or any of its Restricted Subsidiaries (or group of Restricted Subsidiaries) that is a Significant Subsidiary.

If an Event of Default (other than an Event of Default specified in clause (8) above with respect to the Company) shall have occurred and be continuing under the Indenture, the Trustee, by written notice to the Company, or the Holders of at least 25% in aggregate principal amount of the Notes then outstanding by written notice to the Company and the Trustee, may declare all amounts owing under the Notes to be due and payable. Upon such declaration of acceleration, the aggregate principal of and accrued and unpaid interest on the outstanding Notes shall immediately become due and payable.

If an Event of Default specified in clause (8) above occurs and is continuing with respect to the Company, then all unpaid principal of, and premium, if any, and accrued and unpaid interest on all of the outstanding Notes shall ipso facto become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holder.

The Indenture will provide that, at any time after a declaration of acceleration with respect to the Notes as described in the two preceding paragraphs, the Holders of a majority in principal amount of the Notes may rescind and cancel such declaration and its consequences:

(1) if the rescission would not conflict with any judgment or decree;

(2) if all existing Events of Default have been cured or waived except nonpayment of principal or interest that has become due solely because of the acceleration;

(3) to the extent the payment of such interest is lawful, interest on overdue installments of interest and overdue principal, which has become due otherwise than by such declaration of acceleration, has been paid; and

(4) if we have paid the Trustee its reasonable compensation and reimbursed the Trustee for its expenses, disbursements and advances.

No such rescission shall affect any subsequent Default or impair any right consequent thereto.

The Holders of a majority in principal amount of the Notes may waive any existing Default or Event of Default under the Indenture, and its consequences, except a default in the payment of the principal of or interest on any Notes.

Subject to the provisions of the Indenture relating to the duties of the Trustee, the Trustee is under no obligation to exercise any of its rights or powers under the Indenture at the request, order or direction of any of the Holders, unless such Holders have offered to the Trustee indemnity satisfactory to it. Subject to all provisions of the Indenture and applicable law, the Holders of a majority in aggregate principal amount of the then outstanding Notes have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee. No single Holder will have any right to institute any proceeding with respect to the Indenture or any remedy thereunder, unless (1) such Holder has notified the Trustee of a continuing Event of Default; (2) the Holders of at least 25% in aggregate principal amount of the outstanding Notes have made written request, and offered such reasonable indemnity as the Trustee may require, to the Trustee to institute such proceeding; (3) the Trustee has failed to institute such proceeding within 60 days after receipt of such notice and the Trustee; and (4) within such 60-day period, the Trustee has not received directions inconsistent with such written request by Holders of a majority in aggregate principal amount of the outstanding Notes. Such limitations will not apply, however, to a suit instituted by the Holder of a Note for the enforcement of the payment of the principal of, premium, if any, or interest on such Note on or after the respective due dates therefor.

Under the Indenture, we will be required to provide an officers' certificate to the Trustee promptly upon any such officer obtaining knowledge of any Default or Event of Default that has occurred and, if applicable, describe such Default or Event of Default and the status thereof; *provided* that such officers shall provide such certification at least annually whether or not they know of any Default or Event of Default.

No Personal Liability of Directors, Officers, Employees and Stockholders

No past, present or future director, officer, employee, incorporator or stockholder of the Company or any Guarantor, as such, shall have any liability for any obligations of the Company or the Guarantors under the Notes, the Indenture or the Subsidiary Guarantees or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder of Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. The waiver may not be effective to waive liabilities under the federal securities laws.

Legal Defeasance and Covenant Defeasance

The Company may, at its option and at any time, elect to have all of its obligations discharged with respect to the outstanding Notes and all obligations of the Guarantors discharged with respect to their Subsidiary Guarantees (*Legal Defeasance*) except for:

- (1) the rights of Holders of outstanding Notes to receive payments in respect of the principal of, premium, if any, and interest on such Notes when such payments are due from the trust referred to below;
- (2) the Company's obligations with respect to the Notes concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust;
- (3) the rights, powers, trusts, duties and immunities of the Trustee, and the Company's obligations in connection therewith; and
- (4) the Legal Defeasance provisions of the Indenture.

In addition, the Company may, at its option and at any time, elect to have the obligations of the Company and the Guarantors released with respect to certain covenants that are described in the Indenture (*Covenant Defeasance*) and thereafter any omission to comply with those covenants shall not constitute a Default or Event of Default with respect to the Notes. In the event Covenant Defeasance occurs, certain events

S-59

(not including non-payment, bankruptcy, receivership, rehabilitation and insolvency events) described under Events of Default and Remedies will no longer constitute an Event of Default with respect to the Notes.

In order to exercise either Legal Defeasance or Covenant Defeasance:

(1) the Company must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders of the Notes, cash in U.S. dollars, U.S. Government Obligations, or a combination thereof, in such amounts as will be sufficient (without consideration of any reinvestment of interest), in the opinion of a nationally recognized firm of independent public accountants delivered to the Trustee, to pay the principal of, premium, if any, and interest on the outstanding Notes on the Stated Maturity or on the applicable redemption date, as the case may be, and the Company must specify whether the Notes are being defeased to maturity or to a particular redemption date;

(2) in the case of Legal Defeasance, the Company shall have delivered to the Trustee an Opinion of Counsel reasonably acceptable to the Trustee confirming that (a) the Company has received from, or there has been published by, the Internal Revenue Service a ruling or (b) since the Issue Date, there has been a change in the applicable federal income tax law, in either case to the effect that, and based thereon such Opinion of Counsel shall confirm that, the Holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Legal Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

(3) in the case of Covenant Defeasance, the Company shall have delivered to the Trustee an Opinion of Counsel reasonably acceptable to the Trustee confirming that the Holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Covenant Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) no Default or Event of Default shall have occurred and be continuing either: (a) on the date of such deposit (other than a Default or Event of Default resulting from the borrowing of funds to be applied to such deposit); or (b) insofar as Events of Default from bankruptcy or insolvency events are concerned, at any time in the period ending on the 91st day after the date of deposit;

(5) (such Legal Defeasance or Covenant Defeasance will not result in a breach or violation of, or constitute a default under the Indenture or any material agreement or instrument to which the Company or any of its Subsidiaries is a party or by which the Company or any of its Subsidiaries is bound (other than any such default under the Indenture resulting solely from the borrowing of funds to be applied to such deposit);

(6) the Company must have delivered to the Trustee an Opinion of Counsel to the effect that after the 91st day following the deposit, the trust funds will not be subject to the effect of any applicable bankruptcy, insolvency, reorganization or similar laws affecting creditors' rights generally;

(7) the Company must deliver to the Trustee an officers' certificate stating that the deposit was not made by the Company with the intent of preferring the Holders of Notes over the other creditors of the Company with the intent of defeating, hindering, delaying or defrauding creditors of the Company or others; and

(8) the Company must deliver to the Trustee an officers' certificate and an Opinion of Counsel, each stating that all conditions precedent relating to the Legal Defeasance or the Covenant Defeasance have been complied with.

Satisfaction and Discharge

The Indenture will be discharged and will cease to be of further effect (except as to surviving rights of registration of transfer or exchange of the Notes, as expressly provided for in the Indenture) as to all outstanding Notes when either:

(1) either:

(a) all the Notes theretofore authenticated and delivered (except lost, stolen or destroyed Notes which have been replaced or paid and Notes for whose payment money has theretofore been deposited in trust or segregated and held in trust by the Company and thereafter repaid to the Company or discharged from their trust as provided in the Indenture) have been delivered to the Trustee for cancellation, or

(b) all the Notes that have not been delivered to the Trustee for cancellation have become due and payable by reason of the mailing of a notice of redemption or otherwise or will become due and payable with one year; and the Company or any Guarantor has irrevocably deposited or caused to be deposited with the Trustee as trust funds in trust solely for the benefit of the Holders, cash in U.S. dollars, non-callable U.S. Government Obligations or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants delivered to the Trustee, without consideration of any reinvestment of interest to pay and discharge the entire Indebtedness (including all principal and accrued interest) on the Notes not theretofore delivered to the Trustee for cancellation for principal, premium, if any, and accrued interest to the date of maturity or redemption, as the case may be;

(2) no Default or Event of Default shall have occurred and be continuing on the date of such deposit or shall occur as a result of such deposit and such deposit will not result in a breach or violation of or default under any other instrument to which the Company or any Guarantor is a party or by which the Company or any Guarantor is bound;

(3) the Company or any Guarantor has paid or caused to be paid all other sums payable under the Indenture; and

(4) The Company has delivered irrevocable instructions to the Trustee to apply such funds to the payment of the Notes at maturity or redemption, as the case may be.

In addition, the Company must deliver to the Trustee an officers' certificate and an Opinion of Counsel stating that all conditions precedent under the Indenture relating to the satisfaction and discharge of the Indenture have been complied with.

Amendment, Supplement and Waiver

Except as provided in the next two succeeding paragraphs, the Indenture, the Notes and the Subsidiary Guarantees may be amended or supplemented with the consent of the Holders of at least a majority in principal amount of the Notes then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes) and, subject to certain exceptions, any past Default or compliance with any provisions may be waived with the consent of the Holders of at least a majority in principal amount of the Notes then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes).

Without the consent of each Holder affected, an amendment or waiver may not (with respect to any Notes held by a non-consenting Holder):

(1) reduce the principal amount of Notes whose Holders must consent to an amendment, supplement or waiver, including the waiver of Defaults or Events of Default, or to a rescission and cancellation of a declaration of acceleration of the Notes;

S-61

- (2) reduce the rate of or change or have the effect of changing the time for payment of interest, including defaulted interest, on any Notes;
- (3) reduce the principal of or change or have the effect of changing the fixed maturity of any Notes or alter or waive the provisions with respect to the redemption of the Notes (other than provisions relating to the covenants described above under the caption "Repurchase at the Option of the Holders");
- (4) make any Notes payable in money other than that stated in the Notes;
- (5) make any change in the provisions of the Indenture relating to waivers of past Defaults or the rights of Holders to receive payment of principal of, or interest or premium, if any, on the Notes on or after the due date thereof or to bring suit to enforce such payment;

- (7) waive a Default or Event of Default in the payment of principal of, or interest or premium on, the Notes; *provided* that this clause (7) shall not limit the right of the Holders of at least a majority in aggregate principal amount of the outstanding Notes to rescind and cancel a declaration of acceleration of the Notes following delivery of an acceleration notice as described above under "Events of Default and Remedies";
- (8) release any Guarantor from any of its obligations under its Subsidiary Guarantee or the Indenture, except as permitted by the Indenture;
- (9) contractually subordinate the Notes or the Subsidiary Guarantees to any other Indebtedness; or
- (10) make any change in the preceding amendment and waiver provisions.

