CCFNB BANCORP, INC. AND SUBSIDIARY
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 MARCH 31, 2002

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of CCFNB Bancorp, Inc. and Subsidiary (the "Corporation") are in accordance with accounting principles generally accepted in the United States of America and conform to common practices within the banking industry. The more significant policies follow:

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of CCFNB Bancorp, Inc. and its wholly owned subsidiary, Columbia County Farmers National Bank (the "Bank") and all other equity interests. All significant inter-company balances and transactions have been eliminated in consolidation.

NATURE OF OPERATIONS & LINES OF BUSINESS

The Corporation provides full banking services, including trust services, through the Bank, to individuals and corporate customers. The Bank has six offices covering an area of approximately 484 square miles in Northeastern Pennsylvania. The Corporation and its banking subsidiary are subject to regulation of the Office of the Comptroller of the Currency, The Federal Deposit Insurance Corporation and the Federal Reserve Bank of Philadelphia.

Procuring deposits and making loans are the major lines of business. The deposits are mainly deposits of individuals and small businesses and the loans are mainly real estate loans covering primary residences and small business enterprises. The trust services, under the name of CCFNB and Co., include administration of various estates, pension plans, self-directed IRA's and other services. A third-party brokerage

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

arrangement is also resident in the main branch, namely Bloomsburg. This investment center offers a full line of stocks, bonds and other non-insured financial services.

On December 19, 2000, the Corporation became a Financial Holding Company by having filed an election to do so with the Federal Reserve Board. The Bancorp acquired a 50% interest in a local insurance agency during January 2001.

USE OF ESTIMATES

The preparation of these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of these consolidated financial statements and the reported amounts of income and expenses during the reporting periods. Actual results could differ from those estimates.

-4-

INVESTMENT SECURITIES

The Corporation classifies its investment securities as either "Held-to-Maturity" or "Available-for-Sale" at the time of purchase. Debt securities are classified as Held-to-Maturity when the Corporation has the ability and positive intent to hold the securities to maturity. Investment securities Held-to-Maturity are carried at cost adjusted for amortization of premiums and accretion of discounts to maturity.

Debt securities not classified as Held-to-Maturity and equity securities included in the Available-for-Sale category, are carried at fair value, and the amount of any unrealized gain or loss net of the effect of deferred income taxes is reported as a component of Stockholders' Equity. Management's decision to sell Available-for-Sale securities is based on changes in economic conditions controlling the sources and uses of funds, terms, availability of and yield of alternative investments, interest rate risk, and the need for liquidity.

The cost of debt securities classified as Held-to-Maturity or Available-for-Sale is adjusted for amortization of premiums and accretion of discounts to maturity. Such amortization and accretion, as well as interest and dividends, is included in interest income from investments. Realized gains and losses are included in net investment securities gains. The cost of investment securities sold, redeemed or matured is based on the specific identification method.

LOANS

Loans are stated at their outstanding principal balances, net of deferred fees or costs, unearned income, and the allowance for loan

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

losses. Interest on loans is accrued on the principal amount outstanding, primarily on an actual day basis. Non-refundable loan fees and certain direct costs are deferred and amortized over the life of the loans using the interest method. The amortization is reflected as an interest yield adjustment, and the deferred portion of the net fees and costs is reflected as a part of the loan balance.

Non-Accrual Loans - Generally, a loan is classified as non-accrual, with the accrual of interest on such a loan discontinued when the contractual payment of principal or interest has become 90 days past due or management has serious doubts about further collectibility of principal or interest, even though the loan currently is performing. A loan may remain on accrual status if it is in the process of collection and is either guaranteed or well secured. When a loan is placed on non-accrual status, unpaid interest credited to income in the current year is reversed, and unpaid interest accrued in prior years is charged against the allowance for credit losses. Certain non-accrual loans may continue to perform, that is, payments are still being received with those payments generally applied to principal. Non-accrual loans remain under constant scrutiny and if performance continues, interest income may be recorded on a cash basis based on management's judgement as to collectibility of principal.

-5-

Allowance for Loan Losses - The allowance for loan losses is established through provisions for loan losses charged against income. Loans deemed to be uncollectible are charged against the allowance for loan losses, and subsequent recoveries, if any, are credited to the allowance.

A factor in estimating the allowance for loan losses is the measurement of impaired loans. A loan is considered impaired when, based on current information and events, it is probable that the Corporation will be unable to collect all amounts due according to the contractual terms of the loan agreement. Under current accounting standards, the allowance for loan losses related to impaired loans is based on discounted cash flows using the loan's effective interest rate or the fair value of the collateral for certain collateral dependent loans.

