2. Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (*SEC*) and in accordance with accounting principles generally accepted in the United States of America for interim financial reporting. Accordingly, certain information and note disclosures normally included in financial statements prepared in conformity with accounting principles generally accepted in the United States have been condensed or omitted. The accompanying interim consolidated financial statements have been prepared without audit. In the opinion of management, all adjustments, including normal recurring adjustments necessary to present fairly the financial position, results of operations and cash flows for the periods presented, have been made. The results for interim periods are not necessarily indicative of results that may be expected for any other interim period or for the full year. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K/A for the year ended April 25, 2010 as filed with the SEC and all of our other filings, including Current Reports on Form 8-K, filed with the SEC after such date and through the date of this report, which are available on the SEC's website at www.sec.gov or our website at www.islecorp.com.

Our fiscal year ends on the last Sunday in April. Periodically, this system necessitates a 53-week year. Fiscal 2011 and 2010 are both 52-week years, which commenced on April 26, 2010 and April 27, 2009, respectively.

Discontinued operations include our former Blue Chip casinos in Dudley and Wolverhampton, England, sold in November 2009, our former casino in Freeport, Grand Bahamas, exited in November 2009 and our former casino in Coventry, England sold in fiscal year 2009. The results of our discontinued operations for the three months ended July 26, 2009, are summarized as follows:

Net revenues	\$	3,574
Pretax loss from discontinued operations		(220)
Income tax benefit from discontinued operations		70

Loss from discontinued operations

(150)

The condensed consolidated financial statements include our accounts and those of our subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. Certain reclassifications have been made to prior period financial statements to conform to the current period presentation. We view each property as an operating segment and all such operating segments have been aggregated into one reporting segment.

The Company evaluated all subsequent events through the date of the consolidated financial statements and has disclosed such subsequent events in the notes to the condensed consolidated financial statements. No material subsequent events have occurred that required recognition in the condensed consolidated financial statements.

3. Acquisition

We completed the acquisition of Rainbow Casino-Vicksburg Partnership, L.P. (Rainbow) located in Vicksburg, Mississippi on June 8, 2010 acquiring 100% of the partnership interests and have included the results of Rainbow in our consolidated financial statements subsequent to June 8, 2010. The preliminary allocation of the purchase price for these partnership interests was determined based upon estimates of future cash flows and evaluations of the net assets acquired. The transaction was accounted for using the acquisition method in accordance with the accounting guidance under Accounting Standards Codification Topic 805, *Business Combinations*. As a result, the net assets of Rainbow were recorded at their estimated fair value with the excess of the purchase price over the fair value of the net assets acquired allocated to goodwill. The acquisition was funded by borrowings from Isle's senior secured credit facility. The purchase price allocation remains preliminary as management is in process of obtaining third party valuations to assist management in its determination of fair value for property and equipment, and intangible assets acquired.

The following table sets forth the determination of the consideration paid for Rainbow and the current preliminary purchase price allocation based upon management's current estimate of the fair value of the net assets acquired.

Gross cash purchase price	\$	80,000
Deduct:		
Cash acquired		(2,540)
Cash refunded by Seller under purchase price adjustments		(1,293)
Total purchase price	\$	76,167

The useful lives of assets acquired are estimated as follows: customer list three years; tradenname 1.5 years; customer relationships eight years; furniture and equipment one to five years; and property and equipment fifteen to twenty-five years. Deductible goodwill for tax purposes is estimated to be approximately \$33,000.

A rollforward of goodwill is as follows:

4. Long-Term Debt

Long-term debt consists of the following:

	July 25, 2010	April 25, 2010
Senior Secured Credit Facility:		
Revolving line of credit, expires July 26, 2012, interest payable at least quarterly at either LIBOR and/or prime plus a margin	\$ 90,000	\$ 21,500
Variable rate term loans, mature November 25, 2013, principal and interest payments due quarterly at either LIBOR and/or prime plus a margin	815,157	817,256

Less current maturities	8,762	8,754
Long-term debt	\$ 1,258,302	\$ 1,192,135

Credit Facility - The Credit Facility as amended (*Credit Facility*) consists of a \$375,000 revolving line of credit and an \$875,000 term loan facility. The Credit Facility is secured on a first priority basis by substantially all of our assets and guaranteed by all of our significant domestic subsidiaries.

