

MARINE PRODUCTS CORP
Form 10-Q
July 31, 2013

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549
FORM 10-Q

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended June 30, 2013

Commission File No. 1-16263

MARINE PRODUCTS CORPORATION
(exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or organization)

58-2572419
(I.R.S. Employer
Identification Number)

2801 Buford Highway, Suite 520, Atlanta, Georgia 30329
(Address of principal executive offices) (zip code)

Registrant's telephone number, including area code -- (404) 321-7910

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/> (Do not check if smaller reporting company)	Smaller reporting company	<input checked="" type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 19, 2013, Marine Products Corporation had 38,098,520 shares of common stock outstanding.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

1. GENERAL

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (all of which consisted of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013.

The balance sheet at December 31, 2012 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2012.

A group that includes the Company's Chairman of the Board, R. Randall Rollins and his brother Gary W. Rollins, who is also director of the Company, and certain companies under their control, controls in excess of fifty percent of the Company's voting power.

2. RECENT ACCOUNTING PRONOUNCEMENTS

Recently Adopted Accounting Pronouncements:

Accounting Standards Update 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. The amendments in this ASU do not change the current requirements for reporting net income or other comprehensive income in financial statements. All of the information that this ASU requires already is required to be disclosed elsewhere in the financial statements under U.S. GAAP. In addition, an entity is required to present (either on the face of the statement where net income is presented or in the notes) the effects on the line items of net income of significant amounts reclassified out of accumulated other comprehensive income - but only if the item reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. The Company adopted these provisions in the first quarter of 2013 and has included the required additional disclosures in the accompanying financial statements and notes.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

3. EARNINGS PER SHARE

Basic and diluted earnings per share are computed by dividing net income by the weighted average number of shares outstanding during the respective periods. The basic and diluted calculations differ as a result of the dilutive effect of stock options and time lapse restricted shares included in diluted earnings per share, but excluded from basic earnings per share. In addition, the Company has periodically issued share-based payment awards that contain non-forfeitable rights to dividends and are therefore considered participating securities. A reconciliation of weighted average shares outstanding is as follows:

	Three months ended June 30,		Six months ended June 30,	
(In thousands except per share data)	2013	2012	2013	2012
Net income available for stockholders:	\$ 1,935	2,173	3,384	3,805
Less: Dividends paid				
Common Stock	(1,142)	(755)	(2,283)	(1,510)
Undistributed income	\$ 793	1,418	1,101	2,295
Basic shares outstanding:				
Common Stock	35,558	35,530	35,515	35,531
Restricted shares of common stock	1,271	1,138	1,259	1,118
	36,829	36,668	36,774	36,649
Diluted shares outstanding:				
Common Stock	35,558	35,530	35,515	35,531
Dilutive effect of stock based awards	194	42	229	147
	35,752	35,572	35,744	35,678
Restricted shares of common stock	1,271	1,138	1,259	1,118
	37,023	36,710	37,003	36,796

Inclusion of all participating securities in the computation of Earnings Per Share (EPS) under the two-class method has no impact on the EPS amounts reported.

The effect of the Company's stock options, as shown below, have been excluded from the computation of diluted earnings per share for the following periods, as their effect would have been anti-dilutive:

	Three months ended June 30,		Six months ended June 30,	
(in thousands)	2013	2012	2013	2012
Stock options	42	42	42	42

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

4. STOCK-BASED COMPENSATION

The Company reserved 2,250,000 shares of common stock under a Stock Incentive Plan with a term of ten years. This plan provides for the issuance of various forms of stock incentives, including, among others, incentive and non-qualified stock options and restricted shares. As of June 30, 2013, there were approximately 249,000 shares available for grants.

Stock-based compensation for the three and six months ended June 30, 2013 and 2012 were as follows:

(in thousands)	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
Pre – tax cost	\$ 429	\$ 379	\$ 844	\$ 755
After tax cost	\$ 277	\$ 244	\$ 545	\$ 487

Stock Options

Transactions involving Marine Products stock options for the six months ended June 30, 2013 were as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life in years	Aggregate Intrinsic Value
Outstanding at December 31, 2012	144,615	\$ 6.82	0.44	
Granted	-	-	N/A	
Exercised	-	-	N/A	
Forfeited	(103,015)	4.54	N/A	
Expired	-	-	N/A	
Outstanding at June 30, 2013	41,600	\$ 12.47	0.83	N/A

There were no stock options exercised during the six months ended June 30, 2013. The total intrinsic value of share options exercised was approximately \$817,000 during the six months ended June 30, 2012. Tax benefits associated with the exercise of non-qualified stock options during the six months ended June 30, 2012 of approximately \$51,000 were credited to capital in excess of par value and are classified as financing cash flows, since all of the stock options exercised in the six months ended June 30, 2012 were incentive stock options which do not generate tax deductions for the Company.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

