CASTLE BRANDS INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements do not include all of the information and footnote disclosures normally included in financial statements prepared in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC") and U.S. generally accepted accounting principles ("GAAP") and, in the opinion of management, contain all adjustments (which consist of only normal recurring adjustments) necessary for a fair presentation of such financial information. Results of operations for interim periods are not necessarily indicative of those to be achieved for full fiscal years. The condensed consolidated balance sheet as of March 31, 2013 is derived from the March 31, 2013 audited financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with Castle Brands Inc.'s (the "Company") audited consolidated financial statements for the fiscal year ended March 31, 2013 included in the Company's annual report on Form 10-K for the year ended March 31, 2013, as amended ("2013 Form 10-K"). Please refer to the notes to the audited consolidated financial statements included in the 2013 Form 10-K for additional disclosures and a description of accounting policies.

- A. Description of business The consolidated financial statements include the accounts of the Company, its wholly-owned domestic subsidiaries, Castle Brands (USA) Corp. ("CB-USA") and McLain & Kyne, Ltd. ("McLain & Kyne"), the Company's wholly-owned foreign subsidiaries, Castle Brands Spirits Group Limited ("CB-IRL") and Castle Brands Spirits Marketing and Sales Company Limited, and the Company's 60% ownership interest in Gosling-Castle Partners, Inc. ("GCP"), with adjustments for income or loss allocated based upon percentage of ownership. The accounts of the subsidiaries have been included as of the date of acquisition. All significant intercompany transactions and balances have been eliminated.
- B. Organization and operations The Company is principally engaged in the importation, marketing and sale of premium and super premium brands of rums, whiskey, liqueurs, vodka and tequila in the United States, Canada, Europe and Asia.
- C. Equity investments - Equity investments are carried at original cost adjusted for the Company's proportionate share of the investees' income, losses and distributions. The Company assesses the carrying value of its equity investments when an indicator of a loss in value is present and records a loss in value of the investment when the assessment indicates that an other-than-temporary decline in the investment exists. The Company classifies its equity earnings of non-consolidated affiliate equity investment as a component of net income or loss.
- D. Goodwill and other intangible assets Goodwill represents the excess of purchase price including related costs over the value assigned to the net tangible and identifiable intangible assets of businesses acquired. Goodwill and other identifiable intangible assets with indefinite lives are not amortized, but instead are tested for impairment annually, or more frequently if circumstances indicate a possible impairment may exist. Intangible assets with estimable useful lives are amortized over their respective estimated useful lives, generally on a straight-line basis, and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable.
- E. Impairment of long-lived assets Under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 310, "Accounting for the Impairment or Disposal of Long-lived Assets", the Company periodically reviews whether changes have occurred that would require revisions to the carrying amounts of its definite lived, long-lived assets. When the sum of the expected future cash flows is less than the

carrying amount of the asset, an impairment loss is recognized based on the fair value of the asset.

- F. Excise taxes and duty Excise taxes and duty are computed at standard rates based on alcohol proof per gallon/liter and are paid after finished goods are imported into the United States and then transferred out of “bond.” Excise taxes and duty are recorded to inventory as a component of the cost of the underlying finished goods. When the underlying products are sold “ex warehouse”, the sales price reflects the taxes paid and the inventoried excise taxes and duties are charged to cost of sales.
- G. Foreign currency The functional currency for the Company’s foreign operations is the Euro in Ireland and the British Pound in the United Kingdom. Under ASC 830, “Foreign Currency Matters”, the translation from the applicable foreign currencies to U.S. Dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. The resulting translation adjustments are recorded as a component of other comprehensive income. Gains or losses resulting from foreign currency transactions are shown as a separate line item in the consolidated statements of operations.

CASTLE BRANDS INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements - Continued

- H. Fair value of financial instruments ASC 825, "Financial Instruments", defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties and requires disclosure of the fair value of certain financial instruments. The Company believes that there is no material difference between the fair-value and the reported amounts of financial instruments in the Company's balance sheets due to the short term maturity of these instruments, or with respect to the Company's debt, as compared to the current borrowing rates available to the Company.

The Company's investments are reported at fair value in accordance with authoritative guidance, which accomplishes the following key objectives:

- Defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date;
- Establishes a three-level hierarchy ("valuation hierarchy") for fair value measurements;
- Requires consideration of the Company's creditworthiness when valuing liabilities; and
- Expands disclosures about instruments measured at fair value.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the valuation hierarchy are as follows:

- Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
 - Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are directly or indirectly observable for the asset or liability for substantially the full term of the financial instrument.
 - Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.
- I. Income taxes Under ASC 740, "Income Taxes", deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. A valuation allowance is provided to the extent a deferred tax asset is not considered recoverable.

The Company has not recognized any adjustments for uncertain tax positions. The Company recognizes interest and penalties related to uncertain tax positions in general and administrative expense; however, no such provisions for accrued interest and penalties related to uncertain tax positions have been recorded by the Company.

The Company's income tax benefit for the three and six months ended September 30, 2013 and 2012 consists of federal, state and local taxes attributable to GCP, which does not file a consolidated income tax return with the Company. In connection with the investment in GCP, the Company recorded a deferred tax liability on the ascribed value of the acquired intangible assets of \$2,222,222, increasing the value of the asset. The difference between the book basis and tax basis created a deferred tax liability that is being amortized over a period of 15 years (the life of the licensing agreement) on a straight-line basis. For each of the three-month and six-month periods ended September 30, 2013 and 2012, the Company recognized \$37,038 and \$74,076 of deferred tax benefits, respectively.

- J. Accounting standards adopted In July 2012, the FASB issued Accounting Standards Update (“ASU”) 2012-02, “Intangibles – Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment.” The amended guidance simplifies how entities test indefinite-lived intangible assets other than goodwill for impairment. After an assessment of certain qualitative factors, if it is determined to be more likely than not that an indefinite-lived asset is impaired, entities must perform the quantitative impairment test. Otherwise, the quantitative test is optional. This new guidance was effective for the Company as of April 1, 2013. The adoption of this standard did not have a material impact on the Company’s results of operations, cash flows or financial condition.

In October 2012, the FASB issued ASU 2012-04, “Technical Corrections and Improvements.” The amendments in this update cover a wide range of topics in the ASC. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. This new guidance was effective for the Company as of April 1, 2013. The adoption of this standard did not have a material impact on the Company’s results of operations, cash flows or financial condition.

