FIRST EQUITY PROPERTIES, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 1. ORGANIZATION AND BASIS OF PRESENTATION

Organization

First Equity Properties Inc. (“FEPI”) is a Nevada based corporation organized in December 19, 1996 and the company is headquartered in Dallas, TX. FEPI is a publicly traded company however, no trading market presently exists for the shares of common stock and its value is therefore not determinable.

The Company’s principal line of business and source of revenue has been earnings on investment and interest on notes receivable. However, during 2010 and 2011 the Company purchased certain parcels of land and has since engaged in the business of investing in real estate for potential future sale or development. On April 1, 2012 the Company sold all of its land parcels to a related party and is no longer in the business of investing in land.

Basis of presentation

The accompanying unaudited financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures normally included in the unaudited financial statements prepared in accordance with accounting principles generally accepted in the United States, or GAAP, have been condensed or omitted in accordance with such rules and regulations, although management believes the disclosures are adequate to prevent the information presented from being misleading. In the opinion of management, all adjustments (consisting of normal recurring matters) considered necessary for a fair presentation have been included. Certain 2011 balances have been reclassified to conform to the 2012 presentation.

The year-end Balance Sheet at December 31, 2011, was derived from the audited financial statements at that date, but does not include all of the information and disclosures required by GAAP for complete financial statements. For further information, refer to the financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2011.

Cost capitalization

Costs related to planning and developing a project are capitalized and classified as Real Estate development costs in the Consolidated Balance Sheets. We capitalized certain operating expenses until development is substantially complete, but no later than one year from the cessation of major development activity.

Newly issued accounting pronouncements

We have considered all other newly issued accounting guidance that are applicable to our operations and the preparation of our statements, including that which we have not yet adopted. We do not believe that any such guidance will have a material effect on our financial position or results of operation.

NOTE 2. REAL ESTATE ACTIVITY

As of December 31, 2011, the Company owned, through its subsidiary, Kelly Lot Development, Inc. (“KLD”) various parcels of undeveloped land which consisted of approximately 7.53 acres of Kelly Lots Land located in Farmers

Branch, TX, approximately 6.916 acres of Vineyard Land located in Grapevine, TX approximately 5.618 acres and 6.25 acres of Nashville Land located in Nashville, TN, approximately 3.028 acres of Seminary West Land located in Fort Worth, Texas, 6.796 acres of Travis Ranch Land located in Kaufman County, Texas and approximately 23.237 acres known as Cooks Lane located in Fort Worth, TX.

In June 2012, the Company determined that it would not have adequate funding to properly develop these raw land parcels and entered into a contract to sell Kelly Lot Development effective April 1, 2012 to Tacco Financial, Inc (“TFI”) a related party for \$5,576,494 comprised of \$4,120,300 of debt reduction and the assumption of third party debt. The transaction resulted in \$259,071 of gain on sale. With the disposition of Kelly Lot Development the Company no longer has any land holdings.

NOTE 3. FEDERAL INCOME TAXES

The Company accounts for income taxes in accordance with Accounting Standards Codification, (“ASC”) No. 740, “Accounting for Income Taxes”. ASC 740 requires an asset and liability approach to financial accounting for income taxes. In the event differences between the financial reporting basis and the tax basis of the Company’s assets and liabilities result in deferred tax assets, ASC 740 requires an evaluation of the probability of being able to realize the future benefits indicated

Recognition of the benefits of deferred tax assets will require the Company to generate future taxable income. There is no assurance that the Company will generate earnings in future years.

NOTE 4. LEASES

On September 18, 2008, the Company entered into a long-term lease commitment with Income Opportunity Realty Investors, Inc., a related party. The lease was for 4,288 square feet of commercial space at the Hickory One Office building, located in Farmers Branch, Texas. The base rent consisted of monthly installments of \$5,717 per month for a period of three years. The lease commenced on November 1, 2008 and extended through October 31, 2011. This lease has been terminated retroactive to June 30, 2010 by mutual agreement of the Company and the building’s owner. Based on this agreement, the owner has agreed to reimburse the Company for rents paid after the effective termination date. The Company has recorded a note receivable from the owner in the amount of \$45,739.

