**SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D. C. 20549**

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2002

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the period from ____ to ____

Commission file number 0-24787

AFFILIATED COMPUTER SERVICES, INC.
(Exact name of registrant as specified in its charter)

Delaware

51-0310342

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer Identification No.)

2828 North Haskell, Dallas, Texas

75204

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code (214) 841-6111

Not Applicable

(Former name, former address and former fiscal year, if changed since last report.)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date.

Title of each class	Number of shares outstanding as of November 11, 2002
Class A Common Stock, \$.01 par value	125,557,389
Class B Common Stock, \$.01 par value	6,599,372
	132,156,761

Table of Contents

AFFILIATED COMPUTER SERVICES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. BASIS OF PRESENTATION

The consolidated financial statements include the accounts of Affiliated Computer Services, Inc. (ACS) and its majority-owned subsidiaries. All material intercompany profits, transactions and balances have been eliminated. We are a Fortune 1000 company comprised of approximately 36,000 full-time equivalent employees in 47 countries providing business process and technology outsourcing solutions to commercial, state and local government and federal government clients.

The financial information presented should be read in conjunction with our consolidated financial statements for the year ended June 30, 2002. The foregoing unaudited consolidated financial statements reflect all adjustments (all of which are of a normal recurring nature) which are, in the opinion of management, necessary for a fair presentation of the results of the interim periods. The results for the interim periods are not necessarily indicative of results to be expected for the year.

All share and per share information is presented after giving effect to the two-for-one stock split of our Class A and Class B common shares declared on January 22, 2002, paid on February 22, 2002 in the form of a stock dividend to shareholders of record as of February 15, 2002.

Significant accounting policies are detailed in our Annual Report on Form 10-K for the year ended June 30, 2002. For discussion of our critical accounting policies, please refer to Management's Discussion and Analysis of Financial Condition and Results of Operations.

2. DEBT

In September 2002, we entered into a new \$875 million senior unsecured revolving credit facility with a term of 39 months. This new facility replaced our \$450 million credit facility and the \$375 million interim credit facility, which was used to fund the acquisition of AFSA Data Corporation (AFSA) in June 2002. The new revolving credit agreement provides for unsecured borrowings at rates and fees based upon ACS' credit ratings; therefore rates will fluctuate based upon future changes. Currently borrowings bear interest at LIBOR plus 0.575%, a facility fee of 0.175% per annum on the committed amount of the facility plus a usage fee of 0.125% per annum on the total amount of outstanding borrowings. After March 2003, the usage fee will be applicable only when borrowings exceed \$437.5 million. The agreement matures in December 2005 and contains certain covenants, including maintaining specific interest coverage and debt-to-total EBITDA ratios.

As of September 30, 2002, we had approximately \$323 million available for use under the new facility, after giving effect to outstanding letters of credit of \$170 million that secure certain contractual performance and other obligations.

3. GOODWILL AND OTHER INTANGIBLE ASSETS

The changes in the carrying amount of goodwill for the quarter ended September 30, 2002 are as follow (in thousands):

	State and Local		Federal	Total
	Government	Commercial	Government	
Balance as of June 30, 2002	\$1,055,514	\$654,744	\$ 136,224	\$1,846,482
Goodwill activity during the quarter	(1,015)	822	178	(15)
Balance as of September 30, 2002	\$1,054,499	\$655,566	\$ 136,402	\$1,846,467

Goodwill balances by segment as of June 30, 2002 have been restated to reflect a change in our internal organization that caused the composition of our reportable segments to change. Current quarter activity reflects the collection of indemnified amounts from the seller of a company acquired in fiscal year 2001, offset by additional transaction costs and other liabilities incurred related to the AFSA acquisition and other fiscal year 2002 acquisitions.

Table of Contents

AFFILIATED COMPUTER SERVICES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

The following information relates to our intangibles as of September 30, 2002:

	As of September 30, 2002 (in thousands)	
	Gross Carrying Amount	Accumulated Amortization
Amortized intangible assets:		
Acquired customer related intangibles	\$ 146,785	\$ (19,539)
Customer related intangibles	95,440	(35,977)
All other	4,007	(1,900)
Total	\$ 246,232	\$ (57,416)
Unamortized intangible asset:		
Title plant	\$ 50,800	
Total	\$ 50,800	
Aggregate amortization:		
For the quarter ended September 30, 2002		\$ 8,786
Estimated amortization:		
For the year ended June 30, 2003		\$ 33,615
For the year ended June 30, 2004		\$ 29,517
For the year ended June 30, 2005		\$ 25,827
For the year ended June 30, 2006		\$ 21,315
For the year ended June 30, 2007		\$ 18,647

Amortization includes amounts charged to amortization expense for customer related intangibles and other intangibles, other than contract inducements. Amortization of contract inducements of \$1.2 million for the quarter is recorded as a reduction to related contract revenue. Amortization expense for the first quarter of fiscal 2003 includes approximately \$4.0 million related to acquired customer related intangibles. Customer related intangibles are amortized over a weighted average of approximately 8 years. All other intangibles are amortized over a weighted average of 9 years.

4. DERIVATIVES AND COMPREHENSIVE INCOME

We have adopted Statement of Financial Accounting Standards No. 130 (SFAS 130), Reporting Comprehensive Income. The objective of SFAS 130 is to report a measure of all changes in equity of an enterprise that result from transactions and other economic events of the period other than transactions with owners. Comprehensive income is the total of net income and other non-owner changes in equity.

During fiscal year 2002, in order to manage interest costs and exposure to changing interest rates on our \$450 million revolving credit agreement, we held two interest rate hedges, designated as cash flow hedges, which were initiated in December 1998. Both interest rate hedges expired in December 2001. Each hedge was structured such that we paid a fixed rate of interest of 4.54%, and received a floating rate of interest based on one month LIBOR. The fair value of each interest rate hedge reflected termination cash value and was reflected in Accumulated other comprehensive income (net of tax).

During fiscal year 2002, we held an investment in a marketable security. In order to manage the volatility of the value of our marketable security investment, we entered into a no-cost collar agreement in June 2001, which was settled and the investment sold in June 2002. The collar, a fair value hedge, was structured so that all fluctuations in the price of the marketable security above or below 100% or 102.5% of its value on the date the collar was entered into were hedged. The fair value of the collar was reflected in Accumulated other comprehensive income (net of tax).