In February 2013, the FASB issued amendments to the accounting guidance for presentation of comprehensive income to improve the reporting of reclassifications out of accumulated other comprehensive income. The amendments do not change the current requirements for reporting net income or other comprehensive income, but do require an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where the net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under GAAP that provide additional detail about these amounts. This new guidance was effective for the Company as of April 1, 2013. The adoption of this standard did not have a material impact on the Company’s results of operations, cash flows or financial condition.

K. Recent accounting pronouncements The Company has considered all recent accounting pronouncements, and no pronouncements were determined to have a significant impact on the financial statements that have not been disclosed in prior reporting periods.

NOTE 2 BASIC AND DILUTED NET LOSS PER COMMON SHARE

Basic net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding during the period. Diluted net loss per common share is computed giving effect to all potentially dilutive common shares that were outstanding during the period that are not anti-dilutive. Potentially dilutive common shares consist of incremental shares issuable upon exercise of stock options and warrants or conversion of convertible preferred stock outstanding and related accrued dividends. In computing diluted net loss per share for the three and six months ended September 30, 2013 and 2012, no adjustment has been made to the weighted average outstanding common shares as the assumed exercise of outstanding options and warrants and the assumed conversion of convertible preferred stock and related accrued dividends is anti-dilutive.

Potential common shares not included in calculating diluted net loss per share are as follows:

NOTE 4 EQUITY INVESTMENT

Investment in DP Castle Partners, LLC

In August 2010, CB-USA formed DP Castle Partners, LLC (“DPCP”) with Drink Pie, LLC to manage the manufacturing and marketing of Travis Hasse’s Original Apple Pie Liqueur, Cherry Pie Liqueur and any future line extensions of the brand. DPCP has the exclusive global rights to produce and market Travis Hasse’s Original Pie Liqueurs and CB-USA has the global distribution rights for this brand. CB-USA purchases the finished product from DPCP at a pre-determined margin and then uses its existing infrastructure, sales force and distributor network to sell the product and promote the brands. Finished goods are sold to CB-USA FOB Production and CB-USA bears the risk of loss on both inventory and third-party receivables. Revenues and cost of sales are recorded at their respective gross amounts on the books and records of CB-USA. For the three months ended September 30, 2013 and 2012, CB-USA purchased \$0 and \$164,619, respectively, in finished goods from DPCP under the distribution agreement. In March 2013, the Company and CB-USA entered into an inventory term loan of \$2,496,000 (the "Bourbon Term Loan") that was used for the purchase of bourbon inventory on March 11, 2013. Unless sooner terminated in accordance with its terms, the Bourbon Term Loan matures on December 31, 2016. The Bourbon Term Loan interest rate is the rate that, when annualized, is the greatest of (a) the Prime Rate plus 4.25%, (b) the LIBOR Rate plus 6.75% and (c) 7.50%. For the three months ended September 30, 2013, the Company paid interest of 7.5%. Interest is payable monthly in arrears, on the first day of every month on the average daily unpaid principal amount of the Bourbon Term Loan. After the occurrence and during the

D. continuance of any "Default" or "Event of Default" (as defined under the loan agreement), the Borrower is required to pay interest at a rate that is 3.25% per annum above the then applicable Bourbon Term Loan interest rate. The Borrower is required to pay down the principal balance of the Bourbon Term Loan within 15 banking days from the completion of a bottling run of bourbon from the bourbon inventory stock purchased on or about the date of the Bourbon Term Loan in an amount equal to the purchase price of such bourbon. The unpaid principal balance of the Bourbon Term Loan, all accrued and unpaid interest thereon, all fees, costs and expenses payable in connection with the Bourbon Term Loan are due and payable in full on December 31, 2016.

Keltic required as a condition to funding the Bourbon Term Loan that Keltic had entered into a participation agreement (the "Participation Agreement") providing for an initial aggregate of \$750,000 of the Bourbon Term Loan to be purchased by junior participants. Certain related parties of the Company purchased a portion of these junior participations in the Bourbon Term Loan, including Frost Gamma Investments Trust (\$500,000), an entity affiliated with Phillip Frost, M.D., a director and principal shareholder of the Company, Mark E. Andrews, III (\$50,000), a director of the Company and the Company's Chairman, and an affiliate of Richard J. Lampen (\$50,000), a director of the Company and the Company's President and Chief Executive Officer (amounts shown are initial purchase amounts). Under the terms of the Participation Agreement, the junior participants receive interest at the rate of 11% per annum. Neither the Company nor CB-USA is a party to the Participation Agreement. However, the Borrower is party to a fee letter (the "Fee Letter") with the junior participants (including the related party junior participants) pursuant to which the Borrower is obligated to pay the junior participants an aggregate commitment fee of \$45,000 in three equal annual installments of \$15,000. In August 2013, the Bourbon Term Loan was amended to provide the Company with the ability to increase the maximum aggregate principal amount of the Bourbon Term Loan from \$2,500,000 to up to \$4,000,000 to finance the purchase of aged whiskies following the identification of junior participants to purchase a portion of the increased Bourbon Term Loan amount. The balance on the Bourbon Term Note included in notes payable totaled \$2,432,950 and \$2,496,000 at September 30 and March 31, 2013, respectively.

E. In August 2013, the Company entered into a Loan Agreement (the "Junior Loan Agreement"), by and between the Company and the lending parties thereto (the "Junior Lenders"), which provides for an aggregate \$1,250,000 unsecured loan (the "Junior Loan") to the Company. The Junior Loan bears interest at a rate of 11% per annum, payable quarterly in arrears commencing November 1, 2013, and matures on October 15, 2015. The Junior Loan may be prepaid in whole or in part at any time without penalty or premium but with payment of accrued interest to the date of prepayment. The Junior Loan Agreement contains customary events of default, which, if uncured, entitle each Junior Lender to accelerate the due date of the unpaid principal amount of, and all accrued and unpaid interest on, the portion of the Junior Loan made by such Junior Lender. The Junior Loan Agreement provides for a funding fee of 2% per annum on the then outstanding Junior Loan balance (pro-rated for any period of less than one year), payable pro rata among the Junior Lenders on the date of the Junior Loan Agreement and on the first and second anniversaries thereof. The Junior Lenders include Frost Gamma Investments Trust (\$200,000), Mark E. Andrews, III (\$50,000) and an affiliate of

Richard J. Lampen (\$50,000). In connection with the Junior Loan Agreement, the Junior Lenders entered into a subordination agreement with Keltic; the Company is a party to the subordination agreement.

