NON CASH INVESTING AND FINANCING ACTIVITIES

During the nine months ended September 30, 2011 and 2010, the Company issued approximately 0.6 million and 0.8 million shares out of treasury stock, net of forfeitures, respectively, for stock-based compensation exercises and vesting and distributions of deferred compensation related to the employee stock trust.

Table of Contents

GLEACHER & COMPANY, INC.

CONSOLIDATED STATEMENTS OF CASH FLOWS

(Unaudited)

During the nine months ended September 30, 2011 and 2010, the Company issued approximately 2.3 million and 5.2 million, respectively, shares of common stock for settlement of stock-based compensation awards.

The fair value of non-cash assets acquired and liabilities assumed in the ClearPoint Funding, Inc. acquisition on January 3, 2011 were \$51.6 million and \$49.9 million, respectively (See Note 11).

During the nine months ended September 30, 2010, the Company issued approximately 345,000 shares of common stock to the former shareholders of American Technology Research Holdings, Inc. (AmTech) in connection with a contingent consideration arrangement related to the AmTech acquisition (See Note 17).

The accompanying notes are an integral part
of these consolidated financial statements.

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation

Organization and Nature of Business

Gleacher & Company, Inc. (together with its subsidiaries, the Company) is an independent investment bank that provides corporate and institutional clients with strategic and financial advisory services, including merger and acquisition, restructuring, recapitalization, and strategic alternative analysis, as well as capital raising, research based investment analysis, and securities brokerage services, and, through the Company's acquisition of ClearPoint Funding, Inc. (ClearPoint), which closed on January 3, 2011, engages in residential mortgage lending. The Company offers a diverse range of products through its Investment Banking, Mortgage Backed/Asset Backed & Rates (MBS/ABS & Rates), Corporate Credit and ClearPoint divisions. The Company was incorporated under the laws of the State of New York in 1985 and reincorporated in Delaware in the second quarter of 2010. The Company's common stock is traded on the NASDAQ Global Market (NASDAQ) under the symbol GLCH.

The Company exited the Equities business, effective August 22, 2011. Refer to Note 24 herein for additional information.

Policies and Presentation

The accounting and financial reporting policies of the Company conform to accounting principles generally accepted in the United States of America (GAAP). In preparing the consolidated financial statements in conformity with GAAP management is required to make estimates and assumptions that affect reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. Actual results could be different from these estimates. In the opinion of management, all normal, recurring adjustments necessary for a fair statement of this interim financial information are contained in the accompanying consolidated financial statements. The results for any interim period are not necessarily indicative of those for the full year.

The accompanying consolidated financial statements are presented in accordance with the U.S. Securities and Exchange Commission (SEC) requirements for Quarterly Reports on Form 10-Q and are unaudited. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been omitted. Reference should be made to the Company's audited consolidated financial statements and notes within the Company's Annual Report on Form 10-K for the year ended December 31, 2010 for additional information, including a summary of the Company's significant accounting policies.

Accounting Policy Updates

Loans

The Company accounts for all of ClearPoint's originated residential mortgage loans under the fair value option (FVO) as prescribed by Accounting Standards Codification (ASC) 820 Fair Value Measurements and Disclosures (ASC 820). Upfront costs and fees related to the loans are immediately recognized. Fees earned are recorded within Fees and other within the Consolidated Statements of Operations. All mortgage loans are sold on a servicing-released basis pursuant to various sale contracts. These contracts include recourse provisions related to loan repurchases if certain events occur.

Changes in the fair value of mortgage loans and any related hedging instruments are recorded within Principal transactions within the Consolidated Statements of Operations.

Reclassification

Certain amounts in prior periods have been reclassified to conform to the current year presentation with no impact to previously reported net loss or stockholders' equity. This includes the prior period results of the Equities division, which is now being reported as discontinued operations. Refer to Note 25 herein for additional information.

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Recent Accounting Pronouncements

In September 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-08 Intangibles Goodwill and Other: Testing Goodwill for Impairment (ASU 2011-08), in order to simplify how entities test goodwill for impairment. ASU 2011-08 permit an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of the reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in FASB Topic 350. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with early adoption permitted. The Company does not expect the adoption of ASU 2011-08 to have a material impact on the Company's consolidated financial statements.

In June 2011, the FASB issued ASU No. 2011-05, Presentation of Comprehensive Income (ASU 2011-05), in order to improve the comparability, consistency, and transparency of financial reporting and to increase prominence of items reported in other comprehensive income. The amendments in this ASU include the requirement that all nonowner changes in stockholders' equity be presented in a single continuous statement of comprehensive income or in two separate but consecutive statements, and eliminates the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity. ASU 2011-05 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Since the amendments primarily impact presentation of financial information, the Company does not expect the adoption of ASU 2011-05 to have a material impact on the Company's consolidated financial statements.

In May 2011, the FASB issued ASU No. 2011-04 Fair Value Measurements: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS (ASU 2011-04), in order to develop common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP and International Financial Reporting Standards (IFRS). The amendments in this ASU include clarification of (i) the application of the highest and best use valuation premise concepts and specifies that such concepts are relevant only when measuring the fair value of nonfinancial assets, (ii) the requirement to measure certain instruments classified in stockholders' equity at fair value, such as equity interests issued as consideration in a business combination and (iii) disclosure requirements regarding quantitative information about the unobservable inputs used in a fair value measurement that is categorized within Level 3 of the fair value hierarchy. In addition, ASU 2011-04 changes particular principles or requirements for measuring fair value or for disclosing information about fair value measurements, including (a) measuring the fair value of financial instruments that are managed within a portfolio by permitting entities to measure such financial instruments on a net basis if such entities manage such financial instruments on the basis of their net exposure, (b) clarifying that premiums or discounts related to size as a characteristic of the reporting entity's holding (specifically, a blockage factor) rather than as a characteristic of the asset or liability (for example, a control premium) are not permitted in a fair value measurement and (c) the expansion of disclosures about fair value measurements, including the valuation processes of financial instruments categorized within Level 3 of the fair value hierarchy and sensitivity of the fair value measurement to changes in unobservable inputs and the interrelationships between those unobservable inputs, if any. ASU 2011-04 is effective during interim and annual periods beginning after December 15, 2011. The Company is currently evaluating the impact of ASU 2011-04 on the Company's consolidated financial statements.

In April 2011, the FASB issued ASU No. 2011-03 Transfers and Servicing: Reconsideration of Effective Control for Repurchase Agreements (ASU 2011-03), in order to improve the accounting for repurchase agreements and other agreements that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. The amendments in this ASU remove from the assessment of effective control

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

(i) the criterion requiring the transferor to have the ability to repurchase or redeem financial assets on substantially the agreed terms, even in the event of default by the transferee, and (ii) the collateral maintenance implementation guidance related to that criterion. ASU 2011-03 is effective for the first interim or annual period beginning on or after December 15, 2011. The Company does not expect the adoption of ASU 2011-03 to have a material impact on the Company's consolidated financial statements.

In December 2010, the FASB issued ASU No. 2010-29, Disclosure of Supplementary Pro Forma Information for Business Combinations (ASU 2010-29), in order to address diversity in practice about the interpretation of the pro forma revenues and earnings disclosure requirements for business combinations. The amendments in this ASU

Table of Contents

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

specify that if a public entity presents comparative financial statements, the entity should disclose revenues and earnings of the combined entity as though the business combination(s) that occurred during the current period had occurred as of the beginning of the comparable prior annual period only. ASU 2010-29 is effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 31, 2010. The adoption of ASU 2010-29 did not affect the Company's financial condition, results of operations or cash flows. Refer to Note 11 herein which includes the disclosures as required by this ASU.

In December 2010, the FASB issued ASU No. 2010-28, "When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts" (ASU 2010-28), in order to address questions about entities with reporting units with zero or negative carrying amounts as some entities concluded that Step 1 of the test is passed in those circumstances because the fair value of their reporting unit will generally be greater than zero. For reporting units with zero or negative carrying amounts, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists, taking into consideration any adverse qualitative factors indicating that an impairment may exist. ASU 2010-28 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Company does not expect the adoption of ASU 2010-28 to have a material impact on the Company's consolidated financial statements.

In July 2010, the FASB issued ASU No. 2010-20, "New Disclosure Requirements for Finance Receivables and Allowance for Credit Losses" (ASU 2010-20), in order to address concerns about the sufficiency, transparency, and robustness of credit disclosures for finance receivables and the related allowance for credit losses. ASU 2010-20 expands disclosure requirements regarding allowance, charge-off and impairment policies, information about management's credit assessment process, additional quantitative information on impaired loans and rollforward schedules of the allowance for credit losses and other disaggregated information. New disclosures are required for interim and annual periods ending after December 15, 2010, although the disclosures of reporting period activity (e.g., allowance rollforward) are required for interim and annual periods beginning after December 15, 2010. The Company's adoption of ASU 2010-20 did not materially change current disclosures, and since these amended principles require only additional disclosure, the adoption of ASU 2010-20 did not affect the Company's financial condition, results of operations or cash flows.

In March 2010, the FASB issued ASU 2010-11, "Scope Exception Related to Embedded Credit Derivatives" (ASU 2010-11). ASU 2010-11 clarifies and amends the accounting for credit derivatives embedded in beneficial interests in securitized financial assets and eliminates the scope exception for embedded credit derivatives (except for those that are created solely by subordination). Bifurcation and separate recognition may be required for certain beneficial interests that are not accounted for at fair value through earnings. The Company adopted ASU 2010-11 on July 1, 2010. The adoption did not have a material impact on the Company's consolidated financial statements as the majority of the Company's assets are recorded at fair value through earnings.

Table of Contents

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

2. (Loss)/Earnings Per Common Share

The Company calculates its basic and diluted (loss)/earnings per share in accordance with ASC 260, Earnings Per Share. Basic (loss)/earnings per share is computed based upon weighted-average shares outstanding during the period. Dilutive (loss)/earnings per share is computed consistently with the basic computation while giving effect to all dilutive potential common shares and common share equivalents that were outstanding during the period. The Company uses the treasury stock method to reflect the potential dilutive effect of unvested stock awards, warrants, and unexercised options. The weighted average shares outstanding were calculated as follows:

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Weighted average shares for basic (loss)/earnings per share	123,993	121,773	123,598	120,577
Effect of dilutive common share equivalents				
Weighted average shares and dilutive common share equivalents for dilutive (loss)/earnings per share	123,993	121,773	123,598	120,577

The Company was in a net loss position for the three and nine months ended September 30, 2011 and 2010 and therefore excluded approximately 10.1 million and 4.8 million, respectively, shares underlying stock options and warrants, 6.7 million and 13.8 million, respectively, shares of restricted stock, and 6.6 million and 6.2 million, respectively, shares underlying restricted stock units (RSUs) from its computation of dilutive loss per share because they were anti-dilutive.

3. Cash and Cash Equivalents

The Company has defined cash equivalents as highly liquid investments, with original maturities of less than 90 days that are not segregated for regulatory purposes or held for sale in the ordinary course of business. At September 30, 2011 and December 31, 2010, cash equivalents were approximately \$20.4 million and \$13.0 million, respectively. Cash and cash equivalents of approximately \$19.2 million and \$36.4 million at September 30, 2011 and December 31, 2010, respectively, were held at one financial institution.

4. Cash and Securities Segregated for Regulatory Purposes

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

In November 2010, Gleacher & Company Securities, Inc. (Gleacher Securities) began self-clearing its trading activities in U.S. government securities (the Rates business) and is therefore subject to the Customer Protection rules under Rule 15c3-3 promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act). At September 30, 2011 and December 31, 2010, the Company segregated cash of \$4.0 million and \$0.1 million respectively, in a special reserve bank account for the exclusive benefit of customers pertaining to the results of the activities of the Company's Rates business and outstanding checks issued to customers and vendors when the Company was previously conducting self-clearing in prior years.

5. Resale and Repurchase Agreements

Transactions involving sales of securities under agreements to repurchase (repurchase agreements) or purchases of securities under agreements to resell (resale agreements) are presented on a net-by-counterparty basis when a legal right of offset exists. Refer to Note 1 within the footnotes to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 for additional information related to the Company's accounting policies for these agreements.

Table of Contents

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

At September 30, 2011 and December 31, 2010, the fair value of financial instruments received as collateral by the Company that it was permitted to deliver or repledge in connection with resale agreements was approximately \$493.4 million and \$86.8 million, respectively, of which \$399.8 million was repledged in the form of repurchase agreements at September 30, 2011. The Company had no outstanding repurchase agreements at December 31, 2010.

6. Receivables from and Payables to Brokers, Dealers, and Clearing Organizations

Amounts receivable from and payable to brokers, dealers and clearing organizations consists of the following:

(In thousands of dollars)	September 30, 2011	December 31, 2010
Deposits with clearing organizations	\$ 13,515	\$ 11,511
Receivable from clearing organizations	5,864	13,226
Underwriting and syndicate fees receivable		590
Commissions receivable		394
Total receivables	\$ 19,379	\$ 25,721
Payable to brokers, dealers and clearing organizations	1,393,621	1,101,440
Total payables	\$ 1,393,621	\$ 1,101,440

Included within deposits with clearing organizations at September 30, 2011 and December 31, 2010 is a deposit with the Fixed Income Clearing Corporation (FICC) of approximately \$12.2 million and \$10.3 million, respectively, related to the Company's self-clearing activities associated with the Rates business.

Securities transactions are recorded on their trade date as if they had settled. The related amounts receivable and payable for unsettled securities transactions are recorded net, by clearing organization, in Receivables from or Payables to brokers, dealers and clearing organizations in the Consolidated Statements of Financial Condition.

The clearing organizations may re-hypothecate all securities held on behalf of the Company.

7. Receivables from and Payables to Others

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

Amounts Receivable from and Payable to others consist of the following:

(In thousands of dollars)	September 30, 2011	December 31, 2010
Interest receivable	\$ 7,550	\$ 7,131
Principal paydowns Agency mortgage-backed securities	4,245	1,052
Investment banking and advisory fees receivable	1,467	7,755
Loans and advances	512	1,007
Management fees receivable	145	119
Others	1,298	1,219
Total receivables from others	\$ 15,217	\$ 18,283
Payable to employees for the Employee Investment Funds (see Note 10)	\$ 977	\$ 1,007
Customer deposits held in escrow ClearPoint	402	
Draft payables	251	978
Others	1,243	362
Total payables to others	\$ 2,873	\$ 2,347

The Company maintains a group of zero balance bank accounts which are included in Payable to others in the Consolidated Statements of Financial Condition. Drafts payable represent the balance in these accounts related to outstanding checks that have not yet been presented for payment at the bank. The Company has sufficient funds on deposit to clear these checks, and these funds will be transferred to the zero-balance accounts upon presentment.

(Unaudited)

8. Financial Instruments

Refer to Note 1 within the footnotes to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 for a detailed discussion of accounting policies related to the Company's securities transactions and derivative financial instruments. In addition, the Company has elected to apply the FVO to all residential mortgage loans originated by ClearPoint.

The Company's financial instruments are recorded within the Consolidated Statements of Financial Condition at fair value. ASC 820 defines fair value as the price that would be received upon the sale of an asset or paid upon the transfer of a liability (*i.e.*, the exit price) in an orderly transaction between market participants at the measurement date and establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1: Quoted prices in active markets that the Company has the ability to access at the reporting date, for identical assets or liabilities. Prices are not adjusted for the effects, if any, of the Company holding a large block relative to the overall trading volume (referred to as a blockage factor).

Level 2: Directly or indirectly observable prices in active markets for similar assets or liabilities; quoted prices for identical or similar items in markets that are not active; inputs other than quoted prices (e.g., interest rates, yield curves, credit risks, volatilities); or market corroborated inputs.

Level 3: Unobservable inputs that reflect management's own assumptions about the assumptions market participants would make.

The availability of observable inputs can vary from product to product and is affected by a wide variety of factors, including, for example, the type of product, whether the product is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by management in determining fair value is greatest for instruments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

ASC 820 also provides (i) general guidance on determining fair value when markets are inactive including the use of judgment in determining whether a transaction in a dislocated market represents fair value, the inclusion of market participant risk adjustments when an entity significantly adjusts observable market data based on unobservable inputs, and the degree of reliance to be placed on broker quotes or pricing services as well as (ii) additional guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly declined and guidance on identifying circumstances that indicate a transaction is not orderly.

Fair Valuation Methodology

Cash Equivalents These financial assets represent cash in banks or cash invested in highly liquid investments with original maturities less than 90 days that are not segregated for regulatory purposes or held for sale in the ordinary course of business. These investments are valued at par, which represent fair value, and are considered Level 1. Refer to Note 3 herein for additional information.

