(b) PRO FORMA FINANCIAL INFORMATION.

Unaudited Pro Forma Condensed Consolidated Financial Information

On May 14, 2004, GSI Lumonics Inc. ("the Company" or "GSI") completed its acquisition of MicroE Systems Corp., a Delaware corporation ("MicroE"). The acquisition was completed by means of a merger (the "Merger") of Motion Acquisition Corporation, a Delaware corporation and an indirect wholly owned subsidiary of the Company, with and into MicroE, pursuant to an Agreement and Plan of Merger dated as of April 12, 2004 (the "Merger Agreement"). As a result of the Merger, MicroE became an indirect wholly owned subsidiary of the Company.

Pursuant to the terms of the Merger Agreement, upon the effective time of the Merger, the Company paid former MicroE security holders \$53.8 million in cash, net of cash received as part of the merger (the "Merger Consideration") in exchange for all of MicroE's outstanding capital stock. The Merger Consideration and the terms of the Merger were determined in arms-length negotiations between the parties. The Company paid the Merger Consideration from existing cash. The total purchase price, net of cash acquired and including costs of transaction, is expected to be approximately \$54.7 million.

The following unaudited pro forma condensed consolidated balance sheet as of April 2, 2004, and the unaudited pro forma condensed consolidated statements of operations for the three months ended April 2, 2004 and the year ended December 31, 2003, give effect to the Company's acquisition of MicroE. The unaudited pro forma condensed consolidated balance sheet presents the financial position of the Company as if the acquisition of MicroE had occurred on April 2, 2004. The unaudited pro forma condensed consolidated statements of operations for the year ended December 31, 2003 and for the three months ended April 2, 2004 have been prepared as if the acquisition occurred on January 1, 2003. MicroE's fiscal year ended on September 28, 2003. The financials for MicroE have been adjusted to reflect twelve months of activity through January

4, 2004 using audited twelve month information and unaudited three month information to derive the twelve months ended January 4, 2004. The use of MicroE's financial statements for the three months ended April 4, 2004 as opposed to April 2, 2004 and for the twelve months ended January 4, 2004 as opposed to December 31, 2003 had no significant impact on reported results. The acquisition has been accounted for using purchase accounting in accordance with the provisions of Statement of Financial Accounting

Edgar Filing: GSI LUMONICS INC - Form 8-K/A

Standards No. 141, Business Combinations.

These pro forma unaudited condensed consolidated financial statements have been prepared in accordance with Article 11 of Regulation S-X. The pro forma unaudited condensed consolidated financial statements are provided for informational purposes only and do not necessarily represent what our results of operations would have been had the acquisition occurred January 1, 2003, or our financial position had the acquisition occurred April 2, 2004.

Certain pro forma balances are preliminary, as the Company has allocated the estimated purchase price to the assets acquired and liabilities assumed based on a preliminary assessment made by management. The Company has not yet completed the process of conducting a valuation of the fair value of the assets acquired or liabilities assumed, including the allocation of the purchase price. This preliminary estimate of the fair value of the assets acquired, liabilities assumed and allocation of the purchase price along with the resulting pro forma amounts is subject to adjustment for any differences that might occur upon the Company's completion of the valuation process.

The unaudited pro forma condensed consolidated financial statements also do not purport to project our financial position or results of operations at any future date or for any future period.

This information should be read in conjunction with our previously filed Current Reports on Form 8-K, dated May 17, 2004 and Form 8-K/A Amendment No. 1, dated July 13, 2004; our Quarterly Report on Form 10-Q for the three months ended April 2, 2004; our Annual Report on Form 10-K for the year ended December 31, 2003 and the financial statements and accompanying notes of MicroE included as exhibits to this Amendment No. 2 to the Current Report on Form 8-K/A.

GSI LUMONICS INC.
NOTES TO UNAUDITED PRO FORMA CONDENSED CONSOLIDATED BALANCE SHEET
APRIL 2, 2004

The following footnotes correspond to the April 2, 2004 unaudited pro forma condensed consolidated balance sheet:

- a) To reflect the cash payments directly attributable to the acquisition. The Company acquired all of the capital stock of MicroE in exchange for approximately \$57.3 million in cash. In addition, acquisition-related costs of approximately \$1.0 million are expected to be incurred by the Company. These are included in other accrued expenses.

Edgar Filing: GSI LUMONICS INC - Form 8-K/A

- b) To adjust the values of assets and liabilities acquired to their estimated fair value as of the date of the acquisition.
- c) To recognize identifiable intangible assets consisting of completed technology, trademarks/tradenames and customer relationships. The Company has allocated the estimated purchase price, net of cash acquired, to the assets acquired and liabilities assumed based on a preliminary assessment made by management. The Company has not yet completed the process of conducting a valuation of the fair value of the assets acquired or liabilities assumed, including the allocation of the purchase price. This preliminary estimate of the fair value of the assets acquired, liabilities assumed and allocation of the purchase price along with the resulting pro forma amounts is subject to adjustment for any differences that might occur upon the Company's completion of the valuation process. The preliminary assessment indicates that the fair value of the assets acquired and liabilities assumed is less than the purchase price, resulting in goodwill. The following is a summary of the estimated purchase price, net of cash acquired, allocation:

	in thousands \$
Cash paid	\$ 57,263
Cash received upon acquisition	(3,506)
Acquisition-related costs	987

Total purchase price	\$ 54,744
	=====
Allocated to tangible assets acquired	\$ 7,990
Allocated to liabilities assumed	(4,653)
Deferred tax liability	(12,317)
Intangible assets	32,200
Goodwill	31,094
Purchased in process research and development	430

Total	\$ 54,744
	=====

Preliminary allocation of intangible assets is as follows:

	Estimated Fair Value in thousands \$	Estimated Useful Life
Customer relationships	\$ 8,500	8
Tradename	3,100	15
Acquired technology	20,600	10

Total purchase price	\$32,200	
	=====	

- d) To eliminate the stockholders' equity of MicroE at April 2, 2004.

Edgar Filing: GSI LUMONICS INC - Form 8-K/A

- e) To recognize estimated deferred tax liability attributable to the acquisition of MicroE. The acquisition of MicroE was structured in such a manner, that the Company is not expected to receive any tax benefit from the amortization of intangibles. As such, in accordance with US GAAP a deferred tax liability based on estimated tax rates has been established with a corresponding increase to goodwill.
- f) To reflect an estimated in-process technology charge of approximately \$0.4 million. The Company expects to record a one-time charge of approximately \$0.4 million in the second quarter of 2004 for purchased in-process technology related to development projects that have not reached technological feasibility, have no alternative future use, and for which successful development is uncertain. This in-process technology charge has not been included in the pro forma condensed consolidated statements of operations for the three months ended April 2, 2004 and the year ended December 31, 2003. The final determination of the charge for in-process technology is subject to the completion of the valuation process.
