may properly come before the meeting or any adjournment thereof. Our Board of Directors has fixed the close of business on October 15, 2010 as the record date for the determination of stockholders entitled to notice of and to vote at the meeting or any adjournment thereof.

These are exciting times for our Company. As the world economy continues to recover from economic turmoil and market uncertainty, it is important for our stockholders to be fully informed. We now have approximately 6,000 stockholders. Our staff has grown to 21 full and part time employees and consultants. Our film library has grown to over 900 titles. PROPOSAL NO. 1

ELECTION OF DIRECTORS

Two (2) directors will be elected at the Annual Meeting to hold office until the 2015 annual meeting of stockholders and until their successors are elected and have qualified. Unless otherwise instructed, the proxy holders named in the enclosed proxy will vote the proxies received by them for the two nominees named below.

Each nominee has indicated that he is willing and able to serve as director if elected. If any nominee becomes unavailable for any reason before the election, proxies will be voted for the election of such substitute nominee or nominees, if any, as shall be designated by the Corporate Governance and Nominating Committee of the Board of Directors. The Corporate Governance and Nominating Committee has no reason to believe that either of the nominees will be unavailable to serve.

Vote Required

The two nominees who receive the highest number of affirmative votes of the votes present in person or represented by proxy and entitled to vote, a quorum being present, shall be elected as directors. Only votes cast "FOR" a nominee will be counted, except that the accompanying proxy will be voted for all nominees in the absence of instructions to the contrary. Broker non-votes and proxies marked "withheld" as to one or more nominees will result in the respective nominees receiving fewer votes. However, the number of votes otherwise received by the nominee will not be reduced by such action.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THE ELECTION OF EACH OF THE NOMINEES NAMED BELOW.

Nominees of the Board of Directors

The following sets forth certain information about the nominees of the Board of Directors for election as directors at the Annual Meeting. Each of the nominees has been recommended for election by the Corporate Governance and Nominating Committee. Neither of the nominees has served as a director since the last annual meeting of stockholders. Mr. Istock replaced Mr. Jackson on the Board of Directors on July 1, 2010.

Steven Istock, 44, Director, Chief Financial Officer, joined Camelot as CFO and as a member of our Board of Directors on July 1, 2010. Mr. Istock has a substantial corporate, entertainment and international finance background with over fifteen years' experience as a senior banker and finance manager. Mr. Istock specializes in the development, structuring and funding of debt and equity transactions. He has participated in over \$2 billion in transactions for a wide range of public and private corporate clients.

Since March 2008, Mr. Istock has been the President and CEO of California Pictures and a Partner and CFO of Strategic Film Partners since May of 2006, which produce and distribute motion picture content worldwide. He also advises domestic and international clients on structuring financing for a variety of projects in the beginning, middle and closing stages of development and production. While serving as a Vice-President of Lending for American Business Bank between November 2005 and December 2006, Mr. Istock made his initial investment into Strategic Film Partners.

As a senior Vice President and Finance Manager for Merrill Lynch in Beverly Hills between January 2000 and November 2005, Mr. Istock was responsible for managing and closing all of the commercial, entertainment and real

estate loan transactions for five area offices as well as directing and managing all local transactions with the mergers and acquisitions, private equity and real estate syndication bankers within Merrill Lynch and other affiliated firms worldwide. He earned the Series 7, 63, 65 licenses and Merrill Lynch Certified Financial Manager accreditation and was approved for the California Finance Lenders License by the State of California.

Mr. Istock graduated from the University of Michigan in Economics and English in 1989, with post-graduate work at Charles University in Prague in 2007.

Leo Griffin, 40, Director, is a Principal at Clarity Partners, a private equity firm managing over US \$1 billion and focused on the media, communications, and business services sectors. From 2003 through 2006, Mr. Griffin was a Principal at Monitor Ventures, the venture capital and advisory arm of the Monitor Group, a global strategy consulting firm and merchant bank. At Monitor Ventures, Mr. Griffin focused on advising and investing in various communications and media companies. From 1998 through 2003, Mr. Griffin served as a strategy consultant with Monitor Group's consulting arm, where he helped to found MarketSpace, a consulting practice focused on new media businesses.

