PROXY STATEMENT
December 22, 2015

The enclosed proxy is solicited by and on behalf of the Board of Directors of Chase Corporation (the “Company”) for the annual meeting of the Company’s shareholders to be held on February 2, 2016 at 9:30 a.m., and at any adjournment thereof (the “Meeting”). The cost of solicitation will be borne by the Company. In addition to solicitation by mail, directors, officers and regular employees of the Company may solicit proxies personally or by telephone.

The authority granted by a duly executed proxy may be revoked at any time before it is exercised by filing with the Secretary of the Company a written revocation or a duly executed proxy bearing a later date or by voting in person at the Meeting. Shareholders who attend the Meeting in person will not be deemed thereby to have revoked their proxies unless they affirmatively indicate at the meeting their intention to vote their shares in person. Unless a proxy is revoked, the shares represented thereby will be voted as directed. If no specifications are made, then proxies will be voted “for” the election of the directors nominated by the Board of Directors, “for” the ratification of the appointment of the Company’s independent registered public accounting firm, and in accordance with the judgment of the proxy holders as to any other matter that may be properly brought before the Meeting or any adjournment or postponement thereof.

On November 30, 2015, there were 9,228,417 outstanding shares of the Company’s common stock, \$0.10 par value per share, which is the only class of voting stock outstanding. Shareholders of record at the close of business on November 30, 2015 are entitled to vote at the Meeting. With respect to all matters that will come before the Meeting, each shareholder may cast one vote for each share of common stock registered in his or her name on the record date.

A majority in interest of the Company's common stock outstanding and entitled to vote represented at the Meeting in person or by proxy will constitute a quorum for the transaction of business at the Meeting. Directions to withhold authority, abstentions, and broker non-votes will be counted as present at the Meeting for purposes of determining the existence of a quorum at the Meeting. A “broker non-vote” occurs when a registered broker holding a customer’s shares in the name of the broker has not received voting instructions on a matter from the customer and is barred by applicable rules from exercising discretionary authority to vote on the matter and so indicates on the proxy.

The approximate date on which this proxy statement and accompanying proxy card will be first sent or given to shareholders is December 29, 2015. The Company’s annual report for the fiscal year ended August 31, 2015 will be sent to shareholders on the same date.

Important Notice Regarding the Availability of Proxy Materials for the Shareholder Meeting to Be Held on February 2, 2016:

Certain Transactions

Consistent with the requirements of the NYSE MKT, the Audit Committee of the Board of Directors of the Company reviews and oversees any transactions with a “related person” within the scope of the SEC’s rules on disclosure of such transactions. From time to time, the Board of Directors has formed a special independent committee of the Board comprised of independent and non-interested directors to review and oversee proposals relating to specific transactions with related persons on an ad hoc basis, although no such committee was used during the 2015 fiscal year. The Company does not have a written policy relating to such review.

Other than as described above, and other than the compensation and severance arrangements with the Company’s named executive officers and the director compensation arrangements described in “Executive Officer and Director Compensation,” the Company is not a participant in any transaction since the beginning of its last completed fiscal year, or any presently proposed transaction, involving more than \$120,000 in which any shareholder holding more than 5% of the Company’s common stock, any of its executive officers, directors, director nominees or the immediate family members of any of them, has or will have a direct or indirect material interest.

The current members of the committee are Messrs. Wroe (Chairman), Hughes and Derby. PROPOSAL 1
ELECTION OF DIRECTORS

Ten directors are to be elected at the Meeting. The Board of Directors recommends that the ten nominees named below be elected as directors. The directors elected at the Meeting will hold office until the next annual meeting and until their successors are elected and qualified. When a proxy in the accompanying form is properly executed and returned, unless marked to the contrary, all shares represented by such proxy will be voted for the election of the persons named below. If any nominee should become unable or unwilling to serve as director, then the persons voting the accompanying proxy may in their discretion vote for a substitute. The Board of Directors is not presently aware of any reason that would prevent any nominee from serving as a director if elected.

Vote Required

As long as a quorum is present, the nominees for director shall be elected by a plurality of the votes cast at the Meeting by the holders of shares entitled to vote at the Meeting. Votes may be cast in favor of the election of the nominees for director or withheld; votes that are withheld and broker non-votes will have no effect on the outcome of the election of directors.

Ronald Levy is a current member of the Company's Board of Directors. In September 2015, Mr. Levy informed the Company that he would not be standing for re-election at the Meeting.

Corporate Governance

The Company has long believed that good corporate governance and high corporate ethics are important to ensure that the Company is managed for the long-term benefit of its shareholders.

The Company's Board of Directors held five meetings during the fiscal year ended August 31, 2015. Each director attended at least 75% of the aggregate of all meetings of the Board of Directors and all meetings held by committees of the Board on which he or she served. The Company does not have a formal policy with respect to director attendance at annual shareholders meetings; however it does encourage all directors to attend. Seven out of the nine directors attended last year's annual shareholders meeting held in February 2015.

The Company has adopted the Chase Corporation Code of Ethics, which is applicable to all of our employees, including our Executive Chairman, President and Chief Executive Officer, Treasurer and Chief Financial Officer, Corporate Controller and other employees with important roles in the financial reporting process. The Company has also adopted a Code of Business Conduct and Ethics for Directors of Chase Corporation, which is applicable to members of our Board of Directors. The Chase Corporation Code of Ethics and the Code of Business Conduct and Ethics for Directors of Chase Corporation are both available on the Chase Corporation web site www.chasecorp.com. It is the Company's intent to disclose any amendment to these codes of ethics, as they apply to our directors and executive officers, and to disclose any waiver, including an implicit waiver, from the provisions of these codes of ethics as they relate to such directors and officers, on its web site.

Shareholders may contact an individual director, the Board as a group, or a specified Board committee or group, including the non-employee directors as a group, by writing to: Chase Corporation, 26 Summer Street, Bridgewater, Massachusetts 02324 Attn: Board of Directors.

The Board undertakes a review of director independence annually. As a result of its most recent review, the Board has determined that the following directors or nominees are independent, as defined in the listing standards of the NYSE MKT: Everett Chadwick, Jr., John H. Derby III, Lewis P. Gack, George M. Hughes, Chad A. McDaniel, Dana Mohler-Faria and Thomas Wroe, Jr. In making this decision, the Board considered all relationships between the Company and the directors, including: Mr. Chadwick's consulting services performed for the Company in fiscal 2015 prior to becoming a Board member, for which he was paid \$8,000, and his former employment relationship with the Company, which ended in 2006; Mr. Derby's consulting services performed for the Company in fiscal 2015 prior to becoming a Board member, for which he was paid \$850; and Mr. Hughes' role as outside general counsel to the Company (and \$84,000 in related compensation paid), as well as his administrative role as corporate secretary, which is a non-employee and non-officer position. The Board determined each such relationships, and the aggregate of such relationships, to be immaterial to the applicable director's ability to exercise independent judgment.

Board Leadership Structure

As part of the Company's succession plan, effective with its annual shareholders meeting held in February 2015, and as approved by the Board at that time, Adam P. Chase was named President and Chief Executive Officer of Chase Corporation and Peter R. Chase was named Executive Chairman of Chase Corporation. The Company had previously combined the offices of Chairman and Chief Executive Officer. Both the current Executive Chairman and the President and Chief Executive Officer have long histories with the Company, and the Board believes that its leadership structure makes the best use of their combined extensive knowledge of the Company and its industry, and enables clear communication between management and the Board.

While the independent directors meet regularly in executive session, the Board currently has elected not to have a designated lead independent director to chair meetings at which only independent directors are present. The Board's view is that given the relatively small size of the Board, the appointment of a lead independent director is not necessary at this time. The standing committees of the Board all have one or more overlapping members, and the Board feels that communication among committees is relatively efficient in light of this cross-fertilization of membership. The Board believes that it is appropriate to choose the director to lead a particular discussion on a case by case basis, depending on the matter to be discussed, and that the existing structure fosters collaboration among independent directors.

Board's Role in Risk Oversight

The Board is responsible for monitoring the risks that affect the Company, including operational, legal, regulatory, strategic and financial risks. As part of the regular Board meetings, management presents the Board with updates regarding key facets of the Company's operations. The Board is responsible for assessing risks based on its working knowledge of the Company and the risks inherent in the Company's business. As discussed below, the Audit Committee monitors the Company's financial and audit-related risks. The Compensation and Management Development Committee monitors any risks that may arise from the Company's compensation policies and practices.