Notwithstanding the preceding, without the consent of any Holder of Notes, the Company, the Guarantors and the Trustee may amend or supplement the Indenture or the Notes:

- (1) to cure any ambiguity, defect or inconsistency;
- (2) to provide for uncertificated Notes in addition to or in place of certificated Notes;

(11) to conform the text of the Indenture, the Notes or the Subsidiary Guarantees to any provision of this Description of the Notes to the extent that such provision in the Description of the Notes was intended to be a verbatim recitation of a provision in the Indenture, the Notes or the Subsidiary Guarantees;

(12) to provide for the issuance of additional Notes in accordance with the limitations set forth in the Indenture as of the date of the Indenture; and

(13) to comply with the provisions of the DTC or the Trustee with respect to the provisions in the Indenture and the Notes relating to transfers and exchanges of Notes or beneficial interests in Notes.

The consent of the Holders is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment. A consent to any amendment or waiver under the Indenture by any Holder of Notes given in connection with a tender of such Holder's Notes will not be rendered invalid by such tender. After an amendment under the Indenture becomes effective, the Company is required to mail to the Holders a notice briefly describing such amendment. However, the failure to give such notice to all of the Holders, or any defect in the notice, will not impair or affect the validity of the amendment.

Concerning the Trustee

The Indenture provides that, except during the continuance of an Event of Default, the Trustee will perform only such duties as are specifically set forth in the Indenture. During the existence of an Event of Default, the Trustee will exercise such rights and powers vested in it by the Indenture, and use the same degree of care and skill in its exercise as a prudent person would exercise or use under the circumstances in the conduct of his or her own affairs. Subject to such provisions, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request or direction of any Holder of Notes, unless such Holder shall have offered to the Trustee security and indemnity satisfactory to it against any loss, liability or expense.

The Indenture and the provisions of the Trust Indenture Act contain certain limitations on the rights of the Trustee, should it come a creditor of the Company, to obtain payments of claims in certain cases or to realize on certain property received in respect of any such claim as security or otherwise. Subject to the Trust Indenture Act, the Trustee will be permitted to engage in other transactions; *provided* that if the Trustee acquires any conflicting interest as described in the Trust Indenture Act, it must eliminate such conflict within 90 days, apply to the SEC for permission to continue or resign.

Governing Law

The Indenture provides that it and the Notes will be governed by, and construed in accordance with, the laws of the State of New York.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

General

The following discussion is a summary of certain U.S. federal income tax consequences of an investment in the notes. This discussion does not address all aspects of U.S. federal income taxation that may be relevant to particular taxpayers in light of their special circumstances or taxpayers subject to special treatment under U.S. federal income tax laws (including dealers in securities or currencies, financial institutions, cooperatives, regulated investment companies, real estate investment trusts, tax-exempt organizations, insurance companies, persons who hold notes as part of a hedging, integrated straddle, conversion or constructive sale transaction, persons subject to the alternative minimum tax, U.S. Holders (as defined below) whose functional currency is not the U.S. dollar, U.S. expatriates, controlled foreign corporations, passive foreign investment companies, and partnerships (including entities treated as partnership for U.S. federal income tax purposes)). This discussion does not address any aspect of U.S. federal taxation other than U.S. federal income taxation or any aspect of state, local or foreign taxation. In addition, this discussion deals only with certain U.S. federal income tax consequences to a holder that acquires the notes in the initial offering at their issue price and holds the notes as capital assets.

This summary is based on the U.S. federal income tax law in effect as of the date of this prospectus supplement, which is subject to differing interpretations or change, possibly with retroactive effect.

EACH PROSPECTIVE PURCHASER OF THE NOTES SHOULD CONSULT ITS TAX ADVISOR CONCERNING THE U.S. FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES OF AN INVESTMENT IN THE NOTES.

A U.S. Holder is a beneficial owner of a note that is, for U.S. federal income tax purposes:

an individual citizen or resident of the United States;

a corporation (or other entity treated as a corporation) created or organized (or treated as created or organized) in or under the laws of the United States or any State thereof (including the District of Columbia);

an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust, (i) the administration of which is subject to the primary supervision of a court within the United States and for which one or more U.S. persons have the authority to control all substantial decisions, or (ii) that has a valid election in effect under applicable U.S. Treasury Regulations to be treated as a U.S. person.

A Non-U.S. Holder is a beneficial owner of a note that is not a U.S. Holder or a partnership. If a partnership (or any other entity treated as a partnership for U.S. federal income tax purposes) holds a note, the U.S. federal income tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. A partner of a partnership holding a note should consult its tax advisor concerning the U.S. federal income and other tax consequences of an investment in the notes.

Tax Consequences to U.S. Holders

Interest. Payments of stated interest on the notes will be taxable to a U.S. holder as ordinary interest income at the time such holder receives or accrues such amounts, in accordance with its regular method of accounting. It is not

expected that the notes will be issued with original issue discount (OID) for U.S. federal income tax purposes.

Sale, Exchange, Retirement or Other Disposition of a Note. A U.S. Holder will generally recognize capital gain or loss upon the sale, exchange, retirement or other taxable disposition of a note in an amount equal to the difference between (i) the amount realized (except to the extent such amount is attributable to accrued interest, which will be taxable as ordinary interest income to the extent such interest has not been previously included in income) and (ii) such U.S. Holder's adjusted tax basis in the note. A U.S. Holder's adjusted tax basis in a note will generally equal the cost of the note to such holder. Such capital gain or loss will be long-term capital gain or loss if the note was held for more than one year at the time of disposition. Long-term capital gains generally are subject to preferential rates of U.S. federal income tax for certain non-

Table of Contents

corporate U.S. Holders (including individuals). The deductibility of capital losses is subject to significant limitations.

Tax Consequences to Non-U.S. Holders

Interest. Subject to the discussion below concerning backup withholding, no U.S. federal income or withholding tax generally will apply to a payment of interest on a note to a Non-U.S. Holder, provided that

such interest is not effectively connected with the conduct of a trade or business in the United States by the Non-U.S. Holder;

such Non-U.S. Holder does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote;

such Non-U.S. Holder is not a controlled foreign corporation directly or indirectly related to us through stock ownership;

such Non-U.S. Holder is not a bank whose receipt of interest on the notes is described in Section 881(c)(3)(A) of the U.S. Internal Revenue Code;

either (A) such Non-U.S. Holder provides its name and address, and certifies on IRS Form W-8BEN (or a substantially similar form), under penalties of perjury, that it is not a U.S. person or (B) a securities clearing organization or certain other financial institutions holding the note on behalf of the Non-U.S. Holder certifies on IRS Form W-8IMY, under penalties of perjury, that such certification has been received by it and furnishes us or our paying agent with a copy thereof; and

we or our paying agent do not have actual knowledge or reason to know that the beneficial owner of the note is a U.S. person.

If all of the foregoing requirements are not met, payments of interest on a note generally will be subject to U.S. federal withholding tax at a 30% rate (or a lower applicable treaty rate, provided certain certification requirements are met), subject to the discussion below concerning interest that is effectively connected with a Non-U.S. Holder's conduct of a trade or business in the United States.

Sale, Exchange, Retirement or Other Disposition of a Note. Subject to the discussion below concerning backup withholding, a Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on the receipt of payments of principal on a note, or on any gain recognized upon the sale, exchange, retirement or other disposition of a note, unless in the case of gain (i) such gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business within the United States and, if a treaty applies (and the holder complies with applicable certification and other requirements to claim treaty benefits), is attributable to a permanent establishment maintained by the Non-U.S. Holder within the United States or (ii) such Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of disposition, and certain other conditions are met.

United States Trade or Business. If a Non-U.S. Holder is engaged in a trade or business in the United States, and if interest or gain on a note is effectively connected with the conduct of such trade or business and, if a treaty applies (and the holder complies with applicable certification and other requirements to claim treaty benefits), is attributable to a permanent establishment maintained by the Non-U.S. Holder within the United States, the Non-U.S. Holder generally will be subject to U.S. federal income tax on the receipt or accrual of such interest or the recognition of gain on the sale or other taxable disposition of the note in the same manner as if such holder were a U.S. person. Such interest or gain recognized by a corporate Non-U.S. Holder may also be subject to an additional U.S. federal branch

profits tax at a 30% rate (or, if applicable, a lower treaty rate). In addition, any such gain will not be subject to withholding tax and any such interest will not be subject to withholding tax if the Non-U.S. Holder delivers to us a properly executed IRS Form W-8ECI in order to claim an exemption from withholding tax. Non-U.S. Holders should consult their tax advisors with respect to other U.S. tax consequences of the ownership and disposition of notes.

Backup Withholding and Information Reporting

U.S. Holders. Payments of interest and principal on, or the proceeds of the sale or other disposition of, a note are generally subject to information reporting unless the U.S. Holder is an exempt recipient (such as a corporation). Such payments may also be subject to U.S. federal backup withholding tax at the applicable rate if the recipient of such payment fails to supply a taxpayer identification number, certified under penalties of perjury, as well as certain other information or otherwise fails to establish an exemption from backup withholding. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against that U.S. Holder's U.S. federal income tax liability provided the required information is furnished to the Internal Revenue Service.

Non-U.S. Holders. A Non-U.S. Holder may be required to comply with certain certification procedures to establish that the holder is not a U.S. person in order to avoid information reporting and backup withholding tax with respect to our payment of principal and interest on, or the proceeds of the sale or other disposition of, a note. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against that Non-U.S. Holder's U.S. federal income tax liability provided the required information is furnished to the Internal Revenue Service. In certain circumstances, the name and address of the beneficial owner and the amount of interest paid on a note, as well as the amount, if any, of tax withheld may be reported to the Internal Revenue Service. Copies of these information returns may also be made available under the provisions of a specific treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides. Proposed legislation recently introduced in the U.S. Congress would, among other things, require withholding of tax at a rate of 30 percent on amounts paid to a non-financial foreign entity unless the entity provides the withholding agent with a certification identifying the direct and indirect U.S. owners of the entity. Non-U.S. Holders should consult their tax advisors with respect to other U.S. tax consequences of the ownership and disposition of notes.

Banc of America Securities LLC and Wells Fargo Securities, LLC are acting as representatives of each of the underwriters named below. Subject to the terms and conditions set forth in the purchase agreement among us and the underwriters, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the principal amount of notes set forth opposite its name below.

Underwriter	Principal Amount of Notes
Banc of America Securities LLC	\$ 160,000,000
Wells Fargo Securities, LLC	144,000,000
BMO Capital Markets Corp	24,000,000
Rabo Securities USA, Inc.	24,000,000
SunTrust Robinson Humphrey, Inc.	24,000,000
Barclays Capital Inc.	12,000,000
KeyBanc Capital Markets Inc.	12,000,000
 Total	 \$ 400,000,000

Subject to the terms and conditions set forth in the purchase agreement, the underwriters have agreed, severally and not jointly, to purchase all of the notes under the purchase agreement if any of these notes are purchased. If an underwriter defaults, the purchase agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the purchase agreement terminated.