Table of Contents

AFFILIATED COMPUTER SERVICES, INC. AND SUBSIDIARIES

(UNAUDITED)

6. SEGMENT INFORMATION

Based on the criteria set forth in Statement of Financial Accounting Standard No. 131, Disclosure about Segments of an Enterprise and Related Information, we have three reportable segments: state and local government, commercial and federal government. Certain reclassifications have been made to the segment disclosure as the result of changes to our reporting structure. The following is a summary of certain financial information by reportable segment (in thousands):

	<u>State and Local Government</u>	<u>Commercial</u>	<u>Federal Government</u>	<u>Corporate</u>	<u>Consolidated</u>
<u>Quarter Ended September 30, 2002</u>					
Revenues	\$ 402,677	\$ 287,528	\$ 207,671	\$	\$ 897,876
Operating expenses	324,974	219,715	186,909	10,481	742,079
EBITDA(a)	77,703	67,813	20,762	(10,481)	155,797
Depreciation and amortization expense	11,921	18,600	5,017	604	36,142
Operating income	\$ 65,782	\$ 49,213	\$ 15,745	\$ (11,085)	\$ 119,655
<u>Quarter Ended September 30, 2001</u>					
Revenues	\$ 244,533	\$ 220,310	\$ 190,176	\$	\$ 655,019
Operating expenses	190,229	182,692	171,525	4,616	549,062
EBITDA(a)	54,304	37,618	18,651	(4,616)	105,957
Depreciation and amortization expense	6,830	13,304	3,797	484	24,415
Operating income	\$ 47,474	\$ 24,314	\$ 14,854	\$ (5,100)	\$ 81,542

- (a) EBITDA consists of earnings before interest income, interest expense, other non-operating income and expense, income taxes, depreciation and amortization. EBITDA is not a measure of financial performance under generally accepted accounting principles and should not be considered in isolation or as an alternative to net income as an indicator of a company's performance or to cash flows from operating activities as a measure of liquidity. Our measure of EBITDA may not be comparable to similarly titled measures of other companies.

7. RELATED PARTY TRANSACTIONS

As of June 30, 2002, we held a minority preferred stock interest in DDH Aviation, Inc., a corporate airplane brokerage company organized in 1997 (DDH). Our Chairman owns a majority voting interest in DDH and our President and General Counsel, along with our Chairman were directors of DDH. At June 30, 2002, DDH had a \$48 million line of credit with Citicorp USA, Inc., for which we and our Chairman, in exchange for warrants to acquire additional voting stock, acted as partial guarantors. In addition, we obtained access to corporate aircraft at favorable rates in consideration of its guaranty. We had guaranteed up to approximately \$11.5 million of the line of credit and our Chairman guaranteed up to approximately \$17.5 million of the line of credit.

Subsequent to June 30, 2002, our Chairman assumed in full our guaranty obligations to Citicorp and our guaranty to Citicorp was released in full. Our minority preferred stock interest and warrants (with a recorded value of \$100,000 at June 30, 2002) in DDH were cancelled. We have no further contingent liability related to DDH debt and no ownership interest in DDH. Our officers, other than the Chairman, are no longer directors of DDH. In July 2002, we purchased \$1.0 million in prepaid charter flights at favorable rates from DDH.

8. ACQUISITIONS

Edgar Filing: AFFILIATED COMPUTER SERVICES INC - Form 10-Q

In August 2001, we acquired 100% of the stock of Lockheed Martin IMS Corporation (IMS), a wholly owned subsidiary of Lockheed Martin Corporation, for approximately \$825 million. The acquisition was funded from a \$550 million 18-month interim credit facility, borrowings from our \$450 million revolving credit facility, and existing cash on hand. The \$550 million 18-month interim credit facility was repaid in October 2001 with the proceeds of our issuance of Class A common stock. IMS results have been included in our consolidated financial statements from the effective date of the acquisition, August 1, 2001.

7

Table of Contents

AFFILIATED COMPUTER SERVICES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In June 2002 we acquired AFSA, a subsidiary of FleetBoston Financial Corporation, for approximately \$410 million plus related transaction costs. The acquisition was funded with a combination of a \$375 million 18-month interim credit facility, borrowings from our existing revolving credit facility, and existing cash on hand. The \$375 million interim credit facility was repaid in September 2002 with the proceeds of our \$875 million 39-month revolving credit facility (see Note 2). AFSA's results of operations have been included in our consolidated financial statements from the effective date of the acquisition, June 1, 2002.

Pro forma Financial Information

The following unaudited pro forma information presents a summary of our consolidated results of operations as if the IMS acquisition and the AFSA acquisition had occurred at the beginning of the period presented and are not necessarily indicative of future results or actual results that would have been achieved had the acquisition occurred at the beginning of the periods presented.

	For the three months ended September 30,	
	2001	
Revenue	\$	744,701
Net income		53,654
Earning per common share:		
Basic	\$.53
Diluted	\$.46

9. NEW ACCOUNTING STANDARDS

In June 2002, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 146 (SFAS 146), Accounting for Costs Associated with Exit or Disposal Activities, which changes the rules for how companies must account for costs associated with exit or disposal activities. Costs typically associated with exit or disposal activities include one-time employee termination costs, contract cancellation provisions, and relocation costs. SFAS 146 nullifies EITF Issue 94-3, Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring). The provisions of the new standard are effective for exit or disposal activities initiated after December 31, 2002, with early application encouraged. We do not believe that SFAS 146 will have a material impact on our future earnings and financial condition.