CASTLE BRANDS INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements - Continued

NOTE 16 SUBSEQUENT EVENTS

In October 2013, the Company entered into a 5% Convertible Subordinated Note Purchase Agreement (the "Note Purchase Agreement"), by and among the Company and the lending parties (the "Purchasers"), which provides for the issuance of an aggregate initial principal amount of \$2,125,000 unsecured subordinated notes (the "Convertible Notes") by the Company. The Company intends to use a portion of the proceeds to finance the acquisition of additional bourbon inventory in support of the growth of its Jefferson's bourbon brand.

The Convertible Notes bear interest at a rate of 5% per annum, payable quarterly on March 15, June 15, September 15 and December 15 of each year beginning on December 15, 2013 until their maturity date of December 15, 2018. The Convertible Notes and accrued but unpaid interest thereon are convertible in whole or in part from time to time at the option of the holders thereof into shares of the Company's common stock at a conversion price of \$0.90 per share (the "Conversion Price"). The Convertible Notes may be prepaid in whole or in part at any time without penalty or premium, but with payment of accrued interest to the date of prepayment. The Convertible Notes contain customary events of default, which, if uncured, entitle each note holder to accelerate the due date of the unpaid principal amount of, and all accrued and unpaid interest on, the Convertible Notes. The issuance of the Convertible Notes closed on October 31, 2013.

The Purchasers include certain related parties of the Company, including an affiliate of Dr. Phillip Frost (\$500,000), Mark E. Andrews, III (\$50,000), an affiliate of Richard J. Lampen (\$50,000), an affiliate of Glenn Halpryn (\$200,000), a director of the Company, Dennis Scholl (\$100,000), a director of the Company, and Vector Group Ltd. (\$200,000), a more than 5% shareholder of the Company, of which Richard Lampen is an executive officer and Henry Beinstein, a director of the Company, is a director.

The Company may forcibly convert all or any part of the Convertible Notes and all accrued but unpaid interest thereon if (i) the average daily volume of the common stock (as reported on the principal market or exchange on which the common stock is listed or quoted for trading) exceeds \$50,000 per trading day and (ii) the volume weighted average price of the common stock for at least twenty (20) trading days during any thirty (30) consecutive trading day period exceeds 250% of the then-current Conversion Price. Any forced conversion will be applied ratably to the holders of all Convertible Notes issued pursuant to the Note Purchase Agreement based on each holder's then-current note holdings.

In connection with the Note Purchase Agreement, each Purchaser was required to execute a joinder to that certain Subordination Agreement, dated as of August 7, 2013 (as amended, the "Subordination Agreement"), by and among Keltic and certain other junior lenders to the Company; the Company is not a party to the Subordination Agreement.

Also in October 2013, in connection with the Company's execution and delivery of the Note Purchase Agreement, the Company and CB-USA, entered into a Fourth Amendment, Waiver and Consent (the "Amendment") to Keltic loan agreement in order to amend certain terms of the Keltic Facility and Bourbon Term Loan. The Amendment modifies certain aspects of the EBITDA covenant contained in the loan agreement, permits the Company to incur indebtedness in an aggregate original principal amount of \$2,125,000 pursuant to the terms of the Note Purchase Agreement and Convertible Notes and permits the Company to make regularly scheduled payments of principal and interest and voluntary prepayments on the Convertible Notes, subject to certain conditions set forth in the Amendment.

In connection with the Amendment, the Company and CB-USA entered into a Reaffirmation Agreement (the "Reaffirmation Agreement") with (i) Keltic, (ii) certain officers of the Company and CB-USA, including John Glover, the Company's Chief Operating Officer, T. Kelley Spillane, the Company's Senior Vice President - Global Sales, and Alfred J. Small, the Company's Senior Vice President, Chief Financial Officer, Secretary & Treasurer, which reaffirms

the existing Validity and Support Agreements by and among each officer, the Company, CB-USA and Keltic and (iii) certain junior lenders to the Company, including an affiliate of Dr. Phillip Frost, Mark E. Andrews, III and an affiliate of Richard J. Lampen.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We develop and market premium and super premium brands in the following beverage alcohol categories: rum, whiskey, liqueurs, vodka and tequila. We distribute our products in all 50 U.S. states and the District of Columbia, in thirteen primary international markets, including Ireland, Great Britain, Northern Ireland, Germany, Canada, South Africa, Bulgaria, France, Russia, Finland, Norway, Sweden, China and the Duty Free markets, and in a number of other countries in continental Europe and Latin America. We market the following brands, among others, Gosling's Rum[®], Gosling's Stormy Ginger Beer, Gosling's Dark 'n Stormy[®] ready-to-drink cocktail, Jefferson's[®], Jefferson's Reserve[®] and Jefferson's Presidential Select[™] bourbons, Jefferson's Rye whiskey, Pallini[®] liqueurs, Clontarf[®] Irish whiskey, Knappogue Castle Whiskey[®], Brady's[®] Irish Cream, Boru[®] vodka, Tierras[™] tequila, Celtic Honey[®] liqueur, Castello Mio[™] sambucas and Gozio[®] amaretto.

Our objective is to continue building a distinctive portfolio of global premium and super premium spirits brands as we move towards profitability. To achieve this, we continue to seek to:

- § **increase revenues from our more profitable brands.** We continue to focus our distribution relationships, sales expertise and targeted marketing activities on our more profitable brands;
- § **improve value chain and manage cost structure.** We continue to review and analyze our supply chains and cost structures both on a company-wide and brand-by-brand basis, as well as control general and administrative costs in an effort to further control costs; and
- § **selectively add new premium brands to our portfolio.** We intend to continue developing new brands and pursuing strategic relationships, joint ventures and acquisitions to selectively expand our premium spirits portfolio, particularly by capitalizing on and expanding our partnering capabilities. Our criteria for new brands focuses on underserved areas of the beverage alcohol marketplace, while examining the potential for direct financial contribution to our company and the potential for future growth based on development and maturation of agency brands. We evaluate future acquisitions and agency relationships on the basis of their potential to be immediately accretive and their potential contributions to our objectives of becoming profitable and further expanding our product offerings. We expect that future acquisitions, if consummated, would involve some combination of cash, debt and the issuance of our stock.

