REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Administrative Committee of the
RadioShack 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of the RadioShack 401(k) Plan as of June 30, 2013 and 2012 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the RadioShack 401(k) Plan as of June 30, 2013 and 2012, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Form 5500 Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

RADIOSHACK 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of the RadioShack 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Summary Plan Description, which also constitutes the Plan’s prospectus, for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution employee benefit plan covering eligible employees of RadioShack Corporation, its divisions and subsidiaries (the “Company” or “RadioShack”). The Plan is an individual account plan with multiple, participant-directed investment options and conforms to and qualifies under Section 401 of the Internal Revenue Code (the “Code”), as amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

At June 30, 2013 and 2012, there were 2,976 and 3,003 employees of the Company participating in the Plan and 14,616 and 14,086 employees eligible to participate, respectively. The Plan is fully participant directed, and available investments consist of RadioShack common stock, registered investment companies and money market funds.

Administration

The Plan is administered by an Administrative Committee appointed by the Board of Directors of the Company. The Company’s Board of Directors has appointed Wells Fargo Bank, National Association (“Wells Fargo”) as the Plan’s trustee.

Eligibility

An employee is eligible to participate in the Plan immediately such that an employee’s entry date shall be as soon as practicable following the employment date. For the purpose of Company matching contributions, an employee shall become a participant on the payroll period following the date on which the employee completes one year of service. A “year of service” means a consecutive twelve month period during which he or she completes at least 1,000 hours of service with RadioShack. An “hour of service” is each hour for which one is entitled to be paid by the Company (1) for the performance of duties, (2) due to vacation, holiday, illness, incapacity (including disability), layoff, jury duty, or other similar reason, or (3) as back pay either awarded or agreed to by the Company.

Participant Contributions

Through authorized payroll deductions, participants may contribute, on a pre-tax basis, up to 75%, in increments of 1%, of their annual compensation. During the Plan year ended June 30, 2013, in accordance with the provisions of the Code, participants generally could not elect more than \$17,500 in pre-tax contributions during the 2013 calendar year. Participants who were age 50 and over in 2013 were permitted to contribute additional “catch-up” contributions of up to \$5,500 during the calendar year.

Participants may direct their contributions into various investment options. Participants may elect to allocate their total contributions to the various investment options in increments of 1% and may change their investment options daily, subject to certain restrictions on such changes imposed by the Plan’s investment funds.

Participants are not subject to federal income taxation on their contributions and earnings on Plan investments until withdrawn from the Plan.

Distributions from another qualified plan can be transferred into the Plan. During the Plan years ended June 30, 2013 and 2012, rollover accounts in the amount of \$635,124 and \$351,765, respectively, were transferred into the Plan and are included in participant contributions on the statements of changes in net assets available for benefits.

Company Contributions

All Company contributions are discretionary and may change or be suspended in future years. Through June 30, 2013, the Company contributed an amount to each participant's account maintained under the Plan equal to 100% of the participant's contributions up to 4% of his or her annual compensation. Company contributions are made directly to the Plan, are made in cash, and are invested in accordance with the Plan.

Participant Accounts

Each participant's account is credited or debited with the participant's contribution and allocations of (1) the Company's discretionary matching contribution, and (2) Plan earnings or losses. Allocations are based on the participant's contribution or number of shares held, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Effective July 1, 2006, active participants own 100% of the balance in their Plan accounts, including their matching account.

Benefits Paid to Participants

Participants who withdraw from the Plan may receive the vested portion of their accounts under one of four withdrawal methods summarized as follows:

- (a) Single lump sum payment in cash;
- (b) Part cash and part securities;
- (c) If account balance exceeds \$5,000, monthly installments not to exceed ten years; or
- (d) A direct rollover to an eligible retirement plan.

Forfeited Accounts

Forfeited amounts include non-vested accounts of terminated participants (prior to July 1, 2006) and unclaimed benefit payments as described in the Plan document. Forfeitures are used to reduce employer contributions. A total of \$1,700 and \$19,100 was forfeited and used to offset employer contributions for the Plan year ended June 30, 2013 and 2012, respectively. At June 30, 2013 and 2012, unallocated forfeited balances were insignificant.

