Report of Independent Registered Public Accounting Firm

Southern California Edison Company
Benefits Committee
Edison 401(k) Savings Plan
Rosemead, California

We have audited the accompanying statements of net assets available for plan benefits of the Edison 401(k) Savings Plan (the "Plan") as of December 31, 2013 and 2012, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2013. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for plan benefits for the year ended December 31, 2013, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2013 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

1. Plan Description

The following description of the Edison 401(k) Savings Plan (the "Plan"), provides only general information. The Plan sponsor is the Southern California Edison Company (the "Plan Sponsor"). Participants should refer to the summary plan description and Plan document, as amended, for a more complete description of the Plan's provisions.

Nature of Plan

Eligibility

The Plan is a defined-contribution plan with a 401(k) feature, in which qualifying full-time and part-time employees of Edison International (the "Company") and many of its subsidiary companies are eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. An employee, as defined by the Plan document, is eligible to participate in the Plan immediately upon employment.

Contributions

Subject to statutory limits, all participants may defer pre-tax and after-tax dollars up to 84% of eligible pay. Participating employers provide matching contributions up to 6% of a participant's eligible pay. The Company allows employees who have attained age fifty before the close of a Plan year to make catch up contributions subject to Internal Revenue Service ("IRS") limitations. Certain participating subsidiaries also provide a fixed profit sharing contribution of 3% of eligible pay each pay period and a variable profit sharing contribution annually (if certain business objectives are reached) to the accounts of eligible employees. The Plan also accepts rollover contributions from other qualified plans.

Vesting

Participants immediately vest in their contributions plus actual earnings thereon. Employer contributions plus actual earnings thereon vest at a rate of 20% per year, except for certain employer contributions made to participating subsidiaries which vest in accordance with the provisions of the Plan document. After five years of service or reaching age 65, all existing and future employer contributions and their related earnings are fully vested.

Forfeitures

At December 31, 2013, and 2012, the unused portion of forfeited non-vested accounts totaled \$29,952 and \$65,117, respectively. These accounts are used to reduce future employer contributions. During 2013, employer contributions were reduced by \$1,703,621 from forfeited non-vested accounts.

Plan Trust

Plan assets are held in trust with State Street Bank and Trust Company (the "Trustee") for the benefit of participants and their beneficiaries. The mutual covenants to which the Plan Sponsor and the Trustee agree are disclosed in the trust agreement between the Plan Sponsor and the Trustee.

Plan Administration

The Plan is administered by the Southern California Edison Company Benefits Committee (the "Plan Administrator"). Effective January 1, 2012, Xerox HR Solutions, LLC (formerly Affiliated Computer Services HR Solutions, LLC), became the Plan's record keeper. The Plan provides to participants a detailed description of each investment fund choice and lists the respective investment manager.

Administrative and Investment Expenses

The Plan Sponsor pays the cost of administering the Plan, including fees and expenses of the Trustee and record keeper. The fees, taxes and other expenses incurred by the Trustee or investment managers in making investments are paid out of the applicable investment funds. These expenses also include brokerage fees for sales or purchases of Edison International Common Stock on the open market. No additional costs are incurred in connection with sales of Edison International Common Stock within the trust or the transfer of assets between funds.

Mutual funds pay fees to the Plan record keeper for administrative services to participants that would otherwise have to be provided by the mutual funds. The majority of fees received by the Plan record keeper are used to reduce the record keeping and communication expenses of the Plan paid by the Plan Sponsor. See Note 7 for a discussion of related party transactions.

Participant Accounts

Each participant account is adjusted for certain activities, including participant's contribution, the employer's contribution, distributions, loan activities, if applicable, and allocation of investment earnings/losses. Allocation of earnings/losses and expenses is based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Notes Receivable from Participants

Participants may borrow from their account, a minimum of \$1,000 to a maximum of \$50,000, with certain restrictions. Loan transactions are treated as a transfer from (to) the investment fund to (from) participant loans. Loan terms range from one to four years for general purpose loans or up to 15 years for the purchase of a primary residence. Loans bear interest at the prime rate in effect at time of loan issuance plus one percent. Interest rates on outstanding loans range from 4.20% to 10.52% as of December 31, 2013 and mature on various dates through December 2028. Principal and interest are paid ratably through payroll deductions. Some separated participants may repay loan obligations directly, rather than through payroll deductions. Participant loans amounted to approximately \$91,443,000 and \$99,209,000 as of December 31, 2013, and 2012, respectively.

