**Report of Independent Registered Public Accounting Firm**

To the Trustee and Participants of  
UnitedAuto 401(k) Savings and Retirement Plan

We have audited the accompanying statements of net assets available for benefits of the UnitedAuto 401(k) Savings and Retirement Plan (the Plan ) as of December 31, 2006 and 2005, and the related statement of changes in net assets available for benefits for the year ended December 31, 2006. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006 and 2005 and the changes in net assets available for benefits for the year ended December 31, 2006, in conformity with accounting principles generally accepted in the United States of America. Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2006 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan s management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2006 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

**UnitedAuto 401(k) Savings and Retirement Plan**

**Notes to Financial Statements**

**1. Description of the Plan**

(a) General

The following description of the UnitedAuto 401(k) Savings and Retirement Plan, as amended through December 31, 2006 (the Plan), is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan.

The Plan is a defined contribution savings plan (401(k) plan) covering all eligible employees in the United States of United Auto Group, Inc. (the Company or Plan Sponsor) who elect to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company's Employee Benefits Committee (the Committee) is the designated administrator of the Plan, including having responsibility for reviewing the performance of the Plan's investment alternatives. Administrative expenses of the Plan are generally paid by the Company. For the Plan's mutual fund holdings, certain asset based fees are paid by the Plan. Wachovia Bank N.A. (the Trustee) serves as the trustee of the Plan. Participants with balances from plans merged into the Plan due to acquisitions by the Plan Sponsor may retain certain rights of such merged plans.

On June 1, 2006, the Company effected a two-for-one split of its voting common stock in the form of a stock dividend. All share information related to the United Auto Group Common Stock Fund herein reflects the stock split.

(b) Eligibility

Full-time employees in the United States, or part-time or temporary employees in the United States who are scheduled to complete 1,000 hours of service in a twelve consecutive month period beginning with their date of hire, are eligible to participate in the Plan on the first day of the calendar month following the date he or she has completed sixty days of service.

(c) Participant Accounts

Individual accounts are maintained by the Trustee for each of the Plan's participants. Such accounts include the participant's contributions and related employer matching contributions, including the net investment return on the participant's holdings.

(d) Contributions

Under the provisions of the Plan, participants in the Plan may elect to defer through payroll deductions a portion of their compensation to the Plan in an amount generally from 1% to 20% of gross earnings on a pre-tax basis. Highly compensated employees (HCEs) are limited to deferring up to 7%. Such contributions to the Plan may not exceed Internal Revenue Code 402 (g) limitations (\$15,000 in 2006). The Plan also permits participants who are 50 or older to make additional contributions to the Plan of up to \$5,000 in 2006. A participant's elective contributions and any related Company matching contributions are invested at the direction of the participant. If a participant does not make such an election, he or she is deemed to have elected to invest in the Diversified Stable Value Fund.

The Plan Sponsor provides a discretionary match of 37.5% of the first 4% of eligible salary relating to all contributions by participants (Match Contributions). Match Contributions are invested based on participant investment elections.

**Table of Contents**

Certain HCE s deferred a portion of their compensation in excess of the Plan limit (7% and 6% during 2006 and 2005, respectively). The Plan intends to refund the excess contributions and has recorded a participant refund payable for \$578,258.

(e) Loans to Participants

Participants may borrow from their accounts anywhere from a minimum of \$1,000 up to the lesser of 50% of a defined amount credited to their account or \$50,000. Loan terms range from 1-5 years, or up to 15 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant s account and bear interest at a rate commensurate with prevailing rates. Principal and interest is paid ratably through payroll deductions. Repayment of the entire balance is permitted at any time. Participants are limited to having only one loan outstanding at any point in time, and participants are restricted to initiating only one loan in any consecutive 12 month period.

(f) Vesting

Employee contributions to the Plan vest immediately. Employer matching contributions vest upon the attainment by the participant of three years of credited service.

(g) Investments

Participant investment options consist primarily of common collective trust funds, employer securities, common stock funds and mutual funds. Participants are permitted to change investment options daily.

(h) Payment of Benefits

Upon retirement, death, disability, termination of employment, or attainment of age 59 1/2, the participant or beneficiary may elect to receive a benefit payment in the form of a lump sum distribution. Participants may also make a hardship withdrawal in certain cases of financial need as established by Internal Revenue Service regulations.

(i) Forfeited Accounts

At December 31, 2006 and 2005, amounts determined as forfeited non-vested assets totaled \$105,509 and \$50,447, respectively. These assets will be used to reduce future Matching Contributions. During 2006, Matching Contributions were reduced by \$306,608 from forfeited non-vested assets.

**2. Significant Accounting Policies**

(a) Basis of Accounting

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

(b) Investment Valuation and Income Recognition

Certain funds are divided into units of participation which are calculated daily by the record keeper. The daily value of each unit in a fund is determined by dividing the total fair market value of all assets in the fund by the total number of fund units. Under provisions of the Plan, interest and dividend income and net appreciation or depreciation of the fair value of each investment option are allocated to each Participant s account based on the change in unit value.

