Index

### SIFIC/ICS

### STOCK EXCHANGE CODE: TELMEX QUARTER: 2 YEAR: 2010

### TELÉFONOS DE MÉXICO, S.A.B. DE C.V.

### ANNEX 1

### CHIEF EXECUTIVE OFFICER REPORT

---

Consolidated

Final printing

### Highlights

### 2nd quarter 2010.

• TELMEX remains committed to offering our customers products and services with the highest quality standards and maintaining Infinitum as the best product in the market. Because of this firm commitment, we will continue to carry out investments that allow us to keep up our state-of-the-art technology and world-class network. Therefore, we have 6.954 million broadband Infinitum customers attracted by the quality, continuity, speed and price of our services, with growth of 17.9% in the last twelve months.

• The OECD's most recent publication shows that during the last 10 years Mexico achieved the highest growth rate in the number of total accesses of telecommunications services, including fixed, mobile and broadband services. Mexico's growth rate of 22% was double the 11% average of OECD member countries (*Communications Outlook* 2009).

• At June 30, we had 15.7 million lines in service, 1.7 million fewer than June 2009. TELMEX's share of fixed lines has continued to decrease to 79.5% of fixed lines in Mexico, below the average of 85.6% for 35 of the most representative countries worldwide (Bank of America/ Merrill Lynch Global Wireline Matrix 2010). TELMEX has 14.9% of the market with cellular telephony

### services included.

• 2010- The Year of Technological Innovation: we continue promoting education and the digital culture in Mexico by actively contributing to the development of the country in the knowledge era and to the use of Information Technologies, with the following updates:

- Information Technologies: The Instituto Tecnológico de TELMEX en Tecnologías de la Información (Inttelmex IT) began operations. To date it has trained, at no cost, more than 450 IT professionals to innovate and produce solutions that support the competitiveness of companies and domestic institutions.

– Education and Digital Culture: To date, we have implemented 2,650 Bibliotecas and Aulas Digitales TELMEX (TELMEX Digital Libraries and Computer Class Rooms) nationwide.

- Connectivity in the Country: At the end of June, TELMEX provided more than 2,250 WiFi Móvil en Infinitum sites, in the major airports, shopping malls, public parks and educational facilities nationwide, such as the Universidad Nacional Autónoma de México (UNAM, Mexico's national university). It is important to highlight that that the Secretaría de Comunicaciones y Transportes (SCT) decided over a year ago to operate connectivity for education and health institutions in rural communities, canceling the services that operators previously offered.

• In the second quarter of 2010, total revenues were 28.4 billion pesos, a decrease of 4.6% compared with the same quarter of 2009, mainly due to the continuous price reduction of the prices of our services and to the unexplainable delay of technological convergence in spite of the fact that nearly four years ago TELMEX signed the "Acuerdo de Convergencia (Convergence Agreement)," with the SCT. This is why there is a lack of competition of integrated services. This is why there is a lack of competition of integrated services. Moreover, the "Comisión Federal de Competencia" (Federal Competition Commission) has made declarations and fined other operators for absolute monopolistic practices. Among these operators are some that have been offering telecommunications services with lower prices and to the benefits of the information and knowledge society.

• In the quarter, EBITDA (1) totaled 11.3 billion pesos, producing a margin of 39.6%. Operating income totaled 6.9 billion pesos, with a margin of 24.1%.

• Net income in the second quarter totaled 3.6 billion pesos. In the quarter, earnings per share were 20 Mexican cents, 37.5% lower than the same period of last year, and earnings per ADR (2) were 31 US cents, a decrease of 34% compared with the second quarter of 2009.

• At June 30, 2010, total debt was the equivalent of 6.696 billion dollars. Total net debt (3) was equivalent to 5.830 billion dollars, 716 million dollars less than June 30, 2009.

• Capital expenditures (Capex) were the equivalent of 168 million dollars in the second quarter. Of this investment, 70.4% was used for growth and infrastructure projects in the data business. For the six months, capex totaled 327 million dollars.

