ITEM 11. EXECUTIVE COMPENSATION

EXECUTIVE COMPENSATION AND RELATED INFORMATION

COMPENSATION DISCUSSION AND ANALYSIS

Introduction and Corporate Governance

Our Compensation Committee, or the Committee, reviews, oversees and administers our executive compensation programs. The Committee's complete roles and responsibilities are set forth in the written charter adopted by the Board, which is available on the Governance page of the Investor Relations section of our website, available at: <http://investor.alkermes.com>. The Board selected the following individuals to serve on the Committee for our 2011 fiscal year: Mark B. Skaletsky (Chair), Paul J. Mitchell and David W. Anstice.

Executive Compensation Philosophy and Objectives

Our executive compensation program is designed to attract, retain and motivate experienced and well-qualified executive officers who will promote our research and product development, manufacturing, commercialization and operational efforts. We structure our executive officer compensation packages based on level of job responsibility, internal and external peer comparisons, individual performance, principles of internal fairness and our overall company performance. The Committee bases its executive compensation programs on the same objectives that guide us in establishing all our compensation programs, which are:

To provide an overall compensation package that rewards individual performance and corporate performance in achieving our objectives, as a means to promote the creation and retention of value for us and our shareholders;

To attract and retain a highly skilled work force by providing a compensation package that is competitive with other employers who compete with us for talent;

To structure an increasing proportion of an individual's compensation as performance-based as he or she progresses to higher levels within our company;

To foster the long-term focus required for success in the biotechnology industry; and

To structure our compensation and benefits programs similarly across our company.

Compensation Program Elements

The compensation program for executive officers consists of the following elements:

Base salary;

Annual cash performance pay (bonus); and

Long-term equity incentive awards, including:

Stock options; and

Restricted stock unit awards (also referred to as restricted stock awards)

The Committee utilizes these elements of compensation to structure compensation packages for executive officers that can reward both short and long-term performance of the individual and our company and foster executive retention.

Base Salary

Base salaries are used to provide a fixed amount of compensation for the executive's regular work. The Committee establishes base salaries that are competitive with comparable companies for each position and level of responsibility to the extent such comparable companies and positions exist. The salaries of the executive officers are reviewed on an annual basis, at the time of the mid-fiscal year performance review established by us. In determining increases, if any, to base salary, the Committee may consider factors such as the individual's performance, level of pay compared to comparable companies for each position and level of responsibility, experience in the position of the individual, cost of living indices, the magnitude of other annual salary increases at our company, and general progress towards

achieving the corporate objectives. Any base salary increase for an executive officer must be established by the Committee.

Table of Contents***Cash Performance Pay***

Cash performance pay motivates executive officers to achieve both short-term operational and longer term strategic goals that are aligned with, and supportive of, our long-term company value. Cash performance pay is awarded by the Committee after the fiscal year-end based on an evaluation of our company performance and each individual's contribution to this performance during such fiscal year. Performance objectives are established and evaluated by the Committee as outlined below.

In March 2010, the Committee approved the Alkermes Fiscal Year 2011 Reporting Officer Performance Pay Plan, or the 2011 Performance Plan, and established target performance pay ranges and target performance pay that may be earned for the period April 1, 2010 to March 31, 2011 by our executive officers, including all of our named executive officers. The plan contained the following fiscal year 2011 corporate objectives for our executives: maximize revenues from our partnered products; prepare for expansion of the VIVITROL® business into the opioid indication; advance our proprietary pipeline; expand our portfolio; achieve financial performance against budget; and respond to changing business conditions. In March 2010, the Committee initially set the range of the fiscal year 2011 cash performance pay award under the 2011 Performance Plan for Richard F. Pops, our President, Chief Executive Officer and Chairman of the Board, at between 0% and 100% of base salary, with a target performance pay award of 60% of base salary; in July 2010, the Committee, based on comparable market data that had recently been updated by the Committee's external compensation consultant (as discussed below), modified such performance pay range and target cash performance pay award to between 1% and 150% of base salary and 75% of base salary, respectively. The comparable market data for the President, Chief Executive Officer and Chairman showed that the initial target cash performance pay fell below the range of target performance pay for chief executive officers in our peer group of comparable companies. In March 2010, the Committee set the range of the fiscal year 2011 cash performance pay awards under the 2011 Performance Plan for participants other than the President, Chief Executive Officer and Chairman of the Board at between 0% and 100% of base salary, with a target cash performance pay award of 50% of base salary. The Committee established such performance pay targets and performance pay ranges based generally on comparable market data. Cash performance pay under our 2011 Performance Plan is awarded after the close of the fiscal year based upon the Committee's review of the performance of our company against our fiscal year corporate objectives, and the individual performance of each executive officer against such corporate objectives. Individual performance of the participants is determined by the Committee in its sole discretion.