Committees of the Board of Directors

The Board has the following standing committees: (a) Audit, (b) Compensation and Management Development, and (c) Nominating and Governance. All members of the committees serve at the pleasure of the Board of Directors. The functions and current membership of each committee are as follows:

8

Audit Committee. The Audit Committee recommends to the Board of Directors the engagement of the Company's registered public accounting firm, reviews the scope and extent of its audit of the Company's financial statements, reviews the annual financial statements with the registered public accounting firm and with management, and makes recommendations to the Board of Directors regarding the Company's policies and procedures as to internal accounting and financial controls. The current members of the Audit Committee are Lewis P. Gack, Chairman, Ronald Levy, Thomas Wroe, Jr. and Everett Chadwick Jr. Each member of the committee is independent, as independence for audit committee members is defined in the listing standards of the NYSE MKT and the applicable regulations of the Securities and Exchange Commission. The Board has determined that Mr. Gack is an audit committee financial expert as defined in Securities and Exchange Commission regulations. The Audit Committee held six meetings during the fiscal year ended August 31, 2015. The Audit Committee operates under a written charter that is available through the Company's website at www.chasecorp.com.

Compensation and Management Development Committee. The Compensation and Management Development Committee advises the Board of Directors on matters of management, organization, and succession, recommends persons for appointments to key employee positions, and makes the final decisions regarding compensation for directors, officers and key employees. The committee also administers the Company's equity incentive plans. The role of our Executive Chairman in reporting his evaluations of our other executive officers and making recommendations as to their compensation, as well as the committee's use of compensation consultants from time to time in benchmarking base salaries and providing other industry data, are described in more detail in the Compensation Discussion and Analysis presented elsewhere in this proxy statement. The members of the committee are Thomas Wroe, Jr., Chairman, George M. Hughes and John H. Derby III. Each member of the committee is independent, as independence for compensation committee members is defined under the listing standards of the NYSE MKT and the applicable regulations of the Securities and Exchange Commission. The committee held three meetings during the fiscal year ended August 31, 2015. The Compensation and Management Development Committee operates under a written charter that is available through the Company's website at www.chasecorp.com.

Nominating and Governance Committee. The Nominating and Governance Committee recommends persons for election as directors of the Company, and makes recommendations to the Board of Directors regarding the structure and membership of the various committees of the Board of Directors, including the Nominating and Governance Committee itself. The members of the Nominating and Governance Committee are George M. Hughes, Chairman, Ronald Levy and Lewis P. Gack. Each member of the committee is independent, as independence for nominating committee members is defined in the listing standards of the NYSE MKT. The Nominating and Governance Committee held two meetings during the fiscal year ended August 31, 2015. The Nominating and Governance Committee operates under a written charter that is available through the Company's website at www.chasecorp.com.

Committee assignments for the two director nominees who are not currently members of the Board of Directors have not yet been determined by the Nominating and Governance Committee.

Director Nomination Process

The Nominating and Governance Committee identifies individuals believed to be qualified to become Board members and recommends individuals to fill vacancies. In nominating candidates, the Committee takes into

9

consideration such factors as it deems appropriate, including judgment, experience, skills and personal character, as well as the needs of the Company. The Nominating and Governance Committee will consider nominees recommended by shareholders if such recommendations are made in writing to the committee. The Nominating and Governance Committee does not plan to change the manner in which the committee evaluates nominees for election as a director based on whether the nominee has been recommended by a shareholder or otherwise.

The Company's Bylaws provide that the Nominating and Governance Committee shall recommend for the election to the Board a lineal descendant or spouse of Edward L. Chase so long as the spouse of Edward L. Chase, his issue, a trust for the benefit of his spouse and/or his issue, or his estate owns 10% or more of the outstanding voting stock of the Company. The Bylaws also provide that the Nominating and Governance Committee shall recommend the Chief Executive Officer of the Company for the election to the Board.

The Company's Bylaws provide that the Nominating and Governance Committee may recommend to the Board of Directors any individual or individuals for election to the Board of Directors if, after such election, a majority of the Board of Directors shall consist of "non-affiliated directors." "Non-affiliated directors" are directors (i) who are not lineal descendants of Edward L. Chase (whether by blood or adoption); (ii) who are not the spouse of Edward L. Chase or of any of such spouse's lineal descendants; (iii) who are not at the time of determination, and shall not have been at any time within three years preceding such time, officers or employees of the Company (or its predecessor) or any of its subsidiaries, affiliates or divisions; (iv) who are not at the time of determination the beneficial owners of more than 10% of the issued and outstanding shares of any class of the Company's stock; and (v) who are not officers, employees, directors or partners of any person who at the time of determination is a holder of more than 10% of the issued and outstanding shares of any class of the Company's stock.

The Nominating and Governance Committee does not have a formal policy relating to diversity among directors. In considering new nominees and whether to re-nominate existing members of the Board, the committee examines each person's specific skills and attributes in the context of the skill sets represented on the Board as a whole, and seeks to achieve a Board with strengths in its collective knowledge and a broad diversity of perspectives, skills and business and professional experience. Among other items, the committee looks for a range of experience in strategic planning, sales, finance, executive leadership, legal and similar attributes.

In addition to the requirements relating to "non-affiliated directors" summarized above, at least a majority of the directors on the Board must be independent directors as defined in the rules of the NYSE MKT.

Audit Committee Report on Financial Statements for the Year Ended August 31, 2015

The Audit Committee of the Board of Directors is appointed by the Board of Directors. The members of the Audit Committee meet the independence requirements of the NYSE MKT. The Audit Committee, in accordance with its written charter, oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal

controls. Compensation Discussion and Analysis

Introduction

This Compensation Discussion and Analysis is intended to provide a context for the disclosures contained in this proxy statement with respect to the compensation paid to our Executive Chairman, Peter R. Chase, our President and Chief Executive Officer, Adam P. Chase, and our Treasurer and Chief Financial Officer, Kenneth J. Feroldi. As part of the Company's succession plan, effective with its annual shareholders meeting held in February 2015, and as approved by the Board at that time, Adam P. Chase, our then President and Chief Operating Officer, was named President and Chief Executive Officer of Chase Corporation and Peter R. Chase, our then Chief Executive Officer, was named Executive Chairman of Chase Corporation. Together, these three officers are referred to as the "named executive officers," and their compensation is detailed in the tables that follow this Compensation Discussion and Analysis. Specifically, this Compensation Discussion and Analysis will explain the objectives and material elements of the compensation of the named executive officers during the fiscal year ended August 31, 2015. This discussion does not cover compensation relating to our former Chief Financial Officer, Kenneth L. Dumas, as all compensation and severance provided for him in fiscal 2015 was accrued for at August 31, 2014, and was discussed in our summary compensation table and the related Compensation Discussion and Analysis in our proxy statement relating to our prior year's annual meeting. Kenneth J. Feroldi was appointed Chief Financial Officer on September 1, 2014, coinciding with the start of our fiscal 2015.

The Compensation and Management Development Committee of our Board of Directors has the responsibility of developing and overseeing a comprehensive compensation philosophy, with strategies and principles that have the support of the Board of Directors and management, and that ensure the fair and consistent administration of our compensation program. The Compensation and Management Development Committee makes recommendations to the full Board for approval relating to the total compensation to be paid to the named executive officers, including salary, performance bonus, equity awards, long-term awards, benefits and perquisites.

In this analysis, we refer to the Compensation and Management Development Committee as "the committee" or "the compensation committee."

Philosophy and Objectives of Our Compensation Program

The primary objectives of the compensation committee are to ensure that our executive compensation and benefits programs:

- retain executive talent by offering compensation that is commensurate with pay at other public companies of a similar size in the same or similar industries in the region, as adjusted for individual factors, and considering the complexity of the Company's business;
- safeguard our interests and the interests of our shareholders;
- are effective in driving executive performance by having pay at risk, so actual pay is tied to company-wide goal achievements and superior performance is rewarded;
- foster teamwork on the part of management;

- are cost-efficient and fair to employees, management and shareholders; and
- are well-communicated to and understood by program participants.