Table of Contents

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Loans These financial instruments primarily consist of residential mortgage loans originated by ClearPoint, for which the FVO has been elected, and are classified as Level 2 as there is no quoted market for these loans. Fair value is determined utilizing observable market factors and is principally based upon the fair value of the to-be-announced (TBA) forward securities market (See Derivatives below).

Securities Owned/Securities Sold But Not Yet Purchased These financial instruments primarily consist of investments in fixed income securities, as well as holdings in equity securities.

Fixed income securities include securities traded in active markets, such as U.S. government and federal agency obligations, agency mortgage-backed securities, corporate debt, preferred stock and certain asset and mortgage-backed securities. The on-the-run treasuries are generally traded in active, quoted and highly liquid markets and therefore are generally classified as Level 1. As there is no quoted market for agency mortgage-backed securities, corporate debt, asset and mortgage-backed securities, and certain preferred stock, the Company utilizes observable market factors in determining fair value. These financial instruments are reported as Level 2. In certain circumstances, the Company may utilize unobservable inputs that reflect management's own assumptions about the assumptions market participants would make. These financial assets are reported as Level 3.

In determining fair value for Level 2 financial instruments, management utilizes benchmark yields, reported trades for comparable trade sizes, recent purchases or sales of the financial assets, issuer spreads, benchmark securities, bids and offers. These inputs relate either directly to the financial assets being evaluated or indirectly to a similar security (for example, another bond of the same issuer or a bond of a different issuer in the same industry with similar maturity, terms and conditions). Additionally, for certain mortgage-backed securities, management also considers various characteristics such as the issuer, underlying collateral, prepayment speeds, cash flows and credit ratings.

In determining fair value for Level 3 financial instruments, management maximizes the use of market observable inputs when available. Management utilizes factors such as bids that were received, recent purchases or sales of the financial assets, spreads to the yield curve on similar offered financial assets, or comparing spreads to similar financial assets that traded and had been priced through an independent pricing source. Management considers these pricing methodologies consistent with assumptions in how other market participants value certain financial assets. These pricing methodologies involve management judgment and lead to a Level 3 classification.

Unrestricted equity securities traded in active markets are valued at quoted market prices and are reported as Level 1. Equity securities that are subject to legal restrictions on transfer are classified as Level 2. When quoted prices are not available, valuation models are applied to these financial assets. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments' complexity. Accordingly, these financial assets are reported as Level 3.

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

Derivatives These financial instruments primarily consist of TBAs, exchange treasury futures contracts and interest rate lock commitments (IRLCs).

TBA and exchange traded treasury futures contracts: In connection with mortgage-backed and U.S. government securities trading, and the mortgage lending activities of ClearPoint, the Company economically hedges certain exposures through the use of TBAs and exchange treasury futures contracts. A TBA is a forward mortgage-backed security whose collateral remains to-be-announced until just prior to the trade settlement. TBAs and exchange traded treasury futures contracts are traded in an active quoted market and therefore generally classified as Level 1.

IRLCs: The Company enters into mortgage loan IRLCs in connection with its mortgage lending activities. The fair value of the IRLCs are determined on an individual loan basis and are based on investor pricing tables stratified by product, note rate and term and considers the servicing release premium, expected loan origination fees and costs and loan pricing adjustments specific to each loan. The Company also applies an estimated rate of closure based on historical experience in determining the notional amount of the loans expected to be funded. All of these factors combined results in the classification of the IRLCs as Level 3.

Investments These financial assets primarily represent the Company's investment in FA Technology Ventures, L.P. (FATV or the Partnership), a venture capital limited partnership which provides early stage growth capital to companies in the information and new energy technology sectors. Valuation techniques applied by FATV GP

Table of Contents

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

LLC (the General Partner) to the underlying portfolio companies predominantly include consideration of comparable market transactions and the use of valuation models to determine the discounted value of estimated future cash flows, adjusted as appropriate for market and/or other risk factors. In addition, certain portfolio companies are valued based upon quoted market prices. This investment is classified as Level 3 as the majority of the valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments' complexity.

The following tables summarize the categorization of the financial instruments within the fair value hierarchy including those for which the Company accounts for under the FVO, at September 30, 2011:

(In thousands of dollars)	Assets at Fair Value				Total
	Level 1	Level 2	Level 3		
Financial instruments owned					
Agency mortgage-backed securities	\$	\$ 1,368,172	\$ 1,048	\$	1,369,220
U.S. Government and federal agency obligations	90,622	52,325			142,947
Commercial mortgage-backed securities		4,451	27,716		32,167
Loans		99,169			99,169
Residential mortgage-backed securities			32,895		32,895
Corporate debt securities		15,574			15,574
Other debt obligations			18,909		18,909
Collateralized debt obligations			646		646

(In thousands of dollars)	Liabilities at Fair Value				Total
	Level 1	Level 2	Level 3		
Securities sold but not yet purchased					
U.S. Government and federal agency obligations	\$ 175,114	\$	\$	\$	175,114
Corporate debt securities		10,783			10,783
Preferred stock		62			62
Derivatives	2,134				2,134
Total financial liabilities at fair value	\$ 177,248	\$ 10,845	\$	\$	188,093

Included below is a discussion of the characteristics of certain of the Company's Level 2 and Level 3 holdings at September 30, 2011. Unless otherwise stated, fair value of Level 2 assets are determined based upon observable third party information including recent trading activity, broker quotes and other relevant market data as noted above. Fair value for Level 3 assets are based predominantly on management's own assumptions about the assumptions market participants would make. The Company generally does not utilize internally developed valuation models to determine fair value during the relevant reporting periods for any holdings other than certain underlying portfolio companies comprising the Company's investment in FATV.

The Company's agency mortgage-backed securities positions classified as Level 2, of approximately \$1.4 billion, have a weighted average loan size of approximately \$0.3 million paying interest of 5.7%, with a weighted average FICO score of 717. This portfolio has a weighted average coupon remitting payment of 5.1% and has a weighted average annualized constant prepayment rate of approximately 18.0%. Fair value is determined through a combination of matrix pricing as well as the information noted in the preceding paragraph.

The Company's net Level 2 U.S. Government and federal agency obligations of approximately \$52.3 million have a weighted average coupon of 3.3% and a weighted average maturity of 2017.

Table of Contents

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The Company's Level 2 commercial mortgage backed securities of approximately \$4.5 million are primarily subordinated tranches, have a weighted average credit rating of A and a weighted average issuance year of 2007.

The Company's Level 2 loans of approximately \$99.2 million (unpaid principal of approximately \$96.1 million), which are related to the mortgage lending activities of ClearPoint and for which the FVO has been elected, have a weighted average loan size of approximately \$0.3 million and have a weighted average coupon remitting payment of 4.2%. Unrealized gains arising from fair value changes were less than \$0.1 million as of September 30, 2011 and have been recorded within Principal transactions within the Consolidated Statements of Operations. There are no loans 90 days or more past due and no loans are in non-accrual status. The loans are underwritten using standards prescribed by conventional mortgage lenders and loan buyers such as the Federal National Mortgage Association and Federal Home Loan Mortgage Corporation.

The Company's net holdings of corporate debt securities classified as Level 2 of approximately \$4.8 million have a weighted average credit rating of BB, have a weighted average issuance year of 2007 and a weighted average maturity of 2030.

The Company's Level 3 agency mortgage-backed securities positions of approximately \$1.0 million have a weighted average loan size of \$0.2 million paying interest of 5.8%, with a weighted average coupon of 5.3% and a weighted average vintage of 2006.

The Company's portfolio of Level 3 commercial mortgage backed securities of approximately \$27.7 million are primarily mezzanine, have a weighted average credit rating of B and a weighted average issuance year of 2006.

The Company's portfolio of Level 3 non-agency residential mortgage backed securities of approximately \$32.9 million are primarily senior tranches, have a weighted average credit rating of BB, and have experienced on average, a weighted average default rate of 2.0% and 49.1% severity.

The Company's other debt obligations reported as Level 3 include holdings of approximately \$18.9 million of asset backed securities, paying interest of 3.1%, with a weighted average credit rating of BB and a weighted average vintage of 2009.

IRLCs are reported as derivatives and are classified as Level 3. Refer to Note 9 herein for additional information.

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

The Company's Investments of approximately \$19.0 million classified as Level 3, include the Company's investment in FATV of approximately \$16.6 million. Refer to Note 10 herein for additional information. FATV invests primarily in equity securities of closely held private companies and also invests in equity securities in public companies. These securities are generally subject to legal restrictions on transfer. FATV is comprised of 20 holdings and fair value is determined based upon the nature of the underlying holdings. The Company has classified its entire investment as Level 3, as FATV is predominantly comprised of private companies.

Discussed further below are the valuation techniques applied to the Company's investments in both privately held and publicly held companies, including the Company's investment in FATV:

- Investments in privately held companies: Valuation techniques include consideration of comparable market transactions (market approach) and utilizing the discounted value of estimated future cash flows, as adjusted for market and/or other risk factors. Relevant inputs include the current financial position and current and projected operating results of the issuer, sales prices of recent public or private transactions in the same or similar securities, significant recent events affecting the issuer, the price paid to acquire the asset, subsequent rounds of financing, completed or pending third-party transactions in the underlying investment or comparable issuers, recapitalizations and other transactions across the capital structure.
- Investments in public companies: Valuation is based on quoted market prices in active markets and adjusted as a result of legal restrictions on transfer, where applicable.

The Company reviews its financial instrument classification on a quarterly basis. As the observability and strength of valuation attributes change, reclassifications of certain financial assets or liabilities may occur between levels. The Company's policy is to utilize an end-of-period convention for determining transfers in or out of Levels 1, 2 and 3. During the three and nine months ended September 30, 2011, there were no transfers between Levels 1 and 2.

9. Derivatives

The Company utilizes derivatives for various economic hedging strategies to actively manage its market and liquidity exposures. In addition, the Company enters into mortgage loan IRLCs in connection with its mortgage lending activities. The following table summarizes the Company's derivative instruments as of September 30, 2011 and December 31, 2010:

(In thousands of dollars)	September 30, 2011			December 31, 2010		
	Number of Contracts	Notional	Fair Value	Number of Contracts	Notional	Fair Value
<i>Purchase Contracts</i>						
TBA purchase agreements	1	\$ 12,000	\$ 7	1	\$ 17,000	\$ 99
U.S. treasury futures contracts						
IRLCs	1,574	318,569	3,349

Table of Contents

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The Company had an investment in FATV of approximately \$16.6 million and approximately \$16.8 million at September 30, 2011 and December 31, 2010, respectively. FATV's primary purpose is to provide investment returns consistent with the risk of investing in venture capital. FA Technology Ventures Corporation, a wholly-owned subsidiary of the Company, is the investment advisor to FATV. As of September 30, 2011, the Company had a commitment to invest an additional \$0.2 million in FATV. At September 30, 2011 and December 31, 2010, total Partnership capital for all investors in FATV equaled \$64.1 million and \$65.0 million, respectively. The Partnership was scheduled to end in July 2011, subject to extension by the vote of a majority of the limited partners, as provided in the limited partnership agreement applicable to the Partnership (the Partnership Agreement). The term of the Partnership was extended for one year pursuant to such provision and is now scheduled to terminate on July 19, 2012. Although the term may be again extended for another one-year period under the Partnership Agreement, the Company currently expects the Partnership to terminate on such date. The Partnership is considered a variable interest entity. The Company is not the primary beneficiary, due to other investors' level of investment in the Partnership. Accordingly, the Company has not consolidated the Partnership in these consolidated financial statements, but has only recorded the fair value of its investment, which also represented the Company's maximum exposure to loss in the Partnership at September 30, 2011 and December 31, 2010. The Company's share of management fee income derived from the Partnership for the three months ended September 30, 2011 and 2010 were \$0.2 million and \$0.1 million, respectively, and were \$0.5 million and \$0.5 million for the nine months ended September 30, 2011 and 2010, respectively.

The Employee Investment Funds (EIF) consist of limited liability companies, established by the Company for the purpose of having select employees invest in private equity securities. The EIF is managed by Broadpoint Management Corp., a wholly-owned subsidiary of the Company, which has contracted with FATV to act as an investment advisor with respect to funds invested in parallel with the Partnership. The Company has consolidated the EIF resulting, in approximately \$1.3 million of Investments and a corresponding Payable to others being recorded in the Consolidated Statements of Financial Condition as of September 30, 2011 and December 31, 2010, respectively. Management fees are not material.

Other investment is an investment in a privately held company.

11. Business Combinations

ClearPoint Funding, Inc. Acquisition

On January 3, 2011, the Company completed its acquisition of ClearPoint. Pursuant to the related Stock Purchase Agreement, a newly formed subsidiary of the Company, Descap Mortgage Funding, LLC (Descap LLC), paid approximately \$0.3 million of cash as transaction consideration for all of the issued and outstanding shares of capital stock of ClearPoint. Descap LLC is also obligated to pay the former stockholder of ClearPoint no more than approximately \$2.0 million payable in installments on the first, second and third anniversaries of the closing date, contingent upon the continued employment of the former stockholder and certain indemnification matters. The Company recorded a bargain purchase gain of approximately \$2.3 million, as the majority of the consideration payable to the former stockholder will be recognized as compensation expense for future services. Therefore, no goodwill was recognized.

12. Goodwill and Intangible Assets

Refer to Note 1 within the footnotes to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 for a detailed discussion of the accounting policy related to goodwill and intangible assets.

Goodwill

The Company has designated its annual goodwill impairment testing dates for its MBS/ABS & Rates, Equities and Investment Banking reporting units to be December 31, October 1, and June 1, respectively. The fair value of the MBS/ABS & Rates reporting unit exceeded its carrying amount as of the last impairment test date.

On August 22, 2011, the Company announced that it was implementing a new strategic plan, which included the realignment of its core investment banking practice and the termination of 32 investment banking employees as well as certain administrative positions. As a result of the realignment of the business and associated employee terminations, the Company performed an interim goodwill impairment test related to the Investment Banking reporting unit.

In addition, during the three months ended June 30, 2011, the Company performed an interim goodwill impairment test related to the Equities reporting unit as a result of the impact of the current market environment on the segment's net revenues coupled with the higher operating costs associated with the expansion of our equities trading and sales trading capabilities announced in the third quarter of 2010. These factors resulted in a shortfall of actual revenues and operating results in relation to current year projections.

The following table sets forth the rollforward of goodwill for the MBS/ABS & Rates, Equities and Investment Banking reporting units at December 31, 2010 and September 30, 2011.

(In thousands of dollars)	Reporting Unit MBS/ABS & Rates	Reporting Unit Equities	Reporting Unit Investment Banking	Total
Goodwill				
Balance at December 31, 2010	\$ 17,364	\$ 8,928	\$ 79,402	\$ 105,694
Impairment of goodwill		(8,928)	(75,670)	(84,598)
Balance at September 30, 2011	\$ 17,364	\$	\$ 3,732	\$ 21,096

The Company considered a combination of the market and income approaches to determine the fair value of its reporting units. Key assumptions utilized in the market approach included the use of multiples of earnings before interest and taxes and earnings before interest, taxes, depreciation and amortization based upon available comparable company market data. The income approach, which is a discounted cash flow analysis, utilized a discount rate which included an estimated cost of debt and cost of equity and capital structure. The outcome of these interim goodwill impairment tests, which relies on significant unobservable inputs to determine the goodwill's fair value, resulted in approximately \$75.7 million of the goodwill allocated to the Investment Banking reporting unit and all of the goodwill of the Equities reporting unit (classified as part of discontinued operations) being written off during the nine months ended September 30, 2011.

During the nine months ended September 30, 2011, there was no contingent consideration associated with the Company's AmTech acquisition as a result of the performance of the division. Refer to Note 17 herein for additional information.

Total Intangible assets	\$ 4,435	\$ 15,565

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

In connection with the interim goodwill impairment tests related to the Investment Banking and Equities reporting units, the Company evaluated the recoverability of the intangible assets allocated to these reporting units, by comparing the sum of the undiscounted cash flows expected to result from the use and eventual disposition of such assets to their carrying amounts. These outcomes resulted in the write-off of approximately \$4.6 million of the intangible assets allocated to the Investment Banking reporting unit during the three months ended September 30, 2011 and all of the intangible assets allocated to the Equities reporting unit (classified as part of discontinued operations) during the three months ended June 30, 2011.