Restricted Stock

The following is a summary of the changes in non-vested restricted shares for the six months ended June 30, 2013:

	Shares	Weighted Average Grant-Date Fair Value
Non-vested shares at December 31, 2012	1,132,500	\$ 5.92
Granted	371,000	6.40
Vested	(229,000)	6.20
Forfeited	(3,100)	6.28
Non-vested shares at June 30, 2013	1,271,400	\$ 6.01

The total fair value of shares vested was approximately \$1,457,000 during the six months ended June 30, 2013 and \$1,168,000 during the six months ended June 30, 2012. Tax benefits for compensation tax deductions in excess of compensation expense totaling approximately \$95,000 for the six months ended June 30, 2013 and \$88,000 for the six months ended June 30, 2012 were credited to capital in excess of par value and classified as financing cash flows.

Other Information

As of June 30, 2013, total unrecognized compensation cost related to non-vested restricted shares was approximately \$7,093,000. This cost is expected to be recognized over a weighted-average period of 4.1 years.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

5. MARKETABLE SECURITIES

Marine Products investments are held with a large, well-capitalized financial institution. Management determines the appropriate classification of debt securities at the time of purchase and reevaluates such designations as of each balance sheet date. Debt securities are classified as available-for-sale because the Company does not have the intent to hold the securities to maturity. Available-for-sale securities are stated at their fair values, with the unrealized gains and losses, net of tax, reported as a separate component of stockholders' equity. The cost of securities sold is based on the specific identification method. Realized gains and losses, declines in value judged to be other than temporary, interest and dividends on available-for-sale securities are included in interest income.

The net realized gains and the reclassification of net realized gains from other comprehensive income are as follows:

(in thousands)	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
Net realized gain	\$ 57	\$ 74	\$ 80	\$ 112
Reclassification of net realized gains from other comprehensive income	\$ 57	\$ 74	\$ 80	\$ 112

Gross unrealized gains (losses) on marketable securities are as follows:

(in thousands)	June 30, 2013 Gross unrealized		December 31, 2012 Gross unrealized	
	Gains	(Losses)	Gains	(Losses)
Municipal Obligations	\$ 174	\$ (152)	\$ 284	\$ (20)
Corporate Obligations	8	-	48	-
	\$ 182	\$ (152)	\$ 332	\$ (20)

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

The amortized cost basis, fair value and net unrealized gains on the available-for-sale securities are as follows:

Type of Securities (in thousands)	June 30, 2013			December 31, 2012		
	Amortized Cost Basis	Fair Value	Net Unrealized Gains	Amortized Cost Basis	Fair Value	Net Unrealized Gains
Municipal Obligations	\$ 35,461	\$ 35,483	\$ 22	\$ 35,342	\$ 35,606	\$ 264
Corporate Obligations	756	764	8	1,270	1,317	48
Total	\$ 36,217	\$ 36,247	\$ 30	\$ 36,612	\$ 36,923	\$ 312

Municipal obligations consist primarily of municipal notes rated A3 or higher ranging in maturity from less than one year to over 10 years. Corporate obligations consist primarily of debentures and notes issued by other companies ranging in maturity from one to two years. These securities are rated A2 or higher. Investments with remaining maturities of less than 12 months are considered to be current marketable securities. Investments with remaining maturities greater than 12 months are considered to be non-current marketable securities. The Company's non-current marketable securities are scheduled to mature between 2014 and 2041.

6. WARRANTY COSTS AND OTHER CONTINGENCIES

Warranty Costs

The Company warrants the entire boat, excluding the engine, against defects in materials and workmanship for a period of one year. The Company also warrants the entire deck and hull, including its bulkhead and supporting stringer system, against defects in materials and workmanship for periods ranging from five to ten years. An analysis of the warranty accruals for the six months ended June 30, 2013 and 2012 is as follows:

(in thousands)	2013	2012
Balance at beginning of period	\$ 2,522	\$ 1,973
Less: Payments made during the period	(824)	(838)
Add: Warranty provision for the period	1,271	1,131
Changes to warranty provision for prior periods	167	61
Balance at June 30	\$ 3,136	\$ 2,327

The warranty accruals are recorded in accrued expenses and other liabilities on the consolidated balance sheet.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

Repurchase Obligations

The Company is a party to various agreements with third party lenders that provide floor plan financing to qualifying dealers whereby the Company guarantees varying amounts of debt on boats in dealer inventory. The Company's obligation under these guarantees becomes effective in the case of a default under the financing arrangement between the dealer and the third party lender. The agreements provide for the return of repossessed boats to the Company in new and unused condition subject to normal wear and tear as defined, in exchange for the Company's assumption of specified percentages of the debt obligation on those boats, up to certain contractually determined dollar limits by lenders. The Company had no material repurchases of inventory during the year ended December 31, 2012 or in the first six months of 2013.

