CITIZENS, INC.

(Exact name of registrant as specified in its charter)

Colorado

84-0755371

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer
Identification No.)

400 East Anderson Lane, Austin, Texas

78752

(Address of principal executive offices)

(Zip Code)

(512) 837-7100

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report.)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. ☐ Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). ☐ Yes ☐ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. (Check one):

Large accelerated filer ☐

Accelerated filer ☐

Non-accelerated filer ☐

Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). ☐ Yes ☐ No

As of May 6, 2010 the Registrant had 48,686,759 shares of Class A common stock, no par value, outstanding and 1,001,714 shares of Class B common stock outstanding.

Supplemental Disclosure of Non-Cash Investing Activities:

On February 27, 2009, the Company acquired Integrity Capital Corporation (ICC) for 1,294,000 shares of Class A common stock with a fair value of \$8.4 million. CICA Life Insurance Company of America held a 13% interest in ICC prior to the acquisition with a carrying value of \$551,000, making the total non-cash acquisition price approximately \$9.0 million.

In 2010, the Company sold a parcel of real estate and issued a mortgage loan for \$102,000.

Supplemental Disclosures of Non-Cash Financing Activities:

Dividends on the Company's Series A-1 Convertible Preferred Stock, issued in 2004, and Series A-2 Convertible Preferred Stock, issued in 2005, were paid by the Company through the issuance of Class A common stock to the preferred shareholders in the amount of \$105,000 in the first three months of 2009. Accretion of deferred issuance costs and discounts on the Convertible Preferred Stock recorded as a deduction to Class A common stock during the first three months of 2009 was \$1.1 million.

Notes to Consolidated Financial Statements
March 31, 2010
(Unaudited)

(1) Financial Statements

Basis of Presentation and Consolidation

The accompanying consolidated financial statements of the Company and its wholly owned subsidiaries have been prepared in conformity with U.S. Generally Accepted Accounting Principles (U.S. GAAP).

The consolidated financial statements include the accounts and operations of Citizens, Inc. (Citizens), a Colorado company, and its wholly-owned subsidiaries, CICA Life Insurance Company of America (CICA), Computing Technology, Inc. (CTI), Funeral Homes of America, Inc. (FHA), Insurance Investors, Inc. (III), Citizens National Life Insurance Company (CNLIC), Integrity Capital Corporation (ICC), Integrity Capital Life Insurance Company (ICIC), Security Plan Life Insurance Company (SPLIC) and Security Plan Fire Insurance Company (SPFIC). All significant inter-company accounts and transactions have been eliminated. Citizens and its wholly owned consolidated subsidiaries are collectively referred to as the Company, we, or our.

The Company completed its acquisition of ICC in exchange for 1,294,000 shares of its Class A common stock in the first quarter of 2009. ICC is the parent of ICIC, an Indiana life insurance company. The transaction was valued at \$9.0 million on the closing date of February 27, 2009. On October 30, 2009, FHA completed the sale of its business assets consisting primarily of funeral home assets. The transaction was valued at approximately \$600,000.

We provide life and health insurance policies through four of our subsidiaries CICA, SPLIC, CNLIC and ICIC. CICA, CNLIC and ICIC issue ordinary whole-life policies, burial insurance, pre-need policies, and accident and health related policies, throughout the midwest and southern United States. CICA also issues ordinary whole-life policies to non-U.S. residents. SPLIC offers final expense and home service life insurance in Louisiana, Arkansas and Mississippi, and SPFIC, a wholly owned subsidiary of SPLIC, writes a limited amount of property insurance in Louisiana.

CTI provides data processing systems and services as well as furniture and equipment to the Company. III provides aviation transportation to the Company. FHA was a funeral home operator before the sale of its assets in 2009.

Use of Estimates

The preparation of financial statements, in conformity with U.S. GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The most significant estimates include those used in the evaluation of other-than-temporary impairments on available-for-sale securities and valuation allowances on investments, goodwill impairment, valuation allowance on deferred tax assets, and contingencies relating to litigation and regulatory matters. Certain of these estimates are particularly sensitive to market conditions, and deterioration and/or volatility in the worldwide debt or equity markets could have a material impact on the Consolidated Financial Statements.

Significant Accounting Policies

For a description of significant accounting policies, see Note 1 of the Notes to Consolidated Financial Statements included in our 2009 Form 10-K Annual Report, which should be read in conjunction with these accompanying Condensed Consolidated Financial Statements.

Table of Contents

CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued

(Unaudited)

(2) Accounting Pronouncements

Accounting Standards Recently Adopted

In January 2010, the Financial Accounting Standards Board (FASB) updated Accounting Standards Codification (ASC) Topic 820, requiring additional disclosures about fair value measurements regarding transfers between fair value categories as well as purchases, sales, issuances and settlements related to fair value measurements of financial instruments with non-observable inputs. This update was effective for interim and annual periods beginning after December 15, 2009 except for disclosures about purchases, sales, issuances and settlements of financial instruments with non-observable inputs, which are effective for years beginning after December 15, 2010. The additional disclosures required by this update are included in the note on fair value measurements upon adoption. The additional disclosures did not have a material impact on our financial condition or results of operations.

(3) Segment Information

The Company has three reportable segments: Life Insurance, Home Service Insurance, and Other Non-Insurance Enterprises. The accounting policies of the segments are in accordance with U.S. GAAP and are the same as those used in the preparation of the consolidated financial statements. The Company evaluates profit and loss performance based on U.S. GAAP income before federal income taxes for its three reportable segments. The Company has no reportable differences between segments and consolidated operations.

(6) Investments

Financial stability and the prevention of capital erosion are important investment considerations for the Company. A primary investment goal is the conservation of assets due to the long-term nature of a significant portion our liabilities. The Company invests primarily in fixed maturity securities, which totaled 82.7% of total investments and cash and cash equivalents at March 31, 2010.

	March 31, 2010		December 31, 2009	
	Carrying	% of Total	Carrying	% of Total
	Value	Carrying	Value	Carrying
	(In	Value	(In	Value

Valuation of Investments in Fixed Maturity and Equity Securities

We evaluate the carrying value of our fixed maturity and equity securities at least quarterly. The Company monitors all debt and equity securities on an on-going basis relative to changes in credit ratings, market prices, earnings trends and financial performance, in addition to specific region or industry reviews. The assessment of whether impairments have occurred is based on a case-by-case evaluation of underlying reasons for the decline in fair value. The Company determines other-than-temporary impairment by reviewing all relevant evidence related to the specific security issuer as well as the Company's intent to sell the security, or if it is more likely than not that the Company would be required to sell a security before recovery of its amortized cost.

When an other-than-temporary impairment has occurred, the amount of the other-than-temporary impairment recognized in earnings depends on whether the Company intends to sell the security or more likely than not will be required to sell the security before recovery of its amortized cost basis. If the Company intends to sell the security or more likely than not will be required to sell the security before recovery of its amortized cost basis, the other-than-temporary impairment is recognized in earnings equal to the entire difference between the investment's cost and its fair value at the balance sheet date. If the Company does not intend to sell the security and it is not more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, the other-than-temporary impairment is separated into the following: a) the amount representing the credit loss; and b) the amount related to all other factors. The amount of the total other-than-temporary impairment related to the credit loss is recognized in earnings. The amount of the total other-than-temporary impairment related to other factors is recognized in other comprehensive income, net of applicable taxes. The previous amortized cost basis less the other-than-temporary impairment recognized in earnings becomes the new amortized cost basis of the investment. The new amortized cost basis is not adjusted for subsequent recoveries in

fair value.

CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued
March 31, 2010
(Unaudited)

The Company evaluates whether a credit impairment exists for debt securities by considering primarily the following factors: (a) changes in the financial condition of the security's underlying collateral, (b) whether the issuer is current on contractually obligated interest and principal payments, (c) changes in the financial condition, credit rating and near-term prospects of the issuer, (d) the extent to which the fair value has been less than the amortized cost of the security, and (e) the payment structure of the security. The Company's best estimate of expected future cash flows used to determine the credit loss amount is a quantitative and qualitative process that incorporates information received from third-party sources along with certain internal assumptions and judgments regarding the future performance of the security. The Company's best estimate of future cash flows involves assumptions including, but not limited to, various performance indicators, such as historical and projected default and recovery rates, credit ratings, and current delinquency rates. These assumptions require the use of significant management judgment and include the probability of issuer default and estimates regarding timing and amount of expected recoveries, which may include estimating the underlying collateral value. In addition, projections of expected future debt security cash flows may change based upon new information regarding the performance of the issuer.

The primary factors considered in evaluating whether an impairment exists for an equity security include, but are not limited to: (a) the length of time and the extent to which the fair value has been less than the cost of the security, (b) changes in the financial condition, credit rating and near-term prospects of the issuer, (c) whether the issuer is current on contractually obligated payments, and (d) the intent and ability of the Company to retain the investment for a period of time sufficient to allow for recovery.

The Company did not recognize any other-than-temporary impairments (OTTI) during the quarter ended March 31, 2010. OTTI items were recognized in the first quarter of 2009 relating to credit losses totaling \$111,000.

The tables below present the fair values and gross unrealized losses of fixed maturities that have remained in a continuous unrealized loss position for the periods indicated.

As of March 31, 2010, the Company had 53 available-for-sale securities in an unrealized loss position for greater than 12 months, which were primarily municipal, corporate and mortgage-backed securities. The Company has reviewed these securities and determined that no other-than-temporary impairment exists, based on our evaluations of the credit worthiness of the issuers and due to the fact that we do not intend to sell the investment, nor is it likely that we would be required to sell these investments before recovery of their amortized cost bases, which may be maturity.

The amortized cost and fair value of fixed maturity securities at March 31, 2010 by contractual maturity are shown below. Actual maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued
March 31, 2010
(Unaudited)

The securities not due at a single maturity date are primarily mortgage-backed obligations of U.S.

Government-sponsored enterprises and corporate securities.

The Company uses the specific identification method related to security sales. There were no securities sold from the held-to-maturity portfolio during the three months ended March 31, 2010. Proceeds and gross realized gains from sales of securities for the three months ended March 31, 2010 and 2009 are summarized as follows:

	Fixed Maturities Available-for-Sale Three Months Ended March 31, 2010 2009 (In thousands)		Equity Securities Three Months Ended March 31, 2010 2009 (In thousands)			
Proceeds	\$	2,126	8,040	\$	104	663
Gross realized gains	\$	127	301	\$	25	182

No securities were sold for realized losses for the periods reported.

(7) Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. We hold fixed maturity and equity securities, which are carried at fair value.

Fair value measurements are generally based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our view of market assumptions in the absence of observable market information. We utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. All assets and liabilities carried at fair value are required to be classified and disclosed in one of the following three categories:

Level 1 Quoted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs or whose significant value drivers are observable.

Level 3 Instruments whose significant value drivers are unobservable.

Level 1 primarily consists of financial instruments whose value is based on quoted market prices such as U.S. Treasury securities and actively traded stock and mutual fund investments.

Level 2 includes those financial instruments that are valued by independent pricing services or broker quotes.

These models are primarily industry-standard models that consider various inputs, such as interest rates, credit spreads and foreign exchange rates for the underlying financial instruments. All significant inputs are observable, or derived from observable information in the marketplace or are supported by observable levels at which transactions are executed in the marketplace. Financial instruments in this category primarily include corporate fixed maturity securities, U.S. Government-sponsored enterprise securities, municipal securities and certain mortgage and asset-backed securities.

Level 3 is comprised of financial instruments whose fair value is estimated based on non-binding broker prices utilizing significant inputs not based on, or corroborated by, readily available market information. This category consists of two private placement mortgage-backed securities where we cannot corroborate the significant valuation inputs with market observable data.

Financial Instruments Valuation

Fixed maturity securities, available-for-sale. At March 31, 2010, the fixed maturities valued using an independent pricing source totaled \$391.3 million for Level 2 assets and comprised 96.8% of total reported fair value. Fair values for Level 3 assets are based upon unadjusted broker quotes that are non-binding. The valuations are reviewed and validated quarterly through random testing by comparisons to independent pricing models, other third party pricing services, and back tested to recent trades. For the three months ended March 31, 2010, there were no material changes to the valuation methods or assumptions used to determine fair values, and no broker or third party prices were changed from the values received.

Table of Contents

CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued
March 31, 2010
(Unaudited)

Equity securities, available-for-sale. Fair values of these securities are based upon quoted market price and are classified as Level 1 assets.

Short-term investments. The fair values for short-term investments are determined using an independent pricing source. These assets are classified as Level 2.

Warrants outstanding. Fair value of our warrants are based upon industry standard models that consider various observable inputs and are classified as Level 2.

The following table presents additional information about fixed maturity securities measured at fair value on a recurring basis and for which we have utilized significant unobservable (Level 3) inputs to determine fair value:

	March 31, 2010 (In thousands)
Beginning balance at December 31, 2009	\$ 577
Total realized and unrealized losses:	
Included in net income	
Included in other comprehensive income	(1)
Principal paydowns	(14)
Transfer in and (out) of Level 3	
Ending balance at March 31, 2010	\$ 562

We review the fair value hierarchy classifications each reporting period. Changes in the observability of the valuation attributes may result in a reclassification of certain financial assets. Such reclassifications are reported as transfers in and out of Level 3 at the beginning fair value for the reporting period in which the changes occur.

Financial Instruments not Carried at Fair Value

Estimates of fair values are made at a specific point in time, based on relevant market prices and information about the financial instruments. The estimated fair values of financial instruments presented below are not necessarily indicative of the amounts the Company might realize in actual market transactions. The carrying amount and fair value for the financial assets and liabilities on the consolidated balance sheets for the periods indicated are as follows:

	March 31, 2010		December 31, 2009	
	Carrying	Fair	Carrying	Fair
	Value	Value	Value	Value
	(In thousands)			
Financial assets:

Table of Contents

CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued
March 31, 2010
(Unaudited)

Fair values for fixed income securities are based on quoted market prices. In cases where quoted market prices are not available, fair values are based on estimates using present value or other assumptions, including the discount rate and estimates of future cash flows.

Mortgage loans are secured principally by residential properties and commercial properties. Weighted average interest rates for these loans were approximately 6.7% per year as of March 31, 2010 and December 31, 2009, with maturities ranging from one to thirty years. Management estimated the fair value using an annual interest rate of 6.25% at March 31, 2010 and December 31, 2009.

Policy loans have a weighted average annual interest rate of 7.6% as of March 31, 2010 and December 31, 2009, and have no specified maturity dates. The aggregate fair value of policy loans approximates the carrying value reflected on the consolidated balance sheet. These loans typically carry an interest rate that is tied to the crediting rate applied to the related policy and contract reserves. Policy loans are an integral part of the life insurance policies that we have in force and cannot be valued separately and are not marketable; therefore, a fair value is not calculated.

For cash and cash equivalents, accrued investment income, reinsurance recoverable, other assets, Federal income tax payable and receivable, dividend accumulations, commissions payable, amounts held on deposit, and other liabilities, the carrying amounts approximate fair value because of the short maturity of such financial instruments.

The fair value of the Company's liabilities under annuity contract policies were estimated at March 31, 2010 using December 31, 2009 discounted cash flows using a risk free rate plus a component for non-performance risk and interest rate risk. The fair value of liabilities under all insurance contracts are taken into consideration in the overall management of interest rate risk, which seeks to minimize exposure to changing interest rates through the matching of investment maturities with amounts due under insurance contracts.

