Table of Contents

When is the record date for the Annual Meeting?

The Company's Board of Directors has fixed the record date for the Annual Meeting as of the close of business on April 9, 2019. Only stockholders who owned our common stock at the close of business on April 9, 2019 are entitled to vote at the Annual Meeting.

How many votes can be cast by all stockholders?

A total of 52,684,282 shares of common stock of the Company were outstanding on April 9, 2019 and are entitled to be voted at the meeting. Each share of common stock is entitled to one vote on each matter.

How do I vote?

If you are a stockholder of record and your shares are registered directly in your name, you may vote:

• **By Internet.** You may vote by proxy via the Internet at www.proxyvote.com by following the instructions provided on the Important Notice Regarding the Availability of Proxy Materials or the proxy card.

• **By Telephone.** If you live in the United States or Canada, you may vote by proxy by calling toll-free 1-800-690-6903 and by following the instructions provided on the proxy card. You must have the 16-digit control number that is on either the notice or the proxy card when voting.

• **By Mail.** Complete and mail your proxy card in the postage prepaid envelope you receive, and return the proxy card to Vote Processing, c/o Broadridge, 51 Mercedes Way, Edgewood, NY 11717. Your proxy will be voted in accordance with your instructions. If you sign and return the enclosed proxy but do not specify how you want your shares voted, they will be voted as recommended by our Board of Directors and according to the discretion of the proxy holder named in the proxy card upon any other business that may properly be brought before the meeting and at all adjournments and postponements thereof.

• **In Person at the Meeting.** If you attend the meeting, be sure to bring a form of personal picture identification with you, and you may deliver your completed proxy card in person, or you may vote by completing a ballot, which will be available at the meeting.

If your shares of common stock are held in street name (held for your account by a broker or other nominee):

• **By Internet or By Telephone.** You will receive instructions from your broker or other nominee if you are permitted to vote by Internet or telephone.

• **By Mail.** You will receive instructions from your broker or other nominee explaining how to vote your shares.

• **In Person at the Meeting.** If you attend the meeting, in addition to picture identification, you should both bring an account statement or a letter from the record holder indicating that you owned the shares as of the record date, and contact the broker or other nominee who holds your shares to obtain a broker's proxy card and bring it with you to the meeting.

What are the Board's recommendations on how to vote my shares?

The Board of Directors recommends a vote:

Proposal 1: FOR election of Tom Maniatis, Ph.D., Richard F. Pops, and Joseph S. Zakrzewski as Class III directors.

Proposal 2: FOR approval, on an advisory basis, of the compensation paid to our named executive officers as described in this proxy statement.

Proposal 3: FOR ratification of selection of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2019.

Who pays the cost for soliciting proxies?

Acceleron will bear the cost of solicitation of proxies. This includes the charges and expenses of brokerage firms and others for forwarding solicitation material to beneficial owners of our outstanding common stock. Acceleron may solicit proxies by mail, personal interview, telephone or via the Internet through its officers, directors and other management employees, who will receive no additional compensation for their services.

Can I change my vote?

You may revoke your proxy at any time before it is voted by notifying the Secretary in writing, by returning a signed proxy with a later date, by transmitting a subsequent vote over the Internet or by telephone prior to the close of the Internet voting

Table of Contents

facility or the telephone voting facility, or by attending the meeting and voting in person. If your stock is held in street name, you must contact your broker or nominee for instructions as to how to change your vote.

How is a quorum reached?

The presence, in person or by proxy, of holders of at least a majority of the total number of outstanding shares entitled to vote is necessary to constitute a quorum for the transaction of business at the Annual Meeting. Abstentions and "broker non-votes" (i.e., shares represented at the meeting held by brokers, bankers or other nominees as to which instructions have not been received from the beneficial owners or persons entitled to vote such shares and, with respect to one or more but not all issues, such brokers or nominees do not have discretionary voting power to vote such shares), if any, will be counted for purposes of determining whether a quorum is present for the transaction of business at the meeting.

What vote is required to approve each item?

<p>Proposal 1: Elect Directors</p>	<p>For the election of the three Class III director nominees, each director nominee presented must be elected by a majority of the votes cast. Director nominees are elected by a majority vote for uncontested director elections, and because the number of director nominees properly nominated does not exceed the number of positions on the Board of Directors to be filled by election, this election of directors is uncontested. To elect a director nominee to the Board of Directors, the votes cast FOR the director nominee must exceed the votes cast AGAINST. Only FOR and AGAINST votes will affect the outcome. Abstentions will have no effect on this Proposal 1. Proposal 1 is a non-routine matter. Therefore, brokerage firms do not have authority to vote customers' unvoted shares held by the firms in street name for the election of directors. As a result, any shares not voted by a customer will be treated as a broker non-vote. Such broker non-votes will have no effect on the results of this vote.</p>
------------------------------------	--

<p>Proposal 2: Approve, on an Advisory Basis, the Compensation Paid to Our Named Executive Officers</p>	<p>For the advisory vote on executive compensation, the votes cast FOR must exceed the votes cast AGAINST to approve, on an advisory basis, the compensation of our named executive officers as described in this proxy statement. Only FOR and AGAINST votes will affect the outcome. Abstentions will have no effect on the voting of Proposal 2. Proposal 2 is a non-routine matter. Therefore, brokerage firms do not have authority to vote customers' unvoted shares held by the firms in street name on this proposal. As a result, any shares not voted by a customer will be treated as a broker non-vote. Such broker non-votes will have no effect on the results of this vote. Although the advisory vote is non-binding, the Compensation Committee and the Board of Directors will review the voting results and consider them when making future decisions regarding executive compensation.</p>
---	---

<p>Proposal 3: Ratify Selection of our Independent Registered Public Accounting Firm</p>	<p>For the ratification of the selection of our independent registered public accounting firm for our 2019 fiscal year, the votes cast FOR must exceed the votes cast AGAINST. Only FOR and AGAINST votes will affect the outcome. Abstentions will have no effect on the results of this vote. Proposal 3 is a routine matter. Therefore, brokerage firms have authority to vote customers' unvoted shares held by the firms in street name on this proposal. If a broker does not exercise this authority, such broker non-votes will have no effect on the results of this vote. We are not required to obtain the approval of our stockholders to select our independent registered public accounting firm. However, if our stockholders do not ratify the selection of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2019, the Audit Committee of the Board of Directors will reconsider its selection.</p>
--	---

If there are insufficient votes to approve these proposals, your proxy may be voted by the persons named in the proxy card to adjourn the Annual Meeting in order to solicit additional proxies in favor of the approval of such proposal(s). If the Annual Meeting is adjourned or postponed for any purpose, at any subsequent reconvening of the meeting, your

proxy will be voted in the same manner as it would have been voted at the original convening of the Annual Meeting unless you withdraw or revoke your proxy.

Table of Contents

Could other matters be decided at the Annual Meeting?

We do not know of any other matters that may be presented for action at the Annual Meeting. Should any other business come before the meeting, the persons named on the enclosed proxy will have discretionary authority to vote the shares represented by such proxies in accordance with their best judgment. If you hold shares through a broker, bank or other nominee as described above, they will not be able to vote your shares on any other business that comes before the Annual Meeting unless they receive instructions from you with respect to such matter.

What happens if the meeting is postponed or adjourned?

Your proxy may be voted at the postponed or adjourned meeting. You will still be able to change your proxy until it is voted.

What does it mean if I receive more than one proxy card or voting instruction form?

It means that you have multiple accounts at the transfer agent or with brokers. Please complete and return all proxy cards or voting instruction forms to ensure that all of your shares are voted.

Who should I call if I have any additional questions?

If you hold your shares directly, please call the Secretary of the Company at (617) 649-9200. If your shares are held in street name, please contact the telephone number provided on your voting instruction form or contact your broker or nominee holder directly.

Electronic Delivery of Company Stockholder Communications

Most stockholders can elect to view future proxy materials and annual reports over the Internet instead of receiving paper copies in the mail. You can choose this option and save us the cost of producing and mailing these documents by following the instructions provided when you vote over the Internet.

MANAGEMENT AND CORPORATE GOVERNANCE

BOARD COMPOSITION AND STRUCTURE

Our certificate of incorporation states that the Board of Directors shall consist of not fewer than three and not more than fifteen members, and the precise number of directors shall be fixed by a resolution of the Board of Directors. Each director holds office until his or her successor is duly elected and qualified or until his or her death, resignation or removal. Our certificate of incorporation provides that our directors may be removed only for cause by the affirmative vote of the holders of at least seventy-five percent (75%) of the voting power of the outstanding shares of capital stock of the Company entitled to vote generally in the election of directors, voting together as a single class, at a meeting of the stockholders called for that purpose. Any vacancy in the Board of Directors, including a vacancy that results from an increase in the number of directors, may be filled by a vote of the majority of the directors then in office.

Our certificate of incorporation provides that the Board of Directors is divided into three classes of directors, with the classes as nearly equal in number as possible. Each of our directors identified below serves in the class indicated. Subject to any earlier resignation or removal in accordance with the terms of our restated certificate of incorporation and bylaws, our Class III directors who are re-elected at the 2019 annual meeting of stockholders will serve until the 2022 annual meeting of stockholders; our Class I directors will serve until the 2020 annual meeting of stockholders; and our Class II directors will serve until the 2021 annual meeting of stockholders. Any additional directorships resulting from an increase in the number of directors will be apportioned by the Board among the three classes. The Board of Directors is currently comprised of nine members. Below is a list of the names, ages as of March 31, 2019 and classification of the individuals who currently serve as our directors.

CLASS III DIRECTOR NOMINEES

Tom Maniatis, Ph.D. co-founded Acceleron in 2003 and has served as a member of our Board of Directors since our inception. Dr. Maniatis is currently a member of our Scientific Advisory Board and served as the Chair of our Scientific Advisory Board from 2003 to 2016. Director Independence

Under Nasdaq Rule 5605, a majority of a listed company's board of directors must be comprised of independent directors. In addition, Nasdaq rules require that, subject to specified exceptions, each member of a listed company's audit committee, compensation committee and nominating and corporate governance committee be independent and, in the case of the audit committee and compensation committee, satisfy additional independence criteria set forth in Rule 10A-3 and 10C-1, respectively, under the Securities Exchange Act of 1934, or the Exchange Act.