Our net line of credit availability at July 25, 2010 as limited by our maximum leverage covenant was approximately \$126,000. We have an annual commitment fee related to the unused portion of the Credit Facility of up to 0.75% which is included in interest expense in the accompanying consolidated statements of operations. The weighted average effective interest rate of the Credit Facility for the three months ended July 25, 2010 is 6.62%.

The Credit Facility includes a number of affirmative and negative covenants. Additionally, we must comply with certain financial covenants including maintenance of a leverage ratio and minimum interest coverage ratio. The Credit Facility also restricts our ability to make certain investments or distributions. We were in compliance with the covenants as of July 25, 2010.

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

7% Senior Subordinated Notes - Our 7% Senior Subordinated Notes are due 2014 (*7% Senior Subordinated Notes*) and are guaranteed, on a joint and several basis, by all of our significant subsidiaries and certain other subsidiaries as described in Note 10. All of the guarantor subsidiaries are wholly owned by us. The 7% Senior Subordinated Notes are general unsecured obligations and rank junior to all of our senior indebtedness. The 7% Senior Subordinated Notes are redeemable, in whole or in part, at our option at any time on or after March 1, 2009, with call premiums as defined in the indenture governing the 7% Senior Subordinated Notes.

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

The indenture governing the 7% Senior Subordinated Notes limits, among other things, our ability and our restricted subsidiaries' ability to borrow money, make restricted payments, use assets as security in other transactions, enter into transactions with affiliates or pay dividends on or repurchase stock. The indenture also limits our ability to issue and sell capital stock of subsidiaries, sell assets in excess of specified amounts or merge with or into other companies.

5. Common Stock

Earnings per Share of Common Stock - The following table sets forth the computation of basic and diluted income (loss) per share:

	Three Months Ended	
	July 25, 2010	July 26, 2009
Numerator:		
Income (loss) applicable to common shares:		
Income (loss) from continuing operations	\$ (2,655)	\$ 1,055
Income (loss) from discontinued operations		(150)
Net income (loss)	\$ (2,655)	\$ 905
Denominator:		
Denominator for basic earnings (loss) per share - weighted average shares	32,447,904	31,779,100
Effect of dilutive securities Employee stock options		76,001
Denominator for diluted loss per share - adjusted weighted average shares and assumed conversions	32,447,904	31,855,101
Basic earnings (loss) per share:		
Income (loss) from continuing operations	\$ (0.08)	\$ 0.03
Income (loss) from discontinued operations		
Net income (loss)	\$ (0.08)	\$ 0.03
Diluted earnings (loss) per share:		
Income (loss) from continuing operations	\$ (0.08)	\$ 0.03
Income (loss) from discontinued operations		
Net income (loss)	\$ (0.08)	\$ 0.03

Our basic earnings (loss) per share are computed by dividing net income (loss) by the weighted average number of shares outstanding for the period. Due to the loss from continuing operations, stock options representing 187,276 shares, which are potentially dilutive, and 534,210 shares which are anti-dilutive, were excluded from the calculation of common shares for diluted (loss) per share for the three months ended July 25, 2010. Stock options representing 1,177,823 shares which were anti-dilutive were excluded from the calculation of common shares for diluted income per share for the three month ended July 26, 2009.

Stock Based Compensation Under our amended and restated 2009 Long Term Incentive Plan we have issued stock options and restricted stock.

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

Restricted Stock Restricted stock awarded to employees under annual long-term incentive grants vests one-third on each anniversary of the grant date and for directors vests one-half on the grant date and one-half on the first anniversary of the grant date. Restricted stock previously awarded under our tender offer vests three years from the date of award. Our estimate of forfeitures for restricted stock for employees is 10%. No forfeiture rate is estimated for directors. As of July 25, 2010, our unrecognized compensation cost for unvested restricted stock is \$4,365 with a remaining weighted average vesting period of 1.1 years.

