CASTLE BRANDS INC. AND SUBSIDIARIES

Notes to Unaudited Condensed Consolidated Financial Statements

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements do not include all of the information and footnote disclosures normally included in financial statements prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”) and U.S. generally accepted accounting principles (“GAAP”) and, in the opinion of management, contain all adjustments (which consist of only normal recurring adjustments) necessary for a fair presentation of such financial information. Results of operations for interim periods are not necessarily indicative of those to be achieved for full fiscal years. The condensed consolidated balance sheet as of March 31, 2018 is derived from the March 31, 2018 audited financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with Castle Brands Inc.’s (the “Company”) audited consolidated financial statements for the fiscal year ended March 31, 2018 included in the Company’s annual report on Form 10-K for the year ended March 31, 2018, as amended (“2018 Form 10-K”). Please refer to the notes to the audited consolidated financial statements included in the 2018 Form 10-K for additional disclosures and a description of accounting policies.

Description of business - The consolidated financial statements include the accounts of the Company, its wholly-owned domestic subsidiaries, Castle Brands (USA) Corp. (“CB-USA”) and McLain & Kyne, Ltd., the Company’s wholly-owned foreign subsidiaries, Castle Brands Spirits Group Limited and Castle Brands Spirits A. Marketing and Sales Company Limited, and the Company’s 80.1% ownership interest in Gosling-Castle Partners Inc. (“GCP”), with adjustments for income or loss allocated based upon percentage of ownership. The accounts of the subsidiaries have been included as of the date of acquisition. All significant intercompany transactions and balances have been eliminated.

Liquidity - In November 2018, the Company extended the term of the loan and security agreement (as amended and restated) to July 31, 2020 (as described in Note 7C). The Company believes that its current cash and working capital and the availability under the Credit Facility (as defined in Note 7C) will enable it to fund its obligations, meet its working capital needs, maturing debt obligations and whiskey purchase commitments until it achieves profitability, ensure continuity of supply of its brands and support new brand initiatives and marketing programs through at least November 2019. The Company can continue to meet its operating needs through additional mechanisms including additional or expanded debt financings, potential equity offerings and limiting or adjusting the timing of additional inventory purchases based on available resources.

Organization and operations - The Company is principally engaged in the importation, marketing and sale of premium and super premium rums, whiskeys, liqueurs, vodka and related non-alcoholic beverage products,

including ginger beer, in the United States, Canada, Europe and Asia.

Revenues - The Company operates in one reportable segment and derives substantially all of its revenue from the sale and delivery of premium beverage alcohol and related non-beverage alcohol products. In the U.S., the Company is required by law to use state-licensed distributors or, in the control states, state-owned agencies performing this function, to sell its brands to retail outlets. In its international markets, the Company relies primarily on established spirits distributors in much the same way as in the U.S. Revenue from product sales is recognized when the product is shipped to a customer (generally a distributor) and title and risk of loss has passed to the customer in accordance with the terms of sale and collection is reasonably assured. Revenue is not recognized on shipments to control states in the United States until such time as product is sold through to the retail channel.

The Company does not ship product unless it has received an order or other documentation authorizing delivery to its customers. Revenue is measured as the amount of consideration the Company expects to receive in exchange for transferring goods. The Company generally does not provide post-delivery services and does not offer a right-of-return except in the case of an error. Uncollectable accounts receivable are estimated by using a combination of historical customer experience and a customer-by-customer analysis. The Company's payment terms vary by customer and, in certain cases, the products offered. The term between invoicing and when payment is due is not significant. As permitted under U.S. GAAP, the Company has elected not to assess whether a contract has a significant financing component if the expectation at contract inception is such that the period between payment by the customer and the transfer of the promised goods to the customer will be one year or less. As permitted under U.S. GAAP, the Company has elected to recognize the incremental costs of obtaining a contract as an expense when incurred as the amortization period of the asset that the Company otherwise would have recognized will be one year or less. As permitted under U.S. GAAP, the Company has elected to exclude from the measurement of the transaction price all taxes assessed by a governmental authority that are both imposed on and concurrent with a specific revenue-producing transaction and collected by the Company from a customer, i.e excise taxes (see note 1H). As permitted under U.S. GAAP, the Company has elected to account for any shipping and handling activities that occur after a customer obtains control of any goods as activities to fulfill the promise to transfer the goods, and the Company is not required to evaluate whether such shipping and handling activities are promised services to its customers.

See Note 13 for disaggregation of revenue by segment and product as the Company believes this best depicts how the nature, amount, timing and uncertainty of its revenues and cash flows are affected by economic factors.

The Company does not have any customer contracts that meet the definition of unsatisfied performance obligations in accordance with U.S. GAAP.

Equity investments - Equity investments are carried at original cost adjusted for the Company's proportionate share of the investees' income, losses and distributions. The Company assesses the carrying value of its equity investments when an indicator of a loss in value is present and records a loss in value of the investment when the assessment indicates that an other-than-temporary decline in the investment exists. The Company classifies its equity earnings of equity investments as a component of net income or loss.

Goodwill and other intangible assets - Goodwill represents the excess of purchase price including related costs over the value assigned to the net tangible and identifiable intangible assets of businesses acquired. Goodwill and other identifiable intangible assets with indefinite lives are not amortized, but instead are tested for impairment annually, or more frequently if circumstances indicate a possible impairment may exist. Intangible assets with estimable useful lives are amortized over their respective estimated useful lives, generally on a straight-line basis, and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable.

Impairment of long-lived assets - Under Accounting Standards Codification ("ASC") 310, "Accounting for the Impairment or Disposal of Long-lived Assets", the Company periodically reviews whether changes have occurred that would require revisions to the carrying amounts of its definite lived, long-lived assets. When the sum of the expected future cash flows is less than the carrying amount of the asset, an impairment loss is recognized based on the fair value of the asset.

Excise taxes and duty - Excise taxes and duty are computed at standard rates based on alcohol proof per gallon/liter and are paid after finished goods are imported into the United States or other relevant jurisdiction and then transferred out of "bond." Excise taxes and duty are recorded to inventory as a component of the cost of the underlying finished goods. When the underlying products are sold "ex warehouse", the sales price reflects the taxes paid and the inventoried excise taxes and duties are charged to cost of sales.

Foreign currency - The functional currency for the Company's foreign operations is the Euro in Ireland and the British Pound in the United Kingdom. Under ASC 830, "Foreign Currency Matters", the translation from the applicable foreign currencies to U.S. Dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. The resulting translation adjustments are recorded as a component of other comprehensive income. Gains or losses resulting from foreign currency transactions are shown as a separate line item in the consolidated statements of operations.

CASTLE BRANDS INC. AND SUBSIDIARIES

Notes to Unaudited Condensed Consolidated Financial Statements - Continued

Fair value of financial instruments - ASC 825, “Financial Instruments”, defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties and requires disclosure of the fair value of certain financial instruments. The Company believes that there is no material difference between the fair-value and the reported amounts of financial instruments in the Company’s balance sheets due to the short-term maturity of these instruments, or with respect to the Company’s debt, as compared to the current borrowing rates available to the Company.

The Company’s investments are reported at fair value in accordance with authoritative guidance, which accomplishes the following key objectives:

- Defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date;
- Establishes a three-level hierarchy (“valuation hierarchy”) for fair value measurements;
- Requires consideration of the Company’s creditworthiness when valuing liabilities; and
- Expands disclosures about instruments measured at fair value.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument’s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the valuation hierarchy are as follows:

Level 1 - inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are directly or indirectly observable for the asset or liability for substantially the full term of the financial instrument.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

K. Income taxes - In December 2017, the Tax Cuts and Jobs Act (the “2017 Tax Act”) was enacted. The 2017 Tax Act includes a number of changes to existing U.S. tax laws that impact the Company, most notably a reduction of the U.S. corporate income tax rate from 35 percent to 21 percent for tax years beginning after December 31, 2017. The Company recognized the income tax effects of the 2017 Tax Act in its current financial statements in accordance with Staff Accounting Bulletin No. 118, which provides SEC staff guidance for the application of ASC Topic 740,

“Income Taxes”, (“ASC 740”) in the reporting period in which the 2017 Tax Act was signed into law. As such, the Company’s financial results reflect the income tax effects of the 2017 Tax Act for which the accounting under ASC 740 is complete. The Company did not identify items for which the income tax effects of the 2017 Tax Act have not been completed and a reasonable estimate could not be determined as of September 30, 2018.

The 2017 Tax Act reduced the U.S. federal corporate tax rate from 35.0% to 21.0% for all corporations effective January 1, 2018. For fiscal year companies, the change in law requires the application of a blended rate for each quarter of the fiscal year, which in the Company’s case is 30.79% for the fiscal year ended March 31, 2018. Thereafter, the applicable statutory rate is 21.0%.

Under ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. A valuation allowance is provided to the extent a deferred tax asset is not considered recoverable.

The Company has adopted the provisions of ASC 740 and at each of September 30 and March 31, 2018, the Company had reserves for uncertain tax positions (including related interest and penalties) for various state and local taxes of \$6,778. The Company recognizes interest and penalties related to uncertain tax positions in general and administrative expense.

L. Recent accounting pronouncements – In August 2018, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2018-13, “Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement.” This ASU adds, modifies and removes several disclosure requirements relative to the three levels of inputs used to measure fair value in accordance with Topic 820, “Fair Value Measurement.” This guidance is effective for the Company as of April 1, 2020, with early adoption permitted. The Company is currently evaluating the new guidance to determine the impact the adoption of this guidance will have on the Company’s results of operations, cash flows and financial condition.

In July 2018, the FASB issued ASU 2018-09, “Codification Improvements.” This ASU makes amendments to multiple codification Topics. The transition and effective date guidance is based on the facts and circumstances of each amendment. Some of the amendments in this ASU do not require transition guidance and will be effective upon issuance of this ASU. However, many of the amendments in this ASU do have transition guidance with effective dates for annual periods beginning after December 15, 2018. The Company is currently evaluating the new guidance to determine the impact the adoption of this guidance will have on the Company’s results of operations, cash flows and financial condition.