(8) Legal Proceedings

We are a defendant in a lawsuit filed on August 6, 1999 in the Texas District Court, Austin, Texas, now styled *Citizens Insurance Company of America, Citizens, Inc., Harold E. Riley and Mark A. Oliver, Petitioners v. Fernando Hakim Daccach, Respondent*, in which a class was originally certified by the trial court and reversed by the Texas Supreme Court in 2007 with an order to the trial court to conduct further proceedings consistent with its ruling. The underlying lawsuit alleged that certain life insurance policies CICA made available to non-U.S. residents, when combined with a policy feature that allowed certain cash benefits to be assigned to two non-U.S. trusts for the purpose of accumulating ownership of our Class A common stock, along with allowing the policyholders to make additional contributions to the trusts, were actually offers and sales of securities that occurred in Texas by unregistered dealers in violation of the Texas securities laws. The remedy sought was rescission and return of the insurance premium payments. On December 9, 2009, the trial court denied the recertification of the class after conducting additional proceedings in accordance with the Texas Supreme Court's ruling. The remaining plaintiffs must now proceed individually, and not as a class, if they intend to pursue their cases against us. We intend to maintain a vigorous defense in any remaining proceedings.

In addition to the legal proceeding described above, we may from time to time be subject to a variety of legal and regulatory actions relating to our future, current and past business operations, including, but not limited to:

- disputes over insurance coverage or claims adjudication;
- regulatory compliance with insurance and securities laws in the United States and in foreign countries;
- disputes with our marketing firms, consultants and employee agents over compensation and termination of contracts and related claims;
- disputes regarding our tax liabilities;
- disputes relative to reinsurance and coinsurance agreements; and

disputes relating to businesses acquired and operated by us.

Table of Contents

CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued
March 31, 2010
(Unaudited)

In the absence of countervailing considerations, we would expect to defend any such claims vigorously. However, in doing so, we could incur significant defense costs, including not only attorneys' fees and other direct litigation costs, but also the expenditure of substantial amounts of management time that otherwise would be devoted to our business. If we suffer an adverse judgment as a result of any claim, it could have a material adverse effect on our business, results of operations and financial condition.

(9) Convertible Preferred Stock

In July 2004, the Company completed a private placement of Series A-1 Convertible Preferred Stock (Series A-1 Preferred) to four unaffiliated institutional investors. We also issued to the investors warrants to purchase shares of our Class A common stock, at an exercise price of \$6.95 per share, and unit warrants to purchase Series A-2 Convertible Preferred Stock (Series A-2 Preferred). The conversion, exercise and redemption prices, along with the number of shares and warrants, were adjusted for stock dividends paid on December 31, 2004 and 2005. On July 13, 2009, the Company converted all of its outstanding Series A-1 and Series A-2 Convertible Preferred Stock into Class A common shares in accordance with the mandatory redemption provision of the preferred shareholder agreement dated July 12, 2004. The total amount of Class A common shares issued as part of the conversion was 1,706,682, inclusive of pro rata dividends due through the conversion date. Warrants are still outstanding until July 2011 and 2012.

(10) Income Taxes

The effective tax rate was 32% and 24% for the first quarter of 2010 and 2009, respectively. The 2009 rate was lower, primarily due to a gain on the change in fair value of outstanding warrants for purchase of Class A common stock of \$2.1 million that was not taxable. The Company reduced the valuation allowance on deferred tax assets related to unrealized losses on equity securities in the first quarter of 2010 by \$468,000, which was reflected in other comprehensive income.

The Company recognized an additional valuation allowance of \$1,799,000 in the first quarter of 2009 due to deferred tax assets generated by other-than-temporary impairments on investment securities recorded in the quarter and additional unrealized losses occurring on the equity portfolio in 2009. Of this amount, \$135,000 was recorded as tax expense, \$1,410,000 was recorded in other comprehensive loss, and \$254,000 was additional goodwill from the 2008 acquisition of ONLIC.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

Certain statements contained in this Quarterly Report on Form 10-Q are not statements of historical fact and constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act (the "Act"), including, without limitation, statements specifically identified as forward-looking statements within this document. Many of these statements contain risk factors as well. In addition, certain statements in future filings by the Company with the Securities and Exchange Commission, in press releases, and in oral and written statements made by us or with the approval of the Company, which are not statements of historical fact constitute forward-looking statements within the meaning of the Act. Examples of forward-looking statements, include, but are not limited to: (i) projections of revenues, income or loss, earnings or loss per share, the payment or non-payment of dividends, capital structure, and other financial items, (ii) statements of our plans and objectives by our management or Board of Directors including those relating to products or services, (iii) statements of future economic performance and (iv) statements of assumptions underlying such statements. Words such as "believes," "anticipates," "assumes," "estimates," "plans," "projects," "could," "expects," "intends," "targeted," "will" and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements.

Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause actual results to differ materially from those contemplated by the forward-looking statements. Factors that could cause the Company's future results to differ materially from expected results include, but are not limited to:

Changes in foreign and U.S. general economic, market, and political conditions, including the performance of financial markets and interest rates, particularly in light of the severe economic conditions and the severe stress experienced by the global financial markets in recent years;

Changes in consumer behavior, which may affect the Company's ability to sell its products and retain business;

The timely development of and acceptance of new products of the Company and perceived overall value of these products and services by existing potential customers;

Fluctuations in experience regarding current mortality, morbidity, persistency and interest rates relative to expected amounts used in pricing the Company's products;

Results of litigation we may be involved in;

Changes in assumptions related to deferred acquisition costs and the value of any businesses we may acquire;

Regulatory, accounting or tax changes that may affect the cost of, or the demand for, the Company's products or services;

Our concentration of business from persons residing in Latin America and the Pacific Rim;

Our success at managing risks involved in the foregoing;

Changes in tax laws;

Effects of acquisitions and restructuring, including possible difficulties in integrating and realizing the projected results of acquisitions; and

Changes in statutory or U.S. GAAP accounting principles, policies or practices.

Such forward-looking statements speak only as of the date on which such statements are made, and the Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made to reflect the occurrence of unanticipated events.

We make available, free of charge, through our Internet website (<http://www.citizensinc.com>), our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, Section 16 reports filed by officers and directors, news releases, and, if applicable, amendments to those reports filed or furnished pursuant to

Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as soon as reasonably practicable after we electronically file such reports with, or furnish such reports to, the Securities and Exchange Commission. We are not including any of the information contained on our website as part of, or incorporating it by reference into, this Quarterly Report on Form 10-Q.

Table of Contents

CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES
March 31, 2010

Overview

We conduct operations as an insurance holding company emphasizing ordinary life insurance products in niche markets where we believe we can achieve competitive advantages. As an insurance provider, we collect premiums in the current period to pay future benefits to our policy and contract holders. Our core operations include issuing and servicing:

U.S. Dollar-denominated ordinary whole life insurance and endowment policies predominantly to high net worth, high income foreign residents, located principally in Latin America and the Pacific Rim, through independent marketing consultants;
ordinary whole life insurance policies to middle income households in the midwest and the southern United States through independent marketing consultants; and
final expense and limited liability property policies to middle and lower income households in Louisiana, Mississippi and Arkansas through employee and independent agents in our home service distribution channel.

Life Insurance. Over the past 30 years, CICA and its predecessors have accepted policy applications from foreign nationals for U.S. Dollar-denominated ordinary whole life insurance and endowment policies. Traditionally, this market has been concentrated in the top 3-5% of the population of a country in terms of income and net worth. In recent years, however, there has been a shift to encompass a broader spectrum of the population, as upper middle classes develop in Latin America and the Pacific Rim. We make our insurance products available using third-party marketing organizations and independent marketing consultants. Historically, the majority of our international business has come from Latin America; however, the Pacific Rim has represented a meaningful source of new business for several years.

