Anglo Swiss Resources, Inc

Schedule A Financial Information

(expressed in Canadian dollars)

1. Nature of operations and going concern

The Company is in the business of the acquisition, exploration, exploration management and purchase of mineral properties, with the primary aim of developing them to a stage where the Company can exploit them profitably. The Company also has advanced its properties through joint venture partnerships, whereby proven companies manage the property with expertise in developing, designing and operating the extraction of mineral resources. At that stage, the Company's operations would, to some degree, be dependent on the prevailing market prices for any of the minerals produced by such operations.

The Company currently does not have any producing properties and its current operations on its various properties are in the exploration stages, working towards establishing economic concentrations of minerals. Before, during and after the quarter ended March 31, 2004, the Company was engaged in continued exploration of its gold property in British Columbia and simultaneously, a gemstone/graphite property located in south-eastern British Columbia. As a result, the Company's future mineral exploration and mining activities may be affected in varying degrees by prevailing market prices, political instability and government regulations, the success of attracting joint venture partners, all of which are beyond the control of the Company.

At March 31, 2004, the Company had a total working capital of \$78,523 and without a source of funding, will be unable to meet its obligations as they fall due. In addition, the Company will require additional financing to complete the exploration of its mineral properties. Management is pursuing a private placement to fund general administrative expenses and a joint venture partner for its Kenville gold project, with the hope of recommencing small-scale production at the site. While the Company has been successful in raising the necessary funds to finance its exploration activities to-date, there can be no assurance that it will be able to continue to do so. Accordingly, there is substantial doubt about the ability of the Company to continue as a going concern.

Although the Company has taken steps to verify the title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, transfers, or native land claims, and title may be affected by undetected defects.

2. Interim unaudited financial statements

5. Significant Accounting Policies

These interim consolidated financial statements follow the same accounting policies and methods of their application as the most recent annual financial statements of the Company.

6. Related Party Transactions

During the first quarter of 2004 the Company incurred consulting fees of \$15,000 (\$15,000 2003) for management services by directors or officers or organizations controlled

by such parties. No remuneration was paid in this regard, nor where any amounts paid in the first quarter of 2003.

The Company paid no amount to a law firm in which an officer is a partner of the firm during the first quarter 2004 and carries a payable of \$107,990 to the same firm.

(d) Stock options outstanding

<i>Security</i>	<i>Number</i>	<i>Exercise Price</i>	<i>Expiry date</i>
Options	350,000	\$0.28	Dec 18, 2004
Options	2,250,000	\$0.21	Mar 21, 2005
Options	25,000	\$0.25	Mar 28, 2005
Options	1,000,000	\$0.10	Jan 23, 2007
Options	1,125,000	\$0.10	Feb 17, 2008
Options	2,200,000	\$0.10	Feb 12, 2009
Total	6,950,000		

During the year ended December 31, 2003, the company granted 1,125,000 stock options to non-employees and the related compensation cost of \$8,055 has been recorded in the statement of loss and deficit for the quarter ended March 31, 2004.

The Company has elected not to follow the fair value-based method of accounting for the stock options granted to employees and directors. According, no compensation expense was recorded on the grant of stock options to directors and employees in the first quarter of 2004 as the exercise is equal to or greater than the market price at the date of the grant.

Pro forma earnings information determined under the fair value method of accounting for stock options is as follows:

Net loss for the period	Mar. 31, 2004
Reported	\$ (59,799.00)
Compensation Expense	<u>-</u>
Pro-forma	<u>\$ (59,799.00)</u>
Basic and diluted loss per share	
Reported	\$ (0.00)
Pro-forma	\$ (0.00)

The fair value of stock options used to calculate compensation expense is estimated using the Black-Scholes Option Pricing Model with the following assumptions:

Risk-free interest rate	3.98%
Expected dividend yield	-
Expected stock price volatility	108.00%
Expected option life in years	4.00

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore the existing models do not necessary provide a reliable single measure of the fair value of the Company's stock options.

FORM 51-102F1

ANGLO SWISS RESOURCES INC.