Emerging Issues Task Force Issue 00-21 Accounting for Revenue Arrangements with Multiple Deliverables (EITF 00-21) addresses the accounting treatment for an arrangement to provide the delivery or performance of multiple products and/or services where the delivery of a product or system or performance of services may occur at different points in time or over different periods of time. The arrangements are often accompanied by initial installation, initiation, or activation services and involve either a fixed fee or a fixed fee coupled with a continuing payment stream, which may be fixed or variable. At its October 25, 2002 meeting, the EITF issued a tentative conclusion regarding, among other issues, the applicability of the provisions regarding separation of contract elements in EITF 00-21 to contracts where one or more elements fall within the scope of other authoritative literature, such as Statement of Position 81-1, Accounting for Performance of Construction - Type and Certain Production - Type Contracts (SOP 81-1). The proposed EITF does not impact the use of SOP 81-1 for contracts that fall within the scope of SOP 81-1, such as for implementation or building of an information technology system or product to client specifications for a client under a long-term contract. Where an implementation or development project is contracted with a client, and the vendor will also provide services or operate the system over a period of time, EITF 00-21 provides the methodology for separating the contract elements and earnings processes. The provisions of EITF 00-21 are expected to be applicable on a prospective basis to transactions entered into in fiscal years beginning after December 15, 2002. We do not believe that EITF 00-21 will have a material impact on our financial position or results of operations.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

All statements in this Management's Discussion and Analysis of Financial Condition and Results of Operations that are not based on historical fact are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and the provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (which Sections were adopted as part of Private Securities Litigation Reform Act of 1995). While management has based any forward-looking statements contained herein on its current expectations, the information on which such expectations were based may change. These forward-looking statements rely on a number of assumptions concerning future events and are subject to a number of risks, uncertainties, and other factors, many of which are outside of our control, that could cause actual results to materially differ from such statements. Such risks, uncertainties, and other factors include, but are not necessarily limited to, those set forth under the caption Risks Related to our Business. In addition, we operate in a highly and rapidly changing environment, and new risks may arise. Accordingly, investors should not place any reliance on forward-looking statements as a prediction of actual results. We disclaim any intention to, and undertake no obligation to, update or revise any forward-looking statement.

GENERAL

In the quarter ended September 30, 2002, we signed new contracts with new clients and incremental business with existing clients representing \$144 million of new annualized recurring revenue. Included in this amount was a \$34 million per year five-year contract with the state of Ohio for Child Support Payment Processing. Over 80% of our bookings in the quarter ended September 30, 2002 were for business process outsourcing (BPO) services. Over two-thirds of our new business bookings were in the state and local government segment, reflecting continued demand in this segment for revenue enhancing or cost reducing solutions.

We closed no significant acquisitions in the quarter ended September 30, 2002. In the quarter ended September 30, 2001, we closed two transactions: the acquisition of Lockheed Martin IMS Corporation (IMS), a wholly-owned subsidiary of Lockheed Martin Corporation, which is now a part of our state and local government segment; and the acquisition of the business process outsourcing services unit of National Processing Company (NPC).

IMS, with its principal offices located in Washington D.C. and approximately 4,800 employees primarily throughout the United States, provides services to state and local government agencies in child support enforcement, welfare and workforce services, child care management, electronic toll collection, and other intelligent transportation services involving the trucking industry, photo enforcement of red-light and speeding violations, parking management, and information technology outsourcing. The transaction, valued at \$825 million plus related transaction costs, was initially funded through a combination of a \$550 million, 18-month interim credit facility, borrowings on our existing credit facility and existing cash on hand, which was repaid in October 2001 with proceeds from our issuance of Class A common stock. IMS' operating results are included in our financial statements from the effective date of the acquisition, August 1, 2001.

NPC provides healthcare claims processing, credit card application processing and airline lift ticket processing. As part of the transaction, we acquired all of NPC's offshore operations in Jamaica, the Dominican Republic, Barbados and a majority of NPC's Mexican operations. The transaction value was \$43 million plus related transaction costs. NPC's operating results are included in our financial statements from the effective date of the acquisition, August 1, 2001.

In addition to the IMS and NPC acquisitions that were completed in the first quarter of fiscal year 2002, we acquired six other companies in fiscal year 2002, the most significant of which are discussed below.

In May 2002, we acquired the finance and accounting business process outsourcing unit of Andersen Worldwide (Andersen). Included in this acquisition are contracts with General Motors (GM) and the University of Phoenix (the University). Under a new 10-year agreement with GM, we will provide transactional accounting services such as payroll processing, disbursement processing, dealer accounting, accounts receivable processing, lease and subsidiary accounting, and expense reporting in the United States and Europe. Under the arrangement with the University, we will provide student financial aid business process outsourcing services to the University including federal eligibility determinations, loan and grant processing, and disbursement of student aid as well as other support services related to student financial aid processing. The transaction was valued at approximately \$65 million plus related transaction costs. Andersen's operating results are included in our financial statements from the effective date of the acquisition, May 1, 2002 for the domestic operations, and June 1, 2002 for the foreign operations.

In June 2002, we acquired AFSA Data Corporation (AFSA), a subsidiary of FleetBoston Financial Corporation, for approximately \$410 million plus related transaction costs. AFSA is the nation's largest educational services company, servicing a student loan portfolio of 8.1 million borrowers with outstanding loans of approximately \$85 billion. Additionally, AFSA is a leading business process outsourcer for federal, state, and local governments for a variety of health and human services programs, including Medicare, Medicaid, children's health insurance programs

Edgar Filing: AFFILIATED COMPUTER SERVICES INC - Form 10-Q

(CHIP), and welfare-to-workforce services. AFSA's operating results are included in our financial statements from the effective date of the acquisition, June 1, 2002.

Table of Contents

Our largest contract for services is with the Department of Education, for which we service student loans under the Department of Education's Direct Student Loan program administered by its Office of Federal Student Aid (FSA). Revenues from this contract represent approximately 5% of our consolidated revenues. This contract was scheduled to run through September 30, 2003. In November 2001, the Department extended the contract term through September 30, 2006, with an option for further extension through September 30, 2007. This contract extension was to ensure that the Department's current program and systems modernization initiative remains on schedule and to minimize cost and disruption to the program. In December 2001, Sallie Mae challenged the Department's sole-source extension in a protest filed with the Department. The FSA took the position that the Sallie Mae protest was without merit and that the contract extension was lawful. In July 2002, the Department's deciding official sustained the protest, concluding that further market research was needed to support the sole-source extension of our contract. However, the deciding official declined to rescind our contract extension and directed the FSA to analyze its direct loan servicing needs and procure the services in compliance with law. The deciding official's decision stated that the Department could make a sole-source award to ACS if legally and factually justified. The Department is in the process of gathering market information to justify the contract extension. In a recent letter to industry participants regarding its market research, the Department stated that market research is not a competition and no contract will be issued, but that information gathered from this research will be used to improve FSA's knowledge of industry's capabilities. We expect that the FSA will have broad discretion in how it chooses to proceed in this matter and it could, among other things, elect to ratify the sole source extension, modify the contract extension term, or conduct a new competitive bid process. We believe we would be positioned very favorably in any competitive bid process because of our performance record with the Department and the delay that could result in the Department's modernization initiative if another vendor were selected. However, there can be no assurance that the contract extension granted in 2001 will be sustained or that we would be awarded an extension in any competitive bid process.