Distribution to Participants

Account balances are distributed as soon as practicable after a participant dies, becomes entitled to and requests a distribution, or terminates employment with an account balance of \$5,000 or less. Participants may otherwise delay distribution, subject to the minimum distribution requirements under Internal Revenue Code Section 401(a)-(9). Participants may receive lump sum distributions. An installment form of distribution payment is also available to certain participants. In-service withdrawals may be taken from after-tax contributions, upon attainment of age 59½, or for certain financial hardships. Participants taking in-service withdrawals will be required to pay all applicable taxes on the withdrawals and may be subject to penalty taxes for early withdrawals taken prior to age fifty-nine and one half. Participants who terminate employment, with a vested account balance greater than \$1,000 but less than or equal to \$5,000 will have their vested account balance automatically rolled over to individual retirement accounts ("IRA") selected by the Chair or Secretary of the Plan Administrator, unless the participants make a timely distribution election.

Profit Sharing

Certain non-represented employees of Edison Mission Group Inc.'s ("EMG") participating subsidiaries are eligible for two types of profit sharing contributions:

- (i) Fixed profit sharing is comprised of a 3% profit sharing contribution each pay period to the Plan on behalf of eligible employees. Fixed profit sharing contributions in 2013 amounted to approximately \$2,151,000. Variable profit sharing is comprised of an additional annual profit sharing contribution to the Plan on behalf of eligible employees if certain business objectives are reached. Variable profit sharing contributions made in 2014
- (ii) for the 2013 plan year was 7% of eligible earnings for eligible EMG employees, for total amounts of approximately \$4,458,000. The amounts were accrued and included in "Receivables from brokers and other" in the accompanying financial statements at December 31, 2013.

Edison Mission Energy Chapter 11 Bankruptcy Filing and Sale

In December 2012, Edison Mission Energy and certain of its wholly-owned subsidiaries ("EME") filed voluntary petitions for relief under Chapter 11 of the Bankruptcy Code in the United States Bankruptcy Court. In March 2014, the Bankruptcy Court approved the sale of substantially all of EME's assets to NRG Energy, Inc., as well as transactions called for in the Settlement Agreement between EME and Edison International. The sale was completed April 1, 2014.

As of December 31, 2013 and through March 31, 2014, employees of EME were eligible for benefits in accordance with the provisions of the Plan. Effective April 1, 2014, these employees are no longer eligible for certain benefits, including matching contributions, fixed profit sharing contributions and variable profit sharing contributions. This transaction will not have a material impact on the December 31, 2014 Plan's financial statements.

In addition, on January 27th, 2014, the Plan was amended such that any unvested balance in the Plan for employees of EME who were terminated in connection with the sale shall fully vest on the date that they cease to be an employee.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared and presented on the accrual basis of accounting and in conformity with U.S. generally accepted accounting principles ("GAAP") applicable to employee benefit plans and ERISA.

Certain prior year reclassifications have been made to conform to the current year financial statement presentation.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ materially from those estimates.

Risks and Uncertainties

The Plan's investment in Edison International Common Stock amounted to approximately \$608,398,000 and \$693,623,000 as of December 31, 2013, and 2012, respectively. Such investments represented approximately 15% and 17% of the Plan's net assets as of December 31, 2013, and 2012, respectively. For risks and uncertainties regarding investment in the Company's common stock, participants should refer to the annual report on Form 10-K for the period ended December 31, 2013, and the quarterly report on Form 10-Q for the period ended March 31, 2014 of Edison International.

The Plan provides for various funds that hold investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

The Plan participates in various investment options that include securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation (Depreciation) in Fair Value of Investments

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation).

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Notes receivable from participants that are in default, as provided in the Plan document, are treated as deemed distributions for active participants, or loan offsets for terminated participants, for tax purposes and also reported as such in the Form 5500. There were no deemed distributions in 2013. Management has determined that to the extent these notes are loan offsets, they are uncollectible and written-off. For the year ended December 31, 2013, \$11,274,000 of notes receivable from participants were loan offsets. This amount is included in "Distributions to participants" in the Statements of Changes in Net Assets Available for Plan Benefits.

Distributions to Participants

Distributions to participants, other than notes receivable from participants, are recorded when paid.

Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (referred to as an "exit price"). Fair value of an asset or liability considers assumptions that market participants would use in pricing the asset or liability, including assumptions about nonperformance risk. The Plan categorizes financial assets and liabilities into a three-level fair value hierarchy based on valuation inputs used to derive fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are:

Level 1: The fair value of Level 1 assets and liabilities is determined using unadjusted quoted prices in active markets that are available at the measurement date for identical assets and liabilities;

Level 2: Pricing inputs other than Level 1 that are observable, either directly or indirectly, such as quoted market prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instrument; and

Level 3: The fair value of Level 3 assets and liabilities is determined using the income approach through various models and techniques that require significant unobservable inputs. The Plan does not have any Level 3 assets and liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. There were no changes in the valuation methods during 2013 and 2012. Plan assets carried at fair value are described below.

