If the exact applicable price and/or effective date are not set forth in the table above, then:

if the actual applicable price is between two applicable prices in the table or the effective date is between two effective dates in the table, the number of additional shares of common stock to be delivered per Warrant shall be determined by a straight-line interpolation between the number of additional shares of common stock set forth for the higher and lower applicable prices and/or the earlier and later effective dates in the table, based on a 365-day year, as applicable;

if the actual applicable price is in excess of \$200.00 per share, subject to adjustment as described in the Preliminary Prospectus under Description of Warrants Adjustments to the Warrants, no additional shares of common stock shall be delivered upon exercise of any Warrant in connection with the relevant designated event; and

if the actual applicable price is less than \$5.00 per share, subject to adjustment as described in the Preliminary Prospectus under Description of Warrants Adjustments to the Warrants, no additional shares of common stock shall be delivered upon exercise of any Warrant in connection with the relevant designated event.

Notwithstanding the foregoing, in no event will the number of shares of common stock deliverable to the warrant holder as a result of the net share settlement calculation or as a result of a designated event, individually or in aggregate, exceed the number of underlying shares.

It is expected that delivery of the Warrants will be made against payment therefor on or about May 25, 2010 which will be 3 business days following the date of pricing of the Warrants hereof (this settlement cycle being referred to as T+3).