In June 2018, the FASB issued ASU 2018-07, “Compensation – Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting.” This ASU expands the scope of Topic 718 to include share-based payment transactions for acquiring goods and services from nonemployees. This ASU also clarifies that Topic 718 does not apply to share-based payments used to effectively provide (1) financing to the issuer or (2) awards granted in conjunction with selling goods or services to customers as part of a contract accounted for under Revenue from Contracts with Customers (Topic 606). This guidance is effective for the Company as of April 1, 2019, with early adoption permitted. The Company is currently evaluating the new guidance to determine the impact the adoption of this guidance will have on the Company’s results of operations, cash flows and financial condition.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. This ASU amends the requirement on the measurement and recognition of expected credit losses for financial assets held. The ASU is effective for annual periods beginning after December 15, 2019 and interim periods within those annual periods. Early adoption is permitted, but not earlier than annual and interim periods beginning after December 15, 2018. This amendment should be applied on a modified retrospective basis with a cumulative effect adjustment to retained earnings as of the beginning of the period of adoption. The Company is currently evaluating the new guidance to determine the impact the adoption of this guidance will have on the Company’s results of operations, cash flows and financial condition

In February 2016, the FASB issued ASU 2016-02, Leases (“ASU 2016-02”), which provides guidance for accounting for leases. ASU 2016-02 requires lessees to classify leases as either finance or operating leases and to record a right-of-use asset and a lease liability for all leases with a term greater than 12 months regardless of the lease classification. The lease classification will determine whether the lease expense is recognized based on an effective interest rate method or on a straight line basis over the term of the lease. For leases with a term of 12 months or less for which there is not an option to purchase the underlying asset that the lessee is reasonably certain to exercise, a

lessee is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities and should recognize lease expense for such leases generally on a straight-line basis over the lease term. Certain qualitative disclosures along with specific quantitative disclosures will be required so that users are able to understand more about the nature of an entity's leasing activities. Accounting for lessors remains largely unchanged from current U.S. GAAP. In July 2018, the FASB issued ASU 2018-10, Codification Improvements to Topic 842, Leases and ASU 2018-11 "Leases (Topic 842): Targeted Improvements" (ASU 2018-11). ASU 2018-10 clarifies certain areas within ASU 2016-02. Prior to ASU 2018-11, a modified retrospective transition was required for financing or operating leases existing at or entered into after the beginning of the earliest comparative period presented in the financial statements. ASU 2018-11 allows entities an additional transition method to the existing requirements whereby an entity could adopt the provisions of ASU 2016-02 by recognizing a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption without adjustment to the financial statements for periods prior to adoption. ASU 2018-11 also allows a practical expedient that permits lessors to not separate non-lease components from the associated lease component if certain conditions are present. An entity that elects to use the practical expedients will, in effect, continue to account for leases that commenced before the effective date in accordance with previous GAAP unless the lease is modified, except that lessees are required to recognize a right-of-use asset and a lease liability for all operating leases at each reporting date based on the present value of the remaining minimum rental payments that were tracked and disclosed under previous GAAP. ASU 2016-02, ASU 2018-10 and ASU 2018-11 will be effective for the Company's fiscal year beginning April 1, 2019 and subsequent interim periods. The Company's current lease arrangements expire through 2021 and the Company is currently evaluating the impact the adoption of these ASUs will have on the Company's condensed consolidated financial statements.

The Company does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the accompanying condensed consolidated financial statements.

Accounting standards adopted - In February 2018, FASB issued ASU No. 2018-02, Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income ("ASU 2018-02"), which allows for stranded tax effects in accumulated other comprehensive income resulting from the 2017 Tax Act to be reclassified to retained earnings. This guidance became effective for the Company as of April 1, 2018. The Company determined that the adoption of this guidance did not have a material effect on the Company's results of operations, cash flows and financial condition.

CASTLE BRANDS INC. AND SUBSIDIARIES

Notes to Unaudited Condensed Consolidated Financial Statements - Continued

In May 2017, the FASB issued ASU 2017-09, “Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting.” ASU 2017-09 provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting. This guidance became effective for the Company as of April 1, 2018. The Company determined that the adoption of this guidance did not have a material effect on the Company’s results of operations, cash flows and financial condition.

In February 2017, the FASB issued ASU 2017-05, “Other Income - Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets.” ASU 2017-05 clarifies the scope and accounting of a financial asset that meets the definition of an “in-substance nonfinancial asset” and defines the term “in-substance nonfinancial asset.” ASU 2017-05 also adds guidance for partial sales of nonfinancial assets. This guidance became effective for the Company as of April 1, 2018. The Company determined that the adoption of this guidance did not have a material effect on the Company’s results of operations, cash flows and financial condition.

In January 2017, the FASB issued ASU No. 2017-01, “Business Combinations (Topic 805): Clarifying the Definition of a Business.” This ASU, which must be applied prospectively, provides a narrower framework to be used to determine if a set of assets and activities constitutes a business than under current guidance and is generally expected to result in greater consistency in the application of ASC Topic 805, Business Combinations. This guidance became effective for the Company as of April 1, 2018. The Company determined that the adoption of this guidance did not have a material effect on the Company’s results of operations, cash flows and financial condition.

In November 2016, the FASB issued ASU No. 2016-18, “Statement of Cash Flows (Topic 230): Restricted Cash, a consensus of the FASB’s Emerging Issues Task Force (the “Task Force”).” The new standard requires that the statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Entities will also be required to reconcile such total to amounts on the balance sheet and disclose the nature of the restrictions. The Company adopted the new standard on April 1, 2018 using a retrospective adoption method, which resulted in an adjustment to “Cash and cash equivalents including restricted cash” on the accompanying condensed consolidated statement of cashflows. The Company determined that the adoption of this guidance did not have a material effect on the Company’s results of operations, cash flows and financial condition.

In October 2016, the FASB issued ASU 2016-16, “Income Taxes: Intra-Entity Transfers of Assets Other than Inventory.” This ASU removes the prohibition against the immediate recognition of the current and deferred income tax effects of intra-entity transfers of assets other than inventory. This guidance became effective for the Company as of April 1, 2018. Entities must apply a modified retrospective basis through a cumulative-effect adjustment to retained earnings as of the beginning of the period of adoption. The Company determined that the adoption of this guidance did not have a material effect on the Company’s results of operations, cash flows and financial condition.

In August 2016, the FASB issued ASU No. 2016-15, “Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments”, which provides guidance on eight cash flow classification issues with the objective of reducing differences in practice. The new standard became effective for the Company as of April 1, 2018. Adoption is required to be on a retrospective basis, unless impracticable for any of the amendments, in which case a

prospective application is permitted. The Company determined that the adoption of this guidance did not have a material effect on the Company's results of operations, cash flows and financial condition.

In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net) ("ASU 2016-08"). ASU 2016-08 does not change the core principle of the guidance stated in ASU 2014-09, Revenue from Contracts with Customers (Topic 606), ("ASU 2014-9"), instead, the amendments in this ASU are intended to improve the operability and understandability of the implementation guidance on principal versus agent considerations and whether an entity reports revenue on a gross or net basis. ASU 2016-08 will have the same effective date and transition requirements as the new standard issued in ASU 2014-09. In May 2014, the FASB issued ASU 2014-09. The new standard outlines a new, single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The new standard contains principles to determine the measurement of revenue and timing of when it is recognized. The guidance provides a five-step analysis of transactions to determine when and how revenue is recognized. Under the new model, recognition of revenue occurs when a customer obtains control of promised goods or services in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In addition, the new standard requires that reporting companies disclose the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The Company adopted the new standard on April 1, 2018 by applying the modified retrospective method, which did not result in a transition adjustment nor an adjustment to opening retained earnings. The Company determined that the adoption of this guidance did not have a material effect on the Company's results of operations, cash flows and financial condition.

In January 2016, the FASB issued ASU 2016-01, "Financial Instruments-Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities", which amends the guidance in U.S. GAAP on the classification and measurement of financial instruments. Changes to the current guidance primarily affect the accounting for equity investments, financial liabilities under the fair value option, and the presentation and disclosure requirements for financial instruments. Also, the ASU clarifies guidance related to the valuation allowance assessment when recognizing deferred tax assets resulting from unrealized losses on available-for-sale debt securities. The Company adopted the new standard on April 1, 2018, which did not result in a cumulative-effect adjustment to the balance sheet. The Company determined that the adoption of this guidance did not have a material effect on the Company's results of operations, cash flows and financial condition.

CASTLE BRANDS INC. AND SUBSIDIARIES**Notes to Unaudited Condensed Consolidated Financial Statements - Continued****NOTE 2 - BASIC AND DILUTED NET LOSS PER COMMON SHARE**

Basic net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding during the period. Diluted net loss per common share is computed giving effect to all potentially dilutive common shares that were outstanding during the period that are not anti-dilutive. Potentially dilutive common shares consist of incremental shares issuable upon exercise of stock options, vesting of restricted shares or conversion of convertible notes outstanding. In computing diluted net income per share for the three months ended September 30, 2018 and 2017, no adjustment has been made to the weighted average outstanding common shares for the assumed exercise of stock options, vesting of restricted shares or conversion of convertible notes as the assumed exercise, vesting or conversion of these securities is anti-dilutive.

Potential common shares not included in calculating diluted net loss per share are as follows:

	Three months ended September 30,	
	2018	2017
Stock options	14,171,442	15,523,008
Unvested restricted stock	1,997,750	1,092,000
5% Convertible notes	55,556	1,833,333
Total	16,224,748	18,448,341

NOTE 3 - INVENTORIES

	September 30, 2018	March 31, 2018
Raw materials	\$25,080,981	\$21,015,172
Finished goods – net	15,523,821	13,540,381
Total	\$40,604,712	\$34,555,553

As of September 30 and March 31, 2018, 6% and 9%, respectively, of raw materials and 6% and 3%, respectively, of finished goods were located outside of the United States.

In the six months ended September 30, 2018, the Company acquired \$7,490,366 of bulk bourbon whiskey in support of its anticipated near and mid-term needs.

The Company estimates the allowance for obsolete and slow-moving inventory based on analyses and assumptions including, but not limited to, historical usage, expected future demand and market requirements.

Inventories are stated at the lower of weighted average cost or net realizable value.

NOTE 4 - EQUITY INVESTMENT

Investment in Gosling-Castle Partners Inc., consolidated

In March 2017, the Company acquired an additional 201,000 shares (the “GCP Share Acquisition”) of the common stock of GCP, representing a 20.1% equity interest in GCP. GCP is a strategic global export venture between the Company and the Gosling family. As a result of the completion of the GCP Share Acquisition, the Company’s total equity interest in GCP increased to 80.1%. The consideration for the GCP Share Acquisition was (i) \$20,000,000 in cash and (ii) 1,800,000 shares of common stock of the Company. The Company accounted for this transaction in accordance with ASC 810 “Consolidation,” and in particular section 810-10-45.

For the three months ended September 30, 2018 and 2017, GCP had pretax net income on a stand-alone basis of \$1,415,600 and \$1,425,534, respectively. The Company allocated a portion of this net income, or \$281,704 and \$283,681, to non-controlling interest for the three months ended September 30, 2018 and 2017, respectively. For the six months ended September 30, 2018 and 2017, GCP had pretax net income on a stand-alone basis of \$3,341,936 and \$1,851,541, respectively. The Company allocated a portion of this net income, or \$665,045 and \$368,457, to non-controlling interest for the three months ended September 30, 2018 and 2017, respectively. The cumulative balance allocated to noncontrolling interests in GCP was \$4,166,789 and \$3,568,636 at September 30 and March 31, 2018, respectively, as shown on the accompanying condensed consolidated balance sheets.

CASTLE BRANDS INC. AND SUBSIDIARIES**Notes to Unaudited Condensed Consolidated Financial Statements - Continued**Investment in Copperhead Distillery Company, equity method

In June 2015, CB-USA purchased 20% of Copperhead Distillery Company (“Copperhead”) for \$500,000. Copperhead owns and operates the Kentucky Artisan Distillery. The investment was part of an agreement to build a new warehouse in Crestwood, Kentucky to store Jefferson’s bourbons, provide distilling capabilities using special mash-bills made from locally grown grains and create a visitor center and store to enhance the consumer experience for the Jefferson’s brand. In September 2017, CB-USA purchased an additional 5% of Copperhead for \$156,000 from an existing shareholder. The Company has accounted for this investment under the equity method of accounting. For the three months ended September 30, 2018 and 2017, the Company recognized \$55,113 and \$29,846 of income from this investment, respectively. For the six months ended September 30, 2018 and 2017, the Company recognized \$89,141 and \$71,595 of income from this investment, respectively. The investment balance was \$903,067 and \$813,926 at September 30 and March 31, 2018, respectively.