Nominees of the Board of Directors - continued

Mr. Griffin currently serves as a member of the boards of directors of CaseStack, Inc., Critical Media, Inc. and ImpreMedia, Inc. Mr. Griffin holds a degree in Industrial Economics from the London School of Economics (1992) and received his MBA with distinction from the Kellogg School at Northwestern University in 1998.

Director Nominee Independence

The Board discussed and reviewed whether each nominee is independent under the Company's corporate governance guidelines, which are consistent with the director independence standards established by the NASDAQ Stock Market. In determining independence, the Board reviews and seeks to determine whether directors have any material relationship with the Company, direct or indirect, which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The Board reviews business, professional, charitable and familial relationships of the independent directors in determining independence. The Board determined that Steven Istock is not an independent director, due in part to his executive position with the Company. The Board determined that upon election Leo Griffin would be an independent director. The Company is currently searching for additional nominee's to fill vacancies on the Board that would be classified as independent directors. Although the Company currently trades on the Over the Counter Bulletin Board ("OTCBB"), management is working toward meeting the listing standards of the NASDAQ Stock Market, which require a minimum of two independent directors.

Information about the Nominating Process

The Company's Board has a Corporate Governance and Nominating Committee that undertakes the activities of identifying, evaluating and recommending nominees to serve as Directors. The members of the Corporate Governance and Nominating Committee are Robert P. Atwell, our Chairman, and Steven Istock, our Chief Financial Officer.

The policy of the Corporate Governance and Nominating Committee is to consider nominations of candidates for membership on the Board that are submitted by stockholders. Stockholders who comply with the requirements of our Bylaws with respect to advance written notice of stockholder director nominations at the Annual Meeting, including certain information that must be provided concerning the stockholder and each nominee, may nominate candidates for election as directors at the Annual Meeting by attending the meeting and offering the candidates into nomination at the time of the election of Directors. The affirmative vote of a majority of the votes present at the Annual Meeting and voting on the proposal is required to ratify the selection of the Company's independent registered public accounting firm for the year ended December 31, 2010. Abstentions and broker non-votes have no effect on the vote on the proposal.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE “FOR” THE RATIFICATION OF THE SELECTION OF DBBMCKENNON AS THE COMPANY’S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE YEAR ENDING DECEMBER 31, 2010.

Audit Committee’s Pre-Approval Policies

The Audit Committee’s policy is to pre-approve all audit services and all permitted non-audit services (including the fees and terms thereof) to be provided by the Company’s independent registered public accounting firm; provided, however, pre-approval requirements for non-audit services are not required if all such services (1) do not aggregate to more than five percent of total revenues paid by the Company to its independent registered public accounting firm in the fiscal year when services are provided; (2) were not recognized as non-audit services at the time of the engagement; and (3) are promptly brought to the attention of the Audit Committee and approved prior to the completion of the audit by the Audit Committee.

The Audit Committee pre-approved all of the fees described above.

The Audit Committee has considered whether the provision of the above services other than audit services is compatible with maintaining auditor independence.

AUDIT COMMITTEE REPORT

The Audit Committee has reviewed and discussed with the Company's management and dbbmckennon the audited consolidated financial statements of the Company contained in the Company's Annual Report on Form 10-K for the Company's 2009 fiscal year. The Audit Committee has also discussed with dbbmckennon the matters required to be discussed pursuant to SAS No. 61 (Codification of Statements on Auditing Standards, AU Section 380), which includes, among other items, matters related to the conduct of the audit of the Company's consolidated financial statements.

The Audit Committee has received and reviewed the written disclosures and the letter from dbbmckennon required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence and has discussed with dbbmckennon its independence from the Company.

The Audit Committee has considered whether the provision of services other than audit services is compatible with maintaining auditor independence.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for its 2009 fiscal year for filing with the Commission.

Respectfully submitted,

PROPOSAL NO. 3.