Through the domestic market of our Life Insurance segment, we provide ordinary whole life, credit life insurance, and final expense policies to middle income families and individuals in certain markets in the midwest and southern U.S. The majority of our revenues from this market are the result of acquisitions of domestic life insurance companies since 1987.

Home Service Insurance. We provide final expense ordinary life insurance to middle and lower income individuals in Louisiana, Mississippi and Arkansas. Our policies in this segment are sold and serviced through a home service marketing distribution system utilizing employee-agents who work on a route system to collect premiums and service policyholders and through networks of funeral homes who collect premiums and provide personal policyholder service.

Recent Acquisitions

In the first quarter of 2009, the Company completed its acquisition of Integrity Capital Corporation (ICC) in exchange for 1,294,000 shares of Citizens, Inc. Class A common stock. ICC is the parent of Integrity Capital Insurance Company (ICIC), an Indiana life insurance company that is included in the Life Insurance segment. The transaction was valued at \$9.0 million when the transaction closed on February 27, 2009.

Consolidated Results of Operations

Note: All discussion below compares or states 2010 results for the first quarter compared to 2009 results.

Revenues

Total revenues for the first quarter of 2010 decreased 1.8% over the same period in 2009. Total revenues, excluding fair value adjustments of warrants, increased 3.3% for the three months ended in 2010 compared to 2009, primarily due to an increase in premiums and net investment income.

	Three Months Ended March 31,	
	2010	2009
	(In thousands)	
Revenues:		
Premiums:		
Life insurance	\$ 33,596	32,683
Accident and health insurance	414	396
Property insurance	1,180	1,148
Net investment income	8,349	7,742
Realized gains, net	59	301
Decrease (increase) in fair value of warrants	(114)	2,105
Other income	348	283
 Total revenues	 43,832	 44,658
Exclude increase (decrease) in fair value of warrants	114	(2,105)
 Total revenues excluding fair value adjustments	 \$ 43,946	 42,553

Premium Income. Premium income during the first quarter of 2010 increased to \$35.2 million from \$34.2 million during the same period in 2009, primarily related to life renewal premiums indicating favorable persistency. The acquisition of ICIC in the first quarter of 2009 resulted in approximately \$0.2 million of premium revenue compared to approximately \$0.5 million for the same period in 2010.

Net Investment Income. Net investment income increased to \$8.3 million during the first quarter of 2010 compared to \$7.7 million during the same period in 2009. The increase is due to higher invested assets held in the current year compared to 2009 as a result of investing new premium income, as well as the significant amount of calls and the lag in reinvesting those funds during 2009, which had the effect of depressing investment yields in 2009. Investment income from debt securities accounted for approximately 84.9% of total investment income for the three months ended March 31, 2010. We continue to invest primarily in bonds of U.S. Government-sponsored enterprises, such as FNMA and FHLMC, which comprise 64% of the total fixed maturity portfolio based on amortized cost. Corporate holdings of fixed maturity investments increased by \$13.6 million, or 12%, based upon amortized costs from December 31, 2009 to March 31, 2010.

Table of Contents

CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES
March 31, 2010

	Three Months Ended March 31,	
	2010	2009
	(In thousands)	
Gross investment income:		
Debt securities	\$ 7,386	6,517
Equity securities	149	269
Mortgage loans	18	6
Policy loans	656	585
Other investment income	490	752
 Total investment income	 8,699	 8,129
Less investment expenses	350	387
 Net investment income	 \$ 8,349	 7,742

Investment yields related to our debt security portfolio have declined approximately 50 basis points from March 31, 2009 to March 31, 2010 due to a significant portion of our investments being called throughout 2009 and reinvested at lower yields.

Investment income related to equity securities decreased from \$0.3 million for the three months ended March 31, 2009 to \$0.1 million in 2010. This decrease resulted from the disposal of equity securities primarily related to the ONLIC acquired portfolio with some loss from the disposal of SPLIC's mutual funds. Other investment income decreased to \$0.4 million in 2010 compared to \$0.8 million in 2009 as the Company had received a lawsuit settlement of \$0.2 million in 2009 resulting from a defaulted bond investment.

Realized Gains, Net. The Company realized net gains of \$59,000 at March 31, 2010 compared to gains of \$301,000 for the same period in 2009. The Company recorded a mortgage loan valuation allowance of \$45,000 during the first quarter of 2010 on a non-performing loan. In 2009, the Company sold securities for gains of \$412,000 during the quarter, which were offset by losses of \$111,000 relating to other-than-temporary impairments.

Change in Fair Value of Warrants. The Company recognized a loss of \$0.1 million in the first quarter of 2010 compared to revenue of \$2.1 million for the same period in 2009 resulting from adjusting the warrant liability to fair value. The Company adjusts the warrant liability at each reporting date to reflect the current fair value of warrants computed based upon the Class A common stock value calculated using the Black-Scholes option pricing model. As the stock value increases and decreases, the warrant liability also increases and decreases in the same manner. The adjustment to fair value is recorded as an increase or decrease in fair value of warrants on the consolidated statement of operations.

Benefits and Expenses

	Three Months Ended March 31,	
	2010	2009
	(In thousands)	
Benefits and expenses:		
Insurance benefits paid or provided:		
Claims and surrenders	\$ 15,457	14,807
Increase in future policy benefit reserves	9,545	7,758
Policyholders' dividends	1,570	1,462
Total insurance benefits paid or provided	26,572	24,027
Commissions	8,128	8,035
Other underwriting, acquisition and insurance expenses	6,973	7,309
Capitalization of deferred policy acquisition costs	(5,383)	(5,057)
Amortization of deferred policy acquisition costs	4,332	3,692
Amortization of cost of customer relationships acquired and other intangibles	838	866
Total benefits and expenses	\$ 41,460	38,872

Claims and Surrenders.

	Three Months Ended March 31,	
	2010	2009
	(In thousands)	
Death claims	\$ 6,135	6,135
Surrender benefits	4,894	4,473
Endowments	3,291	3,024
Property claims	564	497
Accident and health benefits	140	140
Other policy benefits	433	538
Total claims and surrenders	\$ 15,457	14,807

Death claims remained consistent at \$6.1 million for the three months ended March 31, 2010 and 2009. These amounts will vary from period to period and were within Company expectations.

Surrender benefits increased to \$4.9 million for the three months ended March 31, 2010 compared to \$4.5 million for the same period in 2009. These amounts represent payments to contract holders upon termination of a contract. The Company monitors surrenders on an ongoing basis. Surrenders as a percent of ordinary whole life insurance in force were 0.4% in the first quarters of 2010 and 2009.

Policyholder Dividends. Policyholder dividends increased to \$1.6 million during the first quarter of 2010 from \$1.5 million during the same quarter in 2009, due to the continued sale and persistency of participating ordinary whole life products in the international market. All of our international policies are participating, and the dividends are factored into the premiums and therefore have no impact on profitability.

Commissions. Commissions during the first quarter of 2010 increased to \$8.1 million from \$8.0 million in 2009, as a result of increased renewal premiums as noted in the premium section above.

Other Underwriting, Acquisition and Insurance Expenses. These expenses decreased to \$7.0 million for the first three months in 2010 compared to \$7.3 million in 2009. The decrease is mainly due to a decrease of \$0.2 million in legal fees, which are primarily associated with the 2009 acquisition of ICC. These acquisition costs are expensed as incurred, and will vary depending upon our level of acquisition activity. Additionally, auditing fees were lower.

Table of Contents**CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES****March 31, 2010**

Federal Income Tax. The effective tax rate for the first quarter of 2010 was 32.3% versus 24.4% in the first quarter of 2009. The rate variance from the statutory rate of 35% is due to the fact that the changes in fair value of our Class A common stock warrants, which resulted in a loss of \$0.1 million and a gain of \$2.1 million for the first quarter of 2010 and 2009, respectively, are not tax effected. The Company recorded an additional valuation allowance of \$135,000 in the first quarter of 2009 related to other-than-temporary impairments recognized in the quarter.

