**Applied Digital Reports 2007 Third Quarter Financial Results**

DELRAY BEACH, FL November 7, 2007 Applied Digital Solutions, Inc. (the Company or Applied Digital ) (NASDAQ: ADSX), a leading provider of identification and security technology, today reported financial results for its third quarter ended September 30, 2007. The Company's consolidated financial results include the financial position, operating results and cash flows of its majority-owned subsidiaries, VeriChip Corporation ( VeriChip ) (NASDAQ: CHIP) and Digital Angel Corporation ( Digital Angel ) (AMEX: DOC).

The Company's revenue for the third quarter of 2007 was \$30.2 million, compared with \$20.9 million for the third quarter of 2006. Net loss in the third quarter of 2007 was \$11.3 million, or \$0.16 loss per share, compared to \$3.6 million, or \$0.05 loss per share, in the third quarter of 2006. The net loss included \$7.5 million in charges related to: a non-cash adjustment to goodwill for one of our discontinued companies, a non-recurring litigation settlement charge and reclassification of certain businesses as discontinued operations in anticipation of the merger with Digital Angel.

Digital Angel's revenue increased to \$20.3 million for the 2007 third quarter, compared to \$12.4 million for the 2006 third quarter, reflecting an increase in animal applications and GPS and radio communications revenue. VeriChip's revenue increased to \$7.9 million for the 2007 third quarter, compared to \$6.8 million for the 2006 third quarter, reflecting an increase in sales of VeriChip's infant protection and wander prevention systems. As of September 30, 2007, the Company had cash and equivalents of \$14.4 million compared to \$7.1 million as of December 31, 2006. For the nine months ended September 30, 2007, the Company's revenue increased to \$84.1 million, compared to \$64.7 million in the nine months ended September 30, 2006. For the nine months ended September 30, 2007, the Company's net loss was \$19.2 million, or \$0.28 loss per share, compared to a net loss of \$9.8 million, or \$0.15 loss per share, in the nine months ended September 30, 2006. Again, the net loss included \$7.5 million in charges related to: a non-cash adjustment to goodwill for one of our discontinued companies, a non-recurring litigation settlement charge and reclassification of certain businesses as discontinued operations in anticipation of the merger with Digital Angel. Digital Angel's revenue increased to \$55.2 million for the nine months ended September 30, 2007, compared to \$40.1 million for the nine months ended September 30, 2006, reflecting an increase in animal applications and GPS and radio communications revenue. VeriChip's revenue increased to \$23.5 million for the nine months ended September 30, 2007, compared to \$20.3 million for the nine months ended September 30, 2006, reflecting an increase in sales of VeriChip's infant protection and wander prevention systems.

Applied Digital's Chief Executive Officer Michael Krawitz commented, "Our two largest assets delivered strong results in the quarter, with Digital Angel reporting record total revenue, and VeriChip reporting record sales of its infant protection and wander prevention systems in what is typically a softer quarter. In the third quarter, we made considerable progress toward completing our merger with Digital Angel, which is expected to close in December 2007, and we saw another top-notch performance out of our PDSC division. We continue to believe the merger represents significant value for all stockholders by eliminating duplicative costs in excess of \$2 million per year, sharpening the focus on core businesses and facilitating the divestiture, at appropriate times, of non-strategic assets."

---

The highlights for the 2007 third quarter included:

The Company entered into a merger agreement with Digital Angel whereby Applied Digital will acquire the remaining 44% minority interest it does not currently own in Digital Angel. Digital Angel stockholders other than Applied Digital will receive 1.4 shares of Applied Digital common stock for every share of Digital Angel common stock held.

Digital Angel signed a \$1.5 million contract with the UK Ministry of Defence to supply search and rescue beacon equipment (SARBE). The contract calls for deliveries to start immediately and will run over a maximum 21 months from contract award.

Digital Angel settled its patent infringement litigation against Datamars Inc., Datamars S.A., The Crystal Import Corporation and Medical Management International, Inc.

Digital Angel entered a distribution agreement with Data Lab S.A. of Paraguay for visual and electronic livestock identification tags. The agreement calls for purchase commitments of Digital Angel's products through 2010.

Digital Angel's LifeChip® equine RFID injectable transponder was the first of its kind to be approved by the USDA for use as part of the National Animal Identification System.

Digital Angel received an \$800,000 order for C1 S-VDR (Simplified Voyage Data Recorder) float free capsules for commercial shipping.

VeriChip generated \$53,000 from its implantable segment, the first revenue from that segment since its initial public offering, primarily from sales of its VeriTrace System; the Company also launched its Patient First program, a program under which patients receive the VeriMed® implantable microchip with no up-front cost with a subscription to the VeriMed Patient Registry at a fee of \$9.95 per month.

