NUANCE COMMUNICATIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Organization and Presentation

Nuance Communications, Inc. (the Company or Nuance) offers businesses and consumers competitive and value-added speech, dictation and imaging solutions that facilitate the way people access, share, manage and use information in business and daily life. The Company was incorporated in 1992 as Visioneer, Inc. In 1999, the Company changed its name to ScanSoft, Inc., and changed its ticker symbol to SSFT. In October 2005, the Company changed its name to Nuance Communications, Inc. and changed its ticker symbol to NUAN in November 2005.

On November 2, 2007, the Company acquired Vocada, Inc. (Vocada), a provider of software and other products for managing critical medical test results, and on November 26, 2007, the Company acquired Viecore, Inc. (Viecore), a consulting and systems integration firm (Note 3).

The accompanying unaudited interim consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles. In the opinion of management, these unaudited interim consolidated financial statements reflect all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the financial position of the Company at December 31, 2007, the results of operations for the three month periods ended December 31, 2007 and 2006, and cash flows for the three month periods ended December 31, 2007 and 2006. Although the Company believes that the disclosures in these financial statements are adequate to make the information presented not misleading, certain information normally included in the footnotes prepared in accordance with U.S. generally accepted accounting principles has been omitted as permitted by the rules and regulations of the Securities and Exchange Commission. The accompanying financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2007 filed with the Securities and Exchange Commission on November 29, 2007. The results for the three month period ended December 31, 2007 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2008, or any future period.

Reclassification

Certain amounts presented in prior periods consolidated financial statements have been reclassified to conform to the current periods presentation.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. On an ongoing basis, the Company evaluates its estimates, assumptions and judgments, including those related to revenue recognition; allowance for doubtful accounts and returns; accounting for patent legal defense costs; the costs to complete the development of custom software applications; the valuation of goodwill, other intangible assets and tangible long-lived assets; accounting for acquisitions; share-based payments; the obligation relating to pension and post-retirement benefit plans; interest rate

swaps which are characterized as derivative instruments; income tax reserves and valuation allowances; and loss contingencies. The Company bases its estimates on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual amounts could differ significantly from these estimates.

Table of Contents

NUANCE COMMUNICATIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Basis of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. Intercompany transactions and balances have been eliminated.

Revenue Recognition

The Company recognizes revenue from the sale of software products and licensing of technology in accordance with Statement of Position (SOP) 97-2, Software Revenue Recognition, and SOP 98-9, Modification of SOP 97-2, Software Revenue Recognition, with Respect to Certain Transactions, and related authoritative literature. In select situations, we sell or license intellectual property in conjunction with, or in place of, embedding our intellectual property in software. In accordance with SOP 97-2, revenue is recognized when (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred, (iii) the fee is fixed or determinable and (iv) collectibility is probable.

Revenue from royalties on sales of the Company's software products by original equipment manufacturers (OEMs), where no services are included, is recognized in the quarter earned so long as the Company has been notified by the OEM that such royalties are due, and provided that all other revenue recognition criteria are met.

Software arrangements generally include post contract support which includes telephone support and the right to receive unspecified upgrades/enhancements on a when-and-if-available basis, typically for one to three years. Revenue from maintenance and support services are recognized ratably on a straight-line basis over the term that the maintenance service is provided.

Non-software revenue is recognized in accordance with the Securities and Exchange Commission's Staff Accounting Bulletin (SAB) 104, Revenue Recognition in Financial Statements. Under SAB 104, the Company recognizes revenue when (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred or services have been rendered, (iii) the fees are fixed or determinable and (iv) collectibility is reasonably assured.

For revenue arrangements with multiple elements outside of the scope of SOP 97-2, the Company accounts for the arrangements in accordance with Emerging Issues Task Force (EITF) Issue 00-21, Revenue Arrangements with Multiple Elements, and allocates an arrangement's fees into separate units of accounting based on fair value.

Revenue from products offered on a subscription and/or hosting basis is recognized in the period the services are provided, based on a fixed minimum fee and/or variable fees based on the volume of activity. Subscription and hosting revenue is recognized as the Company is notified by the customer or through management reports that such revenue is due, provided that all other revenue recognition criteria are met.

When the Company provides professional services considered essential to the functionality of the software, it recognizes revenue from the professional services as well as any related software licenses on a percentage-of-completion basis in accordance with SOP 81-1, Accounting for Performance of Construction Type and Certain Performance Type Contracts. In these circumstances, the Company separates license revenue from professional service revenue for income statement presentation by classifying the vendor-specific objective evidence of the fair value of professional service revenue as professional service revenue and the residual portion as license revenue. The Company generally determines the percentage-of-completion by comparing the labor hours incurred to

date to the estimated total labor hours required to complete the project. The Company considers labor hours to be the most reliable, available measure of progress on these projects. Adjustments to estimates to complete are made in the periods in which facts resulting in a change become known. When the estimate indicates that a loss will be incurred, such loss is recorded in the period identified. Significant judgments and estimates are involved in determining the percent complete of each contract. Different assumptions could yield materially different results.

When products are sold through distributors or resellers, title and risk of loss generally passes upon shipment, at which time the transaction is invoiced and payment is due. Shipments to distributors and resellers without right of return are recognized as revenue upon shipment by the Company. Certain distributors and value-added resellers

Table of Contents

NUANCE COMMUNICATIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

have been granted rights of return for as long as the distributors or resellers hold the inventory. The Company cannot estimate historical returns from these distributors and resellers to have a basis upon which to estimate future sales returns. As a result, the Company recognizes revenue from sales to these distributors and resellers when the products are sold through to retailers and end-users. Based on reports from distributors and resellers of their inventory balances at the end of each period, the Company records an allowance against accounts receivable and reduces revenue for all inventories subject to return at the sales price.

When products are sold directly to end-users, the Company also makes an estimate of sales returns based on historical experience. In accordance with Statement of Financial Accounting Standards (SFAS) 48, Revenue Recognition When Right of Return Exists, the provision for these estimated returns is recorded as a reduction of revenue and accounts receivable at the time that the related revenue is recorded. If actual returns differ significantly from the Company s estimates, such differences could have a material impact on the Company s results of operations for the period in which the actual returns become known.

When maintenance and support contracts renew automatically, the Company provides a reserve based on historical experience for contracts expected to be cancelled for non-payment. All known and estimated cancellations are recorded as a reduction to revenue and accounts receivable.

The Company follows the guidance of EITF 01-09, Accounting for Consideration Given by a Vendor (Including a Reseller of the Vendor s Products), and records consideration given to a reseller as a reduction of revenue to the extent the Company has recorded cumulative revenue from the customer or reseller. However, when the Company receives an identifiable benefit in exchange for the consideration and can reasonably estimate the fair value of the benefit received, the consideration is recorded as an operating expense.

The Company follows the guidance of EITF 01-14, Income Statement Characterization of Reimbursements for Out-of-Pocket Expenses Incurred, and records reimbursements received for out-of-pocket expenses as revenue, with offsetting costs recorded as cost of revenue. Out-of-pocket expenses generally include, but are not limited to, expenses related to transportation, lodging and meals.

The Company follows the guidance of EITF 00-10, Accounting for Shipping and Handling Fees and Costs, and records shipping and handling costs billed to customers as revenue with offsetting costs recorded as cost of revenue.

Goodwill and Other Intangible Assets

The Company has significant long-lived tangible and intangible assets, including goodwill and intangible assets with indefinite lives, which are susceptible to valuation adjustments as a result of changes in various factors or conditions. The most significant long-lived tangible and other intangible assets are fixed assets, patents and core technology, completed technology, customer relationships and trademarks. All finite-lived intangible assets are amortized based upon patterns in which the economic benefits of such assets are expected to be utilized. The values of intangible assets, with the exception of goodwill and intangible assets with indefinite lives, were initially determined by a risk-adjusted, discounted cash flow approach. The Company assesses the potential impairment of identifiable intangible assets and fixed assets whenever events or changes in circumstances indicate that the carrying values may not be recoverable. Factors it considers important, which could trigger an impairment of such assets, include the following:

significant underperformance relative to historical or projected future operating results;

significant changes in the manner or use of the acquired assets or the strategy for the Company's overall business;

significant negative industry or economic trends;

significant decline in the Company's stock price for a sustained period; and

a decline in the Company's market capitalization below net book value.

Table of Contents

NUANCE COMMUNICATIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Future adverse changes in these or other unforeseeable factors could result in an impairment charge that would impact future results of operations and financial position in the reporting period identified.

In accordance with SFAS 142, Goodwill and Other Intangible Assets, goodwill and intangible assets with indefinite lives are tested for impairment on an annual basis as of July 1, and between annual tests if indicators of potential impairment exist. The impairment test compares the fair value of the reporting unit to its carrying amount, including goodwill and intangible assets with indefinite lives, to assess whether impairment is present. The Company has reviewed the provisions of SFAS 142 with respect to the criteria necessary to evaluate the number of reporting units that exist. Based on its review, the Company has determined that it operates in one reporting unit. Based on this assessment, the Company has not had any impairment charges during its history as a result of its impairment evaluation of goodwill and other indefinite-lived intangible assets under SFAS 142.

In accordance with SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the Company periodically reviews long-lived assets for impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable or that the useful lives of those assets are no longer appropriate. Each impairment test is based on a comparison of the undiscounted cash flows to the recorded value for the asset. If impairment is indicated, the asset is written down to its estimated fair value based on a discounted cash flow analysis. No impairment charges were taken during the three month periods ended December 31, 2007 or 2006, based on the review of long-lived assets under SFAS 144. The Company may make business decisions in the future which may result in the impairment of intangible assets.

Significant judgments and estimates are involved in determining the useful lives and amortization patterns of long-lived assets, determining what reporting units exist and assessing when events or circumstances would require an interim impairment analysis of goodwill or other long-lived assets to be performed. Changes in the organization or the Company's management reporting structure, as well as other events and circumstances, including but not limited to technological advances, increased competition and changing economic or market conditions, could result in (a) shorter estimated useful lives, (b) additional reporting units, which may require alternative methods of estimating fair values or greater disaggregation or aggregation in our analysis by reporting unit, and/or (c) other changes in previous assumptions or estimates. In turn, this could have a significant impact on the consolidated financial statements through accelerated amortization and/or impairment charges.

Capitalized Patent Defense Costs

The Company monitors the anticipated outcome of legal actions, and if it determines that the success of the defense of a patent is probable, and so long as the Company believes that the future economic benefit of the patent will be increased, the Company capitalizes external legal costs incurred in the defense of these patents, up to the level of the expected increased future economic benefit. If changes in the anticipated outcome occur, the Company writes off any capitalized costs in the period the change is determined. Upon successful defense of litigation, the amounts previously capitalized are amortized over the remaining life of the patent. As of December 31, 2007 and September 30, 2007, capitalized patent defense costs totaled \$6.3 million and \$6.4 million, respectively.

Comprehensive loss

Comprehensive loss consists of net loss, current period foreign currency translation adjustments, and unrealized gains (losses) on cash flow hedge derivatives. For the purposes of comprehensive loss disclosures, the Company does not record tax provisions or benefits for the net changes in the foreign currency translation adjustment, as the Company intends to reinvest undistributed earnings in its foreign subsidiaries permanently.

Table of Contents

NUANCE COMMUNICATIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The components of comprehensive loss are as follows (in thousands):

	Three Months Ended December 31,	
	2007	2006
Net loss	\$ (15,425)	\$ (1,235)
Other comprehensive income (loss):		
Foreign currency translation adjustment	3,485	873
Net unrealized (loss) gain on cash flow hedge derivatives	(691)	204
Net unrealized gains on investments	2	
Other comprehensive income	2,796	1,077
Total comprehensive loss	\$ (12,629)	\$ (158)

Net Income (Loss) Per Share

The Company computes net income (loss) per share in accordance with SFAS 128, Earnings per Share, and EITF 03-06, Participating Securities and Two Class Method under FASB Statement No. 128, Earnings per Share. EITF 03-06 provides guidance on participating security for purposes of computing earnings per share including when using the two-class method for computing basic earnings per share. The Company has determined that its outstanding Series B convertible preferred stock represents a participating security.

Under the two-class method, basic net income per share is computed by dividing the net income available to common stockholders by the weighted-average number of common shares outstanding during the period. Net losses are not allocated to preferred stockholders.

Diluted net income per share is computed using the more dilutive of (a) the two-class method, or (b) the if-converted method. The Company allocates net income first to preferred stockholders based on dividend rights and then to common and preferred stockholders based on ownership interests. Net losses are not allocated to preferred stockholders. The weighted-average number of common shares outstanding gives effect to all potentially dilutive common equivalent shares including outstanding stock options using the treasury stock method, unvested restricted stock, shares held in escrow, warrants, and the convertible debenture using the as converted method. Common equivalent shares are excluded from the computation of diluted net income (loss) per share if their effect is anti-dilutive. Potentially dilutive common equivalent shares aggregating 24.9 million shares and 23.5 million shares for the three month periods ended December 31, 2007 and 2006, respectively, have been excluded from the computation of diluted net income (loss) per share because their inclusion would be anti-dilutive.

Accounting for Share-Based Payments

The Company accounts for share-based payments to employees, including grants of employee stock options, purchases under employee stock purchase plans, awards in the form of restricted shares (Restricted Stock) and awards in the form of units of stock purchase rights (Restricted Units) in accordance with SFAS 123 (revised 2004),

Share-Based Payment, (SFAS 123R). The Restricted Stock and Restricted Units are collectively referred to as Restricted Awards. SFAS 123R requires the recognition of the fair value of share-based payments as a charge against earnings. The Company recognizes share-based payment expense over the requisite service period. Based on the provisions of SFAS 123R the Company s share-based payment awards are accounted for as equity

Stock Options

The Company has several share-based compensation plans under which employees, officers, directors and consultants may be granted stock options to purchase the Company's common stock generally at the fair market value. The Company's plans do not allow for options to be granted at below fair market value nor can they be re-priced at anytime. Options granted under original plans of the Company become exercisable over various periods, typically two to four years and have a maximum term of 7 years. The Company also assumed option plans in connection with certain of its acquisitions. These stock options are governed by the original agreements that they were issued under, but are now exercisable for shares of the Company's common stock. All stock options have been granted with exercise prices equal to or greater than the fair market value of the Company's common stock on the date of grant. The table below summarizes activity relating to stock options for the three months ended December 31, 2007:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value(1)
Outstanding at September 30, 2007	18,240,722	\$ 6.48		
Granted	231,000	\$ 19.82		
Exercised	(731,650)	\$ 4.42		
Forfeited	(331,793)	\$ 12.51		
Expired	(9,021)	\$ 1.36		
Outstanding at December 31, 2007	17,399,258	\$ 6.63	5.0 years	\$ 209.9 million

Edgar Filing: Nuance Communications, Inc. - Form 10-Q

Exercisable at December 31, 2007	11,123,315	\$	4.48	4.5 years	\$	157.9 million
Exercisable at December 31, 2006	12,718,079	\$	4.01	5.1 years	\$	94.8 million

(1) The aggregate intrinsic value on this table was calculated based on the positive difference between the closing market value of the Company's common stock on December 31, 2007 (\$18.68) and the purchase price of the underlying options.

Table of Contents**NUANCE COMMUNICATIONS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

As of December 31, 2007, the total unamortized fair value of stock options was \$35.4 million with a weighted average remaining recognition period of 2.3 years. A summary of weighted-average grant-date fair value and intrinsic value of stock options exercised is as follows:

	2007	2006
Weighted-average grant-date fair value per share	\$ 9.38	\$ 4.55
Total intrinsic value of stock options exercised (in millions)	\$ 11.02	\$ 7.32

The Company uses the Black-Scholes option pricing model to calculate the grant-date fair value of options. The fair value of the stock options granted during the three month periods ended December 31, 2007 and 2006 were calculated using the following weighted-average assumptions:

	2007	2006
Dividend yield	0.0%	0.0%
Expected volatility	50.1%	54.8%
Average risk-free interest rate	4.3%	4.7%
Expected term (in years)	4.8	3.8

The dividend yield of zero is based on the fact that the Company has never paid cash dividends and has no present intention to pay cash dividends. Expected volatility is based on the historical volatility of the Company's common stock over the period commensurate with the expected life of the options and the historical implied volatility from traded options with a term of 180 days or greater. The risk-free interest rate is derived from the average U.S. Treasury STRIPS rate during the period, which approximates the rate in effect at the time of grant, commensurate with the expected life of the instrument. The Company estimates the expected term based on the historical exercise behavior.

Restricted Awards

The Company is authorized to issue equity incentive awards in the form of Restricted Awards, including Restricted Units and Restricted Stock, which are individually discussed below. Unvested Restricted Awards may not be sold, transferred or assigned. The fair value of the Restricted Awards is measured based upon the market price of the underlying common stock as of the date of grant, reduced by the purchase price of \$0.001 per share of the awards. The Restricted Awards generally are subject to vesting over a period of two to four years, and may have opportunities for acceleration for achievement of defined goals. The Company also issued certain Restricted Awards with vesting solely dependent on the achievement of specified performance targets. The fair value of the Restricted Awards is amortized to expense over its applicable requisite service period using the straight-line method. In the event that the employees employment with the Company terminates, or in the case of awards with only performance goals, if those goals are not met, any unvested shares are forfeited and revert to the Company.

Restricted Units are not included in issued and outstanding common stock until the shares are vested and released. The table below summarizes activity relating to Restricted Units for the three months ended December 31, 2007:

	Number of Shares Underlying Restricted Units	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value(1)
Outstanding at September 30, 2007	6,808,800		
Granted	2,942,371		
Released	(989,514)		
Forfeited	(309,672)		
Outstanding at December 31, 2007	8,451,985	1.6 years	\$ 157.9 million
Vested and expected to vest	7,449,380	1.5 years	\$ 139.1 million

Table of Contents**NUANCE COMMUNICATIONS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

- (1) The aggregate intrinsic value on this table was calculated based on the positive difference between the closing market value of the Company's common stock on December 31, 2007 (\$18.68) and the purchase price of the underlying Restricted Units.

