IP TECHNOLOGY SERVICES, INC.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2008 and 2007

(UNAUDITED)

NOTE 1 - NATURE OF OPERATIONS

IP Technology Services, Inc. (IP or the Company) was incorporated on June 6, 2007 under the laws of the State of Delaware. IP provides a range of services to assist inventors to leverage their patents and related intellectual property (Portfolios) and formulate a strategy to maximize the revenue and profit generated by the Portfolios.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation

The accompanying interim financial statements for the three months ended December 31, 2008 and 2007 are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The results of operations realized during an interim period are not necessarily indicative of results to be expected for a full year. These financial statements should be read in conjunction with the information filed as part of the Company's Annual Report on Form 10-K which was filed with the SEC on December 12, 2008.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amount of revenues and expenses during the reporting period. Actual results could differ from these

estimates.

Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less at the time of purchase to be cash equivalents.

Fair value of financial instruments

The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties. The carrying amounts of financial assets and liabilities, such as cash and accrued expenses, approximate their fair values because of the short maturity of these instruments and market rates of interest.

Revenue recognition

The Company's revenues are derived principally from commissions earned through retaining a buyer or licensee(s) or obtaining product development funding for the Portfolios holder the Company represents. The Company follows the guidance of the Securities and Exchange Commission's Staff Accounting Bulletin 104 (SAB No. 104) for revenue recognition. The Company recognizes revenue when it is realized or realizable and earned less estimated future doubtful accounts. The Company considers revenue realized or realizable and earned when it has persuasive evidence of an arrangement that the product has been shipped or the services have been rendered to the customer, the sales price is fixed or determinable, and collectability is reasonably assured. In addition to the aforementioned general policy, the following are the specific revenue recognition policies for each category of revenue:

Licensing revenues: Licensing revenues, net of licensor participations, are recognized when the underlying royalties from the sales of the related products are earned. The Company recognizes guaranteed royalties, net of licensor participations, at the time the arrangement becomes effective if the Portfolios holder has signed a non cancelable contract, has agreed to a fixed fee, has delivered the rights to the licensee who is free to exercise them, and the Portfolios holder and the Company, as a licensing agent has no remaining significant obligations with the underlying Portfolios or obligation to the licensee, and collectability of the full fee is reasonably assured. Where the Company has significant continuing direct involvement with the underlying Portfolios or obligation to the licensee, guaranteed minimum royalties, net of licensor participations, are recognized ratably over the term of the license or based on sales of the related products, if greater. Licensing advances and guaranteed payments collected but not yet earned by the Company are classified as deferred revenue in the accompanying balance sheet.

Commission income: Commission income, net of licensor participations, is recognized when the underlying commission from the sale of the Portfolios or securing product development funding is earned. The Company recognizes commission income, net of licensor participations, at the time the sale of the Portfolios or product development funding arrangement becomes effective if the Portfolios holder has signed a non cancelable contract, has agreed to a fixed or determinable amount, has sold the rights to the buyer or obtained the funding from the financing institutions, and collectability of the full commission is reasonably assured. If the Company determines that collection of the full commission is not reasonably assured, the Company defers the revenue recognition and recognizes commission income at the time collection becomes reasonably assured, which is generally upon receipt of cash.

Net income (loss) per common share

Net income (loss) per common share is computed pursuant to Statement of Financial Accounting Standards No. 128. "Earnings per Share" ("SFAS No. 128"). Basic net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock and potentially outstanding shares of common stock during each period. There were no potentially dilutive shares outstanding as of December 31, 2008 or 2007.

Recently Issued Accounting Pronouncements

In June 2003, the Securities and Exchange Commission (SEC) adopted final rules under Section 404 of the Sarbanes-Oxley Act of 2002 (Section 404), as amended by SEC Release No. 33-8934 on June 26, 2008. Commencing with its annual report for the fiscal year ending September 30, 2010, the Company will be required to include a report

of management on its internal control over financial reporting. The internal control report must include a statement

- of management's responsibility for establishing and maintaining adequate internal control over its financial reporting;
- of management's assessment of the effectiveness of its internal control over financial reporting as of year end; and
- of the framework used by management to evaluate the effectiveness of the Company's internal control over financial reporting.

Furthermore, in the following fiscal year, it is required to file the auditor's attestation report separately on the Company's internal control over financial reporting on whether it believes that the Company has maintained, in all material respects, effective internal control over financial reporting.