Recent Events

5% Convertible Subordinated Notes

In October 2013, we entered into a 5% Convertible Subordinated Note Purchase Agreement (the "Note Purchase Agreement"), with the lending parties (the "Purchasers"), which provides for the issuance of an aggregate initial principal amount of \$2.1 million unsecured subordinated notes (the "Convertible Notes"). We intend to use a portion of the proceeds to finance the acquisition of additional bourbon inventory in support of the growth of our Jefferson's bourbon brand.

The Convertible Notes bear interest at a rate of 5% per annum, payable quarterly on March 15, June 15, September 15 and December 15 of each year beginning on December 15, 2013 until their maturity date of December 15, 2018. The Convertible Notes and accrued but unpaid interest thereon are convertible in whole or in part from time to time at the option of the holders thereof into shares of our common stock ("Common Stock") at a conversion price of \$0.90 per share (the "Conversion Price"). The Convertible Notes may be prepaid in whole or in part at any time without penalty or premium, but with payment of accrued interest to the date of prepayment. The Convertible Notes contain customary events of default, which, if uncured, entitle each noteholder to accelerate the due date of the unpaid principal amount of, and all accrued and unpaid interest on, the Convertible Notes. The issuance of the Convertible Notes closed on

October 31, 2013.

The Purchasers include certain related parties of ours, including an affiliate of Dr. Phillip Frost (\$500,000), a director of ours and our principal shareholder, Mark E. Andrews, III (\$50,000), a director of ours and our Chairman, an affiliate of Richard J. Lampen (\$50,000), a director of ours and our President and Chief Executive Officer, an affiliate of Glenn Halpryn (\$200,000), a director of ours, Dennis Scholl (\$100,000), a director of ours, and Vector Group Ltd. (\$200,000), a more than 5% shareholder of ours, of which Richard Lampen is an executive officer and Henry Beinstein, a director of ours, is a director.

We may forcibly convert all or any part of the Convertible Notes and all accrued but unpaid interest thereon if (i) the average daily volume of the Common Stock (as reported on the principal market or exchange on which the Common Stock is listed or quoted for trading) exceeds \$50,000 per trading day and (ii) the volume weighted average price of the Common Stock for at least twenty (20) trading days during any thirty (30) consecutive trading day period exceeds 250% of the then-current Conversion Price. Any forced conversion will be applied ratably to the holders of all Convertible Notes issued pursuant to the Note Purchase Agreement based on each holder's then-current note holdings.

In connection with the Note Purchase Agreement, each Purchaser was required to execute a joinder to the Subordination Agreement, dated as of August 7, 2013 (as amended, the "Subordination Agreement"), by and among Keltic Financial Partners II, LP, a Delaware limited partnership ("Keltic"), and certain other junior lenders to us; we are not a party to the Subordination Agreement.

Also in October 2013, in connection with our execution and delivery of the Note Purchase Agreement, we and our wholly owned subsidiary, Castle Brands (USA) Corp. ("CB-USA"), entered into a Fourth Amendment, Waiver and Consent (the "Fourth Amendment") to the Loan and Security Agreement (as amended, the "Keltic Loan Agreement"), dated as of August 19, 2011, with Keltic, in order to amend certain terms of our existing \$8.0 million revolving credit facility (the "Keltic Facility") and \$4.0 million term loan to finance purchases of aged whiskies (the Bourbon Term Loan). The Fourth Amendment modifies certain aspects of the EBITDA covenant contained in the Loan Agreement, permits us to incur indebtedness in an aggregate original principal amount of \$2.1 million pursuant to the terms of the Note Purchase Agreement and Convertible Notes and permits the us to make regularly scheduled payments of principal and interest and voluntary prepayments on the Convertible Notes, subject to certain conditions set forth in the Fourth Amendment.

In connection with the Fourth Amendment, on October 21, 2013, we and CB-USA entered into a Reaffirmation Agreement (the "Reaffirmation Agreement") with (i) Keltic, (ii) certain officers of the ours and CB-USA, including John Glover, our Chief Operating Officer, T. Kelley Spillane, our Senior Vice President - Global Sales, and Alfred J. Small, our Senior Vice President, Chief Financial Officer, Secretary & Treasurer, which reaffirms the existing Validity and Support Agreements by and among each officer, us, CB-USA and Keltic and (iii) certain junior lenders to us, including an affiliate of Dr. Phillip Frost, Mark E. Andrews, III and an affiliate of Richard J. Lampen.

Keltic Facility

In August 2013, we entered into a Third Amendment (the "Third Amendment") to the Keltic Loan Agreement with Keltic, in order to amend certain terms of the Keltic Facility and the Bourbon Term Loan.

The Third Amendment modifies certain aspects of the borrowing base calculation and covenants with respect to the Keltic Facility and permits us to make regularly scheduled payments of principal and interest and voluntary prepayments on the Junior Loan (as defined below), subject to certain conditions set forth in the Third Amendment. In addition, the Third Amendment provides us with the ability to increase the maximum aggregate principal amount of the Bourbon Term Loan from \$2.5 million to up to \$4.0 million following the identification of junior participants to purchase a portion of the increased Bourbon Term Loan amount. We paid Keltic an aggregate \$0.025 million amendment fee in connection with the execution of the Third Amendment.

In connection with the Amendment, we entered into the following ancillary agreements with Keltic: (i) a Reaffirmation Agreement with certain of our officers, including John Glover, T. Kelley Spillane and Alfred J. Small, which reaffirms the existing Validity and Support Agreements by and among each officer, us and Keltic (the "Reaffirmation Agreement"); and (ii) an Amended and Restated Term Note.

Also in connection with the Third Amendment, Keltic entered into an amended and restated participation agreement with certain related parties of ours as junior participants, including Frost Gamma Investments Trust, an entity affiliated with or, Phillip Frost, M.D. Mark E. Andrews, III, and an affiliate of Richard J. Lampen, to allow for the sale of participation interests in the additional tranches of the Bourbon Term Loan, if any. The amended and restated participation agreement provides that additional tranches of the Bourbon Term Loan, if any, are to be funded in increments of \$0.5 million and that Keltic will fund 15% of each tranche. We are not party to the amended and restated participation agreement.