VeriChip partnered with Independent Dialysis Foundation (IDF) of Maryland to provide IDF's 500 patients access to the VeriMed® implantable microchip over a one-year period.

VeriChip officially launched its VeriMed Patient Identification System project with Alzheimer's Community Care and more than 100 patients and caregivers received the VeriMed® implantable microchip following the launch.

VeriChip and Digital Angel entered into a memorandum of understanding with RECEPTORS LLC, an expert in the field of proteomics and the development of artificial receptors, to develop a prototype renewable glucose sensor to use in conjunction with an implantable bio-sensing RFID microchip to measure glucose levels in the human body.

The number of hospitals registered in the VeriMed Patient Identification System network increased by 9.5% from 640 at the end of the second quarter of 2007 to 701 at the end of the third quarter of 2007. The number of protocol-adopted hospitals increased by 26.6% from 158 at the end of the second quarter of 2007 to 200 at the end of the third quarter of 2007.

*This press release contains certain forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995). Forward-looking statements included in this press release include, without limitation, those concerning expectations for strong revenue growth of our RFID and other businesses, success of the Company's marketing and sales initiative, benefits of the merger, and expected growth in sales, earnings and improvement in gross margins. These forward-looking statements are based on the Company's current expectations and beliefs and are subject to a number of risks, uncertainties and assumptions. Among the important factors that could cause actual results to differ materially from those expressed in, or implied by, the forward-looking statements are our ability to successfully implement our business strategy; uncertainty as to our working capital requirements over the next 12 to 24 months; our ability to successfully integrate the businesses of acquired companies; our ability to maintain compliance with the covenants of our credit facilities; our expectation regarding future profitability and liquidity; competitive and economic influences; market acceptance of the VeriMed system; our ability to provide uninterrupted, secure access to the VeriMed database; the relative maturity in the U.S., and limited size, of the markets for our infant protection and wander prevention systems and vibration monitoring instruments; the degree of success we have in leveraging our brand reputation, reseller network and end-use customer base for our infant protection and wander prevention systems to gain inroads in the emerging market for asset/staff location and identification systems; the rate and extent of the U.S. healthcare industry's adoption of RFID asset/staff location and identification systems; our ability to complete our efforts to integrate our infant protection, wander prevention and asset/staff location and identification systems on one technology platform; our ability to become a major player in the food source traceability and safety arena; our ability to successfully develop survival and emergency radios for the military and commercial uses; our reliance on third-party dealers and distributors to successfully market and sell our products; our ability to defend against costly product liability claims and claims that our products infringe the intellectual property rights of others; our ability to comply with current and future regulations relating to our businesses; the occurrence of any event, change or other circumstance that could give rise to the termination of the merger agreement; our inability to complete the merger due to the failure to obtain the requisite stockholder approval or the failure to satisfy other conditions to the merger; and our ability to maintain proper and effective internal accounting and financial controls. Additional information about these and other factors that could affect the Company's businesses is set forth in the Company's Form 10-K/A under the caption "Risk Factors" filed with the Securities and Exchange Commission (SEC) on April 6, 2007, and subsequent filings with the SEC. The Company undertakes no obligation to update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this statement or to reflect the occurrence of unanticipated events, except as required by law.*

**Important Additional Information and Where to Find It**

*On August 9, 2007, Applied Digital and Digital Angel issued a joint press release announcing the signing of an Agreement and Plan of Reorganization by and among Applied Digital, Digital Angel and Digital Angel Acquisition Corp., a Delaware corporation and wholly-owned subsidiary of Applied Digital (the Acquisition Subsidiary), pursuant to which the Acquisition Subsidiary will be merged with and into Digital Angel, with Digital Angel surviving and becoming a wholly-owned subsidiary of Applied Digital (the Merger). Upon the consummation of the Merger, each outstanding share of Digital Angel's common stock not currently owned by Applied Digital will be converted into 1.4 shares of Applied Digital's common stock.*

*In connection with the Merger, Applied Digital filed with the SEC a Registration Statement on Form S-4 containing a Joint Proxy Statement/Prospectus of Applied Digital and Digital Angel. Investors and security holders are urged to read the Registration Statement and the Joint Proxy Statement/Prospectus carefully because they will contain important information about Applied Digital, Digital Angel and the proposed transaction. The Joint Proxy Statement/Prospectus and other relevant materials (when they become available), and any other documents filed with the SEC, may be obtained free of charge at the SEC's web site ([www.sec.gov](http://www.sec.gov)).