Subsequent to the quarter ended July 25, 2010, we issued 306,247 shares of restricted common stock with a weighted average grant-date fair value of \$8.72 to employees under the Long Term Incentive Plan.

Stock Options - We have issued incentive stock options and nonqualified stock options which have a maximum term of 10 years and are, generally, vested and exercisable in yearly installments of 20% commencing one year after the date of grant. We currently estimate our aggregate forfeiture rates at 12%. As of July 25, 2010, our unrecognized compensation cost for unvested stock options was \$1,215 with a weighted average vesting period of 2.9 years.

6. Interest Rate Derivatives

We have entered into various interest rate derivative agreements in order to manage market risk on variable rate term loans outstanding, as well as comply with, in part, requirements under the Credit Facility. We have interest rate swap agreements with an aggregate notional value of \$400,000 with maturity dates through fiscal 2014. We have also entered into an interest rate cap contract with a notional value of \$20,000 having a maturity date in fiscal 2012 and paid a premium of \$105 at inception. As a result of the amendment to our Credit Facility in the fourth quarter of fiscal 2010, our interest rate swaps no longer meet the criteria for hedge effectiveness, and therefore changes in the fair value of the swaps subsequent to the date of ineffectiveness in February 2010, are recorded in derivative income (expense) in the consolidated statement of operations. Prior to their ineffectiveness, these interest rate swaps were adjusted through other comprehensive income (loss) as these derivative instruments qualified for hedge accounting. The cumulative loss recorded in other comprehensive income (loss) through the date of ineffectiveness will be amortized into earnings over the remaining term of the individual interest rate swap agreements or when the underlying transaction is no longer expected to occur. As of July 25, 2010, the weighted average fixed LIBOR interest rate of our interest rate swap agreements was 4.58%.

The interest rate cap agreement meets the criteria for hedge accounting for cash flow hedges and has been evaluated, as of July 25, 2010 as being fully effective. As a result, there is no impact on our consolidated statement of operations from changes in fair value of the interest rate cap.

The loss recorded in other comprehensive income (loss) of our interest rate swap contracts is recorded net of deferred income tax benefits of \$3,241 and \$4,704, as of July 25, 2010 and April 25, 2010, respectively. The loss recorded in other comprehensive income (loss) for our interest rate cap contract is recorded net of deferred income tax benefits of \$1 and \$9 as of July 25, 2010 and April 25, 2010, respectively.

The fair values of derivatives included in our consolidated balance sheet are as follows:

Type of Derivative Instrument	Balance Sheet Location	July 25, 2010	April 25, 2010
Interest rate cap contract	Prepaid deposits and other	\$ 3	\$ 24

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

Interest rate swap contracts	Accrued interest	3,359	6,704
Interest rate swap contracts	Other long-term liabilities	7,167	6,247

We recorded income of \$2,424 in derivative income (expense) related to the change in fair value of interest rate swap contracts during the three months ended July 25, 2010.

Additionally, during the three months ended July 25, 2010, we recorded expense of \$3,911 in derivative income (expense) associated with the amortization of \$2,449, net of taxes of \$1,462, of cumulative loss recorded in other comprehensive income (loss) for the interest rate swaps through the date of their ineffectiveness.

The change in unrealized gain (loss) on our derivatives qualifying for hedge accounting was \$22 and \$2,298 for the three months ended July 25, 2010 and July 26, 2009, respectively.

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

The amount of accumulated other comprehensive income (loss) related to interest rate swap contracts and interest rate cap contracts maturing within the next twelve months was \$3,753, net of tax of \$2,202, as of July 25, 2010.

7. Fair Value

The fair value of our interest swap and cap contracts are recorded at fair value using Level 3 inputs at the present value of all expected future cash flows based on the LIBOR-based swap yield curve as of the date of the valuation.