Equity Incentives – Stock Options, Restricted Stock Awards and Restricted Stock Unit Awards

In October 2008, our shareholders adopted the Alkermes, Inc. 2008 Stock Option and Incentive Plan, or the 2008 Plan. The award of stock options (both incentive and non-qualified options), restricted stock unit awards, restricted stock awards, cash-based awards, and performance share awards is permitted under the 2008 Plan. The 2008 Plan is the only equity plan under which we currently grant equity awards. As used herein, the term "restricted stock award," unless otherwise specified, will include restricted stock unit awards and restricted stock awards.

Grants of stock options and restricted stock awards under our 2008 Plan are designed to promote long-term retention and stock ownership, and align the interests of executives with those of shareholders, providing our executives with the opportunity to share in the future value they are responsible for creating. Generally, stock options and non-performance-based restricted stock awards vest in equal annual installments over a four-year period. The Committee may, in its discretion, award equity with a different vesting schedule; however, under the 2008 Plan, restricted stock awards granted to employees that have a performance-based goal are required to have a restriction period of at least one year, and those with a time-based restriction are required to have at least a three-year restriction period, although vesting can occur incrementally over such three-year period. We had two retirement provisions open to all employees, only one of which (detailed immediately below) contained eligibility criteria that certain of our executive officers have met. If any employee whose age plus years of service equals at least 55 and who has at least 12 years of service with our company retires, then those stock options granted under our 2008 Plan before May 17, 2010, and under our 1998 Equity Incentive Plan and Amended and Restated 1999 Stock Option Plan (i) after December 9, 2004 and before May 17, 2010 or (ii) before December 9, 2004 with an exercise price less than \$13.69, shall vest and become exercisable in full for a prescribed period of time after retirement, not to exceed the full term of the grant. As of March 31, 2011, Mr. Pops, Mr. Landine, and Mr. Frates were the only named executive officers who

met the retirement eligibility criteria reflected in these stock option grants; however, Mr. Pops is not entitled to the benefit of this retirement provision for stock options granted to him for performance during fiscal years 2008, 2009 and 2010. In May 2011, the Committee determined that Mr. Pops would not be entitled to this retirement provision for grants of stock options for performance during fiscal years 2011 and thereafter. If the retirement criteria have not been met, vested exercisable stock options remain exercisable for up to three months from the recipient's date of termination from service and unvested stock options are forfeited, unless otherwise specifically determined by the Committee. Currently, there are no special retirement provisions associated with restricted stock awards.

Table of Contents

The number of shares underlying options and restricted stock awards granted to each executive officer is generally determined by the Committee based on: the performance of the executives and their contributions to overall performance of our company; information with regard to stock option grants and restricted stock awards at comparable companies, and generally within the biotechnology industry, based upon data provided by the independent compensation consultant (as discussed below); the dollar value of equity awards, as determined using the Black-Scholes option pricing model; consideration of previous equity awards made to such person; and personal knowledge of the Committee members regarding executive stock options and restricted stock awards at comparable companies. Consideration is also given to the impact of stock option and restricted stock awards on our results of operations.

During fiscal year 2008, the Committee shifted its equity compensation philosophy by altering the historical composition of equity incentives from primarily stock options to a combination of stock options and restricted stock awards. At the same time, the Committee decided to more selectively utilize these types of equity compensation within the company to focus on senior executives and those other key employees, as identified by our Chief Executive Officer in consultation with our human resources department, who are more likely to be motivated by such equity compensation. The Committee made these changes because it believed using equity in this manner would be more effective in rewarding and retaining key employees and motivating executives to increase shareholder value. In this context, the Committee rebalanced the mix of stock options and restricted stock awards such that senior executives receive a greater proportion of stock options than restricted stock awards, vice presidents receive a more balanced mixture of the two, and we more aggressively utilize restricted stock awards for other of our key employees.

The Committee set the range of equity compensation for fiscal year 2011 for our President, Chief Executive Officer and Chairman of the Board at 0 to 600,000 share units, with each full value award, such as the grant of a unit of restricted stock, counted as two share units for each share of common stock actually subject to the award, and each grant of a stock option counted as an award of one share unit for each share of common stock actually subject to the award.

Compensation Determinations***Factors Considered in Determining Compensation***

The Committee may consider a number of factors to assist it in determining compensation for our executive officers.

Company Performance. As discussed previously, our Board adopted five corporate objectives for our company for fiscal year 2011 and the Committee adopted these objectives and a sixth objective set forth below to measure the performance of our company and its senior executives during the fiscal year ended March 31, 2011: (i) maximize revenues from our partnered products; (ii) prepare for expansion of the VIVITROL business into the opioid indication; (iii) advance our proprietary pipeline; (iv) expand our portfolio; (v) achieve financial performance against budget; and (vi) respond to changing business conditions. The Committee considered the following in assessing our performance against the respective objectives:

We repurchased our RISPERDAL CONSTA notes prior to their maturity, saving over \$3.2 million in interest and accretion expense, and leaving us debt-free.