The allowance for loan losses is maintained at a level established by management to be adequate to absorb estimated potential loan losses. Management's periodic evaluation of the adequacy of the allowance for loan losses is based on the Corporation's past loan loss experience, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay (including the timing of future payments), the estimated value of any underlying collateral, composition of the loan portfolio, current economic conditions, and other relevant factors. This evaluation is inherently subjective as it requires material estimates, including the amounts and timing of future cash flows expected to be received on impaired loans that may be

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

susceptible to significant change.

PREMISES AND EQUIPMENT

Premises and equipment are stated at cost less accumulated depreciation computed principally on the straight-line method over the estimated useful lives of the assets. Maintenance and minor repairs are charged to operations as incurred. The cost and accumulated depreciation of the premises and equipment retired or sold are eliminated from the property accounts at the time of retirement or sale, and the resulting gain or loss is reflected in current operations.

OTHER REAL ESTATE OWNED

Other real estate owned is comprised of property acquired through a foreclosure proceeding or acceptance of a deed-in-lieu of foreclosure and loans classified as in-substance foreclosure. In accordance with Statement of Financial Accounting Standards (SFAS) No. 114, a loan is classified as in-substance foreclosure when the Corporation has taken possession of the collateral regardless of whether formal foreclosure proceedings take place. Other real estate owned is recorded at fair value at the date of foreclosure, establishing a new cost basis and is included in other assets. After foreclosure, valuations are periodically performed by management, and the real estate is carried at the lower of (1) cost or (2) fair value minus estimated costs to sell. Income and expenses from operations of other real estate owned and changes in the valuation allowance are included in other non-interest income and expense.

-6-

INVESTMENT IN INSURANCE AGENCY

On January 2, 2001, the Corporation acquired a 50% interest in a local insurance agency, a corporation organized under the laws of the Commonwealth of Pennsylvania. The income or loss from this investment is accounted for under the equity method of accounting. The carrying value of this investment was \$157,003 and \$165,352 at March 31, 2002 and December 31, 2001, respectively.

INCOME TAXES

The provision for income taxes is based on the results of operations, adjusted primarily for tax-exempt income. Certain items of income and expense are reported in different periods for financial reporting and tax return purposes. Deferred tax assets and liabilities are determined based on the differences between the consolidated financial statement and income tax bases of assets and liabilities measured by using the enacted tax rates and laws expected to be in effect when the timing differences are expected to reverse. Deferred tax expense or benefit is based on the difference between deferred tax asset or liability from period to period.

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

PER SHARE DATA

Statement of Financial Accounting Standards (SFAS) No. 128, "Earnings Per Share", requires dual presentation of basic and diluted earnings per share. Basic earnings per share is calculated by dividing net income by the weighted average number of shares of common stock outstanding at the end of each period. Diluted earnings per share is calculated by increasing the denominator for the assumed conversion of all potentially dilutive securities. The Corporation does not have any securities which have or will have a dilutive effect, accordingly, basic and diluted per share data is the same.

CASH FLOW INFORMATION

For purposes of reporting consolidated cash flows, cash and cash equivalents include cash on hand and due from banks, interest-bearing deposits in other banks and federal funds sold. The Corporation considers cash classified as interest-bearing deposits with other banks as a cash equivalent because they are represented by cash accounts essentially on a demand basis. Federal funds are also included as a cash equivalent because they are generally purchased and sold for one-day periods.

TRUST ASSETS AND INCOME

Property held by the Corporation in a fiduciary or agency capacity for its customers is not included in the accompanying consolidated financial statements because such items are not assets of the Corporation. Trust Department income is generally recognized on a cash basis and is not materially different than if it was reported on an accrual basis.

-7-

SEGMENT REPORTING

The Corporation's banking subsidiary acts as an independent community financial services provider, and offers traditional banking and related financial services to individual, business and government customers. Through its branch, internet banking, telephone and automated teller machine network, the Bank offers a full array of commercial and retail financial services, including the taking of time, savings and demand deposits; the making of commercial, consumer and mortgage loans; and the providing of other financial services. The Bank also performs personal, corporate, pension and fiduciary services through its Trust Department as well as offering diverse investment products through its investment center.

Management does not separately allocate expenses, including the cost of

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

funding loan demand, between the commercial, retail, trust and investment center operations of the Corporation. As such, discrete financial information is not available and segment reporting would not be meaningful.

RECENT ACCOUNTING PRONOUNCEMENTS

Statement of Financial Accounting Standards (SFAS) No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities", is generally effective for transactions occurring after March 31, 2001. For recognition and reclassification of collateral and for disclosure related to securitization transactions and collateral, the effective date is for fiscal years ending after December 15, 2000. SFAS No. 140 replaces SFAS No. 125 and provides revisions to the standards for accounting and requirements for certain disclosures relating to securitizations and other transfers of financial assets. The standard is not expected to have a significant impact on the Corporation's consolidated financial condition or results of operations.