Edison International Common Stock and investments in equity mutual funds are valued at the unadjusted quoted prices in active or highly liquid and transparent markets and are classified as Level 1.

Collective investment funds and the money market fund are valued at the net asset value of shares held by the Plan and the unit value as reported by the investment manager. These fair values are determined by observable prices and are classified as Level 2 because they trade in markets that are not considered active. Collective investment funds consist of fixed income index funds that seek to track the Barclays Capital Aggregate Bond Index, equity index funds that seek to track the performance of the Standard and Poor's 500 index, the Russell 1000 growth index, the Russell 2500 index, the MSCI AC World Index excluding the U.S., and a fund that invests in inflation-index bonds issued by the U.S. Treasury.

Investments in separately managed accounts (separate accounts) are managed by external investment managers and include the following. Cash and short-term interest bearing investments with initial maturities of three months or less are recorded at cost, plus accrued interest, which approximates fair value. The value of equity investments, real estate investment trusts, and US Treasury investments in separate accounts is based on quoted market prices in active or highly liquid and transparent markets and is therefore classified as Level 1. The fair value of fixed income investments (including asset-backed securities) in separate accounts are based on evaluated prices that reflect significant observable market information but are classified as Level 2 because they trade in markets that are not considered active. Separate accounts also include minor investments in derivative contracts, including options and futures traded in active markets and swap contracts valued at fair value, as determined by the investment managers taking into consideration exchange quotations on underlying instruments, dealer quotations and other market information.

The self-directed brokerage account contains investments stated at quoted market prices for equities and mutual funds and therefore are classified as Level 1. Fixed income investments in this category are classified as Level 2.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following presents information about the Plan's investments that are measured at fair value on a recurring basis as of December 31, 2013 and 2012, by level within the fair value hierarchy:

(in thousands)	Investments at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total

Total investments at fair value	\$1,616,535	\$2,286,163	\$—	\$3,902,698

For self-directed accounts, at December 31, 2013 and 2012, respectively, approximately 41% and 40% was invested in mutual funds, 41% and 37% in equities, 17% and 22% in money market mutual funds and 1% and 1% in fixed-income investments.

^b Majority of these securities consist of U.S. government securities and agency securities including U.S. treasury notes and bonds.

The Plan determines the fair value for transfers in and transfers out of each level at the end of each reporting period. There were no transfers between levels during 2013 and 2012.

3. Investment Elections

The Trustee invests contributions in accordance with participant instructions.

Participants may elect changes to their investment mix effective each business day, with certain restrictions. The Plan imposes a seven-day trading restriction for most participants that applies to all funds except the Edison International Stock Fund. Reallocation elections are also subject to trading restrictions, redemption fees, or other measures imposed by investment fund managers. Participants may effect changes to their deferral percentages and deferral investment elections coincident with their pay frequency.

4. Investment Options

The transfer of a participant's investment from one fund to any other fund is based on the net asset value of the units allocated to the participant's account, as of close of market on the date of transfer.

As of December 31, 2013, all participants were able to choose from among 19 investment fund offerings. These investment funds consisted of the following:

Tier 1 – Ten Target Date Funds: Premixed allocation of stocks, bonds and cash. Each Target Date fund is built from a combination of the Tier 2 core funds and designed to be more conservative over time as each fund approaches its target date.

Tier 2 – Edison International Stock Fund and Seven Institutional Funds representing a range of asset classes: large and small U.S. stocks (including Edison International Common Stock), cash equivalents, non-U.S. stocks and fixed income instruments, with varying degrees of risk and return.

Tier 3 – Self-Directed Brokerage Account: Allows participants to select investments from among thousands of publicly traded securities including individual equities, mutual funds, fixed income products, exchange traded funds, real estate investment trusts, and taxable unit investment trusts.

The Plan Sponsor's Trust Investment Committee may direct the Trustee to establish new investment funds or discontinue existing ones as well as change the investment medium for each investment fund. Participants should refer to the summary plan description for a more complete discussion of the various investment options.

5. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets (except as noted below):

	December 31,	
(in thousands)	2013	2012
Investments at fair value as determined by quoted market prices:		
Edison International Common Stock Fund, 13,054,717 and 15,138,670 shares, respectively (See Note 7)	\$608,398	\$693,623
Investments at estimated fair value:		
Money market fund (see Note 7)	492,451	589,285
Treasury inflated protected securities fund (less than 5% in 2013)	147,300	238,937
U.S. stock index fund	703,164	587,605

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Net Appreciation in Fair Value of Investments:

(in thousands)	For year ended December 31, 2013
Investments at fair value as determined by quoted market prices:	
Edison International common stock fund	\$21,043
Self-directed brokerage account	41,295
	62,338
Investments at estimated fair value:	
Investment funds	464,994
Net appreciation in fair value of investments	\$527,332

6.Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500:

	December 31,	
(in thousands)	2013	2012
Net assets available for plan benefits per the financial statements	\$4,043,526	\$3,971,967
Less: Amounts allocated to withdrawing participants	(2,619)	(990)
Net assets available for plan benefits per the Form 5500	\$4,040,907	\$3,970,977

	For year ended December 31, 2013	
(in thousands)		
Total deductions per the financial statements		\$741,886
Add: Amounts allocated to withdrawing participants at December 31, 2013		(2,619)
Less: Amounts allocated to withdrawing participants at December 31, 2012		\$(990)
Benefits paid to participants per the Form 5500		\$738,277

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31 but not paid as of that date.

7.Related-Party Transactions

Certain Plan investments, including investments held in the trust, are shares of funds managed by the Trustee. The Plan also invests in the Edison International Common Stock Fund. The Plan Sponsor provides services to the Plan. These transactions qualify as party-in-interest transactions under ERISA.

The Money Market Fund is managed by State Street Bank and Trust Company, which also serves as the Plan's Trustee. Fees earned by the Trustee in its capacity as fund manager for the Plan were \$274,664 for 2013 and were reported as "Management fees" on the Statement of Changes in Net Assets Available for Plan Benefits.

The Plan's investment options include the Company's Common Stock as a fund option. See Note 2 for a discussion of the amount of the Plan's investment in the Company's Common Stock. In addition, State Street Global Advisors, an affiliate of State Street Bank and Trust Company, is the investment manager of the Edison International Common Stock Fund. Fees earned by State Street Global Advisors in its capacity as the investment manager of the Edison International Common Stock Fund were \$105,921 for 2013 and were reported as "Management fees" on the Statement of Changes in Net Assets Available for Plan Benefits.

Certain investment fund managers have provided credits to Xerox HR Solutions LLC of \$427,606 for administrative and other services rendered to the Plan by the Plan Sponsor. These credits were used to reduce Xerox HR Solutions LLC's charge to the Plan Sponsor for services provided to the Plan.

See Note 10 below regarding Edison International Common Stock Fund dividend payments.

8.Plan Termination

Although it has not expressed intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts. The Trust will continue after termination until all Trust assets have been distributed to participants and their beneficiaries.

9.Tax Status

The Internal Revenue Service has determined and informed the Plan Sponsor by a letter dated May 22, 2002, that the Plan and related trust as amended through November 29, 2001, are designed in accordance with the applicable qualification sections of the Internal Revenue Code ("IRC"). The Plan has been amended and restated since receiving the determination letter. However, the Plan Administrator believes that the Plan, as amended and restated effective January 1, 2011, is designed in compliance with the applicable qualification requirements of the IRC. In addition, the Plan Administrator is not aware of any operational issues that will prevent the continuation of the Plan's qualified tax status. The Plan has filed for a new determination letter on January

31, 2011 and the Plan received a comment letter dated May 5, 2014 from the IRS. The Plan responded on June 3, 2014 and is awaiting a further response from the IRS.

Accounting principles generally accepted in the U.S.A. require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits relative to the Plan for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

10. Employee Stock Ownership Plan

The Edison International Common Stock Fund constitutes an employee stock ownership plan that allows for the current distribution of dividends to the accounts of all participants through the Plan. Such distributions amounted to approximately \$3,372,000 for the year ended December 31, 2013. On December 12, 2013, the Board of Directors of Edison International declared a common stock dividend of \$0.3550 per share which was paid on January 31, 2014 to the shareholders of record as of December 31, 2013. As the record date was at year end, dividend income of \$0.3550 per share amounting to approximately \$4,621,000 was accrued and included in "Dividends receivable" in the accompanying financial statements at December 31, 2013. The amount was paid on April 30, 2014. For the year ended December 31, 2012, \$5,081,000 was accrued in dividend receivable and paid on January 31, 2013.

Supplemental Schedule