We have agreed to indemnify the underwriters and their controlling persons against certain liabilities in connection with this offering, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the notes and other conditions contained in the purchase agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representatives have advised us that the underwriters propose initially to offer the notes to the public at the public offering price set forth on the cover page of this prospectus supplement. After the initial offering, the public offering price or any other term of the offering may be changed.

The expenses of the offering, not including the underwriting discount, are estimated at \$1.3 million and are payable by us.

New Issue of Notes

The notes are a new issue of securities with no established trading market. We do not intend to apply for listing of the notes on any national securities exchange or for inclusion of the notes on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the notes or that an active public market for the notes will develop. If an active public trading market for the notes does not develop, the market price and liquidity of the notes may be adversely affected. If the notes are traded, they may trade at a discount from their initial offering price, depending on

S-86

Table of Contents

prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

Settlement

We expect that delivery of the notes will be made to investors on or about March 2, 2010, which will be the seventh business day following the date of this prospectus supplement (such settlement being referred to as "T+7"). Under Rule 15c6-1 under the Securities Exchange Act of 1934, trades in the secondary market are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes prior to the delivery of the notes hereunder will be required, by virtue of the fact that the notes initially settle in T+7, to specify an alternate settlement arrangement at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade the notes prior to their date of delivery hereunder should consult their advisors.

No Sales of Similar Securities

We have agreed that we will not, for a period of 90 days after the date of this prospectus supplement, without first obtaining the prior written consent of Banc of America Securities LLC, directly or indirectly, issue, sell, offer to contract or grant any option to sell, pledge, transfer or otherwise dispose of, any debt securities or securities exchangeable for or convertible into debt securities, except for the notes sold to the underwriters pursuant to the purchase agreement.

Short Positions

In connection with the offering, the underwriters may purchase and sell the notes in the open market. These transactions may include short sales and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater principal amount of notes than they are required to purchase in the offering. The underwriters must close out any short position by purchasing notes in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the notes in the open market after pricing that could adversely affect investors who purchase in the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of the notes or preventing or retarding a decline in the market price of the notes. As a result, the price of the notes may be higher than the price that might otherwise exist in the open market.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other Relationships

Certain of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. CONSOLIDATED RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of earnings to fixed charges for the periods indicated:

	Fiscal Year Ended December 31,				
	2009	2008	2007	2006	2005
Ratio of Earnings to Fixed Charges	5.03	2.04	3.25	5.02	6.58

The ratio of earnings to fixed charges is computed by dividing (i) income from continuing operations before taxes and fixed charges by (ii) fixed charges. Our fixed charges consist of interest expense on indebtedness, capitalized interest, tax interest and the portion of rental expense that we deem to be representative of the interest factor of rental payments.

USE OF PROCEEDS

Unless otherwise set forth in the applicable prospectus supplement or other offering materials, we intend to use the net proceeds of any offering of our securities for working capital and other general corporate purposes, including acquisitions, repayment or refinancing of debt and other business opportunities. We will have significant discretion in the use of any net proceeds. The net proceeds from the sale of securities may be invested temporarily until they are used for their stated purpose. We may provide additional information on the use of the net proceeds from the sale of our securities in an applicable prospectus supplement or other offering materials related to the offered securities.

DESCRIPTION OF SECURITIES

This prospectus contains summary descriptions of the capital stock, debt securities, warrants, subscription rights, stock purchase contracts and stock purchase units that we may offer and sell from time to time. These summary descriptions are not meant to be complete descriptions of any security. At the time of an offering and sale, this prospectus together with the accompanying prospectus supplement will contain the material terms of the securities being offered.

DESCRIPTION OF CAPITAL STOCK

The following descriptions of our capital stock and of certain provisions of Delaware law do not purport to be complete and are subject to and qualified in their entirety by reference to our certificate of incorporation, our by-laws and the Delaware General Corporation Law, as amended, or the DGCL. Copies of our certificate of incorporation and our by-laws have been filed with the SEC and are filed as exhibits to the registration statement of which this prospectus forms a part.

As used in this [Description of Capital Stock](#), the terms [we](#), [our](#), [ours](#) and [us](#) refer only to TreeHouse Foods, Inc., Delaware corporation, and not, unless otherwise indicated, to any of our subsidiaries.

As of the date hereof, our authorized capital stock consists of 100,000,000 shares, of which 90,000,000 shares are common stock, par value \$0.01 per share, and 10,000,000 shares are preferred stock, par value \$0.01 per share. As of January 29, 2010, we had 32,000,919 shares of common stock issued and

Table of Contents

outstanding, and no shares of preferred stock issued and outstanding. All of our outstanding shares of common stock are fully paid and non-assessable.

Our common stock is listed on the New York Stock Exchange under the symbol THS.

Common Stock

Dividend Rights. Subject to the dividend rights of the holders of any outstanding preferred stock, the holders of shares of common stock are entitled to receive ratably dividends out of funds lawfully available therefore at such times and in such amounts as our board of directors may from time to time determine.

Rights Upon Liquidation. Upon liquidation, dissolution or winding up of our affairs, the holders of common stock are entitled to share ratably in our assets that are legally available for distribution, after payment of all debts, other liabilities and any liquidation preferences of outstanding preferred stock.

Conversion, Redemption and Preemptive Rights. Holders of our common stock have no conversion, redemption, preemptive or similar rights.

Voting Rights. Each outstanding share of common stock is entitled to one vote at all meetings of stockholders, provided, however, that except as otherwise required by law, holders of common stock are not entitled to vote on any amendment to the certificate of incorporation that relates solely to the terms of outstanding preferred stock. Our certificate of incorporation does not provide for cumulative voting in the election of directors. Other than the election of directors, if an action is to be taken by vote of the stockholders, it will be authorized by a majority of the votes cast by the holders of shares entitled to vote on the action, unless a greater vote is required in our certificate of incorporation or by-laws. Directors are elected by a plurality of the votes cast at an election.

Preferred Stock

Our certificate of incorporation authorizes our board of directors, without further stockholder action, to provide for the issuance of up to 10,000,000 shares of preferred stock, in one or more series, and to fix the designations, terms, and relative rights and preferences, including the dividend rate, voting rights, conversion rights, redemption and sinking fund provisions and liquidation preferences of each of these series. We may amend from time to time our certificate of incorporation to increase the number of authorized shares of preferred stock. Any such amendment would require the approval of the holders of a majority of our shares entitled to vote.

The particular terms of any series of preferred stock that we offer under this prospectus will be described in the applicable prospectus supplement relating to that series of preferred stock. Those terms may include:

the title and liquidation preference per share of the preferred stock and the number of shares offered;

the purchase price of the preferred stock;

the dividend rate (or method of calculation), the dates on which dividends will be payable, whether dividends shall be cumulative and, if so, the date from which dividends will begin to accumulate;

any redemption or sinking fund provisions of the preferred stock;

any conversion, redemption or exchange provisions of the preferred stock;

the voting rights, if any, of the preferred stock; and

any additional dividend, liquidation, redemption, sinking fund and other rights, preferences, privileges, limitations and restrictions of the preferred stock.

Table of Contents

You should refer to the certificate of designations establishing a particular series of preferred stock which will be filed with the Secretary of State of the State of Delaware and the SEC in connection with any offering of preferred stock.

Each prospectus supplement relating to a series of preferred stock may describe certain U.S. federal income tax considerations applicable to the purchase, holding and disposition of such series of preferred stock.

Dividend Rights. The preferred stock will be preferred over the common stock as to payment of dividends. Before any dividends or distributions (other than dividends or distributions payable in common stock or other stock ranking junior to that series of preferred stock as to dividends and upon liquidation) on the common stock or other stock ranking junior to that series of preferred stock as to dividends and upon liquidation shall be declared and set apart for payment or paid, the holders of shares of each series of preferred stock (unless otherwise set forth in the applicable prospectus supplement) will be entitled to receive dividends when, as and if declared by our board of directors or, if dividends are cumulative, full cumulative dividends for the current and all prior dividend periods. We will pay those dividends either in cash, shares of preferred stock or otherwise, at the rate and on the date or dates set forth in the applicable prospectus supplement. With respect to each series of preferred stock that has cumulative dividends, the dividends on each share of the series will be cumulative from the date of issue of the share unless some other date is set forth in the prospectus supplement relating to the series. Accruals of dividends will not bear interest. The applicable prospectus supplement will indicate the relative ranking of the particular series of the preferred stock as to the payment of dividends, as compared with then-existing and future series of preferred stock.

Rights Upon Liquidation. The preferred stock of each series will be preferred over the common stock and other stock ranking junior to that series of preferred stock as to assets, so that the holders of that series of preferred stock (unless otherwise set forth in the applicable prospectus supplement) will be entitled to be paid, upon our voluntary or involuntary liquidation, dissolution or winding up, and before any distribution is made to the holders of common stock and other stock ranking junior to that series of preferred stock, the amount set forth in the applicable prospectus supplement. However, in this case the holders of preferred stock of that series will not be entitled to any other or further payment. If upon any liquidations, dissolution or winding up, our net assets are insufficient to permit the payment in full of the respective amounts to which the holders of all outstanding preferred stock are entitled, our entire remaining net assets will be distributed among the holders of each series of preferred stock in amounts proportional to the full amounts to which the holders in each series are entitled, subject to any provisions of any series of preferred stock that rank it junior or senior to other series of preferred stock upon liquidation. The applicable prospectus supplement will indicate the relative ranking of the particular series of the preferred stock upon liquidation, as compared with then-existing and future series of preferred stock.

Conversion, Redemption or Exchange Rights. The shares of a series of preferred stock will be convertible at the option of the holder of the preferred stock, redeemable at our option or the option of the holder, as applicable, or exchangeable at our option, into another security, in each case, to the extent set forth in the applicable prospectus supplement.

Voting Rights. Except as indicated in the applicable prospectus supplement or as otherwise from time to time required by law, the holders of preferred stock will have no voting rights.

Preferred Stock Purchase Rights

On June 7, 2005, our board of directors declared a dividend of one preferred stock purchase right for each outstanding share of our common stock (a right and collectively, rights). The rights were issued pursuant to the Rights Agreement, dated June 27, 2005, between us and The Bank of New York Mellon, as rights agent. Each right entitles the registered holder to purchase from us one one-hundredth of a share of our Series A Junior Participating Preferred Stock,

\$0.01 par value per share, at a purchase price equal to four times the closing price of our common stock on the first day of trading following the initial distribution of our common stock, subject to adjustment. The rights will expire upon the close of business on June 27, 2010 unless earlier redeemed or exchanged as described below. The following summary of the rights agreement is

Table of Contents

qualified in its entirety by the provisions of the rights agreement and our certificate of incorporation, copies of which have been filed with the SEC and are filed as exhibits to the registration statement of which this prospectus forms a part.