The following table presents the changes in Level 3 liabilities measured at fair value on a recurring basis for the three months ended July 25, 2010:

	Interest Rate Derivatives
Balance at April 25, 2010	\$ (12,927)
Realized gains/(losses)	2,424
Unrealized gains/(losses)	(21)
Balance at July 25, 2010	\$ (10,524)

Financial Instruments - The estimated carrying amounts and fair values of our other financial instruments are as follows:

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash and cash equivalents, restricted cash and notes receivable are carried at cost, which approximates fair value due to their short-term maturities.

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

Marketable securities are based upon Level 1 inputs obtained from quoted prices available in active markets and represent the amounts we would expect to receive if we sold these marketable securities.

The fair value of our long-term debt or other long-term obligations is estimated based on the quoted market price of the underlying debt issue or, when a quoted market price is not available, the discounted cash flow of future payments utilizing current rates available to us for debt of similar remaining maturities. Debt obligations with a short remaining maturity are valued at the carrying amount.

9. Income Taxes

Our effective income tax rates from continuing operations for the three months ended July 25, 2010 and July 26, 2009 were 41.3% and 46.2%, respectively. Our effective rate is based on statutory rates applied to our income adjusted for permanent differences. Our actual effective rate will fluctuate based upon the amount of our pretax book income, permanent differences and other items used in the calculation of our income tax benefit.

Related to our uncertain tax positions, we accrued gross interest expense of \$157 for the three months ended July 25, 2010 as a component of our income tax benefit. As of July 25, 2010, we have recognized a liability of \$2,984 for interest and no amount for penalties.

During fiscal 2010, the IRS completed its examination of our federal income tax returns which relate to our fiscal years ended April 29, 2007 and April 27, 2008. The income tax examination changes are subject to review by the U.S. Congress Joint Committee on Taxation and on August 20, 2010 we received notification that the review had been completed with no exception to the examination. Following the completion of the review by the U.S. Congress Joint Committee on Taxation, we are reviewing certain of our unrecognized federal tax positions for possible derecognition.

10. Supplemental Disclosures

Cash Flow For the three months ended July 25, 2010 and July 26, 2009, we made net cash payments for interest of \$16,712 and \$12,262, respectively. Additionally, we received income tax refunds of \$927 and \$3,590 during the three months ended July 25, 2010 and July 26, 2009, respectively.

In fiscal year 2006, we obtained a gaming license for our Waterloo, Iowa property and recorded an intangible asset of \$18,547. Annual payments for the license are recorded on a yearly basis and for the three months ended July 26, 2009, we made payments of \$4,000 towards the gaming license.

For the three months ended July 25, 2010 and July 26, 2009, the change in accrued purchases of property and equipment in accounts payable increased by \$1,206 and \$1,102, respectively.

11. Contingencies

Legal and Regulatory Proceedings Lady Luck Gaming Corporation (now our wholly owned subsidiary) and several joint venture partners have been defendants in the Greek Civil Courts and the Greek Administrative Courts in similar lawsuits brought by the country of Greece. The actions allege that the defendants failed to make specified payments in connection with the gaming license bid process for Patras, Greece. Although it is difficult to determine the damages being sought from the lawsuits, the action may seek damages up to that aggregate amount plus interest from the date of the action.

In the Civil Court lawsuit, the Civil Court of First Instance ruled in our favor and dismissed the lawsuit in 2001. Greece appealed to the Civil Appeal Court and, in 2003, the Court rejected the appeal. Greece then appealed to the Civil Supreme Court and, in 2007, the Supreme Court ruled that the matter was not properly before the Civil Courts and should be before the Administrative Court.

In the Administrative Court lawsuit, the Administrative Court of First Instance rejected the lawsuit stating that it was not competent to hear the matter. Greece then appealed to the Administrative Appeal Court, which court rejected the appeal in 2003. Greece then appealed to the Supreme Administrative Court, which remanded the matter back to the Administrative Appeal Court for a hearing on the merits. The re-hearing took place in 2006, and in 2008 the Administrative Appeal Court rejected Greece's appeal on procedural grounds. On December 22, 2008 and January 23, 2009, Greece appealed the ruling to the Supreme Administrative Court. A hearing has tentatively been scheduled for November 2010.