RECLASSIFICATION

Certain amounts in the consolidated financial statements of the prior years have been reclassified to conform with presentation used in the 2002 consolidated financial statements. Such reclassifications had no effect on the Corporation's consolidated financial condition or net income.

NOTE 2 - ALLOWANCE FOR LOAN LOSSES

Changes in the allowance for loan losses for the periods ended March 31, 2002 and March 31, 2001 were as follows: (Amounts in Thousands)
2002 2001

	(Amounts in Thousands)	
	2002	2001
	-----	-----
Balance, beginning of year	\$ 1,028	\$ 1,008
Provision charged to operations	24	8
Loans charged-off	(53)	(15)
Recoveries	16	7
	-----	-----
Balance, March 31	\$ 1,015	\$ 1,008
	=====	=====

At March 31, 2002 the recorded investment in loans that are considered to be impaired as defined by SFAS No. 114 was \$56,805. No additional charge to operations was required to provide for the impaired loans

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

since the total allowance for loan losses is estimated by management to be adequate to provide for the loan loss allowance required by SFAS No. 114 along with any other potential losses.

At March 31, 2002, there were no significant commitments to lend additional funds with respect to non-accrual and restructured loans.

NOTE 3 - SHORT-TERM BORROWINGS

Federal funds purchased, securities sold under agreements to repurchase, and Federal Home Loan Bank advances generally represented overnight or less than 30-day borrowings. U.S. Treasury tax and loan notes for collections made by the Bank were payable on demand.

NOTE 4 - LONG-TERM BORROWINGS

Long-term borrowings are comprised of advances from the Federal Home Loan Bank.

NOTE 5 - STOCKHOLDERS' EQUITY

Changes in stockholders' equity for the period ended March 31, 2002 were as follows:

(AMOUNTS IN THOUSANDS, EXCEPT COMMON)

	COMMON SHARES	COMMON STOCK	SURPLUS	COMPREHENSIVE INCOME (LOSS)	RETAINED EARNINGS
	-----	-----	-----	-----	-----
Balance at January 1, 2001	1,326,172	\$ 1,658	\$ 4,730	\$ 0	\$ 19,579

Change in unrealized gain (loss) on investment securities available-for-sale net of reclassification adjustment and tax effects	0	0	0	(177)	0
TOTAL COMPREHENSIVE INCOME (LOSS)				\$ 355	
				=====	
Issuance of 2,258 shares of common stock under dividend reinvestment and stock purchase plans	2,358	3	48		0
Purchase of 10,500 shares of treasury stock	0	0	0		0
Retirement of 10,500 shares of treasury stock	(10,500)	(13)	(232)		0
Cash dividends \$.15 per share	0	0	0		(197)
	-----	-----	-----		-----
Balance at March 31, 2002	1,318,030	\$ 1,648	\$ 4,546		\$ 19,914
	=====	=====	=====		=====

NOTE 6 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK AND CONCENTRATIONS OF CREDIT RISK

The Corporation is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, standby letters of credit and commercial letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheets. The contract or notional amounts of those instruments reflect the extent of involvement the Corporation has in particular classes of financial instruments. The Corporation does not engage in trading activities with respect to any of its financial instruments with off-balance sheet risk.

The Corporation may require collateral or other security to support financial instruments with off-balance sheet credit risk. The contract or notional amounts at March 31, 2002 and December 31, 2001 were as follows:

	(Amounts in Thousands)	
	MARCH 31, 2002	DECEMBER 31, 2001
	-----	-----
Financial instruments whose contract amounts represent credit risk:		
Commitments to extend credit	\$12,469	\$11,842
Financial standby letters of credit	1,844	2,348
Performance standby letters of credit	4	15
Dealer floor plans	2,210	1,884

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Because many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Corporation evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Corporation upon extension of credit, is based on management's credit evaluation of the counter-party. Collateral held varies but may include accounts receivable, inventory, property, plant, equipment and income-producing commercial properties.

Standby letters of credit and commercial letters of credit are

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

conditional commitments issued by the Corporation to guarantee the performance of a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Corporation holds collateral supporting those commitments for which collateral is deemed necessary.

The Corporation's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and letters of credit is represented by the contractual notional amount of those instruments. The Corporation uses the same credit policies in making commitments and conditional obligations, as it does for on-balance sheet instruments.

