Issuance of Stock Options (Stock Acquisition Rights) to Employees and Others

TOKYO, Japan July 4, 2007 Today, an executive officer of ORIX Corporation announced the issuing terms for granting stock acquisition rights in the form of stock options, to employees of the Company, and directors, corporate auditors and employees of subsidiaries and affiliates of the Company based upon resolutions of the 44th Annual General Meeting of Shareholders of ORIX Corporation and Board of Director s meeting both held on June 22, 2007. The details are given below.

1. Issue Date of Stock Acquisition Rights (Allocation Date)

July 19, 2007

2. Recipients of the Stock Acquisition Rights

The stock acquisition rights are to be issued to a total of 480 individuals that includes employees of the Company, and directors, corporate auditors and employees of subsidiaries and affiliates of the Company.

3. Type and Number of Shares to be Issued upon Exercise of the Stock Acquisition Rights

One stock acquisition right is equivalent to 10 common shares. In the case that a stock split (including gratis issue) or reverse stock split takes effect after the conclusion of the 44th Annual General Meeting of Shareholders of the Company, the number of shares for stock acquisition rights will be adjusted using the following calculation method. However, the adjustment will only be done for those stocks of stock acquisition rights that have not been exercised at the time of such stock split or stock merger. Furthermore, upon adjustment fractions of one stock will be rounded down.

Number of Stock After Adjustment = Number of Stock Prior to Adjustment × Ratio for Stock Split or Stock Merger

In addition, the number of shares for stock acquisition rights will be adjusted to a reasonable extent if there is a merger, spin-off, exchange of stock, stock transfer, or any other inevitable reasons after the closing of the 44th Annual General Meeting of Shareholders of the Company.

Table of Contents

4. Number of Stock Acquisition Rights to be Issued

The number of stock acquisition rights to be issued shall be 10,766 units. The total number of shares to be issued or transferred upon exercise of the stock acquisition rights shall be 107,660 shares of the Company, provided, however, that if the adjustment to the number of shares for the stock acquisition rights set forth in 3 above has been made, the total number of shares to be issued or transferred upon exercise of the stock acquisition rights shall be adjusted as well.

5. Necessity of Payment for the Stock Acquisition Rights

No payment is required for stock acquisition rights and this condition does not correspond to an issuance on advantageous terms.

6. Value of Property to be Invested at the Time of Exercising Stock Acquisition Rights and Method used for its Calculation

The value of property to be invested into the Company at the time of exercising one unit of the stock acquisition rights shall be the product of the amount to be paid in at the time of exercising stock acquisition rights per share to be determined by description below (hereinafter referred to as the Exercise Price), multiplied by the number of shares to be issued per unit of the stock acquisition rights set forth in 3 above.

The exercise price shall be the average closing price of common shares on the Tokyo Stock Exchange for the 30 trading days commencing 45 days previous to, and not including, July 18, 2007, which is the day that the Company will decide the exercise price (excluding days in which no shares are traded) and rounded upwards to the nearest yen.

However, if this average price is less than the closing price on the date on which the Company decides the exercise price, the closing price of such date, or, if there is no closing price on such date, the closing price of the closest preceding day shall be used.

Furthermore, in the event that there is a share split or a reverse share split, which becomes effective after the conclusion of the 44th Annual General Meeting of Shareholders, the exercise price shall be adjusted in accordance with the following formula, and any fractional amount of less than one yen resulting from such adjustment shall be rounded up to one yen.
