Stockholders and Industry Analysts Voice Significant Support

for Farmer Bros. Co.'s Turnaround Plan and Leadership Team

*Voting FOR the Company's Nominees is Voting FOR Stockholder Value Creation and Improved
Operational and Financial Performance*

*The Board Urges Stockholders to Protect Their Investment by Voting FOR Each of Farmer Bros. Highly
Qualified Director Nominees on the GOLD Proxy Card*

FT. WORTH, Texas November 21, 2016 Farmer Bros. Co. (NASDAQ: FARM, the Company or Farmer Bros.) today mailed a letter to its stockholders in connection with the Company's upcoming 2016 Annual Meeting of Stockholders to be held on December 8, 2016.

Highlights from the letter include:

Industry analysts and Farmer Bros. stockholders recognize the Company's significant progress and stockholder value creation under the current Board of Directors and management team, and have applauded:

The Company's new customer wins and expansion of existing customer accounts that are driving green coffee pound volume increases;

Successful and ongoing execution of a corporate relocation that is generating efficiencies and cost savings; and

A turnaround plan that is leading to improvements in Farmer Bros.' profitability.

The current Farmer Bros. Board, including the Board's three highly-qualified nominees, is actively engaged and collectively represents a strong mix of independence, executive experience, industry expertise, deep understanding of the Company's business, Farmer family representation and stockholder perspective.

The current team is delivering superior value for stockholders through a successful turnaround that has driven an increase in the Company's stock price of over 225%, representing over \$400 million in value creation for **all** stockholders.

The future of Farmer Bros. and your investment are at risk because the election of the Waite Group's three hand-picked nominees, combined with Farmer family representatives already on the Board, would effectively lead to a change of control of the Board and Farmer Bros. and the removal of the current

successful management team.

The full text of the letter being mailed to stockholders follows:

November 21, 2016

Dear Farmer Bros. Co. Stockholder:

At the upcoming Farmer Bros. 2016 Annual Meeting of Stockholders, you will be faced with an important decision regarding the value of your investment and the future of Farmer Bros. Over the last few weeks, we have detailed how Farmer Bros. has the right Board of Directors, the right management team and the right plan in place to continue to drive the Company's success and to deliver superior value to all stockholders.

With a proven track record of driving growth and taking decisive action to ensure the long-term success of the Company, the current Farmer Bros. Board and management team are well positioned to guide Farmer Bros. into the future and maximize value for all stockholders.

Don't just take our word for it. We urge you to listen to industry analysts and other Farmer Bros. stockholders who recognize the Company's significant progress and stockholder value creation under the current Board and management team.

INDEPENDENT INDUSTRY ANALYSTS AND STOCKHOLDERS HAVE APPLAUDED THE COMPANY'S LEADERSHIP AND TURNAROUND PLAN

Mr. Keown and his team have, over the last four years, begun to tackle the problems created by the Farmer family's poor operation of the business in the years preceding his hiring. - Grand Slam Asset Management, 5 September 2016

New management is working through a turnaround to make the company's operations and distribution more efficient, which is driving higher margins. The company turned profitable for the first time in FY2014 after nine years of losses, and we believe it is entering into a new growth phase characterized by a clear growth strategy to drive sales and a disciplined plan to boost margins. - Lake Street Capital Markets, 8 November 2016

The company appears to be better positioned to win business which is clearly translating into above industry growth coffee volume as is evidenced by three quarters of volume gains in the high single to low double digit range. - B. Riley, 8 November 2016

Farmer is better positioned to add sizeable national customers in the next several years due to the appeal of its wide range of products. In addition, we think Farmer will better streamline operations from previous acquisitions that were poorly integrated, and look for supply chain rationalization that will support incremental EPS growth. - Sidoti, 16 August 2016

AND ARE SUPPORTIVE OF THE COMPANY'S CORPORATE RELOCATION

After reviewing the [Waite Group's] material, we remain supportive of the efforts and investments made to relocate the company and are equally supportive of the Board's three nominees that bring deep industry and managerial experience. - B. Riley, 4 November 2016

Margins have expanded in five straight quarters due to efficiencies gains as the company moved out of its Torrance, CA facility. We believe this will allow Farmer Bros. to compete for large, lucrative national accounts. In fact, the company has won several new customers recently. - Lake Street Capital Markets, 13 September 2016

The move to a location central to the nationwide customer base will propel more-efficient manufacturing capacity to support growth, which management expects to result in \$18-\$20 million of annual savings. By our model, this will result in a return on investment of 21%-26%. In addition to attractive tax incentives, the new facility is only about 300 miles to the Port of Houston, where most of the coffee Farmer roasts enters the U.S. - Sidoti, 16 August 2016