(1) EBITDA: defined as operating income plus depreciation and amortization. Go to www.telmex.com in the Investor Relations section where you will find the conciliation of EBITDA to operating income.

(2) One ADR represents 20 shares.

(3) Net debt is defined as total debt less cash and cash equivalents and marketable securities.

### **Operating Results**

### Lines and local traffic

At June 30, we had 15.7 million lines in service, 1.7 million fewer than June 2009. TELMEX's share of fixed lines has continued to decrease, to 79.5% of fixed lines in Mexico, below the average of 85.6% for 35 of the most representative countries worldwide (Bank of America/ Merrill Lynch Global Wireline Matrix 2010). TELMEX has 14.9% of the market with cellular telephony services included.

During the second quarter, local calls decreased 7.3% compared with the same period of 2009, totaling 4.871 billion local calls. The decline reflected the lower number of billed lines, the increase in cellular telephony services and competition from other operators.

### Long distance

In the second quarter, domestic long distance (DLD) traffic decreased 6.9% compared with the second quarter of 2009, totaling 4.708 billion minutes, due to the decrease in termination traffic with cellular telephony operators and other long distance operators.

In the quarter, outgoing international long distance (ILD) traffic decreased 1.6% compared with the second quarter of 2009, totaling 339 million minutes. The decline reflected a decrease in traffic from mobile operators. Incoming international long distance traffic increased 30.9% compared with the second quarter of 2009, totaling 1.808 billion minutes. The incoming-outgoing ratio was 5.3 times.

### Interconnection

In the second quarter, interconnection traffic totaled 11.040 billion minutes, 1.4% higher than the same quarter of 2009, due to the combined effect of the 3.4% increase in interconnection traffic with local and long distance operators and the 0.7% decrease in traffic related to calling party pays services.

### Internet access

TELMEX remains committed to offering our customers products and services with the highest quality standards and maintaining Infinitum as the best product in the market. Because of this firm commitment, we will continue to carry out investments that allow us to keep up our state-of-the-art technology and world-class network. Therefore, we have 6.954 million broadband Infinitum customers attracted by the quality, continuity, speed and price of our services, with growth of 17.9% in the last twelve months.

During the second quarter, broadband Infinitum (ADSL) had a gain of 183,000 services. This growth has been supported by the sales of more than 2.6 million computers since 1999 and by the promotion of our telecommunications service packages, which offer discounts of up to 44%, broadband Internet access and several voice services.

### **Financial Results**

# The following financial information for 2010 and 2009 is presented in nominal pesos, according to Mexican Financial Reporting Standards.

**Revenues:** In the second quarter, revenues totaled 28.4 billion pesos, a decrease of 4.6% compared with the same period of the previous year. Revenues related to data services increased 12.2%, and local, long distance and interconnection revenues decreased 10.0%, 13.9% and 9.9%, respectively.

- Local: Local service revenues totaled 10.290 billion pesos in the quarter, a decrease of 10.0% compared with the second quarter of 2009, due to decreases of 10.6% in revenue per local billed call and 7.3% in local traffic volume and to the decrease in billed lines.
- DLD: DLD revenues totaled 3.099 billion pesos, 12.9% lower than the second quarter of 2009, due to the 6.9% decrease in traffic and the 6.5% decline in average revenue per minute. The total also was affected by lower revenue per minute in termination traffic with cellular and other long distance operators and higher penetration of service packages that include domestic long distance service.
- ILD: ILD revenues totaled 1.394 billion pesos in the second quarter, a decrease of 16.1% compared with the same quarter of the previous year. Contributing factors included the 1.6% decrease in outgoing traffic and the 21.8% decrease in average revenue per minute due to the integration of ILD minutes in packages with Infinitum, among other factors. Incoming international long distance traffic revenues totaled 577 million pesos, a decrease of 3.7% compared with the second quarter of the previous year, due to the decrease of 26.4% in average revenue per minute and to the increase of 30.9% in incoming traffic.
- Interconnection: In the quarter, interconnection revenues decreased 9.9% to 3.815 billion pesos compared with the second quarter of 2009, due to the 0.7% decline in calling party pays services and the decrease of 7.3% in average revenue of these services.
- Data: Data revenues are comprised mainly of Internet access services and services related to corporate customers' Virtual Private Networks. Revenues from data services in the second quarter were 8.267 billion pesos, 12.2% higher compared with the same quarter of 2009 due to the increase of 16.5% in Internet access services and the integration of value-added services in our portfolio of products and services for the corporate market.