Our compensation committee believes that the most effective compensation program is one that will provide incentives that are directly linked to the achievement of company strategies through easily measured, company-wide performance targets, while providing a reasonable level of income security to the named executive officers through competitive base salaries and retirement benefits. To this end, our executive compensation reflects a balance of cash and non-cash compensation, and a mix of currently paid compensation and long-term incentives. The compensation committee does not set a rigid target for these mixes, and the mix will necessarily vary from year to year based upon our underlying financial performance. Our incentive plans combine financial targets to reward performance with time-based vesting to assist retention.

Committee Purposes and Responsibilities

One of the primary purposes of the compensation committee is to determine the total target compensation levels for the senior executive officers of the company and to establish and annually review the programs that will determine the actual rewards against those targets.

The committee is charged with ensuring that the target compensation levels and the allocation of short term and long term components are sufficient to attract, motivate and retain seasoned professional managers, while at the same time ensuring that the pay is reasonable and fair to our shareholders in light of the Company's financial performance and when compared to executive officers of similar position and responsibility at other businesses.

The committee is also responsible for reviewing the annual compensation for service on our Board of Directors or for service as a member or chair of any of the various committees of our Board of Directors, and, if appropriate, for recommending to the Board for approval any changes to those programs.

The committee has the authority to retain and terminate any legal counsel or any compensation or other consultant to be used to assist in the evaluation of director or executive compensation and has sole authority to approve the consultant's fees or other retention terms.

It also reviews and administers our equity compensation plans, and reviews any existing or proposed employment agreement, change in control or severance agreement, or any special or supplemental benefits not offered as part of a broad-based plan that are made available to our named executive officers. Where appropriate, it recommends

adoption, amendment, or termination of such programs or agreements to the full Board of Directors.

Role of Executive Officers in Compensation Decisions

Our compensation committee makes all determinations affecting the compensation for our named executive officers, including our Executive Chairman, and recommends those determinations to the full Board of Directors for approval. Our Executive Chairman attends meetings of the committee as a non-voting advisory member, except that he is not present for any discussion of his own compensation. The compensation committee receives and carefully considers our Executive Chairman's evaluations of all named executive officers other than himself, as well as his recommendations with respect to all components of compensation of the other named executive officers. In

reviewing and considering the evaluations and recommendations of the Executive Chairman, the committee takes into account the familial relationship between the Executive Chairman, Peter R. Chase and the President and Chief Executive Officer, Adam P. Chase, and satisfies itself that the recommendations are based solely on merit and performance. The committee expressly reserves the right to exercise its discretion in modifying any adjustments or awards recommended by our Executive Chairman, although historically the committee has given significant weight to the recommendations of our Executive Chairman with respect to the other named executive officers.

Use of Compensation Consultants and Benchmarking Data

A description of the extent to which we have historically benchmarked our base salary levels against other companies is described below under “Base Salary.” The committee has taken advice from expert compensation consultants engaged both by the committee and by management to set up the position values and salary ranges for executive officers and continues to adjust base salaries annually in order for the Company to be competitive with respect to executive compensation. The compensation consultants have used similar benchmarking data in recommending the performance based components of the executive compensation package. The committee engaged a compensation consultant, Pearl Meyer & Partners (“Pearl Meyer”) in fiscal 2013, and Pearl Meyer completed the process of performing a full review of executive and all exempt employee compensation in 2014. Pearl Meyer provided the committee and management with recommendations based on this review. Prior to engaging Pearl Meyer, the compensation committee assessed the independence of the consultant from management and, on the basis of that assessment and taking into consideration the independence factors that are required to be considered by applicable stock exchange rules, satisfied itself that no relationships exist that would create a conflict of interest or that would compromise Pearl Meyer’s independence from management.

Principal Elements of our 2015 Compensation Program

There were up to three principal elements of compensation for our named executive officers during fiscal 2015. These were:

- base salary;
- a cash bonus component based on the performance of our business against corporate objectives under our annual cash incentive plan; and
- for our named executive officers other than our Executive Chairman, long term incentive compensation in the form of equity awards including:
 - a restricted stock award based on the performance of our business against different corporate objectives (comprising 50% of the total equity component target value for our Chief Executive Officer, and 67% for our Chief Financial

Officer);

- a time-based vesting restricted stock award (25% of the total equity component target value for our Chief Executive Officer, and 33% for our Chief Financial Officer); and
- stock options (25% of the total equity component target value for our Chief Executive Officer).

14

Beginning in fiscal 2013, as a result of discussions between the compensation committee and Peter R. Chase, at the time our Chief Executive Officer and currently our Executive Chairman, the committee determined that Mr. Chase would not participate in the equity component of the Company's executive compensation programs going forward. This shift in the allocation of annual pay components for Peter R. Chase away from equity-based awards reflects recognition that his equity accumulation from previous years of service has already fulfilled the primary purpose of equity awards, in aligning the interests of a key member of management with the long-term interests of shareholders and reinforcing an incentive to maximize shareholder value. The committee recognized the diminishing incremental benefit of additional equity awards in achieving these and other objectives such as retention. The Executive Chairman's compensation program for 2015, therefore, consisted primarily of his salary and the cash incentive program. The committee has retained the equity component of its executive compensation program for its other named executive officers.

The financial measurement metrics and targets used in both the annual cash incentive plan and the annual equity award plan are subject to annual review by the committee, which reserves the right to set different objectives on either the cash incentive plan or equity award program as it feels appropriate in light of the annual and long term objectives of the Company. As discussed in more detail below, the committee utilizes differing financial performance targets for the cash incentive plan and the equity awards program. The two programs also differ in the dollar value of the target awards and in their vesting provisions, since payments under the cash incentive plan are made after the end of each fiscal year, and the equity awards (including those that are subject to additional performance-based vesting criteria) customarily vest over a period of three years from the time of grant. The total compensation package thus provides a mix of (1) current cash payments in the form of salary, independent of year-to-year financial performance; (2) annual cash payments determined by reference to the Company's actual results of operations for the year compared to a target; and (3) equity awards for named executive officers other than our Executive Chairman, subject to vesting provisions relating to the Company's financial results, together with restricted stock and (in the case of our Chief Executive Officer) stock options that are not specifically tied to financial performance, but are subject to time-based vesting provisions in order to foster our retention objectives.

The cash incentive plan for 2015 sets target compensation levels with respect to earnings before interest expense, taxes, depreciation and amortization ("EBITDA"), as adjusted at the discretion of the committee ("Adjusted EBITDA" or "EBITDA-based target"). The equity award program sets target compensation levels with respect to our earnings per share ("EPS") for the fiscal year in question, as adjusted at the discretion of the committee. As a result, a substantial proportion of our named executive officers' total compensation is tied to our earnings in each fiscal year. The committee determined for 2015 that an EBITDA-based target is the most appropriate tool for measuring the underlying performance of the Company and its management team for the annual incentive plan, while EPS is used for the equity plan as it is a more common and consistent measure for longer term incentive programs and aligns with how shareholders are rewarded. In addition, the committee has chosen to emphasize company-wide achievement of financial objectives in this manner, as opposed to emphasizing more subjective individual performance criteria or measurements based upon business units or other operating data, because it believes it is important to use a metric that is easily measured and understood from the beginning of the year, that fosters teamwork among the management team, and that most directly aligns the interest of the named executive officers with those of all shareholders. The committee does retain discretion to adjust or supplement the cash incentive awards paid, either upward or downward.

The following discussion seeks to explain why the compensation committee has chosen to pay each compensation element, how it determines the amount of each element, and how the element and the committee's

decisions regarding that element in fiscal 2015 fit into the Company's overall compensation objectives and affect decisions regarding other elements.

Base Salary. We pay a base salary to each of our named executive officers. The objective is to provide base compensation to the executive that is competitive with base compensation that the executive could earn in a similar position at other companies. A range of base salary levels for key positions in the Company was established most recently in 2014 upon the recommendation of a compensation consultant, Pearl Meyer, which was engaged by the committee to provide analysis and input on executive pay and incentive plan design for the top three executive officers, in addition to all exempt employee compensation. The ranges for these key positions were established taking into account benchmarking data provided by the compensation consultant which included a survey of the following 16 companies:

Advanced Emissions Solutions Inc.	Hawkins Inc.
American Pacific Corp	Intrepid Potash Inc.
American Vanguard Corp	KMG Chemicals Inc.
Arabian American Development	Landec Corp
Core Molding Technologies Inc.	Material Science Corp
Flotek Industries Inc.	Penford Corp
FutureFuel Corp	PGT Inc.
GSE Holding Inc.	Zoltek Cos Inc.