The purchase price for vested Restricted Units is \$0.001 per share. As of December 31, 2007, unearned share-based payment expense related to unvested Restricted Units is \$83.4 million, which will, based on expectations of future performance vesting criteria, where applicable, be recognized over a weighted-average period of 1.9 years. 33.8% of the Restricted Units outstanding as of December 31, 2007 is subject to performance vesting acceleration conditions. A summary of weighted-average grant-date fair value and intrinsic value of Restricted Units vested is as follows:

	2007	2006
Weighted-average grant-date fair value per share	\$ 19.32	\$ 10.12
Total intrinsic value of shares vested (in millions)	\$ 19.94	\$ 2.63

Restricted Stock is included in the issued and outstanding common stock in these financial statements at the date of grant. The table below summarizes activity relating to Restricted Stock for the three months ended December 31, 2007:

	Number of Shares Underlying Restricted Stock		Weighted Average Grant Date Fair Value
Outstanding at September 30, 2007	1,195,902	\$	6.17
Vested	(376,004)	\$	7.58
Outstanding at December 31, 2007	819,898	\$	5.53

The purchase price for vested Restricted Stock is \$0.001 per share. As of December 31, 2007, unearned share-based payment expense related to unvested Restricted Stock is \$1.7 million, which will, based on expectations of future performance vesting criteria, when applicable, be recognized over a weighted-average period of 0.9 years. None of the Restricted Stock outstanding as of December 31, 2007 are subject to performance vesting acceleration conditions. A summary of weighted-average grant-date fair value and intrinsic value of Restricted Stock vested is as follows:

	2007	2006
Weighted-average grant-date fair value per share	n/a	\$ 8.24
Total intrinsic value of shares vested (in millions)	\$ 15.31	\$ 17.90

The Company has historically repurchased common stock upon its employees' vesting in the Restricted Stock, and cancelled a portion of the employees' vested Restricted Units. This has been done to satisfy the employees' withholding tax liability as a result of the Restricted Awards having vested. In the three months ended December 31, 2007, the Company paid cash of \$9.5 million relating to 469,784 shares that were cancelled or repurchased. Assuming that one-third of all Restricted Awards outstanding as of December 31, 2007, such amount approximating the tax rate of the Company's employees, and based on the weighted average recognition period of 1.8 years, were purchased or cancelled the Company would have an obligation to pay cash relating to approximately 0.9 million shares during the twelve month period ending December 31, 2008.

Employee Stock Purchase Plan

The Company's 1995 Employee Stock Purchase Plan (the Plan), as amended and restated on March 31, 2006, authorizes the issuance of a maximum of 3,000,000 shares of common stock in semi-annual offerings to employees at a price equal to the lower of 85% of the closing price on the applicable offering commencement date or 85% of the closing price on the applicable offering termination date. Compensation expense related to the

Table of Contents

NUANCE COMMUNICATIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

employee stock purchase plan was \$0.7 million and \$0.5 million for the three month periods ended December 31, 2007 and 2006, respectively.

Income Taxes

The Company adopted the provisions of FASB Interpretation 48, *Accounting for Uncertainty in Income Taxes* and an Interpretation of FASB Statement No. 109, (FIN 48) on October 1, 2007. The Company did not recognize any change in the liability for unrecognized tax benefits as a result of the implementation.

The liability for unrecognized tax benefits related to various federal, state, and foreign income tax matters was \$2.5 million at October 1, 2007. At December 31, 2007, the liability for income taxes associated with uncertain tax positions was \$2.6 million. Included in this amount is approximately \$0.7 million of unrecognized tax benefits, which if recognized, would impact the effective tax rate. The difference between the total amount of unrecognized tax benefits and the amount that would impact the effective tax rate consists of items that would be offset through goodwill.

Upon adoption of FIN 48, the Company's policy to include interest and penalties related to gross unrecognized tax benefits as part of the provision for income taxes did not change. As of October 1, 2007, the Company had accrued \$0.2 million of interest and penalties related to uncertain tax positions. As of December 31, 2007, the total amount of accrued interest and penalties is \$0.2 million.

The Company is subject to U.S. federal income tax and various state, local and international income taxes in numerous jurisdictions. The federal and state tax returns are generally subject to tax examinations for the tax years ended in 2004 through 2007. In addition, amounts reported on federal tax returns filed for earlier tax periods from which operating losses and tax credits are carried to future periods may be adjusted upon the utilization of such carryovers but only to the extent such carryovers are applied. The Company has carryforwards from most federal tax years occurring between 1994 and 2007.

Deferred tax assets and liabilities are determined based on differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect in the years in which the differences are expected to reverse. The Company does not provide for U.S. income taxes on the undistributed earnings of its foreign subsidiaries, which the Company considers to be indefinitely reinvested outside of the U.S. in accordance with Accounting Principles Board (APB) Opinion 23, *Accounting for Income Taxes - Special Areas*.

The Company makes judgments regarding the realizability of its deferred tax assets. In accordance with SFAS 109, *Accounting for Income Taxes*, the carrying value of the net deferred tax assets is based on the belief that it is more likely than not that the Company will generate sufficient future taxable income to realize these deferred tax assets after consideration of all available evidence. The Company regularly reviews its deferred tax assets for recoverability considering historical profitability, projected future taxable income, and the expected timing of the reversals of existing temporary differences and tax planning strategies.

Valuation allowances have been established for U.S. deferred tax assets, which the Company believes do not meet the more likely than not criteria established by SFAS 109. If the Company is subsequently able to utilize all or a portion of the deferred tax assets for which a valuation allowance has been established, then the Company may be required to

recognize these deferred tax assets through the reduction of the valuation allowance which would result in a material benefit to its results of operations in the period in which the benefit is determined, excluding the recognition of the portion of the valuation allowance which relates to net deferred tax assets acquired in a business combination and created as a result of share-based payments. The recognition of the portion of the valuation allowance which relates to net deferred tax assets resulting from share-based payments will be recorded as additional paid-in-capital; the recognition of the portion of the valuation allowance which relates to net deferred tax

Table of Contents

NUANCE COMMUNICATIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

assets acquired in a business combination will reduce goodwill, other intangible assets, and to the extent remaining, the provision for income taxes.

Minority Investment

In the first quarter of fiscal 2008, the Company invested \$2.2 million in a third-party company that offers advertiser-supported free directory assistance services. This investment entitles the Company to a minority interest approximating 1% of the voting shares of the third-party, and is accounted for using the cost method. This investment is included in other assets as of December 31, 2007 in the Company's accompanying balance sheets.

Financial Instruments and Hedging Activities

The Company follows the requirements of SFAS 133, Accounting for Derivative Instruments and Hedging Activities, (SFAS 133) which establishes accounting and reporting standards for derivative instruments. To achieve hedge accounting, the criteria specified in SFAS 133, must be met, including (i) ensuring at the inception of the hedge that formal documentation exists for both the hedging relationship and the entity's risk management objective and strategy for undertaking the hedge and (ii) at the inception of the hedge and on an ongoing basis, the hedging relationship is expected to be highly effective in achieving offsetting changes in fair value attributed to the hedged risk during the period that the hedge is designated. Further, an assessment of effectiveness is required whenever financial statements or earnings are reported. Absent meeting these criteria, changes in fair value are recognized currently in other expense, net of tax, in the income statement. Once the underlying forecasted transaction is realized, the gain or loss from the derivative designated as a hedge of the transaction is reclassified from accumulated other comprehensive income (loss) to the income statement, in the related revenue or expense caption, as appropriate. Any ineffective portion of the derivatives designated as cash flow hedges is recognized in current earnings. As of December 31, 2007 and September 30, 2007, there was a \$100 million interest rate swap (the Swap) outstanding. The Swap was entered into in conjunction with a term loan on March 31, 2006. The Swap was designated as a cash flow hedge, and changes in the fair value of this cash flow hedge derivative are recorded in stockholders' equity as a component of accumulated other comprehensive income (loss). The Swap has resulted in cumulative losses of \$1.6 million and \$0.9 million as of December 31, 2007 and September 30, 2007, respectively. These losses are included in other liabilities in the Company's accompanying balance sheets.

Recently Issued Accounting Standards

In December 2007, the FASB issued SFAS 141 (revised), Business Combinations, (SFAS 141R). The standard changes the accounting for business combinations including the measurement of acquirer shares issued in consideration for a business combination, the recognition of contingent consideration, the accounting for pre-acquisition gain and loss contingencies, the recognition of capitalized in-process research and development, the accounting for acquisition-related restructuring cost accruals, the treatment of acquisition related transaction costs and the recognition of changes in the acquirer's income tax valuation allowance. SFAS 141R is effective for fiscal years beginning after December 15, 2008, with early adoption prohibited.

In February 2007, the FASB issued SFAS 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 159 has as its objective to reduce both complexity in accounting for financial instruments and volatility in earnings caused by measuring related assets and liabilities differently. It also establishes presentation and

disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. The statement is effective for fiscal years beginning after November 15, 2007, with early adoption permitted provided that the entity makes that choice in the first 120 days of that fiscal year. The Company did not elect early adoption and is evaluating the impact, if any, that SFAS 159 may have on its consolidated financial statements.

Table of Contents

NUANCE COMMUNICATIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In September 2006, the FASB issued SFAS 157, *Fair Value Measurements* (SFAS 157). SFAS 157 establishes a framework for measuring fair value and expands fair value measurement disclosures. SFAS 157 is effective for fiscal years beginning after November 15, 2007. The Company is evaluating the impact, if any, that SFAS 157 may have on its consolidated financial statements.

In July 2006, the FASB issued Interpretation 48, *Accounting for Uncertainty in Income Taxes* an Interpretation of FASB Statement No. 109, (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in a company s financial statements in accordance with SFAS 109, *Accounting for Income Taxes*. FIN 48 prescribes the recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company adopted the provisions of FIN 48 on October 1, 2007. As a result of the implementation of FIN 48, the Company recognized an adjustment of \$0.9 million in the liability for unrecognized tax benefits. In addition, the Company reduced its deferred tax assets and valuation allowance each by \$52.0 million primarily with respect to net operating loss and research credit carryforwards that are in excess of applicable limitations related to ownership changes.

As of the adoption date of October 1, 2007, the Company had \$2.5 million of unrecognized tax benefits. At December 31, 2007, the liability for income taxes associated with uncertain tax positions was \$2.6 million. Included in this amount is approximately \$0.7 million of unrecognized tax benefits, which if recognized, would impact the effective tax rate. The difference between the total amount of unrecognized tax benefits and the amount that would impact the effective tax rate consists of items that would be offset through goodwill. The Company does not expect a significant change in the amount of unrecognized tax benefits within the next 12 months.

3. Business Acquisitions

Acquisition of Viecore

On November 26, 2007, the Company acquired all of the outstanding capital stock of Viecore, a consulting and systems integration firm, for total purchase consideration of approximately \$109.2 million including 4.4 million shares of the Company s common stock valued at \$21.01 per share, cash to shareholders of \$8.9 million, transaction costs of \$6.8 million and the assumption of \$0.4 million of debt. In connection with the Company s acquisition of Viecore, the purchase and sale agreement required 0.6 million shares of the Company s common stock, valued at \$12.3 million as of the date of acquisition, to be placed into escrow for 15 months from the date of acquisition, to satisfy any claims the Company may have. The Company cannot make a determination, beyond a reasonable doubt, that the escrow will become payable to the former shareholders of Viecore, and accordingly has not included the escrow as a component of the purchase price. Upon satisfaction of the contingency, the escrowed amount will be recorded as additional purchase price and allocated to goodwill. The merger was a non-taxable event. The results of operations of the acquired business have been included in the consolidated financial statements of the Company since the date of acquisition. The Company is currently finalizing the valuation of the assets acquired and liabilities

Net assets acquired	\$	109,199

Customer relationships are amortized based upon patterns in which the economic benefits of customer relationships are expected to be utilized. Other finite-lived identifiable intangible assets are amortized on a straight-line basis. The following are the identifiable intangible assets acquired and their respective weighted average lives (dollars in thousands):

	Amount	Weighted Average Life (In years)
Customer relationships	\$ 22,390	8.0
Tradename	380	1.0
Total	\$ 22,770	

Acquisition of Vocada

On November 2, 2007, the Company acquired all of the outstanding capital stock of Vocada, provider of software and services for managing critical medical test results for total purchase consideration of approximately \$22.1 million including 0.9 million shares of the Company's common stock valued at \$20.47 per share, cash to shareholders of \$3.2 million and transaction costs of \$1.2 million. In connection with the Company's acquisition of Vocada, the purchase and sale agreement required 0.1 million shares of the Company's common stock, valued at \$1.2 million as of the date of acquisition, to be placed into escrow for 15 months from the date of acquisition, to satisfy any claims the Company may have. The Company cannot make a determination, beyond a reasonable doubt, that the escrow will become payable to the former shareholders of Vocada, and accordingly has not included the escrow as a component of the purchase price. Upon satisfaction of the contingency, the escrowed amount will be recorded as additional purchase price and allocated to goodwill. The merger was a non-taxable event. The results of

Table of Contents**NUANCE COMMUNICATIONS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

operations of the acquired business have been included in the consolidated financial statements of the Company since the date of acquisition. The Company is currently finalizing the valuation of the assets acquired and liabilities assumed; therefore the fair values set forth below are subject to adjustment as additional information is obtained. A summary of the preliminary purchase price allocation for the acquisition of Vocada is as follows (in thousands):

Total purchase consideration:	
Common stock issued	\$ 17,738
Cash	3,186
Transaction costs	1,158
Total purchase consideration	\$ 22,082
Allocation of the purchase consideration:	
Accounts receivable and acquired unbilled accounts receivable	\$ 3,655
Other assets	429
Identifiable intangible assets	5,930
Goodwill	14,558

Deferred revenue	(2,124)
Total liabilities assumed	(2,490)
Net assets acquired	\$ 22,082

Customer relationships are amortized based upon patterns in which the economic benefits of customer relationships are expected to be utilized. Other finite-lived identifiable intangible assets are amortized on a straight-line basis. The following are the identifiable intangible assets acquired and their respective weighted average lives (dollars in thousands):

	Amount	Weighted Average Life (In years)
Customer relationships	\$ 3,800	10.0
Core and completed technology	2,000	5.0
Trademark	90	5.0
Non-compete	40	3.0
Total	\$ 5,930	

Proforma Results of Operations

The following table sets forth the unaudited pro forma results of operations of the Company as if the Company had acquired Bluestar Resources Limited, the parent of Focus Enterprises Limited and Focus India Private Limited (collectively Focus), BeVocal, Inc. (BeVocal), Tegic Communications, Inc. (Tegic), Voice Signal

Table of Contents

NUANCE COMMUNICATIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Technologies, Inc. (VoiceSignal), Commissure Inc. (Commissure) and Viecore on October 1, 2006 (in thousands, except per share data):

	Three Months Ended December 31,	
	2007	2006
Revenue	\$ 208,595	\$ 185,121
Net loss	(19,363)	(6,722)
Net loss per basic and diluted share	\$ (0.10)	\$ (0.06)

The Company has not furnished pro forma financial information relating to the Mobile Voice Control, Inc. (MVC) and Vocada acquisitions because such information is not material.

4. Accounts Receivable

Accounts receivable, excluding acquired unbilled accounts receivable, consisted of the following (in thousands):

	December 31, 2007	September 30, 2007
Gross accounts receivable	\$ 215,527	\$ 196,720
Less allowance for doubtful accounts	(6,367)	(6,155)
Less reserve for distribution and reseller accounts receivable	(7,950)	(8,596)
Less allowance for sales returns	(7,222)	(7,323)
Total	\$ 193,988	\$ 174,646

5. Inventories, net

Inventories, net of allowances, consisted of the following (in thousands):

	December 31, 2007	September 30, 2007
Components and parts	\$ 3,631	\$ 4,605
Inventory at customers	2,479	2,726
Finished products	861	682
Total	\$ 6,971	\$ 8,013

Inventory at customers reflects equipment related to in-process installations of solutions with customers. These contracts have not been recorded to revenue as of December 31, 2007, and therefore the inventory is on the balance sheet until such time as the contract is recorded to revenue and the inventory will be expensed to cost of sales.

Table of Contents**NUANCE COMMUNICATIONS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****6. Goodwill and Other Intangible Assets**

The changes in the carrying amount of goodwill during the three months ended December 31, 2007, are as follows (in thousands):

Balance as of September 30, 2007	\$ 1,249,642
Goodwill acquired - Viacore acquisition	68,659
Goodwill acquired - Vocada acquisition	14,558
Purchase accounting adjustments	(12,818)
Effect of foreign currency translation	2,455
Balance as of December 31, 2007	\$ 1,322,496

Goodwill adjustments during the three months ended December 31, 2007 consisted primarily of a decrease of \$17.3 million due to additional acquired unbilled accounts receivable identified in connection with the acquisition of Tegic and \$1.5 million of the utilization of acquired deferred tax assets, offset by incremental purchase price, relating to the preliminary estimated additional earnout achievement of \$6.1 million for the BeVocal transaction.

Intangible assets consist of the following (in thousands):

	Gross Carrying Amount	At December 31, 2007		Weighted Average Remaining Life (Years)
		Accumulated Amortization	Net Carrying Amount	
Customer relationships	\$ 335,630	\$ (55,323)	\$ 280,307	6.9
Technology and patents	137,314	(48,257)	89,057	5.8
Tradenames and trademarks, subject to amortization	9,073	(3,564)	5,509	6.3
Non-competition agreement	2,678	(696)	1,982	4.7
Subtotal	484,695	(107,840)	376,855	
Tradename, indefinite life	27,800		27,800	n/a
Total	\$ 512,495	\$ (107,840)	\$ 404,655	

Amortization expense for the acquired patents, core and completed technology are included in the cost of revenue from amortization of intangible assets in the accompanying statements of operations and amounted to \$5.0 million and

Edgar Filing: Nuance Communications, Inc. - Form 10-Q

\$2.9 million for the three months ended December 31, 2007 and 2006, respectively. Estimated amortization expense for each of the succeeding years is as follows (in thousands):

Year Ending September 30,	Cost of Revenue	Other Operating Expenses	Total
2008 (January 1, 2008 to September 30, 2008)	\$ 14,654	\$ 41,334	\$ 55,988

Total	\$ 91,605	\$ 83,245

8. Deferred and Contingent Acquisition Payments***Earnout Payments***

In connection with the Company's acquisition of Phonetic Systems Ltd. (*Phonetic*) in February 2005, a deferred payment of \$17.5 million was due and paid to the former shareholders of *Phonetic* on February 1, 2007. Under the agreement, the Company also agreed to make maximum additional payments of \$35.0 million in contingent earnout purchase price upon achievement of certain established financial and performance targets through December 31, 2007, in accordance with the purchase agreement. The Company has notified the former shareholders of *Phonetic* that the financial and performance targets for the scheduled payments for calendar 2005 and 2006, totaling \$24.0 million, were not achieved. The former shareholders of *Phonetic* have objected to this determination. The Company and the former shareholders of *Phonetic* are discussing this matter. The Company has not recorded any obligations relative to the calendar 2005 and 2006 measures as of December 31, 2007. The Company is currently evaluating the calculations relative to the calendar 2007 financial and performance targets, and has not recorded any obligations relative to these measures as of December 31, 2007.