Interim Management's Discussion and Analysis

DATED May 28, 2004

Forward-Looking Information

This interim management discussion and analysis (Interim MD&A) contains forward-looking statements and information relating to Anglo Swiss Resources Inc. (Anglo Swiss or the Company) that are based on the beliefs of its management as well as assumptions made by and information currently available to Anglo Swiss. When used in this document, the words anticipate , believe , estimate , and expect and similar expressions, as they relate to the Company or its management, are intended to identify forward-looking statements.

This interim MD&A contains forward-looking statements relating to, among other things, regulatory compliance, the sufficiency of current working capital, the estimated cost and availability of funding for the continued exploration and development of Anglo Swiss exploration properties. Many factors could cause the actual results, performance or achievements of Anglo Swiss to be materially different from any future results, performance or achievements be expressed or implied by such forward-looking statements. Important factors are identified in this interim MD&A.

Overall Performance

Anglo Swiss is a mineral exploration company listed on the TSX Venture Exchange as a Tier 2 company. The Company is also inter-listed in the United States on the OTC Bulletin Board and effective February of 2004 on the Berlin Exchange in Germany.

Anglo Swiss current exploration focus is in south-eastern British Columbia as it controls two properties located between Nelson and Castlegar, the Kenville Mine property, looking for precious and base metals; and the Blu Starr property which hosts a variety of gemstones, including sapphire, gem garnet, iolite and other semi-precious gemstones. The Blu Starr property also hosts a 2000 meter flake graphite discovery which is situated in very close proximity to a local producer of high-grade fixed carbon concentrate, currently being marketed to the high tech industry for use in fuel cells, batteries etc.

The Company's resource property costs for the quarter ended March 31, 2004 were \$16,681 compared to \$6,388 in the quarter ended March 31, 2003. The Company's resource property balance including the fixed assets at the Kenville Mine property, capitalized as assets were \$2,791,474 at March 31, 2004 compared to \$2,808,154 at year end December 31, 2003. Cash resources at March 31, 2004 were \$354,934 plus accounts receivable of \$161,315 (due to the closing of the \$518,000 private placement on March 29, 2004) compared to cash resources of \$22,165 for the Year ended December 31, 2003. GST receivable for both periods was \$5,220. The Company has since collected the outstanding private placement funds, which were received from RSP accounts.

On March 29, 2004 the Company closed a private placement of 5,180,000 units to raise \$518,000. Each unit consisted of one common share, restricted for trading until July 29, 2004 and one common share purchase warrant. Each full warrant plus \$0.15 will purchase an additional common share until March 29, 2005. This financing will enable the Company to continue to meet its ongoing working capital commitments for the balance of this fiscal year.

While the Company has been successful in raising funds in the past, and sourcing partners to advance its properties, there can be no assurance that it will be able to do so in the future. Accordingly, there is some doubt about the ability of the company to continue as a going concern.

Results of Operations

Anglo Swiss has received a work permit allowing 2 kilometres of road to be built to gain access to the 1000 x 250 metre anomalous zone located on the Kenville Mine property; work is underway. The road will provide access to this area and 1000 metres of trenching has been approved under this permit. Future exploration will be based on the trenching results and the status of the option joint venture partners. The optionees are currently compiling a 43-101 Compliance Report on the Kenville Mine property for regulatory approval and subsequent exploration programs will proceed upon joint approvals.

Anglo Swiss has also filed a Notice of Work with the ministry to perform drilling and trenching of the alluvials held within 13 placer claims overlain on the Blu Starr mineral staked claims in the Slocan Valley. The Company owns 100% of these placer claims and is expected to implement this program upon receiving approval of the work program.

Mineral exploration is a speculative venture. There is no certainty that the money spent on exploration and development on either of its two mineral projects will result in any discoveries of commercial bodies of ore. The long-term profitability of Anglo Swiss operations will in part be related to the success of its exploration programs and its partners, which may be affected by a number of external factors that are beyond the Company's control.

The market price of precious/base metals, gemstones and other minerals is volatile and cannot be controlled. The mineral industry is also intensely competitive in all its phases. Anglo Swiss competes with many other mineral exploration companies who may have greater financial resources and experience.