Management continues to monitor the risk of additional defaults and resulting repurchase obligations based in part on information provided by the third-party floor plan lenders and will adjust the guarantee liability at the end of each reporting period based on information reasonably available at that time.

The Company currently has an agreement with one of the floor plan lenders whereby the contractual repurchase limit is to not exceed 15 percent of the amount of the average net receivables financed by the floor plan lender for dealers during the prior 12 month period. The Company has contractual repurchase agreements with additional lenders with an aggregate maximum repurchase obligation of approximately \$5.0 million with various expiration and cancellation terms of less than one year, for an aggregate repurchase obligation with all floor plan financing institutions of approximately \$11.2 million as of June 30, 2013.

7.

BUSINESS SEGMENT INFORMATION

The Company has only one reportable segment, its powerboat manufacturing business; therefore, the majority of segment-related disclosures are not relevant to the Company. In addition, the Company's results of operations and its financial condition are not significantly reliant upon any single customer or product model.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

8. INVENTORIES

Inventories consist of the following:

(in thousands)	June 30, 2013	December 31, 2012
Raw materials and supplies	\$ 18,848	\$ 17,205
Work in process	6,806	6,597
Finished goods	3,656	4,357
Total inventories	\$ 29,310	\$ 28,159

9. INCOME TAXES

The Company determines its periodic income tax provision (benefit) based upon the current period income and the annual estimated tax rate for the Company adjusted for any change to prior year estimates. The estimated tax rate is revised, if necessary, as of the end of each successive interim period during the fiscal year to the Company's current annual estimated tax rate.

For the second quarter of 2013, the income tax provision reflects an effective tax rate of 27.3 percent, compared to an effective tax rate of 27.9 percent for the comparable period in the prior year. For the six months ended June 30, 2013 the income tax provision reflects an effective tax rate of 21.0 percent, compared to an effective tax rate of 28.3 percent for the comparable period in the prior year. The effective rate for the six months ended June 30, 2013 includes the impact of certain 2012 tax credits which were retroactively enacted into law and recorded in the first quarter of 2013 totaling approximately \$244,000.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

10. EMPLOYEE BENEFIT PLANS

The Company participates in a multiple employer pension plan. The following represents the net periodic benefit (credit) cost and related components for the plan:

(in thousands)	Three months ended		Six months ended	
	June 30,		June 30,	
	2013	2012	2013	2012
Interest cost	\$ 58	\$ 64	117	127
Expected return on plan assets	(92)	(83)	(184)	(165)
Amortization of net losses	17	16	34	31
Net periodic benefit	\$ (17)	\$ (3)	(33)	(7)

During the second quarter of 2013, the Company made a \$150 thousand cash contribution to this plan.

The Company permits selected highly compensated employees to defer a portion of their compensation into a non-qualified Supplemental Executive Retirement Plan (“SERP”). The Company maintains certain securities in the SERP that have been classified as trading. The SERP assets are marked to market and totaled \$6,122,000 as of June 30, 2013 and \$6,026,000 as of December 31, 2012. The SERP assets are reported in other assets on the consolidated balance sheets and changes to the fair value of the assets are included in selling, general and administrative expenses in the consolidated statements of operations.

Trading gains or losses related to the SERP assets totaled approximately \$96,000 during the six months ended June 30, 2013 and approximately \$53,000 during the six months ended June 30, 2012.

11. FAIR VALUE MEASUREMENTS

The various inputs used to measure assets at fair value establish a hierarchy that distinguishes between assumptions based on market data (observable inputs) and the Company’s assumptions (unobservable inputs). The hierarchy consists of 3 broad levels as follows:

1. Level 1 – Quoted market prices in active markets for identical assets or liabilities.
2. Level 2 – Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
3. Level 3 – Unobservable inputs developed using the Company’s estimates and assumptions, which reflect those that market participants would use.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

The following table summarizes the valuation of financial instruments measured at fair value on a recurring basis on the balance sheet as of June 30, 2013 and December 31, 2012:

(in thousands)	Fair Value Measurements at June 30, 2013 with:		
	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:			
Trading securities	\$-	\$ 6,122	\$ -
Available-for-sale securities			
Municipal obligations	\$-	\$ 35,483	\$ -
Corporate obligations	-	764	-
	\$-	\$ 36,247	\$ -

(in thousands)	Fair Value Measurements at December 31, 2012 with:		
	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:			
Trading securities	\$-	\$ 6,026	\$ -
Available-for-sale securities			
Municipal obligations	\$-	\$ 35,606	\$ -
Corporate obligations	-	1,317	-
	\$-	\$ 36,923	\$ -

The carrying amount of other financial instruments reported in the balance sheet for current assets and current liabilities approximate their fair values because of the short-term nature of these instruments. The Company currently does not use the fair value option to measure any of its existing financial instruments and has not determined whether or not it will elect this option for financial instruments it may acquire in the future.