The Committee does not apply a formula or assign these performance objectives relative weights. Rather, it makes a subjective determination after considering such measures individually and in the aggregate.

Individual Performance. In establishing compensation levels, the Committee also evaluates each executive s

Table of Contents

individual performance using certain subjective criteria, including an evaluation of each executive's managerial ability and contribution to achievement of the corporate objectives and to overall corporate performance. In making its evaluations, the Committee consults on an informal basis with other members of the Board. In establishing compensation for executive officers other than Mr. Pops, the Committee reviewed in detail the recommendations of Mr. Pops. With respect to Mr. Pops, the Committee met at the end of the fiscal year to evaluate his performance against the corporate objectives of our company.

Use of Compensation Consultant for Benchmarking. Another factor considered by the Committee in determining executive compensation is the high demand for well-qualified personnel. Given such demand, the Committee strives to maintain compensation levels which are competitive with the compensation of other executives in the industry. To that end, the Committee, through our Human Resource Department's Director of Compensation and Benefits, retained the services of Pearl Meyer and Partners, or PMP, a nationally-recognized, independent executive compensation consulting firm, to review market data and various incentive programs and to provide assistance in establishing our cash and equity based compensation targets and awards based, in large part, upon a peer group identification and assessment that it was retained to conduct. PMP took direction from, and provided reports to, our Director of Compensation and Benefits, who acted on behalf of and at the direction of the Committee. PMP did not provide us with any services other than the services requested by the Committee.

The companies that comprised our pharmaceutical peer group for fiscal year 2011 consisted of: Alnylam Pharmaceuticals, Inc.; AMAG Pharmaceuticals, Inc.; Amylin Pharmaceuticals Inc.; Auxilium Pharmaceuticals, Inc.; BioMarin Pharmaceutical Inc.; Cubist Pharmaceuticals, Inc.; Enzon Pharmaceuticals, Inc.; Isis Pharmaceuticals, Inc.; The Medicines Company; Nektar Therapeutics; United Therapeutics Corporation; Vertex Pharmaceuticals Incorporated; and ViroPharma Incorporated. These thirteen publicly-traded, US-headquartered companies compete in similar product, service and labor markets as Alkermes and have generally similar revenues.

PMP also reviewed, and provided to the Committee, data from a survey group of companies, which reflects a broader group of biopharmaceutical/biotechnology companies employing the appropriate revenue, industry and executive role perspectives. Data is collected from survey sources containing data on companies of similar size and in the same industry as Alkermes. Surveys used in this analysis were the 2010 Radford Life Sciences Survey and one survey source maintained as confidential by PMP.

The peer group analyses enable the Committee to compare our executive compensation program as a whole and also the pay of individual executives if the jobs are sufficiently similar to make the comparison meaningful. The Committee seeks to ensure that our executive compensation program is competitive, meaning generally between the 50th and the 75th percentile of our peers in terms of value when we achieve targeted performance levels; however, as mentioned elsewhere in our compensation discussion and analysis, this comparative data provided by PMP is only one of many factors that the Committee takes into consideration in determining executive and individual compensation programs. The Committee, in its sole authority, has the right to hire or terminate outside compensation consultants.

Executive Officer Compensation Determination

Base Salary. The Committee reviewed base salaries for all of our executive officers coinciding with our mid-fiscal year performance review. In determining base salary adjustments for executive officers for fiscal year 2011, the Committee considered a number of factors, such as cost of living indices, market data for comparable companies, general progress towards achieving the fiscal year corporate objectives and, for those executive officers other than Mr. Pops, the recommendations of Mr. Pops. Based on this review, the Committee increased the base salaries of Messrs. Pops, Frates, Landine and Pugh and Dr. Ehrich by approximately 3.5%, effective as of October 24, 2010.

Cash Performance Pay. In October 2010, we paid one-time bonuses to certain of our employees for the extraordinary effort required to prepare for and participate in the Psychopharmacologic Drugs Advisory Committee for VIVITROL for the treatment of opioid dependence, which was held in September 2010. As part of those awards and at Mr. Pops' recommendation, the Committee approved the award of such a one-time bonus to Dr. Ehrich in the amount of \$7,326 in October 2010.

In May 2011, the Committee reviewed our performance against the fiscal year corporate objectives, the performance of Mr. Pops against such corporate objectives, and the target cash performance pay and cash performance pay range set by the Committee. The Committee determined that the cash performance pay for Mr. Pops for fiscal year 2011

should be equal to \$900,000, which is equal to approximately 127% of his base salary. The cash performance pay for Mr. Pops was determined based on the Committee's assessment of his performance against the corporate objectives, including the integral role he played in securing the EDT merger, advancing our proprietary pipeline, addressing the delay in U.S. regulatory approval for BYDUREON, obtaining approval of VIVITROL for the treatment of opioid dependence, meeting our financial objectives and generally transforming us from a drug delivery company dependent on partner portfolio decisions to an integrated pharmaceutical company advancing its own pipeline of proprietary products. In setting Mr. Pops' cash performance pay, the Committee also discussed data from

Table of Contents

PMP regarding cash performance pay for chief executive officers of our peer group companies.