In connection with the Company's acquisition of MVC on December 29, 2006, it agreed to make contingent earnout payments of up to 1.7 million shares of the Company's common stock upon the achievement of certain financial targets through December 31, 2008, in accordance with the purchase agreement. The company is currently evaluating the calculations relative to the calendar 2007 financial targets, and has not recorded any obligations relative to these measures as of December 31, 2007.

In connection with the Company's acquisition of BeVocal on April 24, 2007, it agreed to make payments pursuant to the earnout of up to \$65.1 million upon the achievement of certain financial targets through December 31, 2007, in accordance with the merger agreement. The Company has accrued \$49.8 million, based on the preliminary measurement of this amount as of December 31, 2007, of which \$46.4 million would be payable in cash and

\$3.4 million would be payable either as an adjustment to the exchange ratio of the assumed stock options, or a cash payment in lieu of such an adjustment, at the Company's option. \$8.6 million of the earnout is being recorded to compensation expense over the period of service required under the merger agreement, and \$41.2 million has been recorded as an increase to purchase price. These preliminary earnout payments are included in current liabilities as of December 31, 2007 and long-term liabilities as of September 30, 2007. The Company's final determination regarding the actual amount of the earnout payments will be made in October 2008. Following the determination in October, the Company will seek agreement on the determination with the shareholder representative and pay the amount shortly after agreement is reached.

Table of Contents**NUANCE COMMUNICATIONS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In connection with the Company's acquisition of Commissure on September 28, 2007, it agreed to make contingent earnout payments of up to \$8.0 million upon the achievement of certain financial targets for the fiscal years ended September 30, 2008, 2009 and 2010. The Company has not recorded any obligation relative to these measures as of December 31, 2007. Payments, if any, may be made in the form of cash, or shares of the Company's common stock, at the sole discretion of the Company.

In connection with the Company's acquisition of Vocada on November 2, 2007, it agreed to make contingent earnout payments of up to \$21.0 million upon the achievement of certain financial targets measured over defined periods through December 31, 2010. The Company has not recorded any obligation relative to these measures as of December 31, 2007. Payments, if any, may be made in the form of cash, or shares of the Company's common stock, at the sole discretion of the Company.

Escrow Arrangements

In connection with certain of the Company's acquisitions it has placed either cash or shares of its Common Stock in escrow to satisfy any claims the Company may have. The Company cannot make a determination, beyond a reasonable doubt, that the escrow will become payable to the former shareholders of these companies, and accordingly has not included the escrow as a component of the purchase price. Upon satisfaction of the contingency, the escrowed amounts will be recorded as additional purchase price and allocated to goodwill. The \$35.8 million in cash escrows were paid to a third party agent at the consummation of the acquisition, and the amounts are included in other assets as of September 30, 2007 and December 31, 2007.

The following table summarizes the terms of the escrow arrangements that are not finalized as of December 31, 2007 (dollars in thousands):

	Scheduled Escrow Release Date	Cash Payment	Share Payment Number of Shares
Focus	March 26, 2008	\$ 5,800	n/a
BeVocal	July 24, 2008	n/a	1,225,490
VoiceSignal	August 24, 2008	30,000	n/a
Commissure	December 28, 2008	n/a	174,636
Vocada	January 2, 2009	n/a	56,205
Viecore	February 26, 2009	n/a	584,924
Total		\$ 35,800	2,041,255

9. Pension and Other Postretirement Benefit Plans

In connection with the acquisition of Dictaphone in 2006, the Company assumed the assets and obligations related to Dictaphone's defined benefit pension plans, which provide certain retirement and death benefits for former Dictaphone

employees located in the United Kingdom and Canada. These two pension plans are closed to new participants. The Company also assumed a post-retirement health care and life insurance benefit plan, which is closed to new participants and provides certain post-retirement health care and life insurance benefits, as well as a fixed subsidy for qualified former employees in the United States and Canada.

Table of Contents**NUANCE COMMUNICATIONS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table represents the components of the net periodic benefit cost associated with the respective plans for the three months ended December 31, 2007 and 2006:

	Pension Benefits		Other Benefits	
	2007	2006	2007	2006
Service cost	\$	\$ 68	\$	\$ 26
Interest cost	333	294	10	19
Expected return on plan assets	(399)	(300)		
Amortization of unrecognized gain	(11)		(10)	
Amortization of prior service cost				
Net period benefit cost	\$ (77)	\$ 62	\$	\$ 45

10. Credit Facilities and Debt

The Company had the following borrowing obligations (in thousands):

	December 31, 2007	September 30, 2007
Expanded 2006 Credit Facility	\$ 661,988	\$ 663,663
2.75% Convertible Debentures (net of unamortized debt discount of \$7.1 million and \$7.4 million, respectively)	242,902	242,634
Obligations under capital leases	725	841
Other	122	213
Total long-term debt	905,737	907,351
Less: current portion	7,163	7,430
Non-current portion of long-term debt	\$ 898,574	\$ 899,921

2.75% Convertible Debentures

On August 13, 2007, the Company issued \$250 million of 2.75% convertible senior debentures due in 2027 (the 2027 Debentures) in a private placement to Citigroup Global Markets Inc. and Goldman, Sachs & Co. (the Initial Purchasers). Total proceeds, net of debt discount of \$7.5 million and deferred debt issuance costs of \$1.1 million, were \$241.4 million. The 2027 Debentures bear an interest rate of 2.75% per annum, payable semi-annually in arrears beginning on February 15, 2008, and mature on August 15, 2027 subject to the right of the holders of the 2027 Debentures to require the Company to redeem the 2027 Debentures on August 15, 2014, 2017 and 2022. The related

debt discount and debt issuance costs are being amortized to interest expense using the effective interest rate method through August 2014. As of December 31, 2007, the ending unamortized deferred debt issuance costs were \$1.1 million and are included in other long-term assets in the Company's accompanying balance sheet. The 2027 Debentures are general senior unsecured obligations, ranking equally in right of payment to all of the Company's existing and future unsecured, unsubordinated indebtedness and senior in right of payment to any indebtedness that is contractually subordinated to the 2027 Debentures. The 2027 Debentures are effectively subordinated to the Company's secured indebtedness to the extent of the value of the collateral securing such indebtedness and are structurally subordinated to indebtedness and other liabilities of the Company's subsidiaries. If converted, the principal amount of the 2027 Debentures is payable in cash and any amounts payable in excess of the \$250 million principal amount, will (based on an initial conversion rate, which represents an initial conversion price of \$19.47 per share, subject to adjustment as defined) be paid in cash or shares of the Company's common stock, at the Company's election, only in the following circumstances and to the following extent: (i) on any date during any fiscal quarter beginning after September 30, 2007 (and only during such fiscal quarter) if the closing sale

Table of Contents**NUANCE COMMUNICATIONS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

price of the Company's common stock was more than 120% of the then current conversion price for at least 20 trading days in the period of the 30 consecutive trading days ending on the last trading day of the previous fiscal quarter; (ii) during the five consecutive business-day period following any five consecutive trading-day period in which the trading price for \$1,000 principal amount of the Debentures for each day during such five trading-day period was less than 98% of the closing sale price of our common stock multiplied by the then current conversion rate; (iii) upon the occurrence of specified corporate transactions, as described in the indenture for the 2027 Debentures; and (iv) at the option of the holder at any time on or after February 15, 2027. Additionally, the Company may redeem the 2027 Debentures, in whole or in part, on or after August 20, 2014 at par plus accrued and unpaid interest; each holder shall have the right, at such holder's option, to require the Company to repurchase all or any portion of the 2027 Debentures held by such holder on August 15, 2014, August 15, 2017 and August 15, 2022. Upon conversion, the Company will pay cash and shares of its common stock (or, at its election, cash in lieu of some or all of such common stock), if any. If the Company undergoes a fundamental change (as described in the indenture for the 2027 Debentures) prior to maturity, holders will have the option to require the Company to repurchase all or any portion of their debentures for cash at a price equal to 100% of the principal amount of the debentures to be purchased plus any accrued and unpaid interest, including any additional interest to, but excluding, the repurchase date. As of December 31, 2007, no conversion triggers were met. If the conversion triggers were met, the Company could be required to repay all or some of the principal amount in cash prior to the maturity date.

Expanded 2006 Credit Facility

The Company has entered into a credit facility which consists of a \$75 million revolving credit line including letters of credit, a \$355 million term loan entered into on March 31, 2006, a \$90 million term loan entered into on April 5, 2007 and a \$225 million term loan entered into on August 24, 2007 (the Expanded 2006 Credit Facility). The term loans are due March 2013 and the revolving credit line is due March 2012. As of December 31, 2007, \$662.0 million remained outstanding under the term loans, there were \$17.2 million of letters of credit issued under the revolving credit line and there were no other outstanding borrowings under the revolving credit line.

The Expanded 2006 Credit Facility contains covenants, including, among other things, covenants that restrict the ability of the Company and its subsidiaries to incur certain additional indebtedness, create or permit liens on assets, enter into sale-leaseback transactions, make loans or investments, sell assets, make certain acquisitions, pay dividends, or repurchase stock. The agreement also contains events of default, including failure to make payments of principal or interest, failure to observe covenants, breaches of representations and warranties, defaults under certain other material indebtedness, failure to satisfy material judgments, a change of control and certain insolvency events. As of December 31, 2007, the Company was in compliance with the covenants under the Expanded 2006 Credit Facility.

Borrowings under the Expanded 2006 Credit Facility bear interest at a rate equal to the applicable margin plus, at the Company's option, either (a) the base rate (which is the higher of the corporate base rate of UBS AG, Stamford Branch, or the federal funds rate plus 0.50% per annum) or (b) LIBOR (equal to (i) the British Bankers' Association Interest Settlement Rates for deposits in U.S. dollars divided by (ii) one minus the statutory reserves applicable to such borrowing). The applicable margin for term loan borrowings under the Expanded 2006 Credit Facility ranges from 0.75% to 1.50% per annum with respect to base rate borrowings and from 1.75% to 2.50% per annum with respect to LIBOR-based borrowings, depending on our leverage ratio. The applicable margin for revolving loan borrowings under the Expanded 2006 Credit Facility ranges from 0.50% to 1.25% per annum with respect to base rate borrowings and from 1.50% to 2.25% per annum with respect to LIBOR-based borrowings, depending upon the

Company's leverage ratio. As of December 31, 2007, the Company's applicable margin for the term loan was 1.50% for base rate borrowings and 2.50% for LIBOR-based borrowings. The Company is required to pay a commitment fee for unutilized commitments under the revolving credit facility at a rate ranging from 0.375% to 0.50% per annum, based upon the Company's leverage ratio. As of December 31, 2007, the commitment fee rate was 0.5% and the interest rate was 7.33%.

Table of Contents**NUANCE COMMUNICATIONS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The Company capitalized debt issuance costs related to the Expanded 2006 Credit Facility and is amortizing the costs to interest expense using the effective interest rate method through March 2012 for costs associated with the revolving credit facility and through March 2013 for costs associated with the term loan. As of December 31, 2007, the ending unamortized deferred financing fees were \$11.8 million and are included in other assets in the Company's accompanying balance sheet.

The Expanded 2006 Credit Facility is subject to repayment in four equal quarterly installments of 1% per annum (\$6.7 million per year, not including interest, which is also payable quarterly), and an annual excess cash flow sweep, as defined in the Expanded 2006 Credit Facility, which is payable beginning in the first quarter of each fiscal year, beginning in fiscal 2008, based on the excess cash flow generated in the previous fiscal year. No payment under the excess cash flow sweep provision was due in the first quarter of fiscal 2008 as there was no excess cash flow generated in fiscal 2007. The Company will continue to evaluate the extent to which a payment is due in the first quarter of fiscal 2009 based upon 2008 excess cash flow generation. At the current time, the Company is unable to predict the amount of the outstanding principal, if any, that it may be required to repay during the first quarter of fiscal 2009 pursuant to the excess cash flow sweep provisions. Any term loan borrowings not paid through the baseline repayment, the excess cash flow sweep, or any other mandatory or optional payments that the Company may make, will be repaid upon maturity. If only the baseline repayments are made, the annual aggregate principal amount of the term loans repaid would be as follows (in thousands):

Year Ending September 30,	Amount
2008 (January 1, 2008 to September 30, 2008)	\$ 5,025
2009	6,700
2010	6,700
2011	6,700
2012	6,700
2013	630,163
Total	\$ 661,988

The Company's obligations under the Expanded 2006 Credit Facility are unconditionally guaranteed by, subject to certain exceptions, each of its existing and future direct and indirect wholly-owned domestic subsidiaries. The Expanded 2006 Credit Facility and the guarantees thereof are secured by first priority liens and security interests in the following: 100% of the capital stock of substantially all of the Company's domestic subsidiaries and 65% of the outstanding voting equity interests and 100% of the non-voting equity interests of first-tier foreign subsidiaries, all material tangible and intangible assets of the Company and the guarantors, and any present and future intercompany debt. The Expanded 2006 Credit Facility also contains provisions for mandatory prepayments of outstanding term loans upon receipt of the following, and subject to certain exceptions: 100% of net cash proceeds from asset sales, 100% of net cash proceeds from issuance or incurrence of debt, and 100% of extraordinary receipts. The Company may voluntarily prepay borrowings under the Expanded 2006 Credit Facility without premium or penalty other than breakage costs, as defined with respect to LIBOR-based loans.

11. Accrued Business Combination Costs

In connection with the Company's acquisitions of SpeechWorks International, Inc. in August 2003 and Former Nuance in September 2005, the Company assumed obligations relating to certain leased facilities expiring in 2016 and 2012, respectively, and were abandoned by the acquired companies prior to the acquisition date. The fair value of the obligations, net of estimated sublease income, are recognized as liabilities assumed by the Company and accordingly are included in the allocation of the final purchase price. In the first quarter of fiscal 2008, subsequent to the finalization of the purchase price allocation, and in connection with revised information relative to sublease activity for one of the facilities obligations assumed from Former Nuance, the net cash flows expectations changed and the Company recorded \$1.9 million to restructuring and other charges related to that facility. The net payments

Table of Contents

NUANCE COMMUNICATIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

have been discounted in calculating the fair value of these obligations, and the discount is being accreted through expected maturity. Cash payments net of sublease receipts are presented as cash used in financing activities on the consolidated statements of cash flows. As of December 31, 2007, the total gross payments due from the Company to the landlords of the facilities is \$75.1 million. This is reduced by \$22.3 million of projected sublease income and a \$4.5 million present value discount.

Additionally, the Company has implemented restructuring plans to eliminate duplicate facilities, personnel or assets in connection with the business combinations. In accordance with EITF 95-3, Recognition of Liabilities in Connection with a Purchase Business Combination, costs such as these are recognized as liabilities assumed by the Company, and accordingly are included in the allocation of the purchase price, generally resulting in an increase to the recorded amount of the goodwill. As of December 31, 2007, total gross payments due from the Company to the landlords of the facilities is \$2.3 million. This is reduced by \$0.8 million of projected sublease income. The gross value of the lease exit costs will be paid through fiscal 2009. These gross payment obligations are included in the commitments disclosed in Note 14.

The activity for the three months ended December 31, 2007, relating to facilities initially included in accrued business combination costs, based on the date of acquisition, is as follows (in thousands):

	Facilities	Personnel	Total
Balance at September 30, 2007	\$ 49,240	\$ 779	\$ 50,019
Charged to restructuring and other expense	1,906		1,906
Charged to interest expense	436		436
Charged to goodwill	57		57
Cash payments, net of sublease receipts	(3,116)	(604)	(3,720)
Balance at December 31, 2007	\$ 48,523	\$ 175	\$ 48,698

Accrued business combination costs are presented on the balance sheets as follows (in thousands):

	December 31, 2007	September 30, 2007
Reported as:		
Current	\$ 12,179	\$ 14,547
Long-term	36,519	35,472
Total	\$ 48,698	\$ 50,019

12. Restructuring and Other Charges

In the first quarter of fiscal 2008, the Company recorded restructuring and other charges of \$2.2 million, of which \$1.9 million relates to revised information regarding sublease activity discussed in Note 11, Accrued Business Combination Costs. The remaining \$0.2 million relates to restructuring and other charges in the first quarter of fiscal 2008 related to the consolidation of certain facilities at its headquarters location.

Table of Contents**NUANCE COMMUNICATIONS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table sets forth the activity relating to restructuring and other charges for the three months ended December 31, 2007 (in thousands):

	Facilities	Personnel	Total
Balance at September 30, 2007	\$	\$ 308	\$ 308
Restructuring and other charges	246		246
Non-cash adjustment	118		118
Cash payments		(6)	(6)
Balance at December 31, 2007	\$ 364	\$ 302	\$ 666

13. Stockholders Equity***Preferred Stock***

The Company is authorized to issue up to 40,000,000 shares of preferred stock, par value \$0.001 per share. The Company has designated 100,000 shares as Series A Preferred Stock and 15,000,000 shares as Series B Preferred Stock. In connection with the acquisition of ScanSoft from Xerox Corporation ("Xerox"), the Company issued 3,562,238 shares of Series B Preferred Stock to Xerox. On March 19, 2004, the Company announced that Warburg Pincus, a global private equity firm, had agreed to purchase all outstanding shares of the Company's stock held by Xerox Corporation for approximately \$80 million, including the 3,562,238 shares of Series B Preferred Stock. The Series B Preferred Stock is convertible into shares of common stock on a one-for-one basis. The Series B Preferred Stock has a liquidation preference of \$1.30 per share plus all declared but unpaid dividends. The holders of Series B Preferred Stock are entitled to non-cumulative dividends at the rate of \$0.05 per annum per share, payable when, and if declared by the Board of Directors. To date, no dividends have been declared by the Board of Directors. Holders of Series B Preferred Stock have no voting rights, except those rights provided under Delaware law. The undesignated shares of preferred stock will have rights, preferences, privileges and restrictions, including voting rights, dividend rights, conversion rights, redemption privileges and liquidation preferences, as shall be determined by the Board of Directors upon issuance of the preferred stock. The Company has reserved 3,562,238 shares of its common stock for issuance upon conversion of the Series B Preferred Stock. Other than the 3,562,238 shares of Series B Preferred Stock that are issued and outstanding, there are no other shares of preferred stock issued or outstanding as of December 31, 2007 or September 30, 2007.