Customer-related intangible assets are being amortized from 3 to 12 years and trademark assets are being amortized over 20 years (with approximately 18 years remaining). Excluding the impairment related to the intangible assets allocated to the Investment Banking and Equities reporting units discussed above, total amortization expense recorded within Other in the Consolidated Statements of Operations for the three months ended September 30,

15. Secured Borrowings

Pursuant to certain master repurchase agreements, ClearPoint was extended secured mortgage warehouse lines of credit in order to fund mortgage originations. These lines of credit carry floating rates of interest and are collateralized by ClearPoint's mortgage loans. Outstanding borrowings were approximately \$93.2 million as of September 30, 2011.

(In thousands of dollars)	Expiration Date	Available Line of Credit
Warehouse line - #1	3/10/2012	\$ 125,000*
Warehouse line - #2	9/5/2012	80,000**
Warehouse line - #3	9/11/2012	50,000
Total		\$ 255,000

* Includes a \$50.0 million line established for loan originations sold directly to this lender.

** Capacity under this warehouse facility was temporarily increased to \$80.0 million on September 26, 2011 and reverts back to \$40.0 million as of November 25, 2011.

ClearPoint is required, among other things, to comply with certain financial covenants, including maintaining (i) a minimum tangible net worth ratio, (ii) a maximum leverage ratio, (iii) limitations on net losses, and (iv) a minimum level of liquid assets. As of September 30, 2011, ClearPoint was in compliance with all financial covenants for these facilities.

Included within Other assets is a cash collateral deposit of approximately \$2.0 million as of September 30, 2011, which is held by the lenders under the mortgage warehouse lines of credit.

16. Mandatorily Redeemable Preferred Stock

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

On September 28, 2010, the Company redeemed all of the issued and outstanding shares of its Series B Mandatorily Redeemable Preferred Stock (Series B Preferred Stock) at a redemption price of approximately \$26.6 million, representing par value, plus all unpaid dividends accruing subsequent to June 30, 2010 (the last payment date), multiplied by a premium call factor of 1.035. In connection with this redemption, the Company recorded a loss on extinguishment of approximately \$1.6 million which included the impact of the premium call factor and the write-off of the remaining discount and deferred financing costs related to the Series B Preferred Stock.

17. Commitments and Contingencies

ClearPoint Acquisition

In connection with the Company's acquisition of ClearPoint on January 3, 2011 the former stockholder of ClearPoint is entitled to receive payments consisting of no more than approximately \$2.0 million payable in installments on the first, second and third anniversaries of the closing date, contingent upon the continued employment of the former stockholder. These payments are to be reduced for certain matters for which the Company is indemnified, including losses resulting from any loan losses with respect to loans presented to ClearPoint or originated on or prior to January 3, 2011. As of September 30, 2011, the Company has accrued approximately \$0.7 million in relation to this obligation which is recorded within Accrued compensation in the Consolidated Statements of Financial Condition.

Table of Contents

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

FA Technology Ventures

As of September 30, 2011, the Company had a commitment to invest up to an additional \$0.2 million in the Partnership. The period for new investments expired in July 2006; however, the General Partner of the Partnership has the right to make capital calls on this commitment for additional investments in existing portfolio companies and expenses of the Partnership, including management fees. The Company intends to fund this commitment from operating cash flow.

The General Partner is responsible for the management of the Partnership, including among other things, making investments for the Partnership. The members of the General Partner include Broadpoint Enterprise Funding, Inc., a wholly owned subsidiary of the Company, and certain other employees of FATV. Subject to the terms of the partnership agreement, under certain conditions, the General Partner is entitled to share in the gains received in respect of the Partnership's investment in a portfolio company.

AmTech Contingent Consideration

In connection with the Company's acquisition of AmTech in October 2008, the sellers have the right to receive earnout payments consisting of the profits earned by the Equities division for fiscal years through October 1, 2011 up to an aggregate of \$15 million in such profits, and 50% of such profits in excess of \$15 million. Based on the results of the Equities division for the nine and twelve months ended September 30, 2011 and December 31, 2010, there was no contingent consideration recorded as additional purchase price in the Consolidated Statements of Financial Condition.

Leases

The Company's headquarters and sales offices, and certain office and communication equipment, are leased under non-cancelable operating leases, certain of which contain renewal options, free rent periods, and escalation clauses, and which expire at various times through 2025. To the extent the Company is provided tenant improvement allowances funded by the lessor, they are amortized over the initial lease period and serve to reduce rent expense. The Company recognizes the rent expense over the entire lease term on a straightline basis.

Future minimum annual lease payments, and sublease rental income as of September 30, 2011, are as follows:

(In thousands of dollars)	Future Minimum Lease Payments		Sublease Rental Income		Net Lease Payments	
2011 (remaining)	\$	2,389	\$	478	\$	1,911
2012		9,432		1,918		7,514
2013		8,894		1,715		7,179
2014		7,067		860		6,207
2015		6,438		502		5,936
Thereafter		49,723				49,723
Total	\$	83,943	\$	5,473	\$	78,470

Rental expense, net of sublease rental income, for the three and nine months ended September 30, 2011 and 2010 approximated \$1.3 million and \$1.2 million, and \$4.3 million and \$7.2 million, respectively. The nine months ended September 30, 2010 includes a termination fee and related commissions of approximately \$3.2 million associated with the Company's termination of its lease of its former headquarters at 12 East 49th Street, New York, New York.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Litigation

Refer to Note 1 within the footnotes to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 for a detailed discussion of the accounting policy related to contingencies.

Due to the nature of the Company's business, the Company and its subsidiaries are exposed to risks associated with a variety of legal proceedings including litigations, arbitrations and other proceedings initiated by private parties and arising from underwriting, financial advisory, securities trading or other transactional activities, client account activities, mortgage lending and employment matters. Third parties who assert claims may do so for monetary damages that are substantial, particularly relative to the Company's financial position.

The Company and its subsidiaries are also subject to both routine and unscheduled regulatory examinations of their respective businesses and investigations of securities industry practices by governmental agencies and self-regulatory organizations. In recent years, securities and mortgage lending firms have been subject to increased scrutiny and regulatory enforcement activity. Regulatory investigations can result in substantial fines being imposed on the Company and/or its subsidiaries. In the ordinary course of business, the Company and its subsidiaries receive inquiries and subpoenas from the SEC, FINRA, state securities regulators and other regulatory organizations. The Company does not always know the purpose behind these communications or the status or target of any related investigation. Some of these communications have, in the past, resulted in disciplinary actions which have sometimes included monetary sanctions, and in the Company and/or its subsidiaries being cited for regulatory deficiencies. To date, none of these communications have had a material adverse effect on the Company's business nor does the Company believe that any pending communications are likely to have such an effect. Nevertheless, there can be no assurance that any pending or future communications will not have a material adverse effect on the Company's business. In addition, the Company is also subject to claims by employees alleging discrimination, harassment or wrongful discharge, among other things, and seeking recoupment of compensation claimed (whether for cash or forfeited equity awards), and other damages.

From time to time, the Company may recognize a liability in its financial statements with respect to legal proceedings when incurrence of a loss is probable and the amount of loss is reasonably estimable. However, accurately predicting the timing and outcome of legal proceedings, including the amounts of any settlements, judgments or fines, is inherently difficult insofar as it depends on obtaining all of the relevant facts (which is sometimes not feasible) and applying to them often-complex legal principles. Based on currently available information, the Company does not believe that any current litigation, proceeding or other matter to which it is a party or otherwise involved will have a material adverse effect on its financial position, results of operations and cash flows, although an adverse development, or an increase in associated legal fees, could be material in a particular period, depending in part on the Company's operating results in that period.

Tender Offer

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

On September 14, 2011, the Company announced the commencement of a modified Dutch auction tender offer. Refer to Note 18 and Note 28 herein for additional information.

Letters of Credit

The Company is contingently liable under bank stand-by letter of credit agreements, executed primarily in connection with office leases, totaling \$4.9 million at September 30, 2011 and \$4.3 million at December 31, 2010. The letter of credit agreements were collateralized by cash of \$4.9 million and \$4.3 million included in Other assets at September 30, 2011 and December 31, 2010, respectively.

Other

The Company, in the normal course of business, provides guarantees to third parties with respect to the obligations of certain of its subsidiaries.

Table of Contents

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In the normal course of business, Gleacher Securities guarantees certain service providers, such as clearing and custody agents, trustees, and administrators, against specified potential losses in connection with their acting as an agent of, or providing services to, the Company or its affiliates. Gleacher Securities also indemnifies some clients against potential losses incurred in the event of non-performance by specified third-party service providers, including subcustodians. The maximum potential amount of future payments that Gleacher Securities could be required to make under these indemnifications cannot be estimated. However, Gleacher Securities has historically made no material payments under these arrangements and believes that it is unlikely it will have to make material payments in the future. Therefore, the Company has not recorded any contingent liability in the consolidated financial statements for these indemnifications.

The Company provides representations and warranties to counterparties in connection with a variety of transactions and occasionally agrees to indemnify them against potential losses caused by the breach of those representations and warranties and occasionally other liabilities. The maximum potential amount of future payments that the Company could be required under these indemnifications cannot be estimated. However, the Company has historically made no material payments under these agreements and believes that it is unlikely it will have to make material payments in the future; therefore it has not recorded any contingent liability in the consolidated financial statements for these indemnifications.

The Company is required to maintain a deposit at the FICC in connection with the self-clearing activities associated with the Rates business, which began in November 2010. The size of the deposit is subject to change from time to time and is dependent upon the volume of business transacted. At September 30, 2011 and December 31, 2010, the Company had a deposit with the FICC of approximately \$12.2 million and \$10.3 million, respectively, which is recorded within Receivable from brokers, dealers and clearing organizations in the Company's Consolidated Statements of Financial Condition.

In the ordinary course of business, ClearPoint indemnifies counterparties, including under its loan sale and warehouse line agreements, against potential losses incurred by such parties in connection with particular arrangements. The maximum potential amount of future payments that ClearPoint could be required to make under these indemnification obligations cannot be estimated. In connection with the Company's acquisition of ClearPoint, the Company is indemnified for any such losses with respect to any loans presented to ClearPoint or originated on or prior to January 3, 2011.

18. Stockholders Equity

Tender Offer

On September 14, 2011, the Company announced the commencement of a modified Dutch auction tender offer to purchase up to 10.0 million shares, or up to 7.84%, of its outstanding common stock at a price of not less than \$1.30 and not more than \$1.55 per share (maximum aggregate

purchase price of \$15.5 million). Refer to Note 28 herein for additional information.

Stock Repurchase (10b-18 Plan)

On October 27, 2010, the Company announced that its Board of Directors approved a stock repurchase program whereby the Company is authorized to purchase shares of its common stock for up to \$25 million, subject to the requirements of Rule 10b-18 under the Exchange Act. This program commenced in 2011. The Company made no purchases during the three months ended September 30, 2011. Purchases made during the nine months ended September 30, 2011, were approximately 5.1 million shares of common stock for approximately \$10.3 million.

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

19. Income Taxes

Refer to Note 1 within the footnotes to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 for a detailed discussion of the accounting policy related to income taxes. During interim periods, the Company calculates and reports an estimated annual effective income tax rate pursuant to ASC 740-270, *Income Taxes - Interim Reporting*.

Three and Nine Months Ended September 30, 2011

The Company's effective income tax rate from continuing operations for the three months ended September 30, 2011 of 3.9% resulted in an income tax benefit of approximately \$3.1 million. The Company's tax rate differs from the federal statutory tax rate of 35% primarily due to non-deductible discrete items primarily associated with the write-off of goodwill related to the Investment Banking division. The effective rate also differs from the statutory rate due to state and local taxes.

The Company's effective income tax rate from continuing operations for the nine months ended September 30, 2011 of negative 6.8% resulted in income tax expense of approximately \$4.2 million. The Company's tax rate differs from the federal statutory tax rate of 35% primarily due to non-deductible discrete items primarily associated with the write-off of goodwill related to the Investment Banking division. The effective rate also differs from the statutory rate due to state and local taxes.

Three and Nine Months Ended September 30, 2010

During the three and nine months ended September 30, 2010, the Company calculated its income tax provision using its actual year to date effective tax rate (discrete rate) rather than its estimated annual effective tax rate. The Company used the discrete rate because a reliable estimate of the annual effective tax rate could not be calculated due to the magnitude of permanent items in relation to a range of possible outcomes of our operating results caused by continued market volatility.

The Company's negative effective income tax rate from continuing operations for the three months ended September 30, 2010 of 395.2% resulted in income tax expense of approximately \$1.3 million. The effective rate differs from the federal statutory rate of 35% primarily due to non-deductible Series B Preferred Stock dividends and the related non-deductible loss on early redemption, a change in the estimate of our apportioned statutory income tax rate, non-deductible share-based compensation, the indemnification revaluation, which is non-deductible for tax, and state and local income taxes. This was partially offset by a reduction in unrecognized tax benefits as a result of a settlement during the

quarter.

The Company's effective income tax rate from continuing operations for the nine months ended September 30, 2010 of 23.8% resulted in an income tax benefit of approximately \$2.1 million. The effective income tax rate differs from the federal statutory rate of 35% primarily due to non-deductible Series B Preferred Stock dividends and the related non-deductible loss on early redemption, and the indemnification revaluation, which is non-deductible for tax purposes. The Company's effective tax rate was offset by state and local income taxes, a reduction in unrecognized tax benefits as a result of a settlement during the quarter and a benefit recorded in the first quarter due to the reversal of prior year non-deductible share-based compensation previously granted to the Company's former Chief Executive Officer (CEO).

There were no significant changes to the Company's unrecognized tax benefits during the nine months ended September 30, 2011.

20. Stock-Based Compensation Plans

Refer to Note 1 within the footnotes to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 for a detailed discussion of the accounting policy related to stock-based compensation.

Table of Contents

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The Company recognized stock-based compensation expense related to its various employee and non-employee director stock-based incentive plans of approximately \$4.1 million and \$7.0 million for the three months ended September 30, 2011 and 2010, respectively, and approximately \$13.4 million and \$30.5 million for the nine months ended September 30, 2011 and 2010, respectively. Stock-based compensation expense recognized for the three and nine months ended September 30, 2011 includes approximately \$1.3 million which has been classified as restructuring expense (refer to Note 24 herein for additional information). Stock-based compensation expense recognized for the nine months ended September 30, 2010 included approximately \$12.7 million of stock-based compensation expense due to the acceleration of expense recognition related to the former CEO's and the former Chief Financial Officer's (CFO) separation from the Company during the first quarter of 2010.

During the three months ended September 30, 2011, the Company granted approximately 0.8 million RSUs, with an average grant date fair value of \$1.45 per RSU, approximately 0.2 million restricted stock awards with an average grant date fair value of \$1.20 per award and approximately 1.1 million options with an average grant date fair value of \$0.91 per award.

Options granted during the three months ended September 30, 2011 have a weighted average exercise price of \$1.46. The Company utilized the Black-Scholes option pricing model to determine the fair value of all options granted. Significant weighted average assumptions used to estimate fair value included expected volatility of 86.9%, expected term of 4.0 years and a risk-free interest rate of 0.82%. All such options expire six years from grant date.

The Company recorded net shortfalls related to stock-based compensation vestings and settlements of approximately \$2.4 million and \$3.8 million as a decrease to Additional paid-in capital during the three and nine months ended September 30, 2011, respectively.

21. Net Capital Requirements

Gleacher Securities is subject to the net capital requirements of Rule 15c3-1 promulgated under the Exchange Act (the Net Capital Rule), as well as the Commodity Futures Trading Commission's net capital requirements (Regulation 1.16), which require the maintenance of a minimum net capital. Gleacher Securities has elected to use the alternative method permitted by the Net Capital Rule, which requires it to maintain a minimum net capital amount equal to the greater of 2% of aggregate debit balances arising from customer transactions (as defined) or \$0.25 million, subject to certain adjustments related to market making activities in certain securities. Based upon the activities of Gleacher Securities, its minimum requirement under Regulation 1.16 is the same as under the Net Capital Rule. As of September 30, 2011, Gleacher Securities had net capital, as defined by both the Net Capital Rule and Regulation 1.16, of \$67.4 million, which was \$67.1 million in excess of the \$0.3 million required minimum net capital.

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

Gleacher Partners, LLC is also subject to the Net Capital Rule. Gleacher Partners, LLC has elected to use the alternative method permitted by the rule, which requires it to maintain a minimum net capital amount of 2% of aggregate debit balances arising from customer transactions as defined or \$0.25 million, whichever is greater. As of September 30, 2011, Gleacher Partners, LLC had net capital, as defined by the Net Capital Rule, of \$0.8 million, which was \$0.5 million in excess of the \$0.3 million required minimum net capital.