Also, in April and May 2011, Mr. Pops presented to the Committee a performance evaluation of each of the other named executive officers and his recommendations for cash performance pay amounts based on such evaluation. Based upon the achievement of our corporate objectives, the challenges faced by each individual named executive officer in achieving those objectives and the individual performance recommendations of Mr. Pops, as well as the target cash performance pay and cash performance pay ranges set by the Committee, the Committee determined and awarded cash performance pay for fiscal year 2011 in an amount equal to, for Messrs. Landine and Pugh approximately 72%, Mr. Frates approximately 65% and Dr. Ehrich approximately 73%, of their respective current base salaries. All such amounts are set forth in the Summary Compensation Table below.

Equity Incentives – Stock Options and Restricted Stock Awards.

In May 2011, after the close of fiscal year 2011, the Committee awarded equity grants for fiscal year 2011 performance. In determining the grant of equity to Mr. Pops, the Committee took into consideration comparable peer group data provided by PMP, the dollar value of equity awards, as determined using the Black-Scholes option pricing model, historic awards, the overall equity position of Mr. Pops, the performance of our company against corporate objectives, and the performance of Mr. Pops against the corporate objectives. The Committee also considered the potential beneficial impact on shareholder return offered by the long-term incentive nature of time-vesting equity grants. Based upon these factors, the Committee awarded Mr. Pops a stock option grant of 400,000 shares and a restricted stock unit award of 32,500 shares. These stock options and restricted stock unit awards vest in four equal annual installments commencing on the one-year anniversary of the grant date, subject to early vesting in certain instances described below in Potential Payments upon Termination or Change in Control.

The following table sets forth equity incentive awards earned by Mr. Pops based on his performance and the performance of our company during fiscal years 2010 and 2011.

* Subject to performance vesting criteria

Does not include Retention Awards granted during fiscal year 2010 (described below) provided by the Committee to Mr. Pops in recognition of his new role as our Chairman, President and Chief Executive Officer. In November 2009, the Committee provided Mr. Pops with an equity grant in recognition of his new role as Chairman, President and Chief Executive Officer of the Company. In determining the grant of equity to Mr. Pops, the Committee took into consideration the overall equity position of Mr. Pops and the retention value of such equity. The Committee awarded Mr. Pops a stock option grant of 500,000 shares, or the Retention Option Award, vesting in four equal annual installments commencing on the one-year anniversary of the grant date, subject to early vesting in certain instances described below in Potential Payments upon Termination or Change in Control. To maximize its retentive value, the stock option grant did not receive the benefit of certain retirement provisions for which Mr. Pops would otherwise qualify and which would provide accelerated vesting and greater time to exercise the options as described

above under Compensation Program Elements Equity Incentives Stock Options, Restricted Stock Awards and Restricted Stock Unit Awards. The Committee also provided Mr. Pops with a restricted stock unit award of 250,000 shares, or the Retention RSU Award, which, together with the Retention Option Award, we refer to as the Retention Awards, vesting 50% on the third anniversary of the date of grant and 50% on the fourth anniversary of the date of grant, subject to early vesting in certain instances described below in Potential Payments upon Termination or Change in Control. This vesting schedule, which differs from our standard restricted stock unit vesting schedule, was specifically chosen by the Committee as a retention mechanism and to align Mr. Pops

interests with the long term interests of our shareholders.

In May 2011, after the close of fiscal year 2011, the Committee also awarded equity grants for all other executive officers for performance during such fiscal year. The Committee considered the comparable peer group data provided by PMP, the dollar value of equity awards as determined using the Black-Scholes option pricing model, historic awards, the performance of our company against corporate objectives, the overall equity position of each of the executives and the recommendations of Mr. Pops based on his assessment of each individual's performance against corporate objectives. Based upon these factors, the Committee awarded the following equity grants to each of Messrs. Frates, Landine and Pugh and Dr. Ehrlich: a stock option grant of 100,000 shares and a restricted stock unit award of 15,000 shares. Each of these stock option grants and restricted stock unit awards vests in four equal annual installments commencing on the one-year anniversary of the grant date, subject to early vesting in certain instances such as death or permanent disability and other instances as described below in Potential Payments upon Termination or Change in Control.

Stock Ownership Guidelines

Our Board members and executive officers (consisting of those who are required to file reports under Section 16(a) of the Exchange Act) are subject to stock ownership guidelines. The guidelines are designed to align the interests of our Board members and executive officers with those of our shareholders by ensuring that our Board members and executive officers have a meaningful financial stake in our long-term success. The guidelines establish minimum ownership levels by position (set forth below), with such values determined based on the value of common stock owned by such persons as of certain annual measurement dates specified in guidelines. Our stock ownership guidelines were approved by the Committee and Board in March 2009, with an effective date of April 1, 2010. The ownership levels specified in the guidelines became effective for our Chief Executive Officer as of April 1, 2010 and will become effective for all other current members of our Board and executive officers as of April 1, 2015.