Segment Operations

The Company has three reportable segments: Life Insurance, Home Service Insurance and Other Non-Insurance Enterprises. These segments are reported in accordance with U.S. GAAP. The Company evaluates profit and loss performance based on net income before income taxes.

	Life Insurance	Home Service Insurance	Other Non-Insurance Enterprises	Total
	(In thousands)			
Income (loss) before income tax expense				
March 31, 2010	\$ 1,618	1,020	(266)	2,372

Income before income tax expense	\$ 1,618	3,094

Table of Contents**CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES****March 31, 2010**

Premiums. Premium revenues were up 3.0% at March 31, 2010 compared to the same three months in 2009. The increase was due to first year premiums, including a full quarter of ICIC results and an increase in international renewal business, which has experienced strong persistency as this block of insurance matures.

Life Insurance premium breakout is detailed below.

	Three Months Ended March 31,	
	2010	2009
	(In thousands)	
Premiums:		
First year	\$ 3,212	3,117
Renewal	21,557	20,938
 Total premiums	 \$ 24,769	 24,055

Net Investment Income. Net investment income increased 10.7% comparing the first three months of 2010 to 2009. The increase in the current year resulted from increased income on bonds as our investment portfolio grew from new investments, in addition to the fact that 2009 yields were depressed due to a lag in reinvesting related to fixed income securities. The Company experienced significant call activity throughout 2009 due to the low interest rate environment relating to fixed income debt securities.

Claims and Surrenders. Claims and surrenders were up 1.0% for the current quarter of 2010 compared to 2009. These amounts fluctuate from period to period but were within anticipated ranges based upon management's expectations.

	Three Months Ended March 31,	
	2010	2009
	(In thousands)	
Death claims	\$ 1,743	2,154
Surrender benefits	4,363	4,061
Endowment benefits	3,284	3,020
Accident and health benefits	74	81
Other policy benefits	315	394
 Total claims and surrenders	 \$ 9,779	 9,710

Death claim amounts fluctuate from period to period, and are monitored by the Company. The amounts are within anticipated ranges based upon management's expectations.

Surrender benefits increased 7.4% to \$4.4 million in the first three months of 2010 compared to \$4.1 million for the same period in 2009. The majority of this increase in policy surrenders was attributable to our international business and related to policies that have been in force over fifteen years, and no longer have a surrender charge. In addition, the Company recorded surrenders in 2010 resulting from poor persistency related to one Brazilian agent. The Company has canceled the contract with this agent.

Commissions. Commission expense remained level at \$4.5 million. This expense fluctuates directly with premium revenues.

CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES
March 31, 2010

Home Service Insurance

We provide final expense ordinary life insurance to middle and lower income individuals in Louisiana, Mississippi and Arkansas. Our policies in this segment are sold and serviced through a home service marketing distribution system utilizing employee-agents.

	Three Months Ended March 31,	
	2010	2009
	(In thousands)	
Revenue:		
Premiums	\$ 10,421	10,172
Net investment income	3,532	3,402
Realized gains, net	133	241
Other income	49	18
 Total revenue	 14,135	 13,833
 Benefits and expenses:		
Insurance benefits paid or provided:		
Claims and surrenders	5,678	5,097
Increase in future policy benefit reserves	883	468
Policyholders' dividends	28	19
 Total insurance benefits paid or provided	 6,589	 5,584
 Commissions	 3,623	 3,578
Other underwriting, acquisition and insurance expenses	3,641	3,954
Capitalization of deferred policy acquisition costs	(1,696)	(1,300)
Amortization of deferred policy acquisition costs	450	340
Amortization of cost of customer relationship acquired and other intangibles	508	598
 Total benefits and expenses	 13,115	 12,754
 Income before income tax expense	 \$ 1,020	 1,079

Premiums. Premiums increased in 2010 to \$10.4 million compared to the first quarter of 2009, which totaled \$10.2 million. This increase is due to increased marketing efforts to better promote the Home Service segment, as well as the SPFIC rate increase that was effective in the latter part of 2009.

Net Investment Income. Net investment income increased 3.8% from \$3.4 million at March 31, 2009 to \$3.5 million in 2010. Invested assets increased 12.3% from \$245.5 million to \$275.7 million for 2009 and 2010, respectively, therefore increasing the investment income reported in the current year. The 2009 results include a lawsuit settlement of \$240,000 related to a defaulted bond and stock dividends of \$146,000.

Realized Gains, Net. Realized gains in the first quarter of 2010 resulted from the sale of one bond in SPLIC's portfolio. Realized gains of \$241,000 at March 31, 2009 were recognized related to bond sales in the quarter, which resulted in gains of \$352,000. The gains were offset by realized losses of \$111,000 resulting from other-than-temporary impairments recorded on ONLIC's bond and stock portfolios.

Table of Contents**CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES****March 31, 2010**

Claims and Surrenders. Claims and surrenders increased 11.4%, with \$5.7 million recorded at March 31, 2010 compared to \$5.1 million in 2009. This increase relates to an increase in death benefits for SPLIC and an increase in casualty claims for SPFIC in 2010 compared to the same period in 2009.

	For the Three Months Ended March 31,	
	2009	2008
	(In thousands)	
Death claims	\$ 4,392	3,981
Surrender benefits	531	412
Endowment benefits	7	4
Property claims	564	497
Accident and health benefits	66	59
Other policy benefits	118	144
 Total claims and surrenders	 \$ 5,678	 5,097

Other Underwriting, Acquisition and Insurance Expenses. Other underwriting, acquisition and insurance expenses decreased to \$3.6 million at March 31, 2010 compared to \$4.0 million in 2009, due to a decrease in accounting and consulting fees in the current year.

Other Non-Insurance Enterprises

Overall, other non-insurance operations are relatively immaterial to the consolidated results, except for the fair value adjustment related to the Company's warrants to purchase Class A common stock. The fair value adjustment at March 31, 2010 was \$0.1 million, which was recorded as a loss compared to \$2.1 million recorded as a gain for the same period in 2009. These amounts fluctuate due to the movement in the stock price and fair value calculation using the Black-Scholes valuation model.

Investments

The administration of our investment portfolios is handled by our management, pursuant to board-approved investment guidelines, with all trading activity approved by a committee of the respective boards of directors of our insurance company subsidiaries. The guidelines used require that fixed maturities, both government and corporate, are of high quality and comprise a majority of the investment portfolio. State insurance statutes prescribe the quality and percentage of the various types of investments that may be made by insurance companies and generally permit investment in qualified state, municipal, federal and foreign government obligations, high quality corporate bonds, preferred and common stock, mortgage loans and real estate within certain specified percentages. The assets are intended to mature in accordance with the average maturity of the insurance products and to provide the cash flow for our insurance company subsidiaries to meet their respective policyholder obligations.

(1) Includes \$15.5 million and \$16.2 million of U.S. Government-sponsored enterprises at March 31, 2010 and December 31, 2009, respectively.

The Company increased holdings in corporate securities during the first quarter of 2010, investing in shorter duration investment grade securities. Short-term investments held at December 31, 2009 matured in the current quarter and those funds were reinvested into fixed maturity securities.

The held-to-maturity portfolio as of March 31, 2010 represents 33.4% of the total fixed maturity securities owned based upon carrying values, with the remaining 66.6% classified as available-for-sale. Held-to-maturity securities are reported in the financial statements at amortized cost and available-for-sale securities are reported at fair value.

The following table sets forth the distribution of the credit ratings of our portfolio of fixed maturity securities by carrying value as of March 31, 2010 and December 31, 2009.