22. *Concentrations of Credit and Liquidity Risk*

Concentrations of credit risk can be affected by changes in political, industry, or economic factors. The Company's most significant industry credit concentration is with financial institutions. Financial institutions include other brokers and dealers, commercial banks, finance companies, insurance companies and investment companies. This concentration arises in the normal course of the Company's brokerage, trading, financing, and underwriting activities. To reduce the potential for concentration of risk, credit exposures are monitored in light of changing counterparty and market conditions.

Table of Contents

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The Company may also purchase securities that are individually significant positions within its inventory. Should the Company find it necessary to sell such a security, it may not be able to realize the full carrying value of the security due to the significance of the position sold.

The majority of securities transactions of customers of the Company's broker-dealer subsidiary, Gleacher Securities, are cleared through third parties under clearing agreements. Under these agreements, the clearing agents settle customer securities transactions, collect margin receivables related to these transactions, monitor the credit standing and required margin levels related to these customers and, pursuant to margin guidelines, require the customer to deposit additional collateral with them or to reduce positions, if necessary.

Refer to Note 17 herein within the section labeled "Other" for additional information regarding credit risks of the Company.

23. Fair Value of Financial Instruments

Substantially all of the financial instruments of the Company are reported on the Consolidated Statements of Financial Condition at market or fair value, or at carrying amounts that approximate fair value, because of their short-term nature, with the exception of subordinated debt. Financial instruments recorded at carrying amounts approximating fair value consist largely of Receivables from and Payables to brokers, dealer and clearing organizations, related parties and others, Securities purchased under agreements to resell and Securities sold under agreements to repurchase. The carrying value of the subordinated debt at September 30, 2011 and December 31, 2010 approximated fair value based on current rates available.

24. Restructuring

On August 22, 2011, the Board of Directors of the Company approved a plan to exit the Equities business, effective immediately. The principal reasons for this decision were that the Equities division was an underperforming non-core asset, and that its closure would allow the Company to improve focus and invest in its core competencies. Exiting the Equities business impacted 62 employees. Refer to Note 25 herein for additional information.

The following table summarizes the restructuring charges incurred by the Company for the three months ended September 30, 2011, which have been recorded as a component of discontinued operations:

		Three Months Ended September 30, 2011
(In thousands of dollars)		
<i>Cash charges</i>		
Severance and other compensation	\$	2,572
Third party vendor contracts		1,910
Real estate exit costs		597
Legal and other related costs		597
<i>Non-cash charges</i>		
Stock-based compensation		1,339
Asset impairments		316
Total Restructuring expense*	\$	7,331

* The Company does not expect to incur any additional material charges with respect to this restructuring.

Table of Contents

GLEACHER & COMPANY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table summarizes the changes in the Company's liability related to this restructuring for the three months ended September 30, 2011:

		Three Months Ended September 30, 2011
(In thousands of dollars)		
Balance June 30, 2011	\$	
Restructuring expense		7,331
- Less: Non-cash charges		(1,655)
Payments for severance		(2,516)
Payments for real estate		(68)
Payments for third party vendor contracts		(225)
Payments for legal and other related costs		(516)
Restructuring reserve September 30, 2011	\$	2,351

The restructuring reserve of \$2.4 million as of September 30, 2011 is included within Accrued expenses within the Consolidated Statements of Financial Condition.

25. Discontinued Operations

The Company has classified the results of the Equities division as discontinued operations due to its decision to exit this business on August 22, 2011. Refer to Note 24 herein for additional information.

Amounts reflected in the Consolidated Statements of Operations related to the Equities division are presented in the following table. No gain or loss has been recognized.

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011*	2010	2011*	2010
Net revenues	\$ 2,595	\$ 5,181	\$ 12,794	\$ 15,685
Total expenses (excluding interest)	(11,395)	(7,313)	(38,802)	(18,223)
Loss from discontinued operations before income taxes	(8,800)	(2,132)	(26,008)	(2,538)

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

Income tax benefit		(3,443)		(1,040)		(6,997)		(1,227)
Loss from discontinued operations, net of taxes	\$	(5,357)	\$	(1,092)	\$	(19,011)	\$	(1,311)

*Included within the table above for the three months ended September 30, 2011 is a restructuring charge of \$7.3 million. In addition, the nine months ended September 30, 2011 also includes a goodwill and intangible impairment charge of approximately \$14.3 million.

26. Segment Analysis

Currently, our business model operates through the following four business segments:

- **MBS/ABS & Rates** This division provides sales, trading, research and advisory services on a wide range of mortgage and asset-backed securities, U.S. Treasury and government agency securities, structured products such as CLOs and CDOs, whole loans, and other securities. Revenues are generated from spreads on principal transactions executed to facilitate trades for clients. Revenues are also generated from interest income on securities held primarily for the purpose of facilitating customer trading.
- **Corporate Credit** This division provides analysis, sales and trading on a wide range of debt securities including bank debt and loans, investment grade debt, high-yield debt, treasuries, convertibles, distressed debt, preferred debt, emerging market debt and reorganization equities to corporate and institutional investor clients. The division also provides trade execution services, liability management, corporate debt repurchase programs and new issue distributions. Revenues are generated primarily from spreads on principal and riskless principal transactions, as well as commissions on trades executed on behalf of clients. In addition, revenues are also generated on a smaller scale from interest income on securities held for the primary purpose of facilitating customer trading.
- **Investment Banking** This division was realigned on August 22, 2011 to enhance the Company's position as a leading advisor and to deliver capital raising capabilities of its fixed income businesses to corporate clients. The division is being reorganized around key industry verticals, including real estate, financial services, aerospace and defense, general industrial and financial sponsor coverage. The realignment included the termination of 32 investment banking employees as well as certain administrative positions.
- **ClearPoint** This division originates, processes and underwrites single and multi-family residential mortgage loans within 41 states across the country. The loans are underwritten using standards prescribed by conventional mortgage lenders and loan buyers such as the Federal National Mortgage Association and Federal Home Loan Mortgage Corporation. Revenues are generated primarily from the sale of the residential mortgage loans with servicing released.

The Company's sales and trading revenues consist of revenues derived from commissions, principal transactions and other fee related revenues. Investment banking consists of revenues derived from capital raising and financial advisory services. Investment gains/(losses) primarily reflect gains and losses on the Company's FATV investment.

The Equities segment results have been reclassified as a discontinued operation and is no longer reported below. In connection with this development, the goodwill and intangible asset impairment and any previously reported intangible asset amortization related to the Equities reporting unit which was included within Other has also been reclassified within discontinued operations. The realignment of the Investment Banking segment had no impact on comparability to prior period results.

Items of revenues and expenses not allocated to one of the reportable segments are aggregated under the caption "Other" in the table below.

Included within "Other" are investment gains/(losses) and fees related to the Company's investment in and management of FATV. In addition,

"Other" reflects expenses not directly associated with specific reportable segments, including costs related to corporate overhead and support, such as various fees associated with financing, legal and settlement expenses and amortization of intangible assets from business acquisitions not reported within discontinued operations.

27. Related Party Transactions

From time to time, in the ordinary course of its business, the Company provides investment banking services and brokerage services to MatlinPatterson, a significant stockholder of the Company, or its affiliated persons or entities.

Investment banking revenues from related parties reported in the Consolidated Statements of Operations represents \$0.0 million and \$0.3 million of fees earned for the three months ended September 30, 2011 and 2010, respectively, and \$0.0 million and \$1.6 million for the nine months ended September 30, 2011 and 2010, respectively, for underwriting and advisory engagements performed for MatlinPatterson or its affiliated persons or entities.

During the third quarter of 2009, the Company received a Notice of Proposed Tax Adjustments from the New York City Department of Finance for underpayment by Gleacher Partners, LLC of Unincorporated Business Tax. The Company has an off-setting claim against former pre-acquisition Gleacher stockholders for any pre-acquisition tax liabilities, which is collateralized by shares of its common stock held in an escrow account that was established at the closing of the Company's acquisition of Gleacher Partners, Inc. to satisfy any indemnification obligations. The Company does not believe, in any event, that the open tax years or other pre-acquisition tax matters will have a material adverse effect on its financial position or results of operations. The Company's receivable for this indemnification claim at September 30, 2011 and December 31, 2010 was approximately \$1.2 million and \$1.3 million, respectively.

In connection with the acquisition of Gleacher Partners, Inc., the Company agreed to pay \$10 million to the selling parties over five years after closing the transaction, subject to acceleration under certain circumstances. During the year ended December 31, 2010, the Company paid approximately \$4.9 million of this obligation. The remaining obligation of \$5.1 million as of September 30, 2011 and December 31, 2010, respectively, is recorded as a liability within the Company's Consolidated Statements of Financial Condition.

Details on the amounts receivable from or payable to these various related parties are below:

(In thousands of dollars)	September 30, 2011	December 31, 2010
Receivables from related parties		
Former stockholders of Gleacher Partners, Inc.	\$ 1,239	\$ 1,305

28. Subsequent Events

The Company evaluated subsequent events through the date of issuance of the accompanying consolidated financial statements. There were no events requiring disclosure other than the matter below.

Tender Offer

On November 3, 2011, the Company amended its previously announced modified Dutch auction tender offer to purchase up to 10 million shares, or up to 7.84%, of its outstanding common stock at a price of not less than \$1.30 and not more than \$1.55 (maximum aggregate purchase price of \$15.5 million). Under the amended terms, the Company is now offering to purchase up to 6,000,000 shares, or up to 4.71%, of its outstanding common stock at a price of not less than \$1.25 and not more than \$1.35 per share (maximum aggregate purchase price of \$8.1 million). The tender offer, which was previously set to expire on November 2, 2011, is now set to expire on November 22, 2011, unless further extended or withdrawn.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This document contains or incorporates by reference forward-looking statements. These statements are not historical facts but instead represent the Company's belief or plans regarding future events, many of which, by their nature, are inherently uncertain and outside of the Company's control. The Company often, but not always, identifies forward-looking statements by using words or phrases such as anticipate, estimate, plan, project, target, expect, continuing, ongoing, believe and intend. These statements may contain projections relating to revenues, earnings, operations, other financial measures, economic conditions, trends and known uncertainties, and may include statements regarding the Company's future performance, strategies and objectives. The Company's forward-looking statements are based on facts as the Company understands them at the time the Company makes any such statement as well as estimates and judgments based on these facts, and speak only as of the date on which they are made. The Company's forward-looking statements are not intended to be guarantees and may turn out to be inaccurate for a variety of reasons, many of which are outside of its control. Factors that could render the Company's forward-looking statements subsequently inaccurate include the conditions of the securities markets, generally, and demand for the Company's services within those markets, the risk of further credit rating downgrades of the U.S. government by major credit rating agencies, the impact of international and domestic sovereign debt uncertainties, the possibilities of localized or global economic recession and other risks and factors identified from time to time in the Company's filings with the Securities and Exchange Commission. Moreover, the Company is implementing a strategic plan designed to improve its operating results, and this plan may not be successful. It is possible that future events will differ materially from those suggested by the Company's forward-looking statements. You are cautioned not to place undue reliance on these forward-looking statements. The Company does not undertake to update any of its forward-looking statements.

Any forward-looking statement should be read and interpreted together with these documents, including the following:

- the description of our business contained under Item 1 Business, in the Company's Annual Report on Form 10-K for the year ended December 31, 2010,
- the risk factors contained under Item 1A Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 and the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2011,
- the discussion of our legal proceedings contained in this report under Part II, Item 1 Legal Proceedings,
- the discussion and analysis of our financial condition and results of operations contained in this report under Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations,
- the discussion of market, credit, operational and other risks impacting our business contained in this report under Item 3 Quantitative and Qualitative Disclosures about Market Risk,
- the notes to the consolidated financial statements contained in this report contained in Item 1 Financial Statements, and
- cautionary statements we make in our public documents, reports and announcements.

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

As used herein, the terms Company, Gleacher, we, us, or our, refer to Gleacher & Company, Inc. and its subsidiaries.

Table of Contents

Business Overview

The Company is an independent investment bank that provides corporate and institutional clients with strategic and financial advisory services, including merger and acquisition, restructuring, recapitalization, and strategic alternative analysis, as well as capital raising, research based investment analysis, and securities brokerage services, and, through the Company's acquisition of ClearPoint Funding, Inc. (ClearPoint), which closed on January 3, 2011, engages in residential mortgage lending. The Company offers a diverse range of products through its Investment Banking, Mortgage Backed/Asset Backed & Rates (MBS/ABS & Rates), Corporate Credit and ClearPoint divisions.

On August 22, 2011, the Company announced the implementation of a new strategic plan. The Company continues to service clients through its fixed income business and is realigning and investing in its core investment banking practice. These changes resulted from the Company's previously announced strategic review of its business operations.

The strategic plan is designed to maximize revenue and rationalize expenses by:

- Leveraging the expertise and execution capabilities of the Company's fixed income businesses, including capitalizing on opportunities in the mortgage-backed securities and credit markets;
- Realigning the Company's investment banking practice to enhance the Company's position as a leading advisor and to deliver the capital raising capabilities of its fixed income business to corporate clients;
- Reorganizing around key industry verticals, including real estate, financial services, aerospace and defense, general industrial, and financial sponsor coverage;
- Opportunistically adding new businesses that are synergistic with the Company's core competencies and the needs of its clients; and
- Continuing to build out the Company's national mortgage origination platform through additional investment in ClearPoint.

The Company exited the Equities business, effective August 22, 2011. The Company determined that the Equities division was an underperforming, non-core asset, and that its closure would allow the Company to improve its focus and invest in its core competencies. Exiting the Equities business impacted 62 employees (See Notes 24 and 25 contained in Item 1 of this Quarterly report on Form 10-Q for additional information). The plan also included the termination of 32 investment banking employees as well as certain administrative positions. The Company estimates that annual run rate operating expenses will be reduced by approximately \$40 million, which includes savings related to compensation and benefits, anticipated settlements of leases and other contractual obligations. The expected effects of these savings on future

earnings and cash flows would be partially offset by reduced revenues associated with the impacted businesses.

Currently, we operate through the following four business segments:

- *MBS/ABS & Rates* This division provides sales, trading, research and advisory services on a wide range of mortgage and asset-backed securities, U.S. Treasury and government agency securities, structured products such as CLOs and CDOs, whole loans, and other securities. Revenues are generated from spreads on principal transactions executed to facilitate trades for clients. Revenues are also generated from interest income on securities held primarily for the purpose of facilitating customer trading.
- *Corporate Credit* This division provides analysis, sales and trading on a wide range of debt securities including bank debt and loans, investment grade debt, high-yield debt, treasuries, convertibles, distressed debt, preferred debt, emerging market debt and reorganization equities to corporate and institutional investor clients. The division also provides trade execution services, liability management, corporate debt repurchase programs and new issue distributions. Revenues are generated primarily from spreads on principal and riskless principal transactions, as well as commissions on trades executed on behalf of

Table of Contents

clients. In addition, revenues are also generated on a smaller scale from interest income on securities held for the primary purpose of facilitating customer trading.

- *Investment Banking* As mentioned above, this division was realigned on August 22, 2011 to enhance the Company's position as a leading advisor and to deliver capital raising capabilities of its fixed income businesses to corporate clients. The division is being reorganized around key industry verticals, including real estate, financial services, aerospace and defense, general industrial and financial sponsor coverage. The realignment included the termination of 32 investment banking employees as well as certain administrative positions.
- *ClearPoint* This division originates, processes and underwrites single and multi-family residential mortgage loans within 41 states across the country. The loans are underwritten using standards prescribed by conventional mortgage lenders and loan buyers such as the Federal National Mortgage Association and Federal Home Loan Mortgage Corporation. Revenues are generated primarily from the sale of the residential mortgage loans with servicing released.

The Company also recognizes investment gains/(losses) and earns fees related to the Company's investment in and management of FA Technology Ventures L.P. ("FATV" or "the Partnership") which includes interests in publicly and privately held companies. The Company's results also include expenses not directly associated with specific reportable segments, including amortization of intangible assets from business acquisitions and costs related to corporate overhead and support, such as various fees associated with financing, legal and settlement expenses. Our business is dependent on our ability to attract, develop and retain highly skilled employees who are motivated and committed to providing the highest quality service and guidance to our clients. We continue to focus on unifying our brand, integrating our operations, expanding our business through internal growth and selective hiring of client-facing professionals, and identifying and completing consolidation opportunities.

Refer to Item 7 in the Company's Annual Report on Form 10-K for the year ended December 31, 2010, for additional information regarding material opportunities, challenges and risks related to our business.