The rights are not currently exercisable and are attached to certificates representing shares of our common stock. The rights will separate from the common stock, and the rights distribution date will occur, upon the earlier of:

10 days following the first date of a public announcement that a person or group of affiliated or associated persons, which we refer to as an acquiring person, has acquired, or obtained the right to acquire, beneficial ownership of 15% or more of the outstanding shares of our common stock; or

10 business days following the commencement of a tender offer or exchange offer that would result in a person or group beneficially owning 15% or more of our outstanding common stock.

The rights distribution date may be deferred in circumstances determined by our board of directors. In addition, certain inadvertent acquisitions will not trigger the rights distribution date. Subject to certain exceptions and except as otherwise determined by our board of directors, only shares of common stock issued prior to the rights distribution date will be issued with rights.

In the event that any person becomes an acquiring person, then, promptly following the first occurrence of such an event, each holder of a right shall generally have the right to receive, upon exercise of each right, a number of shares of common stock that equals the exercise price of the right divided by 50% of the current per share market price of a share of our common stock at the date of the occurrence of the event. Rights are not exercisable following the event until such time as the rights are no longer redeemable by us as described below. Following the occurrence of such an event, all rights that are, or, under certain circumstances, were, beneficially owned by any acquiring person will be null and void. Also, when no person owns a majority of the shares of our outstanding common stock, our board of directors may exchange the rights (other than rights owned by the acquiring person which have become void), in whole or in part, at an exchange ratio of one share of common stock, or one one-hundredth of a share of preferred stock, or of a share of another class or series of our preferred stock having equivalent rights, preferences and privileges, per right. The purchase price payable, and the number of units of preferred stock or other securities or property issuable, upon exercise of the rights are subject to adjustment from time to time under certain circumstances to prevent dilution.

In the event that, at any time after any person becomes an acquiring person, (i) we are consolidated with, or merged with and into, another entity and we are not the surviving entity of the consolidation or merger (other than a consolidation or merger which follows a permitted offer) or if we are the surviving entity, but outstanding shares of our common stock are changed or exchanged for stock or securities of any other person or cash or any other property, or (ii) more than 50% of our assets or earning power is sold or transferred, each holder of a right (except rights which previously have been voided) shall thereafter have the right to receive, upon exercise of each right, that number of shares of common stock of the acquiring company which equals the exercise price of the right divided by 50% of the current per share market price of a share of common stock of the acquiring company at the date of the occurrence of such event.

As provided in our certificate of designations of the preferred stock, the preferred stock purchasable upon exercise of the rights will not be redeemable. Each share of preferred stock will be entitled to receive, when, as and if declared by our board of directors, a minimum preferential quarterly dividend payment of \$1.00 per share or, if greater, an aggregate dividend of 100 times the dividend declared per share of common stock. In the event of liquidation, the holders of the preferred stock will be entitled to a minimum preferential liquidation payment of \$1.00 per share, plus an amount equal to accrued and unpaid dividends, or, if greater, will be entitled to an aggregate payment of 100 times

the payment made per share of common stock. Each share of preferred stock will have 100 votes (subject to adjustment), voting together with the common stock. In the event of any merger, consolidation or other transaction in which common stock is changed or exchanged, each share of preferred stock will be entitled to receive 100 times the amount received per share of common stock. Because of the nature of the preferred stock's dividend, liquidation and voting rights, the value

Table of Contents

of one one-hundredth of a share of preferred stock purchasable upon exercise of each right should approximate the value of one share of common stock.

At any time prior to a person becoming an acquiring person, we may redeem the rights in whole, but not in part, at a price of \$0.01 per right, which we refer to as the redemption price, payable in cash or stock. Immediately upon the redemption of the rights or such earlier time as established by our board of directors in the resolution ordering the redemption of the rights, the rights will terminate and the only right of the holders of rights will be to receive the redemption price. The rights may also be redeemable following certain other circumstances specified in the rights agreement.

Until a right is exercised, the holder of a right, as such, will have no rights as a stockholder, including, without limitation, the right to vote or to receive dividends. Any provision of the rights agreement, other than the redemption price, may be amended by our board of directors prior to such time as the rights are no longer redeemable. Once the rights are no longer redeemable, the authority of our board of directors to amend the rights is limited to correcting ambiguities or defective or inconsistent provisions in a manner that does not adversely affect the interest of holders of rights.

The rights are intended to protect our stockholders in the event of an unfair or coercive offer to acquire us and to provide our board of directors with adequate time to evaluate unsolicited offers. The rights may have anti-takeover effects, as described below under **Anti-Takeover Effects of Provisions of Our Certificate of Incorporation, By-laws and Rights Plan and of Delaware Law**.

Anti-Takeover Effects of Provisions of Our Certificate of Incorporation, By-Laws and Rights Plan and of Delaware Law

Business Combinations Act

We are subject to the provisions of Section 203 of DGCL. Subject to certain exceptions, Section 203 prohibits a publicly-held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the person became an interested stockholder, unless the interested stockholder attained such status with the approval of our board of directors or the business combination is approved in a prescribed manner. A business combination includes, among other things, a merger or consolidation involving us and the interested stockholder and the sale of more than 10% of our assets. In general, an interested stockholder is any entity or person beneficially owning 15% or more of our outstanding voting stock and any entity or person affiliated with or controlling or controlled by such entity or person.

Certificate of Incorporation and By-law Provisions

Our certificate of incorporation and our by-laws also contain certain provisions that may be deemed to have an anti-takeover effect and may delay, deter or prevent a tender offer or takeover attempt that a stockholder might consider in its best interest, including those attempts that might result in a premium over the market price for the shares held by stockholders. For example, our certificate of incorporation and our by-laws divide our board of directors into three classes with staggered three-year terms. In addition, our certificate of incorporation and our by-laws provide that directors may be removed only for cause by the affirmative vote of the holders of 75% of our shares of capital stock entitled to vote. Under our certificate of incorporation and our by-laws, any vacancy on our board of directors, including a vacancy resulting from an enlargement of our board of directors, may only be filled by vote of a majority of our directors then in office. The classification of our board of directors and the limitations on the removal of directors and filling of vacancies could make it more difficult for a third party to acquire, or discourage a third party from acquiring, control of us.

Our certificate of incorporation and our by-laws also provide that any action required or permitted to be taken by our stockholders at an annual meeting or special meeting of stockholders may only be taken if it is properly brought before the meeting and may not be taken by written action in lieu of a meeting. Our certificate of incorporation and our by-laws further provide that, except as otherwise required by law, special meetings of the stockholders may only be called by the chairman of the board, chief executive officer,

Table of Contents

president or our board of directors. In addition, our by-laws establish an advance notice procedure for stockholder proposals to be brought before an annual meeting of stockholders, including proposed nominations of persons for election to the board of directors. Stockholders at an annual meeting may only consider proposals or nominations specified in the notice of meeting or brought before the meeting by or at the direction of the board of directors or by a stockholder of record on the record date for the meeting, who is entitled to vote at the meeting and who has delivered timely written notice in proper form to our secretary of the stockholder's intention to bring such business before the meeting. These provisions could have the effect of delaying until the next stockholders' meeting stockholder actions that are favored by the holders of a majority of our outstanding voting securities. These provisions may also discourage a third party from making a tender offer for our common stock, because even if it acquired a majority of our outstanding voting securities, the third party would be able to take action as a stockholder, such as electing new directors or approving a merger, only at a duly called stockholders' meeting, and not by written consent.

The DGCL provides generally that the affirmative vote of a majority of the shares entitled to vote on any matter is required to amend a corporation's certificate of incorporation or by-laws, unless a corporation's certificate of incorporation or by-laws, as the case may be, requires a greater percentage. Our certificate of incorporation and by-laws require the affirmative vote of the holders of at least 75% of the shares of our capital stock issued and outstanding and entitled to vote to amend or repeal any of the provisions described in the prior two paragraphs.

Rights Agreement

We have also entered into a rights agreement pursuant to which our board of directors declared a dividend of a right to purchase one one-hundredth of a share of our Series A Junior Participating Preferred Stock for each outstanding share of our common stock. The rights are triggered if a person or group of affiliated or associated persons acquires, or has the right to acquire, beneficial ownership of 15% or more of our outstanding common stock or commences a tender offer or exchange offer that would result in a person or group beneficially owning 15% or more of our common stock. The rights are intended to protect our stockholders in the event of an unfair or coercive offer to acquire our company and to provide our board of directors with adequate time to evaluate unsolicited offers. The rights may have anti-takeover effects. For example, the rights will cause substantial dilution to a person or group that attempts to acquire our company without conditioning the offer on a substantial number of rights being acquired.

The foregoing summary is qualified in its entirety by the provisions of our certificate of incorporation, our by-laws and our rights agreement, copies of which have been filed with the SEC and are filed as exhibits to the registration statement of which this prospectus forms a part.

Certain Effects of Authorized But Unissued Stock

Our authorized but unissued shares of common stock and preferred stock may be issued without additional stockholder approval and may be utilized for a variety of corporate purposes, including future offerings to raise additional capital or to facilitate corporate acquisitions.

The issuance of preferred stock could have the effect of delaying or preventing a change in control of us. The issuance of preferred stock could decrease the amount available for distribution to holders of our common stock or could adversely affect the rights and powers, including voting rights, of such holders. In certain circumstances, such issuance could have the effect of decreasing the market price of our common stock.

One of the effects of the existence of unissued and unreserved common stock or preferred stock may be to enable our board of directors to issue shares to persons friendly to current management, which could render more difficult or discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest or otherwise, and thereby protect the continuity of management. Such additional shares also could be used to dilute the stock ownership

of persons seeking to obtain control of us.

Table of Contents

We plan to issue additional shares of common stock in connection with our employee benefit plans. We do not currently have any plans to issue shares of preferred stock.

Limitation of Liability of Directors

Our certificate of incorporation contains a provision that limits the liability of our directors for monetary damages for breach of fiduciary duty as a director to the fullest extent permitted by the DGCL. Such limitation does not, however, affect the liability of a director (1) for any breach of the director's duty of loyalty to us or our stockholders, (2) for acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law, (3) in respect of certain unlawful dividend payments or stock redemptions or purchases and (4) for any transaction from which the director derives an improper personal benefit. The effect of this provision is to eliminate our rights and the rights of our stockholders (through stockholders' derivative suits) to recover monetary damages against a director for breach of the fiduciary duty of care as a director (including breaches resulting from negligent or grossly negligent behavior) except in the situations described in clauses (1) through (4) above. This provision does not limit or eliminate our rights or the rights of our stockholders to seek non-monetary relief such as an injunction or rescission in the event of a breach of a director's duty of care. In addition, our directors and officers have indemnification protection.

Transfer Agent and Registrar

The Bank of New York Mellon Corporation acts as transfer agent and registrar of our common stock.