Summary of Quarterly Results (Un-audited)

The following table sets out selected quarterly financial information of Anglo Swiss. Anglo Swiss interim financial statements are prepared by management, in accordance with Canadian generally accepted accounting principles and expressed in Canadian dollars.

Period	Revenues	Income or (Loss) from Continued Operation and Net Income (Loss)	Basic earnings (Loss) per Share from Continued operation and Net Income (Loss)	Fully Diluted Loss per Share from Continued operation and Net Income (Loss)
1 st . Quarter 2004	NIL	(\$59,799)	(0.00)	(0.00)
4 th . Quarter 2003	NIL	(\$156,745)	(0.003)	(0.00)
3 rd . Quarter 2003	NIL	(\$112,797)	(0.00)	(0.00)
2 nd . Quarter 2003	NIL	(\$39,457)	(0.00)	(0.00)
1 st . Quarter 2003	NIL	(\$29,836)	(0.00)	(0.00)
4 th . Quarter 2002	NIL	(\$6,089)	(0.00)	(0.00)
3 rd . Quarter 2002	NIL	(\$89,084)	(0.00)	(0.00)
2 nd . Quarter 2002	NIL	(\$9,101)	(0.00)	(0.00)

During the third quarter of 2003 Anglo Swiss re-entered into a three-year option agreement to explore the Kenville Mine property effective August 29, 2003. The optionees may earn a 70% interest to the mineral rights of the Kenville Mine property (the Company retains 100% ownership of the surface rights, facilities, buildings, equipment, etc.) by paying the Company \$100,000 (\$30,000 paid) and expending \$700,000 over the three-year exploration period, ending August 29, 2006. The optionee may at any time during this term, elect to form a Joint Venture to put the property back into production by expending the total \$800,000.

First Quarter 2004

During the first quarter of 2004, Anglo Swiss closed a private placement of \$518,000, which has provided the Company the ability to meet its current obligations through year end. Anglo Swiss sustained a loss of \$59,799 during this quarter, which included \$58,088 in general and administrative expenses. This loss was higher than the \$29,836 loss for the first quarter of 2003 as the Company was more active in areas related to the private placement. Investor relations/travel promotion (\$10,467), exchange fees (\$8,612) and office supplies (\$6,950) were all incurred in this

regard. The Company also accounted \$8,055 for stock-based compensation of options granted to non-employees in this quarter.

At March 31, 2004 the Company had a total working capital of \$78,523 and due to its tight financial situation, will continue to place as many restraints as necessary to conserve its working capital .

Liquidity

In management's view given the nature of the Company's activities, which consists of the acquisition, exploration, exploration management and purchase of mineral properties, the most meaningful and material financial information concerning the Company relates to its current liquidity and capital resources. The Company currently does not have any producing properties and its current operations on its various properties are in the exploration stages and have not derived any revenues from the sale of gold, gemstones or any other materials in the last three years. Before, during and after the interim quarter ended March 31, 2004, the Company was engaged in continued exploration of its gold property and simultaneously a precious/semi-precious gemstone property, both located in south-eastern British Columbia. As a result, the Company's future mineral exploration and mining activities may be affected in varying degrees by prevailing market prices, political stability and government regulations, the success of existing partners, all of which are beyond the control of the Company.

The Company's mineral exploration activities have been funded through the sales of common shares, and while the Company has also been successful in attracting partners to continue development and exploration of its properties, there is no assurance that these trends will continue indefinitely. The ongoing general and administrative obligations are dependent on financings as well and the Company expects to continue to utilize this source of funding until it develops cash flow from its operations. There can be no assurance, however, that the Company will be able to obtain the required financing in the future on acceptable terms, or at all. Anglo Swiss' ability to continue as a going concern in the future is dependent upon these factors and overall market conditions, which are beyond the Company's control.