The companies surveyed had median revenues in the one year prior to the survey of approximately \$298 million (putting us at the 29th percentile), median full time employees of 502 (putting us at the 72nd percentile) and median market capitalization of approximately \$416 million (putting us at the 35th percentile). Our market capitalization to revenue ratio was at the 49th percentile relative to the companies surveyed. In comparison to the peer group, Pearl Meyer reported that at that time our Chief Executive Officer's compensation was in the top quartile with respect to cash compensation and at median with respect to total compensation, while our Chief Operating Officer's total compensation and cash compensation were above median, and our Chief Financial Officer's compensation was above the median with respect to cash compensation and below median for total compensation. At the time of the report, the positions of Chief Executive Officer, Chief Operating Officer and Chief Financial Officer constituted our named executive officers. Individual executives' base salaries are set initially upon hiring or promotion to a position within the established range, taking into account each executive's experience in the role and other subjective factors, and are reviewed annually thereafter. As outlined above, the Executive Chairman makes salary adjustment recommendations to the committee with respect to the named executive officers other than himself. Historically, salary increases have been aligned with movement of the market or higher in circumstances where executives are promoted to substantially increased responsibilities. For fiscal 2015, the committee increased the salary of Adam P. Chase, our Chief Executive Officer and President, by 10.4%, and Kenneth J. Feroldi was promoted into the position of Chief Financial Officer (he previously held the role of Finance Director, and was not a named executive officer). The committee did not change the base salary of Peter R. Chase, our Executive Chairman. The increase for Adam P. Chase was based on his outstanding performance in fiscal 2014, and progression in his development toward becoming the Chief Executive Officer. The committee intends from time to time, but not necessarily annually, to revisit the salary ranges used by reference to updated benchmark data, in order to ensure that salaries remain competitive but not excessive.

Cash Incentive Plan. At the beginning of each fiscal year, following the annual budget presentation by management to the Board of Directors, the committee sets a corporate performance target for the upcoming fiscal year to be used in connection with the company's incentive compensation programs. As noted above, for fiscal 2015 this financial target was established as an EBITDA-based target under the cash incentive plan. The EBITDA-based target was set by the committee with reference to both historical performance and expected future performance. The committee believes that the targets set as a general matter should be reasonably attainable through consistent performance as compared to recent years, and it is the committee's expectation that the actual awards granted under the relevant plan will exceed the "target" awards where management achieves growth over historical annual Adjusted EBITDA levels. The EBITDA-based targets are set in a way that tends to generally reflect improvement over historical results, at least during periods of multi-year growth in Adjusted EBITDA, but do not always reflect improvement over the most immediately preceding fiscal year. For fiscal 2015, the corporate EBITDA-based target set by the committee was \$47.0 million, subject to further adjustment, as noted below.

At the end of the fiscal year, actual results are compared to the target established at the beginning of the year. In establishing the compensation program, it is the Board's intent to exclude from actual performance measurements the effect of unusual or nonrecurring events, income or expenses from the calculations. The committee consequently has the discretion to decide, and has decided from time to time in the past, to exclude certain items or to make other adjustments in order to fairly reflect our underlying operating performance for the year. For fiscal 2015, the committee made a net \$3.4 million increase to the EBITDA-based target (resulting in a revised EBITDA-based target of \$50.4 million), in order to account for the effect of the Company's acquisitions made during fiscal 2015.

In order for any amounts to be payable under the plan, the Company must meet a threshold level of 90% of the EBITDA-based target. Actual payments are made under the plan by reference to the target awards established by the committee for each of the named executive officers as a percentage of their base salaries, although they can be subject to adjustment as described below. The maximum award under the cash incentive plan is reached at 120% of the target performance measure. The Company's actual Adjusted EBITDA was \$55.6 million for fiscal 2015, and represented achievement at approximately 110% of the target amount for the year.

Amounts potentially payable under the cash incentive plan, as a percentage of salary, and amounts actually paid are reflected in the table below for fiscal year 2015.

Name of executive	Cash Awards Payable for 2015			Actual FY 2015 Payments	
	At 90% of target (as percentage of base salary)	At 100% of target	At 120% of target	Award as percentage of annual salary	Final payments made
Peter R. Chase	75	% 150	% 300	% 226	% \$ 1,356,198
Adam P. Chase	25	% 50	% 100	% 75	% \$ 271,240
Kenneth J. Feroldi	15	% 30	% 60	% 45	% \$ 102,845

A similar cash incentive program was approved by the committee and maintained and paid out of a bonus pool, with payments determined by reference to our EBITDA-based target, for other key employees at the Company. In fiscal 2015, approximately 100 employees participated in that program (with most payments at the discretion of the Executive Chairman and the Chief Executive Officer).

Equity Incentive Plan. The third element of our compensation program is our equity-based long-term incentive plan. In 2015 our equity incentive plan used a combination of three types of equity awards: performance-based restricted stock, time-vesting restricted stock and stock options. For the reasons discussed above, Peter R. Chase does not participate in the equity incentive plan.

Our Chief Financial Officer, Kenneth J. Feroldi, received a combination of performance-based restricted stock and time-vesting restricted stock, but the components of his equity incentive plan award did not include a stock option grant in light of his relatively low direct equity ownership (having been appointed Chief Financial Officer in September 2014 and not having participated in the equity incentive plan prior to his appointment) and given that his equity award target represents a lower percentage of his salary than the total equity award for Adam P. Chase, our Chief Executive Officer.

The performance-based element measured annual performance against an earnings per share (“EPS”) based target for fiscal 2015 and represented 50% of the total target equity award for Adam P. Chase and 67% of the target equity award for Kenneth J. Feroldi, prior to the adjustment for Mr. Feroldi described below. The other half of the total target equity award for Adam P. Chase was split evenly between time-based vesting restricted stock and stock options and the entire remaining total equity award for Kenneth J. Feroldi consisted of time-based vesting restricted stock.

The following table shows, for each of the named executive officers participating in the equity incentive plan, the total target equity awards for each officer as determined at the beginning of the fiscal year (prior to giving effect to the one-time adjustment for Mr. Feroldi described below).

Name	Target Equity Award as % of		Value at	Performance	Time Vesting	Stock Options at
	Salary		Grant Date	Shares at Grant Date (1)	Shares at Grant Date (2)	Grant Date (3)
Adam P. Chase	100	%	\$ 360,000	5,070	2,535	7,438
Kenneth J. Feroldi	45	%	\$ 102,375	1,923	961	-

(1) Value represents 50% and 67% of the total equity award target for Adam P. Chase and Kenneth J. Feroldi, respectively, and assuming achievement at 100% of the performance targets, using the closing share price on the last day of the prior fiscal year. Based upon actual fiscal 2015 financial performance, the total actual payout for the performance share component of the equity compensation plan for fiscal 2015 was 9,192 shares for Adam P. Chase and 3,486 shares for Kenneth J. Feroldi (subject to additional time-based vesting provisions), calculated in the manner described under “Performance-based restricted stock” below.

(2) Value represents 25% and 33% of the total equity award targets for Adam P. Chase and Kenneth J. Feroldi, respectively, using the closing share price on the last day of the prior fiscal year.

- (3) Value represents 25% of the total equity award for Adam P. Chase, using the Black-Scholes value of the options on the last day of the prior fiscal year.

In lieu of the 961 time-based vesting restricted shares that Kenneth J. Feroldi would have been entitled to under the arrangements described above, his award of time vesting restricted stock (which would have represented 33% of his preliminary target equity award as outlined in footnote (2) to the table above) was substituted with a one-time, immediately vested stock award of 1,127 shares, with a grant date fair value of approximately \$40,000. This

adjustment was made for the initial year of his participation in the Company's equity incentive plan, coinciding with his appointment to the role as Chief Financial Officer, taking into account both his promotion and his years of service to the Company without participating in the equity incentive plan. Taking this adjustment into account, Mr. Feroldi's actual equity award at the grant date represented 48% of his salary instead of 45%, split between performance-based shares (63% of the target equity award) and time-based vesting shares (37% of the target equity award).