TO RATIFY AND APPROVE THE 2010 STOCK OPTION/ISSUANCE PLAN

The Board of Directors is asking the stockholders to ratify and approve the 2010 Stock Option/Issuance Plan, as amended (the “2010 Plan”). A copy of the 2010 Plan is attached hereto as Exhibit 3. Below is a summary of the 2010 Plan.

General

On July 26, 2010, our Board of Directors adopted the 2010 Plan and directed that it be presented to the stockholders for their approval and adoption. A majority of our stockholders will be asked to consider and approve the adoption of the 2010 Plan at our Annual Stockholder’s Meeting on December 13, 2010.

Purpose of the 2010 Plan

The 2010 Plan initially provided for the issuance of up to 1,500,000 shares of Common Stock to our directors, officers, employees and consultants in the form of stock options. The 2010 Plan was subsequently amended to increase the number of shares eligible under the 2010 Plan, as described below. The purpose of the 2010 Plan is to ensure that we retain the services of valued key directors, officers, employees and consultants, and to encourage such people to acquire a greater proprietary interest in us, thereby strengthening their incentive to achieve the objectives of our stockholders. The 2010 Plan also serves as an aid and inducement in the attracting and hiring of new directors, officers, employees and consultants as needed.

Plan Administrator

Our Board of Directors administers the 2010 Plan.

Eligible Participants

Incentive stock options (those stock options that qualify under Section 422 of the Internal Revenue Code of 1986 (“the “Code”)) may be granted to any individual who is, at the time of the grant, an employee. Non-qualified stock options (those options that do not qualify under Section 422 of the Code) may be granted to employees and other people, including directors and consultants.

Material Features of the 2010 Plan

The 2010 Plan is structured so as to provide us with maximum flexibility in designing equity incentives for executive officers and other employees, the non- employee Board members and independent consultants in our service. Such incentives may be made available under the 2010 Plan in the form of long-term option grants of our Common Stock. Grants under the option grant program may be structured as installment options, which become exercisable for vested shares over the optionee’s period of service or as immediately exercisable options for unvested shares. All option grants must have an exercise price not less than 100% of the fair market value of the option shares on the grant date.

Stock Options

It is anticipated that stock options will be immediately exercisable for all the option shares, but the shares subject to the options may have a vesting schedule in the discretion of the board of directors. Each option is to have a maximum

term of ten years. To exercise the option, the optionee must execute a Notice of Exercise and pay the exercise price for the purchased shares. Payment is to be made in cash; however, our Board may also permit the optionee to deliver an interest-bearing promissory note for the purchased shares payable in one or more installments. Provided that our shares remain publicly traded, the exercise price may be paid in shares of Common Stock or, alternatively, through the optionee's participation in a same-day sale program. Under such program, the option shares are sold immediately following the exercise of the option, and a portion of the sale proceeds is applied to the payment of the exercise price and all applicable withholding taxes.

Stock Issuance

The Stock Issuance Agreement as described in the 2010 Plan is structured as a stock purchase transaction, with the purchase price for the shares to be paid in cash or cash equivalent or by promissory note at the time of issuance of the shares. The same repurchase rights summarized above for the "Form Stock Purchase Agreement" under the option grant program will apply to the purchased shares, namely, the Corporation's right to repurchase, at the original purchase price, any unvested shares held by the participant at the time of his or her termination of service.

Stock Issuance - continued

Under the Stock Issuance Agreement, the issued shares will either vest immediately or vest in a series of installments over the participant's period of service with the Company. In the event a vesting schedule is used, 25% of the shares will vest upon completion of one year of service measured from the issue date, and the balance will vest in 36 successive equal monthly installments upon the participant's completion of each of the next 36-months of service thereafter. Full and immediate vesting of all the shares will occur upon an acquisition of the Company by merger or asset sale, unless the repurchase right applicable to those shares is assigned to the successor corporation. The assigned repurchase rights may be structured so that they will subsequently lapse (and the shares will immediately vest) upon an involuntary termination of the participant's service within 18 months following the effective date of the acquisition.