In December 2007, the FASB issued FASB Statement No. 141 (Revised 2007) *Business Combinations* (SFAS No. 141(R)), which requires the Company to record fair value estimates of contingent consideration and certain other potential liabilities during the original purchase price allocation, expense acquisition costs as incurred and does not permit certain restructuring activities previously allowed under Emerging Issues Task Force Issue No. 95-3 to be recorded as a component of purchase accounting. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, except for the presentation and disclosure requirements, which shall be applied retrospectively for all periods presented. The Company will adopt this standard at the beginning of the Company's fiscal year ending October 31, 2009 for all prospective business acquisitions. The Company has not determined the effect that the adoption of SFAS No. 141(R) will have on the financial results of the Company.

In December 2007, the FASB issued FASB Statement No. 160 *Non-controlling Interests in Consolidated Financial Statements - an amendment of ARB No. 51* (SFAS No. 160), which causes non-controlling interests in subsidiaries to be included in the equity section of the balance sheet. SFAS No. 160 applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, except for the presentation and disclosure requirements, which shall be applied retrospectively for all periods presented. The Company will adopt this standard at the beginning of the Company's fiscal year ending October 31, 2009 for all prospective business acquisitions. The Company has not determined the effect that the adoption of SFAS No. 160 will have on the financial results of the Company.

In March 2008, the FASB issued FASB Statement No. 161 *Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133* (SFAS No. 161), which changes the disclosure requirements for derivative instruments and hedging activities. Pursuant to SFAS No.161, Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under Statement 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 with early application encouraged. SFAS No. 161 encourages but does not require disclosures for earlier periods presented for comparative purposes at initial adoption. In years after initial adoption, this Statement requires comparative disclosures only for periods subsequent to initial adoption. The Company will adopt this standard at the beginning of the Company's year ending December 31, 2008. The Company does not expect the adoption of SFAS No. 161 to have a material impact on the financial results of the Company.

Management does not believe that any recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying financial statements.

ITEM 2

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

Information set forth herein contains "forward-looking statements" which can be identified by the use of forward-looking terminology such as "believes," "expects," "may," "should" or "anticipates" or the negative thereof or other variations thereon or comparable terminology, or by discussions of strategy. No assurance can be given that the future results covered by the forward-looking statements will be achieved. The Company cautions readers that important factors may affect the Company's actual results and could cause such results to differ materially from forward-looking statements made by or on behalf of the Company. These factors include the Company's lack of historically profitable operations, dependence on key personnel, the success of the Company's business, ability to manage anticipated growth and other factors identified in the Company's filings with the Securities and Exchange Commission, press releases and/or other public communications.

Plan of Operation

The Company earned revenues of \$50,000 in the quarter. The revenues were fees earned for successfully completing the sale of a patent portfolio, directed to a method of communications between unsecured parties over a network, which was completed on October 3, 2008.

We continue to look for commercially viable intellectual property portfolios (Portfolios) to represent. To that end, we will continue to work with our industry contacts, advertise and use our website at www.iptechnologyservices.com to identify additional Portfolios. For each Portfolio we agree to represent, we analyze the Portfolio, identify relevant markets and/or identify potential acquirers, licensees and/or investors for the Portfolio. We cannot guarantee, however, that we will find additional suitable Portfolios for which will be successful in completing a revenue generating transaction.

Generally, we will enter into one or more agreements with our clients depending on the range of services to be provided. If a client is seeking to sell or license a Portfolio, we will typically enter into a Patent Broker Agreement (Broker Agreement) under which we earn a commission for finding a buyer and/or licensee of the Portfolio. Our

commission rates are typically one-third (33.33%) of revenues generated through the sale/license of the Portfolio but in certain situations we may negotiate a different rate. Where a client is seeking funding for product development, we may enter into a Patent Finance Agreement (Finance Agreement) under which we earn commission based on the amount of capital we assist in raising. In certain situations, we may consider purchasing all or part of a Portfolio and develop a licensing campaign for the Portfolio to generate revenues for the Company..

As of December 31, 2008, the Company had \$157,718 in cash. We believe that the Company's current cash position will be sufficient to fund operations over the next twelve months including general overhead expenses such as salaries, corporate legal and accounting fees, office overhead and general working capital. In the event the Company may require additional cash to fund operations or purchase a Portfolio, we may have to borrow money from shareholders or issue debt or equity or enter into a strategic arrangement with a third party. Our officer will fund any expenses which arise until such time as the Company raises sufficient funds. There can be no assurance that additional capital will be available to us. We currently have no agreements, arrangements or understandings with any person to obtain funds through bank loans, lines of credit or any other sources.