12. ACCUMULATED OTHER COMPREHENSIVE (LOSS) INCOME

Accumulated other comprehensive (loss) income consists of the following:

(in thousands)	Pension Adjustment	Unrealized Gain (Loss) On Securities	Total
Balance at December 31, 2012	\$ (1,771)	\$ 199	\$(1,572)
Change during the period ended June 30, 2013:			
Before-tax amount	-	(361)	(361)
Tax benefit	-	129	129
Reclassification adjustment, net of taxes			
Amortization of net loss (1)	21	-	21
Net realized gain (2)	-	52	52
Total activity for the period	21	(180)	(159)
Balance at June 30, 2013	\$ (1,750)	\$ 19	\$(1,731)

(in thousands)	Pension Adjustment	Unrealized Gain (Loss) On Securities	Total
Balance at December 31, 2011	\$ (1,666)	\$ 208	\$(1,458)
Change during the period ended June 30, 2012:			
Before-tax amount	-	(39)	(39)
Tax benefit	-	14	14
Reclassification adjustment, net of taxes			
Amortization of net loss (1)	20	-	20
Net realized gain (2)	-	72	72
Total activity for the period	20	47	67
Balance at June 30, 2012	\$ (1,646)	\$ 255	\$(1,391)

(1) Reported as part of selling, general and administrative expenses.

(2) Reported as part of interest income.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Marine Products Corporation, through our wholly owned subsidiaries Chaparral and Robalo, is a leading manufacturer of recreational fiberglass powerboats. Our sales and profits are generated by selling the products that we manufacture to a network of independent dealers who in turn sell the products to retail customers. These dealers are located throughout the continental United States and in several international markets. Many of these dealers finance their inventory through third-party floorplan lenders, who pay Marine Products generally within seven to ten days after delivery of the products to the dealers.

The discussion on business and financial strategies of the Company set forth under the heading "Overview" in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2012 is incorporated herein by reference. There have been no significant changes in the strategies since year-end.

In implementing these strategies and attempting to optimize our financial returns, management closely monitors dealer orders and inventories, the production mix and profitability of its various models, and indications of near term demand such as consumer confidence, interest rates, fuel costs, dealer orders placed at our annual dealer conferences, and retail attendance and orders at annual winter boat show exhibitions. We also consider trends related to certain key financial and other data, including our market share, unit sales of our products, average selling price per unit, and gross profit margins, among others, as indicators of the success of our strategies. Marine Products' financial results are affected by consumer confidence — because pleasure boating is a discretionary expenditure, interest rates and credit availability — because many retail customers finance the purchase of their boats, and other socioeconomic and environmental factors such as availability of leisure time, consumer preferences, demographics and the weather.

Our unit production and net sales were higher during the second quarter of 2013 compared to the second quarter of 2012 but lower than the first quarter of 2013. We operated at higher production levels during the second quarter of 2013 because of strong dealer demand for our larger entry-level Robalo models, our larger Chaparral H2O models, and selected mid-range Chaparral models. In addition, industry indicators such as attendance at the 2013 winter boat shows, industry reports regarding 2013 retail boat sales, and the increased availability of floorplan financing for our dealers, have given us a favorable outlook for the near-term selling environment for our products. In spite of these positive indicators, however, we also believe that the 2013 retail selling season was negatively impacted by weather that was colder and experienced more rainfall than normal in many of our markets in the Midwest and Northeast. This weather may have caused potential purchasers of pleasure boats to defer their purchases. In addition, we believe that delayed repair of vacation homes, docking facilities, and other boating-related infrastructure damaged by Hurricane Sandy has negatively impacted sales in several of our Northeast markets.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

Operating income decreased compared to the prior year due to higher selling, general and administrative expenses. Selling, general and administrative expenses increased due to costs that vary with sales, such as warranty expense and sales commissions. Dealer inventory in units as of June 30, 2013 was substantially lower than the end of the first quarter of 2013, but higher compared to the second quarter of 2012. However, dealer inventory remains at appropriate levels, given the fact that our retail sales have been steadily improving compared to a year ago.

OUTLOOK

The discussion on the outlook for 2013 is incorporated herein by reference from the Company's annual report on Form 10-K for the fiscal year ended December 31, 2012.

Management believes that net sales will be higher in 2013 compared to 2012 due to higher unit sales and slightly higher average selling prices in 2013 than in 2012. This belief is based on indications that recreational boating retail demand has improved, and the fact that our dealer inventories and order backlog are at reasonable levels. Attendance and sales from the 2013 winter boat shows were moderately higher than the 2012 season, although the 2013 retail selling season was slightly disappointing compared to industry expectations.