Common Stock

In December 2007, the Company completed an underwritten public offering in which it sold 7,823,000 shares of its common stock. Gross proceeds from this sale were \$136.9 million, and the net proceeds after underwriting commissions and other offering expenses were \$130.3 million.

On November 26, 2007, in connection with its acquisition of Viecore, the Company issued 5,017,126 shares of its common stock, including 584,924 shares held in an escrow account. The shares not subject to escrow have been

valued at \$93.1 million as a component of the purchase price of Viecore.

On November 2, 2007, in connection with its acquisition of Vocada, the Company issued 922,561 shares of its common stock, including 56,205 shares held in an escrow account. The shares not subject to escrow have been valued at \$17.7 million as a component of the purchase price of Vocada.

On May 5, 2005, the Company entered into a Securities Purchase Agreement (the "Securities Purchase Agreement") by and among the Company, Warburg Pincus Private Equity VIII, L.P. and certain of its affiliated entities (collectively "Warburg Pincus") pursuant to which Warburg Pincus agreed to purchase, and the Company agreed to sell, 3,537,736 shares of its common stock and warrants to purchase 863,236 shares of its common stock for an aggregate purchase price of \$15.1 million. The warrants have an exercise price of \$5.00 per share and a term

Table of Contents

NUANCE COMMUNICATIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

of four years. On May 9, 2005, the sale of the shares and the warrants pursuant to the Securities Purchase Agreement was completed. The Company also entered into a Stock Purchase Agreement (the "Stock Purchase Agreement") by and among the Company and Warburg Pincus pursuant to which Warburg Pincus agreed to purchase and the Company agreed to sell 14,150,943 shares of the Company's common stock and warrants to purchase 3,177,570 shares of the Company's common stock for an aggregate purchase price of \$60.0 million. The warrants have an exercise price of \$5.00 per share and a term of four years. The warrants provide the holder with the option to exercise the warrants on a net, or cashless, basis. On September 15, 2005, the sale of the shares and the warrants pursuant to the Securities Purchase Agreement was completed. The net proceeds from these two fiscal 2005 financings was \$73.9 million. In connection with the financings, the Company granted Warburg Pincus registration rights giving Warburg Pincus the right to request that the Company use commercially reasonable efforts to register some or all of the shares of common stock issued to Warburg Pincus under both the Securities Purchase Agreement and Stock Purchase Agreement, including shares of common stock underlying the warrants. The Company has evaluated these warrants under EITF 00-19, "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock" and has determined that the warrants should be classified within the stockholders' equity section of the accompanying consolidated balance sheets.

Common Stock Warrants

In fiscal 2005 the Company issued several warrants for the purchase of its common stock. Warrants were issued to Warburg Pincus as described above. Additionally, on November 15, 2004, in connection with the acquisition of Phonetic, the Company issued unvested warrants to purchase 750,000 shares of its common stock at an exercise price of \$4.46 per share that will vest, if at all, upon the achievement of certain performance targets. Based on the Company's assessment of the results relative to the financial and performance measures, warrants to purchase 500,000 shares of common stock have not vested; warrants to purchase 250,000 shares of common stock still may vest depending on future performance. The former shareholders of Phonetic have objected to this assessment. The Company and the former shareholders of Phonetic are discussing this matter. The warrants provide the holder with the option to exercise the warrants on a net, or cashless, basis. The initial valuation of the warrants occurred upon closing of the Phonetic acquisition on February 1, 2005, and was treated as purchase consideration in accordance with EITF 97-8, "Accounting for Contingent Consideration Issued in a Purchase Business Combination."

In March 1999 the Company issued Xerox a ten-year warrant with an exercise price for each warrant share of \$0.61. This warrant is exercisable for the purchase of 525,732 shares of the Company's common stock. On March 19, 2004, the Company announced that Warburg Pincus had agreed to purchase all outstanding shares of the Company's stock held by Xerox Corporation, including this warrant, for approximately \$80 million. In connection with this transaction, Warburg Pincus acquired new warrants to purchase 2.5 million additional shares of the Company's common stock from the Company for total consideration of \$0.6 million. The warrants have a six-year life and an exercise price of \$4.94. The warrants provide the holder with the option to exercise the warrants on a net, or cashless, basis.

In connection with the acquisition of SpeechWorks in 2003, the Company issued a warrant to its investment banker, expiring on August 11, 2011, for the purchase of 150,000 shares of the Company's common stock at an exercise price of \$3.98 per share. The warrant provides the holder with the option to exercise the warrants on a net, or cashless, basis. The warrant became exercisable on August 11, 2005, and was valued at its issuance at \$0.2 million based upon the Black-Scholes option pricing model. In October 2006, the warrant was exercised to purchase 125,620 shares of the Company's common stock. The holder of the warrant elected a cashless exercise resulting in a net issuance of

Edgar Filing: Nuance Communications, Inc. - Form 10-Q

75,623 shares of the Company's common stock. As of December 31, 2007, a warrant to purchase 24,380 shares of the Company's common stock remains outstanding.

Based on its review of EITF 00-19, the Company has determined that each of the above-noted warrants should be classified within the stockholders' equity section of the accompanying consolidated balance sheets.

Table of Contents**NUANCE COMMUNICATIONS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****14. Commitments and Contingencies*****Operating Leases***

The Company has various operating leases for office space around the world. In connection with many of its acquisitions, the Company assumed facility lease obligations. Among these assumed obligations are lease payments related to certain office locations that were vacated by certain of the acquired companies prior to the acquisition date (Note 11). Additionally, certain of the Company's lease obligations have been included in various restructuring charges (Note 11 and Note 12). The following table outlines the Company's gross future minimum payments under all non-cancelable operating leases as of December 31, 2007 (in thousands):

Year Ending September 30,	Operating Leases	Leases Under Restructuring	Other Contractual Obligations Assumed	Total
2008 (January 1, 2008 to September 30, 2008)	\$ 11,932	\$ 1,559	\$ 9,883	\$ 23,374
2009	16,561	1,702	13,572	31,835
2010	14,719	598	14,012	29,329
2011	13,805	616	14,549	28,970
2012	11,516	636	12,977	25,129
2013	12,181	379	2,879	15,439
Thereafter	35,623		7,214	42,837
Total	\$ 116,337	\$ 5,490	\$ 75,086	\$ 196,913

At December 31, 2007, the Company has subleased certain office space that is included in the above table to third parties. Total sub-lease income under contractual terms is \$26.3 million and ranges from approximately \$1.9 million to \$4.6 million on an annual basis through February 2016.

In connection with certain of its acquisitions, the Company assumed certain financial guarantees that the acquired companies had committed to the landlords. As of December 31, 2007, the total outstanding financial guarantees related to real estate were \$17.2 million and are secured by letters of credit issued under the Expanded 2006 Credit Facility.

Litigation and Other Claims

Like many companies in the software industry, the Company has, from time to time been notified of claims that it may be infringing, or contributing to the infringement of, the intellectual property rights of others. These claims have been referred to counsel, and they are in various stages of evaluation and negotiation. If it appears necessary or desirable, the Company may seek licenses for these intellectual property rights. There is no assurance that licenses will be

offered by all claimants, that the terms of any offered licenses will be acceptable to the Company or that in all cases the dispute will be resolved without litigation, which may be time consuming and expensive, and may result in injunctive relief or the payment of damages by the Company.

On May 31, 2006, GTX Corporation (GTX) filed an action against the Company in the United States District Court for the Eastern District of Texas claiming patent infringement. Damages were sought in an unspecified amount. In the lawsuit, GTX alleged that the Company is infringing United States Patent No. 7,016,536 entitled Method and Apparatus for Automatic Cleaning and Enhancing of Scanned Documents. The Company believes these claims have no merit and intends to defend the action vigorously.

On November 27, 2002, AllVoice Computing plc (AllVoice) filed an action against the Company in the United States District Court for the Southern District of Texas claiming patent infringement. In the lawsuit, AllVoice alleges that the Company is infringing United States Patent No. 5,799,273 entitled Automated Proofreading Using Interface Linking Recognized Words to their Audio Data While Text is Being Changed (the 273

Table of Contents

NUANCE COMMUNICATIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Patent). The 273 Patent generally discloses techniques for manipulating audio data associated with text generated by a speech recognition engine. Although the Company has several products in the speech recognition technology field, the Company believes that its products do not infringe the 273 Patent because, in addition to other defenses, they do not use the claimed techniques. Damages are sought in an unspecified amount. The Company filed an Answer on December 23, 2002. The United States District Court for the Southern District of Texas entered summary judgment against AllVoice and dismissed all claims against the Company on February 21, 2006. AllVoice filed a notice of appeal from this judgment on April 26, 2006. On October 12, 2007, the U.S. Court of Appeals for the Federal Circuit reversed and remanded the summary judgment. The Company believes these claims have no merit and intends to defend the action vigorously.

In August 2001, the first of a number of complaints was filed in the United States District Court for the Southern District of New York, on behalf of a purported class of persons who purchased Former Nuance stock between April 12, 2000 and December 6, 2000. Those complaints have been consolidated into one action. The complaint generally alleges that various investment bank underwriters engaged in improper and undisclosed activities related to the allocation of shares in Former Nuance's initial public offering of securities. The complaint makes claims for violation of several provisions of the federal securities laws against those underwriters, and also against Former Nuance and some of the Former Nuance's directors and officers. Similar lawsuits, concerning more than 250 other companies' initial public offerings, were filed in 2001. In February 2003, the Court denied a motion to dismiss with respect to the claims against Former Nuance. In the third quarter of 2003, a proposed settlement in principle was reached among the plaintiffs, issuer defendants (including Former Nuance) and the issuers' insurance carriers. The settlement called for the dismissal and release of claims against the issuer defendants, including Former Nuance, in exchange for a contingent payment to be paid, if necessary, by the issuer defendants' insurance carriers and an assignment of certain claims. The settlement was not expected to have any material impact upon the Company, as payments, if any, were expected to be made by insurance carriers, rather than by the Company. On December 5, 2006, the Court of Appeals for the Second Circuit reversed the Court's order certifying a class in several test cases that had been selected by the underwriter defendants and plaintiffs in the coordinated proceeding. The plaintiffs petitioned the Second Circuit for rehearing of the Second Circuit's decision, however, on April 6, 2007, the Second Circuit denied the petition for rehearing. At a status conference on April 23, 2007, the district court suggested that the issuers' settlement could not be approved in its present form, given the Second Circuit's ruling. On June 25, 2007 the district court issued an order terminating the settlement agreement. The plaintiffs in the case have since filed amended master allegations and amended complaints and have moved for class certification, while the defendants have moved to dismiss the complaints and have filed oppositions to the motion for class certification. The Company intends to defend the litigation vigorously and believes it has meritorious defenses to the claims against Former Nuance.

The Company believes that the final outcome of the current litigation matters described above will not have a significant adverse effect on its financial position and results of operations. However, even if the Company's defense is successful, the litigation could require significant management time and will be costly. Should the Company not prevail in these litigation matters, its operating results, financial position and cash flows could be adversely impacted.

Guarantees and Other

The Company currently includes indemnification provisions in the contracts into which it enters with its customers and business partners. Generally, these provisions require the Company to defend claims arising out of its products infringement of third-party intellectual property rights, breach of contractual obligations and/or unlawful or otherwise

culpable conduct on its part. The indemnity obligations imposed by these provisions generally cover damages, costs and attorneys' fees arising out of such claims. In most, but not all, cases, the Company's total liability under such provisions is limited to either the value of the contract or a specified, agreed upon amount. In some cases its total liability under such provisions is unlimited. In many, but not all, cases, the term of the indemnity provision is perpetual. While the maximum potential amount of future payments the Company could be required to

Table of Contents**NUANCE COMMUNICATIONS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

make under all the indemnification provisions in its contracts with customers and business partners is unlimited, it believes that the estimated fair value of these provisions is minimal due to the low frequency with which these provisions have been triggered.

The Company has entered into agreements to indemnify its directors and officers to the fullest extent authorized or permitted under applicable law. These agreements, among other things, provide for the indemnification of its directors and officers for expenses, judgments, fines, penalties and settlement amounts incurred by any such person in his or her capacity as a director or officer of the Company, whether or not such person is acting or serving in any such capacity at the time any liability or expense is incurred for which indemnification can be provided under the agreements. In connection with the terms of certain of its acquisitions that have been consummated, the Company is required to indemnify the former members of the boards of directors of those companies, on similar terms as described above, for a period of six years from the acquisition date. In certain cases the Company has been required to, under the terms of the sale and purchase agreements, purchase director and officer insurance policies related to these obligations, which fully cover the six year periods. In connection with the acquisition of SpeechWorks, the Company indemnified the former members of the SpeechWorks board of directors for a period of six years from the acquisition date, and purchased a director and officer policy that covered a period of three years from the acquisition date. To the extent that the Company does not purchase a director and officer insurance policy for the full period of any contractual indemnification, it would be required to pay for costs incurred, if any, as described above.

At December 31, 2007, the Company has \$3.8 million of non-cancelable purchase commitments for inventory to fulfill customers' orders currently scheduled in its backlog.

15. Segment and Geographic Information and Significant Customers

The Company has reviewed the provisions of SFAS 131, Disclosures about Segments of an Enterprise and Related Information, with respect to the criteria necessary to evaluate the number of operating segments that exist. Based on its review, the Company has determined that it operates in one segment.

Revenue, classified by the major geographic areas in which the Company's customers are located, were as follows (in thousands):

	Three Months Ended December 31,	
	2007	2006
United States	\$ 140,101	\$ 101,550
International	54,923	31,871
Total	\$ 195,024	\$ 133,421

No country outside of the United States composed greater than 10% of total revenue.

Edgar Filing: Nuance Communications, Inc. - Form 10-Q

The following table presents revenue information for principal product lines, which do not constitute separate segments (in thousands):

	Three Months Ended	
	December 31,	
	2007	2006
Speech	\$ 175,583	\$ 115,002
Imaging	19,441	18,419
Total	\$ 195,024	\$ 133,421

Table of Contents**NUANCE COMMUNICATIONS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table summarizes the Company's long-lived assets, including intangible assets and goodwill, by geographic location (in thousands):

	December 31, 2007	September 30, 2007
United States	\$ 1,701,722	\$ 1,602,370
International	137,467	148,801
Total	\$ 1,839,189	\$ 1,751,171

16. Related Parties

A member of the Company's Board of Directors is also a partner at Wilson Sonsini Goodrich & Rosati, Professional Corporation, a law firm that provides services to the Company. These services may from time-to-time include contingent fee arrangements. For the three months ended December 31, 2007, the Company paid \$5.1 million to Wilson Sonsini Goodrich & Rosati for professional services provided to the Company. As of December 31, 2007 and September 30, 2007 the Company had \$3.7 million and \$5.1 million, respectively, included in accounts payable and accrued expenses to Wilson Sonsini Goodrich & Rosati.

Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*

The following Management's Discussion and Analysis is intended to help the reader understand the results of operations and financial condition of our business. Management's Discussion and Analysis is provided as a supplement to, and should be read in conjunction with, our consolidated financial statements and related notes thereto included elsewhere in this Quarterly Report on Form 10-Q.

FORWARD-LOOKING STATEMENTS

This quarterly report contains forward-looking statements. These forward-looking statements include predictions regarding:

- our future revenue, cost of revenue, research and development expenses, selling, general and administrative expenses, amortization of other intangible assets and gross margin;
- our strategy relating to speech and imaging technologies;
- the potential of future product releases;
- our product development plans and investments in research and development;
- future acquisitions, and anticipated benefits from pending and prior acquisitions;
- international operations and localized versions of our products; and
- legal proceedings and litigation matters.

You can identify these and other forward-looking statements by the use of words such as *may*, *will*, *should*, *expects*, *plans*, *anticipates*, *believes*, *estimates*, *predicts*, *intends*, *potential*, *continue* or the negative of such terms or comparable terminology. Forward-looking statements also include the assumptions underlying or relating to any of the foregoing statements. Our actual results could differ materially from those anticipated in these forward-looking statements for many reasons, including the risks described in Item 1A *Risk Factors* and elsewhere in this Quarterly Report.

You should not place undue reliance on these forward-looking statements, which speak only as of the date of this Quarterly Report on Form 10-Q. We undertake no obligation to publicly release any revisions to the forward-looking statements or reflect events or circumstances after the date of this document.

OVERVIEW

Nuance Communications, Inc. is a leading provider of speech-based solutions for businesses and consumers worldwide. Our speech solutions are designed to transform the way people interact with information systems, mobile devices and services. We have designed our solutions to make the user experience more compelling, convenient, safe and satisfying, unlocking the full potential of these systems, devices and services.

The vast improvements in the power and features of information systems and mobile devices have increased their complexity and reduced their ease of use. Many of the systems, devices and services designed to make our lives easier are cumbersome to use, involving complex touch-tone menus in call centers, counterintuitive and inconsistent user interfaces on computers and mobile devices, inefficient manual processes for transcribing medical records and

automobile dashboards overrun with buttons and dials. These complex interfaces often limit the ability of the average user to take full advantage of the functionality and convenience offered by these products and services. By using the spoken word, our speech solutions help people naturally obtain information, interact with mobile devices and access services such as navigation, online banking and medical transcription.