Tax Consequences

An individual who is issued vested shares of Common Stock under the stock issuance program will recognize ordinary income in the year of purchase equal to the excess of the fair market value of the shares on the purchase date over the purchase price paid for those shares. Federal and state income and employment taxes will have to be withheld or collected from such individual at the time the shares are issued.

An individual who is issued unvested shares of Common Stock will not recognize any taxable income at the time the unvested shares are issued but will have to report as ordinary income, for the taxable year in which his or her interest in such shares vests, an amount equal to the excess of the fair market value of the shares at the time of vesting over the purchase price paid for such shares. Such individual may, however, elect under Section 83(b) of the Internal Revenue Code to be taxed in the year of purchase on the excess (if any) of the fair market value of the unvested shares at the time of purchase over the purchase price paid for those shares, and such individual will thereby avoid the recognition of income as and when the shares subsequently vest. Such election must be filed with the Internal Revenue Service within 30 days after the purchase of the unvested shares. The Company will be entitled to a deduction in an amount equal to the ordinary income recognized by the recipient.

Amended 2010 Plan

On September 13, 2010, the Company amended and restated the 2010 Plan to increase the stock issuable under the 2010 Plan so that the maximum number of shares of Common Stock that may be issued over the term of the 2010 Plan shall not exceed 21,500,000 shares.

Vote Required

The affirmative vote of a majority of the votes eligible to be cast at the Annual Meeting present at the Annual Meeting and voting on the proposal is required to ratify and approve the 2010 Plan, as amended. Abstentions and broker non-votes have no effect on the vote on the proposal.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE RATIFICATION AND APPROVAL OF THE 2010 STOCK OPTION/ISSUANCE PLAN, AS AMENDED.

PROPOSAL NO. 4.

TO RATIFY AND APPROVE THE 2011 STOCK OPTION/ISSUANCE PLAN

The Board of Directors is asking the stockholders to ratify and approve the 2011 Incentive and Nonstatutory Stock Option Plan (the “2011 Plan”). A copy of the 2011 Plan is attached as Exhibit 4. Below is a summary of the 2011 Plan.

General

On October 29, 2010, our Board adopted the 2011 Plan and directed that it be presented to the stockholders for their approval and adoption at the 2010 Annual Meeting. The 2011 Plan is scheduled to become effective on or after January 1, 2011. To date, no stock options have been granted to employees pursuant to the 2011 Plan. The following is a general description of certain features of the 2011 Plan.

Purpose of the 2011 Plan

The 2011 Plan provides for the issuance of up to 400,000,000 shares of Common Stock to our directors, officers, employees and consultants in the form of stock options. The purpose of the 2011 Plan is to ensure that we retain the services of valued key directors, officers, employees and consultants, and to encourage such people to acquire a greater proprietary interest in us, thereby strengthening their incentive to achieve the objectives of our stockholders. The 2011 Plan also serves as an aid and inducement in the attracting and hiring of new directors, officers, employees and consultants as needed.

Plan Administrator

Our Board will administer the 2011 Plan, except that the Board may, at its discretion, establish a committee comprised of two or more members of the Board or two or more other persons to administer the 2011 Plan.

Eligible Participants

Incentive stock options (those stock options that qualify under Section 422 of the Internal Revenue Code of 1986 (“the “Code”)) may be granted to any individual who is, at the time of the grant, an employee of the Company or a subsidiary. PROPOSAL NO. 5.

TO APPROVE THE BOARD OF DIRECTORS PLAN TO SUBMIT A REGISTRATION STATEMENT WITH THE SECURITIES AND EXCHANGE COMMISSION TO REGISTER THE SALE OF \$10,000,000 IN CAMELOT COMMON AND PREFERRED STOCK IN ORDER TO RETIRE CAMELOT DEBT, EXPAND CURRENT OPERATIONS AND TO IMPLEMENT A STOCK REPURCHASE PROGRAM SUBJECT TO REGULATORY APPROVAL

The Board is asking the stockholders to approve the Board's plan to submit a registration statement (the "Registration Statement") with the Commission to register the sale of \$10,000,000 in Camelot Common and Preferred Stock in order to retire Camelot debt, expand current operations and to implement a stock repurchase program subject to regulatory approval.