Although industry wide retail boat sales remain lower than they were in 2008, sales volumes expanded in 2012 and the first six months of 2013, and we expect this to continue for the remainder of 2013. We believe improvements in retail boat sales will be modest due to the continued economic weakness which tends to discourage consumers from purchasing large discretionary goods such as pleasure boats. Fluctuations in fuel prices can impact our sales, although fuel prices have declined during the second quarter of 2013, which should encourage consumers to participate in recreational boating. Furthermore, recent improvements within selected housing markets could have positive effects on sales. For a number of years, Marine Products as well as other manufacturers have been improving their customer service capabilities, marketing strategies and sales promotions in order to attract more consumers to recreational boating as well as improve consumers' boating experiences. The Company provides financial incentives to its dealers for favorable customer satisfaction surveys. In addition, the recreational boating industry conducts a promotional program which involves advertising and consumer targeting efforts, as well as other activities designed to increase the potential consumer market for pleasure boats. Many manufacturers, including Marine Products, participate in this program. Management believes that these efforts have incrementally benefited the industry and Marine Products. As in past years, Marine Products plans to enhance its selection of models for the 2014 model year which began on July 1, 2013. We are continuing to emphasize the value-priced Chaparral and Robalo models, as well as larger models in the Chaparral SSX and H2O lines, and a new Robalo bay boat. In addition, we plan to introduce a recreational jet boat during our 2014 model year. We have executed a supply agreement with Bombardier Recreational Products for an engine for this boat, and are designing this new product during the third and fourth quarters of 2013. We believe that this new product will expand our customer base, and leverage our strong dealer network and reputation for quality and styling.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

Our financial results in 2013 will depend on a number of factors, including interest rates, consumer confidence, the availability of credit to our dealers and consumers, fuel costs, the continued acceptance of our new products in the recreational boating market, our ability to compete in the competitive pleasure boating industry, and the costs of labor and certain of our raw materials and key components.

RESULTS OF OPERATIONS

Key operating and financial statistics for the three and six months ended June 30, 2013 and 2012 are as follows:

(\$'s in thousands)	Three months ended		Six months ended	
	June 30,		June 30,	
	2013	2012	2013	2012
Total number of boats sold	875	880	1,851	1,749
Average gross selling price per boat	\$ 44.0	\$ 40.7	\$ 43.3	\$ 41.1
Net sales	\$ 42,235	\$ 38,454	\$ 86,518	\$ 76,303
Percentage of cost of goods sold to net sales	82.7 %	81.0 %	83.3 %	81.3 %
Gross profit margin percent	17.3 %	19.0 %	16.7 %	18.7 %
Percentage of selling, general and administrative expenses to net sales	11.4 %	11.8 %	12.1 %	12.4 %
Operating income	\$ 2,482	\$ 2,760	\$ 3,954	\$ 4,813
Warranty expense	\$ 689	\$ 596	\$ 1,438	\$ 1,192

THREE MONTHS ENDED JUNE 30, 2013 COMPARED TO THREE MONTHS ENDED JUNE 30, 2012

Net sales for the three months ended June 30, 2013 increased \$3.8 million or 9.8 percent compared to the comparable period in 2012. The change in net sales was due to an 8.1 percent increase in the average gross selling price per boat, partially offset by a 0.6 percent decrease in the number of boats sold. Average selling prices per boat increased during the quarter because of a model mix that included higher sales of our larger Chaparral H2O and value-priced Robalo models, as well as the larger Chaparral SSX Sportsdecks. Unit sales increases among our large Chaparral H2O models, value priced Robalo boats and Chaparral SSX Sportsdecks were offset by lower unit sales of our smaller Chaparral H2O models and Sunesta Sportsdecks. In the second quarter of 2013, sales outside of the United States accounted for 20.8 percent of net sales compared to 22.7 percent of net sales in the prior year second quarter. International net sales increased 0.6 percent to \$8.8 million and domestic net sales increased 12.5 percent to \$33.4 million. The majority of the increase in international sales was due to increased sales in Australia and Canada, partially offset by decreased sales in Western Europe.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

Cost of goods sold for the three months ended June 30, 2013 was \$34.9 million compared to \$31.2 million for the comparable period in 2012, an increase of \$3.7 million or 12.1 percent. Cost of goods sold, as a percentage of net sales, increased primarily due to a higher employee headcount and the cost of employee benefit improvements as a result of enhancing our production workforce, partially offset by lower materials cost as a percentage of net sales due to a favorable model mix.

Selling, general and administrative expenses for the three months ended June 30, 2013 were \$4.8 million compared to \$4.5 million for the comparable period in 2012, an increase of \$0.3 million or 6.6 percent. This increase was due to expenses that vary with sales, such as sales commissions and warranty expense, as well as increased advertising costs. Selling, general and administrative expenses, as a percentage of net sales, decreased primarily due to leverage of fixed costs over higher activity levels. Warranty expense was 1.6 percent of net sales for the three months ended June 30, 2013 compared to 1.5 percent in the prior year quarter.