**Costs and expenses:** In the second quarter of 2010, total costs and expenses were 21.574 billion pesos, 1.3% higher than the same period of the previous year, mainly due to higher costs of equipment and services for customer sales and lower interconnection costs resulting from the decrease of 8.3% in the amount paid to cellular telephony operators for calling party pays services, as well as to initiatives to optimize resource use.

- Cost of sales and services: In the second quarter, cost of sales and services increased 2.9% compared with the same period of 2009, totaling 8.785 billion pesos, due to higher costs related to products and services for corporate customers and computer sales at Tiendas TELMEX (TELMEX Stores).
- **Commercial, administrative and general:** In the period from April to June 2010, commercial, administrative and general expenses totaled 5.706 billion pesos, 8.9% higher than the same period a year ago, mainly due to expenses related to third-party services and advertising.
- Interconnection: Interconnection costs were 2.671 billion pesos, a decrease of 10.7% compared with the second quarter of 2009 due to the 8.3% decrease in the amount paid to cellular telephony operators for calling party pays services and the decrease of 0.7% in calling party pays traffic.
- Depreciation and amortization: In the quarter, depreciation and amortization decreased 2.5% compared with the same second quarter of 2009, to 4.412 billion pesos, as a result of lower amounts of investments in recent years.

**EBITDA (1) and operating income**: EBITDA (1) totaled 11.274 billion pesos in the second quarter of 2010, a decrease of 13.4% compared with the same period of the prior year. The EBITDA margin was 39.6%. Operating income totaled 6.862 billion pesos in the second quarter and the operating margin was 24.1%.

**Financing cost:** In the second quarter of the year, financing cost produced a charge of 1.252 billion pesos. This was a result of: i) a net interest charge of 1.342 billion pesos, 24.5% higher than the April-June period of 2009 which includes the recognition of the market value of interest rate swaps and in part offset by debt reduction, and ii) a net exchange gain of 90.0 million pesos due to 3.791 billion dollars in dollar-peso hedges in effect at the end of June 2010, offset by the second-quarter exchange rate depreciation of 0.1927 pesos per dollar.

**Net income:** In the second quarter, net income was 3.573 billion pesos, 39.7% lower than the same period of the previous year. Earnings per share were 20 Mexican cents, 37.5% lower than the second quarter of 2009, and earnings per ADR (2) were 31 US

#### Internet access

cents, a decrease of 34.0% compared with the same period of the previous year.

**Investments and other uses of cash:** In the second quarter, capital expenditures (Capex) were the equivalent of 168 million dollars, of which 70.4% was used for growth and infrastructure projects in the data business. For the six months, investments totaled 327 million dollars.

**Debt:** Total debt at June 30, 2010, was the equivalent of 6.696 billion dollars, of which 95.5% is long-term, 44.7% has fixed rates considering interest rate swaps, and 61.1% is in foreign currency, equivalent to 4.094 billion dollars. To minimize risks from variations in the exchange rate, at June 30, 2010, we had dollar-peso hedges for 3.791 billion dollars.

Total net debt (3) decreased during the last 12 months the equivalent of 716 million dollars, bringing the total to 5.830 billion dollars.