Based upon information requested from and provided by each director concerning his or her background, employment and affiliations, including family relationships, the Board of Directors has determined that each of Ms. George, Messrs. Kearney, McCourt, Pops and Zakrzewski, and Drs. Maniatis, Nader, and Smith, representing eight of our nine directors, is "independent" as that term is defined under Nasdaq Rule 5605(a)(2). The Board of Directors also determined that each of the current members of our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee satisfies the independence standards for such committee established by Rule 10A-3 and 10C-1 under the Exchange Act, the SEC rules and the Nasdaq rules, as applicable. In making such determination, the Board of Directors considered the relationships that each such non-employee director has with our Company and all other facts and circumstances deemed relevant in determining their independence.

As part of such determination, the Board of Directors reviewed the facts and circumstances relevant to Dr. Maniatis's independence given his status as one of our co-founders. The Board of Directors considered that Dr. Maniatis has never served as one of Acceleron's executives or other employees and he has not managed any operational activities at Acceleron. The Board of Directors further considered that Acceleron was founded over fifteen years ago and Dr. Maniatis was employed full time at Harvard University at such time. Based on these factors, the Board of Directors determined that Dr. Maniatis satisfies the independence standards established by the SEC and Nasdaq rules, as applicable.

Board Meetings and Attendance

The Board of Directors held four meetings during the year ended December 31, 2018. Each of the directors attended at least seventy-five percent (75%) of the meetings of the Board of Directors and the committees of the Board of Directors on which he or she served during the year ended December 31, 2018 (in each case, which were held during the period for which he or she was a director and/or a member of the applicable committee and excluding any meetings in which a director was an interested party), except for Dr. Maniatis and Mr. Pops.

The non-employee directors met in executive session during each of the regularly scheduled Board of Directors meetings during the year ended December 31, 2018.

The Board of Directors has adopted a policy requiring that members of the Board of Directors make every effort to attend our annual stockholder meetings. Six of our then nine directors attended our 2018 Annual Meeting of Stockholders.

Board of Directors Leadership Structure

Our current Board leadership structure separates the positions of Chief Executive Officer and Chair of the Board of Directors, although we do not have a corporate policy requiring that structure. The Board believes that this separation is appropriate for the organization at this time because it allows for a division of responsibilities and a sharing of ideas between individuals having different perspectives. Our Chief Executive Officer, who is also a member of our Board of Directors, is primarily responsible for our operations and strategic direction, while our Board Chair, who is an independent member of the Board, is primarily focused on matters pertaining to corporate governance, including management oversight, and strategic guidance. While the Board believes that this is the most appropriate structure at this time, the Nominating and Corporate Governance Committee evaluates the Board leadership structure from time to time, and may recommend alterations of this structure in the future.

Table of Contents**The Board of Directors' Role in Risk Oversight**

The Board of Directors plays an important role in risk oversight at Acceleron through direct decision-making authority with respect to significant matters, as well as through the oversight of management by the Board of Directors and its committees. In particular, the Board of Directors administers its risk oversight function through (1) the review and discussion of regular periodic reports by the Board of Directors and its committees on topics relating to the risks that Acceleron faces, (2) the required approval by the Board of Directors (or a committee of the Board of Directors) of significant transactions and other decisions, (3) the direct oversight of specific areas of Acceleron's business by the Audit, Compensation and Nominating and Corporate Governance Committees, and (4) regular periodic reports from the auditors and other outside consultants regarding various areas of potential risk, including, among others, those relating to our internal control over financial reporting. The Board of Directors also relies on management to bring significant matters impacting Acceleron to the attention of the Board of Directors.

Pursuant to the Audit Committee's charter, the Audit Committee is responsible for reviewing and discussing with management and Acceleron's independent registered public accounting firm, Acceleron's system of internal controls, its critical accounting practices, and policies relating to risk assessment and management. As part of this process, the Audit Committee discusses Acceleron's major financial risk exposures and steps that management has taken to monitor and control such exposure. In addition, the Audit Committee has established procedures for the receipt, retention and treatment of complaints received by the Company regarding accounting, internal accounting controls or auditing matters, and the confidential, anonymous submissions by employees of concerns regarding accounting, internal accounting controls, auditing and compliance matters.

Because of the role of the Board of Directors and the Audit Committee in risk oversight, the Board of Directors believes that any leadership structure that it adopts must allow it to effectively oversee the management of the risks relating to Acceleron's operations. The Board of Directors acknowledges that there are different leadership structures that could allow it to effectively oversee the management of the risks relating to the Company's operations and believes its current leadership structure enables it to effectively provide oversight with respect to such risks.

BOARD COMMITTEES

The Board of Directors has a standing Audit, Compensation and Nominating and Corporate Governance Committee, each of which is comprised solely of independent directors, and is described more fully below. Compensation Consultant

The Compensation Committee has engaged Radford, Aon Hewitt, a business unit of Aon plc, as its independent compensation consultant. Radford provides analysis and recommendations to the Compensation Committee regarding:

- trends and emerging topics with respect to executive compensation;
- peer group selection for executive compensation benchmarking;
- compensation practices of our peer group;
- compensation programs for our executives, directors and employees; and
- stock utilization and related metrics.

When requested, Radford consultants attend meetings of the Compensation Committee, including executive sessions in which executive compensation related matters are discussed without the presence of management. Radford reports to the Compensation Committee and not to management, although Radford meets with management for purposes of gathering information for its analyses and recommendations.

In determining to engage Radford, the Compensation Committee considered the independence of Radford, taking into consideration relevant factors, including the absence of other services provided to the Company by Radford, the amount of fees the Company paid to Radford as a percentage of Radford's total revenue, the policies and procedures of Radford that are designed to prevent conflicts of interest, any business or personal relationship of the individual compensation advisors employed by Radford with any executive officer of the Company, any business or personal relationship the individual compensation advisors employed by Radford have with any member of the Compensation Committee, and any stock of the Company owned by Radford or the individual compensation advisors employed by Radford. The Compensation Committee has determined, based on its analysis and in light of all relevant factors, including the factors listed above, that the work of Radford and the individual compensation advisors employed by Radford as compensation consultants to the Compensation Committee has not created any conflicts of interest, and that Radford is independent pursuant to the independence standards set forth in the Nasdaq listing standards

promulgated pursuant to Section 10C of the Exchange Act.

Compensation Committee Interlocks and Insider Participation

None of the members of our Compensation Committee has at any time during the prior three years been one of our executive officers or employees. None of our executive officers currently serves, or in the past fiscal year has served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on our Board of Directors or Compensation Committee.

Risks Related to Compensation Practices and Policies

The Compensation Committee maintains a pay-for-performance compensation philosophy, but also recognizes that providing certain types of compensation incentives may inadvertently motivate individuals to act in ways that could be detrimental to our company as a whole in order to maximize personal compensation. To minimize such risk, the Compensation Committee reviews at least annually the overall structure and components of our compensation program. The Compensation Committee also performs an annual evaluation that is intended to ensure that salary levels, equity awards and other elements of compensation are appropriate in light of the market data and that the performance goals used in our incentive compensation program are appropriately balanced between short-term rewards and longer-term enhancement of stockholder value. The Compensation Committee has reviewed and evaluated the philosophy and standards on which our compensation plans have been developed and implemented across Acceleron. It is our belief that our compensation program does not encourage inappropriate actions or risk taking by our executive officers or other employees. We do not believe that any risks arising from our employee compensation policies and practices are reasonably likely to have a material adverse effect on our business. In addition, we do not believe that the mix and design of the components of our executive compensation program encourage management to assume excessive risks. We believe that our current business process and planning cycle fosters the behaviors and controls that would mitigate the potential for adverse risk caused by the action of our executives, including the following:

- the establishment of base salaries consistent with our executive officers' responsibilities and market data, intended to ensure that our executive officers would not be motivated to take excessive risks to achieve a reasonable level of financial security;

- the annual establishment of corporate objectives for our performance-based short-term incentive compensation program for our executive officers that are consistent with our annual operating and strategic plans, that are designed to achieve the proper risk/reward balance, and that should not require excessive risk taking to achieve;

- the mix between fixed and variable, annual and long-term, and cash and equity compensation is designed to encourage strategies and actions that balance our short-term and long-term best interests;

- stock option awards and restricted stock unit awards vest over time, which we believe encourages executives to take a longer-term view of our business; and

- the authority available to our Compensation Committee not to apply fixed formulae in assessing our company performance for purposes of annual performance-based short-term incentives, which allows the Compensation Committee to, among other things, (a) eliminate the potential incentive for management to conduct activities that form part of our annual company performance goals, but which may not, due to new data or other developments, ultimately prove to be in the best interest of our stockholders, and (b) reward management for making decisions that are in the long-term best interest of our therapeutic candidate development programs, even when those decisions result in the failure to meet short-term company performance goals.

Code of Business Conduct and Ethics

We have adopted a code of business conduct and ethics that applies to all of our employees, officers and directors, including those officers responsible for financial reporting. Our code of business conduct and ethics is available on our website. We intend to disclose any amendments to the code, or any waivers of its requirements, on our website.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis, or CD&A, describes the actions taken by the Compensation Committee with respect to compensation awarded or paid to our named executive officers for fiscal year 2018 and the policies and principles underlying those actions. Our named executive officers, or NEOs, for fiscal year 2018 were:

Name	Position
Habib J. Dable	Chief Executive Officer and President
Kevin F. McLaughlin	Senior Vice President, Chief Financial Officer and Treasurer
Robert K. Zeldin, M.D.(1)	Executive Vice President and Chief Medical Officer
John D. Quisel, J.D., Ph.D.	Executive Vice President, Chief Business Officer and Secretary
Sujay R. Kango	Senior Vice President and Chief Commercial Officer

(1) Dr. Zeldin was no longer employed in his position as Executive Vice President and Chief Medical Officer effective April 5, 2019.

I. Executive Summary

We made tremendous progress in 2018 across our clinical portfolio and toward becoming a fully integrated biopharmaceutical company, and we continued to focus our corporate strategy on three key therapeutic areas: hematologic, neuromuscular and pulmonary. We have designed our executive compensation program to motivate, attract and retain a highly skilled team of key executives and to appropriately reward them for their contributions to our business, while also aligning their interests with those of our stockholders.