Table of Contents

Business Environment in the Third Quarter 2011

The financial markets were highly volatile during the three months ended September 30, 2011 with the Dow Jones Industrial Index experiencing the largest percentage drop in six quarters, declining 12% and the S&P 500 Index falling 14%. These declines over the quarter included 29 days on which these indices rose or fell by more than 1% and 15 days on which they moved more than 2%.

The ongoing uncertainties about the world's developed economies including the fear of a double-dip recession contributed to this volatility. European stocks were particularly affected as fears of a Greek default impacted the balance sheets of European lenders and brought into questions the credit of other sovereigns in the Euro zone. In early August, Standard & Poor's also took the unprecedented step of downgrading the long-term triple-A credit rating of the United States as a result of the debt-ceiling debates in the U.S. Congress, magnifying the tumultuous environment.

These matters, as well as new steps by the Federal Reserve to bolster the economy resulted in long term treasuries increasing dramatically in price and pushing yields to historic lows. Economic uncertainties also resulted in the continued decline of prices of non-agency securities, which impacted our non-agency asset backed securities holdings. In addition, M&A activity continued to lag as a result of the world's economic issues which aren't expected to be resolved anytime soon. M&A volume was down 18% during the quarter and the number of third quarter deals declined 9% from the second quarter.

We expect that market volatility will remain high as a result of the continued uncertainties both in the domestic market and abroad. Accordingly, the results of our operations, which are highly dependent on the environment in which our businesses operates, may not necessarily be indicative of what may be recognized in the future.

Table of Contents

FINANCIAL OVERVIEW

The Company prepares its consolidated financial statements using accounting principles generally accepted in the United States of America (GAAP). These consolidated financial statements are contained within Item 1 of this Quarterly Report on Form 10-Q.

Three Months Ended September 30, 2011 and 2010

For the three months ended September 30, 2011, net revenues were \$54.2 million, compared to \$59.9 million for the three months ended September 30, 2010. The 9.5% decrease in net revenues was due to declines of \$13.8 million in the MBS/ABS & Rates segment, \$5.2 million in the Corporate Credit segment and \$2.4 million in the Investment Banking segment. This was partially offset by net revenues of \$12.7 million at ClearPoint, which commenced operations at the Company on January 3, 2011. Non-interest expenses for the three months ended September 30, 2011 of \$132.9 million reflected an increase of \$72.8 million, or 120.9%, compared to \$60.2 million for the three months ended September 30, 2010, primarily due to \$80.2 million of expense as a result of the impairment of goodwill and intangible assets related to the Investment Banking division and expenses related to ClearPoint of \$13.1 million.

Partially offsetting these increases were lower variable compensation expenses. During the period, the Company began implementing changes to its compensation methodology, which in the third quarter include adjustments to the Company's general policy regarding the vesting and forfeiture provisions of stock-based compensation expected to be granted in connection with annual bonuses. The Company currently expects that the terms of these equity awards will generally provide for a future vesting period. In addition, management currently expects that a larger portion of compensation for leaders of the Company's business segments will be paid in stock-based compensation. These changes had an immediate and favorable effect on pre-tax income from continuing operations for the three and nine months ended September 30, 2011, as the associated compensation expense will be amortized ratably over the future vesting period, rather than being expensed immediately. This effect is expected to diminish over time as compensation expense related to equity grants is amortized in future periods.

As a result of these factors, the Company reported a net loss from continuing operations for the three months ended September 30, 2011 and 2010 of \$75.7 million and \$1.6 million, respectively. Net loss per diluted share from continuing operations for the three months ended September 30, 2011 and 2010 was (\$0.61) and (\$0.01), respectively. Losses from discontinued operations, net of taxes for the three months ended September 30, 2011 and 2010 were \$5.4 million and \$1.1 million, respectively.

Net Revenues

For the three months ended September 30, 2011, net revenues were \$54.2 million compared to \$59.9 million for the three months ended September 30, 2010. Commissions and principal transactions revenues decreased \$9.9 million, or 27.7%, to \$25.8 million for the three months ended September 30, 2011 from \$35.7 million for the three months ended September 30, 2010 due to a decrease of \$15.7 million in the MBS/ABS & Rates segment and \$4.8 million in the Corporate Credit segment. These decreases were partially offset by \$10.7 million of revenue related to the mortgage lending activities of ClearPoint, which commenced operations at the Company on January 3, 2011. Investment banking revenues decreased \$2.4 million, or 20.5%, to \$9.4 million for the three months ended September 30, 2011 and is comprised of advisory fees of \$8.3 million and capital markets fees of \$1.1 million. Investment gains, which represent the change in the value of the Company's investment in FATV, were \$2.9 million for the three months ended September 30, 2011 compared to investment gains of \$1.0 million for the three months ended September 30, 2010. Net interest income of \$13.6 million for the three months ended September 30, 2011 increased \$2.4 million, or 21.1%, compared to the three months ended September 30, 2010. This was due to higher average inventory levels which were partially offset by lower coupon interest received. In addition, the three months ended September 30, 2010 included interest expense of \$0.9 million related to our mandatorily redeemable preferred stock which was redeemed on September 28, 2010. Fees and other revenues of \$2.6 million for the three months ended September 30, 2011 increased \$2.4 million primarily due to fees earned in connection with the mortgage lending activities of ClearPoint.

Table of Contents

Non-Interest Expense

Non-interest expenses for the three months ended September 30, 2011 of \$132.9 million increased \$72.8 million, or 120.9%, compared to \$60.2 million for the three months ended September 30, 2010. The increase was primarily due to \$80.2 million of expense as a result of the impairment of goodwill and intangible assets related to the Investment Banking division, expenses of ClearPoint, which commenced operations at the Company on January 3, 2011, and increased clearing, settlement and brokerage expense, partially offset by lower compensation expenses, each of which are discussed further below.

Compensation and benefits expense decreased \$14.4 million, or 30.5%, to \$32.7 million for the three months ended September 30, 2011. This was primarily due to lower variable compensation expense as a result of lower net revenues in the MBS/ABS & Rates, Corporate Credit and Investment Banking segments, partially offset by compensation expense related to ClearPoint. Variable cash compensation expense was also reduced by \$3.8 million, as annual compensation is expected to be weighted more heavily toward stock-based compensation for leaders of the Company's business segments and members of senior management when compared to the prior year. Compensation expense also decreased by approximately \$1.8 million due to changes in the vesting and forfeiture provisions of stock-based compensation expected to be granted in connection with annual bonus compensation. These changes result in such compensation expense being recognized over a future service period which previously was being recognized in the current year. Partially offsetting these decreases were severance and stock-based compensation expense of \$1.9 million related to the termination of 32 investment banking employees and certain administrative positions in connection with the Company's realignment of the Investment Banking division.

The Company recorded a goodwill and intangible asset impairment charge of \$80.2 million as a result of the realignment of its Investment Banking division (See Note 12 contained in Item 1 of this Quarterly report on Form 10-Q for additional information).

Clearing, settlement and brokerage costs of \$8.9 million for the three months ended September 30, 2011 increased by \$7.9 million compared to the three months ended September 30, 2010. The increase was due primarily to broker fees incurred related to the mortgage lending activities of ClearPoint.

Communications and data processing expense of \$3.6 million for the three months ended September 30, 2011 increased by \$0.6 million compared to the three months ended September 30, 2010. The increase was primarily due to increased market data services expense, including \$0.3 million recognized in connection with the Company's realignment of the Investment Banking division.

Occupancy, depreciation and amortization expense of \$2.0 million for the three months ended September 30, 2011 was relatively unchanged compared to the three months ended September 30, 2010, as cost savings realized due to the consolidation of our offices were offset by occupancy expense related to ClearPoint.

Business development expense of \$1.1 million for the three months ended September 30, 2011 was relatively unchanged compared to the three months ended September 30, 2010.

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

Loss from extinguishment of mandatorily redeemable preferred stock of approximately \$1.6 million recorded during the three months ended September 30, 2010 is related to the Company's early redemption of its Series B Mandatorily Redeemable Preferred Stock ("Series B Preferred Stock") on September 28, 2010 (See Note 16 contained in Item 1 of this Quarterly report on Form 10-Q for additional information).

Other expenses of \$4.3 million for the three months ended September 30, 2011 remained relatively unchanged compared to the three months ended September 30, 2010 as a result of a decrease in other expenses which was offset by expenses related to ClearPoint.

Table of Contents

Income Taxes

The Company's effective income tax rate from continuing operations for the three months ended September 30, 2011 of 3.9% resulted in an income tax benefit of approximately \$3.1 million. The Company's tax rate differs from the federal statutory tax rate of 35% primarily due to non-deductible discrete items primarily associated with the write-off of goodwill related to the Investment Banking division. The effective rate also differs from the statutory rate due to state and local taxes. The Company's tax rate excluding the goodwill write-off is 48.0% for the period which differs from the federal statutory tax rate of 35% primarily due to state and local taxes and non-deductible meals and entertainment.

The Company's negative effective income tax rate from continuing operations for the three months ended September 30, 2010 of 395.2% resulted in income tax expense of approximately \$1.3 million. The Company calculated its income tax provision using its actual year to date effective tax rate (discrete rate) rather than its estimated annual effective tax rate. The effective rate differs from the federal statutory rate of 35% primarily due to non-deductible Series B Preferred Stock dividends and the related non-deductible loss on early redemption, a change in estimate of our apportioned statutory income tax rate, non-deductible share-based compensation, the indemnification revaluation, which is non-deductible for tax purposes, and state and local income taxes. This was partially offset by a reduction in unrecognized tax benefits as a result of a settlement during the quarter. The Company used the discrete rate because a reliable estimate of the annual effective tax rate could not be calculated due to the magnitude of permanent items in relation to a range of possible outcomes of our operating results caused by continued market volatility.

Discontinued Operations

The Company has classified the results of the Equities division as discontinued operations due to its decision to exit this business on August 22, 2011. These results include a restructuring charge of approximately \$7.3 million (See Notes 24 and 25 contained in Item 1 of this Quarterly report on Form 10-Q for additional information).

Segment Highlights

Three Months Ended September 30, 2011 and 2010

For presentation purposes, net revenues within each of the businesses are classified, if applicable, into commissions and principal transactions, investment banking, investment gains/(losses), net interest, and other. Commissions and principal transactions include commissions on agency trades and gains and losses from sales and trading activities. Investment banking includes revenues generated from capital raising through underwritings and private placements of equity and debt securities, and financial advisory service fees in regards to mergers and acquisitions, restructuring and corporate finance related matters. Investment gains/(losses) reflect gains and losses on the Company's FATV investment. Other revenues reflect management fees received from FATV, research fees and fees earned related to residential mortgage lending activities of ClearPoint. Net interest includes interest income net of interest expense and reflects the effect of funding rates on the Company's inventory levels.

MBS/ABS & Rates

(In thousands of dollars)	Three Months Ended September 30,		
	2011	2010	2011 vs. 2010
<i>Net revenues</i>			
Principal transactions	\$ (191)	\$ 15,535	N/A
Net interest	11,647	9,720	20%
Other		33	N/A
Total net revenues	\$ 11,456	\$ 25,288	(55)%
Pre-tax contribution	\$ 3,288	\$ 7,046	(53)%

Table of ContentsMBS/ABS & Rates Q3 2011 vs. Q3 2010

MBS/ABS & Rates net revenues decreased 55% to \$11.5 million for the three months ended September 30, 2011. The decrease in net revenues was attributable to lower principal transactions revenues of \$15.7 million due to lower trading volumes in the current period and losses of approximately \$5.6 million on asset-backed securities (ABS) positions, compared to ABS gains of \$8.2 million in the prior-year period. Partially offsetting this decline was an increase in net interest income of \$1.9 million for the three months ended September 30, 2011 due to higher inventory levels, partially offset by lower coupon interest received. Pre-tax contribution decreased by \$3.8 million for the three months ended September 30, 2011, or 53%, as a result of the decrease in revenues, partially offset by lower variable compensation expense (as a result of the lower revenues), as well as the previously discussed compensation methodology changes.

Corporate Credit

(In thousands of dollars)	Three Months Ended September 30,		
	2011	2010	2011 vs. 2010
<i>Net revenues</i>			
Commissions and Principal transactions	\$ 15,347	\$ 20,109	(24)%
Net interest	181	775	(77)%
Other	167	27	519%
Total net revenues	\$ 15,695	\$ 20,911	(25)%
Pre-tax contribution	\$ 3,481	\$ 1,565	122%

Corporate Credit Q3 2011 vs. Q3 2010

Corporate Credit net revenues decreased by \$5.2 million, or 25%, to \$15.7 million for the three months ended September 30, 2011. Commissions and principal transactions revenues decreased by \$4.8 million for the three months ended September 30, 2011, or 24%, primarily due to lower volumes, which was partially offset by an increase in spreads. While net revenues declined \$5.2 million for the three months ended September 30, 2011, pre-tax contribution increased \$1.9 million, or 122%, primarily due to lower compensation costs as a result of the reduction in revenues, as well as lower compensation expense from the previously discussed compensation methodology changes.

Investment Banking

(In thousands of dollars)	Three Months Ended September 30,		
	2011	2010	2011 vs. 2010
<i>Net revenues</i>			
Investment banking	\$ 9,359	\$ 11,765	(20)%
Other			N/A
Total net revenues	\$ 9,359	\$ 11,765	(20)%
Pre-tax (loss) / contribution	\$ (479)	\$ 3,726	N/A

Investment Banking Q3 2011 vs. Q3 2010

Investment Banking net revenues decreased \$2.4 million, or 20%, to \$9.4 million for the three months ended September 30, 2011. Advisory revenues decreased to \$8.3 million for the three months ended September 30, 2011 from \$11.4 million for the three months ended September 30, 2010. This was partially offset by a slight increase in capital markets revenues, which were \$1.1 million for the three months ended September 30, 2011 compared to \$0.4 million for the three months ended September 30, 2010. Pre-tax (loss)/contribution decreased \$4.2 million for the three months ended September 30, 2011 due to the decrease in revenues as well as compensation and other charges of \$2.5 million in connection with the previously mentioned realignment of the division. Partially offsetting the decrease in pre-tax contribution was the impact of lower variable compensation expense (as a result of the lower revenues), as well as the previously mentioned compensation methodology changes.

Table of Contents

ClearPoint

(In thousands of dollars)	Three Months Ended September 30,		
	2011	2010	2011 vs. 2010
<i>Net revenues</i>			
Principal transactions	\$ 10,660	\$	N/A

Other	2,050		N/A
Total net revenues	\$ 12,743	\$	N/A
Pre-tax loss	\$ (335)	\$	N/A

ClearPoint Q3 2011 vs. Q3 2010

ClearPoint generated \$12.7 million of net revenues for the three months ended September 30, 2011. Warehouse capacity at September 30, 2011 was \$255 million, an increase of \$130 million since June 30, 2011, a result of ClearPoint entering into two new warehouse credit facilities. The pre-tax loss of \$0.3 million was primarily due to recruitment and certain other costs associated with the segment's expansion to conduct business in new states. ClearPoint is currently licensed to conduct business in 41 states, compared to 37 states as of June 30, 2011.

Other

Items of revenues and expense not properly allocated to one of the reportable segments described above are classified (for segment reporting purposes) as Other. These items are set forth in the table below.

(In thousands of dollars)	Three Months Ended September 30,		
	2011	2010	2011 vs. 2010
<i>Net revenues</i>			
Principal transactions	\$ (56)	\$ 6	N/A
Investment gains	2,857	979	192%
Net interest	1,716	715	140%
Other	394	200	97%
Total net revenues	\$ 4,911	\$ 1,900	158%
Pre-tax loss	\$ (84,740)	\$ (12,669)	569%

Other Q3 2011 vs. Q3 2010

Other net revenues of \$4.9 million for the three months ended September 30, 2011 increased \$3.0 million compared to \$1.9 million for the three months ended September 30, 2010. Investment gains, which represent the change in value of the Company's investment in FATV, were \$2.9 million during the three months ended September 30, 2011 compared \$1.0 million for the three months ended September 30, 2010. Net interest

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

income was \$1.7 million for the three months ended September 30, 2011, compared to \$0.7 million for the three months ended September 30, 2010. The change in net interest was primarily due to interest expense no longer being incurred on our mandatorily redeemable preferred stock which was redeemed on September 28, 2010. Pre-tax loss for the three months ended September 30, 2011 of \$84.7 million increased \$72.1 million, or 569% compared to a pre-tax loss of approximately \$12.7 million for the three months ended September 30, 2010, primarily due to the previously mentioned \$80.2 million impairment of goodwill and intangible assets related to the realignment of the Investment Banking division. These items were partially offset by the increase in net revenues, as well as lower variable compensation costs, as annual compensation for members of senior management is expected to be weighted more heavily toward stock-based compensation when compared to the prior year. In addition, charges recorded in the prior period, which are no longer impacting current year results, include \$2.3 million of compensation expense related to the modification of a senior executive's unvested share-based compensation awards and a \$1.6 million loss on extinguishment of the Series B Preferred Stock.