#### Mexico Local and Long Distance Accounting Separation

Based on Condition 7-5 of the Amendments of the Concession Title of Teléfonos de México, the commitment to present the accounting separation of the local and long distance services is presented below for the second quarter of 2010 and 2009. Mexico Local Service Business

(Figures in thousands of Mexican pesos)

#### RECOGNITION OF THE EFFECTS OF INFLATION

From January 1, 2008, Mexican FRS B-10 "Effects of Inflation", replaced Mexican accounting Bulletin B-10 "Accounting Recognition of the Effects of Inflation on Financial Information". Based on Mexican FRS B-10, the economic environments in Mexico in 2010 and 2009 have been qualified as non-inflationary, due to inflation in the preceding three fiscal years was 14.48% and 15.01%, respectively. Therefore, during 2010 and 2009 the effects of inflation on financial information of this period were not recognized, keeping the effects of inflation recognized up to December 31, 2007.

BALANCE SHEET

S 23 AND S 28 BANK LOANS

In this item are included the bank credits related to purchase programs to suppliers that have been traditionally reported in the suppliers' credits item of the Balance Sheet because long-term caption to suppliers does not exist in EMISNET.

TELMEX entered into a syndicated loan agreement in 2004, which was restructured in 2005 and 2006 to improve the credit conditions and increase the total loan amount to 3 billion dollars divided in three tranches, the first one for 1.3 billion dollars with a three-year maturity, the second one for 1 billion dollars with a five-year maturity years and the third one for 700 million dollars with a seven- year maturity. In August 2009, TELMEX prepaid the total amount of the first tranche, which original maturity was scheduled for October 2009.

On June 30, 2006 Telmex entered into a syndicated loan agreement in the amount of 500 million dollars divided into two tranches of 250 million dollars each, with a four-year and six-year maturity, respectively. In March 2010, TELMEX prepaid the total amount of the first tranche, which original maturity was scheduled for June 2010.

#### S 24 AND S 29 SENIOR NOTES

In the first quarter of 2005, TELMEX placed senior notes in the total amount of U.S.\$1.75 billions divided into two issuances of U.S.\$ 950 million and U.S.\$ 800 million, respectively, the first one maturing in 2010 and bearing interest at 4.75% annual and the second one maturing in 2015 and bearing interest at 5.50% annual. Interests are payable semiannually. In January 2010, TELMEX repaid U.S.\$950 million related to the maturity of the first issuance.

In January 2006, TELMEX placed abroad a senior note in the amount of Ps. 4,500,000 (nominal value), maturing in 2016 and bearing interest at 8.75% annual. Interests are payable semiannually.

In November, 2009, TELMEX issued a bond for U.S.\$500 million due 2019 with an annual interest of 5.5%, interests are payable semiannually.

In December 2007, TELMEX obtained approval for a long-term domestic senior notes program in the amount of Ps.10,000,000 (nominal value). In April 2008, domestic senior notes were placed in the amount of Ps.1,600,000. In July 2009, two issuances of domestic senior notes were made under this program for a total amount of Ps.8,000,000.

In September 2009, TELMEX obtained approval for a dual program to issue short and long-term domestic senior notes in the total amount of P. 15,000,000. In November 2009, two issuances of domestic senior notes were made under this program for a total amount of Ps.6,000,000.

#### S 29 SENIOR NOTES (LONG-TERM)

As of June 30, 2010 and 2009, this item rose to Ps. 46,833,459 and Ps. 26,940,716, respectively, and is comprised as follows:

|                          | 2010           | 2009           |
|--------------------------|----------------|----------------|
| Domestic Senior Notes    | Ps. 25,900,000 | Ps. 11,900,000 |
| Bonds                    | 16,433,459     | 10,540,716     |
| Global peso Senior Notes | Ps 4,500,000   | 4,500,000      |

#### S 42 RETAINED EARNINGS AND CAPITAL RESERVES

On March 3, 2009 the Annual Ordinary Shareholders' Meeting approved to increase in Ps. 10,000,000, the funds authorized to repurchase its own shares, bringing the total maximum amount to Ps. \$ 10,340,868.

From January through June 2010, the Company acquired 1.0 million L shares for Ps. 10,967 and 6,900 A shares for Ps. 76.