Key Takeaways

Highlighted below are several items that provide important context regarding our executive compensation program:

Pay for Performance

A basic principal of our compensation philosophy is to align pay and performance.

Realizable Pay of NEOs: Because a significant portion of our NEOs' pay is equity-based, the amount of compensation they will actually realize is based on our stock price performance. Measuring realizable pay as of a particular date helps to demonstrate the effectiveness of our pay program in achieving our objective of aligning pay with performance. The grant date fair value amounts reported in the Summary Compensation Table are not reflective of the actual realizable value of our NEO equity awards. As our Realizable Pay chart below demonstrates, actual realizable pay levels depend on our stock price performance, which directly aligns NEO pay with performance.

Executive Interests Aligned with Stockholder Interests

Short-term incentives are focused on the achievement of major milestone goals for each of our therapeutic areas of focus, business development, research and corporate advancement.

Long-term incentives are based on stock price performance, generally with three- to four-year vesting schedules.

Additionally, NEOs are required to hold meaningful amounts of our stock pursuant to our Executive Equity

Ownership Guidelines.

How Our Compensation Program Works

Our executive compensation philosophy is focused on aligning pay and performance. The framework we employ for measuring and rewarding performance consists of a combination of strategic, operational and/or corporate performance goals, taking into consideration each individual executive's contributions to the achievement of those goals, as well as the appreciation of our stock price over time. As a result, a significant portion of each executive's compensation is variable and tied to the achievement of annual corporate performance goals and long-term increases in our stock price, which together provides a balanced view of performance and serves as the basis for the Compensation Committee's executive compensation decisions.

Elements of Compensation

Our executive compensation program is designed to reward executives for achievement of our short- and long-term strategic, operational and corporate performance goals, to attract and retain world class talent, and to align our executives' interests with the interests of our stockholders. The Compensation Committee has selected the following primary compensation elements to achieve these objectives:

In addition to these pay elements, our NEOs are eligible to receive broad-based benefits that are available to our employees generally and to receive severance benefits in connection with certain terminations of employment.

Realizable Pay

Paying for performance continues to be the core of our executive compensation program. A good way to demonstrate how we have utilized the pay elements described above to align pay and performance is through the following chart, which shows the difference between the aggregate reported pay of our NEOs (including our former CEO who served as CEO during 2016), as disclosed in our Summary Compensation Table for the 2016, 2017, and 2018 fiscal years, and the realizable pay (as defined below) for these three years as of the end of the 2018 fiscal year. Over the three-year period ended December 31, 2018, our share price declined by approximately 2.9% (from \$44.86 per share on January 4, 2016 to \$43.55 per share on December 31, 2018). As a result, aggregate NEO realizable pay is approximately 29.5% less than is reported in our Summary Compensation Table for that same period. We believe this graphic clearly illustrates that pay and performance are aligned.

“SCT” is the aggregate pay levels as disclosed annually in our Summary Compensation Table over the past three years. This includes actual base salary, actual annual bonuses received, and long-term incentive plan awards (restricted stock units, performance stock units and stock option grants) based on the grant date fair value.

“Realizable as of FYE” is defined as the compensation earned or deliverable during the 2016, 2017 and 2018 fiscal years, calculated as of December 31, 2018 (the last trading day of the 2018 fiscal year) using the year-end share price of \$43.55 per share, and includes: actual salary received, actual annual bonuses received, and the intrinsic value of long-term incentive plan awards (whether vested or unvested).

Governance of Our Compensation Program

We have several governance practices that are part of our executive compensation program and that we believe are consistent with good corporate governance.

Best Practices We Employ

Long-Term Focus. A majority of our executive officer compensation is tied to long term performance.

No Excessive Perquisites. Other than participation in benefit plans offered to all of our employees, we generally do not provide other benefits or perquisites to our executive officers.

No Hedging or Pledging. We do not allow any of our executive officers or our directors to enter into any hedging-type transactions with respect to our stock or to pledge our stock.

Equity Ownership Guidelines. We have equity ownership guidelines that apply to (i) our executive officers, requiring them to hold equity interests with a value that equals or exceeds a pre-determined multiple of their annual base salary, and (ii) our non-employee directors, requiring them to hold equity interests with a value that equals or exceeds a pre-determined multiple of their annual base retainer.

No Section 280G Gross-Ups. None of our executive officers are entitled to a Section 280G gross-up.

Double-Trigger Vesting Acceleration. All unvested equity held by our executive officers is subject to double-trigger vesting acceleration.

Director Independence. The Compensation Committee is made up entirely of independent directors.

Independent Compensation Consultant. The Compensation Committee retains an independent compensation consultant to advise on our executive compensation program and practices.

Risk Assessment. The Compensation Committee conducts an annual risk assessment of our executive compensation program.

Risk Avoidance. We avoid compensation program designs that encourage excessive risk taking.

2018 Annual Meeting Say-On-Pay Vote

In 2017, our CEO did not receive any equity compensation because his on-hire equity compensation package that was awarded at the end of 2016 when he joined the Company was intended to compensate him for 2016 and 2017. As a result, the Compensation Committee believes that the compensation reported for our CEO in 2017 was atypically low, and our CEO's 2018 compensation, which includes equity awards as a long-term incentive, is more reflective of our CEO's typical compensation and is more in line with our compensation philosophy as described in the CD&A in this proxy statement.

At our 2018 annual stockholder meeting, our stockholders approved, on an advisory basis, the compensation of our named executive officers for fiscal year 2017 with approximately 99% of the votes cast voting in favor of the proposal. Although the vote is non-binding, the Compensation Committee considered the results of the vote in its review of our executive compensation program. Based on the level of stockholder support and the Compensation Committee's assessment of the efficacy and appropriateness of our executive compensation program, the Compensation Committee did not implement substantial changes to our executive compensation program in 2018, other than awarding our CEO equity compensation in 2018 as part of our standard compensation practices. The Compensation Committee will continue to consider the outcome of the Company's say-on-pay vote when making future compensation decisions for the Company's named executive officers.

II. Executive Compensation Philosophy and Objectives

Our executive compensation program and pay decisions are based on the philosophy that pay should be competitive and reward our executives for company performance. To maintain pay at competitive levels, the Compensation Committee's general philosophy is to target base salaries and total direct compensation (base salaries, target annual incentives and grant date value of long-term incentives) at levels that approximate the 50th percentile of the market, based on both our peer company and broader market compensation data.

The primary objectives of our executive compensation program are to:

- attract, motivate and retain a highly-skilled team of key executives;

Table of Contents

align the interests of our executives with the interests of our stockholders by tying compensation actually earned to the achievement of our strategic, operational and corporate performance goals and stock price performance, which serves to enhance short- and long-term value creation for our stockholders;

promote the achievement of key strategic, research and development, operational and corporate performance goals by linking compensation to the achievement of measurable performance goals; and

provide for levels of compensation that are competitive with the market.

To achieve these objectives, the Compensation Committee evaluates our executive compensation program annually and takes into consideration comparable pay at our peer companies and within the broader market, as well as the job scope, responsibilities and individual performance and experience of each executive. We award equity compensation primarily in the form of stock options and restricted stock units, or RSUs, that vest over time, which we believe aligns the interests of our executives with the interests of our stockholders by allowing them to participate in our longer-term success as reflected in the appreciation of our stock price and also serves as a valuable retention tool. In the past we have also awarded one-time grants of performance-based RSUs to certain of our executive officers to further promote the achievement of key corporate goals and objectives, including goals and objectives that may only be capable of being achieved over a time period of longer than one year.

III. Market Benchmarks and Competitive Analysis

Each year, the Compensation Committee considers a variety of factors in assessing the competitiveness of our executive compensation program and the individual compensation of each of our executive officers. These factors include our performance against our internal strategic, operational and corporate performance goals, the mix of short-term cash and long-term equity compensation we provide, and a thorough review of compensation paid at peer companies and within the broader market (based on data from Radford's Global Life Science compensation survey) compared to the compensation we pay to our executive officers.

Role of our Chief Executive Officer

Our Chief Executive Officer regularly discusses compensation-related matters with the Chair of the Compensation Committee and meets with the Compensation Committee as a whole to discuss these matters. Our Chief Executive Officer also provides the Compensation Committee and Board of Directors with his evaluation of the performance of our executive officers other than himself.

Role of Compensation Consultant

The Compensation Committee has engaged Radford as its independent compensation consultant. Radford assists the Compensation Committee in the development of a list of our peer companies and collects, analyzes and compares compensation data of such peer companies to the levels and components of our executive compensation program.

Using the peer group data provided by Radford and Radford's broader Global Life Sciences compensation survey data each year, the Compensation Committee determines the compensation of our executive officers with a philosophy of setting base salaries and total direct compensation each at approximately the 50th percentile of the market. The Compensation Committee evaluates and considers compensation data from our peer companies as well as broader market survey data described above for each element of compensation to ensure the competitiveness of the compensation packages we provide to our executive officers.

2018 Peer Group

In mid-2017, the Compensation Committee, taking into consideration information provided by Radford, determined our peer companies for the 2018 fiscal year. In determining our peer companies, the Compensation Committee selected publicly-traded companies that generally had the following similarities to our Company:

1 Industry

2 Market capitalization

3 Number of employees

4 Scientific stage of development

Table of Contents

Based on these criteria, the survey data used by the Compensation Committee included biopharmaceutical companies with a market capitalization of between \$400M to \$3.6B (reflecting approximately one third to three times our market capitalization at the time of the analysis) and with between 50 and 400 employees (reflecting approximately one third to three times our number of employees at the time of the analysis), and the Compensation Committee determined that our peer group for 2018 compensation comparisons and decisions was as follows:

Achaogen, Inc.	ImmunoGen, Inc.
Achillion Pharmaceuticals, Inc.	MacroGenics, Inc.
Aerie Pharmaceuticals, Inc.	Portola Pharmaceuticals, Inc.
Agios Pharmaceuticals, Inc.	Puma Biotechnology, Inc.
Amicus Therapeutics, Inc.	Reata Pharmaceuticals, Inc.
Array BioPharma Inc.	Sage Therapeutics, Inc.
Cytokinetics, Inc.	Sangamo BioSciences, Inc.
Epizyme, Inc.	TG Therapeutics, Inc.
FibroGen, Inc.	Ultragenyx Pharmaceutical Inc.
Global Blood Therapeutics, Inc.	