The outcome of this matter is still in doubt and cannot be predicted with any degree of certainty. We intend to continue a vigorous and appropriate defense to the claims asserted in this matter. Through July 25, 2010, we have accrued an estimated liability including interest of \$10,937. Our accrual is based upon management's estimate of the original claim by the plaintiffs for lost payments. We continue to accrue interest on the asserted claim. We are unable to estimate a total possible loss as information as to possible additional claims, if any, have not been asserted or quantified by the plaintiffs at this time.

During January, 2010, we entered into an agreement to provide management services for a potential casino to be located at the Nemaquin Woodlands Resort in Farmington, Pennsylvania, (The Resort). The development of this casino is subject to numerous regulatory approvals including obtaining a state gaming license, of which is a competitive award process among several applicants. If The Resort is successful in obtaining a gaming license, we have agreed to complete the build-out of the casino space. We currently estimate the project cost at approximately \$50,000.

We have filed an application with the Missouri Gaming Commission to develop a casino in Cape Girardeau, Missouri and have entered into a development agreement with the City of Cape Girardeau that would take effect if we are selected for licensure by the State of Missouri and other contingencies in the development agreement are met. We currently estimate the cost of the project at approximately \$125,000.

We are subject to certain federal, state and local environmental protection, health and safety laws, regulations and ordinances that apply to businesses generally, and are subject to cleanup requirements at certain of our facilities as a result thereof. We have not made, and do not anticipate making material expenditures, nor do we anticipate incurring delays with respect to environmental remediation or protection. However, in part because our present and future development sites have, in some cases, been used as manufacturing facilities or other facilities that generate materials that are required to be remediated under environmental laws and regulations, there can be no guarantee that additional pre-existing conditions will not be discovered and we will not experience material liabilities or delays.

We are subject to various contingencies and litigation matters and have a number of unresolved claims. Although the ultimate liability of these contingencies, this litigation and these claims cannot be determined at this time, we believe they will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Executive Overview

We are a leading developer, owner and operator of branded gaming facilities and related lodging and entertainment facilities in regional markets in the United States. We have intentionally sought geographic diversity to limit the risks caused by weather, regional economic difficulties and local gaming authorities and regulations. We currently operate casinos in Mississippi, Louisiana, Missouri, Iowa, Colorado and Florida. We also operate a harness racing track at our casino in Florida.

Our operating results for the periods presented have been affected, both positively and negatively, by current economic conditions and several other factors discussed in detail below. Our historical operating results may not be indicative of our future results of operations because of these factors and the changing competitive landscape in each of our markets, as well as by factors discussed elsewhere herein. This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our Annual Report on Form 10-K/A for the year ended April 25, 2010 and by giving consideration to the following:

Acquisition of Rainbow Casino - We completed the acquisition of Rainbow Casino-Vicksburg Partnership, L.P. (Rainbow) located in Vicksburg, Mississippi on June 8, 2010 acquiring 100% of the partnership interests and have included the results of Rainbow in our consolidated financial statements subsequent to June 8, 2010. The acquisition was funded by borrowings from Isle's senior secured credit facility.

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

Florida Gaming Law Changes Effective July 1, 2010, legislative changes became effective in Florida which lowered the state portion of gaming taxes applicable to our Pompano property from 50% to 35% of gaming revenues. Additionally, this legislation allows our poker operations to remain open for the same hours as the slot floor and removes the poker betting limits. Our casino revenues and gaming taxes reflect the favorable impact of these changes in state gaming laws.

Increased Competition The opening of a new hotel in October 2009 by a competitor in Black Hawk, Colorado has had a negative impact on our Black Hawk Colorado property.