-10-

The Corporation granted commercial, consumer and residential loans to customers within Pennsylvania. Of the total loan portfolio at March 31, 2002, 82.4% was for real estate loans, principally residential. It was the opinion of management that the high concentration did not pose an adverse credit risk. Further, it was management's opinion that the remainder of the loan portfolio was balanced and diversified to the extent necessary to avoid any significant concentration of credit.

NOTE 7 - MANAGEMENT'S ASSERTIONS AND COMMENTS REQUIRED TO BE PROVIDED WITH FORM 10Q FILING

In management's opinion, the consolidated interim financial statements reflect fair presentation of the consolidated financial position of CCFNB Bancorp, Inc. and Subsidiary, and the results of their operations and their cash flows for the interim periods presented. Further, the consolidated interim financial statements are unaudited however they reflect all adjustments, which are in the opinion of management, necessary to present fairly the consolidated financial condition and consolidated results of operations and cash flows for the interim periods presented and that all such adjustments to the consolidated financial statements are of a normal recurring nature.

The results of operations for the three-month period ended March 31, 2002, are not necessarily indicative of the results to be expected for the full year.

These consolidated interim financial statements have been prepared in accordance with requirements of Form 10Q and therefore do not include all disclosures normally required by accounting principles generally accepted in the United States of America applicable to financial institutions as included with consolidated financial statements included in the Corporation's annual Form 10K filing. The reader of these consolidated interim financial statements may wish to refer to the Corporation's annual report or Form 10K for the period ended December 31, 2001, filed with the Securities and Exchange Commission.

-11-

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Directors and Stockholders of CCFNB Bancorp, Inc.:

We have reviewed the accompanying consolidated balance sheet of CCFNB Bancorp, Inc. and Subsidiary as of March 31, 2002, and the related consolidated statements of income and cash flows for the three-month periods ended March 31, 2002 and 2001. These consolidated financial statements are the responsibility of the management of CCFNB Bancorp, Inc. and Subsidiary.

We conducted our reviews in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of CCFNB Bancorp, Inc. and Subsidiary as of March 31, 2002, and the related consolidated statements of income, stockholders' equity, and cash flows for the

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

year then ended (not presented herein); and in our report dated January 18, 2002, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2001, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

J.H. Williams & Co., LLP
Kingston, Pennsylvania
April 19, 2002

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This Form 10-Q, both in the MD & A and elsewhere, contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are not historical facts and include expressions about our confidence and strategies and our expectations about new and existing programs and products, relationships, opportunities, technology and market conditions. These statements may be identified by such forward-looking terminology as "expect," "look," "believe," "anticipate," "may," "will," or similar statements or variations of such terms. Such forward-looking statements involve certain risks and uncertainties. These include, but are not limited to, the direction of interest rates, continued levels of loan quality and origination volume, continued relationships with major customers, and sources for loans, as well as the effects of economic conditions and legal and regulatory barriers and structure. Actual results may differ materially from such forward-looking statements. We assume no obligation for updating any such forward-looking statement at any time. Our consolidated financial condition and results of operations are essentially those of our wholly-owned subsidiary bank, Columbia County Farmers National Bank. Therefore, our discussion and analysis that follows is primarily centered on the performance of this bank.

EARNINGS SUMMARY

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

Net income for the three months ended March 31, 2002 was \$532 thousand or \$.40 per basic and diluted share. These results compare with net income of \$431 thousand, or \$.32 per basic and diluted share for the same period in 2001. Annualized return on average equity increased to 8.18 percent from 6.81 percent, while the annualized return on average assets increased to .99 percent from .85 percent, for the three months ended March 31, 2002 and 2001 respectively.

13

Net interest income continues to be the largest source of our operating income. Net interest income on a tax equivalent basis increased to \$1.9 million at March 31, 2002, compared with \$1.7 million for the three months ended March 31, 2001. The increase in net interest income is primarily due to the decreased interest rates on deposits "catching up" with the decreased loan rates of the past eighteen months. The tax equavilized interest margin increased to 3.73 percent for the three months ended March 31, 2002, compared to 3.56 percent for the three months ended March 31, 2001.

Average interest earning assets increased \$11.0 million or 5.7 percent for the three months ended March 31, 2002 over the same period in 2001. This was mainly the result of the increases in average balances of loans of \$6.4 million or 4.7 percent and investments of \$9.8 million or 21.6 percent. Conversely, one day investments declined \$4.0 million.

Average interest bearing liabilities for the three months ended March 31, 2002 increased \$10.2 million or 6.2 percent from the same period in 2001. Average short-term borrowings were 19.6 million at March 31, 2002 and 19.8 million at March 31, 2001. Long-term debt, which includes primarily FHLB advances, decreased \$2.0 million from March 31, 2002 to March 31, 2001 due to the payoff of one long term loan for \$2 million. Average demand deposits increased \$1.5 million from 2001 balances.