From January through June 2009, the Company acquired 151.0 million L shares for Ps \$1,686,736 and 0.8 million A shares for Ps. \$8,951.

The Company's repurchased shares are applied to unappropriated retained earnings, in the amount exceeding the portion of the capital stock, corresponding to the repurchased shares.

S 104 EMPLOYEES BENEFITS

This item includes the projected net assets as of June 30, 2010 and 2009 pursuant to Mexican FRS D-3 "Employees Benefits".

S 87 OTHERS

In this item there are included the inventories for telephone plant operation, which are valued by the average cost method and up to December 31, 2007 were updated based on the specific index method which is similar to its replacement value, without exceeding their market value.

S 58 OTHER CURRENT LIABILITIES

As of June 30, 2010 and 2009, this item rose to Ps. 10,864,600 and Ps. 9,924,180 respectively and is comprised as follows:

|                           | 2010          | 2009          |
|---------------------------|---------------|---------------|
| Accounts payable          | Ps. 7,257,155 | Ps. 6,812,785 |
| Other accrued liabilities | 2,654,872     | 1,511,514     |
| Deferred credits          | 952,573       | 1,599,881     |

#### S 91 EMPLOYEE BENEFITS

This item includes liabilities for deferred employee profit sharing and actuarial obligations for labor termination as of June 30, 2010 and 2009, pursuant to Mexican FRS D-3 and Bulletin D-3, respectively.

#### RATIOS

P 08 INVENTORY TURNOVER RATE-COST

EMISNET automatically calculates the inventory turnover rate by dividing the cost of sales and services (Ref. R 02) by the inventories for sale (Ref. S 06), affecting the actual inventory turnover rate.

RECLASIFICATIONS

Certain 2009 financial statements have been reclassified to conform with the presentation used for the year 2010.

#### A.- Interest rates:

The credits breakdown is presented with an integrated rate as follows:

- 1. 6 months USD Libor rate plus margin
- 2. 3 months USD Libor rate plus margin
- 3. Fixed Rate
- 4. 28 days TIIE rate plus margin
- 5. 91 days TIIE rate plus margin
- 6. 3 months JPY LIBOR plus margin

B.- The following rates were considered:

- Libor at 6 months in US dollars is equivalent to 0.7525 at June 30, 2010
- Libor at 3 months in US dollars is equivalent to 0.5339 at June 30, 2010
- TIIE at 28 days is equivalent to 4.9550 at June 30, 2010
- TIIE at 91 days is equivalent to 5.0400 at June 30, 2010
- Libor at 3 months in JPY is equivalent to 0.2444 at June 30 2010

C.- The suppliers' Credits are reclassified to Bank Loans because in this document, Emisnet, Long-Term opening to Suppliers' does not exist.

D.- Liabilities in foreign currency were exchanged at the prevailing exchange rate at the end of the reporting period, which at June 30, 2010 were as follows:

| CURRENCY     | AMOUNT    | E.R.  |
|--------------|-----------|-------|
| DOLLAR (USD) | 3,854,708 | 12.66 |

| EURO (EUR)         | 11,982     | 15.5 |
|--------------------|------------|------|
| JAPANESE YEN (JPY) | 19,891,200 | 0.14 |

#### FINANCIAL LIMITED BASED IN ISSUED DEED AND/OR TITLE

Part of the long-term debt is subject to certain restrictive covenants with respect to maintaining certain financial ratios and the sale of assets, among others.

A portion of the debt is also subject to early maturity or repurchase at the option of the holders in the event of change of control of the Company, as defined in the related instruments. The definition of change of control varies from instrument to instrument; however, no change in control shall be considered to have occurred as long as Carso Global Telecom, S.A.B. de C.V. (TELMEX's controlling company) or its current stockholders continue to hold the majority of the Company's voting shares.

#### CURRENT SITUATION OF FINANCIAL LIMITED

At June 30, 2010, the Company has complied with such restrictive covenants.