DESCRIPTION OF DEBT SECURITIES

General

As used in this prospectus, debt securities means the debentures, notes, bonds and other evidences of indebtedness that we may issue separately, upon exercise of a debt warrant, in connection with a stock purchase contract or as part of a stock purchase unit, from time to time. The debt securities offered by this prospectus will be issued under one of two separate indentures among us, the subsidiary guarantors of such debt securities, if any, and Wells Fargo Bank, National Association, as Trustee. We have filed the forms of indenture as exhibits to the registration statement of which this prospectus is a part. The senior note indenture and the subordinated note indenture are sometimes referred to in this prospectus individually as an indenture and collectively as the indentures. We may also issue debt securities under a separate, new indenture. If that occurs, we will describe any differences in the terms of any such indenture in the prospectus supplement.

The debt securities will be obligations of TreeHouse and will be either senior or subordinated debt securities. We have summarized selected material provisions of the indentures and the debt securities below. This summary is not complete and is qualified in its entirety by reference to the indentures. As used in this Description of Debt Securities, the terms we, our, ours and us refer only to TreeHouse Foods, Inc. and not to any of its subsidiaries. Section references included in this summary of our debt securities, unless otherwise indicated, refer to specific sections of the indentures.

We may issue debt securities at any time and from time to time in one or more series under the indentures. The indentures give us the ability to reopen a previous issue of a series of debt securities and issue additional debt securities of the same series. If specified in the prospectus supplement respecting a particular series of debt securities, one or more subsidiary guarantors will fully and unconditionally guarantee that series as described under Subsidiary Guarantee and in the applicable prospectus supplement. Each subsidiary guarantee will be an unsecured obligation of the subsidiary guarantor. A subsidiary guarantee of subordinated debt securities will be subordinated to the senior debt of the subsidiary guarantor on the same basis as the subordinated debt securities are subordinated to our senior debt.

We will describe the particular material terms of each series of debt securities we offer in a supplement to this prospectus. If any particular terms of the debt securities described in a prospectus supplement differ from any of the terms described in this prospectus, then the terms described in the applicable prospectus supplement will supersede the terms described in this prospectus. The terms of our debt securities will include those set forth in the indentures and those made a part of the indentures by the Trust Indenture Act of 1939, as amended. You should carefully read the summary below the applicable prospectus supplement and the provisions of the indentures that may be important to you before investing in our debt securities.

Ranking

The senior debt securities offered by this prospectus will:

be general obligations,

rank equally with all other unsubordinated indebtedness of TreeHouse or any subsidiary guarantor (except to the extent such other indebtedness is secured by collateral that does not also secure the senior debt securities offered by this prospectus), and

with respect to the assets and earnings of our subsidiaries, effectively rank below all of the liabilities of our subsidiaries (except to the extent that the senior debt securities are guaranteed by our subsidiaries as described below).

The subordinated debt securities offered by this prospectus will:

be general obligations,

rank subordinated and junior in right of payment, to the extent set forth in the subordinated note indenture to all senior debt of TreeHouse and any subsidiary guarantor, and

Table of Contents

with respect to the assets and earnings of our subsidiaries, effectively rank below all of the liabilities of our subsidiaries (except to the extent that the subordinated debt securities are guaranteed by our subsidiaries as described below).

A substantial portion of our assets are owned through our subsidiaries, many of which may have debt or other liabilities of their own that will be structurally senior to the debt securities. Therefore, unless the debt securities are guaranteed by our subsidiaries as described below, TreeHouse's rights and the rights of TreeHouse's creditors, including holders of debt securities, to participate in the assets of any subsidiary upon any such subsidiary's liquidation may be subject to the prior claims of the subsidiary's other creditors.

In addition, because our operations are conducted through our subsidiaries, the cash flow and the consequent ability to service our indebtedness, including the debt securities, are dependent upon the earnings of our subsidiaries and the distribution of those earnings or upon the payments of funds by those subsidiaries to us. Our subsidiaries are separate and distinct legal entities and, unless the debt securities are guaranteed by our subsidiaries as described below, our subsidiaries have no obligation, contingent or otherwise, to pay any amounts due pursuant to the debt securities or to make funds available to us, whether by dividends, loans or other payments. In addition, the payment of dividends and the making of loans and advances to us by our subsidiaries may be subject to contractual or statutory restrictions, are contingent upon the earnings of those subsidiaries and are subject to various business considerations.

The indentures do not limit the aggregate principal amount of debt securities that we may issue and provide that we may issue debt securities from time to time in one or more series, in each case with the same or various maturities, at par or at a discount. We may issue additional debt securities of a particular series without the consent of the holders of the debt securities of such series outstanding at the time of issuance. Any such additional debt securities, together with all other outstanding debt securities of that series, will constitute a single series of debt securities under the applicable indenture. The indentures also do not limit our ability to incur other debt.

Subject to the exceptions, and subject to compliance with the applicable requirements set forth in the indentures, we may discharge our obligations under the indentures with respect to our debt securities as described below under Defeasance.

We will describe the specific material terms of the series of debt securities being offered in a supplement to this prospectus. These terms may include some or all of the following:

whether, under what circumstances and the currency in which we will pay any additional amounts on the debt securities as contemplated in the applicable indenture in respect of any tax, assessment or governmental charge and, if so, whether we will have the option to redeem the debt securities rather than pay such additional amounts (and the terms of any such option),

the exchanges, if any, on which the debt securities may be listed, and

any other terms of the debt securities consistent with the indentures. (Section 301)

Any limit on the maximum total principal amount for any series of the debt securities may be increased by resolution of our board of directors. (Section 301). We may sell the debt securities, including original issue discount securities, at a substantial discount below their stated principal amount. If there are any special United States federal income tax considerations applicable to debt securities we sell at an original issue discount, we will describe them in the prospectus supplement. In addition, we will describe in the prospectus supplement any special United States federal income tax considerations and any other special considerations for any debt securities we sell which are denominated in a currency or currency unit other than U.S. dollars.

Subsidiary Guarantee

If specified in the prospectus supplement, one or more subsidiary guarantors will guarantee the debt securities of a series. Unless otherwise indicated in the prospectus supplement, the following provisions will apply to the subsidiary guarantee of the subsidiary guarantor.

Subject to the limitations described below and in the prospectus supplement, one or more subsidiary guarantors will jointly and severally, fully and unconditionally guarantee the punctual payment when due, whether at stated maturity, by acceleration or otherwise, of all our payment obligations under the indentures and the debt securities of a series, whether for principal of, premium, if any, or interest on the debt securities or otherwise. The subsidiary guarantors will also pay all expenses (including reasonable counsel fees and expenses) incurred by the applicable Trustee in enforcing any rights under a subsidiary guarantee with respect to a subsidiary guarantor.

In the case of subordinated debt securities, a subsidiary guarantor's subsidiary guarantee will be subordinated in right of payment to the senior debt of such subsidiary guarantor on the same basis as the subordinated debt securities are subordinated to our senior debt. No payment will be made by any subsidiary guarantor under its subsidiary guarantee during any period in which payments by us on the subordinated debt securities are suspended by the subordination provisions of the subordinated note indenture.

Each subsidiary guarantee will be limited in amount to an amount not to exceed the maximum amount that can be guaranteed by the subsidiary guarantor without rendering such subsidiary guarantee voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally.

Each subsidiary guarantee will be a continuing guarantee and will:

remain in full force and effect until either payment in full of all of the applicable debt securities (or such debt securities are otherwise satisfied and discharged in accordance with the provisions of the applicable indenture) or released as described in the following paragraph,

be binding upon each subsidiary guarantor, and

inure to the benefit of and be enforceable by the applicable Trustee, the holders and their successors, transferees and assigns.

In the event that a subsidiary guarantor ceases to be a subsidiary of TreeHouse, either legal defeasance or covenant defeasance occurs with respect to a series of debt securities, or substantially all of the assets or all of the capital stock of such subsidiary guarantor is sold, including by way of sale, merger, consolidation or

Table of Contents

otherwise, such subsidiary guarantor will be released and discharged of its obligations under its subsidiary guarantee without further action required on the part of the Trustee or any holder, and no other person acquiring or owning the assets or capital stock of such subsidiary guarantor will be required to enter into a subsidiary guarantee. In addition, the prospectus supplement may specify additional circumstances under which a subsidiary guarantor can be released from its subsidiary guarantee.

Form, Exchange and Transfer

We will issue the debt securities in registered form, without coupons. Unless we inform you otherwise in the prospectus supplement, we will only issue debt securities in minimum denominations of \$2,000 and integral multiples of \$1,000 above that amount. (Section 302)

Holders generally will be able to exchange debt securities for other debt securities of the same series with the same total principal amount and the same terms but in different authorized denominations. (Section 305)

Holders may present debt securities for exchange or for registration of transfer at the office of the security registrar or at the office of any transfer agent we designate for that purpose. The security registrar or designated transfer agent will exchange or transfer the debt securities if it is satisfied with the documents of title and identity of the person making the request. We will not charge a service charge for any exchange or registration of transfer of debt securities. However, we and the security registrar may require payment of a sum sufficient to cover any tax or other governmental charge payable for the registration of transfer or exchange. Unless we inform you otherwise in the prospectus supplement, we will appoint the Trustee as security registrar. We will identify any transfer agent in addition to the security registrar in the prospectus supplement. (Section 305). At any time we may:

designate additional transfer agents,

rescind the designation of any transfer agent, or

approve a change in the office of any transfer agent.

However, we are required to maintain a transfer agent in each place of payment for the debt securities at all times. (Sections 305 and 1002)

If we elect to redeem a series of debt securities, neither we nor the Trustee will be required:

to issue, register the transfer of or exchange any debt securities of that series during the period beginning at the opening of business 15 days before the day we mail the notice of redemption for the series and ending at the close of business on the day the notice is mailed, or

to register the transfer or exchange of any debt security of that series so selected for redemption, except for any portion not to be redeemed. (Section 305)

Payment and Paying Agents

Under the indentures, we will pay interest on the debt securities to the persons in whose names the debt securities are registered at the close of business on the regular record date for each interest payment. However, unless we inform you otherwise in the prospectus supplement, we will pay the interest payable on the debt securities at their stated maturity to the persons to whom we pay the principal amount of the debt securities. The initial payment of interest on any series of debt securities issued between a regular record date and the related interest payment date will be payable

in the manner provided by the terms of the series, which we will describe in the prospectus supplement. (Section 307)

Unless we inform you otherwise in the prospectus supplement, we will pay principal, premium, if any, and interest on the debt securities at the offices of the paying agents we designate. However, except in the case

Table of Contents

of a global security (which payments of principal, premium, if any, and interest on such global security will be made to the Depository), we may pay interest:

by check mailed to the address of the person entitled to the payment as it appears in the security register, or

by wire transfer in immediately available funds to the place and account designated in writing at least fifteen days prior to the interest payment date by the person entitled to the payment as specified in the security register.