In the event of a named executive officer's retirement, death or disability or dismissal without cause before the scheduled vesting date, then the awards will vest pro rata to the date of the termination of employment. In the event of a named executive officer's voluntary termination of employment or termination for cause, all of the award will be forfeited. Upon a change of control of the Company, any unvested awards will automatically vest.

Each of the three types of equity awards that collectively comprise our equity incentive plan are described in more detail below:

- Performance-based restricted stock. The performance-based restricted stock awards are made at the beginning of the year based upon the target performance levels, with the target number of shares being determined by dividing the target equity award value by our stock price on the grant date. For fiscal 2015, the corporate EPS target set by the committee was \$2.38, subject to adjustment, as noted below.

The final award amounts are determined after the end of the fiscal year by reference to our actual performance for the year. In order for any payments to be made under the equity incentive plan, the Company must achieve at least 90% of the EPS target. If the Company achieves less than 90% of the performance target, the full award would be forfeited. If the Company achieves 90% of that target, then the actual payment would be 50% of the target shares (with the other 50% being forfeited). If the Company achieves 100% of the target, then the actual payment would be 100% of the targeted share amount. Achievement between 90% and 100% would be pro-rated. If the Company achieves 120% of the target then the executive's equity award would be 200% of the targeted share amount. Achievement between 100% and 120% would be pro-rated. The total opportunity is capped at 200% of the targeted share amount. Accordingly, there is no incremental award at performance levels above 120% of the earnings per share target.

EPS as defined in the plan may differ from earnings per share as calculated under generally accepted accounting principles, since the plan uses the fully diluted number of shares outstanding as of the first day of the fiscal year and may include other adjustments as determined by the compensation committee. Our basic and diluted EPS as reported under U.S. generally accepted accounting principles for fiscal 2015 were \$2.87 and \$2.82 per share, respectively. For fiscal 2015, the committee made a net \$0.8 million (or \$0.09 per share) increase to the original EPS-based target used in evaluating performance (resulting in a revised EPS-based target of \$2.47 per share). This increase was intended to account for the effect of acquisitions made during fiscal 2015. Using the fully diluted number of shares outstanding as of September 1, 2014, the EPS used for purposes of evaluating performance under the 2015 equity plan was \$2.87, or approximately 116% of the target. The actual payments made under the performance share component of the plan thus represented approximately 181% of the targeted share amount.

The final share amounts are calculated and approved by the compensation committee upon finalization of our financial results for the fiscal year. Equity awards made for fiscal 2015 exceeded the target levels because of the strong earnings achieved by the Company during that year. The restricted stock will not vest, however, until the last day of the second fiscal year following the fiscal year that is used as the performance period. In other words, the performance-based equity awards for fiscal 2015 will vest on August 31, 2017.

The committee believes that the combination of performance measures to determine the number of shares of common stock underlying each award, and the “cliff” vesting of the award two years after the end of the performance period, is useful in accomplishing the dual objectives of rewarding superior performance and encouraging retention of its qualified executives.

- Time-based vesting restricted stock. The committee has incorporated time-based vesting shares into our long-term incentive plan for participating executive officers since 2011. The purpose of the time vesting restricted stock grant is to provide a long term incentive in the form of a fixed award that is not subject to a performance measurement target. The number of shares is determined by reference to the value of the award (25% and 33% of the total target equity award value for Adam P. Chase and Kenneth J. Feroldi, respectively) divided by the closing market price of our common stock on the last day of the prior fiscal year. The shares vest in three years from their grant, or on August 31, 2017. As noted above, in lieu of 961 time-based vesting restricted shares that would otherwise have been awarded to him under this arrangement, Mr. Feroldi received 1,127 shares of immediately vested common stock (a grant date value of \$40,009) as a one-time award made concurrently with his appointment to the role of Chief Financial Officer.
- Stock options. Since fiscal 2011, the committee has incorporated stock option grants into our long-term incentive plan on a formulaic basis as part of the overall long term incentive plan for certain executive officers. Thus, 25% of the total target value of the equity plan awards for 2015 for Adam P. Chase was made in options to purchase common stock. The purpose of the option grant was to further align the executive’s interests with that of the shareholders, to encourage equity participation among management team members and provide a long-term incentive for his future commitment as a key member of the executive management team. The option grant was made effective as of September 1, 2014, with an exercise price equal to the fair market value of the common stock on that date. The number of shares of common stock subject to Adam P. Chase’s option grant was determined by taking 25% of his total equity award opportunity and dividing it by the Black-Scholes value of an individual option on the date of grant. The options granted in fiscal 2015 will vest in three equal annual installments, beginning on August 31, 2015. Mr. Feroldi did not receive a stock option grant for the reasons noted above.

Discretionary Bonuses. The committee does not consider discretionary bonuses to be a material part of the executive compensation program, outside of the cash incentive plan described above. As noted above, the committee has the discretion to adjust an award determined under the cash incentive plan upward or downward, and has exercised that discretion in prior years in a manner that has historically had a small impact on total compensation compared to the objective components.

In fiscal 2015, the committee determined not to issue any such discretionary payments.

Voting and Dividends on Stock Awards. Participants in the equity award program are able to vote and receive dividends upon their restricted shares before the vesting period. The committee has determined that permitting the participants to vote and receive dividends prior to the vesting of the awards was appropriate and consistent with the committee's retention and pay for performance objectives. The committee took into account the fact that dividends on unvested awards would typically represent a small percentage of the executives' total compensation. Dividends paid on unvested awards are not required to be repaid if the vesting provisions are not met, but the underlying shares themselves remain subject to forfeiture through the vesting date, putting the bulk of the economic value of the award at risk and subject to the performance and time-based vesting conditions.

Retirement Programs

In addition to the primary components of executive pay described above, we maintain certain retirement plans and benefits for our executive officers. Many of these plans are available to larger groups of employees. The committee feels that the opportunity to participate in programs that assist the executives and other employees in saving for retirement is an important part of those employees' compensation package.

- Our named executive officers may elect to make contributions to a retirement account in our 401(k) plan, which is available to substantially all of our employees and under which we made a matching contribution to each participant in each of the last three fiscal years. The matching contribution under the 401(k) plan is the equivalent of 100% of the first one percent of the employees' pre-tax contribution to the plan plus 50% thereafter, up to an amount equal to three and one half percent of the employee's annual salary. Our matching contributions to the accounts of the named executive officers are shown in the "All Other Compensation" column in the Summary Compensation Table.
- We also maintain a non-qualified Supplemental Savings Plan covering selected employees, including our named executive officers. Participants may elect to defer a portion of their compensation for future payment in accordance with the terms of the plan.
- We maintain a tax-qualified defined benefit pension plan and a non-qualified Supplemental Pension Plan. The Supplemental Pension Plan covers those of our employees who from time to time may be designated by our Board of Directors. During fiscal 2015, our Executive Chairman, Peter R. Chase, and our President and Chief Executive Officer, Adam P. Chase, were designated as being covered. These plans are described in more detail under "Executive Compensation—Other Executive Plans—Pension Plan". As noted in that section, benefits are paid at a higher rate to employees who became employed prior to May 1, 1995 or who are covered by certain collective bargaining agreements and meet certain other qualifications, as compared to those who were employed after that date. Of our named executive officers, only our Executive Chairman was employed prior to May 1, 1995, and therefore only he accrues benefits at the higher rate.

Other Benefits

We own a life insurance policy on the life of Peter R. Chase as a mechanism to help fund our obligations under the unfunded, nonqualified excess benefit plan described above.

We also provide Peter R. Chase with a company car and a golf club membership. We provide our other named executive officers a car allowance of \$1,000 per month. We provide each of our named executive officers reimbursement for certain financial planning and tax services up to \$5,000 per year. Our compensation committee

considers these arrangements to be fair and reasonable in light of the relatively low cost to the Company. These amounts are reported as income to the executive for tax purposes.

Named executive officers may also participate in our medical and dental insurance offerings by electing to make payroll deductions designed to cover approximately 25% of the cost of these programs (with the company covering the other 75% of the cost). We also provide disability and life insurance coverage for our named executive officers and pay a portion of the related premiums.