\$1.25 Million Term Loan

Also in August 2013, we entered into a Loan Agreement (the "Junior Loan Agreement"), by and between us and the lending parties thereto (the "Junior Lenders"), which provides for an aggregate \$1.25 million unsecured loan (the "Junior Loan") to us. The Junior Loan bears interest at a rate of 11% per annum, payable quarterly in arrears commencing November 1, 2013, and matures on October 15, 2015. The Junior Loan may be prepaid in whole or in part at any time without penalty or premium but with payment of accrued interest to the date of prepayment. The Junior Loan Agreement contains customary events of default, which, if uncured, entitle each Junior Lender to accelerate the due date of the unpaid principal amount of, and all accrued and unpaid interest on, the portion of the Junior Loan made by such Junior Lender. The Junior Loan Agreement provides for a funding fee of 2% per annum on the then outstanding Junior Loan balance (pro-rated for any period of less than one year), payable pro rata among the Junior Lenders on the date of the Junior Loan Agreement and on the first and second anniversaries thereof. The Junior Lenders include Frost Gamma Investments Trust, Mark E. Andrews, III and an affiliate of Richard J. Lampen. In connection with the Junior Loan Agreement, the Junior Lenders entered into The Subordination Agreement with Keltic; we are not a party to the Subordination Agreement.

Currency Translation

The functional currencies for our foreign operations are the Euro in Ireland and the British Pound in the United Kingdom. With respect to our consolidated financial statements, the translation from the applicable foreign currencies to U.S. Dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. The resulting translation adjustments are recorded as a component of other comprehensive income.

Where in this report we refer to amounts in Euros or British Pounds, we have for your convenience also in certain cases provided a conversion of those amounts to U.S. Dollars in parentheses. Where the numbers refer to a specific balance sheet account date or financial statement account period, we have used the exchange rate that was used to perform the conversions in connection with the applicable financial statement. In all other instances, unless otherwise indicated, the conversions have been made using the exchange rates as of September 30, 2013, each as calculated from the Interbank exchange rates as reported by Oanda.com. On September 30, 2013, the exchange rate of the Euro and the British Pound in exchange for U.S. Dollars was €1.00 = U.S. \$1.35199 (equivalent to U.S. \$1.00 = €0.73965) and £1.00 = U.S. \$1.61356 (equivalent to U.S. \$1.00 = £0.61975).

These conversions should not be construed as representations that the Euro and British Pound amounts actually represent U.S. Dollar amounts or could be converted into U.S. Dollars at the rates indicated.

Critical Accounting Policies

There are no material changes from the critical accounting policies set forth in Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our annual report on Form 10-K for the year ended March 31, 2013, as amended, which we refer to as our 2013 Annual Report. Earnings before interest, taxes, depreciation and amortization, or EBITDA, adjusted for allowances for doubtful accounts, non-cash compensation expense, loss from equity investment in non-consolidated affiliate, foreign exchange, net change in fair value of warrant liability, net income attributable to noncontrolling interests and dividend to preferred shareholders is a key metric we use in evaluating our financial performance. EBITDA is considered a non-GAAP financial measure as defined by Regulation G promulgated by the SEC under the Securities Act of 1933, as amended. We consider EBITDA, as adjusted, important in evaluating our performance on a consistent basis across various periods. Due to the significance of non-cash and non-recurring items, EBITDA, as adjusted, enables our Board of Directors and management to monitor and evaluate the business on a consistent basis. We use EBITDA, as adjusted, as a primary measure, among others, to analyze and evaluate financial and strategic planning decisions regarding future operating investments and allocation of capital resources. We believe that EBITDA, as adjusted, eliminates items that are not indicative of our core operating performance or are based on management's estimates, such as allowance accounts, are due to changes in valuation, such as the effects of changes in foreign exchange or fair value of warrant liability, or do not involve a cash outlay, such as stock-based compensation expense. Our presentation of EBITDA, as adjusted, should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items or by non-cash items, such as non-cash compensation, which is expected to remain a key element in our long-term incentive compensation program. EBITDA, as adjusted, should be considered in addition to, rather than as a substitute for, income from operations, net income and cash flows from operating activities.

Our EBITDA, as adjusted, improved to income of \$0.1 million for the three months ended September 30, 2013, as compared to a loss of (\$0.1) million for the comparable prior-year period, primarily as a result of our increased sales and gross profit. Our EBITDA, as adjusted, improved to a loss of (\$0.03) million for the six months ended September 30, 2013, as compared to a loss of (\$0.6) million for the comparable prior-year period, primarily as a result of our increased sales and gross profit.

Three months ended September 30, 2013 compared with three months ended September 30, 2012

Net sales. Net sales increased 13.0% to \$11.7 million for the three months ended September 30, 2013, as compared to \$10.3 million for the comparable prior-year period, due to the overall growth of our Gosling's, Jefferson's and Brady's brands. Our international case sales as a percentage of total case sales increased to 20.4% for the three months ended September 30, 2013 from 16.5% for the comparable prior-year period due to strong growth in Gosling's rum and Irish whiskey sales in international markets. The overall sales growth was partially offset by a decrease in vodka sales due to continued price competition. We continue to focus on our faster growing brands and markets, both in the U.S. and internationally.

The table below presents the increase or decrease, as applicable, in case sales by product category for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012:

	Increase/(decrease) in case sales		Percentage increase/(decrease)			
	Overall	U.S.	Overall		U.S.	
Rum	4,397	(574)	11.3	%	(1.8)	%
Whiskey	2,367	2,266	20.4	%	39.6	%
Liqueur	3,136	1,812	14.2	%	8.2	%
Vodka	(2,862)	(1,475)	(16.7)	%	(10.8)	%
Tequila	(148)	(148)	(44.7)	%	(44.7)	%
Wine	(21)	(21)	(0.8)	%	(0.8)	%
Other	(243)	(243)	(100)	%	(100)	%
Total	6,626	1,617	7.1	%	2.1	%

Gross profit. Gross profit increased 15.5% to \$4.2 million for the three months ended September 30, 2013 from \$3.6 million for the comparable prior-year period, while our gross margin increased to 35.9% for the three months ended September 30, 2013 compared to 35.1% for the comparable prior-year period. The increase in gross profit was primarily due to increased sales in the current period, while the increase in gross margin was due to an increase in sales of our more profitable brands, in particular the Jefferson's brands. During the three months ended September 30, 2012, we recorded net allowance for obsolete and slow moving inventory of \$0.1 million. We recorded this allowance on both raw materials and finished goods, primarily in connection with label and packaging changes made to certain brands, as well as certain cost variances. The net \$0.1 million charge was recorded as an increase to Cost of Sales in the period ended September 30, 2012. Net of the allowance for obsolete inventories, our gross margin for the three months ended September 30, 2012 was 36.1%.