The average interest rate on total interest earning assets was 6.27 percent for the three months ended March 31, 2002, compared with 7.19 percent for the three months ended March 31, 2001. The average interest rate for loans decreased 21 basis points to 6.98 percent at March 31, 2002 compared to 7.19 percent March 31, 2001. Interest-bearing deposits with other Financial Institutions interest rates decreased drastically 3.90 basis points to 1.52 percent from 5.42 percent at March 31, 2001. Average interest rates on deposits decreased by 108 basis point to 3.27 percent from 4.35 percent one year ago. Average interest rates also decreased on total interest bearing liabilities by 132 basis points to 3.26 percent from 4.58 percent. The reason for these decreases on interest bearing liabilities was primarily attributed to the decreasing rates on all deposit liabilities and the tied-to-prime interest rates paid on repurchase agreements with large customers. The net interest margin increased to 3.73 percent for the three months ended March 31, 2002 from 3.56 percent for the three months ended March 31, 2001.

NET INTEREST INCOME

Net interest income increased to \$1.8 million for the three months ended March 31, 2002 compared to \$1.6 million for the same period in 2001.

The following table reflects the components of net interest income for each of the three months ended March 31, 2002 and 2001.

TAX EQUIVALENT NET INTEREST INCOME / NET INTEREST MARGIN (5).....	\$1,905	3.73%

- (1) Average volume information was computed using daily averages.
- (2) Interest on loans includes fee income.
- (3) Yield on tax-exempt obligations has been computed on a tax-equivalent basis.
- (4) Net interest margin is computed by dividing net interest income by total interest earning assets.
- (5) Interest and yield are presented on a tax-equivalent basis using 34 percent for 2002 and 2001.

15

The following table demonstrates the relative impact on net interest income of changes in volume of interest earnings assets and interest bearing liabilities and changes in rates earned and paid by us on such assets and liabilities.

CHANGE IN NET INTEREST INCOME ON A TAX EQUIVALENT BASIS

	Three Months Ended March 31, Compared with 2001 Increase (Decrease) (2)	
	Volume	Rate
	-----	-----
	(in thousands)	
Interest income:		
Loans (1)	\$ 460	\$ (288)
Investments	547	(313)
Federal funds sold and other short-term investments	(17)	(61)
Interest expense:		

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

Deposits	\$ 544	\$ (1,410)
Short-term borrowings	(13)	(680)
Long-term debt	(120)	(9)
Net:	\$ 579	\$ 1,437

- (1) Interest income is adjusted to a tax equivalent basis using a 34 percent tax rate.
- (2) Variances resulting from a combination of changes in volume and rates are allocated to the categories in proportion to the absolute dollar amounts of the change in each category.

Average interest earning assets at March 31, 2002 increased by 5.7 percent over March 31, 2001 to \$204.2 million from \$193.2 million.

Average loans outstanding increased from \$137.2 million to \$143.6 million or 4.7 percent for the three months ended March 31, 2002, as compared to the three months ended March 31, 2001.

The outstanding balance of loans at March 31, 2002 was \$145.3 million compared to \$143.0 million at December 31, 2001.

Interest income from investment securities reflected \$678 thousand and \$654 thousand for the three months ended March 31, 2002 and 2001. The average balance of investment securities for the three months ended March 31, 2002 increased 21.6 percent to \$55.1 million, compared to the \$45.3 million for the same period of 2001.

Total interest expense decreased \$.5 million or 26.3 percent for the first three months of 2002 as compared to the first three months of 2001. The cost of interest bearing liabilities decreased on an average yield basis from 4.58 percent through March 2002 compared to 3.26 percent through March 2001. The average yield on interest earning assets decreased from 7.19 percent to 6.27 percent through March 2002 and 2001, respectively.

Average short-term borrowings decreased \$.2 million from \$19.8 million at March 31, 2001 from \$19.6 million at March 31, 2002.

Long-term borrowings from Federal Home Loan Bank decreased from an average \$13.4 million at March 31, 2002 to \$11.4 million at March 31, 2001 \$2 million of long-term debt was repaid during the second quarter of 2001.

NON-INTEREST INCOME

The following table presents the components of non-interest income for the three months ended March 31, 2002 and 2001.