Position**Value of Shares Owned**

Chief Executive Officer	3.0 times base salary as of April 1, 2010 5.0 times base salary as of April 1, 2015
Board Members	\$100,000
Other Section 16 reporting persons	1.0 times base salary

All shares directly or beneficially owned by the director or executive officer, including the value of vested stock options (where the market price of our common stock as of the measurement date exceeds the strike price of such option), are included for purposes of determining the value of shares owned under our stock ownership guidelines. For any Board members and executive officers joining our company after April 1, 2010, the stock ownership guidelines will become effective beginning on that April 1 that is five full years after their appointment as a Board member or executive officer. The Nominating and Corporate Governance Committee determined that Mr. Pops had met the stock ownership thresholds set forth in the guidelines as of April 1, 2011.

Perquisites

We did not provide executive officers with any perquisites in fiscal year 2011.

Retirement benefits

The terms of our 401(k) Savings Plan (401k Plan), provide for executive officer and broad-based employee participation. Under the 401k Plan, all of our employees are eligible to receive matching contributions from us. Our matching contribution for the 401k Plan for fiscal year 2011 was as follows: dollar for dollar on the first 1% of each participant's eligible compensation and \$0.50 on the dollar on the next 5% of each participant's eligible compensation, for a total match of 3.5% of such participant's eligible compensation, subject to applicable Federal limits.

Other benefits

Executive officers are eligible to participate in our employee benefit plans on the same terms as all other employees. These plans include medical, dental and life insurance. We may also provide relocation expense reimbursement and related tax gross-up benefits which are negotiated on an individual basis with executive officers. In addition, executive officers are eligible to receive severance benefits in connection with a termination or a change in control.

Table of Contents

as set forth in each of their employment contracts and described more fully below.

Post Termination Compensation and Benefits

We have a program in place under which our executive officers receive severance benefits if they are terminated without cause or if they terminate their employment for good reason (e.g., a material diminution in his or her responsibilities, authority, powers, functions, duties or compensation or a material change in the geographic location at which he or she must perform his or her employment), and thereafter sign a general release of claims. Additionally, named executive officers receive severance benefits if, for a period of time following a corporate transaction or a change in control, they are terminated without cause or they terminate for good reason. The terms of these arrangements and the amounts payable under them are described in more detail below under Potential Payments Upon Termination or Change in Control. We provide these arrangements because we believe that some severance arrangements are necessary in a competitive market for talent to attract and retain high quality executives. In addition, the change in control benefit allows the executives to maintain their focus on our business during a period when they otherwise might be distracted.

Tax Deductibility of Compensation

In general, under Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), we cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to our named executive officers. This deduction limitation does not apply, however, to certain performance-based compensation within the meaning of Section 162(m) of the Code and the regulations promulgated thereunder.

Management regularly reviews the provisions of our plans and programs, monitors legal developments and works with the Committee to preserve Section 162(m) tax deductibility of compensation payments. Changes to preserve tax-deductibility are adopted to the extent reasonably practicable, consistent with our compensation policies and as determined to be in our best interests and the best interests of our shareholders.

Risk Assessment of Compensation Policies and Practices

The Committee, at the direction of the Board, reviewed our compensation policies and practices and concluded that these policies and practices are not structured to be reasonably likely to have a material adverse effect on us. Specifically, our compensation programs contain many features that mitigate the likelihood of inducing excessive risk-taking behavior. These features include:

- a balance of fixed cash compensation and variable cash and equity compensation, with variable compensation tied both to short- and long-term objectives and the long-term value of our stock price;

- the Committee's ability to exercise discretion in determining incentive program payouts and equity awards;

- share ownership guidelines applicable to our directors and executive officers; and

- mandatory training on our policies that educate our employees on appropriate behaviors and the consequences of taking inappropriate actions.

Each executive officer will also be entitled to continued participation in the Alkermes health benefit plans, for Mr. Pops, for a period of two years following the date of termination, and for Messrs. Frates, Landine and Pugh and Dr. Ehrich, for a period of eighteen months following the date of termination. These change in control payments are expressly in lieu of, and supersede, those severance payments and benefits otherwise payable if we terminate such executive officer without cause or if such executive officer terminates his employment for good reason, provided that such termination occurs within two years after the occurrence of the first event constituting a change in control and that such first event occurs during the period of employment of the executive officer. Each executive officer is also entitled to a gross-up payment equal to the excise tax imposed upon the severance payments made in the event of a change in control, if any

payment or benefit to the executive, whether pursuant to the employment agreement or otherwise, is considered an excess parachute payment and subject to an excise tax under the Code.