NOTE 6 - RESTRICTED CASH

At September 30 and March 31, 2018, the Company had €310,334 or \$360,025 (translated at the September 30, 2018 exchange rate) and €310,324 or \$382,279 (translated at the March 31, 2018 exchange rate), respectively, of cash restricted from withdrawal and held by a bank in Ireland as collateral for overdraft coverage, creditors' insurance, customs and excise guaranty and a revolving credit facility as described in Note 7A below.

CASTLE BRANDS INC. AND SUBSIDIARIES**Notes to Unaudited Condensed Consolidated Financial Statements - Continued****NOTE 7 - NOTES PAYABLE**

	September 30, 2018	March 31, 2018
Notes payable consist of the following:		
Foreign revolving credit facilities (A)	\$77,154	\$126,148
Note payable - GCP note (B)	216,869	211,580
Credit facility (C)	22,182,692	18,505,897
5% Convertible notes (D)	50,000	50,000
11% Subordinated Note (E)	20,000,000	20,000,000
 Total	 \$42,599,085	 \$38,893,625

The Company has arranged various credit facilities aggregating €310,334 or \$360,025 (translated at the September 30, 2018 exchange rate) and €310,324 or \$382,279 (translated at the March 31, 2018 exchange rate) at September 30 and March 31, 2018, respectively, with an Irish bank, including overdraft coverage, creditors' insurance, customs and excise guaranty, a revolving credit facility and Company credit cards. These credit facilities are payable on demand, continue until terminated by either party, are subject to annual review, and call for interest at the lender's AA1 Rate minus 1.70%. At September 30 and March 31, 2018, there was €66,505 or \$77,154 (translated at the September 30, 2018 exchange rate) and €102,404 or \$126,148 (translated at the March 31, 2018 exchange rate) of principal due on the foreign revolving credit facilities included in current maturities of notes payable, respectively.

In December 2009, GCP issued a promissory note (the "GCP Note") in the aggregate principal amount of \$211,580 to Gosling's Export (Bermuda) Limited in exchange for credits issued on certain inventory purchases. The GCP Note matures on April 1, 2020, is payable at maturity, subject to certain acceleration events, and calls for annual interest of 5%, to be accrued and paid at maturity. At March 31, 2018, \$10,579 of accrued interest was converted to amounts due to affiliates. At September 30, 2018, \$216,869, consisting of \$211,580 of principal and \$5,289 of accrued interest, due on the GCP Note is included in long-term liabilities. At March 31, 2018, \$211,580 of principal due on the GCP Note is included in long-term liabilities.

In August 2011, the Company and CB-USA entered into a loan and security agreement (as amended and restated, and further amended, the "Amended Agreement") with a third-party lender ACF FinCo I LP ("ACF,") as successor in interest, which, as amended, provided for availability (subject to certain terms and conditions) of a facility of up to \$21.0 million (the "Credit Facility") for the purpose of providing the Company with working capital, including a sublimit in the maximum principal amount of \$7,000,000 to permit the Company to acquire aged whiskey inventory (the "Purchased Inventory Sublimit") subject to certain conditions set forth in the Amended Agreement. The Company and CB-USA are referred to individually and collectively as the Borrower. Pursuant to the Loan Agreement Amendment, the Company and CB-USA may borrow up to the lesser of (x) \$21,000,000 and (y) the sum of the borrowing base calculated in accordance with the Amended Agreement and the Purchased Inventory

Sublimit.

In May 2018, the Company and CB-USA entered into a Fourth Amendment (the “Fourth Amendment”) to the Amended Agreement to amend certain terms of the Credit Facility. Among other changes, the Fourth Amendment increased the maximum amount of the Credit Facility from \$21,000,000 to \$23,000,000, and amended the definition of borrowing base to increase the amount of borrowing that can be collateralized by inventory.

The Credit Facility interest rate is the rate that, when annualized, is the greatest of (a) the Prime Rate plus 3.00%, (b) the LIBOR Rate plus 5.50% and (c) 6.00%. As of September 30, 2018, the Credit Facility interest rate was 7.75%.

The Purchased Inventory Sublimit interest rate is the rate that, when annualized, is the greatest of (a) the Prime Rate plus 4.25%, (b) the LIBOR Rate plus 6.75% and (c) 7.50%. As of September 30, 2018, the interest rate applicable to the Purchased Inventory Sublimit was 9.5%. The monthly facility fee is 0.75% per annum of the maximum Credit Facility. Also, the Company must pay a monthly facility fee of \$2,000 with respect to the Purchased Inventory Sublimit until all obligations with respect thereof are fully paid and performed.

CASTLE BRANDS INC. AND SUBSIDIARIES**Notes to Unaudited Condensed Consolidated Financial Statements - Continued**

The Amended Agreement contains EBITDA targets allowing for further interest rate reductions in the future. The Company and CB-USA are permitted to prepay the Credit Facility in whole or the Purchased Inventory Sublimit, in whole or in part, subject to certain prepayment penalties as set forth in the Loan Agreement Amendment. For the six months ended September 30, 2018, the Company paid interest at 7.31175% through April 30, 2018, then 7.35805% through May 31, 2018, then 7.30031% through June 30, 2018, then 7.5% through September 27, 2018, then 7.75% through September 30, 2018 on the Amended Agreement. For the six months ended September 30, 2017, the Company paid interest at 6.5% through June 14, 2017, then 6.75% through September 30, 2017 on the Amended Agreement. For the six months ended September 30, 2018, the Company paid interest at 9.06175% through April 30, 2018, then 9.10805% through May 31, 2018, then 9.05031% through June 30, 2018, then 9.25% through September 27, 2018, then 9.5% through September 30, 2018 on the Purchased Inventory Sublimit. For the six months ended September 30, 2017, the Company paid interest at 8.25% through June 14, 2017, and then at 8.5% through September 30, 2017 on the Purchased Inventory Sublimit. Interest is payable monthly in arrears, on the first day of every month on the average daily unpaid principal amount of the Credit Facility. After the occurrence and during the continuance of any “Default” or “Event of Default” (as defined under the Amended Agreement), the Borrower is required to pay interest at a rate that is 3.25% per annum above the then applicable Credit Facility interest rate. There have been no Events of Default under the Credit Facility. ACF also receives a collateral management fee of \$1,000 per month (increased to \$2,000 after the occurrence of and during the continuance of an Event of Default) in addition to the facility fee with respect to the Purchased Inventory Sublimit. The Amended Agreement contains standard borrower representations and warranties for asset-based borrowing and a number of reporting obligations and affirmative and negative covenants. The Amended Agreement includes negative covenants that, among other things, restrict the Borrower’s ability to create additional indebtedness, dispose of properties, incur liens and make distributions or cash dividends. The obligations of the Borrower under the Amended Amendment are secured by the grant of a pledge and security interest in all of the assets of the Borrower. At September 30, 2018, the Company was in compliance, in all respects, with the covenants under the Amended Agreement. The Credit Facility matures on July 31, 2020.

ACF required as a condition to entering into an amendment to the Amended Agreement in August 2015 that ACF enter into a participation agreement with certain related parties of the Company, including Frost Gamma Investments Trust, an entity affiliated with Phillip Frost, M.D., a director and principal shareholder of the Company, Mark E. Andrews, III, a director of the Company and the Company’s Chairman, Richard J. Lampen, a director of the Company and the Company’s President and Chief Executive Officer, Brian L. Heller, the Company’s General Counsel and Assistant Secretary, and Alfred J. Small, the Company’s Senior Vice President, Chief Financial Officer, Treasurer and Secretary, to allow for the sale of participation interests in the Purchased Inventory Sublimit and the inventory purchased with the proceeds thereof. The participation agreement provides that ACF’s commitment to fund each advance of the Purchased Inventory Sublimit shall be limited to seventy percent (70%), up to an aggregate maximum principal amount for all advances equal to \$4,900,000. Neither the Company nor CB-USA is a party to the participation agreement. However, the Company and CB-USA are party to a fee letter with the junior participants (including the related party junior participants) pursuant to which the Company and CB-USA were obligated to pay the junior participants a closing fee of \$18,000 on the effective date of the Loan Agreement Amendment and are obligated to pay a commitment fee of \$18,000 on each anniversary of the effective date until the junior participants’ obligations are terminated pursuant to the participation agreement.

In August 2015, the Company used \$3,000,000 of the Purchased Inventory Sublimit to acquire aged bourbon inventory. Frost Gamma Investments Trust (\$150,000), Mark E. Andrews, III (\$50,000), Richard J. Lampen (\$100,000), Brian L. Heller (\$42,500) and Alfred J. Small (\$15,000) each acquired participation interests in the Purchased Inventory Sublimit and the inventory purchased with the proceeds thereof. In January 2017, the Company acquired \$1,030,000 in aged bulk bourbon under the Purchased Inventory Sublimit with additional borrowings from certain related parties of the Company, including Frost Gamma Investments Trust (\$51,500), Richard J. Lampen (\$34,333), Mark E. Andrews, III (\$17,167), Brian L. Heller (\$14,592), and Alfred J. The Company and CB-USA paid ACF an aggregate \$57,500 commitment fee in connection with the Amendment.

CASTLE BRANDS INC. AND SUBSIDIARIES

Notes to Unaudited Condensed Consolidated Financial Statements - Continued

D. In October 2013, the Company entered into a 5% Convertible Subordinated Note Purchase Agreement (the "Note Purchase Agreement") with the purchasers party thereto, under which the Company issued an aggregate initial principal amount of \$2,125,000 of unsecured subordinated notes (the "Convertible Notes"). The Convertible Notes bear interest at a rate of 5% per annum, payable quarterly, until their maturity date of December 15, 2018. The Convertible Notes, and accrued but unpaid interest thereon, are convertible in whole or in part from time to time at the option of the holders thereof into shares of the Company's common stock at a conversion price of \$0.90 per share (the "Conversion Price"). The Convertible Notes may be prepaid in whole or in part at any time without penalty or premium, but with payment of accrued interest to the date of prepayment. The Convertible Notes contain customary events of default, which, if uncured, entitle each note holder to accelerate the due date of the unpaid principal amount of, and all accrued and unpaid interest on, the Convertible Notes.

The purchasers of the Convertible Notes included related parties of the Company, including an affiliate of Dr. Phillip Frost (\$500,000), Mark E. Andrews, III (\$50,000), an affiliate of Richard J. Lampen (\$50,000), an affiliate of Glenn Halpryn (\$200,000), Dennis Scholl (\$100,000), and Vector Group Ltd., a more than 5% shareholder of ours, of which Richard Lampen is an executive officer, Henry Beinstein, a director of ours, is a director and Phillip Frost, M.D. is a principal shareholder (\$200,000).