Peer Group Changes for 2019 Compensation

In mid-2018, the Compensation Committee, with Radford's input, evaluated and revised the list of peer companies for the 2019 fiscal year, based on changes in the Company's and individual peer companies' profiles, including market capitalization, employee population, and scientific stage of development. Survey data was updated to reflect our growth and therapeutic area focus, as well as changes in the corporate strategy and stage of development of some of our peer companies, and included biopharmaceutical companies with a market capitalization of between \$600M to \$6B (reflecting approximately one third to three times our market capitalization at the time of the analysis) and with between 50 and 500 employees (reflecting approximately one third to three times our number of employees at the time of the analysis).

As a result of this evaluation, the following companies were removed from our peer group for 2019 because they no longer satisfied the pre-defined criteria outlined above:

In their place, the following companies were determined to be more appropriate because they satisfied the pre-defined criteria outlined above and were added to our peer group for 2019:

- | | |
|-----------------------------------|--------------------------------|
| • Achaogen, Inc. | • Arena Pharmaceuticals, Inc. |
| • Achillion Pharmaceuticals, Inc. | • Atara Biotherapeutics |
| • Cytokinetics, Inc. | • Immunomedics, Inc. |
| • Sage Therapeutics, Inc. | • Karyopharm Therapeutics Inc. |

As a result of these changes, the Compensation Committee determined that our peer group to be used for 2019 compensation comparisons and decisions would be as follows:

Aerie Pharmaceuticals, Inc.	Immunomedics, Inc.
Agios Pharmaceuticals, Inc.	Karyopharm Therapeutics Inc.
Amicus Therapeutics, Inc.	MacroGenics, Inc.
Arena Pharmaceuticals, Inc.	Portola Pharmaceuticals, Inc.
Array BioPharma Inc.	Puma Biotechnology, Inc.
Atara Biotherapeutics	Reata Pharmaceuticals, Inc.
Epizyme, Inc.	Sangamo BioSciences, Inc.
FibroGen, Inc.	TG Therapeutics, Inc.
Global Blood Therapeutics, Inc.	Ultragenyx Pharmaceutical Inc.
ImmunoGen, Inc.

IV. Newly Appointed Executive Officers

In February 2018, we appointed Sujay Kango as our Senior Vice President and Chief Commercial Officer, and in June 2018, we appointed Robert Zeldin, M.D. as our Executive Vice President and Chief Medical Officer. To determine the compensation packages in connection with their appointments, the Compensation Committee, with Radford's input, considered the compensation paid to each of their positions at our peer companies described above, as well as broader market survey data consisting of compensation data from Radford's Global Life Sciences Survey, made up of biopharmaceutical companies with a market capitalization of approximately one-third to three times our market capitalization and number of employees at the time of their analysis for each position.

Sujay R. Kango

Mr. Kango's on-hire compensation package consisted of the following key elements:

Annual Compensation

Annual Base Salary: \$400,000 per year

Bonus Target: 40% of annual base salary beginning in 2019 (prorated for 2018 service)

Equity Award: Eligible to receive annual equity awards beginning in 2019 (prorated for 2018 service)

On-Hire Compensation

Sign-On Bonus: \$383,750

Equity Award:

Option to purchase 50,000 shares of our common stock

6,000 restricted stock units

In determining the value of Mr. Kango's on-hire compensation package, the Compensation Committee targeted approximately the 50th percentile of the market, based on our peer group and Radford's Global Life Sciences Survey data, and this was consistent with the Compensation Committee's general philosophy of targeting the 50th percentile. Mr. Kango's sign-on bonus was primarily intended to compensate Mr. Kango for the annual bonus that he would have been eligible to receive from his former employer for his performance in 2017 if he remained there, as well as amounts he was required to repay his former employer as a result of leaving.

Robert K. Zeldin, M.D.

Dr. Zeldin's on-hire compensation package consisted of the following key elements:

Annual Compensation

Annual Base Salary: \$465,000 per year

Bonus Target: 40% of annual base salary beginning in 2019

Equity Award: Eligible to receive annual equity awards beginning in 2019 (prorated for 2018 service)

On-Hire Compensation

Sign-On Bonus: \$157,500

Equity Award:

Option to purchase 85,511 shares of our common stock

16,903 restricted stock units

Relocation Expense Reimbursement: Up to \$400,000 total, including any tax gross-up

In determining the value of Dr. Zeldin's on-hire compensation package, the Compensation Committee targeted between the 50th and 75th percentile of the market for the base salary and on-hire equity award, and the 50th percentile of the market for bonus target, based on our peer group and Radford's Global Life Sciences Survey data. This overall target compensation was slightly higher than the Compensation Committee's general philosophy of targeting the 50th percentile, but the

Table of Contents

Compensation Committee considered Dr. Zeldin's extensive experience as a Chief Medical Officer, diverse skill set and strong track record within the biopharmaceutical industry, and Radford's recommendation to target between the 50th and 75th percentile of market data due to the highly competitive market conditions for recruiting a Chief Medical Officer. Dr. Zeldin's sign-on bonus was primarily intended to compensate Dr. Zeldin for the annual bonus that he would have been eligible to receive from his former employer for his performance in 2018 if he remained there.

V. Elements of Executive Compensation

The compensation of our executive officers for fiscal year 2018 consisted primarily of the following elements:

Element	Performance Period	Objective	Features
Fixed Pay			
Base Salary	Annual	Attracts and retains highly skilled executives	Fixed component of pay to provide financial stability, based on responsibilities, experience, individual contributions and market data
Annual Short-Term Incentives			
Annual Cash Bonus	Annual	Promotes and rewards the achievement of key short-term strategic, operational and corporate performance goals of the Company as well as individual performance; motivates executives	Variable component of pay based on pre-established annual corporate goals and individual performance
Long-Term Equity Incentives			
Stock Options and Restricted Stock Units	Long-Term	Encourages executives to focus on long-term Company performance; promotes retention of executives; rewards outstanding Company and individual performance Aligns executives' interests with those of our stockholders and rewards stockholder value creation over the long-term	Time-based stock option awards generally vest in equal installments quarterly over a four-year period Time-based restricted stock unit awards generally vest in equal installments annually over a three-year period

Base Salaries

The Compensation Committee annually evaluates and determines base salaries for our named executive officers, taking into consideration a number of factors, including:

- The scope of each executive's responsibilities;
- Each executive's respective experience and individual contributions to the Company;
- Base salaries paid for comparable positions at our peer companies and within the broader market, determined based on survey data provided by Radford;
- Company performance as a whole; and
- General industry conditions.

In addition, the Compensation Committee considers our Chief Executive Officer's assessment of individual base salary levels for our named executive officers, other than himself. In determining the annual base salaries of each of our named executive officers, the Compensation Committee considers all of the foregoing factors, but does not assign any specific weighting to any factor.

In February 2018, the Compensation Committee evaluated the base salaries of our executive officers, including our named executive officers, for fiscal year 2018, and considered each of the factors described above. Base salary increases for our named executive officers were determined, in large part, based on base salaries paid to executives holding comparable positions at our peer companies and within the broader market and our philosophy of targeting base salary and total direct compensation each at approximately the 50th percentile of the market, which reflects both our peer companies and broader market compensation data.

Table of Contents

The annual base salary increases for Messrs. Dable and McLaughlin and Dr. Quisel approved by the Compensation Committee, effective January 1, 2018, were:

Name	2017		
	Year	2018	
	End	Base	%
	Base	Salary	Change
	Salary	(\$)	
	(\$)		
Habib J. Dable	550,000	566,500	3.0 %
Kevin F. McLaughlin	379,156	390,531	3.0 %
John D. Quisel, J.D., Ph.D.	385,000	396,550	3.0 %

In May 2018, Dr. Quisel's base salary was further increased from \$396,550 to \$440,000 due to his promotion to Executive Vice President, Chief Business Officer and Secretary. In determining Dr. Quisel's new base salary, the Compensation Committee targeted slightly above the 50th percentile of the market, based on our peer group and Radford's Global Life Sciences Survey data, in recognition of Dr. Quisel's Executive Vice President title as compared to Senior Vice President, and the broad scope of Dr. Quisel's responsibilities which encompassed more than a typical Chief Business Officer.

Robert Zeldin was appointed as our Executive Vice President and Chief Medical Officer effective as of June 29, 2018 and his annual base salary upon his appointment was \$465,000. Mr. Kango was appointed as our Senior Vice President and Chief Commercial Officer effective as of February 12, 2018 and his annual base salary upon his appointment was \$400,000. The Compensation Committee's determination of Dr. Zeldin's and Mr. Kango's compensation packages is described in greater detail above in "Newly Appointed Executive Officers."

Annual Short-Term Incentives

Our annual cash bonus program for our named executive officers and other executives is administered by the Compensation Committee under the Acceleron Pharma Inc. Short-Term Incentive Compensation Plan, or the Incentive Plan. The Incentive Plan promotes and rewards the achievement of key strategic, operational and corporate performance goals.

For fiscal year 2018, the target and maximum annual bonuses as a percentage of base salary for our named executive officers were as follows:

Name	Maximum	
	Target	(150% of Target)
Habib J. Dable	60%	90%
Kevin F. McLaughlin	40%	60%
Robert K. Zeldin, M.D.	40%	60%
John D. Quisel, J.D., Ph.D.	40%	60%
Sujay R. Kango	40%	60%

Based upon the recommendation of the Compensation Committee, the Board of Directors establishes specific corporate performance goals under the Incentive Plan annually that are based on our strategic plan for the year. After the end of the year, the Compensation Committee compares Company performance for the prior year against these corporate goals and makes a recommendation to the Board of Directors on the percentage of the corporate goals that were achieved for such year. The independent members of the Board of Directors then make a final determination on the level of achievement of such goals.