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

Discontinued Operations Discontinued operations include the results of our international operations including our former Blue Chip, Grand Bahamas and Coventry casino operations. The sale of our Blue Chip and exit of our Grand Bahamas casino operations were substantially completed during November 2009. Our Coventry casino operations were sold and discontinued during the fourth quarter of fiscal year 2009.

For the three months ended July 25, 2010, casino revenues increased \$3.4 million at our Pompano property, \$0.9 million at our Waterloo property and included \$5.3 million from our newly acquired Vicksburg casino. Rooms Revenue - Rooms revenue decreased \$1.4 million, or 11.3%, for the three months ended July 25, 2010, as compared to the same period in the prior fiscal year. The majority of this decrease has occurred at our Black Hawk property where we have experienced decline in both room rates and occupancy following the opening of a competitor's new hotel during October 2009.

Pari-mutuel, Food, Beverage and Other Revenues - Pari-mutuel, food, beverage and other revenues decreased \$0.2 million, or 0.6%, for the three months ended July 25, 2010, as compared to the same period in the prior fiscal year. Casino - Casino operating expenses increased \$0.3 million, or 0.9%, for the three months ended July 25, 2010, as compared to the same period in the prior fiscal year. Excluding casino costs of \$0.8 million incurred by our newly acquired Vicksburg casino, our casino operating expenses would have decreased \$0.5 million. This net decrease reflects costs reductions in casino expense at most of our properties offset by a slight increase in casino expenses at our Pompano property following the expansion of gaming hours effective July 1, 2010.

Gaming Taxes - State and local gaming taxes decreased \$1.9 million, or 2.9%, for the three months ended July 25, 2010, as compared to the same period in the prior fiscal year. Reductions in gaming taxes for the three months ended July 25, 2010 reflect the decrease in state gaming taxes at our Pompano facility from 50% to 35% effective July 1, 2010, decreases in our overall gaming revenues and changes in the mix our gaming revenues derived from states with different gaming tax rates. Gaming taxes for the three months ended July 25, 2010 included \$0.5 million from our newly acquired Vicksburg casino. Our overall effective gaming tax rates were as follows:

Three Months Ended	
July 25, 2010	July 26, 2009
24.9%	25.3%

Rooms - Rooms expense decreased \$0.3 million, or 9.4%, for the three months ended July 25, 2010, as compared to the same period in the prior fiscal year. These expenses directly relate to the cost of providing hotel rooms. This decrease in rooms expense is reflective of an 11.3% reduction in our hotel revenues for the three months ended July 25, 2010, as compared to the same period in the prior fiscal year.

Pari-mutuel, Food, Beverage and Other - Pari-mutuel, food, beverage and other expenses increased \$0.3 million, for the three months ended July 25, 2010, as compared to the same period in the prior fiscal year. Excluding food beverage and other costs of \$0.2 million incurred by our newly acquired Vicksburg casino, our food, beverage and other expenses would have increased \$0.1 million.

Marine and Facilities - Marine and facilities expenses decreased \$1.0 million, or 6.6%, for the three months ended July 25, 2010 as compared to the same period in the prior fiscal year. This decrease includes reductions in facility costs across most properties as we continue to focus on cost reductions efforts. Marine and facility expense for the three months ended July 25, 2010 included \$0.2 million from our newly acquired Vicksburg casino.

Marketing and Administrative - Marketing and administrative expenses decreased \$0.5 million, or 0.7%, for the three months ended July 25, 2010 as compared to the same period in the prior fiscal year. Excluding marketing and administrative costs of \$1.1 million incurred by our newly acquired Vicksburg casino, our casino operating

expenses would have decreased \$1.6 million. This decrease reflects reductions in our operating cost to align such expenditures with changes in our net revenues.

Corporate and Development - During the three months ended July 25, 2010, our corporate and development expenses were \$12.5 million compared to \$9.9 million for the three months ended July 26, 2009. The increase in corporate and development expenses for the three months ended July 25, 2010, reflects approximately \$1.1 million in expenses related to our attempted equity offering and an additional \$1.1 million in acquisition related costs regarding the Rainbow acquisition.