The Company may forcibly convert all or any part of the Convertible Notes and all accrued but unpaid interest thereon if (i) the average daily volume of the Company's common stock (as reported on the principal market or exchange on which the common stock is listed or quoted for trading) exceeds \$50,000 per trading day and (ii) the volume weighted average price of the common stock for at least twenty (20) trading days during any thirty (30) consecutive trading day period exceeds 250% of the then-current Conversion Price. Any forced conversion will be applied ratably to the holders of all Convertible Notes issued pursuant to the Note Purchase Agreement based on each holder's then-current note holdings.

In connection with the Note Purchase Agreement, each purchaser of the Convertible Notes was required to execute a joinder to the subordination agreement, by and among ACF and certain other junior lenders to the Company; the Company is not a party to the subordination agreement.

During the year ended March 31, 2018, certain holders of the Convertible Notes converted an aggregate \$1,632,000 of the outstanding principal and interest balances of their Convertible Notes into 1,813,334 shares of the Company's common stock, pursuant to the terms of the Convertible Notes. The converting holders included an affiliate of Dr. Phillip Frost, Mark E. Andrews, III an affiliate of Richard J. Lampen, and Vector Group Ltd.

At each of September 30 and March 31, 2018, \$50,000 of principal due on the Convertible Notes was included in current maturities of notes payable.

In March 2017, the Company issued a promissory note to Frost Nevada Investments Trust (the “Holder”), an entity affiliated with Phillip Frost, M.D., in the aggregate principal amount of \$20,000,000 (the “Subordinated Note”). The purpose of Company’s issuance of the Subordinated Note was to finance the GCP Share Acquisition. The Subordinated Note bears interest quarterly at the rate of 11% per annum. All claims of the Holder to principal, interest and any other amounts owed under the Subordinated Note are subordinated in right of payment to all indebtedness of the Company existing as of the date of the Subordinated Note. The Subordinated Note contains E. customary events of default and may be prepaid by the Company, in whole or in part, without penalty, at any time.

In April 2018, the Company entered into a First Amendment to the Subordinated Note to extend the maturity date on the Subordinated Note from March 15, 2019 until September 15, 2020. No other provisions of the Subordinated Note were amended.

NOTE 8 - EQUITY

Restricted Share Grants - In April 2018, the Company’s Compensation Committee approved the grant of 1,100,000 restricted common shares to certain directors, officers, employees and related parties. The restricted shares vest in four equal annual installments.

NOTE 9 - FOREIGN CURRENCY FORWARD CONTRACTS

The Company enters into forward contracts from time to time to reduce its exposure to foreign currency fluctuations. The Company recognizes in the balance sheet derivative contracts at fair value, and reflects any net gains and losses currently in earnings. At September 30 and March 31, 2018, the Company had no forward contracts outstanding.

NOTE 10 - STOCK-BASED COMPENSATION

In April 2018, the Company granted to employees, directors and certain consultants an aggregate of 1,100,000 restricted shares of the Company's common stock under the Company's 2013 Incentive Compensation Plan. The restricted shares vest 25% on each of the first four anniversaries of the grant date, subject to earlier vesting in certain circumstances. The Company has valued the shares at \$1,342,000.

Stock-based compensation expense for the three months ended September 30, 2018 and 2017 amounted to \$497,219 and \$504,490, respectively. Stock-based compensation expense for the six months ended September 30, 2018 and 2017 amounted to \$987,704 and \$979,816, respectively. At September 30, 2018, total unrecognized compensation cost amounted to \$3,645,961, representing 2,154,875 unvested options and 1,997,750 unvested shares of restricted stock. This cost is expected to be recognized over a weighted-average vesting period of 1.91 years. There were 1,129,166 options exercised during the six months ended September 30, 2018 and 240,300 options exercised during the six months ended September 30, 2017. The Company did not recognize any related tax benefit for the three months ended June 30, 2018 and 2017 from option exercises, as the effects were de minimis.

NOTE 11 - COMMITMENTS AND CONTINGENCIES

A. The Company has entered into a supply agreement with an Irish distiller ("Irish Distillery"), which provides for the production of blended Irish whiskeys for the Company until the contract is terminated by either party in accordance with the terms of the agreement. The Irish Distillery may terminate the contract if it provides at least six years prior notice to the Company, except for breach. Under this agreement, the Company provides the Irish Distillery with a forecast of the estimated amount of liters of pure alcohol it requires for the next four fiscal contract years and agrees to purchase 90% of that amount, subject to certain annual adjustments. For the contract year ending June 30,

2019, the Company has contracted to purchase approximately €1,105,572 or \$1,282,596 (translated at the September 30, 2018 exchange rate) in bulk Irish whiskey, of which €285,489, or \$331,202 (translated at the September 30, 2018 exchange rate), has been purchased as of September 30, 2018. The Company is not obligated to pay the Irish Distillery for any product not yet received. During the term of this supply agreement, the Irish Distillery has the right to limit additional purchases above the commitment amount.

The Company has also entered into a supply agreement with the Irish Distillery, which provides for the production of single malt Irish whiskeys for the Company until the contract is terminated by either party in accordance with the terms of the agreement. The Irish Distillery may terminate the contract if it provides at least thirteen years prior notice to the Company, except for breach. Under this agreement, the Company provides the Irish Distillery with a forecast of the estimated amount of liters of pure alcohol it requires for the next twelve fiscal contract years and B. agrees to purchase 80% of that amount, subject to certain annual adjustments. For the contract year ending June 30, 2019, the Company has contracted to purchase approximately €575,791 or \$667,987 (translated at the September 30, 2018 exchange rate) in bulk Irish whiskey, of which €140,401, or \$162,882 (translated at the September 30, 2018 exchange rate), has been purchased as of September 30, 2018. The Company is not obligated to pay the Irish Distillery for any product not yet received. During the term of this supply agreement, the Irish Distillery has the right to limit additional purchases above the commitment amount.

The Company has entered into a supply agreement with a bourbon distiller, which provides for the production of newly-distilled bourbon whiskey. Under this agreement, the distiller will provide the Company with an agreed upon amount of original proof gallons of newly-distilled bourbon whiskey, subject to certain annual adjustments. For the C. contract year ending December 31, 2018, the Company has contracted to purchase approximately \$3,900,000 in newly distilled bourbon, of which \$1,682,200 has been purchased as of September 30, 2018. The Company is not obligated to pay the distiller for any product not yet received.

The Company leases office space in New York, NY, Dublin, Ireland and Houston, TX. The New York, NY lease began on May 1, 2010 and expires on February 29, 2020 and provides for monthly payments of \$26,255. The D. Dublin lease commenced on March 1, 2009 and extends through October 31, 2019 and provides for monthly payments of €1,500 or \$1,740 (translated at the September 30, 2018 exchange rate). The Houston, TX lease commenced on April 27, 2015 and extends through June 26, 2021 and provides for monthly payments of \$3,581. The Company has also entered into non-cancelable operating leases for certain office equipment.

CASTLE BRANDS INC. AND SUBSIDIARIES

Notes to Unaudited Condensed Consolidated Financial Statements - Continued

As described in Note 7C, in August 2011, the Company and CB-USA entered into the Credit Facility, as amended E. in July 2012, March 2013, August 2013, November 2013, August 2014, September 2014, August 2015, October 2017, May 2018 and October 2018.

Except as set forth below, the Company believes that neither it, nor any of its subsidiaries, is currently subject to F. litigation which, in the opinion of management after consultation with counsel, is likely to have a material adverse effect on the Company.

The Company may become involved in litigation from time to time relating to claims arising in the ordinary course of its business. These claims, even if not meritorious, could result in the expenditure of significant financial and managerial resources.

NOTE 12 - CONCENTRATIONS

Credit Risk - The Company maintains its cash and cash equivalents balances at various large financial institutions A. that, at times, may exceed federally and internationally insured limits. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk.

Customers - Sales to one customer, the Southern Glazer's Wine and Spirits of America, Inc. family of companies ("SGWS") accounted for approximately 37.8% and 36.3% of the Company's net sales for the three months ended B. September 30, 2018 and 2017, respectively. Sales to SGWS accounted for approximately 37.0% and 38.0% of the Company's net sales for the six months ended September 30, 2018 and 2017, respectively, and approximately 38.6% and 35.9% of accounts receivable at September 30 and March 31, 2018, respectively.

NOTE 13 - GEOGRAPHIC INFORMATION

The Company operates in one reportable segment - the sale of premium beverage alcohol. The Company's product categories are whiskeys, rum, liqueurs, vodka, tequila and ginger beer, a related non-alcoholic beverage product. The Company reports its operations in two geographic areas: International and United States.

Our objective is to continue building Castle Brands into a profitable international spirits company, with a distinctive portfolio of premium and super premium spirits brands. To achieve this, we continue to seek to:

focus on our more profitable brands and markets. We continue to focus our distribution efforts, sales expertise and targeted marketing activities on our more profitable brands and markets;

grow organically. We believe that continued organic growth will enable us to achieve long-term profitability. We focus on brands that have profitable growth potential and staying power, such as our rums, whiskeys and ginger beer, sales of which have grown substantially in recent years;

build consumer awareness. We use our existing assets, expertise and resources to build consumer awareness and market penetration for our brands;

leverage our distribution network. Our established distribution network in all 50 U.S. states enables us to promote our brands nationally and makes us an attractive strategic partner for smaller companies seeking U.S. distribution; and

selectively add new brand extensions and brands to our portfolio. We intend to continue to introduce new brand extensions and expressions. For example, we have leveraged our successful Jefferson's portfolio by introducing a number of brand extensions. Additionally, we added the Arran Scotch whiskeys to our portfolio as agency brands. We continue to explore strategic relationships, joint ventures and acquisitions to selectively expand our premium spirits portfolio. We expect that future acquisitions or agency relations, if any, would involve some combination of cash, debt and the issuance of our stock.

Recent Events

Expanded Credit Facility

In October, we entered into a Fifth Amendment to our existing Credit Facility with ACF FinCo I LP. Among other changes, the Fifth Amendment increased the maximum amount of the Credit Facility from \$23,000,000 to \$25,000,000, and amended the definition of borrowing base to increase the amount of borrowing that can be collateralized by inventory.

In November, we entered into a Sixth Amendment to our existing Credit Facility with ACF FinCo I LP. Among other changes, the Sixth Amendment extended the termination date for the facility to July 31, 2020 and amended the definition of borrowing base to increase the amount of borrowing that can be collateralized by inventory.

Currency Translation

The functional currencies for our foreign operations are the Euro in Ireland and the British Pound in the United Kingdom. With respect to our consolidated financial statements, the translation from the applicable foreign currencies to U.S. Dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. The resulting translation adjustments are recorded as a component of other comprehensive income.

Where in this report we refer to amounts in Euros or British Pounds, we have for your convenience also in certain cases provided a conversion of those amounts to U.S. Dollars in parentheses. Where the numbers refer to a specific balance sheet account date or financial statement account period, we have used the exchange rate that was used to perform the conversions in connection with the applicable financial statement. In all other instances, unless otherwise indicated, the conversions have been made using the exchange rates as of September 30, 2018, each as calculated from the Interbank exchange rates as reported by Oanda.com. On September 30, 2018, the exchange rate of the Euro and the British Pound in exchange for U.S. Dollars was €1.00 = U.S. \$1.16012 (equivalent to U.S. \$1.00 = €0.86198) and £1.00 = U.S. \$1.30240 (equivalent to U.S. \$1.00 = £0.76781).