Table of Contents

Nine Months Ended September 30, 2011 and 2010

For the nine months ended September 30, 2011, net revenues were \$199.9 million, compared to \$183.2 million for the nine months ended September 30, 2010. The 9.1% increase in net revenues was due to net revenues of \$26.1 million at ClearPoint, which commenced operations at the Company on January 3, 2011, partially offset by decreased net revenues of \$13.5 million in the Corporate Credit segment and \$4.1 million in the Investment Banking segment. The nine months ended September 30, 2011 also included a gain from bargain purchase of approximately \$2.3 million related to the acquisition of ClearPoint. Non-interest expenses for the nine months ended September 30, 2011 of \$261.6 million increased \$69.4 million, or 36.1%, compared to \$192.2 million for the nine months ended September 30, 2010, primarily due to the previously mentioned goodwill and intangible asset impairment charge of \$80.2 million related to the Investment Banking division and expenses related to ClearPoint of \$29.0 million. Partially offsetting the increase was prior year compensation expense of \$15.6 million associated with the separations of our former CEO and our former Chief Financial Officer (CFO) from the Company and a modification of a senior executive's unvested stock-based compensation awards, lower occupancy expense due to a \$3.2 million charge in the prior year related to the Company's lease termination of its prior headquarters, and lower current year variable compensation.

As previously discussed, during the period, the Company continued making progress on reshaping its compensation methodology to further align the interests of our employees with those of our stockholders. Compensation and benefits expense for the nine months ended September 30, 2011 is reflective of these changes.

As a result of these factors, the Company reported a net loss from continuing operations for the nine months ended September 30, 2011 and 2010 of \$65.8 million and \$6.9 million, respectively. Net loss per diluted share from continuing operations for the nine months ended September 30, 2011 and 2010 was (\$0.53) and (\$0.06), respectively. Losses from discontinued operations, net of taxes for the nine months ended September 30, 2011 and 2010 were \$19.0 million and \$1.3 million, respectively.

Net Revenues

For the nine months ended September 30, 2011, net revenues were \$199.9 million, which included the ClearPoint acquisition gain from bargain purchase of approximately \$2.3 million, compared to \$183.2 million for the nine months ended September 30, 2010. Commissions and principal transactions revenues increased \$6.4 million, or 5.5%, to \$122.4 million for the nine months ended September 30, 2011 from \$116.0 million for the nine months ended September 30, 2010 primarily due to \$22.1 million related to the mortgage lending activities of ClearPoint, which was partially offset by a decrease in the Corporate Credit segment of \$13.3 million and \$2.3 million in the MBS/ABS & Rates segment. Investment banking revenues decreased \$4.0 million, or 11.8%, to \$29.7 million for the nine months ended September 30, 2011 and is comprised of advisory fees of \$21.3 million and capital markets fees of \$8.4 million. Investment gains/(losses), which represent the change in the value of the Company's investment in FATV, were \$2.5 million for the nine months ended September 30, 2011 compared to investment losses of (\$0.5) million for the nine months ended September 30, 2010. Net interest income of \$37.9 million as of September 30, 2011, increased \$4.4 million, or 13.2%, compared to the nine months ended September 30, 2010. This was due to higher average inventory levels which were partially offset by lower coupon interest received. In addition, the nine months ended September 30, 2010 included interest expense related to our mandatorily redeemable preferred stock which was redeemed on September 28, 2010. Fees and other revenues of \$5.1 million for the nine months ended September 30, 2011 increased \$4.5 million primarily due to fees earned in connection with the mortgage lending activities of ClearPoint.

Table of Contents

Non-Interest Expense

Non-interest expenses for the nine months ended September 30, 2011 of \$261.6 million increased \$69.4 million, or 36.1%, compared to \$192.2 million for the nine months ended September 30, 2010. The increase was primarily due to the previously mentioned \$80.2 million of expense as a result of the impairment of goodwill and intangible assets related to the Investment Banking division, expenses of ClearPoint, including increased clearing, settlement and brokerage expense, partially offset by lower compensation and occupancy expense, each of which are discussed further below.

Compensation and benefits expense decreased \$23.7 million, or 15.5%, to \$129.1 million for the nine months ended September 30, 2011, primarily due to \$13.3 million of compensation recorded in the prior year related to the separations of the former CEO and the former CFO from the Company, as well as \$2.3 million related to a modification of a senior executive's unvested share based compensation awards. Compensation and benefits expense also decreased due to lower variable compensation expense as a result of lower net revenues in the Corporate Credit and Investment Banking segments, as well as reduced variable cash compensation of \$6.4 million, as annual compensation is expected to be weighted more heavily toward stock-based compensation for leaders of the Company's business segments and members of senior management when compared to the prior year (which will result in the compensation being charged over a future vesting period). Partially offsetting these decreases were severance and stock-based compensation expense of \$1.9 million related to the previously mentioned Investment Banking realignment, compensation expense of \$1.7 million due to the resignation of the former interim CEO in the second quarter of 2011, as well as compensation expense related to ClearPoint.

The Company recorded a goodwill and intangible impairment charge of \$80.2 million as a result of the realignment of its Investment Banking division (See Note 12 contained in Item 1 of this Quarterly report on Form 10-Q for additional information).

Clearing, settlement and brokerage costs of \$19.0 million for the nine months ended September 30, 2011 increased by \$15.8 million, or 484%, compared to the prior year nine months ended September 30, 2010. The increase was due to broker fees incurred related to the mortgage lending activities of ClearPoint.

Communications and data processing expense of \$10.1 million for the nine months ended September 30, 2011 increased by \$1.4 million compared to the nine months ended September 30, 2010. The increase was due to enhancements to our communications systems and increased market data services expense.

Occupancy, depreciation and amortization expense of \$6.1 million for the nine months ended September 30, 2011 decreased by \$3.4 million compared to the nine months ended September 30, 2010 primarily due to a \$3.2 million charge recorded during the nine months ended September 30, 2010 related to the termination of the Company's lease of its prior headquarters. Cost savings realized due to the consolidation of our offices were offset by occupancy expense related to ClearPoint.

Business development expense of \$3.5 million for the nine months ended September 30, 2011 increased by \$0.3 million, or 8.7%, compared to the nine months ended September 30, 2010 primarily due to expenses related to ClearPoint.

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

Loss from extinguishment of mandatorily redeemable preferred stock of approximately \$1.6 million recorded during the nine month ended September 30, 2010 is related to the Company's early redemption of its Series B Preferred Stock on September 28, 2010 (See Note 16 contained in Item 1 of this Quarterly report on Form 10-Q for additional information).

Other expenses of \$13.6 million for the nine months ended September 30, 2011 increased \$0.3 million, or 2.2% compared to the nine months ended September 30, 2010 primarily due to expenses related to ClearPoint, partially offset by a charge recorded in the prior year of \$0.8 million related to a partial revaluation of an indemnification receivable from the former stockholders of Gleacher Partners, Inc. and a decrease in professional service fees in the current year.

Table of Contents

Income Taxes

The Company's effective income tax rate from continuing operations for the nine months ended September 30, 2011 of negative 6.8% resulted in income tax expense of approximately \$4.2 million. The Company's tax rate differs from the federal statutory tax rate of 35% primarily due to non-deductible discrete items primarily associated with the write-off of goodwill related to the Investment Banking division. The effective rate also differs from the statutory rate due to state and local taxes. The Company's tax rate excluding the goodwill write-off is 49.4% for the period, which differs from the federal statutory tax rate of 35% primarily due to state and local taxes and non-deductible meals and entertainment.

The Company's effective income tax rate from continuing operations for the nine months ended September 30, 2010 of 23.8% resulted in income tax benefit of approximately \$2.1 million. The effective income tax rate is calculated using the discrete rate and differs from the federal statutory rate of 35% primarily due to non-deductible Series B Preferred Stock dividends and the related non-deductible loss on early redemption, and the indemnification revaluation, which is non-deductible for tax purposes. The Company's effective tax rate was offset by state and local income taxes, a reduction in unrecognized tax benefits as a result of a settlement during the quarter and a benefit recorded in the first quarter due to the reversal of prior year non-deductible share-based compensation previously granted to the Company's former Chief Executive Officer (CEO).

Discontinued Operations

The Company has classified the results of the Equities division as discontinued operations due to its decision to exit this business on August 22, 2011. These results include a restructuring charge of approximately \$7.3 million recorded within the three and nine months ended September 30, 2011 and also includes a goodwill and intangible impairment charge of \$14.3 million, which was recorded in the second quarter of 2011 (See Notes 24 and 25 contained in Item 1 of this Quarterly report on Form 10-Q for additional information).

Segment Highlights

Nine Months Ended September 30, 2011 and 2010

For presentation purposes, net revenues within each of the businesses are classified, if applicable, into commissions and principal transactions, investment banking, investment gains/(losses), net interest, and other. Commissions and principal transactions include commissions on agency trades and gains and losses from sales and trading activities. Investment banking includes revenues generated from capital raising through underwritings and private placements of equity and debt securities, and financial advisory service fees in regards to mergers and acquisitions, restructuring and corporate finance related matters. Investment gains/(losses) reflect gains and losses on the Company's FATV investment. Other revenues reflect management fees received from FATV, research fees and fees earned related to residential mortgage lending activities of ClearPoint. Net interest includes interest income net of interest expense and reflects the effect of funding rates on the Company's inventory levels.

MBS/ABS & Rates

(In thousands of dollars)	Nine Months Ended September 30,		
	2011	2010	2011 vs. 2010
<i>Net revenues</i>			
Principal transactions	\$ 52,791	\$ 55,074	(4)%
Net interest	32,825	29,848	10%
Other	15	73	(79)%
Total net revenues	\$ 85,631	\$ 84,995	1%
Pre-tax contribution	\$ 28,143	\$ 28,822	(2)%

Table of Contents

MBS/ABS & Rates - Nine Months Ended September 30, 2011 vs. 2010

MBS/ABS & Rates net revenues increased slightly by 1% to \$85.6 million for the nine months ended September 30, 2011. Net interest income increased \$3.0 million for the nine months ended September 30, 2011 due to increased inventory levels, partially offset by lower coupon interest received. Partially offsetting the increase in net interest income was a decline of \$2.3 million in principal transactions primarily due to lower trading volumes. Pre-tax contribution remained relatively unchanged from the prior year.

Corporate Credit

(In thousands of dollars)	Nine Months Ended September 30,		
	2011	2010	2011 vs. 2010
<i>Net revenues</i>			
Commissions and Principal transactions	\$ 47,502	\$ 60,884	(22)%
Net interest	713	1,152	(38)%
Other	331	49	576%
Total net revenues	\$ 48,546	\$ 62,085	(22)%
Pre-tax contribution	\$ 5,139	\$ 4,389	17%

Corporate Credit - Nine Months Ended September 30, 2011 vs. 2010

Corporate Credit net revenues decreased by \$13.5 million, or 22%, to \$48.5 million for the nine months ended September 30, 2011. Commissions and principal transactions revenues decreased by \$13.4 million for the nine months ended September 30, 2011, or 22%, primarily due to a decrease in spreads, which was partially offset by higher volumes. While net revenues declined \$13.5 million for the nine months ended September 30, 2011, pre-tax contribution increased \$0.8 million. The increase is the result of lower variable compensation expense due to the lower net revenues, as well as lower variable compensation expense resulting from the previously discussed compensation methodology changes.

Investment Banking

(In thousands of dollars)	Nine Months Ended September 30,		
	2011	2010	2011 vs. 2010
<i>Net revenues</i>			
Investment banking	\$ 29,724	\$ 33,689	(12)%
Other		90	N/A
Total net revenues	\$ 29,724	\$ 33,779	(12)%
Pre-tax contribution	\$ 6,250	\$ 9,440	(34)%

Investment Banking - Nine Months Ended September 30, 2011 vs. 2010

Investment Banking net revenues decreased \$4.1 million, or 12%, to \$29.7 million for the nine months ended September 30, 2011. Advisory revenues decreased to \$21.3 million for the nine months ended September 30, 2011 compared to \$24.5 million for the nine months ended September 30, 2010. Capital markets revenues also decreased to \$8.4 million for the nine months ended September 30, 2011 compared to \$9.1 million for the nine months ended September 30, 2010. Pre-tax contribution decreased \$3.2 million, or 34%, primarily due to the lower net revenues as well as compensation and other charges of \$2.5 million in connection with the previously mentioned realignment of the division. Partially offsetting the decrease in pre-tax contribution was lower variable compensation expense (as a result of the reduction in revenues), as well as lower compensation expense resulting from the previously discussed compensation methodology changes.

Pre-tax loss	\$	(2,907)	\$	N/A

ClearPoint - Nine Months Ended September 30, 2011 vs. 2010

ClearPoint generated \$26.1 million of net revenues for the nine months ended September 30, 2011. Warehouse capacity at September 30, 2011 was \$255 million, an increase of \$130 million since the January 3, 2011, as a result of ClearPoint entering into two new warehouse credit facilities. The pre-tax loss of \$2.9 million was primarily due to recruitment and other costs associated with the segment's expansion to conduct business in new states. The segment is currently licensed to conduct business in 41 states, compared to 19 states as of January 3, 2011.

Other

(In thousands of dollars)		Nine Months Ended September 30,		
	2011	2010		2011 vs. 2010
<i>Net revenues</i>				
Principal transactions	\$	(50)	\$	15
Investment gains/(losses)		2,539		(533)
Net interest		4,292		2,497
Gain from bargain purchase ClearPoint Funding, Inc. acquisition		2,330		
Other		811		358
Total net revenues	\$	9,922	\$	2,337
Pre-tax loss	\$	(98,265)	\$	(51,668)

Other - Nine Months Ended September 30, 2011 vs. 2010

Other net revenues of \$9.9 million for the nine months ended September 30, 2011 increased \$7.6 million compared to \$2.3 million for the nine months ended September 30, 2010. The increase included the gain from bargain purchase related to the ClearPoint acquisition. Investment gains/(losses), which represent the change in value of the Company's investment in FATV, improved by \$3.1 million as the results were \$2.5 million during the nine months ended September 30, 2011 compared to (\$0.5) million for the nine months ended September 30, 2010. Net interest income was \$4.3 million for the nine months ended September 30, 2011, compared to \$2.5 million for the nine months ended September 30, 2010. The change in net interest was due to interest expense no longer being incurred on our mandatorily redeemable preferred

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

stock which was redeemed on September 28, 2010, partially offset by increased borrowings with our clearing broker. Pre-tax loss for the nine months ended September 30, 2011 of \$98.3 million increased \$46.6 million, or 90% compared to a pre-tax loss of approximately \$51.7 million, primarily due to the previously mentioned \$80.2 million impairment of goodwill and intangible assets related to the realignment of the Investment Banking division. These items were partially offset by the higher net revenues and lower variable compensation costs, as annual compensation for members of senior management is expected to be weighted more heavily toward stock-based compensation when compared to the prior year. In addition, costs incurred in the prior year, which are no longer impacting current year results, include the previously mentioned compensation expense of \$15.6 million related to the separations of our former CEO and the former CFO from the Company and the modification of a senior executive's unvested share based compensation awards, as well as \$3.2 million of expense related to the Company's lease termination of its prior headquarters in the prior year and a \$1.6 million loss on extinguishment of the Series B Preferred Stock.

Table of Contents

Explanation and Reconciliation of the Company's Use of Non-GAAP Financial Measures

The Company has included certain financial metrics below that were not prepared in accordance with GAAP. These non-GAAP financial measures, which include presentations of net revenues, compensation and benefits, non-compensation expenses, income before income taxes from continuing operations, provision for income taxes, net income from continuing operations, compensation expense ratios, pre-tax margin and diluted earnings per share, are presented as an additional aid in understanding and analyzing the Company's financial results for the three and nine months ended September 30, 2011 and 2010. Specifically, the Company believes that the non-GAAP measures provide useful information by excluding certain items that may not be indicative of the Company's core operating results or business outlook. These non-GAAP amounts exclude charges incurred in connection with the realignment of the investment banking division. Also excluded is the bargain purchase gain related to the ClearPoint acquisition, compensation expenses related primarily to the terminations of former executive officers from the Company and non-compensation expenses that are non-recurring in nature, including a loss on early extinguishment of mandatorily redeemable preferred stock, lease termination expenses related to the closure of our prior headquarters and a partial revaluation of an indemnification receivable from former stockholders of Gleacher Partners, Inc. The Company believes these non-GAAP measures will allow for a better evaluation of the operating performance of the business and facilitate a meaningful comparison of the Company's results in the current period to those in prior periods and future periods. References to these non-GAAP measures should not be considered a substitute for results that are presented in a manner consistent with GAAP.