RESULTS OF OPERATIONS

The following table sets forth certain items from our consolidated statements of income as a percentage of revenues:

	Three Months Ended September 30,	
	2002	2001
Revenues	100.0%	100.0%
Expenses:		
Wages and benefits	44.9	45.3
Services and supplies	26.9	26.4
Rent, lease and maintenance	9.4	11.2
Depreciation and amortization	4.0	3.7
Other operating expenses	1.5	1.0
	<hr/>	<hr/>
Total operating expenses	86.7	87.6
	<hr/>	<hr/>
Operating income	13.3	12.4
Interest expense	0.8	1.9
Other non-operating expense (income), net	0.1	(0.2)
	<hr/>	<hr/>
Pretax profit	12.4	10.7
Income tax expense	4.7	4.0
	<hr/>	<hr/>
Net income	7.7%	6.7%
	<hr/>	<hr/>

COMPARISON OF THE QUARTER ENDED SEPTEMBER 30, 2002 TO THE QUARTER ENDED SEPTEMBER 30, 2001*Revenues*

Revenue increased \$242.9 million, or 37%, to \$897.9 million in the first quarter of fiscal year 2003 from \$655.0 million in the first quarter of fiscal year 2002. Internal revenue growth was 20% while growth from acquisitions was 17%.

Edgar Filing: AFFILIATED COMPUTER SERVICES INC - Form 10-Q

Revenues in our state and local government segment, which represents approximately 45% of first quarter fiscal year 2003 revenues, increased \$158.1 million, or 65%, to \$402.7 million in the first quarter of fiscal 2003 from \$244.5 million in the first quarter of fiscal year 2002. Internal growth of 35% resulted from the ramp up of contracts signed in fiscal year 2002 in our state healthcare and welfare to workforce services businesses. In addition, internal growth also benefited from work performed under an interim contract related to the New Jersey EZ Pass project. The balance of growth in our state and local government segments was due to the full quarter impact of the August 2001 acquisition of IMS and the impact of other fiscal year 2002 acquisitions.

Table of Contents

Revenues in our commercial segment, which represents approximately 32% of first quarter fiscal year 2003 revenues, increased \$67.2 million, or 31%, to \$287.5 million in the first quarter of fiscal 2003 from \$220.3 million in the first quarter of fiscal 2002. After adjusting for the impact of units divested in fiscal year 2002, growth in our commercial segment was 36%. Of this increase, 15% was generated internally and the remainder was from our acquisition activity in fiscal year 2002.

Revenue in our federal government segment, which represents 23% of first quarter fiscal year 2003 revenues, increased \$17.5 million to \$207.7 million in the first quarter of fiscal 2003 from \$190.2 million in the first quarter of fiscal 2002. After adjusting for the impact of units divested in fiscal year 2002, revenue growth in the federal government segment was 10%, of which 7% was from internal growth. Internal growth for the quarter was negatively impacted by the loss of the desktop services contract with the United States Senate, which was not renewed effective June 30, 2002 and represented approximately \$18 million of revenue in fiscal year 2002.

Operating Expenses

As a percentage of revenue, operating expenses decreased 0.9% from 87.6% in the first quarter of fiscal 2002 to 86.7% in the first quarter of fiscal 2003. Operating expenses increased \$204.7 to \$778.2 million in the first quarter of fiscal 2003 from \$573.5 million in the first quarter of fiscal 2002.

Wages and benefits increased \$106.0 million, or 36% to \$402.9 million. As a percentage of revenue, wages and benefits decreased 0.4% to 44.9%. The decrease is primarily related to increased revenues in transportation systems and services contracts in our state and local government segment that do not result in increased headcount and salaries, but are the result of billable services and supplies.

Services and supplies increased \$68.9 million, or 40%. As a percentage of revenue, services and supplies increased 0.5% due to increased equipment sales and related direct costs on contracts in our state and local government and federal government segments in fiscal 2003, as well as costs associated with our pursuit of the potential transaction with Procter & Gamble Co., as negotiations were terminated in September 2002.

Rent, lease and maintenance increased \$11.5 million, or 16%. As a percentage of revenue, rent, lease and maintenance decreased 1.8% due to the increase of BPO services in our revenue mix, which has a lower component of rent, lease and maintenance than traditional IT outsourcing.

Depreciation and amortization increased \$11.7 million, or 48%. As a percentage of revenue, depreciation and amortization increased to 4.0% in fiscal 2003 from 3.7% in fiscal 2002 as a result of intangible asset amortization associated with recent acquisitions.

Other operating expenses increased \$6.6 million, or 103%. As a percentage of revenue, other operating expenses increased 0.5%, primarily related to costs associated with our pursuit of the potential transaction with Procter & Gamble Co., bad debt expense, legal fees and other operating expenses.

Operating Margins

Our operating margins increased 0.9% from 12.4% in the first quarter of fiscal 2002 to 13.3% in the first quarter of fiscal 2003, due primarily to a larger percentage of BPO services in our revenue mix. BPO services typically have higher operating margins than traditional IT outsourcing services. Margins during the first quarter of fiscal year 2003 were negatively impacted by the \$2.1 million of costs incurred in pursuing the potential transaction with Procter & Gamble, as negotiations were terminated in September 2002.

For the quarter ended September 30, 2002, operating margins by segment were approximately 16% for our state and local government segment, 17% for our commercial segment, and 8% for our federal government segment. For the quarter ended September 30, 2001, operating margins by segment were approximately 19% for our state and local government segment, 11% for our commercial segment and 8% for our federal government segment.

The increase in our commercial segment operating margins from the first quarter of fiscal year 2002 to the first quarter of fiscal year 2003 is primarily the result of a larger BPO mix obtained from acquisitions. The decrease in operating margins for our state and local government segment from the first quarter of fiscal year 2002 to the first quarter of fiscal year 2003 is primarily due to new business costs as well as the business mix of our revenue within the state and local government segment.