	Three Months Ended March 31, (In thousands)	
	----- 2000 ----	2001 ----
Service charges and fees	\$162	\$144
Trust Department income	48	49
Investment securities gain - net ...	0	0

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

Third party brokerage income	24	21
Other	9	22
	----	----
Total	\$243	\$236
	=====	=====

Non-interest income continues to represent a considerable source of our income. We are committed to increasing non-interest income. Increases will be from our existing sources of non-interest income and any new opportunities that may develop. For the three months ended March 31, 2002, total non-interest income increased \$7 thousand to \$243 thousand or 3.0 percent, compared to \$236 thousand for the three months period ended March 31, 2001. Service charges and fees increased \$18 thousand from \$144 thousand at March 31, 2002 to \$162 thousand or 12.5 percent at March 31, 2001. Trust Department income decreased from \$49 thousand at March 31, 2002 to \$48 thousand or 2.0 percent at March 31, 2001. Third party brokerage income reflected a \$3 thousand increase or 14.3 percent comparing March 31, 2002 to March 31, 2001. Income from this source is dependent upon the investment climate.

Other non-interest income decreased from \$22 thousand at March 31, 2001 to \$9 thousand or 59.1 percent at March 31, 2002. This decrease was attributable to a change in accounting for loan and credit report fees.

NON-INTEREST EXPENSE

The following table presents the components of non-interest expense for the three months ended March 31, 2002 and 2001.

	Three Months Ended March 31,	
	2002	2001
	-----	-----
	(Dollars in Thousands)	
Salaries and wages	\$ 534	\$ 517
Employee benefits	184	170
Net occupancy expense	89	96
Furniture and equipment expense	154	132
State shares tax	84	77
Other expense	265	286
	-----	-----
Total	\$1,310	\$1,278
	=====	=====

Non-interest expense remained constant at \$1.3 million at March 31, 2002 and 2001.

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

Generally, non-interest expense accounts for the cost of maintaining facilities; providing salaries and benefits to employees; and paying for insurance, supplies, advertising, data processing services, taxes and other related expenses. Some of the costs and expenses are variable while others are fixed. To the extent possible, we utilize budgets and related measures to control variable expenses.

Salaries remained at \$.5 million at March 31, 2002 and 2001. A 8.2 percent increase was reflected in employee benefits from \$170 thousand at March 31, 2002, to \$184 thousand at March 31, 2001. Increased cost of employee benefits, specifically health coverage, accounted for the increase in employee benefits.

Occupancy expense and furniture and equipment expense reflects a \$15 thousand or 6.6 percent increase for the first three months of 2002 compared to the first three months of 2001. This was increased depreciation expense as a result of projected hardware and software purchases in 2002 of \$300,000.

Pennsylvania Bank Shares Tax increased 9.1 percent from \$7 thousand at March 31, 2002 to \$84 thousand at March 31, 2001.

Other expenses decreased 7.3 percent from \$286 thousand at March 31, 2001 to \$265 thousand at March 31, 2002. An offset of a previous other income account to Credit Reports expense is a large part of this decrease.

The efficiency ratio measures a bank's gross operating expense as a percentage of fully-taxable equivalent net interest income and other non-interest income without taking into account security gains and losses and other non-recurring items. Our efficiency ratio for the three months ended March 31, 2002 was 60.99 percent, compared with an efficiency ratio of 62.44 percent for the year ended December 31, 2001. We strive to control our efficiency ratio and expenses as a means of producing increased earnings for our shareholders and constantly look for ways to lower our efficiency ratio. Our peer-group of commercial banks reflects a ratio of 63.99 percent.

INCOME TAXES

Income tax expense as a percentage of pre-tax income was 23.0 percent for the three months ended March 31, 2002 compared with 21.6 percent for the same period in 2001. The effective tax rate for 2002 is expected to approximate 34 percent.

ASSET / LIABILITY MANAGEMENT

INTEREST RATE SENSITIVITY

Our success is largely dependent upon our ability to manage interest rate risk. Interest rate risk can be defined as the exposure of our net interest income to the movement in interest rates. We do not currently use derivatives to manage market and interest rate risks. Our interest rate risk management is the responsibility of the Asset / Liability Management Committee ("ALCO"), which reports to the Board of Directors. ALCO establishes policies that monitor and coordinate our sources, uses and pricing of funds as well as interest-earning asset pricing and volume.

We use a simulation model to analyze net interest income sensitivity to movements in interest rates. The simulation model projects net interest income based on various interest rate scenarios over a 12 and 24 month period. The model is based on the actual maturity and repricing characteristics of rate sensitive assets and liabilities. The model incorporates assumptions regarding the impact of changing interest rates on the prepayment rates of certain assets and liabilities. In the current stagnant interest rate environment, our net interest income is not expected to change materially.

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

LIQUIDITY

Liquidity measures the ability to satisfy current and future cash flow needs as they become due. Maintaining a level of liquid funds through asset / liability management seeks to ensure that these needs are met at a reasonable cost. On the asset side, liquid funds are maintained in the form of cash and due from banks, federal funds sold, investment securities maturing within one year, and security and loan payments. Liquid assets amounted to \$110.7 million and \$101.3 million at March 31, 2002 and December 31, 2001, respectively. This represents 53.9 percent and 50.0 percent of earning assets, and 50.9 percent and 47.3 percent of total assets at March 31, 2002 and December 31, 2001, respectively.