Depreciation and Amortization - Depreciation and amortization expense for the three months ended July 25, 2010 decreased \$5.9 million, as compared to the same period in the prior fiscal year, primarily due to certain assets becoming fully depreciated. Depreciation and amortization for the three months ended July 25, 2010 included \$0.6 million from our newly acquired Vicksburg casino.

Other Income (Expense), Income Taxes, and Discontinued Operations

Interest expense, interest income, income tax (provision) benefit, and income (loss) from discontinued operations, net of income taxes for the three months ended July 25, 2010 and July 26, 2009 are as follows:

(in thousands)	Three Months Ended		Variance	Percentage Variance
	July 25, 2010	July 26, 2009		
Interest expense	\$ (23,795)	\$ (18,347)	\$ (5,448)	29.7%

Interest Expense - Interest expense increased \$5.4 million for the three months ended July 25, 2010, as compared to the same period in the prior fiscal year. This increase reflects the amendment of our senior credit facility during the fourth quarter of fiscal year 2010 which increased our interest rate on borrowings under the facility and additional interest on borrowings to fund our acquisition of the Vicksburg casino effective June 8, 2010.

Other This includes expenses related to the change in fair value of our ineffective interest rate swaps. Our interest rate swaps became ineffective following the amendment of our senior secured credit facility during the fourth quarter of fiscal year 2010.

Income Tax Benefit (Provision) Our income tax benefit (provision) from continuing operations and our effective income tax rate has been impacted our estimate of annual taxable income for financial statement purposes as well as our percentage of permanent and other items in relation to such estimated income or loss. Effective income tax rates were as follows:

Liquidity and Capital Resources

Cash Flows from Operating Activities - During the three months ended July 25, 2010, we generated \$27.9 million in cash flows from operating activities compared to generating \$38.0 million during the three months ended July 26, 2009. The year over year decrease in cash flows from operating activities primarily results from decreases in cash operating income.

Cash Flows used in Investing Activities - During the three months ended July 25, 2010, we used \$98.6 million for investing activities compared to using \$8.6 million during the three months ended July 26, 2009. Significant investing activities for the three months ended July 25, 2010 included the purchase of the Rainbow casino in Vicksburg, Mississippi for \$76.2 million, net of cash acquired and purchase price adjustments, purchases of property and equipment of \$12.9 million and increases in restricted cash at our captive insurance company by \$9.5 million to fund insurance reserves in lieu of providing letters of credit.

For the three months ended July 26, 2009, significant investing activities included the purchase of property and equipment for \$4.4 million and payment of \$4.0 million towards our Waterloo gaming license.

Cash Flows used in Financing Activities - During the three months ended July 25, 2010 we had net borrowings under our line of credit of \$68.5 million which included the borrowing of \$80 million to fund our acquisition of the Rainbow casino in Vicksburg, Mississippi. We also used \$2.3 million to repay other outstanding long-term debt.

During the three months ended July 26, 2009, our net cash flows used in financing activities were used primarily to repay our outstanding long term debt of \$21.3 million.

Availability of Cash and Additional Capital - At July 25, 2010, we had cash and cash equivalents of \$63.5 million and marketable securities of \$23.7 million. As of July 25, 2010, we had \$90 million in revolving credit and \$815.2 million in term loans outstanding under the senior secured credit facility. Our line of credit availability at July 25, 2010 was approximately \$126 million as limited by our leverage ratio.

Capital Expenditures and Development Activities - Historically, we have made significant investments in property and equipment and expect that our operations will continue to demand ongoing investments to keep our properties competitive. Our current planned capital expenditures include \$35 million in maintenance capital expenditures for the balance of fiscal year 2011.

Historically, we have funded our daily operations through net cash provided by operating activities and our significant capital expenditures through operating cash flow and debt financing. While we believe that existing cash, cash flow from operations, and available borrowings under our senior secured credit facility will be sufficient to support our working capital needs, planned capital expenditures and debt service requirements for the foreseeable future, there is no assurance that these sources will in fact provide adequate funding for our planned and necessary expenditures or that our planned reduced levels of capital investments will be sufficient to allow us to remain competitive in our existing markets.