The annual cash bonuses actually paid to each of our named executive officers, other than our Chief Executive Officer, is determined by the Compensation Committee, based primarily on the achievement of our pre-established corporate goals as determined as described above, subject to adjustment for individual performance as recommended by our Chief Executive Officer (other than with respect to himself). The Compensation Committee also annually sets the maximum annual bonus payout, which for fiscal year 2018 was up to 150% of each named executive officer's target annual bonus. Payment of the annual cash bonus to all of our executives, including our Chief Executive Officer, is conditioned on the executive remaining employed by us or providing services to us at the time the bonus is actually

paid.

2018 Corporate Goals and Performance

Our corporate goals are comprised of key strategic, operational and corporate performance goals relating to clinical development, research, business development and corporate advancement objectives. As outlined in the table below, each of our corporate goals has a designated weighting and the Compensation Committee assessed the achievement of each corporate goal and determined the percentage of achievement, up to no more 150%. The achievement of our 2018 corporate goals is as follows:

The Compensation Committee determined that in the event that less than 50% of the corporate goals were achieved (determined on a weighting basis), there would be no annual bonus payouts to executive officers. In the event that at least 50% of the goals were achieved, the Compensation Committee would fund bonuses at a level of 50% to 150% based on the percentage of corporate goals achieved as determined by the Compensation Committee, including any stretch achievements.

In January 2019, the Compensation Committee evaluated our performance against the 2018 corporate goals. As described in detail in the table above, the Compensation Committee considered the significant overachievements of our corporate goals for luspatercept and ACE-083, which were partially offset by the corporate goals that we missed relating to ACE-1334, ACE-2494 and new assets. The Compensation Committee also noted two key stretch achievements for 2018 that were accomplished by the Company. In particular, we were successful in accelerating the focus on life cycle management opportunities for luspatercept with Celgene, which could significantly expand the potential market opportunity for luspatercept as a platform drug. We also initiated the exploratory Phase 2 SPECTRA clinical trial with sotatercept that was not initially contemplated for 2018, and which will provide us with a greater understanding of sotatercept's potential impact on PAH. When considering the overachievements of certain of our 2018 corporate goals and the significance of these two key stretch achievements for 2018, offset by the corporate goals that were missed for 2018, the Compensation Committee recommended and the Board of Directors approved a total corporate goals achievement of 117.5%.

2018 Bonus Payouts

As our CEO, Mr. Dable's annual bonus was based solely on the achievement of corporate goals. As a result, the Board of Directors approved an annual bonus for Mr. Dable at 117.5% of his target bonus of 60% of his annual base salary, which is equal to 70.5% of his annual base salary.

For our executives other than Mr. Dable, the Compensation Committee approved a total bonus pool of 117.5% of the bonus targets for all executives, including our named executive officers. Mr. Dable evaluated the individual performance of each of our executives and recommended to the Compensation Committee the specific bonuses to be awarded to each executive, including each named executive officer, within the total bonus pool based on a combination of individual performance and the achievement of corporate goals. Individual performance for our named executive officers was based on a combination of departmental and leadership achievements.

Based on the achievement of corporate goals and Mr. Dable's assessment of the individual accomplishments by each of our named executive officers in 2018, our named executive officers received the following annual cash bonuses for 2018:

Long-Term Incentives

We grant long-term incentives generally on an annual basis in the form of stock options and restricted stock units, or RSUs, under our 2013 Equity Incentive Plan. We award a mix of stock options and RSUs as part of our on-hire and annual awards to our named executive officers, typically with the total value of the equity award allocated 75% in stock options and 25% in RSUs, to increase executive ownership of our shares, provide a balance of full value and appreciation-based awards, which only have value if our stock appreciates, further encourage retention and increase the alignment of the interests of our executives with those of our stockholders. RSUs also provide executives with some certainty regarding the value of the compensation they are receiving during periods of stock market volatility, which furthers our fundamental goal of awarding compensation that helps attract and retain highly skilled employees. In connection with Mr. Dable's on-hire package when he joined us in December 2016, and as a one-time grant to Mr. McLaughlin and Dr. Quisel in 2015, we have awarded performance-based RSUs that are eligible to vest based on the achievement of specified performance goals, and the performance period for these performance-based RSUs will expire in September 2019.

Stock Options and Restricted Stock Units

We award stock options and RSUs as our long-term incentive compensation because they directly align executive compensation with the creation of stockholder value, and the ultimate value received from stock options and RSUs depends on stock price performance after the grant date. Stock options and RSUs also encourage retention through time-based vesting. Stock option awards to new employees generally vest as to 25% of the shares subject to the option after one year and in equal quarterly installments over the following three years, and stock option awards to existing employees generally vest in quarterly installments over four years, in both cases, generally subject to continued employment. The exercise price of all stock options is equal to the fair market value of our common stock on the grant date, measured as the closing price of our common stock on such date as reported by the Nasdaq Stock Market. RSU awards to our employees generally vest in annual installments over three years, generally subject to continued employment.

In establishing annual long-term incentive award levels for our named executive officers other than our Chief Executive Officer, and in formulating a recommendation to the Board of Directors on the long-term incentive award to be granted to our Chief Executive Officer, the Compensation Committee evaluates long-term incentives awarded to executives holding comparable positions at our peer companies as well as the broader market survey data provided by Radford. The Compensation Committee and Board of Directors also evaluate overall Company performance over the fiscal year prior to which the awards are granted.

Based on the Compensation Committee's evaluation, the Compensation Committee and the Board of Directors granted long-term incentive awards to Messrs. Dable and McLaughlin and Dr. Quisel in March 2018. The Compensation Committee also granted long-term incentive awards to Mr. Kango and Dr. Zeldin when they each joined us in 2018, and to Dr. Quisel when he was promoted from Senior Vice President, Corporate Development, General Counsel and Secretary to Executive Vice President, Chief Business Officer and Secretary in May 2018. The table below reflects these long-term incentive awards granted in 2018 in the form of stock options and RSUs to each of our named executive officers, with the value of long-term incentives calculated in the same manner as the value of those awards is calculated in our Summary Compensation Table:

VI. Additional Compensation Policies and Practices

Equity Ownership Guidelines

In September 2015, we adopted Executive Officer Equity Ownership Guidelines, or the Executive Guidelines, and in December 2016, we adopted Non-Employee Director Equity Ownership Guidelines, or the Director Guidelines, which we collectively refer to as the Equity Guidelines. The Equity Guidelines require our executive officers and non-employee directors to acquire and maintain a specified value of equity interests with respect to our common stock. The Equity Guidelines are designed to further align the interests of our executive officers and non-employee directors with those of our stockholders by ensuring that our executive officers and non-employee directors have a meaningful financial stake in our long-term success. All shares directly or beneficially owned by the executive officer or non-employee director, including the net exercisable value of outstanding vested stock options (where the market price of our common shares exceeds the exercise price of such option) are included in determining the value of equity owned under the Equity Guidelines. The Equity Guidelines are as follows:

Position	Requirement
Chief Executive Officer	3x base salary
Chief Operating Officer	1.5x base salary
Other executive officers	1x base salary

Non-employee directors 3x annual cash base retainer

Each executive officer and non-employee director is required to achieve the applicable level of equity ownership by the later of the date that is five years after his or her designation as an executive officer or non-employee director, as applicable, or five years after the adoption of the Equity Guidelines.

Compliance with the Equity Guidelines is assessed on January 1 of each year and is determined based on each executive officer's salary or non-employee director's annual base cash retainer then in effect. Until the required ownership level is reached, executive officers and non-employee directors are required to retain at least 50% of shares of our common stock, net of applicable tax withholding and the payment of any exercise or purchase price (if applicable), received upon the vesting or settlement of equity awards or the exercise of stock options. Once the requisite ownership level has been achieved, such ownership must be maintained for as long as the individual is subject to the Equity Guidelines.

For Mr. McLaughlin and Dr. Quisel, satisfaction of the requirement of the Executive Guidelines will become required five years after the Executive Guidelines were adopted, or on September 9, 2020. Mr. Dable was appointed as our President and Chief Executive Officer effective as of December 1, 2016, Mr. Kango was appointed as our Senior Vice President and Chief Commercial Officer effective as of February 12, 2018, and Dr. Zeldin was appointed as our Executive Vice President and Chief Medical Officer on June 29, 2018, and they each have until five years after their respective start dates to obtain the requisite equity ownership under the Executive Guidelines. In addition, our non-employee directors have until the later of five years after the adoption of the Director Guidelines, which will be December 1, 2021, or five years after the non-employee director was appointed as a director, to obtain the requisite equity ownership under the Director Guidelines.

Anti-Hedging and Pledging Policy

We do not allow any of our executive officers or our directors, to enter into any hedging-type transactions with respect to our stock or to pledge our stock.

Benefits

28

Table of Contents

Our named executive officers receive broad-based benefits that are provided to all employees, including medical insurance, dental insurance, vision insurance, group life insurance, accidental death and dismemberment insurance, long- and short-term disability insurance, flexible spending accounts and matching contributions under our 401(k) plan. Our executive officers are eligible to participate in all of our employee benefit plans on the same basis as our other employees.

Pursuant to our 401(k) plan, employees' elective deferrals are immediately fully vested and non-forfeitable. We may, but are not required to, make discretionary matching contributions and other employer contributions on behalf of eligible employees under this plan. For fiscal year 2018, we matched a portion of eligible employee contributions up to \$8,500 pursuant to our 401(k) plan's matching formula.

Employee Stock Purchase Plan

In addition, we maintain our tax-qualified 2013 Employee Stock Purchase Plan, or the ESPP, in which all our employees, including our named executive officers, may participate, subject to the eligibility criteria set forth in the ESPP and consistent with the applicable tax rules. The purpose of the ESPP is to encourage employees, including our named executive officers, to become our stockholders and better align their interests with those of our other stockholders. None of our named executive officers purchased shares of our common stock under the ESPP in fiscal year 2018.

Employment Agreements

We have entered into employment agreements with each of our named executive officers, which provide for initial base salaries, eligibility to participate in the Company's annual bonus plan, and payments and benefits in connection with certain terminations of employment, including in connection with a change of control. Certain of our named executive officers are entitled to change of control benefits under their performance-based restricted stock units that apply only in the event such awards are not continued, assumed or substituted for in connection with a change of control. We believe that these limited change of control benefits provide our executives with security that will likely reduce any reluctance they may have to pursue a change of control transaction that could be in the best interests of our stockholders. We also believe that reasonable severance and change of control benefits are necessary to attract and retain high-quality executive officers. These agreements are discussed in more detail below under "Executive Officer and Director Compensation" in subsections "—Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table—Employment Agreements" and "—Potential Payments Upon Termination or Change of Control."