Interest expense

Interest expense decreased \$5.5 million, or 44% in fiscal 2003 due to the conversion of our 4% Subordinated Convertible Notes to equity in March 2002 and approximately \$1.5 million of one-time financing costs related to the IMS acquisition in the first quarter of fiscal year 2002.

Table of Contents

Other non-operating (income) expense, net

Other non-operating (income) expense includes the \$1.3 million writedown of a note receivable in the first quarter of fiscal 2003. Other non-operating (income) expense also includes interest income on cash and cash equivalents, which was \$1.6 million higher in the first quarter of fiscal year 2002 than in the same period of fiscal year 2003.

Tax Expense

Our effective tax rate of approximately 37.5% in fiscal 2003 exceeds the federal statutory rate of 35% due primarily to the net effect of state income taxes.

LIQUIDITY AND CAPITAL RESOURCES

We finance our ongoing business operations through cash flows from operations and utilize excess cash flow combined with the issuance of debt and equity to finance our acquisition strategy. One of our primary financial goals is to maintain an adequate level of liquidity through active management of assets and liabilities.

During the first quarter of fiscal year 2003, we generated \$86.9 million in cash flow from operations versus \$38.4 million in the same period in fiscal year 2002. Free cash flow, defined as cash flows from operations less property, equipment and purchased software additions, was approximately \$42.1 million for the first quarter of fiscal year 2003 as compared to approximately \$2.5 million for the first quarter of fiscal year 2002. Historically, the first quarter of the year is our lowest quarter for operating cash flow due to the timing of annual incentive payments and interest payments.

During the first quarter of fiscal year 2003, we used \$53.1 million for investing activities. This includes \$44.8 million in fiscal year 2003 related to the purchase of property, equipment and software versus \$35.9 million in the same period in fiscal year 2002. Our capital expenditures remain at approximately 5% of total revenues, which we believe is adequate to support our growing business and to meet contractual requirements. We used \$4.9 million in cash for payments related to recent acquisitions, primarily the payment of transaction costs related to the AFSA acquisition in June 2002.

During the first quarter of fiscal year 2003, cash used by financing activities was \$14.3 million. We entered into a new \$875 million credit facility on terms generally similar to our existing credit facility, which was partially used to refinance the \$375 million interim credit facility used to fund the AFSA acquisition and which replaced our existing \$450 million credit facility.

As of September 30, 2002, we had approximately \$700 million of long-term debt outstanding, which was primarily comprised of approximately \$317 million of our 3.5% Convertible Subordinated Notes due February 15, 2006 and \$382 million outstanding under our \$875 million credit facility. At September 30, 2002, we had approximately \$323 million available on our \$875 million revolving credit facility after considering outstanding letters of credit of \$170 million.

At September 30, 2002, we had cash and cash equivalents of \$53.3 million compared to \$33.8 million at June 30, 2002. Included in the cash balances were \$5.8 million and \$5.4 million at September 30, 2002 and June 30, 2002, respectively, of restricted cash held on behalf of governmental customers.

Our working capital increased to \$434.4 million at September 30, 2002 from \$388.6 million at June 30, 2002 due to increased cash balances from a strong quarter of operating cash flow and a reduction in accrued compensation related to our first quarter payout of annual incentive payments. Our current ratio, defined as total current assets divided by total current liabilities, was 2.0 and 1.8 at September 30, 2002 and June 30, 2002, respectively, and our debt to capitalization ratio was 24.4% and 25.3% at September 30, 2002 and June 30, 2002, respectively. Our EBITDA to interest coverage ratio was 22 times interest for the quarter ended September 30, 2002.

Due to the terrorist attacks on September 11, 2001 and the well-documented bankruptcies of several large companies (e.g. Enron, Kmart, and WorldCom), the surety bond market has substantially changed, resulting in reduced availability of bonds and increased premiums. Some of our state and local government contracts require either a bond or a letter of credit and future requests for proposal may require a surety bond or letter of credit. Notwithstanding the existing condition of the surety bond market, management believes that we have sufficient liquidity from our cash flow and under our revolving credit facility to meet ongoing business needs and to respond to future requests for proposals from state and local governments.

As of June 30, 2002, we held a minority preferred stock interest in DDH Aviation, Inc., a corporate airplane brokerage company organized in 1997 (DDH). Our Chairman owns a majority voting interest in DDH and our President and General Counsel, along with our Chairman were

Edgar Filing: AFFILIATED COMPUTER SERVICES INC - Form 10-Q

directors of DDH. At June 30, 2002, DDH had a \$48 million line of credit with Citicorp USA, Inc., for which we and our Chairman, in exchange for warrants to acquire additional voting stock, acted as partial guarantors. In addition, we obtained access to corporate aircraft at favorable rates in consideration of its guaranty. We had guaranteed up to approximately \$11.5 million of the line of credit and our Chairman guaranteed up to approximately \$17.5 million of the line of credit.

Table of Contents

Subsequent to June 30, 2002, our Chairman assumed in full our guaranty obligations to Citicorp and our guaranty to Citicorp was released in full. Our minority preferred stock interest and warrants (with a recorded value of \$100,000 at June 30, 2002) in DDH were cancelled. We have no further contingent liability related to DDH debt and no ownership interest in DDH. Our officers, other than the Chairman, are no longer directors of DDH. In July 2002, we purchased \$1.0 million in prepaid charter flights at favorable rates from DDH.

Management believes that available cash and cash equivalents, together with cash generated from operations and available borrowings under our credit facility, will provide adequate funds for our anticipated internal growth needs, including capital expenditures. Our management also believes that cash provided by operations will be sufficient to satisfy all existing debt obligations as they become due. However, we intend to continue our growth through acquisitions and from time to time to engage in discussions with potential acquisition candidates, which could require significant commitments of capital. In order to pursue such opportunities we may be required to incur debt or to issue additional potentially dilutive securities in the future. No assurance can be given as to our future acquisitions and expansion opportunities and how such opportunities will be financed.