Named Executive Agreements

As any of our named executives were hired by us, promoted or have taken on additional responsibilities, we enter into agreements with them pursuant to which they would be entitled to receive severance benefits upon termination by us without cause, or upon the occurrence of certain enumerated events during the two years following a change in control. The events that trigger payment are generally those related to termination of employment without cause or detrimental changes in the executive's terms and conditions of employment. See "Payments Upon Termination or Change of Control" below for a more detailed description of these triggering events and the resulting benefits. We believe that this structure will help: (i) assure that the named executive officers can give their full attention and dedication to us, free from distractions caused by personal uncertainties and risks related to a pending or threatened change in control, (ii) assure the named executives' objectivity in considering shareholders' interests, (iii) assure the named executives of fair treatment in case of involuntary termination following a change in control, and (iv) attract and retain key executive talent in a competitive market.

Consideration of the 2015 Shareholder Advisory Vote on Executive Compensation

At the Company's 2015 annual meeting of shareholders, 98% of votes cast at the meeting with respect to the proposal were voted to approve, on an advisory basis, the compensation of our named executive officers. No specific component of our 2015 executive compensation program was altered based upon this voting result. However, the committee will continue to monitor shareholder feedback as it reviews and establishes future executive compensation plans and determines awards for our named executive officers. Our Board of Directors has determined that an advisory vote will be conducted on a triennial basis (next planned to be done at the Company's 2018 annual meeting).

Compensation Risks

The Compensation and Management Development Committee has considered the components of the Company's compensation policies and practices. We believe that risks arising from our compensation policies and practices for our employees, including our executive officers, are not likely to have a material adverse effect on us. In addition, although a significant portion of executive compensation is performance based and "at-risk," the committee believes that

the mix and design of the elements of executive compensation do not encourage management to assume excessive risk.

The committee has reviewed the elements of executive compensation to determine whether any portion of executive compensation encouraged excessive risk taking. It concluded that:

- the Company's significant weighting toward long-term incentive compensation, including performance targets and time-based vesting provisions used in tandem, discourages excessive risk taking;

- the Company's performance goals are appropriately set in order to avoid targets that, if not met, result in a large percentage loss of compensation;
- assuming achievement of at least a minimum level of performance, payouts under the Company's performance-based plans result in some compensation at levels below full target achievement, rather than an "all or nothing" approach; and
- as a manufacturing company, the Company is not generally subject to the types of risks that may be present in a corporation involved in financial services, trading or investment activities.

Impact of Tax and Accounting Issues

Section 162(m) of the Internal Revenue Code denies a tax deduction to a public corporation for annual compensation in excess of one million dollars paid to its Chief Executive Officer and certain of its other most highly compensated officers, unless such compensation is paid pursuant to one of the enumerated exceptions set forth in Section 162(m) of the Code, which include an exception for "performance based" compensation meeting certain requirements. Where possible, the committee attempts to structure its compensation programs such that compensation paid will be tax deductible whenever it is consistent with our compensation philosophy. However, the committee has not adopted a policy requiring all compensation to be tax deductible. Our compensation committee believes that factors other than tax deductibility are more important in determining the forms and levels of executive compensation most appropriate and in the best interests of our shareholders. Our compensation committee believes that it is important to retain the flexibility to design compensation programs consistent with our executive compensation philosophy, even if some executive compensation is not fully deductible. Also, the deductibility of some types of compensation payments will depend on the timing of an executive's vesting or exercise of previously granted rights. Accordingly, our compensation committee may from time to time approve elements of compensation for certain executives that are not fully deductible.

In addition, the compensation committee considers the impact of Section 409A of the Internal Revenue Code, which imposes certain requirements on "nonqualified deferred compensation plans." These may be particularly relevant in the case of compensation paid after termination of a named executive officer's employment under the change in control and severance agreements discussed above. We believe that this compensation is in compliance with the applicable requirements of Section 409A.

Report of the Compensation and Management Development Committee

The Compensation and Management Development Committee of the Chase Corporation Board of Directors has reviewed and discussed the foregoing Compensation Discussion and Analysis with management of the Company and, based on such review and discussion, we recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement.

The following table contains a summary of the compensation paid or accrued during the fiscal years ended August 31, 2015, 2014 and 2013 to our Executive Chairman, our President and Chief Executive Officer, and to our Treasurer and Chief Financial Officer.

Summary Compensation Table

Chief Financial Officer	2015	227,500	-	108,275	-	102,845	-	27,717

(1) Mr. Feroldi was appointed Treasurer and Chief Financial Officer on September 1, 2014, coinciding with the start of fiscal 2015.

(2) Salary includes amounts earned in the fiscal year, whether or not deferred.

(3) Amounts reported in this column for Peter R. Chase reflect the annual reimbursements to Mr. Chase by the Company for the cost of premiums incurred by him for certain life insurance policies owned by him. The Company agreed in January 2005 to make these premium payments on behalf of Mr. Chase for a nine year period in connection with his restructuring of previously existing split dollar arrangements as a result of the enactment of the Sarbanes-Oxley Act of 2002 and the issuance by the Internal Revenue Service of regulations relating to the treatment of so-called "equity" split dollar arrangements. The final payment under this arrangement was made in

2013. The amounts reflected in this column for the other named executive officers represent discretionary adjustments to their payments under the Company's cash incentive plan.

- (4) Amounts under "Stock Awards" reflect the grant date fair value of the stock-based incentive awards granted under our equity incentive program in that fiscal year, based on the estimated probable outcome of the award as of the grant date (in the case of the portion of the award subject to performance conditions). Amounts under "Option Awards" reflect the grant date fair value of stock options awarded during the fiscal year. In each case, amounts are reported whether or not the award had vested and was recorded as compensation expense in accordance with the accounting for stock based compensation guidance during the year. Assumptions made in the valuation are described in more detail in Note 1 to our Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended August 31, 2015. The amounts reported have been adjusted to eliminate service-based forfeiture assumptions used for financial reporting purposes. Using the grant date fair value but assuming the maximum performance target under the stock-based incentive plan were met or exceeded, the

amounts reported under “Stock Awards” for 2015 would have been \$450,000 for Adam P. Chase, and \$176,550 for Kenneth J. Feroldi. The total compensation column for such officers in 2015 would have correspondingly been increased by \$180,000 and \$68,275 respectively. Based on the financial results for fiscal 2015, amounts between the amount reported under “Stock Awards” and the maximum performance amounts were achieved.

- (5) These amounts reflect incentive payments made under our Annual Cash Incentive Program earned during the applicable fiscal year and paid in November following the respective fiscal year end. The incentive program is described in the Compensation Discussion and Analysis under the heading “Principal Elements of our 2015 Compensation Program—Cash Incentive Plan”.
- (6) Represents the current year benefit increase (or decrease) of the present value of the qualified defined benefit plan as well as the supplemental pension plan as described under “—Other Executive Plans—Pension Plan”.
- (7) These amounts include all other compensation as described in the following table:

Name	Fiscal Year	Qualified 401(k) and Supplemental Retirement Plan Contributions (a)	Life & Long-Term Disability Insurance Premiums (b)	Automobile Allowance or Use of Company Car (c)	Other (d)	Total

Kenneth J. Feroldi	2015	12,627	1,936	12,000	1,154	27,717

- (a) This amount represents the contribution by the Company on behalf of the named executive officers to the Chase Corporation Retirement Savings Plans.
- (b) These amounts include the portions of premiums paid by the Company for life insurance coverage exceeding \$50,000.
- (c) These amounts represent automobile allowances or personal use of a company leased car.

(d) These amounts represent payment of dividends on restricted stock, country club membership, and all other compensation (consisting of reimbursement for financial planning and tax services) as follows:

Name	Fiscal Year	Dividends on Restricted Stock	Country Club Membership	All Other	Total
Peter R. Chase	2015	\$ -	\$ 1,078	\$ 568	\$ 1,646

Grants of Plan-Based Awards for Fiscal 2015

The following table sets forth information relating to potential payments to each of our named executive officers under our fiscal 2015 cash and equity-based incentive award programs. The actual amounts that we paid under each of these programs are reflected in the Summary Compensation Table and its footnotes and are described in more detail under our Compensation Discussion and Analysis under the heading “Principal Elements of our 2015 Compensation Program—Cash Incentive Plan” and “—Equity Incentive Plan”.