These conversions should not be construed as representations that the Euro and British Pound amounts actually represent U.S. Dollar amounts or could be converted into U.S. Dollars at the rates indicated.

Critical Accounting Policies

There are no material changes from the critical accounting policies set forth in Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our annual report on Form 10-K for the year ended March 31, 2018, as amended, which we refer to as our 2018 Annual Report. Please refer to that section for disclosures regarding the critical accounting policies related to our business.

Earnings before interest, taxes, depreciation and amortization, or EBITDA, adjusted for allowances for doubtful accounts and obsolete inventory, stock-based compensation expense, other expense (income), net, income from equity investment in non-consolidated affiliate, foreign exchange loss (gain) and net income attributable to noncontrolling interests is a key metric we use in evaluating our financial performance. EBITDA, as adjusted, is considered a non-GAAP financial measure as defined by Regulation G promulgated by the SEC under the Securities Act of 1933, as amended. We consider EBITDA, as adjusted, important in evaluating our performance on a consistent basis across various periods. Due to the significance of non-cash and non-recurring items, EBITDA, as adjusted, enables our Board of Directors and management to monitor and evaluate the business on a consistent basis. We use EBITDA, as adjusted, as a primary measure, among others, to analyze and evaluate financial and strategic planning decisions regarding future operating investments and allocation of capital resources. We believe that EBITDA, as adjusted, eliminates items that are not indicative of our core operating performance or are based on management's estimates, such as allowance accounts, are due to changes in valuation, such as the effects of changes in foreign exchange or do not involve a cash outlay, such as stock-based compensation expense. Our presentation of EBITDA, as adjusted, should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items or by non-cash items, such as stock-based compensation, which is expected to remain a key element in our long-term incentive compensation program. EBITDA, as adjusted, should be considered in addition to, rather than as a substitute for, income from operations, net income and cash flows from operating activities.

Our EBITDA, as adjusted, decreased to \$1.8 million for the three months ended September 30, 2018, as compared to \$1.9 million for the comparable prior-year period, primarily the result of our increased costs, partially offset by our increased revenues, and increased to \$3.4 million for the six months ended September 30, 2018, as compared to \$2.7 million for the comparable prior-year period, primarily as a result of our increased sales and gross profit.

Three months ended September 30, 2018 compared with three months ended September 30, 2017

Net sales. Net sales increased 11.6% to \$23.3 million for the three months ended September 30, 2018, as compared to \$20.9 million for the comparable prior-year period, primarily due to U.S. sales growth of Jefferson's bourbons, Knappogue Castle Irish whiskey, Goslings Stormy Ginger Beer and certain of our liqueurs, partially offset by decreases in Clontarf sales and certain of our liqueurs. We continue to focus on our faster growing brands and markets, both in the U.S. and internationally.

The table below presents the increase or decrease, as applicable, in case sales by spirits product category for the three months ended September 30, 2018 as compared to the three months ended September 30, 2017:

	Increase/(decrease) in case sales		Percentage Increase/(decrease)	
	Overall	U.S.	Overall	U.S.
Rum	(5,218)	(48)	(12.5)%	(0.2)%
Whiskey	5,487	3,695	21.2 %	18.8 %

Tequila	(274)	(274)	(64.8)%	(64.8)%
Total	(1,163)	1,754	(1.1)%	2.2 %

Our international spirits case sales as a percentage of total spirits case sales decreased to 18.0% for the three months ended September 30, 2018 as compared to 20.6% for the comparable prior-year period, primarily due to decreased Irish whiskey and rum sales in certain international markets resulting in part from the timing of shipments to large retailers in Ireland and Scandinavia.

The following table presents the increase in case sales of ginger beer products for the three months ended September 30, 2018 as compared to the three months ended September 30, 2017:

	Increase in case sales		Percentage Increase	
	Overall	U.S.	Overall	U.S.
Ginger Beer Products	36,299	35,589	8.1 %	8.1 %

Gross profit. Gross profit increased 7.0% to \$9.1 million for the three months ended September 30, 2018 from \$8.5 million for the comparable prior-year period, while gross margin decreased to 39.3% for the three months ended September 30, 2018 as compared to 40.9% for the comparable prior-year period. The increase in gross profit was primarily due to increased aggregate revenue in the current period. We expect gross margin in the near term will be impacted negatively as we use higher-cost bourbon to meet our sales needs, but positively impacted by the Craft Beverage Modernization and Tax Reform Act of 2017. During the three months ended September 30, 2018, we recorded additions to allowance for obsolete and slow-moving inventory of \$0.1 million. We recorded this write-off and allowance on both raw materials and finished goods, primarily in connection with label and packaging changes made to certain brands, as well as certain cost estimates and variances. The net charge has been recorded as an increase to cost of sales in the relevant period.

Selling expense. Selling expense increased 8.6% to \$5.3 million for the three months ended September 30, 2018 from \$4.9 million for the comparable prior-year period, primarily due to a \$0.3 million increase in employee costs and a \$0.2 million increase in shipping costs associated with increased Goslings Stormy Ginger Beer sales volume. Selling expense as a percentage of net sales decreased to 22.8% for the three months ended September 30, 2018 as compared to 23.4% for the comparable prior-year period due to increased revenues and decreased expenses in the current period.

General and administrative expense. General and administrative expense increased 11.5% to \$2.6 million for the three months ended September 30, 2018 from \$2.3 million for the comparable prior-year period, primarily due to a \$0.3 million increase in employee costs. As a result of increased revenue for the year, general and administrative expense as a percentage of net sales was 11.0% for each of the three-month periods ended September 30, 2018 and 2017.

Depreciation and amortization. Depreciation and amortization was \$0.2 million for each of the three-month periods ended September 30, 2018 and 2017.

Income from operations. As a result of the foregoing, we had income from operations of \$1.0 million for the three months ended September 30, 2018 as compared to income from operations of \$1.2 million for the comparable prior-year period. As a result of our focus on our stronger growth markets and better performing brands, and expected growth from our existing brands, we anticipate improved results of operations in the near term as compared to prior years, although there is no assurance that we will attain such results.

Income tax expense, net. Income tax expense, net is the estimated tax expense primarily attributable to the net taxable income recorded by Gosling-Castle Partners, Inc. (“GCP”), our 80.1% owned subsidiary, adjusted for changes in the deferred tax asset and deferred tax liability during the periods, was an immaterial net expense for each of the three-month periods ended September 30, 2018 and 2017.

The Company’s provision for income taxes consists principally of state and local taxes in amounts necessary to align the Company’s year-to-date tax provision with the effective rate that it expects to achieve for the full year.

For the three months ended September 30, 2018, the Company recorded an income tax benefit of \$217. The effective tax rate for the three months ended September 30, 2018 was 80.34%. The effective tax rate differs from the statutory rate of 21% as the Company has concluded that its deferred tax assets are not realizable on a more-likely-than-not basis.

As of September 30, 2018, our conclusion regarding the realizability of our US deferred tax assets did not change and we have recorded a full valuation allowance against them.

Foreign exchange gain (loss). Foreign exchange gain for the three months ended September 30, 2018 was de minimis as compared to a gain of \$0.02 million for the comparable prior-year period due to the net effects of fluctuations of the U.S. dollar against the Euro and its impact on our Euro-denominated intercompany balances due to our foreign subsidiaries for inventory purchases.

Interest expense, net. We had interest expense, net of (\$1.1) million for the three months ended September 30, 2018 as compared to (\$0.9) million for the comparable prior-year period due to balances outstanding under our credit facilities and long-term debt. Due to the expected borrowings under our credit facilities to finance additional purchases of aged whiskies in support of the growth of our Jefferson's bourbons and other working capital needs, we expect interest expense, net to increase in the near term as compared to prior years.

Net income attributable to noncontrolling interests. Net income attributable to noncontrolling interests was \$0.2 million for the three months ended September 30, 2018 as compared to \$0.3 million for the comparable prior-year period, as a result of net income allocated to the 19.9% noncontrolling interests in GCP.

Net loss attributable to common shareholders. As a result of the net effects of the foregoing, net loss attributable to common shareholders was (\$0.2) million for the three months ended September 30, 2018 as compared to (\$0.0) million for the comparable prior-year period. Net loss per common share, basic and diluted, was (\$0.00) per share for each of the three-month periods ended September 30, 2018 and 2017.

Six months ended September 30, 2018 compared with six months ended September 30, 2017

Net sales. Net sales increased 11.2% to \$46.4 million for the six months ended September 30, 2018, as compared to \$41.8 million for the comparable prior-year period, primarily due to U.S. sales growth of Jefferson's bourbons, Knappogue Castle Irish whiskey and Goslings Stormy Ginger Beer, partially offset by decreases in Clontarf and Arran whiskey sales. We continue to focus on our faster growing brands and markets, both in the U.S. and internationally.

The table below presents the increase or decrease, as applicable, in case sales by spirits product category for the six months ended September 30, 2018 as compared to the six months ended September 30, 2017:

	Increase/(decrease) in case sales		Percentage Increase/(decrease)			
	Overall	U.S.	Overall	U.S.		
Rum	(3,305)	694	(3.9)%	1.2	%

Tequila	(198)	(198)	(30.1)%	(30.1)	%	
Total	4,723	7,973	2.4 %	5.1	%	

Our international spirits case sales as a percentage of total spirits case sales decreased to 19.4% for the six months ended September 30, 2018 as compared to 21.4% for the comparable prior-year period, primarily due to decreased Irish whiskey and rum sales in certain international markets resulting in part from the timing of shipments to large retailers in Ireland and Scandinavia.

The following table presents the increase in case sales of ginger beer products for the six months ended September 30, 2018 as compared to the six months ended September 30, 2017:

	Increase in case sales		Percentage Increase	
	Overall	U.S.	Overall	U.S.
Ginger Beer Products	35,768	42,382	3.9%	4.8%

Gross profit. Gross profit increased 7.5% to \$18.4 million for the six months ended September 30, 2018 from \$17.1 million for the comparable prior-year period, while gross margin decreased to 39.5% for the six months ended September 30, 2018 as compared to 41.0% for the comparable prior-year period. The increase in gross profit was primarily due to increased aggregate revenue in the current period. We expect gross margin in the near term will be impacted negatively as we use higher cost bourbon to meet our sales needs, but positively impacted by the Craft Beverage Modernization and Tax Reform Act of 2017. During the six months ended September 30, 2018 we recorded an addition to allowance for obsolete and slow-moving inventory of \$0.2 million as compared to \$0.05 million in the prior comparable period. We recorded these write-offs and allowances on both raw materials and finished goods, primarily in connection with label and packaging changes made to certain brands, as well as certain cost estimates and variances. The net charges have been recorded as an increase to cost of sales in the relevant period.