Profit margins are benefiting from the transition of production from the closed Torrance roasting facility to Houston, as well as various supply chain productivity improvements. With further efficiencies anticipated as the new production facility comes onstream in 1H 2017, we look for rapid sustained earnings growth over the next several years. - Roth Capital Partners, 26 May 2016

**AND RECOGNIZE HOW OUR ACTIONS ARE DRIVING IMPROVED OPERATIONAL AND
FINANCIAL PERFORMANCE AND CREATING STOCKHOLDER VALUE**

Overall, we continue to believe that the company is in the early innings of a significant growth opportunity that should pay off for long-term investors. - Lake Street Capital Markets, 8 November 2016

We expect that the company's productivity initiatives and anticipated volume increases as well as consolidation of production into a new facility will generate significant profit margin improvement and earnings growth over the next few years. - Roth Capital Partners, 13 September 2016

We believe FARM is benefitting from an acceleration of bidding activity following purposeful scaled back selling efforts for the corporate relocation. We believe it is proving to be a more effective competitor and is taking share. - B. Riley, 8 November 2016

**AND INCLUDE THE SUPPORT OF A MEMBER OF THE FOUNDING FARMER FAMILY AND
CO-TRUSTEE OF NUMEROUS FARMER FAMILY TRUSTS**

I believe the management team is executing the right strategy to position Farmer Bros. Co. to better compete and grow the business long-term and to honor the principles established by my grandfather when he founded the Company and upheld by my father when he ran the Company. Further, I recognize and appreciate the significant improvements across the Company's operations that have already been made, which have resulted in substantial increases in the Company's stock price. I look forward to supporting the Company's Board nominees at the upcoming 2016 Annual Meeting of Stockholders. - Richard Farmer, Ph.D., 4 October 2016

**VOTING FOR THE COMPANY'S NOMINEES IS VOTING FOR STOCKHOLDER VALUE
CREATION AND IMPROVED OPERATIONAL AND FINANCIAL PERFORMANCE**

By voting FOR the Company's nominees, you are supporting the current Board and management team, who are

Delivering superior value for **all** stockholders through a successful turnaround that has driven an increase in the Company's stock price of over 225%, representing over \$400 million in value creation for **all** stockholders;

Executing a thoroughly planned corporate relocation that is expected to rationalize and simplify the Company's supply chain and produce annualized cost savings of approximately \$18 million to \$20 million; and

Enhancing governance and bringing fresh perspectives to the Board under a new independent Chairman appointed in 2015, with five new directors who were added in the past five years, ensuring that the Board has the right mix of independence, experience, expertise, company knowledge and Farmer family representation to deliver value to **all** stockholders.

In stark contrast, the Waite Group has presented no reason for change, has offered no plan for the future and its unqualified, hand-picked nominees would

Edgar Filing: FARMER BROTHERS CO - Form DEFA14A

Remove the successful management team and derail a proven turnaround strategy that is delivering strong operational and financial results and superior stockholder value;

Return to a time when the Board allocated capital to dividends at the same time the Company was accumulating significant financial losses;

Rely on the oversight of the Waite Group's three unqualified, hand-picked nominees who have personal ties that would compromise the independence of the Board, add no value to the Board and lack the necessary experience to enhance stockholder value; and

Give control of the Board and Company to select members of the Farmer family who the Board believes are singularly focused on taking over the Board and the Company for personal interest.

THE ANNUAL MEETING IS FAST APPROACHING

PROTECT YOUR INVESTMENT BY VOTING TODAY

The current Board, including the Board's three nominees, and management team have driven improvements in the Company's operational and financial performance and delivered superior value creation to stockholders. The value of your investment and the future of Farmer Bros. depend on the management team continuing to successfully execute its proven turnaround plan, under the direction of a Board that is highly engaged and has the right mix of independence, C-level executive experience, industry expertise, knowledge of the Company and Farmer family representation and is focused on the interests of **ALL** stockholders.

It is clear that the Waite Group fails to provide any plan for the Company's future or any changes to the Company's current operating model or strategic decisions that would enhance stockholder returns. Electing **ANY** of the Waite Group nominees effectively puts control of the Board in the Waite Group's hands, puts the Company's leadership at risk and would derail the Company's proven turnaround plan.

We are confident that the current Farmer Bros. Board, including our three nominees—Michael H. Keown, Charles F. Marcy and Christopher P. Mottern—is well positioned to guide the Company into the future and maximize value for **all** stockholders. Please protect the future of your investment by voting the **GOLD** proxy card **TODAY**.

**We encourage you to vote today by signing and dating the enclosed GOLD proxy card and
returning it in the postage-paid envelope provided,
or by voting over the Internet or by telephone.**

On behalf of your Board of Directors, we thank you for your continued support.

Sincerely,

/s/ Randy E. Clark