Registration Statement

The Company has retained the services of Rocfin Capital LLC, d.b.a. Rocfin Advisors located in Tiburon, California ("Rocfin"), to assist the Company with the preparation of materials, including an updated business plan and financial model as part of the proposed \$10,000,000 offering. In addition, Rocfin will be working with our legal counsel, auditors and our previous consultants retained by the Company during the past two years to guide Camelot through the complex process of material preparation and the subsequent Commission filing, which is expected to result in Camelot offering units comprised of common and preferred stock along with other potential fiscal enhancements. The Company expects to file the Registration Statement no later than the first quarter of 2011.

Debt Retirement

A portion of the proceeds raised through the proposed registration statement will be used to retire current Camelot debt, including a number of secured convertible promissory notes, which currently are convertible into Common Stock. By retiring this and other commercial debt, Camelot will significantly reduce the amount of shares being issued currently to retire debt, resulting in fewer shares outstanding in the future while bolstering the Company's balance sheet.

Expand Operations

Funds received through the proposed offering will also be utilized to expand current operations through additional corporate acquisitions and additional product acquisitions through Camelot Distribution Group. During fiscal year 2010, Camelot completed the first of four planned corporate and/or film library acquisitions and continues to work toward completing the remaining initial acquisitions. Camelot Distribution Group continues to expand its operations in part through the ongoing acquisition of additional films to be distributed and the distribution of film and television product developed and produced through Camelot Film Group.

Stock Repurchase Program

Camelot plans to establish a stock repurchase program to reduce the amount of common shares outstanding through the purchase of Common Stock currently outstanding in the marketplace, including shares held in street name, subject to regulatory approvals. By reducing the number of shares of Common Stock outstanding, Camelot expects the marketplace to be more stable and to better reflect the long-term value of the Company.

Vote Required

The affirmative vote of a majority of the votes present at the Annual Meeting and voting on the proposal is required to ratify and approve this proposal.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE “FOR” THE APPROVAL OF THE BOARD OF DIRECTORS PLAN TO SUBMIT A REGISTRATION STATEMENT WITH THE COMMISSION TO REGISTER THE SALE OF \$10,000,000 IN CAMELOT COMMON AND PREFERRED STOCK.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

The Compensation Committee of the Board is providing the following report on executive compensation in accordance with the rules and regulations of the Commission. This report outlines the policies of the Compensation Committee with respect to executive compensation, the various components of the Company's compensation program for executive officers, and the basis on which the 2010 compensation for the Company's Chief Executive Officer and Chief Financial Officer was determined.

The information contained in the following report shall not be deemed to be "soliciting material" or to be "filed" with the Commission, nor shall such information be incorporated by reference into any future filing under the Securities Act or the Securities Exchange Act, except to the extent that the Company specifically incorporates it by reference into such filing.

General

The Compensation Committee's functions include:

- determining all forms of compensation of the Company's Chief Executive Officer and Chief Financial Officer;
- reviewing and approving all forms of compensation for the other executive officers, including salary, bonuses and stock options;
- consulting with management regarding compensation and benefits for non-executive officers and other employees; and
- overseeing our compensation and benefits policies generally.

Compensation Policies

The Company's executive compensation policies have two principal goals: (1) attracting, rewarding and retaining executives, and (2) motivating executives to achieve short-term and long-term corporate goals that enhance stockholder value. Accordingly, the Compensation Committee's objectives are to:

- offer compensation opportunities that attract and retain executives whose abilities are critical to the Company's long-term success and motivate individuals to perform at their highest level;
- tie in a significant portion of the executive's total compensation to achievement of financial, organizational, management and personal performance goals; and
- reward outstanding individual performance by an executive officer that contributes to the Company's long-term success.

Compensation of Executive Officers Generally

The Company's compensation program for its executives emphasize variable compensation, primarily through grants of short and long term performance based incentives. Executive compensation generally consists of the following: (i) base salary; (ii) incentive bonuses; and (iii) long-term equity incentive awards in the form of stock option

grants. Each executive officer's compensation package is designed to provide an appropriately weighted mix of these elements.

