**Item 8.01. Other Events.**

At the UBS 10th Annual Global Communications Conference on November 17, 2005, Doreen Toben, Executive Vice President and Chief Financial Officer of Verizon Communications Inc., provided an outline of the company's strategic focus. She discussed Verizon's strategies and competitive advantages in four key areas of growth: wireless, broadband, video and the enterprise market. She stated that sales of Verizon's DSL broadband service were continuing the momentum achieved in the 3rd quarter, and the company expects to finish the 4th quarter with very strong DSL results. Ms. Toben commented on the possibility of reducing the number of access lines following the MCI merger. The company is currently considering alternatives and will make an announcement when it determines its course of action.

NOTE: This report contains statements about expected future events and financial results that are forward-looking and subject to risks and uncertainties. For those statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. The following important factors could affect future results and could cause those results to differ materially from those expressed in the forward-looking statements: materially adverse changes in economic and industry conditions and labor matters, including workforce levels and labor negotiations, and any resulting financial and/or operational impact, in the markets served by us or by companies in which we have substantial investments; material changes in available technology; technology substitution; an adverse change in the ratings afforded our debt securities by nationally accredited ratings organizations; the final results of federal and state regulatory proceedings concerning our provision of retail and wholesale services and judicial review of those results; the effects of competition in our markets; the timing, scope and financial impacts of our deployment of fiber-to-the-premises broadband technology; the ability of Verizon Wireless to continue to obtain sufficient spectrum resources; changes in our accounting assumptions that regulatory agencies, including the SEC, may require or that result from changes in the accounting rules or their application, which could result in an impact on earnings; a significant change in the timing of, or the imposition of any government conditions to, the closing of our business combination transaction with MCI, Inc., if consummated; actual and contingent liabilities in connection with the MCI transaction; and the extent and timing of our ability to obtain revenue enhancements and cost savings following the MCI transaction.