Selling expense. Selling expense increased 1.1% to \$11.1 million for the six months ended September 30, 2018 from \$11.0 million for the comparable prior-year period, primarily due to an \$0.8 million increase in employee costs and a \$0.3 million increase in shipping costs from increased sales volume, partially offset by a \$1.0 million decrease in advertising, marketing and promotion expense related to the timing of certain sales and marketing programs, including Goslings' sponsorship of the 35th America's Cup, in the prior fiscal year. Selling expense as a percentage of net sales decreased to 24.0% for the six months ended September 30, 2018 as compared to 26.2% for the comparable prior-year period due to increased revenues and decreased expenses in the current period.

General and administrative expense. General and administrative expense increased 11.4% to \$5.1 million for the six months ended September 30, 2018 from \$4.6 million for the comparable prior-year period, primarily due to a \$0.5 million increase in employee costs. As a result of increased revenue for the year, general and administrative expense as a percentage of net sales was 10.9% for each of the six-month periods ended September 30, 2018 and 2017.

Depreciation and amortization. Depreciation and amortization was \$0.4 million for each of the six-month periods ended September 30, 2018 and 2017.

Income from operations. As a result of the foregoing, we had income from operations of \$1.7 million for the six months ended September 30, 2018 as compared to income from operations of \$1.2 million for the comparable prior-year period. As a result of our focus on our stronger growth markets and better performing brands, and expected growth from our existing brands, we anticipate improved results of operations in the near term as compared to prior years, although there is no assurance that we will attain such results.

Income tax expense, net. Income tax expense, net is the estimated tax expense primarily attributable to the net taxable income recorded by GCP, our 80.1% owned subsidiary, adjusted for changes in the deferred tax asset and deferred tax liability during the periods, was an immaterial net expense for each of the six-month periods ended September 30, 2018 and 2017.

The Company's provision for income taxes consists principally of state and local taxes in amounts necessary to align the Company's year-to-date tax provision with the effective rate that it expects to achieve for the full year.

For the six months ended September 30, 2018, the Company recorded income tax expense of \$17,898. The effective tax rate for the six months ended September 30, 2018 was 80.34%. The effective tax rate differs from the statutory rate of 21% as the Company has concluded that its deferred tax assets are not realizable on a more-likely-than-not basis.

As of September 30, 2018, our conclusion regarding the realizability of our US deferred tax assets did not change and we have recorded a full valuation allowance against them.

Foreign exchange gain (loss). Foreign exchange gain for the six months ended September 30, 2018 was \$0.05 million as compared to a loss of (\$0.03) million for the comparable prior-year period due to the net effects of fluctuations of the U.S. dollar against the Euro and its impact on our Euro-denominated intercompany balances due to our foreign subsidiaries for inventory purchases.

Interest expense, net. We had interest expense, net of (\$2.2) million for the six months ended September 30, 2018 as compared to (\$1.8) million for the comparable prior-year period due to balances outstanding under our credit facilities and long-term debt. Due to the expected borrowings under our credit facilities to finance additional purchases of aged whiskies in support of the growth of our Jefferson's bourbons and other working capital needs, we expect interest expense, net to increase in the near term as compared to prior years.

Net income attributable to noncontrolling interests. Net income attributable to noncontrolling interests was \$0.6 million for the six months ended September 30, 2018 as compared to \$0.4 million for the comparable prior-year period, as a result of net income allocated to the 19.9% noncontrolling interests in GCP.

Net loss attributable to common shareholders. As a result of the net effects of the foregoing, net loss attributable to common shareholders was (\$0.9) million for each of the six-month periods ended September 30, 2018 and 2017. Net loss per common share, basic and diluted, was (\$0.01) per share for each the six-month periods ended September 30, 2018 and 2017.

Liquidity and capital resources

Overview

Since our inception, we have incurred significant net losses and have not generated positive cash flows from operations. For the six months ended September 30, 2018, we had a net loss of (\$0.3) million, and used cash of \$4.0 million in operating activities. As of September 30, 2018, we had cash and cash equivalents of \$0.4 million and had an accumulated deficit of \$150.8 million.

We believe our current cash and working capital and the availability under the Credit Facility (as defined below) will enable us to fund our losses until we achieve profitability, ensure continuity of supply of our brands, and support new brand initiatives and marketing programs through at least November 2019. We believe we can continue to meet our operating needs through additional mechanisms including additional or expanded debt financings, potential equity offerings and limiting or adjusting the timing of additional inventory purchases based on available resources.

Financing

In October 2018, we, and our wholly-owned subsidiary, CB-USA, entered into a Fifth Amendment (the “Fifth Amendment”) to the Amended and Restated Loan and Security Agreement, dated as of September 22, 2014, with ACF FinCo I LP (“ACF”), to amend certain terms of the existing \$23.0 million revolving credit facility (the “Credit Facility”) with ACF. Among other changes, the Fifth Amendment increased the maximum amount of the Facility from \$23.0 million to \$25.0 million and amended the definition of borrowing base to increase the amount of borrowing that can be collateralized by inventory. We paid ACF an aggregate \$50,000 commitment fee in connection with the Fifth Amendment. In connection with the Fifth Amendment, we also entered into an Amended and Restated Revolving Credit Note.

In May 2018, we, and our wholly-owned subsidiary, CB-USA, entered into a Fourth Amendment (the “Fourth Amendment”) to the Amended and Restated Loan and Security Agreement, dated as of September 22, 2014, with ACF FinCo I LP (“ACF”), to amend certain terms of the existing \$21.0 million revolving credit facility (the “Credit Facility”) with ACF. Among other changes, the Fourth Amendment increased the maximum amount of the Facility from \$21.0 million to \$23.0 million and amended the definition of borrowing base to increase the amount of borrowing that can be collateralized by inventory. We paid ACF an aggregate \$20,000 commitment fee in connection with the Fourth Amendment. In connection with the Fourth Amendment, we also entered into an Amended and Restated Revolving Credit Note.

In April 2018, we entered into a First Amendment (the “Note Amendment”) to the 11% Subordinated Note due 2019, dated March 29, 2017, in the principal amount of \$20.0 million with Frost Nevada Investments Trust (the “Subordinated Note”), an entity affiliated with Phillip Frost, M.D., a director and a principal shareholder of ours. The purpose of the Note Amendment was to extend the maturity date on the Subordinated Note from March 15, 2019 until September 15, 2020. No other provisions of the Subordinated Note were amended.

We and our wholly-owned subsidiary, CB-USA, are parties to an Amended and Restated Loan and Security Agreement (as amended, the “Loan Agreement”) with ACF, which provides for availability (subject to certain terms and conditions) of a facility to provide us with working capital, including capital to finance purchases of aged whiskeys in support of the growth of our Jefferson’s whiskeys, in the amount of \$25.0 million, including a sublimit in the maximum principal amount of \$7.0 million to permit us to acquire aged whiskey inventory (the “Purchased Inventory Sublimit”) subject to certain conditions set forth in the Loan Agreement. The Credit Facility matures on July 31, 2020 (the “Maturity Date”). The monthly facility fee is 0.75% per annum of the maximum Credit Facility amount (excluding the Purchased Inventory Sublimit).

Pursuant to the Loan Agreement, we and CB-USA may borrow up to the lesser of (x) \$25.0 million and (y) the sum of the borrowing base calculated in accordance with the Loan Agreement and the Purchased Inventory Sublimit. We and CB-USA may prepay the Credit Facility in whole or the Purchased Inventory Sublimit, in whole or in part, subject to certain prepayment penalties as set forth in the Loan Agreement.

ACF required as a condition to entering into an amendment to the Loan Agreement in August 2015 that ACF enter into a participation agreement with certain related parties of ours, including Frost Gamma Investments Trust, an entity affiliated with Phillip Frost, M.D., a director of ours and a principal shareholder of ours (\$150,000), Mark E. Andrews, III, a director of ours and our Chairman (\$50,000), Richard J. Lampen, a director of ours and our President and Chief Executive Officer (\$100,000), Brian L. Heller, our General Counsel and Assistant Secretary (\$42,500), and Alfred J. Small, our Senior Vice President, Chief Financial Officer, Treasurer & Secretary (\$15,000), to allow for the sale of participation interests in the Purchased Inventory Sublimit and the inventory purchased with the proceeds thereof. The participation agreement provides that ACF’s commitment to fund each advance of the Purchased Inventory Sublimit shall be limited to seventy percent (70%), up to an aggregate maximum principal amount for all advances equal to \$4.9 million. Under the terms of the participation agreement, the participants receive interest at the rate of 11% per annum. We are not a party to the participation agreement. However, we and CB-USA are party to a fee letter with the junior participants (including the related party junior participants) pursuant to which we and CB-USA were obligated to pay the junior participants a closing fee of \$18,000 on the effective date of the amendment to the Loan Agreement and are obligated to pay a commitment fee of \$18,000 on each anniversary of the effective date until the junior participants’ obligations are terminated pursuant to the participation agreement.

We may borrow up to the maximum amount of the Credit Facility, provided that we have a sufficient borrowing base (as defined in the Loan Agreement). The Credit Facility interest rate (other than with respect to the Purchased Inventory Sublimit) is the rate that, when annualized, is the greatest of (a) the Prime Rate plus 3.00%, (b) the LIBOR Rate plus 5.50% and (c) 6.0%. The interest rate applicable to the Purchased Inventory Sublimit is the rate, that when annualized, is the greatest of (a) the Prime Rate plus 4.25%, (b) the LIBOR Rate plus 6.75% and (c) 7.50%. Interest is payable monthly in arrears, on the first day of every month on the average daily unpaid principal amount of the Credit Facility. After the occurrence and during the continuance of any “Default” or “Event of Default” (as defined under the Loan Agreement) we are required to pay interest at a rate that is 3.25% per annum above the then applicable Credit Facility interest rate. The Loan Agreement contains EBITDA targets allowing for further interest rate reductions in the future. The Credit Facility currently bears interest at 7.75% (reflecting a discount for achieving one such EBITDA target) and the Purchased Inventory Sublimit currently bears interest at 9.5%. We are required to pay down the principal balance of the Purchased Inventory Sublimit within 15 banking days from the completion of a bottling run of bourbon from our bourbon inventory stock purchased with funds borrowed under the Purchased Inventory Sublimit in an amount equal to the purchase price of such bourbon. The unpaid principal balance of the Credit Facility, all accrued and unpaid interest thereon, and all fees, costs and expenses payable in connection with the Credit Facility, are due and payable in full on the Maturity Date. In addition to closing fees, ACF receives facility fees and a collateral management fee (each as set forth in the Loan Agreement). Our obligations under the Loan Agreement are secured by the grant of a pledge and a security interest in all of our assets.

In January 2017, we acquired \$1.0 million in aged bulk bourbon purchased under the Purchased Inventory Sublimit. Certain related parties, including Frost Gamma Investments Trust (\$65,406), Richard J. Lampen (\$43,604), Mark E. Andrews, III (\$21,802), Brian L. Heller (\$18,532) and Alfred J. Small (\$6,541), were junior participants in the Purchased Inventory Sublimit with respect to such purchase.

In October 2017, we acquired \$1.3 million in aged bulk bourbon purchased under the Purchased Inventory Sublimit. Certain related parties, including Frost Gamma Investments Trust (\$51,500), Richard J. Lampen (\$34,333), Mark E. Andrews, III (\$17,167), Brian L. Heller (\$14,592) and Alfred J. Small (\$5,150), were junior participants in the Purchased Inventory Sublimit with respect to such purchase.