On the liability side, the primary source of funds available to meet liquidity needs is our core deposit base, which generally excludes certificates of deposit over \$100 thousand. Core deposits averaged approximately \$131.9 million for the three months ended March 31, 2002 and \$116.9 million for the year ended December 31, 2001, representing 64.6 percent and 59.5 percent of average earning assets. Short-term and long-term borrowings through federal funds lines, repurchase

17

agreements, Federal Home Loan Bank advances and large dollar certificates of deposit, generally those over \$100 thousand, are used as supplemental funding sources. Additional liquidity is derived from scheduled loan and investment payments of principal and interest, as well as prepayments received. For the three months ended March 31, 2002 there were \$8.8 million of proceeds from the sales, maturities and redemptions of investment securities available for sale. Purchases of investment securities for the three months ended March 31, 2002 were \$5.0 million. Short-term borrowings and certificates of deposit over \$100 thousand amounted to \$47.0 million and \$45.8 million, on average, for the three months ended March 31, 2002 and the year ended December 31, 2001, respectively.

Our cash requirements consist primarily of dividends to shareholders. This cash need is routinely satisfied by dividends collected from the bank along with cash and investments owned. Projected cash flows from this source are expected to be adequate to pay dividends, given the current capital levels and current profitable operations of the bank. In addition, we may repurchase shares of our outstanding common stock for benefit plans and other corporate purposes. The cash required for a purchase of shares can be met by using our own funds, dividends received from the bank, and borrowed funds.

As of March 31, 2002, we had \$53.0 million of securities available for sale recorded at their fair value, compared with \$57.1 million at December 31, 2001. As of March 31, 2002, the investment securities available for sale had an unrealized loss of \$102 thousand, net of deferred taxes, compared with an unrealized gain of \$75 thousand, net of deferred taxes, at December 31, 2001. This change was primarily due to an decrease in investment values resulting from the current interest rate environment. These securities are not considered trading account securities which may be sold on a continuous basis, but rather are securities which may be sold to meet our various liquidity and interest rate requirements.

NON-PERFORMING ASSETS

Shown below is a summary of past due and non-accrual loans:

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

	(Dollars in thousands)	
	March 31, 2002	December 31, 2001
	-----	-----
Past due and non-accrual:		
Days 30 - 89	\$1,220	\$ 949
Days 90 plus	764	969
Non-accrual	708	729
	-----	-----
Total	\$2,692	\$2,647
	=====	=====

Past due and non-accrual loans increased to \$2.7 million at March 31, 2002 from \$2.6 million at December 31, 2001. The loan delinquency expressed as a ratio to total loans was 1.9% at March 31, 2002 and 1.8% at December 31, 2001.

Any loans classified for regulatory purposes as loss, doubtful, substandard, or special mention that have not been disclosed under Industry Guide 3 do not (i) represent or result from trends or uncertainties which we reasonably expect will materially impact future operating results, liquidity, or capital resources, or (ii) represent material credits about which we are aware of any information which causes us to have serious doubts as to the ability of such borrowers to comply with the loan repayment terms.

We adhere to principles provided by Financial Accounting Standards Board Statement No. 114, "Accounting by Creditors for Impairment of a Loan" - Refer to Note 2 above for other details.

The following analysis provides a schedule of loan maturities / interest rate sensitivities. This schedule presents a repricing and maturity analysis as required by the FFIEC:

MATURITY AND REPRICING DATA FOR LOANS AND LEASES

	(Dollars Thous March 31, -----)
Closed-end loans secured by first liens and 1-4 family residential properties with a remaining maturity or repricing frequency of:

Add: non-accrual loans not included above	
Less: unearned income	
Total Loans and Leases	\$ 145

18

ALLOWANCE FOR LOAN LOSSES

The allowance for loan losses reflected a balance of \$1 million or .07 percent of total loans at March 31, 2002 and December 31, 2001. The allowance is believed adequate for possible loan losses in the future.

The provision for loan losses increased \$24 thousand for the first three months of 2002 compared to \$8 thousand for the first three months of 2001. We increased the loan loss provision due to charge-offs and possible charge offs during 2002.

Because our loan portfolio contains a significant number of commercial loans with relatively large balances the deterioration of one or several of these loans may result in a possible significant increase in non-performing loans. An increase in non-performing loans could result in a loss of interest income, higher carrying costs, and an increase in the provision for loan losses and loan charge-offs.