We provide speech solutions to several rapidly growing markets:

Enterprise Speech. We deliver a portfolio of speech-enabled customer care solutions that improve the quality and consistency of customer communications. Our solutions are used to automate a wide range of

Table of Contents

customer services and business processes in a variety of information and process-intensive vertical markets such as telecommunications, financial services, travel and entertainment, and government.

Mobility. Our mobile speech solutions add voice control capabilities to mobile devices and services, allowing people to use spoken words or commands to dial a mobile phone, enter destination information into an automotive navigation system, dictate a text message or have emails and screen information read aloud. Our mobile solutions are used by many of the world's leading mobile device and automotive manufacturers.

Healthcare Dictation and Transcription. We provide comprehensive dictation and transcription solutions and services that improve the way patient data is captured, processed and used. Our healthcare dictation and transcription solutions automate the input and management of medical information and are used by many of the largest hospitals in the United States.

In addition to our speech offerings, we provide PDF and document solutions that reduce the time and cost associated with creating, using and sharing documents. Our solutions benefit from the widespread adoption of the PDF format and the increasing demand for networked solutions for managing electronic documents. Our solutions are used by millions of professionals and within large enterprises.

We leverage our global professional services organization and our extensive network of partners to design and deploy innovative speech and imaging solutions for businesses and organizations around the globe. We market and distribute our products indirectly through a global network of resellers, including system integrators, independent software vendors, value-added resellers, hardware vendors, telecommunications carriers and distributors, and directly through our dedicated sales force and through our e-commerce website.

We have built a world-class portfolio of speech solutions both through internal development and acquisitions. We continue to pursue opportunities to broaden our speech solutions and expect to continue to make acquisitions of other companies, businesses and technologies to complement our internal investments. We have a team that focuses on evaluating market needs and potential acquisitions to fulfill them. In addition, we have a disciplined methodology for integrating acquired companies and businesses after the transaction is complete. Acquisitions completed in recent years include the following significant transactions:

On January 30, 2003, we acquired Royal Philips Electronics Speech Processing Telephony and Voice Control business units to expand our solutions for speech in call centers and within automobiles and mobile devices.

On August 11, 2003, we acquired SpeechWorks International, Inc. to broaden our speech applications for telecommunications, call centers and embedded environments as well as establish a professional services organization.

On February 1, 2005, we acquired Phonetic Systems Ltd. to complement our solutions and expertise in automated directory assistance and enterprise speech applications.

On September 15, 2005, we acquired the former Nuance Communications, Inc., which we refer to as Former Nuance, to expand our portfolio of technologies, applications and services for call center automation, customer self service and directory assistance.

On March 31, 2006, we acquired Dictaphone Corporation, a leading healthcare information technology company, to broaden our range of digital dictation, transcription, and report management system solutions.

Edgar Filing: Nuance Communications, Inc. - Form 10-Q

On March 26, 2007, we acquired Bluestar Resources Limited, the parent of Focus Enterprises Limited and Focus Infosys India Private Limited, a leading provider of healthcare transcription services, to compliment our Dictaphone iChart Web-based transcription solutions and expand our ability to deliver Web-based speech recognition solutions and provide scalable Internet delivery of automated transcription.

On April 24, 2007, we acquired BeVocal, Inc., a provider of hosted self-service customer case solutions to expand our product portfolio in the areas of mobile customer lifecycle management, mobile premium services and other mobile consumer products.

Table of Contents

On August 24, 2007, we acquired Voice Signal Technologies, Inc. a global provider of speech technology for mobile devices to enhance our solutions and expertise addressing the accelerating demand for speech-enabled mobile devices and services that allow people to use spoken commands to simply and effectively navigate and retrieve information and to control and operate mobile phones.

On August 24, 2007, we acquired Tegic Communications, Inc. a wholly owned subsidiary of AOL LLC and a developer of embedded software for mobile devices. The Tegic acquisition expands our presence in the mobile device industry and accelerates the delivery of a new mobile user interface that combines voice, text and touch to improve the user experience for consumers and mobile professionals.

On November 26, 2007, we acquired Viecore, Inc., a consulting and systems integration firm. The Viecore acquisition expands our professional services capabilities and complements our existing partnerships, allowing us to deliver end-to-end speech solutions and system integration for speech-enabled customer care in key vertical markets including financial services, telecommunications, healthcare, utilities and government.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. On an ongoing basis, we evaluate our estimates and judgments, in particular those related to revenue recognition; the costs to complete the development of custom software applications and valuation allowances (specifically sales returns and other allowances); accounting for patent legal defense costs; the valuation of goodwill, other intangible assets and tangible long-lived assets; estimates used in the accounting for acquisitions; assumptions used in valuing stock-based compensation instruments; assumptions used in determining the obligations and assets relating to pension and post-retirement benefit plans; judgment with respect to interest rate swaps which are characterized as derivative instruments; evaluating loss contingencies; and valuation allowances for deferred tax assets. Actual amounts could differ significantly from these estimates. Our management bases its estimates and judgments on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the amounts of revenue and expenses that are not readily apparent from other sources.

Additional information about these critical accounting policies may be found in the Management's Discussion & Analysis of Financial Condition and Results of Operations section included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2007.

Table of Contents**RESULTS OF OPERATIONS**

The following table presents, as a percentage of total revenue, certain selected financial data for the periods indicated:

	Three Months Ended December 31,	
	2007	2006
Revenue:		
Product and licensing	50.2%	56.8%
Professional services, subscription and hosting	32.0	21.0
Maintenance and support	17.8	22.2
Total revenue	100.0	100.0
Costs and expenses:		
Cost of product and licensing	5.9	7.7
Cost of professional services, subscription and hosting	23.0	15.4
Cost of maintenance and support	3.8	5.2
Cost of revenue from amortization of intangible assets	2.6	2.2
Gross margin	64.7	69.5
Research and development	14.3	12.3
Sales and marketing	28.7	32.9
General and administrative	12.9	11.5
Amortization of other intangible assets	5.9	3.9
Restructuring and other charges	1.1	
Total operating expenses	62.9	60.6
Income from operations	1.8	8.9
Other income (expense), net	(7.3)	(5.1)
Income (loss) before income taxes	(5.5)	3.8
Provision for income taxes	2.4	4.7
Net loss	(7.9)%	(0.9)%

Total Revenue

The following table shows total revenue by geographic location, based on the location of our customers, in absolute dollars and percentage change (dollars in millions):

**Three Months
Ended**

	December 31,		Dollar	Percent
	2007	2006	Change	Change
United States	\$ 140.1	\$ 101.5	\$ 38.6	38.0%
International	54.9	31.9	23.0	72.1%
Total Revenue	\$ 195.0	\$ 133.4	\$ 61.6	46.2%

The increase in total revenue for the three months ended December 31, 2007, as compared to the same period ended December 31, 2006, was driven by organic growth and contributions from acquisitions and composes a \$21.9 million increase in network revenue including contributions from our acquisition of BeVocal, a \$14.7 million increase in dictation revenue including contributions from our acquisition of Focus, a \$24.0 million increase in

Table of Contents

embedded revenue including contributions from our acquisitions of VoiceSignal and Tegic and a \$1.0 million increase in imaging revenue.

Based on the location of the customers, the geographic split for the three months ended December 31, 2007 was 72% of total revenue in the United States and 28% internationally as compared to 76% of total revenue in the United States and 24% internationally for the three months ended December 31, 2006. The primary reason for the decrease in the percentage of revenue attributable to the United States was the revenue from our acquisitions closed in fiscal 2007 had a higher proportion of customers located outside of the United States.

Product and Licensing Revenue

Product and licensing revenue primarily consists of sales and licenses of our speech and imaging products and technology. The following table shows product and licensing revenue, in absolute dollars and as a percentage of total revenue (dollars in millions):

	Three Months Ended			
	December 31, 2007	2006	Dollar Change	Percent Change
Product and licensing revenue	\$ 97.9	\$ 75.7	\$ 22.2	29.3%
As a percentage of total revenue	50.2%	56.8%		

The increase in product and licensing revenue for the three months ended December 31, 2007, as compared to the same period ended December 31, 2006, composes a \$22.4 million increase in embedded revenue including contributions from our acquisitions of VoiceSignal and Tegic and a \$1.1 increase in imaging revenue offset by a slight decline in dictation revenue as we have seen customers migrate to our iChart hosted solution. Due to a change in revenue mix, primarily relating to the accelerated growth of professional services, subscription and hosting revenue, product and licensing revenue decreased by 6.6 percentage points of total revenue, as compared to the same period ended December 31, 2006.

Professional Services, Subscription and Hosting Revenue

Professional services revenue primarily consists of consulting, implementation and training services for speech customers. Subscription and hosting revenue primarily relates to delivering hosted and on-site directory assistance and transcription and dictation services over a specified term. The following table shows professional services, subscription and hosting revenue, in absolute dollars and as a percentage of total revenue (dollars in millions):

	Three Months Ended			
	December 31, 2007	2006	Dollar Change	Percent Change
Professional services, subscription and hosting revenue	\$ 62.4	\$ 28.0	\$ 34.4	122.9%

As a percentage of total revenue	32.0%	21.0%
----------------------------------	-------	-------

The increase in professional services, subscription and hosting revenue for the three months ended December 31, 2007, as compared to the same period ended December 31, 2006 composes a \$21.3 million increase in network revenue including contributions from BeVocal's hosted application and Viecore, a \$12.4 million increase in dictation revenue primarily attributable to a 42% increase in revenue from our iChart solution and a \$0.8 increase in embedded revenue. As a percentage of total revenue, professional services, subscription and hosting revenue increased by 11.0 percentage points due to accelerated organic and acquisition related growth, as compared to the growth of product and license revenue and maintenance and support revenue.

Table of Contents**Maintenance and Support Revenue**

Maintenance and support revenue primarily consists of technical support and maintenance service for our speech products including network, embedded and dictation and transcription products. The following table shows maintenance and support revenue, in absolute dollars and as a percentage of total revenue (dollars in millions):

	Three Months Ended December 31,		Dollar Change	Percent Change
	2007	2006		
Maintenance and support revenue	\$ 34.7	\$ 29.7	\$ 5.0	16.8%
As a percentage of total revenue	17.8%	22.3%		

The increase in maintenance and support revenue for the three months ended December 31, 2007, as compared to the same period ended December 31, 2006, composes a \$2.8 million increase in dictation revenue, a \$1.3 million increase in network revenue and a \$0.8 million increase in embedded revenue. The growth was primarily attributable to organic growth. As a percentage of total revenue, maintenance and support revenue decreased by 4.5 percentage points primarily due to changes in revenue mix, primarily relating to the accelerated growth of professional services, subscription and hosting revenue.

Cost of Product and Licensing Revenue

Cost of product and licensing revenue primarily consists of material and fulfillment costs, manufacturing and operations costs, and third-party royalty expenses. The following table shows cost of product and licensing revenue, in absolute dollars and as a percentage of product and licensing revenue (dollars in millions):

	Three Months Ended December 31,		Dollar Change	Percent Change
	2007	2006		
Cost of product and licensing revenue	\$ 11.6	\$ 10.2	\$ 1.4	13.7%
As a percentage of product and licensing revenue	11.8%	13.5%		

The increase in cost of product and licensing revenue for the three months ended December 31, 2007, as compared to the same period ended December 31, 2006, was primarily due to increased imaging royalties, as well as fulfillment and inventory-related expenses related to our productivity and healthcare products. Cost of product and licensing revenue decreased as a percentage of revenue. The decrease was primarily a result of changing product mix for Dictaphone products, from licensed-based to our iChart solution, and to a lesser extent a result of an increase in revenue related to certain of our recent acquisitions that do not carry significant product cost.

Cost of Professional Services, Subscription and Hosting Revenue

Cost of professional services, subscription and hosting revenue primarily consists of compensation for consulting personnel, outside consultants and overhead, as well as the hardware and communications fees that support our subscription and hosted solutions. The following table shows cost of professional services, subscription and hosting revenue, in absolute dollars and as a percentage of professional services, subscription and hosting revenue (dollars in millions):

	Three Months Ended December 31,		Dollar Change	Percent Change
	2007	2006		
Cost of professional services, subscription and hosting revenue	\$ 44.8	\$ 20.6	\$ 24.2	117.5%
As a percentage of professional services, subscription and hosting revenue	71.8%	73.6%		

Table of Contents

The increase in cost of professional services, subscription and hosting revenue for the three months ended December 31, 2007, as compared to the same period ended December 31, 2006, was due primarily to a \$15.1 million increase associated with professional services, subscription and hosting revenue in our organic business as well as \$9.2 million of incremental cost related to revenue from acquisitions including BeVocal and Focus.

Cost of Maintenance and Support Revenue

Cost of maintenance and support revenue primarily consists of compensation for product support personnel and overhead. The following table shows cost of maintenance and support revenue, in absolute dollars and as a percentage of maintenance and support revenue (dollars in millions):

	Three Months Ended December 31,		Dollar Change	Percent Change
	2007	2006		
Cost of maintenance and support revenue	\$ 7.4	\$ 7.0	\$ 0.4	5.7%
As a percentage of maintenance and support revenue	21.3%	23.6%		

The increase in cost of maintenance and support revenue for the three months ended December 31, 2007, as compared to the same period ended December 31, 2006, was due primarily to our acquisitions. Cost of maintenance and support revenue as a percentage of revenue decreased 2 percentage points as we utilized existing resources more efficiently.

Cost of Revenue from Amortization of Intangible Assets

Cost of revenue from amortization of intangible assets consists of the amortization of acquired patents and core and completed technology using the straight-line basis over their estimated useful lives. We evaluate the recoverability of intangible assets periodically or whenever events or changes in business circumstances indicate that the carry value of our intangible assets may not be recoverable. The following table shows cost of revenue from amortization of intangible assets, in absolute dollars and as a percentage of total revenue (dollars in millions):

	Three Months Ended December 31,		Dollar Change	Percent Change
	2007	2006		
Cost of revenue from amortization of intangible assets	\$ 5.0	\$ 2.9	\$ 2.1	72.4%
As a percentage of total revenue	2.6%	2.2%		

The increase in cost of revenue from amortization of intangible assets for the three months ended December 31, 2007, as compared to the same period ended December 31, 2006, was primarily attributable to the amortization of intangible assets related to the acquisitions we closed in fiscal 2007.

Research and Development Expense

Research and development expense primarily consists of salaries and benefits, and overhead costs allocated to our engineering staff. The following table shows research and development expense, in absolute dollars and as a percentage of total revenue (dollars in millions):

	Three Months Ended December 31,		Dollar	Percent
	2007	2006	Change	Change
Total research and development expense	\$ 27.8	\$ 16.5	\$ 11.3	68.5%
As a percentage of total revenue	14.3%	12.4%		

Table of Contents

The increase in research and development expense for the three months ended December 31, 2007, as compared to the same period ended December 31, 2006, primarily composes an increase of \$7.4 million in compensation expense, of which \$4.9 million is due to increased headcount associated with our fiscal 2007 acquisitions, an additional \$2.4 million for contract labor and professional services to support ongoing research and development projects, and an additional \$2.4 million of increased shared-based compensation. To date, we have not capitalized any internal development costs as the cost incurred after technological feasibility but before release of products has not been significant.

Sales and Marketing Expense

Sales and marketing expense includes salaries and benefits, commissions, advertising, direct mail, public relations, tradeshows and other costs of marketing programs, travel expenses associated with our sales organization and overhead. The following table shows sales and marketing expense in absolute dollars and as a percentage of total revenue (dollars in millions):

	Three Months Ended			
	December 31, 2007	2006	Dollar Change	Percent Change
Total sales and marketing expense	\$ 56.0	\$ 43.9	\$ 12.1	27.6%
As a percentage of total revenue	28.7%	32.9%		

The increase in sales and marketing expenses for the three months ended December 31, 2007, as compared to the same period ended December 31, 2006, was primarily due to an increase of \$9.7 million in salaries and other variable costs, such as commissions and travel expenses relating to increased headcount from our fiscal 2007 acquisitions and to support the organic business, an increase of \$1.6 million relating to share-based compensation, and an increase of \$1.2 million relating to marketing programs and channel program expenses.

General and Administrative Expense

General and administrative expense primarily consists of personnel costs (including overhead), for administration, finance, human resources, information systems, facilities and general management, fees for external professional advisors including accountants and attorneys, insurance, and provisions for doubtful accounts. The following table shows general and administrative expense, in absolute dollars and as a percentage of total revenue (dollars in millions):

	Three Months Ended			
	December 31, 2007	2006	Dollar Change	Percent Change
Total general and administrative expense	\$ 25.2	\$ 15.4	\$ 9.8	63.6%
As a percentage of total revenue	12.9%	11.5%		

The increase in general and administrative expense for the three months ended December 31, 2007, as compared to the same period ended December 31, 2006 is primarily due to increased compensation of \$4.4 million, a \$2.4 million increase in expenses relating to temporary employees and professional services to support our growing organization and an increase of \$1.4 million relating to share-based compensation.

Amortization of Other Intangible Assets

Amortization of other intangible assets into operating expense includes amortization of acquired customer and contractual relationships, non-competition agreements and acquired trade names and trademarks. Customer relationships are amortized on an accelerated basis based upon the pattern in which the economic benefit of customer relationships are being utilized. Other identifiable intangible assets are amortized on a straight-line basis over their estimated useful lives. We evaluate these assets for impairment and for appropriateness of their remaining

Table of Contents

life on an ongoing basis. The following table shows amortization of other intangible assets in absolute dollars and as a percentage of total revenue (dollars in millions):

	Three Months Ended December 31,		Dollar Change	Percent Change
	2007	2006		
Cost of revenue from amortization of intangible assets	\$ 11.5	\$ 5.2	\$ 6.3	121.2%
As a percentage of total revenue	5.9%	3.9%		

The increase in amortization of other intangible assets for the three months ended December 31, 2007, as compared to the same period ended December 31, 2006, was attributable to the amortization of identifiable intangible assets related to our fiscal 2007 acquisitions.

Restructuring and Other Charges (Credits), Net

In the first quarter of fiscal 2008, we recorded restructuring and other charges of \$2.2 million, of which the majority relates to revised information relative to sublease activity for one of the facilities obligations assumed from Former Nuance. The remaining \$0.2 million relates to restructuring and other charges initiated in the first quarter of fiscal 2008 relating to the consolidation of certain facilities relating to leases of our headquarters location.