Loans to Participants

The Plan may make a loan to a participant in an amount that is not less than \$1,000 and, when added to the outstanding balance of all other loans to the participant under the Plan, does not exceed the lesser of \$50,000 or 50% of the value of the participant's vested account. As of July 1, 2009, participants may not have more than two loans outstanding at any one time, provided however, they may have more than two but not more than four loans outstanding on or after July 1, 2009, if those loans were outstanding on June 30, 2009. Effective June 1, 2013, participants may not have more than one loan outstanding at a time, provided however, they have no more than one loan but no more than four loans if the loans were outstanding on or after October 31, 2009 or two loans outstanding if the loans were outstanding under the Plan on May 31, 2013. Additionally, no loan may exceed an amount that would cause the total of principal and interest payments on all outstanding loans to exceed 25% of the participant's regular payroll period earnings. Loans are repaid through authorized payroll deductions. The term of the loan must be at least six months (or multiples thereof) and may not exceed five years. The loans are collateralized by the balance in the

participant's vested account and bear interest at rates fixed by the Administrative Committee. The determination of these rates is typically based upon the Prime Rate plus one percent (1%) as published in the Wall Street Journal on the first business day of each month. However, the Administrative Committee may, from time to time in its discretion, utilize other standards to set interest rates and change the rates for loans. For the Plan years ended June 30, 2013 and 2012, interest rates on participant loans ranged from 4.25% to 9.25%, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time, as well as the right to terminate the Plan, subject in each case to the provisions of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value in the accompanying statements of net assets available for benefits. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year end. There are no significant restrictions on redeeming these securities at NAV. Common stock is valued at its closing market price.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date and interest income is recorded on the accrual basis.

The net appreciation in fair value of investments includes realized gains and losses on sales during the year and current year changes in unrealized appreciation in fair value of investments held at year end, less investment management fees.

Fair Value Measurement

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Financial Accounting Standards Board ("FASB") Accounting Standards Codification No. 820("ASC 820"), Fair Value Measurements, establishes a framework for measuring fair value. The framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The highest priority, Level 1, is given to unadjusted quoted prices in active markets for identical assets or liabilities. The lowest priority, Level 3, is assigned to unobservable inputs. The three levels are described as follows:

Level 1. Inputs are unadjusted quoted prices for identical assets or liabilities in active markets. Level 1 assets within the Plan are valued at the published price in active markets (NYSE, NASDAQ, or the Chicago Board of Trade).

Level 2. Inputs include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; and inputs other than quoted prices that are observable for the asset or liability. At June 30, 2013 and 2012, none of the Plan assets were considered Level 2 investments.

Level 3. Valuation inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. At June 30, 2013 and 2012, none of the Plan assets were considered Level 3 investments.

The calculations described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Below are the Plan's financial instruments carried at fair value on a recurring basis at June 30, 2013 and 2012.

	June 30, 2013	
	Level 1	Total
Money market funds	\$21,154,478	\$21,154,478
Mutual funds		
International funds	10,756,611	10,756,611
Growth funds	63,451,424	63,451,424
Target date funds	78,520,107	78,520,107
Index funds	13,066,233	13,066,233
Fixed income funds	14,692,068	14,692,068
Common stock - RadioShack Corporation	11,251,398	11,251,398
Total investments	\$212,892,319	\$212,892,319

	June 30, 2012	
	Level 1	Total
Money market funds	\$22,342,674	\$22,342,674
Mutual funds		
International funds	9,930,192	9,930,192
Growth funds	58,207,458	58,207,458
Target date funds	73,562,769	73,562,769
Index funds	9,672,368	9,672,368
Fixed income funds	14,673,009	14,673,009
Common stock - RadioShack Corporation	12,534,202	12,534,202
Total investments	\$200,922,672	\$200,922,672

Concentration, Market and Credit Risk

The Plan provides for investment alternatives in a variety of stock, registered investment companies, and other investment securities. Investments are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the Plan's statement of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies. These investments involve special risks not typically associated with investments in the securities of United States companies. Those risks include currency fluctuation, less reliable information about the issuers of securities, and possibly adverse political and economic developments.