**Table of Contents**

Generally, investments are stated at fair value as determined by quoted market prices, except for the Plan's investments in the Diversified Stable Value Fund and Stable Portfolio Group Trust (merged into the Diversified Stable Value Fund on June 23, 2006) which are valued based on the underlying investments in the funds and are stated at fair value and then adjusted to contract value. Both the Diversified Stable Value Fund and Stable Portfolio Group Trusts held synthetic and other fully benefit-responsive guaranteed investment contracts (GICs) which were recorded at contract value. Contract value is principal plus interest less withdrawals. The GICs are recorded at contract value because they guarantee a minimum rate of return and provide for benefit responsiveness. Participant loans are valued at the outstanding loan balances. Purchases and sales of investments are recorded on the trade date. The Plan records dividends on the ex-dividend date.

(c) Payment of Benefits

Benefits are recorded upon distribution. Amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid were approximately \$25,000 and \$400,000 at December 31, 2006 and 2005, respectively.

(d) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(e) Risks and Uncertainties

The Plan provides for various investment options. The underlying investment securities are exposed to various risks, such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk factors in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

(f) New Accounting Pronouncements

The financial statements reflect the retroactive adoption of Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP). While investment contracts held by a defined-contribution plan are required to be reported at fair value, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the investment contracts at fair value and provides the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

**Table of Contents****3. Investments**

Investments that represent 5% or more of the Plan's net assets are summarized as follows:

	<b>December 31,</b>	
	<b>2006</b>	<b>2005</b>
Wachovia Bank, N.A. Diversified Stable Value Fund	\$ 57,673,212	\$ 49,180,772*

Van Kampen Equity and Income Fund	8,719,864	7,860,198
Neuberger & Berman Equity Assets Genesis Assets	8,462,543	8,247,358

\* The Stable Portfolio Group Trust merged into the Diversified Stable Value Fund on June 23, 2006.

\*\* Amount is not 5% or more of the Plan's net assets, however, is displayed for comparative purposes.

During 2006, the Plan's investments (including gains and losses on all investments bought, sold, and held during the year) appreciated in value as follows:

Common collective trusts	\$ 3,030,193
United Auto Common Stock Fund	4,735,782
Mutual funds and common stock funds	3,304,543
Net appreciation of investments	\$ 11,070,518

**4. Non-participant Directed Investments**

In June 2006, the Plan was formally amended to permit participants to invest all Matching Contributions at their discretion. Previously, certain Matching Contributions made to the United Auto Common Stock Fund were non-participant directed. As a result of the June 2006 amendment, participants are permitted to change the investment selection for all prior non-participant directed contributions. The amount of non-participant directed assets at December 31, 2005 was \$1,180,000 which was invested in the United Auto Common Stock Fund.

**5. Net Transfers From Plan**

During 2006, the Company transferred \$51,226 in Plan assets to another plan relating to the accounts of participants that worked at a dealership not controlled by the Plan Sponsor.

**6. Exempt Party-in-Interest Transactions**

As of December 31, 2006 and 2005, the Plan (through the United Auto Common Stock Fund) held 1,255,031 and 915,588 shares, respectively, of United Auto Group, Inc. common stock with a cost basis of \$22,751,597 and \$13,154,029, respectively. Dividends received from the United Auto Group Common Stock Fund were \$328,043 in 2006. The fair value of the United Auto Group Common Stock Fund was \$29,581,081 and \$17,487,463 at December 31, 2006 and 2005, respectively. In addition, certain Plan investments are shares of various funds managed by Wachovia Bank N.A. which is the trustee of the Plan and, therefore, these investments and their related transactions are considered exempt party-in-interest transactions.

**Table of Contents****7. Plan Termination**

Although it has not expressed any intention to do so, the Company retains the right, if necessary, to amend or terminate the Plan. Any such amendment or termination of the Plan would be subject to the provisions of ERISA. In the event of plan termination, participants would receive 100% of their vested account balances.

**8. Federal Income Tax Status**

The Internal Revenue Service has determined and informed the Company by letter dated March 11, 2002 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

**9. Plan Amendment**

During 2006, the Plan was amended and restated to incorporate certain changes into the Plan to (i) provide that union employees of Westbury Toyota shall not receive matching contributions under the Plan; (ii) provide that the pre-tax contribution of HCE's may not exceed 7% of compensation; and (iii) provide the method for income to be allocated to excess contributions distributed to the participant and clarify the method for distributing balances to participants if the plan were terminated.

**10. Reconciliation of Financial Statements to Form 5500**

Total distributions per the Form 5500	\$ 19,132,992

**11. Voluntary Compliance**

In December 2006, the Company completed the process of correcting an operational error pursuant to the Internal Revenue Service's Employee Plans Compliance Resolution System, Rev. Proc. 2003-44, Section 9. The error was caused by a failure to add back IRC Section 125 payroll deductions in determining compensation for purposes of calculating the 4% of compensation limit on match contributions for certain participants. This error resulted in certain employees receiving lower matches than they should have received. The failure was corrected by the Company's contribution of the matches, plus earnings, to each affected participants' account.
