Item 2.05 Costs Associated with Exit or Disposal Activities.

General Cable Corporation ("General Cable") issued a press release announcing the closure of two plants in its communications cables business, which is attached as an exhibit and incorporated herein by reference. The Company's commitment on June 15 to the announced plan for the closure of its Bonham, Texas and Dayville, Connecticut plants is based on its evaluation of the need for these facilities in the long-term operation of its business. The Company determined that the efficient utilization of its communications manufacturing assets would be enhanced by closure of the Bonham facility and relocation of production of the Dayville facility to the Company's newly acquired plant in Franklin, Massachusetts. The closure and relocation of these facilities are expected to take place over the next six months.

The total cost of the contemplated closures, which is estimated to be approximately \$30 million, includes approximately \$5.7 million for severance costs, \$17.1 million for asset impairment at the two facilities, and \$7.2 million for other costs related to the closures.

Item 2.06 Material Impairments.

The Company conducted an asset impairment review relating to the actions described in Item 2.05. As a result, General Cable expects to incur \$17.1 million in impairment charges related to assets utilized at the two facilities, none of which are expected to be cash charges.