Upon a change in control of our company, all outstanding stock options issued under our amended and restated 1999 Stock Option Plan and all outstanding stock options and restricted stock unit awards with time-based vesting issued under the 2008 Plan become exercisable. Restricted stock awards issued under our 2002 Restricted Stock Award Plan, all awards with conditions and restrictions relating to the attainment of performance goals issued under the

2008 Plan, and all other outstanding stock options may become vested and nonforfeitable in connection with a change in control in the Committee's discretion.

Except as set forth below, if any employee, including a named executive officer, retires after having met certain of our retirement eligibility criteria, then those stock options granted under our 2008 Plan before May 17, 2010, and under our 1998 Equity Incentive Plan and amended and restated 1999 Stock Option Plan (i) before May 17, 2010 but after December 9, 2004 or (ii) before December 9, 2004 with an exercise price less than \$13.69, shall vest and become exercisable in full for a prescribed period of time after retirement, not to exceed the full term of the grant. As of March 31, 2011, Messrs. Pops, Frates and Landine were the only named executive officers who met the retirement eligibility criteria reflected in these stock option grants; however, as previously discussed, Mr. Pops is not entitled to the benefit of this retirement provision for stock options granted to him for performance during fiscal years 2008, 2009, 2010 and 2011. If the retirement criteria have not been met, vested exercisable stock options remain exercisable for up to three months from the recipient's date of termination from service and unvested stock options are forfeited. In addition, in the event an employee (including a named executive officer) is terminated by reason of death or permanent disability, his stock options shall vest and become exercisable in full for a period of one to three years following termination depending on the date of the stock option grant, not to exceed the full term of the grant. The named executive officers are entitled to certain benefits upon death or disability available to all our employees, as described below. Under our flexible benefits program, all of our eligible employees, including the named executive officers, have the ability to purchase long-term disability coverage that will pay up to 60% of base monthly salary, up to \$20,000 per month during disability. In addition, under our flexible benefits program, we provide life insurance coverage for all of our eligible employees, including the named executive officers, equal to two times base salary, with a maximum of \$500,000 in coverage paid by us. In the event of termination due to death or disability, stock options granted prior to November 2000 become exercisable for a one-year period, not to exceed the full term of the grant, and stock options granted after November 2000 become fully vested and exercisable for a three-year period, not to exceed the full term of the grant.

Notes to Post-Termination Payments

- (1) If any employee, including a named executive officer, retires after having met certain of our retirement eligibility criteria, then those stock options granted under our 2008 Plan before May 17, 2010 and under the 1998 Equity Incentive Plan and amended and restated 1999 Stock Option Plan (i) before May 17, 2010 but after December 9, 2004 or (ii) before December 9, 2004 with an exercise price less than \$13.69, shall vest and become exercisable in full for a period of five years after retirement, not to exceed the full term of the grant. As of March 31, 2011, Messrs. Pops, Frates and Landine were the only named executive officers who met such retirement eligibility criteria; however, stock options awarded to Mr. Pops for performance in fiscal years 2008 through 2011 and

as a result of his assuming the role of our Chairman, President and Chief Executive Officer in fiscal year 2010 are not eligible for this retirement benefit.

- (2) If, during the term of the executive officer's employment agreement with us, we terminate such executive officer's employment without cause or such executive officer terminates his employment for good reason (e.g., a material diminution in his responsibilities, authority, powers, functions, duties or compensation or a material change in the geographic location at which he or she must perform his employment) and such executive officer thereafter signs a general release of claims, we will provide severance, as follows: to Mr. Pops, over a twenty-four month period, we will pay an amount equal to two times the sum of (i) his current base salary, plus (ii) the average of his annual bonus during the prior two years, and will provide for continued participation in our health benefit plans during such twenty-four month period; and to Messrs. Frates, Landine and Pugh and Dr. Ehrich, over a twelve-month period, we will pay an amount equal to the sum of (i) his current base salary plus (ii) the average of his annual bonus during the prior two years, and will provide for continued participation in our health benefit plans during such twelve-month period.
- (3) Under the employment agreements with our executive officers, in the event of a change in control, each executive officer would be entitled to continue his employment with us for a period of two years following the change in control. If, during this two-year period, we terminate such executive officer without cause or if such executive officer terminates his employment for good reason, we shall pay such executive officer a pro rata bonus (based upon the average of the annual bonus for the prior two years) for the year in which the termination occurs. Additionally, he or she will receive a lump sum payment equal to, for Mr. Pops, two times, and for Messrs. Frates, Landine and Pugh and Dr. Ehrich, one and one-half times, the sum of: (i) his then base salary (or the base salary in effect at the time of the change in control, if higher) plus (ii) an amount equal to the average of his annual bonus during the prior two years. Each executive officer will also be entitled to continued participation in our health benefit plans, for Mr. Pops, for a period of two years following the date of termination, and for Messrs. Frates, Landine and Pugh and Dr. Ehrich, for a period of eighteen months following the date of termination. These change in control payments are expressly in lieu of, and supersede, those severance payments and benefits otherwise payable if we terminate such executive officer without cause or if such executive officer terminates his employment for good reason, provided that such termination occurs within two years after the occurrence of the first event constituting a change in control and that such first event occurs during the period of employment of the executive officer. Each executive officer is also entitled to a gross-up payment equal to the excise tax imposed upon the severance payments made in the event of a change in control, if any payment or benefit to the executive, whether pursuant to the employment agreement or otherwise, is considered an excess parachute payment and subject to an excise tax under the Code.