Approval Date	Estimated Possible Payouts Under Non-Equity Incentive Plan Awards			Estimated Future Payouts Under Equity Incentive Plan Awards			All Other Stock Awards (#)	Number of Securities Underlying Options (#)

14	8/20/2014				961	1,923	3,846		
14	8/20/2014								1,127

Amounts in the table above under “Threshold” represent cash amounts payable under the cash incentive plan if 90% of the corporate EBITDA-based performance target is achieved, representing a specified percentage of the named executive officers’ base salaries, and share amounts payable under the performance based equity incentive

program if 90% of the corporate EPS-based performance target is achieved. Below those performance levels, no payments would be made under the respective plans. Amounts under “Target” represent 100% of the target payout under each of those plans, which is set in each case as a specified percentage of the named executive officer’s base salary. The maximum payout under either the cash incentive plan or the performance based equity award program is 200% of the target award. The Compensation and Management Development Committee of the Board of Directors formally approved the equity awards on August 20, 2014. The grant date fair value of the possible equity awards reflects the fair value of our common stock on September 1, 2014, the first day of our fiscal year and the date on which awards were granted, multiplied by the total number of shares of restricted stock to be awarded assuming the target was met (assumed to be the probable outcome of the performance conditions at the grant date). The awards were actually paid in accordance with the plans upon finalization of our annual financial results and certification of the awards by the compensation committee in November 2015. In the case of both the performance-based equity award and the cash incentive plan, the actual payments for fiscal year 2015 reflected the achievement of an amount between the target and the maximum payout for the participating officers.

Outstanding Equity Awards at Fiscal Year-End 2015

The following table sets forth information relating to options and unvested restricted stock outstanding as of August 31, 2015 that were granted pursuant to our 2005 Equity Incentive Plan or predecessor plans to our named executive officers. As of August 31, 2015, the Company had not yet made any awards under the 2013 Equity Incentive Plan.

The stock option award noted in the table above with an August 2024 expiration date vests in three equal annual tranches beginning August 31, 2015 through August 31, 2017. The stock option award noted in the table above with an August 2023 expiration date vests in three equal annual tranches beginning August 31, 2014 through August 31, 2016.

Amounts under the “Stock Awards” columns reflect restricted stock issued under our equity incentive programs for fiscal 2015 and 2014. The columns include the value of the share amounts issued during fiscal 2015 and 2014, even though the final number of shares comprising the 2015 award was not certified until after the fiscal year end and remained subject to increase or decrease as of August 31, 2015. The market value of all restricted stock is based on the closing price of our common stock on the last trading day in the fiscal year. The closing price as reported by the NYSE MKT on August 31, 2015 was \$39.50.

Stock awards for fiscal 2014 will vest on August 31, 2016 and awards for fiscal 2015 will vest on August 31, 2017 as outlined in the table below (as of August 31, 2015):

Name	Vesting of Stock Awards	
	August 31, 2016	August 31, 2017
Peter R. Chase	—	—
Adam P. Chase	13,712	7,605
Kenneth J. Feroldi	—	1,923

As noted above, subsequent to August 31, 2015, 4,122 and 1,563 additional stock awards vesting August 31, 2017 were granted to Adam P. Chase and Kenneth J. Feroldi, respectively, under our equity incentive program for fiscal 2015 under the financial performance measures applicable to that plan. Because the amount was determined after August 31, 2015, based on our fiscal year performance, these shares are not reflected in the tables above. See the discussion under “Principal Elements of our 2015 Compensation Program—Equity Incentive Plan” in our Compensation Discussion and Analysis above.

Option Exercises and Stock Vested for 2015

The following table sets forth information relating to options exercised in the year ended August 31, 2015 that were granted pursuant to our 2005 Equity Incentive Plan or predecessor plans by each of our named executive officers. The table also reflects stock vesting during fiscal 2015, which represented for Adam P. Chase the equity incentive awards made during fiscal 2013 and for Kenneth J. Feroldi the one-time grant of fully vested shares in September 2014, in lieu of his time-based vesting shares.

Payments Upon Termination or Change of Control

Executive Severance and Change in Control Agreements. The Company has entered into severance arrangements with Peter R. Chase, Adam P. Chase and Kenneth J. Feroldi. Under the terms of each name executive officer's severance agreement (or in the case of Mr. Feroldi, his offer letter), if the named executive's employment is

terminated by the Company without cause, or terminated by the executive within 24 months after the occurrence of a change in control of the Company for good reason, then the named executive will receive the following benefits:

- Severance pay in an amount equal to a multiple (2.0x in the case of Peter R. Chase, 1.5x in the case of Adam P. Chase and 1.0x in the case of Kenneth J. Feroldi) of the greater of the named executive's annual salary in effect prior to the change in control or his annual salary in effect immediately prior to termination. For these purposes, the named executive officer's salary will include bonuses, calculated by taking the average of the prior two years' annual bonuses.
- Health insurance, dental insurance and group term life insurance for a period ending on the earlier of the commencement date of equivalent benefits from a new employer or one year from his termination date, provided the named executive continues to pay an amount equal to the employee's share of contributions.

If terminated for cause, the named executive shall be entitled to his salary through the period ending with the date of such termination and any accrued benefits. In case of death, disability or retirement, the named executive shall be entitled to such benefits as may be provided to him pursuant to the Company's employee benefit plans.

Edgar Filing: CHASE CORP - Form DEF 14A

Amounts that would have been owed to our named executive officers upon termination or a change of control assuming a triggering event took place on August 31, 2015, the last day of the Company's most recently completed fiscal year, are presented below.

If the named executive officer is terminated without cause, or for good reason within 24 months of a change of control, the Company will also pay, at the request of the executive, for an outplacement service for a period of up to one year. These services are not reflected in the table above, as the amount cannot be determined.

In the event of a “change in control” as defined in the applicable award, unvested shares of restricted stock will automatically vest, and the vesting of outstanding but unvested stock options may be accelerated, at the discretion of the Board of Directors. For purposes of the table above, we have assumed the accelerated vesting of stock options upon the occurrence of a change in control.

Other Executive Plans

2013 Equity Incentive Plan. The 2013 Equity Incentive Plan (the “2013 Plan”) provides for the grant of stock options (both non-statutory options or “NSOs” and, in the case of employees, incentive stock options or “ISOs”), restricted stock, performance awards (including cash), dividend equivalents, deferred stock and unrestricted stock. Unless otherwise determined by the Committee, awards may not be transferred except by will or by the laws of

descent and distribution, until the award has been exercised and all restrictions have lapsed, as applicable. The number of shares subject to grant under the 2013 Plan is 1,200,000. The maximum number of awards that may be issued to any person in any fiscal year is 500,000 shares. The maximum annual cash award that may be issued to any person is \$3,000,000. As of August 31, 2015, all 1,200,000 shares of the Company's common stock reserved under the 2013 Plan remained available for future issuance.

2005 Incentive Plan. The 2005 Incentive Plan (the "2005 Plan") provides for the grant of stock options (both NSOs and, in the case of employees, ISOs), restricted stock, performance awards (including cash), dividend equivalents, deferred stock and unrestricted stock. Unless otherwise determined by the Committee, awards may not be transferred except by will or by the laws of descent and distribution, until the award has been exercised and all restrictions have lapsed, as applicable. The number of shares subject to grant under the 2005 Plan is 1,000,000. The maximum number of awards that may be issued to any person in any calendar year is 200,000 shares. The maximum annual cash award that may be issued to any person is \$2,000,000. As of August 31, 2015 there were 11,637 shares of the Company's common stock available for future issuance under the 2005 Plan. In accordance with its terms, the 2005 Plan is scheduled to terminate on the date of the annual meeting of the Board of Directors immediately following November 23, 2015.

Non-Qualified Retirement Savings Plan. The Company maintains a non-qualified Supplemental Savings Plan covering selected employees, including the named executive officers. The Supplemental Savings Plan covers those employees of the Company who from time to time may be designated by the Board of Directors and who meet other eligibility and salary criteria. Historically, all of the Company's named executive officers have been designated by the Board of Directors as being covered by the Supplemental Savings Plan. For fiscal 2015, the Company's Executive Chairman and the Company's Chief Financial Officer participated in the plan. Participants may elect to defer a portion of their compensation for future payment in accordance with the terms of the plan. The following table gives details relating to our named executive officers' participation in this plan.

