Fair Value Measurements

In determining the fair value of the Fund's investments, various inputs are used. These inputs are summarized in the three broad levels listed below:

Level 1 Quoted prices in active markets for identical securities.

Level 2 Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the Fund's fair value measurements as of September 30, 2010:

Derivative Instruments and Hedging Activities

The Fund records derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Fund s investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes.

The following table presents the fair value of all derivative instruments held by the Fund as of September 30, 2010, the location of these instruments on the Statement of Assets and Liabilities, and the primary underlying risk exposure.

		Location on the Statement of Assets and Liabilities

Income Tax Information

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses, recognition of premium amortization, timing differences in the recognition of income on REIT investments and timing differences in recognizing certain gains and losses on investment transactions. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset value of the Fund.

At September 30, 2010, the cost of investments (excluding securities sold short and investments in derivatives), was \$1,174,040,775. Gross unrealized appreciation and gross unrealized depreciation of investments (excluding securities sold short and investments in derivatives), at September 30, 2010, were as follows:

^{*} Preferred Securities includes Convertible Preferred Securities, \$25 Par (or similar) Preferred Securities and Capital Preferred Securities held by the Fund at the end of the reporting period, if any.

Gross unrealized:
Appreciation
Depreciation
Net unrealized appreciation (depreciation) of investments

\$ 82,105,931 (54,450,009)

\$ 27,655,922

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub classifications into sectors for reporting ease.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Non-income producing; issuer has not declared a dividend within the past twelve months.
- (3) Investment, or portion of investment, has been pledged as collateral for call options written.
- (4) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investor Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (5) Senior Loans generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans may occur. As a result, the actual remaining maturity of Senior Loans held may be substantially less than the stated maturities shown.
- (6) Senior Loans generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus an assigned fixed rate. These floating lending rates are generally (i) the lending rate referenced by the London Inter-Bank Offered Rate (LIBOR), or (ii) the prime rate offered by one or more major United States banks.
 - Senior Loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.
- (7) At or subsequent to September 30, 2010, this issue was under the protection of the Federal Bankruptcy Court.
- (8) The Fund s Adviser has concluded this issue is not likely to meet its future interest payment obligations and has directed the Fund s custodian to cease accruing additional income and write-off any remaining recorded balances on the Fund s records.
- (9) Non-income producing security, in the case of a Senior Loan, denotes that the issuer has defaulted on the payment of principal or interest or has filed for bankruptcy.
- (10) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board of Trustees. For fair value measurement disclosure purposes, investment categorized as Level 3.
- (11) Principal Amount (000) rounds to less than \$1,000.
- (12) Borrowings as a percentage of Total Investments is 22.5%.
- (13) The Fund may pledge up to 100% of its eligible investments in the Portfolio of Investments as collateral for Borrowings. As of September 30, 2010, investments with a value of \$655,699,386 have been pledged as collateral for Borrowings.
- (14) For disclosure purposes, Notional Amount is calculated by multiplying the Number of Contracts by the Strike Price by 100
- (15) Subsequent to the reporting period, the Fund s Adviser has concluded this issue is not likely to meet its future interest payment obligations and has directed the Fund s custodian to cease accruing additional income and write-off any remaining recorded balances on the Fund s records.
- (16) For fair value measurement disclosure purposes, Common Stock categorized as Level 2.
- (17) The Fund s Adviser has concluded this issue is not likely to meet its future interest payment obligations and has directed the Fund s custodian to cease accruing additional income on the Fund s records.
- N/R Not rated.
- DD1 Investment, or portion of investment, purchased on a delayed delivery basis.
- WI/DD Purchased on a when-issued or delayed delivery basis.
- Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration, which are normally those transactions with qualified institutional buyers.
- ADR American Depositary Receipt.
- CORTS Corporate Backed Trust Securities.
- PPLUS PreferredPlus Trust.
- TBD Senior Loan purchased on a when-issued or delayed-delivery basis. Certain details associated with this purchase are not known prior to the settlement date of the transaction. In addition, Senior Loans typically trade without accrued interest and therefore a weighted average coupon rate is not available prior to settlement. At settlement, if still unknown, the Borrower or counterparty will provide the Fund with the final weighted average coupon rate and maturity date.