In the event that any payments made in connection with a change in control would be subjected to the excise tax imposed by Section 4999 of the Code, we will gross up, on an after-tax basis, the executive officer's compensation for all federal, state and local income and excise taxes.

- (4) All options granted under the amended and restated 1999 Stock Option Plan and all options and restricted stock unit awards with time-based vesting issued under the 2008 Plan vest in full upon a change in control. This amount represents the difference between the exercise price and the market closing price of our common stock on March 31, 2011, which was \$12.95 per share, for outstanding unvested stock options that had an exercise price less than \$12.95 per share and the value of unvested restricted stock unit awards with time-based vesting, assuming a price of \$12.95 per share.

Compensation of Directors

Each of our non-employee directors and any director who serves as our part-time employee receive an annual retainer fee of \$30,000 paid quarterly, in advance, and, on the date of our annual meeting, an option to purchase 20,000 shares of common stock. In addition, upon becoming a member of the Board, each new non-employee and part-time employee director who is not then a consultant to us automatically receives a one-time grant of options to purchase 20,000 shares of common stock. If a new non-employee director is elected other than at the annual meeting of shareholders, the newly elected non-employee director also receives a grant of options equal to the product of 20,000 shares of common stock multiplied by a fraction, the numerator of which equals the number of months remaining until the next annual meeting of our shareholders and the denominator of which equals 12. David W. Anstice, Floyd E. Bloom, Robert A. Breyer, Geraldine Henwood, Paul J. Mitchell, Alexander Rich and Mark B. Skaletsky served as non-employee directors for all of the fiscal year ended March 31, 2011. Wendy L. Dixon was elected to the Board on January 13, 2011 and served for the remainder of the fiscal year ended March 31, 2011 as a non-employee director. For the fiscal year ended March 31, 2011, Michael A. Wall served as our director and as a part-time employee of our company. Richard F. Pops became Chairman of the Board effective April 1, 2007 and was an employee during the fiscal year ended March 31, 2011.

Under the 2008 Plan, an option to purchase 20,000 shares of common stock is granted automatically each year on the date of our annual meeting of shareholders for non-employee directors. Under the 2008 Plan, an option to purchase 20,000 shares of common stock is granted by resolution of the Committee each year on the date of our annual meeting of shareholders for part-time employee directors; such option grant contains the same terms and conditions as the option grant to non-employee directors. All of such options are exercisable at the fair market value of the common stock on the date such options are granted and vest, in full, six months following their grant. Non-employee and part-time employee directors do not receive any options to purchase shares of common stock except for the yearly grant described above and the one-time grant of an option to purchase 20,000 shares of our common stock upon joining the Board.

With the exception of Mr. Pops, each director receives an attendance fee of \$2,500 per Board meeting and \$1,250 for each telephonic Board meeting. Mr. Pops does not receive stock options or attendance fees for his service on the Board.

The Board adopted the following annual retainers, to be paid pro rata on a quarterly basis, for service beginning April 1, 2010:

Audit and Risk Committee Chair: \$22,000

Audit and Risk Committee member: \$10,000

Compensation Committee Chair: \$15,000

Compensation Committee member: \$7,500

Nominating and Corporate Governance Committee Chair: \$10,000

Nominating and Corporate Governance Committee member: \$5,000

We reimburse our directors for travel and other necessary business expenses incurred in the performance of their services for us and extends coverage to them under our travel accident and directors and officers indemnity insurance policies.

Mr. Wall has been a part-time employee of our company since January 1, 2004. During the fiscal year ended March 31, 2011, Mr. Wall received compensation of \$79,445 for the services that he performed for us outside of his capacity as a director. We believe that we obtain services from Mr. Wall on terms no less favorable to us than those of an independent third party.

Notes to Director Compensation Table For Fiscal Year Ended March 31, 2011

* Part-time employee director.

