Carrizo Oil & Gas, Inc. filed a universal shelf registration statement on Form S-3 (the "Registration Statement") with the Securities and Exchange Commission on September 9, 2005. The filing of the Registration Statement is intended to provide us with enhanced flexibility in the public offering of our securities. When declared effective, the Registration Statement will permit us, in one or more offerings from time to time, to offer and sell up to \$250,000,000 aggregate amount of our common stock, preferred stock, warrants, senior debt securities and junior debt securities. We have no current plans to sell our securities covered by the Registration Statement. At the time we offer any of our securities covered by the Registration Statement for sale, we will prepare and file a prospectus supplement containing specific information about the terms of any such offering.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission but has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. This shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any State in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such State. When available, a written prospectus meeting the requirements of Section 10 of the Securities Act of 1933 may be obtained from Carrizo Oil & Gas, Inc., Attention: Investor Relations, 1000 Louisiana Street, Suite 1500, Houston, Texas 77002.

Statements in this report, including but not limited to statements regarding our intent with respect to sales of our securities, effect of the Registration Statement and other statements that are not historical facts are forward looking statements that are based on current expectations. Although the Company believes that its expectations are based on reasonable assumptions, it can give no assurance that these expectations will prove correct. Important factors that could cause actual results to differ materially from those in the forward looking statements include our current plans with respect to future events and financial performance and general market conditions.