NOTE 5. RELATED PARTIES TRANSACTIONS

Transactions involving related parties cannot be presumed to be carried out on an arm’s length basis due to the absence of free market forces that naturally exist in business dealings between two or more unrelated entities. Related party transactions may not always be favorable to our business and may include terms, conditions and agreements that are not necessarily beneficial to or in best interest of our company.

The Company has an administrative agreement with Pillar Income Asset Management, Inc., an affiliated entity, for accounting and administrative services. The total expense of the nine months ended September 30, 2012 was \$22,500 which is included in General and Administrative expenses of the Consolidated Statements of Operations.

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. We caution investors that any forward-looking statements presented in this report, or which management may make orally or in writing from time to time, are based on beliefs and assumptions made by, and information currently available to, management. We caution you that while forward-looking statements reflect our good-faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. Accordingly, investors should use caution

in relying on forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

In June 2012, the Company determined that it would not have adequate funding to properly develop these raw land parcels and entered into a contract to sell Kelly Lot Development effective April 1, 2012 to Tacco Financial, Inc (“TFI”) a related party for \$5,576,494 comprised of \$4,120,300 of debt reduction and the assumption of third party debt. The transaction resulted in \$259,071 of gain on sale. With the disposition of Kelly Lot Development the Company no longer has any land holdings.

Results of Operations

The following discussion is based on our Statement of Operations within our Financial Statements as presented in Part 1, Item 1 of this report for the nine months ended September 30, 2012 and 2011. The discussion is not meant to be an all inclusive discussion of the changes within our operations. Instead, we have focused on the significant items relevant to obtain an understanding of the changes in our operations.

The results of operations for the nine months ended September 30, 2012, are not necessarily indicative of the results that may be expected for other interim periods or for the full fiscal year.

Our primary source of income is from the interest received on affiliated receivables. The principal balances on those receivables have been consistent for the past years, thus making our revenues consistent from year to year. Expenses are primarily related to professional and administrative fees and interest on affiliated notes.

Comparison of the three months ended September 30, 2012 to the same period ended 2011.

We reported net income applicable to common shareholders of \$31,547 for the three months ended September 30, 2012 as compared to a net income to common shareholders of (\$6,176) for the same period ended 2011.

This change from net loss to net income was primarily due to no rent being recorded in 2012 since the lease was cancelled and the reduction in interest expense due to the sale of Kelly Lot Development as compared to the period ended 2011.

Comparison of the nine months ended September 30, 2012 to the same period ended 2011.

We reported net income applicable to common shareholders of \$197,376 for the nine months ended September 30, 2012 as compared to a net loss to common shareholders of (\$150,651) for the same period ended 2011.

This change from net loss to net income was primarily due to no rent being recorded in 2012 since the lease was cancelled and the reduction in interest expense due to the land sales and recognition of a gain from the sale of the land parcels as compared to the period ended 2011.

Liquidity and Capital Resources

General

Our principal liquidity needs for the next twelve months are funding of normal recurring expenses including interest expense and legal and administrative fees.

Our principal source of cash is proceeds from interest income on our notes receivables.

The following significantly impacted our balance sheet as of September 30, 2012:

- Our real estate land holdings decreased due to the sale of Kelly Lot Development.

Our accounts payable, notes payable and accrued interest – affiliates decreased due to the sale of Kelly Lot Development.

- Our notes payable – third party lender decreased due to the sale of Kelly Lot Development.

- We recognized a gain on the sale due to the sale of Kelly Lot Development to a related party.

ITEM 3.

CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures.

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Financial Officer and Acting Principal Executive Officer of the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the Company's Chief Financial Officer and Acting Principal Executive Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting him to material information relating to the Company required to be included in the Company's periodic SEC filings.

(b) Changes in Internal Controls over Financial Reporting.

There have been no changes in the Company's internal controls over financial reporting during the quarter ended September 30, 2012, that have materially affected or are reasonably likely to materially affect the Company's internal controls over financial reporting.