In December 2017, we acquired \$1.0 million in aged bulk bourbon purchased under the Purchased Inventory Sublimit. Certain related parties, including Frost Gamma Investments Trust (\$45,021), Richard J. Lampen (\$30,014), Mark E. Andrews, III (\$15,007), Brian L. Heller (\$12,756) and Alfred J. Small (\$4,502), were junior participants in the Purchased Inventory Sublimit with respect to such purchase.

In April 2018, we acquired \$2.0 million in aged bulk bourbon purchased under the Purchased Inventory Sublimit. Certain related parties, including Frost Gamma Investments Trust (\$100,050), Richard J. Lampen (\$66,700), Mark E. Andrews, III (\$33,350), Brian L. Heller (\$28,348) and Alfred J. Small (\$10,005), were junior participants in the Purchased Inventory Sublimit with respect to such purchase.

In June 2018, we acquired \$1.0 million in aged bulk bourbon under the Purchased Inventory Sublimit. Certain related parties, including Frost Gamma Investments Trust (\$51,750), Richard J. Lampen (\$34,500), Mark E. Andrews, III (\$17,250), Brian L. Heller (\$14,663), and Alfred J. Small (\$5,175), were junior participants in the Purchased Inventory Sublimit with respect to such purchase

The Loan Agreement contains standard borrower representations and warranties for asset-based borrowing and a number of reporting obligations and affirmative and negative covenants. The Loan Agreement includes negative covenants that, among other things, restrict our ability to create additional indebtedness, dispose of properties, incur liens, and make distributions or cash dividends. At September 30, 2018, we were in compliance, in all material respects, with the covenants under the Loan Agreement.

In March 2017, we issued the Subordinated Note. In April 2018, we entered into a first amendment to the Subordinated Note to extend the maturity date on the Subordinated Note from March 15, 2019 until September 15, 2020. No other provisions of the Subordinated Note were amended. The purpose of the Subordinated Note was to finance the GCP Share Acquisition. The Subordinated Note, as amended, bears interest quarterly at the rate of 11% per annum. The principal and interest accrued thereon is due and payable in full on September 15, 2020. All claims of the holder of the Subordinated Note to principal, interest and any other amounts owed under the Subordinated Note are subordinated in right of payment to all our indebtedness existing as of the date of the Subordinated Note. The Subordinated Note contains customary events of default and may be prepaid by us, in whole or in part, without penalty, at any time.

In December 2009, GCP issued a promissory note in the aggregate principal amount of \$0.2 million to Gosling's Export (Bermuda) Limited in exchange for credits issued on certain inventory purchases. This note matures on April 1, 2020, is payable at maturity, subject to certain acceleration events, and calls for annual interest of 5%, to be accrued and paid at maturity.

We have arranged various credit facilities aggregating €0.3 million or \$0.4 million (translated at the September 30, 2018 exchange rate) with an Irish bank, including overdraft coverage, creditors' insurance, customs and excise guaranty and a revolving credit facility. These facilities are payable on demand, continue until terminated by either party, are subject to annual review, and call for interest at the lender's AA1 Rate minus 1.70%. We have deposited €0.3 million or \$0.4 million (translated at the September 30, 2018 exchange rate) with the bank to secure these borrowings.

In October 2013, we issued an aggregate principal amount of \$2.1 million of unsecured 5% convertible subordinated notes (the “Convertible Notes”). As of June 30, 2018, we had \$50,000 of Convertible Notes outstanding. We used a portion of the proceeds to finance the acquisition of additional bourbon inventory in support of the growth of our Jefferson’s bourbon brand. The Convertible Notes bear interest at a rate of 5% per annum and mature on December 15, 2018. The Convertible Notes, and accrued but unpaid interest thereon, are convertible in whole or in part from time to time at the option of the holders thereof into shares of our common stock, par value \$0.01 per share, at a conversion price of \$0.90 per share (the “Conversion Price”). The Convertible Notes may be prepaid in whole or in part at any time without penalty or premium, but with payment of accrued interest to the date of prepayment. The Convertible Notes contain customary events of default, which, if uncured, entitle each noteholder to accelerate the due date of the unpaid principal amount of, and all accrued and unpaid interest on, the Convertible Notes. The Convertible Note purchasers included certain related parties of ours, including an affiliate of Dr. Phillip Frost (\$500,000), Mark E. Andrews, III (\$50,000), an affiliate of Richard J. Lampen (\$50,000) and Vector Group Ltd., a more than 5% shareholder of ours, of which Richard Lampen is an executive officer, Henry Beinstein, a director of ours, is a director and Phillip Frost, M.D. is a principal shareholder (\$200,000), all of whom converted the outstanding principal and interest balances of their Convertible Notes into shares of our common stock in the year ended March 31, 2018.

We may forcibly convert all or any part of the Convertible Notes and all accrued but unpaid interest thereon if (i) the average daily volume of the common stock (as reported on the principal market or exchange on which the common stock is listed or quoted for trading) exceeds \$50,000 per trading day and (ii) the volume weighted average price of the common stock for at least twenty (20) trading days during any thirty (30) consecutive trading day period exceeds 250% of the then-current Conversion Price. Any forced conversion will be applied ratably to the holders of all Convertible Notes based on each holder’s then-current note holdings.

In the year ended March 31, 2018, certain holders of the Convertible Notes, including the related party holders described above, converted an aggregate \$1,632,000 of the outstanding principal and interest balances of their Convertible Notes into 1,813,334 shares of our common stock, pursuant to the terms of the Convertible Notes.

Liquidity Discussion

As of September 30, 2018, we had shareholders’ equity of \$9.1 million as compared to \$8.0 million at March 31, 2018. This increase in shareholders’ equity was due to the exercise of stock options and stock-based compensation expense of \$1.4 million, partially offset by our (\$0.4) million total comprehensive loss for the six months ended September 30, 2018.

We had working capital of \$43.6 million at September 30, 2018 as compared to \$38.6 million at March 31, 2018, primarily due to a \$6.1 million increase in inventory, a \$1.1 million decrease in due to related parties and a net loss of \$0.3 million, which was partially offset by a \$1.4 million increase in accounts payable and accrued expenses and a \$0.3 million decrease in accounts receivable.

As of September 30, 2018, we had cash and cash equivalents of approximately \$0.4 million, as compared to \$0.4 million as of March 31, 2018. Changes in our cash and cash equivalents are primarily attributable to the net borrowings on our credit facilities to fund our operations and working capital needs. At September 30 and March 31, 2018, we also had approximately \$0.4 million of cash restricted from withdrawal and held by a bank in Ireland as collateral for overdraft coverage, creditors' insurance, revolving credit and other working capital purposes.

The following may materially affect our liquidity over the near-to-mid term:

- continued cash losses from operations;
- our ability to obtain additional debt or equity financing should it be required;
- an increase in working capital requirements to finance higher levels of inventories and accounts receivable;
- our ability to maintain and improve our relationships with our distributors and our routes to market;
- our ability to procure raw materials at a favorable price to support our level of sales;
- potential acquisitions of additional brands; and
- expansion into new markets and within existing markets in the U.S. and internationally.

We continue to implement sales and marketing initiatives that we expect will generate cash flows from operations in the next few years. We seek to grow our business through expansion to new markets, growth in existing markets and strengthened distributor relationships. As our brands continue to grow, our working capital requirements will increase. In particular, the growth of our Jefferson's brands requires a significant amount of working capital relative to our other brands, as we are required to purchase and hold ever increasing amounts of aged whiskey to meet growing demand. While we are seeking solutions to our long-term whiskey supply needs, we are required to purchase and hold several years' worth of aged whiskey in inventory until such time as it is aged to our specific brand taste profiles, increasing our working capital requirements and negatively impacting cash flows.

We may also seek additional brands and agency relationships to leverage our existing distribution platform. We intend to finance any such brand acquisitions through a combination of our available cash resources, borrowings and, in appropriate circumstances, additional issuances of equity and/or debt securities. Acquiring additional brands could have a significant effect on our financial position, could materially reduce our liquidity and could cause substantial fluctuations in our quarterly and yearly operating results. We continue to control expenses, seek improvements in routes to market and contain production costs to improve cash flows.

We may seek to restructure all or a portion of our debt, including the Subordinated Note. This restructuring may consist of a combination of expanding and extending the Loan Agreement and Credit Facility with ACF, extending the term of the Subordinated Note, converting some or all of the debt to equity or paying down the debt with funds that may be raised from future equity offerings, although there is no assurance that we will be successful in such restructuring. If we are unable to restructure or refinance our debt, or are unable to raise equity on terms that are acceptable to us, it could have a significant effect on our financial position, could materially reduce our liquidity and could cause substantial fluctuations in our quarterly and yearly operating results.

As of September 30, 2018, we had borrowed \$22.3 million of the \$23.0 million then available under the Credit Facility, including \$6.4 million of the \$7.0 million available under the Purchased Inventory Sublimit, leaving \$0.1 million in potential availability for working capital needs under the Credit Facility and \$0.6 million available for aged whiskey inventory purchases. As of November 7, 2018, we had borrowed \$22.2 million of the \$25.0 million then available under the amended Credit Facility, including \$6.4 million of the \$7.0 million available under the Purchased Inventory Sublimit, leaving \$2.2 million in potential availability for working capital needs under the amended Credit Facility and \$0.6 million available for aged whiskey inventory purchases. We believe our current cash and working capital and the availability under the Credit Facility will enable us to fund our losses until we achieve profitability, ensure continuity of supply of our brands, and support new brand initiatives and marketing programs through at least November 2019. We believe we can continue to meet our operating needs through additional mechanisms including additional or expanded debt financings, potential equity offerings and limiting or adjusting the timing of additional inventory purchases based on available resources.

Cash flows

The following table summarizes our primary sources and uses of cash during the periods presented:

	Six months ended September 30, 2018 2017 (in thousands)	
Net cash (used in) provided by:		
Operating activities	\$(3,979)	\$(26)
Investing activities	(113)	(263)
Financing activities	4,098	(13)
Subtotal	6	(302)
Effect of foreign currency translation	(37)	48
Net decrease in cash and cash equivalents including restricted cash	\$(31)	\$(254)

Operating activities. A substantial portion of available cash has been used to fund our operating activities. In general, these cash funding requirements are based on the costs in maintaining our distribution system and our sales and marketing activities. We have also utilized cash to fund the purchase of our inventories. In general, these cash outlays for inventories are only partially offset by increases in our accounts payable to our suppliers.

On average, the production cycle for our owned brands is up to three months from the time we obtain the distilled spirits and other materials needed to bottle and package our products to the time we receive products available for sale, in part due to the international nature of our business. We do not produce Goslings rums or ginger beer, Pallini liqueurs, Arran Scotch whiskeys or Gozio amaretto. Instead, we receive the finished product directly from the owners of such brands. From the time we have products available for sale, an additional two to three months may be required before we sell our inventory and collect payment from customers. Further, our inventory at September 30, 2018 included significant additional stores of aged bourbon purchased in advance of forecasted production requirements. In October 2017, we entered into a supply agreement with a bourbon distiller, which provides for the production of newly-distilled bourbon whiskey. Under this agreement, the distiller will provide us with an agreed upon amount of original proof gallons of newly-distilled bourbon whiskey, subject to certain annual adjustments. For the contract year ending December 31, 2018, we have contracted to purchase approximately \$3,900,000 in newly distilled bourbon, \$1.6 million of which had been purchased as of September 30, 2018. We are not obligated to pay the distiller for any product not yet received. We expect to use the aged bourbon in the normal course of future sales, generating positive cash flows in future periods.