We have entered into an agreement to provide management services for a potential casino to be located at the Nemaocolin Woodlands Resort in Farmington, Pennsylvania, (the Resort). The development of this casino is subject to numerous regulatory approvals including obtaining a state gaming license, which is a competitive award process among several applicants. If the Resort is successful in obtaining a gaming license, we have agreed to complete the build-out of the casino space. We currently estimate the project cost at approximately \$50 million.

We have filed an application with the Missouri Gaming Commission to develop a casino in Cape Girardeau, Missouri and have entered into a development agreement with the City of Cape Girardeau that would take effect if we are selected for licensure by the State of Missouri and other contingencies in the development agreement are met. We currently estimate the cost of the project at approximately \$125,000.

We have identified several capital projects primarily focused on refreshing our hotel room inventory as well as additional improvements to our Black Hawk and Lake Charles properties, and further Lady Luck conversions. The timing and amount of these capital expenditures will be determined as we gain more clarity as to improvement of economic and local market conditions, cash flows from our continuing operations and availability of cash under our senior secured credit facility.

We are highly leveraged and may be unable to obtain additional debt or equity financing on acceptable terms if our current sources of liquidity are not sufficient or if we fail to stay in compliance with the covenants of our senior secured credit facility. We will continue to evaluate our planned capital expenditures at each of our existing locations in light of the operating performance of the facilities at such locations.

As part of our business development activities, historically we have entered into agreements which have resulted in the acquisition or development of businesses or assets. These business development efforts and related agreements typically require the expenditure of cash, which may be significant. The amount and timing of our cash expenditures relating to development activities may vary based upon our evaluation of current and future development opportunities, our financial condition and the condition of the financing markets. Our development activities are subject to a variety of factors including but not limited to: obtaining permits, licenses and approvals from appropriate regulatory and other agencies, legislative changes and, in certain circumstances, negotiating acceptable leases.

Critical Accounting Estimates

Our consolidated financial statements are prepared in accordance with U.S. generally accepted accounting principles that require our management to make estimates and assumptions that affect reported amounts and related disclosures. Management identifies critical accounting estimates as:

- those that require the use of assumptions about matters that are inherently and highly uncertain at the time the estimates are made;
- those estimates where, had we chosen different estimates or assumptions, the resulting differences would have had a material impact on our financial condition, changes in financial condition or results of operations; and
- those estimates that, if they were to change from period to period, likely would result in a material impact on our financial condition, changes in financial condition or results of operations.

For a discussion of our significant accounting policies and estimates, please refer to Management's Discussion and Analysis of Financial Condition and Results of Operations and Notes to Consolidated Financial Statements presented in our 2010 Annual Report on Form 10-K/A. There were no newly identified significant accounting estimates in the first quarter of fiscal year 2011, nor were there any material changes to the critical accounting policies and estimates set forth in our 2010 Annual Report.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the risk of loss arising from adverse changes in market rates and prices, including interest rates, foreign currency exchange rates, commodity prices and equity prices. Our primary exposure to market risk is interest rate risk associated with our Isle of Capri Casinos, Inc. senior secured credit facility (Credit Facility).

We have entered into interest rate swap and cap arrangements with aggregate notional value of \$420.0 million as of July 25, 2010. The swap agreements effectively convert portions of the Credit Facility variable debt to a fixed-rate basis until the respective swap agreements terminate, which occurs during fiscal years 2011, 2012 and 2014.

ITEM 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company, as such term is defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on the evaluation, management has concluded that the design and operation of our disclosure controls and procedures are effective as of July 25, 2010.

Because of its inherent limitations, systems of internal control over financial reporting can provide only reasonable assurance with respect to financial statement preparation and presentation.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There have been no changes in our internal controls over financial reporting during the fiscal quarter ended July 25, 2010, that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.
