When-issued or delayed delivery security

All or a portion of this security has been segregated for when-issued or delayed delivery securities.
All or a portion of this security is on loan.

144A Security that may be sold to qualified institutional buyers under Rule 144A of the Securities Act of 1933, as amended. This security has been determined to be liquid under guidelines established by the Board of Trustees, unless otherwise noted.

† Security initially issued in zero coupon form which converts to coupon form at a specified rate and date. An effective interest rate is applied to recognize interest income daily for the bond. This rate is based on total expected interest to be earned over the life of the bond which consists of the aggregate coupon-interest payments and discount at acquisition. The rate shown is the stated rate at the current period end.

* Non-income producing security

< All or a portion of the position represents an unfunded loan commitment.

q Rate shown is the 7-day annualized yield at period end.

ø Evergreen Investment Management Company, LLC is the investment advisor to both the Fund and the money market fund.

All or a portion of this security represents investment of cash collateral received from securities on loan.

Forward Foreign Currency Exchange Contracts to Sell:

<u>Exchange Date</u>	<u>Contracts to Deliver</u>	<u>U.S. Value at January 31, 2008</u>	<u>In Exchange for U.S.\$</u>	<u>Unrealized Loss</u>
03/18/2008	10,484,942 EUR	\$15,547,954	\$15,165,000	\$382,954

On January 31, 2008, the aggregate cost of securities for federal income tax purposes was \$1,240,197,342. The gross unrealized appreciation and depreciation on securities based on tax cost was \$28,241,811 and \$35,360,049, respectively, with a net unrealized depreciation of \$7,118,238.

Valuation of investments

Portfolio debt securities acquired with more than 60 days to maturity are fair valued using matrix pricing methods determined by an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics.

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded.

Investments in open-end mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current market value are valued at fair value as determined by the investment advisor in good faith, according to procedures

approved by the Board of Trustees.

Foreign currency translation

All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of portfolio securities and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for that portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses on investments.

Forward foreign currency contracts

A forward foreign currency contract is an agreement between two parties to purchase or sell a specific currency for an agreed-upon price at a future date. The Fund enters into forward foreign currency contracts to facilitate transactions in foreign-denominated securities and to attempt to minimize the risk to the Fund from adverse changes in the relationship between currencies. Forward foreign currency contracts are recorded at the forward rate and marked-to-market daily. When the contracts are closed, realized gains and losses arising from such transactions are recorded as realized gains or losses on foreign currency related transactions. The Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts or if the value of the foreign currency changes unfavorably.

When-issued and delayed delivery transactions

The Fund records when-issued or delayed delivery securities as of trade date and maintains security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed delivery basis are marked-to-market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

Loans

The Fund may purchase loans through an agent, by assignment from another holder of the loan or as a participation interest in another holder's portion of the loan. Loans are purchased on a when-issued or delayed delivery basis. Interest income is accrued based on the terms of the securities. Fees earned on loan purchasing activities are recorded as income when earned. Loans involve interest rate risk, liquidity risk and credit risk, including the potential default or insolvency of the borrower.

As of January 31, 2008, the Fund had unfunded loan commitments of \$4,191,830.

EVERGREEN MULTI-SECTOR INCOME FUND
SCHEDULE OF INVESTMENTS continued

January 31, 2008 (unaudited)

Securities lending

The Fund may lend its securities to certain qualified brokers in order to earn additional income. The Fund receives compensation in the form of fees or interest earned on the investment of any cash collateral received. The Fund also continues to receive interest and dividends on the securities loaned. The Fund receives collateral in the form of cash or securities with a market value at least equal to the market value of the securities on loan, including accrued interest. In the event of default or bankruptcy by the borrower, the Fund could experience delays and costs in recovering the loaned securities or in gaining access to the collateral. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

Dollar roll transactions

The Fund may enter into dollar roll transactions with respect to mortgage-backed securities. In a dollar roll transaction, the Fund sells mortgage-backed securities to financial institutions and simultaneously agrees to accept substantially similar (same type, coupon and maturity) securities at a later date at an agreed upon price. The Fund will use the proceeds generated from the transactions to invest in short-term investments, which may enhance the Fund's current yield and total return. The Fund accounts for dollar roll transactions as purchases and sales. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform under the terms of the agreement, if the Fund receives inferior securities in comparison to what was sold to the counterparty at redelivery or if there are variances in paydown speed between the mortgage-related pools.

Interest rate swaps

The Fund may enter into interest rate swap agreements to manage the Fund's exposure to interest rates. A swap agreement is an exchange of cash payments between the Fund and another party based on a notional principal amount. Cash payments or receipts are recorded as realized gains or losses. The value of the swap agreements is marked-to-market daily based upon quotations from market makers and any change in value is recorded as an unrealized gain or loss. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform or if there are unfavorable changes in the fluctuation of interest rates.

Credit default swaps

The Fund may enter into credit default swaps. Credit default swaps involve an exchange of a fixed rate premium for protection against the loss in value of an underlying debt instrument in the event of default or bankruptcy. Under the terms of the swap, one party acts as a "guarantor" and receives a periodic stream of payments that is a fixed percentage applied to a notional principal amount over the term of the swap. In return, the counterparty agrees to purchase the notional amount of the underlying instrument, at par, if a credit event occurs during the term of the swap. Periodic payments are recorded as realized gains or losses. Any premiums paid or received on the transactions are recorded as an asset or liability on the Statement of Assets and Liabilities and amortized. The Fund may enter into credit default swaps as either the guarantor or the counterparty.

Swaps are marked-to-market daily based on quotations from market makers and any change in value is recorded as an unrealized gain or loss. Payments received or made as a result of a credit event or termination of the contract are recognized as realized gains or losses. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform, or if there are unfavorable changes in the fluctuation of interest rates or in the price of the underlying security.

Item 2 - Controls and Procedures

Edgar Filing: EVERGREEN MULTI-SECTOR INCOME FUND - Form N-Q

- (a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) within 90 days of this filing and have concluded that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant in this Form N-Q was recorded, processed, summarized, and reported timely.
- (b) There has been no change in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonable likely to materially affect, the registrant's internal control over financial reporting.

Item 3 - Exhibits

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

- (a) Separate certifications for the registrant's principal executive officer and principal financial officer, as required by Rule 30a-2(a) under the Investment Company Act of 1940, are attached as EX-99.CERT.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