Selling expense. Selling expense increased 5.9% to \$2.9 million for the three months ended September 30, 2013 from \$2.8 million for the comparable prior-year period, primarily due a \$0.2 million increase in shipping costs due to increased sales, as well as a \$0.1 million increase in employee costs, partially offset by a \$0.1 million decrease in advertising, marketing and promotion expense. The increase in sales resulted in a net decrease of selling expense as a percentage of net sales to 25.2% for the three months ended September 30, 2013 as compared to 27.0% for the comparable prior-year period.

General and administrative expense. General and administrative expense increased 5.9% to \$1.24 million for the three months ended September 30, 2013 from \$1.16 million for the comparable prior-year period, primarily due to a \$0.05 million increase in professional fees. The increase in sales in the current period resulted in general and administrative expense as a percentage of net sales decreasing to 10.7% for the three months ended September 30, 2013 as compared to 11.2% for the comparable prior-year period.

Depreciation and amortization. Depreciation and amortization was \$0.2 million for each of the three-month periods ended September 30, 2013 and 2012.

Loss from operations. As a result of the foregoing, loss from operations improved 61.3% to (\$0.2) million for the three months ended September 30, 2013 from (\$0.5) million for the comparable prior-year period. As a result of our focus on our stronger growth markets and better performing brands, and expected growth from our existing brands, we anticipate improved results of operations in the near term as compared to comparable prior-year periods, although there is no assurance that we will attain such results.

Net change in fair value of warrant liability. We recorded the fair market value of the warrants issued in connection with the June 2011 private placement at their initial fair value. Changes in the fair value of the warrants are recognized in earnings for each reporting period. For the three months ended September 30, 2013, we recorded a non-cash charge for loss on the change in the value of the warrants of (\$3.5) million, as compared to a gain of \$0.2 million for the comparable prior-year period, primarily due to the effects of our increased share price on the Black-Scholes valuation.

Loss from equity investment in non-consolidated affiliate. We have accounted for our investment in DP Castle Partners, LLC on the equity method of accounting. Results from this investment were de minimis in each of the three-month periods ended September 30, 2013 and 2012.

Foreign exchange loss. Foreign exchange loss for the three months ended September 30, 2013 was \$0.2 million for each of the three-month periods ended September 30, 2013 and 2012, due to the net effects of fluctuations of the U.S. dollar against the Euro and their effects on our Euro-denominated intercompany balances due to our foreign subsidiaries for inventory purchases.

Interest expense, net. We had interest expense, net of (\$0.3) million for the three months ended September 30, 2013 as compared to (\$0.1) million for the comparable prior-year period due to increased balances outstanding under our

credit facilities. Due to expected balances on the Keltic Facility and other indebtedness, we expect interest expense, net to increase in the near term as compared to prior-year periods.

Net income attributable to noncontrolling interests. Net income attributable to noncontrolling interests during the three months ended September 30, 2013 was (\$0.3) million as compared to (\$0.2) million for the comparable prior-year period, both the result of allocated net income recorded by our 60%-owned subsidiary, Gosling-Castle Partners, Inc.

Dividend to preferred shareholders. For each of the three-month periods ended September 30, 2013 and 2012, we recognized a dividend on our Series A Preferred Stock of \$0.2 million, as required by the terms of the preferred stock. Accrued dividends on our Series A Preferred Stock are only payable in common stock upon conversion or liquidation.

Net loss attributable to common shareholders. As a result of the net effects of the foregoing, especially the non-cash charge for the loss on the change in fair value of warrant liability, net loss attributable to common shareholders increased to (\$4.6) million for the three months ended September 30, 2013 as compared to (\$1.1) million for the comparable prior-year period. Net loss per common share, basic and diluted, was (\$0.04) per share for the three months ended September 30, 2013 as compared to (\$0.01) per share for the comparable prior-year period.

Six months ended September 30, 2013 compared with six months ended September 30, 2012

Net sales. Net sales increased 10.2% to \$22.1 million for the six months ended September 30, 2013, as compared to \$20.0 million for the comparable prior-year period, due to the overall growth of our Gosling's, Jefferson's and Brady's brands. Our international case sales as a percentage of total case sales increased to 21.8% for the six months ended September 30, 2013 from 17.5% for the comparable prior-year period due to strong growth in Gosling's rum and Irish whiskey sales in international markets. The overall sales growth was partially offset by a decrease in vodka sales due to continued price competition. We continue to focus on our faster growing brands and markets, both in the U.S. and internationally.

The table below presents the increase or decrease, as applicable, in case sales by product category for the six months ended September 30, 2013 as compared to the six months ended September 30, 2012:

	Increase/(decrease) in case sales		Percentage increase/(decrease)			
	Overall	U.S.	Overall		U.S.

Gross profit. Gross profit increased 14.8% to \$8.1 million for the six months ended September 30, 2013 from \$7.1 million for the comparable prior-year period, while our gross margin increased to 36.7% for the six months ended September 30, 2013 compared to 35.2% for the comparable prior-year period. The increase in gross profit was primarily due to increased sales in the current period, while the increase in gross margin was due to an increase in sales of our more profitable brands, in particular the Jefferson's brands. During the six months ended September 30, 2012, we recorded net allowance for obsolete and slow moving inventory of \$0.1 million. Net of the allowance for obsolete inventories, our gross margin for the three months ended September 30, 2012 was 35.7%.

Selling expense. Selling expense increased 8.1% to \$5.8 million for the six months ended September 30, 2013 from \$5.4 million for the comparable prior-year period, primarily due to a \$0.2 million increase in advertising, marketing and promotion expense in support of our overall volume growth, as well as a \$0.2 million increase in shipping costs due to increased sales. The increase in sales resulted in a net decrease of selling expense as a percentage of net sales to 26.4% for the six months ended September 30, 2013 as compared to 26.9% for the comparable prior-year period.

General and administrative expense. General and administrative expense was unchanged for each of the six-month periods ended September 30, 2013 and 2012. The increase in sales in the current period resulted in general and administrative expense as a percentage of net sales decreasing to 11.4% for the six months ended September 30, 2013 as compared to 12.4% for the comparable prior-year period.

Depreciation and amortization. Depreciation and amortization was \$0.43 million for the three months ended September 30, 2013 as compared to \$0.46 million for the comparable prior-year period.

Loss from operations. As a result of the foregoing, loss from operations improved 48.5% to (\$0.7) million for the six months ended September 30, 2013 from (\$1.3) million for the comparable prior-year period. As a result of our focus on our stronger growth markets and better performing brands, and expected growth from our existing brands, we anticipate improved results of operations in the near term as compared to comparable prior-year periods, although there is no assurance that we will attain such results.