Recently Issued Accounting Pronouncements

In June 2003, the Securities and Exchange Commission (SEC) adopted final rules under Section 404 of the Sarbanes-Oxley Act of 2002 (Section 404), as amended by SEC Release No. 33-8934 on June 26, 2008. Commencing with its annual report for the fiscal year ending October 31, 2009, the Company will be required to include a report of management on its internal control over financial reporting. The internal control report must include a statement

- of management's responsibility for establishing and maintaining adequate internal control over its financial reporting;
- of management's assessment of the effectiveness of its internal control over financial reporting as of year end; and
- of the framework used by management to evaluate the effectiveness of the Company's internal control over financial reporting.

Furthermore, in the following fiscal year, it is required to file the auditor's attestation report separately on the Company's internal control over financial reporting on whether it believes that the Company has maintained, in all material respects, effective internal control over financial reporting.

In December 2007, the FASB issued FASB Statement No. 141 (Revised 2007) *Business Combinations* (SFAS No. 141(R)), which requires the Company to record fair value estimates of contingent consideration and certain other potential liabilities during the original purchase price allocation, expense acquisition costs as incurred and does not permit certain restructuring activities previously allowed under Emerging Issues Task Force Issue No. 95-3 to be recorded as a component of purchase accounting. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, except for the presentation and disclosure requirements, which shall be applied retrospectively for all periods presented. The Company will adopt this standard at the beginning of the Company's fiscal year ending October 31, 2009 for all prospective business acquisitions. The Company has not determined the effect that the adoption of SFAS No. 141(R) will have on the financial results of the Company.

In December 2007, the FASB issued FASB Statement No. 160 *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51* (SFAS No. 160), which causes noncontrolling interests in subsidiaries to be included in the equity section of the balance sheet. SFAS No. 160 applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, except for the presentation and disclosure requirements, which shall be applied retrospectively for all periods presented. The Company will adopt this standard at the beginning of the Company's fiscal year ending October 31, 2009 for all prospective business acquisitions. The Company has not determined the effect that the adoption of SFAS No. 160 will have on the financial results of the Company.

In March 2008, the FASB issued FASB Statement No. 161 *Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133* (SFAS No. 161), which changes the disclosure requirements for derivative instruments and hedging activities. Pursuant to SFAS No.161, Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under Statement 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 with early application encouraged. SFAS No. 161 encourages but does not require disclosures for earlier periods presented for comparative purposes at initial adoption. In years after initial adoption, this Statement requires comparative disclosures only for periods subsequent to initial adoption. The Company will adopt this standard at the beginning of the Company's year ending December 31, 2008. The Company does not expect the adoption of SFAS No. 161 to have a material impact on the financial results of the Company.

Management does not believe that any recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying financial statements.

Critical Accounting Policies

The preparation of financial statements and related notes requires us to make judgments, estimates, and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities.

An accounting policy is considered to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and if different estimates that reasonably could have been used, or changes in the accounting estimates that are reasonably likely to occur periodically, could materially impact the financial statements.

Financial Reporting Release No. 60 requires all companies to include a discussion of critical accounting policies or methods used in the preparation of financial statements. There are no critical policies or decisions that rely on judgments that are based on assumptions about matters that are highly uncertain at the time the estimate is made.

Seasonality

To date, we have not noted any significant seasonal impact.

Off Balance Sheet Arrangements

We have no off-balance sheet arrangements.

ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is subject to certain market risks, including changes in interest rates and currency exchange rates. The Company does not undertake any specific actions to limit those exposures.

ITEM 4- CONTROLS AND PROCEDURES

(a)

Evaluation of disclosure controls and procedures.

Pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 (Exchange Act), the Company carried out an evaluation, with the participation of the Company's management, including the Company's Chief Executive Officer (CEO) and Chief Accounting Officer (CAO) (the Company's principal financial and accounting officer), of the effectiveness of the Company's disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Company's CEO and CAO concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports that the Company files or submits under the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including the Company's CEO and CAO, as appropriate, to allow timely decisions regarding required disclosure.

b)

Management's Report on Internal Controls over Financial Reporting

Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. There has been no change in the Company's internal control over financial reporting during the quarter ended December 31, 2008 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

The Company's management, including the Company's CEO and CAO, does not expect that the Company's disclosure controls and procedures or the Company's internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of the controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

Management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that the company's internal control over financial reporting was effective as of December 31, 2008.

This quarterly report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this quarterly report.