Operating income for the three months ended June 30, 2013 decreased \$0.3 million compared to the comparable period in 2012 due to higher selling, general and administrative expenses offsetting slightly higher gross profit.

Interest income was \$178 thousand during the three months ended June 30, 2013 and \$253 thousand for the comparable period in 2012. The decrease was primarily due to a 29.9 percent decrease in the average balance of our marketable securities portfolio. The decrease in marketable securities is primarily due to the liquidation of \$19.3 million from our marketable securities portfolio to fund a one-time special dividend of \$0.55 per share paid in December 2012.

Income tax provision for the three months ended June 30, 2013 was \$725 thousand compared to \$840 thousand for the comparable period in 2012. The income tax provision for the three months ended June 30, 2013 reflects an effective tax rate of 27.3 percent compared to an effective tax rate of 27.9 percent for the prior year.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

SIX MONTHS ENDED JUNE 30, 2013 COMPARED TO SIX MONTHS ENDED JUNE 30, 2012

Net sales for the six months ended June 30, 2013 increased \$10.2 million or 13.4 percent compared to the comparable period in 2012. The change in net sales was due to a 5.9 percent increase in the number of boats sold coupled with a 5.3 percent increase in the average gross selling price per boat. Unit sales increased primarily due to higher sales of our larger Chaparral boats and value priced Robalo boats, partially offset by lower unit sales of our smaller H20 models. Average selling prices increased due to higher sales of our larger models, especially the new Chaparral 257 and 277 SSX Sportsdecks. In the first six months of 2013, sales outside of the United States accounted for 21.4 percent of net sales compared to 22.6 percent of net sales for the comparable period in 2012. International net sales increased 7.4 percent to \$18.5 million and domestic net sales increased 15.1 percent to \$68.0 million.

Cost of goods sold for the six months ended June 30, 2013 was \$72.1 million compared to \$62.0 million for the comparable period in 2012, an increase of \$10.1 million or 16.3 percent. Cost of goods sold, as a percentage of net sales, increased primarily due to increased employment costs to enhance our production workforce and the lower margins generated by our value priced boats including the new Robalo boats, the sales of which increased during the year compared to the prior year.

Selling, general and administrative expenses for the six months ended June 30, 2013 were \$10.5 million compared to \$9.5 million for the comparable period in 2012, an increase of \$1.0 million or 10.5 percent. This increase was due to expenses that vary with sales, such as sales commissions and warranty expense, as well as increased advertising costs. Selling, general and administrative expenses, as a percentage of net sales, decreased primarily due to leverage of fixed costs over higher activity levels. Warranty expense was 1.7 percent of net sales for the six months ended June 30, 2013 compared to 1.6 percent in the prior year.

Operating income for the six months ended June 30, 2013 decreased \$0.9 million compared to the comparable period in 2012 due to higher selling, general and administrative expenses offsetting slightly higher gross profit.

Interest income was \$327 thousand during the six months ended June 30, 2013 and \$492 thousand for the comparable period in 2012. The decrease was primarily due to a 29.2 percent decrease in the average balance of our marketable securities portfolio. The decrease in marketable securities is primarily due to the liquidation of \$19.3 million from our marketable securities portfolio to fund a one-time special dividend of \$0.55 per share paid in December 2012.

Income tax provision for the six months ended June 30, 2013 was \$897 thousand compared to \$1.5 million for the comparable period in 2012. The income tax provision for the six months ended June 30, 2013 reflects an effective tax rate of 21.0 percent compared to an effective tax rate of 28.3 percent for the prior year. The effective tax rate for the six months ended June 30, 2013 includes the impact of certain 2012 tax credits which were retroactively enacted into law and recorded in the first quarter of 2013 totaling approximately \$244,000.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

LIQUIDITY AND CAPITAL RESOURCES

Cash Flows

The Company's cash and cash equivalents at June 30, 2013 were \$4.6 million compared to \$3.0 million at June 30, 2012. In addition, the aggregate of short-term and long-term marketable securities were \$36.2 million at June 30, 2013 compared to \$36.9 million at December 31, 2012. The following table sets forth the cash flows for the applicable periods:

(in thousands)	Six months ended June 30,	
	2013	2012
Net cash provided by operating activities	\$ 5,525	\$ 5,795
Net cash provided by (used for) investing activities	218	(1,711)
Net cash used for financing activities	\$ (2,764)	\$ (2,030)

Cash provided by operating activities for the six months ended June 30, 2013 decreased approximately \$0.3 million compared to the comparable period in 2012. This decrease is primarily due to a decrease in net income, partially offset by a favorable change in working capital.