#### **ANNEX 14**

#### TRANSACTIONS IN FOREIGN CURRENCY AND EXCHANGE OF FINANCIAL STATEMENTS FROM FOREIGN OPERATIONS

Consolidated

Final printing

#### **Exchange differences**

Transactions in foreign currency are recorded at the prevailing exchange rate on the day of the related transactions. Foreign currency denominated monetary assets and liabilities are valued at the prevailing exchange rate at the balance sheet date. Exchange differences from the transaction date to the time foreign currency denominated monetary assets and liabilities are settled, as well as those arising from the translation of foreign currency denominated balances at the balance sheet date are charged or credited to results of operations.

#### Translation of financial statements of foreign subsidiary and affiliate

The financial statements of the foreign subsidiary and affiliate are either consolidated or accounted for based on the equity method, as the case may be, once the financial statements have been adjusted to conform to Mexican Financial Reporting Standards in the corresponding local currency, and are then translated to the reporting currency. All the assets and liabilities of our foreign subsidiary and affiliate are translated to Mexican pesos at the prevailing exchange rate at the end of the period. Stockholders' equity accounts are translated at the prevailing exchange rate at the time capital contributions were made and earnings were generated. Revenues, costs and expenses are translated at the historical exchange rate. Translation differences are recorded in stockholders' equity in the line item "Effect of translation of foreign entities" under "Accumulated other comprehensive income items."

----

**Derivative Instruments** 

As of June 30, 2010, Teléfonos de México, S.A.B. de C.V. (the "Company") had cross currency swap agreements in the equivalent of U.S.\$3,781 million, which have hedged the exchange rate and interest rate risks related to the bond with maturity in 2015 for a total amount of U.S.\$ 800 million and loans with maturities from 2011 to 2019 for a total amount of U.S.\$ 2,981 million. These hedges allowed us to fix the exchange rate of our debt on a weighted average exchange rate of \$10.7142 Mexican pesos per US dollar, as well as to set a fixed rate of 8.57% for the bond maturing in 2015 and for other cases, an average interest rate of 28-day TIIE less a specified margin.

At the end of the second quarter, the Company had forward contracts for U.S.\$10 million at a exchange rate of \$13.0730 Mexican pesos per dollar.

At June 30, 2010 the Company had interest rate swaps in Mexican pesos for Ps.\$16,649 million to hedge the floating rate risk in local currency fixing it at an average of 8.48%.

These transactions have been carried out based on the Company's policies, strategies and guidelines that are explained below.

I. Qualitative and quantitative Information

i. Policies for using derivative instruments

#### Objective to enter into derivative transactions and selected instruments

With the purpose of reducing the risks related to the variations of exchange rate and interest rate, the Company uses derivative instruments associating the hedges with the debt. The derivative instruments that have been selected are, mainly:

- 1. instruments for purchasing US dollars at a specified future time (forwards);
- 2. instruments that involve the exchange of principal and interest from one currency to another (cross currency swaps); and
- 3. instruments to fix the floating interest rates of the debt (interest rate swaps).

**Hedge strategies** 

When the market conditions are favorable, the Company's Management determines the amounts and goal parameters under which the hedge agreements are contracted. This strategy seeks to reduce the risk exposure of abnormal market fluctuations in the main variables that affect our debt, including exchange rate and interest rate, to maintain a solid and healthy financial structure.

These strategies of hedging financial risks are included in the Corporate Governance Guidelines adopted by the Company, and its application is authorized by the Audit Committee.

#### Trading markets and eligible counterparties

The financial institutions and counterparties with which the Company enters into such derivative instruments are considered to have a proven reputation and solvency in the market, which allows us to balance our risk positions with such counterparties. Also, the Company only uses derivative instruments that are of common use in the markets, and therefore, can be quoted by two or more financial institutions to assure the best conditions in the negotiation.

#### Policies for the appointment of calculation and valuation agents

Given that the Company uses derivative instruments of common use in the market, it appoints a third party that is responsible to provide the market price of such instruments. These prices are compared by the Company with the prices provided by the financial intermediaries; and, in certain transactions, the counterpart is able to act as valuation agent under the applicable documentation if it is a financial institution with a proven reputation.