A limitation of utilizing these non-GAAP financial measures is that the GAAP accounting effects of these excluded items do in fact reflect the underlying financial results of the Company's business and these effects should not be ignored in evaluating and analyzing its financial results. Therefore, the Company believes that non-GAAP measures of net revenues, compensation and benefits, non-compensation expenses, income before income taxes, provision for income taxes, net income from continuing operations, compensation expense ratios, pre-tax margin and diluted earnings per share and the same respective non-GAAP measures of the Company's financial performance should be considered together with their corresponding GAAP measures.

Table of Contents**Reconciliation of GAAP to Non-GAAP Net Income from Continuing Operations (2011 - Unaudited)**

(In thousands, except per share amounts)	Three Months Ended September 30, 2011			Nine Months Ended September 30, 2011

- (6) The effective income tax rate of 60.5% differs from the federal statutory rate of 35% primarily due to non-deductible Series B Preferred Stock dividends and state and local taxes.
- (7) Non-GAAP net income divided by 127.9 million dilutive shares.
- (8) Non-GAAP net income divided by 127.3 million dilutive shares.

Table of Contents**Financial Condition**

The Company's financial instruments owned and investments comprised approximately 72% and 78% of total assets at September 30, 2011 and December 31, 2010, respectively. The Company maintains these positions primarily to facilitate its customer trading activities. The majority of these assets are financed by the Company's clearing agents and, to a lesser extent, through secured borrowings. Payables to brokers, dealers and clearing organizations and secured borrowings comprised approximately 70% and 85% of the Company's total liabilities at September 30, 2011 and December 31, 2010, respectively.

Financial instruments owned (including investments) and securities sold, but not yet purchased consisted of the following:

(In thousands of dollars)	September 30, 2011		December 31, 2010	
	Owned	Sold, but not yet Purchased	Owned	Sold, but not yet Purchased

Refer to Note 1 within the footnotes to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 and Note 8 within the footnotes to the unaudited consolidated financial statements contained in Item 1 of this Quarterly Report on Form 10-Q for further information regarding the Company's accounting policy over valuation of these financial instruments and classification of such financial instruments in accordance with Accounting Standards Codification 820 Fair Value Measurements and Disclosures (ASC 820).

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

The following discussion of the Company's liquidity and capital resources highlights conditions which have changed since December 31, 2010 and should be read in conjunction with the Company's discussion on liquidity and capital resources within the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Liquidity is of paramount importance to our success of operations. The Company manages its liquidity by monitoring its funding and cash flow needs daily and measuring them against available cash levels in order to maintain available cash at its clearing agents so there is liquidity available for operations and for meeting financing obligations even under stressful market conditions. The Company also maintains conservative leverage ratios and generally holds inventory that is readily convertible to cash. The majority of the Company's inventory is financed by our clearing agents and, to a lesser extent, through repurchase agreements. We use these financing sources, and periodically consider others in order to reduce funding/liquidity risk.

ClearPoint finances its residential mortgage lending activities through short term secured mortgage warehouse lines of credit of \$255.0 million which carry floating rates of interest, are collateralized by ClearPoint's loans and expire at varying periods during 2012 (See Note 15 contained in Item 1 of this Quarterly Report on Form 10-Q for additional information). Outstanding borrowings were approximately \$93.2 million as of September 30, 2011. ClearPoint was in compliance with all financial covenants for these facilities as of September 30, 2011 and is seeking to increase its available warehouse capacity by entering into new facilities with additional lenders.

The Company had Cash and cash equivalents of \$41.2 million and \$40.0 million, at September 30, 2011 and December 31, 2010, respectively. In addition, the Company's financial instruments that are readily marketable and actively traded were approximately \$1.6 billion at September 30, 2011 compared to approximately \$1.2 billion at December 31, 2010. These financial instruments are substantially financed by the Company's payable to its clearing broker and secured borrowings. The level of assets and liabilities will fluctuate due to changing market conditions and customer demand.

On September 14, 2011, the Company announced the commencement of a modified "Dutch auction" tender offer to purchase up to 10.0 million shares, or up to 7.84% of its outstanding common stock at a price of not less than \$1.30 and not more than \$1.55 per share (maximum aggregate purchase price of \$15.5 million). The tender offer, which was previously set to expire on November 2, 2011, was amended on November 3, 2011. Under the amended terms, the Company is now offering to purchase up to 6.0 million shares, or up to 4.71% of its outstanding common stock at a price of not less than \$1.25 and not more than \$1.35 per share (maximum aggregate purchase price of \$8.1 million). The tender offer is now set to expire on November 22, 2011, unless further extended or withdrawn.

On August 22, 2011, the Company announced the implementation of a new strategic plan, which included the closure of the Company's Equities business, effective on the date of announcement, and realignment of the Investment Banking division. This resulted in the termination of 62 employees of the Equities division and 32 employees of the Investment Banking division as well as certain administrative positions. In connection with these actions, during the three and nine months ended September 30, 2011, the Company recorded (i) a restructuring charge of approximately \$7.3 million (of which approximately \$1.6 million was a non-cash charge) related to the closure of the Equities business, which was reported as a component of discontinued operations and (ii) approximately \$2.5 million of expenses in connection with the realignment of the Investment Banking division (of which approximately \$1.0 million was a non-cash charge). The Company's remaining liability resulting from the restructuring and realignment is approximately \$2.6 million as of September 30, 2011, and therefore, such actions are not expected to have a significant adverse effect on our liquidity or future sources and uses of capital.

On October 27, 2010, the Company announced that its Board of Directors approved a stock repurchase program, whereby the Company is authorized to purchase shares of its common stock for up to \$25 million. Currently, the primary intended purpose of the repurchase program is to manage dilution related to employee stock-based compensation grants. Stock purchases by the Company may be made from time to time in the open market or in privately negotiated transactions, if and when management determines to effect purchases and as consistent with applicable legal and regulatory requirements. All stock repurchases by the Company shall be subject to the requirements of Rule 10b-18 promulgated under the Exchange Act. As of November 8, 2011, the Company has repurchased 5.1 million shares for approximately \$10.3 million under this program. The authorization under this

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

Table of Contents

program terminates on the date which the Company publicly releases its results of operations for the year ending December 31, 2011.

Regulatory

As of September 30, 2011, each of the Company's registered broker-dealer subsidiaries, Gleacher & Company Securities, Inc. ("Gleacher Securities") and Gleacher Partners, LLC ("Gleacher Partners"), were in compliance with the net capital requirements of the Financial Industry Regulatory Authority ("FINRA"), and, in the case of Gleacher Securities, the National Futures Association ("NFA") as well. The net capital rules restrict the amount of a broker-dealer's net assets that may be distributed. Also, a significant operating loss or extraordinary charge against net capital could compel the Company to make additional contributions to one or more of these subsidiaries or adversely affect the ability of the Company's broker-dealer subsidiaries to expand or maintain their present levels of business and the ability to support the obligations or requirements of the Company. As of September 30, 2011, Gleacher Securities had net capital of \$67.4 million, which exceeded minimum net capital requirements of FINRA and the NFA by \$67.1 million and Gleacher Partners had net capital of \$0.8 million, which exceeded net capital requirements of the FINRA by \$0.5 million.

Derivatives

The Company utilizes derivatives for various economic hedging strategies to actively manage its market and liquidity exposures. In addition, the Company enters into mortgage loan IRLCs in connection with its mortgage lending activities. Refer to Note 9, within the footnotes to the unaudited consolidated financial statements contained in Item 1 of this Quarterly Report on Form 10-Q for additional information.

Contingent Consideration

On October 2, 2008, the Company acquired 100% of the outstanding common shares of American Technology Research Holdings, Inc. Per the stock purchase agreement, the sellers were entitled to receive future contingent consideration consisting of approximately 100% of the profits earned by the Equities division for the three months ended December 31, 2008 and all of fiscal years 2009 and 2010 and up through October 1, 2011, up to an aggregate of \$15 million in profits. The sellers were also entitled to receive earn-out payments consisting of 50% of such profits in excess of \$15 million. All such earn-out payments would be paid 50% in cash and, depending on the recipient thereof, either 50% in Company common stock, subject to transfer restrictions lapsing ratably over the three years following issuance, or 50% in restricted stock under the 2007 Incentive Compensation Plan, subject to vesting based on continued employment. Based on the results of the Equities division for the nine and twelve months ended September 30, 2011 and December 31, 2010, there was no accrued contingent consideration. The earn-out has since expired.

Legal Proceedings

From time to time the Company and its subsidiaries are involved in legal proceedings or disputes. (See Part II Item 1 - Legal Proceedings of this Quarterly Report on Form 10-Q for additional information.)

Expenses associated with investigating and defending against legal proceedings can put a strain on our cash resources. In addition, any fines, penalties, or damages assessed against us, could also impact materially our liquidity. The Company and its subsidiaries are also subject to both routine and unscheduled regulatory examinations of their respective businesses and investigations of securities industry practices by governmental agencies and self-regulatory organizations. In recent years, securities and mortgage lending firms have been subject to increased scrutiny and regulatory enforcement activity. Regulatory investigations can result in substantial fines being imposed on the Company and/or its subsidiaries. In the ordinary course of business, the Company and its subsidiaries receive inquiries and subpoenas from the SEC, FINRA, state securities regulators and other regulatory organizations. The Company does not always know the purpose behind these communications or the status or target of any related investigation. Some of these communications have, in the past, resulted in disciplinary actions which have sometimes included monetary sanctions, and in the Company and/or its subsidiaries being cited for regulatory deficiencies. To date, none of these communications have had a material adverse effect on the Company's business nor does the Company believe that any pending communications are likely to have such an effect. Nevertheless, there can be no assurance that any pending or future communications will not have a material adverse effect on the Company's business. In addition, the Company is also subject to claims by employees alleging discrimination, harassment or wrongful discharge, among

Table of Contents

other things, and seeking recoupment of compensation claimed (whether for cash or forfeited equity awards), and other damages.

Based on currently available information, the Company does not believe that any current litigation, proceeding or other matter to which it is a party or otherwise involved will have a material adverse effect on its financial position, results of operations, and cash flows, although an adverse development, or an increase in associated legal fees, could be material in a particular period, depending in part on the Company's operating results in that period.

Tax Valuation Allowance

No valuation allowance has been provided on the Company's net deferred tax assets at September 30, 2011 and December 31, 2010, as it is more likely than not that they will be realized. Such determination is based upon the projection of future taxable income, as well as the Company's ability to carry back any net operating losses generated in the near future from the reversal of temporary differences.

OFF-BALANCE SHEET ARRANGEMENTS

Certain liabilities or commitments of the Company that are not recorded in the Company's Consolidated Statements of Financial Condition as of September 30, 2011 are identified or described in the Contractual Obligations section which follows and within the footnotes to the unaudited consolidated financial statements contained in Item 1 of this Quarterly Report on Form 10-Q.

CONTRACTUAL OBLIGATIONS

There were no significant changes to the Company's contractual obligations at September 30, 2011 since what was previously reported within Item 2 of the Company's Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2011.

CRITICAL ACCOUNTING POLICIES

Loans

The Company accounts for all of ClearPoint's originated residential mortgage loans under the fair value option (FVO) as prescribed by ASC 820. Upfront costs and fees related to the loans are immediately recognized. Fees earned are recorded within Fees and other within the Consolidated Statements of Operations. All mortgage loans are sold on a servicing-released basis pursuant to various sale contracts. These contracts include recourse provisions related to loan repurchases if certain events occur.

Changes in the fair value of mortgage loans and any related hedging instruments are recorded within Principal transactions within the Consolidated Statements of Operations contained In Item 1 of this Quarterly Report on Form 10-Q.

There are no other material changes to the Company's critical accounting policies from what was previously reported as of December 31, 2010. For a full description of the Company's critical accounting policies, refer to Critical Accounting Policies included within Item 7 of the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Table of Contents

RECENT ACCOUNTING PRONOUNCEMENTS

In September 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-08 Intangibles Goodwill and Other: Testing Goodwill for Impairment (ASU 2011-08), in order to simplify how entities test goodwill for impairment. ASU 2011-08 permit an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of the reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in FASB Topic 350. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with early adoption permitted. The Company does not expect the adoption of ASU 2011-08 to have a material impact on the Company's consolidated financial statements.

In June 2011, the FASB issued ASU No. 2011-05, Presentation of Comprehensive Income (ASU 2011-05), in order to improve the comparability, consistency, and transparency of financial reporting and to increase prominence of items reported in other comprehensive income. The amendments in this ASU include the requirement that all nonowner changes in stockholders' equity be presented in a single continuous statement of comprehensive income or in two separate but consecutive statements, and eliminates the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity. ASU 2011-05 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Since the amendments primarily impact presentation of financial information, the Company does not expect the adoption of ASU 2011-05 to have a material impact on the Company's consolidated financial statements.

In May 2011, the FASB issued ASU No. 2011-04 Fair Value Measurements: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS (ASU 2011-04), in order to develop common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP and International Financial Reporting Standards (IFRS). The amendments in this ASU include clarification of (i) the application of the highest and best use valuation premise concepts and specifies that such concepts are relevant only when measuring the fair value of nonfinancial assets, (ii) the requirement to measure certain instruments classified in stockholders' equity at fair value, such as equity interests issued as consideration in a business combination and (iii) disclosure requirements regarding quantitative information about the unobservable inputs used in a fair value measurement that is categorized within Level 3 of the fair value hierarchy. In addition, ASU 2011-04 changes particular principles or requirements for measuring fair value or for disclosing information about fair value measurements, including (a) measuring the fair value of financial instruments that are managed within a portfolio by permitting entities to measure such financial instruments on a net basis if such entities manage such financial instruments on the basis of their net exposure, (b) clarifying that premiums or discounts related to size as a characteristic of the reporting entity's holding (specifically, a blockage factor) rather than as a characteristic of the asset or liability (for example, a control premium) are not permitted in a fair value measurement and (c) the expansion of disclosures about fair value measurements, including the valuation processes of financial instruments categorized within Level 3 of the fair value hierarchy and sensitivity of the fair value measurement to changes in unobservable inputs and the interrelationships between those unobservable inputs, if any. ASU 2011-04 is effective during interim and annual periods beginning after December 15, 2011. The Company is currently evaluating the impact of ASU 2011-04 on the Company's consolidated financial statements.

In April 2011, the FASB issued ASU No. 2011-03 Transfers and Servicing: Reconsideration of Effective Control for Repurchase Agreements (ASU 2011-03), in order to improve the accounting for repurchase agreements and other agreements that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. The amendments in this ASU remove from the assessment of effective control (i) the criterion requiring the transferor to have the ability to repurchase or redeem financial assets on substantially the agreed terms, even in the event of default by the transferee, and (ii) the collateral maintenance implementation guidance related to that criterion. ASU 2011-03 is effective for the first interim or annual period beginning on or after December 15, 2011. The Company does not expect the adoption of ASU 2011-03 to have a material impact on the Company's consolidated financial statements.

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

In December 2010, the FASB issued ASU No. 2010-29, Disclosure of Supplementary Pro Forma Information for Business Combinations (ASU 2010-29), in order to address diversity in practice about the interpretation of the pro forma revenues and earnings disclosure requirements for business combinations. The amendments in this ASU specify

Table of Contents

that if a public entity presents comparative financial statements, the entity should disclose revenues and earnings of the combined entity as though the business combination(s) that occurred during the current period had occurred as of the beginning of the comparable prior annual period only. ASU 2010-29 is effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 31, 2010. The adoption of ASU 2010-29 did not affect the Company's financial condition, results of operations or cash flows. Refer to Note 11 contained in Item 1 of this Quarterly report on Form 10-Q for additional information which includes the disclosures as required by this ASU.

In December 2010, the FASB issued ASU No. 2010-28, When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts (ASU 2010-28), in order to address questions about entities with reporting units with zero or negative carrying amounts as some entities concluded that Step 1 of the test is passed in those circumstances because the fair value of their reporting unit will generally be greater than zero. For reporting units with zero or negative carrying amounts, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists, taking into consideration any adverse qualitative factors indicating that an impairment may exist. ASU 2010-28 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Company does not expect the adoption of ASU 2010-28 to have a material impact on the Company's consolidated financial statements.