Non-Qualified Deferred Compensation for 2015

Name	Fiscal Year	Executive Contributions in Fiscal Year (\$)(1)	Registrant Contributions in Fiscal Year (\$)(2)	Aggregate Earnings (Loss) in Fiscal Year (\$)(3)	Aggregate Balance at Fiscal Year End (\$)(4)
Peter R. Chase	2015	\$ 35,135	\$ 20,999	\$ 8,153	\$ 811,213
Kenneth J. Feroldi	2015	\$ 64,000	\$ 4,981	\$ (2,580)	\$ 66,401

(1) Amounts in this column are included in the "Salary" column in the Summary Compensation Table.

(2) Amounts in this column are included in the "All Other Compensation" column in the Summary Compensation Table.

(3) Amounts in this column are not included in the Summary Compensation Table.

- (4) This column includes amounts in the named executive officer's total deferred compensation account as of the last day of the fiscal year. In addition to the contribution for fiscal 2015, this column reports the portion of the aggregate balance that was reported as compensation in the Summary Compensation Table in each of the Company's previous proxy statements and also includes aggregate earnings on previously contributed amounts (if any).

All payments under the Supplemental Savings Plan to participants or their designated beneficiaries will be made in a lump sum. Distribution of these amounts will commence no later than the end of the year in which the participant has separated from service with the Company.

Pension Plan. The Company maintains a tax-qualified defined benefit pension plan and a non-qualified excess benefit plan (“Supplemental Pension Plan”). The qualified pension plan covers substantially all employees of certain businesses of the Company who have attained the age of 21 and have completed six months of service. The Supplemental Pension Plan covers those employees of the Company who from time to time may be designated by the Board of Directors and who meet other eligibility and salary criteria. Currently, the Company's Executive Chairman and Chief Executive Officer have been designated by the Board of Directors as being covered by the excess benefit plan. Benefits under the qualified pension plan are determined based on final average base earnings (subject to Code-imposed limits on compensation and excluding bonuses, overtime, and other extraordinary amounts) and total years of service with the Company (up to a maximum of 40 years). Benefits under the Supplemental Pension Plan are determined based on final average earnings (including base salary and incentive based bonuses) and total years of service with the Company. Benefits are payable upon the retirement of a participant at age 65, or upon the fifth anniversary of employment, if later, or earlier if the participant is at least 55 years old and has completed at least five years of service. The Supplemental Pension Plan is to be paid out on a monthly basis over ten years for all participants except for Peter R. Chase who may be paid in a lump sum, at his election.

The following table shows the actuarial present value of the accumulated benefits for each of the named executive officers at the end of fiscal 2015. The change in this present value between each fiscal year is reflected in the summary compensation table above.

For participants who were employed prior to May 1, 1995 or are covered by a collective bargaining agreement, the monthly benefit is equal to the excess of (a) over (b) plus (c), where:

- (a) is 1.5% of the participant's final average compensation multiplied by credited service up to a maximum of 35 years;
- (b) is 0.6% of the participant's final average covered compensation multiplied by credited service up to a maximum of 35 years; and
- (c) is 0.8% of the participant's average monthly compensation multiplied by credited service in excess of 35 years to a maximum of 40 years.

Of our named executive officers, only our Executive Chairman was employed prior to May 1, 1995, and therefore only he accrues benefits at the rates outlined above. For participants who were employed on or after May 1, 1995 and before December 1, 2008, and are not covered by a collective bargaining agreement, the monthly benefit is equal to the excess of (a) over (b) plus (c), where:

- (a) is 0.75% of the participant's final average compensation multiplied by credited service up to a maximum of 35 years;
- (b) is 0.3% of the participant's final average covered compensation multiplied by credited service up to a maximum of 35 years; and
- (c) is 0.4% of the participant's average monthly compensation multiplied by credited service in excess of 35 years to a maximum of 40 years.

Effective December 1, 2008, we adopted a soft freeze in the qualified pension plan whereby no new employees hired will be admitted to the plan, with the exception of the International Association of Machinists and Aerospace Workers Union. Effective July 15, 2012, we adopted a soft freeze for the International Association of Machinists and Aerospace Workers Union. All participants admitted to the plan prior to December 1, 2008 and in the case of the International Association of Machinists and Aerospace Workers Union, prior to July 15, 2012, will continue to accrue benefits as detailed in the plan agreements.

Compensation of Directors

Directors who are not employees of the Company are paid an annual cash retainer of \$22,000. In addition, directors who serve on a Board committee receive an annual cash retainer of \$3,500 for each committee on which they serve. Non-employee directors also receive \$25,000 of Chase Corporation common stock annually, in the form of restricted stock valued at the closing price on the day proceeding the first day of the new year of Board service. The stock awards vest one year from the date of grant. The annual retainer covers all meetings.

In addition to the cash and stock retainer, committee chairperson annual fees will be paid in the form of restricted stock valued at the closing price on the day proceeding the first day of the new year of Board Service. This award also vests one year from the date of grant. The annual fees for committee chairpersons are as follows: Audit - \$9,000; Compensation and Management Development - \$6,000; Nominating and Governance - \$4,000.

Under the compensation policy noted above, the Compensation & Management Development Committee authorized a grant of an aggregate of 5,361 shares of restricted stock to non-employee members of the Board of Directors as

compensation for their service to be performed for the period ending January 31, 2016. This restricted stock will vest on February 1, 2016, at which time the shares of common stock will be issued. The number of shares granted to each Director is equal to \$25,000 divided by the closing price of the Company's common stock at the time of grant, except that it additionally takes into consideration each Director's involvement as chairperson of any of the various committees of the Board as outlined above. If a Director notifies the Company of his or her election prior to January 1 of the relevant calendar year, any portion of the cash retainer may be taken in shares of stock, issued in equal quarterly installments.

Non-Qualified Retirement Savings Plan for the Board of Directors. The Company maintains the Non-Qualified Retirement Savings Plan for the Board of Directors. Participants may elect to defer a portion of their compensation for future payment in accordance with the terms of the plan.

The following table summarizes the total compensation paid to the directors who are not employees of the Company during fiscal 2015:

PROPOSAL 2

RATIFICATION OF THE APPOINTMENT OF

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Company's Audit Committee has selected PricewaterhouseCoopers LLP ("PwC"), to serve as the Company's independent registered public accounting firm for its current fiscal year (which ends August 31, 2016). PwC served as the Company's independent registered public accounting firm in connection with the audit for the fiscal year ended August 31, 2015. Representatives of PwC will attend the Meeting, have the opportunity to make a statement if they so desire, and be available to respond to appropriate questions.

Audit fees in both fiscal years include services related to the review of the Company's internal control over financial reporting.

In accordance with its charter, the Audit Committee approves in advance any non-audit services provided by the independent registered public accounting firm, including tax planning services which will exceed \$20,000 per project, before the services are rendered. In some cases, the Chairman of the Audit Committee has the delegated authority from the Audit Committee to pre-approve certain services, and such pre-approvals are communicated to the full Audit Committee at its next meeting. During fiscal years 2015 and 2014, all services were approved by the Audit Committee in accordance with this policy and applicable SEC regulations.

Vote Required and Board of Directors Recommendation

The ratification of the selection of the Company's independent registered public accounting firm requires the affirmative vote of a majority of the votes cast on the matter at the Meeting. As a result, abstentions, broker non-votes and the failure to submit a proxy or vote in person at the Meeting will have no effect on the outcome. If the Company's shareholders do not ratify the selection of PwC as the Company's independent registered public accounting firm, the Audit Committee will reconsider its selection.

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR RATIFICATION OF THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP, INDEPENDENT REGISTERED CERTIFIED PUBLIC ACCOUNTANTS AS AUDITORS OF THE COMPANY FOR THE FISCAL YEAR ENDING AUGUST 31, 2016.

Based solely upon a review of these reports on Forms 3, 4 and 5 and amendments thereto furnished to the Company with respect to its most recent fiscal year, the Company believes that all reporting persons filed on a timely basis the reports required by Section 16(a) of the Securities Exchange Act of 1934, as amended, during the most recent fiscal year.