Net change in fair value of warrant liability. We recorded the fair market value of the warrants issued in connection with the June 2011 private placement at their initial fair value. Changes in the fair value of the warrants are recognized in earnings for each reporting period. For the six months ended September 30, 2013, we recorded a non-cash charge for loss on the change in the value of the warrants of (\$4.0) million, as compared to a gain of \$0.1 million for the comparable prior-year period, primarily due to the effects of our increased share price on the Black-Scholes valuation.

Loss from equity investment in non-consolidated affiliate. We have accounted for our investment in DP Castle Partners, LLC on the equity method of accounting. Results from this investment were de minimis in each of the three-month periods ended September 30, 2013 and 2012.

Foreign exchange loss. Foreign exchange loss for the six months ended September 30, 2013 was (\$0.1) million as compared to a loss of (\$0.02) million for the comparable prior-year period due to the net effects of fluctuations of the U.S. dollar against the Euro and their effects on our Euro-denominated intercompany balances due to our foreign subsidiaries for inventory purchases.

Interest expense, net. We had interest expense, net of (\$0.5) million for the six months ended September 30, 2013 as compared to (\$0.2) million for the comparable prior-year period due to increased balances outstanding under our credit facilities. Liquidity and capital resources

Overview

Since our inception, we have incurred significant operating and net losses and have not generated positive cash flows from operations. For the six months ended September 30, 2013, we had a net loss of \$6.1 million, and used cash of \$2.1 million in operating activities. As of September 30, 2013, we had cash and cash equivalents of \$0.2 million and had an accumulated deficit of \$136.4 million.

We believe our current cash and working capital, and the availability under the Keltic Facility, will enable us to fund our losses until we achieve profitability, ensure continuity of supply of our brands, and support new brand initiatives and marketing programs.

Existing Financing

See Management's Discussion and Analysis of Financial Condition and Results of Operations - Recent Events for a discussion of our recent financing activities.

In March 2013, we entered into a Second Amendment to the Keltic Facility, providing for an increase in available borrowings (subject to certain terms and conditions) under the Keltic Facility for working capital purposes from \$7.0 million to \$8.0 million and the Bourbon Term Loan in the initial aggregate principal amount of \$2.5 million, which was used for the purchase of bourbon inventory on March 11, 2013. Unless sooner terminated in accordance with their respective terms, the Keltic Facility and Bourbon Term Loan expire on December 31, 2016 (the "Maturity Date"). We may borrow up to the maximum amount of the Keltic Facility, provided that we have a sufficient borrowing base (as defined in the Keltic Loan Agreement). The Keltic Facility interest rate is the rate that, when annualized, is the greatest of (a) the Prime Rate plus 3.25%, (b) the LIBOR Rate plus 5.75% and (c) 6.50%. The Bourbon Term Loan

interest rate is the rate that, when annualized, is the greatest of (a) the Prime Rate plus 4.25%, (b) the LIBOR Rate plus 6.75% and (c) 7.50%. Interest is payable monthly in arrears, on the first day of every month on the average daily unpaid principal amount of the Keltic Facility and the Bourbon Term Loan. After the occurrence and during the continuance of any "Default" or "Event of Default" (as defined under the loan agreement) we are required to pay interest at a rate that is 3.25% per annum above the then applicable Keltic Facility or Bourbon Term Loan, as applicable, interest rate. The Keltic Facility currently bears interest at 6.50% and the Bourbon Term Loan currently bears interest at 7.50%. We are required to pay down the principal balance of the Bourbon Term Loan within 15 banking days from the completion of a bottling run of bourbon from our bourbon inventory stock purchased on or about the date of the Bourbon Term Loan in an amount equal to the purchase price of such bourbon. The unpaid principal balance of the Bourbon Term Loan, all accrued and unpaid interest thereon, all fees, costs and expenses payable in connection with the Bourbon Term Loan are due and payable in full on the Maturity Date. In addition to closing fees, Keltic receives an annual facility fee and a collateral management fee (each as set forth in the Keltic Loan Agreement).

The Keltic Loan Agreement contains standard borrower representations and warranties for asset-based borrowing and a number of reporting obligations and affirmative and negative covenants. The Keltic Loan Agreement includes negative covenants that, among other things, restrict our ability to create additional indebtedness, dispose of properties, incur liens, and make distributions or cash dividends. At September 30, 2013, we were in compliance, in all material respects, with the covenants under the Keltic Loan Agreement.

Keltic required as a condition to funding the Bourbon Term Loan that Keltic had entered into the participation agreement providing for an aggregate of \$750,000 of the initial \$2.5 million principal amount of the Bourbon Term Loan to be purchased by junior participants. Certain related parties of ours purchased a portion of these junior participations in the Bourbon Term Loan, including Frost Gamma Investments Trust (\$500,000), Mark E. Andrews, III (\$50,000) and an affiliate of Richard J. Lampen (\$50,000). Under the terms of the participation agreement, the junior participants receive interest at the rate of 11% per annum. We are not a party to the participation agreement. However, we are party to a fee letter with the junior participants (including the related party junior participants) pursuant to which we pay the junior participants an aggregate commitment fee of \$45,000 paid in three equal annual installments of \$15,000.

In December 2009, Gosling-Castle Partners, Inc., a 60% owned subsidiary, issued a promissory note in the aggregate principal amount of \$0.2 million to Gosling's Export (Bermuda) Limited in exchange for credits issued on certain inventory purchases. This note matures on April 1, 2020, is payable at maturity, subject to certain acceleration events, and calls for annual interest of 5%, to be accrued and paid at maturity.

We have arranged various credit facilities aggregating €350,000 or \$473,197 (translated at the September 30, 2013 exchange rate) with an Irish bank, including overdraft coverage, creditors' insurance, customs and excise guaranty, and a revolving credit facility. These facilities are payable on demand, continue until terminated by either party, are subject to annual review, and call for interest at the lender's AA1 Rate minus 1.70%.

Liquidity Discussion

As of September 30, 2013, we had shareholders' equity of \$8.5 million as compared to \$12.9 million at March 31, 2013. This decrease is primarily due to our total comprehensive loss for the six months ended September 30, 2013, including the \$3.8 million loss on the fair value of our warrant liability.