- (1) Represents fees earned by our directors in the fiscal year ended March 31, 2011 for services as a director, including annual retainer fees, committee and/or committee chair fees and meeting fees.
- (2) The amounts in column (d) reflect the aggregate grant date fair value recognized for financial statement reporting purposes, excluding estimates of forfeitures, if any, in accordance with GAAP for stock option awards granted in the fiscal year ended March 31, 2011. With the exception of Ms. Dixon, on October 5, 2010, each director received an option to purchase 20,000 shares of common stock, which had an estimated grant date fair value of \$7.30 per share. Upon her election to the Board on January 13, 2011, Ms. Dixon received an option to purchase 35,000 shares of common stock, which had an estimated grant date fair value of \$6.35 per share. The stock options granted to the non-employee directors and part-time employee directors were granted under the 2008 Plan. Stock options granted under the 2008 Plan are nonqualified stock options that vest six months from the grant date and expire upon the earlier of ten years from the grant date or three years after the optionee terminates their service relationship with us. Additionally, any unvested portion of the option grant shall vest upon the optionee's termination of their service relationship with us. We recognize the cost of the stock options granted to non-employee and part-time employee directors on a straight-line basis over the requisite service period of the stock options. There can be no assurance that the stock options will be exercised or the value realized upon exercise will equal the grant date fair value.
- (3) Assumptions used in the calculation of the fair value of option awards made by us for the stock options granted to directors on October 5, 2010 are as follows: option exercise price, \$14.92; expected term, 5.95 years; volatility, 48%; interest rate, 1.68%; dividend yield, zero. The assumptions used in the calculation of the fair value of option

awards made by us for the stock options granted to Ms. Dixon on January 13, 2011 was as follows: option exercise price, \$12.62; expected term, 5.95 years; volatility, 48%; interest rate, 2.47%; dividend yield, zero. Our directors hold the following aggregate number of outstanding stock options as of March 31, 2011: David W. Anstice, 80,000 shares; Floyd E. Bloom, 200,000 shares; Robert A. Breyer, 172,500 shares; Wendy L. Dixon, 35,000 shares; Geraldine Henwood, 198,000 shares; Paul J. Mitchell, 188,000 shares; Alexander Rich, 200,000 shares; Mark B. Skaletsky, 159,000 shares; and Michael A. Wall, 195,000 shares.

- (4) Mr. Wall has been a part-time employee of our company since January 1, 2004. During the fiscal year ended March 31, 2011, Mr. Wall received compensation of \$79,445 for the services that he performed for us outside of his capacity as a director. We believe that Mr. Wall's part-time employee status is no less favorable to us than obtaining services from an independent third party.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Transactions with Related Persons

Our Audit and Risk Committee charter, which is posted on the Governance page of the Investor Relations section of our website, available at <http://investor.alkermes.com>, makes clear that our Audit and Risk Committee is responsible for reviewing transactions with related persons, including transactions that would be required to be disclosed in this annual report on Form 10-K/A in accordance with SEC rules. In addition, our Code of Business Conduct and Ethics, which sets forth legal and ethical guidelines for all of our directors and employees, states that directors, executive officers and employees must avoid relationships or activities that might impair that person's ability to make objective and fair decisions while acting in their company roles and requires that, among other things, any transactions with related persons be disclosed to, and receive the approval of, the appropriate committee of our Board.

In addition, at the end of each fiscal quarter, we ask all of our directors and officers (vice presidents and higher) to disclose a list of their related parties; this practice is not pursuant to a written policy or procedure. Related parties are defined as any public, private, profit, or non-profit companies or organizations of which they or their immediate family is an officer, director or 10% or greater shareholder. All reported related parties are sent to our Finance department, which checks them against transactions of the company in that prior quarter. At the Audit and Risk Committee meeting held to review the quarter's financial results, any transactions between a reported related party and us are reported to the Audit and Risk Committee for its review and, if deemed appropriate by the Audit and Risk Committee in its sole discretion, approval.

There are no such relationships or transactions that are required to be disclosed in this annual report on Form 10-K/A under SEC rules.

Director Independence

We define an independent director in accordance with the applicable provisions of the Exchange Act, the rules promulgated thereunder and the applicable rules of Nasdaq. Because it is not possible to anticipate or explicitly provide for all potential situations that may affect independence, the Board periodically reviews each director's status as an independent director and whether any independent director has any other relationship with us that, in the judgment of the Board, would interfere with the director's exercise of independent judgment in carrying out such director's responsibilities as a director. The Board makes a determination as to whether each current director is independent under the applicable provisions of the Exchange Act, the rules promulgated thereunder and the applicable rules of Nasdaq at two points in time during the year after the annual meeting of shareholders and in conjunction with the preparation and filing of our proxy statement. In addition, the Board makes a determination as to whether a new director is independent under the applicable provisions of the Exchange Act, the rules promulgated thereunder and the applicable rules of Nasdaq at the time such director first joins the Board. To assist in making its determination, the Board solicits information from each of our directors regarding whether such director, or any family member of his immediate family, had a direct or indirect material interest in any transactions involving us, was involved in a debt relationship with us or received personal benefits outside the scope of such person's normal compensation.

The Board has determined that each of David W. Anstice, Floyd E. Bloom, Robert A. Breyer, Wendy L. Dixon, Geraldine Henwood, Paul J. Mitchell, Alexander Rich, and Mark B. Skaletsky are independent within the meaning of our director independence standards and the director independence standards of the Exchange Act and Nasdaq. Furthermore, the Board has determined that each member of each committee of the Board is independent within the meaning of the director independence standards of our company, the Exchange Act and Nasdaq.