Tax and Accounting Considerations

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction for any publicly-held corporation for individual compensation exceeding \$1 million in any taxable year that is paid to certain executive officers of the corporation. As a result, compensation paid to certain current and former executive officers in excess of \$1 million in a taxable year generally will not be deductible beginning in 2018 unless such compensation qualifies for transition relief applicable to legally-binding contracts that were in effect on November 2, 2017 or qualifies under a transition rule related to our initial public offering. The Compensation Committee may consider the potential deductibility of the compensation payable under our program, but believes that its primary responsibility is to provide a compensation program that attracts, retains and rewards the executives necessary for our success. Accordingly, the Compensation Committee has authorized and may continue to authorize compensation payments that are not fully, or that may be partially, deductible Section 162(m) or that may otherwise be limited as to tax deductibility.

The Compensation Committee regularly considers the accounting implications of significant compensation decisions, especially in connection with decisions that relate to our equity incentive award plans and programs. If accounting standards change, we may revise certain programs to appropriately align accounting expenses of our equity awards with our overall executive compensation philosophy and objectives.

Under his offer letter, Mr. Kango received a signing bonus of \$383,750, subject to repayment if Mr. Kango voluntarily terminates his employment without good reason (as defined in the employment agreement) within two years of his start date, with any such repayment amount prorated based on the number of full years of service completed prior to such termination. Mr. Kango also received an option to purchase 50,000 shares of our common stock, and restricted stock units representing the right to receive up to 6,000 shares of our common stock. Mr. Kango's employment agreement will continue until the agreement is terminated by us or Mr. Kango under the terms of the agreement. Under his employment agreement, he is eligible to receive a base salary, subject to increase by the Board or the Compensation Committee, and a performance-based cash bonus each year under in an amount equal to a percentage of his annual base salary for such year as established by the Compensation Committee or Board of Directors, which amount is to be based on the achievement of performance goals established by the Board of Directors each fiscal year.

The employment agreements with our named executive officers also contain severance benefits. For a description and quantification of benefits payable to the executive officers in connection with a termination of employment or a change of control pursuant to these arrangements, see "—Potential Payments Upon Termination or Change of Control." **Equity Awards**

In 2018, we granted each of our named executive officers options to purchase our common stock and restricted stock units. For a description of these equity awards, see the discussion above in "Compensation Discussion and

Analysis—Elements of Executive Compensation—Long-Term Incentives."

(1) The exercise price of the stock options was not less than the fair market value of a share of our common stock on the date of grant, as determined by the Board of Directors based, in part, on an independent third party valuation with respect to the period prior to our initial public offering. Stock options granted

subsequent to our initial public offering were granted with an exercise price equal to the closing price of a share of our common stock on the date the stock option was granted.

(2) All stock options have a 10-year term measured from the date of grant.

(3) The market value of the stock awards is determined by multiplying the number of shares subject to the award by \$43.55, which was the closing price of our common stock on December 31, 2018, the last trading day of the fiscal year.

(4) Reflects performance-based restricted stock units, or PSUs, that will vest upon the achievement of certain time- and performance-based conditions. Any PSUs that have not vested based on the achievement of performance-based milestones will vest on September 9, 2019, generally subject to the executive's continued employment.

(5) Reflects time-based restricted stock units that vest in equal annual installments over three years generally subject to the executive's continued employment.

(6) Reflects time-based options to purchase shares of our common stock, vesting as to 25% of the shares subject to the option on the first anniversary of the vesting commencement date and thereafter in equal quarterly installments over the following three years, generally subject to the executive's continued employment.

(7) Reflects time-based options to purchase shares of our common stock that vest in equal quarterly installments over four years, generally subject to the executive's continued employment.

(1) The value realized upon exercise is the difference between the fair value of our common stock at the time of exercise and the exercise price, multiplied by the number of shares acquired on exercise.

(2) The value realized upon vesting is the fair value of our common stock at the time of vesting multiplied by the number of shares acquired on vesting.

Potential Payments Upon Termination or Change of Control

Pursuant to the employment agreements between the Company and each of our named executive officers, each named executive officer is entitled to payments and benefits upon certain terminations of the executive's employment, including in connection with a change of control, as described below. Certain of our named executive officers are entitled to change of control benefits under their performance-based restricted stock units that apply only in the event such awards are not continued, assumed or substituted for in connection with a change of control. We believe that these limited change of control benefits provide our executives with security that will likely reduce any reluctance they may have to pursue a change of control transaction that could be in the best interests of our stockholders. We also believe that reasonable severance and change of control benefits are necessary in order to attract and retain high-quality executive officers.

The table below reflects, as applicable, cash severance, option acceleration, RSU acceleration, PSU acceleration, and continuation of health benefits payable to each of our named executive officers in connection with (1) a change of control of the Company, (2) the termination of the executive's employment without cause or for good reason following a change of control, (3) the termination of the executive's employment without cause or for good reason (other than following a change of control), and (4) the termination of the executive's employment due to his death or disability; in each case, assuming that the triggering event took place on December 31, 2018, and based on the closing stock price of our common stock on December 31, 2018, the last trading day of fiscal year 2018 (\$43.55 per share).

(1) The value of acceleration of stock options is calculated based on the difference between the closing price of our common stock on December 31, 2018, the last trading day of fiscal year 2018 (\$43.55 per share), and the exercise price of stock options multiplied by the number of unvested stock options that vest in connection

with a termination of employment.

The value of acceleration of RSUs is calculated based on the closing price of our common stock on December 31, 2018 multiplied by the number of unvested RSUs that vest in connection with a termination of employment.

(2) Assumes that performance-based restricted stock units, or PSUs, are continued, assumed or substituted for upon a change of control.

(3) Cash severance represents the amount by which 100% of the executive's annual base salary exceeds that which would be paid to the executive pursuant to the Company's long-term disability insurance benefits for one year. This cash severance is paid by the Company only in the event of an executive's disability, and not in the event of an executive's death.

Change of Control. Although the employment agreements for Dr. Quisel and Mr. McLaughlin provide for the vesting of 25% of the unvested stock options granted prior to the date of each executive's employment agreement upon a change of control, as of December 31, 2018, all of the stock options to which this acceleration would apply were fully vested in accordance with their terms. As a result, the provision in these executives' employment agreements providing for partial acceleration of vesting upon a change of control is no longer in effect. Each of Dr. Quisel and Mr. McLaughlin received a one-time award of performance-based restricted stock units in 2015, which Mr. Dable also received in 2016 in connection with his on-hire compensation package, and which we refer to as the PSUs. In the event that the PSUs are not continued, assumed or substituted for in connection with a change of control, all outstanding and unvested PSUs will vest immediately upon the change of control. All stock option, RSUs, and PSUs granted to our named executive officers are subject to double-trigger vesting acceleration, as described below under "Termination of Employment Without Cause or for Good Reason Following a Change of Control."

Change of control is defined under the employment agreements with our named executive officers and in the PSU award agreements generally as (i) the acquisition of beneficial ownership, directly or indirectly by any person, of our securities representing a majority or more of the combined voting power of our then outstanding securities, other than an acquisition of securities for investment purposes pursuant to a bona fide financing; (ii) a merger or consolidation with any other corporation in which our holders of voting securities prior to the merger or consolidation do not own more than 50% of the total voting securities of the surviving corporation; or (iii) the sale or disposition of all or substantially all of our assets.

Termination of Employment Without Cause or for Good Reason Following a Change of Control. For our named executive officers, if, within one year after the consummation of a change of control, the executive's employment is terminated by us (or our successor) other than for cause or the executive terminates his employment for good reason (as such terms are defined in the executive's employment agreement): (1) we will pay the executive a lump sum payment equal to the product of 1.5 times in the case of Mr. Dable, or one times in the case of Drs. Zeldin and Quisel and Messrs. McLaughlin and Kango, the sum of (x) executive's then-current annual base salary plus (y) 100% of the executive's target bonus for the year in which the termination occurs, (2) 100% of any unvested equity awards (including any PSUs that were continued or assumed in connection with the change of control) held by the executive at the time of such termination will fully vest, and (3) if the executive elects under COBRA or any successor law to continue participation in our group health and/or dental plans in which the executive was participating prior to such

termination, we will pay or, at our option reimburse the executive for, the full premium cost of

Table of Contents

that participation for 18 months in the case of Mr. Dable, or 12 months in the case of Drs. Zeldin and Quisel and Messrs. McLaughlin and Kango, following the date the executive's employment terminates or, if earlier, until the date the executive becomes eligible to enroll in such plans of a new employer.

Termination of Employment Without Cause or for Good Reason. For our named executive officers, if the executive's employment is terminated by us other than for cause or the executive terminates his employment for good reason (as such terms are defined in the executive's employment agreement) under circumstances other than as described in the preceding paragraph: (1) we will continue to pay the executive his base salary for a period of 18 months in the case of Mr. Dable, or 12 months in the case of Drs. Zeldin and Quisel and Messrs. McLaughlin and Kango, in accordance with our payroll practices, and (2) if the executive elects under COBRA or any successor law to continue participation in our group health and/or dental plans in which the executive was participating prior to such termination, we will pay or, at our option reimburse the executive for, the full premium cost of that participation for 18 months in the case of Mr. Dable, or 12 months in the case of Drs. Zeldin and Quisel and Messrs. McLaughlin and Kango.

Termination of Employment Due to Death or Disability. For Drs. Zeldin and Quisel and Messrs. McLaughlin and Kango, in the event we terminate the executive's employment due to disability, to the extent we do not maintain a disability plan providing for continuation of the executive's base salary for one year following the date of such termination, during this period we will pay the executive, at the time the executive's base salary would otherwise have been paid, an amount equal to the excess of 100% of the executive's base salary over the disability insurance benefits, if any, actually paid to the executive. Although the employment agreements for Dr. Quisel and Mr. McLaughlin provide for the vesting of unvested stock options granted prior to the date of each executive's employment agreement if the executive's employment terminates due to the executive's death or disability termination, as of December 31, 2018, all of the stock options to which this acceleration would apply were fully vested in accordance with their terms. As a result, the provision in these executives' employment agreements providing for acceleration is no longer in effect.