We maintain an allowance for loan losses to absorb any loan losses based on our historical experience, an evaluation of economic conditions, and regular reviews of delinquencies and loan portfolio quality. In evaluating our allowance for loan losses, we segment our loans into the following categories:

- o Commercial (including investment property mortgages),
- o Residential mortgages, and
- o Consumer.

We evaluate some loans as a homogeneous group and others on an individual basis. Commercial loans with balances exceeding \$250 thousand are reviewed individually. After our evaluation of these loans, we determine the required allowance for loan losses based upon the following considerations:

- o Historical loss levels,
- o Prevailing economic conditions,
- o Delinquency trends,
- o Changes in the nature and volume of the portfolio,
- o Concentrations of credit risk, and
- o Changes in loan policies or underwriting standards.

Management and the Board of Directors review the adequacy of the reserve on a

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

quarterly basis and adjustments, if needed, are made accordingly.

	For the Three Ending March
	----- 2002 -----
Amounts in thousands	
Average loans outstanding:	\$143,568
Total loans at end of period	145,337
Balance at beginning of period	1,028
Total charge-offs	53
Total recoveries	16
Net charge-offs:	37
Provision for loan losses	24

Balance at end of period	\$ 1,015

Net charge-offs as a percent of average loans outstanding during period03%
Allowance for loan losses as a percent of total loans07%

The provision for loan losses is based on our evaluation of the allowance for loan losses in relation to the credit risk inherent in the loan portfolio. In establishing the amount of the provision required, management considers a variety of factors, including but not limited to, general economic conditions, volumes of various types of loans, collateral adequacy and potential losses from significant borrowers. On a monthly basis, the Board of Directors and the bank's Credit Administration Committee review information regarding specific loans and the total loan portfolio in general in order to determine the amount to be charged to the provision for loan losses.

For the three month periods ending March 31, 2002 and 2001, the provision for loan losses was \$1,015,000 and \$1,008,000 respectively.

CAPITAL ADEQUACY

A major strength of any financial institution is a strong capital position. This capital is very critical as it must provide growth, dividend payments to shareholders, and absorption of unforeseen losses. Our federal regulators provide standards that must be met. These standards measure "risk-adjusted" assets against different categories of capital. The "risk-adjusted" assets reflect off balance sheet items, such as commitments to make loans, and also place balance sheet assets on a "risk" basis for collectibility. The adjusted assets are measured against the standards of Tier I Capital and Total Qualifying Capital. Tier I Capital is common shareholders' equity. Total Qualifying Capital includes so-called Tier II Capital which is common shareholders' equity and the allowance for loan and lease losses. The allowance for loan and lease losses must be lower than or equal to common shareholders' equity to be eligible for Total Qualifying Capital.

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

We exceed all minimum capital requirements as reflected in the following table:

	March 31, 2002		December
	Calculated Ratios	Minimum Standard Ratios	Calculated Ratios
Risk Based Ratios:			
Tier I Capital to risk-weighted assets.....	18.98%	4.00%	19.06%
Total Qualifying Capital to risk-weighted assets...	19.72%	8.00%	19.82%

Additionally, certain other ratios also provide capital analysis as follows:

	March 31, 2002	December 31, 2001
Tier I Capital to average assets.....	12.09%	12.44%

We believes that the bank's current capital position and liquidity positions are strong and that its capital position is adequate to support its operations.

Book value per share amounted to \$19.73 March 31, 2002, compared with \$19.64 per share at December 31, 2001.

Cash dividends declared amounted to \$0.15 per share, for the three months ended March 31, 2002, equivalent to a dividend payout ratio of 37.03 percent, compared with 45.01 percent for the same period in 2001. Our Board of Directors continues to believe that cash dividends are an important component of shareholder value and that, at the bank's current level of performance and capital, we expect to continue our current dividend policy of a quarterly cash distribution of earnings to our shareholders.

PART II - Other Information:

Item 1. Legal Proceedings

Edgar Filing: CCFNB BANCORP INC - Form 10-Q

Management and the Corporation's legal counsel are not aware of any litigation that would have a material adverse effect on the consolidated financial position of the Corporation. There are no proceedings pending other than the ordinary routine litigation incident to the business of the Corporation and its subsidiary, Columbia County Farmers National Bank. In addition, no material proceedings are pending or are known to be threatened or contemplated against the Corporation and the Bank by government authorities.

Item 2. Changes in Securities - Nothing to report.

Item 3. Defaults Upon Senior Securities - Nothing to report.

Item 4. Submission of Matters to a Vote of Security Holders - Nothing to report.

Item 5. Other Information - Nothing to report.

Item 6. Exhibits and Reports on Form 8-K - Nothing to report.