During the six months ended September 30, 2018, net cash used in operating activities was \$4.0 million, consisting primarily of a \$6.2 million increase in inventory, a \$1.0 million decrease in due to related parties and a net loss of \$0.3 million. These uses of cash were partially offset by a \$1.4 million increase in accounts payable and accrued expenses, a \$0.3 million decrease in accounts receivable, stock based compensation expense of \$1.0 million and depreciation and amortization expense of \$0.4 million

During the six months ended September 30, 2017, net cash used in operating activities was \$0.03 million, consisting primarily of a \$4.4 million increase in inventory, a net loss of \$0.6 million and a \$0.4 million increase in prepaid expenses. These uses of cash were partially offset by a \$2.9 million increase in accounts payable and accrued expenses, a \$0.7 million decrease in accounts receivable, stock based compensation expense of \$1.0 million, a \$0.3 million increase in due to related parties and depreciation and amortization expense of \$0.4 million.

Investing Activities. Net cash used in investing activities was \$0.1 million for the six months ended September 30, 2018, representing \$0.1 million used in the acquisition of fixed and intangible assets.

Net cash used in investing activities was \$0.3 million for the six months ended September 30, 2017, representing a \$0.2 million investment in non-consolidated affiliate and \$0.1 million used in the acquisition of fixed and intangible assets.

Financing activities. Net cash provided by financing activities for the six months ended September 30, 2018 was \$4.1 million, consisting primarily of \$3.7 million in net proceeds from the Credit Facility and \$0.4 million from the exercise of stock options.

Net cash used in financing activities for the six months ended September 30, 2017 was \$0.01 million, consisting primarily of \$0.2 million in net payments on the Credit Facility partially offset by \$0.2 million from the exercise of stock options.

Recent accounting standards issued and adopted

We discuss recently issued and adopted accounting standards in the “Recent accounting pronouncements” section of Note 1 of the “Notes to Unaudited Condensed Consolidated Financial Statements” in the accompanying unaudited condensed consolidated financial statements.

Cautionary Note Regarding Forward Looking Statements

This annual report includes certain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, which involve risks and uncertainties, relate to the discussion of our business strategies and our expectations concerning future operations, margins, profitability, liquidity and capital resources and to analyses and other information that are based on forecasts of future results and estimates of amounts not yet determinable. We use words such as “may”, “will”, “should”, “expects”, “intends”, “plans”, “anticipates”, “believes”, “estimates”, “predicts”, “could”, “projects”, “potential” and similar terms and phrases, including references to assumptions, in this report to identify forward-looking statements. These forward-looking statements are made based on expectations and beliefs concerning future events affecting us and are subject to uncertainties, risks and factors relating to our operations and business environments, all of which are difficult to predict and many of which are beyond our control, that could cause our actual results to differ materially from those matters expressed or implied by these forward-looking statements. These risks and other factors include those listed under “Risk Factors” in our annual report on Form 10-K for the year ended March 31, 2018, as amended, and as follows:

- our history of losses;
- worldwide and domestic economic trends and financial market conditions could adversely impact our financial performance;
- our potential need for additional capital, which, if not available on acceptable terms or at all, could restrict our future growth and severely limit our operations;
- our brands could fail to achieve more widespread consumer acceptance, which may limit our growth;
- our dependence on a limited number of suppliers, who may not perform satisfactorily or may end their relationships with us, which could result in lost sales, incurrence of additional costs or lost credibility in the marketplace;
- our annual purchase obligations with certain suppliers;
- the failure of even a few of our independent wholesale distributors to adequately distribute our products within their territories could harm our sales and result in a decline in our results of operations;
- our need to maintain a relatively large inventory of our products to support customer delivery requirements, which could negatively impact our operations if such inventory is lost due to theft, fire or other damage;
- the potential limitation to our growth if we are unable to identify and successfully acquire additional brands that are complementary to our existing portfolio, or integrate such brands after acquisitions;
- currency exchange rate fluctuations and devaluations may significantly adversely affect our revenues, sales, costs of goods and overall financial results;
- we have identified a material weakness in our internal control over financial reporting, and our business and stock price may be adversely affected if we have other material weaknesses or significant deficiencies in our internal

control over financial reporting;
a failure of one or more of our key IT systems, networks, processes, associated sites or service providers could have a material adverse impact on our business;
the possibility that we or our strategic partners will fail to protect our respective trademarks and trade secrets, which could compromise our competitive position and decrease the value of our brand portfolio;
the possibility that we cannot secure and maintain listings in control states, which could cause the sales of our products to decrease significantly;
an impairment in the carrying value of our goodwill or other acquired intangible assets could negatively affect our operating results and shareholders' equity;
changes in consumer preferences and trends could adversely affect demand for our products;
there is substantial competition in our industry and the many factors that may prevent us from competing successfully;
adverse changes in public opinion about alcohol could reduce demand for our products;
class action or other litigation relating to alcohol misuse or abuse could adversely affect our business; and
adverse regulatory decisions and legal, regulatory or tax changes could limit our business activities, increase our operating costs and reduce our margins.

We assume no obligation to publicly update or revise these forward-looking statements for any reason, or to update the reasons actual results could differ materially from those anticipated in, or implied by, these forward-looking statements, even if new information becomes available in the future.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk

We are exposed to market risks arising from changes in market rates and prices, including movements in interest rates and foreign currency exchange rates. We do not enter into derivatives or other financial instruments for trading or speculative purposes. In the future, we may enter into financial instruments to manage and reduce the impact of changes in interest rates and foreign currency exchange rates, although we do not currently have any such instruments in place. The following is additional information about the market risks we are exposed to and how we manage these risks:

Interest rate risk

Interest on our Credit Facility (other than with respect to the Purchased Inventory Sublimit) is charged at the rate that, when annualized, is the greatest of (a) the Prime Rate plus 3.00%, (b) the LIBOR Rate plus 5.50% and (c) 6.00%. The interest rate applicable to the Purchased Inventory Sublimit is the rate that, when annualized, is the greatest of (a) the Prime Rate plus 4.25%, (b) the LIBOR Rate plus 6.75% and (c) 7.50%. As of September 30, 2018, we had \$22.3 million outstanding under the Credit Facility, including \$6.4 million under the Purchased Inventory Sublimit, none of which is currently being hedged. Interest on our foreign revolving credit facilities is charged at the lender's AA1 Rate minus 1.70%. As of September 30, 2018, we had an immaterial amount outstanding under our foreign revolving credit facilities.

A hypothetical one percentage point (100 basis points) increase in the interest rate being charged on the \$22.3 million of unhedged debt outstanding under our Credit Facility, including the Purchased Inventory Sublimit, and our foreign revolving credit facilities at September 30, 2018 would have had an impact of approximately \$55,500 on our interest expense for the quarter.

Foreign exchange rate risk

The majority of our sales, net and expenses are transacted in U.S. dollars. However, in the three months ended September 30, 2018, Euro denominated sales accounted for approximately 5.1% of our sales, net. We also incur expenses in foreign currencies, primarily the Euro. In the three months ended September 30, 2018, Euro denominated expenses accounted for approximately 6.2% of our expenses. A substantial change in the rate of exchange between the U.S. dollar and the Euro could have a significant adverse effect on our financial results. A hypothetical 10% change in

the value of the U.S. dollar in relation to the Euro and British pound would have had an impact of approximately \$126,125 on our income from operations for the three months ended September 30, 2018.

If we do not enter into hedging arrangements, the more we expand our business outside the United States, the more our financial results will be exposed to exchange rate fluctuations. In the past, we have entered into forward contracts from time to time to reduce our exposure to foreign currency fluctuations. We recognize derivative contracts in the balance sheet at fair value, and reflect any net gains and losses currently in earnings. At September 30 and March 31, 2018, we had no forward contracts outstanding. Gain or loss on foreign currency forward contracts, which was de minimis during the periods presented, is included in other income and expense.

The functional currencies for our foreign operations are the Euro in Ireland and the British Pound in the United Kingdom. With respect to our consolidated financial statements, the translation from the applicable foreign currencies to U.S. Dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. The resulting translation adjustments are recorded as a component of other comprehensive income. The effect of foreign currency translation was a loss of (\$8,932) for the three months ended September 30, 2018 and was income of \$55,697 for the three months ended September 30, 2017. A hypothetical 10% change in the value of the U.S. dollar in relation to the Euro and British pound would have had an impact of approximately \$225,000 for the three months ended September 30, 2018 as a result of foreign currency translation.

Commodity price risk

We currently are not exposed to commodity price risks. We do not purchase the basic ingredients such as grain, sugar cane or agave that are converted into alcohol through distillation. Instead, we have relationships with various companies to provide distillation, bottling or other production services for us. These relationships vary on a brand-by-brand basis.

As of September 30, 2018, we did not have any hedging arrangements in place to protect our exposure to commodity price fluctuations.

Item 4. Controls and Procedures

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Disclosure controls and procedures are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that

information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding disclosure.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. As part of this evaluation, our principal executive officer and principal financial officer reviewed the material weakness in our internal control over financial reporting discussed below, including the implementation to date of the specific reconciliation and review procedures that are part of our remediation plans. Based on that evaluation, our principal executive officer and principal financial officer have concluded that these controls and procedures are effective as of such date.”

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 under the Securities Exchange Act of 1934, as amended, that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, except for the following:

Since the identification of a material weakness in our internal controls over financial reporting at March 31, 2018 over the recording of inventory transfers between domestic and foreign locations, management has begun implementing a remediation plan to address the control deficiency underlying the material weakness. The remediation plan includes:

Implementing specific reconciliation and review procedures on a quarterly as well as annual basis designed to ensure inventory is being accurately costed.

Management has had the foregoing reconciliation and review procedures in place and operating since and in the first quarter of the Company’s fiscal year ending March 31, 2019 and believes the material weakness has been remediated. Management intends to test and conclude that the enhanced control is operating effectively by March 31, 2019.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Please see Note 11 F. to our unaudited condensed consolidated financial statements elsewhere in this Quarterly Report on Form 10-Q.

Item 1A. Risk Factors

There have been no material changes to the risk factors previously disclosed in Part 1, Item 1A of our Annual Report on Form 10-K for the year ended March 31, 2018.

Item 5. Other Information

On November 8, 2018, we and our wholly-owned subsidiary, CB-USA, entered into a Sixth Amendment (the “Sixth Amendment”) to that certain Amended and Restated Loan and Security Agreement, dated as of September 22, 2014, with ACF, to amend certain terms of our existing \$25,000,000 Credit Facility with ACF.

Among other changes, the Sixth Amendment extended the termination date for the Credit Facility to July 31, 2020 and amended the definition of borrowing base to increase the amount of borrowing that can be collateralized by inventory. We and CB-USA paid ACF an aggregate \$57,500 commitment fee in connection with the Sixth Amendment.