The following table sets forth the accrual activity relating to personnel related restructuring and other charges for the three months ended December 31, 2007, was as follows (in millions):

	Personnel	Facilities	Total
Balance at September 30, 2007	\$ 0.3	\$	\$ 0.3
Restructuring and other charges		0.2	0.2
Non-cash adjustment		0.1	0.1
Cash payments			
Balance at December 31, 2007	\$ 0.3	\$ 0.3	\$ 0.6

Other Income (Expense), Net

The following table shows other income (expense), net in absolute dollars and as a percentage of total revenue (dollars in millions):

	Three Months Ended December 31,		Dollar Change	Percent Change
	2007	2006		

Edgar Filing: Nuance Communications, Inc. - Form 10-Q

Interest income	\$ 1.7	\$ 1.4	\$ 0.3	21.4%
Interest expense	(15.3)	(7.7)	7.6	98.7%
Other income (expense), net	(0.6)	(0.5)	0.1	20.0%
Total other income (expense), net	\$ (14.2)	\$ (6.8)	\$ 7.4	108.8%
As a percentage of total revenue	(7.3)%	(5.1)%		

The increase in interest income was primarily due to higher cash balances, net of lower interest rates during the three month period ended December 31, 2007, as compared to the same period ended December 31, 2006. The increase in interest expense was mainly due to the increase in our term loan borrowings and the \$250.0 million convertible debentures that we issued in August 2007. Other income (expense) principally consisted of foreign exchange gains (losses) as a result of the changes in foreign exchange rates on certain of our foreign subsidiaries who have transactions denominated in currencies other than their functional currencies, as well as the translation of certain of our intercompany balances.

Table of Contents**Provision for Income Taxes**

The following table shows the provision for income taxes in absolute dollars and the effective income tax rate (in millions):

	Three Months Ended		Dollar Change	Percent Change
	December 31, 2007	2006		
Income tax provision	\$ 4.6	\$ 6.3	\$ (1.7)	(27.0)%
Effective income tax rate	(42.6)%	123.5%		

The income tax provision for the quarter ended December 31, 2007 includes provisions for current and deferred federal, state, and foreign taxes of approximately \$2.1 million and a change in the valuation allowance of approximately \$2.5 million.

The variance of our effective income tax rate from the federal statutory rate of 35% is due primarily to state income taxes, the disallowance for tax purposes of certain share based compensation charges, and the increase in our valuation allowance with respect to certain deferred tax assets.

Valuation allowances have been established for the U.S. net deferred tax asset, which we believe do not meet the more likely than not realization criteria established by SFAS 109, Accounting for Income Taxes and that are not otherwise offset by deferred tax liabilities. Due to a history of cumulative losses in the United States, a full valuation allowance has been recorded against the net deferred assets of our U.S. entities. At December 31, 2007, we had a valuation allowance for U.S. net deferred tax assets of approximately \$247.6 million. The U.S. net deferred tax assets is composed of tax assets primarily related to net operating loss carryforwards (resulting both from business combinations and from operations) and tax credits, offset by deferred tax liabilities primarily related to intangible assets. Certain of these intangible assets have indefinite lives, and the resulting deferred tax liability associated with these assets is not allowed as an offset to our deferred tax assets for purposes of determining the required amount of our valuation allowance.

Our establishment of new deferred tax assets requires the establishment of valuation allowances based upon the SFAS 109 more likely than not realization criteria. The establishment of a valuation allowance relating to operating activities is recorded as an increase to tax expense. The establishment of valuation allowance related to a business combination is recorded as an increase to goodwill. Our utilization of deferred tax assets that were acquired in a business combination (primarily net operating loss carryforwards) will require the reversal of the tax asset in accordance with the manner in which the deferred tax asset was originally recorded and will vary based upon the business combination whose deferred tax assets are being utilized.

The tax provision also includes state and foreign tax expense as determined on a legal entity and tax jurisdiction basis.

LIQUIDITY AND CAPITAL RESOURCES

Cash and cash equivalents totaled \$323.7 million as of December 31, 2007, an increase of \$139.4 million compared to \$184.3 million as of September 30, 2007. In addition, we had \$0.6 million of marketable securities as of December 31,

2007 as compared to \$2.6 million at September 30, 2007. Our working capital was \$269.4 million as of December 31, 2007 as compared to \$164.9 million at the end of fiscal 2007. As of December 31, 2007, total retained deficit was \$220.5 million. We do not expect our retained deficit to impact our future ability to operate given our strong cash and financial position. Our increase in cash and cash equivalents was composed of \$131.5 million raised from the sale of our common stock in December 2007, and \$41.0 million provided by operating activities, partially offset by the net impact of cash used in investing activities and in financing activities other than the common stock issuance.

Table of Contents

Cash provided by operating activities

Cash provided by operating activities for the three months ended December 31, 2007 was \$41.0 million, an increase of \$14.9 million, or 57%, as compared to net cash provided by operating activities of \$26.1 million for the three months ended December 31, 2006. The increase was primarily due to \$11.5 million of additional cash generated from changes in working capital accounts. As compared to last year, we generated an additional \$29.9 million from accounts receivable and \$5.6 million from prepaid and other assets, these increases were partially offset by an incremental usage of \$14.1 million for accounts payable and \$11.4 for deferred revenue. The increase in cash provided by operating activities is also composed of \$3.3 million additional cash generated from net loss after adding back non-cash items such as depreciation and amortization, and share-based payment; for which in the first quarter of fiscal 2008 was \$26.9 million compared to \$23.6 million in the first quarter of fiscal 2007.

Cash used in investing activities

Cash used in investing activities for the three months ended December 31, 2007 was \$22.3 million, an increase of \$13.9 million, or 165%, as compared to net cash used in investing activities of \$8.4 million for the three months ended December 31, 2006. The increase in cash used in investing activities was primarily driven by a \$13.2 million increase in cash paid relating to our acquisitions.

Cash provided by financing activities

Cash provided by financing activities for the three months ended December 31, 2007 was \$120.0 million as compared to net cash provided by financing activities of \$42,000 for the three months ended December 31, 2006. The increase in cash provided by financing activities was primarily related our sale of common stock in December 2007 which provided \$131.5 million in net proceeds. This increase in cash generated was partially offset by our net use of \$5.6 million in cash relating to our employees' income taxes on the vesting of restricted stock awards, partially offset by cash received upon the exercise of stock options by our employees. In the corresponding fiscal 2007 period we generated \$4.2 million in cash from employee stock awards.

Credit Facility

2.75% Convertible Debentures

On August 13, 2007, we issued \$250 million of 2.75% convertible senior debentures due in 2027 (the 2027 Debentures) in a private placement to Citigroup Global Markets Inc. and Goldman, Sachs & Co. (the Initial Purchasers). Total proceeds, net of debt discount of \$7.5 million and deferred debt issuance costs of \$1.1 million, were \$241.4 million. The 2027 Debentures bear an interest rate of 2.75% per annum, payable semi-annually in arrears beginning on February 15, 2008, and mature on August 15, 2027 subject to the right of the holders of the 2027 Debentures to require us to redeem the 2027 Debentures on August 15, 2014, 2017 and 2022. The related debt discount and debt issuance costs are being amortized to interest expense using the effective interest rate method through August 2014. As of December 31, 2007, the ending unamortized deferred debt issuance costs were \$1.1 million and are included in other long-term assets in our accompanying balance sheet. The 2027 Debentures are general senior unsecured obligations, ranking equally in right of payment to all of our existing and future unsecured, unsubordinated indebtedness and senior in right of payment to any indebtedness that is contractually subordinated to the 2027 Debentures. The 2027 Debentures are effectively subordinated to our secured indebtedness to the extent of the value of the collateral securing such indebtedness and are structurally subordinated to indebtedness and other liabilities of our subsidiaries. If converted, the principal amount of the 2027 Debentures is payable in cash and any amounts payable in excess of the \$250 million principal amount, will (based on an initial conversion rate, which represents an initial conversion price of \$19.47 per share, subject to adjustment as defined) be paid in cash or shares of

our common stock, at our election, only in the following circumstances and to the following extent: (i) on any date during any fiscal quarter beginning after September 30, 2007 (and only during such fiscal quarter) if the closing sale price of our common stock was more than 120% of the then current conversion price for at least 20 trading days in the period of the 30 consecutive trading days ending on the last trading day of the previous fiscal quarter; (ii) during the five consecutive business-day period following any five consecutive trading-day period in which the trading price for \$1,000 principal amount of the 2027 Debentures for each day during such five trading-day period was less than 98% of the closing sale price of our common stock multiplied by

Table of Contents

the then current conversion rate; (iii) upon the occurrence of specified corporate transactions, as described in the indenture for the 2027 Debentures; and (iv) at the option of the holder at any time on or after February 15, 2027. Additionally, we may redeem the 2027 Debentures, in whole or in part, on or after August 20, 2014 at par plus accrued and unpaid interest; each holder shall have the right, at such holder's option, to require us to repurchase all or any portion of the 2027 Debentures held by such holder on August 15, 2014, August 15, 2017 and August 15, 2022. Upon conversion, we will pay cash and shares of our common stock (or, at our election, cash in lieu of some or all of such common stock), if any. If we undergo a fundamental change (as described in the indenture for the 2027 Debentures) prior to maturity, holders will have the option to require us to repurchase all or any portion of their debentures for cash at a price equal to 100% of the principal amount of the debentures to be purchased plus any accrued and unpaid interest, including any additional interest to, but excluding, the repurchase date. As of December 31, 2007, no conversion triggers were met. If the conversion triggers were met, we could be required to repay all or some of the principal amount in cash prior to the maturity date.

Expanded 2006 Credit Facility

We entered into a credit facility which consists of a \$75 million revolving credit line including letters of credit, a \$355 million term loan entered into on March 31, 2006, a \$90 million term loan entered into on April 5, 2007 and a \$225 million term loan entered into on August 24, 2007 (the Expanded 2006 Credit Facility). The term loans are due March 2013 and the revolving credit line is due March 2012. As of December 31, 2007, \$662.0 million remained outstanding under the term loans and there were \$17.2 million of letters of credit issued under the revolving credit line and there were no other outstanding borrowings under the revolving credit line.

The Expanded 2006 Credit Facility contains covenants, including, among other things, covenants that restrict the ability us and our subsidiaries to incur certain additional indebtedness, create or permit liens on assets, enter into sale-leaseback transactions, make loans or investments, sell assets, make certain acquisitions, pay dividends, or repurchase stock. The agreement also contains events of default, including failure to make payments of principal or interest, failure to observe covenants, breaches of representations and warranties, defaults under certain other material indebtedness, failure to satisfy material judgments, a change of control and certain insolvency events. As of December 31, 2007, we were in compliance with the covenants under the Expanded 2006 Credit Facility.

Borrowings under the Expanded 2006 Credit Facility bear interest at a rate equal to the applicable margin plus, at our option, either (a) the base rate (which is the higher of the corporate base rate of UBS AG, Stamford Branch, or the federal funds rate plus 0.50% per annum) or (b) LIBOR (equal to (i) the British Bankers' Association Interest Settlement Rates for deposits in U.S. dollars divided by (ii) one minus the statutory reserves applicable to such borrowing). The applicable margin for term loan borrowings under the Expanded 2006 Credit Facility ranges from 0.75% to 1.50% per annum with respect to base rate borrowings and from 1.75% to 2.50% per annum with respect to LIBOR-based borrowings, depending on our leverage ratio. The applicable margin for revolving loan borrowings under the Expanded 2006 Credit Facility ranges from 0.50% to 1.25% per annum with respect to base rate borrowings and from 1.50% to 2.25% per annum with respect to LIBOR-based borrowings, depending upon the our leverage ratio. As of December 31, 2007, our applicable margin for term loan was 1.50% for base rate borrowings and 2.50% for LIBOR-based borrowings. We are required to pay a commitment fee for unutilized commitments under the revolving credit facility at a rate ranging from 0.375% to 0.50% per annum, based upon our leverage ratio. As of December 31, 2007, the commitment fee rate was 0.5% and the interest rate was 7.33%.

We capitalized debt issuance costs related to the Expanded 2006 Credit Facility and are amortizing the costs to interest expense using the effective interest rate method through March 2012 for costs associated with the revolving credit facility and through March 2013 for costs associated with the term loan. As of December 31, 2007, the ending unamortized deferred financing fees were \$11.8 million and are included in other assets in our accompanying balance sheet.

The Expanded 2006 Credit Facility is subject to repayment in four equal quarterly installments of 1% per annum (\$6.7 million per year, not including interest, which is also payable quarterly), and an annual excess cash flow sweep, as defined in the Expanded 2006 Credit Facility, which is payable beginning in the first quarter of each fiscal year, beginning in fiscal 2008, based on the excess cash flow generated in the previous fiscal year. No payment

Table of Contents

under the excess cash flow sweep provision was due in the first quarter of fiscal 2008 as there was no excess cash flow generated in fiscal 2007. We will continue to evaluate the extent to which a payment is due in the first quarter of fiscal 2009 based upon 2008 excess cash flow generation. At the current time, we are unable to predict the amount of the outstanding principal, if any, that we may be required to repay during the first quarter of fiscal 2009 pursuant to the excess cash flow sweep provisions. Any term loan borrowings not paid through the baseline repayment, the excess cash flow sweep, or any other mandatory or optional payments that we may make, will be repaid upon maturity. If only the baseline repayments are made, the annual aggregate principal amount of the term loans repaid would be as follows (in millions):

Year Ending September 30,	Amount
2008 (January 1 to September 30, 2008)	\$ 5.0
2009	6.7
2010	6.7
2011	6.7
2012	6.7
2013	630.2
Total	\$ 662.0

Our obligations under the Expanded 2006 Credit Facility are unconditionally guaranteed by, subject to certain exceptions, each of our existing and future direct and indirect wholly-owned domestic subsidiaries. The Expanded 2006 Credit Facility and the guarantees thereof are secured by first priority liens and security interests in the following: 100% of the capital stock of substantially all of our domestic subsidiaries and 65% of the outstanding voting equity interests and 100% of the non-voting equity interests of first-tier foreign subsidiaries, all material tangible and intangible assets of us and the guarantors, and present and future intercompany debt. The Expanded 2006 Credit Facility also contains provisions for mandatory prepayments of outstanding term loans upon receipt of the following and subject to certain exceptions, with: 100% of net cash proceeds of asset sales, 100% of net cash proceeds of issuance or incurrence of debt, and 100% of extraordinary receipts. We may voluntarily prepay the Expanded 2006 Credit Facility without premium or penalty other than breakage costs, as defined with respect to LIBOR-based loans.

We believe that cash flows from future operations in addition to cash and marketable securities on hand will be sufficient to meet our working capital, investing, financing and contractual obligations and the contingent payments for acquisitions, if any are realized, as they become due for the foreseeable future. We also believe that in the event future operating results are not as planned, that we could take actions, including restructuring actions and other cost reduction initiatives, to reduce operating expenses to levels which, in combination with expected future revenue, will continue to generate sufficient operating cash flow. In the event that these actions are not effective in generating operating cash flows we may be required to issue equity or debt securities on terms that may be less than favorable.

Table of Contents**Off-Balance Sheet Arrangements, Contractual Obligations****Contractual Obligations**

The following table summarizes our outstanding contractual obligations as of December 31, 2007 (in millions):

Contractual Obligations	Total	Payments Due by Period				
		Remaining Fiscal 2008	Fiscal 2009	Fiscal 2010 and 2011	Fiscal 2012 and 2013	Thereafter
Expanded 2006 Credit Facility	\$ 662.0	\$ 5.0	\$ 6.7	\$ 13.4	\$ 636.9	\$
2.75% Convertible Senior Debenture(1)	250.0					250.0
Interest payable under 2006 Expanded Credit Facility(2)	250.0	36.6	48.3	95.1	70.0	
Interest payable under 2.75% Convertible Senior Debentures(3)	48.1	6.8	6.8	13.8	13.8	6.9
Lease obligations and other liabilities:						
Capital leases and other liabilities	1.0	0.5	0.3	0.2		
Operating leases	116.3	11.9	16.6	28.5	23.7	35.6
Other lease obligations associated with the closing of duplicate facilities related to restructurings and acquisitions(4)	5.5	1.6	1.7	1.2	1.0	
Pension, minimum funding requirement(5)	6.4	1.3	1.7	3.4		
Purchase commitments(6)	3.8	3.8				
Other liabilities assumed(7)	75.1	9.9	13.6	28.5	15.9	7.2
Total contractual cash obligations	\$ 1,418.2	\$ 77.4	\$ 95.7	\$ 184.1	\$ 761.3	\$ 299.7

(1) Holders of the 2.75% Senior Convertible Debentures have the right to require us to repurchase the debentures on August 15, 2014, 2017 and 2022.

(2) Interest is due and payable monthly under the credit facility, and principal is paid on a quarterly basis. The amounts included as interest payable in this table are based on the terms of the Expanded 2006 Credit Facility.

(3) Interest is due and payable semi-annually under the 2.75% Senior Convertible Debentures.

(4) Obligations include contractual lease commitments related to two facilities that were part of a 2005 restructuring plan. As of December 31, 2007, total gross lease obligations are \$3.3 million and are included in the contractual obligations herein. The remaining obligations represent contractual lease commitments associated with the

implemented plans to eliminate duplicate facilities in conjunction with our acquisitions. As of December 31, 2007, we have subleased two of the facilities to unrelated third parties with total sublease income of \$4.0 million through fiscal 2013.

- (5) Our U.K. pension plan has a minimum funding requirement of £859,900 (approximately \$1.7 million based on the exchange rate at December 31, 2007) for each of the next 3 years, through fiscal 2011.
- (6) These amounts include non-cancelable purchase commitments for inventory in the normal course of business to fulfill customers orders currently scheduled in our backlog.
- (7) Obligations include assumed long-term liabilities relating to restructuring programs initiated by the predecessors prior to our acquisition of SpeechWorks International, Inc. in August 2003, and our acquisition of Former Nuance in September 2005. These restructuring programs relate to the closing of two facilities with lease terms set to expire in 2016 and 2012, respectively. Total contractual obligations under these two leases are \$75.1 million. As of December 31, 2007, we have sub-leased a portion of the office space related to these two

Table of Contents

facilities to unrelated third parties. Total sublease income under contractual terms is expected to be \$22.3 million, which ranges from \$1.5 million to \$3.9 million on an annualized basis through 2016.