Severance Subject to Release of Claims and Compliance With Restrictive Covenants. Our obligation to provide our named executive officers with any severance payments or other benefits under the employment agreement is conditioned on the executive signing an effective release of claims in our favor and the executive's continued full performance of his obligations under the Employee Confidentiality, Non-Competition and Proprietary Information Agreement relating to confidentiality, non-competition and non-solicitation.

Section 280G. The employment agreements with our executives provide that if a change in ownership or control occurs and any portion of the payments made pursuant to the employment agreement or otherwise constitutes an excess parachute payment under Section 280G of the Internal Revenue Code of 1986, as amended, then the executive will be entitled to receive an amount of such payments reduced so that no portion of the payments would constitute an excess parachute payment, or the amount otherwise payable to the executive under the employment agreement or otherwise reduced by all applicable taxes, including the excise tax, whichever amount results in the greater amount payable to the executive.

Pay Ratio Disclosure

Pursuant to Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 402(u) of Regulation S-K, we are required to disclose the ratio of the annual total compensation of our principal executive officer to the median of the annual total compensation of all of our employees other than our principal executive officer. During fiscal 2018, our principal executive officer was our President and Chief Executive Officer, Habib Dable. For 2018, the annual total compensation for Mr. Dable, as reported in the Summary Compensation Table, was \$4,333,647, and the annual total compensation for our median employee was \$211,324, resulting in an estimated pay ratio of approximately 21:1. As noted above, Mr. Dable was not granted equity in 2017 because his on-hire equity award was intended to cover both 2016 and 2017. As a result, his total compensation for 2017 and our estimated pay ratio for 2017 was also atypically low.

In accordance with Item 402(u) of Regulation S-K, we identified the median employee as of October 1, 2018 by aggregating for each employee employed on this date (i) base salary or wages actually paid for 2018, (ii) target cash incentive compensation for 2018, and (iii) estimated accounting value of any equity awards granted during 2018. We chose this as our consistently applied compensation measure because we believed it was representative of employee

compensation at Acceleron. We then ranked this our employees from lowest to highest using this compensation measure. This calculation was performed for all of our employees who were employed on October 1, 2018, excluding Mr. Dable. Once we selected the median employee, we calculated this employee's compensation in the same manner as we calculated Mr. Dable's compensation for purposes of the Summary Compensation Table.

The pay ratio reported above is a reasonable estimate calculated in a manner consistent with SEC rules based on our internal records and the methodology described above. The SEC rules for identifying the median compensated employee and calculating the pay ratio based on that employee's annual total compensation allow companies to adopt a variety of

Table of Contents

methodologies, to apply certain exclusions, and to make reasonable estimates and assumptions that reflect their employee populations and compensation practices. Accordingly, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies have different employee populations and compensation practices and may utilize different methodologies, exclusions, estimates and assumptions in calculating their own pay ratios.

Director Compensation

Our non-employee director compensation policy is designed to provide a total compensation package that enables us to attract and retain, on a long-term basis, high caliber non-employee directors. Under the policy for 2018, all non-employee directors were eligible to receive cash compensation as set forth below, prorated for any partial year of service:

	2018 Annual Retainer
Board of Directors:	
All non-employee members	\$ 40,000
Additional retainer for Chair of the Board of Directors	\$ 35,000
Audit Committee:	
Chair	\$ 20,000
Non-Chair members	\$ 10,000
Compensation Committee:	
Chair	\$ 15,000
Non-Chair members	\$ 7,500
Nominating and Corporate Governance Committee:	
Chair	\$ 10,000
Non-Chair members	\$ 5,000
Ad Hoc Committees:	\$
	1,250/meeting

Under our non-employee director compensation policy for 2018, each person who is initially appointed or elected to the Board of Directors is eligible to receive an option to purchase 20,000 shares of our common stock under our 2013 Equity Incentive Plan on the date he or she first becomes a non-employee director, which will vest quarterly in equal installments over a three-year period, generally subject to the non-employee director's continued service. In 2019, the Board of Directors, upon the recommendation of the Compensation Committee, determined that the stock option award to any person who is initially appointed or elected to the Board of Directors would change from a share-based structure of a stock option to purchase 20,000 shares of our common stock, to a value-based structure of a stock option award with a Black-Scholes value of approximately \$500,000.

In addition, each continuing non-employee director is eligible to receive an annual option grant to purchase 7,500 shares of our common stock and an annual award of 1,250 restricted stock units, in each case, which will vest in full on the first anniversary of the grant date, generally subject to the non-employee director's continued service. The annual equity awards are prorated when granted to any non-employee director who becomes a non-employee director during the fiscal year, based on the portion of the prior fiscal year that the director served on the Board of Directors. A person initially appointed as the Chair of the Board of Directors is eligible to receive an additional option to purchase 10,000 shares of our common stock, which will vest quarterly over three years after the date of grant, generally subject to the non-employee director's continued service. All options granted to members of the Board of Directors are granted with an exercise price equal to the fair market value of a share of our common stock on the date of grant. We also reimburse each member of the Board of Directors who is not an employee for reasonable travel and other expenses in connection with attending meetings of the Board of Directors.

In March 2018, pursuant to our non-employee director compensation policy, each of our non-employee directors received an option to purchase 7,500 shares of our common stock and 1,250 restricted stock units, other than Dr. Smith who received an option to purchase 1,875 shares of our common stock and 312 restricted stock units, representing a prorated award based on the portion of 2017 for which she served on the Board of Directors beginning

in November 2017. These equity awards will vest in full on the first anniversary of the grant date, generally subject to the non-employee director's continued service.

The annual stock options and restricted stock units granted in March 2018 to members of the Board of Directors other than Dr. Smith each had a grant date fair value of \$173,123 and \$50,763, respectively, and the stock options and restricted stock units granted to Dr. Smith in March 2018 each had a grant date fair value of \$43,281 and \$12,670, respectively. These values were determined in accordance with the Financial Accounting Standards Board, Accounting Standards Codification Topic 718, Compensation-Stock Compensation, excluding the effect of estimated forfeitures.

Table of Contents

The following table sets forth information concerning the cash compensation earned by our directors during 2018 and equity granted in 2018. Mr. Dable, as an employee-director, received no additional compensation for service as a director, and, consequently, is not included in this table. The compensation received by Mr. Dable as an employee during 2018 is included in the "Summary Compensation Table" above.

See Note 11 to our consolidated financial statements for the year ended December 31, 2018, 2017 and 2016 filed with our Annual Report on Form 10-K filed with the SEC on February 27, 2019 for details on the assumptions made in the valuation of these awards.

(4) Dr. Smith received prorated equity awards in 2018 due to her appointment to the Board of Directors during 2017.

The following table sets forth the aggregate number of exercisable and unexercisable option awards and the number of restricted stock units held by our non-employee directors that were outstanding as of December 31, 2018:

Equity compensation plans not approved by security holders	—	—	—	
Total	4,163,320	\$ 34.09	3,711,496	

(1) These plans consist of our 2013 Equity Incentive Plan, or our 2013 Plan, our 2003 Stock Option and Restricted Stock Plan, or our 2003 Plan, and our 2013 Employee Stock Purchase Plan, or our 2013 ESPP. Our 2013 Plan was adopted in September 2013 and our 2003 Plan expired in December 2013, and thereafter no further stock options were granted under the 2003 Plan. All outstanding stock options granted under the 2003 Plan as of the 2003 Plan expiration date remained outstanding and subject to their terms and the terms of the 2003 Plan.

(2) Represents shares underlying outstanding stock options and restricted stock units.

(3) Restricted stock units have no exercise price and, therefore, the weighted average exercise price does not take outstanding restricted stock units into account.

(4) Represents 3,555,548 shares of common stock available for future issuance under our 2013 Plan and 155,948 shares of common stock available for future issuance under our 2013 ESPP. Our 2013 Plan contains an "evergreen provision" which allows for an annual increase in the number of shares available for issuance under the plan on the first day of each of our fiscal years during the period beginning on January 1, 2014 and ending on the January 1, 2023. AUDIT COMMITTEE REPORT

The Audit Committee has reviewed the audited consolidated financial statements of Acceleron for the year ended December 31, 2018 and has discussed these statements with management and Ernst & Young LLP, or Ernst & Young, the Company's independent registered public accounting firm. Acceleron management is responsible for the preparation of the Company's financial statements and for maintaining an adequate system of disclosure controls and procedures and internal control over financial reporting for that purpose. The independent registered public accounting firm audits the annual consolidated financial statements prepared by management, expresses an opinion as to whether those consolidated financial statements present fairly the consolidated financial position, results of operations and cash flows of Acceleron Pharma Inc. in conformity with U.S. generally accepted accounting principles and discusses any issues they believe should be raised with us. The Audit Committee is responsible for providing independent, objective oversight of the Company's accounting functions and internal controls. The Audit Committee also reviewed management's report on its assessment of the effectiveness of the Company's internal control over financial reporting and the independent registered public accounting firm's report on the effectiveness of the Company's internal control over financial reporting as of December 31, 2018.

The Audit Committee also received from, and discussed with, Ernst & Young the written disclosures and other communications that the Company's independent registered public accounting firm is required to provide to the Audit Committee, including the matters required to be discussed by Statement on Auditing Standards No. 1301, as amended (Communication with Audit Committees), as adopted by the Public Company Accounting Oversight Board, or PCAOB.

Ernst & Young also provided the Audit Committee with the written disclosures and the letter required by Rule 3526 of the PCAOB. PCAOB Rule 3526 requires independent registered public accounting firms annually to disclose in writing all relationships that in their professional opinion may reasonably be thought to bear on independence, to confirm their perceived independence and engage in a discussion of independence. The Audit Committee has reviewed this disclosure and has discussed with Ernst & Young their independence from Acceleron.