**DISCLOSURES ABOUT CONTRACTUAL OBLIGATIONS AND COMMERCIAL COMMITMENTS
AS OF SEPTEMBER 30, 2002 (IN THOUSANDS):**

Contractual Obligations	Payments Due by Period				
	Total	Less than 1 Year	1-3 Years	3-5 Years	After 5 Years
Long-term debt	\$ 698,190	\$	\$	\$ 698,190	\$
Capital lease obligations	1,978	891	1,087		
Operating leases	283,522	79,811	100,339	52,036	51,336
Other obligations	54	54			
Total Contractual Cash Obligations	\$983,744	\$80,756	\$101,426	\$750,226	\$51,336

Other Commercial Commitments	Amount of Commitment Expiration per Period				
	Total Amounts Committed	Less than 1 Year	1-3 Years	3-5 Years	After 5 Years
Standby letters of credit	\$ 170,417	\$ 170,417	\$	\$	\$
Surety Bonds	327,935	305,283	13,145	9,507	
Total Commercial Commitments	\$498,352	\$475,700	\$13,145	\$9,507	\$

CRITICAL ACCOUNTING POLICIES

The preparation of our financial statements in conformity with generally accepted accounting principles requires us to make estimates and assumptions relating to the reporting of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses. We base our estimates on historical experience and on various other assumptions or conditions that are believed to be reasonable under the circumstances. Actual results could differ from those estimates under different assumptions or conditions.

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties and may result in materially different results under different assumptions and conditions. We believe that the following critical accounting policies involve significant judgments and estimates used in the preparation of our consolidated financial statements.

Edgar Filing: AFFILIATED COMPUTER SERVICES INC - Form 10-Q

Revenue recognition. During fiscal year 2001, we adopted Staff Accounting Bulletin 101 Revenue Recognition in Financial Statements (SAB 101). SAB 101 provides guidance on the recognition, presentation, and disclosure of revenue in financial statements. We recognize revenues when persuasive evidence of an arrangement exists, the product has been shipped or the services have been provided to the client, the sales price is fixed or determinable, and collectibility is reasonably assured. The adoption of SAB 101 did not have a material impact on our results of operations.

Table of Contents

Approximately two-thirds of our revenue is recognized based on transaction volumes, approximately 15% is related to time and material contracts, approximately 12% is related to cost reimbursable contracts, and less than 5% of our revenues are recognized using percentage-of-completion accounting.

Generally, information technology processing revenues are recognized as services are provided to the client. Revenues from annual maintenance contracts are deferred and recognized ratably over the maintenance period. Revenues from hardware sales are recognized upon delivery to the client and when uncertainties regarding customer acceptance have expired.

Revenues for business process outsourcing services are normally determined on the basis of the number of accounts or transactions processed.

In the federal government segment, our contracts are typically cost reimbursable, fixed price, unit price, or time and material contracts. Revenues on cost reimbursable contracts are recognized by applying an estimated factor to costs as incurred, such factor being determined by the contract provisions and prior experience. Revenues on unit-price contracts are recognized at the contractual selling prices of work completed and accepted by the client. Revenues on time and material contracts are recognized at the contractual rates as the labor hours and direct expenses are incurred.

Revenues on fixed price contracts are recognized over the contract term based on the percentage of services that are provided during the period compared with the total estimated services to be provided over the entire contract using Statement of Position 81-1, Accounting for Performance of Construction-Type and Certain Production-Type Contracts (SOP 81-1), which requires the use of percentage-of-completion accounting for long-term contracts that are binding agreements between ACS and our customers in which we agree, for compensation, to perform a service to the customer's specifications. Performance will often extend over long periods, and our right to receive payment depends on our performance in accordance with the agreement.

The percentage-of-completion methodology involves recognizing revenue using the percentage of services completed, on a current cumulative cost to total cost basis, using a reasonably consistent profit margin over the period. Due to the long-term nature of these contracts, developing the estimates of costs often requires significant judgment. Factors that must be considered in estimating the progress of work completed and ultimate cost of the contract include, but are not limited to, the availability of labor and labor productivity, the nature and complexity of the work to be performed, the impact of delayed performance, and availability and timing of funding from the client. If changes occur in delivery, productivity or other factors used in developing the estimates of costs or revenues, we revise our cost and revenue estimates, and any revisions are charged to income in the period in which the facts that give rise to that revision become known.

Emerging Issues Task Force Issue 00-21 Accounting for Revenue Arrangements with Multiple Deliverables (EITF 00-21) addresses the accounting treatment for an arrangement to provide the delivery or performance of multiple products and/or services where the delivery of a product or system or performance of services may occur at different points in time or over different periods of time. The arrangements are often accompanied by initial installation, initiation, or activation services and involve either a fixed fee or a fixed fee coupled with a continuing payment stream, which may be fixed or variable. At its October 25, 2002 meeting, the EITF issued a tentative conclusion regarding, among other issues, the applicability of the provisions regarding separation of contract elements in EITF 00-21 to contracts where one or more elements fall within the scope of other authoritative literature, such as SOP 81-1. The proposed EITF does not impact the use of SOP 81-1 for contracts that fall within the scope of SOP 81-1, such as for implementation or building of an information technology system or product built to client specifications for a client under a long-term contract. Where an implementation or development project is contracted with a client, and the vendor will also provide services or operate the system over a period of time, EITF 00-21 provides the methodology for separating the contract elements and earnings processes. The provisions of EITF 00-21 are expected to be applicable on a prospective basis to transactions entered into in fiscal years beginning after December 15, 2002. We do not believe that EITF 00-21 will have a material impact on our financial position or results of operations.

Revenues earned in excess of related billings are accrued, whereas billings in excess of revenues earned are deferred until the related services are provided. Immediate recognition is made of any anticipated losses.

Valuation of goodwill and intangibles. Due to the fact that we are a services company, our business acquisitions typically result in goodwill and other intangible assets, which affect the amount of future period amortization expense and possible impairment expense that we could incur. The determination of the value of goodwill and other intangibles requires us to make estimates and assumptions about future business trends and growth. For the IMS, Andersen, and AFSA acquisitions in 2002, we obtained a third-party valuation of the intangible assets. If an event occurs which would cause us to revise our estimates and assumptions used in analyzing the value of our goodwill or other intangibles, such revision could result in an impairment charge that could have a material impact on our financial results.

Allowance for doubtful accounts. We make estimates of the collectibility of our accounts receivable. We specifically analyze accounts receivable and historical bad debts, customer credit-worthiness, current economic trends, and changes in our customer

Table of Contents

payment terms and collection trends when evaluating the adequacy of our allowance for doubtful accounts. Any change in the assumptions used in analyzing a specific account receivable may result in additional allowance for doubtful accounts being recognized in the period in which the change occurs.