At June 30, 2013 and 2012, approximately 5% and 6% respectively of the investments of the Plan consisted of securities of its sponsor, RadioShack Corporation. On December 20, 2013, the Company's stock price closed at \$2.62. On June 28, 2013, and June 29, 2012, the Company's stock price closed at \$3.16 and \$3.84, respectively.

Benefits Paid to Participants

Benefits paid to participants are recorded when paid.

Reclassifications

Certain prior year amounts related to the classification of investments in common collective trusts have been reclassified as money market funds to conform to the current year presentation.

Notes Receivable from Participants

Notes receivable from participant loans are recorded at the unpaid principal balance.

Administrative Expenses

Wells Fargo is responsible for both the management and recordkeeping of the Plan's assets. Any administrative expenses of the Plan paid directly to Wells Fargo by the Company are not a component of the changes in net assets available for Plan benefits. Administrative expenses paid by participants are summarized in the accompanying statements of changes in net assets available for benefits, and include loan origination, investment trading, and withdrawal processing fees.

New Accounting Standards

In May 2011, the FASB issued Accounting Standards Update (“ASU”) 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in GAAP and International Financial Reporting Standards (“IFRS”). ASU 2011-04 amended ASC 820, Fair Value Measurements, to converge the fair value measurement guidance in GAAP and IFRS. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. Also, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2012. The adoption of ASU 2011-04 did not have a material effect on the Plan’s financial statements.

3. Plan Investments

The following table presents the individual investments that exceeded 5% or more of the Plan’s net assets at June 30, 2013 and 2012.

	June 30	
	2013	2012
	Fair Value	Fair Value
Harbor Capital Appreciation Fund	\$33,004,219	\$32,424,246
WFA Heritage Money Market Fund	21,154,478	20,017,113
T. Rowe Price Retirement 2025 Fund	18,337,611	15,901,561
T. Rowe Price Retirement 2020 Fund	15,793,305	14,078,077
PIMCO Total Return Fund	13,850,753	14,673,009
Vanguard Institutional Index Fund	12,374,797	*
RadioShack Corporation Common Stock	11,251,398	12,534,202
T. Rowe Price Retirement 2015 Fund	*	10,723,336

*Investment did not exceed 5% or more of the Plan’s net assets

During the Plan year ended June 30, 2013, the Plan’s investments (including gains and losses on investments bought and sold, as well as held during the period) appreciated (depreciated) in value by \$20,191,587 as follows:

	June 30	
	2013	2012
Common stock	\$(2,200,788)	\$(28,480,120)
Registered investment companies	22,392,375	(566,966)
	\$20,191,587	\$(29,047,086)

4. Tax Status of the Plan

The Plan has received a determination letter from the Internal Revenue Service dated September 12, 2013. Once qualified, the Plan is required to operate in conformity with the code to maintain its qualification. The Company believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Also, the Administrative Committee believes the Plan is currently operating in compliance with the applicable requirements of the Code. Accordingly, employee contributions, employer contributions, and investment earnings of the Plan are not taxable to participants until distributed.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of June 30, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2009.

5. Related Party/Parties-in-Interest Transactions

The Plan makes loans to Plan participants and also invests in shares of a money market fund managed by the recordkeeper; therefore, these transactions qualify as party-in-interest. In addition, the Plan invests in the common stock of the Company. At June 30, 2013 and 2012, the Plan held 3,560,569 and 3,264,115 shares of common stock of the Company. These amounts represented approximately 5% and 6%, respectively, of the Plan's total investments and approximately 3% of the outstanding common shares of the Company at both dates.

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer where employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee organizations or relatives of such persons.

6. Subsequent Events

As of December 23, 2013, there were no subsequent events.