At the end of the first quarter of 2004 Anglo Swiss has \$246,792 accrued to two directors of the Company and a law firm that an officer of the Company is a partner in. The Cash and receivables due from the private placement at March 31, 2004 resulted in cash at the end of the period of \$354,934 after accounting for accounts payable (\$90,665) and accrued property and capital taxes (\$101,009). Comparatively, Anglo Swiss had \$8,844 cash at March 31, 2003, accounts payable of \$33,333, accrued property and capital tax of 116,684 and \$172,439 due to related parties.

Capital Resources

At March 31, 2004 Anglo Swiss had paid up capital of \$11,742,585, representing 50,005,688 common shares without par value, and a deficit of \$8,031,760 resulting in shareholder's equity (or net assets) of \$4,311,608 (2003 -

\$3,887,771). Anglo Swiss had working capital of \$78,523 at March 31, 2004. The Company had a working capital deficiency of \$278,241 at March 31, 2003.

Additional Disclosure for Ventures Without Significant Revenue

Additional disclosure concerning Anglo Swiss general and administrative expenses and resource property costs is provided in the Company's Consolidated Statement of Loss and deficit and the Consolidated Schedule of resource Property Costs contained in its Interim Consolidated Financial Statements for March 31, 2004 and is available on the Company's website at www.anglo-swiss.com or on its SEDAR page site accessed through www.sedar.com, in the United States through its EDGAR filings accessed at www.sec.gov.

Outstanding Share Data

Anglo Swiss authorized capital is 500,000,000 common shares without par value. As at May 11, 2004 there are 50,005,688 common shares issued and outstanding.

As at May 11, 2004 the following options and share purchase warrants are outstanding:

Contractual Obligations

There are no long or short term contractual obligations as of the date of this report.

Transaction with Related Parties

During the first quarter of 2004 the Company incurred consulting fees by directors or officers or organizations controlled by such parties. No remuneration was paid in this regard, nor were any amounts paid in the first quarter of 2003. The Company paid no amount to a law firm in which an officer is a partner of the firm during the first quarter 2004 and carries a payable of \$107,990 to the same firm.

Changes in Accounting Policies

The Company has since adopted the fair value based method of accounting for stock based compensation for all individuals, effective January 1, 2004. Otherwise, the interim consolidated financial statements for the quarter ended March 31, 2004 followed the same accounting policies and methods of application in the most recent annual financial statements.

Financial and Other Instruments

Anglo Swiss's financial instruments consist of cash and short-term deposits, restricted cash, GST receivable and accounts payable. Unless otherwise noted, it is management's opinion that Anglo Swiss is not exposed to significant interest, currency or credit risks arising from the financial instruments. The fair value of these financial instruments approximates their carrying value due to their short-term maturity or capacity of prompt liquidation.

Approval

The Board of Directors of Anglo Swiss has approved the disclosure contained in this interim MD&A. A copy of this interim MD&A will be provided to anyone who requests it, in writing.

Additional Information

Additional information is available at the Company website at www.anglo-swiss.com or on its SEDAR page site accessed through www.sedar.com, in the United States through its EDGAR filings accessed at www.sec.gov.

BY ORDER OF THE BOARD OF DIRECTORS OF

ANGLO SWISS RESOURCES INC.

LEN DANARD

Len Danard, President & CEO

FORM 52-109FTS

CERTIFICATION OF INTERIM FILINGS DURING TRANSITION PERIOD

I, Len Danard, Chief Executive Officer of Anglo Swiss Resources Inc. certify that:

1.

I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 Certification of Disclosure in Issuer's Annual and Interim Filings) of Anglo Swiss Resources Inc., (the issuer) for the interim period ended March 31, 2004;

2.

Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings; and

3.

Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the period(s) represented in the interim filings.

Dated: May 27, 2004.

Len Danard

FORM 52-109FTS

CERTIFICATION OF INTERIM FILINGS DURING TRANSITION PERIOD

I, Chris Robbins, Chief Financial Officer of Anglo Swiss Resources Inc. certify that:

1.

I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 Certification of Disclosure in Issuer's Annual and Interim Filings) of Anglo Swiss Resources Inc., (the issuer) for the interim period ended March 31, 2004;

2.

Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings; and

3.

Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the period(s) represented in the interim filings.

Dated: May 27, 2004.