In July 2010, the FASB issued ASU No. 2010-20, New Disclosure Requirements for Finance Receivables and Allowance for Credit Losses (ASU 2010-20), in order to address concerns about the sufficiency, transparency, and robustness of credit disclosures for finance receivables and the related allowance for credit losses. ASU 2010-20 expands disclosure requirements regarding allowance, charge-off and impairment policies, information about management's credit assessment process, additional quantitative information on impaired loans and rollforward schedules of the allowance for credit losses and other disaggregated information. New disclosures are required for interim and annual periods ending after December 15, 2010, although the disclosures of reporting period activity (e.g., allowance rollforward) are required for interim and annual periods beginning after December 15, 2010. The Company's adoption of ASU 2010-20 did not materially change current disclosures, and since these amended principles require only additional disclosure, the adoption of ASU 2010-20 did not affect the Company's financial condition, results of operations or cash flows.

In March 2010, the FASB issued ASU 2010-11, Scope Exception Related to Embedded Credit Derivatives (ASU 2010-11). ASU 2010-11 clarifies and amends the accounting for credit derivatives embedded in beneficial interests in securitized financial assets and eliminates the scope exception for embedded credit derivatives (except for those that are created solely by subordination). Bifurcation and separate recognition may be required for certain beneficial interests that are not accounted for at fair value through earnings. The Company adopted ASU 2010-11 on July 1, 2010. The adoption did not have a material impact on the Company's consolidated financial statements as the majority of the Company's assets are recorded at fair value through earnings.

Table of Contents

GLEACHER & COMPANY, INC.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Given the amount of capital we deploy, the financial products we trade and the large number of counterparties we deal with in our daily transactions, management believes that comprehensive and effective risk management is a key component for our success.

For a full discussion of the Company's market risk management processes and procedures, refer to Item 9 of the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Market Risk

Market risk represents the risk of loss that may result from the potential change in the value of our trading or investment positions, or loans held for sale as a result of fluctuations in interest rates, prepayment speeds, credit spreads and equity prices, as well as changes in the implied volatility of interest rates and equity prices. The Company's exposure to market risk is primarily related to principal transactions executed in order to facilitate customer trading activities and to a lesser extent, loans related to the residential mortgage lending activities of ClearPoint.

The Company trades agency mortgage-backed securities, debt securities issued by U.S. Government and federal agency obligations, non-agency mortgage-backed securities, corporate debt, listed equities and preferred stock and maintains inventories in order to facilitate customer transactions. In addition, the Company originates residential mortgage loans through ClearPoint for resale. In order to mitigate exposure to market risk, the Company enters into derivatives including the sale of TBAs and exchange traded treasury futures contracts, or by selling short U.S. Government securities.

The following table categorizes the Company's market risk sensitive financial instruments:

(In thousands of dollars)	Market Value (net)	
	September 30, 2011	December 31, 2010
Trading risk		
Interest rate	\$ 1,527,772	\$ 1,167,673
Equity		3
Total trading risk	\$ 1,527,772	\$ 1,167,676
Other than trading risk		
Equity	\$ 20,050	\$ 19,205
Interest rate	124	171
Total other than trading risk	20,174	19,376

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

Total market value, net	\$	1,547,946	\$	1,187,052
-------------------------	----	-----------	----	-----------

Refer to Note 1 within the footnotes to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2010, and Note 8 within the footnotes to the unaudited consolidated financial statements contained in Item 1 of this Quarterly Report on Form 10-Q for further information regarding the Company's accounting policy over valuation of these financial instruments and classification of such financial instruments in accordance with ASC 820.

The following is a discussion of the Company's primary market risk exposures as of September 30, 2011.

Interest Rate Risk and Related Prepayment Risk

In connection with trading and residential mortgage lending activities, the Company is exposed to interest rate risk arising from changes in the level or volatility of interest rates or the shape and slope of the yield curve. Interest rate risk exposure is a result of maintaining inventory positions (including originated residential mortgage loans) and trading in interest-rate-sensitive financial instruments. These financial instruments include agency mortgage-backed securities, debt securities issued by U.S. Government and federal agency obligations, non-agency mortgage-backed securities, corporate debt, preferred stock and residential mortgage loans.

Table of Contents

Prepayment risk arises from the possibility that the rate of principal repayment on mortgages will fluctuate, affecting the value of mortgage-backed securities. Prepayments are the full or partial repayment of principal prior to the original term to maturity of a mortgage loan and typically occur due to refinancing of mortgage loans and turnover in housing ownership. Prepayment rates on mortgage-related securities vary from time to time and may cause changes in the amount of the Company's net interest income, the valuations of mortgage-backed securities in inventory and the effectiveness of our interest rate hedging. Prepayments of mortgage loans usually can be expected to increase when mortgage interest rates fall below the then-current interest rates on such loans and decrease when mortgage interest rates exceed the then-current interest rate on such loans, although such effects are uncertain. Prepayment experience also may be affected by the conditions in the housing and financial markets, including the Government Sponsored Entities buying back delinquent loans at par, general economic conditions and the relative interest rates on fixed-rate and adjustable-rate mortgage loans underlying mortgage-backed securities. The purchase prices of mortgage-backed securities are generally based in part upon assumptions regarding the expected rates of prepayments. The Company's mortgage loans related to the residential mortgage lending activities of ClearPoint are subject to prepayment risk, however, these loans tend to be sold within a short period of time subsequent to origination which mitigates this risk to the Company.

The fair market value of these securities included in the Company's inventory at September 30, 2011 and December 31, 2010 was \$1.5 billion and \$1.3 billion, respectively. Interest rate risk is measured as the potential loss in fair value resulting from a hypothetical one-half percent increase in interest rates across the yield curve, including its related effect on prepayment speeds. At September 30, 2011 and December 31, 2010, the potential change in fair value under this stress scenario was a loss of \$9.8 million and \$7.8 million, respectively. Interest rates may increase more than the amount assumed above and consequently, the actual change in fair value may exceed the change computed above.

The following table shows a breakdown of our interest rate exposure on September 30, 2011 and December 31, 2010:

Market value change per one hundredth of one percent interest rate increase

(In thousands of dollars)	September 30, 2011	December 31, 2010
U.S. government and federal agency obligations	\$ 22	\$ 28
Agency mortgage-backed securities	(191)	(151)
Non-agency mortgage-backed securities	(23)	(24)
Corporate debt securities	(3)	(2)
Preferred stock		(6)
Total	\$ (195)	\$ (155)
Average duration (years)	2.04	2.04

Credit Spread and Credit Rating Risk

The Company actively makes markets in various credit instruments, including corporate bonds (both high yield and investment grade), emerging market debt and structured securities (MBS/ABS/CMBS/CDO/CLO). As a consequence, the Company is exposed to credit spread and credit rating changes in these markets. Credit spread and credit rating risk results from changes in the level or volatility of credit spreads, either as a result of macro market conditions (e.g., risk aversion sentiment) or from idiosyncratic development of certain debt issuers or their sectors. The Company is generally not exposed to significant credit risk related to the residential mortgage lending activities of ClearPoint as the loans are underwritten using standards prescribed by conventional mortgage lenders and loan buyers such as the Federal National Mortgage Association and Federal Home Loan Mortgage Corporation.

Table of Contents

The following tables show a breakdown of our exposure in these markets on September 30, 2011 and December 31, 2010:

Credit Sensitive Holdings Market Value as of September 30, 2011

(In thousands of dollars)	Non-agency mortgage- backed securities	Corporate debt securities	Preferred stock	Other debt obligations	Total
Investment grade	\$ 25,937	\$ 2,460	\$ (62)	\$ 13,192	\$ 41,527
Non-investment grade	39,125	2,331		6,363	47,819
Total	\$ 65,062	\$ 4,791	\$ (62)	\$ 19,555	\$ 89,346

Credit Sensitive Holdings Market Value as of December 31, 2010

(In thousands of dollars)	Non-agency mortgage- backed securities	Corporate debt securities	Preferred stock	Other debt obligations	Total
Investment grade	\$ 16,652	\$ 2,293	\$ 8,047	\$ 16,867	\$ 43,859
Non-investment grade	63,523	740	1,865	20,411	86,539
Total	\$ 80,175	\$ 3,033	\$ 9,912	\$ 37,278	\$ 130,398

Equity Price Risk

The Company is exposed to equity price risk to the extent it holds equity securities in inventory. Equity price risk results from changes in the level or volatility of equity prices, which affect the value of equity securities or instruments that derive their value from equity securities. The Company attempts to reduce the risk of loss inherent in its inventory of equity securities by monitoring those security positions throughout each day.

The Company had no significant net long or short positions in marketable equity securities at September 30, 2011 and December 31, 2010. The Company's investment in FATV at September 30, 2011 and December 31, 2010 had a fair market value of \$16.6 million and \$16.8 million, respectively. Equity price risk is estimated as the potential loss in fair value resulting from a hypothetical 10% adverse change in equity security prices or valuations of the underlying portfolio companies. This risk measure, for the Company's investment in FATV amounted to \$1.7 million at September 30, 2011 and \$1.7 million at December 31, 2010. Equity prices may increase more than the amount assumed above, and consequently, the actual change in fair value may exceed the change computed above.

Counterparty Credit Risk

Edgar Filing: GLEACHER & COMPANY, INC. - Form 10-Q

Counterparty credit risk is the risk of loss due to failure of our counterparty to meet its obligations. The Company is engaged in various trading and brokerage activities whose counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the credit worthiness of the counterparty or issuer of the instrument. In order to mitigate this risk, credit exposures are monitored in light of changing counterparty and market conditions.

Agency and principal securities transactions with customers of the Company's subsidiaries, other than the Rates business, are cleared through third party clearing agreements on a fully disclosed basis. Under these agreements, the clearing agents settle customer securities transactions, collect margin receivables related to these transactions, monitor the credit standing and required margin levels related to these customers and, pursuant to margin guidelines, require the customer to deposit additional collateral with them or to reduce positions, if necessary.

In the normal course of business, Gleacher Securities guarantees certain service providers, such as clearing and custody agents, trustees, and administrators, against specified potential losses in connection with their acting as an agent of, or providing services to, the Company or its affiliates. Gleacher Securities also indemnifies some clients against potential losses incurred in the event of non-performance by specified third-party service providers,

Table of Contents

including subcustodians. The maximum potential amount of future payments that Gleacher Securities could be required to make under these indemnifications cannot be estimated. However, Gleacher Securities has historically made no material payments under these arrangements and believes that it is unlikely it will have to make material payments in the future. Therefore, the Company has not recorded any contingent liability in the consolidated financial statements, contained in Item 1 of this Quarterly Report on Form 10-Q, for these indemnifications.

In the ordinary course of business, ClearPoint indemnifies counterparties, including under its loan sale and warehouse line agreements, against potential losses incurred by such parties in connection with particular arrangements. The maximum potential amount of future payments that ClearPoint could be required to make under these indemnification obligations cannot be estimated. In connection with the Company's acquisition of ClearPoint, the Company is indemnified for any such losses with respect to any loans presented to ClearPoint or originated on or prior to January 3, 2011.

The Company is required to maintain a deposit at the Fixed Income Clearing Corporation (the "FICC") in connection with the self-clearing activities associated with the Rates business which began in November 2010. The size of the deposit is subject to change from time to time and is dependent upon the volume of business transacted. At September 30, 2011 and December 31, 2010, the Company had a deposit with the FICC of approximately \$12.2 million and \$10.3 million, respectively, which is recorded within Receivable from brokers, dealers and clearing organizations in the Consolidated Statements of Financial Condition contained in Item 1 of this Quarterly Report on Form 10-Q.

Liquidity and Funding Risk

Liquidity risk is the risk that it takes longer or it is more costly than anticipated to sell inventory to raise cash due to adverse market conditions. Funding liquidity risk is the risk that we are unable to meet margin calls or cash flow needs due to lack of cash or are unable to maintain leveraged positions due to margin calls or reduction in credit lines from lending counterparties.

Liquidity is of paramount importance to our success and operations. Lack of liquidity tends to be the biggest contributor to the rapid failure of financial institutions.

Leverage increases the risks (and potential rewards) we take. To balance this risk/reward equation, we maintain weighted average target leverage ratios well below 10x, so that the risk from leveraging would still be manageable even in the event of market crisis. The table below shows the Company's Inventory to Equity ratio which is calculated by dividing the sum of the Company's Financial instruments owned, at fair value and Investments by Stockholders' Equity as shown on the Company's Consolidated Statements of Financial Condition contained in Item 1 of this Quarterly Report on Form 10-Q.

	September 30, 2011	December 31, 2010
Inventory to Equity Ratio	6.5	3.8

Refer to "Liquidity and Capital Resources" above in Item 2 for further information about our liquidity as of September 30, 2011 and December 31, 2010.

Table of Contents

Item 4. Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, the Company's management, with the participation of the Principal Executive Officer and the Principal Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended). Based on that evaluation, the Company's management, including the Principal Executive Officer and the Principal Financial Officer, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report. In addition, no changes in the Company's internal control over financial reporting occurred during the three months ended September 30, 2011 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

Part II-Other Information

Item 1. Legal Proceedings

The Company is not a party to any legal proceeding required to be disclosed in this Quarterly Report on Form 10-Q per applicable SEC regulations. Moreover, based on currently available information, the Company does not believe that any current litigation, proceeding or other matter to which it is a party or otherwise involved will have a material adverse effect on its financial position, results of operations and cash flows, although an adverse development, or an increase in associated legal fees, could be material in a particular period, depending in part on the Company's operating results in that period.

Item 1A. Risk Factors

Markets have and may continue to experience periods of high volatility. Recent events relating to the European debt crisis and the debt ceiling debates in the U.S. Congress, combined with ongoing uncertainties about the global economic outlook, have led to volatile global markets and challenging economic conditions. Market volatility can lead to unanticipated, severe and rapid depreciation in asset values accompanied by a reduction in asset liquidity. It is impossible to predict the long-term impact of this market and economic environment, whether it will persist or recur, or the extent to which our markets, products and businesses will be adversely affected. These conditions could adversely affect our financial condition and results of operations.

Our business may be adversely affected if we are unable to successfully implement the key elements of our new strategic plan. In August 2011, we announced the implementation of a new strategic plan. Our new strategic plan is designed to maximize revenue and rationalize expenses through a number of new initiatives. We expect to achieve substantial benefit from the implementation of our new strategic plan, but we cannot guarantee that we will obtain these benefits. If we are unable to successfully execute the elements of our strategic plan, our revenues, operating results and profitability may be adversely affected. Even if we successfully implement our plan, there is no assurance that our revenues, operating results and profitability will improve.

ISSUER PURCHASES OF EQUITY SECURITIES(1)

On October 27, 2010, the Company announced that its Board of Directors approved a stock repurchase program, whereby the Company is authorized to purchase shares of its common stock for up to \$25 million. As of November 8, 2011, the Company has repurchased 5.1 million shares for approximately \$10.3 million. The authorization under this program terminates on the date on which the Company publicly releases its results of operations for the year ending December 31, 2011. The following table reflects purchases made by the Company under this program during the third quarter of 2011. The Company made no other purchases of its common stock during the quarter.

Period		(a) Total Number of Shares Purchased(2)	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs(2)	(d) Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs*
Balance	June 30, 2011	5,109,200	\$ 2.02	5,109,200	\$ 14,666,569
July 1, 2011	July 30, 2011				
August 1, 2011	August 31, 2011				
September 1, 2011	September 30, 2011				
Total		5,109,200	\$ 2.02	5,109,200	\$ 14,669,569

* Maximum dollar value of \$25.0 million authorized under the Company's stock repurchase program.

- (1) On September 14, 2011, the Company announced the commencement of a modified Dutch auction tender offer to purchase up to 10.0 million shares, or up to 7.84% of its outstanding common stock at a price of not less than \$1.30 and not more than \$1.55 per share (maximum aggregate purchase price of \$15.5 million). The tender offer, which was previously set to expire on November 2, 2011, was amended on November 3, 2011. Under the amended terms, the Company is now offering to purchase up to 6.0 million shares, or up to 4.71% of its outstanding common stock at a price of not less than \$1.25 and not more than \$1.35 per share (maximum aggregate purchase price of \$8.1 million). The tender is now set to expire on November 22, 2011, unless further extended or withdrawn.
- (2) Pursuant to a stock repurchase program announced on October 27, 2010, whereby the Company is authorized to repurchase up to \$25.0 million of its common stock.
