NTT DOCOMO, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Basis of presentation:

The accompanying quarterly consolidated financial statements of NTT DOCOMO, INC. and its subsidiaries (DOCOMO) were prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). Certain disclosures required by U.S. GAAP have been omitted. Since DOCOMO's American Depositary Shares were listed on the New York Stock Exchange in March 2002, DOCOMO has prepared its consolidated financial statements pursuant to the terminology, forms and preparation methods required in order to issue American Depositary Shares, which are registered with the Securities and Exchange Commission of the United States of America.

2. Summary of significant accounting and reporting policies:

(1) Adoption of new accounting standards

Financing Receivables

Effective October 1, 2010, DOCOMO adopted Accounting Standards Update (ASU) 2010-20 Receivables (Topic 310): Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses issued by Financial Accounting Standards Board (FASB) in July 2010. ASU2010-20 requires enhanced disclosures regarding the nature of the credit risk inherent in the entity's financing receivables, how that credit risk is analyzed and assessed, and the reasons for the change in the allowance for credit losses. The adoption of ASU2010-20 did not have any impact on DOCOMO's results of operations and financial position. The disclosure required by ASU2010-20 was omitted.

(2) Recent accounting pronouncements

In October 2009, FASB issued ASU2009-13 Revenue Recognition (Topic 605): Multiple-Deliverable Revenue Arrangements . ASU2009-13 will require allocation of the overall consideration to each deliverable in an arrangement with multiple deliverables using the estimated selling price in the absence of vendor-specific objective evidence or third-party evidence of selling price for deliverables and eliminate residual method of allocation. ASU2009-13 is effective for fiscal years beginning on or after June 15, 2010. DOCOMO is currently evaluating the impact of adopting ASU2009-13 on DOCOMO's result of operations and financial position.

(3) Reclassifications

Certain reclassifications have been made to the prior periods' consolidated financial statements to conform to the presentation used for the nine months ended December 31, 2010.

5. Contingencies:

Litigation

As of December 31, 2010, DOCOMO had no litigation or claims outstanding, pending or threatened against which in the opinion of management would have a materially adverse effect on its results of operations or financial position.

Guarantees

DOCOMO enters into agreements in the normal course of business that provide guarantees for counterparties. These counterparties include subscribers, related parties, foreign wireless telecommunications service providers and other business partners.

DOCOMO provides subscribers with guarantees for product defects of cellular phone handsets sold by DOCOMO, but DOCOMO is provided with similar guarantees by the handset vendors and no liabilities were recognized for these guarantees.

Though the guarantees or indemnifications provided in transactions other than those with the subscribers are different in each contract, the likelihood of almost all of the performance of these guarantees or indemnifications are remote and amount of payments DOCOMO could be claimed for is not specified in almost all of the contracts. Historically, DOCOMO has not made any significant guarantee or indemnification payments under such agreements. DOCOMO estimates the fair value of the obligations related to these agreements is not significant. Accordingly, no liabilities were recognized for these obligations.

6. Fair value measurements:

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. U.S. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value according to observability. The inputs are described as follows:

Level 1 quoted prices in active markets for identical assets or liabilities

Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability

Level 3 unobservable inputs for the asset or liability

DOCOMO also distinguishes assets and liabilities measured at fair value every period on a recurring basis from those measured on a nonrecurring basis under specific situation (for example, impaired assets).

(1) Assets and liabilities measured at fair value on a recurring basis

DOCOMO's assets and liabilities measured at fair value on a recurring basis include available-for-sale securities and derivatives.

DOCOMO's assets and liabilities that were measured at fair value on a recurring basis at December 31, 2010 and March 31, 2010 were as follows:

Available-for-sale securities

Available-for-sale securities include marketable equity securities and debt securities, which are valued using quoted prices in active markets for identical assets. Therefore, these securities are classified as Level 1.

Derivatives

Derivative instruments are interest rate swap agreements, foreign exchange forward contracts, non-deliverable forward contracts (NDF) and foreign currency option contracts, which are measured using valuation provided by financial institutions based on observable market data. Therefore, these derivatives are classified as Level 2.

(2) Assets and liabilities measured at fair value on a nonrecurring basis

Certain assets and liabilities are measured at fair value on a nonrecurring basis and are not included in the table above. Changes of fair value in such assets and liabilities typically result from impairments.

DOCOMO may be required to measure fair value of long-lived assets, equity securities whose fair values are not readily determinable, and other assets or liabilities on a nonrecurring basis.

DOCOMO omitted the disclosure about assets and liabilities measured on a nonrecurring basis because of its immateriality.