Based on its discussions with management and our independent registered public accounting firm, and its review of the representations and information provided by management and our independent registered public accounting firm, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Acceleron Annual Report on Form 10-K for the year ended December 31, 2018, for filing with the Securities and Exchange Commission.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our executive officers and directors and persons who own more than 10% of a registered class of our equity securities to file initial reports of ownership and reports of changes in ownership with the SEC. Such persons are required by regulation of the SEC to furnish us with copies of all Section 16(a) forms they file. Based solely on our review of the copies of such forms or written representations from certain reporting persons received by us with respect to fiscal year 2018, we believe that our executive officers and directors and persons who own more than 10% of a registered class of our equity securities have complied with all applicable filing requirements.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Except as described below, there have been no transactions since January 1, 2018 in which we were a party, the amount involved exceeded or will exceed \$120,000, and in which any related person had a direct or indirect material interest.

Indemnification Agreements

We have entered into indemnification agreements with each of our directors and executive officers. These agreements will require us to indemnify these individuals and, in certain cases, affiliates of such individuals, to the fullest extent permissible under Delaware law against liabilities that may arise by reason of their service to us or at our direction, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified.

Registration Rights Agreement

In connection with our Series F preferred stock financing, on December 22, 2011, we entered into an amended and restated registration rights agreement with the holders of all of our then-outstanding shares of preferred stock including entities with which certain of our directors are affiliated. These entities that are parties to the agreement consist of Advanced Technology Ventures and related funds (affiliated with our director Jean M. George), and Celgene. The agreement provides that these holders, for so long as they may hold registrable securities, as defined in the agreement, have the right to demand that we file a registration statement with respect to the common stock issued upon conversion of our preferred stock. These holders may also request that shares of common stock held by them be included in certain registration statements that we are otherwise filing.

Related Party Transactions Policy

We have adopted a related party transactions policy that governs the review and approval of related party transactions. Pursuant to this policy, if we want to enter into a transaction with a related party or an affiliate of a related party, our General Counsel will review the proposed transaction to determine, based on applicable Nasdaq and SEC rules, if such transaction requires pre-approval by the Audit Committee and/or Board of Directors. If pre-approval is required, such matters will be reviewed at the next regular or special Audit Committee and/or Board of Directors meeting. We may not enter into a related party transaction unless our General Counsel has either specifically confirmed that no further reviews are necessary or that all requisite corporate reviews have been obtained.

PROPOSAL NO. 1—ELECTION OF DIRECTORS

In accordance with the Company's certificate of incorporation and bylaws, the Board of Directors is divided into three classes of approximately equal size. The members of each class are elected to serve a three-year term with the term of office of each class ending in successive years. Tom Maniatis, Ph.D., Richard F. Pops, and Joseph S. Zakrzewski are the Class III directors whose terms expire at the Company's 2019 Annual Meeting of stockholders. Each of Dr. Maniatis, Mr. Pops, and Mr. Zakrzewski has been nominated for and has agreed to stand for re-election to the Board of Directors to serve as a Class III director of the Company for three years and until their successors are duly elected and qualified or until their earlier death, resignation or removal.

Our bylaws provide for a majority voting standard for the election of directors in uncontested elections, which provides that to be elected, a director nominee must receive a greater number of votes FOR his or her election than votes AGAINST his or her election. The number of votes cast with respect to that director's election excludes abstentions and broker non-votes with respect to that director's election. In contested elections where the number of director nominees exceeds the number of directors to be elected, the voting standard will be a plurality of the shares present in person or by proxy and entitled to vote.

It is intended that, unless you give contrary instructions, shares represented by proxies will be voted for the election of the three nominees listed above as director nominees. Acceleron has no reason to believe that any nominee will be unable to serve. In the event that one or more nominees is unexpectedly not available to serve, proxies may be voted for another person nominated as a substitute by the Board of Directors, or the Board of Directors may reduce the number of directors to be elected at the Annual Meeting. Information relating to each nominee for election as director and for each continuing director, including his or her period of service as a director of Acceleron, principal occupation and other biographical material is shown earlier in this proxy statement.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE "FOR" EACH OF THESE NOMINEES FOR CLASS III DIRECTOR, AND PROXIES SOLICITED BY THE BOARD WILL BE VOTED IN FAVOR THEREOF UNLESS A STOCKHOLDER HAS INDICATED OTHERWISE ON THE PROXY.

PROPOSAL NO. 2—ADVISORY VOTE ON EXECUTIVE COMPENSATION

We are seeking your advisory vote as required by Section 14A of the Securities Exchange Act of 1934, as amended, on the approval of the compensation of our named executive officers as described in the Compensation Discussion and Analysis, the compensation tables and related material contained in this proxy statement. Because your vote is advisory, it will not be binding on the Compensation Committee or the Board of Directors. However, the Compensation Committee and the Board will review the voting results and take them into consideration when making future decisions regarding executive compensation.

Our compensation philosophy is designed to align each executive's compensation with our short-term and long-term performance and to provide the compensation and incentives needed to attract, motivate and retain key executives who are critical to our long-term success. Consistent with this philosophy, a significant portion of the total compensation opportunity for each of our executives is directly related to performance factors that measure our progress against our strategic, operational and corporate performance goals, as well as our performance against that of our peer companies.

Stockholders are urged to read the Compensation Discussion and Analysis section of this proxy statement, which discusses how our compensation policies and procedures implement our compensation philosophy. The Compensation Committee and the Board of Directors believe that these policies and procedures are effective in implementing our compensation philosophy and in achieving our goals.

For the reasons discussed above, the Board of Directors unanimously recommends that stockholders vote in favor of the following resolution:

“RESOLVED, that the compensation paid to the named executive officers of Acceleron Pharma Inc., as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the compensation tables and the related material disclosed in this proxy statement, is hereby APPROVED.”

Although the say-on-pay vote we are asking you to cast is non-binding, the Board of Directors and Compensation Committee value the views of our stockholders and will consider the outcome of the vote when determining future compensation arrangements for our named executive officers. The resolution will be approved, on an advisory basis, if the votes cast FOR exceed the votes cast AGAINST the proposal. Abstentions and broker non-votes will have no effect on the voting of this proposal. We will hold an advisory vote to approve the compensation of our named executive officers annually until the next vote on the advisory frequency of such advisory votes, which will occur no later than our 2021 Annual Meeting of Stockholders.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE "FOR" APPROVAL, ON AN ADVISORY BASIS, OF THE COMPENSATION PAID TO OUR NAMED EXECUTIVE OFFICERS, AND PROXIES SOLICITED BY THE BOARD WILL BE VOTED IN FAVOR OF SUCH APPROVAL UNLESS A STOCKHOLDER INDICATES OTHERWISE ON THE PROXY.

Table of Contents**PROPOSAL NO. 3—RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

We are asking our stockholders to ratify the Audit Committee's selection of Ernst & Young LLP, or Ernst & Young, as our independent registered public accounting firm for the fiscal year ending December 31, 2019. The Audit Committee is directly responsible for the appointment, compensation, retention and oversight of Ernst & Young, and Ernst & Young has served as our independent registered public accounting firm since 2005.

The Audit Committee annually reviews the independent registered public accounting firm's independence, including reviewing all relationships between the independent registered public accounting firm and us and any disclosed relationships or services that may impact the objectivity and independence of the independent registered public accounting firm, and the independent registered public accounting firm's performance. Although ratification is not required by our bylaws or otherwise, the Board of Directors is submitting the selection of Ernst & Young to our stockholders for ratification as a matter of good corporate practice. If the selection is not ratified, the Audit Committee will consider whether it is appropriate to select another independent registered public accounting firm. Even if the selection is ratified, the Audit Committee in its discretion may select a different registered public accounting firm at any time during the year if the committee determines that such a change would be in the best interests of the Company and our stockholders. To assure continuing auditor independence, the Audit Committee periodically considers whether there should be a regular rotation of our independent external audit firm. In addition, in conjunction with the mandated rotation of Ernst & Young's lead engagement partner, the Audit Committee is directly involved with the selection of Ernst & Young's new lead engagement partner. The Audit Committee believes that the continued retention of Ernst & Young to serve as our independent external auditor is in the best interests of the Company and our stockholders. We expect that a representative of Ernst & Young will attend the Annual Meeting and the representative will have an opportunity to make a statement if he or she so chooses. The representative will also be available to respond to appropriate questions from stockholders.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Registered Public Accounting Firm

The Audit Committee pre-approves all auditing services, internal control related services and permitted non-audit services (including the fees and terms thereof) to be performed by Ernst & Young, subject to the de minimis exception for non-audit services that are approved by the Audit Committee prior to the completion of an audit. The Audit Committee may delegate pre-approval authority to one or more members of the Audit Committee consistent with applicable law and listing standards, provided that the decisions of such Audit Committee member or members must be presented to the full Audit Committee at its next scheduled meeting. The Audit Committee is responsible for the audit fee negotiations associated with our retention of Ernst & Young,

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE "FOR" THE RATIFICATION OF THE SELECTION OF ERNST & YOUNG LLP AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM, AND PROXIES SOLICITED BY THE BOARD WILL BE VOTED IN FAVOR OF SUCH RATIFICATION UNLESS A STOCKHOLDER HAS INDICATED OTHERWISE ON THE PROXY.

SEC rules concerning the delivery of annual disclosure documents allow us or your broker to send a single Notice or, if applicable, a single set of our proxy materials to any household at which two or more of our stockholders reside, if we or your broker believe that the stockholders are members of the same family, unless we have received contrary instructions from one or more of the stockholders. This practice, referred to as "householding," benefits both you and us. It reduces the volume of duplicate information received at your household and helps to reduce our expenses. The rule applies to our Notices, annual reports, proxy statements and information statements.

We will undertake to deliver promptly, upon written or oral request, a separate copy to a stockholder at a shared address to which a single copy of the Notice or proxy materials was delivered. You may make a written or oral request by sending a notification to our Secretary at the address or telephone number above, providing your name, your shared address, and the address to which we should direct the additional copy of the Notice or proxy materials. Multiple stockholders sharing an address who have received one copy of a mailing and would prefer us to mail each stockholder a separate copy of future mailings should contact us at our principal executive offices. Additionally, if current stockholders with a shared address received multiple copies of a mailing and would prefer us to mail one copy of future mailings to stockholders at the shared address, notification of that request may also be made through our principal executive offices. Stockholders who participate in householding will continue to have access to and utilize separate proxy voting instructions.
