TSX Venture: ASW

OTC Bulletin Board: ASWRF

Financing Proposed for Gold & Gem Properties

Incentive Options Granted

Anglo Swiss Resources Inc. (TSX-Venture-ASW, OTC BB - ASWRF) subject to receipt of regulatory approval, will be raising up to \$500,000, through a private placement of units. The proceeds of the private placement will be used by the corporation for general working capital and to pay for the costs of continued evaluation of both the Kenville Gold property and the Blu Starr Gemstone property.

Although the Kenville Gold Mine, located near Nelson, British Columbia, has not been in production for decades, figures released in 1990 ranked it as the 26th largest gold producer in British Columbia history. British Columbia Government records indicate that between 1890 and 1954, the Kenville Mine produced 2,024,306 grams of gold (2 metric tonnes) from 181,120 tonnes of ore. The Kenville Mine will be subject to a detailed geological evaluation to determine current and prospective ore reserves. Surface and underground exploration programs are being evaluated for the 2004 season.

The Blu Starr Gemstone property is located in the Slocan Valley, British Columbia. The Blu Starr hosts numerous occurrences of sapphire (15), iolite (11), gemstone quality garnet (2), as well as a flake graphite deposit; other minerals include aquamarine (beryl), tourmaline, titanite, moonstone and several varieties of quartz crystals. Previous exploration has confirmed that the geological setting and potential gem grades (carats per tonne) of the numerous showings are extremely promising. Proposed work programs are in the planning/budgeting stages for the 2004 season.

Anglo Swiss will sell up to 5 million units at a subscription price of 10 cents per unit. Each unit shall consist of one common share and one share purchase warrant, with each share purchase warrant entitling the holder to purchase one additional common share at a price of 15 cents (exercisable on or before the first anniversary of the closing date of the

private placement). The corporation may pay commissions or finders' fees and may issue warrants (at a price not less than the issue price of the units) to registered dealers or others entitled to receive commissions under applicable law on the sale of the units, the payment of such being subject to regulatory approval.

Incentive Option Grant

The Company has granted 2,200,000 options to three directors of the company at an exercise price of \$0.10. The options are for a five-year period, expiring on or before February 3, 2009. The options will vest and be subject to applicable hold periods as per regulatory guidelines.

On behalf of the Board,

/s/ Len Danard"

President & CEO