Table of Contents

CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES

March 31, 2010

The increase in fixed maturities with credit ratings of BBB in the first quarter of 2010 compared to December 31, 2009 is a result of new investments in corporate bonds with an average maturity of seven years. The increase in non-investment grade securities is due to down-grades of issuers in the current period, as the Company does not purchase below investment grade securities.

Valuation of Investments

We evaluate the carrying value of our fixed maturity and equity securities at least quarterly. The Company monitors all debt and equity securities on an on-going basis relative to changes in credit ratings, market prices, earnings trends and financial performance, in addition to specific region or industry reviews. The assessment of whether impairments have occurred is based on a case-by-case evaluation of underlying reasons for the decline in fair value. The Company determines other-than-temporary impairment by reviewing all relevant evidence related to the specific security issuer as well as the Company's intent to sell the security, or if it is more likely than not that the Company would be required to sell a security before recovery of its amortized cost.

When an other-than-temporary impairment has occurred, the amount of the other-than-temporary impairment recognized in earnings depends on whether the Company intends to sell the security or more likely than not will be required to sell the security before recovery of its amortized cost basis. If the Company intends to sell the security or more likely than not will be required to sell the security before recovery of its amortized cost basis, the other-than-temporary impairment is recognized in earnings equal to the entire difference between the investment's cost and its fair value at the balance sheet date. If the Company does not intend to sell the security and it is not more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, the other-than-temporary impairment is separated into the following: a) the amount representing the credit loss; and b) the amount related to all other factors. The amount of the total other-than-temporary impairment related to the credit loss is recognized in earnings. The amount of the total other-than-temporary impairment related to other factors is recognized in other comprehensive income, net of applicable taxes. The previous amortized cost basis less the other-than-temporary impairment recognized in earnings becomes the new amortized cost basis of the investment. The new amortized cost basis is adjusted for subsequent recoveries in fair value.

There were no impairments related to debt and equity securities recorded in the first quarter of 2010. The Company did recognize a valuation allowance on one mortgage loan totaling \$45,000 during the quarter.

Liquidity and Capital Resources

Liquidity refers to a company's ability to generate sufficient cash flows to meet the needs of its operations. Liquidity is managed on insurance operations and seeks to ensure stable and reliable sources of cash flows to meet obligations provided by a variety of sources.

Liquidity requirements of Citizens are met primarily by funds provided from operations. Premium deposits and revenues, investment income and investment maturities are the primary sources of funds, while investment purchases, policy benefits, and operating expenses are the primary uses of funds. We historically have not had to liquidate investments to provide cash flow and did not do so during the first quarter of 2010. Our investments consist of 58.9% of marketable debt securities classified as available-for-sale that could be readily converted to cash for liquidity needs. A primary liquidity concern is the risk of an extraordinary level of early policyholder withdrawals. We include provisions within our insurance policies, such as surrender charges, that help limit and discourage early withdrawals. Since these contractual withdrawals, as well as the level of surrenders experienced, were largely consistent with our assumptions in asset liability management, our associated cash outflows have, to date, not had an adverse impact on our overall liquidity. Individual life insurance policies are less susceptible to withdrawal than annuity reserves and deposit liabilities because policyholders may incur surrender charges and undergo a new underwriting process in order to obtain a new insurance policy. Cash flow projections and cash flow tests under various market interest rate scenarios are also performed annually to assist in evaluating liquidity needs and adequacy. We currently anticipate that available liquidity sources and future cash flows will be adequate to meet our needs for funds.

Cash flows from our insurance operations have been sufficient to meet current needs. Cash flows from operating activities were \$12.6 million and \$9.3 million for the three months ended March 31, 2010 and 2009, respectively. We

have traditionally also had significant cash flows from both scheduled and unscheduled investment security maturities, redemptions, and prepayments. These cash flows, for the most part, are reinvested in fixed income securities. Net cash outflows from investment activity totaled \$13.6 million and \$14.1 million for the three months ended March 31, 2010 and 2009, respectively. The outflows from investing activities for the three months ended March 31, 2010 and 2009 primarily related to the investment of excess cash and cash equivalents generated from operations.

Table of Contents**CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES****March 31, 2010**

The National Association of Insurance Commissioners (NAIC) has established minimum capital requirements in the form of Risk-Based Capital (RBC). Risk-based capital factors the type of business written by an insurance company, the quality of its assets, and various other aspects of an insurance company's business to develop a minimum level of capital called authorized control level risk-based capital and compares this level to adjusted statutory capital that includes capital and surplus as reported under statutory accounting principles, plus certain investment reserves. Should the ratio of adjusted statutory capital to control level risk-based capital fall below 200%, a series of actions by the affected company would begin. Two of our subsidiaries fell below the minimum threshold at December 31, 2008. A capital contribution of \$1.0 million was made to SPFIC during the first quarter of 2009 due to the fact that the RBC ratio fell below 200% at December 31, 2008. An additional \$1.0 million contribution was made to SPFIC in the third quarter of 2009. A capital contribution of \$1.0 million was also made to ONLIC during the first quarter of 2009 due to its RBC ratio falling below 200% at December 31, 2008. The decline in SPFIC's capital balance mainly resulted from hurricane losses in 2008 and an increase in operating expenses. The reduction in ONLIC's capital balance resulted from declines in asset values of preferred and common stock holdings. The capital contributions made in the first quarter of 2009 increased the RBC ratios and RBC action plans have been submitted to the insurance departments. The capital balance of ONLIC was determined to be at Company Action level at March 31, 2009 due to continued declines relative to its investment holdings. The capital contributions made in 2009 increased the ratios as anticipated in action plans submitted to the appropriate state insurance departments. The Company received approval from the respective state insurance departments to merge ONLIC into SPLIC as of October 1, 2009. The capital contributions did not impact the overall consolidated financial position or results of operations of the Company. All insurance subsidiaries were above the RBC minimum at March 31, 2010.

Contractual obligations and off-balance sheet arrangements.

There have been no material changes in contractual obligations from those reported at December 31, 2009 in the Company's Form 10-K. The Company does not have off-balance sheet arrangements at March 31, 2010 and does not expect any future effects on the Company's financials related to any such arrangements. We do not utilize special purpose entities as investment vehicles, nor are there any such entities in which we have an investment that engages in speculative activities of any nature, and we do not use such investments to hedge our investment positions.

Parent Company Liquidity and Capital Resources

We are a holding company and have had minimal operations of our own. Our assets consist primarily of the capital stock of our subsidiaries. Accordingly, our cash flows depend upon the availability of statutorily permissible payments, primarily payments under management agreements from our two primary life insurance subsidiaries, CICA and SPLIC. The ability to make payments is limited by applicable laws and regulations of Colorado, CICA's state of domicile, and Louisiana, SPLIC's state of domicile, which subject insurance operations to significant regulatory restrictions. These laws and regulations require, among other things, that these insurance subsidiaries maintain minimum solvency requirements and limit the amount of dividends these subsidiaries can pay to the holding company. We historically have not relied upon dividends from subsidiaries for our cash flow needs.

Critical Accounting Policies

Our critical accounting policies are as follows:

Policy Liabilities

Future policy benefit reserves have been computed by the net level premium method with assumptions as to investment yields, dividends on participating business, mortality and withdrawals based upon our experience. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amount of policy liabilities and the increase in future policy benefit reserves. Management's judgments and estimates for future policy benefit reserves provide for possible unfavorable deviation.

Table of Contents**CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES****March 31, 2010**

We continue to use the original assumptions (including a provision for the risk of adverse deviation) in subsequent periods to determine the changes in the liability for future policy benefits (the lock-in concept) unless a premium deficiency exists. Management monitors these assumptions and has determined that a premium deficiency did not exist as of March 31, 2010. Management believes that our policy liabilities and increase in future policy benefit reserves as of the three months ended March 31, 2010 and 2009 are based upon assumptions, including a provision for the risk of adverse deviation, that do not warrant revision. The relative stability of these assumptions and management's analysis is discussed below.