#### Main terms and conditions of the agreements

It is a policy of the Company that the amount, date and interest rate conditions of the debt to be hedged, if possible, have to coincide with the terms of the hedges, that is usual for this type of transactions in the different markets where it operates. All the transactions with derivative instruments are made under the ISDA Master Agreement (International Swap Dealers Association) standardized and duly executed by the legal representatives of the Company and the financial institutions, and in the case of counterparts in México, pursuant to the uses and practices of the market in our country.

#### Margin policies, collaterals and lines of credit

In some cases, the Company has entered into an accessory agreement to the ISDA Master Agreement with the financial institutions, the Credit Support Annex, which sets forth an obligation to grant collaterals for margin calls in case the mark-to market value exceeds certain credit limits (threshold amount). The Company has the policy to keep a close watch of the volume of the transactions entered with each financial institution in order to avoid, if possible, any margin call.

#### Processes of levels of authorization required by type of negotiation

The strategy for hedging financial risks is discussed and approved by the Audit Committee. Subsequently, the Board of Directors is informed for its knowledge and ratification. The Treasury is in charge of its implementation and is supervised by the Company's Chief Financial Officer.

#### Existence of an independent third party that reviews such processes

Both, the fulfillment of the Corporate Governance Guidelines and the measurement of effectiveness of the derivative instruments, to comply with the financial reporting standards, are discussed with the external auditors that validate the reasonable accounting application of the effect of such instruments in the income statement and the balance sheet.

#### ii. Generic description of the valuation techniques

As previously stated, derivative instruments are carried out by the Company only for hedging purposes. The measurement of the effectiveness of the hedges is made in a prospective and retrospective manner. For the prospective valuation, we use statistic techniques that allow us to measure in what proportion the change in the value of the hedged debt (primary position) is compensated by the change in the value of the derivative instrument. The retrospective valuation is made by comparing the historic results of the debt flows with the flows of the respective hedges.

#### iii. Internal and external liquidity sources to meet the requirements related to derivative instruments

It is estimated that the Company's cash generation has been enough to service debt and the established derivative instruments to hedge the risks associated with such debt.

#### iv. Changes in the exposure to the main identified risks and its management

The identified risks are those related to the variations of the exchange rate and interest rate. Given the direct relationship between the hedged debt and the derivative instruments and that they do not have any variables that could affect or terminate the hedge in advance, the Company does not foresee any risk that such hedges could differ from the original purpose for which the hedges were contracted.

At June 30, 2010, it was recognized in the statement of income an accrued net charge of Ps.\$1,323 million for exchange rate hedges. In addition, it was recognized in the statement of income an accrued net charge of Ps.\$1,207 million for interest rate hedges.

During the second quarter, there have not been any margin calls.

To date, there has not been any breach in the terms and conditions of the respective agreements.

v. Quantitative information

See TABLE 1 attached.

**II. SENSITIVITY ANALYSIS** 

In the case of the Company, the sensitivity analysis does not apply for the derivative instruments, since they are only carried out for hedging purposes.

(\*) Of our hedge agreements, 57% of the total hedge amount include margin calls when the market value exceeds the amounts of the lines of credit that we have for the amount of USD \$ 345 million.

(1) These swaps, hedge the debt position in US dollars, with the obligation of paying floating rate in Mexican pesos at an average of TIIE less a specified margin and with an average life of 3 years.

(2) This forward position mainly hedges debt service flows in US dollars with maturity in 2010.

(3) This swap hedges debt position in Yens with the obligation of paying in Mexican pesos \$ 2,000 million (equivalent to USD \$ 225 million) at a floating rate and matures on February 2014.

(4) This swap hedges the interest payment of debt in US dollars, with the obligation of paying floating rate in Mexican pesos at an average of TIIE less a margin and matures on November 2010.

(5) These agreements hedge debt position in Mexican pesos at a floating rate, fixing it at an average of 8.48% and with an average life of 6 years.