We will designate the Trustee as the sole paying agent for the debt securities unless we inform you otherwise in the prospectus supplement. If we initially designate any other paying agents for a series of debt securities, we will identify them in the prospectus supplement. At any time, we may designate additional paying agents or rescind the designation of any paying agents. However, we are required to maintain a paying agent in each place of payment for the debt securities at all times. (Sections 307 and 1002)

Any money deposited with the Trustee or any paying agent in trust for the payment of principal, premium, if any, or interest on the debt securities that remains unclaimed for one year after the date the payments became due, may be repaid to us upon our request, subject to any applicable abandoned property laws. After we have been repaid, holders entitled to those payments may only look to us for payment as our unsecured general creditors. The Trustee and any paying agents will not be liable for those payments after we have been repaid. (Section 1003)

Restrictive Covenants

We will describe any restrictive covenants for any series of debt securities in the prospectus supplement.

Consolidation, Merger and Sale of Assets

Under the indentures, we may not consolidate with or merge into, or convey, transfer or lease our properties and assets substantially as an entirety to any person (as defined below) referred to as a successor person unless:

the successor person expressly assumes our obligations with respect to the debt securities and the indentures,

immediately after giving effect to the transaction, no event of default shall have occurred and be continuing and no event which, after notice or lapse of time or both, would become an event of default, shall have occurred and be continuing, and

we have delivered to the Trustee the certificates and opinions required under the respective indenture. (Section 801)

Except in a transaction resulting in the release of a subsidiary guarantor under the terms of the indenture, a subsidiary guarantor may not, and we may not permit a subsidiary guarantor to, consolidate with or merge into, or convey, transfer or lease its properties and assets substantially as an entirety to any person (other than another subsidiary guarantor or us), referred to as a successor person unless:

the successor person expressly assumes the subsidiary guarantor's obligations with respect to the debt securities and the indentures, and

the subsidiary guarantor has delivered to the Trustee the certificates and opinions required under the respective indenture. (Section 802)

As used in the indentures, the term "person" means any individual, corporation, partnership, joint venture, trust, unincorporated organization, government or agency or political subdivision thereof.

Table of Contents

Events of Default

Unless we inform you otherwise in the prospectus supplement, each of the following will be an event of default under the applicable indenture with respect to any series of debt securities:

our failure to pay principal or premium, if any, on that series of debt securities when such principal or premium, if any, becomes due,

our failure to pay any interest on that series of debt securities for 30 days after such interest becomes due,

our failure to deposit any sinking fund payment after such payment is due by the terms of that series of debt securities,

our failure to perform, or our breach, in any material respect, of any other covenant or warranty in the indenture with respect to that series of debt securities, other than a covenant or warranty included in such indenture solely for the benefit of another series of debt securities, for 90 days after either the Trustee has given us or holders of at least 25% in principal amount of the outstanding debt securities of that series have given us and the Trustee written notice of such failure to perform or breach in the manner required by the indentures,

specified events involving, the bankruptcy, insolvency or reorganization of us or, if a subsidiary guarantor has guaranteed the series of debt securities, such subsidiary guarantor,

or any other event of default we may provide for that series of debt securities,

provided, however, that no event described in the fourth bullet point above will be an event of default until an officer of the Trustee responsible for the administration of the indentures has actual knowledge of the event or until the trustee receives written notice of the event at its corporate trust office. (Section 501)

An event of default under one series of debt securities does not necessarily constitute an event of default under any other series of debt securities. If an event of default for a series of debt securities occurs and is continuing, either the Trustee or the holders of at least 25% in principal amount of the outstanding debt securities of that series may declare the principal amount of all the debt securities of that series due and immediately payable by a notice in writing to us (and to the trustee if given by the holders); provided that, in the case of an event of default involving certain events of bankruptcy, insolvency or reorganization, such acceleration is automatic; and provided further, that after such acceleration, but before a judgment or decree based on acceleration, the holders of a majority in aggregate principal amount of the outstanding debt securities of that series may, subject to certain conditions, rescind and annul such acceleration if all events of default, other than the nonpayment of accelerated principal have been cured or waived. Upon such acceleration, we will be obligated to pay the principal amount of that series of debt securities.

The right described in the preceding paragraph does not apply if an event of default occurs as described in the sixth bullet point above (i.e., other events of default), which is common to all series of our debt securities then outstanding. If such an event of default occurs and is continuing, either the Trustee or holders of at least 25% in principal amount of all series of the debt securities then outstanding, treated as one class, may declare the principal amount of all series of the debt securities then outstanding to be due and payable immediately by a notice in writing to us (and to the Trustee if given by the holders). Upon such declaration, we will be obligated to pay the principal amount of the debt securities.

If an event of default occurs and is continuing, the Trustee will generally have no obligation to exercise any of its rights or powers under the indentures at the request or direction of any of the holders, unless the holders offer indemnity reasonably satisfactory to the Trustee. (Section 603). The holders of a majority in principal amount of the outstanding debt securities of any series will generally have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee for the debt securities of that series, provided that:

the direction is not in conflict with any law or the indentures,

Table of Contents

the Trustee may take any other action it deems proper which is not inconsistent with the direction, and

the Trustee will generally have the right to decline to follow the direction if an officer of the Trustee determines, in good faith, that the proceeding would involve the Trustee in personal liability or would otherwise be contrary to applicable law. (Section 512)

A holder of a debt security of any series may only institute proceedings or pursue any other remedy under the indentures if:

the holder gives the Trustee written notice of a continuing event of default,

holders of at least 25% in principal amount of the outstanding debt securities of that series make a written request to the Trustee to institute proceedings with respect to such event of default,

the holders offer indemnity reasonably satisfactory to the Trustee against any loss, liability or expense in complying with such request,

the Trustee fails to institute proceedings within 60 days after receipt of the notice, request and offer or indemnity, and

during that 60-day period, the holders of a majority in principal amount of the debt securities of that series do not give the Trustee a direction inconsistent with the request. (Section 507)

However, these limitations do not apply to a suit by a holder of a debt security demanding payment of the principal, premium, if any, or interest on a debt security on or after the date the payment is due. (Section 508)

We will be required to furnish to the Trustee annually a statement by some of our officers regarding our performance or observance of any of the terms of the indentures and specifying all of our known defaults, if any. (Section 1004)

Modification and Waiver

When authorized by a board resolution, we or any subsidiary guarantor, if applicable, may enter into one or more supplemental indentures with the Trustee without the consent of the holders of the debt securities in order to:

provide for the assumption of our obligations to holders of debt securities in the case of a merger or consolidation or sale of substantially all of our assets,

add to our or any subsidiary guarantor's covenants for the benefit of the holders of any series of debt securities or to surrender any of our rights or powers,

add any additional events of default for any series of debt securities for the benefit of the holders of any series of debt securities,

add to, change or eliminate any provision of the indentures applying to one or more series of debt securities, provided that if such action adversely affects the interests of any holder of any series of debt securities in any material respect, such addition, change or elimination will become effective with respect to that series only when no such security of that series remains outstanding,

secure the debt securities,

establish the forms or terms of any series of debt securities as permitted by the terms of such indenture,

provide for uncertificated securities in addition to certificated securities,

evidence and provide for successor Trustees and to add to or change any provisions of the indentures to the extent necessary to appoint a separate Trustee or Trustees for a specific series of debt securities,

correct any ambiguity, defect or inconsistency under the indentures,

add subsidiary guarantors,

make any change that would provide any additional rights or benefits to the holders of debt securities or that does not adversely affect the interests of the holders of any series of debt securities in any material respect under the applicable indenture of any such holders,

supplement any provisions of the indentures necessary to defease and discharge any series of debt securities, provided that such action does not adversely affect the interests of the holders of any series of debt securities in any material respect,

comply with the rules or regulations of any securities exchange or automated quotation system on which any debt securities are listed or traded, or

add to, change or eliminate any provisions of the indentures in accordance with any amendments to the Trust Indenture Act of 1939, as amended, provided that such action does not adversely affect the rights or interests of any holder of debt securities in any material respect. (Section 901)

When authorized by a board resolution, we or any subsidiary guarantor, if applicable, may enter into one or more supplemental indentures with the Trustee in order to add to, change or eliminate provisions of the indentures or to modify the rights of the holders of one or more series of debt securities under such indentures if we obtain the consent of the holders of a majority in principal amount of the outstanding debt securities of all series affected by such supplemental indenture, treated as one class. However, without the consent of all holders of each outstanding debt security affected by the supplemental indenture, we may not enter into a supplemental indenture that:

except with respect to the reset of the interest rate or extension of maturity pursuant to the terms of a particular series, changes the stated maturity of the principal of, or any installment of principal of or interest on, any debt security, or reduces the principal amount of, or any premium or rate of interest on, any debt security,

reduces the amount of principal of an original issue discount security or any other debt security payable upon acceleration of the maturity thereof,

changes the place or currency of payment of principal, premium, if any, or interest,

impairs the right to institute suit for the enforcement of any payment on or after such payment becomes due for any security,

except as provided in the applicable indenture, releases the subsidiary guarantee of a subsidiary guarantor,

reduces the percentage in principal amount of outstanding debt securities of any series, the consent of whose holders is required for modification of the indentures, for waiver of compliance with certain provisions of the indentures or for waiver of certain defaults of the indentures,

makes certain modifications to the provisions for modification of the indentures and for certain waivers, except to increase the principal amount of debt securities necessary to consent to any such change or to provide that certain other provisions of the indentures cannot be modified or waived without the consent of the holders of each outstanding debt security affected by such change,

makes any change that adversely affects in any material respect the right to convert or exchange any convertible or exchangeable debt security or decreases the conversion or exchange rate or increases the conversion price of such debt security, unless such decrease or increase is permitted by the terms of such debt

securities, or

changes the terms and conditions pursuant to which any series of debt securities are secured in a manner adverse to the holders of such debt securities in any material respect. (Section 902)

In addition, the subordinated note indenture may not be amended without the consent of each holder of subordinated debt securities affected thereby to modify the subordination of the subordinated debt securities issued under that indenture in a manner adverse to the holders of the subordinated debt securities in any material respect.

Table of Contents

Holders of a majority in principal amount of the outstanding debt securities of any series may waive past defaults or noncompliance with restrictive provisions of the indentures. However, the consent of all holders of each outstanding debt security of a series is required to:

waive any default in the payment of principal, premium, if any, or interest, or

waive any covenants and provisions of an indenture that may not be amended without the consent of all holders of each outstanding debt security of the series affected. (Sections 513 and 1006)

In order to determine whether the holders of the requisite principal amount of the outstanding debt securities have taken an action under an indenture as of a specified date:

the principal amount of an original issue discount security that will be deemed to be outstanding will be the amount of the principal that would be due and payable as of that date upon acceleration of the maturity to that date,

if, as of that date, the principal amount payable at the stated maturity of a debt security is not determinable, for example, because it is based on an index, the principal amount of the debt security deemed to be outstanding as of that date will be an amount determined in the manner prescribed for the debt security,

the principal amount of a debt security denominated in one or more foreign currencies or currency units that will be deemed to be outstanding will be the U.S. dollar equivalent, determined as of that date in the manner prescribed for the debt security, of the principal amount of the debt security or, in the case of it debt security described in the two preceding bullet points, of the amount described above, and

debt securities owned by us, any subsidiary guarantor or any other obligor upon the debt securities or any of our or their affiliates will be disregarded and deemed not to be outstanding.