The major components of the favorable change in working capital were as follows: a favorable change of \$3.0 million in inventories due to a larger increase in inventory in the prior year to support a more significant increase in prior year production levels; a \$1.5 million favorable change in accounts payable due primarily to timing of payments; a \$2.6 million unfavorable change in other accrued expenses, largely attributable to timing of payments related to officer compensation and retail incentives; a \$1.6 million unfavorable change in accounts receivable primarily due to timing of boat shipments and payments.

Cash provided by investing activities for the six months ended June 30, 2013 was approximately \$0.2 million compared to \$1.7 million used for investing activities in the same period in 2012. This change is due primarily to a 61.9 percent decline in purchases of marketable securities, partially offset by a 54.6 percent decline in sales of marketable securities.

Cash used for financing activities for the six months ended June 30, 2013 increased approximately \$0.7 million compared to the six months ended June 30, 2012 primarily due to the 50.0 percent increase in the quarterly dividend.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

Financial Condition and Liquidity

The Company believes that the liquidity provided by existing cash, cash equivalents and marketable securities, its overall strong capitalization and cash generated by operations will provide sufficient capital to meet the Company's requirements for at least the next twelve months. The Company's decisions about the amount of cash to be used for investing and financing purposes are influenced by its capital position and the expected amount of cash to be provided by operations.

Cash Requirements

The Company currently expects that capital expenditures during 2013 will be approximately \$1.4 million of which \$189 thousand has been spent through June 30, 2013.

The Company participates in a multiple employer Retirement Income Plan, sponsored by RPC, Inc. ("RPC"). The Company made a \$150 thousand cash contribution to this plan during the second quarter of 2013.

As of June 30, 2013, the Company has purchased a total of 5,033,785 shares in the open market under the Company stock repurchase program and there are 3,216,215 shares that remain available for repurchase. The Company repurchased 6,000 shares under this program during the six months ended June 30, 2013.

The Company warrants the entire boat, excluding the engine, against defects in materials and workmanship for a period of one year. The Company also warrants the entire deck and hull, including its bulkhead and supporting stringer system, against defects in materials and workmanship for periods ranging from five to ten years. See Note 6 to the Consolidated Financial Statements for a detail of activity in the warranty accruals during the six months ended June 30, 2013 and 2012.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

OFF BALANCE SHEET ARRANGEMENTS

To assist dealers in obtaining financing for the purchase of its boats for inventory, the Company has entered into agreements with various third-party floor plan lenders whereby the Company guarantees varying amounts of debt for qualifying dealers on boats in inventory. The Company's obligation under these guarantees becomes effective in the case of a default under the financing arrangement between the dealer and the third-party lender. The agreements provide for the return of all repossessed boats to the Company in a new and unused condition as defined, in exchange for the Company's assumption of specified percentages of the debt obligation on those boats, up to certain contractually determined dollar limits which vary by lender. The Company had no material repurchases of inventory during the year ended December 31, 2012 or the six months ended June 30, 2013.

Management continues to monitor the risk of additional defaults and resulting repurchase obligations based in part on information provided by the third-party floor plan lenders and will adjust the guarantee liability at the end of each reporting period based on information reasonably available at that time.

The Company currently has an agreement with one of the floor plan lenders whereby the contractual repurchase limit is to not exceed 15 percent of the amount of the average net receivables financed by the floor plan lender for dealers during the prior 12 month period. The Company has contractual repurchase agreements with additional lenders with an aggregate maximum repurchase obligation of approximately \$5.0 million with various expiration and cancellation terms of less than one year, for an aggregate repurchase obligation with all financing institutions of approximately \$11.2 million as of June 30, 2013.

RELATED PARTY TRANSACTIONS

In conjunction with its spin-off from RPC in 2001, the Company and RPC entered into various agreements that define their relationship after the spin-off. RPC charged the Company for its allocable share of administrative costs incurred for services rendered on behalf of Marine Products totaling approximately \$268 thousand in the six months ended June 30, 2013 and \$231 thousand in the six months ended June 30, 2012.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

CRITICAL ACCOUNTING POLICIES

The discussion of Critical Accounting Policies is incorporated herein by reference from the Company's annual report on Form 10-K for the fiscal year ended December 31, 2012. There have been no significant changes in the critical accounting policies since year-end.

IMPACT OF RECENT ACCOUNTING PRONOUNCEMENTS

See Note 2 of the Consolidated Financial Statements for a description of recent accounting pronouncements, including the expected dates of adoption and estimated effects on results of operations and financial condition.

SEASONALITY

Marine Products' quarterly operating results are affected by weather and general economic conditions. Quarterly operating results for the second quarter historically have reflected the highest quarterly sales volume during the year with the first quarter being the next highest sales quarter. However, the results for any quarter are not necessarily indicative of results to be expected in any future period.