Base Salary. Base salary levels for each of the Company's executive officers, including the Chief Executive Officer and the Chief Financial Officer, are expected to be set within a range of base salaries that the Board (through the Compensation Committee or in its entirety) believes reflect market salaries for similar executive officers at comparable companies. Commercially available compensation surveys are expected to be used to determine that such range is at or near the levels paid by comparable companies engaged in the motion picture industry and located within comparable geographical locations. The Board does not expect to use formulas but instead plans to exercise its judgment based on considerations including overall responsibilities and the importance of these responsibilities to the Company's success, experience and ability, past short-term and long-term job performance and salary history. In addition, in reviewing executive salaries generally and in setting the salary of the Chief Executive Officer, the Compensation Committee generally plans to take into account the Company's past financial performance and future expectations, as well as changes in the executives' responsibilities.

Compensation of Executive Officers Generally - continued

Incentive Bonuses. The Compensation Committee will recommend the payment of bonuses to provide an incentive to executive officers to be productive over the course of each fiscal year and to bring the total cash-based compensation to market levels. A portion of these bonuses will be awarded if the Company achieves or exceeds certain corporate performance objectives and a portion of these bonuses will be awarded if the executive achieves or exceeds certain personal goals.

Equity Incentives. Stock options will be used by the Company as long-term compensation to provide a stock-based incentive to improve the Company's financial performance and to assist in the recruitment, retention and motivation of professional, managerial and other personnel. Generally, stock options will be granted to executive officers from time to time based primarily upon the individuals' actual and/or potential contributions to the Company and the Company's financial performance. Stock options will be designed to align the interests of the Company's executive officers with those of its Stockholders by encouraging executive officers to enhance the value of the Company, the price of its Common Stock, and hence, the Stockholders' return. In addition, the vesting of stock options over a period of time is designed to create an incentive for the individual to remain with the Company. The Company plans to grant options to the executives on an ongoing basis to provide continuing incentives to the executives to meet future performance goals and to remain with the Company.

Compensation of the Chief Executive Officer and Chief Financial Officer

The Compensation Committee annually reviews the performance and compensation of the Chief Executive Officer based on the assessment of his past performance, its expectation of his future contributions to the Company's performance and the compensation paid to chief executive officers of comparable companies. Robert P. Atwell served as the Company's Chief Executive Officer in 2009. In 2009, Mr. Atwell received a base salary of \$420,000, for which he has the option of accepting Common Stock in lieu of cash consideration. George Jackson served as the Company's Chief Financial Officer in 2009. Mr. Jackson received a base salary of \$150,000, for which has the option of accepting Common Stock in lieu of cash consideration. For 2010, the Compensation Committee recommended, and the Audit Committee and Board have approved, setting the base salary of Mr. Atwell to be \$500,000 and setting the base salary of the CFO to be \$250,000 (Mr. Jackson served as CFO through June 30, 2010. Mr. Istock has served as CFO since July 1, 2010). The Compensation Committee believes the compensation to be paid to Mr. Atwell and the CFO for 2010 is reasonable. The Compensation Committee also noted that since Mr. Atwell became CEO in 2003, Mr. Jackson became CFO in 2005, and Mr. Istock succeeded Mr. Jackson in July, 2010, none of these officers has yet to receive a regular payroll check from the Company, receiving most of their compensation in stock and more recently retiring some of the debt owed to them through various debt purchase agreements with third parties.

Policy with Respect to Qualifying Compensation for Deductibility

Section 162(m) of the Internal Revenue Code imposes a limit on tax deductions for annual compensation (other than performance-based compensation) in excess of one million dollars paid by a corporation to its chief executive officer or any of its other four most highly compensated executive officers in a single year. The Company has not established a policy with regard to Section 162(m) of the Code, since the Company has not and does not currently anticipate paying cash compensation in excess of one million dollars per annum to any employee. The Board will continue to assess the impact of Section 162(m) on its compensation practices and determine what further action, if any, may be appropriate in the future.