An original issue discount security means a debt security issued under the indentures which provides for an amount less than the principal amount thereof to be due and payable upon a declaration of acceleration of maturity. Some debt securities, including those for the payment or redemption of which money has been deposited or set aside in trust for the holders, and those which have been legally defeased under the indentures, will not be deemed to be outstanding.

We will generally be entitled to set any day as a record date for determining the holders of outstanding debt securities of any series entitled to give or take any direction, notice, consent, waiver or other action under an indenture. In limited circumstances, the Trustee will be entitled to set a record date for action by holders of outstanding debt securities. If a record date is set for any action to be taken by holders of a particular series, the action may be taken only by persons who are holders of outstanding debt securities of that series on the record date. To be effective, the action must be taken by holders of the requisite principal amount of debt securities within a specified period following the record date. For any particular record date, this period will be 180 days or such shorter period as we may specify, or the Trustee may specify, if it sets the record date. This period may be shortened or lengthened by not more than 180 days. (Section 104)

Conversion and Exchange Rights

The debt securities of any series may be convertible into or exchangeable for other securities of TreeHouse or another issuer or property or cash on the terms and subject to the conditions set forth in the applicable prospectus supplement.

Defeasance

When we use the term defeasance, we mean discharge from some or all of our, or if applicable, any subsidiary guarantor's obligations under either indenture. Unless we inform you otherwise in the prospectus supplement, if we deposit with the Trustee funds or government securities sufficient to make payments on the

Table of Contents

debt securities of a series on the dates those payments are due and payable and comply with all other conditions to defeasance set forth in the indentures, then, at our option, either of the following will occur:

we and any subsidiary guarantor will be discharged from our obligations with respect to the debt securities of that series (legal defeasance), or

we and any subsidiary guarantor will no longer have any obligation to comply with the restrictive covenants under the indentures, and the related events of default will no longer apply to us or any subsidiary guarantor, but some of our and any subsidiary guarantors other obligations under the indentures and the debt securities of that series, including the obligation to make payments on those debt securities, will survive (a covenant defeasance).

If we legally defease a series of debt securities, the holders of the debt securities of the series affected will not be entitled to the benefits of the indentures, except for:

the rights of holders of that series of debt securities to receive, solely from a trust fund, payments in respect of such debt securities when payments are due,

our obligation to register the transfer or exchange of debt securities,

our obligation to replace mutilated, destroyed, lost or stolen debt securities, and

our obligation to maintain paying agencies and hold moneys for payment in trust.

We may legally defease a series of debt securities notwithstanding any prior exercise of our option of covenant defeasance in respect of such series.

In addition, the subordinated note indenture provides that if we choose to have the legal defeasance provision applied to the subordinated debt securities, the subordination provisions of the subordinated note indenture will become ineffective. The subordinated note indenture also provides that if we choose to have covenant defeasance apply to any series of debt securities issued pursuant to the subordinated note indenture we need not comply with the provisions relating to subordination.

If we exercise either our legal defeasance or covenant defeasance option, any subsidiary guarantee will terminate.

Unless we inform you otherwise in the prospectus supplement, we will be required to deliver to the Trustee an opinion of counsel that the deposit and related defeasance would not cause the holders of the debt securities to recognize gain or loss for federal income tax purposes and that the holders would be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the deposit and related defeasance had not occurred. If we elect legal defeasance, that opinion of counsel must be based upon a ruling from the United States Internal Revenue Service or a change in law to that effect. (Sections 1601-1604)

Satisfaction and Discharge

We may discharge our obligations under the indentures while securities remain outstanding if (1) all outstanding debt securities issued under the indentures have become due and payable, (2) all outstanding debt securities issued under the indentures will become due and payable at their stated maturity within one year of the date of deposit, or (3) all outstanding debt securities issued under the indentures are scheduled for redemption in one year, and in each case, we have deposited with the Trustee an amount sufficient to pay and discharge all outstanding debt securities issued under

the indentures on the date of their scheduled maturity or the scheduled date of the redemption and paid all other amounts payable under the indentures (Section 401). The subordinated note indenture provides that if we choose to discharge our obligations with respect to the subordinated debt securities, the subordination provisions of the subordinated note indenture will become ineffective. (Section 1810)

Table of Contents

Global Notes, Delivery and Form

Unless otherwise specified in a prospectus supplement, the debt securities will be issued in the form of one or more fully registered Global Notes (as defined below) that will be deposited with, or on behalf of, The Depository Trust Company, New York, New York (the Depository) and registered in the name of the Depository's nominee. Global Notes are not exchangeable for definitive note certificates except in the specific circumstances described below. For purposes of this prospectus, Global Note refers to the Global Note or Global Notes representing an entire issue of debt securities.

Except as set forth below, a Global Note may be transferred by the Depository, in whole and not in part, only to a nominee on the Depository or by a nominee of the Depository to the Depository or another nominee of the Depository.

The Depository has advised us as follows:

The Depository is:

- a limited purpose trust company organized under the laws of the State of New York;
- a banking organization within the meaning of the New York banking law;
- a member of the Federal Reserve System;
- a clearing corporation within the meaning of the New York Uniform Commercial Code; and
- a clearing agency registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934.

The Depository was created to hold securities of its participants and to facilitate the clearance and settlement of securities transactions among its participants through electronic book entry changes in accounts of its participants, eliminating the need for physical movements of securities certificates.

The Depository participants include securities brokers and dealers, banks, trust companies, clearing corporations and others, some of whom own the Depository.

Access to the Depository book-entry system is also available to others that clear through or maintain a custodial relationship with a participant, either directly or indirectly.

When we issue a Global Note in connection with the sale thereof to an underwriter or underwriters, the Depository will immediately credit the accounts of participants designated by such underwriter or underwriters with the principal amount of the debt securities purchased by such underwriter or underwriters.

Ownership of beneficial interests in a Global Note and the transfers of ownership will be acted only through records maintained by the Depository (with respect to participants), by the participants (with respect to indirect participants and certain beneficial owners) and by the indirect participants (with respect to all other beneficial owners). The laws of some states require that certain purchasers of securities take physical delivery in definitive of securities they purchase. These laws may limit your ability to transfer beneficial interests in a Global Note.

So long as a nominee of the Depository is the registered owner of a Global Note, such nominee for all purposes will be considered the sole owner or holder of such debt securities under the indentures. Except as provided below, you will not be entitled to have debt securities registered in your name, will not receive or be entitled to receive physical delivery of debt securities in definitive form, and will not be considered the owner or holder thereof under the indentures.

Each person owning a beneficial interest in a Global Note must rely on the procedures of the Depository and, if that person is not a participant, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the indentures. We understand that under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in any Global Note desires to give or take any action which a holder is entitled to give or take under the indentures, the Depository would

Table of Contents

authorize the participants holding the relevant beneficial interests to give or take that action, and the participants would authorize beneficial owners owning through these participants to give or take that action or would otherwise act upon the instructions of beneficial owners owning through them.

Redemption notices shall be sent to the Depository. If less than all of the debt securities within an issue are being redeemed, the Depository's practice is to determine by lot the amount of the interest of each participant in such issue to be redeemed.

We will make payment of principal of, premium, if any, and interest on, debt securities represented by a Global Note to the Depository or its nominee, as the case may be, as the registered owner and holder of the Global Note representing those debt securities. The Depository has advised us that upon receipt of any payment of principal of, premium, if any, or interest on, a Global Note, the Depository will immediately credit accounts of participants with payments in amounts proportionate to their respective beneficial interests in the principal amount of that Global Note, as shown in the records of the Depository. Standing instructions and customary practices will govern payments by participants to owners of beneficial interests in a Global Note held through those participants, as is now the case with securities held for the accounts of customers in bearer form or registered in street name. Those payments will be the sole responsibility of those participants, subject to any statutory or regulatory requirements that may be in effect from time to time.

Neither we, any subsidiary guarantors, the Trustee nor any of our respective agents will be responsible for any aspect of the records of the Depository, any nominee or any participant relating to, or payments made on account of, beneficial interests in a Global Note or for maintaining, supervising or reviewing any of the records of the Depository, any nominee or any participant relating to those beneficial interests.

As described above, we will issue debt securities in definitive form in exchange for a Global Note only in the following situations:

if the Depository is at any time unwilling or unable to continue as depository, defaults in the performance of its duties as depository, ceases to be a clearing agency registered under the Securities Exchange Act of 1934, and, in each case, a successor depository is not appointed by us within 90 days after notice thereof, or

if, subject to the rules of the Depository, we choose to issue definitive debt securities.

In either instance, an owner of a beneficial interest in a Global Note will be entitled to have debt securities equal in principal amount to such beneficial interest registered in its name and will be entitled to physical delivery of debt securities in definitive form. Debt securities in definitive form will be issued in initial denominations of \$2,000 and integral multiples of \$1,000 and integral multiples thereof and will be issued in registered form only, without coupons. We will maintain one or more offices or agencies where debt securities may be presented for payment and may be transferred or exchanged. You will not be charged a fee for any transfer or exchange of such debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith.

Clearstream. Clearstream Banking, société anonyme (Clearstream) is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations (Clearstream Participants) and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream provides Clearstream Participants with, among other things, services for safekeeping, administration, clearance and establishment of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository,

Clearstream is subject to regulation by the Luxembourg Monetary Institute. Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant either directly or indirectly.

Table of Contents

Distributions with respect to debt securities held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with the rules and procedures to the extent received by the Depository for Clearstream.

Euroclear. Euroclear Bank S.A./N.V. (Euroclear) was created in 1968 to hold securities for participants of Euroclear (Euroclear Participants) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear operates its system under contract with Euroclear plc, a U.K. corporation. All operations are conducted by Euroclear, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with Euroclear, not Euroclear plc. Euroclear plc establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

Euroclear is a Belgian bank. As such, it is regulated by the Belgian Banking and Finance Commission.

Links have been established among the Depository, Clearstream and Euroclear to facilitate the initial issuance of debt securities sold outside the United States and cross-market transfers of the debt securities associated with secondary market trading.

Although the Depository, Clearstream and Euroclear have agreed to the procedures provided below in order to facilitate transfers, they are under no obligation to perform these procedures, and these procedures may be modified or discontinued at any time.

Clearstream and Euroclear will record the ownership interests of their participants in much the same way as the Depository, and the Depository will record the total ownership of each of the U.S. agents of Clearstream and Euroclear, as participants in the Depository. When debt securities are to be transferred from the account of a Depository participant to the account of a Clearstream Participant or a Euroclear Participant, the purchaser must send instructions to Clearstream or Euroclear through a participant at least one day prior to settlement. Clearstream or Euroclear, as the case may be, will instruct its U.S. agent to receive debt securities against payment. After settlement, Clearstream or Euroclear will credit its participant's account. Credit for the debt securities will appear on the next day (European time).