INFLATION

The market prices of certain material and component costs used in manufacturing the Company's products, especially resins that are made with hydrocarbon feedstocks, copper and stainless steel, were very volatile as a result of the financial crisis of 2008, the ensuing global recession and the subsequent economic recovery. During the first and second quarter of 2013, the prices of many of these commodities decreased, although they remain volatile. As a result, we believe that the Company's material costs may decline in 2013, although they continue to remain volatile. In the event that the prices of these commodities increase in the future and result in higher raw materials costs, we cannot be confident that the Company will be able to institute sufficient price increases to its dealers to compensate for these increased materials costs, or that the Company will be able to implement manufacturing strategies that will significantly reduce usage of raw materials that will compensate for these increased materials costs.

New boat buyers typically finance their purchases. Higher inflation typically results in higher interest rates that could translate into an increased cost of boat ownership. Should higher inflation and increased interest rates occur, prospective buyers may choose to forego or delay their purchases or buy a less expensive boat in the event that interest rates rise or credit is not available to finance their boat purchases.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

FORWARD-LOOKING STATEMENTS

Certain statements made in this report that are not historical facts are “forward-looking statements” under the Private Securities Litigation Reform Act of 1995. Such forward-looking statements may include, without limitation, the expected effect of recent accounting pronouncements on the Company’s consolidated financial statements; the Company’s estimate for warranty accruals; our favorable outlook for the near-term selling environment for our products; our belief that the boating industry is improving; management’s belief that net sales will be higher in 2013 compared to 2012; our expectation that industry wide retail boat sales will continue to expand in 2013; our belief that these improvements in retail boat sales will be modest; our belief that the decline in fuel prices in 2013 should encourage consumers to participate in recreational boating; our belief that improvements in selected housing markets could have positive effects on sales; the Company’s belief that the recreational boating industry promotional program have incrementally benefited the industry and Marine Products; our plans to enhance model selection for the 2014 model year; our plans to introduce a jet boat during our 2014 model year; the Company’s belief that its liquidity, capitalization and cash expected to be generated from operations, will provide sufficient capital to meet the Company’s requirements for at least the next twelve months; the Company’s expectations about capital expenditures during 2013; the Company’s expectation about contributions to its pension plan in 2013; the Company’s belief that material costs may decline in 2013; the Company’s belief that it may not be able to institute sufficient price increases to compensate for increased material costs or implement manufacturing strategies that will significantly reduce usage of raw materials to compensate for these increased material costs; the Company’s expectation regarding market risk of its investment portfolio; and the Company’s expectations about the effect of litigation on the Company’s financial position or results of operations.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

The words “may,” “should,” “will,” “expect,” “believe,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “project,” “estimate,” expressions used in this document that do not relate to historical facts are intended to identify forward-looking statements. Such statements are based on certain assumptions and analyses made by our management in light of its experience and its perception of historical trends, current conditions, expected future developments and other factors it believes to be appropriate. We caution you that such statements are only predictions and not guarantees of future performance and that actual results, developments and business decisions may differ from those envisioned by the forward-looking statements. Risk factors that could cause such future events not to occur as expected include the following: economic conditions, unavailability of credit and possible decreases in the level of consumer confidence impacting discretionary spending, business interruptions due to adverse weather conditions, increased interest rates, unanticipated changes in consumer demand and preferences, deterioration in the quality of Marine Products’ network of independent boat dealers or availability of financing of their inventory, our ability to insulate financial results against increasing commodity prices, the impact of rising gasoline prices and a weak housing market on consumer demand for our products, competition from other boat manufacturers and dealers, and insurance companies that insure a number of Marine Products’ marketable securities have been downgraded, which may cause volatility in the market price of Marine Products’ marketable securities. Additional discussion of factors that could cause actual results to differ from management’s projections, forecasts, estimates and expectations is contained in Marine Products Form 10-K filed with the Securities and Exchange Commission for the year ended December 31, 2012. The Company does not undertake to update its forward-looking statements.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Marine Products does not utilize financial instruments for trading purposes and, as of June 30, 2013, did not hold derivative financial instruments that could expose the Company to significant market risk. Also, as of June 30, 2013, the Company's investment portfolio, totaling approximately \$36.2 million and comprised primarily of municipal and corporate debt securities, is subject to interest rate risk exposure. This risk is managed through conservative policies to invest in high-quality obligations that are both short-term and long-term in nature. Because Marine Products' investment portfolio mix has been allocated towards securities with similar term maturities compared to the end of fiscal year 2012, the risk of material market value fluctuations is not expected to be significantly different from the end of fiscal year 2012 and the Company currently expects no such changes through the remainder of the current year.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures - The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and that such information is accumulated and communicated to its management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of the end of the period covered by this report, June 30, 2013 (the "Evaluation Date"), the Company carried out an evaluation, under the supervision and with the participation of its management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Exchange Act Rule 13a – 15(e)). Based upon this evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a – 15(e)) were effective at a reasonable assurance level as of the Evaluation Date.

Changes in internal control over financial reporting - Management's evaluation of changes in internal control did not identify any changes in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