Deferred Policy Acquisition Costs

Acquisition costs, consisting of commissions and policy issuance, underwriting and agency expenses that relate to and vary with the production of new business, are deferred. These deferred policy acquisition costs are amortized primarily over the estimated premium paying period of the related policies in proportion to the ratio of the annual premium recognized to the total premium revenue anticipated, using the same assumptions as were used in computing liabilities for future policy benefits.

We utilize the factor method to determine the amount of costs to be capitalized and the ending asset balance. The factor method is based on the ratio of premium revenue recognized for the policies in force at the end of each reporting period compared to the premium revenue recognized for policies in force at the beginning of the reporting period. The factor method ensures that policies that lapsed or surrendered during the reporting period are no longer included in the deferred policy acquisition costs calculation. The factor method limits the amount of deferred costs to its estimated realizable value, provided actual experience is comparable to that contemplated in the factors.

Inherent in the capitalization and amortization of deferred policy acquisition costs are certain management judgments about what acquisition costs are deferred, the ending asset balance and the annual amortization. Approximately 80% of our capitalized deferred acquisition costs are attributed to first year excess commissions. The remaining 20% are attributed to costs that vary with and are directly related to the acquisition of new insurance business. Those costs generally include costs related to the production, underwriting and issuance of new business.

A recoverability test that considers, among other things, actual experience and projected future experience is performed at least annually. These annual recoverability tests initially calculate the available premium (gross premium less benefit and expense portion of premium) for the next 30 years. The available premium per policy and the deferred policy acquisition costs per policy are then calculated. The deferred policy acquisition costs are then evaluated over two methods utilizing reasonable assumptions and two other methods using pessimistic assumptions. The two methods using reasonable assumptions illustrate an early-deferred policy acquisition recoverability period. The two methods utilizing pessimistic assumptions still support early recoverability of our aggregate deferred policy acquisition costs. Management believes that our deferred policy acquisition costs and related amortization for the three months ended March 31, 2010 and 2009 limits the amount of deferred costs to its estimated realizable value. This belief is based upon the analysis performed on capitalized expenses that vary with and are primarily related to the acquisition of new and renewal insurance business, utilization of the factor method and annual recoverability testing.

Cost of Customer Relationships Acquired

Cost of Customer Relationships Acquired (CCRA) is established when we purchase a block of insurance. CCRA is amortized primarily over the emerging profit of the related policies using the same assumptions as were used in computing liabilities for future policy benefits. We utilize various methods to determine the amount of the ending asset balance, including a static model and a dynamic model. Inherent in the amortization of CCRA are certain management judgments about the ending asset balance and the annual amortization. The assumptions used are based upon interest, mortality and lapses at the time of purchase.

A recoverability test that considers, among other things, actual experience and projected future experience is performed at least annually. These annual recoverability tests initially calculate the available premium (gross premium less benefit and expense portion of premium) for the next thirty years. The CCRA is then evaluated utilizing reasonable assumptions. Management believes that our CCRA and related amortization is recoverable for the three months ended March 31, 2010 and 2009. This belief is based upon the analysis performed on estimated future results

of the block and our annual recoverability testing.

Goodwill

Current accounting guidance requires that goodwill balances be review for impairment at least annually or more frequently if events occur or circumstances change that would indicate that a triggering event has occurred. A reporting unit is defined as an operating segment on one level below an operating segment. Most of the Company's reporting units, for which goodwill has been allocated, are equivalent to the Company's operating segment, as there is no discrete financial information available for the separate components of the segment or all of the components of the segment have similar economic characteristics.

The goodwill impairment test follows a two step process as defined under current accounting guidance. In the first step, the fair value of a reporting unit is compared to its carrying value. If the carrying value of a reporting unit exceeds its fair value, the second step of the impairment test is performed for purposes of measuring the impairment. In the second step, the fair value of the reporting unit is allocated to all of the assets and liabilities of the reporting unit to determine an implied goodwill value. If the carrying amount of the reporting unit goodwill exceeds the implied goodwill value, an impairment loss is recognized in an amount equal to that excess.

Management's determination of the fair value of each reporting unit incorporates multiple inputs including discounted cash flow calculations, peer company price to earnings multiples, the level of the Company's Class A common stock price and assumptions that market participants would make in valuing the reporting unit. Other assumptions can include levels of economic capital, future business growth, and earnings projections.

Valuation of Investments in Fixed Maturity and Equity Securities

The evaluation of securities for impairments is a quantitative and qualitative process, which is subject to risks and uncertainties and is intended to determine whether declines in the fair value of investments should be recognized in current period earnings. The risks and uncertainties include changes in general economic conditions, the issuer's financial condition or future prospects, the effects of changes in interest rates or credit spreads and the expected recovery period.

Based upon current accounting guidance, investment securities must be classified as held-to-maturity, available-for-sale or trading. Management determines the appropriate classification at the time of purchase. The classification of securities is significant since it directly impacts the accounting for unrealized gains and losses on securities. Fixed maturity securities are classified as held-to-maturity and carried at amortized cost when management has the positive intent and the Company has the ability to hold the securities to maturity. Securities not classified as held-to-maturity are classified as available-for-sale and are carried at fair value, with the unrealized holding gains and losses, net of tax, reported in other comprehensive income and do not affect earnings until realized.

The Company evaluates all securities on a quarterly basis, and more frequently when economic conditions warrant additional evaluations, for determining if an OTTI exists pursuant to the accounting guidelines. In evaluating the possible impairment of securities, consideration is given to the length of time and the extent to which the fair value has been less than cost, the financial conditions and near-term prospects of the issuer, and the ability and intent of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. In analyzing an issuer's financial condition, the Company may consider whether the securities are issued by the Federal government or its agencies, by government-sponsored agencies, or whether downgrades by bond rating agencies have occurred, and reviews of the issuer's financial condition.

If management determines that an investment experienced an OTTI, management must then determine the amount of OTTI to be recognized in earnings. If management does not intend to sell the security and it is more likely than not that the Company will not be required to sell the security before recovery of its amortized cost basis less any current period loss, the OTTI will be separated into the amount representing the credit loss and the amount related to all other factors. The amount of OTTI related to the credit loss is determined based on the present value of cash flows expected to be collected and is recognized in earnings. The amount of OTTI related to other factors will be recognized in other comprehensive income, net of applicable taxes. The previous amortized cost basis less the OTTI recognized in earnings will become the new amortized cost basis of the investment. If management intends to sell the security or more likely than not will be required to sell the security before recovery of its amortized cost basis less any current

period credit loss, the OTTI will be recognized in earnings equal to the entire difference between the investment's amortized cost basis and its fair value at the balance sheet date. Any recoveries related to the value of these securities are recorded as an unrealized gain (as other comprehensive income (loss) in shareholders' equity) and not recognized in income until the security is ultimately sold.

Table of Contents

CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES

March 31, 2010

The Company from time to time may dispose of an impaired security in response to asset/liability management decisions, future market movements, business plan changes, or if the net proceeds can be reinvested at a rate of return that is expected to recover the loss within a reasonable period of time.

Premium Revenue and Related Expenses

Premiums on life and accident and health policies are reported as earned when due or, for short duration contracts, over the contract period on a pro rata basis. Benefits and expenses are associated with earned premiums so as to result in recognition of profits over the estimated life of the contracts. This matching is accomplished by means of provisions for future benefits and the capitalization and amortization of deferred policy acquisition costs.

Annuities are accounted for in a manner consistent with accounting for interest bearing financial instruments. Our primary annuity products do not include fees or other such charges.