Because settlement is taking place during New York business hours, Depository participants will be able to employ their usual procedures for sending debt securities to the relevant U.S. agent acting for the benefit of Clearstream or Euroclear Participants. The sale proceeds will be available to the Depository seller on the settlement date. As a result, to the Depository participant, a cross-market transaction will settle no differently than a trade between two Depository participants.

When a Clearstream or Euroclear Participant wishes to transfer debt securities to a Depository participant, the seller will be required to send instructions to Clearstream or Euroclear through a participant at least one business day prior to settlement. In these cases, Clearstream or Euroclear will instruct its U.S. agent to transfer the debt securities against payment for them. The payment will then be reflected in the account of the Clearstream or Euroclear Participant the following day, with the proceeds back valued to the value date, which would be the preceding day, when settlement occurs in New York. If settlement is not completed on the intended value date, that is, the trade fails, proceeds credited to the Clearstream or Euroclear Participant's account will instead be valued as of the actual settlement date.

You should be aware that you will only be able to make and receive deliveries, payments and other communications involving debt securities through Clearstream and Euroclear on the days when those clearing systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States. In addition, because of time zone differences there may be problems with completing transactions involving Clearstream and Euroclear on the same business day as in the United States.

Table of Contents

The information in this section concerning the Depository, Clearstream and Euroclear and their book-entry systems has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof. Neither we, nor the Trustee, will have any responsibility for the performance by the Depository, Clearstream and Euroclear or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Subordination

Any subordinated debt securities issued under the subordinated note indenture will be subordinate and junior in right of payment to all Senior Debt (as defined below) of TreeHouse whether existing at the date of the subordinated note indenture or subsequently incurred. Upon any payment or distribution of assets of TreeHouse to creditors upon any:

- assignment for the benefit of creditors;

Upon the acceleration of the maturity of any subordinated debt securities, the holders of all Senior Debt outstanding at the time a such acceleration will first be entitled to receive payment in full of all amounts due thereon, including any amounts due upon acceleration, before the holders of subordinated debt securities will be entitled to receive or retain any payment in respect of the principal (including redemption payments), or premium, if any, or interest on the subordinated debt securities.

No payments on account of principal (including redemption payments), or premium, if any, or interest, in respect of the subordinated debt securities may be made if:

- there has occurred and is continuing a default in any payment with respect to Senior Debt; or
- there has occurred and is continuing a default with respect to any Senior Debt resulting in the acceleration of the maturity thereof.

all indebtedness of such person for borrowed money;

all obligations of such person with respect to letters of credit, bankers' acceptances or similar facilities issued for the account of such person;

all Debt of others secured by a lien on any asset by such person;

all Debt and dividends of others guaranteed by such person to the extent such Debt and dividends are guaranteed by such person; and

all obligations for claims in respect of derivative products.

Senior Debt means the principal of, and premium, if any, and interest on Debt of TreeHouse, whether created, incurred or assumed on, before or after the date of the subordinated note indenture, unless the instrument creating or evidencing the Debt provides that such Debt is subordinated to or *pari passu*, with the subordinated debt securities.

Notices

Holders will receive notices by mail at their addresses as they appear in the security register. (Section 106)

Title

We, any subsidiary guarantors, the Trustees and any agent of us, any subsidiary guarantors or a Trustee may treat the person in whose name a debt security is registered on the applicable record date as the owner of the debt security for all purposes, whether or not it is overdue. (Section 309)

Governing Law

New York law governs the indentures and the debt securities. (Section 112)

Regarding the Trustee

We and affiliates of ours maintain various commercial and investment banking relationships with Wells Fargo Bank, National Association and its affiliates in their ordinary course of business.

If an event of default occurs under the indentures and is continuing, the Trustee will be required to use the degree of care and skill of a prudent person in the conduct of that person's own affairs in the exercise of the rights and powers granted to the Trustee under the indentures. The Trustee will become obligated to exercise any of its powers under the indentures at the request or direction of any of the holders of any debt securities issued under the indentures only after those holders have offered the Trustee indemnity reasonably satisfactory to it.

If the Trustee becomes one of our creditors, its rights to obtain payment of claims in specified circumstances, or to realize for its own account on certain property received in respect of any such claim as security or otherwise will be limited under the terms of the indentures (Section 613). The Trustee may engage in certain other transactions with us or any of the subsidiary guarantors; however, if the Trustee acquires any conflicting interest (within the meaning specified under the Trust Indenture Act of 1939, as amended), it will be required to eliminate the conflict or resign. (Section 608)

DESCRIPTION OF WARRANTS

We may issue warrants for the purchase of our securities that we may issue from time to time.

The warrants will be issued under warrant agreements to be entered into between us and a bank or trust company, as warrant agent. The terms and conditions of the warrants will be described in the specific warrant agreement and the applicable prospectus supplement relating to such warrants. A form of warrant agreement, including the form of certificate representing the warrants, which contain provisions to be included in the specific warrant agreements that will be entered into with respect to particular offerings of warrants, will be filed as an exhibit or incorporated by reference into the registration statement of which this prospectus forms a part. A holder or prospective purchaser of our warrants should refer to the provisions of the applicable warrant agreement and prospectus supplement for more specific information.

DESCRIPTION OF SUBSCRIPTION RIGHTS

We may issue subscription rights to purchase debt securities, preferred stock, common stock or other securities. These subscription rights may be issued independently or together with any other security offered hereby and may or may not be transferable by the stockholder receiving the subscription rights in such offering. In connection with any offering of subscription rights, we may enter into a standby arrangement with one or more underwriters or other purchasers pursuant to which the underwriters or other purchasers may be required to purchase any securities remaining unsubscribed for after such offering.

The applicable prospectus supplement will describe the specific term of any offering of subscription rights for which this prospectus is being delivered. A holder or prospective holder of subscription rights should refer to the applicable prospectus supplement for more specific information.

DESCRIPTION OF STOCK PURCHASE CONTRACTS AND STOCK PURCHASE UNITS

We may issue stock purchase contracts, representing contracts obligating holders to purchase from us, and requiring us to sell to the holders, a specified number of shares of common stock at a future date or dates.

The price per share of common stock may be fixed at the time the stock purchase contracts are issued or may be determined by reference to a specific formula set forth in the stock purchase contracts. The stock purchase contracts may be issued separately or as a part of units, or stock purchase units, consisting of a stock purchase contract and either (x) senior debt securities, senior subordinated debt securities, subordinated debt securities or junior subordinated debt securities, or (y) debt obligations of third parties, including U.S. Treasury securities, in each case, securing the holder's obligations to purchase the common stock under the stock purchase contracts. The stock purchase contracts may require us to make periodic payments to the holders of the stock purchase contracts or vice versa, and such payments may be unsecured or prefunded on some basis. The stock purchase contracts may require holders to secure their obligations thereunder in a specified manner and in certain circumstances we may deliver newly issued prepaid stock purchase contracts, or prepaid securities, upon release to a holder of any collateral securing such holder's obligations under the original stock purchase contract. The applicable prospectus supplement will describe the terms of any stock purchase contracts or stock purchase units and, if applicable, prepaid securities.

PLAN OF DISTRIBUTION

TreeHouse may sell common stock, preferred stock, debt securities, warrants, subscription rights stock purchase contracts, stock purchase units and/or guarantees of debt securities in one or more of the following ways from time to time:

to or through underwriters or dealers;

by itself directly;

through agents;

through a combination of any of these methods of sale; or

through any other methods described in a prospectus supplement.

The prospectus supplements relating to an offering of securities will set forth the terms of such offering, including:

the name or names of any underwriters, dealers or agents;

the purchase price of the offered securities and the proceeds to TreeHouse from the sale;

any underwriting discounts and commissions or agency fees and other items constituting underwriters or agents compensation; and

Table of Contents

any initial public offering price, any discounts or concessions allowed or reallocated or paid to dealers and any securities exchanges on which such offered securities may be listed.

Any initial public offering prices, discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

If underwriters are used in the sale, the underwriters will acquire the offered securities for their own account and may resell them from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The offered securities may be offered either to the public through underwriting syndicates represented by one or more managing underwriters or by one or more underwriters without a syndicate. Unless otherwise set forth in a prospectus supplement, the obligations of the underwriters to purchase any series of securities will be subject to certain conditions precedent and the underwriters will be obligated to purchase all of such series of securities if any are purchased.

In connection with underwritten offerings of the offered securities and in accordance with applicable law and industry practice, underwriters may over-allot or effect transactions that stabilize, maintain or otherwise affect the market price of the offered securities at levels above those that might otherwise prevail in the open market, including by entering stabilizing bids, effecting syndicate covering transactions or imposing penalty bids, each of which is described below:

A stabilizing bid means the placing of any bid, or the effecting of any purchase, for the purpose of pegging, fixing or maintaining the price of a security.

A syndicate covering transaction means the placing of any bid on behalf of the underwriting syndicate or the effecting of any purchase to reduce a short position created in connection with the offering.

A penalty bid means an arrangement that permits the managing underwriter to reclaim a selling concession from a syndicate member in connection with the offering when offered securities originally sold by the syndicate member are purchased in syndicate covering transactions.

These transactions may be effected on the New York Stock Exchange, in the over-the-counter market, or otherwise. Underwriters are not required to engage in any of these activities, or to continue such activities if commenced.

If a dealer is used in the sale, TreeHouse will sell such offered securities to the dealer, as principal. The dealer may then resell the offered securities to the public at varying prices to be determined by that dealer at the time for resale. The names of the dealers and the terms of the transaction will be set forth in the prospectus supplement relating to that transaction.

Offered securities may be sold directly by TreeHouse to one or more institutional purchasers, or through agents designated by TreeHouse from time to time, at a fixed price or prices, which may be changed, or at varying prices determined at the time of sale. Any agent involved in the offer or sale of the offered securities in respect of which this prospectus is delivered will be named, and any commissions payable by TreeHouse to such agent will be set forth in the prospectus supplement relating to that offering, unless otherwise indicated in such prospectus supplement, any such agent will be acting on a best efforts basis for the period of its appointment.

Underwriters, dealers and agents may be entitled under agreements entered into with us to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments that the underwriters, dealers or agents may be required to make in respect thereof. Underwriters, dealers and agents may be customers of, engage in transactions with, or perform services for us and our affiliates in the

ordinary course of business.

Under the securities laws of some states, the securities offered by this prospectus may be sold in those states only through registered or licensed brokers or dealers.

Any person participating in the distribution of common stock registered under the registration statement that includes this prospectus will be subject to applicable provisions of the Exchange Act, and applicable SEC

rules and regulations, including, among others, Regulation M, which may limit the timing of purchases and sales of any of our common stock by any such person. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of our common stock to engage in market-making activities with respect to our common stock. These restrictions may affect the marketability of our common stock and the ability of any person or entity to engage in market-making activities with respect to our common stock.