We had working capital of \$15.0 million at September 30, 2013 as compared to \$13.9 million as of March 31, 2013. This increase is primarily due to a \$0.6 million increase in accounts receivable, a \$0.2 million increase in due from shareholders and affiliates, a \$0.2 million increase in prepaid expenses and a \$0.5 million decrease in accounts payable and accrued expenses, offset by a \$0.1 million increase in our foreign revolving credit facility.

As of September 30, 2013, we had cash and cash equivalents of approximately \$0.2 million, as compared to \$0.4 million as of March 31, 2013. The decrease is primarily attributable to the funding of our operations and working capital needs for the six months ended September 30, 2013. At September 30, 2013, we also had approximately \$0.4 million of cash restricted from withdrawal and held by a bank in Ireland as collateral for overdraft coverage, creditors' insurance, revolving credit and other working capital purposes.

The following may result in a material decrease in our liquidity over the near-to-mid term:

- § continued significant levels of cash losses from operations;
- § our ability to obtain additional debt or equity financing should it be required;
- § an increase in working capital requirements to finance higher levels of inventories and accounts receivable;
- § our ability to maintain and improve our relationships with our distributors and our routes to market;

- § our ability to procure raw materials at a favorable price to support our level of sales;
- § potential acquisitions of additional brands; and
- § expansion into new markets and within existing markets in the U.S. and internationally.

We continue to implement a plan to support the growth of existing brands through sales and marketing initiatives that we expect will generate cash flows from operations in the next few years. As part of this plan, we seek to grow our business through expansion to new markets, growth in existing markets and strengthened distributor relationships. As our brands continue to grow, our working capital requirements will increase. In particular, the growth of our Jefferson's brands requires a significant amount of working capital relative to our other brands, as we are required to purchase and hold ever increasing amounts of aged bulk bourbon to meet growing demand. While we are seeking solutions to our long-term bourbon supply needs, we may be required to purchase and hold several years' worth of bulk bourbon in inventory until such time as it is aged to our specific brand taste profiles, increasing our working capital requirements and negatively impacting cash flows.

We are also seeking additional brands and agency relationships to leverage our existing distribution platform. We intend to finance our brand acquisitions through a combination of our available cash resources, borrowings and, in appropriate circumstances, additional issuances of equity and/or debt securities. Acquiring additional brands could have a significant effect on our financial position, could materially reduce our liquidity and could cause substantial fluctuations in our quarterly and yearly operating results. We continue to look to control expenses, seek improvements in routes to market and contain production costs to improve cash flows.

As of September 30, 2013, we had borrowed \$6.7 million of the \$8.0 million available under the Keltic Facility, leaving \$1.3 million in then potential availability for working capital needs. We believe our current cash and working capital, the availability under the Keltic Facility and the proceeds from the \$2.125 million term loan closed in October 2013, will enable us to fund our losses until we achieve profitability, ensure continuity of supply of our brands, and support new brand initiatives and marketing programs through at least September 2014.

Cash flows

The following table summarizes our primary sources and uses of cash during the periods presented:

	Six months ended September 30,	
	2013	2012
	(in thousands)	
Net cash provided by (used in):		
Operating activities	\$ (2,071)	\$ (1,890)
Investing activities	(57)	(152)
Financing activities	1,837	2,030
Effect of foreign currency translation	3	(2)
Net decrease in cash and cash equivalents	\$ (288)	\$ (14)

Operating activities. A substantial portion of available cash has been used to fund our operating activities. In general, these cash funding requirements are based on operating losses, driven chiefly by the costs in maintaining our distribution system and our sales and marketing activities. We have also utilized cash to fund our inventories. In general, these cash outlays for inventories are only partially offset by increases in our accounts payable to our suppliers.

On average, the production cycle for our owned brands is up to three months from the time we obtain the distilled spirits and other materials needed to bottle and package our products to the time we receive products available for sale, in part due to the international nature of our business. We do not produce Gosling's rums, Pallini liqueurs, Tierras tequila or Gozio amaretto. Instead, we receive the finished product directly from the owners of such brands. From the time we have products available for sale, an additional two to three months may be required before we sell our inventory and collect payment from customers. Further, our inventory at September 30, 2013 included additional stores of bulk wine and bulk bourbon purchased in advance of forecasted production requirements. We expect to reduce the bulk bourbon in the normal course of future sales and are actively marketing our bulk wine to prospective vintners.

During the six months ended September 30, 2013, net cash used in operating activities was \$2.1 million, consisting primarily of a net loss of \$5.0 million, a \$0.7 million increase in accounts receivable, a \$0.5 million decrease in accounts payable and accrued expenses, a \$0.2 million increase in prepaid expenses and a \$0.2 million increase in due from affiliates. These uses of cash were partially offset by a change in fair value of warrant liability of \$3.8 million, stock based compensation expense of \$0.2 million and depreciation and amortization expense of \$0.4 million.

During the six months ended September 30, 2012, net cash used in operating activities was \$1.9 million, consisting primarily of a net loss of \$1.4 million, a \$0.9 million increase in inventory, a \$0.5 million increase in accounts receivable, a \$0.3 million decrease in accounts payable, a \$0.1 million increase in due from affiliates and a \$0.1 million increase in prepaid expenses. These uses of cash were partially offset by a \$0.9 million increase in due to related parties, depreciation and amortization expense of \$0.5 million, \$0.1 million in stock-based compensation

expense and \$0.1 million in provision for obsolete inventories.

Investing Activities. Net cash used in investing activities was \$0.06 million for the six months ended September 30, 2013, representing \$0.1 million used in the acquisition of fixed and intangible assets and \$6,000 in payments under contingent consideration agreements, offset by \$0.06 million from a change in restricted cash.

Net cash used in investing activities was \$0.2 million for the six months ended September 30, 2012, representing \$0.01 million used in the acquisition of fixed and intangible assets and \$0.1 million in payments under contingent consideration agreements.

Financing activities. Net cash used in financing activities for the six months ended September 30, 2013 was \$1.8 million, consisting of \$1.25 million from issuance of the Junior Notes, \$0.3 million in proceeds from the exercise of June 2011 Warrants, \$0.2 million drawn on the Keltic Facility and \$0.1 million drawn on the foreign revolving credit facilities, offset by the \$0.06 million paid on the Bourbon Term Loan.

Net cash provided by financing activities for the six months ended September 30, 2012 was \$2.0 million representing \$1.9 million drawn on the Keltic Facility and \$0.2 million drawn on the foreign revolving credit facility.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting.
