The Fund did not have any open financial instruments at May 31, 2016.

The cost and unrealized appreciation (depreciation) of investments of the Fund at May 31, 2016, as determined on a federal income tax basis, were as follows:

Aggregate cost	\$ 1,811,138,337
Gross unrealized appreciation	\$ 224,431,337
Gross unrealized depreciation	(56,477,676)
Net unrealized appreciation	\$ 167,953,661

Under generally accepted accounting principles for fair value measurements, a three-tier hierarchy to prioritize the assumptions, referred to as inputs, is used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund s own assumptions in determining the fair value of investments)

In cases where the inputs used to measure fair value fall in different levels of the fair value hierarchy, the level disclosed is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The inputs or methodology used for valuing securities are

not necessarily an indication of the risk associated with investing in those securities.

At May 31, 2016, the hierarchy of inputs used in valuing the Fund s investments, which are carried at value, were as follows:

^{*} None of the unobservable inputs for Level 3 assets, individually or collectively, had a material impact on the Fund.

Level 3 investments at the beginning and/or end of the period in relation to net assets were not significant and accordingly, a reconciliation of Level 3 assets for the fiscal year to date ended May 31, 2016 is not presented. At May 31, 2016, the value of investments transferred between Level 1 and Level 2 during the fiscal year to date then ended was not significant.