In connection with our acquisition of Phonetic in February 2005, a deferred payment of \$17.5 million was due and paid to the former shareholders of Phonetic on February 1, 2007. Under the agreement, we also agreed to make maximum additional payments of \$35.0 million in contingent earnout purchase price upon achievement of certain established financial and performance targets through December 31, 2007, in accordance with the purchase agreement. We have notified the former shareholders of Phonetic that the financial and performance targets for calendar 2005 and 2006, totaling \$24.0 million, were not achieved. The former shareholders of Phonetic have objected to this determination. We are currently in discussions with the former shareholders of Phonetic in regards to this matter. We have not recorded any obligations relative to the calendar 2005 and 2006 measures as of December 31, 2007. We are currently evaluating the calculations relative to the calendar 2007 financial and performance targets, and have not recorded any obligations relative to these measures as of December 31, 2007.

In connection with our acquisition of BeVocal on April 24, 2007, we agreed to make payments pursuant to the earnout of up to \$65.1 million upon the achievement of certain financial targets through December 31, 2007, in accordance with the merger agreement. We have accrued \$49.8 million, based on the preliminary measurement of this amount as of December 31, 2007, of which \$46.4 million would be payable in cash and \$3.4 million would be payable either as an adjustment to the exchange ratio of the assumed stock options, or a cash payment in lieu of such an adjustment, at our option. \$8.6 million of the earnout is being recorded to compensation expense over the period of service required under the merger agreement, and \$41.2 million has been recorded as an increase to purchase price. These preliminary earnout payments are included in current liabilities as of December 31, 2007 and a prior estimate was included in long-term liabilities as of September 30, 2007. Our final determination regarding the actual amount of the earnout payments will be made in October 2008. Following the determination in October, we will seek agreement on the determination with the shareholder representative and pay the amount shortly after agreement is reached.

As a result of our adoption of FIN 48 Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109 (FIN 48) on October 1, 2007 our gross liability for unrecognized tax benefits was approximately \$2.5 million including approximately \$0.2 million of accrued interest and penalties. The gross liability as of December 31, 2007 was \$2.6 million, including \$0.2 million of accrued interest and penalties. We estimate that approximately \$1.5 million of this amount may be paid within the next two years and we are currently unable to reasonably estimate the amount or timing of payments for the remainder of the liability.

Financial Instruments

As of December 31, 2007, we have a \$100 million interest rate swap outstanding. The interest rate swap was entered into in conjunction with a term loan on March 31, 2006. The interest rate swap was designated as a cash flow hedge, and change in the fair value of this cash flow hedge is recorded in stockholders equity as a component of accumulated other comprehensive income (loss). The interest rate swap has resulted in cumulative losses of \$1.6 million as of December 31, 2007. These losses are included in other liabilities.

Off-Balance Sheet Arrangements

Through December 31, 2007, we have not entered into any off balance sheet arrangements or transactions with unconsolidated entities or other persons.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In December 2007, the FASB issued SFAS 141 (revised), Business Combinations, (SFAS 141R). The standard changes the accounting for business combinations including the measurement of acquirer shares issued in consideration for a business combination, the recognition of contingent consideration, the accounting for preacquisition gain and loss contingencies, the recognition of capitalized in-process research and development, the accounting for acquisition-related restructuring cost accruals, the treatment of acquisition related transaction costs and the recognition of changes in the acquirer's income tax valuation allowance. SFAS 141R is effective for fiscal years beginning after December 15, 2008, with early adoption prohibited.

Table of Contents

In February 2007, the FASB issued SFAS 159, *The Fair Value Option for Financial Assets and Financial Liabilities*. SFAS 159 has as its objective to reduce both complexity in accounting for financial instruments and volatility in earnings caused by measuring related assets and liabilities differently. It also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. The statement is effective for fiscal years beginning after November 15, 2007, with early adoption permitted provided that the entity makes that choice in the first 120 days of that fiscal year. We are evaluating the impact, if any, that SFAS 159 may have on our consolidated financial statements.

In September 2006, the FASB issued SFAS 157, *Fair Value Measurements*. SFAS 157 establishes a framework for measuring fair value and expands fair value measurement disclosures. SFAS 157 is effective for fiscal years beginning after November 15, 2007. We are evaluating the impact, if any, that SFAS 157 may have on our consolidated financial statements.

In July 2006, the FASB issued Interpretation 48, *Accounting for Uncertainty in Income Taxes* an Interpretation of FASB Statement No. 109, (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS 109, *Accounting for Income Taxes*. FIN 48 prescribes the recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. We adopted the provisions of FIN 48 on October 1, 2007. As a result of the implementation of FIN 48, we recognized an adjustment of \$0.9 million in the liability for unrecognized tax benefits. In addition, we reduced our deferred tax assets and valuation allowance each by \$52.0 million primarily with respect to net operating loss and research credit carryforwards that are in excess of applicable limitations related to ownership changes.

As of the adoption date of October 1, 2007, we had \$2.5 million of unrecognized tax benefits. At December 31, 2007, the liability for income taxes associated with uncertain tax positions was \$2.6 million. Included in this amount is approximately \$0.7 million of unrecognized tax benefits, which if recognized, would impact the effective tax rate. The difference between the total amount of unrecognized tax benefits and the amount that would impact the effective tax rate consists of items that would be offset through goodwill. We do not expect a significant change in the amount of unrecognized tax benefits within the next 12 months.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risk from changes in foreign currency exchange rates and interest rates, which could affect operating results, financial position and cash flows. We manage our exposure to these market risks through our regular operating and financing activities and, when appropriate, through the use of derivative financial instruments.

Exchange Rate Sensitivity

We are exposed to changes in foreign currency exchange rates. Any foreign currency transaction, defined as a transaction denominated in a currency other than the U.S. dollar, will be reported in U.S. dollars at the applicable exchange rate. Assets and liabilities are translated into U.S. dollars at exchange rates in effect at the balance sheet date and income and expense items are translated at average rates for the period. The primary foreign currency denominated transactions include revenue and expenses and the resulting accounts receivable and accounts payable balances reflected on our balance sheet. Therefore, the change in the value of the U.S. dollar as compared to foreign currencies will have either a positive or negative effect on our financial position and results of operations. Historically, our primary exposure has related to transactions denominated in the Euro, British Pound, Canadian Dollar, Japanese Yen, Indian Rupee, Israeli New Shekel, and Hungarian Forint.

A 10% appreciation or depreciation in foreign currency exchange rates from the quoted foreign currency exchange rates at December 31, 2007 would not have a material impact on our revenue, operating results or cash flows.

Table of Contents

Occasionally, we have entered into forward exchange contracts to hedge against foreign currency fluctuations. These foreign currency exchange contracts are entered into as economic hedges, but are not designated as hedges for accounting purposes as defined under SFAS 133. The notional contract amount of these outstanding foreign currency exchange contracts was not material at December 31, 2007 and a hypothetical change of 10% in exchange rates would not have a material impact on our financial results. During the three month periods ended December 31, 2007 and 2006, respectively, we recorded foreign exchange losses of \$0.4 million and \$0.1 million, respectively.

Interest Rate Sensitivity

We are exposed to interest rate risk as a result of our significant cash and cash equivalents, and the outstanding debt under the Expanded 2006 Credit Facility.

At December 31, 2007, we held approximately \$323.7 million of cash and cash equivalents primarily consisting of cash and money-market funds and \$0.6 million of short-term marketable securities. Due to the low current market yields and the short-term nature of our investments, a hypothetical change in market rates is not expected to have a material effect on the fair value of our portfolio or results of operations.

At December 31, 2007, our total outstanding debt balance exposed to variable interest rates was \$662 million. To partially offset this variable interest rate exposure, we entered into a \$100 million interest rate swap derivative contract. The interest rate swap is structured to offset period changes in the variable interest rate without changing the characteristics of the underlying debt instrument. A hypothetical change in market rates would have a significant impact on the interest expense and amounts payable relating to the \$562 million of debt that is not offset by the interest rate swap. Assuming a 1.0% change in interest rates, our interest expense would increase \$5.6 million per annum.

Item 4. *Controls and Procedures*

Evaluation of disclosure controls and procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as required by Rule 13a-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective to provide reasonable assurance that we record, process, summarize and report the information we must disclose in reports that we file or submit under the Securities Exchange Act of 1934, as amended, within the time periods specified in the Securities and Exchange Commission's rules and forms.

Changes in internal control over financial reporting

There was no change in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during the fiscal quarter covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 1. *Legal Proceedings*

This information is included in Note 14, Commitments and Contingencies, in the accompanying notes to consolidated financial statements is incorporated herein by reference from Item 1 of Part I hereof.

Item 1A. Risk Factors

You should carefully consider the risks described below when evaluating our company and when deciding whether to invest in our company. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties not presently known to us or that we do not currently believe are important to an investor may also harm our business operations. If any of the events, contingencies, circumstances or conditions

Table of Contents

described in the following risks actually occurs, our business, financial condition or our results of operations could be seriously harmed. If that happens, the trading price of our common stock could decline and you may lose part or all of the value of any of our securities held by you.

Risks Related to Our Business

Our operating results may fluctuate significantly from period to period, and this may cause our stock price to decline.

Our revenue and operating results have fluctuated in the past and are expected to continue to fluctuate in the future. Given this fluctuation, we believe that quarter to quarter comparisons of revenue and operating results are not necessarily meaningful or an accurate indicator of our future performance. As a result, our results of operations may not meet the expectations of securities analysts or investors in the future. If this occurs, the price of our stock would likely decline. Factors that contribute to fluctuations in operating results include the following:

- slowing sales by our distribution and fulfillment partners to their customers, which may place pressure on these partners to reduce purchases of our products;
- volume, timing and fulfillment of customer orders;
- our efforts to generate additional revenue from our portfolio of intellectual property;
- concentration of operations with one manufacturing partner and our inability to control expenses related to the manufacture, packaging and shipping of our boxed software products;
- customers delaying their purchasing decisions in anticipation of new versions of our products;
- customers delaying, canceling or limiting their purchases as a result of the threat or results of terrorism;
- introduction of new products by us or our competitors;
- seasonality in purchasing patterns of our customers;
- reduction in the prices of our products in response to competition or market conditions;
- returns and allowance charges in excess of accrued amounts;
- timing of significant marketing and sales promotions;
- impairment charges against goodwill and other intangible assets;
- delayed realization of synergies resulting from our acquisitions;
- write-offs of excess or obsolete inventory and accounts receivable that are not collectible;
- increased expenditures incurred pursuing new product or market opportunities;
- general economic trends as they affect retail and corporate sales; and

higher than anticipated costs related to fixed-price contracts with our customers.

Due to the foregoing factors, among others, our revenue and operating results are difficult to forecast. Our expense levels are based in significant part on our expectations of future revenue and we may not be able to reduce our expenses quickly to respond to a shortfall in projected revenue. Therefore, our failure to meet revenue expectations would seriously harm our operating results, financial condition and cash flows.

We have grown, and may continue to grow, through acquisitions, which could dilute our existing stockholders.

As part of our business strategy, we have in the past acquired, and expect to continue to acquire, other businesses and technologies. In connection with past acquisitions, we issued a substantial number of shares of our common stock as transaction consideration and also incurred significant debt to finance the cash consideration used for our acquisitions, including our acquisitions of Dictaphone, Focus, BeVocal, VoiceSignal, Tegic and Viacore. We

Table of Contents

may continue to issue equity securities for future acquisitions, which would dilute existing stockholders, perhaps significantly depending on the terms of such acquisitions. We may also incur additional debt in connection with future acquisitions, which, if available at all, may place additional restrictions on our ability to operate our business.

Our ability to realize the anticipated benefits of our acquisitions will depend on successfully integrating the acquired businesses.

Our prior acquisitions required, and our recently completed acquisitions continue to require, substantial integration and management efforts and we expect our pending and future acquisitions to require similar efforts. Acquisitions of this nature involve a number of risks, including:

- difficulty in transitioning and integrating the operations and personnel of the acquired businesses;
- potential disruption of our ongoing business and distraction of management;
- potential difficulty in successfully implementing, upgrading and deploying in a timely and effective manner new operational information systems and upgrades of our finance, accounting and product distribution systems;
- difficulty in incorporating acquired technology and rights into our products and technology;
- unanticipated expenses and delays in completing acquired development projects and technology integration;
- management of geographically remote business units both in the United States and internationally;
- impairment of relationships with partners and customers;
- customers delaying purchases of our products pending resolution of product integration between our existing and our newly acquired products;
- entering markets or types of businesses in which we have limited experience; and
- potential loss of key employees of the acquired business.

As a result of these and other risks, if we are unable to successfully integrate acquired businesses, we may not realize the anticipated benefits from our acquisitions. Any failure to achieve these benefits or failure to successfully integrate acquired businesses and technologies could seriously harm our business.

Accounting treatment of our acquisitions could decrease our net income or expected revenue in the foreseeable future, which could have a material and adverse effect on the market value of our common stock.

Under accounting principles generally accepted in the United States of America, we record the market value of our common stock or other form of consideration issued in connection with the acquisition and the amount of direct transaction costs as the cost of acquiring the company or business. We have allocated that cost to the individual assets acquired and liabilities assumed, including various identifiable intangible assets such as acquired technology, acquired trade names and acquired customer relationships based on their respective fair values. Intangible assets generally will be amortized over a five to ten year period. Goodwill and certain intangible assets with indefinite lives, are not subject to amortization but are subject to an impairment analysis, at least annually, which may result in an impairment charge if the carrying value exceeds its implied fair value. As of December 31, 2007, we had identified intangible assets amounting to approximately \$405 million and goodwill of approximately \$1.3 billion. In addition, purchase

accounting limits our ability to recognize certain revenue that otherwise would have been recognized by the acquired company as an independent business. The combined company may delay revenue recognition or recognize less revenue than we and the acquired company would have recognized as independent companies.

Table of Contents

Our significant debt could adversely affect our financial health and prevent us from fulfilling our obligations under our credit facility and our convertible debentures.

We have a significant amount of debt. As of December 31, 2007, we had a total of \$912.0 million of gross debt outstanding, including \$662.0 million in term loans due in March 2013 and \$250.0 million in convertible debentures which investors may require us to redeem in August 2014. We also have a \$75.0 million revolving credit line available to us through March 2012. As of December 31, 2007, there were \$17.2 million of letters of credit issued under the revolving credit line and there were no other outstanding borrowings under the revolving credit line. Our debt level could have important consequences, for example it could:

require us to use a large portion of our cash flow to pay principal and interest on debt, including the convertible debentures and the credit facility, which will reduce the availability of our cash flow to fund working capital, capital expenditures, acquisitions, research and development expenditures and other business activities;

restrict us from making strategic acquisitions or exploiting business opportunities;

place us at a competitive disadvantage compared to our competitors that have less debt; and

limit, along with the financial and other restrictive covenants in our debt, our ability to borrow additional funds, dispose of assets or pay cash dividends.

Our ability to meet our payment and other obligations under our debt instruments depends on our ability to generate significant cash flow in the future. This, to some extent, is subject to general economic, financial, competitive, legislative and regulatory factors as well as other factors that are beyond our control. We cannot assure you that our business will generate cash flow from operations, or that additional capital will be available to us, in an amount sufficient to enable us to meet our payment obligations under the convertible debentures and our other debt and to fund other liquidity needs. If we are not able to generate sufficient cash flow to service our debt obligations, we may need to refinance or restructure our debt, including the convertible debentures, sell assets, reduce or delay capital investments, or seek to raise additional capital. If we are unable to implement one or more of these alternatives, we may not be able to meet our payment obligations under the convertible debentures and our other debt.

In addition, a substantial portion of our debt bears interest at variable rates. If market interest rates increase, our debt service requirements will increase, which would adversely affect our cash flows. While we have entered into an interest rate swap agreement limiting our exposure for a portion of our debt, the agreement does not offer complete protection from this risk.

Our debt agreements contain covenant restrictions that may limit our ability to operate our business.

The agreement governing our senior credit facility contains, and any of our other future debt agreements may contain, covenant restrictions that limit our ability to operate our business, including restrictions on our ability to:

incur additional debt or issue guarantees;

create liens;

make certain investments;

enter into transactions with our affiliates;

sell certain assets;

redeem capital stock or make other restricted payments;

declare or pay dividends or make other distributions to stockholders; and

merge or consolidate with any entity.

Our ability to comply with these covenants is dependent on our future performance, which will be subject to many factors, some of which are beyond our control, including prevailing economic conditions. As a result of these

Table of Contents

covenants, our ability to respond to changes in business and economic conditions and to obtain additional financing, if needed, may be significantly restricted, and we may be prevented from engaging in transactions that might otherwise be beneficial to us. In addition, our failure to comply with these covenants could result in a default under our debt, which could permit the holders to accelerate our obligation to repay the debt. If any of our debt is accelerated, we may not have sufficient funds available to repay the accelerated debt.

We have a history of operating losses, and may incur losses in the future, which may require us to raise additional capital on unfavorable terms.

We reported net losses of approximately \$15.4 million for the three months ended December 31, 2007 and \$14.0 million, \$22.9 million and \$5.4 million for fiscal years 2007, 2006 and 2005, respectively. We had an accumulated deficit of approximately \$220.5 million at December 31, 2007. If we are unable to achieve and maintain profitability, the market price for our stock may decline, perhaps substantially. We cannot assure you that our revenue will grow or that we will achieve or maintain profitability in the future. If we do not achieve profitability, we may be required to raise additional capital to maintain or grow our operations. The terms of any transaction to raise additional capital, if available at all, may be highly dilutive to existing investors or contain other unfavorable terms, such as a high interest rate and restrictive covenants.

Speech technologies may not achieve widespread acceptance, which could limit our ability to grow our speech business.

We have invested and expect to continue to invest heavily in the acquisition, development and marketing of speech technologies. The market for speech technologies is relatively new and rapidly evolving. Our ability to increase revenue in the future depends in large measure on acceptance of speech technologies in general and our products in particular. The continued development of the market for our current and future speech solutions will also depend on:

- consumer and business demand for speech-enabled applications;
- development by third-party vendors of applications using speech technologies; and
- continuous improvement in speech technology.