Risks Related to our Business

The risks described below should not be considered to be comprehensive and all-inclusive. Additional risks that we do not yet know of or that we currently think are immaterial may also impair our business operations. If any events occur that give rise to the following risks, our business, financial condition, or results of operations could be materially and adversely affected, and as a result, the trading price of our Class A common stock could be materially and adversely impacted. These risk factors should be read in conjunction with other information set forth in this report, including our Consolidated Financial Statements and the related notes.

Loss of, or reduction of business from, clients. The loss of clients and/or the reduction of volumes and services provided to our clients could materially affect our profitability and cash flows. In addition, we incur a high level of fixed costs related to our technology outsourcing and business process outsourcing clients, therefore the loss of any one of our significant clients could leave us with a significantly higher level of fixed costs than is necessary to serve our remaining clients, thereby reducing our profitability and cash flow.

Termination of a contract by a client or deterioration of the financial condition of a client. We must make significant capital investments in order to attract and retain large outsourcing agreements. The termination of a client contract or the deterioration of the financial condition or prospects of a client has in the past, and may in the future, result in an impairment of the net book value of the assets recorded and a reduction in our earnings.

Competition. We expect to encounter additional competition as we address new markets and new competitors enter our existing markets. If we are forced to lower our pricing or if demand for our services decreases, our business, financial condition, results of operations, and cash flow may be materially and adversely affected. Many of our competitors have greater resources, and they may be able to use their resources to adapt more quickly to new or emerging technologies or to devote greater resources to the promotion and sale of their products and services. In addition, we must frequently compete with a client's own internal business process and information technology capabilities, which may constitute a fixed cost for the client.

Difficulties in executing our acquisition strategy. We intend to continue to expand our business through the acquisition of complementary companies. We cannot, however, make any assurances that we will be able to identify any potential acquisition candidates or consummate any additional acquisitions or that any future acquisitions will be successfully integrated or will be advantageous to us. Without additional acquisitions, we are unlikely to maintain historical growth rates.

Rapid technological changes. The markets for our information technology services are subject to rapid technological changes and rapid changes in client requirements. We may be unable to timely and successfully customize products and services that incorporate new technology or to deliver the services and products demanded by the marketplace.

Loss of significant software vendor relationships. Our ability to service our clients depends to a large extent on our use of various software programs that we license from a small number of primary software vendors. If our significant software vendors were to terminate or refuse to renew our contracts with them, we might not be able to replace the related software programs and would be unable to serve our clients, which could have a material adverse effect on our revenues and profitability.

Exercise of contract termination provisions. Most of our contracts with our clients permit termination in the event our performance is not consistent with service levels specified in those contracts, or provide for credits to our clients for failure to meet service levels. In addition, if clients are not satisfied with our level of performance, our reputation in the industry may suffer, which could materially and adversely affect our business, financial condition, results of operations, and cash flow.

Government clients' termination rights, audits and investigations. A substantial portion of our revenues are derived from contracts with the United States government and its agencies and from contracts with state and local governments and their agencies. Governments and their agencies may terminate most of these contracts at any time, without cause. Also, our federal government contracts are subject to the approval of appropriations being made by the United States Congress to fund the expenditures to be made by the federal government under these contracts. Additionally, government contracts are generally subject to audits and investigations by government agencies. If the government finds that we improperly charged any costs to a contract, the costs are not reimbursable or, if already reimbursed, the cost must be refunded to the government. If the government discovers improper or illegal activities in the course of audits or investigations, the contractor may be subject to various civil and criminal penalties and administrative sanctions, which may include termination of contracts, forfeiture of profits, suspension of payments, fines and suspensions or debarment from doing business with the government. Any resulting penalties or sanctions could have a material adverse effect on our business and financial results.

Table of Contents

Budget deficits at state and local governments and their agencies. A substantial portion of our revenues are derived from contracts with state and local governments and their agencies. Currently, many state and local governments that we have contracts with are facing potential budget deficits. While this has not had a material adverse impact on our results of operations through the first quarter of fiscal year 2003, it is unclear what impact, if any, these deficits may have on our future results of operations.

Inability to provide contract performance guarantees. Certain of our state and local government contracts require we execute surety bonds or letters of credit to ensure that the project is administered and completed as provided for in the contract. Prior to September 11 and the well-documented bankruptcies of several large companies (e.g. Enron, Kmart, and WorldCom), surety bonds were obtainable on relatively favorable terms at minimal pricing. In late 2001, the market for surety bonds changed dramatically with capacity tightening and prices increasing. In certain situations, we have found it more economical to satisfy our obligations under certain state and local contracts with letters of credit under our revolving credit facility. The long-term outlook of the surety market, while improving, remains unclear. If conditions require us to continue utilizing letters of credit under our credit facility (in lieu of bonds), we will be limited by the capacity under our revolving credit facility.

Terrorist attacks. Terrorist attacks and further acts of violence or war may cause major instability in the U.S. and other financial markets in which we operate. In addition, armed hostilities and further acts of terrorism may directly impact our physical facilities and operations, which are located in North America, Central America, South America, Europe, Africa, Australia, and the Middle East, or those of our clients. These developments subject our worldwide operations to increased risks and, depending on their magnitude, could have a material adverse effect on our business.

Failure to attract and retain necessary technical personnel and skilled management. Our success depends to a significant extent upon our ability to attract, retain and motivate highly skilled and qualified personnel. If we fail to attract, train, and retain, sufficient numbers of these technically-skilled people, our business, financial condition, and results of operations will be materially and adversely affected. Our success also depends on the skills, experience, and performance of key members of our management team. The loss of any key employee could have an adverse effect on our business, financial condition, and results of operations and prospects.

ITEM 4. CONTROLS AND PROCEDURES

Within the 90 days prior to the date of the filing of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as defined in Exchange Act Rule 15d-14(c). Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in enabling the Company to record, process, summarize and report information required to be disclosed in the Company's periodic filings with the Securities and Exchange Commission within the required time period. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls subsequent to the date the Company carried out its evaluation.