Tax Accounting

A deferred tax asset or deferred tax liability is recorded only if a determination is made that is more-likely-than-not that the tax treatment on which the deferred tax item depends will be sustained in the event of an audit. These determinations inherently involves management's judgment. In addition, the Company must record a tax valuation allowance with respect to deferred tax assets if it is more-likely-than-not that the tax benefit will not be realized. This valuation allowance is in essence a contra account to the deferred tax asset. Management must determine the portion of the deferred tax asset and resulting tax benefit that may not be realized based upon judgment of expected outcomes. Due to significant estimates utilized in establishing the valuation allowance and the potential for changes in facts and circumstances, it is reasonably possible that we will be required to record adjustments to the valuation allowance in future reporting periods. Such a charge could have a material adverse effect on our results of operations, financial condition and capital position.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

General

The nature of our business exposes us to investment market risk. Market risk is the risk of loss that may occur when changes in interest rates and public equity prices adversely affect the value of our invested assets. Interest rate risk is our primary market risk exposure. Substantial and sustained increases and decreases in market interest rates can affect the fair value of our investments. The fair value of our fixed maturity portfolio generally increases when interest rates decrease and decreases when interest rates increase.

Market Risk Related to Interest Rates

Our exposure to interest rate changes results from our significant holdings of fixed maturity investments, which comprised 89% of our investment portfolio as of March 31, 2010. These investments are mainly exposed to changes in U.S. Treasury rates. Our fixed maturities investments include U.S. Government-sponsored enterprises, U.S. Government bonds, securities issued by government agencies, and corporate bonds. Approximately 68.7% of the fixed maturities we owned at March 31, 2010 are instruments of U.S. Government-sponsored enterprises, or are backed by U.S. Government agencies.

Table of Contents

CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES
March 31, 2010

	March 31, 2010			December 31, 2009		
	Amortized Cost	Fair Value	Net Unrealized Gains (Losses) (In thousands)	Amortized Cost	Fair Value	Net Unrealized Gains (Losses)
Fixed maturities, available-for-sale	\$ 402,697	404,330	1,633	389,195	385,579	(3,616)
Fixed maturities, held-to-maturity	202,938	201,128	(1,810)	206,909	199,676	(7,233)
Total fixed maturities	\$ 605,635	605,458	(177)	596,104	585,255	(10,849)
Total equity securities	\$ 25,868	34,721	8,853	25,899	33,477	7,578

To manage interest rate risk, we perform periodic projections of asset and liability cash flows to evaluate the potential sensitivity of our investments and liabilities. We assess interest rate sensitivity with respect to our available-for-sale fixed maturities investments using hypothetical test scenarios that assume either upward or downward 100 basis point shifts in the prevailing interest rates. We performed a sensitivity analysis as of December 31, 2009 for our interest rate sensitive assets. The change in fair values of our debt and equity securities as of March 31, 2010 were within the expected range of this analysis.

Changes in interest rates typically have a sizable effect on the fair values of our debt and equity securities. The interest rate of the ten-year U.S. Treasury bond decreased slightly to 3.8% during the quarter ended March 31, 2010 from 3.9% at December 31, 2009. Net unrealized losses on fixed maturity securities totaled \$0.2 million at March 31, 2010 compared to losses of \$10.8 million at December 31, 2009. The improvement in fair value with little change in the U.S. Treasury rate is indicative of the current volatility in the market.

There are no fixed maturities or other investments that we classify as trading instruments. Approximately 66.8% of fixed maturities were held in available-for-sale and 33.2% in held-to-maturity based upon fair value at March 31, 2010. At March 31, 2010 and December 31, 2009, we had no investments in derivative instruments, nor did we have any subprime or collateralized debt obligation risk.

Market Risk Related to Equity Prices

Changes in the level or volatility of equity prices affect the value of equity securities we hold as investments. Our equity investments portfolio represented 5.1% of our total investments at March 31, 2010. We believe that significant decreases in the equity markets would not have a material adverse impact on our total investment portfolio.

Item 4. CONTROLS AND PROCEDURES

We have established disclosure controls and procedures to ensure, among other things, that material information relating to our Company, including its consolidated subsidiaries, is made known to our officers who certify our financial reports and to the other members of our senior management and the Board of Directors.

Our Chief Executive Officer (CEO) and Chief Financial Officer (CFO) are responsible for establishing and maintaining our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)). Based upon an evaluation at the end of the period, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this quarterly report.

Table of Contents

CITIZENS, INC. AND CONSOLIDATED SUBSIDIARIES

March 31, 2010

During the quarter ended March 31, 2010, there were no changes in the Company's internal controls over financial reporting that materially affect or are reasonably likely to effect the Company's internal controls over financial reporting (as defined in rules 13a-15(f) and 15d-15(f) under the Exchange Act).

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

We are a defendant in a lawsuit filed on August 6, 1999 in the Texas District Court, Austin, Texas, now styled *Citizens Insurance Company of America, Citizens, Inc., Harold E. Riley and Mark A. Oliver, Petitioners v. Fernando Hakim Daccach, Respondent*, in which a class was originally certified by the trial court and reversed by the Texas Supreme Court in 2007 with an order to the trial court to conduct further proceedings consistent with its ruling. The underlying lawsuit alleged that certain life insurance policies CICA made available to non-U.S. residents, when combined with a policy feature that allowed certain cash benefits to be assigned to two non-U.S. trusts for the purpose of accumulating ownership of our Class A common stock, along with allowing the policyholders to make additional contributions to the trusts, were actually offers and sales of securities that occurred in Texas by unregistered dealers in violation of the Texas securities laws. The remedy sought was rescission and return of the insurance premium payments. On December 9, 2009, the trial court denied the recertification of the class after conducting additional proceedings in accordance with the Texas Supreme Court's ruling. The remaining plaintiffs must now proceed individually, and not as a class, if they intend to pursue their cases against us. We intend to maintain a vigorous defense in any remaining proceedings.

In addition to the legal proceeding described above, we may from time to time be subject to a variety of legal and regulatory actions relating to our future, current and past business operations, including, but not limited to:

disputes over insurance coverage or claims adjudication;

regulatory compliance with insurance and securities laws in the United States and in foreign countries;

disputes with our marketing firms, consultants and employee agents over compensation and termination of contracts and related claims;

disputes regarding our tax liabilities;

disputes relative to reinsurance and coinsurance agreements; and

disputes relating to businesses acquired and operated by us.

In the absence of countervailing considerations, we would expect to defend any such claims vigorously. However, in doing so, we could incur significant defense costs, including not only attorneys' fees and other direct litigation costs, but also the expenditure of substantial amounts of management time that otherwise would be devoted to our business. If we suffer an adverse judgment as a result of any claim, it could have a material adverse effect on our business, results of operations and financial condition.

Item 1A. RISK FACTORS

There are no updates to our risk factors as disclosed in our Annual Report on Form 10-K for the year ended December 31, 2009, except as noted below.

Control of our Company, through the ownership of our Class B Common Stock, may one day be held by a 501(c)(3) charitable foundation and we cannot determine whether any change in our management or operations will occur as a result of the ownership change.

Harold E. Riley, our Founder, Chairman and CEO, is deemed by the New York Stock Exchange to be our ultimate controlling party. Mr. Riley owns 100% of Citizens Class B Common Stock through the Harold E. Riley Trust ("Trust"). Citizens' Class A and Class B Common Stock are identical in all respects, except the Class B Common Stock elects a simple majority of the Board and receives one-half of the cash dividends paid on a per share basis as the Class A

shares. The Class A Common Stock elects the remainder of the Board. Upon Mr. Riley's death, the Class B Common Stock will be transferred from the Trust to the Harold E. Riley Foundation, a charitable organization established under 501(c)(3) of the Internal Revenue Code ("Foundation "). However, it is unclear what, if any changes, would occur to our board or management structure as a result of different ownership of the control position of our Company. Mr. Riley may at any time prior to his death deem it appropriate to move the Class B Common Stock, currently held by the Trust, to the Foundation.