Sales of our speech products would be harmed if the market for speech technologies does not continue to develop or develops more slowly than we expect, and, consequently, our business could be harmed and we may not recover the costs associated with our investment in our speech technologies.

The markets in which we operate are highly competitive and rapidly changing and we may be unable to compete successfully.

There are a number of companies that develop or may develop products that compete in our targeted markets. The individual markets in which we compete are highly competitive, and are rapidly changing. Within speech, we compete with AT&T, IBM, Microsoft, and other smaller providers. Within healthcare dictation and transcription, we compete with eScription, Philips Medical, Spheris and other smaller providers. Within imaging, we compete directly with ABBYY, Adobe, eCopy, I.R.I.S. and NewSoft. In speech, some of our partners such as Avaya, Cisco, Edify, Genesys and Nortel develop and market products that can be considered substitutes for our solutions. In addition, a number of smaller companies in both speech and imaging produce technologies or products that are in some markets competitive with our solutions. Current and potential competitors have established, or may establish, cooperative relationships among themselves or with third parties to increase the ability of their technologies to address the needs of our prospective customers.

The competition in these markets could adversely affect our operating results by reducing the volume of the products we license or the prices we can charge. Some of our current or potential competitors, such as Adobe, IBM and Microsoft, have significantly greater financial, technical and marketing resources than we do. These competitors may be able to respond more rapidly than we can to new or emerging technologies or changes in customer requirements. They may also devote greater resources to the development, promotion and sale of their products than we do.

Table of Contents

Some of our customers, such as IBM and Microsoft, have developed or acquired products or technologies that compete with our products and technologies. These customers may give higher priority to the sale of these competitive products or technologies. To the extent they do so, market acceptance and penetration of our products, and therefore our revenue, may be adversely affected. Our success will depend substantially upon our ability to enhance our products and technologies and to develop and introduce, on a timely and cost-effective basis, new products and features that meet changing customer requirements and incorporate technological advancements. If we are unable to develop new products and enhance functionalities or technologies to adapt to these changes, or if we are unable to realize synergies among our acquired products and technologies, our business will suffer.

The failure to successfully maintain the adequacy of our system of internal control over financial reporting could have a material adverse impact on our ability to report our financial results in an accurate and timely manner.

The SEC, as directed by Section 404 of the Sarbanes-Oxley Act of 2002, adopted rules requiring public companies to include a report of management on internal control over financial reporting in their annual reports on Form 10-K that contain an assessment by management of the effectiveness of the Company's internal control over financial reporting. In addition, our independent registered public accounting firm must attest to and report on management's assessment of the effectiveness of the internal control over financial reporting. Any failure in the effectiveness of our system of internal control over financial reporting could have a material adverse impact on our ability to report our financial statements in an accurate and timely manner which could result in an adverse reaction in the financial marketplace due to a loss of investor confidence in the reliability of our financial statements, which ultimately could negatively impact our stock price.

A significant portion of our revenue and a significant portion of our research and development are based outside the United States. Our results could be harmed by economic, political, regulatory and other risks associated with these international regions.

Because we operate worldwide, our business is subject to risks associated with doing business internationally. We anticipate that revenue from international operations will increase in the future. Reported international revenue, classified by the major geographic areas in which our customers are located, represented approximately \$54.9 million, 28% of our total revenue, for the three months ended December 31, 2007, and \$130.4 million, \$100.2 million and \$71.5 million, representing 22%, 26%, and 31% of our total revenue, respectively, for fiscal 2007, 2006 and 2005, respectively. Most of our international revenue is generated by sales in Europe and Asia. In addition, some of our products are developed and manufactured outside the United States. A significant portion of the development and manufacturing of our speech products are completed in Belgium, and a significant portion of our imaging research and development is conducted in Hungary. In connection with prior acquisitions we have added research and development resources in Aachen, Germany and Montreal, Canada. Accordingly, our future results could be harmed by a variety of factors associated with international sales and operations, including:

changes in a specific country's or region's economic conditions;

geopolitical turmoil, including terrorism and war;

trade protection measures and import or export licensing requirements imposed by the United States or by other countries;

compliance with foreign and domestic laws and regulations;

negative consequences from changes in applicable tax laws;

difficulties in staffing and managing operations in multiple locations in many countries;

difficulties in collecting trade accounts receivable in other countries; and

less effective protection of intellectual property than in the United States.

Table of Contents

We are exposed to fluctuations in foreign currency exchange rates.

Because we have international subsidiaries and distributors that operate and sell our products outside the United States, we are exposed to the risk of changes in foreign currency exchange rates or declining economic conditions in these countries. In certain circumstances, we have entered into forward exchange contracts to hedge against foreign currency fluctuations on intercompany balances with our foreign subsidiaries. We use these contracts to reduce our risk associated with exchange rate movements, as the gains or losses on these contracts are intended to offset any exchange rate losses or gains on the hedged transaction. We do not engage in foreign currency speculation. Forward exchange contracts hedging firm commitments qualify for hedge accounting when they are designated as a hedge of the foreign currency exposure and they are effective in minimizing such exposure. With our increased international presence in a number of geographic locations and with international revenue projected to increase, we are exposed to changes in foreign currencies including the Euro, British Pound, Canadian Dollar, Japanese Yen, Israeli New Shekel, Indian Rupee and the Hungarian Forint. Changes in the value of the Euro or other foreign currencies relative to the value of the U.S. dollar could adversely affect future revenue and operating results.

Impairment of our intangible assets could result in significant charges that would adversely impact our future operating results.

We have significant intangible assets, including goodwill and intangibles with indefinite lives, which are susceptible to valuation adjustments as a result of changes in various factors or conditions. The most significant intangible assets are patents and core technology, completed technology, customer relationships and trademarks. Customer relationships are amortized on an accelerated basis based upon the pattern in which the economic benefit of customer relationships are being utilized. Other identifiable intangible assets are amortized on a straight-line basis over their estimated useful lives. We assess the potential impairment of identifiable intangible assets on an annual basis, as well as whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors that could trigger an impairment of such assets, include the following:

significant underperformance relative to historical or projected future operating results;

significant changes in the manner of or use of the acquired assets or the strategy for our overall business;

significant negative industry or economic trends;

significant decline in our stock price for a sustained period;

changes in our organization or management reporting structure could result in additional reporting units, which may require alternative methods of estimating fair values or greater disaggregation or aggregation in our analysis by reporting unit; and

a decline in our market capitalization below net book value.

Future adverse changes in these or other unforeseeable factors could result in an impairment charge that would impact our results of operations and financial position in the reporting period identified. As of December 31, 2007, we had identified intangible assets amounting to approximately \$405 million and goodwill of approximately \$1.3 billion.

We depend on limited or sole source suppliers for critical components of our healthcare-related products. The inability to obtain sufficient components as required, and under favorable purchase terms, could harm our business.

We are dependent on certain suppliers, including limited and sole source suppliers, to provide key components used in our healthcare-related products. We have experienced, and may continue to experience, delays in component deliveries, which in turn could cause delays in product shipments and require the redesign of certain products. In addition, if we are unable to procure necessary components under favorable purchase terms, including at favorable prices and with the order lead-times needed for the efficient and profitable operation of our business, our results of operations could suffer.

Table of Contents

Our sales to government clients subject us to risks including early termination, audits, investigations, sanctions and penalties.

We derive revenue from contracts with the United States government, as well as various state and local governments, and their respective agencies. Our sales to government agencies have increased as a result of our recent acquisition of Viecore and our prior acquisition of Dictaphone. Government contracts are generally subject to audits and investigations which could identify violations of these agreements. Government contract violations could result in the imposition of civil and criminal penalties or sanctions, contract termination, forfeiture of profit and/or suspension of payment, any of which could make us lose our status as an eligible government contractor. We could also suffer serious harm to our reputation, if we were found to have violated the terms of our government contracts.

If we are unable to attract and retain key personnel, our business could be harmed.

If any of our key employees were to leave, we could face substantial difficulty in hiring qualified successors and could experience a loss in productivity while any successor obtains the necessary training and experience. Our employment relationships are generally at-will and we have had key employees leave in the past. We cannot assure you that one or more key employees will not leave in the future. We intend to continue to hire additional highly qualified personnel, including software engineers and operational personnel, but may not be able to attract, assimilate or retain qualified personnel in the future. Any failure to attract, integrate, motivate and retain these employees could harm our business.

Our medical transcription services may be subject to legal claims for failure to comply with laws governing the confidentiality of medical records.

Healthcare professionals who use our medical transcription services deliver to us health information about their patients including information that constitutes a record under applicable law that we may store on our computer systems. Numerous federal and state laws and regulations, the common law and contractual obligations govern collection, dissemination, use and confidentiality of patient-identifiable health information, including:

state and federal privacy and confidentiality laws;

our contracts with customers and partners;

state laws regulating healthcare professionals;

Medicaid laws; and

the Health Insurance Portability and Accountability Act of 1996 and related rules proposed by the Health Care Financing Administration.

The Health Insurance Portability and Accountability Act of 1996 establishes elements including, but not limited to, federal privacy and security standards for the use and protection of protected health information. Any failure by us or by our personnel or partners to comply with applicable requirements may result in a material liability to the Company. Although we have systems and policies in place for safeguarding protected health information from unauthorized disclosure, these systems and policies may not preclude claims against us for alleged violations of applicable requirements. There can be no assurance that we will not be subject to liability claims that could have a material adverse affect on our business, results of operations and financial condition.

Risks Related to Our Intellectual Property and Technology

Unauthorized use of our proprietary technology and intellectual property could adversely affect our business and results of operations.

Our success and competitive position depend in large part on our ability to obtain and maintain intellectual property rights protecting our products and services. We rely on a combination of patents, copyrights, trademarks, service marks, trade secrets, confidentiality provisions and licensing arrangements to establish and protect our intellectual property and proprietary rights. Unauthorized parties may attempt to copy aspects of our products or to

Table of Contents

obtain, license, sell or otherwise use information that we regard as proprietary. Policing unauthorized use of our products is difficult and we may not be able to protect our technology from unauthorized use. Additionally, our competitors may independently develop technologies that are substantially the same or superior to our technologies and that do not infringe our rights. In these cases, we would be unable to prevent our competitors from selling or licensing these similar or superior technologies. In addition, the laws of some foreign countries do not protect our proprietary rights to the same extent as the laws of the United States. Although the source code for our proprietary software is protected both as a trade secret and as a copyrighted work, litigation may be necessary to enforce our intellectual property rights, to protect our trade secrets, to determine the validity and scope of the proprietary rights of others, or to defend against claims of infringement or invalidity. Litigation, regardless of the outcome, can be very expensive and can divert management efforts.

Third parties have claimed and may claim in the future that we are infringing their intellectual property, and we could be exposed to significant litigation or licensing expenses or be prevented from selling our products if such claims are successful.

From time to time, we are subject to claims that we or our customers may be infringing or contributing to the infringement of the intellectual property rights of others. We may be unaware of intellectual property rights of others that may cover some of our technologies and products. If it appears necessary or desirable, we may seek licenses for these intellectual property rights. However, we may not be able to obtain licenses from some or all claimants, the terms of any offered licenses may not be acceptable to us, and we may not be able to resolve disputes without litigation. Any litigation regarding intellectual property could be costly and time-consuming and could divert the attention of our management and key personnel from our business operations. In the event of a claim of intellectual property infringement, we may be required to enter into costly royalty or license agreements. Third parties claiming intellectual property infringement may be able to obtain injunctive or other equitable relief that could effectively block our ability to develop and sell our products.

On May 31, 2006, GTX Corporation filed an action against us in the United States District Court for the Eastern District of Texas claiming patent infringement. Damages were sought in an unspecified amount. In the lawsuit, GTX Corporation alleged that we are infringing United States Patent No. 7,016,536 entitled Method and Apparatus for Automatic Cleaning and Enhancing of Scanned Documents. We believe these claims have no merit and intend to defend the action vigorously.

On November 27, 2002, AllVoice Computing plc filed an action against us in the United States District Court for the Southern District of Texas claiming patent infringement. In the lawsuit, AllVoice Computing plc alleges that we are infringing United States Patent No. 5,799,273 entitled Automated Proofreading Using Interface Linking Recognized Words to their Audio Data While Text is Being Changed. Such patent generally discloses techniques for manipulating audio data associated with text generated by a speech recognition engine. Although we have several products in the speech recognition technology field, we believe that our products do not infringe AllVoice Computing plc's patent because, in addition to other defenses, we do not use the claimed techniques. Damages are sought in an unspecified amount. We filed an Answer on December 23, 2002. The United States District Court for the Southern District of Texas entered summary judgment against AllVoice Computing plc and dismissed all claims against us on February 21, 2006. AllVoice Computing plc filed a notice of appeal from this judgment on April 26, 2006. On October 12, 2007, the U.S. Court of Appeals for the Federal Circuit reversed and remanded the summary judgment. We believe these claims have no merit and intend to defend the action vigorously.

We believe that the final outcome of the current litigation matters described above will not have a significant adverse effect on our financial position and results of operations. However, even if our defense is successful, the litigation could require significant management time and could be costly. Should we not prevail in these litigation matters, we may be unable to sell and/or license certain of our technologies which we consider to be proprietary, and our operating

results, financial position and cash flows could be adversely impacted.

Table of Contents

Our software products may have bugs, which could result in delayed or lost revenue, expensive correction, liability to our customers and claims against us.

Complex software products such as ours may contain errors, defects or bugs. Defects in the solutions or products that we develop and sell to our customers could require expensive corrections and result in delayed or lost revenue, adverse customer reaction and negative publicity about us or our products and services. Customers who are not satisfied with any of our products may also bring claims against us for damages, which, even if unsuccessful, would likely be time-consuming to defend, and could result in costly litigation and payment of damages. Such claims could harm our reputation, financial results and competitive position.

Risks Related to our Corporate Structure, Organization and Common Stock

The holdings of our two largest stockholders may enable them to influence matters requiring stockholder approval.

On March 19, 2004, Warburg Pincus, a global private equity firm agreed to purchase all outstanding shares of our stock held by Xerox Corporation for approximately \$80.0 million. Additionally, on May 9, 2005 and September 15, 2005 we sold shares of common stock, and warrants to purchase common stock to Warburg Pincus for aggregate gross proceeds of approximately \$75.1 million. As of December 31, 2007, Warburg Pincus beneficially owned approximately 19% of our outstanding common stock, including warrants exercisable for up to 7,066,538 shares of our common stock and 3,562,238 shares of our outstanding Series B Preferred Stock, each of which is convertible into one share of our common stock. As of December 31, 2007, Fidelity was our second largest stockholder, owning approximately 6% of our common stock. Because of their large holdings of our capital stock relative to other stockholders, each of these two stockholders acting individually, or together, have a strong influence over matters requiring approval by our stockholders.

The market price of our common stock has been and may continue to be subject to wide fluctuations, and this may make it difficult for you to resell the common stock when you want or at prices you find attractive.

Our stock price historically has been, and may continue to be, volatile. Various factors contribute to the volatility of the stock price, including, for example, quarterly variations in our financial results, new product introductions by us or our competitors and general economic and market conditions. Sales of a substantial number of shares of our common stock by our two largest stockholders, or the perception that such sales could occur, could also contribute to the volatility of our stock price. While we cannot predict the individual effect that these factors may have on the market price of our common stock, these factors, either individually or in the aggregate, could result in significant volatility in our stock price during any given period of time. Moreover, companies that have experienced volatility in the market price of their stock often are subject to securities class action litigation. If we were the subject of such litigation, it could result in substantial costs and divert management's attention and resources.

Compliance with changing regulation of corporate governance and public disclosure may result in additional expenses.

Changing laws, regulations and standards relating to corporate governance and public disclosure, including the Sarbanes-Oxley Act of 2002, new regulations promulgated by the Securities and Exchange Commission and the rules of The Nasdaq Global Select Market, are resulting in increased general and administrative expenses for companies such as ours. These new or changed laws, regulations and standards are subject to varying interpretations in many cases, and as a result, their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies, which could result in higher costs necessitated by ongoing revisions to disclosure and governance practices. We are committed to maintaining high standards of corporate governance and public disclosure. As a result, we intend to invest resources to comply with evolving laws, regulations and standards, and this investment

may result in increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities. If our efforts to comply with new or changed laws, regulations and standards differ from the activities intended by regulatory or governing bodies, our business may be harmed.

Table of Contents

Future sales of our common stock in the public market could adversely affect the trading price of our common stock and our ability to raise funds in new stock offerings.

Future sales of substantial amounts of our common stock in the public market, or the perception that such sales could occur, could adversely affect prevailing trading prices of our common stock and could impair our ability to raise capital through future offerings of equity or equity-related securities. In connection with past acquisitions, we issued a substantial number of shares of our common stock as transaction consideration. We may continue to issue equity securities for future acquisitions, which would dilute existing stockholders, perhaps significantly depending on the terms of such acquisitions. For example, we issued, and registered for resale, approximately 7,300,000 shares of our common stock in connection with our acquisitions of Commissure, Vocada and Viecore. No prediction can be made as to the effect, if any, that future sales of shares of common stock or the availability of shares of common stock for future sale, will have on the trading price of our common stock.

We have implemented anti-takeover provisions, which could discourage or prevent a takeover, even if an acquisition would be beneficial to our stockholders.

Provisions of our certificate of incorporation, bylaws and Delaware law, as well as other organizational documents could make it more difficult for a third party to acquire us, even if doing so would be beneficial to our stockholders. These provisions include:

- authorized blank check preferred stock;
- prohibiting cumulative voting in the election of directors;
- limiting the ability of stockholders to call special meetings of stockholders;
- requiring all stockholder actions to be taken at meetings of our stockholders; and
- establishing advance notice requirements for nominations of directors and for stockholder proposals.

Item 2. *Unregistered Sales of Equity Securities and Use of Proceeds*

None.

Item 3. *Defaults Upon Senior Securities*

None.

Item 4. *Submission of Matters to a Vote of Security Holders*

None.

Item 5. *Other Information*

None.

Item 6. *Exhibits*

The exhibits listed on the Exhibit Index hereto are filed or incorporated by reference (as stated therein) as part of this Quarterly Report on Form 10-Q.