Table of Contents**PART II**

Item 1. Legal Proceedings

On December 16, 1998, a state district court in Houston, Texas entered final judgment against us in a lawsuit brought by 21 former employees of Gibraltar Savings Association and/or First Texas Savings Association (collectively, "GSA/FTSA"). The GSA/FTSA employees alleged that they were entitled to the value of 803,082 shares of our stock (adjusted for February 2002 stock split) pursuant to options issued to the GSA/FTSA employees in 1988 in connection with a former technology outsourcing services agreement between GSA/FTSA and us. The judgment against us was for approximately \$17 million, which includes attorneys' fees and pre-judgment interest, but excludes additional attorneys' fees of approximately \$0.9 million and post-judgment interest at the statutorily mandated rate of 10% per annum, which could be awarded in the event the plaintiffs are successful upon appeal and final judgment. The judgment was appealed by the plaintiffs and us.

On August 29, 2002, the Fourteenth Court of Appeals, Houston, Texas, reversed the trial court's judgment and remanded the case to the trial court for further proceedings. However, the court of appeals affirmed the trial court judgment in part as to one of the plaintiffs. The court of appeals also held that the trial court did not err in dismissing certain of our affirmative defenses at a pretrial conference. We filed a motion for rehearing with the court of appeals in September 2002, and, if necessary, we plan to file an appeal with the Texas Supreme Court. The plaintiffs have also filed a motion for rehearing with the court of appeals. We continue to believe that we have a meritorious defense to all or a substantial portion of the plaintiffs' claims, and accordingly, have not accrued any amount on our balance sheet related to the lawsuit. We would be subject to a material charge if the Texas Supreme Court upon appeal were to reverse the decision of the court of appeals and affirm the trial court judgment.

Item 4. Submission of Matters to a Vote of Stockholders

At our 2002 Annual Meeting of Stockholders held on October 24, 2002, the following actions were taken:

- The following Directors were elected for terms of office expiring in 2003:

<u>Name</u>	<u>For</u>	<u>Withheld</u>
Darwin Deason	142,874,438	33,620,762
Jeffrey A. Rich	169,953,795	6,541,405
Mark A. King	169,850,918	6,644,282
William L. Deckelman, Jr.	169,849,061	6,646,139
Henry G. Hortenstine	169,945,469	6,549,731
Peter A. Bracken	169,952,432	6,542,768
Joseph P. O'Neill	172,166,737	4,328,463
Frank A. Rossi	172,163,109	4,332,091
Clifford M. Kendall	172,162,442	4,332,758

Pursuant to the terms of our Notice of Annual Meeting and Proxy Statement, proxies received were voted, unless authority was withheld, in favor of the election of the nine nominees named.

- A proposal by the Board of Directors to approve Performance Based Incentive Compensation for our executive officers was approved by the stockholders. The stockholders cast 173,285,650 votes in favor of this proposal; 2,973,686 votes against this proposal and there were 235,864 abstentions.
- A proposal by the Board of Directors to approve the Amended and Restated ACS Employee Stock Purchase Plan was approved by the stockholders. The stockholders cast 176,011,400 votes in favor of the proposal and 293,031 votes against the proposal and there were 190,769 abstentions.

Item 5. Other Information

One of our subsidiaries, ACS Defense, Inc., and other government contractors received a grand jury document subpoena issued by the U.S. District Court for the District of Massachusetts in October 2002. The subpoena was issued in connection with an inquiry being conducted by the Antitrust Division of the U.S. Department of Justice. The inquiry concerns certain procurements by a federal agency. We are cooperating fully with the Department of Justice in responding to the subpoena. Due to the preliminary nature of the government's inquiry, we are not able to assess the impact, if any, of this inquiry on ACS.

Item 6. Exhibits and Reports on Form 8-K

a.) Exhibits

3.1 Certificate of Elimination of the Series A Cumulative Redeemable Preferred Stock of Affiliated Computer Services, Inc.

3.2 Certificate of Correction to Certificate of Amendment of Affiliated Computer Services, Inc.

b.) Reports on Form 8-K

1. On July 8, 2002, the Company filed a Current Report on Form 8-K (dated as of July 2, 2002) confirming on-going discussions with Procter & Gamble Co. concerning the possible acquisition by the Company of Procter & Gamble's shared services division.
2. On July 25, 2002, the Company filed a Current Report on Form 8-K/A (dated as of June 10, 2002) amending its Current Report on Form 8-K dated June 10, 2002 (filed June 10, 2002) to include Item 7(a) Financial Statements of Businesses Acquired and Item 7(b) Pro Forma Financial Information and related exhibits of AFSA Data Corporation.
3. On August 21, 2002, the Company filed a Current Report on Form 8-K (dated as of August 19, 2002) announcing the promotion of Mark King to President and Chief Operating Officer.
4. On September 17, 2002, the Company filed a Current Report on Form 8-K (dated as of September 17, 2002) announcing that the Company had ceased negotiations with Procter & Gamble Co. regarding the potential acquisition of Procter & Gamble's shared services operations.
5. On September 18, 2002, the Company filed a Current Report on Form 8-K (dated as of September 17, 2002) announcing it had completed a \$875 million senior unsecured revolving credit facility with a term of 39 months.
6. On September 18, 2002, the Company filed a Current Report on Form 8-K (dated as of September 18, 2002) reporting that Jeffrey A. Rich, Chief Executive Officer and Warren Edwards, Executive Vice President and Chief Financial Officer, each submitted to the Securities and Exchange Commission his sworn statement pursuant to Securities and Exchange Commission Order No. 4-460, and made certifications pursuant to 18 U.S.C., Section 1350, as adopted pursuant to Section 9.06 of the Sarbanes-Oxley Act of 2002.

**Certification
pursuant to and in connection with the
Quarterly Reports on Form 10-Q
to be filed under Sections 13 and 15(d) of the Securities Exchange Act of 1934, as amended**

I, Jeffrey A. Rich, Chief Executive Officer of Affiliated Computer Services, Inc. (the Registrant), certify that:

1. I have reviewed this quarterly report of the Registrant on Form 10-Q for the period ending September 30, 2002;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this quarterly report;
4. The Registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the Registrant and we have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) evaluated the effectiveness of the Registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the Evaluation Date); and
 - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The Registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the Registrant's auditors and the audit committee of Registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the Registrant's ability to record, process, summarize and report financial data and have identified for the Registrant's auditors any material weaknesses in internal controls; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal controls; and
6. The Registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
